BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

June 30, 2011

NOTE (1) Basis of Financial Statement Presentation

The accompanying unaudited consolidated financial statements include Broadway Financial Corporation (the Company) and its wholly owned subsidiary, Broadway Federal Bank, f.s.b. (the Bank). Also included in the unaudited consolidated financial statements is Broadway Service Corporation, a wholly owned subsidiary of the Bank. All significant intercompany balances and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions for quarterly reports on Form 10-Q. These unaudited consolidated financial statements do not include all disclosures associated with the Company s consolidated annual financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2010 and, accordingly, should be read in conjunction with such audited consolidated financial statements. In the opinion of management, all adjustments (all of which are normal and recurring in nature) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

Some items in the consolidated financial statements for the prior period were reclassified to conform to the current presentation.

NOTE (2) Recently Issued Accounting Pronouncements

In April 2011, the FASB issued ASU No. 2011-02, A Creditor s Determination of Whether a Restructuring Is a Troubled Debt Restructuring, updated to amend previous guidance with respect to troubled debt restructurings. This updated guidance is designed to assist creditors with determining whether or not a restructuring constitutes a troubled debt restructuring. In particular, additional guidance has been added to help creditors determine whether a concession has been granted and whether a debtor is experiencing financial difficulties. Both of these conditions are required to be met for a restructuring to constitute a troubled debt restructuring. The amendments in the update are effective for the first interim period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning of the annual period of adoption. Adoption of this guidance did not have a material effect on the Company s consolidated financial statements.

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU 2011-04 addresses convergence between GAAP and International Financial Reporting Standards (IFRS) requirements for measurement of and disclosures about fair value. The amendments are not expected to have a significant impact on companies applying GAAP. Key provisions of the amendment include: a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity is net exposure to the group; an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. In addition, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. The amendments in ASU 2011-04 are effective during interim and annual periods beginning after December 15, 2011. Early adoption is not permitted. The Company does not expect the adoption of ASU 2011-04 to have a material effect on its consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, which will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders equity. The guidance in ASU 2011-05 does not change the items which must be reported in other comprehensive income, how such items are measured, or when they must be reclassified to net income. The guidance in ASU 2011-05 is effective for interim and annual periods beginning after December 15, 2011, and should be applied retrospectively. Early adoption is permitted. Since the provisions of ASU 2011-05 are presentation related only, the Company does not expect the adoption of ASU 2011-04 to have a material effect on its consolidated financial statements.

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

NOTE (3) Earnings Per Common Share

Basic earnings per common share is computed by dividing earnings available to common shareholders by the weighted average number of shares of common stock outstanding for the period. Diluted earnings per common share is computed by dividing earnings available to common shareholders by the weighted average number of shares of common stock outstanding for the period, increased for the dilutive effect of common stock equivalents.

The following table shows how we computed basic and diluted earnings per common share for the three and six months ended June 30, 2011 and 2010.

	I	For the three 1 June		ended		For the six m		nded
		2011	2	2010		2011		2010
			(Dollars	in thousand	s, exce	pt per share)		
Basic								
Net earnings (loss)	\$	(1,722)	\$	846	\$	(1,851)	\$	1,834
Less: Preferred stock dividends and accretion		(283)		(281)		(566)		(581)
Earnings (loss) available to common shareholders	\$	(2,005)	\$	565	\$	(2,417)	\$	1,253
Weighted average common shares outstanding	1	,744,216	1.7	43,609	1	,744,091	1 ′	743,488
Basic earnings (loss) per common share	\$	(1.15)	\$	0.32	\$	(1.39)	\$	0.72
Diluted								
Net earnings (loss)	\$	(1,722)	\$	846	\$	(1,851)	\$	1,834
Less: Preferred stock dividends and accretion		(283)		(281)		(566)		(581)
Earnings (loss) available to common shareholders	\$	(2,005)	\$	565	\$	(2,417)	\$	1,253
Weighted average common shares outstanding	1	,744,216	1,7	43,609	1.	,744,091	1,	743,488
Add: dilutive effects of assumed exercises of stock options		N/A		900		N/A		3,485
Average shares and dilutive potential common shares	1	,744,216	1,7	744,509	1.	,744,091	1,	746,973
Diluted earnings (loss) per common share	\$	(1.15)	\$	0.32	\$	(1.39)	\$	0.72

Stock options for 227,075 shares of common stock were not considered in computing diluted earnings per common share for the three and six months ended June 30, 2011 and stock options for 237,547 and 212,700 shares of common stock were not considered in computing diluted earnings per common share for the three and six months ended June 30, 2010 because they were anti-dilutive.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

Available-for-sale Residential mortgage-backed Total available-for-sale	Amortized Cost \$ 10,085	Gross Unrealized Gains (In the	er 31, 2010 Gross Unrealized Losses ousands)	Value \$ 10,524
Available-for-sale Residential mortgage-backed	Amortized Cost \$ 10,085	Gross Unrealized Gains (In the	er 31, 2010 Gross Unrealized Losses ousands)	Value \$ 10,524
Available-for-sale Residential mortgage-backed Total available-for-sale Held-to-maturity	Amortized Cost \$ 10,085	Gross Unrealized Gains (In the	er 31, 2010 Gross Unrealized Losses ousands) \$	\$ 10,524 \$ 10,524

The amortized cost and fair value of the investment securities portfolios are shown by contractual maturity at June 30, 2011. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date, primarily residential mortgage-backed securities, are shown separately.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

Securities pledged at June 30, 2011 and December 31, 2010 had a carrying amount of \$11.7 million and \$12.7 million and were pledged to secure public deposits and FHLB advances. At June 30, 2011 and December 31, 2010, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders equity. There were no sales of securities during the six months ended June 30, 2011 and 2010.

There were no securities with unrealized losses at June 30, 2011 and December 31, 2010. We evaluate securities for other-than-temporary impairment at least quarterly, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to the financial condition and near-term prospects of the issuer, the length of time and the extent to which the fair value has been less than the cost, and our intent and ability to retain our investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. In analyzing an issuer s financial condition, we consider whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer s financial condition.

