Committees of the Board of Directors

Our board of directors has established an audit committee, a compensation committee and a nominating committee, which are the only standing committees of the board of directors.

Audit committee. Our audit committee consists of Messrs. Tung, Yang and Zavracky, with Mr. Tung serving as chair. Our audit committee oversees our corporate accounting and financial reporting process and internal controls over financial reporting. Our audit committee evaluates the qualifications, independence and performance of our independent registered public accounting firm, Ernst & Young LLP; engages and determines the compensation of the independent auditor; approves the retention of the independent auditor to perform any proposed permissible non-audit services; reviews our financial disclosures, including our critical accounting policies and internal controls over financial reporting; prepares an annual report to our stockholders for inclusion in our proxy statement; reviews and approves in advance any proposed related party transactions; and discusses with management and the independent auditor the results of the annual audit and our financial statements. We believe that our audit committee members meet the requirements for independence and financial literacy under the current requirements of the Sarbanes-Oxley Act of 2002, The NASDAQ Global Market and the rules and regulations of the Securities and Exchange Commission, or SEC. In addition, the board of directors has determined that Mr. Tung is qualified as an audit committee financial expert within the meaning of the SEC rules and regulations.

The audit committee has direct responsibility for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm, Ernst & Young LLP. The audit committee establishes and implements policies and procedures for the pre-approval of all audit services and all permissible non-audit services provided by our independent registered public accounting firm and reviews and approves any related party transactions entered into by us.

Compensation committee. Our compensation committee consists of Messrs. Blethen, Yang and Zavracky, with Mr. Blethen serving as chair. Our compensation committee administers our stock option plans; recommends to our board of directors the compensation of our executive officers; prepares a report of the committee required by the rules of the SEC to be included in our proxy statement; recommends to our board of directors any performance-based awards to be granted to any of our executive officers or other employees; recommend to our board of directors the terms and conditions of any employment agreement and any arrangements regarding severance or change of control payments with any of our executive officers; recommend to our board of directors, and review periodically, the compensation of our directors; recommend to our board of directors, and review periodically, the composition of our plans and programs for employee compensation. We believe that each member of our compensation committee meets the requirements for independence under, and the functioning of our compensation committee complies with, any applicable requirements of The Nasdaq Global Market and the SEC rules and regulations.

Nominating committee. Our nominating committee consists of Messrs. Blethen, Tung, Zavracky and Zhao, with Mr. Zavracky serving as chair. Our nominating committee identifies individuals qualified to become members of the board and to recommend to our board of directors nominees for election as directors. We believe that Messrs. Blethen, Tung and Zavracky meet the independence requirements under The Nasdaq Global Market and SEC rules and regulations. Dr. Zhao, as our president and chief executive officer, is not independent under these rules. However, under The Nasdaq Global Market and SEC rules and regulations, we are permitted to maintain a nominating committee that includes a member who is not independent for one year from the initial listing of our securities, which was December 14, 2007.

Table of Contents**2007 Director Compensation**

Historically, we have not provide cash compensation to directors for their services as directors or members of committees of our board of directors, nor have we compensated our directors who are affiliated with venture capital firms that are significant stockholders of our company for their services as directors. Messrs. Blethen and Zavracky received compensation in the form of non-qualified stock options. We reimbursed directors for their reasonable expenses incurred in attending meetings of our board of directors and of committees of our board of directors.

In February 2008, our board of directors adopted a new policy for compensation of our non-employee directors, under which they will receive cash retainers (payable quarterly in arrears), per meeting fees and annual stock option awards, as follows:

Each non-employee director will receive a cash retainer in the amount of \$20,000 per year;

Our lead director and chairpersons of our standing committees will receive additional annual cash retainers, as follows: lead director, \$20,000; audit committee chair, \$10,000; compensation committee chair, \$7,500; and nominating committee chair, \$5,000;

Each incumbent non-employee director will receive annually a non-qualified stock option to purchase 12,000 shares of our common stock, and any newly elected non-employee director will receive upon such election a non-qualified stock option to purchase 20,000 shares of our common stock; and

Our non-employee directors will also receive cash fees for each meeting of the board of directors or of any committee of which they are members that they attend, as follows: all non-employee directors, \$2,500 per board meeting; audit committee chair, up to \$1,500 per audit committee meeting; compensation committee chair, \$2,500 per compensation committee meeting; and other members of our standing committees, \$1,000 per committee meeting.

The following table details the compensation paid to our directors, other than Dr. Zhao, during the year ended December 31, 2007.

