Name and address of agent for service:	Andrea Melia Aberdeen Asset Management Inc. 1735 Market Street 32 nd Floor Philadelphia, PA 19103
Registrant's telephone number, including area code:	866-839-5233
Date of fiscal year end:	October 31
Date of reporting period:	October 31, 2011

Item 1 Reports to Stockholders.

Managed Distribution Policy

The Board of Directors of the Fund has authorized a managed distribution policy (MDP) of paying monthly distributions at an annual rate of \$0.07 per share set once a year. With each distribution, the Fund will issue a notice to shareholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund's MDP exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to shareholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

Distribution Disclosure Classification (unaudited)

The Fund's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. Dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the Investment Company Act of 1940 (the 1940 Act), the Fund is required to indicate the sources of certain distributions to shareholders. The estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which the Fund's assets are denominated.

The distributions for the fiscal year ended October 31, 2011, consisted of 100% net investment income.

In January 2012, a Form 1099-DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2011 calendar year.

Dividend Reinvestment and Direct Stock Purchase Plan

The Fund has a Dividend Reinvestment and Direct Stock Purchase Plan (the Plan), which is sponsored and administered by Computershare Trust Company, N.A., the Fund's transfer agent.

The Plan allows registered stockholders and first time investors to buy and sell shares and automatically reinvest dividends and capital gains through our transfer agent. This is a cost-effective way to invest in the Fund.

Please note that for both purchases and reinvestment purposes, shares will be purchased in the open market at the current share price and cannot be issued directly by the Fund.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

For more information about the Plan and a brochure that includes the terms and conditions of the Plan, please call Computershare at 1-800-647-0584 or visit www.computershare.com/buyaberdeen.

All amounts are U.S. Dollars unless otherwise stated.

Letter to Shareholders (unaudited)

December 8, 2011

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the year ended October 31, 2011. The Fund's principal investment objective is to provide high current income by investing primarily in fixed income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

Net Asset Value Performance

The Fund's total return based on net asset value ("NAV") was 11.0% for the year ended October 31, 2011 and 8.5% per annum since inception, assuming the reinvestment of dividends and distributions.

Share Price Performance

The Fund's share price increased by 4.6% over the twelve month period, from \$12.53 on October 31, 2010 to \$13.11 on October 31, 2011. The Fund's share price on October 31, 2011 represented a discount of 2.5% to the NAV per share of \$13.45 on that date, compared with a discount of 3.0% to the NAV per share of \$12.92 on October 31, 2010. At the date of this letter, the share price was \$14.14, representing a premium of 6.9% to the NAV per share of \$13.23.

Credit Quality

As of October 31, 2011, 72.8% of the Fund's portfolio was invested in securities where either the issue or the issuer was rated A or better by Standard & Poor's Corporation or Moody's Investors Services, Inc., or judged by Aberdeen Asset Management Asia Limited (the "Investment Manager") to be of equivalent quality.

Distributions

Distributions to common shareholders for the twelve months ended October 31, 2011 totaled \$0.84 per share. Based on the share price of \$13.11 on October 31, 2011, the distribution rate over the twelve month period ended October 31, 2011 was 6.4%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On December 7, 2011, the Board of Directors of the Fund (the "Board") authorized a monthly distribution of \$0.07 per share, payable on January 13, 2012 to common shareholders of record as of December 30, 2011.

The Fund's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital, which is a

non-taxable return of capital. It is the Board's intention that a monthly distribution of at least \$0.07 per share be maintained for twelve months, beginning with the July 15, 2011 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next annual review is scheduled to take place in June 2012.

Share Repurchase Policy

The Fund's policy is generally to buy back Fund shares on the open market when the Fund trades at certain discounts to NAV. During the fiscal year ended October 31, 2011 and the fiscal year ended October 31, 2010, the Fund did not repurchase any shares.

Revolving Credit Facility and Leverage

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Fund's revolving credit loan facility with The Bank of Nova Scotia was renewed for another 364 day term on March 3, 2011. The outstanding balance on the loan as of October 31, 2011 was \$40,000,000. Under the terms of the loan facility and applicable regulations, the Fund is required to maintain certain asset coverage ratios for the amount of its outstanding borrowings. The Board regularly reviews the use of leverage by the Fund. The Fund is also authorized to use reverse repurchase agreements as another form of leverage.

Portfolio Holdings Disclosure

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q filings are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund makes the information on Form N-Q available to shareholders on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233.

Proxy Voting

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and information regarding how the Fund voted proxies relating to portfolio securities during the twelve months ended June 30, 2011, is available: (i) upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233; and (ii) on the SEC's website at <http://www.sec.gov>.

From the site you will also be able to review performance, download literature and sign up for email services. The site houses topical information about the funds, including fact sheets from Morningstar that are updated daily and monthly manager reports. If you sign up for our email service online, we can ensure that you will be among the first to know about Aberdeen's latest closed-end fund news.

Included within this report is a reply card with postage paid envelope. Please complete and mail the card if you would like to be added to our enhanced email service and receive future communications from Aberdeen.

Yours sincerely,

Christian Pittard

President

All amounts are U.S. Dollars unless otherwise stated.

Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (unaudited)

Share Price Performance

On October 31, 2011, the Fund's share price was \$13.11, which represented a discount of 2.5% to the NAV per share of \$13.45. As of December 8, 2011, the share price was \$14.14, representing a premium of 6.9% to the NAV per share of \$13.23.

Loan Facility and the Use of Leverage

The Fund utilizes leverage to seek to increase the yield for its shareholders. The amounts borrowed from the line of credit may be invested to return higher rates than the rates in the Fund's portfolio. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage. Non-recurring expenses in connection with the implementation of the loan facility will reduce the Fund's performance.

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the loan facility may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is not permitted to declare dividends or other distributions in the event of default under the loan facility. In the event of default, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. The loan facility has a term of 364 days and is not a perpetual form of leverage; there can be no assurance that the loan facility will be available for renewal on acceptable terms, if at all.

The credit agreement governing the loan facility includes usual and customary covenants for this type of transaction. These covenants impose on the Fund asset coverage requirements, fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on the Fund by the 1940 Act. The covenants or guidelines could impede Aberdeen Asset Management Asia Limited (the Investment Manager), Aberdeen Asset Management Limited (the Investment Adviser) or Aberdeen Asset Management Investment Services Limited (the Sub-Adviser) from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the

occurrence of other events could lead to the cancellation of the loan facility. The covenants also include a requirement that the Fund maintain a NAV of no less than \$75 million.

Prices and availability of leverage are extremely volatile in the current market environment. The Board regularly reviews the use of leverage by the Fund and may explore other forms of leverage. The Fund is also authorized to use reverse repurchase agreements as another form of leverage. A reverse repurchase agreement involves the sale of a security, with an agreement to repurchase the same or substantially similar securities at an agreed upon price and date. Whether such a transaction produces a gain for the Fund depends upon the costs of the agreements and the income and gains of the securities purchased with the proceeds received from the sale of the security. If the income and gains on the securities purchased fail to exceed the costs, the Fund's NAV will decline faster than otherwise would be the case. Reverse repurchase agreements, as with any leveraging techniques, may increase the Fund's return; however, such transactions also increase the Fund's risks in down markets.

Interest Rate Swaps

The Fund may enter into interest rate swaps to efficiently gain or hedge interest rate or currency risk. On April 21, 2011 a swap agreement with a notional amount of \$7.0 million expired. On April 21 and April 28, 2011, the Fund entered into new interest rate swap agreements with an aggregate notional amount of \$7.0 and \$15.0 million, respectively. On August 17, 2011, the Fund entered into a new interest rate swap agreement with an aggregate notional amount of \$4.0 million. On October 27, 2011, the Fund unwound four interest rate swap agreements with aggregate notional amounts of \$15.0, \$7.0, \$7.0 and \$7.0 million, respectively, and entered into two new interest rate swap agreements with

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

aggregate notional amounts of \$20.0 and \$16.0 million, respectively. As of October 31, 2011, the Fund held interest rate swap agreements with an aggregate notional amount of \$40 million, which represented approximately 100% of the Fund's total borrowings. Under the terms of the agreements currently in effect, the Fund receives a floating rate of interest (three month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

Remaining

Term as of	Amount	Fixed Rate
October 31, 2011	(in \$ millions)	Payable (%)
60 months	16.0	1.42
58 months	4.0	1.20
36 months	20.0	0.82

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case

Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (unaudited) (concluded)

the Fund would bear the risk of loss of the amount expected to be received under the swap agreements. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the loan facility. The implementation of this strategy is at the discretion of the Leverage Committee of the Board.