NOTE (5) Loans Receivable Held-for-Sale, net

Loans receivable held-for-sale at June 30, 2011 and December 31, 2011 were as follows:

	June 30, 2011 (In t	December 31, (In thousands)		
Loans receivable, held for sale:				
Multi-family residential	\$ 6,488	\$	16,217	
Commercial real estate	2,068		5,067	
Church	8,756		9,408	
Valuation allowance for unrealized losses	(1,307)		(1,281)	
Loans receivable, held for sale, net	\$ 16,005	\$	29,411	

Loans receivable held-for-sale, net, consisted of multi-family and commercial real estate loans originated for sale and multi-family loans transferred from our loan portfolio. Non-performing loans receivable held-for-sale included in loans receivable held-for-sale, net, totaled \$6.0 million, net of charge-offs of \$122 thousand and a \$776 thousand valuation allowance, as of June 30, 2011 and totaled \$5.1 million, net of charge-offs of \$414 thousand and a \$769 thousand valuation allowance, at December 31, 2010. Restructured loans receivable held-for-sale that have complied with the terms of their restructured agreements for a satisfactory period of time and certain performing loans receivable held-for-sale with delinquency or other weaknesses totaled \$4.1 million, net of a \$531 thousand valuation allowance, as of June 30, 2011 and totaled \$8.0 million, net of a \$512 thousand valuation allowance, as of December 31, 2010. A loan receivable held-for-sale secured by a church building, which had a carrying amount of \$266 thousand, net of charge-off of \$292 thousand, was transferred to REO during the six months ended June 30, 2011.

We recorded a lower of cost or market recovery on non-performing loans receivable held-for-sale of \$35 thousand for the six months ended June 30, 2011. Net lower of cost or market write-downs on non-performing loans receivable held-for-sale totaled \$131 thousand for the six months ended June 30, 2010. During the six months ended June 30, 2011 and 2010, we increased our valuation allowance by \$61 thousand and \$416 thousand, respectively, on some of our loans held for sale that are still considered performing loans.

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

As of June 30, 2011, a commercial loan for \$569 thousand was more than 90 days past due and was accruing interest. The loan has matured and is currently being modified but since the loan has always been current with monthly payments, the loan remained on accruing status. There were no loans 90 days or more delinquent that were accruing interest as of December 31, 2010.

The following table presents the aging of the recorded investment in past due loans, including loans held for sale, as of June 30, 2011 and December 31, 2010 by class of loans:

At June 30, 2011, loans classified as a troubled debt restructurings (TDR) totaled \$36.5 million, of which \$15.9 million were included in nonaccrual loans and \$20.6 million were on accrual status as the loans have complied with the terms of their restructured agreements for a satisfactory period of time. At December 31, 2010, loans classified as a TDR totaled \$37.1 million, of which \$14.6 million were included in nonaccrual loans and \$22.5 million were on accrual status as the loans have complied with the terms of their restructured agreements for a satisfactory period of time. The Company has specific allowances of \$1.7 million and \$1.6 million allocated to performing TDRs as of June 30, 2011 and December 31, 2010. As of June 30, 2011 and December 31, 2010, we did not have any outstanding commitments to extend additional funds to these borrowers.

12

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis is performed at least on a quarterly basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution s credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loss. Loans classified as loss are considered uncollectible and of such little value that to continue to carry the loan as an active asset is no longer warranted.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Based on the most recent analysis performed, the risk category of loans by class of loans as of June 30, 2011 and December 31, 2010 is as follows:

	As of June 30, 2011

NOTE (7) Junior Subordinated Debentures, Other Borrowings and Management s Capital Plan

On March 17, 2004, the Company issued \$6.0 million of Floating Rate Junior Subordinated Debentures in a private placement. The debentures mature in 10 years and interest is payable quarterly at a rate per annum equal to the 3-month LIBOR plus 2.54%. The interest rate is determined as of each March 17, June 17, September 17, and December 17, and was 2.79% at June 30, 2011. The Company stopped paying interest on the debentures and the senior line of credit discussed below in September 2010. As disclosed previously, the Company is not permitted to make payments on any debts without prior notice to and receipt of written notice of non-objection from the Office of Thrift Supervision (OTS) Regional Director. In addition, under the terms of the subordinated debentures, the Company is not allowed to make payments on the subordinated debentures if the Company is in default on any of its senior indebtedness, which term includes the senior line of credit described below.

On February 28, 2010, the Company borrowed an aggregate of \$5.0 million under its \$5.0 million line of credit with another financial institution, and invested all of the proceeds in the equity capital of the Bank. The interest rate on the line of credit adjusts annually, subject to a minimum of 6.00% and increases by an additional 5% in the event of default. Borrowings under this line of credit are secured by the Company s assets. The full amount of this borrowing became due and payable on July 31, 2010. This senior line of credit has not been repaid and the Company is now in default under the line of credit agreement. On April 7, 2011, the lender agreed to forbear from exercising its rights (other than increasing the interest rate by the default rate margin) pursuant to the line of credit agreement until January 1, 2012 subject to the following conditions:

The Company shall make a forbearance payment in the amount of \$25,000 to the lender no later than July 31, 2011 provided that the Company is able to obtain the necessary approval to make such payment from the OTS or its successors, and in the event the Company is unable to obtain such approval by said date, the Company shall make such payment as soon as permitted thereafter. The Company has not received the required regulatory approval for such payment to date.

The Company shall use its best efforts to continue to attempt to raise a minimum of \$5.0 million in private placements under the Company s Recapitalization Plan as discussed below.

The Bank shall not experience anything that would constitute an Event of Default, or be placed into receivership by the FDIC.

14

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

The Company is pursuing a comprehensive Recapitalization Plan to improve the Company s capital structure. To date, the Company has obtained the written consent of the U.S. Treasury to exchange the Company s Series D and E Fixed Rate Cumulative Perpetual Preferred Stock for common stock at a discount of 50% of the liquidation amount, plus an undiscounted exchange of the accumulated but unpaid dividends on such preferred stock for common stock. In addition, the Company is in negotiations with the holders of Series A and Series B Perpetual Preferred Stock and Series C Noncumulative Perpetual Convertible Preferred Stock to exchange their holdings for common stock at a discount of 50% of the liquidation amount. The Company is also in negotiations with the lender to exchange a portion of the Company s senior line of credit, which is currently in default, for common stock at 100% of the face amount to be exchanged and to forgive the accrued interest on the entire amount of the line of credit to the date of the exchange.

