CALCULATION OF REGISTRATION FEE

| Title Of Each Class Of Securities To Be Registered | Proposed Maximum Aggregate Offering Price(1)(2) | Amount Of Registration Fee |
|---|--|-------------------------------|
| Common Stock, par value \$0.01 per share | \$100,000,000 | \$11,610(3) |
| Tangible Equity Units | \$100,000,000 | \$11,610(3) |
| Stock Purchase Contracts(4) | | |
| Junior Subordinated Amortizing Notes | | |

- (1) Estimated solely for the purpose of computing the amount of the registration fee pursuant to Rule 457(o) under the Securities Act.
- (2) Includes offering price of shares and units that the underwriters have the option to purchase pursuant to their over-allotment option.
- (3) Previously paid.
- (4) In accordance with Rule 457(i) under the Securities Act, this registration statement also registers _____ shares of our common stock, which is our reasonable good-faith estimate of the maximum number of shares of our common stock that are initially issuable upon settlement of the stock purchase contracts registered hereby. The number of shares of our common stock issuable upon such settlement may vary based on the market price of the common stock registered hereby. If the number of shares of our common stock needed to settle such purchase contracts is greater than such estimate due to the operation of the formula described herein that links the number of shares to the market price of our common stock at the time of such settlement, the Registrant will either file an additional registration statement or rely on an available exemption from registration, such as Section 3(a)(9) of the Securities Act. In addition, the number of shares of our common stock initially issuable upon such settlement is subject to adjustment pursuant to the anti-dilution provisions of the stock purchase contracts, as described herein. Pursuant to Rule 416 under the Securities Act, this registration statement is deemed to have registered the shares of our common stock offered or issued as a result of such anti-dilution adjustments.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

Table of Contents

EXPLANATORY NOTE

This Registration Statement contains a prospectus relating to an offering of shares of our common stock (for purposes of this Explanatory Note, the Common Stock Prospectus), together with separate prospectus pages relating to an offering of our tangible equity units (for purposes of this Explanatory Note, the Units Prospectus). The complete Common Stock Prospectus follows immediately. Following the Common Stock Prospectus are the following alternative and additional pages for the Units Prospectus:

front and back cover pages, which will replace the front and back cover pages of the Common Stock Prospectus;

pages for the Prospectus Summary The Offering section, which will replace the Prospectus Summary The Offering section of the Common Stock Prospectus;

pages for the Risk Factors Risks Related to Ownership of the Units, Separate Purchase Contracts, Separate Amortizing Notes and Common Stock section, which will replace the Risk Factors Risks Related to this Offering and Ownership of Our Common Stock section of the Common Stock Prospectus;

pages for Ratio of Earnings to Fixed Charges and Preferred Stock Dividends section, which will be added to the Units Prospectus;

pages for the Description of the Units , Description of the Purchase Contracts and Description of the Amortizing Notes sections, which will replace the Concurrent Transactions section of the Common Stock Prospectus;

pages for the Book-Entry Procedures and Settlement section, which will be added to the Units Prospectus;

pages for the Concurrent Transactions section, which will replace the Concurrent Transactions section of the Common Stock Prospectus;

pages for the Certain U.S. Federal Income Tax Considerations section, which will replace the U.S. Federal Tax Considerations for Non-U.S. Holders section of the Common Stock Prospectus; and

pages for the Underwriting section, which will replace the Underwriting section of the Common Stock Prospectus.

In addition, the references to common stock in Validity of Common Stock in the Common Stock Prospectus will be replaced with references to tangible equity units in the Units Prospectus.

Each of the complete Common Stock Prospectus and Units Prospectus will be filed with the Securities and Exchange Commission in accordance with Rule 424 under the Securities Act of 1933, as amended. The closing of the offering of common stock is conditioned upon the closing of the offering of Units, and the closing of the offering of Units is conditioned upon the closing of the offering of common stock.

Table of Contents

The information in this preliminary prospectus is not complete and may be changed. The selling stockholder may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell these securities and the selling stockholder is not soliciting offers to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, Dated April 12, 2012

PRELIMINARY PROSPECTUS

Shares

ALLY FINANCIAL INC.

COMMON STOCK

The United States Department of the Treasury (the selling stockholder or Treasury) is offering shares of common stock of Ally Financial Inc. (Ally). See Principal and Selling Stockholders. Ally Financial Inc. will not receive any of the proceeds from the sale of shares of common stock by the selling stockholder.

This is our initial public offering and no public market exists for our shares. We anticipate that the initial public offering price will be between \$ and \$ per share. We have applied to list the common stock on the New York Stock Exchange (the NYSE) under the symbol ALLY .

The selling stockholder has granted the underwriters the right to purchase up to additional shares of common stock to cover over-allotments, if any, at the public offering price, less the underwriters discount, within 30 days from the date of this prospectus.

Concurrently with this offering, Treasury is also making a public offering of tangible equity units issued by us (the Units). Treasury has granted the underwriters of that offering the right to purchase up to additional Units to cover over-allotments, if any, at the public offering price of the Units, less the underwriters discount for the Units, within 30 days from the date of the prospectus for the concurrent Units offering. The closing of the offering of Units is conditioned upon the closing of the offering of our common stock, and the closing of the offering of our common stock is conditioned upon the closing of the offering of Units.

Investing in our common stock involves risks. See Risk Factors beginning on page 18 of this prospectus.

| | Per Share | Total |
|---|------------------|--------------|
| Public offering price and proceeds to the selling stockholder | \$ | \$ |
| Underwriting discounts and commissions(1) | \$ | \$ |

Edgar Filing: Ally Financial Inc. - Form S-1/A

(1) Ally has agreed to pay all underwriting discounts and commissions, transfer taxes and transaction fees, if any, applicable to the sale of the common stock and the fees and disbursement of counsel for the selling stockholder incurred in connection with the sale.

Neither the Securities and Exchange Commission nor any state securities regulators has approved or disapproved these securities, or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the shares of common stock to investors on or about _____, 2012.

In this prospectus, unless the context indicates otherwise, Ally, the company, we, us and our refer to Ally Financial Inc. and its direct and indirect subsidiaries on a consolidated basis. None of we, the underwriters, or the selling stockholder have authorized anyone to provide any information other than that contained in this prospectus or in any free writing prospectus prepared by or on behalf of us or to which we have referred you. Neither we nor the underwriters nor the selling stockholder take responsibility for, and can provide any assurance as to the reliability of, any other information that others may give you. The selling stockholder is offering to sell, and seeking offers to buy, shares of common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of the common stock.

INDUSTRY AND MARKET DATA

We obtained the industry, market and competitive position data throughout this prospectus from our own internal estimates and research as well as from industry and general publications and research, surveys and studies conducted by third parties. Industry publications, studies and surveys generally state that they have been obtained from sources believed to be reliable, although they do not guarantee the accuracy or completeness of such information.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary may not contain all of the information that you should consider before deciding to invest in our common stock. You should read this entire prospectus carefully, including the Risk Factors section and the consolidated financial statements and the notes to those statements, before making an investment decision.

Overview

Ally operates one of the world's largest automotive finance companies. We have over 90 years of experience supporting automotive dealers and their retail customers with a broad array of financial products and services. Our automotive finance franchise operates on a global scale with strategic activities in the United States, Canada and 15 other countries worldwide. We are a bank holding company and also operate one of the largest residential mortgage loan companies in the United States. Our bank subsidiary, Ally Bank, is a leading competitor and well-recognized brand in the growing direct banking market. The bank provides us with a significant source of cost-efficient funding and had \$39.6 billion of deposits at December 31, 2011. We had \$184 billion of total assets at December 31, 2011 and \$6.1 billion of total net revenue during fiscal year 2011.

We intend to extend our leading position as one of the world's largest automotive finance companies by continuing to provide automotive dealers, retail consumers and our automotive manufacturing partners with consistent funding, competitive pricing, a comprehensive product suite and exceptional service reflecting our commitment to the automotive industry.

We also operate a residential mortgage loan franchise focused on the origination and servicing of conforming and government-insured residential mortgage loans.

We intend to continue to develop Ally Bank and its core brand to enhance the value proposition for its deposit customers and to efficiently support asset growth in our lending activities.

Our primary operations are conducted within Global Automotive Services and Mortgage. Ally Bank offers a full spectrum of deposit and checking products to its customers and provides us with stable and diversified funding.

Our Global Automotive Services

Our Global Automotive Services business is centered around our strong and longstanding relationships with automotive dealers and supports our automotive manufacturing partners and their marketing programs. We serve the financial needs of over 21,000 dealers worldwide and 5.8 million of their retail customers as of December 31, 2011. In the United States and Canada alone, we have approximately 2,100 automotive finance and insurance employees in five regions focused on serving the needs of our dealer customers with finance and insurance products, expanding the number of overall dealer and automotive manufacturer relationships, and supporting our dealer lending and underwriting functions. In addition, we have over 2,100 employees that support our North American servicing operations.

Our Dealer-Focused Business Model

Ally's primary customers are automotive dealers, which are independently owned businesses. As part of the process of selling a vehicle, automotive dealers typically originate loans and leases to their retail customers. Dealers then select Ally or another automotive finance provider to which they sell loans and leases.

Table of Contents

Our longstanding success as an automotive finance provider is driven by the broad range and quality of products and services we offer to dealers. Our financial products offered to dealers and their customers include, among others, new vehicle retail loans and leases, used vehicle loans, floorplan loans, dealer capital and working capital loans, vehicle service contracts, wholesale inventory insurance and our SmartAuction service for remarketing vehicles. As of December 31, 2011, over 5,000 of our automotive dealer customers utilized four or more of our products.

Manufacturer Relationships

We are a preferred financing provider for a number of manufacturers including GM, Chrysler (for the United States including Fiat, Canada and Mexico), Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom) under contractual relationships. With our origination and servicing platform and competitive funding programs, we function as a strong and flexible partner that helps manufacturers fulfill their new vehicle marketing programs.

Our preferred financing relationships primarily relate to new retail loan incentive programs that support the manufacturers' new vehicle marketing initiatives while allowing us to realize market based returns. Subvented loans, originated through our preferred financing relationships, represented 36% of our North American new retail loan and lease origination volume in the fiscal year 2011, compared to 41% in 2010 and 52% in 2009. For non-incentivized retail loan originations, we successfully compete at the dealer-level based on our strong dealer relationships, competitive pricing, full suite of products and comprehensive service.

Our History in the Automotive Market and Who We Are Today

During our over 90-year history in the automotive finance business, we have developed extensive knowledge and experience in serving the financing needs of automotive dealers and their retail customers. Ally was formed in 1919 as the captive finance subsidiary of GM. In 2006, a majority ownership interest in Ally was sold to third parties. Since that sale, we have transformed into a market-driven independent automotive finance company. We continue to be a preferred financing provider to GM on incentivized retail loans and in 2009, we became the preferred financing provider to Chrysler of incentivized retail loans. In addition, we have developed preferred financing relationships with Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom) under contractual agreements.

We became a bank holding company on December 24, 2008, under the Bank Holding Company Act and are subject to supervision and examination by the Board of Governors of the Federal Reserve System (the FRB). Our bank subsidiary, Ally Bank, is supervised by the Federal Deposit Insurance Corporation (the FDIC) and the Utah Department of Financial Institutions (the Utah DFI).

Table of Contents

Our Global Automotive Services business is organized into three areas (the information below is as of December 31, 2011).

North American Automotive Finance Operations

Our North American Automotive Finance Operations (NAO) consist of our automotive financing operations in the United States and Canada. According to Experian Automotive, we were the largest independent provider of new retail automotive loans in the United States during 2011. We funded one out of every ten new car purchases that were financed in the United States during 2011. We had total consumer originations in the United States and Canada of \$43.8 billion in 2011. Our penetration rate of GM and Chrysler new car purchases in the United States and Canada in 2011 was 38% and 29%, respectively. We financed an average of \$28.7 billion of vehicle floorplan assets for our dealers, including 79% of GM s and 65% of Chrysler s total North American dealer new vehicle inventory, respectively, during 2011.

We manage commercial account servicing for over 5,000 dealers in the United States that utilize our floorplan inventory lending or other commercial loans. In the United States and Canada, we provide consumer asset servicing for a \$76.0 billion portfolio at December 31, 2011. The extensive infrastructure and experience of our servicing operation are important to our ability to minimize our loan losses and enable us to deliver favorable customer experience to both our dealers and their retail customers. We provide comprehensive automotive remarketing services, including the use of SmartAuction, our online auction platform, which efficiently supports dealer-to-dealer and other commercial wholesale car transactions.

The following table sets forth our share of retail automotive loans for new purchases in the United States:

| 4 th Quarter | | | | 3 rd Quarter | | | | 2 nd Quarter | | | | 1 st Quarter | | | | Year ended December 31, | | | | | | | |
|-------------------------|------|------|------|-------------------------|------|-------|------|-------------------------|------|------|------|-------------------------|------|------|------|-------------------------|------|------|------|------|------|--|--|
| 2011 | | 2011 | | 2011 | | 2011 | | 2011 | | 2010 | | 2009 | | 2008 | | 2008 | | 2008 | | 2008 | | | |
| % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | % | Rank | | |
| 8.4% | 1 | 9.2% | 1 | 9.3% | 1 | 13.5% | 1 | 10.1% | 1 | 9.9% | 1 | 6.1% | 3 | 5.8% | 4 | | | | | | | | |

Source: Experian Automotive

The used vehicle financing market is significant in size and highly fragmented. We continue to increase our focus on used car financing, primarily through franchised dealers and certain national used vehicle dealers. According to Experian Automotive, over 14.5 million used vehicles were sold by franchised dealers in 2011. We believe that increased market share in this fragmented segment will further expand and support our dealer relationships and increase our volume of retail originations.

Table of Contents

International Automotive Finance Operations

Our International Automotive Finance Operations (IO) conduct business in Asia, Latin America and Europe. We focus on five core foreign markets: China (through our joint venture, GMAC-SAIC Automotive Finance Company Limited (GMAC-SAIC)), Brazil, Mexico, Germany and the United Kingdom. We also originate loans in 10 other countries. We provide financial services to approximately 5,500 automotive dealer customers in these 15 foreign markets.

China Our GMAC-SAIC joint venture is a leading automotive finance company in China and offers a full suite of products. We believe there is significant opportunity for growth in loan origination in China due to the strong increase in overall car sales as well as the relatively low proportion of these sales that have been financed historically. We own 40% of GMAC-SAIC alongside Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation Limited. At December 31, 2011, the joint venture had total finance receivables and loans of \$5.1 billion.

Brazil and Mexico Brazil is the largest automotive market in Latin America where we had total finance receivables and loans of \$3.6 billion at December 31, 2011. In both Brazil and Mexico, we offer a full product line and have strong positions in the automotive dealer channel.

Germany and the United Kingdom Germany and the United Kingdom remain our core markets in Europe with total finance receivables and loans of \$5.7 billion at December 31, 2011. To improve operational efficiency, certain of our servicing and lending activities in Europe have been consolidated in Germany.

Insurance Operations

Our Insurance operations offer both consumer insurance products sold primarily through dealers and commercial insurance products sold to dealers. As part of our focus on offering dealers a broad range of products, we provide vehicle service contracts and maintenance coverages. We also underwrite selected commercial insurance coverages which primarily insure dealers' wholesale vehicle inventory in the United States.

We believe our national insurance platform provides us with a competitive advantage, allowing us to design products tailored to our dealer customers, control underwriting and retain the profits generated by this business. We sell insurance products to approximately 4,000 dealers in the United States. Among U.S. GM dealers to whom we provide wholesale financing, our wholesale insurance product penetration rate is approximately 78%. Dealers who receive wholesale financing from Ally are eligible for wholesale insurance incentives, such as automatic eligibility in our preferred insurance programs and increased financial benefits.

Mortgage

Our Origination and Servicing operations consist of originating, purchasing, selling and securitizing conforming and government-insured residential mortgage loans in the United States; servicing residential mortgage loans for ourselves and others; and providing collateralized lines of credit to other mortgage loan originators, also called warehouse lending. We also originate a small amount of high quality prime jumbo mortgage loans in the United States. Our Origination and Servicing operations had \$23 billion in assets at December 31, 2011.

Table of Contents

On November 2, 2011, we announced that in order to proactively address changes in the mortgage industry as a whole, we will be taking immediate action to reduce the focus on the correspondent mortgage lending channel; however, we will maintain correspondent relationships with key customers. Conforming and government-insured residential mortgage loans comprised 97.0% of our fiscal year 2011 originations. At December 31, 2011, we were the primary servicer of 2.3 million mortgage loans with \$356.4 billion of unpaid principal balances. Since the onset of the housing crisis, we have reduced our overall mortgage assets from \$135.1 billion in 2006 to \$33.9 billion at December 31, 2011, primarily through the run-off and divestiture of noncore businesses and assets.

Our Legacy Portfolio and Other operations primarily consist of mortgage loans originated prior to January 1, 2009, and consist of noncore business activities including portfolios in run-off. Total assets of our Legacy Portfolio and Other operations decreased from \$32.9 billion at December 31, 2008, to \$10.9 billion at December 31, 2011.

Ally Bank

Ally Bank raises deposits directly from customers through the direct banking channel via the internet and over the telephone. We believe that Ally Bank is well-positioned to continue to take advantage of the consumer-driven shift from branch banking to direct banking. We believe internet banking is now the preferred banking channel by consumers. According to a 2011 American Bankers Association survey, the number of bank customers who prefer to do their banking online increased from 21% to 62% between 2007 and 2011, while those who prefer branch banking has declined from 39% to 20% over the same period.

We have quickly become a leader in direct banking with our recognizable brand, accessible 24/7 customer service, and competitively priced deposit products. We have distinguished our direct bank with our "Talk Straight, Do Right, Be Obviously Better" branding and products that are "Easy to Use" with "No Fine Print, Hidden Fees, Rules or Penalties". Recent introductions of retail banking products include interest-bearing checking accounts, electronic bill pay, remote deposit, and no-fee debit cards.

Ally Bank provides our automotive finance and mortgage loan operations with a stable and low-cost funding source. At December 31, 2011, Ally Bank had \$39.6 billion of deposits including \$27.7 billion of retail deposits. The growth of our retail deposit base from \$7.2 billion at the end of 2008 to \$27.7 billion at December 31, 2011 has enabled us to reduce our cost of funds during that period. We expect to continue to lower our cost of funds over time and diversify our overall funding as our deposit base grows. Over the past three years, we have grown our retail deposits even as we have reduced the cost of our deposits.

Table of Contents

The following chart shows the amount and type of Ally Bank's customer deposits and the average retail deposit rate as of the dates indicated:

Our Strengths

Automotive financial services category leader with full product suite.

We are one of the largest providers of retail and wholesale automotive financing in the world and are an integral part of the automotive industry. We believe that our over 90-year history has provided us extensive knowledge of the automotive industry and the financial services needs of its dealers, automotive manufacturers, and retail consumers.

Our full suite of financing and insurance products and extensive on-site service relationships differentiate us from most of our competitors. As of December 31, 2011, over 5,000 of our automotive dealer customers utilized four or more of our products. We use incentive programs, such as our Ally Dealer Rewards program, to increase the volume of business and number of products used by our dealer customers. During fiscal year 2011, 70% of our U.S. dealer customers received benefits under the Ally Dealer Rewards program which was initiated in 2009.

Implementation of our market-driven strategies since 2008 has enabled us to grow our Global Automotive Services business within our existing dealer relationships and expand into new relationships with dealers of various manufacturers. Since 2008, we have successfully added preferred provider agreements, including Chrysler (for the United States including Fiat, Canada and Mexico), Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom). Our strong relationships with manufacturers have allowed us to offer more products, expand our dealer base and strengthen our existing network of dealer relationships. We have increased our North American new non-GM retail originations from \$1.0 billion in 2006 to \$11.4 billion in 2011.

We believe that the combination of our full suite of products, service standards, global platform, incentive programs, and funding strategy put us in a strong position relative to competing financial institutions and future entrants to the market.

Table of Contents

Scalable platform with significant growth opportunities.

We are well-positioned for growth as the U.S. economy recovers and U.S. Seasonally Adjusted Annualized Rate (SAAR) of vehicle sales rebounds from its 2008-2009 recessionary levels. Consumer and business spending on automobiles has recovered from recent lows but remains well below historical average levels. The chart below shows historical consumer, business and government spending on automobiles as a percentage of U.S. GDP.

Source: Bureau of Economic Analysis, U.S. Department of Commerce

The chart below shows historical and projected U.S. SAAR (in millions):

Source: Bureau of Economic Analysis as to 2006-2011 data and Blue Chip Economic Indicators, Vol. 37, No. 3, as to projected 2012-2014 data.

In the United States and Canada, we have approximately 2,100 automotive finance and insurance employees dedicated to dealer sales, product support, lending and underwriting. This infrastructure allows us to accommodate our growing volume of business and support our existing customers. We maintain a dedicated sales force, which meets the needs of our existing dealer customers, expands our market penetration in the dealer network and supports our existing and new automotive manufacturing partners. Our sales force consists of direct dealer account relationship professionals, supplemental product support coverage professionals, and primary manufacturer relationship account professionals.

Table of Contents

We also have invested significantly in our technology infrastructure and other initiatives to support our automotive financing and banking services platforms to further enhance our dealer and retail customer relationships and increase business volumes. This focus has resulted in increased credit application flow and originations from dealers representing various manufacturers, including GM and Chrysler. We are now able to access applications from almost all U.S. automotive dealerships under any brand. The combination of our extensive infrastructure, our relationships with finance and insurance departments of dealers, and our participation in the major credit application on-line networks, provides us with a strong platform to efficiently grow our consumer business volumes across a broad mix of automotive dealers.

In addition, we expect our incentive programs, such as Ally Dealer Rewards and other market-driven strategies, to increase business volumes and the number of products used by dealers. Other major initiatives underway such as dealer diversification strategies and additional preferred relationships with other manufacturers should increase our consumer retail, lease, and dealer funding volumes. The used vehicle financing market is highly fragmented and we believe this provides us with a growth opportunity within our franchised dealer relationships. We believe our significant presence in attractive markets such as China and Brazil also supports our growth opportunity internationally.

Leading direct banking franchise.

We believe Ally Bank is well-positioned for continued growth within the direct banking market. The Ally Bank brand has attained strong recognition since it was launched in 2009. Ally Bank provides us with a diversified source of stable, low-cost funding. The bank's assets primarily consist of high quality commercial and consumer automotive finance receivables and conforming and government-insured residential mortgage loans originated through our automotive and mortgage businesses, respectively. We believe there are opportunities to deliver other products to our growing banking customer base, in addition to our full suite of deposit, savings and checking products.

Strong balance sheet, liquidity position and risk management.

We believe that the consumer automotive loans on our balance sheet reflect the significantly tighter underwriting standards across the credit spectrum that we adopted since 2008. Our underwriting process utilizes a robust combination of credit metrics, including, among others, FICO scores, loan-to-value ratios, debt-to-income ratios and proprietary scoring models. The average FICO score at origination of the U.S. new retail loans in our outstanding portfolio as of December 31, 2011 was 727. We are prudently expanding automotive originations across the credit spectrum in accordance with our underwriting standards. During fiscal year 2011, the loss rate on our U.S. consumer automotive portfolio was 0.60%.

Our commercial automotive financing business consists primarily of wholesale financing in which credit is extended to individual dealers and is secured by vehicles in inventory and, in some circumstances, other assets owned by the dealer or by a personal guarantee. We manage risk in our commercial automotive financing business through our rigorous credit underwriting process, which utilizes our proprietary dealer credit evaluation system, our ongoing risk monitoring program, and vehicle inventory audits to verify collateral and dealer compliance with lending agreements. During fiscal year 2011, the loss rate on our U.S. commercial automotive portfolio was 0.05%.

Table of Contents

The loans originated in our mortgage operations are currently comprised primarily of high credit quality conforming, government-insured and prime jumbo residential mortgage loans. At December 31, 2011, we held reserves of \$825 million for potential repurchase obligations for loans we sold to counterparties. See Management's Discussion and Analysis of Financial Condition and Results of Operations Off-balance Sheet Arrangements Government-sponsored Enterprises for further details with respect to the scope of our settlement agreements with Fannie Mae and Freddie Mac.

We have demonstrated strong access to funding and liquidity that are critical to our business. In fiscal year 2011, we raised over \$38 billion of secured and unsecured funding in the capital markets. We also have significant liquidity available beyond capital markets funding with access to \$36.9 billion of liquidity in the form of cash, highly liquid unencumbered securities, and available committed credit facility capacity at December 31, 2011.

Our access to deposits is an important source of diversified funding. Approximately 31% of our funding at the end of 2011 came from deposits compared to 14% at the end of 2008. We believe Ally Bank gives us the stable, low-cost benefits of deposit funding with a direct-to-consumer delivery model. Ally Bank's leadership in direct banking, recognizable brand and compelling customer value proposition position us well for consistent growth.

Our balance sheet is well capitalized. At December 31, 2011, we had a Tier 1 capital ratio of 13.71%, and a Tier 1 common ratio of % pro forma for this offering. We believe this capitalization compares favorably to our peers and positions us well for the future.

Experienced management team.

Our senior management team is comprised of financial professionals with deep operating experience in automotive and consumer finance and extensive experience managing some of the largest and most successful financial institutions in the world. Our senior management team has successfully led us to consistent profitability in our core automotive finance operations and the development of our strong liquidity and capital position following the financial crisis. Our management team has taken significant actions to make our automotive finance business more efficient and better positioned for growth opportunities. Our capital structure and prudent liquidity actions by management have positioned us for growth as the automotive industry and overall economy continue to rebound.

Our Business Strategy

Expand our position as a leading global provider of automotive financial services products.

We believe that our dealer-focused business model, global platform, full range of product offerings and sales organization position us to further broaden our relationships with existing and new dealers and automotive manufacturers, and to originate attractive retail automotive loans and leases for our portfolio in addition to other products. Our market-driven strategies, including incentive programs, have been designed and implemented to drive higher business volumes with our dealer relationships. Furthermore, we have dedicated resources to the underwriting and financing of used vehicle sales that should allow us to expand loan origination volume with our existing dealer base. We are also leveraging our existing dealer relationships, product suite, and extensive operating experience to expand our diversified dealer network and facilitate financing relationships with additional automotive manufacturers. We intend to continue to strongly support our financing relationships with GM and Chrysler by providing dependable new car inventory and consumer financing through all economic cycles. We will continue to utilize our international infrastructure to build upon our strong presence in attractive, developing markets such as China, Brazil and Mexico. Our objective is to generate incremental profitability and asset growth without straying from our core competencies in automotive finance.

Table of Contents

Reduce our funding costs and continue funding diversification.

We continue to expand and diversify our funding in order to improve our profitability and enhance our competitiveness. Our success at developing our franchise at Ally Bank has supported the growth of our retail deposit base to \$27.7 billion at December 31, 2011 from \$7.2 billion at the end of 2008. Our retail deposit growth has enabled us to diversify and reduce our cost of funds since 2008. Our strategy is to continue to increase our retail deposit base through the delivery of our full suite of deposit products and continued investment in the Ally Bank brand name.

Our objective is to attain investment grade credit ratings from the rating agencies. We believe that improved ratings will help us to reduce our cost of funds further and improve our ability to compete even more effectively with other large banks and financial institutions across all products. We believe that the stable performance of our asset base, strong capitalization, demonstrated access to diversified funding markets, and the ability to operate profitably will help us reach this goal over time.

By continuing to diversify our funding sources and lower our overall cost of funding, including the prudent growth of Ally Bank, we believe that we can provide even more efficient and consistent funding for our dealers and their retail customers through various economic cycles.

Maintain a strong balance sheet through disciplined origination, servicing and risk management.

We will continue to focus primarily on originating and managing secured automotive and related products. The types of secured commercial and consumer automotive loans that we originate performed well through the recent financial crisis. Our Mortgage Origination and Servicing operations originate conforming, government-insured residential and prime jumbo residential mortgage loans.

We believe that we maintain strong levels of capital and liquidity relative to other bank holding companies. Our strategy is to materially increase our volume of automotive finance assets within our existing infrastructure and with prudent underwriting criteria which we believe will allow us to efficiently utilize our capital and enhance our profitability.

Improve our shareholder return profile.

We seek to enhance our returns for shareholders by prudently originating loans and leases across the credit spectrum. We have also recently increased our focus on offering financing for used vehicles through our franchised dealer relationships. We have invested significant capital in risk management and technology to manage this expansion. By prudently expanding automotive originations across broad credit segments and with continued diversification, we believe we can increase asset yields and generate attractive risk-adjusted returns in a variety of interest rate and credit environments. We plan to continue to decrease our overall costs by increasing productivity, adding retail deposits, and efficiently accessing secured and unsecured wholesale markets as certain higher-cost legacy funding matures. The combination of higher asset yields and lower operating and funding costs with an efficient capital structure will provide opportunities for us to improve returns to our shareholders.

Corporate Information

Our principal executive offices are located at 200 Renaissance Center, P.O. Box 200, Detroit, Michigan 48265-2000 and our telephone number is (866) 710-4623. Our website is www.ally.com. Our website and the information included in, or linked to on, our website are not part of this prospectus. We have included our website address in this prospectus solely as a textual reference.

Table of Contents

THE OFFERING

| | |
|--|---|
| Common stock offered by the selling stockholder | shares. |
| Common stock to be outstanding after this offering | shares (assuming no exercise of the underwriters' over-allotment option and assuming that the public offering price of our common stock in this offering will be \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) for purposes of calculating the number of shares we issue to Treasury in the conversion under Concurrent transactions below). This number of shares to be outstanding after this offering does not include any shares of our common stock that may be issued upon settlement of the purchase contracts that are components of the Units being offered concurrently with this offering, as described opposite the caption Concurrent transactions below. |
| Over-allotment option | shares from the selling stockholder to cover over-allotments. |
| Common stock listing | We have applied to list our common stock on the NYSE under the symbol ALLY. |
| Voting rights | One vote per share. |
| Use of proceeds | Ally will not receive any proceeds from sale of common stock in the offering. |
| Dividend policy | <p>We have no current plans to commence payment of a dividend on our common stock. Our payment of dividends on our common stock in the future will be determined by our Board of Directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity, and other factors. Our Fixed Rate Cumulative Perpetual Preferred Stock, Series G (the Series G preferred stock) prohibits us from making dividend payments on our common stock before January 1, 2014 and restricts our ability to pay dividends thereafter. In addition, so long as any share of our Fixed Rate / Floating Rate Perpetual Preferred Stock, Series A (the Series A preferred stock) remains outstanding, no dividend or distribution may be declared or paid on our common stock unless all accrued and unpaid dividends have been paid on such series of preferred stock.</p> <p>In addition, any plans to commence payment of dividends on our common stock in the future would be subject to the FRB's review and absence of objection.</p> |
| Concurrent transactions | Treasury currently holds 118,750,000 shares of our Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 (the Series F-2 preferred stock), having an aggregate liquidation amount |

Table of Contents

of \$5,937,500,000. In connection with this offering and the concurrent Units offering, Treasury intends (i) to convert (the conversion) 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the public offering price of our common stock in this offering (the common stock public offering price), and (ii) to exchange (the exchange) the remaining 60,000,000 shares of Series F-2 preferred stock having an aggregate liquidation amount of \$3 billion, for a number of our tangible equity units (the Units) having an aggregate stated amount of \$3 billion.

The number of shares of common stock we intend to issue to Treasury in connection with the conversion will depend upon the common stock public offering price. The higher the common stock public offering price is, the fewer the number of shares of common stock Treasury will receive and the lower the common stock public offering price is, the greater the number of shares of common stock Treasury will receive. The following table sets forth the number of shares we will issue to Treasury in connection with the conversion for each common stock public offering price set forth below:

| Public Offering Price | Number of Shares Issued to Treasury |
|-----------------------|-------------------------------------|
| \$ | |
| \$ | |
| \$ | |
| \$ | |

In addition, we and Treasury intend to modify certain terms of the Series F-2 preferred stock relating to the anti-dilution provisions applicable to the common stock received by Treasury from its partial conversion of Series F-2 preferred stock in December 2010, so that Treasury will receive additional shares of our common stock in connection with the offering.

Treasury is offering in the concurrent Units offering a number of Units having an aggregate stated amount of \$, plus up to an additional number of Units having an aggregate stated amount of \$ to cover over-allotments, if any. Upon completion of the Units offering, Treasury will hold Units having an aggregate stated amount of \$ (or \$ if the underwriters for the Units offering exercise their over-allotment option in full). The Units that are retained by Treasury will be fungible with the Units being offered in the Units offering.

The closing of each of the Units offering, this offering, the conversion and the exchange is conditioned upon the closing of each such other transaction.

Table of Contents

Certain Accounting Treatment of Treasury's Conversion and Receipt of Additional Shares

In connection with Treasury's intention to convert shares of Series F-2 preferred stock it holds into common stock as part of this offering and at the common stock public offering price, Treasury will receive a number of shares of our common stock in excess of the amount it would have received pursuant to the stated conversion rate in the Series F-2 preferred stock. In addition, as stated above, Treasury will also receive additional shares of our common stock as a result of an agreed upon modification to the terms of the Series F-2 preferred stock. The value of these additional shares received by Treasury will be treated as a dividend or equivalent for financial reporting purposes.

The issuance of these additional shares will be a one-time non-cash transaction, which will not affect the amount of our total equity. It will increase our accumulated deficit with an offsetting increase to common stock and paid-in capital, and the value of the non-cash dividend will reduce our net income attributable to common shareholders and therefore will substantially affect the calculation of earnings per share in the quarter in which this offering closes and the full year.

Assuming that the public offering price of our common stock in this offering will be \$ _____ per share (the midpoint of the range set forth on the cover of this prospectus), net income attributable to common stock will be reduced by \$ _____ in the quarter in which this offering closes and earnings per share will be reduced by \$ _____ per share due to this one time, non-cash transaction.

Risk factors

See Risk Factors beginning on page 18 of this prospectus for a discussion of risks you should carefully consider before deciding whether to invest in our common stock.

Unless we specifically state otherwise, the information in this prospectus (i) does not take into account shares issuable under our equity compensation incentive plan and (ii) assumes for purposes of calculating the number of shares of common stock we will issue to Treasury in the conversion that the common stock public offering price will be \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus). All applicable share, per share and related information in this prospectus for periods on or subsequent to _____ has been adjusted retroactively for the _____-for-one stock split on shares of our common stock effected on _____, 2012.

Table of Contents**SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA**

The following summary consolidated financial data of Ally should be read in conjunction with, and are qualified by reference to, Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included elsewhere in this prospectus. The consolidated statement of income data for the years ended December 31, 2011, 2010 and 2009 and the consolidated balance sheet data at December 31, 2011 and 2010 are derived from, and qualified by reference to, our audited consolidated financial statements included elsewhere in this prospectus and should be read in conjunction with those consolidated financial statements and notes thereto. The consolidated statement of income data for the years ended December 31, 2008 and 2007 and the consolidated balance sheet data at December 31, 2009, 2008 and 2007 are derived from our audited consolidated financial statements not included in this prospectus.

- (a) Total other revenue for 2008 includes \$12.6 billion of gains on the extinguishment of debt, primarily related to private exchange and cash tender offers settled during the fourth quarter.
- (b) Effective June 30, 2009, we converted from a limited liability company into a corporation and, as a result, became subject to corporate U.S. federal, state, and local taxes. Our conversion to a corporation resulted in a change in tax status and a net deferred tax liability of \$1.2 billion was established through income tax expense. Refer to Note 25 to the fiscal year Consolidated Financial Statements (the

Edgar Filing: Ally Financial Inc. - Form S-1/A

Consolidated Financial Statements) for additional information regarding our changes in tax status.

- (c) This amount relates to the conversion by Treasury of 110,000,000 shares of Series F-2 preferred stock into 531,850 shares of our common stock that occurred on December 30, 2010. Refer to Note 20 to the Consolidated Financial Statements for further detail.
- (d) Effective June 30, 2009, we converted from a Delaware limited liability company into a Delaware corporation. Each unit of each class of common membership interest issued and outstanding immediately

Table of Contents

prior to the conversion was converted into an equivalent number of shares of common stock with substantially the same rights and preferences as the common membership interests. Upon conversion, holders of our preferred membership interests also received an equivalent number of shares of preferred stock with substantially the same rights and preferences as the former preferred membership interests.

