NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost which approximates fair value. Purchased and written options are valued at the last quoted asked price.

The Company adopted Financial Accounting Standard Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective January 1, 2008. There was no impact on the fair value of assets individually or in aggregate upon adoption. In accordance with FAS 157, fair value is defined as the price that the Company would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at March 31, 2008 as classified as follows:

| | Investment in securities | Written options |
|---------|--------------------------|-----------------|
| Level 1 | \$ 1,198,647,519 | \$545,700 |
| Level 2 | 117,069,646* | |
| Level 3 | | |
| Total | \$ 1,315,717,165 | \$ 545,700 |

Edgar Filing: ADAMS EXPRESS CO - Form N-30B-2

* Comprised of short-term investments and securities lending collateral.

2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at March 31, 2008 was \$1,024,375,466 and net unrealized appreciation aggregated \$291,341,699, of which the related gross unrealized appreciation and depreciation were \$409,885,717 and \$118,544,018, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the three months ended March 31, 2008 were \$37,780,177 and \$12,680,053, respectively. Options may be written (sold) or purchased by the Company. The Company, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally paid. A schedule of outstanding option contracts as of March 31, 2008 can be found on page 12.

Transactions in written covered call and collateralized put options during the three months ended March 31, 2008 were as follows:

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan (qualified plan) covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the three months ended March 31, 2008, the Company did not contribute to the plans. The Company does not anticipate making any contribution to the overfunded qualified plan in 2008.

The following table aggregates the components of the plans' net periodic pension cost:

The Company also sponsors a defined contribution plan that covers substantially all employees. For the three months ended March 31, 2008, the Company expensed contributions of \$42,103. The Company does not provide postretirement medical benefits.

6. Equity-Based Compensation

Although the Stock Option Plan of 1985 (1985 Plan) has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of March 31, 2008, and changes during the three month period then ended, is presented below:

| | Options | Weighted-Average Exercise Price | Weighted-Average Remaining Life (Years) |
|----------------------------------|---------|---------------------------------------|---|
| Outstanding at December 31, 2007 | 146,804 | \$ 11.63 | 3.47 |
| Exercised | (9,246) | \$ 8.63 | |
| Outstanding at March 31, 2008 | 137,558 | \$ 11.82 | 3.41 |
| Exercisable at March 31, 2008 | 89,258 | \$ 11.59 | 3.18 |

The options outstanding as of March 31, 2008 are set forth below:

| Exercise Price | Options Outstanding | Weighted Average Exercise Price | Weighted Average Remaining Life (Years) |
|-------------------------------|------------------------|--|--|
| \$7.00-\$9.24 | 18,222 | \$ 7.67 | 4.75 |
| \$9.25-\$11.49 | 68,188 | 10.12 | 3.86 |
| \$11.50-\$13.74 | | | |
| \$13.75-\$16.00 | 51,148 | 15.56 | 2.34 |
| Outstanding at March 31, 2008 | 137,558 | \$ 11.82 | 3.41 |

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost/(credit) recognized for the three months ended March 31, 2008 was \$(111,960).

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at March 31, 2008 is 3,259,202 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of March 31, 2008, and changes during the three month period then ended, is presented below:

| | Shares/ Units | Weighted Average Grant-Date Fair Value |
|---|------------------|---|
| Awards | | |
| Balance at December 31, 2007 | 87,471 | \$ 13.29 |
| Granted: | | |
| Restricted stock | 31,306 | 13.18 |
| Restricted stock units | 7,500 | 12.49 |
| Deferred stock units | 492 | 13.79 |
| Vested | (6,000) | 14.07 |
| Forfeited | | |
| Balance at March 31, 2008 (includes 4,116 performance-based awards and 116,653 nonperformance-based awards) | 120,769 | \$ 13.02 |

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ending March 31, 2008 were \$126,799. The total compensation costs for restricted stock units granted to non-employee directors for the period ended March 31, 2008 were \$30,556. As of March 31, 2008, there were total unrecognized compensation costs of \$834,850, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 2.03 years. The total fair value of shares vested during the period ended March 31, 2008 was \$75,900.

7. Officer and Director Compensation

The aggregate remuneration paid during the three months ended March 31, 2008 to officers and directors amounted to \$1,204,917, of which \$105,281 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

Edgar Filing: ADAMS EXPRESS CO - Form N-30B-2

The Company makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At March 31, 2008, the Company had securities on loan of \$54,040,100 and held collateral of \$55,479,892, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.

This report, including the financial statements herein, is transmitted to the stockholders of The Adams Express Company for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Company or of any securities mentioned in the report.