The Company plans to concurrently complete private placements or other sales of the Company s common stock aggregating \$5 million or more in gross proceeds. The Company anticipates that these transactions would, if completed, result in the issuance of approximately 7.5 million new shares of the Company s common stock, which would constitute approximately 80% of the pro forma outstanding shares of the Company s common stock. There can be no assurance that management s capital plan will be achieved.

NOTE (8) Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

The fair values of securities available-for-sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities relationship to other benchmark quoted securities (Level 2 inputs).

The fair value of non-performing loans receivable held-for-sale is generally based upon the fair value of the collateral which is obtained from recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Impaired loans, other than performing TDRs, are generally collateral dependent and, as such, are carried at the estimated fair value of the collateral less estimated selling costs. Fair values are estimated through current appraisals, broker opinions or automated valuation models and adjusted as necessary, by management, to reflect current market conditions and, as such, are classified as Level 3.

15

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

June 30, 2011

Nonrecurring adjustments to certain commercial and residential real estate properties classified as real estate owned (REO) are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized.

Assets Measured on a Recurring Basis

Assets measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at June 30, 2011 Using Quoted Prices				
	Carrying Value	in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
Assets:						
Securities available-for-sale - residential mortgage-backed	\$ 9,172	\$	\$ 9,172	\$		
	Carrying Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
Assets:						
Securities available-for-sale - residential mortgage-backed	\$ 10,524	\$	\$ 10,524	\$		

The following table provides information regarding the carrying values of our assets measured at fair value on a non-recurring basis at the dates indicated. The fair value measurement for all of these assets falls within Level 3 of the fair value hierarchy.

Fair Values of Financial Instruments

The carrying amounts and estimated fair values of financial instruments, at June 30, 2011 and December 31, 2010 were as follows:

	June 30	0, 2011	December 31, 2010			
	Carrying Amount	Estimated Fair Value (In tho	Carrying Amount usands)	Estimated Fair Value		
Financial Assets:		Ì	ĺ			
Cash and cash equivalents	\$ 17,861	\$ 17,861	\$ 21,978	\$ 21,978		
Securities available-for-sale	9,172	9,172	10,524	10,524		
Securities held-to-maturity	11,692	12,226	12,737	13,261		
Loans receivable held for sale, net	16,005	16,005	29,411	29,411		
Loans receivable, net	360,144	360,871	382,616	384,274		
Federal Home Loan Bank stock	4,089	N/A	4,089	N/A		
Accrued interest receivable	1,957	1,957	2,216	2,216		
Financial Liabilities:						
Deposits	\$ (312,371)	\$ (311,113)	\$ (348,445)	\$ (347,373)		
Federal Home Loan Bank advances	(87,000)	(91,906)	(87,000)	(91,615)		
Junior subordinated debentures	(6,000)	(4,974)	(6,000)	(4,609)		
Other borrowings	(5,000)	(4,979)	(5,000)	(4,979)		
Advance payments by borrowers for taxes and insurance	(743)	(743)	(272)	(272)		
Accrued interest payable	(915)	(915)	(550)	(550)		

The methods and assumptions, not previously presented, used to estimate fair value are described as follows:

Carrying amount is the estimated fair value for cash and cash equivalents, accrued interest receivable and payable, demand deposits, short term debt, advance payments by borrowers for taxes and insurance, and variable rate loans, deposits and borrowings that reprice frequently and fully. The methods for determining the fair values for securities were described previously. For fixed rate loans and deposits and for variable rate loans and deposits with infrequent repricing or repricing limits, fair value is based on discounted cash flows using current market rates applied to the estimated life and credit risk without consideration of widening credit spreads due to market illiquidity. Fair value of debt is based on current rates for similar financing. It was not practicable to determine the fair value of FHLB stock due to restrictions placed on its transferability. The fair values of off-balance-sheet items are not considered material (or are based on the current fees or cost that would be charged to enter into or terminate such arrangements) and, as such, they are not presented herein.

NOTE (9) Stock-based Compensation

In 2008, we adopted the 2008 Long-Term Incentive Plan (2008 LTIP), which is shareholder approved. The 2008 LTIP replaced the Company s 1996 Long-Term Incentive Plan (1996 LTIP) and 1996 Stock Option Plan (Stock Option Plan), which have expired and are no longer effective except as to outstanding awards. The 2008 LTIP permits the grant of non-qualified and incentive stock options, stock appreciation rights, full value awards and cash incentive awards to the Company s non-employee directors and certain officers and employees for up to 351,718 shares of common stock. Option awards are generally granted with an exercise price equal to the market price of the Company s common stock at the date of grant; those option awards have vesting periods ranging from immediate vesting to 5 years and have 10-year contractual terms. The Company has a policy of using shares held as treasury stock to satisfy share option exercises. Currently, the Company has a sufficient number of treasury shares to satisfy expected share option exercises.

There were no options granted during the first six months of 2011. The Company recorded \$27 thousand of stock-based compensation expense, net of tax, during the first six months of 2011 compared to \$48 thousand for the first six months of 2010.

18

NOTE (10) Regulatory Matters

The Bank is subject to regulatory capital requirements now administered by the Office of the Comptroller of the Currency, or OCC, which is the statutory successor under the Dodd-Frank Act to the former Office of Thrift Supervision, or OTS. The capital requirements, which remain the same as when administered by the OTS, involve quantitative measures of assets, liabilities, and certain off balance sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by the OCC. Failure to meet capital requirements can result in regulatory action.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If only adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required.