The amounts shown represent expense recognized in our 2007 consolidated financial statements in accordance with SFAS 123(R), except that we have disregarded any estimate of future forfeitures related to service-based vesting conditions with respect to such option awards. The other assumptions used to calculate the expense amounts shown for stock options in 2007 are described in Note 10 to the consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2007, filed with the SEC on March 14, 2008.
- (2) Mr. Blethen provides us management consulting services for which he is compensated at the rate of \$5,000 per month. As of December 31, 2007, 37,500 options were vested and 37,500 options remained available for exercise (including vested and unvested options).

As of December 31, 2007, 88,500 options were vested and 22,500 options remained available for exercise (including vested and unvested options).

Director Candidates and Selection Process

Our nominating committee, in consultation with our chairman and chief executive officer, is responsible for identifying and reviewing candidates to fill open positions on the board of directors, including positions arising as a result of the expiration of the term, removal, resignation or retirement of any director, an increase in the size of the board or otherwise, and recommending to our full board candidates for nomination for election to the board. In recommending new directors, the committee will consider any requirements of applicable law or listing standards, a candidate's strength of character, judgment, business experience and specific area of expertise, factors relating to the composition of the board (including its size and structure), principles of diversity, and such other factors as the committee deems to be appropriate.

The committee is responsible for reviewing from time to time the appropriate skills and characteristics required of board members in the context of the current make-up of the board, including such factors as business experience, diversity, and personal skills in technology, finance, marketing, sales, financial reporting and other areas that contribute to an effective board.

Stockholders may recommend individuals to the nominating committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to our nominating committee, c/o Corporate Secretary, MEMSIC, Inc., One Tech Drive, Suite 325, Andover, Massachusetts 01810. Assuming that appropriate biographical and background material has been provided on a timely basis, the nominating committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. If the board determines to nominate a stockholder-recommended candidate and recommends his or her election, then his or her name will be included in our proxy card for the next annual meeting. Any recommendation of a potential director nominee should also include a statement signed by the proposed nominee expressing a willingness to serve on our board if elected. As part of this responsibility, the committee will be responsible for conducting, subject to applicable law, any and all inquiries into the background and qualifications of any candidate for the board and such candidate's compliance with the independence and other qualification requirements established by the committee or imposed by applicable law or listing standards.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who beneficially own more than ten percent of a registered class of our equity securities, to file reports of ownership of, and transactions in, our securities with the Securities and Exchange Commission. These directors, executive officers and ten-percent shareholders are also required to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms received by us, and on written representations from certain reporting persons, we believe that during 2007 our directors, officers and ten-percent shareholders complied with all applicable Section 16(a) filing requirements.

Code of Conduct and Code of Ethics

Our board of directors has adopted a code of conduct, which establishes the standards of ethical conduct applicable to all of our directors, officers and employees. Our code of conduct addresses issues relating to, among other things, conflicts of interest, related party transactions, use of company funds and sensitive payments, corporate opportunities, internal controls over financial reporting, and confidential information. In addition, our board of directors has adopted a code of ethics applicable to our chief executive officer and chief financial officer. Our code of ethics sets guidelines for these individuals to implement policies and procedures to enhance disclosure and reporting system at our company. Our code of conduct is publicly available on our website at <http://www.memsic.com>. Any waiver of our code of conduct or code of ethics with respect to our chief executive officer, chief financial officer, controller or persons performing similar functions may only be authorized by our audit committee and will be disclosed as required by applicable law.

**Item 11. *Executive Compensation
Compensation Discussion and Analysis***

General

We seek to attract and retain talented and dedicated executive officers in the semiconductor industry. To that end, we aim to compensate our executive officers in a manner consistent with our strategy and competitive practice and to align executive officers' incentives with stockholder value creation. We evaluate individual executive officer performance with a goal of setting compensation at levels we believe are comparable with executive officers in other companies of similar size, industry, comparability of labor markets and product offering, market capitalization, research and development investment, financial performance, and stage of development. We generally seek to ensure that compensation is appropriate for an executive officer's level of responsibility and for the promotion of future performance.

Executive Compensation Process

Prior to our initial public offering in December 2007, our process for setting executive compensation was informal. Our compensation committee determined the compensation package of Yang Zhao, our founder and chief executive officer, and Dr. Zhao determined the compensation of our other executive officers. Decisions regarding the grant of equity compensation were made by our board of directors, typically based upon recommendations from Dr. Zhao.