Economic Review

At the start of 2011, bond yields rose further as the financial markets became increasingly focused on the implications of higher inflation. These concerns centered on the effects of higher energy prices as the escalation of political events in the Middle East and North Africa prompted a further spike in oil prices.

Europe continued to be dominated by concerns surrounding the ability of highly indebted countries to meet their debt liabilities against the background of slowing global growth. As a result of this, the European Central Bank (ECB) reactivated the Securities Markets Program (SMP) and initially bought only Irish and Portuguese bonds. However, with Italian 10-year yields hitting 6.4%, establishing new post-EMU highs (similarly for Spain), the ECB announced that they would purchase these bonds as part of the SMP as well.

Over the most recent quarter, the markets were not satisfied with the progress made by policy makers towards resolution of the euro zone crisis and indiscriminate risk aversion dominated all markets. Core government bonds regarded by many as safe havens benefited from this trend. Yields on 10-year U.S. Treasury bonds decreased to 2.1%, yields on 10-year UK gilts decreased to 2.4%, while yields on 10-year German bonds decreased to 2.0%.

In the U.S., American politicians reached a last minute deal on the debt ceiling in August, with approximately \$2.4 trillion in federal spending cuts and a \$2.1 trillion increase to the ceiling agreed in principle, although mostly back-dated and with specific savings to be decided by a new committee. Nevertheless, Standard and Poor's

downgraded U.S. long-term debt to AA+ and left the outlook as negative.

In the currency markets, the U.S. Dollar underperformed most major currencies. Currencies regarded as safer havens, most notably the Swiss franc, were the top performers.

The Fund uses U.S. Dollar interest rate swaps to hedge the floating rate loan that is used to provide marginal leverage to the overall asset portfolio. These swap positions are used to lock-in a fixed rate of borrowing at yield levels that remain below the average yield of the assets held across the Fund. However, the value of these swap positions may rise and fall in line with secondary market interest rates which in turn will create unrealized gains and losses from the swap positions over time. During the year ended October 31, 2011, swap yields generally declined and hence on a stand-alone basis the swaps have detracted from the performance of the fund on a marked to market basis. However, the use of leverage in the Fund has, in overall terms, added value to the performance of the Fund.

During the quarter ended October 31, 2011, the manager closed-out a number of open swap transactions and re-established new fixed paid swap positions. Previous open swap positions with maturities in April 21, 2012, June 30, 2014, April 27, 2016 and May 4, 2016 for a total notional value of USD \$36m were closed and new 3 and 5 year swap positions were opened for notional amounts of USD \$20m and USD \$16m respectively. The closing of the original swap positions was undertaken in order to realize certain tax losses in the 2011 financial year and as a partial offset to realized gains in other segments of the Fund's investments. Due to the decline in overall market interest rates since the establishment of the original swap positions these transactions, while realizing losses in the short term, have been re-established at lower interest rate levels.

The Fund also employed foreign exchange forwards to manage the exposure to the New Zealand Dollar and British Pound Sterling. These forwards subtracted value by 0.26%.

Portfolio Composition (unaudited)

Quality of Investments

As of October 31, 2011, 72.8% of the Fund's total investments were invested in securities where either the issue or the issuer was rated at A or better by Standard & Poor's Corporation or Moody's Investors Service, Inc., or, if unrated, judged to be of equivalent quality by the Investment Manager. The table below shows the asset quality of the Fund's portfolio as of October 31, 2011, compared with the previous six and twelve months:

Date	AAA/Aaa %	AA/Aa %	A %	BBB/Baa %	BB/Ba* %	B* %	CCC* %
October 31, 2011	42.7	23.2	6.9	12.4	8.2	6.6	0.0
April 30, 2011	47.8	13.4	11.5	13.0	8.2	6.1	0.0
October 31, 2010	46.2	12.4	10.8	13.0	11.3	6.3	0.0

* Below investment grade

Geographic Composition

The Fund's investments are divided into three categories: Developed Markets, Investment Grade Developing Markets and Sub-Investment Grade Developing Markets. The table below shows the geographical composition (i.e., with U.S. Dollar denominated bonds issued by foreign issuers allocated into country of issuance) of the Fund's total investments as of October 31, 2011, compared with the previous six and twelve months:

Date	Developed Markets %	Investment Grade Developing Markets %	Sub-Investment Grade Developing Markets %
October 31, 2011	76.0	11.5	12.5
April 30, 2011	76.7	11.3	12.0
October 31, 2010	75.5	10.2	14.3

Currency Composition

The table below shows the currency composition of the Fund's total investments as of October 31, 2011, compared with the previous six and twelve months:

Date	Developed Markets %	Investment Grade Developing Markets %	Sub-Investment Grade Developing Markets %
October 31, 2011	96.1	2.1	1.8
April 30, 2011	95.0	2.0	3.0
October 31, 2010	92.7	2.5	4.8

Maturity Composition

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

As of October 31, 2011, the average maturity of the Fund's total investments was 10.2 years, compared with 9.6 years at October 31, 2010 and 9.4 years at April 30, 2011. The table below shows the maturity composition of the Fund's investments as of October 31, 2011, compared with the previous six and twelve months:

Date	Under 3 Years %	3 to 5 Years %	5 to 10 Years %	10 Years & Over %
October 31, 2011	24.8	11.6	28.4	35.2
April 30, 2011	27.5	14.8	31.2	26.5
October 31, 2010	26.6	16.4	27.4	29.6

Aberdeen Global Income Fund, Inc.

Financial Highlights (concluded)

- (a) Based on average shares outstanding.
- (b) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.
- (c) Ratios calculated on the basis of income, expenses and preferred share dividends applicable to both the common and preferred shares relative to the average net assets of common shareholders. For each of the years ended October 31, 2011, 2010, 2009, 2008, and 2007 the ratios of net investment income before preferred stock dividends to average net assets of common shareholders were 5.47%, 6.02%, 6.02%, 6.13% and 5.93%, respectively.
- (d) Includes expenses of both preferred and common stock.
- (e) In 2009, the Fund filed a non-routine proxy to consider approval of a new sub-advisory agreement among the Fund, Investment Manager, and Sub-Adviser. The Fund and the Investment Manager agreed to each bear equal responsibility with respect to the costs of soliciting proxies associated with the non-routine item.
- (f) Asset coverage ratio is calculated by dividing net assets plus the amount of any borrowings, including Auction Market Preferred Stock, for investment purposes by the amount of any borrowings.