- (e) The pro forma financial information gives effect to this offering as if it has closed on January 1, 2010, and reflects (i) the receipt by Treasury of additional shares of common stock in connection with this offering, (ii) increased interest expense on the amortizing notes at an assumed interest rate of % (tax affected at the historical rates reflected in the financial statements for 2011) and (iii) the elimination of dividends of \$ on the Series F-2 preferred stock being converted into common stock and exchanged for Units in this offering. The pro forma financial information does not reflect the value of the additional shares received by Treasury that will be treated as a one-time, non-cash dividend of \$ in the quarter in which this offering closes and the related reduction of \$ per share in earnings per share.
- (f) Core pretax income (loss) is not a financial measure defined by generally accepted accounting principles in the United States of America (GAAP). We define core pretax income as earnings from continuing operations before income taxes, original issue discount amortization expense primarily associated with our 2008 bond exchange, and the gain on extinguishment of debt related to the 2008 bond exchange. We believe that the presentation of core pretax income (loss) is useful information for the users of our financial statements in understanding the earnings from our core businesses. In addition, core pretax income (loss) is the primary measure that management uses to assess the performance of our operations. We believe that core pretax income (loss) is a useful alternative measure of our ongoing profitability and performance, when viewed in conjunction with GAAP measures. The presentation of this additional information is not a substitute for net income (loss) determined in accordance with GAAP.
- (g) Primarily represents original issue discount amortization expense associated with the 2008 bond exchange, including \$50 million and \$101 million of accelerated amortization that was reported as a loss on extinguishment of debt in the fiscal year 2011 and fiscal year 2010 Consolidated Statement of Income, respectively.
- (h) The efficiency ratio equals total other noninterest expense divided by total net revenue. The core efficiency ratio equals total other noninterest expense divided by total net revenue excluding original issue discount amortization expense and gain on extinguishment of debt related to the 2008 bond exchange.
- (i) The 2011, 2010 and 2009 ratios were computed based on average assets and average equity using a combination of monthly and daily average methodologies. The 2008 and 2007 ratios have been computed based on period-end total assets and period-end total equity at December 31, 2008 and 2007.
- (j) Net interest spread represents the difference between the rate on total interest earning assets and the rate on total interest-bearing liabilities, excluding discontinued operations for the periods shown.
- (k) Not applicable at December 31, 2008 and 2007, as we did not become a bank holding company until December 24, 2008.
- (l) Net yield on interest-earning assets represents net financing revenue as a percentage of total interest-earning assets.
- (m) Tier 1 capital generally consists of common equity, minority interests, qualifying noncumulative preferred stock, and the fixed rate cumulative preferred stock sold to Treasury under TARP and purchase contracts (including the purchase contracts that are components of the Units being offered in the concurrent offering) less goodwill and other adjustments.

Table of Contents

- (n) Total risk-based capital is the sum of Tier 1 and Tier 2 capital. Tier 2 capital generally consists of preferred stock not qualifying as Tier 1 capital, limited amounts of subordinated debt and the allowance for loan losses, and other adjustments. The amount of Tier 2 capital may not exceed the amount of Tier 1 capital.

- (o) Tier 1 leverage equals Tier 1 capital divided by adjusted quarterly average total assets (which reflects adjustments for disallowed goodwill and certain intangible assets). The minimum Tier 1 leverage ratio is 3% or 4% depending on factors specified in the regulations.

- (p) We define Tier 1 common as Tier 1 capital less noncommon elements, including qualifying perpetual preferred stock, minority interest in subsidiaries, trust preferred securities, and mandatorily convertible preferred securities. However, the purchase contracts that are components of the Units being offered in the concurrent offering are not subtracted from Tier 1 capital to determine Tier 1 common. Ally considers various measures when evaluating capital utilization and adequacy, including the Tier 1 common equity ratio, in addition to capital ratios defined by banking regulators. This calculation is intended to complement the capital ratios defined by banking regulators for both absolute and comparative purposes. Because GAAP does not include capital ratio measures, Ally believes there are no comparable GAAP financial measures to these ratios. Tier 1 common equity is not formally defined by GAAP or codified in the federal banking regulations and, therefore, is considered to be a non-GAAP financial measure. Ally believes the Tier 1 common equity ratio is important because we believe analysts and banking regulators may assess our capital adequacy using this ratio. Additionally, presentation of this measure allows readers to compare certain aspects of our capital adequacy on the same basis to other companies in the industry.

- (q) Risk-weighted assets are defined by regulation and are determined by allocating assets and specified off-balance sheet financial instruments into several broad risk categories.

Table of Contents

RISK FACTORS

You should carefully consider the following risk factors that may affect our business, future operating results and financial condition, as well as the other information set forth in this prospectus before making a decision to invest in our common stock. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such case, the trading price of our common stock would likely decline due to any of these risks, and you may lose all or part of your investment.

Risks Related to Regulation

Our business, financial condition, and results of operations could be adversely affected by regulations to which we are subject as a result of our bank holding company status.

We are a bank holding company under the Bank Holding Company Act of 1956 (BHC Act). Many of the regulatory requirements to which we are subject as a bank holding company were not previously applicable to us and have and will continue to require significant expense and devotion of resources to fully implement necessary policies and procedures to ensure compliance. Compliance with such laws and regulations involves substantial costs and may adversely affect our ability to operate profitably. Recent events, particularly in the financial and real estate markets, have resulted in bank regulatory agencies placing increased focus and scrutiny on participants in the financial services industry, including us. For a description of our regulatory requirements, see [Business](#) [Certain Regulatory Matters](#) .

Ally is subject to ongoing supervision, examination and regulation by the FRB, and Ally Bank by the FDIC and the Utah DFI, in each case, through regular examinations and other means that allow the regulators to gauge management's ability to identify, assess, and control risk in all areas of operations in a safe-and-sound manner and to ensure compliance with laws and regulations.

Ally is currently required by its banking supervisors to make improvements in areas such as board and senior management oversight, risk management, regulatory reporting, internal audit planning, capital adequacy process, stress testing, and Bank Secrecy Act / anti-money-laundering compliance, and to continue to reduce problem assets. Separately, Ally Bank is currently required by its banking supervisors to make improvements in areas such as compliance management and training, consumer protection monitoring, consumer complaint resolution, internal audit program and residential mortgage loan pricing, and fee monitoring. These requirements are judicially enforceable, and if we are unable to implement and maintain these required actions, plans, policies and procedures in a timely and effective manner and otherwise comply with the requirements outlined above, we could become subject to formal supervisory actions which could subject us to significant restrictions on our existing business or on our ability to develop any new business. Such forms of supervisory action could include, without limitation, written agreements, cease and desist orders, and consent orders and may, among other things, result in restrictions on our ability to pay dividends, requirements to increase capital, restrictions on our activities, the imposition of civil monetary penalties, and enforcement of such action through injunctions or restraining orders. We could also be required to dispose of certain assets and liabilities within a prescribed period. The terms of any such supervisory action could have a material adverse effect on our business, operating flexibility, financial condition, and results of operations.

Our ability to engage in certain activities may be adversely affected by our status as a bank holding company.

As a bank holding company, Ally's activities are generally limited to banking or to managing or controlling banks or to other activities deemed closely related to banking or otherwise permissible under the BHC Act and related regulations. Likewise, subject to certain exceptions, Ally is not permitted to acquire more than 5% of any class of voting shares of any nonaffiliated bank or bank holding company, directly or indirectly, or to acquire control of any other company, directly or indirectly (including by acquisition of 25% or more of a class of voting

Table of Contents

shares). Upon our bank holding company approval, we were permitted an initial two-year grace period to bring our activities and investments into conformity with these restrictions. This grace period expired in December 2010. The FRB initially granted a one-year extension that expired in December 2011, and recently granted a second one-year extension that expires in December 2012. We will be permitted to apply to the FRB for one additional one-year extension. Certain of Ally's existing activities and investments, including most of our insurance activities and our SmartAuction vehicle remarketing services for third parties, are deemed impermissible under the BHC Act and must be terminated or disposed of by the expiration of this extension and any additional extensions. While some of these activities may be continued if Ally is able to convert to a financial holding company under the BHC Act, Ally may be unable to satisfy the requirements to enable it to convert to a financial holding company prior to that time, and activities, businesses, or investments that would be permissible for a financial holding company will need to be terminated or disposed of. The FRB may also decline to grant any additional requested extensions, and Ally may be obligated to terminate or dispose of any impermissible activities, businesses, or investments more quickly than anticipated or under terms that are unfavorable to us. Either situation could have a material adverse effect on our business, results of operations, and financial position.

As a bank holding company, our ability to expand into new business activities would require us to obtain the prior approval of the relevant banking supervisors. There can be no assurance that any required approval will be obtained or that we will be able to execute on any such plans in a timely manner or at all. If we are unable to obtain approval to expand into new business activities, our business, results of operations, and financial position may be materially adversely affected.

Our business and financial condition could be further adversely affected as a result of issues relating to mortgage foreclosures, home sales, and evictions in certain states and our entry into a related consent order.

Representatives of federal and state governments, including the United States Department of Justice, the FRB, the FDIC, the U.S. Securities and Exchange Commission (SEC), and law enforcement authorities in all 50 states, have been investigating the procedures followed by mortgage servicing companies and banks, including subsidiaries of Ally, in connection with mortgage foreclosure home sales and evictions. In connection with this, on February 9, 2012, we reached an agreement in principle with the federal government and 49 state attorneys general with respect to these matters, which resulted in a charge of approximately \$230 million in the fourth quarter of 2011. It is possible that Ally or its subsidiaries could become subject to further penalties, sanctions, or other adverse actions related to these matters, which could have a material adverse impact on our results of operations, financial position or cash flows.

On December 1, 2011, the Commonwealth of Massachusetts filed an enforcement action in the Suffolk County Superior Court against GMAC Mortgage and several other lender/servicers. The Commonwealth claims that certain aspects of defendants' foreclosure processes are unlawful, that defendants do not always process loan modification accurately, and that defendants' use of the Mortgage Electronic Registration Systems (MERS) has damaged the integrity of the Commonwealth's Torrens recording system. The Commonwealth seeks civil penalties, injunctive relief, costs and attorneys' fees. In connection with the settlement with the federal government and state attorneys general announced on February 9, 2012, the Commonwealth of Massachusetts agreed to settle all servicing-related claims asserted in this action and to certain limits on monetary damages, if any. However, the Commonwealth of Massachusetts continues to pursue claims related to MERS and certain foreclosure-related matters.

As a result of an examination conducted by the FRB and FDIC, on April 13, 2011, each of Ally, Ally Bank, Residential Capital, LLC and GMAC Mortgage, LLC (collectively, the Ally Entities) entered into a Consent Order (the Consent Order) with the FRB and the FDIC. The Consent Order requires the Ally Entities to make improvements to various aspects of our residential mortgage loan-servicing business, including compliance programs, internal audit, communications with borrowers, vendor management, management information systems, employee training, and oversight by the boards of the Ally Entities. We estimate that incremental costs to the applicable mortgage companies for implementation and ongoing compliance related to these matters to be

Table of Contents

approximately \$40 million annually during 2012 and 2013, and then reducing over time. The majority of these incremental annual costs are for additional servicing personnel, enhancements to information systems, vendor management, costs to comply with MERS requirements, and increased audit and compliance costs.

The Consent Order further requires GMAC Mortgage, LLC to retain independent consultants to conduct a risk assessment related to mortgage servicing activities and, separately, to conduct a review of certain past residential mortgage foreclosure actions (Foreclosure Review). Based on current expectations, we estimate total costs to the applicable mortgage companies related to the Foreclosure Review to be up to \$200 million, but it is possible that costs could be higher, particularly if the scope of the Foreclosure Review is expanded. We expect the majority of these costs to be incurred in 2012, although it is possible that such costs could be incurred over a longer period of time.

We cannot estimate the ultimate impact of any deficiencies that have been or may be identified in the historical foreclosure procedures of certain of our mortgage subsidiaries (Mortgage Companies). There are potential risks related to these matters that extend beyond potential liability on individual foreclosure actions. Specific risks could include, for example, claims and litigation related to foreclosure remediation and resubmission; claims from investors that hold securities that become adversely impacted by continued delays in the foreclosure process, the reduction in foreclosure proceeds due to delay, or by challenges to completed foreclosure sales to the extent, if any, not covered by title insurance obtained in connection with such sales; actions by courts, state attorneys general, or regulators to delay further the foreclosure process after submission of corrected affidavits, or to facilitate claims by borrowers alleging that they were harmed by our foreclosure practices (by, for example, foreclosing without offering an appropriate range of alternative home preservation options); additional regulatory fines, sanctions, and other additional costs; and reputational risks. To date we have borne all out-of-pocket costs associated with the remediation rather than passing any such costs through to investors for whom we service the related mortgages, and we expect that we will continue to do so.

Our ability to execute our business strategy may be affected by regulatory considerations.

Our business strategy for Ally Bank, which is primarily focused on automotive lending and growth of our direct-channel deposit business, is subject to regulatory oversight from a safety and soundness perspective. If our banking supervisors raise concerns regarding any aspect of our business strategy for Ally Bank, we may be obliged to alter our strategy, which could include moving certain activities, such as certain types of lending, outside of Ally Bank to one of our nonbanking affiliates. Alternative funding sources outside of Ally Bank, such as asset securitization or financings in the capital markets, could be more expensive than funding through Ally Bank and could adversely effect our business prospects, results of operations and financial condition.

We are subject to new capital planning and systemic risk regimes, which impose significant restrictions and requirements.

Effective December 2011, the FRB requires bank holding companies with \$50 billion or more in total consolidated assets, such as Ally, to submit annual capital plans for FRB non-objection. In the absence of a non-objection regarding the capital plan, the new regulation prohibits such bank holding companies from paying dividends or making certain other capital distributions without a specific FRB non-objection to such action. Even if a bank holding company receives a non-objection to its capital plan, it may not pay a dividend or make certain other capital distributions without FRB approval under certain circumstances (e.g., after giving effect to the dividend or distribution, the bank holding company would not meet a minimum regulatory capital ratio or a Tier 1 common ratio of at least 5%) and subject to certain exceptions. Ally submitted its first capital plan in January 2012, and on March 13, 2012, the FRB released its Comprehensive Capital Analysis and Review which required us to submit a revised capital plan in the near future. It is unknown whether the FRB will accept Ally's revised plan as submitted or require further revisions.

In addition, in December 2011, the FRB proposed rules to implement certain provisions of the systemic risk regime under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). If adopted as proposed, among other provisions, the rules would require Ally to maintain a sufficient quantity of highly liquid

Table of Contents

assets to survive a projected 30-day liquidity stress event and implement various liquidity-related corporate governance measures; limit Ally's aggregate exposure to any unaffiliated counterparty to 25% of Ally's capital and surplus; and potentially subject Ally to an early remediation regime that could limit the ability of Ally to pay dividends or expand its business if the FRB identified Ally as suffering from financial or management weaknesses. The systemic risk provisions, when implemented, could adversely affect our business prospects, results of operations, and financial condition.

Our ability to rely on deposits as a part of our funding strategy may be limited.

Ally Bank continues to be a key part of our funding strategy, and we have increased our reliance on deposits as an alternative source of funding through Ally Bank. Ally Bank does not have a retail branch network, and it obtains its deposits through direct banking and brokered deposits which, at December 31, 2011, included \$9.9 billion of brokered certificates of deposit that may be more price sensitive than other types of deposits and may become less available if alternative investments offer higher interest rates. Our ability to maintain our current level of deposits or grow our deposit base could be affected by regulatory restrictions including the possible imposition of prior approval requirements, restrictions on deposit growth, or restrictions on our rates offered. In addition, perceptions of our financial strength, rates offered by third parties, and other competitive factors beyond our control, including returns on alternative investments, will also impact our ability to grow our deposit base. As we have established the Ally Bank brand and increased our retail deposit base over the past few years, we have reduced offered rates on new retail deposits. However, a strategy of continuing to offer reduced rates in the future could limit our ability to further grow or maintain deposits. Even if we are able to grow the deposit base of Ally Bank, our regulators may impose restrictions on our ability to use Ally Bank deposits as a source of funding for certain business activities potentially raising the cost of funding those activities without the use of Ally Bank deposits.

The FDIC has indicated that it expects Ally to diversify Ally Bank's overall funding and to focus on reducing Ally Bank's overall funding costs including the interest rates paid on Ally Bank deposits. See Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity Management, Funding, and Regulatory Capital—Funding Strategy for additional information about these diversification activities. As stated above, over the past few years, we have reduced rates on retail deposits, as well as introduced new products, resulting in lower cost of funds for deposits. However, it is possible that further reductions of rates on retail deposits could limit Ally Bank's ability to grow or maintain deposits, which could have a material adverse impact on the funding and capital position of Ally.

The regulatory environment in which we operate could have a material adverse effect on our business and earnings.

Our domestic operations are subject to various laws and judicial and administrative decisions imposing various requirements and restrictions relating to supervision and regulation by state and federal authorities. Such regulation and supervision are primarily for the benefit and protection of our customers, not for the benefit of investors in our securities, and could limit our discretion in operating our business. Noncompliance with applicable statutes, regulations, rules, or policies could result in the suspension or revocation of any license or registration at issue as well as the imposition of civil fines and criminal penalties.

Ally, Ally Bank, and many of our nonbank subsidiaries are heavily regulated by bank and other regulatory agencies at the federal and state levels. This regulatory oversight is established to protect depositors, the FDIC's Deposit Insurance Fund, and the banking system as a whole, not security holders. Changes to statutes, regulations, rules, or policies including the interpretation or implementation of statutes, regulations, rules, or policies could affect us in substantial and unpredictable ways including limiting the types of financial services and products we may offer, limiting our ability to pursue acquisitions and increasing the ability of third parties to offer competing financial services and products.

Table of Contents

Our operations are also heavily regulated in many jurisdictions outside the United States. For example, certain of our foreign subsidiaries operate either as a bank or a regulated finance company, and our insurance operations are subject to various requirements in the foreign markets in which we operate. The varying requirements of these jurisdictions may be inconsistent with U.S. rules and may materially adversely affect our business or limit necessary regulatory approvals, or if approvals are obtained, we may not be able to continue to comply with the terms of the approvals or applicable regulations. In addition, in many countries, the regulations applicable to the financial services industry are uncertain and evolving.

Our inability to remain in compliance with regulatory requirements in a particular jurisdiction could have a material adverse effect on our operations in that market with regard to the affected product and on our reputation generally. No assurance can be given that applicable laws or regulations will not be amended or construed differently, that new laws and regulations will not be adopted, or that we will not be prohibited by local laws or regulators from raising interest rates above certain desired levels, any of which could materially adversely affect our business, operating flexibility, financial condition, or results of operations.

Financial services legislative and regulatory reforms may have a significant impact on our business and results of operations.

The Dodd-Frank Act became law in July 2010. Portions of the Dodd-Frank Act were effective immediately, but many provisions will only be effective after the adoption of implementing regulations, which have been delayed in numerous cases. The Dodd-Frank Act, when fully implemented, will have material implications for Ally and the entire financial services industry. Among other things, it will or potentially could:

result in Ally being subject to enhanced oversight and scrutiny as a result of being a bank holding company with \$50 billion or more in consolidated assets;

result in the appointment of the FDIC as receiver of Ally in an orderly liquidation proceeding if the Secretary of Treasury, upon recommendation of two-thirds of the FRB and the FDIC and in consultation with the President of the United States, finds Ally to be in default or danger of default;

affect the levels of capital and liquidity with which Ally must operate and how it plans capital and liquidity levels;

subject Ally to new and/or higher fees paid to various regulatory entities, including but not limited to deposit insurance fees to the FDIC;

impact Ally's ability to invest in certain types of entities or engage in certain activities;

impact a number of Ally's business and risk management strategies;

restrict the revenue that Ally generates from certain businesses; and

subject Ally to a new Consumer Financial Protection Bureau (CFPB), which has very broad rule-making and enforcement authorities.

As the Dodd-Frank Act requires that many studies be conducted and that hundreds of regulations be written in order to fully implement it, the full impact of this legislation on Ally, its business strategies, and financial performance cannot be known at this time and may not be known for a number of years. In addition, regulations may impact us differently in comparison to other more established financial institutions. However, these impacts are expected to be substantial and some of them are likely to adversely affect Ally and its financial performance. The extent to which Ally can adjust its strategies to offset such adverse impacts also is not knowable at this time.

Table of Contents

Our business may be adversely affected upon our implementation of the revised capital requirements under the Basel III capital rules.

The Bank for International Settlements' Basel Committee on Banking Supervision recently adopted new capital, leverage, and liquidity guidelines under the Basel Accord (Basel III), which when implemented in the United States, may have the effect of raising capital requirements beyond those required by current law and the Dodd-Frank Act. Basel III increases (i) the minimum Tier 1 common equity ratio from 2.0% to 4.5%, net of regulatory deductions, and introduces a capital conservation buffer of an additional 2.5% of common equity to risk-weighted assets, raising the target minimum common equity ratio to 7.0% and (ii) the minimum Tier 1 capital ratio to 8.5% inclusive of the capital conservation buffer, increases the minimum total capital ratio to 10.5% inclusive of the capital buffer, and introduces a countercyclical capital buffer of up to 2.5% of common equity or other fully loss absorbing capital for periods of excess credit growth. Basel III also introduces a nonrisk adjusted Tier 1 leverage ratio of 3% based on a measure of the total exposure rather than total assets and new liquidity standards. The Basel III capital, leverage, and liquidity standards will be phased in over a multiyear period. The Basel III rules, when implemented, will also impose a 15% cap on the amount of Tier 1 capital that can be met, in the aggregate, through significant investments in the common shares of unconsolidated financial subsidiaries, mortgage servicing rights (MSRs), and deferred tax assets through timing differences, as well as a 10% cap on the amount of each of the three individual items that may be included in Tier 1 capital. In addition, under Basel III rules, after a 10-year phase-out period beginning in January 2013, trust preferred and other hybrid securities will no longer qualify as Tier 1 capital. However, under the Dodd-Frank Act, subject to certain exceptions, trust preferred and other hybrid securities are phased out from Tier 1 capital in a three-year period starting January 2013. At December 31, 2011, Ally had \$2.3 billion of MSRs and \$2.5 billion of trust preferred securities, which were included as Tier 1 capital. Ally currently has no other hybrid securities outstanding. The Basel III rules, when implemented, will impose limits on Ally's ability to meet its regulatory capital requirements through the use of MSRs, trust preferred securities, or other hybrid securities, if applicable. Pending final rules for Basel III and subsequent regulatory interpretation, there remains a degree of uncertainty on the full impact of Basel III. It is currently anticipated that U.S. banking regulators will propose regulations to implement Basel III in 2012.

If we or Ally Bank fail to satisfy regulatory capital requirements, we or Ally Bank may be subject to serious regulatory sanctions ranging in severity from being precluded from making acquisitions or engaging in new activities to becoming subject to informal or formal supervisory actions by the FRB and/or FDIC and, potentially, FDIC receivership of Ally Bank. If any of these were to occur, such actions could prevent us from successfully executing our business plan and have a material adverse effect on our business, results of operations, and financial position.

The actions of the FRB and international central banking authorities directly impact our cost of funds for lending, capital raising, and investment activities and may impact the value of financial instruments we hold. In addition, such changes in monetary policy may affect the credit quality of our customers. Changes in domestic and international monetary policy are beyond our control and difficult to predict.

Future consumer or mortgage legislation could harm our competitive position.

In addition to the recent enactment of the Dodd-Frank Act, various legislative bodies have also recently been considering altering the existing framework governing creditors' rights and mortgage products including legislation that would result in or allow loan modifications of various sorts. Such legislation may change banking statutes and the operating environment in substantial and unpredictable ways. If enacted, such legislation could increase or decrease the cost of doing business; limit or expand permissible activities; or affect the competitive balance among banks, savings associations, credit unions, and other financial institutions. We cannot predict whether new legislation will be enacted, and if enacted, the effect that it or any regulations would have on our activities, financial condition, or results of operations.

Table of Contents

Ally and its subsidiaries are or may become involved from time to time in information-gathering requests, investigations, and proceedings by government and self-regulatory agencies which may lead to adverse consequences.

Ally and its subsidiaries, including Ally Bank, are or may become involved from time to time in information-gathering requests, reviews, investigations, and proceedings (both formal and informal) by government and self-regulatory agencies, including the FRB, FDIC, Utah DFI, CFPB, SEC, and the Federal Trade Commission regarding their respective operations. Such requests include subpoenas from each of the SEC and the U.S. Department of Justice, served on Ally Financial Inc. and GMAC Mortgage LLC, respectively. Beginning in December 2010 and continuing through 2011, a series of subpoenas were received from the SEC, seeking information about various aspects of the process surrounding securitizations of residential mortgages with which certain of our mortgage subsidiaries were involved as sponsor or servicer. The subpoena received from the U.S. Department of Justice includes a broad request for documentation and other information in connection with its investigation of potential fraud related to the origination and/or underwriting of mortgage loans. These subpoenas, or any other investigation or information-gathering request, may result in material adverse consequences including without limitation, adverse judgments, settlements, fines, penalties, injunctions, or other actions.

Our business, financial position, and results of operations could be adversely affected by the impact of affiliate transaction restrictions imposed in connection with certain financing transactions.

Certain transactions between Ally Bank and any of its nonbank affiliates, including but not limited to Ally Financial Inc. and ResCap are subject to federal statutory and regulatory restrictions. Pursuant to these restrictions, unless otherwise exempted, covered transactions, including Ally Bank's extensions of credit to and asset purchases from its nonbank affiliates, generally (1) are limited to 10% of Ally Bank's capital stock and surplus with respect to transactions with any individual affiliate, with an aggregate limit of 20% of Ally Bank's capital stock and surplus for all affiliates and all such transactions; (2) in the case of certain credit transactions, are subject to stringent collateralization requirements; (3) in the case of asset purchases by Ally Bank, may not involve the purchase of any asset deemed to be a low quality asset under federal banking guidelines; and (4) must be conducted in accordance with safe-and-sound banking practices (collectively, the Affiliate Transaction Restrictions). Under the Dodd-Frank Act, among other changes to Sections 23A and 23B of the Federal Reserve Act, credit exposures resulting from derivatives transactions and securities lending and borrowing transactions will be treated as covered transactions. Furthermore, there is an attribution rule that provides that a transaction between Ally Bank and a third party must be treated as a transaction between Ally Bank and a nonbank affiliate to the extent that the proceeds of the transaction are used for the benefit of, or transferred to, a nonbank affiliate of Ally Bank. Retail financing transactions by Ally Bank involving vehicles which are floorplan financed by Ally Financial Inc. are subject to the Affiliate Transaction Restrictions because the proceeds of the retail financings are deemed to benefit, and are ultimately transferred to, Ally.

Historically, the FRB was authorized to exempt, in its discretion, transactions or relationships from the requirements of these rules if it found such exemptions to be in the public interest and consistent with the purposes of the rules. As a result of the Dodd-Frank Act, exemptions now may be granted by the FDIC if the FDIC and FRB jointly find that the exemption is in the public interest and consistent with the purposes of the rules, and the FDIC finds that the exemption does not present an unacceptable risk to the Deposit Insurance Fund. The FRB granted several such exemptions to Ally Bank in the past. However, the existing exemptions are subject to various conditions and, particularly in light of the statutory changes made by the Dodd-Frank Act, any requests for future exemptions may not be granted. Moreover, these limited exemptions generally do not encompass consumer leasing or used vehicle financing. Since there is no assurance that Ally Bank will be able to obtain future exemptions or waivers with respect to these restrictions, the ability to grow Ally Bank's business will be affected by the Affiliate Transaction Restrictions and the conditions set forth in the existing exemption letters.

Table of Contents

Ally Financial Inc. may in the future require distributions from its subsidiaries.

We currently fund Ally Financial Inc.'s obligations, including dividend payments to our preferred shareholders, and payments of interest and principal on our indebtedness, from cash generated by Ally Financial Inc. In the future, Ally Financial Inc. may not generate sufficient funds at the parent company level to fund its obligations. As such, it may require dividends, distributions, or other payments from its subsidiaries to fund its obligations. However, regulatory and other legal restrictions may limit the ability of Ally Financial Inc.'s subsidiaries to transfer funds freely to Ally Financial Inc. In particular, many of Ally Financial Inc.'s subsidiaries are subject to laws, regulations, and rules that authorize regulatory bodies to block or reduce the flow of funds to it or that prohibit such transfers entirely in certain circumstances. These laws, regulations, and rules may hinder Ally Financial Inc.'s ability to access funds that it may need to make payments on its obligations in the future. Furthermore, as a bank holding company, Ally Financial Inc. may become subject to a prohibition or to limitations on its ability to pay dividends. The bank regulators have the authority and, under certain circumstances, the duty to prohibit or to limit payment of dividends by the banking organizations they supervise, including Ally Financial Inc. and its subsidiaries.

Current and future increases in FDIC insurance premiums, including the FDIC special assessment imposed on all FDIC-insured institutions, could decrease our earnings.

Beginning in 2008 and continuing through 2011, higher levels of bank failures have dramatically increased resolution costs of the FDIC and depleted the Deposit Insurance Fund (the DIF). In May 2009, the FDIC announced that it had voted to levy a special assessment on insured institutions in order to facilitate the rebuilding of the DIF. In September 2009, the FDIC voted to adopt an increase in the risk-based assessment rate effective beginning January 1, 2011, by three basis points. Further, the Dodd-Frank Act alters the calculation of an insured institution's deposit base for purposes of deposit insurance assessments and removes the upper limit for the reserve ratio designated by the FDIC each year. On February 7, 2011, the FDIC approved a final rule implementing these changes, which took effect on April 1, 2011. The FDIC will continue to assess the changes to the assessment rates at least annually. Future deposit premiums paid by Ally Bank depend on the level of the DIF and the magnitude and cost of future bank failures. Any increases in deposit insurance assessments could decrease our earnings.

Risks Related to Our Business

The profitability and financial condition of our operations are heavily dependent upon the performance, operations, and prospects of GM and Chrysler.

GM, GM dealers, and GM-related employees compose a significant portion of our customer base, and our domestic and, in particular, our International Automotive Finance operations are highly dependent on GM production and sales volume. In 2011, 62% of our North American new vehicle dealer inventory financing and 66% of our North American new vehicle consumer automotive financing volume were for GM dealers and customers. In addition, 97% of our international new vehicle dealer inventory financing and 82% of our international new vehicle consumer automotive financing volume were for GM dealers and customers. Furthermore, we have an agreement with Chrysler related to automotive financing products and services for Chrysler dealers and customers pursuant to which we are the preferred provider of new wholesale financing for Chrysler dealer inventory and consumer financing for Chrysler customers. In 2011, 30% of our North American new vehicle dealer inventory financing and 28% of our North American new vehicle consumer automotive financing volume were for Chrysler dealers and customers.

Ally's agreements with GM and Chrysler regarding automotive financing products for their dealers and customers extend through December and April 2013, respectively, unless terminated earlier in accordance with their terms. The agreement with Chrysler provides for automatic one-year renewals unless either we or Chrysler provides sufficient notice of nonrenewal. As a result, our agreement with Chrysler will be automatically extended through April 30, 2014, unless Chrysler notifies us of nonrenewal on or before April 30, 2012, in which case, the

Table of Contents

agreement would expire on April 30, 2013. These agreements provide Ally with certain preferred provider benefits including limiting the use of other financing providers by GM and Chrysler in their incentive programs. The terms of the Ally agreement with GM changed after January 1, 2011, such that GM is now able to offer incrementally more incentive programs through third parties on a nonexclusive, side-by-side basis with Ally, provided that the pricing of the third parties meets certain requirements. Due to the highly competitive nature of the market for financial services, Ally may be unable to extend one or both of these agreements or may face less favorable terms upon extension. If Ally is unable to extend one or both of these agreements or if GM or Chrysler enters a similar agreement with a third party, Ally's retail financing volumes could be materially and adversely impacted.

On October 1, 2010, GM acquired AmeriCredit Corp. (which GM subsequently renamed General Motors Financial Company, Inc.), an independent automotive finance company that focuses on providing leasing and subprime financing options. If GM were to direct substantially more business, including wholesale financing business, to its captive on noncommercial terms thus reducing its reliance on our services over time, it could have a material adverse effect on our profitability and financial condition. In addition, it is possible that GM or other automotive manufacturers could utilize other existing companies to support their financing needs including offering products or terms that we would not or could not offer, which could have a material adverse impact on our business and operations. Furthermore, other automotive manufacturers could expand or establish or acquire captive finance companies to support their financing needs thus reducing their need for our services.

A significant adverse change in GM's or Chrysler's business, including significant adverse changes in their respective liquidity position and access to the capital markets; the production or sale of GM or Chrysler vehicles; the quality or resale value of GM or Chrysler vehicles; the use of GM or Chrysler marketing incentives; GM's or Chrysler's relationships with its key suppliers; or GM's or Chrysler's relationship with the United Auto Workers and other labor unions and other factors impacting GM or Chrysler or their respective employees, could have a material adverse effect on our profitability and financial condition. In addition, growth in our International Automotive Finance operations is highly dependent on GM, and therefore any significant change to GM's international business or our relationship with GM may hinder our ability to expand internationally.

There is no assurance that the global automotive market or GM's and Chrysler's respective share of that market will not suffer downturns in the future, and any negative impact could in turn have a material adverse effect on our business, results of operations, and financial position.

Our business requires substantial capital and liquidity, and disruption in our funding sources and access to the capital markets would have a material adverse effect on our liquidity, capital positions, and financial condition.

Our liquidity and the long-term viability of Ally depend on many factors, including our ability to successfully raise capital and secure appropriate bank financing. We are currently required to maintain a Tier 1 leverage ratio of 15% at Ally Bank, which will require that Ally maintain substantial equity funds in Ally Bank and inject substantial additional equity funds into Ally Bank as Ally Bank's assets increase over time.

We have significant maturities of unsecured debt each year. While we have reduced our reliance on unsecured funding, it continues to remain a critical component of our capital structure and financing plans. At December 31, 2011, approximately \$12.0 billion in principal amount of total outstanding consolidated unsecured debt is scheduled to mature in 2012, which includes \$7.4 billion in principal amount of debt issued under the FDIC's Temporary Liquidity Guaranty Program, and approximately \$2.3 billion and \$5.8 billion in principal amount of consolidated unsecured debt is scheduled to mature in 2013 and 2014, respectively. We also obtain short-term funding from the sale of floating rate demand notes, all of which the holders may elect to have redeemed at any time without restriction. At December 31, 2011, a total of \$2.8 billion in principal amount of Demand Notes were outstanding. We also rely on secured funding. At December 31, 2011, approximately \$14.4 billion of outstanding consolidated secured debt is scheduled to mature in 2012, approximately \$15.1 billion is

Table of Contents

scheduled to mature in 2013, and approximately \$11.1 billion is scheduled to mature in 2014. Furthermore, at December 31, 2011, approximately \$15.0 billion in certificates of deposit at Ally Bank are scheduled to mature in 2012, which is not included in the 2012 unsecured maturities provided above. Additional financing will be required to fund a material portion of the debt maturities over these periods. The capital markets continue to be volatile, and Ally's access to the debt markets may be significantly reduced during periods of market stress. In addition, we will continue to have significant original issue discount amortization expenses (OID expense) in the near future, which will adversely affect our net income and resulting capital position. OID expense was \$925 million for the year ended 2011, and the remaining scheduled amortization of OID is \$350 million, \$263 million, and \$190 million in 2012, 2013, and 2014, respectively.

As a result of the volatility in the markets and our current unsecured debt ratings, we have increased our reliance on various secured debt markets. Although market conditions have improved, there can be no assurances that this will continue. In addition, we continue to rely on our ability to borrow from other financial institutions, and many of our primary bank facilities are up for renewal on a yearly basis. Any weakness in market conditions and a tightening of credit availability could have a negative effect on our ability to refinance these facilities and increase the costs of bank funding. Ally and Ally Bank also continue to access the securitization markets. While markets have continued to stabilize following the 2008 liquidity crisis, there can be no assurances these sources of liquidity will remain available to us.

Our indebtedness and other obligations are significant and could materially and adversely affect our business.

We have a significant amount of indebtedness. At December 31, 2011, we had approximately \$101.6 billion in principal amount of indebtedness outstanding (including \$53.0 billion in secured indebtedness). Interest expense on our indebtedness constituted approximately 57% of our total financing revenue and other interest income for the year ended December 31, 2011. In addition, during the twelve months ending December 31, 2011, we declared and paid preferred stock dividends of \$794 million in the aggregate.

We have the ability to create additional unsecured indebtedness. If our debt service obligations increase, whether due to the increased cost of existing indebtedness or the incurrence of additional indebtedness, we may be required to dedicate a significant portion of our cash flow from operations to the payment of principal of, and interest on, our indebtedness, which would reduce the funds available for other purposes. Our indebtedness also could limit our ability to withstand competitive pressures and reduce our flexibility in responding to changing business and economic conditions.

The worldwide financial services industry is highly competitive. If we are unable to compete successfully or if there is increased competition in the automotive financing, mortgage, and/or insurance markets or generally in the markets for securitizations or asset sales, our business could be negatively affected.

The markets for automotive and mortgage financing, banking, and insurance are highly competitive. The market for automotive financing has grown more competitive as more consumers are financing their vehicle purchases and as more competitors continue to enter this market as a result of how well automotive finance assets generally performed relative to other asset classes during the 2008 economic downturn. More recently, competition for automotive financing has further intensified as a growing number of banks have become increasingly interested in automotive-finance assets, which has resulted in pressure on our net interest margins. For example, on April 1, 2011, TD Bank Group announced the closing of its acquisition of Chrysler Financial, which could enhance Chrysler Financial's ability to expand its product offerings and may result in increased competition. Our mortgage business and Ally Bank face significant competition from commercial banks, savings institutions, mortgage companies, and other financial institutions. Our insurance business faces significant competition from insurance carriers, reinsurers, third-party administrators, brokers, and other insurance-related companies. Many of our competitors have substantial positions nationally or in the markets in which they operate. Some of our competitors have lower cost structures, substantially lower costs of capital, and are much

Table of Contents

less reliant on securitization activities, unsecured debt, and other public markets. We face significant competition in most areas including product offerings, rates, pricing and fees, and customer service. If we are unable to compete effectively in the markets in which we operate, our profitability and financial condition could be negatively affected.