The members of our board of directors have substantial managerial experience and wide contacts in the semiconductor industry and in the broader technology industry, upon which they rely in formulating their compensation decisions. Before 2008, we did not retain the services of a compensation consultant to review our policies and procedures or make recommendations with respect to executive compensation.

In determining our chief executive officer's compensation for 2007, including the appropriate mix of different forms of compensation, our compensation committee conducted a benchmark review based on information about the compensation practices of private companies in the semiconductor and other advanced technology- and information technology-related industries. The committee derived this information from an independent and publicly available compensation report, the 2006 Annual Compensation and Entrepreneurship Report in Information Technology sponsored by WilmerHale LLP, Ernst & Young LLP and J. Robert Scott, which we refer to as the Survey Report. The Survey Report is a survey of approximately 300 companies in the private sector and does not identify the companies sampled by name, but anonymously classifies companies by size, region and business segment.

In addition, in setting our chief executive officer's base salary and target bonus for 2007, the compensation committee evaluated his performance in 2006 measured against annual performance objectives and milestones that were established by the committee in 2006, which included revenue and profit growth, gross margin performance, expense control, introduction of new products to market, key accounts won and lost, and recruitment of key personnel, among others.

Base salaries for our other executive officers for 2007 were established by our chief executive officer, based on his assessment of the scope of their responsibilities and individual experience, and also taking into account competitive market compensation as reviewed in the Survey Report. Although this did not involve any formal benchmarking process, our chief executive officer subjectively attempted to keep the compensation of our executive officers within reasonable limits comparable with those companies in the Survey Report that have more than 76 employees, are located in the New England area and are in the software and hardware, semiconductor and electronics businesses.

Although we have not adopted any formal guidelines for allocating total compensation between equity compensation and cash compensation, we believe it is important for our executive officers to have some equity ownership in our company to provide them with long-term incentives. We intend to implement and maintain compensation plans that tie a substantial portion of our executive officers' overall compensation to our short-term and long-term performance. Accordingly, since 2000, we have granted our executive officers equity awards in the form of stock options. We have determined the amount of grants to each executive officer based on their prior experience if newly recruited, their ability to meet performance goals, whether they attained notable achievements, and their contribution to our overall performance.

Table of Contents

For 2008, the compensation of each executive officer, other than that of our chief executive officer, will be proposed by our chief executive officer and will be subject to approval by our compensation committee. Compensation of our chief executive officer will continue to be determined by our compensation committee. In February 2008, our compensation committee engaged Pearl Meyer & Partners LLC to assist the compensation committee in making determinations with respect to base salaries, discretionary bonuses and equity-based compensation awards to our executive officers for 2008.

Elements of Compensation

Our compensation package for our executive officers consists of three principal elements:

base salary;

short-term incentive compensation in the form of annual discretionary cash bonuses; and

long-term equity-based incentive compensation, in the form of stock options.

Base salary.

In determining our chief executive officer's salary for 2007, the compensation committee considered the stage of our development in setting his base salary at approximately the 75th percentile of the comparable private companies surveyed in the Survey Report, after taking into account aging of the data. The compensation committee considered the 75th percentile to be appropriate because it believed that we were comparable to the upper end of the companies in the survey in terms of size, number and success in financing and in terms of a high level of performance for a company of our age. Based upon these considerations, our chief executive officer's base salary for 2007 was fixed at \$250,000.

In determining compensation for our other executive officers for 2007, our chief executive officer sought to set overall compensation that is competitive and commensurate with each officer's experience. For existing executive officers, he sought to set overall compensation at approximately the 75th percentile of the private companies surveyed in the Report. For newly hired executive officers, each element of compensation as well as overall compensation was set at approximately the 50th percentile of the comparable companies surveyed in the Survey Report. However, this is not a strict formula, as individual compensation may vary based on individual industry experience and professional achievements as well as on individual negotiations with the executive officers who may have differing preferences for equity or cash compensation. Based upon these considerations, our chief executive officer fixed the 2007 base salary for our vice president of finance, Patricia Niu, at \$120,000 and for our vice president of operations, Feiming Huang, at approximately \$114,000. Mr. Huang's salary, bonus and severance payments were fixed and paid in RMB.

Three additional executive officers joined us in 2007: in July 2007, Shang Hsiao became our chief financial officer with an annual base salary of \$150,000; in February 2007, Patrick Chiumiento became our vice president of marketing and business development with an annual base salary of \$180,000; and in July 2007, Gary O'Brien became our vice president of engineering with an annual base salary of \$160,000.