See Notes to Financial Statements.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements

October 31, 2011

1. Organization

Aberdeen Global Income Fund, Inc. (the Fund) was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified management investment company. The Fund's principal investment objective is to provide high current income by investing primarily in fixed income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund's investments are divided into three categories: Developed Markets, Investment Grade Developing Markets and Sub-Investment Grade Developing Markets. Developed Markets are those countries contained in the Citigroup World Government Bond Index, Luxembourg and Hong Kong Special Administrative Region. New Zealand is not in the Citigroup World Government Bond Index because New Zealand's debt market does not meet the minimum size requirements of the Index. New Zealand had previously been included in the Index. Aberdeen Asset Management Asia Limited (the Investment Manager) requested the Fund's Board of Directors (the Board) to consider New Zealand as a Developed Market due to New Zealand's debt structure and stability. Based on the information presented at the Board meeting held on December 8, 2010, the Board approved the classification of New Zealand as a Developed Market for investment purposes. Investment Grade Developing Markets are those countries whose sovereign debt is rated not less than Baa3 by Moody's Investors Services Inc. (Moody's) or BBB- by Standard & Poor's (S&P). Sub-Investment Grade Developing Markets are those countries that are not Developed Markets or Investment Grade Developing Markets. Under normal circumstances, at least 60% of the Fund's total assets are invested in fixed income securities of issuers in Developed Markets or Investment Grade Developing Markets, whether or not denominated in the currency of such country; provided, however, that the Fund will invest at least 40% of its total assets in fixed income securities of issuers in Developed Markets. The Fund may only invest up to 40% of its total assets in fixed income securities of issuers in Sub-Investment Grade Developing Markets whether or not denominated in the currency of such country. There can be no assurance that the Fund will achieve its investment objective. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

In order to comply with a rule adopted by the U.S. Securities and Exchange Commission (the SEC) under the Investment Company Act of 1940 (the 1940 Act) regarding fund names, the Board has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt

securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board upon 60 days' prior written notice to shareholders.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The accounting records of the Fund are maintained in U.S. Dollars. The U.S. Dollar is used as both the functional and reporting currency. However, the Australian Dollar, Canadian Dollar and British Pound are the functional currencies for U.S. federal tax purposes.

(a) Security Valuation:

Securities for which market quotations are readily available are valued at current market value as of the Valuation Time. The Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time). Equity securities are valued at the last quoted sale price. Effective January 1, 2011, if there is no sale price available, the last quoted mean price provided by an independent pricing service approved by the Board is used. Prior to January 1, 2011, if there was no sale price, the last quoted bid price provided by an independent pricing service was used. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Management has concluded there is no significant effect on the value of the portfolio due to the change in methodology. Prices are taken from the primary market or exchange on which each security trades. Investment companies are valued at net asset value as reported by such company.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Most securities listed on a foreign exchange are valued at the last sale price at the close of the exchange on which the security is principally traded or by application of a valuation factor by an independent pricing service to the last sales price as further discussed below. Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of the Valuation Time, as provided by an independent pricing service approved by the Board.

Debt and other fixed-income securities (other than short-term obligations) are valued at the last quoted bid price and/or by using a combination of daily quotes and matrix evaluations provided by an

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

independent pricing service, the use of which has been approved by the Board. In the event such quotes are not available from such pricing agents, then the security may be priced based on bid quotations from broker-dealers. Short-term debt securities of sufficient credit quality, such as commercial paper and U.S. Treasury Bills having a remaining maturity of 60 days or less at the time of purchase, are valued at amortized cost, which approximates fair value.

Securities for which market quotations are not readily available, or for which an independent pricing service does not provide a value or provides a value that does not represent fair value in the judgment of the Fund's Investment Adviser or designee, are valued at fair value under procedures approved by the Board. In addition, fair value determinations are required for securities whose value is affected by a significant event that materially affects the value of a domestic or foreign security which occurs subsequent to the time of the close of the principal market on which such domestic or foreign security trades and before the Valuation Time (i.e., a subsequent event). Typically, this will involve events occurring after the close of a foreign market on which a security trades and before the next Valuation Time.

For the year ended October 31, 2011, other than described above, there have been no significant changes to the valuation procedures approved by the Board.

The Fund is required to disclose information regarding the fair value measurements of the Fund's assets and liabilities. Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. The disclosure requirements utilize a three-tier hierarchy to maximize the use of observable market data, minimize the use of unobservable inputs and establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability, which are based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

Generally, equity securities valued at the last quoted sale price or official closing price reported on the exchange (US or foreign) or over-the-counter market on which they trade are categorized as Level 1 securities. Securities valued at fair value by applying a valuation factor are generally categorized as Level 2. Generally, debt and other fixed-income securities are categorized as Level 2. For derivative instruments, exchange-traded derivatives, i.e., future contracts, are generally categorized as Level 1 and over-the-counter derivative instruments, i.e., forward contracts and swap contracts, are generally categorized as Level 2.

Notes to Financial Statements (continued)

The following is a summary of the inputs used to value the Fund's investments as of October 31, 2011:

Assets	Level 1*	Level 2*	Level 3
Fixed Income Investments			
Government Bonds	\$	\$ 115,291,749	\$
Corporate Bonds		30,416,571	
Total Fixed Income Investments		145,708,320	
Short-Term Investment		3,604,000	
Total Investments	\$	\$ 149,312,320	\$
Other Financial Instruments			
Interest Rate Swap Agreements	\$	\$	\$
Futures Contracts			
Forward Foreign Currency Exchange Contracts		83,371	
Total Other Financial Instruments		83,371	
Total Assets	\$	\$ 149,395,691	\$
Liabilities			
Other Financial Instruments			
Interest Rate Swap Agreements	\$	\$ (172,011)	\$
Futures Contracts	(49,108)		
Forward Foreign Currency Exchange Contracts		(197,104)	
Total Liabilities - Other Financial Instruments	\$ (49,108)	\$ (369,115)	\$

For further information, please refer to the Portfolio of Investments.

* For the year ended October 31, 2011, there were no significant transfers in or out of Level 1 and Level 2 fair value measurements.

For the year ended October 31, 2011, there have been no significant changes to the fair valuation methodologies.

(b) Repurchase Agreements:

The Fund may enter into repurchase agreements. It is the Fund's policy that its custodian/counterparty segregate the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the counterparty defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited. The Fund held a repurchase agreement of \$3,604,000 as of October 31, 2011.

(c) Restricted Securities:

Restricted securities are privately-placed securities whose resale is restricted under U.S. securities laws. The Fund may invest in

restricted securities, including unregistered securities eligible for resale without registration pursuant to Rule 144A and privately-placed securities of U.S. and non-U.S. issuers offered outside the U.S. without registration with the U.S. Securities and Exchange Commission pursuant to Regulation S under the Securities Act of 1933, as amended. Rule 144A Securities and Regulation S Securities may be freely traded among certain qualified institutional investors, such as the Fund, but whose resale in the U.S. is permitted only in limited circumstances.

(d) Foreign Currency Translation:

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Foreign currency amounts are translated into U.S. Dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the exchange rates at the current daily rates of exchange; and
- (ii) purchases and sales of investment securities, income and expenses at the rate of exchange prevailing on the respective dates of such transactions.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

The Fund isolates that portion of the results of operations arising from changes in the foreign exchange rates due to the fluctuations in the market prices of the securities held at the end of the reporting period. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net exchange gain/(loss) is realized from sales and maturities of portfolio securities, sales of foreign currencies, settlement of securities transactions, dividends, interest and foreign withholding taxes recorded on the Fund's books. Net unrealized foreign exchange appreciation/(depreciation) includes changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. The net realized and unrealized foreign exchange gain/(loss) shown in the composition of net assets represents foreign exchange gain/(loss) for book purposes that may not have been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. Dollar. Generally, when the U.S. Dollar rises in value against foreign currency, the Fund's investments denominated in that currency will lose value because its currency is worth fewer U.S. Dollars; the opposite effect occurs if the U.S. Dollar falls in relative value.

(e) Derivative Financial Instruments:

The Fund is authorized to use derivatives to manage currency risk, credit risk and interest rate risk and to replicate or as a substitute for physical securities. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Swaps:

During the year ended October 31, 2011, the Fund entered into interest rate swaps as a tool to hedge the leverage of the Fund. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or notional principal amount. The Fund will enter into swaps only on a net basis, which means that the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the difference between the two payments. Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a

counterparty is generally limited to the net interest payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying reference asset or index. The Fund records unrealized gains/(losses) on a daily basis representing the value and the current net receivable or payable relating to open swap contracts. Net amounts received or paid on the swap contract are recorded as realized gains/(losses). Fluctuations in the value of swap contracts are recorded for financial statement purposes as unrealized appreciation or depreciation of swap contracts. Realized gains/(losses) from terminated swaps are included in net realized gains/(losses) on swap contracts transactions.