The markets for asset and mortgage securitizations and whole-loan sales are competitive, and other issuers and originators could increase the amount of their issuances and sales. In addition, lenders and other investors within those markets often establish limits on their credit exposure to particular issuers, originators, and asset classes, or they may require higher returns to increase the amount of their exposure. Increased issuance by other participants in the market or decisions by investors to limit their credit exposure to (or to require a higher yield for) us or to automotive or mortgage securitizations or whole-loans could negatively affect our ability and that of our subsidiaries to price our securitizations and whole-loan sales at attractive rates. The result would be lower proceeds from these activities and lower profits for our subsidiaries and us.

Our allowance for loan losses may not be adequate to cover actual losses, and we may be required to materially increase our allowance, which may adversely affect our capital, financial condition, and results of operations.

We maintain an allowance for loan losses, which is a reserve established through a provision for loan losses charged to expenses, which represents management's best estimate of probable credit losses that have been incurred within the existing portfolio of loans, all as described in Note 1 to the Consolidated Financial Statements. The allowance, in the judgment of management, is established to reserve for estimated loan losses and risks inherent in the loan portfolio. The determination of the appropriate level of the allowance for loan losses inherently involves a high degree of subjectivity and requires us to make significant estimates of current credit risks using existing qualitative and quantitative information, all of which may undergo material changes. Changes in economic conditions affecting borrowers, new information regarding existing loans, identification of additional problem loans, and other factors, both within and outside of our control, may require an increase in the allowance for loan losses.

Bank regulatory agencies periodically review our allowance for loan losses, as well as our methodology for calculating our allowance for loan losses and may require an increase in the provision for loan losses or the recognition of additional loan charge-offs, based on judgments different than those of management. An increase in the allowance for loan losses results in a decrease in net income and capital and may have a material adverse effect on our capital, financial condition and results of operations.

The protracted period of adverse developments in the mortgage finance and credit markets has adversely affected ResCap's business, liquidity, and its capital position and has raised substantial doubt about ResCap's ability to continue as a going concern.

ResCap has been adversely affected by the events and conditions in the broader mortgage banking industry, most severely but not limited to the domestic nonprime and nonconforming and international mortgage loan markets. Fair market valuations of held-for-sale mortgage loans, MSR's, and securitized interests that continue to be held by ResCap and other assets and liabilities ResCap records at fair value may continue to deteriorate if there continues to be weakness in housing prices or increased severity of delinquencies and defaults of mortgage loans, or should mortgage rates increase. These deteriorating factors previously resulted in higher provision for loan losses on ResCap's held-for-investment mortgage loans and real estate-lending portfolios. As a direct result of these events and conditions, ResCap discontinued new originations in all of its international operations and sold its U.K. and European operations and currently generally only purchases or originates mortgage loans that can be sold in the form of securitizations guaranteed by the GSEs. If the GSEs became unable or unwilling to purchase mortgage loans from ResCap, it would have a materially adverse impact on ResCap's funding and liquidity and on its ability to originate or purchase new mortgage loans.

Table of Contents

ResCap is highly leveraged relative to its cash flow and has recognized substantial losses resulting in a significant deterioration in capital. There continues to be a risk that ResCap will not be able to meet its debt service obligations, and/or that it will be in a negative liquidity position in 2012 or beyond. Further, ResCap was in default on certain of its financial covenants as of December 31, 2011 due to insufficient equity levels, and it is possible that further defaults could occur in the future due to insufficient equity, capital, or liquidity. ResCap remains heavily dependent on Ally and its affiliates for funding and capital support, and there can be no assurance that Ally or its affiliates will continue any such support or that Ally will choose to execute any further strategic transactions with respect to ResCap or that any transactions undertaken will be successful.

In light of ResCap's liquidity and capital needs combined with volatile conditions in the marketplace, there is substantial doubt about ResCap's ability to continue as a going concern. If Ally determines to no longer support ResCap's capital or liquidity needs or if ResCap or Ally are unable to successfully execute effective initiatives, it would have a material adverse effect on ResCap's business, results of operations, and financial position.

We have extensive financing and hedging exposures to ResCap, which could be at risk of nonpayment if ResCap were to file for bankruptcy.

We have extensive financing and hedging arrangements in place with ResCap. At December 31, 2011, we had \$2.6 billion in funding arrangements with ResCap. This amount included a \$1.0 billion of senior secured credit facilities, which were fully drawn at December 31, 2011. This amount further included a \$1.6 billion line of credit consisting of \$1.1 billion in secured capacity, of which \$235 million was drawn, and \$500 million of unsecured capacity. The unsecured portion is only available after the secured portion has been fully drawn. At December 31, 2011, all hedging arrangements were fully collateralized. Amounts outstanding under the financing and hedging arrangements fluctuate. If ResCap were to file for bankruptcy, ResCap's repayments of its financing facilities, including those with us, will be subject to bankruptcy proceedings and regulations, or ResCap may be unable to repay its financing facilities. In addition, we would be an unsecured creditor of ResCap to the extent that the proceeds from the sale of our collateral are insufficient to repay ResCap's secured obligations to us. In addition, it is possible that other ResCap creditors would seek to recharacterize our loans to ResCap as equity contributions or to seek equitable subordination of our claims so that the claims of other creditors would have priority over our claims. We may also find it advantageous to provide debtor-in-possession financing to ResCap in a bankruptcy proceeding in order to preserve the value of the collateral ResCap has pledged to us. In addition, should ResCap file for bankruptcy, our investment related to ResCap's equity position would likely be reduced to zero, and creditors of ResCap may attempt to assert claims directly against us for payment of their obligations, which could result in litigation with such creditors.

There is a significant risk that ResCap will not be able to meet its debt service obligations and other funding obligations in the near term.

ResCap expects its liquidity pressures to continue in 2012. ResCap is highly leveraged relative to its cash flow. At December 31, 2011, ResCap's unrestricted liquidity (cash readily available to cover operating demands from across its business operations) totaled \$390 million with cash and cash equivalents totaling \$619 million.

ResCap expects that additional and continuing liquidity pressure, which is difficult to forecast with precision, will result from the obligation of its subsidiaries to advance delinquent principal, interest, property taxes, casualty insurance premiums, home equity line advances, and certain other amounts with respect to mortgage loans its subsidiaries service that become delinquent. In addition, ResCap continues to be subject to financial covenants requiring it to maintain minimum consolidated tangible net worth and consolidated liquidity balances. ResCap will attempt to meet these and other liquidity and capital demands through a combination of cash flow from operations and financings, potential asset sales, and other various alternatives. To the extent these sources prove insufficient, ResCap will be dependent on continued support from Ally to the extent Ally agrees to provide such support. Ally currently provides funding and capital support to ResCap through various secured and

Table of Contents

unsecured facilities, which includes a \$500 million unsecured line of credit. The sufficiency of these sources of additional liquidity cannot be assured, and any asset sales, even if they raise sufficient cash to meet ResCap's liquidity needs, may adversely affect its overall profitability and financial condition.

Moreover, even if ResCap is successful in implementing all of the actions described above, its ability to satisfy its liquidity needs and comply with any covenants included in its debt agreements requiring maintenance of minimum cash balances may be affected by additional factors and events (such as interest rate fluctuations and margin calls) that increase ResCap's cash needs making ResCap unable to independently satisfy its near-term liquidity requirements.

Our mortgage subsidiary, ResCap, requires substantial liquidity and capital.

ResCap remains heavily reliant on support from us to meet its liquidity and capital requirements, which includes approximately \$2.4 billion in principal amount of indebtedness scheduled to mature in 2012, 2013, and 2014. For example, we made a capital contribution of approximately \$197 million to ResCap in January 2012 through forgiveness of intercompany debt to cure a covenant breach by ResCap. In addition, ResCap has commitments to lend up to \$1.8 billion under existing home equity lines of credit it has extended to customers. Developments in the market for many types of mortgage products have resulted in reduced liquidity for these assets. As a result, a significant portion of ResCap's assets are relatively illiquid.

Pursuant to an existing contractual arrangement, ResCap is precluded from paying any dividends to us, including additional capital that we may provide in the future.

ResCap employs various economic hedging strategies to mitigate the interest rate and prepayment risk inherent in many of its assets including its mortgage loans held-for-sale portfolio, MSR's, its portfolio of held-for-investment mortgage loans, and interests from securitizations. A significant portion of ResCap's operating cash at any given time may consist of funds delivered to it as credit support by counterparties pursuant to these arrangements. As interest rates change and dependent upon the hedge position, ResCap may need to continue to repay or deliver cash as credit support for these arrangements. If the amount ResCap must repay or deliver is substantial, depending on its liquidity position at that time, ResCap may not be able to pay such amounts as required.

Certain of our mortgage subsidiaries have been, and will likely continue to be, required to repurchase mortgage loans for losses, indemnify the investor for incurred losses, or make the investor whole related to breaches of representations and warranties made in connection with the sale of loans, and face potential legal liability resulting from claims related to the sale of mortgage backed securities.

When our Mortgage Companies sell mortgage loans through whole-loan sales or securitizations, these entities are required to make customary representations and warranties about the loans to the purchaser and/or securitization trust. These representations and warranties relate to, among other things, the ownership of the loan, the validity of the lien securing the loan, the loan's compliance with the criteria for inclusion in the transaction, including compliance with underwriting standards or loan criteria established by the buyer, ability to deliver required documentation, and compliance with applicable laws. In general, the representations and warranties described above may be enforced against the applicable Mortgage Companies at any time unless a sunset provision is in place. Breaches of these representations and warranties have resulted in a requirement that the applicable Mortgage Companies repurchase mortgage loans, indemnify the investor for incurred losses, or make the investor whole. As the mortgage industry continues to experience higher repurchase demands and additional parties begin to attempt to put back loans, a significant increase in activity beyond that experienced today could occur, resulting in additional future losses at our Mortgage Companies. At December 31, 2011, our reserve for representation and warranty obligations was \$825 million. It is difficult to determine the accuracy of our estimates and assumptions used to determine this reserve. For example, if the law were to develop that disagrees with our interpretation that a claimant must prove that the alleged breach of representations and warranties was

Table of Contents

caused by the alleged adverse effect on the interest of the claimant, it could significantly impact our determination of the reserve. In addition, if recent court rulings related to monoline litigation that have allowed sampling of loan files instead of a loan-by-loan review to determine if a representations and warranties breach has occurred are followed generally by the courts, private-label securitization investors may view litigation as a more attractive alternative to a loan-by-loan review. As a result of these and other developments, the actual experience at our Mortgage Companies may differ materially from these estimates and assumptions. Refer to Note 31 to the Consolidated Financial Statements for further details.

Further, claims related to private-label mortgage-backed securities (MBS) have been brought against Ally and certain of its subsidiaries under federal and state securities laws and contract laws (among other theories), and additional similar claims are likely to be brought in the future. Several securities law cases have been brought by various third-party investors relating to MBS, where investors have alleged misstatements and omissions in registration statements, prospectuses, prospectus supplements, and other documents related to MBS offerings. In addition, there are two cases pending where MBIA Insurance Corporation (MBIA), a monoline bond insurance company, has alleged, among other things, that two of our Mortgage Companies breached their contractual representations and warranties relating to the characteristics of the mortgage loans contained in certain insured MBS offerings. MBIA further alleges that such entities failed to follow certain remedy procedures set forth in the contracts and improperly serviced the mortgage loans. Along with claims of breach of contract, MBIA also alleges fraud. In addition, there are four cases where Financial Guaranty Insurance Company (FGIC) has alleged, among other things, that certain of our mortgage subsidiaries breached their contractual representations and warranties relating to the characteristics of the mortgage loans contained in certain insured MBS offerings. FGIC further alleges that our subsidiaries breached contractual obligations to permit access to loan files and certain books and records. Along with claims of breach of contract, FGIC also alleges fraud in one of the three cases. We expect our Mortgage Companies to receive additional repurchase demands from MBIA and FGIC, the amount of which could be substantial. In addition, litigation from other monoline bond insurance companies is likely. Third-party investors may also bring contractual representation and warranties claims against us. Refer to Note 31 to the Consolidated Financial Statements for further details with respect to existing litigation.

Certain of our mortgage subsidiaries received subpoenas in July 2010 from the Federal Housing Finance Agency (FHFA), which is the conservator of Fannie Mae and Freddie Mac. The subpoenas relating to Fannie Mae investments have been withdrawn with prejudice. The FHFA indicated that documents provided in response to the remaining subpoenas will enable the FHFA to determine whether they believe issuers of private-label MBS are potentially liable to Freddie Mac for losses they might have incurred. Although Freddie Mac has not brought any representation and warranty claims against us with respect to private label securities subsequent to the settlement, they may well do so in the future. The FHFA has commenced securities and related common law fraud litigation against certain of our mortgage subsidiaries with respect to certain of Freddie Mac's private label securities investments. Refer to Note 31 to the Consolidated Financial Statements for additional information.

We believe it is reasonably possible that losses at our Mortgage Companies beyond amounts currently reserved for the matters described above could occur, and such losses could have a material adverse impact on our results of operations, financial position, or cash flows. However, based on currently available information, we are unable to estimate a range of reasonably possible losses above reserves that have been established.

Changes in existing U.S. government-sponsored mortgage programs, restrictions on our access to such programs, or disruptions in the secondary markets in the United States or in other countries in which we operate could adversely affect our profitability and financial condition.

Our ability to generate revenue through mortgage loan sales to institutional investors in the United States depends to a significant degree on programs administered by the GSEs and others that facilitate the issuance of MBS in the secondary market. These GSEs play a powerful role in the residential mortgage industry and we have significant business relationships with them. Proposals have been enacted in the U.S. Congress and are under consideration by various regulatory authorities that would affect the manner in which these GSEs conduct their

Table of Contents

business to require them to register their stock with the SEC to reduce or limit certain business benefits that they receive from the U.S. government and to limit the size of the mortgage loan portfolios that they may hold. Furthermore, the Obama administration released a report in 2011 that recommended winding down Fannie Mae and Freddie Mac. We do not know what impact, if any, the report would have on the future of the GSEs. Moreover, the results of the upcoming U.S. presidential election may also have a significant impact on the future of the GSEs. In addition, the GSEs themselves have been negatively affected by recent mortgage market conditions, including conditions that have threatened their access to debt financing. Any discontinuation of, or significant reduction in, the operation of these GSEs could adversely affect our revenues and profitability. Also, any significant adverse change in the level of activity in the secondary market including declines in institutional investors' desire to invest in our mortgage products could materially adversely affect our business.

We are exposed to consumer credit risk, which could adversely affect our profitability and financial condition.

We are subject to credit risk resulting from defaults in payment or performance by customers for our contracts and loans, as well as contracts and loans that are securitized and in which we retain a residual interest. For example, the continued decline in the domestic housing market and the increase in unemployment rates resulted in an increase in delinquency rates related to mortgage loans that ResCap and Ally Bank either hold or retain an interest in. Furthermore, a weak economic environment, high unemployment rates, and the continued deterioration of the housing market could exert pressure on our consumer automotive finance customers resulting in higher delinquencies, repossessions, and losses. There can be no assurances that our monitoring of our credit risk as it affects the value of these assets and our efforts to mitigate credit risk through our risk-based pricing, appropriate underwriting policies, and loss-mitigation strategies are, or will be, sufficient to prevent a further adverse effect on our profitability and financial condition. In addition, we have begun to increase our used automobile and nonprime automobile financing (nonprime automobile financing). We define nonprime consumer automobile loans as those loans with a FICO score (or an equivalent score) at origination of less than 620. At December 31, 2011, the carrying value of our North American Automotive Finance Operations (NAO) nonprime consumer automobile loans before allowance for loan losses was \$3.8 billion, or approximately 7.1% of our total NAO consumer automobile loans. Of these loans, \$51 million were considered nonperforming as they had been placed on nonaccrual status in accordance with internal loan policies. Refer to the Nonaccrual Loans section of Note 1 to the Consolidated Financial Statements for additional information. Our International Automotive Finance Operations (IO) also has exposure to loans of higher credit risk with similar characteristics to those of the nonprime loans held by NAO. However, the lack of a consistent external third-party provider of consumer credit score information (like FICO in the United States and Canada) across the international geographies where we operate requires us to use our own internally-developed credit scoring approach to create a similar international comparative. Based on this internal analysis we believe nonprime loans represent less than 10% of our total IO consumer automobile loans and of these loans, less than 5% were considered nonperforming. As we grow our automotive asset portfolio in nonprime automobile financing loans over time, our credit risk may increase. As part of the underwriting process, we rely heavily upon information supplied by third parties. If any of this information is intentionally or negligently misrepresented and the misrepresentation is not detected before completing the transaction, the credit risk associated with the transaction may be increased.

General business and economic conditions may significantly and adversely affect our revenues, profitability, and financial condition.

Our business and earnings are sensitive to general business and economic conditions in the United States and in the markets in which we operate outside the United States. A downturn in economic conditions resulting in increased short and long term interest rates, inflation, fluctuations in the debt capital markets, unemployment rates, consumer and commercial bankruptcy filings, or a decline in the strength of national and local economies and other factors that negatively affect household incomes could decrease demand for our financing and mortgage products and increase mortgage and financing delinquency and losses on our customer and dealer financing operations. We have been negatively affected due to the significant stress in the residential real estate

Table of Contents

and related capital markets and, in particular, the lack of home price appreciation in many markets in which we lend. Further, a significant and sustained increase in fuel prices could lead to diminished new and used vehicle purchases and negatively affect our automotive finance business.

If the rate of inflation were to increase, or if the debt capital markets or the economies of the United States or our markets outside the United States were to weaken, or if home prices or new and used vehicle purchases experience declines, we could be significantly and adversely affected, and it could become more expensive for us to conduct our business. For example, business and economic conditions that negatively affect household incomes, housing prices, and consumer behavior related to our businesses could decrease (1) the demand for our mortgage loans and new and used vehicle financing and (2) the value of the collateral underlying our portfolio of held-for-investment mortgages and new and used vehicle loans and interests that continue to be held by us, thus further increasing the number of consumers who become delinquent or default on their loans. In addition, the rate of delinquencies, foreclosures, and losses on our loans (especially our nonprime mortgage loans) could be higher during more severe economic slowdowns.

Any sustained period of increased delinquencies, foreclosures, or losses could further harm our ability to sell our mortgage and new and used vehicle loans, the prices we receive for our mortgage and new and used vehicle loans, or the value of our portfolio of mortgage and new and used vehicle loans held-for-investment or interests from our securitizations, which could harm our revenues, profitability, and financial condition. Continued adverse business and economic conditions could affect demand for housing, new and used vehicles, the cost of construction, and other related factors that could harm the revenues and profitability of our business.

In addition, our business and earnings are significantly affected by the fiscal and monetary policies of the U.S. government and its agencies and similar governmental authorities in the markets in which we operate outside the United States. We are particularly affected by the policies of the FRB, which regulates the supply of money and credit in the United States. The FRB's policies influence the new and used vehicle financing market and the size of the mortgage origination market, which significantly affects the earnings of our businesses and the earnings of our business capital activities. The FRB's policies also influence the yield on our interest earning assets and the cost of our interest-bearing liabilities. Changes in those policies are beyond our control and difficult to predict and could adversely affect our revenues, profitability, and financial condition.

The current debt crisis in Europe, the risk that certain countries may default on their sovereign debt, and recent rating agency actions with respect to European countries and the United States and the resulting impact on the financial markets, could have a material adverse impact on our business, results of operations and financial position.

The current crisis in Europe has created uncertainty with respect to the ability of certain European Union countries to continue to service their sovereign debt obligations. Recently, rating agencies have lowered their ratings on several euro-zone countries. The continuation of the European debt crisis has adversely impacted financial markets and has created substantial volatility and uncertainty, and will likely continue to do so. Risks related to this have had, and are likely to continue to have, a negative impact on global economic activity and the financial markets. In addition, on August 5, 2011, Standard & Poor's Ratings Services lowered its long-term sovereign credit rating on the United States of America to AA+ from AAA, and the outlook on its long-term rating is negative. The U.S. downgrade, any future downgrades, as well as the perceived creditworthiness of U.S. government-related obligations, could impact our ability to obtain, and the pricing with respect to, funding that is collateralized by affected instruments and obtained through the secured and unsecured markets. As these conditions persist, our business, results of operation, and financial position could be materially adversely affected.

Acts or threats of terrorism and political or military actions taken by the United States or other governments could adversely affect general economic or industry conditions.

Geopolitical conditions may affect our earnings. Acts or threats of terrorism and political or military actions taken by the United States or other governments in response to terrorism, or similar activity, could adversely affect general economic or industry conditions.

Table of Contents

Treasury (or its designee) will continue to own a substantial interest in us following this offering, and its interests may differ from those of our other stockholders.

Immediately following this offering, and the concurrent transactions described under Concurrent Transactions, Treasury will own approximately % of our outstanding shares of common stock (% if the underwriters in the offering of common stock and the underwriters in the concurrent offering of Units exercise their over-allotment options in full), assuming the common stock public offering price is the midpoint of the price range set forth on the cover of this prospectus, and Treasury will own approximately % of the outstanding Units (% if the underwriters in the concurrent offering of Units exercise their over-allotment options in full).

Pursuant to the Amended and Restated Governance Agreement dated May 21, 2009, as of the date hereof, Treasury also has the right to appoint six of the eleven members to our board of directors. As a result of this stock ownership interest and Treasury's right to appoint six directors to our board of directors, Treasury has the ability to exert control, through its power to vote for the election of our directors, over various matters. To the extent Treasury elects to exert such control over us, its interests (as a government entity) may differ from those of our other stockholders and it may influence, through its ability to vote for the election of our directors, matters including:

The selection, tenure and compensation of our management;

Our business strategy and product offerings;

Our relationship with our employees and other constituencies; and

Our financing activities, including the issuance of debt and equity securities.

In particular, Treasury may have a greater interest in promoting U.S. economic growth and jobs than our other stockholders. In the future we may also become subject to new and additional laws and government regulations regarding various aspects of our business as a result of participation in the TARP program and the U.S. government's ownership in our business. These regulations could make it more difficult for us to compete with other companies that are not subject to similar regulations.

The limitations on compensation imposed on us due to our participation in TARP, including the restrictions placed on our compensation by the Special Master for TARP Executive Compensation, may adversely affect our ability to retain and motivate our executives and employees.

Our performance is dependent on the talent and efforts of our management team and employees. As a result of our participation in TARP, the compensation of certain members of our management team and employees is subject to extensive restrictions under the Emergency Economic Stabilization Act of 2008, as amended by the American Recovery and Reinvestment Act of 2009 (the ARRA), which was signed into law on February 17, 2009, as implemented by the Interim Final Rule issued by Treasury on June 15, 2009 (the IFR). In addition, due to our level of participation in TARP, pursuant to ARRA and the IFR, the Office of the Special Master for TARP Executive Compensation has the authority to further regulate our compensation arrangements with certain of our executives and employees. In addition, we may become subject to further restrictions under any other future legislation or regulation limiting executive compensation. Many of the restrictions are not limited to our senior executives and affect other employees whose contributions to revenue and performance may be significant. These limitations may leave us unable to create a compensation structure that permits us to retain and motivate certain of our executives and employees or to attract new executives or employees, especially if we are competing against institutions that are not subject to the same restrictions. Any such inability could have a material and adverse effect on our business, financial condition, and results of operations.

Our borrowing costs and access to the unsecured debt capital markets depend significantly on our credit ratings.

The cost and availability of unsecured financing are materially affected by our short- and long-term credit ratings. Each of Standard & Poor's Rating Services; Moody's Investors Service, Inc.; Fitch, Inc.; and Dominion Bond Rating Service rates our debt. Our current ratings as assigned by each of the respective rating agencies are

Table of Contents

below investment grade, which negatively impacts our access to liquidity and increases our borrowing costs in the unsecured market. Ratings reflect the rating agencies' opinions of our financial strength, operating performance, strategic position, and ability to meet our obligations. On February 2, 2012, Fitch downgraded our senior debt to BB- from BB and changed the outlook to negative. Future downgrades of our credit ratings would increase borrowing costs and further constrain our access to the unsecured debt markets and, as a result, would negatively affect our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements as well as impact elements of certain existing secured borrowing arrangements.

Agency ratings are not a recommendation to buy, sell, or hold any security and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

Our profitability and financial condition could be materially and adversely affected if the residual value of off-lease vehicles decrease in the future.

Our expectation of the residual value of a vehicle subject to an automotive lease contract is a critical element used to determine the amount of the lease payments under the contract at the time the customer enters into it. As a result, to the extent the actual residual value of the vehicle, as reflected in the sales proceeds received upon remarketing at lease termination, is less than the expected residual value for the vehicle at lease inception, we incur additional depreciation expense and/or a loss on the lease transaction. General economic conditions, the supply of off-lease and other vehicles to be sold, new vehicle market prices, perceived vehicle quality, overall price and volatility of gasoline or diesel fuel, among other factors, heavily influence used vehicle prices and thus the actual residual value of off-lease vehicles. Consumer confidence levels and the strength of automotive manufacturers and dealers can also influence the used vehicle market. For example, during 2008, sharp declines in demand and used vehicle sale prices adversely affected our remarketing proceeds and financial results.

Vehicle brand images, consumer preference, and vehicle manufacturer marketing programs that influence new and used vehicle markets also influence lease residual values. In addition, our ability to efficiently process and effectively market off-lease vehicles affects the disposal costs and proceeds realized from the vehicle sales. While manufacturers, at times, may provide support for lease residual values including through residual support programs, this support does not in all cases entitle us to full reimbursement for the difference between the remarketing sales proceeds for off-lease vehicles and the residual value specified in the lease contract. Differences between the actual residual values realized on leased vehicles and our expectations of such values at contract inception could have a negative impact on our profitability and financial condition.

Current conditions in the residential mortgage market and housing markets may continue to adversely affect Ally's mortgage business.

The residential mortgage market in the United States and other international markets in which our Mortgage operations conduct, or previously conducted, business have experienced a variety of difficulties and changed economic conditions that adversely affected our mortgage business results of operations and financial condition. Delinquencies and losses with respect to our Legacy Portfolio and Other segment's nonprime mortgage loans increased significantly. Housing prices in many parts of the United States, the United Kingdom, and other international markets also declined or stopped appreciating after extended periods of significant appreciation. In addition, the liquidity provided to the mortgage sector had been significantly reduced. This liquidity reduction combined with our decision to reduce our mortgage business' exposure to the nonprime mortgage market caused its nonprime mortgage production to decline. Similar trends have emerged beyond the nonprime sector, especially at the lower end of the prime credit quality scale, and have had a similar effect on our mortgage business' related liquidity needs and businesses. These trends have resulted in significant write-downs to our Legacy Portfolio and Other's held-for-sale mortgage loans and trading securities portfolios and additions to its allowance for loan losses for its held-for-investment mortgage loans and warehouse-lending receivables portfolios. A continuation of these conditions may continue to adversely affect our mortgage business' financial condition and results of operations.

Table of Contents

Moreover, the continued deterioration of the U.S. housing market and decline in home prices since 2008 in many U.S. markets, which may continue, could result in increased delinquencies or defaults on the mortgage assets ResCap owns and services as well as those mortgage assets owned by Ally Bank. Further, loans that our Mortgage operations historically made based on limited credit or income documentation also increase the likelihood of future increases in delinquencies or defaults on mortgage loans. An increase in delinquencies or defaults will result in a higher level of credit losses and credit-related expenses and increased liquidity requirements to fund servicing advances, all of which in turn will reduce revenues and profits of our mortgage business. Higher credit losses and credit-related expenses also could adversely affect our financial condition.

Significant indemnification payments or contract, lease, or loan repurchase activity of retail contracts or leases or mortgage loans could harm our profitability and financial condition.

We have repurchase obligations in our capacity as servicer in securitizations and whole-loan sales. If a servicer breaches a representation, warranty, or servicing covenant with respect to an automotive receivable or mortgage loan, the servicer may be required by the servicing provisions to repurchase that asset from the purchaser or otherwise compensate one or more classes of investors for losses caused by the breach. If the frequency at which repurchases of assets or other payments occurs increases substantially from its present rate, the result could be a material adverse effect on our financial condition, liquidity, and results of operations.

In connection with its servicing of securitized mortgage loans, ResCap is subject to contractual caps on the percentage of mortgage loans it is permitted to modify in any securitized pool. The financial crisis has resulted in dramatic increases in the volume of delinquent mortgage loans over the past three years. In an effort to achieve the best net present value recovery for the securitization trust, ResCap increased the volume of modifications of distressed mortgage loans to assist homeowners and avoid liquidating properties in a collapsing and opaque housing market. In certain securitization transactions, ResCap has exceeded the applicable contractual modification cap. The securitization documents provide that the contractual caps can be raised or eliminated with the concurrence of each rating agency rating the transaction. For certain transactions with respect to which loan modifications have exceeded the contractual caps, the rating agencies have concurred in raising or eliminating the caps, but they have not consented in connection with other such transactions. ResCap will continue to seek their concurrence in connection with other transactions as it deems appropriate and will suspend modifications in excess of applicable caps pending receipt of such consent or investor approval to amend the servicing contracts. An investor in a specific mortgage security class might claim that modifications in excess of the applicable cap amounted to a material failure of ResCap to perform its servicing obligations and that the investor was damaged as a result. Such claims, if successful, could have a material adverse effect on our financial condition, liquidity, and results of operations.

Our earnings may decrease because of decreases or increases in interest rates.

We are subject to risks from decreasing interest rates, particularly given the Federal Reserve's recent steps to keep interest rates low in an attempt to improve economic growth. For example, a significant decrease in interest rates could increase the rate at which mortgages are prepaid, which could require us to write down the value of our retained interests and MSR's. Moreover, if prepayments are greater than expected, the cash we receive over the life of our held-for-investment mortgage loans and our retained interests would be reduced. Higher-than-expected prepayments could also reduce the value of our MSR's and, to the extent the borrower does not refinance with us, the size of our servicing portfolio. Therefore, any such changes in interest rates could harm our revenues, profitability, and financial condition.

Rising interest rates could also have an adverse impact on our business. For example, rising interest rates:

will increase our cost of funds;

may reduce our consumer automotive financing volume by influencing customers to pay cash for, as opposed to financing, vehicle purchases or not to buy new vehicles;

Table of Contents

may negatively impact our ability to remarket off-lease vehicles;

generally reduce our residential mortgage loan production as borrowers become less likely to refinance and the costs associated with acquiring a new home become more expensive; and

will generally reduce the value of mortgage and automotive financing loans and contracts and retained interests and fixed income securities held in our investment portfolio.

Throughout 2009 and 2010 the credit risk embedded in the balance sheet was reduced as a result of asset sales, asset markdowns, and a change in the mix of our loan assets as the legacy portfolios were replaced with assets underwritten to tighter credit standards. This reduction in risk has resulted in a mix of assets outstanding on the balance sheet as of December 31, 2011, with a lower yielding profile than the prior-year period. During this same period of time we experienced a significant decline in our consumer automotive operating lease portfolio that was realizing higher yields from remarketing gains due to historically high used vehicle prices. The combination of the above factors resulted in a decline in asset yields more than the decline in liability rates, and therefore the decline in the net interest spread on the balance sheet throughout 2010 and into 2011.

Our hedging strategies may not be successful in mitigating our risks associated with changes in interest rates and could affect our profitability and financial condition as could our failure to comply with hedge accounting principles and interpretations.

We employ various economic hedging strategies to mitigate the interest rate and prepayment risk inherent in many of our assets and liabilities. Our hedging strategies rely on assumptions and projections regarding our assets, liabilities, and general market factors. If these assumptions and projections prove to be incorrect or our hedges do not adequately mitigate the impact of changes in interest rates or prepayment speeds, we may experience volatility in our earnings that could adversely affect our profitability and financial condition. In addition, we may not be able to find market participants that are willing to act as our hedging counterparties, which could have an adverse effect on the success of our hedging strategies.

In addition, hedge accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the application of significant subjective judgments to a body of accounting concepts that is complex and for which the interpretations have continued to evolve within the accounting profession and among the standard-setting bodies.

A failure of or interruption in, as well as, security risks of the communications and information systems on which we rely to conduct our business could adversely affect our revenues and profitability.

We rely heavily upon communications and information systems to conduct our business. Any failure or interruption of our information systems or the third-party information systems on which we rely as a result of inadequate or failed processes or systems, human errors, or external events could cause underwriting or other delays and could result in fewer applications being received, slower processing of applications, and reduced efficiency in servicing. In addition, our communication and information systems may present security risks, and could be susceptible to hacking or identity theft. The occurrence of any of these events could have a material adverse effect on our business.

We use estimates and assumptions in determining the fair value of certain of our assets in determining lease residual values and in determining our reserves for insurance losses and loss adjustment expenses. If our estimates or assumptions prove to be incorrect, our cash flow, profitability, financial condition, and business prospects could be materially and adversely affected.

We use estimates and various assumptions in determining the fair value of many of our assets, including certain held-for-investment and held-for-sale loans for which we elected fair value accounting, retained interests from securitizations of loans and contracts, MSRs, and other investments, which do not have an established

Table of Contents

market value or are not publicly traded. We also use estimates and assumptions in determining the residual values of leased vehicles. In addition, we use estimates and assumptions in determining our reserves for insurance losses and loss adjustment expenses which represent the accumulation of estimates for both reported losses and those incurred, but not reported, including claims adjustment expenses relating to direct insurance and assumed reinsurance agreements. For further discussion related to estimates and assumptions, see Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates. It is difficult to determine the accuracy of our estimates and assumptions, and our actual experience may differ materially from these estimates and assumptions. A material difference between our estimates and assumptions and our actual experience may adversely affect our cash flow, profitability, financial condition, and business prospects.

Our business outside the United States exposes us to additional risks that may cause our revenues and profitability to decline.

We conduct a significant portion of our business outside the United States exposing us to risks such as the following:

multiple foreign regulatory requirements that are subject to change;

differing local product preferences and product requirements;

fluctuations in foreign interest rates;

difficulty in establishing, staffing, and managing foreign operations;

differing labor regulations;

consequences from changes in tax laws;

restrictions on our ability to repatriate profits or transfer cash into or out of foreign countries; and

political and economic instability, natural calamities, war, and terrorism.

The effects of these risks may, individually or in the aggregate, adversely affect our revenues and profitability.

Our business could be adversely affected by changes in foreign-currency exchange rates.

We are exposed to risks related to the effects of changes in foreign-currency exchange rates. Changes in currency exchange rates can have a significant impact on our earnings from international operations as a result of foreign-currency-translation adjustments. While we carefully monitor and attempt to manage our exposure to fluctuation in currency exchange rates through foreign-currency hedging activities, these types of changes could have a material adverse effect on our business, results of operations, and financial condition.

Fluctuations in valuation of investment securities or significant fluctuations in investment market prices could negatively affect revenues.

Investment market prices in general are subject to fluctuation. Consequently, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value and could negatively affect our revenues. Additionally, negative fluctuations in the value of available-for-sale investment securities could result in unrealized losses recorded in equity. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments, national and international events, and general market conditions.

Table of Contents

A loss of contractual servicing rights could have a material adverse effect on our financial condition, liquidity, and results of operations.

We are the servicer for all of the receivables we have acquired or originated and transferred to other parties in securitizations and whole-loan sales of automotive receivables. Our mortgage subsidiaries service the mortgage loans we have securitized, and we service the majority of the mortgage loans we have sold in whole-loan sales. In each case, we are paid a fee for our services, which fees in the aggregate constitute a substantial revenue stream for us. In each case, we are subject to the risk of termination under the circumstances specified in the applicable servicing provisions.

In most securitizations and whole-loan sales, the owner of the receivables or mortgage loans will be entitled to declare a servicer default and terminate the servicer upon the occurrence of specified events. These events typically include a bankruptcy of the servicer, a material failure by the servicer to perform its obligations, and a failure by the servicer to turn over funds on the required basis. The termination of these servicing rights, were it to occur, could have a material adverse effect on our financial condition, liquidity, and results of operations and those of our mortgage subsidiaries.

Changes in accounting standards issued by the Financial Accounting Standards Board (FASB) could adversely affect our reported revenues, profitability, and financial condition.

Our financial statements are subject to the application of GAAP, which are periodically revised and/or expanded. The application of accounting principles is also subject to varying interpretations over time. Accordingly, we are required to adopt new or revised accounting standards or comply with revised interpretations that are issued from time to time by various parties, including accounting standard setters and those who interpret the standards, such as the FASB and the SEC, banking regulators, and our independent registered public accounting firm. Those changes could adversely affect our reported revenues, profitability, or financial condition.

Recently, the FASB has proposed new financial accounting standards, and has many active projects underway, that could materially affect our reported revenues, profitability, or financial condition. These proposed standards or projects include the potential for significant changes in the accounting for financial instruments (including loans, deposits, and debt) and the accounting for leases, among others. It is possible that any changes, if enacted, could adversely affect our reported revenues, profitability, or financial condition.

The soundness of other financial institutions could adversely affect us.

Financial services institutions are interrelated as a result of trading, clearing, counterparty, or other relationships. We have exposure to different counterparties, and we routinely execute transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, and other institutions. Many of these transactions expose us to credit risk in the event of default of our counterparty.

Our inability to maintain relationships with dealers could have an adverse effect on our business, results of operations, and financial condition.