As of April 29, 2008, our compensation committee had not yet determined whether to make any changes in the base salaries of our executive officers for 2008.

Discretionary annual bonus. In addition to base salaries, our executive officers are awarded discretionary annual bonuses that are intended to reward officers for achievement of profit and business goals and for achieving individual annual performance objectives. These objectives may vary depending on the individual executive officer, but relate generally to financial and operational targets.

For 2007, the compensation committee established a bonus plan focused on revenue, major account wins and introduction of new products to market with the weight of each element varying depending on the executive officer's responsibilities. Bonus levels depended on each executive officer's performance measured against specific performance objectives. Annual bonuses are paid in cash in an amount reviewed and approved by our board of directors, which has worked to determine the performance and operational criteria necessary for the award of such bonuses. The compensation committee retained discretion over the bonus plan and had the right to terminate it at any time.

Table of Contents

Under the 2007 bonus plan, the target bonus payment any executive officer, with the exception of Dr. Zhao, could receive is measured as a fixed percentage of such executive officer's salary based on whether the performance objectives were met. The actual bonus payment varies based on how well the executive officer achieved the pre-determined performance objectives, as determined by our compensation committee.

For 2007, the performance objectives for our chief executive officer included a target for increases in net sales over 2006 with increasing bonus amounts for every increment of one million dollars achieved above the target. For reaching the target of an approximately 46% increase in net sales over 2006, the bonus would be \$8,000; approximately 54% increase in net sales, the bonus would be \$17,000; approximately 62% increase in net sales, the bonus would be \$31,000; approximately 69% increase in net sales, the bonus would be \$49,000; approximately 77% increase in net sales, the bonus would be \$70,000; approximately 85% increase in net sales, the bonus would be \$90,000; approximately 92% increase in net sales, the bonus would be \$108,000; approximately 100% increase in net sales, the bonus would be \$129,000; approximately 108% increase in net sales, the bonus would be \$155,000; and approximately 115% increase in net sales, the bonus would be \$185,000. The additional incentives for our chief executive officer remained the same as in 2006, i.e., for each key account won, \$10,000; for each new product developed and delivered, \$20,000; and upon assembling the management team, \$25,000. A key account is any new customer that contributes over \$0.3 million in net sales.

For 2007, the compensation committee applied the same bonus plan as in 2006 for our vice president of operations and vice president of finance:

The performance objectives for our vice president of operations included surpassing a net income target by at least 5% for a bonus of a 2% of base salary and a 2% additional bonus for each incremental 5% increase, surpassing a net sales target at a pre-determined baseline of \$12.0 million for a bonus of 5% of base salary for each \$1 million increase above the baseline. In addition, maintaining 100% on-time order shipment as net sales increase, maintaining a customer return rate below 10 units per million units shipped and reducing costs by 10% were rewarded with a bonus of 5%, 5% and 10% of base salary, respectively. As a result of his resignation in December 2007, Mr. Huang did not qualify for a bonus under his 2007 incentive bonus plan. In January 2008, we entered into a Separation and Release Agreement with Mr Huang which provided, among other things, that we would pay him a bonus of RMB 220,000 Yuan for his work in 2007.

The performance objectives for our vice president of finance included reaching a net income target for a bonus of 8% of base salary and an additional 8% bonus for each incremental 10% increase. Maintaining internal financial control within target was rewarded with a 10% bonus of base salary.

The net income target for both of these vice presidents was \$6.0 million before tax, charges associated with change in value of warrants in 2007 and extraordinary items. For both these vice presidents, the target bonus for 2007 was 30% of their base salary. The compensation committee, with the recommendation of our chief executive officer, also established performance objectives for the new executive officers who joined in 2007:

Our chief financial officer would be eligible for a discretionary bonus of \$50,000 upon the completion of preparations for our initial public offering.

The performance objectives for our vice president of engineering included reaching a net income target for a bonus of 2% of base salary and an additional 2% bonus for each incremental 10% increase in net income above the target, successful introduction and development of new product with a 10% bonus per product, and development and on-time introduction of technology platform with which to implement each new product with a 10% bonus per product.

The performance objectives for our vice president of marketing and business development included reaching a net income target for a bonus of 2% bonus of base salary and an additional 2% bonus for each incremental 5% increase in net income

Table of Contents

above the target, key partnership development with a 10% bonus per new relationship, and on-time introduction of new product with respect to product solution, strategic positioning and introduction to market with a 10% bonus for each new product. A key partnership is a relationship developed with a company that has leading-edge technology and solutions that would enhance our ability to penetrate new market segments or create new solutions for our customers.