The Company and the Bank have consented to the issuance to them of cease and desist orders by the OTS effective September 9, 2010 requiring, among other things, that the Company and the Bank take remedial actions to improve the Bank s loan underwriting and internal asset review procedures, to reduce the amount of its non-performing assets and to improve other aspects of the Bank s business, as well as the Company s management of its business and the oversight of the Company s business by the Board. The cease and desist orders require the Bank to attain, and thereafter maintain, a Tier 1 (Core) Capital to Adjusted Total Assets ratio of at least 8% and a Total Risk-Based Capital to Risk-Weighted Assets ratio of at least 12%, both of which ratios are greater than the respective 6% and 10% levels for such ratios that are generally required under OTS (now OCC) regulations. The cease and desist orders also prohibit the Bank from paying dividends to the Company, and prohibit the Company from paying dividends to its stockholders, without the prior written approval of the OCC. In addition, the Company is not permitted to incur, issue, renew, repurchase, make payments on or increase any debt or redeem any capital stock without prior notice to and receipt of written notice of non-objection from the OCC.

We have met the minimums required to be well capitalized at June 30, 2011 and December 31, 2010 based on the prompt corrective action regulations, however we cannot be considered well capitalized while under the cease and desist order.

Actual and normally required capital amounts and ratios at June 30, 2011 and December 31, 2010, together with the higher capital requirements that the Bank is required to meet under the cease and desist order applicable to it, are presented below.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. Our MD&A should be read in conjunction with the Consolidated Financial Statements and related Notes included in Part I Item 1, Financial Statements, of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2010.

Overview

Total assets decreased during the first six months of 2011 primarily due to a decrease in our loan portfolio. The decline in assets reflected the strategy that we have been implementing since the second quarter of 2010 to reduce and resolve non-performing assets and to slow down asset growth, in our efforts to maintain our capital ratios above the required thresholds. Total deposits decreased during the first six months of 2011, as we continued to allow maturing certificates of deposit and brokered deposits, including deposits obtained through the CDARS reciprocal referral system, to run off as total assets declined.

Our net loss for the three and six months ended June 30, 2011 were (\$1.7) million and (\$1.9) million, respectively, compared to net earnings of \$846 thousand and \$1.8 million, respectively, for the same period a year ago, representing a decrease in net earnings of \$2.6 million and \$3.7 million, respectively. The decrease in net earnings was primarily due to higher provision for loan losses and lower net interest income for the three and six months ended June 30, 2011.

The annualized returns on average equity for the three and six months ended June 30, 2011 were (21.41%) and (11.32%), compared to 10.28% and 11.29% for the three and six months ended June 30, 2010. The annualized returns on average assets for the three and six months ended June 30, 2011 were (1.48%) and (0.78%), compared to 0.62% and 0.69% for the three and six months June 30, 2010. The efficiency ratios for the three and six months ended June 30, 2011 were 73.68% and 74.40%, compared to 60.63% and 59.68% for the comparable periods in 2010.

Results of Operations

Net Earnings

Net loss for the second quarter of 2011 was (\$1.7) million, or (\$1.15) per diluted common share, compared to net earnings of \$846 thousand, or \$0.32 per diluted common share, for the second quarter of 2010. The net loss for the second quarter of 2011 was primarily due to higher provision for loan losses and lower net interest income.

For the six months ended June 30, 2011, net loss totaled (\$1.9) million, or (\$1.39) per diluted common share, compared to net earnings of \$1.8 million, or \$0.72 per diluted common share, for the same period in 2010.

Net Interest Income

For the quarter ended June 30, 2011, our net interest income before provision for loan losses was \$4.4 million, which represented a decrease of \$903 thousand, or 17%, from the second quarter of 2011. The decrease in net interest income was primarily attributable to a decrease in average interest-earning assets, combined with a decrease in net interest margin. The decline in our net interest margin primarily reflected elevated levels of non-performing assets.

Average interest-earning assets for the second quarter of 2011 decreased to \$459.7 million, down \$78.5 million from the second quarter of 2010. The decrease in average interest-earning assets resulted in a \$1.0 million reduction in interest income. Additionally, the annualized yield on our average interest-earning assets decreased 11 basis points to 5.64% for the second quarter of 2011, compared to the annualized yield of 5.75% for the same period a year ago. The 11 basis point decline in the annualized yield on our average interest-earning assets resulted in a decrease of \$244 thousand in interest income. Higher levels of non-performing assets, primarily non-performing loans and REOs, contributed to the decline in the annualized yield on our interest-earning assets.

Table of Contents

Average interest-bearing liabilities for the second quarter of 2011 decreased to \$429.3 million, down \$75.7 million from the second quarter of 2010. The decrease in average interest-bearing liabilities resulted in a \$353 thousand reduction in interest expense. The annualized cost of our average interest-bearing liabilities decreased 1 basis point to 1.91% for the second quarter of 2011 from the annualized cost of 1.92% for the same period a year ago, and resulted in a decrease of \$18 thousand in interest expense.

For the six months ended June 30, 2011, net interest income before provision for loan losses totaled \$8.8 million, down \$2.0 million, or 19%, from \$10.8 million of net interest income before provision for loan losses for the same period a year ago. The \$2.0 million decrease in net interest income primarily resulted from a \$59.2 million decrease in average interest-earning assets and a 35 basis point decrease in net interest margin.

Provision and Allowance for Loan Losses

We record a provision for loan losses as a charge to earnings when necessary in order to maintain the allowance for loan losses at a level sufficient, in management s judgment, to absorb losses inherent in the loan portfolio. At least quarterly, we conduct an assessment of the overall quality of the loan portfolio and general economic trends in the local market. The determination of the appropriate level for the allowance is based on that review, considering such factors as historical loss experience for each type of loan, the size and composition of our loan portfolio, the levels and composition of our loan delinquencies, non-performing loans and net loan charge-offs, the value of underlying collateral on problem loans, regulatory policies, general economic conditions, and other factors related to the collectability of loans in the portfolio.

The provision for loan losses for the second quarter of 2011 totaled \$3.4 million compared to \$309 thousand for the same period a year ago. The \$3.1 million increase in the provision for loan losses from the second quarter of 2010 to the second quarter of 2011 primarily reflected the increase in specific valuation allowance on impaired loans, which was partially offset by the decrease in the general valuation allowance due to the reduction in our gross loan portfolio. During the second quarter of 2011, we recorded a \$3.0 million specific loss allocation on a commercial real estate loan. The Bank decided on the specific loss allocation due to insufficient cash flow from the property to service the debt, a decline in real estate values resulting in the loan being substantially under collateralized and deteriorating borrower financial capacity to repay the loan from personal reserves.