Our business depends on the continuation of our relationships with our customers, particularly the automotive dealers with whom we do business. If we are not able to maintain existing relationships with key automotive dealers or if we are not able to develop new relationships for any reason, including if we are not able to provide services on a timely basis or offer products that meet the needs of the dealers, our business, results of operations, and financial condition could be adversely affected.

Table of Contents

Adverse economic conditions or changes in laws in states in which we have customer concentrations may negatively affect our operating results and financial condition.

We are exposed to consumer loan portfolio concentration in California and Texas and consumer mortgage loan concentration in California, Florida, and Michigan. Factors adversely affecting the economies and applicable laws in these states could have an adverse effect on our business, results of operations and financial position.

Risks Related to this Offering and Ownership of Our Common Stock

The sale or availability for sale of substantial amounts of our common stock could cause our common stock price to decline or impair our ability to raise capital.

Sales of a substantial number of shares of our common stock in the public market following this offering, or the perception that large sales could occur, or the settlement of the purchase contracts that are components of the Units being offered in the concurrent offering or the perception that settlement could occur, could depress the market price of our common stock and could impair our ability to raise capital through the sale of equity and equity-related securities. Upon completion of this offering, there will be _____ shares of common stock issued and outstanding, assuming the common stock public offering price is the midpoint of the price range set forth on the cover of this prospectus.

Of the _____ outstanding shares of common stock, the _____ shares of common stock to be sold in this offering (_____ shares if the underwriters in this offering exercise their over-allotment option in full) will be freely tradable without restriction or further registration under the Securities Act, unless those shares are held by any of our _____ affiliates, as that term is defined under Rule 144 of the Securities Act. Following the expiration of any applicable lock-up periods referred to in the section of this prospectus entitled Shares Eligible for Future Sale, the _____ remaining outstanding shares of common stock may be eligible for resale under Rule 144 under the Securities Act subject to applicable restrictions under Rule 144. In addition, pursuant to Exhibit A of the Bylaws of Ally Financial Inc. (the Registration Rights Agreement), we have granted our existing common stockholders the right to require us in certain circumstances to file registration statements under the Securities Act covering additional resales of our common stock held by them and the right to participate in other registered offerings in certain circumstances. As restrictions on resale end or if these stockholders exercise their registration rights or otherwise sell their shares, the market price of our common stock could decline.

In particular, following this offering, Treasury or GMAC Common Equity Trust I might sell a large number of the shares of our common stock that they hold. Such sales of a substantial number of shares of our common stock could adversely affect the market price of our common stock.

The number of shares of our common stock Treasury will receive upon conversion of our Series F-2 preferred stock will depend upon the public offering price of the common stock in this offering.

Treasury currently holds 118,750,000 shares of our Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 (the Series F-2 preferred stock), having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent Units offering, Treasury intends to convert 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the common stock public offering price, which, based on the midpoint of the price range set forth on the cover of this prospectus, would result in the conversion of the Series F-2 preferred stock into _____ shares of common stock. See Concurrent Transactions.

Accordingly, the number of shares of our common stock we will issue to Treasury in connection with the conversion will depend upon the common stock public offering price. For example, if the common stock public offering price is \$ _____ (the midpoint of the price range set forth on the cover of this prospectus), then we will

Table of Contents

issue shares of our common stock to Treasury upon conversion. By contrast, if the common stock public offering price were to increase by \$1.00, then we will issue shares of our common stock to Treasury upon conversion and if the common stock public offering price were to decrease by \$1.00, then we will issue shares of our common stock to Treasury upon conversion.

We have no current plans to pay dividends on our common stock, and our ability to pay dividends on our common stock may be limited.

We have no current plans to commence payment of a dividend on our common stock. Our payment of dividends on our common stock in the future will be determined by our Board of Directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity, and other factors. Our Series G preferred stock prohibits us from making dividend payments on our common stock before January 1, 2014 and allows dividend payments thereafter only if 1) our senior guaranteed notes issued on December 31, 2008 are rated investment grade and 2) the payment, together with other dividend payments we made since December 31, 2008, is less than 25% of the excess of our cumulative consolidated net income from January 1, 2014 to the most recently ended fiscal quarter for which financial statements are available at the time of such dividend payment. In addition, so long as any share of our Series A preferred stock remains outstanding, no dividend or distribution may be declared or paid on our common stock unless all accrued and unpaid dividends have been paid on such series of preferred stock.

Any indentures and other financing agreements that we enter into in the future may limit our ability to pay cash dividends on our capital stock, including our common stock. In the event that any of our indentures or other financing agreements in the future restrict our ability to pay dividends in cash on our common stock, we may be unable to pay dividends in cash on our common stock unless we can refinance the amounts outstanding under those agreements.

In addition, under Delaware law, our Board of Directors may declare dividends on our capital stock only to the extent of our statutory surplus (which is defined as the amount equal to total assets minus total liabilities, in each case at fair market value, minus statutory capital), or if there is no such surplus, out of our net profits for the then current and/or immediately preceding fiscal year. Further, even if we are permitted under our contractual obligations and Delaware law to pay cash dividends on our common stock, we may not have sufficient cash to pay dividends in cash on our common stock.

Any plans to commence payment of dividends on our common stock in the future would be subject to the FRB's review and absence of objection. *See* Business Certain Regulatory Matters Bank Holding Company Status . There is no assurance that, upon the FRB's review of our future capital plans, we would be permitted to make any planned payments of dividends on our common stock.

Anti-takeover provisions contained in our organizational documents and Delaware law could delay or prevent a takeover attempt or change in control of our company, which could adversely affect the price of our common stock.

Our amended and restated certificate of incorporation, our amended and restated bylaws, and Delaware law contain provisions that could have the effect of rendering more difficult or discouraging an acquisition deemed undesirable by our Board of Directors. Our organizational documents include provisions:

Limiting the liability of our directors, and providing indemnification to our directors and officers; and

Limiting the ability of our stockholders to call and bring business before special meetings.

These provisions, alone or together, could delay hostile takeovers and changes in control of the company or changes in management.

Table of Contents

In addition, after the completion of this offering, we will be subject to Section 203 of the General Corporation Law of the State of Delaware (the DGCL), which generally prohibits a corporation from engaging in various business combination transactions with any interested stockholder (generally defined as a stockholder who owns 15% or more of a corporation's voting stock) for a period of three years following the time that such stockholder became an interested stockholder, except under certain circumstances including receipt of prior board approval.

Any provision of our Certificate of Incorporation or our Bylaws or Delaware law that has the effect of delaying or deterring a hostile takeover or change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock and could also affect the price that some investors are willing to pay for our common stock.

See Description of Capital Stock for a further discussion of these provisions.

Because there has not been any public market for our common stock, the market price and trading volume of our common stock may be volatile.

You should consider an investment in our common stock to be risky and you should invest in our common stock only if you can withstand a significant loss and wide fluctuations in the market value of your investment. The price of our common stock after the closing of this offering may fluctuate widely, depending upon many factors, including, but not limited to:

the perceived prospects for the auto finance and mortgage industries in general or for our company;

differences between our actual financial and operating results and those expected by investors;

changes in the share price of public companies with which we compete;

news about our new products or services, enhancements, significant contracts, acquisitions or strategic investments;

changes in our capital structure, such as future issuances of securities, repurchases of our common stock or our incurrence of debt;

changes in general economic or market conditions;

broad market fluctuations;

regulatory actions or changes in applicable laws, rules or regulations;

unfavorable or lack of published research by securities or industry analysts; and

departure of key personnel.

In addition, the market price of our common stock is likely to be influenced by the purchase contracts that are components of the Units being offered in the concurrent offering. For example, the market price of our common stock could become more volatile and could be depressed by investors' anticipation of the potential resale in the market of a substantial number of additional shares of our common stock, including shares of common stock received upon settlement of the purchase contracts that are components of the Units being offered in the concurrent offering, possible sales of our common stock by investors who view the Units as a more attractive means of equity participation in us than owning shares

Edgar Filing: Ally Financial Inc. - Form S-1/A

of our common stock; and hedging or arbitrage trading activity that may develop involving the Units and our common stock.

Table of Contents

Our common stock may trade at prices significantly below the initial public offering price. In addition, when the market price of a company's common equity drops significantly, stockholders often institute securities class action lawsuits against the company. A lawsuit against us could cause us to incur substantial costs and could divert the time and attention of our management and other resources.

Treasury, which is the selling stockholder, is a federal agency and your ability to bring a claim against Treasury under the federal securities laws may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the FTCA), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Treasury and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the officers, agents or employees of Treasury for a violation of the Securities Act of 1933, as amended (the Securities Act) or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part or resulting from any other act or omission in connection with the offering of the common stock by Treasury would likely be barred.

Table of Contents

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We have made statements under the captions Prospectus Summary, Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations, Business and in other sections of this prospectus that may contain certain statements that constitute forward-looking statements within the meaning of the federal securities laws. The words expect, anticipate, estimate, forecast, initiative, objective, plan, project, outlook, priorities, target, intend, evaluate, pursue, seek, may, would, could, should, believe, potential, of these words or similar expressions are intended to identify forward-looking statements. All statements herein, other than statements of historical fact, including without limitation statements about future events and financial performance, are forward-looking statements that involve certain risks and uncertainties. You should not place undue reliance on any forward-looking statement and should consider all uncertainties and risks discussed in this prospectus, including those under the caption Risk Factors. Forward-looking statements apply only as of the date they are made, and Ally undertakes no obligation to update any forward-looking statement to reflect events or circumstances that arise after the date the forward looking statement is made. Factors that could cause our actual results to be materially different from our expectations include, among others, the risk factors set forth herein under the caption Risk Factors, and the following:

Maintaining the mutually beneficial relationship between the company and GM, and the company and Chrysler;

The profitability and financial condition of GM and Chrysler;

Securing low cost funding for us and ResCap;

Our ability to realize the anticipated benefits associated with being a bank holding company, and the increased regulation and restrictions that we are now subject to;

Any impact resulting from delayed foreclosure sales or related matters;

The potential for legal liability resulting from claims related to the sale of private-label mortgage-backed securities;

Risks related to potential repurchase obligations due to alleged breaches of representations and warranties in mortgage securitization transactions;

Changes in U.S. government-sponsored mortgage programs or disruptions in the markets in which our mortgage subsidiaries operate;

Continued challenges in the residential mortgage markets;

The continuing negative impact on ResCap and our mortgage business generally due to the recent decline in the U.S. housing market;

Uncertainty of our ability to enter into transactions or execute strategic alternatives to realize the value of our ResCap operations;

Edgar Filing: Ally Financial Inc. - Form S-1/A

The potential for deterioration in the residual value of off-lease vehicles;

Disruptions in the market in which we fund our operations, with resulting negative impact on our liquidity;

Table of Contents

Changes in our accounting assumptions that may require or that result from changes in the accounting rules or their application, which could result in an impact on earnings;

Changes in the credit ratings of Ally, ResCap, Chrysler, or GM;

Changes in economic conditions, currency exchange rates or political stability in the markets in which we operate; and

Changes in the existing or the adoption of new laws, regulations, policies or other activities of governments, agencies and similar organizations (including as a result of the Dodd-Frank Act and Basel III).

Table of Contents

USE OF PROCEEDS

The selling stockholder is selling all of the shares of common stock in this offering and Ally will not receive any proceeds from the sale of the shares.

Table of Contents

DIVIDEND POLICY

We have no current plans to commence payment of a dividend on our common stock. Our payment of dividends on our common stock in the future will be determined by our Board of Directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity, and other factors. Our Series G preferred stock prohibits us from making dividend payments on our common stock before January 1, 2014 and allows dividend payments thereafter only if (1) our senior guaranteed notes issued on December 31, 2008 are rated investment grade and (2) the payment, together with other dividend payments we made since December 31, 2008, is less than 25% of the excess of our cumulative consolidated net income from January 1, 2014 to the most recently ended fiscal quarter for which financial statements are available at the time of such dividend payment. In addition, so long as any share of our Series A preferred stock remains outstanding, no dividend or distribution may be declared or paid on our common stock unless all accrued and unpaid dividends have been paid on such series of preferred stock.

Any plans to commence payment of dividends on our common stock in the future would, as announced by the FRB on March 18, 2011, with respect to the completion of its Comprehensive Capital Analysis and Review of the capital plans of the nineteen largest U.S. bank holding companies, including Ally, be subject to the FRB's review and absence of objection. *See* Business Certain Regulatory Matters Bank Holding Company Status .

Table of Contents**CAPITALIZATION**

The following table sets forth our capitalization as of December 31, 2011, actual and pro forma to reflect:

the concurrent conversion and exchange by Treasury of our Series F-2 preferred stock and the concurrent offering by Treasury of our Units (assuming no exercise by the underwriters of that offering of their over-allotment option and that the public offering price of our common stock in this offering will be \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) for purposes of calculating the number of shares we issue to Treasury in the conversion), in each case as described under Concurrent Transactions, and

the _____-for-one stock split on shares of our common stock effected on _____, 2012.

This table should be read in conjunction with Selected Consolidated Financial Data and Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto appearing elsewhere in this prospectus.

| | As of December 31, 2011 | |
|---|-------------------------|-----------|
| | Actual | Pro forma |
| | (\$ in millions) | |
| Cash and cash equivalents | \$ 13,035 | \$ |
| Short-term borrowings | 7,680 | |
| Long-term debt (1) | 92,794 | |
| Series A preferred stock, 1,021,764 shares issued and outstanding, actual and pro forma | 1,021 | |
| Series F-2 preferred stock, 118,750,000 shares issued and outstanding, actual and 0 shares issued and outstanding, pro forma (2) | 5,685 | |
| Series G preferred stock, 2,576,601 shares issued and outstanding, actual and pro forma | 234 | |
| Tangible Equity Units, 0 units issued and outstanding, actual and _____ units issued and outstanding, pro forma | 0 | |
| Common stock, \$0.01 par value per share, 1,330,970 shares issued and outstanding, actual, shares issued and outstanding pro forma and additional paid-in capital (2) | 19,668 | |
| Accumulated deficit (2) | (7,324) | |
| Accumulated other comprehensive income | 87 | |
| Total equity (2) | 19,371 | |
| Total capitalization | \$ 119,845 | \$ |

(1) The amortizing notes which are a component of the Units are included in pro forma long-term debt.

(2) In connection with this offering and the concurrent Units offering, Treasury intends to convert (the conversion) 58,750,000 shares of Series F-2 preferred stock it holds into shares of our common stock based on a conversion price equal to the common stock public offering price. Because the conversion price in the conversion is based on the common stock public offering price, the number of shares of common stock we will issue to Treasury in connection with the conversion will depend on the common stock public offering price. The higher the common stock public offering price is, the fewer the number of shares of common stock Treasury will receive and the lower the common stock public offering price is, the greater the number of shares of common stock Treasury will receive. The following table sets forth the number of shares we will issue to Treasury in connection with the conversion for each common stock public offering price set forth below:

| Public Offering Price | Number of Shares Issued to Treasury |
|-----------------------|--|
| \$ | |
| \$ | |
| \$ | |
| \$ | |

In addition, we and Treasury intend to modify certain terms of the Series F-2 preferred stock so that Treasury will receive _____ additional shares of our common stock in connection with the offering.

The issuance of these additional shares will be a one-time non-cash transaction, which will not affect the amount of our total equity. It will increase our accumulated deficit with an offsetting increase to common stock and paid-in capital, and the value of the non-cash dividend will reduce our net income attributable to common shareholders and therefore will substantially affect the calculation of earnings per share in the quarter in which this offering closes and the full year.

Assuming that the public offering price of our common stock in this offering will be \$ _____ per share (the midpoint of the range set forth on the cover of this prospectus), net income attributable to common stock will be reduced by \$ _____ in the quarter in which this offering closes and earnings per share will be reduced by \$ _____ per share due to this one time, non-cash transaction.

Table of Contents**SELECTED CONSOLIDATED FINANCIAL DATA**

The following selected consolidated financial data of Ally should be read in conjunction with, and are qualified by reference to, Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included elsewhere in this prospectus. The consolidated statement of income data for the years ended December 31, 2011, 2010 and 2009 and the consolidated balance sheet data at December 31, 2011 and 2010 are derived from, and qualified by reference to, our audited consolidated financial statements included elsewhere in this prospectus and should be read in conjunction with those consolidated financial statements and notes thereto. The consolidated statement of income data for the years ended December 31, 2008 and 2007 and the consolidated balance sheet data at December 31, 2009, 2008 and 2007 are derived from our audited consolidated financial statements not included in this prospectus.

Edgar Filing: Ally Financial Inc. - Form S-1/A

- (a) Total other revenue for 2008 includes \$12.6 billion of gains on the extinguishment of debt, primarily related to private exchange and cash tender offers settled during the fourth quarter.

- (b) Effective June 30, 2009, we converted from a limited liability company into a corporation and, as a result, became subject to corporate U.S. federal, state, and local taxes. Our conversion to a corporation resulted in a change in tax status and a net deferred tax liability of \$1.2 billion was established through income tax expense. Refer to Note 25 to the Consolidated Financial Statements for additional information regarding our change in tax status.

Table of Contents

- (c) This amount relates to the conversion by Treasury of 110,000,000 shares of Series F-2 preferred stock into 531,850 shares of our common stock that occurred on December 30, 2010. Refer to Note 20 to the Consolidated Financial Statements for further detail.
- (d) Effective June 30, 2009, we converted from a Delaware limited liability company into a Delaware corporation. Each unit of each class of common membership interest issued and outstanding immediately prior to the conversion was converted into an equivalent number of shares of common stock with substantially the same rights and preferences as the common membership interests. Upon conversion, holders of our preferred membership interests also received an equivalent number of shares of preferred stock with substantially the same rights and preferences as the former preferred membership interests.
- (e) The pro forma financial information gives effect to this offering as if it has closed on January 1, 2010, and reflects (i) the receipt by Treasury of additional shares of common stock in connection with this offering, (ii) increased interest expense on the amortizing notes at an assumed interest rate of % (tax affected at the historical rates reflected in the financial statements for 2011) and (iii) the elimination of dividends of \$ on the Series F-2 preferred stock being converted into common stock and exchanged for Units in this offering. The pro forma financial information does not reflect the value of the additional shares received by Treasury that will be treated as a one-time, non-cash dividend of \$ in the quarter in which this offering closes and the related reduction of \$ per share in earnings per share.
- (f) Core pretax income (loss) is not a financial measure defined by generally accepted accounting principles in the United States of America (GAAP). We define core pretax income as earnings from continuing operations before income taxes, original issue discount amortization expense primarily associated with our 2008 bond exchange, and the gain on extinguishment of debt related to the 2008 bond exchange. We believe that the presentation of core pretax income (loss) is useful information for the users of our financial statements in understanding the earnings from our core businesses. In addition, core pretax income (loss) is the primary measure that management uses to assess the performance of our operations. We believe that core pretax income (loss) is a useful alternative measure of our ongoing profitability and performance, when viewed in conjunction with GAAP measures. The presentation of this additional information is not a substitute for net income (loss) determined in accordance with GAAP.
- (g) Primarily represents original issue discount amortization expense associated with the 2008 bond exchange, including \$50 million and \$101 million of accelerated amortization that was reported as a loss on extinguishment of debt in the fiscal year 2011 and fiscal year 2010 Consolidated Statement of Income, respectively.
- (h) The efficiency ratio equals total other noninterest expense divided by total net revenue. The core efficiency ratio equals total other noninterest expense divided by total net revenue excluding original issue discount amortization expense and gain on extinguishment of debt related to the 2008 bond exchange.
- (i) The 2011, 2010 and 2009 ratios were computed based on average assets and average equity using a combination of monthly and daily average methodologies. The 2008 and 2007 ratios have been computed based on period-end total assets and period-end total equity at December 31, 2008 and 2007.
- (j) Net interest spread represents the difference between the rate on total interest earning assets and the rate on total interest-bearing liabilities, excluding discontinued operations for the periods shown.
- (k) Not applicable at December 31, 2008 and 2007, as we did not become a bank holding company until December 24, 2008.

Table of Contents

- (l) Net yield on interest-earning assets represents net financing revenue as a percentage of total interest-earning assets.

- (m) Tier 1 capital generally consists of common equity, minority interests, qualifying non-cumulative preferred stock, and the fixed rate cumulative preferred stock sold to Treasury under TARP and purchase contracts (including the purchase contracts that are components of the Units being offered in the concurrent offering) less goodwill and other adjustments.

- (n) Total risk-based capital is the sum of Tier 1 and Tier 2 capital. Tier 2 capital generally consists of preferred stock not qualifying as Tier 1 capital, limited amounts of subordinated debt and the allowance for loan losses, and other adjustments. The amount of Tier 2 capital may not exceed the amount of Tier 1 capital.

- (o) Tier 1 leverage equals Tier 1 capital divided by adjusted quarterly average total assets (which reflects adjustments for disallowed goodwill and certain intangible assets). The minimum Tier 1 leverage ratio is 3% or 4% depending on factors specified in the regulations.

- (p) We define Tier 1 common as Tier 1 capital less noncommon elements, including qualifying perpetual preferred stock, minority interest in subsidiaries, trust preferred securities, and mandatorily convertible preferred securities. However, the purchase contracts that are components of the Units being offered in the concurrent offering are not subtracted from Tier 1 capital to determine Tier 1 common. Ally considers various measures when evaluating capital utilization and adequacy, including the Tier 1 common equity ratio, in addition to capital ratios defined by banking regulators. This calculation is intended to complement the capital ratios defined by banking regulators for both absolute and comparative purposes. Because GAAP does not include capital ratio measures, Ally believes there are no comparable GAAP financial measures to these ratios. Tier 1 common equity is not formally defined by GAAP or codified in the federal banking regulations and, therefore, is considered to be a non-GAAP financial measure. Ally believes the Tier 1 common equity ratio is important because we believe analysts and banking regulators may assess our capital adequacy using this ratio. Additionally, presentation of this measure allows readers to compare certain aspects of our capital adequacy on the same basis to other companies in the industry.

- (q) Risk-weighted assets are defined by regulation and are determined by allocating assets and specified off-balance sheet financial instruments into several broad risk categories.

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Overview

Ally Financial Inc. (formerly GMAC Inc.) is a leading, independent, globally diversified, financial services firm with \$184 billion in assets. Founded in 1919, we are a leading automotive financial services company with over 90 years experience providing a broad array of financial products and services to automotive dealers and their customers. We are also one of the largest residential mortgage companies in the United States. We became a bank holding company on December 24, 2008, under the Bank Holding Company Act of 1956, as amended. Our banking subsidiary, Ally Bank, is an indirect wholly owned subsidiary of Ally Financial Inc. and a leading franchise in the growing direct (online and telephonic) banking market, with \$39.6 billion of deposits at December 31, 2011. Ally Bank's assets and operating results are divided between our Global Automotive Services and Mortgage operations based on its underlying business activities.

Our Business

Global Automotive Services

Our Global Automotive Services operations offer a wide range of financial services and insurance products to over 21,000 automotive dealers and their retail customers. We have deep dealer relationships that have been built over our 90-year history and our dealer-focused business model makes us a preferred automotive finance company for many automotive dealers. Our broad set of product offerings and customer-focused marketing programs differentiate Ally in the marketplace and help drive higher product penetration in our dealer relationships. Our ability to generate attractive automotive assets is driven by our global platform and scale, strong relationships with automotive dealers, a full suite of dealer financial products, automotive loan-servicing capabilities, dealer-based incentive programs, and superior customer service.

Our automotive financial services include providing retail installment sales contracts, loans, and leases, offering term loans to dealers, financing dealer floorplans and other lines of credit to dealers, fleet leasing, and vehicle remarketing services. We also offer vehicle service contracts and commercial insurance primarily covering dealers' wholesale vehicle inventories in the United States and internationally. We are a leading provider of vehicle service contracts, and maintenance coverages.

We have a longstanding relationship with General Motors Company (GM) and have developed strong relationships directly with GM-franchised dealers as well as gained extensive operating experience with GM-franchised dealers relative to other automotive finance companies. Since GM sold a majority interest in us in 2006, we have transformed ourselves to a market-driven independent automotive finance company. We are the preferred financing provider to GM and Chrysler Group LLC (Chrysler) on incentivized retail loans. During 2010, Chrysler also selected Ally to be the preferred financing provider for Fiat vehicles in the United States. We have further diversified our customer base by establishing agreements to become preferred financing providers with other manufacturers including Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom). Currently, a significant portion of our business is originated through GM- and Chrysler-franchised dealers and their customers.

During 2009 and much of 2010 our primary emphasis was on originating loans of higher credit tier borrowers. For this reason, our current operating results continue to reflect higher credit quality, lower yielding loans with lower credit loss experience. Ally however seeks to be a meaningful lender to a wide spectrum of borrowers. In 2010 we enhanced our risk management practices and efforts on risk-based pricing. We have gradually increased volumes in lower credit tiers in 2011. We have also selectively re-entered the leasing market with a more targeted product approach since late 2009.

Table of Contents

We plan to continue to increase the proportion of our non-GM and Chrysler business, as we focus on maintaining and growing our dealer-customer base through our full suite of products, our dealer relationships, the scale of our platform, and our dealer-based incentive programs. We also expect growth in consumer applications to moderate to some degree given the significant growth of consumer applications experienced in 2011 following the addition of a new credit aggregation network in DealerTrack, which provides access to a more expansive universe of dealers.

Our international automotive-lending operations currently originate loans in 15 countries with a focus on operations in five core markets: Germany, the United Kingdom, Brazil, Mexico, and China through our joint venture, GMAC-SAIC Automotive Finance Company Limited (GMAC-SAIC).

Our Insurance operations offer both consumer finance and insurance products sold primarily through the automotive dealer channel and commercial insurance products sold to dealers. As part of our focus on offering dealers a broad range of consumer finance and insurance products, we provide vehicle service contracts, and maintenance coverage. We also underwrite selected commercial insurance coverage, which primarily insures dealers' wholesale vehicle inventory in the United States. Additionally, our Insurance operations offer Guaranteed Automobile Protection (GAP) products in the United States and personal automobile insurance coverage in certain countries outside of the United States.

Mortgage

We report our Mortgage operations as two distinct segments: (1) Origination and Servicing operations and (2) Legacy Portfolio and Other operations.

Our Origination and Servicing operations is one of the leading originators of conforming and government-insured residential mortgage loans in the United States. We are one of the largest residential mortgage loan servicers in the United States and we provide collateralized lines of credit to other mortgage originators, which we refer to as warehouse lending. We finance our mortgage loan originations primarily in Ally Bank. We sell the conforming mortgages we originate or purchase in sales that take the form of securitizations guaranteed by the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac), and we sell government-insured mortgage loans we originate or purchase in securitizations guaranteed by the Government National Mortgage Association (Ginnie Mae) or through whole-loan sales. We also selectively originate prime jumbo mortgage loans in the United States.

Our Legacy Portfolio and Other operations primarily consist of loans originated prior to January 1, 2009, and includes noncore business activities including discontinued operations, portfolios in runoff, and cash held in the Residential Capital, LLC (ResCap) legal entity. These activities, all of which we have discontinued, include, among other things: lending to real estate developers and homebuilders in the United States and the United Kingdom; purchasing, selling and securitizing nonconforming residential mortgage loans (with the exception of U.S. prime jumbo mortgage loans) in both the United States and internationally; and certain conforming origination channels closed in 2008 and our mortgage reinsurance business.

We re-aligned our business model to focus on our Origination and Servicing operations in response to market developments and based on our ongoing strategic review of the mortgage business. We have substantially eliminated nonconforming U.S. and international loan production (with the exception of U.S. prime jumbo mortgage loans) and currently have correspondent, direct, and warehouse lending as our primary channels of production as opposed to high cost retail branch offices. On November 2, 2011, we announced that in order to proactively address changes in the mortgage industry as a whole, we will be taking immediate action to reduce the focus on the correspondent mortgage lending channel; however, we will maintain correspondent relationships with key customers. This reduction will allow us to shift our focus and origination capacity to our retail and direct network channel. As a result, we believe our exposure to mortgage servicing rights (MSR) asset volatility will decrease over time, and we will be better positioned to comply with Basel III requirements. This change is

Table of Contents

also expected to result in a decrease in total origination levels in 2012 as compared to 2011. After consideration of our experience to-date and the shift in focus to the higher margin retail and direct channels, overall profitability is not expected to be significantly impacted if we are able to increase our retail and direct production volume due to government refinance programs. We will continue to evaluate this business in the future and further reductions in the correspondent channel could occur. Our origination platforms deliver products that have liquid market distribution and sales outlets and are structured to respond quickly as market conditions change. We have also consolidated our servicing operations to streamline our costs and align ourselves to capture future opportunities as mortgage servicing markets reform.

Additionally, we have implemented several strategic initiatives to reduce the risk related to our Legacy Portfolio and Other operations. These actions have included, but are not limited to, restructuring of ResCap debt in 2008, moving mortgage loans held-for-investment to held-for sale in 2009 while recording appropriate market value adjustments, the sale of legacy business platforms including our international operations in the United Kingdom and continental Europe, and other targeted asset dispositions including domestic and international mortgage loans and commercial finance receivables and loans. The consolidated assets of our Legacy Portfolio and Other operations have decreased to \$10.9 billion at December 31, 2011, from \$32.9 billion at December 31, 2008, due to these actions.

Mortgage loan origination volume is driven by the volume of home sales, prevailing interest rates, and our underwriting standards. Our mortgage origination volume in 2011 was primarily driven by refinancings that were influenced by historically low interest rates. Our focus in 2012 and future periods will be on sustaining our position as a leading servicer of conforming and government-insured residential mortgage loans. Additionally, we plan to continue to manage and reduce mortgage business risk.

On February 9, 2012, we reached an agreement in principle with the federal government and 49 state attorneys general with respect to certain foreclosure-related matters, which resulted in our Mortgage operations recording a \$230 million charge in the fourth quarter of 2011. This charge reflects a \$40 million reduction in the foreclosure related expense accrual that was previously announced on February 2, 2012, as part of our 2011 year-end earnings release. The charge increased our accrued expenses and other liabilities by \$223 million and increased our allowance for servicer advances within other assets by \$7 million on our Consolidated Balance Sheet at December 31, 2011. ResCap recorded \$212 million of the \$230 million penalty.

ResCap is required to maintain consolidated tangible net worth, as defined, of \$250 million at the end of each month, under the terms of certain of its credit facilities. For this purpose, consolidated tangible net worth is defined as ResCap's consolidated equity excluding intangible assets. As a result of the fourth quarter charge, ResCap's consolidated tangible net worth was \$92 million at December 31, 2011, and was therefore temporarily reduced to below \$250 million. This was, however, immediately remediated by Ally through a capital contribution of \$197 million, which was provided through forgiveness of intercompany debt during January 2012. Notwithstanding the immediate cure, the temporary reduction in tangible net worth resulted in a covenant breach in certain of ResCap's credit facilities as of December 31, 2011. ResCap has obtained waivers from all applicable lenders with respect to this covenant breach and an acknowledgment letter from a GSE indicating they would take no immediate action as a result of the breach. In the future Ally may choose not to remediate any further breaches of covenants. There can be no assurances for further capital support.

Corporate and Other

Corporate and Other primarily consists of our centralized corporate treasury and deposit gathering activities, such as management of the cash and corporate investment securities portfolios, short- and long-term debt, retail and brokered deposit liabilities, derivative instruments, the amortization of the discount associated with new debt issuances and bond exchanges, most notably from the December 2008 bond exchange, and the residual impacts of our corporate funds-transfer pricing (FTP) and treasury asset liability management (ALM) activities. Corporate and Other also includes our Commercial Finance Group, certain equity investments, and reclassifications and eliminations between the reportable operating segments.

Table of Contents

Loss from continuing operations before income tax expense for Corporate and Other was \$1.9 billion and \$2.6 billion for the years ended December 31, 2011 and 2010, respectively. These losses were primarily driven by net financing losses of \$1.7 billion and \$2.1 billion for the years ended December 31, 2011 and 2010, respectively. The net financing losses at Corporate and Other are largely driven by the amortization of original issue discount, primarily related to our 2008 bond exchange, and the net financing loss that results from our FTP methodology.

The net financing revenue of our Global Automotive Services and Mortgage operations includes the results of an FTP process that insulates these operations from interest rate volatility by matching assets and liabilities with similar interest rate sensitivity and maturity characteristics. The FTP process assigns charge rates to the assets and credit rates to the liabilities within our Global Automotive Services and Mortgage operations, respectively, based on anticipated maturity and a benchmark index plus an assumed credit spread. The assumed credit spread represents the cost of funds for each asset class based on a blend of funding channels available to the enterprise, including unsecured and secured capital markets, private funding facilities, and deposits. In addition, a risk-based methodology, which incorporates each operations credit, market, and operational risk components is used to allocate equity to these operations.

The negative residual impact of our FTP methodology that is realized in Corporate and Other primarily represents the cost of certain funding and liquidity management activities not allocated through our FTP methodology. Most notably, the net interest expense of maintaining our liquidity and investment portfolios, the value of which was approximately \$22.8 billion at December 31, 2011, is maintained in Corporate and Other and not allocated to the businesses through our FTP methodology. In addition, other unassigned funding costs, including the results of our ALM activities, are also not allocated to the businesses.

Ally Bank

Ally Bank, our direct banking platform, provides our Automotive Finance and Mortgage operations with a stable and low-cost funding source and facilitates prudent asset growth. Our focus is on building a stable deposit base driven by our compelling brand and strong value proposition. Ally Bank raises deposits directly from customers through a direct banking channel via the internet and by telephone. We have become a leader in direct banking with our recognizable brand, accessible 24/7 customer service, and competitively priced products.

Ally Bank offers a full spectrum of deposit product offerings including certificates of deposits, savings accounts, money market accounts, IRA deposit products, and an online checking product. In addition, brokered deposits are obtained through third-party intermediaries. At December 31, 2011, Ally Bank had \$39.6 billion of deposits, including \$27.7 billion of retail deposits. The growth of our retail base from \$7.2 billion at the end of 2008 to \$27.7 billion at December 31, 2011, has enabled us to reduce our cost of funds during that period. The growth in deposits is primarily attributable to our retail deposits while our brokered deposits have remained at historical levels. Strong retention rates, reflecting the strength of the franchise, have materially contributed to our growth in retail deposits.

Funding and Liquidity

Our funding strategy largely focuses on the development of diversified funding sources across a global investor base to meet all of our liquidity needs throughout different market cycles, including periods of financial distress. Prior to becoming a bank holding company, our funding largely came from the following sources.

Public unsecured debt capital markets;

Asset-backed securitizations, both public and private;

Asset sales;

Table of Contents

Committed and uncommitted credit facilities; and

Brokered and retail deposits.

The diversity of our funding sources enhances funding flexibility, limits dependence on any one source and results in a more cost-effective funding strategy over the long term. Throughout 2008 and 2009, the global credit markets experienced extraordinary levels of volatility and stress. As a result, access by market participants, including Ally, to the capital markets was significantly constrained and borrowing costs increased. In response, numerous government programs were established aimed at improving the liquidity position of U.S. financial services firms. After converting to a bank holding company in late 2008, we participated in several of the programs, including Temporary Liquidity Guaranty Program (TLGP), Term Auction Facility, and Term Asset-Backed Securities Loan Facility. Our diversification strategy and participation in these programs helped us to maintain sufficient liquidity during this period of financial distress to meet all maturing unsecured debt obligations and to continue our lending and operating activities.

During 2009, as part of our overall transformation from an independent financial services company to a bank holding company, we took actions to further diversify and develop more stable funding sources and, in particular, embarked upon initiatives to grow our consumer deposit-taking capabilities within Ally Bank. In addition, we began distinguishing our liquidity management strategies between bank funding and nonbank funding.

Maximizing bank funding continues to be the cornerstone of our long-term liquidity strategy. We have made significant progress in migrating assets to Ally Bank and growing our retail deposit base since becoming a bank holding company. Retail deposits provide a low-cost source of funds that are less sensitive to interest rate changes, market volatility or changes in our credit ratings than other funding sources. At December 31, 2011, deposit liabilities totaled \$45.1 billion, which constituted 31% of our total funding. This compares to just 14% at December 31, 2008.

In addition to building a larger deposit base, we continue to remain active in the securitization markets to finance our Ally Bank automotive loan portfolios. During 2011, we issued \$9.3 billion in secured funding backed by retail automotive loans and leases as well as dealer floorplan automotive loans of Ally Bank. Continued structural efficiencies in securitizations combined with improving capital market conditions have resulted in a reduction in the cost of funds achieved through secured funding transactions, making them a very attractive source of funding. Additionally, for retail loans and leases, the term structure of the transaction locks in funding for a specified pool of loans and leases for the life of the underlying asset. Once a pool of retail automobile loans are selected and placed into a securitization, the underlying assets and corresponding debt amortize simultaneously resulting in committed and matched funding for the life of the asset. We manage the execution risk arising from secured funding by maintaining a diverse investor base and maintaining committed secured facilities.