The net income target for the vice president of engineering and the vice president of marketing and business development is \$6.0 million before tax and extraordinary items in 2007. For both these vice presidents, the target bonus for 2007 was 30% of their base salary.

In addition to the foregoing, in his February 2007 offer letter, we agreed to pay Mr. Chiumiento, our vice president of marketing and business development, a guaranteed bonus of \$10,000 after his first six months of employment, and in his July 2007 offer letter, we agreed to pay to Gary O Brien, our vice president of engineering, a guaranteed bonus of \$8,000 after his first six months of employment.

In March 2008, our compensation committee awarded to our executive officers cash bonuses for 2007, as follows:

our chief executive officer was awarded a bonus in the amount of \$185,000, of which \$90,000 was in recognition of our net sales growth in 2007, \$20,000 was in recognition for new product introductions, \$25,000 was in recognition for the hiring of our management team and \$50,000 was in recognition of his efforts in preparing for our initial public offering in December 2007;

our chief financial officer was awarded a bonus in the amount of \$50,000, in recognition of his efforts in preparing for our initial public offering;

our vice president of finance was awarded a bonus in the amount of \$65,000, of which \$50,000 was in recognition of her efforts in preparing for our initial public offering and \$15,000 was in recognition her effort in maintaining internal control and reaching our net income target;

our vice president of engineering was awarded a bonus in the amount of \$20,000, of which \$8,000 was the guaranteed bonus provided for in his offer letter and \$12,000 was a discretionary bonus in recognition of his contribution to our engineering and product development efforts in 2007; and

our vice president of marketing and business development was awarded a bonus in the amount of \$30,000, of which \$10,000 was the guaranteed bonus provided for in his offer letter and \$20,000 was a discretionary bonus in recognition of his contribution to our marketing and business development efforts in 2007.

Long-term incentives. We believe that our current compensation structure is sufficient to align the interests of our executive officers with those of our stockholders and that long-term performance is achieved through an ownership culture that encourages performance by our named executive officers through the use of stock-based awards. We utilize stock options and restricted common stock to ensure that our named executive officers have a continuing stake in our long-term success. The board of directors has considered outstanding job performance, contributions to our company and achievement of certain performance objectives in granting past awards as well as the level of equity awards to employees of comparable companies included in the Survey Report.

In August 2007, we granted options to purchase an aggregate of 447,500 shares of common stock to approximately 100 employees. Of these, Mr. Huang received options for 100,000 shares and Ms. Niu received options for 50,000 shares, which will vest 25% at each anniversary of grant at an exercise price of \$7.64 per share. These awards were determined by our board of directors, based on recommendations from Dr. Zhao. Mr. Huang resigned from our employment, effective in January 2008, and the options granted to him in August 2007 will not vest.

Table of Contents

In October 2007, we also granted Dr. Zhao an option award of 250,000 shares, which will vest in equal installments over four years and an additional performance-based option award of 250,000 shares, each at an exercise price of \$11.70 per share. The performance-based options vest based on the following terms and conditions: (i) vesting as to any shares would be contingent upon the completion of our initial public offering, and (ii) 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$10.5 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions; (iii) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$13.1 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions; (iv) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$15.8 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisition; and (v) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$18.4 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions. Irrespective of the above terms and conditions, the options shall vest fully on the eighth anniversary of the grant date.

Dr. Zhao's grant was determined by our board of directors with input from the compensation committee regarding chief executive officer share ownership as compared with the private companies surveyed in the Survey Report. Assuming that the total 500,000 options granted fully vests, Dr. Zhao's equity ownership based on our shares outstanding at September 30, 2007 would be within the median range of the CEO founders of companies in the Survey Report. Dr. Zhao would hold about 13% of the Company's equity, whereas the median range of equity holdings for CEO founders was 10% to 18.6%.

