IRSA's results for the first nine months mainly reflect the impact of the financial market's volatility on the consumer finance business, on the financial results derived from fluctuations in the exchange rate applied for valuing our stock of debt, and on the results from our related company Banco Hipotecario S.A. caused by the lower valuation of its financial asset portfolio. The real estate operating segments remained healthy during the first nine months of the fiscal year, showing good cash generation levels.

A comparison of the first 9 months of FY09 with the same period of FY08 reveals a 0.4% increase in revenues and a 37.8% decrease in operating income, mainly due to losses in the consumer finance segment. Revenues and operating income excluding the consumer finance segment increased by 6.6% and 22.1% respectively.

The performance of IRSA's various segments in terms of net sales was: Sales and development decreased by 21.7% to Ps.137.1 million; Offices and other rental properties rose by 46.1% to Ps.106.6 million; Shopping centers rose by 12.5% to Ps.283.6 million; Hotels rose by 10.5% to Ps.127.1 million; Consumer finance decreased by 17.4% to Ps.175.7 million; whereas Financial transactions and Other income posted income for Ps.1.8 million.

Shopping DOT BAIREs (previously referred to as Panamerican Mall or PAMSA project) is opening its doors to the public tomorrow, May 13, after a two-year construction period and with its occupancy rate above 94%. It will be the largest Shopping Center in the city of Buenos Aires, with unique design features and a location in what can be described as the gateway to the city of Buenos Aires: the intersection of Avenida General Paz and the Panamericana highway. This shopping mall will host more than 50,000 square meters of gross leasable area distributed among a hypermarket and more than 150 stores that include an anchor store, a gym, a movie-theater complex and a food court.

Regarding the office rental segment, we have agreed on the lease of the 8 office stories at Edificio Dique IV in Puerto Madero, recently added to our portfolio. In addition, we have continued selling offices considered to be non-core assets for US\$ 17.2 million during the first nine months of FY 2009, a figure that increased by US\$ 34.8 million during the month of April. This will allow us to re-focus on pursuing potential business opportunities arising from the new market scenario.

Regarding the consumer finance business, the third quarter of FY09 has shown a substantial reduction in operating losses in contrast to those experienced in the immediately preceding quarters as a consequence of improved capitalization combined with relative stabilization in local financial markets, decreased loan loss charges and decreased operating expenses.