The Fund is a party to International Swap Dealers Association, Inc. Master Agreements (ISDA Master Agreements). These agreements are with select counterparties and they govern transactions, including certain over-the-counter derivative and foreign exchange contracts, entered into by the Fund and the counterparty. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable ISDA Master Agreement.

Forward Foreign Currency Exchange Contracts:

A forward foreign currency exchange contract (forward contract) involves an obligation to purchase and sell a specific currency at a future date at a price set at the time of the contract. Forward contracts are used to manage the Fund's currency exposure in an efficient manner. They are used to sell unwanted currency exposure that comes with holding securities in a market, or to buy currency exposure where the exposure from holding securities is insufficient to give the desired currency exposure either in absolute terms or relative to the benchmark. Their use allows the separation of decision making between markets and their currencies. The forward contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized appreciation or depreciation. Forwards prices are received daily from an independent pricing

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

provider. When the forward contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. These unrealized and realized gains and losses are reported on the Statement of Operations. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

contracts and from unanticipated movements in exchange rates. During the year ended October 31, 2011, forward contracts were used to manage the exposure to the New Zealand Dollar and the British Pound Sterling.

Futures Contracts:

The Fund may invest in financial futures contracts (futures contracts) for the purpose of hedging its existing portfolio securities or securities that the Fund intends to purchase against fluctuations in value caused by changes in prevailing market interest rates or prices. Futures contracts may also be entered into for non-hedging purposes; however, in those instances, the aggregate initial margin and premiums required to establish the Fund's positions may not exceed 5% of the Fund's net asset value (NAV) after taking into account unrealized profits and unrealized losses on any such contract it has entered into.

Upon entering into a futures contract, the Fund is required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as variation margin, are calculated each day, depending on the daily fluctuations in the fair value/

market value of the underlying assets. An unrealized gain or (loss) equal to the variation margin is recognized on a daily basis. When the contract expires or is closed the gain/(loss) is realized and is presented in the Statement of Operations as a net realized gain/(loss) on futures contracts. Futures contracts are valued daily at their last quoted sale price on the exchange on which they are traded.

A sale of a futures contract means a contractual obligation to deliver the securities or foreign currency called for by the contract at a fixed price at a specified time in the future. A purchase of a futures contract means a contractual obligation to acquire the securities or foreign currency at a fixed price at a specified time in the future.

Should market conditions change unexpectedly, the Fund may not achieve the anticipated benefits of the futures contracts and may realize a loss. The use of futures transactions for hedging purposes involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates and the value/market value of the underlying hedged assets. During the year ended October 31, 2011, futures contracts were used to manage the Fund's interest rate exposure.

Summary of Derivative Instruments:

The Fund may use derivatives for various purposes as noted above. The following is a summary of the fair value of Derivative Instruments, not accounted for as hedging instruments, as of October 31, 2011:

	Asset Derivatives 2011		Liability Derivatives 2011	
	Statement of Assets		Statement of Assets	
	and Liabilities Location	Fair Value	and Liabilities Location	Fair Value
Derivatives not accounted for as hedging instruments and risk exposure				
Interest rate swaps (interest rate risk)	Unrealized appreciation on interest rate swaps	\$	Unrealized depreciation on interest rate swaps	\$ 172,011
Forward foreign exchange contracts (foreign exchange risk)	Unrealized appreciation on forward foreign currency exchange contracts	83,371	Unrealized depreciation on forward foreign currency exchange contracts	197,104

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Futures contracts (interest rate risk)*	Unrealized appreciation on futures contracts	Unrealized depreciation on futures contracts	49,108
Total			
	\$ 83,371		\$ 418,223

* Includes cumulative appreciation/depreciation of futures contracts as reported in the Statement of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

The Effect of Derivative Instruments on the Statement of Operations

Year Ended October 31, 2011

Derivatives Not accounted for as Hedging Instruments under Codification 815	Location of Gain or (Loss) on Derivatives	Realized Gain or (Loss) on Derivatives	Change in Unrealized Gain or (Loss) on Derivatives
	Realized and Unrealized Gains/(Losses) on Investments, Interest Rate Swaps, Futures Contracts and Foreign Currencies		
Interest rate swaps (interest rate risk)		\$ (2,042,906)	\$ 606,770
Forward foreign exchange contracts (foreign exchange risk)		(582,467)	44,672
Futures contracts (interest rate risk)		625,298	98,433
Total		\$ (2,000,075)	\$ 749,875

Information about futures contracts reflected as of the date of this report is generally indicative of the type of derivative activity for the year ended October 31, 2011. During the year the Fund also held positions in 10-year Australian TBonds, 90-day Australian Bank Bills, and 30-day Australian Interbank Cash Rate Futures. The volume of futures positions varied throughout the year. The quarterly weighted average of contracts and notional values for the Fund's future positions were as follows:

Quarter	Weighted Average Contracts	Weighted Average Notional Value
1 st Quarter	69	7,092,352
2 nd Quarter	67	2,030,715
3 rd Quarter	51	453,223
4 th Quarter	121	13,282,939

Information about interest rate swaps reflected as of the date of this reports is generally indicative of the type of activity for the year ended October 31, 2011. The volume for the first three quarters was unvaried due to the Fund holding only short positions, during the fourth quarter the Fund entered into a long position which increased the notional value. The quarterly weighted average notional values for the Fund's interest rate swap positions were as follows:

Quarter	Weighted Average Notional Value
1 st Quarter	(21,000,000)
2 nd Quarter	(26,000,000)
3 rd Quarter	(36,000,000)

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

4th Quarter (32,000,000)

Information about forward foreign currency contracts reflected as of the date of this report is generally indicative of the type of activity for the year ended October 31, 2011. During the year, the Fund also held forward contracts in PLN. The volume of forward contracts remained consistent throughout the year with an average notional value of 16,719,025. The quarterly average notional values for the Fund's forward contracts were as follows:

	Average
Quarter	Notional Value
1 st Quarter	16,777,330
2 nd Quarter	15,851,742
3 rd Quarter	15,501,821
4 th Quarter	18,745,209

The Fund values derivatives at fair value, as described in this note, and recognizes changes in fair value currently in the results of operations. Accordingly, the Fund does not follow hedge accounting even for derivatives employed as economic hedges.

(f) Security Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

(g) Distributions:

It is the Fund's current policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Dividends and distributions to shareholders are recorded on the ex-dividend date.

Dividends and distributions to shareholders are determined in accordance with federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

(h) Federal Income Taxes:

For federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains/(losses) resulting from the repatriation of any of the functional currencies (Australian Dollar, Canadian Dollar or British Pound) into U.S. Dollars or another functional currency and realized currency gains and losses on non-functional currencies are recognized for U.S. federal tax purposes.

The Fund intends to qualify or continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in Subchapter M of the Internal Revenue Code, and to make distributions of net investment income and net realized capital gains sufficient to relieve the Fund from all, or substantially all, federal income taxes. Therefore, no federal income tax provision is required.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's U.S. federal and state tax returns for each of the four fiscal years up to the most recent fiscal year ended October 31 are subject to such review.

(i) Earnings Credits:

The Fund's custodial arrangements include a provision to reduce its custodial fees by the amount of earnings credits recognized on cash deposits in demand deposit accounts.

(j) Cash Flow Information:

The Fund invests in securities and distributes dividends from net investment income and net realized gains on investment and

currency transactions which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statements of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency but does not include cash at brokers in segregated accounts for financial futures contracts because it is designated as collateral.

3. Agreements and Transactions with Affiliates

(a) Investment Manager, Investment Adviser, and Investment Sub-Adviser:

Aberdeen Asset Management Asia Limited (the Investment Manager) serves as investment manager to the Fund, pursuant to a management agreement. Aberdeen Asset Management Limited (the Investment Adviser) serves as the investment adviser and Aberdeen Asset Management Investment Services Limited (the Sub-Adviser) serves as the sub-adviser, pursuant to an advisory agreement and a sub-advisory agreement, respectively. The Investment Manager, the Investment Adviser and the Sub-Adviser are wholly-owned subsidiaries of Aberdeen Asset Management PLC.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund. The Sub-Adviser manages the portion of the Fund's assets that the Investment Manager allocates to it.