We also granted stock options to each of the three executive officers who joined us in 2007. On February 5, 2007, we granted Mr. Chiumiento stock options to purchase 110,000 shares of our common stock at an exercise price of \$1.54 per share. On July 12, 2007, we granted Mr. Hsiao stock options to purchase 275,000 shares of our common stock at an exercise price of \$4.88 per share. On July 26, 2007, we granted Mr. O'Brien stock options to purchase 55,000 shares of our common stock at an exercise price of \$4.88 per share. For new hires such as Messrs. O'Brien, Hsiao and Chiumiento, equity awards were commensurate with individual experience, but were also subject to individual negotiation. The amount of each grant took into account current executive officers and the specific number of shares and their value at the time of grant required to recruit each individual. Prior to the offering, Dr. Zhao recommended to the compensation committee the amount of equity grants to the named executive officers, with the exception of himself. The compensation committee considers his recommendation and the above considerations in awarding each equity grant. At the time of these grants, the exercise prices were determined by our board of directors based on an estimate of the fair value of our common stock. Subsequent to the grants, and in connection with the preparation of our consolidated financial statements for 2007, we obtained from an independent third party specialist retrospective valuation reports as to the fair value of our common stock. Based upon these reports, we determined the fair value of our common stock to be \$6.84 at the time of the option grants in July 2007 and \$3.22 at the time of the option grants in February 2007. As a result of this determination, we modified the exercise prices of these options, with the consent of the option holders, to increase their respective exercise prices to the reported fair values of our common stock at the time of grant.

Other compensation and benefits. We maintain employment benefits that are provided to certain full-time employees, including health insurance, housing, gasoline mileage reimbursements, retirement savings and 401(k) plan, short and/or long-term disability insurance, group and supplemental life insurance. We also provide vacation and other paid holidays to all employees, including our executive officers, which are comparable to those provided at our peer group of companies, companies of similar size, industry, comparability of labor markets and product offering, market capitalization, research and development investment, financial performance, and stage of development.

Item 13. *Certain Relationships and Related Transactions and Director Independence Policies and Procedures*

Our policies and procedures for related party transactions are contained in our code of conduct and our audit committee charter.

Our code of conduct requires all of our employees, officers and directors to report to our chief executive officer any significant related-party transaction that he or she believes exists or might occur. These related-party transactions include those between our company and: (i) family members or friends of an employee, officer or director; (ii) an organization for which the employee, officer or director currently or has in the past five years served as an officer, director, trustee or partner; (iii) an organization in which the employee, officer or director has a financial interest, other than an investment of less than 1% of the outstanding shares of a publicly-held company; and (iv) any individual or organization with whom the employee, officer or director is negotiating, or with whom he or she has an arrangement, concerning prospective employment.

Our audit committee charter provides the committee with the responsibility to review, and the authority to approve or disapprove, any transaction between our company and any (i) of our directors or executive officers; (ii) nominee for election as a director; (iii) person known to our company to own more than 5% of any class of our voting securities; (iv) member of the immediate family of any such person, if such transaction is required to be disclosed under the related-party transactions rules of the SEC.

We adopted our code of conduct and audit committee charter in August 2007. The transactions described below were entered into prior to the adoption of our code of conduct and audit committee charter and accordingly, were not subject to this procedure.

In addition to the compensation arrangements with directors and the executive officers described above, the following is a description of each transaction during fiscal year 2007 and each currently proposed transaction in which:

we have been or are to be a participant;

the amount involved exceeds \$120,000; and

any of our directors, executive officers or holders of more than 5% of our capital stock, or any immediate family member of or person sharing the household with any of these individuals, had or will have a direct or indirect material interest.

Stockholders' Loans

In March 2001, we made a loan of \$200,000 to Dr. Zhao, our founder, for the purchase of 200,000 shares of our restricted stock. The loan bore interest at an annual rate of 5.07% and was secured by the restricted shares granted to him. We recorded a deferred compensation expense in connection with this transaction and amortized such expense over a four year period. The accrual of this interest has been recorded as reduction to stockholders' deficit. The principal was forgiven in four annual installments of \$50,000 and the accrued interest of \$41,972 was forgiven in June 2007.

Relationship with InveStar and TSMC

InveStar Semiconductor Development Fund, Inc. and InveStar Semiconductor Development Fund, Inc. (II) LCD, together the InveStar Funds, hold in aggregate approximately 12.6% of our common stock on a fully diluted and as-converted basis. TSMC, our largest third-party supplier, has historically supplied substantially all the wafers required in our manufacturing process. In 2004, 2005, 2006 and 2007, we purchased an aggregate of \$ 8.9 million in wafers from TSMC. TSMC holds in the aggregate a 97% interest in the InveStar Funds and is authorized to appoint the board of directors of the InveStar Funds. InveStar Capital, Inc. is the fund manager and holds the remaining interest in the InveStar Funds. One of our directors, Mr. Tung, is the managing partner and chief financial officer of InveStar Capital, Inc.