For the six months ended June 30, 2011, the provision for loan losses totaled \$4.7 million compared to \$883 thousand of provisions for the same period a year-ago. The increase in loan loss provision was primarily due to the \$3.0 million specific loss allocation on a commercial real estate loan (as discussed above), higher levels of non-performing loans and classified loans, which were partially offset by the \$59.4 million decline in our loan portfolio as compared to the same period in 2010. During the six months ended June 30, 2011, the dollar amount and number of our classified loans and delinquent loans declined from the levels at December 31, 2010.

Net loan charge-offs during the first six months of 2011 were \$2.9 million, or 1.38% of average loans on an annualized basis, compared to \$2.9 million, or 1.22% during the first six months of 2010. Consumer loans represented 63% of the charge-offs during the first six months of 2011, primarily because of one write-off related to the settlement of litigation concerning a consumer loan secured by a deposit account. We believe that settling this litigation, which was initiated in 2008, was the best course of action for our shareholders because the settlement eliminates any uncertainty regarding the matter and avoids any further drain on our management s time and resources. As of June 30, 2011, the consumer loan and the deposit account securing the loan have been closed and no additional losses are expected to be incurred on this matter. Commercial real estate loans represented 21% of charge-offs while church, multi-family and one-to-four family residential real estate loans, combined, represented 16% of charge-offs during the first six months of 2011. Of the \$2.9 million of loan charge-offs during 2011, \$2.2 million were specifically reserved for at year-end 2010 and \$716 thousand were specifically reserved for during 2011.

At June 30, 2011 our allowance for loan losses was \$22.2 million, or 5.83% of our gross loans, compared to \$20.5 million, or 5.08% of our gross loans, at year-end 2010. The ratio of the allowance for loan losses to NPLs, excluding loans held for sale, decreased to 52.27% at June 30, 2011, compared to 54.53% at year-end 2010. Our coverage ratio (general allowance as a percentage of total non-impaired loans) was 4.19% as of June 30, 2011 and December 31, 2010. Our allowances for losses after considering reserves for loans held for sale and REO totaled \$23.8 million at June 30, 2011, compared to \$21.8 million at year-end 2010.

Management believes that the allowance for loan losses is adequate to cover probable incurred losses in the loan portfolio as of June 30, 2011, but there can be no assurance that actual losses will not exceed the estimated amounts. In

Table of Contents

41

addition, the OTS and the FDIC periodically review the allowance for loan losses as an integral part of their examination process. These agencies may require an increase in the allowance for loan losses based on their judgments of the information available to them at the time of their examinations.

Non-interest Income

Non-interest income for the quarter ended June 30, 2011 totaled \$199 thousand compared to \$184 thousand for the second quarter of 2010. The increase from the second quarter of 2010 was primarily due to higher net gains on mortgage banking activities and lower net losses on sales of REO in the second quarter of 2011.

For the six months ended June 30, 2011, non-interest income totaled \$380 thousand compared to \$456 thousand for the same period a year ago. The decrease primarily reflects lower service charges and other income for the first six months of 2011.

Non-interest Expense

Non-interest expense for the quarter ended June 30, 2011 totaled \$4.1 million, compared to \$3.8 million for the second quarter of 2010. Higher non-interest expense in the second quarter of 2011 was primarily due to a \$672 thousand increase in provision for losses on REO, a \$139 thousand increase in FDIC insurance expense, and a \$234 thousand increase in other expense, primarily higher REO expenses and appraisal expenses related to delinquent loans. These increases were partially offset by a \$466 thousand decrease in provision for losses on loans held for sale, and a \$241 thousand decrease in compensation and benefits expense.

For the six months ended June 30, 2011, non-interest expense totaled \$7.6 million compared to \$7.4 million for the same period a year ago. The increase in non-interest expense during the first half of 2011 primarily reflected higher provision for losses on REO, FDIC insurance expense, REO expenses, and appraisal expenses related to delinquent loans, which were partially offset by lower provision for losses on loans held for sale, compensation and benefits expense, and professional services expense.

Income Taxes

The Company s effective income tax rate was 41.11% and 41.03% for the three and six months ended June 30, 2011 compared to 37.79% and 38.83% for the three and six months ended June 30, 2010. Income taxes for interim periods are computed by applying the projected annual effective income tax rate for the year to the year-to-date earnings plus discrete items (items incurred in the quarter). The projected effective tax rate incorporates certain non-taxable federal and state income items and expected increases to the valuation allowance for projected deferred tax assets. The Company s change in its effective income tax rate for the three and six months ended June 30, 2011, versus the three and six months ended June 30, 2010, includes the impact of low-housing income credit and increase in valuation allowance related to the future utilization of the state deferred tax assets. Based on the future projected book income and utilization of the federal deferred tax assets, the management has determined that a valuation allowance against the federal deferred tax assets is not required.

Financial Condition

Total Assets

Total assets were \$447.1 million at June 30, 2011, which represented a decrease of \$36.9 million, or 8%, from December 31, 2010. During the first six months of 2011, net loans decreased by \$22.5 million, loans held for sale decreased by \$13.4 million, cash and cash equivalents decreased by \$4.1 million and securities decreased by \$2.4 million while REO increased by \$3.7 million.

Loan Portfolio

Our gross loan portfolio decreased by \$20.9 million to \$381.7 million at June 30, 2011 from \$402.6 million at December 31, 2010, primarily as loan repayments exceeded loan originations during the six months ended June 30, 2011. The \$20.9 million decrease in our loan portfolio primarily consisted of a \$6.6 million decrease in our commercial real estate loan portfolio, a \$6.5 million decrease in our multi-family residential real estate loan portfolio, a \$2.6 million decrease in our consumer loan portfolio, a \$1.7 million decrease in our one-to-four family residential real estate loan portfolio, and a \$1.1 million decrease in our construction loan portfolio.