As we have shifted our focus to migrating assets to Ally Bank and growing our bank funding capabilities, our reliance on parent company liquidity has consequently been reduced. Funding sources at the parent company generally consist of longer-term unsecured debt, private credit facilities, and asset-backed securitizations. Historically, the unsecured term debt markets were a key source of long-term financing for us. However, given our ratings profile and market environment, during the second half of 2007 and throughout 2008 and 2009 we chose not to target transactions in the unsecured term debt markets due to the expected high market rates and alternative funding sources. In 2010, we re-entered the unsecured term debt market with several issuances that year. In the first half of 2011, we issued over \$3.7 billion of unsecured debt globally through several issuances. However, in the second half of 2011, we chose not to issue unsecured term debt given the extreme market volatility and expected high cost of issuance. At December 31, 2011, we had \$12.0 billion and \$2.3 billion of outstanding unsecured long-term debt with maturities in 2012 and 2013, respectively. To fund these maturities, we expect to use existing pre-issued liquidity combined with maintaining an opportunistic approach to new issuance.

Table of Contents

The strategies outlined above have allowed us to build and maintain a conservative liquidity position. Total available liquidity at the parent company was \$26.9 billion, and Ally Bank had \$10.0 billion of available liquidity at December 31, 2011. For discussion purposes within the funding and liquidity section, parent company includes our consolidated operations less our Insurance operations, ResCap, and Ally Bank. At the same time, these strategies have also resulted in a cost of funds improvement of approximately 178 basis points since the first quarter of 2009. Looking forward, given our enhanced liquidity and capital position and generally improved credit ratings, we expect that our cost of funds will continue to improve over time.

Credit Strategy

We are a full spectrum automotive finance lender with most of our automotive loan originations underwritten within the prime-lending markets as we continue to prudently expand in nonprime markets. Our Mortgage Origination and Servicing operations primarily focus on selling conforming mortgages we originate or purchase in sales that take the form of securitizations guaranteed by Fannie Mae or Freddie Mac and sell government-insured mortgage loans we originate or purchase in securitizations guaranteed by Ginnie Mae (collectively, the Government-sponsored Enterprises or GSEs).

During 2011, we continued to recognize improvement in our credit risk profile as a result of proactive credit risk initiatives that were taken in 2009 and 2010 and modest improvement in the overall economic environment. We discontinued and sold multiple nonstrategic operations, mainly in our international businesses, including our commercial construction portfolio. Within our Automotive Finance operations, we exited certain underperforming dealer relationships. Within our Mortgage operations, we have taken action to reduce the focus on the correspondent mortgage-lending channel; however, we will maintain correspondent relationships with key customers.

During the year ended December 31, 2011, the credit performance of our portfolios improved overall as we benefited from lower frequency and severity of losses within our automotive portfolios and stabilization of asset quality trends within our mortgage portfolios. Nonperforming loans and charge-offs declined, and our provision for loan losses decreased to \$219 million in 2011 from \$442 million in 2010.

We continue to see signs of economic stabilization in the housing and vehicle markets, although our total credit portfolio will continue to be affected by sustained levels of high unemployment and continued uncertainty in the housing market.

Representation and Warranty Obligations

We continue to make progress in mitigating repurchase reserve exposure through ongoing settlement discussions with key counterparties and ongoing maintenance of an appropriate reserve for representation and warranty obligations associated with certain mortgage companies (Mortgage Companies) within our Mortgage operations. We seek to manage the risk of repurchase or indemnification and the associated credit exposure through our underwriting and quality assurance practices and by servicing mortgage loans to meet investor standards. We believe that, in general, the longer a loan performs prior to default the less likely it is that an alleged breach of representation and warranty will be found to have a material and adverse impact on the loan's performance. Our representation and warranty expense decreased to \$324 million in 2011 from \$670 million in 2010. The repurchase reserve of \$825 million at December 31, 2011, primarily represents exposure unrelated to the GSEs, as we have reached agreements with both Freddie Mac and Fannie Mae, subject to certain exclusions, limiting the remaining exposure of the applicable Mortgage Companies to these counterparties.

Outstanding claims during 2011 have remained relatively constant with GSE claim activity declining compared to 2010 while monoline and other claims activity have increased. Increased claims from monolines reflect activity still under review. Typically, the obligations under representation and warranties provided to monolines and other whole-loan investors are not as comprehensive as those to the GSEs. As such, we believe a

Table of Contents

significant portion of these claims are ineligible for repurchase or indemnification. As a result of market developments over the past several years, repurchase demand behavior has changed significantly. GSEs are more likely to submit claims for loans at any point in their life cycle. Investors are more likely to submit claims for loans that become delinquent at any time while a loan is outstanding or when a loan incurs a loss.

Bank Holding Company and Treasury's Investments

During 2008, and continuing into 2009, the credit, capital, and mortgage markets became increasingly disrupted. This disruption led to severe reductions in liquidity and adversely affected our capital position. As a result, Ally sought approval to become a bank holding company to obtain access to capital at a lower cost to remain competitive in our markets. On December 24, 2008, Ally and IB Finance Holding Company, LLC, the holding company of Ally Bank, were each approved as bank holding companies under the Bank Holding Company Act of 1956. At the same time, Ally Bank converted from a Utah-chartered industrial bank into a Utah-chartered commercial nonmember bank. Ally Bank as an FDIC-insured depository institution, is subject to the supervision and examination of the Federal Deposit Insurance Corporation (FDIC) and the Utah Department of Financial Institutions (UDFI). Ally Financial Inc. is subject to the supervision and examination of the Board of Governors of the Federal Reserve System (FRB). We are required to comply with regulatory risk-based and leverage capital requirements, as well as various safety and soundness standards established by the FRB, and are subject to certain statutory restrictions concerning the types of assets or securities that we may own and the activities in which we may engage.

As one of the conditions to becoming a bank holding company, the FRB required several actions of Ally, including meeting a minimum amount of regulatory capital. In order to meet this requirement, Ally took several actions, the most significant of which were the execution of private debt exchanges and cash tender offers to purchase and/or exchange certain of our and our subsidiaries outstanding notes held by eligible holders for a combination of cash, newly issued notes of Ally, and in the case of certain of the offers, preferred stock. The transactions resulted in an extinguishment of all notes tendered or exchanged into the offers and the new notes and stock were recorded at fair value on the issue date. This resulted in a pretax gain on extinguishment of debt of \$11.5 billion and a corresponding increase to our capital levels. The gain included a \$5.4 billion original issue discount representing the difference between the face value and the fair value of the new notes and is being amortized as interest expense over the term of the new notes. In addition, the U.S. Department of Treasury (Treasury) made an initial investment in Ally on December 29, 2008, pursuant to the Troubled Asset Relief Program (TARP) with a \$5.0 billion purchase of Ally perpetual preferred stock with a total liquidation preference of \$5.25 billion (Perpetual Preferred Stock).

On May 21, 2009, Treasury made a second investment of \$7.5 billion in exchange for Ally's mandatorily convertible preferred stock with a total liquidation preference of approximately \$7.9 billion (Old MCP), which included a \$4 billion investment to support our agreement with Chrysler to provide automotive financing to Chrysler dealers and customers and a \$3.5 billion investment related to the FRB's Supervisory Capital Assessment Program requirements. Shortly after this second investment, on May 29, 2009, Treasury acquired 35.36% of Ally common stock when it exercised its right to acquire 190,921 shares of Ally common stock from GM as repayment for an \$884 million loan that Treasury had previously provided to GM.

On December 30, 2009, we entered into another series of transactions with Treasury under TARP, pursuant to which Treasury (i) converted 60 million shares of Old MCP (with a total liquidation preference of \$3.0 billion) into 259,200 shares of additional Ally common stock; (ii) invested \$1.25 billion in new Ally mandatorily convertible preferred stock with a total liquidation preference of approximately \$1.3 billion (the New MCP); and (iii) invested \$2.54 billion in new trust preferred securities with a total liquidation preference of approximately \$2.7 billion (Trust Preferred Securities). At this time, Treasury also exchanged all of its Perpetual Preferred Stock and remaining Old MCP (following the conversion of Old MCP described above) into additional New MCP.

Table of Contents

On December 30, 2010, Treasury converted 110 million shares of New MCP (with a total liquidation preference of approximately \$5.5 billion) into 531,850 shares of additional Ally common stock. The conversion reduces dividends by approximately \$500 million per year, assists with capital preservation, and is expected to improve profitability with a lower cost of funds.

On March 1, 2011, the Declaration of Trust and certain other documents related to the Trust Preferred Securities were amended, and all of the outstanding Trust Preferred Securities held by Treasury were designated 8.125% Fixed Rate / Floating Rate Trust Preferred Securities, Series 2. On March 7, 2011, Treasury sold 100% of the Series 2 Trust Preferred Securities in an offering registered with the SEC. Ally did not receive any proceeds from the sale.

Following the transactions described above, Treasury currently holds 73.8% of Ally common stock and approximately \$5.9 billion in New MCP. As a result of its current common stock investment, Treasury is entitled to appoint six of the eleven total members of the Ally Board of Directors.

The following table summarizes the investments in Ally made by Treasury in 2008 and 2009.

| | Investment type | Date | Cash investment | Warrants (\$ in millions) | Total |
|------------------------|----------------------------|-------------------|-----------------|---------------------------|-----------|
| TARP | Preferred equity | December 29, 2008 | \$ 5,000 | \$ 250 | \$ 5,250 |
| GM Loan Conversion (a) | Common equity | May 21, 2009 | 884 | | 884 |
| SCAP 1 | Preferred equity (MCP) | May 21, 2009 | 7,500 | 375 | 7,875 |
| SCAP 2 | Preferred equity (MCP) | December 30, 2009 | 1,250 | 63 | 1,313 |
| SCAP 2 | Trust preferred securities | December 30, 2009 | 2,540 | 127 | 2,667 |
| Total cash investments | | | \$ 17,174 | \$ 815 | \$ 17,989 |

(a) In January 2009, Treasury loaned \$884 million to General Motors. In connection with that loan, Treasury acquired rights to exchange that loan for 190,921 shares. In May 2009, Treasury exercised that right.

The following table summarizes Treasury's investment in Ally at December 31, 2011.

| | December 31, 2011 | |
|-------------------|-------------------|------------|
| | Book Value | Face Value |
| | (\$ in millions) | |
| MCP (a) | \$ 5,685 | \$ 5,938 |
| Common equity (b) | | 73.8% |

(a) Reflects the exchange of face value of \$5.25 billion of Perpetual Preferred Stock to MCP in December 2009 and the conversion of face value of \$3.0 billion and \$5.5 billion of MCP to common equity in December 2009 and December 2010, respectively.

(b) Represents the current common equity ownership position by Treasury.

Discontinued Operations

During 2009, 2010, and 2011, we committed to sell certain operations of our International Automotive Finance operations, Insurance operations, Mortgage Legacy Portfolio and Other operations, and Commercial Finance Group, and have classified certain of these operations as discontinued. For all periods presented, all of the operating results for these operations have been removed from continuing operations. Refer to Note 2 to the Consolidated Financial Statements for more details.

Table of Contents**Primary Lines of Business**

Our primary lines of business are Global Automotive Services and Mortgage. The following table summarizes the operating results excluding discontinued operations of each line of business. Operating results for each of the lines of business are more fully described in the sections of this Management's Discussion and Analysis of Financial Condition and Results of Operations that follow.

2011 Compared to 2010

We incurred a net loss from continuing operations of \$112 million for the year ended December 31, 2011, compared to net income from continuing operations of \$986 million for the year ended December 31, 2010. Continuing operations for the year ended December 31, 2011, was unfavorably impacted by a decrease in net servicing income due to a drop in interest rates and increased market volatility, lower gains on the sale of loans, and a \$230 million expense related to penalties imposed by certain regulators and other governmental agencies in connection with mortgage foreclosure-related matters. Partially offsetting the decrease was lower representation and warranty expense and a lower provision for loan losses.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Total financing revenue and other interest income decreased by 13% for the year ended December 31, 2011, compared to 2010. Operating lease revenue and the related depreciation expense at our Automotive Finance operations declined due to a lower average operating lease portfolio balance as a result of our decision in late 2008 to significantly curtail leasing. Depreciation expense was also impacted by lower lease remarketing gains resulting from lower lease termination volumes. The decrease in our Mortgage Legacy Portfolio and Other

Table of Contents

operations resulted from a decline in average asset levels due to loan sales, the deconsolidation of previously on-balance sheet securitizations, and portfolio runoff. Partially offsetting the decrease was an increase in consumer financing revenue at our North American Automotive operations driven primarily by an increase in consumer asset levels related to strong loan origination volume during 2010 and 2011 resulting primarily from higher automotive industry sales, increased used vehicle financing volume, and higher on-balance sheet retention.

Interest expense decreased 7% for the year ended December 31, 2011, compared to 2010, primarily as a result of a change in our funding mix with an increased amount of funding coming from deposit liabilities as well as favorable trends in the securitization markets.

Net servicing income was \$569 million for the year ended December 31, 2011, compared to \$1.1 billion in 2010. The decrease was primarily due to a drop in interest rates and increased market volatility compared to favorable valuation adjustments in 2010. Additionally, 2011 includes a valuation adjustment that estimates the impact of higher servicing costs related to enhanced foreclosure procedures, establishment of single point of contact, and other processes to comply with the Consent Order.

Insurance premiums and service revenue earned decreased 10% for the year ended December 31, 2011, compared to 2010. The decrease was primarily driven by the sale of certain international insurance operations during the fourth quarter of 2010 and lower earnings from our U.S. vehicle service contracts written between 2007 and 2009 due to lower domestic vehicle sales volume.

Gain on mortgage and automotive loans decreased 63% for the year ended December 31, 2011, compared to 2010. The decrease was primarily due to lower margins on mortgage loan sales, a decrease in mortgage loan production, lower whole-loan mortgage sales and mortgage loan resolutions in 2011, the absence of the 2010 gain on the deconsolidation of an on-balance sheet securitization, and the expiration of our automotive forward flow agreements during the fourth quarter of 2010.

We incurred a loss on extinguishment of debt of \$64 million for the year ended December 31, 2011, compared to a loss of \$123 million for the year ended December 31, 2010. The activity in all periods related to the extinguishment of certain Ally debt, which included \$50 million of accelerated amortization of original issue discount for the 2011, compared to \$101 million in 2010.

Other gain on investments was \$294 million for the year ended December 31, 2011, compared to \$504 million in 2010. The decrease was primarily due to lower realized investment gains on our Insurance operations investment portfolio.

Other income, net of losses, increased 40% for the year ended December 31, 2011, compared to 2010. The increase during 2011 was primarily due to the positive impact of a \$121 million gain on the early settlement of a loss holdback provision related to certain historical automotive whole-loan forward flow agreements and a favorable change in the fair value option election adjustment.

The provision for loan losses was \$219 million for the year ended December 31, 2011, compared to \$442 million in 2010. The decrease during 2011 reflected improved credit quality of the overall portfolio and the continued runoff and improved loss performance of our Nuvel nonprime automotive financing portfolio.

Insurance losses and loss adjustment expenses decreased 13% for the year ended December 31, 2011, compared to 2010. The decrease was primarily due to lower frequency and severity experienced within our international Insurance business and the sale of certain international operations during the fourth quarter of 2010. The decrease was partially offset by higher weather-related losses in the United States on our dealer inventory insurance products.

Table of Contents

Other operating expenses decreased 5% for the year ended December 31, 2011, compared to 2010. The decrease was primarily related to lower mortgage representation and warranty reserve expense of \$346 million, lower insurance commissions expense, and lower vehicle remarketing and repossession expense. The decrease was partially offset by a \$230 million expense related to penalties imposed by certain regulators and other governmental agencies in connection with mortgage foreclosure-related matters.

We recognized consolidated income tax expense of \$179 million for the year ended December 31, 2011, compared to \$153 million in 2010. We have a full valuation allowance against our domestic net deferred tax assets and certain international net deferred tax assets. Accordingly, tax expense is driven by foreign income taxes on pretax profits within our foreign operations and U.S. state income taxes in states where profitable subsidiaries are required to file separately from other loss companies in the group or where the use of prior losses is restricted. The increase in income tax expense for 2011, compared to 2010, was driven by increased pretax income in our foreign operations, partially offset by a \$101 million reversal of valuation allowance in Canada related to modifications to the legal structure of our Canadian operations.

2010 Compared to 2009

We earned net income from continuing operations of \$986 million for the year ended December 31, 2010, compared to a net loss from continuing operations of \$7.0 billion for the year ended December 31, 2009. Continuing operations for the year ended December 31, 2010, were favorably impacted by our strategic mortgage actions taken during 2009 to stabilize our consumer and commercial portfolios that resulted in a significant decrease in our provision for loan losses and our continued focus on cost reduction resulted in lower operating expenses. The year ended December 31, 2010, was also favorably impacted by an increase in net servicing income; higher gains on the sale of loans; and lower impairments on equity investments, lot option projects, model homes, and foreclosed real estate.

Total financing revenue and other interest income decreased by 12% for the year ended December 31, 2010, compared to 2009. Our International Automotive Finance operations experienced lower consumer and commercial asset levels due to adverse business conditions in Europe and the runoff of wind-down portfolios in certain international countries as we shifted our focus to five core international markets: Germany, the United Kingdom, Brazil, Mexico, and China through our joint venture. A decline in asset levels in our Mortgage Legacy Portfolio and Other operations resulted from asset sales and portfolio runoff. Operating lease revenue (along with the related depreciation expense) at our North American Automotive Finance operations decreased as a result of a net decline in the size of our operating lease portfolio due to our decision in late 2008 to significantly curtail leasing. The decrease was partially offset by lease portfolio remarketing gains due to strong used vehicle prices and higher remarketing volume as well as an increase in consumer and commercial financing revenue related to the addition of non-GM automotive financing business.

Interest expense decreased 6% for the year ended December 31, 2010, compared to 2009. Interest expense decreased as a result of a change in our funding mix with an increased amount of funding coming from deposit liabilities as well as favorable trends in the securitization markets.

Net servicing income was \$1.1 billion for the year ended December 31, 2010, compared to \$363 million in 2009. The increase was primarily due to projected cash flow improvements related to slower prepayment speeds as well as higher Home Affordable Modification Program (HAMP) loss mitigation incentive fees compared to prior year unfavorable hedge performance with respect to mortgage servicing rights.

Insurance premiums and service revenue earned decreased 6% for the year ended December 31, 2010, compared to 2009. The decrease was primarily driven by lower earnings from our U.S. vehicle service contracts due to a decrease in domestic written premiums related to lower vehicle sales volume during the period 2007 to 2009. The decrease was partially offset by increased volume in our international operations.

Table of Contents

Gain on mortgage and automotive loans increased 58% for the year ended December 31, 2010, compared to 2009. The increase was primarily related to unfavorable valuation adjustments taken during 2009 on our held-for-sale automobile loan portfolios, higher gains on mortgage whole-loan sales and securitizations in 2010 compared to 2009, higher gains on mortgage loan resolutions in 2010, and the recognition of a gain on the deconsolidation of an on-balance sheet securitization. The increase was partially offset by gains on the sale of wholesale automotive financing receivables during 2009 as there were no off-balance sheet wholesale funding transactions during 2010.

We incurred a loss on extinguishment of debt of \$123 million for the year ended December 31, 2010, compared to a gain of \$665 million for the year ended December 31, 2009. The activity in all periods related to the extinguishment of certain Ally debt that for the year ended December 31, 2010, included \$101 million of accelerated amortization of original issue discount.

Other gain on investments was \$504 million for the year ended December 31, 2010, compared to \$162 million in 2009. The increase was primarily due to higher realized investment gains driven by market repositioning and the sale of our tax-exempt securities portfolio. During the year ended December 31, 2009, we recognized other-than-temporary impairments of \$55 million.

Other income, net of losses, increased 183% for the year ended December 31, 2010, compared to 2009. The improvement in 2010 was primarily related to the absence of loan origination income deferral due to the fair value option election for our held-for-sale loans during the third quarter of 2009 and the impact of significant impairments recognized in 2009. In 2009, we recorded impairments on equity investments, lot option projects, model homes, and an \$87 million fair value impairment upon the transfer of our resort finance portfolio from held-for-sale to held-for-investment. Also in 2010, we recognized gains on the sale of foreclosed real estate compared to losses and impairments in 2009.

The provision for loan losses was \$442 million for the year ended December 31, 2010, compared to \$5.6 billion in 2009. The Mortgage Legacy Portfolio and Other provision decreased \$4.1 billion from the prior year due to an improved asset mix as a result of the strategic actions taken during the fourth quarter of 2009 to write-down and reclassify certain legacy mortgage loans from held-for-investment to held-for-sale. The decrease in provision was also driven by the continued runoff and improved loss performance of our Nuvel nonprime automotive financing portfolio.

Insurance losses and loss adjustment expenses decreased 17% for the year ended December 31, 2010, compared to 2009. The decrease was primarily driven by lower loss experience in our Mortgage Legacy Portfolio and Other operations captive reinsurance portfolio.

Other operating expenses decreased 27% for the year ended December 31, 2010, compared to 2009, reflecting our continued expense reduction efforts. The improvements were primarily due to lower mortgage representation and warranty expenses, reduced professional service expenses, lower technology and communications expense, lower full-service leasing vehicle maintenance costs, lower insurance commissions, and lower advertising and marketing expenses for the year ended December 31, 2010.

Management focuses on efficiency ratio as an important measure to assess the performance of our operations. Throughout 2010, expense reduction was a strategic objective of management as we continued to focus on increasing operational efficiency by decreasing expenses as well as streamlining our operations through the disposition or wind-down of non-core businesses and related legacy infrastructure. We remain focused on efforts to control costs to support overall profitability while still investing in key customer-facing areas critical to our core franchises. Additionally, advertising and marketing expenses decreased in 2010 as compared to 2009. These reductions largely reflect higher expenses incurred in 2009 to establish the new Ally brand. Going-forward our advertising and marketing dollars will primarily be directed to customers and initiatives that we believe support our growth strategy.

Table of Contents

We recognized consolidated income tax expense of \$153 million for the year ended December 31, 2010, compared to \$74 million in 2009. The increase was driven primarily by foreign taxes on higher pretax profits not subject to valuation allowance and U.S. state income taxes in states where profitable subsidiaries are required to file separately from other loss companies in the group or where the use of prior year losses is restricted.

Global Automotive Services

Results for Global Automotive Services are presented by reportable segment, which includes our North American Automotive Finance operations, our International Automotive Finance operations, and our Insurance operations.

Automotive Finance Operations

Our North American Automotive Finance operations and our International Automotive Finance operations (Automotive Finance operations) provide automotive financing services to consumers and to automotive dealers. For consumers, we offer retail automobile financing and leasing for new and used vehicles, and through our commercial automotive financing operations, we fund dealer purchases of new and used vehicles through wholesale or floorplan financing.

Consumer Automotive Financing

Historically, we have provided two basic types of financing for new and used vehicles: retail automobile contracts (retail contracts) and automobile lease contracts. In most cases, we purchase retail contracts and leases for new and used vehicles from dealers when the vehicles are purchased or leased by consumers. In a number of markets outside the United States, we are a direct lender to the consumer. Our consumer automotive financing operations generate revenue through finance charges or lease payments and fees paid by customers on the retail contracts and leases. In connection with lease contracts, we also recognize a gain or loss on the remarketing of the vehicle at the end of the lease.

The amount we pay a dealer for a retail contract is based on the negotiated purchase price of the vehicle and any other products, such as service contracts, less any vehicle trade-in value and any down payment from the consumer. Under the retail contract, the consumer is obligated to make payments in an amount equal to the purchase price of the vehicle (less any trade-in or down payment) plus finance charges at a rate negotiated between the consumer and the dealer. In addition, the consumer is also responsible for charges related to past-due payments. When we purchase the contract, it is normal business practice for the dealer to retain some portion of the finance charge as income for the dealership. Our agreements with dealers place a limit on the amount of the finance charges they are entitled to retain. Although we do not own the vehicles we finance through retail contracts, we hold a perfected security interest in those vehicles. Due to funding challenges related to the general economic recession at the time, in January 2009, we ceased new financing through Nuvell, which had focused on nonprime automotive financing primarily through GM-affiliated dealers. More recently, we have begun to prudently expand our nonprime automotive financing volumes.

With respect to consumer leasing, we purchase leases (and the associated vehicles) from dealerships. The purchase price of consumer leases is based on the negotiated price for the vehicle less any vehicle trade-in and any down payment from the consumer. Under the lease, the consumer is obligated to make payments in amounts equal to the amount by which the negotiated purchase price of the vehicle (less any trade-in value or down payment) exceeds the projected residual value (including residual support) of the vehicle at lease termination, plus lease charges. The consumer is also generally responsible for charges related to past due payments, excess mileage, excessive wear and tear, and certain disposal fees where applicable. When the lease contract is entered into, we estimate the residual value of the leased vehicle at lease termination. We generally base our determination of the projected residual values on a guide published by an independent publisher of vehicle residual values, which is stated as a percentage of the manufacturer's suggested retail price. These projected values may be upwardly

Table of Contents

adjusted as a marketing incentive if the manufacturer or Ally considers above-market residual support necessary to encourage consumers to lease vehicles.

Our standard U.S. leasing plan, SmartLease, requires a monthly payment by the consumer. We also offer an alternative leasing plan, SmartLease Plus, that requires one up-front payment of all lease amounts at the time the consumer takes possession of the vehicle.

During 2011, we expanded the Ally Buyer's Choice product on new GM and Chrysler vehicles from Canada to select states in the United States. The Ally Buyer's Choice financing product allows customers to own their vehicle with a fixed rate and payment with the option to sell it to us at a pre-determined point during the contract term and at a pre-determined price.

Consumer automobile leases are operating leases; therefore, credit losses on the operating lease portfolio are not as significant as losses on retail contracts because lease losses are primarily limited to payments and assessed fees. Since some of these fees are not assessed until the vehicle is returned, these losses on the lease portfolio are correlated with lease termination volume. North American operating lease accounts past due over 30 days represented 0.67% and 2.36% of the total portfolio at December 31, 2011 and 2010, respectively. We selectively re-entered the U.S. leasing market in 2009 and have continued to support lease volumes since that time.

With respect to all financed vehicles, whether subject to a retail contract or a lease contract, we require that property damage insurance be obtained by the consumer. In addition, for lease contracts, we require that bodily injury, collision, and comprehensive insurance be obtained by the consumer.

The consumer financing revenue of our Automotive Finance operations totaled \$4.0 billion, \$3.4 billion, and \$3.1 billion in 2011, 2010, and 2009, respectively.

Consumer Automotive Financing Volume

The following table summarizes our new and used vehicle consumer financing volume and our share of consumer sales.

| Year ended December 31, (units in thousands) | Ally consumer automotive financing volume | | | % Share of consumer sales | | |
|---|---|--------------|------------|---------------------------|------|------|
| | 2011 | 2010 | 2009 | 2011 | 2010 | 2009 |

Table of Contents

(a) Excludes financing volume and GM consumer sales of discontinued operations, as well as GM consumer sales for other countries in which GM operates and in which we have no financing volume.

(b) Represents vehicles financed through our joint venture GMAC-SAIC. We own 40% of GMAC-SAIC alongside Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation LTD.

Growth in consumer automotive financing volume in 2011, compared to 2010, was primarily driven by higher industry sales. Additionally, the increase in volume during 2011 reflects our continued focus on the used vehicle and diversified markets, as well as lease-related volume. The penetration during 2011 reflects a competitive market environment and a return to normalized levels. The decrease in Chrysler penetration is related to a reduction in automotive manufacturer rate incentive programs. The improved penetration levels for our International operations reflect aggressive manufacturer marketing incentive programs coupled with existing Ally campaigns, the reintroduction of products, and more competitive pricing.

Manufacturer Marketing Incentives

Automotive manufacturers may elect to sponsor incentive programs (on both retail contracts and leases) by supporting finance rates below the standard market rates at which we purchase retail contracts. These marketing incentives are also referred to as rate support or subvention. When automotive manufacturers utilize these marketing incentives, we are compensated at contract inception for the present value of the difference between the customer rate and our standard rates, which we defer and recognize as a yield adjustment over the life of the contract.

GM historically provided lease residual support to provide incentives on leased vehicles by supporting an above-market residual value, referred to as residual support, to encourage consumers to lease vehicles. Residual support results in a lower monthly lease payment for the consumer. We may bear a portion of the risk of loss to the extent the value of the lease vehicle upon remarketing is below the projected residual value of the vehicle at the time the lease contract is signed. Under these programs, GM reimburses us to the extent remarketing sales proceeds are less than the residual value set forth in the lease contract and no greater than our standard residual rates. To the extent remarketing sales proceeds are more than the contract residual at termination, we reimburse GM for its portion of the higher residual value.

In addition to the residual support arrangement for leases originated prior to 2009, GM also participates in a risk-sharing arrangement whereby GM shares equally in residual losses to the extent that remarketing proceeds are below our standard residual rates (limited to a floor). Over the past several years, our automotive manufacturing partners have primarily supported leasing products through rate support programs.

Under what we refer to as GM-sponsored pull-ahead programs, consumers may be encouraged to terminate leases early in conjunction with the acquisition of a new GM vehicle. As part of these programs, we waive all or a portion of the customer's remaining payment obligation. Under most programs, GM compensates us for a portion of the foregone revenue from the waived payments partially offset to the extent that our remarketing sales proceeds are higher than otherwise would be realized if the vehicle had been remarketed at lease contract maturity.

On November 30, 2006, and in connection with the sale by GM of a 51% interest in Ally, GM and Ally entered into several service agreements that codified the mutually beneficial historic relationship between the companies. One such agreement was the United States Consumer Financing Services Agreement (the Financing Services Agreement). The Financing Services Agreement, among other things, provided that subject to certain conditions and limitations, whenever GM offers vehicle financing and leasing incentives to customers (e.g., lower interest rates than market rates), it would do so exclusively through Ally. This requirement was effective

Table of Contents

through November 2016, and in consideration for this, Ally paid to GM an annual exclusivity fee and was required to meet certain targets with respect to consumer retail and lease financings of new GM vehicles.

Effective December 29, 2008, and in connection with the approval of our application to become a bank holding company, GM and Ally modified certain terms and conditions of the Financing Services Agreement. Certain of these amendments include the following: (1) for a two-year period, GM can offer retail financing incentive programs through a third-party financing source under certain specified circumstances and, in some cases, subject to the limitation that pricing offered by the third party meets certain restrictions, and after the two-year period GM can offer any such incentive programs on a graduated basis through third parties on a nonexclusive, side-by-side basis with Ally, provided that the pricing of such third parties meets certain requirements; (2) Ally will have no obligation to provide operating lease financing products; and (3) Ally will have no targets against which it could be assessed penalties. The modified Financing Services Agreement will expire on December 31, 2013. After December 31, 2013, GM will have the right to offer retail financing incentive programs through any third-party financing source, including Ally, without restrictions or limitations. A primary objective of the Financing Services Agreement continues to be supporting distribution and marketing of GM products.

On August 6, 2010, we entered into an agreement with Chrysler to be the preferred provider of financial services for Chrysler vehicles. The agreement replaced and superseded the legally binding term sheet that we entered into with Chrysler on April 30, 2009, which contemplated this definitive agreement. We provide retail financing to Chrysler dealers and customers as we deem appropriate according to our credit policies and in our sole discretion. Chrysler is obligated to provide us with certain exclusivity privileges including the use of Ally for designated minimum threshold percentages of certain of Chrysler's retail financing subvention programs. The agreement extends through April 30, 2013, with automatic one-year renewals unless either we or Chrysler provides sufficient notice of nonrenewal. As a result, our agreement with Chrysler will be automatically extended through April 30, 2014, unless Chrysler notifies us of nonrenewal on or before April 30, 2012, in which case, the agreement would expire on April 30, 2013.

The following table presents the percentage of retail and lease contracts acquired by us that included rate support from GM.

| Year ended December 31, | 2011 | 2010 | 2009 |
|--|-------------|-------------|-------------|
| GM subvented volume in North America | | | |
| As % of GM North American new retail and lease volume acquired by Ally | 53% | 51% | 69% |
| As % of total North American new and used retail and lease volume acquired by Ally | 25% | 27% | 48% |
| GM subvented International (excluding China) volume (a) | | | |
| As % of GM International new retail and lease volume acquired by Ally | 68% | 55% | 67% |
| As % of total International new and used retail and lease volume acquired by Ally | 61% | 50% | 61% |
| GM subvented volume in China (b) | | | |
| As % of GM China new retail and lease volume acquired by Ally | 12% | 14% | 1% |
| As % of total China new and used retail and lease volume acquired by Ally | 7% | 8% | 1% |

(a) Represents subvention for continuing operations only.

(b) Represents vehicles financed through our joint venture GMAC-SAIC. We own 40% of GMAC-SAIC alongside Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation LTD.

The following table presents the percentage of Chrysler subvented retail and lease volume acquired by Ally.

| Year ended December 31, | 2011 | 2010 | 2009 |
|--|-------------|-------------|-------------|
| Chrysler subvented volume in North America | | | |
| As % of Chrysler North American new retail and lease volume acquired by Ally | 52% | 57% | 39% |
| As % of total North American new and used retail and lease volume acquired by Ally | 10% | 14% | 4% |

Table of Contents

At December 31, 2011, the percentage of North American new retail contracts acquired that included rate subvention from GM increased compared to 2010 primarily due to increases in manufacturer marketing incentives during the first half of 2011. International retail contracts acquired that included rate and residual subvention increased as a result of aggressive GM campaigns in various international markets. North American retail contracts acquired that included rate subvention from Chrysler decreased as a percentage of total new retail contracts acquired as compared to 2010 due to a shift towards non-rate incentive programs.

Servicing

We have historically serviced all retail contracts and leases we retained on-balance sheet. We historically sold a portion of the retail contracts we originated and retained the right to service and earn a servicing fee for our servicing functions. Ally Servicing LLC, a wholly owned subsidiary, performs most servicing activities for U.S. retail contracts and consumer automobile leases.

Servicing activities consist largely of collecting and processing customer payments, responding to customer inquiries such as requests for payoff quotes, processing customer requests for account revisions (such as payment extensions and rewrites), maintaining a perfected security interest in the financed vehicle, monitoring vehicle insurance coverage, and disposing of off-lease vehicles. Servicing activities are generally consistent for our Automotive Finance operations; however, certain practices may be influenced by local laws and regulations.

Our U.S. customers have the option to receive monthly billing statements to remit payment by mail or through electronic fund transfers, or to establish online web-based account administration through the Ally Account Center. Customer payments are processed by regional third-party processing centers that electronically transfer payment data to customers' accounts.

Servicing activities also include initiating contact with customers who fail to comply with the terms of the retail contract or lease. These contacts typically begin with a reminder notice when the account is 5 to 15 days past due. Telephone contact typically begins when the account is 1 to 15 days past due. Accounts that become 20 to 30 days past due are transferred to special collection teams that track accounts more closely. The nature and timing of these activities depend on the repayment risk of the account.

During the collection process, we may offer a payment extension to a customer experiencing temporary financial difficulty. A payment extension enables the customer to delay monthly payments for 30, 60, or 90 days, thereby deferring the maturity date of the contract by the period of delay. Extensions granted to a customer typically do not exceed 90 days in the aggregate during any 12-month period or 180 days in aggregate over the life of the contract. During the deferral period, we continue to accrue and collect interest on the loan as part of the deferral agreement. If the customer's financial difficulty is not temporary and management believes the customer could continue to make payments at a lower payment amount, we may offer to rewrite the remaining obligation, extending the term and lowering the monthly payment obligation. In those cases, the principal balance generally remains unchanged while the interest rate charged to the customer generally increases. Extension and rewrite collection techniques help mitigate financial loss in those cases where management believes the customer will recover from financial difficulty and resume regularly scheduled payments or can fulfill the obligation with lower payments over a longer period. Before offering an extension or rewrite, collection personnel evaluate and take into account the capacity of the customer to meet the revised payment terms. Generally, we do not consider extensions that fall within our policy guidelines to represent more than an insignificant delay in payment and, therefore, they are not considered Troubled Debt Restructurings. Although the granting of an extension could delay the eventual charge-off of an account, typically we are able to repossess and sell the related collateral, thereby mitigating the loss. As an indication of the effectiveness of our consumer credit practices, of the total amount outstanding in the U. S. traditional retail portfolio at December 31, 2008, only 11.0% of the extended or rewritten balances were subsequently charged off through December 31, 2011. A three-year period was utilized for this analysis as this approximates the weighted average remaining term of the portfolio. At December 31, 2011, 7.2% of the total amount outstanding in the servicing portfolio had been granted an extension or was rewritten.

Table of Contents

Subject to legal considerations, in the United States we normally begin repossession activity once an account becomes greater than 60-days past due. Repossession may occur earlier if management determines the customer is unwilling to pay, the vehicle is in danger of being damaged or hidden, or the customer voluntarily surrenders the vehicle. Approved third-party repossession firms handle repossessions. Normally the customer is given a period of time to redeem the vehicle by paying off the account or bringing the account current. If the vehicle is not redeemed, it is sold at auction. If the proceeds do not cover the unpaid balance, including unpaid earned finance charges and allowable expenses, the resulting deficiency is charged off. Asset recovery centers pursue collections on accounts that have been charged off, including those accounts where the vehicle was repossessed, and skip accounts where the vehicle cannot be located.

At December 31, 2011 and 2010, our total consumer automotive serviced portfolio was \$85.6 billion and \$78.8 billion, respectively, compared to our consumer automotive on-balance sheet portfolio of \$73.2 billion and \$60.4 billion at December 31, 2011 and 2010, respectively. Refer to Note 12 to the Consolidated Financial Statements for further information regarding servicing activities.