The management agreement provides the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly Managed Assets up to \$200 million, 0.60% of Managed Assets between \$200 million and \$500 million, and 0.55% of Managed Assets in excess of \$500 million. Managed Assets is defined in the management agreement as net assets plus the amount of any borrowings for investment purposes.

The Investment Manager pays fees to the Investment Adviser for its services rendered. The Investment Manager informed the Fund that it paid \$307,278 to the Investment Adviser during the year ended October 31, 2011. As compensation for its services under the Sub-Advisory Agreement, the Sub-Adviser received \$151,330 in sub-advisory fees during the year ended October 31, 2011.

(b) Fund Administration:

Aberdeen Asset Management Inc. (AAMI), an affiliate of the Investment Manager, Investment Adviser and Sub-Adviser, is the Fund's Administrator, pursuant to an agreement under which AAMI

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

receives a fee, at an annual fee rate of 0.125% of the Fund's average weekly Managed Assets up to \$1 billion, 0.10% of the Fund's average weekly Managed Assets between \$1 billion and \$2 billion, and 0.075% of the Fund's average weekly Managed Assets in excess of \$2 billion.

(c) Investor Relations:

Under terms of an Investor Relations Services Agreement, AAMI serves as the Fund's investor relations services provider. During the year ended October 31, 2011, the Fund incurred fees of approximately \$108,496. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

4. Investment Transactions

Purchases and sales of investment securities (excluding short-term securities) for the fiscal year ended October 31, 2011, were \$111,378,530 and \$119,533,004, respectively.

5. Capital

There are 300 million shares of \$0.001 par value common stock authorized. At October 31, 2011, there were 9,044,194 shares of common stock issued and outstanding.

On March 1, 2001, the Board approved a stock repurchase program. The Board amended the program on December 12, 2007. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12-month period, if and when the discount to NAV is at least 8%. For the fiscal year ended October 31, 2011 and fiscal year ended October 31, 2010, the Fund did not repurchase any shares through this program.

6. Revolving Credit Facility

The Fund's revolving credit loan facility with The Bank of Nova Scotia was renewed for another 364 day term on March 3, 2011. For the fiscal year ended October 31, 2011, the balance of the loan outstanding was \$40 million, and the average interest rate on the loan facility was 1.33%. The average balance for the fiscal year was \$40 million. The interest expense is accrued on a daily basis and is payable to The Bank of Nova Scotia on a monthly basis.

The amounts borrowed from the loan facility may be invested at higher rates in the Fund's portfolio. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund

invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage.

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the loan facility may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is not permitted to declare dividends or other distributions in the event of default under the loan facility. In the event of a default under the credit agreement, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. The loan facility has a term of 364 days and is not a perpetual form of leverage; there can be no assurance that the loan facility will be available for renewal on acceptable terms, if at all. Bank loan fees and expenses included in the Statement of Operations include fees for the renewal of the loan facility as well as commitment fees for any portion of the loan facility not drawn upon at any time during the period. During the year ended October 31, 2011, the Fund incurred fees of approximately \$3,812.

The credit agreement governing the loan facility includes usual and customary covenants for this type of transaction. These covenants impose on the Fund asset coverage requirements, fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on the Fund by the 1940 Act. The covenants or guidelines could impede the Investment Manager, Investment Adviser or Sub-Adviser from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the occurrence of other events could lead to the cancellation of the loan facility. The covenants also

include a requirement that the Fund maintain net assets of no less than \$75 million.

7. Portfolio Investment Risks

(a) Credit and Market Risk:

Funds that invest in high yield and emerging market instruments are subject to certain additional credit and market risks. The yields of high yield and emerging market debt obligations reflect, among other things, perceived credit risk. The Fund's investments in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk of not receiving timely and/or ultimate payment of

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

interest and principal, greater market price volatility, and less liquid secondary market trading. The consequences of political, social, economic, or diplomatic changes may have disruptive effects on the market prices of emerging markets investments held by the Fund.

(b) Interest Rate Risk:

The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the creditworthiness of individual issuers, including governments. Generally, a Fund's fixed income securities will decrease in value if interest rates rise and vice versa, and the volatility of lower-rated securities is even greater than that of higher-rated securities. Also, longer-term securities are generally more volatile, so the average maturity or duration of these securities affects risk.

(c) Risks Associated with Foreign Securities and Currencies:

Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, political or social instability or diplomatic developments, which could adversely affect investments in those countries.

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers of industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and high price

volatility with respect to securities of issuers from developing countries.

(d) Concentration Risk:

The Fund may have elements of risk not typically associated with investments in the United States of America due to concentrated investments in a limited number of countries or regions subject to foreign securities or currencies risks. Such concentrations may subject the Fund to additional risks resulting from political or economic conditions in such countries or regions and the possible imposition of adverse governmental laws or currency exchange restrictions could cause the securities and their markets to be less liquid and their prices to be more volatile than those of comparable U.S. securities.

8. Contingencies

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund, and therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

9. Tax Information

The U.S. federal income tax basis of the Fund's investments and the net unrealized appreciation as of October 31, 2011 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net
			Unrealized Appreciation
\$144,466,037	\$ 6,981,277	\$ (2,134,994)	\$ 4,846,283

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The tax character of distributions paid during the fiscal years ended October 31, 2011 and October 31, 2010 was as follows:

	October 31, 2011	October 31, 2010
Distributions paid from:		
Ordinary Income	\$ 7,597,123	\$ 7,585,837
Tax return of capital		
Total tax character of distributions	\$ 7,597,123	\$ 7,585,837

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (concluded)

As of October 31, 2011, the components of accumulated earning on a tax basis were as follows:

Undistributed ordinary income net	\$ 2,323,615
Undistributed long-term capital gains net	
Total undistributed earnings	2,323,615
Capital loss carryforward	(8,184,221)*
Other currency gains	9,775,102
Unrealized appreciation/(depreciation) securities	4,846,283**
Unrealized appreciation/(depreciation) foreign currency	9,276,621**
Total accumulated earnings/(losses) net	18,037,400

* On October 31, 2011, the Fund had a net capital loss carryforward of \$8,184,221 of which \$1,404,810 expires in 2015, \$2,330,488 expires in 2016 and \$4,448,923 expires in 2017. This amount will be available to offset like amounts of any future taxable gains. Under the recently enacted Regulated Investment Company Modernization Act of 2010, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

** The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities, differing treatments for foreign currencies, the tax deferral of wash sales and straddles, the realization for tax purposes of unrealized gains/(losses) on certain foreign currency contracts, and other timing differences.

GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, during the current year, \$6,087,183 has been reclassified between accumulated net investment income and accumulated net realized loss on investment transactions as a result of permanent differences primarily attributable to foreign currency transactions. These reclassifications have no effect on net assets or net asset values per share.

10. Recent Accounting Pronouncements

Fair Valuation:

In May 2011, FASB issued ASU No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and IFRS. ASU No. 2011-04 establishes common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (IFRS). ASU

No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011. Management is currently evaluating the impact ASU No. 2011-04 may have on financial statement disclosures.

11. Subsequent Events

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the Financial Statements were issued. Based on this evaluation, no disclosures or adjustments were required to the Financial Statements other than the following disclosed subsequent event.

The Fund declared monthly distributions of \$0.07 per share payable on December 16, 2011 and January 13, 2012 to shareholders of record as of November 30, 2011 and December 30, 2011, respectively. The Fund also declared a special distribution of \$0.08 per share payable on January

13, 2012.