22

Table of Contents

Loan originations for the first six months of 2011 totaled \$2.3 million compared to \$15.3 million for the first six months of 2010. Loan repayments for the six months ended June 30, 2011 totaled \$12.8 million compared to \$19.3 million for the comparable period in 2010. Loans transferred to REO during the first six months of 2011 totaled \$6.4 million, compared to \$4.0 million during the first six months of 2010. Loans transferred to loans held for sale during the first six months of 2011 totaled \$1.1 million, compared to \$1.4 million during the first six months of 2010.

Loans held for sale decreased from \$29.4 million at December 31, 2010 to \$16.0 million at June 30, 2011. The \$13.4 million decrease during the first six months of 2011 was primarily due to loan sales of \$10.8 million, which were sold at par, and loan repayments of \$3.4 million.

Deposits

Deposits totaled \$312.4 million at June 30, 2011, down \$36.1 million, or 10%, from year-end 2010. During the first six months of 2011, core deposits (NOW, demand, money market and passbook accounts) decreased by \$9.8 million and represented 32% of total deposits at June 30, 2011 and December 31, 2010. Our certificates of deposit (CDs) decreased by \$26.3 million during the first six months of 2011 and represented 68% of total deposits at June 30, 2011 and December 31, 2010. The \$26.3 million decrease in CDs was primarily due to maturities of \$20.0 million of State of California CDs and a reduction of \$8.3 million in brokered deposits. Over the past year, our funding strategy has included a plan to substantially eliminate brokered deposits, including deposits under the Certificate of Deposit Account Registry Service. To date, we have successfully reduced our brokered deposits to a level representing only 3% of total deposits at June 30, 2011, compared to 5% at December 31, 2010 and 17% at June 30, 2010.

Borrowings

Since the end of 2010, FHLB borrowings remained unchanged at \$87.0 million, as we borrowed \$7.0 million from the FHLB to repay \$7.0 million of maturing advance. Subordinated debentures remained unchanged at \$6.0 million and other borrowings remained unchanged at \$5.0 million. See Liquidity and Capital Resources for further information on other borrowings.

Non-Performing Assets

Non-performing assets, comprised of NPLs and REO, were \$56.0 million, or 12.53% of total assets, at June 30, 2011, compared to \$46.5 million, or 9.60% of total assets, at December 31, 2010. During the first six months of 2011, NPLs, including non-performing loans held for sale, increased by \$5.9 million to \$49.3 million from \$43.4 million at the end of 2010. These loans consist of delinquent loans that are 90 days or more past due and certain loans and TDRs that do not qualify for accrual status. Despite the increase in NPAs during the first six months of 2011, our total delinquencies and our total classified loans, which include NPLs, decreased in number and dollar amount during the first six months of 2011. In addition, at June 30, 2011, approximately \$20.8 million, or 42.2%, of our NPLs were paying currently.

The NPLs included 31 church loans totaling \$25.3 million, 13 commercial real estate loans totaling \$9.1 million, 19 one-to-four family residential real estate loans totaling \$4.2 million, four commercial loans totaling \$4.6 million, and one land loan of \$0.3 million. In addition to the NPLs discussed above, there were \$20.6 million and \$22.5 million of accruing TDRs at June 30, 2011 and December 31, 2010. These TDRs are on accrual status as the loans have complied with the terms of their restructured agreements for a period of six months or longer.

During the six months ended June 30, 2011, REO increased by \$3.7 million to \$6.7 million from \$3.0 million at the end of 2010. At June 30, 2011 the Bank s REO consisted of three one-to-four family residential properties, two multi-family residential properties and seven commercial real estate properties, four of which are church buildings. As we continue our efforts to reduce non-performing assets, we sold nine REO properties totaling \$2.4 million and recorded net loss of \$49 thousand during the first six months of 2011. Net lower of cost or market write-downs on REO totaled \$782 thousand for the six months ended June 30, 2011 compared to \$111 thousand for the same period in 2010.

23

Performance Ratios

The annualized returns on average equity for the three and six months ended June 30, 2011 were (21.41%) and (11.32%), compared to 10.28% and 11.29% for the three and six months ended June 30, 2010. The annualized returns on average assets for the three and six months ended June 30, 2011 were (1.48%) and (0.78%), compared to 0.62% and 0.69% for the three and six months June 30, 2010. The decrease in our annualized returns on average equity and average assets was primarily due to lower profitability for the three and six months ended June 30, 2011 as a result of higher provision for loan losses and lower net interest income.

The efficiency ratios for the three and six months ended June 30, 2011 were 73.68% and 74.40%, compared to 60.63% and 59.68% for the comparable periods in 2010. The deterioration in our efficiency ratio in 2011 was primarily due to lower net interest income, which was caused by higher levels of nonperforming assets and lower average interest-earning assets, and higher non-interest expenses, related to higher levels of costs related to REO, increase premiums charged by the FDIC and higher appraisal costs.

Liquidity

The Bank s primary source of funds is cash provided by principal and interest payments on loans and securities. In addition to cash provided by principal and interest payments on loans and securities, other sources of funds include cash provided by operating activities, deposits and borrowings.

Sources of funds for the Company on a stand-alone basis include distributions from the Bank and the issuance of equity and debt securities and other borrowings. The Company s primary uses of funds include payment of dividends, payment of interest on its debt obligations and repurchases of common stock. Dividends and other capital distributions from the Bank, however, are subject to general regulatory restrictions and to the special restrictions arising under the cease and desist orders issued to the Bank and to the Company by the OTS that are summarized in Note (10) to our Financial Statements included in Part I of this Report and are further described in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission. Under the cease and desist orders, neither the Bank nor the Company may declare or pay dividends, and the Company is not permitted to incur, issue, renew, repurchase, make payments on or increase any debt or redeem any capital stock, without prior notice to and receipt of written notice of non-objection from the OCC.

Net cash inflows from operating activities totaled \$2.7 million and \$5.4 million during the first six months of 2011 and 2010, respectively. Net cash inflows from operating activities for the six months ended June 30, 2011 were primarily attributable to payments of interest on loans.

Net cash inflows from investing activities totaled \$28.8 million and \$11.5 million during the first six months of 2011 and 2010, respectively. Net cash inflows from investing activities for the six months ended June 30, 2011 were attributable primarily to proceeds from sales of loans receivable held for sale, principal repayments on loans and residential mortgage-backed securities and proceeds from sales of REOs.