Remarketing and Sales of Leased Vehicles

When we acquire a consumer lease, we assume ownership of the vehicle from the dealer. Neither the consumer nor the dealer is responsible for the value of the vehicle at the time of lease termination. When vehicles are not purchased by customers or the receiving dealer at scheduled lease termination, the vehicle is returned to us for remarketing through an auction. We generally bear the risk of loss to the extent the value of a leased vehicle upon remarketing is below the projected residual value determined at the time the lease contract is signed. Automotive manufacturers may share this risk with us for certain leased vehicles, as described previously under *Manufacturer Marketing Incentives*.

The following table summarizes our methods of vehicle sales in the United States at lease termination stated as a percentage of total lease vehicle disposals.

| Year ended December 31, | 2011 | 2010 | 2009 |
|--|------|------|------|
| Auction | | | |
| Internet | 61% | 60% | 57% |
| Physical | 16% | 18% | 25% |
| Sale to dealer | 12% | 12% | 11% |
| Other (including option exercised by lessee) | 11% | 10% | 7% |

We primarily sell our off-lease vehicles through:

Internet auctions We offer off-lease vehicles to dealers and certain other third parties in the United States through our proprietary internet site (SmartAuction). This internet sales program maximizes the net sales proceeds from off-lease vehicles by reducing the time between vehicle return and ultimate disposition, reducing holding costs, and broadening the number of prospective buyers. We maintain the internet auction site, set the pricing floors on vehicles, and administer the auction process. We earn a service fee for every vehicle sold through SmartAuction.

Physical auctions We dispose of our off-lease vehicles not purchased at termination by the lease consumer or dealer or sold on an internet auction through traditional official manufacturer-sponsored auctions. We are responsible for handling decisions at the auction including arranging for inspections, authorizing repairs and reconditioning, and determining whether bids received at auction should be accepted.

Table of Contents

Commercial Automotive Financing

Automotive Wholesale Dealer Financing

One of the most important aspects of our dealer relationships is supporting the sale of vehicles through wholesale or floorplan financing. We primarily support automotive finance purchases by dealers of new and used vehicles manufactured or distributed before sale or lease to the retail customer. Wholesale automotive financing represents the largest portion of our commercial financing business and is the primary source of funding for dealers' purchases of new and used vehicles. During 2011, we financed an average of \$21.1 billion of new GM vehicles, representing a 79% share of GM's North American dealer inventory and a 78% share of GM's international dealer inventory in countries where GM operates and we had dealer inventory financing, excluding China. We also financed an average of \$7.6 billion of new Chrysler vehicles representing a 65% share of Chrysler's North American dealer inventory. In addition, we financed an average of \$2.2 billion of new non-GM/Chrysler vehicles and used vehicles of \$3.4 billion.

On August 6, 2010, we entered into an agreement with Chrysler regarding automotive financing products and services for Chrysler dealers. The agreement replaced and superseded the legally binding term sheet that we entered into with Chrysler on April 30, 2009, which contemplated this definitive agreement. We are Chrysler's preferred provider of new wholesale financing for dealer inventory in the United States, Canada, Mexico, and other international markets upon the mutual agreement of the parties. We provide dealer financing and services to Chrysler dealers as we deem appropriate according to our credit policies and in our sole discretion. The agreement extends through April 30, 2013, with automatic one-year renewals unless either we or Chrysler provides sufficient notice of nonrenewal. As a result, our agreement with Chrysler will be automatically extended through April 30, 2014, unless Chrysler notifies us of nonrenewal on or before April 30, 2012, in which case, the agreement would expire on April 30, 2013.

Wholesale credit is arranged through lines of credit extended to individual dealers. In general, each wholesale credit line is secured by all vehicles and typically by other assets owned by the dealer or the operator's or owner's personal guarantee. As part of our floorplan financing arrangement, we typically require repurchase agreements with the automotive manufacturer to repurchase new vehicle inventory under certain circumstances. The amount we advance to dealers is equal to 100% of the wholesale invoice price of new vehicles, which includes destination and other miscellaneous charges, and with respect to vehicles manufactured by GM and other motor vehicle manufacturers, a price rebate, known as a holdback, from the manufacturer to the dealer in varying amounts stated as a percentage of the invoice price. Interest on wholesale automotive financing is generally payable monthly. Most wholesale automotive financing of our North American Automotive Finance operations is structured to yield interest at a floating rate indexed to the Prime Rate. The wholesale automotive financing of our International Automotive Finance operations is structured to yield interest at a floating rate indexed to benchmark rates specific to the relative country. The rate for a particular dealer is based on, among other things, competitive factors, the amount and status of the dealer's creditworthiness, and various incentive programs.

Under the terms of the credit agreement with the dealer, we may demand payment of interest and principal on wholesale credit lines at any time; however, unless we terminate the credit line or the dealer defaults or the risk and exposure warrant, we generally require payment of the principal amount financed for a vehicle upon its sale or lease by the dealer to the customer.

The commercial wholesale revenue of our Automotive Finance operations totaled \$1.5 billion, \$1.4 billion, and \$1.2 billion in 2011, 2010, and 2009, respectively.

Table of Contents**Commercial Wholesale Financing Volume**

The following table summarizes the average balances of our commercial wholesale floorplan finance receivables of new and used vehicles and share of dealer inventory in markets where we operate.

| Year ended December 31, (\$ in millions) | Average balance | | | % Share of dealer inventory | | |
|--|------------------|------------------|------------------|-----------------------------|------|------|
| | 2011 | 2010 | 2009 | 2011 | 2010 | 2009 |

| Total Chrysler new vehicles financed | 7,636 | 5,831 | 1,789 | | | |
| Other non-GM / Chrysler new vehicles | | | | | | |
| North America | 2,078 | 1,951 | 1,741 | | | |
| International (excluding China) | 120 | 94 | 94 | | | |
| China (d) | | | 5 | | | |
| Total other non-GM / Chrysler new vehicles financed | 2,198 | 2,045 | 1,840 | | | |
| Used vehicles | | | | | | |
| North America | 3,206 | 3,044 | 2,401 | | | |
| International (excluding China) | 160 | 85 | 142 | | | |
| Total used vehicles financed | 3,366 | 3,129 | 2,543 | | | |
| Total commercial wholesale finance receivables | \$ 34,266 | \$ 30,465 | \$ 27,511 | | | |

(a) Share of dealer inventory based on a 13 month average of dealer inventory (excludes in-transit units).

(b) Share of dealer inventory based on wholesale financing share of GM shipments.

(c) Excludes commercial wholesale finance receivables and dealer inventory of discontinued and wind-down operations as well as dealer inventory for other countries in which GM operates and we had no commercial wholesale finance receivables.

(d) Represents vehicles financed through our joint venture GMAC-SAIC. We own 40% of GMAC-SAIC alongside Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation LTD.

Commercial wholesale financing average volume increased during 2011, compared to 2010, primarily due to increasing global automotive sales and the corresponding increase in dealer inventories in virtually every market. North American GM and Chrysler wholesale penetration decreased for the year ended December 31, 2011, compared to 2010, due to increased competition in the wholesale financing marketplace.

Other Commercial Automotive Financing

We also provide other forms of commercial financing for the automotive industry including automotive dealer term loans and automotive fleet financing. Automotive dealer term loans are loans that we make to dealers to finance other aspects of the dealership business. These loans are typically secured by real estate, other dealership assets, and are personally guaranteed by the individual owners of the dealership. Automotive fleet

Table of Contents

financing may be obtained by dealers, their affiliates, and other companies and be used to purchase vehicles, which they lease or rent to others.

Servicing and Monitoring

We service all of the wholesale credit lines in our portfolio and the wholesale automotive finance receivables that we have securitized. A statement setting forth billing and account information is distributed on a monthly basis to each dealer. Interest and other nonprincipal charges are billed in arrears and are required to be paid immediately upon receipt of the monthly billing statement. Generally, dealers remit payments to Ally through wire transfer transactions initiated by the dealer through a secure web application.

Dealers are assigned a risk rating based on various factors, including capital sufficiency, operating performance, financial outlook, and credit and payment history. The risk rating affects the amount of the line of credit, the determination of further advances, and the management of the account. We monitor the level of borrowing under each dealer's account daily. When a dealer's balance exceeds the credit line, we may temporarily suspend the granting of additional credit or increase the dealer's credit line or take other actions following evaluation and analysis of the dealer's financial condition and the cause of the excess.

We periodically inspect and verify the existence of dealer vehicle inventories. The timing of the verifications varies, and ordinarily no advance notice is given to the dealer. Among other things, verifications are intended to determine dealer compliance with the financing agreement and confirm the status of our collateral.

Table of Contents**North American Automotive Finance Operations****Results of Operations**

The following table summarizes the operating results of our North American Automotive Finance operations for the periods shown. North American Automotive Finance operations consist of automotive financing in the United States and Canada and include the automotive activities of Ally Bank and ResMor Trust. The amounts presented are before the elimination of balances and transactions with our other reportable segments.

2011 Compared to 2010

Our North American Automotive Finance operations earned income before income tax expense of \$2.1 billion for the year ended December 31, 2011, compared to \$2.3 billion for the year ended December 31, 2010. Results for the year ended December 31, 2011, were primarily driven by less favorable remarketing results in our operating lease portfolio, due primarily to lower lease terminations and the absence of gains on the sale

Edgar Filing: Ally Financial Inc. - Form S-1/A

of automotive loans due to the expiration of our forward flow agreements during the fourth quarter of 2010. These declines were partially offset by increased consumer financing revenue driven by strong loan origination volume related primarily to improvement in automotive industry sales, the growth in used automobile financings, and a lower loan loss provision due to an improved credit mix and improved consumer credit performance.

Table of Contents

Consumer financing revenue increased 21% for the year ended December 31, 2011, compared to 2010, due to an increase in consumer asset levels primarily related to strong loan origination volume during 2010 and 2011 resulting primarily from higher automotive industry sales, increased used vehicle financing volume, and higher on-balance sheet retention. Additionally, we continue to prudently expand our nonprime origination volume and introduce innovative finance products to the marketplace. The increase in consumer revenue was partially offset by lower yields as a result of an increasingly competitive market environment and a change in the consumer asset mix, including the runoff of the higher-yielding Nuvel nonprime automotive financing portfolio.

Loans held-for-sale financing revenue decreased \$107 million for the year ended December 31, 2011, compared to 2010, due to the expiration of forward flow agreements during the fourth quarter of 2010. Subsequent to the expiration of these agreements, consumer loan originations have largely been retained on-balance sheet utilizing deposit funding from Ally Bank and on-balance sheet securitization transactions.

Operating lease revenue decreased 36% for the year ended December 31, 2011, compared to 2010. Operating lease revenue and depreciation expense declined due to a lower average operating lease portfolio balance. Depreciation expense was also impacted by lower remarketing gains due primarily to a decline in lease termination volume. In 2008 and 2009, we significantly curtailed our lease product offerings in the United States and Canada. During the latter half of 2009, we re-entered the U.S. leasing market with targeted lease product offerings and have continued to expand lease volume since that time.

Servicing fee income decreased \$65 million for the year ended December 31, 2011, compared to 2010, due to lower levels of off-balance sheet retail serviced assets driven by a reduction of new whole-loan sales subsequent to the expiration of our forward flow agreements in the fourth quarter of 2010.

Net gain on automotive loans decreased \$201 million for the year ended December 31, 2011, compared to 2010, primarily due to the expiration of our forward flow agreements during the fourth quarter of 2010. In prior years, we have opportunistically utilized whole-loan sales as part of our funding strategy; however, during 2011, we have primarily utilized deposit funding and on-balance sheet funding transactions.

The provision for loan losses was \$93 million for the year ended December 31, 2011, compared to \$286 million in 2010. The decrease was primarily due to improved credit quality that drove improved loss performance in the consumer loan portfolio, continued runoff of our Nuvel nonprime consumer portfolio, and continued strength in the used vehicle market, partially offset by continued growth in the consumer loan portfolio.

2010 Compared to 2009

Our North American Automotive Finance operations earned income before income tax expense of \$2.3 billion for the year ended December 31, 2010, compared to \$1.6 billion for the year ended December 31, 2009. Results for the year ended December 31, 2010, were favorably impacted by increased loan origination volume related to improved economic conditions, the growth of our non-GM consumer and commercial automotive financing business, and favorable remarketing results, which reflected continued strength in the used vehicle market.

Consumer financing revenue (combined with interest income on consumer loans held-for-sale) increased 15% during the year ended December 31, 2010, primarily due to an increase in consumer loan origination volume as a result of improved economic conditions and increased volume from non-GM channels. Additionally, consumer asset levels increased due to the consolidation of consumer loans included in securitization transactions that were previously classified as off-balance sheet. Refer to Note 11 to the Consolidated Financial Statements for further information regarding the consolidation of these assets. The increase was partially offset by a change in the consumer asset mix including the runoff of the higher-yielding Nuvel nonprime automotive financing portfolio.

Table of Contents

Commercial revenue increased 25%, compared to the year ended December 31, 2009, primarily due to an increase in dealer wholesale funding driven by improved economic conditions, the growth of non-GM wholesale floorplan business, and the recognition of all wholesale funding transactions on-balance sheet in 2010 compared to certain transactions that were off-balance sheet in 2009.

Operating lease revenue (along with the related depreciation expense) decreased 12% for the year ended December 31, 2010, compared to 2009, primarily due to a decline in the size of our operating lease portfolio resulting from our decision in late 2008 to significantly curtail leasing. This decision was based on the significant decline in used vehicle prices that resulted in increasing residual losses during 2008 and an impairment of our lease portfolio. During the latter half of 2009, we selectively re-entered the U.S. leasing market with more targeted lease product offerings. As a result, runoff of the legacy portfolio exceeded new origination volume. The decrease in operating lease revenue was largely offset by an associated decline in depreciation expense, which was also favorably impacted by remarketing gains as a result of continued strength in the used vehicle market and higher remarketing volume.

Other interest income decreased 45% for the year ended December 31, 2010, compared to 2009, primarily due to a change in funding mix including lower levels of off-balance sheet securitizations.

Net gain on automotive loans increased 13% for the year ended December 31, 2010, compared to 2009. The increase was primarily related to higher levels of retail whole-loan sales in 2010, higher gains on the sale of loans during 2010, and unfavorable valuation adjustments taken during 2009 on the held-for-sale portfolio. The increase was partially offset by higher gains on the sale of wholesale receivables during 2009 as there were no off-balance sheet wholesale funding transactions during 2010.

Other income decreased 28% for the year ended December 31, 2010, compared to 2009. The decrease was primarily due to unfavorable swap mark-to-market activity related to the held-for-sale loan portfolio in 2010.

The provision for loan losses was \$286 million for the year ended December 31, 2010, compared to \$611 million in 2009. The decrease was primarily driven by the continued runoff of our Nuveel portfolio and improved loss performance in the consumer loan portfolio reflecting improved pricing in the used vehicle market and higher credit quality of more recent originations.

Noninterest expense decreased 13% for the year ended December 31, 2010, compared to 2009. The decrease was primarily due to lower compensation and benefits expense primarily related to lower employee headcount resulting from rightsizing the cost structure with business volumes along with further productivity improvements, unfavorable foreign-currency movements during the year ended December 31, 2009, and lower IT and professional services costs due to continued focus on cost reduction.

Table of Contents**International Automotive Finance Operations****Results of Operations**

The following table summarizes the operating results of our International Automotive Finance operations excluding discontinued operations for the periods shown. The amounts presented are before the elimination of balances and transactions with our other reportable segments and include eliminations of balances and transactions among our North American Automotive Finance operations and Insurance operations.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 | Favorable/ (unfavorable) 2011-2010 % change | Favorable/ (unfavorable) 2010-2009 % change |

n/m = not meaningful

(a) Represents consumer originations for continuing operations only.

Edgar Filing: Ally Financial Inc. - Form S-1/A

- (b) Includes vehicles financed through our joint venture GMAC-SAIC, which is recorded as other income. We own 40% of GMAC-SAIC alongside Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation LTD.

2011 Compared to 2010

Our International Automotive Finance operations earned income from continuing operations before income tax expense of \$210 million during the year ended December 31, 2011, compared to \$205 million during the year ended December 31, 2010. Results for 2011 were favorably impacted by movements in foreign-currency

Table of Contents

exchange rates on the consumer portfolio and strong consumer loan originations in Brazil, partially offset by an increase in compensation and benefits expense and an increase in provision for loan losses.

Total financing revenue and other interest income increased 11% for the year ended December 31, 2011, compared to 2010, primarily due to movements in foreign-currency exchange rates on the consumer portfolio and strong consumer loan originations.

Interest expense increased 19% for the year ended December 31, 2011, compared to 2010, primarily due to an increase in funding costs, movement in foreign-currency exchange rates, and growing asset balances in Brazil.

Net gain on automotive loans decreased \$21 million for the year ended December 31, 2011, compared to 2010. The decrease is attributable to the partial release of the lower-of-cost or market adjustments on loans held-for-sale in 2010.

Other income increased 9% for the year ended December 31, 2011, compared to 2010, primarily due to higher earnings from the China joint venture in 2011 driven by an increase in originations.

The provision for loan losses was \$65 million for the year ended December 31, 2011, compared to \$54 million in 2010. The increase is primarily due to an increase in specific commercial loan reserves during the first quarter of 2011, partially offset by favorable loss performance on the consumer portfolio in Europe.

Total noninterest expense decreased \$9 million for the year ended December 31, 2011, compared to 2010. The decrease was primarily due to lower other operating expenses resulting from a continued focus on streamlining operations. This decrease was offset primarily by unfavorable movements in foreign-currency exchange rates and an increase in headcount due to growth in certain countries, such as Brazil.

2010 Compared to 2009

Our International Automotive Finance operations earned income from continuing operations before income tax expense of \$205 million during the year ended December 31, 2010, compared to a loss from continuing operations before income tax expense of \$102 million during the year ended December 31, 2009. Results for 2010 were favorably impacted by lower provision for loan losses and lower restructuring charges on wind-down operations.

Total financing revenue and other interest income decreased 16% for the year ended December 31, 2010, compared to 2009, primarily due to decreases in consumer and commercial asset levels as the result of adverse business conditions in Europe and the runoff of wind-down portfolios.

Interest expense decreased 21% for the year ended December 31, 2010, compared to 2009, primarily due to reductions in borrowing levels consistent with a lower asset base.

Depreciation expense on operating lease assets decreased 44% for the year ended December 31, 2010, compared to 2009, primarily due to the continued runoff of the full-service leasing portfolio.

Net gain on automotive loans was \$21 million for the year ended December 31, 2010, compared to a net loss of \$76 million for the year ended December 31, 2009. The losses for the year ended December 31, 2009, were due primarily to lower-of-cost or market adjustments on certain loans held-for-sale in certain wind-down operations. The gains for the year ended December 31, 2010, were primarily due to the partial release of lower-of-cost or market adjustments on loans held-for-sale in wind-down operations due to improved market values.

Table of Contents

The provision for loan losses was \$54 million for the year ended December 31, 2010, compared to \$230 million in 2009. The decrease was primarily due to improved loss performance on the consumer portfolio reflecting higher origination quality in 2009 and 2010 and the improving financial position of our dealer customers in Europe.

Noninterest expense decreased 9% for the year ended December 31, 2010, compared to 2009. The decrease was primarily due to lower compensation and benefits expense primarily related to lower employee headcount resulting from restructuring activities, unfavorable foreign-currency movements during the year ended December 31, 2009, and lower IT and professional service costs due to continued focus on cost reduction.

Insurance***Premium and Service Revenue Written***

The following table shows premium and service revenue written by insurance product.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|---|-----------------|-----------------|-----------------|
| Vehicle service contracts | | | |
| New retail | \$ 375 | \$ 315 | \$ 281 |
| Used retail | 514 | 517 | 468 |
| Reinsurance | (103) | (91) | (84) |
| Total vehicle service contracts | 786 | 741 | 665 |
| Wholesale | 115 | 103 | 100 |
| Other finance and insurance (a) | 133 | 113 | 77 |
| North American operations | 1,034 | 957 | 842 |
| International operations (b) | 452 | 503 | 476 |
| Total | \$ 1,486 | \$ 1,460 | \$ 1,318 |

(a) Other finance and insurance includes GAP coverage, excess wear and tear, other ancillary products, and wind-down.

(b) International operations for the year ended December 31, 2010 and December 31, 2009 included \$67 million and \$126 million, respectively, of written premium from certain international insurance operations that were sold during the fourth quarter of 2010. Insurance premiums and service revenue written was \$1.5 billion, \$1.5 billion, and \$1.3 billion for the years ended December 31, 2011, 2010, and 2009, respectively. Vehicle service contract revenue is earned over the life of the service contract on a basis proportionate to the expected cost pattern. As such, the majority of earnings from vehicle service contracts written will be recognized as income in future periods. Insurance premiums and service revenue written increased each year primarily due to higher written premiums in our U.S. dealership-related products, particularly our vehicle service contract products.

Dealers who receive wholesale financing are eligible for wholesale insurance incentives, such as automatic eligibility and increase financial incentives within our rewards program.

Underwriting and Risk Management

In underwriting our vehicle service contracts and insurance policies, we assess the particular risk involved, including losses and loss adjustment expenses, and determine the acceptability of the risk as well as the categorization of the risk for appropriate pricing. We base our determination of the risk on various assumptions tailored to the respective insurance product. With respect to vehicle service contracts, assumptions include the quality of the vehicles produced, the price of replacement parts, repair labor rates in the future, and new model introductions.

Table of Contents

In some instances, ceded reinsurance is used to reduce the risk associated with volatile businesses, such as catastrophe risk in U.S. dealer vehicle inventory insurance or smaller businesses, such as Canadian automobile insurance. Our commercial products business is covered by traditional catastrophe protection, aggregate stop loss protection, and an extension of catastrophe coverage for hurricane events. In addition, loss control techniques, such as hail nets or storm path monitoring to assist dealers in preparing for severe weather, help to mitigate loss potential.

We mitigate losses by the active management of claim settlement activities using experienced claims personnel and the evaluation of current period reported claims. Losses for these events may be compared to prior claims experience, expected claims, or loss expenses from similar incidents to assess the reasonableness of incurred losses.

Cash and Investments

A significant aspect of our Insurance operations is the investment of proceeds from premiums and other revenue sources. We use these investments to satisfy our obligations related to future claims at the time these claims are settled. Our Insurance operations have an Investment Committee, which develops guidelines and strategies for these investments. The guidelines established by this committee reflect our risk tolerance, liquidity requirements, regulatory requirements, and rating agency considerations, among other factors.

The following table summarizes the composition of our Insurance operations cash and investment portfolio at fair value.

| December 31, (\$ in millions) | 2011 | 2010 |
|--------------------------------------|-------------|-------------|
| Cash | | |
| Noninterest-bearing cash | \$ 211 | \$ 28 |
| Interest-bearing cash | 629 | 1,168 |
| Total cash | 840 | 1,196 |
| Available-for-sale securities | | |
| Debt securities | | |
| U.S. Treasury and federal agencies | 496 | 219 |
| Foreign government | 678 | 744 |
| Mortgage-backed | 590 | 826 |
| Asset-backed | 95 | 11 |
| Corporate debt | 1,491 | 1,559 |
| Other debt | 23 | |
| Total debt securities | 3,373 | 3,359 |
| Equity securities | 1,054 | 796 |
| Total available-for-sale securities | 4,427 | 4,155 |
| Total cash and securities | \$ 5,267 | \$ 5,351 |

Loss Reserves

In accordance with industry and accounting practices and applicable insurance laws and regulatory requirements, we maintain reserves for reported losses, losses incurred but not reported, and loss adjustment expenses. Refer to the Critical Accounting Estimates section of this MD&A and Note 18 to the Consolidated Financial Statements for further discussion. The estimated values of our prior reported loss reserves and changes to the estimated values are routinely monitored by credentialed actuaries. Our reserve estimates are regularly reviewed by management; however, since the reserves are based on estimates and numerous assumptions, the ultimate liability may differ from the amount estimated.

Table of Contents**Results of Operations**

The following table summarizes the operating results of our Insurance operations excluding discontinued operations for the periods shown. The amounts presented are before the elimination of balances and transactions with our other operating segments.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 | Favorable/ (unfavorable) 2011-2010 % change | Favorable/ (unfavorable) 2010-2009 % change |
|--|-----------------|-----------------|------------------|--|--|
| Insurance premiums and other income | | | | | |
| Insurance premiums and service revenue earned | \$ 1,556 | \$ 1,721 | \$ 1,817 | (10) | (5) |
| Investment income | 252 | 444 | 255 | (43) | 74 |
| Other income | 59 | 75 | 72 | (21) | 4 |
| Total insurance premiums and other income | 1,867 | 2,240 | 2,144 | (17) | 4 |
| Expense | | | | | |
| Insurance losses and loss adjustment expenses | 682 | 784 | 825 | 13 | 5 |
| Acquisition and underwriting expense | | | | | |
| Compensation and benefits expense | 93 | 94 | 109 | 1 | 14 |
| Insurance commissions expense | 500 | 578 | 621 | 13 | 7 |
| Other expenses | 185 | 222 | 268 | 17 | 17 |
| Total acquisition and underwriting expense | 778 | 894 | 998 | 13 | 10 |
| Total expense | 1,460 | 1,678 | 1,823 | 13 | 8 |
| Income from continuing operations before income tax expense | \$ 407 | \$ 562 | \$ 321 | (28) | 75 |
| Total assets | \$ 8,036 | \$ 8,789 | \$ 10,614 | (9) | (17) |
| Insurance premiums and service revenue written | \$ 1,486 | \$ 1,460 | \$ 1,318 | 2 | 11 |
| Combined ratio (a) | 91.3% | 94.1% | 97.1% | | |

- (a) Management uses combined ratio as a primary measure of underwriting profitability with its components measured using accounting principles generally accepted in the United States of America. Underwriting profitability is indicated by a combined ratio under 100% and is calculated as the sum of all incurred losses and expenses (excluding interest and income tax expense) divided by the total of premiums and service revenues earned and other income.

2011 Compared to 2010

Our Insurance operations earned income from continuing operations before income tax expense of \$407 million for the year ended December 31, 2011, compared to \$562 million for the year ended December 31, 2010. The decrease was primarily attributable to lower realized investment gains.

Insurance premiums and service revenue earned was \$1.6 billion for the year ended December 31, 2011, compared to \$1.7 billion in 2010. The decrease was primarily due to the sale of certain international insurance operations during the fourth quarter of 2010 and lower earnings from our U.S. vehicle service contracts written between 2007 and 2009 due to lower domestic vehicle sales volume.

Investment income totaled \$252 million for the year ended December 31, 2011, compared to \$444 million in 2010. The decrease was primarily due to lower realized investment gains, as well as realizing other-than-temporary impairments of \$11 million during 2011.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Insurance losses and loss adjustment expenses totaled \$682 million for the year ended December 31, 2011, compared to \$784 million in 2010. The decrease was primarily due to lower frequency and severity experienced

Table of Contents

at our international business and the sale of certain international insurance operations during the fourth quarter of 2010, which was partially offset by higher weather-related losses in the United States on our dealer inventory insurance products.

Acquisition and underwriting expense decreased 13% for the year ended December 31, 2011, compared to 2010. The decrease was primarily due to the sale of certain international insurance operations during the fourth quarter of 2010 and lower commission expense in our U.S. dealership-related products matching our decrease in earned premiums.

2010 Compared to 2009

Our Insurance operations earned income from continuing operations before income tax expense of \$562 million for the year ended December 31, 2010, compared to \$321 million for the year ended December 31, 2009. The increase was primarily due to higher realized investment gains driven by overall market improvement and reduced expenses.

Insurance premiums and service revenue earned was \$1.7 billion for the year ended December 31, 2010, compared to \$1.8 billion in 2009. Insurance premiums and service revenue earned decreased primarily due to lower earnings from our U.S. vehicle service contracts due to a decrease in domestic written premiums related to lower vehicle sales volume from 2007 to 2009. The decrease was partially offset by increased volume in our international operations.

Investment income totaled \$444 million for the year ended December 31, 2010, compared to \$255 million in 2009. The increase was primarily due to higher realized investment gains driven by market repositioning. During the year ended December 31, 2009, we realized other-than-temporary impairments of \$55 million. The increase in investment income was also slightly offset by reductions in the average size of the investment portfolio throughout the year and a decrease in the average security investment yield. The fair value of the investment portfolio was \$4.2 billion and \$4.7 billion at December 31, 2010 and 2009, respectively.

Acquisition and underwriting expense decreased 10% for the year ended December 31, 2010, compared to 2009. The decrease was primarily due to lower expenses in our U.S. dealership-related products matching our decrease in earned premiums. The decrease was partially offset by increased expenses within our international operations to match the increase in earned premiums.

Mortgage

Our Mortgage operations include the ResCap legal entity and the mortgage operations of Ally Bank. Results from continuing operations for our Mortgage operations are presented by reportable segment, which includes our Origination and Servicing operations and our Legacy Portfolio and Other operations.

Loan Production

U.S. Mortgage Loan Production Channels

We have three primary channels for residential mortgage loan production: the purchase of loans in the secondary market (primarily from Ally Bank correspondent lenders), the origination of loans through our direct-lending network, and the origination of loans through our mortgage brokerage network.

Correspondent lender and secondary market purchases Loans purchased from correspondent lenders are originated or purchased by the correspondent lenders and subsequently sold to us. All of the purchases from correspondent lenders are conducted through Ally Bank. We qualify and approve any correspondent lenders who participate in the loan purchase programs.

Table of Contents

Direct-lending network Our direct-lending network consists of internet (including through the ditech.com brand) and telephone-based call center operations as well as our retail network. Virtually all of the residential mortgage loans of this channel are brokered to Ally Bank.

Mortgage brokerage network Residential mortgage loans originated through mortgage brokers. We review and underwrite the application submitted by the mortgage broker, approve or deny the application, set the interest rate and other terms of the loan and, upon acceptance by the borrower and the satisfaction of all conditions required by us, fund the loan through Ally Bank. We qualify and approve all mortgage brokers who generate mortgage loans and continually monitor their performance.

The following table summarizes domestic consumer mortgage loan production by channel for our Origination and Servicing operations.

| Year ended December 31, (\$ in millions) | 2011 | | 2010 | | 2009 | |

Mortgage Loan Production by Type

Consistent with our focus on GSE loan products, we primarily originate prime conforming and government-insured residential mortgage loans. We define prime as mortgage loans with a FICO score of 660 and above. In addition, we originate and purchase high-quality nonconforming jumbo loans, mostly from correspondent lenders, for the Ally Bank held-for-investment portfolio. Our mortgage loans are categorized as follows.

Prime conforming mortgage loans Prime credit quality first-lien mortgage loans secured by 1-4 family residential properties that meet or conform to the underwriting standards established by the GSEs for inclusion in their guaranteed mortgage securities programs.

Prime nonconforming mortgage loans Prime credit quality first-lien mortgage loans secured by 1-4 family residential properties that either (1) do not conform to the underwriting standards established by the GSEs because they had original principal amounts exceeding GSE limits, which are commonly referred to as jumbo mortgage loans, or (2) have alternative documentation requirements

Edgar Filing: Ally Financial Inc. - Form S-1/A

and property or credit-related features (e.g., higher loan-to-value or debt-to-income ratios) but are otherwise considered prime credit quality due to other compensating factors.

Table of Contents

Prime second-lien mortgage loans Open- and closed-end mortgage loans secured by a second or more junior-lien on single-family residences, which include home equity mortgage loans and lines of credit. We ceased originating prime second-lien mortgage loans during 2008.

Government mortgage loans First-lien mortgage loans secured by 1-4 family residential properties that are insured by the Federal Housing Administration or guaranteed by the Veterans Administration.

Nonprime mortgage loans First-lien and certain junior-lien mortgage loans secured by single-family residences made to individuals with credit profiles that do not qualify for a prime loan, have credit-related features that fall outside the parameters of traditional prime mortgage products, or have performance characteristics that otherwise exposes us to comparatively higher risk of loss. Nonprime includes mortgage loans the industry characterizes as subprime, as well as high combined loan-to-value second-lien loans that fell out of our standard loan programs due to noncompliance with one or more criteria. We ceased originating nonprime mortgage loans during 2007.

The following table summarizes consumer mortgage loan production by type for our Origination and Servicing operations.

| Year ended December 31, (\$ in millions) | 2011 | | 2010 | | 2009 | |
|--|-----------------|------------------------|-----------------|------------------------|-----------------|------------------------|
| | Number of loans | Dollar amount of loans | Number of loans | Dollar amount of loans | Number of loans | Dollar amount of loans |
| Prime conforming | 209,031 | \$ 47,511 | 228,936 | \$ 53,721 | 164,780 | \$ 37,651 |

U.S. Warehouse Lending

We are a provider of warehouse-lending facilities to correspondent lenders and other mortgage originators in the United States. These facilities enable lenders and originators to finance residential mortgage loans until they are sold in the secondary mortgage loan market. We provide warehouse-lending facilities principally for prime conforming and government mortgage loans. We have continued to refine our warehouse-lending portfolio, offering such lending only to current Ally Bank correspondent clients. Advances under warehouse-lending facilities are collateralized by the underlying mortgage loans and bear interest at variable rates. At December 31, 2011, we had total warehouse line of credit commitments of \$2.8 billion, against which we had \$1.9 billion of advances outstanding. We also have \$24 million of warehouse-lending receivables outstanding related to other offerings at December 31, 2011. We purchased approximately 35% of the mortgage loans financed by our warehouse-lending facilities in 2011.

Table of Contents**Loans Outstanding**

Consumer mortgage loans held-for-sale for our Origination and Servicing operations were as follows.

| December 31, (\$ in millions) | 2011 | 2010 |
|--|-----------------|-----------------|
| Prime conforming | \$ 3,034 | \$ 5,585 |
| Prime nonconforming | | |

| Lower-of-cost or fair value adjustment | (55) | (46) |
| Total, net (b) | \$ 1,642 | \$ 2,323 |

Table of Contents

- (a) Includes unpaid principal balance write-downs of \$1.5 billion and \$1.8 billion at December 31, 2011 and 2010, respectively. The amounts are for write-downs taken upon the transfer of mortgage loans from held-for-investment to held-for-sale during the fourth quarter of 2009 and charge-offs taken in accordance with our charge-off policy.
- (b) Includes loans subject to conditional repurchase options of \$106 million and \$146 million sold to off-balance sheet private-label securitizations at December 31, 2011 and 2010, respectively. The corresponding liability is recorded in accrued expenses and other liabilities on the Consolidated Balance Sheet.

Consumer mortgage loans held-for-investment for our Legacy Portfolio and Other operations were as follows.

| December 31, (\$ in millions) | 2011 | 2010 |
|---------------------------------------|-----------------|-----------------|
| Prime conforming | \$ 278 | \$ 323 |
| Prime nonconforming | 5,254 | 6,059 |
| Prime second-lien | 2,200 | 2,642 |
| Government | | |
| Nonprime | 1,349 | 1,583 |
| International | 422 | 862 |
| Total | 9,503 | 11,469 |
| Net premiums | 18 | 26 |
| Fair value option election adjustment | (1,601) | (1,890) |
| Allowance for loan losses | (479) | (543) |
| Total, net (a) | \$ 7,441 | \$ 9,062 |

- (a) At December 31, 2011 and 2010, the carrying value of mortgage loans held-for-investment relating to securitization transactions accounted for as on-balance sheet securitizations and pledged as collateral totaled \$837 million and \$1.0 billion, respectively. The investors in these on-balance sheet securitizations have no recourse to our other assets beyond the loans pledged as collateral other than market customary representation and warranty provisions.

Mortgage Loan Servicing

While we sell most of the residential mortgage loans we originate or purchase, we generally retain the rights to service these loans. The retained mortgage servicing rights consist of primary and master-servicing rights. When we act as primary servicer, we collect and remit mortgage loan payments, respond to borrower inquiries, account for principal and interest, hold custodial and escrow funds for payment of property taxes and insurance premiums, counsel or otherwise work with delinquent borrowers, supervise foreclosures and property dispositions, and generally administer the loans. When we act as master servicer, we collect mortgage loan payments from primary servicers and distribute those funds to investors in mortgage-backed and mortgage-related asset-backed securities and whole-loan packages. Key services in this regard include loan accounting, claims administration, oversight of primary servicers, loss mitigation, bond administration, cash flow waterfall calculations, investor reporting, and tax-reporting compliance. In return for performing primary and master-servicing functions, we receive servicing fees equal to a specified percentage of the outstanding principal balance of the loans being serviced and may also be entitled to other forms of servicing compensation, such as late payment fees or prepayment penalties. Servicing compensation also includes interest income or the float earned on collections that are deposited in various custodial accounts between their receipt and the scheduled/contractual distribution of the funds to investors. Refer to Note 12 to the Consolidated Financial Statements for additional information.

Table of Contents

The value of mortgage servicing rights is sensitive to changes in interest rates and other factors. We have developed and implemented an economic hedge program to, among other things, mitigate the overall risk of loss due to a change in the fair value of our mortgage servicing rights. Accordingly, we hedge the change in the total fair value of our mortgage servicing rights. The effectiveness of this economic hedging program may have a material effect on the results of operations. Refer to the Critical Accounting Estimates section of this MD&A and Note 24 to the Consolidated Financial Statements for further discussion.