Aberdeen Global Income Fund, Inc.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders of

Aberdeen Global Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the Aberdeen Global Income Fund, Inc. (the Fund), as of October 31, 2011, and the related statements of operations and cash flows for the year then ended, and the statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the three-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The financial highlights for each of the years in the two-year period ended October 31, 2008, were audited by other auditors. Those auditors expressed an unqualified opinion on the statement of changes in net assets and financial highlights in their report dated December 23, 2008.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and

financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2011, by correspondence with custodians and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights of the Aberdeen Global Income Fund, Inc. present fairly, in all material respects, the financial position of the Fund as of October 31, 2011, and the results of its operations and cash flows for the year then ended, and its changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the three-year period then ended, in conformity with U.S. generally accepted accounting principles.

Philadelphia, Pennsylvania

December 28, 2011

Aberdeen Global Income Fund, Inc.

Important Tax Information (unaudited)

The following information is provided with respect to the distributions paid by the Aberdeen Global Income Fund, Inc. during the fiscal year ended October 31, 2011:

Common Shareholders

Payable Date	Foreign Taxes Paid *	Foreign Source Income**
November 12, 2010-October 14, 2011	(0.777)%	93.68%

Expressed as a percentage of the distributions paid.

* The foreign taxes paid represent taxes incurred by the Fund on interest received from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments. You should consult your tax advisor regarding the appropriate treatment of foreign taxes paid.

** Expressed as a percentage of ordinary distributions paid grossed-up for foreign taxes paid.

Supplemental Information (unaudited)

Considerations in Approving Renewal of Management Agreement, Investment Advisory Agreement, and Investment Sub-Advisory Agreement (FCO)

At an in-person meeting of the Board of Directors (the **Board**) of the Aberdeen Global Income Fund, Inc. (**Fund**) held on September 7, 2011, the Board, including all of the Directors who are not considered to be **interested persons** as such term is defined under the Investment Company Act of 1940, as amended, of the Fund (**Independent Directors**), considered and approved for an additional twelve-month term the continuation of the Fund's management agreement with Aberdeen Asset Management Asia Limited (**Investment Manager**), the investment advisory agreement among the Fund, the Investment Manager and Aberdeen Asset Management Limited (**Investment Adviser**), and the investment sub-advisory agreement among the Fund, the Investment Manager and Aberdeen Asset Management Investment Services Limited (**Investment Sub-Adviser**) (collectively, **Agreements**). The Investment Adviser and Investment Sub-Adviser are affiliates of the Investment Manager. The Investment Manager, Investment Adviser, and Investment Sub-Adviser are sometimes each referred to as an **Adviser** and, collectively, as the **Advisers**.

The Independent Directors were advised by separate independent legal counsel throughout the process. In advance of the meeting, the Independent Directors received a memorandum from their independent legal counsel discussing the legal standards for their consideration of the proposed continuation of the Agreements. At the meeting, the Directors reviewed a report prepared by the

Advisers in response to a request submitted by the Independent Directors' independent legal counsel on behalf of such Directors, and discussed this report with representatives of the Advisers. The Independent Directors also consulted in executive sessions with counsel to the Independent Directors regarding the renewal of the Agreements. The Directors also considered the recommendation of the Contract Review Committee of the Board (the **Committee**), consisting solely of Independent Directors, that the Agreements be renewed, noting that the Committee also had

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

discussed, with representatives of management and separately in executive sessions with independent counsel at which no representatives of management were present, among other factors, the nature, extent and quality of the management, advisory and sub-advisory services provided to the Fund by the Advisers, the level of the management, advisory and sub-advisory fees, the costs of the services provided and the profits realized by the Advisers and their affiliates, the Fund's expense ratio, Fund performance, the Fund's and the Advisers' compliance programs, any economies of scale with respect to the management of the Fund, and any ancillary benefits received by the Advisers and their affiliates as a result of their relationship with the Fund, and various other matters included within the report of the Advisers.

In considering whether to approve the renewal of the Agreements, the Directors received and considered a variety of information provided by the Advisers relating to the Fund, the Agreements and the Advisers, including comparative performance, fee and expense information of a peer group of funds selected by an independent

Aberdeen Global Income Fund, Inc.

Supplemental Information (unaudited) (continued)

third-party provider of investment company data, performance information for relevant benchmark indices and other information regarding the nature, extent and quality of services provided by the Advisers under their respective Agreements. The Board's materials also contained information as to the profitability of the Advisers and their affiliates from their relationship with the Fund. The Committee and the Board of Directors, including the Independent Directors, also considered other matters such as (i) the Advisers' financial results and financial condition, (ii) the Fund's investment objective and strategies, (iii) the Advisers' investment personnel and operations, (iv) the procedures employed to determine the value of the Fund's assets, (v) the allocation of the Fund's brokerage, if any, including, if applicable, allocations to brokers affiliated with the Advisers and the use, if any, of soft commission dollars to pay Fund expenses and to pay for research and other similar services, (vi) the resources devoted to, and the record of compliance with, the Fund's investment policies and restrictions, policies on personal securities transactions and other compliance policies, and (vii) possible conflicts of interest. Throughout the process, the Directors were afforded the opportunity to ask questions of and request additional information from management.

In addition to the materials requested by the Directors in connection with their consideration of the renewal of the Agreements, the Directors receive materials in advance of each regular quarterly meeting that provide information relating to the services provided by the Advisers. In this regard, the Board reviews reports of the Advisers, which include, among other things, a portfolio review and Fund performance reports.

In approving (or, in the case of the Committee, recommending) the renewal of the Agreements, the Committee and the Board of Directors reached, among others, the following conclusions:

Nature, Extent and Quality of Services. The Committee and the Board were satisfied with the nature, quality and extent of services provided by the Advisers. In reaching this conclusion, the Committee and the Board reviewed, among other things, the Advisers' investment experience, including the growth and development of their Far East operations as well as the Aberdeen Group's global investment management activities, including in emerging markets, and the Aberdeen Group's growth in Australia. The Board (and the Committee) received information regarding the Advisers' compliance with applicable laws and SEC and other regulatory inquiries or audits of the Fund and the Advisers. The Committee and the Board also considered the background and experience of the Advisers' senior management personnel and the qualifications, background and responsibilities of the portfolio managers primarily responsible for the day-to-day portfolio management services for the Fund. The Committee and the Board also considered the allocation of responsibilities among the Advisers. In addition, the Committee and the Board considered the financial condition of the Advisers and whether they had the financial wherewithal to provide a high level and quality of service to the Fund. The Committee and the Board also considered information received from the Fund's Chief Compliance Officer regarding the Advisers' compliance policies and procedures. The Committee and the Board also took into account the Advisers' risk management processes. The Committee and the Board also considered the Advisers' brokerage policies and practices. Management also reported to the Committee and the Board on, among other things, its business plans and organizational changes. The Committee and the Board also noted that the Board reviewed and assessed the quality of the services the Fund receives from the Advisers throughout the year, and received detailed portfolio review and performance reports on a regular basis. The Committee and the Board determined that the advisory services provided were extensive in nature and of high quality.

Fees and Expenses. The effective annual management fee rate paid by the Fund to the Investment Manager for investment management services was within a reasonable range relative to the effective advisory fee rates of a peer group consisting of closed-end funds in the World Bond and Emerging Markets Bond Morningstar categories as compiled by Strategic Insight (SI), an independent third-party provider of mutual fund data (the Peer Group), including Aberdeen Asia-Pacific Income Fund, Inc., another U.S. registered closed-end fund managed by the Investment Manager and First Trust/Aberdeen Global Opportunity Income Fund, a U.S. registered closed-end fund sub-advised by Aberdeen Asset Management Inc., an affiliate of the Advisers and Aberdeen Asset Management Inc., administrator to the Fund (AAMI). The SI data indicated that the Fund's effective management fee rate (computed based on average managed assets for the six months ended April 30, 2011, and which reflects both the advisory fee and the administration fee) was below the Peer Group's median and average fee rates, respectively. The Committee and the Board noted that, among other information, the SI data also indicated that the Fund's annualized expense ratio based on average managed assets, which includes the Fund's assets attributable to its common stock plus borrowings for investment purposes, including leverage, for the six months ended April 30, 2011 was above the average and median expense ratios, respectively, of the Peer Group. The data also indicated that the Fund's annualized expense ratio based on average net assets, excluding the principal amount of borrowings, for the six months ended April 30, 2011

Aberdeen Global Income Fund, Inc.