Net cash inflows (outflows) from financing activities totaled (\$35.6) million and \$29.5 million during the first six months of 2011 and 2010, respectively. Net cash outflows from financing activities for the six months ended June 30, 2011 were attributable primarily to the net decrease in deposits.

On February 28, 2010, we borrowed an aggregate of \$5.0 million under our \$5.0 million line of credit with another financial institution and invested all of the proceeds in the equity capital of the Bank. Borrowings under the line of credit are secured by the Company s assets. The full amount of this borrowing became due and payable on July 31, 2010. This senior line of credit has not been repaid and we are now in default under the line of credit agreement. We do not have sufficient cash available to repay the borrowing at this time and would require approval of the OTS to make any payment on this senior line of credit or to obtain a dividend from the Bank for such purpose. On April 7, 2011, the Lender agreed to forbear from exercising its rights (other than increasing the interest rate by the default rate margin) until January 1, 2012 subject to certain conditions described in Note 10 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010. There is no assurance that the tender will extend this forbearance beyond January 1, 2012.

Capital Resources

On November 14, 2008, the Company issued 9,000 shares of the Company s Fixed Rate Cumulative Perpetual Preferred Stock, Series D, having a liquidation preference of \$1,000 per share, together with a ten-year warrant to purchase 183,175 shares of Company common stock at \$7.37 per share, to the U.S. Treasury for gross proceeds of \$9.0 million. The sale of the Senior Preferred Stock was made pursuant to the U.S. Treasury s TARP Capital Purchase Program.

On December 8, 2009, the Company issued 6,000 shares of the Company s Fixed Rate Cumulative Perpetual Preferred Stock, Series E, having a liquidation preference of \$1,000 per share, to the U.S. Treasury for gross proceeds of \$6.0 million. The sale of the Senior Preferred Stock was made pursuant to the U.S. Treasury s TARP Capital Purchase Program.

We are pursuing our comprehensive Recapitalization Plan. To date, we have obtained, subject to documentation and certain terms and conditions:

The consent of the U.S. Treasury to exchange our Series D and E Fixed Rate Cumulative Perpetual Preferred Stock for common stock at a discount of 50% of the liquidation amount, plus an undiscounted exchange of the accumulated but unpaid dividends on such preferred stock for common stock;

An agreement in principle with the holders of both the Series A and Series B Perpetual Preferred Stock to exchange their holdings for common stock at a discount of 50% of the liquidation amount;

An agreement in principle with our senior bank lender to exchange a portion of our senior line of credit, which is currently in default, for common stock at 100% of the face amount to be exchanged and to forgive the accrued interest on the entire amount of the line of credit to the date of the exchange.

The conditions to each of the above exchanges include requirements that the holder of our outstanding Series C Noncumulative Perpetual Convertible Preferred Stock concurrently exchange such preferred stock for our common stock on similar terms and that we concurrently complete private placements or other sales of our common stock aggregating \$5 million or more in gross proceeds. Based on the agreements in principle that we have reached, we anticipate that these transactions would, if completed, result in the issuance of approximately 7.5 million new shares of our common stock, which would constitute approximately 80% of the pro forma outstanding shares of our common stock.

Regulatory Capital

The capital regulations applicable to the Bank, which are now administered by the OCC, include three separate minimum capital requirements. First, the tangible capital requirement mandates that the Bank's stockholder's equity, less intangible assets, be at least 1.50% of adjusted total assets as defined in the capital regulations. Second, the core capital requirement currently mandates that core capital (tangible capital plus certain qualifying intangible assets) be at least 4.00% of adjusted total assets as defined in the capital regulations. Third, the risk-based capital requirement presently mandates that core capital plus supplemental capital (as defined by the OCC) be at least 8.00% of risk-weighted assets as prescribed in the capital regulations. The capital regulations assign specific risk weightings to all assets and off-balance- sheet items for this purpose.

The Bank was in compliance with all capital requirements in effect at June 30, 2011, and met the generally applicable capital ratio standards necessary to be considered well-capitalized under the prompt corrective action regulations adopted pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991. However, in March 2010, the Company and the Bank were determined to be in troubled condition by the OTS and they consented to the issuance to them of cease and desist orders by the OTS effective September 9, 2010, which orders remain in effect and are now administered by the OCC. The cease and desist orders require the Bank to achieve and maintain higher levels of regulatory capital than normally required. Under the applicable regulations, the Bank is therefore precluded from being considered to be more than adequately capitalized until such special capital requirements are terminated and the Company and the Bank are no longer considered to be in troubled condition.

25

Actual and normally required capital amounts and ratios at June 30, 2011 and December 31, 2010, together with the higher capital requirements that the Bank is required to meet, under the cease and desist order applicable to it, are presented below.

	Actual		Required for Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Regulations		Capital Requirements under Cease and Desist Order	
	Amount	Ratio	Amount	Ratio	Amount	Ratios	Amount	Ratios
				(Dollars in	housands)			
June 30, 2011:

ITEM 4. CONTROLS AND PROCEDURES Evaluation of Disclosure Controls and Procedures

As of June 30, 2011, an evaluation was performed under the supervision of the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO) of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of June 30, 2011. There were no significant changes in the Company's internal controls over financial reporting during the Company's last fiscal quarter that could significantly affect those controls subsequent to June 30, 2011.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS *Litigation*

The Bank is the defendant in Daniel D. Holliday III, Attorney at Law, LLC (Holliday) v. Broadway Federal Bank (Case No. BC 398403), a lawsuit filed in the Superior Court of the State of California for Los Angeles County on September 18, 2008 and amended on March 4, 2009, November 20, 2009 and May 24, 2010. This legal action arises from a dispute over the priority of the Bank s lien against a \$2.6 million deposit account balance in the Bank securing a land development loan. The lawsuit seeks damages of \$2.6 million, plus interest, costs and attorneys fees according to proof. The plaintiff also seeks injunctive relief to prevent the Bank from asserting a senior security interest in the deposit account and to prevent the Bank from applying the funds in the deposit account to satisfy the amount owing on the loan.