The following table summarizes our primary consumer mortgage loan-servicing portfolio by product category.

| December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|---|-------------|-------------|-------------|
| U.S. primary servicing portfolio | | | |
| Prime conforming | \$ 226,239 | \$ 220,762 | \$ 210,914 |
| Prime nonconforming | 47,767 | 52,643 | 58,103 |
| Prime second-lien | 6,871 | 10,851 | 14,729 |
| Government | 49,027 | 48,550 | 40,230 |
| Nonprime | 20,753 | 22,874 | 25,837 |
| International primary servicing portfolio | 5,773 | 5,087 | 25,941 |
| Total primary servicing portfolio (a) | \$ 356,430 | \$ 360,767 | \$ 375,754 |

(a) Excludes loans for which we acted as a subservicer. Subserviced loans totaled \$26.4 billion, \$24.2 billion, and \$28.7 billion at December 31, 2011, 2010, and 2009, respectively.

Mortgage Foreclosure Matters

Refer to Note 31 to the Consolidated Financial Statements for information related to these matters.

Table of Contents**Origination and Servicing Operations****Results of Operations**

The following table summarizes the operating results for our Origination and Servicing operations for the periods shown. Our Origination and Servicing operations principal activities include originating, purchasing, selling, and securitizing conforming and government-insured residential mortgage loans in the United States; servicing residential mortgage loans for ourselves and others; and providing collateralized lines of credit to other mortgage originators, which we refer to as warehouse lending. We also originate high-quality prime jumbo mortgage loans in the United States. We finance our mortgage loan originations primarily in Ally Bank.

| Total assets | \$ 23,016 | \$ 23,681 | \$ 17,914 | (3) | 32 |

n/m = not meaningful

2011 Compared to 2010

Our Origination and Servicing operations incurred a loss before income tax expense of \$347 million for the year ended December 31, 2011, compared to income before income tax expense of \$920 million for the year ended December 31, 2010. The decrease was primarily driven by unfavorable servicing asset valuation, net of hedge, lower net gains on the sale of mortgage loans, and a \$230 million expense related to penalties imposed by certain regulators and other governmental agencies in connection with mortgage foreclosure-related matters.

Net financing loss was \$25 million for the year ended December 31, 2011, compared to net financing revenue of \$35 million in 2010. The loss was primarily due to higher funding costs and slightly unfavorable net financing revenue on Ginnie Mae repurchases.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Total servicing income, net was \$414 million for the year ended December 31, 2011, compared to \$876 million in 2010. The decrease was primarily due to a drop in interest rates and increased market volatility

Table of Contents

compared to favorable valuation adjustments in 2010. Additionally, 2011 includes a valuation adjustment that estimates the impact of higher servicing costs related to enhanced foreclosure procedures, establishment of single point of contact, and other processes to comply with the Consent Order.

The net gain on mortgage loans was \$297 million for the year ended December 31, 2011, compared to \$607 million in 2010. The decrease during 2011 was primarily due to lower margins and production.

Total noninterest expense increased 45% for the year ended December 31, 2011, compared to 2010. The increase was primarily due to a \$230 million expense related to penalties imposed by certain regulators and other governmental agencies in connection with mortgage foreclosure-related matters, higher loan processing and underwriting fees, and an increase in compensation and benefits expense due to an increase in headcount related to expansion activities in our broker, retail, and servicing operations.

2010 Compared to 2009

Our Origination and Servicing operations earned income before income tax expense of \$920 million for the year ended December 31, 2010, compared to \$43 million for the year ended December 31, 2009. The 2010 results were primarily driven by strong production and margins as a result of increased refinancings, higher net servicing income, lower provision for loan losses, and lower noninterest expense.

Net financing revenue was \$35 million for the year ended December 31, 2010, compared to \$18 million in 2009. During 2010, net financing revenue was favorably impacted by an increase in interest income primarily due to an increase in the average balance driven by an increase in our jumbo mortgage loan originations, which we resumed originating in the middle part of 2009, and a larger average loans held-for-sale portfolio due to an increase in production. Partially offsetting the increase was higher interest expense driven primarily by higher borrowings due to increased production and higher cost of funds.

Total servicing income, net was \$876 million for the year ended December 31, 2010, compared to \$127 million in 2009. The increase was primarily due to projected cash flow improvements related to slower prepayment speeds as well as higher HAMP loss mitigation incentive fees compared to prior year unfavorable hedge performance with respect to mortgage servicing rights.

The net gain on mortgage loans was \$607 million for the year ended December 31, 2010, compared to \$695 million in 2009. The decrease was primarily due to unfavorable mark-to-market movement on the mortgage pipeline and a favorable mark-to-market taken in 2009 on released lower-of-cost or market adjustments related to implementation of fair value accounting on the held-for-sale portfolio.

Other income, net of losses, increased 88% for the year ended December 31, 2010, compared to 2009, primarily due to favorable mortgage processing fees related to the absence of loan origination income deferral in 2010 due to the fair value option election for our held-for-sale loans during the third quarter of 2009.

Total noninterest expense decreased 1% for the year ended December 31, 2010, compared to 2009. The decrease was primarily driven by lower representation and warranty expense, a decrease in compensation and benefits expense related to lower headcount, and a decrease in professional services expense.

Legacy Portfolio and Other Operations

Results of Operations

The following table summarizes the operating results for our Legacy Portfolio and Other operations excluding discontinued operations for the periods shown. Our Legacy Portfolio and Other operations primarily consists of loans originated prior to January 1, 2009, and includes noncore business activities, portfolios in

Table of Contents

runoff, and cash held in the ResCap legal entity. These activities include, among other things: lending to real estate developers and homebuilders in the United States and United Kingdom; purchasing, selling and securitizing nonconforming residential mortgage loans (with the exception of U.S. prime jumbo mortgage loans) in both the United States and internationally; certain conforming origination channels closed in 2008; and our mortgage reinsurance business.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 | Favorable/ (unfavorable) 2011-2010 % change | Favorable/ (unfavorable) 2010-2009 % change |

| Total assets | \$ 10,890 | \$ 13,105 | \$ 20,980 | (17) | (38) |

n/m = not meaningful

2011 Compared to 2010

Our Legacy Portfolio and Other operations incurred a loss from continuing operations before income tax expense of \$402 million for the year ended December 31, 2011, compared to a loss from continuing operations before income tax expense of \$267 million for the year ended December 31, 2010. The increase in the loss during 2011 was primarily due to lower financing revenue related to a decrease in asset levels and a lower net gain on the sale of mortgage loans, partially offset by lower representation and warranty expense.

Net financing revenue was \$284 million for the year ended December 31, 2011, compared to \$605 million in 2010. The decrease was driven by lower financing revenue and other interest income due primarily to a decline in average asset levels due to loan sales, the deconsolidation of previously on-balance sheet securitizations, and portfolio runoff. The decrease was partially offset by lower interest expense related to a reduction in average borrowings commensurate with a smaller asset base.

Edgar Filing: Ally Financial Inc. - Form S-1/A

The net gain on mortgage loans was \$97 million for the year ended December 31, 2011, compared to \$383 million in 2010. The decrease during 2011 was primarily due to lower whole-loan sales, lower gains on mortgage loan resolutions, and the absence of the 2010 gain on the deconsolidation of an on-balance sheet securitization. Refer to Note 11 to the Consolidated Financial Statements for information on the deconsolidation.

Table of Contents

The provision for loan losses was \$149 million for the year ended December 31, 2011, compared to \$173 million in 2010. The decrease in the provision reflected improved credit performance and liquidation of the legacy mortgage portfolio.

Total noninterest expense decreased 44% for the year ended December 31, 2011, compared to 2010. The decrease was primarily driven by lower representation and warranty expense in 2011 as 2010 included a significant increase in expense to cover anticipated repurchase requests and settlements with key counterparties.

2010 Compared to 2009

Our Legacy Portfolio and Other operations incurred a loss from continuing operations before income tax expense of \$267 million for the year ended December 31, 2010, compared to \$6.3 billion for the year ended December 31, 2009. The 2010 results from continuing operations were primarily driven by the stabilization of our loan portfolio resulting in a decrease in provision for loan losses, lower representation and warranty expense, and gains on the sale of domestic legacy assets.

Net financing revenue was \$605 million for the year ended December 31, 2010, compared to \$632 million in 2009. The decrease was driven by lower financing revenue and other interest income due primarily to a decline in average asset levels due to loan sales, on-balance deconsolidations, and portfolio runoff. The decrease was partially offset by lower interest expense related to a reduction in average borrowings commensurate with a smaller asset base.

The net gain on mortgage loans was \$383 million for the year ended December 31, 2010, compared to a loss of \$40 million in 2009. The increase was primarily due to higher gains on loan sales in 2010 compared to 2009, higher gains on loan resolutions in 2010, and the recognition of a gain on the deconsolidation of an on-balance sheet securitization. Refer to Note 11 to the Consolidated Financial Statements for information on the deconsolidation.

Other income, net of losses, was a loss of \$115 million for the year ended December 31, 2010, compared to a loss of \$647 million in 2009. The improvement from 2009 was primarily related to the recognition of gains on the sale of foreclosed real estate in 2010 compared to losses and impairments in 2009 and impairments and higher losses on trading securities in 2009. Additionally, during the year ended December 31, 2009, we recognized significant impairments on equity investments, lot option projects, and model homes.

The provision for loan losses was \$173 million for the year ended December 31, 2010, compared to \$4.2 billion in 2009. The provision decreased \$4.1 billion due to the improved asset mix as a result of the strategic actions taken during the fourth quarter of 2009 to write down and reclassify certain legacy mortgage loans from held-for-investment to held-for-sale. Additionally, the higher provision in 2009 was driven by significant increases in delinquencies and severity in our domestic mortgage loan portfolio and higher reserves were recognized against our commercial real estate-lending portfolio.

Total noninterest expense decreased 53% for the year ended December 31, 2010, compared to 2009. The decrease was driven by lower representation and warranty expense related to an increase in reserve in 2009 related to higher repurchase demands and loss severity. The decrease was also impacted by a decrease in compensation and benefits expense related to lower headcount and a decrease in professional services expense related to cost reduction efforts. During 2009, our captive reinsurance portfolio experienced deterioration due to higher delinquencies, which drove higher insurance reserves. The decrease in 2010 was partially offset by unfavorable foreign-currency movements on hedge positions.

Table of Contents**Corporate and Other**

The following table summarizes the activities of Corporate and Other excluding discontinued operations for the periods shown. Corporate and Other primarily consists of our centralized corporate treasury and deposit gathering activities, such as management of the cash and corporate investment securities portfolios, short- and long-term debt, retail and brokered deposit liabilities, derivative instruments, the amortization of the discount associated with new debt issuances and bond exchanges, most notably from the December 2008 bond exchange, and the residual impacts of our corporate funds-transfer pricing and treasury ALM activities. Corporate and Other also includes our Commercial Finance Group, certain equity investments, and reclassifications and eliminations between the reportable operating segments.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 | Favorable/ (unfavorable) 2011-2010 % change | Favorable/ (unfavorable) 2010-2009 % change |

The following table summarizes the components of net financing losses for Corporate and Other.

| At and for the year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|---|----------|------------|------------|
| Original issue discount amortization | | | |
| 2008 bond exchange amortization | \$ (886) | \$ (1,158) | \$ (1,108) |
| Other debt issuance discount amortization | (39) | (46) | (35) |

Edgar Filing: Ally Financial Inc. - Form S-1/A

| | | | |
|--|------------|------------|------------|
| Total original issue discount amortization (a) | (925) | (1,204) | (1,143) |
| Net impact of the funds transfer pricing methodology | | | |
| Cost of liquidity | (708) | (617) | (655) |
| Funds-transfer pricing / cost of funds mismatch | (342) | (391) | (672) |
| Benefit (cost) of net non-earning assets | 186 | 8 | (110) |
| Total net impact of the funds transfer pricing methodology | (864) | (1,000) | (1,437) |
| Other (including Commercial Finance Group net financing revenue) | 95 | 105 | 120 |
| Total net financing losses for Corporate and Other | \$ (1,694) | \$ (2,099) | \$ (2,460) |
| Outstanding original issue discount balance | \$ 2,194 | \$ 3,169 | \$ 4,373 |

(a) Amortization is included as interest on long-term debt in the Consolidated Statement of Income.

Table of Contents

The following table presents the scheduled amortization of the original issue discount.

| Year ended December 31, (\$ in millions) | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 and thereafter (a) | Total |
|--|----------|----------|----------|----------|----------|-------------------------|----------|
| Original issue discount | | | | | | | |
| Outstanding balance | \$ 1,844 | \$ 1,581 | \$ 1,391 | \$ 1,334 | \$ 1,272 | \$ | |
| Total amortization (b) | 350 | 263 | 190 | 57 | 62 | 1,272 | \$ 2,194 |
| 2008 bond exchange amortization (c) | 320 | 241 | 166 | 43 | 53 | 1,125 | 1,948 |

(a) The maximum annual scheduled amortization for any individual year is \$158 million in 2030 of which \$152 million is related to 2008 bond exchange amortization.

(b) The amortization is included as interest on long-term debt in the Consolidated Statement of Income.

(c) 2008 bond exchange amortization is included in total amortization.

2011 Compared to 2010

Loss from continuing operations before income tax expense for Corporate and Other was \$1.9 billion for the year ended December 31, 2011, compared to \$2.6 billion for the year ended December 31, 2010. Corporate and Other's loss from continuing operations before income tax expense for both periods is driven by net financing losses, which primarily represents original issue discount amortization expense and the net impact of our FTP methodology, which includes the unallocated cost of maintaining our liquidity and investment portfolios and other unassigned funding costs and unassigned equity.

The improvement in the loss from continuing operations before income tax expense for the year ended December 31, 2011, was primarily due to a decrease in original issue discount amortization expense related to bond maturities and normal monthly amortization and favorable net impact of the FTP methodology. The net FTP methodology improvement was primarily the result of favorable unallocated interest costs due to lower non-earning assets and unamortized original issue discount balance. Additionally, 2011 was favorably impacted by a \$121 million gain on the early settlement of a loss holdback provision related to certain historical automotive whole-loan forward flow agreements, a reduction in debt fees driven by the restructuring of our secured facilities and the termination of our automotive forward flow agreements, and by a lower loss on the extinguishment of certain Ally debt (which included accelerated amortization of original issue discount of \$50 million for the year ended December 31, 2011, compared to \$101 million in 2010).

Corporate and Other also includes the results of our Commercial Finance Group. Our Commercial Finance Group earned income from continuing operations before income tax expense of \$186 million for the year ended December 31, 2011, compared to \$177 million for the year ended December 31, 2010. The increase was primarily due to improved efficiencies, continued improvement in portfolio credit quality, and recoveries on previously charged-off accounts. This increase was partially offset by lower commercial revenue primarily due to lower asset levels.

2010 Compared to 2009

Loss from continuing operations before income tax expense for Corporate and Other was \$2.6 billion for the year ended December 31, 2010, compared to \$2.5 billion for the year ended December 31, 2009. The losses in 2010 and 2009 were driven by \$1.2 billion and \$1.1 billion of original issue discount amortization expenses primarily related to our 2008 bond exchange and the net impact of our FTP methodology. The unfavorable results for 2010 were also impacted by net derivative activity, higher marketing expenses, and higher FDIC fees. Additionally, we recognized a \$123 million loss related to the extinguishment of certain Ally debt, which includes \$101 million of accelerated amortization of original issue discount compared to a \$661 million gain in the prior year. Partially offsetting the unfavorable results were lower professional and legal fees.

Table of Contents

Our Commercial Finance Group earned income from continuing operations before income tax expense of \$177 million for the year ended December 31, 2010, compared to a net loss from continuing operations before income tax expense of \$537 million for the year ended December 31, 2009. The increase in income was primarily due to significant provision for loan losses in 2009. The \$533 million decrease in provision expense from 2009 was driven by lower specific reserves in both the resort finance portfolio and in our European operations. In addition, we recognized a recovery in 2010 from the sale of the resort finance portfolio. Additionally, the favorable variance was impacted by the absence of an \$87 million fair value impairment recognized upon transfer of the resort finance portfolio from held-for-sale to held-for-investment during 2009 and lower interest expense related to a reduction in borrowing levels consistent with a lower asset base.

Cash and Securities

The following table summarizes the composition of the cash and securities portfolio held at fair value by Corporate and Other.

| December 31, (\$ in millions) | 2011 | 2010 |
|--|------------------|------------------|
| Cash | | |
| Noninterest-bearing cash | \$ 1,768 | \$ 1,637 |
| Interest-bearing cash | 9,781 | 7,964 |
| Total cash | 11,549 | 9,601 |
| Trading assets | | |
| U.S. Treasury | | 75 |
| Mortgage-backed | 589 | 25 |
| Asset-backed | | 93 |
| Total trading assets | 589 | 193 |
| Available-for-sale securities | | |
| Debt securities | | |
| U.S. Treasury and federal agencies | 1,051 | 3,097 |
| States and political subdivisions | 1 | 2 |
| Foreign government | 106 | 499 |
| Mortgage-backed | 6,722 | 4,973 |
| Asset-backed | 2,520 | 1,936 |
| Corporate debt | | |
| Other debt (a) | 305 | 151 |
| Total debt securities | 10,705 | 10,658 |
| Equity securities | 4 | |
| Total available-for-sale securities | 10,709 | 10,658 |
| Total cash and securities | \$ 22,847 | \$ 20,452 |

(a) Includes intersegment eliminations.

Risk Management

Managing the risk to reward trade-off is a fundamental component of operating our businesses. Our risk management process is overseen by the Ally Board of Directors (the Board), various risk committees, and the executive leadership team. The Board sets the risk appetite across our company while the risk committees and executive leadership team identify and monitor potential risks and manage the risk to be within our risk appetite. Ally's primary risks include credit, market, lease residual, operational, liquidity, country and legal and compliance risk.

Credit risk The risk of loss arising from a borrower not meeting its financial obligations to our firm.

Table of Contents

Market risk The risk of loss arising from changes in the fair value of our assets or liabilities (including derivatives) caused by movements in market variables, such as interest rates, foreign-exchange rates, and equity and commodity prices.

Lease Residual risk The risk of loss arising from the possibility that the actual proceeds realized upon the sale of returned vehicles will be lower than the projection of the values used in establishing the pricing at lease inception.

Operational risk The risk of loss arising from inadequate or failed processes or systems, human factors, or external events.

Liquidity risk The risk that our financial condition or overall safety and soundness is adversely affected by an inability, or perceived inability, to meet our financial obligations, and to withstand unforeseen liquidity stress events (see Liquidity Management, Funding, and Regulatory Capital discussion within this MD&A).

Country risk The risk that economic, social and political conditions, and events in foreign countries will adversely affect our financial interests.

Legal and compliance risk The risk of legal or regulatory sanctions, financial loss, or damage to reputation resulting from failure to comply with laws, regulations, rules, other regulatory requirements, or codes of conduct and other standards of self-regulatory organizations.

While risk oversight is ultimately the responsibility of the Board, our governance structure starts within each line of business where committees are established to oversee risk in their respective areas. The lines of business are responsible for executing on risk strategies, policies, and controls that are compliant with global risk management policies and with applicable laws and regulations. The line of business risk committees, which report up to the Risk and Compliance Committee, a subcommittee of the Board, monitor the performance within each portfolio and determine whether to amend any risk practices based upon portfolio trends.

In addition, the Global Risk Management and Compliance organizations are accountable for independently monitoring, measuring, and reporting on our various risks. They are also responsible for monitoring that our risks remain within the tolerances established by the Board, developing and maintaining policies, and implementing risk management methodologies.

All lines of business and global functions are subject to full and unrestricted audits by Corporate Audit. Corporate Audit reports to the Ally Audit Committee and is primarily responsible for assisting the Audit Committee in fulfilling its governance and oversight responsibilities. Corporate Audit is granted free and unrestricted access to any and all of our records, physical properties, technologies, management, and employees.

In addition, our Global Loan Review Group provides an independent assessment of the quality of Ally's credit risk portfolios and credit risk management practices. This group reports its findings directly to the Risk and Compliance Committee. The findings of this group help to strengthen our risk management practices and processes throughout the organization.

Table of Contents**Loan and Lease Exposure**

The following table summarizes the exposures from our loan and lease activities.

| December 31, (\$ in millions) | 2011 | 2010 |
|--|-------------------|-------------------|
| Finance receivables and loans | | |
| Global Automotive Services | \$ 100,734 | \$ 86,888 |
| Mortgage operations | 12,753 | 13,423 |
| Corporate and Other | 1,268 | 2,102 |
| Total finance receivables and loans | 114,755 | 102,413 |
| Held-for-sale loans | | |
| Global Automotive Services | 425 | |
| Mortgage operations | 8,112 | 11,411 |
| Corporate and Other | 20 | |
| Total held-for-sale loans | 8,557 | 11,411 |
| Total on-balance sheet loans | \$ 123,312 | \$ 113,824 |
| Off-balance sheet securitized loans | | |
| Global Automotive Services | \$ | \$ |
| Mortgage operations | 326,975 | 326,830 |
| Corporate and Other | | |
| Total off-balance sheet securitized loans | \$ 326,975 | \$ 326,830 |
| Operating lease assets | | |
| Global Automotive Services | \$ 9,275 | \$ 9,128 |
| Mortgage operations | | |
| Corporate and Other | | |
| Total operating lease assets | \$ 9,275 | \$ 9,128 |
| Serviced loans and leases | | |
| Global Automotive Services | \$ 122,881 | \$ 114,379 |
| Mortgage operations (a) | 356,430 | 360,767 |
| Corporate and Other | 1,762 | 2,448 |
| Total serviced loans and leases | \$ 481,073 | \$ 477,594 |

(a) Includes primary mortgage loan-servicing portfolio only.

The risks inherent in our loan and lease exposures are largely driven by changes in the overall economy, used vehicle pricing, unemployment levels, and its impact to our borrowers. The potential financial statement impact of these exposures varies depending on the accounting classification and future expected disposition strategy. We retain the majority of our automobile loans as they complement our core business model. We primarily originate mortgage loans with the intent to sell them and, as such, retain only a small percentage of the loans that we originate or purchase. Loans that we do not intend to retain are sold to investors, primarily securitizations guaranteed by GSEs. However, we may retain an interest or right to service these loans. We ultimately manage the associated risks based on the underlying economics of the exposure.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Finance receivables and loans Loans that we have the intent and ability to hold for the foreseeable future or until maturity or loans associated with an on-balance sheet securitization classified as secured financing. These loans are recorded at the principal amount outstanding, net of unearned income and premiums and discounts. Probable credit-related losses inherent in our finance receivables and loans carried at historical cost are reflected in our allowance for loan losses and recognized in current period earnings. We manage the economic risks of these exposures, including credit risk, by adjusting underwriting standards and risk limits, augmenting our servicing and collection activities (including loan modifications and restructurings), and optimizing our product and geographic concentrations. Additionally, we have elected to carry certain mortgage loans at fair value. Changes in the fair value of

Table of Contents

these loans are recognized in a valuation allowance separate from the allowance for loan losses and are reflected in current period earnings. We use market-based instruments, such as derivatives, to hedge changes in the fair value of these loans. Refer to the Critical Accounting Estimates discussion within this MD&A and Note 1 to the Consolidated Financial Statements for further information.

Held-for-sale loans Loans that we have the intent to sell. These loans are recorded on our balance sheet at the lower of cost or estimated fair value and are evaluated by portfolio and product type. Changes in the recorded value are recognized in a valuation allowance and reflected in current period earnings. We manage the economic risks of these exposures, including market and credit risks, in various ways including the use of market-based instruments such as derivatives. Refer to the Critical Accounting Estimates discussion within this MD&A and Note 1 to the Consolidated Financial Statements for further information.

Off-balance sheet securitized loans Loans that we transferred off-balance sheet to nonconsolidated variable interest entities. We primarily report this exposure as cash, servicing rights, or retain interests (if applicable). Similar to finance receivables and loans, we manage the economic risks of these exposures, including credit risk, through activities including servicing and collections. Refer to the Critical Accounting Estimates discussion within this MD&A and Note 1 to the Consolidated Financial Statements for further information.

Operating lease assets The net book value of the automobile assets we leased are based on the expected residual value upon remarketing the vehicle at the end of the lease. An impairment to the carrying value of the assets may be deemed necessary if there is an unfavorable and unrecoverable change in the value of the recorded asset. We are exposed to fluctuations in the expected residual value upon remarketing the vehicle at the end of the lease, and as such, we manage the risks of these exposures at inception by setting minimum lease standards for projected residual values. A valuation allowance is recorded directly against the lease rent receivable balance which is a component of Other Assets. Refer to the Critical Accounting Estimates discussion within this MD&A and Note 1 to the Consolidated Financial Statements for further information.

Serviced loans and leases Loans that we service on behalf of our customers or another financial institution. As such, these loans can be on or off our balance sheet. For our mortgage servicing rights, we record an asset or liability (at fair value) based on whether the expected servicing benefits will exceed the expected servicing costs. Changes in the fair value of the mortgage servicing rights are recognized in current period earnings. We also service consumer automobile loans. We do not record servicing rights assets or liabilities for these loans because we either receive a fee that adequately compensates us for the servicing costs or because the loan is of a short-term revolving nature. We manage the economic risks of these exposures, including market and credit risks, through market-based instruments such as derivatives and securities. Refer to the Critical Accounting Estimates discussion within this MD&A and Note 1 to the Consolidated Financial Statements for further information.

Credit Risk Management

Credit risk is defined as the potential failure to receive payments when due from a borrower in accordance with contractual obligations. Therefore, credit risk is a major source of potential economic loss to us. To mitigate the risk, we have implemented specific processes across all lines of business utilizing both qualitative and quantitative analyses. Credit risk management is overseen through our risk committee structure and by the Risk organization, which reports to the Ally Risk and Compliance Committee. Together they establish the minimum standards for managing credit risk exposures in a safe-and-sound manner by identifying, measuring, monitoring, and controlling the risks while also permitting acceptable variations for a specific line of business with proper approval. In addition, our Global Loan Review Group provides an independent assessment of the quality of our credit risk portfolios and credit risk management practices.

Table of Contents

We have policies and practices that are committed to maintaining an independent and ongoing assessment of credit risk and quality. Our policies require an objective and timely assessment of the overall quality of the consumer and commercial loan and lease portfolios. This includes the identification of relevant trends that affect the collectability of the portfolios, segments of the portfolios that are potential problem areas, loans and leases with potential credit weaknesses, and assessment of the adequacy of internal credit risk policies and procedures to monitor compliance with relevant laws and regulations. In addition, we maintain limits and underwriting guidelines that reflect our risk appetite.

We manage credit risk based on the risk profile of the borrower, the source of repayment, the underlying collateral, and current market conditions. Our business is primarily focused on consumer automobile loans and leases and mortgage loans in addition to automobile-related commercial lending. We monitor the credit risk profile of individual borrowers and the aggregate portfolio of borrowers either within a designated geographic region or a particular product or industry segment. To mitigate risk concentrations, we may take part in loan sales and syndications.

Additionally, we have implemented numerous initiatives in an effort to mitigate loss and provide ongoing support to customers in financial distress. For automobile loans, we offer several types of assistance to aid our customers. Loss mitigation includes changing the due date, extending payments, and rewriting the loan terms. We have implemented these actions with the intent to provide the borrower with additional options in lieu of repossessing their vehicle.

For mortgage loans, as part of our participation in certain governmental programs, we offer mortgage loan modifications to qualified borrowers. We have also implemented periodic foreclosure moratoriums that are designed to provide borrowers with extra time to sort out their financial difficulties while allowing them to stay in their homes.

During 2011, the United States financial markets experienced some improvement; however, high unemployment and the distress in the housing market persisted, creating uncertainty for the financial services sector as a whole. During the financial crisis, we saw both the housing and vehicle markets significantly decline, affecting the credit quality for both our consumer and commercial portfolios. However, we have seen signs of economic stabilization in some housing, vehicle, and manufacturing markets and have also seen improvement in our loan portfolio as a result of our proactive credit risk initiatives.

On-balance Sheet Loan Portfolio

Our on-balance sheet portfolio includes both finance receivables and loans and held-for-sale loans. At December 31, 2011 this primarily included \$101.2 billion of automobile finance receivables and loans and \$20.9 billion of mortgage finance receivables and loans. Within our on-balance sheet portfolio, we have elected to account for certain mortgage loans at fair value. The valuation allowance recorded on fair value-elected loans is separate from the allowance for loan losses. Changes in the fair value of loans are classified as gain on mortgage and automotive loans, net, in the Consolidated Statement of Income.

During the year ended December 31, 2011, we further executed on our strategy of discontinuing and selling or liquidating nonstrategic operations. Additionally, we committed to sell the Canadian mortgage operations of ResMor Trust. Refer to Note 2 to the Consolidated Financial Statements for additional information on specific actions taken. Within our Automotive Finance operations, we exited certain underperforming dealer relationships and countries in which we previously operated. Within our Mortgage operations, in order to proactively address changes in the mortgage industry as a whole, we took action to reduce the focus on the correspondent mortgage lending channel; however, we will maintain correspondent relationships with key customers.

Table of Contents

The following table presents our total on-balance sheet consumer and commercial finance receivables and loans reported at carrying value before allowance for loan losses.

| December 31, (\$ in millions) | Outstanding | | Nonperforming (a) | | Accruing past due 90 days or more (b) | |
|--|-------------------|-------------------|-------------------|-----------------|---------------------------------------|--------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | 2010 |
| Consumer | | | | | | |
| Finance receivables and loans | | | | | | |
| Loans at historical cost | \$ 73,452 | \$ 62,002 | \$ 567 | \$ 768 | \$ 4 | \$ 6 |
| Loans at fair value | 835 | 1,015 | 210 | 260 | | |
| Total finance receivables and loans | 74,287 | 63,017 | 777 | 1,028 | 4 | 6 |
| Loans held-for-sale | 8,537 | 11,411 | 2,820 | 3,273 | 73 | 25 |
| Total consumer loans | 82,824 | 74,428 | 3,597 | 4,301 | 77 | 31 |
| Commercial | | | | | | |
| Finance receivables and loans | | | | | | |
| Loans at historical cost | 40,468 | 39,396 | 339 | 740 | | |
| Loans at fair value | | | | | | |
| Total finance receivables and loans | 40,468 | 39,396 | 339 | 740 | | |
| Loans held-for-sale | 20 | | | | | |
| Total commercial loans | 40,488 | 39,396 | 339 | 740 | | |
| Total on-balance sheet loans | \$ 123,312 | \$ 113,824 | \$ 3,936 | \$ 5,041 | \$ 77 | \$ 31 |

(a) Includes nonaccrual troubled debt restructured loans of \$934 million and \$684 million at December 31, 2011 and 2010, respectively.

(b) Generally, loans that are 90 days past due and still accruing represent loans with government guarantees. This includes troubled debt restructured loans classified as 90 days past due and still accruing of \$42 million and \$13 million as December 31, 2011 and December 31, 2010, respectively.

Total on-balance sheet loans outstanding at December 31, 2011, increased \$9.5 billion to \$123.3 billion from December 31, 2010, reflecting an increase of \$8.4 billion in the consumer portfolio and \$1.1 billion in the commercial portfolio. The increase in total on-balance sheet loans outstanding was primarily driven by increased automobile consumer loan originations which outpaced portfolio runoff, due to improved industry sales and higher GM and Chrysler market share. The increase was partially offset by a decrease in mortgage originations in our consumer mortgage business.

The total troubled debt restructurings (TDRs) outstanding at December 31, 2011, increased \$495 million to \$1.9 billion from December 31, 2010. This increase was driven primarily by our continued foreclosure prevention and loss mitigation procedures along with our participation in a variety of government modification programs. Additionally, the implementation of ASU 2011-02, *A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring*, contributed to the increase. Refer to Note 1 and Note 9 to the Consolidated Financial Statements for additional information.

Total nonperforming loans at December 31, 2011, decreased \$1.1 billion to \$3.9 billion from December 31, 2010, reflecting a decrease of \$704 million of consumer nonperforming loans and a decrease of \$401 million of commercial nonperforming loans. The decrease in nonperforming loans from December 31, 2010, was largely due to improvements within our consumer mortgage and commercial automobile portfolios.

Table of Contents

The following table includes consumer and commercial net charge-offs from finance receivables and loans at historical cost and related ratios reported at carrying value before allowance for loan losses.

| Year ended December 31, (\$ in millions) | Net charge-offs | | Net charge-off ratios (a) | |
|---|-----------------|-----------------|---------------------------|------------|
| | 2011 | 2010 | 2011 | 2010 |
| Consumer | | | | |
| Finance receivables and loans at historical cost | \$ 514 | \$ 796 | 0.7% | 1.5% |
| Commercial | | | | |
| Finance receivables and loans at historical cost | 39 | 402 | 0.1 | 1.1 |
| Total finance receivables and loans at historical cost | \$ 553 | \$ 1,198 | 0.5 | 1.3 |

(a) Net charge-off ratios are calculated as net charge-offs divided by average outstanding finance receivables and loans excluding loans measured at fair value and loans held-for-sale during the year for each loan category.

Our net charge-offs were \$553 million for the year ended December 31, 2011 compared to \$1.2 billion for the year ended December 31, 2010. This decline was driven primarily by an improved mix of loans reflecting previously tightened underwriting standards and strategic actions to wind-down non-core commercial assets, including resort finance. Loans held-for-sale are accounted for at the lower-of-cost or fair value, and therefore we do not record charge-offs.

The *Consumer Credit Portfolio* and *Commercial Credit Portfolio* discussions that follow relate to consumer and commercial finance receivables and loans recorded at historical cost. Finance receivables and loans recorded at historical cost have an associated allowance for loan losses. Finance receivables and loans measured at fair value were excluded from these discussions since those exposures are not accounted for within our allowance for loan losses.

Consumer Credit Portfolio

Our consumer portfolio primarily consists of automobile loans, first mortgages, and home equity loans (we ceased originating home equity loans in 2009), with a focus on serving the prime secured consumer credit market. Loan losses in our consumer portfolio are influenced by general business and economic conditions including unemployment rates, bankruptcy filings, and home and used vehicle prices. Additionally, our consumer credit exposure is significantly concentrated in automobile lending (primarily through GM and Chrysler dealerships). Due to our subvention relationships, we are able to mitigate some interest income exposure to certain consumer defaults by receiving a rate support payment directly from the automotive manufacturers at origination.

Credit risk management for the consumer portfolio begins with the initial underwriting and continues throughout a borrower's credit cycle. We manage consumer credit risk through our loan origination and underwriting policies, credit approval process, and servicing capabilities. We use credit-scoring models to differentiate the expected default rates of credit applicants enabling us to better evaluate credit applications for approval and to tailor the pricing and financing structure according to this assessment of credit risk. We regularly review the performance of the credit scoring models and update them for historical information and current trends. These and other actions mitigate but do not eliminate credit risk. Improper evaluations of a borrower's creditworthiness, fraud, and changes in the applicant's financial condition after approval could negatively affect the quality of our receivables portfolio, resulting in loan losses.

Our servicing activities are another key factor in managing consumer credit risk. Servicing activities consist largely of collecting and processing customer payments, responding to customer inquiries such as requests for payoff quotes, and processing customer requests for account revisions (such as payment extensions and refinancings). Servicing activities are generally consistent across our operations; however, certain practices may be influenced by local laws and regulations.

Table of Contents

During the year ended December 31, 2011, the credit performance of the consumer portfolio continued to improve overall as our nonperforming financial receivables and loans and charge-offs declined. For information on our consumer credit risk practices and policies regarding delinquencies, nonperforming status, and charge-offs, refer to Note 1 to the Consolidated Financial Statements.

The following table includes consumer finance receivables and loans recorded at historical cost reported at carrying value before allowance for loan losses.

| December 31, (\$ in millions) | Outstanding | | Nonperforming (a) | | Accruing past due 90 days or more (b) | |
|---|------------------|------------------|-------------------|---------------|---------------------------------------|-------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | 2010 |
| Domestic | | | | | | |
| Consumer automobile | \$ 46,576 | \$ 34,604 | \$ 139 | \$ 129 | \$ | \$ |
| Consumer mortgage | | | | | | |
| 1st Mortgage | 6,867 | 6,917 | 258 | 388 | 1 | 1 |
| Home equity | 3,102 | 3,441 | 58 | 61 | | |
| Total domestic | 56,545 | 44,962 | 455 | 578 | 1 | 1 |
| Foreign | | | | | | |
| Consumer automobile | 16,883 | 16,650 | 89 | 78 | 3 | 5 |
| Consumer mortgage | | | | | | |
| 1st Mortgage (c) | 24 | 390 | 23 | 112 | | |
| Home equity | | | | | | |
| Total foreign | 16,907 | 17,040 | 112 | 190 | 3 | 5 |
| Total consumer finance receivables and loans | \$ 73,452 | \$ 62,002 | \$ 567 | \$ 768 | \$ 4 | \$ 6 |

(a) Includes nonaccrual troubled debt restructured loans of \$180 million and \$204 million at December 31, 2011 and 2010, respectively.

(b) There were no troubled debt restructured loans classified as 90 days past due and still accruing at December 31, 2011 and 2010.

(c) Refer to Note 2 to the Consolidated Financial Statements for additional information on our commitment to sell our Canadian residential mortgage portfolio.