Supplemental Information (unaudited) (continued)

was above the average and median expense ratios of its Peer Group. The Committee and the Board took into account the impact of leverage on Fund expenses. The Committee and the Board also took into account the management fee structure, including that management fees for the Fund were based on the Fund's total Managed Assets, whether attributable to common stock, preferred stock or bank borrowings. The Committee and the Board also considered that the compensation paid to the Investment Adviser and Investment Sub-Adviser is paid by the Investment Manager and not the Fund, and, accordingly that the retention of the Investment Adviser and Investment Sub-Adviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders. The Committee and the Board also took into account the size of the Fund and its effect on the Fund's expense ratio. The Committee and the Board also took into account management's discussion of the Fund's expenses, including the factors that impacted the Fund's expenses, as well as certain actions previously taken to reduce the Fund's operating expenses. The Committee and the Board also received information from management regarding the fees charged by the Advisers to other U.S. and non-U.S. clients investing primarily in an asset class similar to that of the Fund, including, two segregated accounts with a global mandate. The Committee and the Board considered the fee comparisons in light of differences required to manage the different types of accounts. The Committee and the Board also noted that the SI report indicated that the Fund's effective management fee rate was above the effective management fee rate paid by one Aberdeen-managed fund in its Peer Group, and below the effective management fee rate paid by another Aberdeen-managed fund in its Peer Group. The Committee and the Board concluded that the fee paid by the Fund was reasonable, given the differences in the funds' sizes, investment objectives and restrictions, and diversification requirements.

Performance. The Committee and the Board received and reviewed, among other performance data, information compiled by SI as to the Fund's total return, as compared to the funds in the Fund's Morningstar category (the Morningstar Group). The SI report indicated that the Fund's performance was in the 2nd quintile for the year-to-date period ended April 30, 2011, was in the 1st quintile for the one- year period ended April 30, 2011, was in the 4th quintile for the three- year period ended April 30, 2011, and was in the 5th quintile for the five- year period ended April 30, 2011. The Committee and the Board also received performance information from management that compared the Fund's return to comparable non-U.S. investment companies in its Lipper category.

The Committee and the Board received and considered information for each of the last five fiscal years regarding the Fund's total return on a gross and net basis and relative to the Fund's benchmark, the Fund's share performance and premium/discount information and the impact of foreign currency movements on the Fund's performance. The Committee and the Board also received and reviewed information as to the Fund's total return for each of the last five fiscal years as compared with the total returns of the Morningstar Group average, and other Aberdeen-managed funds and two segregated accounts with global bond mandates. The Committee and the Board considered management's discussion of the factors contributing to differences in performance, including differences in the investment strategies of each of these other funds and accounts. The Committee and the Board also reviewed information as to the Fund's discount/premium ranking relative to the Morningstar Group. The Committee and the Board also noted that on a gross basis, the Fund outperformed its composite benchmark before expenses and fees for the one-, three-, and five- year periods ended April 30, 2011. In considering the Fund's performance relative to its Peer Group and other comparable funds, the Committee and the Board took into account the peer group in which the Fund was placed and the differences in investment strategies among the funds. Taking into account the investment style and processes of the Advisers, as well as the peer group in which the Fund was placed for comparative purposes, the Committee and the Board concluded that overall performance results were satisfactory and supported renewal of the Agreements.

Economies of Scale. The Board determined that the management fee structure was reasonable and reflects economies of scale being shared between the Fund and the Advisers. This determination was based on factors including that the Fund's management fee schedule provides breakpoints at higher asset levels, and that the profitability of the Advisers was determined to be reasonable based upon the Board's review of the Peer Group data and other information provided to the Committee and the Board.

Profitability; Ancillary Benefits. The Committee and the Board considered information indicating the costs and profitability of the Advisers and their affiliates in providing services to the Fund, as well as any ancillary benefits. In addition, the Committee and the Board received information with respect to management's allocation methodologies used in preparing this profitability data. The Board noted that AAMI, an affiliate of the Advisers, provides administrative and investor relations services to the Fund, for

Supplemental Information (unaudited) (concluded)

which it receives fees. The Committee and the Board determined that in light of the nature, extent and quality of services provided to the Fund, the profitability of the Advisers and its affiliates from their relationship with the Fund was reasonable, and any ancillary benefits received by the Advisers and their affiliates as a result of their relationship with the Fund were reasonable.

In considering the Agreements, the Committee and the Board considered a variety of factors, including those factors discussed above. The Board did not identify any factor as all-important or

all-controlling and instead considered these factors collectively in light of the Fund's surrounding circumstances, and each Director may have attributed different weight to the various factors. Based on their deliberations and their evaluation of the information provided to them, the Committee and the Board, including a majority of the Independent Directors, concluded that approval of the renewal of the Agreements was in the best interests of the Fund and its shareholders. Accordingly, the Board, and the Independent Directors voting separately, approved the renewal of the Agreements.

Aberdeen Global Income Fund, Inc.

Management of the Fund (unaudited)

The names of the Directors and Officers of the Fund, their addresses, ages, and principal occupations during the past five years are provided in the tables below. Directors that are deemed interested persons (as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended) of the Fund, the Investment Manager or Investment Adviser are included in the table below under the heading Interested Directors. Directors who are not interested persons, as described above, are referred to in the table below under the heading Independent Directors.

Aberdeen Asset Management Asia Limited

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

Shares of Aberdeen Global Income Fund, Inc. are traded on the NYSE Amex Equities Exchange under the symbol FCO . Information about the Fund's net asset value and market price is available at www.aberdeenfco.com.

This report, including the financial information herein, is transmitted to the shareholders of Aberdeen Global Income Fund, Inc. for their general information only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person. Past performance is no guarantee of future returns.

Item 2 Code of Ethics.

As of October 31, 2011, the Registrant had adopted a Code of Ethics that applies to its principal executive officer, principal financial officer, principal accounting officer, or persons performing similar functions. During the period covered by this report, there were no material changes to the Code of Ethics. During the period covered by this report, there were no waivers to the provisions of the Code of Ethics. A copy of the Code of Ethics has been filed as an exhibit to this Form N-CSR.

Item 3 Audit Committee Financial Expert.

The Board of Directors of the Registrant has determined that each of the following members of its Audit Committee qualifies as an Audit Committee Financial Expert, as that term is defined in Item 3 of Form N-CSR: Neville J. Miles, John T. Sheehy and Peter D. Sacks. Mr. Miles, Mr. Sheehy and Mr. Sacks are all considered by the Board to be Independent Directors, as that term is defined in Item 3 of Form N-CSR.

Item 4 Principal Accountant Fees and Services.

(a) (d) Below is a table reflecting the fee information requested in Items 4(a) through (d):

Fiscal	(a)	(b)	(c) ¹	(d)
Year Ended	Audit Fees	Audit-Related Fees	Tax Fees	All Other Fees
October 31, 2011	\$ 80,200	\$ 3,000*	\$ 6,433	Nil
October 31, 2010	\$ 80,500	Nil	\$ 6,000	Nil

* For the fiscal year ended October 31, 2011, KPMG billed \$3,000 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Manager and Investment Adviser.

¹ The Tax Fees are for the completion of the Registrant's federal and state tax returns.

(e)(1) The Registrant's Audit Committee has adopted an Audit Committee Charter that provides that the Audit Committee shall annually select, retain or terminate the Fund's independent auditor and, in connection therewith, to evaluate the terms of the engagement (including compensation of the auditor) and the qualifications and independence of the independent auditor, including whether the independent auditor provides any consulting, auditing or tax services to the Investment Adviser or Sub-Adviser, and to receive the independent auditor's specific representations as to their independence, delineating all relationships between the independent auditor and the Registrant, consistent with the Independent Standards Board (ISB) Standard No. 1. The Audit Committee Charter also provides that the Audit Committee shall review in advance, and consider approval of, any and all proposals by Management or the Investment Manager that the Registrant, Investment Manager or their affiliated persons, employ the independent auditor to render permissible non-audit services to the Registrant and to consider whether such services are consistent with the independent auditor's independence.