On April 17, 2009, the Bank filed a cross-complaint against Holliday (as an individual), Bachmann Springs Holdings, LLC (the developer), Thomas T. Bachmann (the principal of the developer), Robert Estareja (an agent of Bachmann Springs Holdings), Alan Roberson (the loan broker), Canyon Acquisitions, LLC (Canyon) (the broker who located the investors for the real estate project at issue and the entity funding Holliday s fees and costs), and Brent Borland (Canyon s principal), alleging causes of action for: declaratory relief, money due on default on promissory note, judicial foreclosure on personal property, money lent, fraud, negligent misrepresentation, conspiracy, implied equitable indemnity, rescission based on fraud, and equitable subordination. The allegations of the cross-complaint include that, among other things, the cross-defendants conspired with each other to fraudulently induce the Bank to make the loan at issue.

On or about October 27, 2009, Holliday filed and served a motion for leave to file a third amended complaint, which motion was granted on November 20, 2009. In addition to the causes of action pleaded against the Bank in the second amended complaint, the proposed third amended complaint includes a cause of action against the Bank for equitable subordination as well as causes of action against Wayne Standback, a vice-president of the Bank (Mr. Standback passed away on October 13, 2009) and Paul Hudson, the Chairman and CEO of the Bank, for negligence and conspiracy. Broadway filed a demurrer to and motion to strike the third amended complaint, the hearing on which took place on May 14, 2010. The demurrer was sustained. The fourth amended complaint, which was served on May 24, 2010, contains the same causes of action as the third amended complaint. Mr. Standback, however, is no longer a defendant. Hudson demurred to the fourth amended complaint and the Bank filed an answer.

On February 1, 2010, Canyon filed a complaint in Los Angeles County Superior Court against the Bank and several of its officers and directors including Paul Hudson, Kellogg Chan, Javier Leon, Odell Maddox, Rick McGill, Daniel Medina, and Virgil Roberts, and certain non-Bank related defendants, for declaratory relief, breach of contract, interference with economic relations, negligence, intentional concealment, conspiracy, breach of fiduciary duty, and equitable subordination (Canyon Acquisitions, LLC v. Broadway Federal Bank, Case No. BC 431035). The complaint arises out of the same transaction that is the subject of the Holliday lawsuit discussed above. The Bank notified the court of this fact, which deemed the cases related. In the complaint, Canyon seeks general damages of not less than \$10,000,000 and punitive damages in an unspecified amount. Service of the Canyon Complaint was effective as of March 16, 2010. The Bank has filed a demurrer to and motion to strike the complaint, the hearings on which were set for June 18, 2010. However, on June 18, 2010, Canyon filed a first amended complaint alleging similar causes of action and the scheduled hearing was not held. Then, on June 23, 2010, Canyon filed a motion to (1) consolidate the Canyon and Holliday lawsuits and (2) treat the Canyon lawsuit as a cross-complaint in the Holliday lawsuit. The hearing on Canyon s motion was set for July 16, 2010.

However, on July 16, 2010, pursuant to the Stipulation between the parties, which was approved by the Court, the two cases (Holliday and Canyon) were consolidated, the Canyon Complaint is treated as a cross-complaint in the Holliday lawsuit, the trial was postponed from October 5, 2010 to May 10, 2011, and the following individuals were dismissed from the litigation with prejudice: all of the Broadway officers and directors who had been named as individual defendants in the Holliday and Canyon matters, Brent Borland, Daniel Holliday, III (as an individual only), and the Estate of Wayne Standback.

On August 31, 2010, the Bank filed a demurrer to Canyon s cross-complaint, the hearing on which took place on December 8, 2010. At the hearing, the Court overruled the Bank s demurrer to Canyon s Second Cause of Action for Breach of Contract and sustained the Bank s demurrer to Canyon s Seventh Cause of Action for Breach of Fiduciary Duty without leave to amend. The Bank subsequently filed an answer to Canyon s cross-complaint and asserted various affirmative defenses.

27

Table of Contents

In or about May 2011, the Bank and Holliday/Canyon entered into a written settlement agreement to resolve the matter on the following terms: (1) Broadway paid the sum of \$2,350,000 to Holliday/Canyon; (2) Holliday and Canyon dismissed their complaint and cross-complaint with prejudice as to Broadway; (3) Broadway dismissed its cross-complaint with prejudice as to Holliday and Canyon; and (4) the parties executed mutual, general releases. The Holliday and Canyon complaint and the Broadway cross-complaint were dismissed with prejudice on June 9, 2011.

BancInsure, the Bank's liability insurer, contributed \$150,000 to the settlement in exchange for a release of all claims related to Holliday, Canyon and the transactions described above. BancInsure, moreover, has paid the Bank in excess of \$375,000 for the fees and costs incurred by the Bank in defending against the Holliday and Canyon actions.

With respect to the foregoing matters, management has closed the deposit account securing the loan and has written off the loan, which was fully reserved for as of March 31, 2011.

OTS Investigation

In 2010, the OTS notified us that it had initiated a formal investigation of the activities of a former loan officer of the Bank whose employment was terminated in March 2010. In connection with the investigation, the OTS issued subpoenas to the chief lending officer and chief executive officer requesting documents relating to our former loan officer and loans he originated while employed by the Bank. The subpoenas also contemplate taking oral testimony from the officers. While the OTS did not inform us of the scope of its investigation, we believe the investigation includes, but may not be limited to, inquiry into whether documentation submitted in connection with loan applications for loans originated by the loan officer contained inaccurate or deliberately falsified information and whether the loan officer received unauthorized direct or indirect benefits from payments made by the borrowers on such loans to loan brokers or other persons associated with the lending process. All of the loans originated by the former loan officer have been reviewed by us and by the independent loan review firm we engaged to perform a general review of our loan portfolio pursuant to the C&D issued to us by the OTS. See Item 1. Business Regulation Cease and Desist Orders of our Annual Report on Form 10-K for the year ended December 31, 2010. We have taken the results of these loan reviews into account, along with all other relevant information known to us, in determining the amounts of our loan loss provisions and the level of our loan loss reserves that we believe to be appropriate as of June 30, 2011.