(e)(2) None of the services described in each of paragraphs (b) through (d) of this Item were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) Non-Audit Fees

For the fiscal year ended October 31, 2010, KPMG billed \$2,500 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Manager and Investment Adviser.

(h) The Registrant's Audit and Valuation Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the Registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence and has concluded that it is.

Item 5 Audit Committee of Listed Registrants.

(a) The Registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended.

For the fiscal year ended October 31, 2011, the audit committee members were:

Neville J. Miles

John T. Sheehy

Peter D. Sacks

(b) Not applicable.

Item 6 Investments.

(a) Included as part of the Report to Shareholders filed under Item 1 of this Form N-CSR.

(b) Not applicable.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Pursuant to the Registrant's Proxy Voting Policy and Procedures, the Registrant has delegated responsibility for its proxy voting to its Investment Manager and Investment Adviser, provided that the Registrant's Board of Directors has the opportunity to periodically review the Investment Manager's and Investment Adviser's proxy voting policies and material amendments thereto. The Registrant's Board of Directors most recently ratified the proxy voting policies of the Investment Manager and Investment Adviser in March 2006.

The proxy voting policies of the Registrant are referenced in Exhibit A and Investment Manager and Investment Adviser are referenced in Exhibit B.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Item 8 Portfolio Managers of Closed-End Management Investment Companies.

(2)

Name of Portfolio Manager	Registered Investment Companies Managed by Portfolio Manager		Pooled Investment Vehicles Managed by Portfolio Manager		Other Accounts Managed by Portfolio Manager	
	Number	FUM	Number	FUM	Number	FUM
	of Accounts	USD(\$M)	of Accounts	USD(\$M)	of Accounts	USD(\$M)
John Murphy	9	\$ 726.56	102	\$ 15,868.78	264	\$ 40,929.97
Anthony Michael	4	\$ 3,455.13	43	\$ 4,827.48	97	\$ 20,697.26
Victor Rodriguez	4	\$ 3,455.13	43	\$ 4,827.48	97	\$ 20,697.26
Nick Bishop	4	\$ 3,455.13	43	\$ 4,827.48	97	\$ 20,697.26
Kevin Daly	9	\$ 726.56	102	\$ 15,868.78	264	\$ 40,929.97

Total assets are as of October 31, 2011 and have been translated to U.S. dollars at a rate of £1.00 = \$1.6141

There are six accounts (with assets under management totaling approximately \$952.87 million) managed by John Murphy and Kevin Daly with respect to which part of the advisory fee is based on the performance of the accounts. Additionally, there is one account (with assets under management totaling approximately \$123.27 million) managed by Anthony Michael, Victor Rodriguez, Scott Bennett and Nick Bishop with respect to which part of the advisory fee is based on the performance of the account. The investment strategies of these accounts are significantly different from those of the Registrant, so the performance fee should not create any conflict between that of the Portfolio Manager (and consequently, the Investment Manager and the Investment Adviser) and the interest of the Registrant.

(3) The following is a description of the compensation structure for portfolio managers employed by Aberdeen Asset Management PLC or its subsidiaries, including the Registrant's Investment Manager and its Investment Adviser (the Aberdeen Group) as of October 31, 2011.

The Aberdeen Group recognizes the importance of compensation in attracting and retaining talent and has structured remuneration to include an attractive base salary, a discretionary bonus that is directly linked to one's contribution to the overall success of the Aberdeen Group and a long-term incentive plan for key staff members comprised of a mixture of cash, options, and shares. Overall compensation packages are designed to be competitive relative to investment management industry standards.

The compensation policy has been designed to deliver additional rewards through appropriate incentive schemes, both annual and long term. These are directly linked to performance at both a corporate and an individual level. The policy seeks to reward performance in a manner which aligns the interests of clients, shareholders and executives.

Each Aberdeen Group member recognizes that any remuneration policy must be sufficiently flexible to take into account any changes in the business environment. In accordance with this need for flexibility, the Aberdeen Group takes into account the overall competitiveness of the total remuneration package of all senior executives including some portfolio managers. When justified by performance, the at risk performance elements will form the most significant element of total remuneration for executive officers and senior employees.

Base Salary

The base salary is determined by prevailing market conditions and the compensation for similar positions across the industry. The Aberdeen Group uses industry compensation surveys as a tool in determining each portfolio manager's base salary.

Annual Bonus

The Aberdeen Group's policy is to recognize corporate and individual achievements each year through an appropriate bonus scheme. The aggregate incentive compensation pool each year is determined by the board of directors of the parent company, Aberdeen PLC, and is dependent on each Aberdeen Group member's overall performance and profitability. The pool is comprised of a base level plus an agreed proportion of each Aberdeen Group member's profitability.

Staff performance is reviewed formally once a year. The review process evaluates the various aspects that the individual has contributed to the Aberdeen Group, and specifically, in the case of portfolio managers, to the relevant investment team. Discretionary bonuses are based on client service, asset growth and the performance of the respective portfolio manager. Overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also evaluated. Discretionary bonuses are not formally laid down and generally range from 10% to 50% of annual salary for portfolio managers.

In the calculation of each portfolio management team's bonus, the Aberdeen Group takes into consideration investment matters (which include the performance of the team, adherence to the company investment process, and quality of company meetings) as well as more subjective issues such as team participation and effectiveness at client presentations. The split between the two will vary but generally 80% of bonus will be determined by investment related matters, the remaining 20% will be more subjective in nature. To the extent performance is factored in, such performance is not judged against any specific benchmark and is evaluated over a broad time frame. The performance of an individual account is not specifically considered in the determination of a portfolio manager's discretionary bonus; rather the review process evaluates the overall performance of the team for all of the accounts they manage.

Portfolio manager performance on investment matters are judged over all of the accounts the portfolio manager contributes to and is documented in the appraisal process. A combination of the team's and individual's performance is considered and evaluated.

Although performance is not a substantial portion of a portfolio manager's compensation, the Aberdeen Group also recognizes that Fund performance can often be driven by factors outside one's control, such as (irrational) markets, and as such pays attention to the effort by portfolio managers to ensure integrity of our core process by sticking to disciplines and processes set, regardless of momentum and hot themes. Short-terming is thus discouraged and trading-oriented managers will thus find it difficult to thrive in the Aberdeen Group's environment. Additionally, if any of the aforementioned undue risks were to be taken by a portfolio manager, such trend would be identified via Aberdeen's dynamic compliance monitoring system.

Long-Term Incentives

As part of an effective remuneration package, a long-term incentive plan is used to structure the package so as to retain, motivate, and reward key staff members with a view to improving their performance and thereby increasing the value of the Aberdeen Group for the benefit of shareholders. Long-term incentive plans can be either cash or share based and typically vest over a three year period.

¹ The Registrant's stock repurchase program was announced on March 19, 2001 and further amended by the Fund's Board of Directors on December 12, 2007. Under the terms of the current program the Registrant is permitted to repurchase up to 10% of its outstanding common stock in the open market during any 12 month period if and when the discount to net asset value is at least 8%.

Item 10 Submission of Matters to a Vote of Security Holders.

During the period ended October 31, 2011, there were no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors.

Item 11 Controls and Procedures.

- (a) It is the conclusion of the Registrant's principal executive officer and principal financial officer that the effectiveness of the Registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the Registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the Registrant has been accumulated and communicated to the Registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.
- (b) There have been no changes in the Registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12 Exhibits.

- (a)(1) Code of Ethics pursuant to Item 2(f) of this Form N-CSR.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940, as amended.
- (c) A copy of the Registrant's notices to stockholders, which accompanied distributions paid, since the Registrant's last filed N-CSR, are filed herewith as Exhibit (c)(1), as required by the terms of the Registrant's SEC exemptive order