Total outstanding consumer finance receivables and loans increased \$11.5 billion at December 31, 2011, compared with December 31, 2010. This increase was driven by domestic automobile consumer loan originations, which outpaced portfolio runoff, primarily due to improved industry sales and higher GM and Chrysler market share.

Total consumer nonperforming finance receivables and loans at December 31, 2011 decreased \$201 million to \$567 million from December 31, 2010, reflecting a decrease of \$222 million of consumer mortgage nonperforming finance receivables and loans and an increase of \$21 million of consumer automobile nonperforming finance receivables and loans. Nonperforming consumer mortgage finance receivables and loans decreased primarily due to the continued runoff of lower quality legacy loans. Nonperforming consumer automotive finance receivables and loans increased primarily due to the implementation of ASU 2011-02 which resulted in additional loans being classified as TDRs and placed on nonaccrual status. Refer to Note 1 to the Consolidated Financial Statements for additional information. Nonperforming consumer finance receivables and loans as a percentage of total outstanding consumer finance receivables and loans were 0.8% and 1.2% at December 31, 2011 and 2010, respectively.

Table of Contents

Consumer domestic automobile finance receivables and loans accruing and past due 30 days or more decreased \$19 million to \$783 million at December 31, 2011, compared with December 31, 2010. This decline was primarily due to increased quality of newer vintages reflecting tightened underwriting standards.

The following table includes consumer net charge-offs from finance receivables and loans at historical cost and related ratios reported at carrying value before allowance for loan losses.

| Year ended December 31, (\$ in millions) | Net charge-offs | | Net charge-off ratios (a) | |
|--|-----------------|--------|---------------------------|------|
| | 2011 | 2010 | 2011 | 2010 |
| Domestic | | | | |
| Consumer automobile | \$ 249 | \$ 457 | 0.6% | 1.7% |
| Consumer mortgage | | | | |
| 1st Mortgage | 115 | 128 | 1.7 | 1.8 |
| Home equity | 74 | 85 | 2.3 | 2.4 |
| Total domestic | 438 | 670 | 0.8 | 1.8 |
| Foreign | | | | |
| Consumer automobile | 72 | 123 | 0.4 | 0.8 |
| Consumer mortgage | | | | |
| 1st Mortgage | 4 | 3 | 1.2 | 0.8 |
| Home equity | | | | |
| Total foreign | 76 | 126 | 0.4 | 0.8 |
| Total consumer finance receivables and loans | \$ 514 | \$ 796 | 0.7 | 1.5 |

(a) Net charge-off ratios are calculated as net charge-offs divided by average outstanding finance receivables and loans excluding loans measured at fair value and loans held-for-sale during the year for each loan category.

Our net charge-offs from total consumer automobile finance receivables and loans decreased \$259 million for the year ended December 31, 2011, compared to 2010. The decrease in net charge-offs was primarily due to lower loss frequency and improvements in loss severity as a result of increased quality of newer vintages reflecting tightened underwriting standards and strong used vehicle pricing.

Our net charge-offs from total consumer mortgage finance receivables and loans were \$193 million for the year ended December 31, 2011, compared to \$216 million in 2010. The decrease was driven by the improved mix of remaining loans as the lower quality legacy loans continued to runoff.

Table of Contents

The following table summarizes the unpaid principal balance of total consumer loan originations for the periods shown. Total consumer loan originations include loans classified as finance receivables and loans and loans held-for-sale during the period.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|---|-------------------|-------------------|
| Domestic | | |
| Consumer automobile | \$ 32,933 | \$ 27,681 |
| Consumer mortgage | | |
| 1st Mortgage | 56,258 | 69,542 |
| Home equity | | |
| Total domestic | 89,191 | 97,223 |
| Foreign | | |
| Consumer automobile | 9,983 | 8,818 |
| Consumer mortgage | | |
| 1st Mortgage | 1,403 | 1,503 |
| Home equity | | |
| Total foreign | 11,386 | 10,321 |
| Total consumer loan originations | \$ 100,577 | \$ 107,544 |

Total domestic automobile-originated loans increased \$5.3 billion for the year ended December 31, 2011, compared to 2010, primarily due to improved industry sales and higher GM and Chrysler market share. Total foreign automobile originations increased \$1.2 billion for the year ended December 31, 2011, driven by higher Germany, Brazil, and United Kingdom production.

Total domestic mortgage-originated loans decreased \$13.3 billion for the year ended December 31, 2011. The decreases were, in part, the result of lower industry volume and fewer government-insured residential mortgage loans.

Consumer loan originations retained on-balance sheet as held-for-investment increased \$9.5 billion to \$44.6 billion at December 31, 2011, compared to 2010. The increase was primarily due to improved automotive industry sales and higher GM and Chrysler market share.

Table of Contents

The following table shows the percentage of the total consumer finance receivables and loans recorded at historical cost reported at carrying value before allowance for loan losses by state and foreign concentration. Total automobile loans were \$63.5 billion and \$51.3 billion at December 31, 2011 and 2010, respectively. Total mortgage and home equity loans were \$10.0 billion and \$10.7 billion at December 31, 2011 and 2010, respectively.

| December 31, | 2011 (a) | | 2010 | |
|--|------------|------------------------------|------------|------------------------------|
| | Automobile | 1st Mortgage and home equity | Automobile | 1st Mortgage and home equity |
| Texas | 9.5% | 5.5% | 9.2% | 4.4% |
| California | 4.6 | 25.7 | 4.6 | 24.5 |
| Florida | 4.8 | 4.0 | 4.4 | 4.1 |
| Michigan | 4.0 | 4.8 | 3.7 | 5.0 |
| Illinois | 3.1 | 5.0 | 2.8 | 4.7 |
| New York | 3.5 | 2.3 | 3.4 | 2.4 |
| Pennsylvania | 3.6 | 1.6 | 3.2 | 1.7 |
| Ohio | 2.9 | 1.0 | 2.5 | 1.0 |
| Georgia | 2.5 | 1.8 | 2.2 | 1.8 |
| North Carolina | 2.2 | 2.1 | 2.0 | 2.0 |
| Other United States | 32.9 | 45.9 | 29.4 | 44.7 |
| Canada | 11.8 | 0.2 | 14.2 | 3.6 |
| Brazil | 4.7 | | 5.2 | |
| Germany | 4.3 | | 5.7 | |
| Other foreign | 5.6 | 0.1 | 7.5 | 0.1 |
| Total consumer finance receivables and loans | 100.0% | 100.0% | 100.0% | 100.0% |

(a) Presentation is in descending order as a percentage of total consumer finance receivables and loans at December 31, 2011.

We monitor our consumer loan portfolio for concentration risk across the geographies in which we lend. The highest concentrations of loans in the United States are in Texas and California, which represented an aggregate of 16.4% of our total outstanding consumer finance receivables and loans at December 31, 2011.

Concentrations in our Mortgage operations are closely monitored given the volatility of the housing markets. Our consumer mortgage loan concentrations in California, Florida, and Michigan receive particular attention as the real estate value depreciation in these states has been the most severe.

Repossessed and Foreclosed Assets

We classify an asset as repossessed or foreclosed (included in other assets on the Consolidated Balance Sheet) when physical possession of the collateral is taken. We dispose of the acquired collateral in a timely fashion in accordance with regulatory requirements. For more information on repossessed and foreclosed assets, refer to Note 1 to the Consolidated Financial Statements.

Repossessed assets in our Automotive Finance operations at December 31, 2011, increased \$10 million to \$56 million from December 31, 2010. Foreclosed mortgage assets at December 31, 2011, decreased \$61 million to \$77 million from December 31, 2010.

Higher-risk Mortgage Loans

During the year ended December 31, 2011, we primarily focused our origination efforts on prime conforming and government-insured residential mortgages in the United States and high-quality government-

Table of Contents

insured residential in Canada. Refer to Note 2 to the Consolidated Financial Statements for additional information on our commitment to sell our Canadian residential mortgage portfolio. However, we continued to hold mortgage loans originated in prior years that have features that expose us to potentially higher credit risk including high original loan-to-value mortgage loans (prime or nonprime), payment-option adjustable-rate mortgage loans (prime nonconforming), interest-only mortgage loans (classified as prime conforming or nonconforming for domestic production and prime nonconforming or nonprime for international production), and teaser-rate mortgages (prime or nonprime).

In circumstances when a loan has features such that it falls into multiple categories, it is classified to a category only once based on the following hierarchy: (1) high original loan-to-value mortgage loans, (2) payment-option adjustable-rate mortgage loans, (3) interest-only mortgage loans, and (4) below-market rate (teaser) mortgages. Given the continued stress within the housing market, we believe this hierarchy provides the most relevant risk assessment of our nontraditional products.

High loan-to-value mortgages Defined as first-lien loans with original loan-to-value ratios equal to or in excess of 100% or second-lien loans that when combined with the underlying first-lien mortgage loan result in an original loan-to-value ratio equal to or in excess of 100%. We ceased originating these loans with the intent to retain during 2009.

Payment-option adjustable-rate mortgages Permit a variety of repayment options. The repayment options include minimum, interest-only, fully amortizing 30-year, and fully amortizing 15-year payments. The minimum payment option generally sets the monthly payment at the initial interest rate for the first year of the loan. The interest rate resets after the first year, but the borrower can continue to make the minimum payment. The interest-only option sets the monthly payment at the amount of interest due on the loan. If the interest-only option payment would be less than the minimum payment, the interest-only option is not available to the borrower. Under the fully amortizing 30- and 15-year payment options, the borrower's monthly payment is set based on the interest rate, loan balance, and remaining loan term. We ceased originating these loans during 2008.

Interest-only mortgages Allow interest-only payments for a fixed time. At the end of the interest-only period, the loan payment includes principal payments and can increase significantly. The borrower's new payment, once the loan becomes amortizing (i.e., includes principal payments), will be greater than if the borrower had been making principal payments since the origination of the loan. We ceased originating these loans with the intent to retain during 2010.

Below-market rate (teaser) mortgages Contain contractual features that limit the initial interest rate to a below-market interest rate for a specified time period with an increase to a market interest rate in a future period. The increase to the market interest rate could result in a significant increase in the borrower's monthly payment amount. We ceased originating these loans during 2008.

The following table summarizes the higher-risk mortgage loan originations unpaid principal balance for the periods shown. These higher-risk mortgage loans are classified as finance receivables and loans and are recorded at historical cost.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|--|------|--------|
| Interest-only mortgage loans | \$ | \$ 209 |
| Below-market rate (teaser) mortgages | | |
| Total | \$ | \$ 209 |

Table of Contents

The following table summarizes mortgage finance receivables and loans by higher-risk type. These finance receivables and loans are recorded at historical cost and reported at carrying value before allowance for loan losses.

| December 31, (\$ in millions) | 2011 | | | 2010 | | |
|--------------------------------------|-----------------|---------------|-----------------------------------|-----------------|---------------|-----------------------------------|
| | Outstanding | Nonperforming | Accruing past due 90 days or more | Outstanding | Nonperforming | Accruing past due 90 days or more |
| Interest-only mortgage loans (a) | \$ 2,947 | \$ 147 | \$ | \$ 3,681 | \$ 207 | \$ |
| Below-market rate (teaser) mortgages | 248 | 6 | | 284 | 4 | |
| Total | \$ 3,195 | \$ 153 | \$ | \$ 3,965 | \$ 211 | \$ |

(a) The majority of the interest-only mortgage loans are expected to start principal amortization in 2015 or beyond. Allowance for loan losses was \$167 million or 5.2% of total higher-risk mortgage finance receivables and loans recorded at historical cost based on carrying value outstanding before allowance for loan losses at December 31, 2011.

The following tables include our five largest state and foreign concentrations within our higher-risk finance receivables and loans recorded at historical cost and reported at carrying value before allowance for loan losses.

| December 31, (\$ in millions) | Interest-only mortgage loans | Below-market rate (teaser) mortgages | All higher-risk mortgage loans |
|---------------------------------|------------------------------|--------------------------------------|--------------------------------|

| Illinois | 197 | 8 | 205 |
| Other United States and foreign | 1,680 | 158 | 1,838 |
| Total | \$ 3,681 | \$ 284 | \$ 3,965 |

Commercial Credit Portfolio

Edgar Filing: Ally Financial Inc. - Form S-1/A

Our commercial portfolio consists primarily of automotive loans (wholesale floorplan, dealer term loans including real estate loans, and automotive fleet financing), and some commercial finance loans. In general, the credit risk of our commercial portfolio is impacted by overall economic conditions in the countries in which we operate and the financial health of the automotive manufacturers that provide the inventory we floorplan. As part of our floorplan financing arrangements, we typically require repurchase agreements with the automotive manufacturer to repurchase new vehicle inventory under certain circumstances.

Table of Contents

Our credit risk on the commercial portfolio is markedly different from that of our consumer portfolio. Whereas the consumer portfolio represents smaller-balance homogeneous loans that exhibit fairly predictable and stable loss patterns, the commercial portfolio exposures can be less predictable. We utilize an internal credit risk rating system that is fundamental to managing credit risk exposure consistently across various types of commercial borrowers and captures critical risk factors for each borrower. The ratings are used for many areas of credit risk management, such as loan origination, portfolio risk monitoring, management reporting, and loan loss reserves analyses. Therefore, the rating system is critical to an effective and consistent credit risk management framework.

During the year ended December 31, 2011, the credit performance of the commercial portfolio improved as nonperforming finance receivables and loans and net charge-offs declined. For information on our commercial credit risk practices and policies regarding delinquencies, nonperforming status, and charge-offs, refer to Note 1 to the Consolidated Financial Statements.

The following table includes total commercial finance receivables and loans reported at carrying value before allowance for loan losses.

| December 31, (\$ in millions) | Outstanding | | Nonperforming (a) | | Accruing past due 90 days or more (b) | |

(a) Includes nonaccrual troubled debt restructured loans of \$21 million and \$9 million at December 31, 2011 and 2010, respectively.

(b) There were no troubled debt restructured loans classified as 90 days past due and still accruing at December 31, 2011 and 2010, respectively.

(c) Other commercial primarily includes senior secured commercial lending.

Table of Contents

Total commercial finance receivables and loans outstanding increased \$1.1 billion to \$40.5 billion at December 31, 2011, from December 31, 2010. Commercial and industrial outstandings increased \$939 million primarily due to improved automotive industry sales and corresponding increase in inventories partially offset by the continued wind-down of non-core commercial assets.

Total commercial nonperforming finance receivables and loans were \$339 million, a decrease of \$401 million compared to December 31, 2010, primarily due to improvement in dealer performance and continued wind-down of non-core commercial assets. Total nonperforming commercial finance receivables and loans as a percentage of outstanding commercial finance receivables and loans were 0.8% and 1.9% at December 31, 2011 and 2010, respectively.

The following table includes total commercial net charge-offs from finance receivables and loans at historical cost and related ratios reported at carrying value before allowance for loan losses.

| Year ended December 31, (\$ in millions) | Net charge-offs (recoveries) | | Net charge-off ratios (a) | |
|---|------------------------------|---------------|---------------------------|------------|
| | 2011 | 2010 | 2011 | 2010 |
| Domestic | | | | |

| Automobile | \$ 7 | \$ 18 | % | 0.1% |
| Mortgage | (3) | (3) | (0.3) | (0.2) |
| Other (b) | (7) | 158 | (0.5) | 6.7 |
| Commercial real estate | | | | |
| Automobile | 6 | 47 | 0.3 | 2.3 |
| Mortgage | (1) | 44 | n/m | 136.3 |
| Total domestic | 2 | 264 | | 0.9 |
| Foreign | | | | |
| Commercial and industrial | | | | |
| Automobile | (1) | 16 | | 0.2 |
| Mortgage | 8 | 3 | 25.0 | 3.9 |
| Other | 2 | 69 | 0.8 | 19.0 |
| Commercial real estate | | | | |
| Automobile | 1 | 2 | 0.3 | 1.0 |
| Mortgage | 27 | 48 | 60.9 | 38.7 |
| Total foreign | 37 | 138 | 0.4 | 1.5 |
| Total commercial finance receivables and loans | \$ 39 | \$ 402 | 0.1 | 1.1 |

(a) Net charge-off ratios are calculated as net charge-offs divided by average outstanding finance receivables and loans excluding loans measured at fair value and loans held-for-sale during the year for each loan category.

(b) Includes \$148 million of Resort finance charge offs during the year ended December 31, 2010.

Our net charge-offs from commercial finance receivables and loans totaled \$39 million for the year ended December 31, 2011, compared to \$402 million in 2010. The decrease in net charge-offs were largely driven by an improved mix of loans in the existing portfolio driven by the wind-down of certain commercial resort finance and real estate assets in prior periods and improvement in dealer performance.

Commercial Real Estate

Edgar Filing: Ally Financial Inc. - Form S-1/A

The commercial real estate portfolio consists of finance receivables and loans issued primarily to automotive dealers. Commercial real estate finance receivables and loans were \$2.5 billion and \$2.4 billion at December 31, 2011 and 2010, respectively.

Table of Contents

The following table shows the percentage of total commercial real estate finance receivables and loans by geographic region and property type. These finance receivables and loans are reported at carrying value before allowance for loan losses.

| December 31, | 2011 | 2010 |
|---|---------------|---------------|
| Geographic region | | |
| Michigan | 14.1% | 10.1% |
| Texas | 12.4 | 10.5 |
| Florida | 12.4 | 10.3 |
| California | 9.3 | 9.6 |
| Virginia | 4.1 | 4.4 |

Commercial Criticized Exposure

Finance receivables and loans classified as special mention, substandard, or doubtful are deemed criticized. These classifications are based on regulatory definitions and generally represent finance receivables and loans within our portfolio that have a higher default risk or have already defaulted. These finance receivables and loans require additional monitoring and review including specific actions to mitigate our potential economic loss.

The following table shows the percentage of total commercial criticized finance receivables and loans by industry concentrations. These finance receivables and loans reported at carrying value before allowance for loan losses.

| December 31, | 2011 | 2010 |
|--|---------------|---------------|
| Industry | | |
| Automotive | 82.9% | 66.5% |
| Real estate | 4.5 | 12.1 |
| Banks and finance companies | 4.2 | 1.0 |
| Other | 8.4 | 20.4 |
| Total commercial criticized finance receivables and loans | 100.0% | 100.0% |

Total criticized exposure decreased \$528 million to \$3.1 billion from December 31, 2010, primarily due to the continued wind-down of non-core commercial assets in the real estate and health/medical (within Other) industries. The increase in our automotive criticized concentration rate was driven primarily by the decrease in overall criticized outstanding.

Table of Contents*Selected Loan Maturity and Sensitivity Data*

The table below shows the commercial finance receivables and loans portfolio and the distribution between fixed and floating interest rates based on the stated terms of the commercial loan agreements. This portfolio is reported at carrying value before allowance for loan losses.

| December 31, 2011 (\$ in millions) | Within 1 year (a) | 1-5 years | After 5 years | Total (b) |
|---|--------------------------|------------------|----------------------|------------------|
| Commercial and industrial | \$ 28,247 | \$ 1,296 | \$ 74 | \$ 29,617 |
| Commercial real estate | 295 | 1,751 | 285 | 2,331 |
| Total domestic | 28,542 | 3,047 | 359 | 31,948 |
| Foreign | 8,007 | 489 | 24 | 8,520 |
| Total commercial finance receivables and loans | \$ 36,549 | \$ 3,536 | \$ 383 | \$ 40,468 |
| Loans at fixed interest rates | | \$ 1,386 | \$ 305 | |
| Loans at variable interest rates | | 2,150 | 78 | |
| Total commercial finance receivables and loans | | \$ 3,536 | \$ 383 | |

(a) Includes loans (e.g., floorplan) with revolving terms.

(b) Loan maturities are based on the remaining maturities under contractual terms.

Allowance for Loan Losses

The following table presents an analysis of the activity in the allowance for loan losses on finance receivables and loans.

| <i>(\$ in millions)</i> | Consumer automobile | Consumer mortgage | Total consumer | Commercial | Total |
|------------------------------|----------------------------|--------------------------|-----------------------|-------------------|--------------|
| Allowance at January 1, 2011 | \$ 970 | \$ 580 | \$ 1,550 | \$ 323 | \$ 1,873 |

| Other | | (8) | (8) | (26) | (34) |
| Allowance at December 31, 2010 | \$ 970 | \$ 580 | \$ 1,550 | \$ 323 | \$ 1,873 |
| Allowance for loan losses to finance receivables and loans outstanding at December 31, 2010 (b) | 1.9% | 5.4% | 2.5% | 0.8% | 1.8% |
| Net charge-offs to average finance receivables and loans outstanding at December 31, 2010 (b) | 1.4% | 2.0% | 1.5% | 1.1% | 1.3% |
| Allowance for loan losses to total nonperforming finance receivables and loans at December 31, 2010 (b) | 469.2% | 103.4% | 202.0% | 43.7% | 124.3% |
| Ratio of allowance for loan losses to net charge-offs at December 31, 2010 | 1.7 | 2.7 | 1.9 | 0.8 | 1.6 |

- (a) Includes adjustment to the allowance due to adoption of ASU 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*.

- (b) Coverage percentages are based on the allowance for loan losses related to finance receivables and loans excluding those loans held at fair value as a percentage of the unpaid principal balance, net of premiums and discounts.

The allowance for consumer loan losses was \$1.3 billion at December 31, 2011, compared to \$1.6 billion at December 31, 2010. The decline reflected overall improved credit quality of newer vintages reflecting tightened underwriting standards which was partially offset by an increase in loans outstanding.

The allowance for commercial loan losses was \$221 million at December 31, 2011, compared to \$323 million at December 31, 2010. The decline was primarily related to improvement in dealer performance and continued wind-down of non-core commercial assets.

Table of Contents**Allowance for Loan Losses by Type**

The following table summarizes the allocation of the allowance for loan losses by product type.

| December 31, (\$ in millions) | Allowance for loan losses | 2011 Allowance as a % of loans outstanding | Allowance as a % of allowance for loan losses | Allowance for loan losses | 2010 Allowance as a % of loans outstanding | Allowance as a % of allowance for loan losses |

Table of Contents

Lease Residual Risk Management

We are exposed to residual risk on vehicles in the consumer lease portfolio. This lease residual risk represents the possibility that the actual proceeds realized upon the sale of returned vehicles will be lower than the projection of these values used in establishing the pricing at lease inception. The following factors most significantly influence lease residual risk. For additional information on our valuation of automobile lease assets and residuals, refer to the Critical Accounting Estimates Valuation of Automobile Lease Assets and Residuals section within this MD&A.

Used vehicle market We have exposure to changes in used vehicle prices. General economic conditions, used vehicle supply and demand, and new vehicle market prices most heavily influence used vehicle prices.

Residual value projections We establish risk adjusted residual values at lease inception by consulting independently published guides and periodically reviewing these residual values during the lease term. These values are projections of expected values in the future (typically between two and four years) based on current assumptions for the respective make and model. Actual realized values often differ.

Remarketing abilities Our ability to efficiently process and effectively market off-lease vehicles affects the disposal costs and the proceeds realized from vehicle sales.

Manufacturer vehicle and marketing programs Automotive manufacturers influence lease residual results in the following ways:

The brand image of automotive manufacturers and consumer demand for their products affect residual risk.

Automotive manufacturer marketing programs may influence the used vehicle market for those vehicles through programs such as incentives on new vehicles, programs designed to encourage lessees to terminate their leases early in conjunction with the acquisition of a new vehicle (referred to as pull-ahead programs), and special rate used vehicle programs.

Automotive manufacturers may provide support to us for certain residual deficiencies.

The following table summarizes the volume of serviced lease terminations in the United States over recent periods. It also summarizes the average sales proceeds on 24-, 36-, and 48-month scheduled lease terminations for those same periods at auction. The mix of terminated vehicles in 2011 was used to normalize results over previous periods to more clearly demonstrate market pricing trends.

| Year ended December 31, | 2011 | 2010 | 2009 |
|---|-----------|-----------|-----------|
| Off-lease vehicles remarketed (<i>in units</i>) | 248,624 | 376,203 | 369,981 |
| Sales proceeds on scheduled lease terminations (<i>\$ per unit</i>) | | | |
| 24-month (a) | n/m | n/m | n/m |
| 36-month | \$ 20,157 | \$ 19,061 | \$ 16,958 |
| 48-month | 16,106 | 14,908 | 12,611 |

n/m = not meaningful

Edgar Filing: Ally Financial Inc. - Form S-1/A

- (a) During 2011, 24-month lease terminations were not materially sufficient to create an historical multi-year comparison from that term due to our temporary curtailment of leasing in late 2008 through 2009. The number of off-lease vehicles marketed in 2011 declined 34% from 2010. The decrease was due to our temporary curtailment of leasing in late 2008 through 2009. Proceeds increased from 2009 as market conditions

Table of Contents

for pricing of used vehicles improved. The improvement in proceeds was driven primarily by lower used vehicle supply, large decreases in new vehicle sales and leasing activity after the 2008 economic downturn, and subsequent corporate restructurings in the automotive industry. For information on our Investment in Operating Leases, refer to Note 1 and Note 10 to the Consolidated Financial Statements.

Country Risk

We have exposures to obligors domiciled in foreign countries; and therefore, our portfolio is subject to country risk. Country risk is the risk that conditions in a foreign country will impair the value of our assets, restrict our ability to repatriate equity or profits, or adversely impact the ability of the guarantor to uphold their obligations to us. Country risk includes risks arising from the economic, political, and social conditions prevalent in a country, as well as the strengths and weaknesses in the legal and regulatory framework. These conditions may have potentially favorable or unfavorable consequences for our investments in a particular country.

Country risk is measured by determining our cross-border outstandings in accordance with Federal Financial Institutions Examination Council guidelines. Cross-border outstandings are reported as assets within the country of which the obligor or guarantor resides. Furthermore, outstandings backed by tangible collateral are reflected under the country in which the collateral is held. For securities received as collateral, cross-border outstandings are assigned to the domicile of the issuer of the securities. Resale agreements are presented based on the domicile of the counterparty.

The following table lists all countries in which cross-border outstandings exceed 1.0% of consolidated assets.

| <i>(\$ in millions)</i> | Banks | Sovereign | Other | Net local country assets | Derivatives | Total cross- border outstandings |
|-------------------------|--------------|------------------|--------------|-------------------------------------|--------------------|---|
| 2011 (a) | | | | | | |
| Canada | \$ 343 | \$ 250 | \$ 451 | \$ 3,746 | \$ 20 | \$ 4,810 |
| Germany | 47 | 32 | 5 | 3,219 | 576 | 3,879 |
| United Kingdom | 311 | 6 | 13 | 962 | 1,356 | 2,648 |
| 2010 | | | | | | |
| Canada | \$ 343 | \$ 361 | \$ 349 | \$ 4,678 | \$ 19 | \$ 5,750 |
| Germany | 587 | 40 | 111 | 3,485 | 76 | 4,299 |
| United Kingdom | 627 | 9 | 37 | 1,133 | 83 | 1,889 |

(a) As of December 31, 2011, our total cross-border exposure to Portugal, Ireland, Italy, Greece, and Spain was \$327 million, all of which was nonsovereign exposure.

Market Risk

Our automotive financing, mortgage, and insurance activities give rise to market risk representing the potential loss in the fair value of assets or liabilities and earnings caused by movements in market variables, such as interest rates, foreign-exchange rates, equity prices, market perceptions of credit risk, and other market fluctuations that affect the value of securities and assets held-for-sale. We are primarily exposed to interest rate risk arising from changes in interest rates related to financing, investing, and cash management activities. More specifically, we have entered into contracts to provide financing, to retain mortgage servicing rights, and to retain various assets related to securitization activities all of which are exposed in varying degrees to changes in value due to movements in interest rates. Interest rate risk arises from the mismatch between assets and the related liabilities used for funding. We enter into various financial instruments, including derivatives, to maintain the desired level of exposure to the risk of interest rate fluctuations. Refer to Note 24 to the Consolidated Financial Statements for further derivative information.

Table of Contents

We are also exposed to foreign-currency risk arising from the possibility that fluctuations in foreign-exchange rates will affect future earnings or asset and liability values related to our global operations. We may enter into hedges to mitigate foreign exchange risk.

We also have exposure to equity price risk, primarily in our Insurance operations, which invests in equity securities that are subject to price risk influenced by capital market movements. We enter into equity options to economically hedge our exposure to the equity markets.

Although the diversity of our activities from our complementary lines of business may partially mitigate market risk, we also actively manage this risk. We maintain risk management control systems to monitor interest rates, foreign-currency exchange rates, equity price risks, and any of their related hedge positions. Positions are monitored using a variety of analytical techniques including market value, sensitivity analysis, and value at risk models.

Fair Value Sensitivity Analysis

The following table and subsequent discussion presents a fair value sensitivity analysis of our assets and liabilities using isolated hypothetical movements in specific market rates. The analysis assumes adverse instantaneous, parallel shifts in market-exchange rates, interest rate yield curves, and equity prices. The analysis does not consider the financial offsets available through derivative activities. Additionally, since only adverse fair value impacts are included, the natural offset between asset and liability rate sensitivities that arise within a diversified balance sheet, such as ours, is not considered.

| December 31, (\$ in millions) | 2011 | | 2010 | |
|--|------------|---------|------------|---------|
| | Nontrading | Trading | Nontrading | Trading |
| Financial instruments exposed to changes in: | | | | |
| Interest rates | | | | |
| Estimated fair value | (a) | \$ 549 | (a) | \$ 240 |
| Effect of 10% adverse change in rates | (a) | (2) | (a) | (1) |
| Foreign-currency exchange rates | | | | |
| Estimated fair value | \$ 6,724 | \$ | \$ 7,079 | \$ 94 |
| Effect of 10% adverse change in rates | (672) | | (708) | (9) |
| Equity prices | | | | |
| Estimated fair value | \$ 1,059 | \$ | \$ 796 | \$ |
| Effect of 10% decrease in prices | (106) | | (80) | |

(a) Refer to the next section titled *Net Interest Income Sensitivity Analysis* for information on the interest rate sensitivity of our nontrading financial instruments.

The fair value of our foreign-currency exchange-rate sensitive financial instruments decreased during the year ended December 31, 2011, compared to 2010, due to increases in our foreign-denominated deposits. This increase consequently drove the decrease in the fair value estimate and associated adverse 10% change in rates impact. The increase in the fair value of our equity sensitive financial instruments was due to a higher equity investment balance compared to prior year. This change in equity exposure drove our increased sensitivity to a 10% decrease in equity prices.

Net Interest Income Sensitivity Analysis

We use net interest income sensitivity analysis to measure and manage the interest rate sensitivities of our nontrading financial instruments rather than the fair value approach. Interest rate risk represents the most significant market risk to the nontrading exposures. We actively monitor the level of exposure so that movements in interest rates do not adversely affect future earnings. Simulations are used to estimate the impact on our net interest income in numerous interest rate scenarios. These simulations measure how the interest rate scenarios

Table of Contents

will impact net interest income on the financial instruments on the balance sheet including debt securities, loans, deposits, debt, and derivative instruments. The simulations incorporate assumptions about future balance sheet changes including loan and deposit pricing, changes in funding mix, and asset/liability repricing, prepayments, and contractual maturities.

We prepare forward-looking forecasts of net interest income, which take into consideration anticipated future business growth, asset/liability positioning, and interest rates based on the implied forward curve. Simulations are used to assess changes in net interest income in multiple interest rates scenarios relative to the baseline forecast. The changes in net interest income relative to the baseline are defined as the sensitivity. The net interest income sensitivity tests measure the potential change in our pretax net interest income over the following twelve months. A number of alternative rate scenarios are tested including immediate parallel shocks to the forward yield curve, nonparallel shocks to the forward yield curve, and stresses to certain term points on the yield curve in isolation to capture and monitor a number of risk types.

Our twelve-month pretax net interest income sensitivity based on the forward-curve was as follows.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|---|-------------|-------------|
| Parallel rate shifts | | |
| -100 basis points | \$ 73 | \$ 54 |
| +100 basis points | (84) | (99) |
| +200 basis points | 88 | (28) |

Our net interest income was liability sensitive to parallel moves in interest rates of -100 and +100 basis points in both years ended 2011 and 2010. The positive change in net interest income in the +200 basis interest rate move in 2011 and limited adverse change in 2010 was mainly due to income on certain commercial loans that have rate index floors. Interest income on these loans increases significantly as interest rates and the related rate index rises above the level of the floor.

The change in net interest income sensitivity from December 31, 2010 was due to the change in the level of forward short-term interest rates, the impact of the change in interest rates on the commercial loans with rate index floors and balance sheet growth increasing the absolute level of net interest income. Additionally, we added net pay fixed interest rate swaps hedging certain borrowings and reduced our net receive fixed interest rate swaps hedging the debt portfolio as part of our normal ALM activities, which contributed to the change.

Operational Risk

We define operational risk as the risk of loss resulting from inadequate or failed processes or systems, human factors, or external events. Operational risk is an inherent risk element in each of our businesses and related support activities. Such risk can manifest in various ways, including errors, business interruptions, and inappropriate behavior of employees, and can potentially result in financial losses and other damage to us.

To monitor and control such risk, we maintain a system of policies and a control framework designed to provide a sound and well-controlled operational environment. This framework employs practices and tools designed to maintain risk governance, risk and control assessment and testing, risk monitoring, and transparency through risk reporting mechanisms. The goal is to maintain operational risk at appropriate levels in view of our financial strength, the characteristics of the businesses and the markets in which we operate, and the related competitive and regulatory environment.

Notwithstanding these risk and control initiatives, we may incur losses attributable to operational risks from time to time, and there can be no assurance these losses will not be incurred in the future.

Table of Contents

Liquidity Management, Funding, and Regulatory Capital

Overview

The purpose of liquidity management is to ensure our ability to meet changes in loan and lease demand, debt maturities, deposit withdrawals, and other cash commitments under both normal operating conditions as well as periods of economic or financial stress. Our primary objective is to maintain cost-effective, stable and diverse sources of funding capable of sustaining the organization throughout all market cycles. Sources of liquidity include both retail and brokered deposits and secured and unsecured market-based funding across various maturity, interest rate, currency, and investor profiles. Further liquidity is available through a pool of unencumbered highly liquid securities, borrowing facilities, whole-loan asset sales, as well as funding programs supported by the Federal Reserve and the Federal Home Loan Bank of Pittsburgh (FHLB).

We define liquidity risk as the risk that an institution's financial condition or overall safety and soundness is adversely affected by an inability, or perceived inability, to meet its financial obligations, and to withstand unforeseen liquidity stress events. Liquidity risk can arise from a variety of institution specific or market-related events that could negatively impact the cash flows available to the organization. Effective management of liquidity risk helps ensure an organization's ability to meet cash flow obligations that are uncertain as they are affected by external events. The ability of financial institutions to manage liquidity needs and contingent funding exposures has proven essential to the solvency of these same financial institutions.

The Asset-Liability Committee (ALCO) is chaired by the Corporate Treasurer and is responsible for monitoring Ally's liquidity position, funding strategies and plans, contingency funding plans, and counterparty credit exposure arising from financial transactions. Corporate Treasury is responsible for managing the liquidity positions of Ally within prudent operating guidelines and targets approved by ALCO. We manage liquidity risk at the business segment, legal entity, and consolidated levels. Each business segment, along with Ally Bank and ResMor Trust, prepares periodic forecasts depicting anticipated funding needs and sources of funds with oversight and monitoring by Corporate Treasury. Corporate Treasury manages liquidity under baseline projected economic scenarios as well as more severe economically stressed environments. Corporate Treasury, in turn, plans, and executes our funding strategies.

Ally uses multiple measures to frame the level of liquidity risk, manage the liquidity position, or identify related trends as early warning indicators. These measures include coverage ratios that measure the sufficiency of the liquidity portfolio and stability ratios that measure longer-term structural liquidity. In addition, we have established several internal management routines designed to review all aspects of liquidity and funding plans, evaluate the adequacy of liquidity buffers, review stress testing results, and assist senior management in the execution of its structured funding strategy and risk management accountabilities.

We maintain available liquidity in the form of cash, unencumbered highly liquid securities, and available credit facility capacity that, taken together, are intended to allow us to operate and to meet our contractual and contingent obligations in the event of market-wide disruptions and enterprise-specific events. We maintain available liquidity at various entities and consider regulatory restrictions and tax implications that may limit our ability to transfer funds across entities. For additional information about our regulatory restrictions and tax implications, refer to Business Certain Regulatory Matters and Note 25 to the Consolidated Financial Statements. At December 31, 2011, we maintained \$26.9 billion of total available parent company liquidity and \$10.0 billion of total available liquidity at Ally Bank. Parent company liquidity is defined as our consolidated operations less our Insurance operations, ResCap, and Ally Bank. To optimize cash and secured facility capacity between entities, the parent company lends cash to Ally Bank from time to time under an intercompany loan agreement. At December 31, 2011, \$4.9 billion was outstanding under the intercompany loan agreement. Amounts outstanding are repayable to the parent company upon demand, subject to five days notice. As a result, this amount is included in the parent company available liquidity and excluded from the available liquidity at Ally Bank in the above amounts.

Table of Contents

In December 2010, the Basel Committee on Banking Supervision issued Basel III: International framework for liquidity risk measurement, standards and monitoring, which includes two minimum liquidity risk standards. The first standard is the Liquidity Coverage Ratio (LCR). The LCR measures the ratio of unencumbered, high-quality liquid assets to liquidity needs for a 30-calendar-day time horizon under a severe liquidity stress scenario. The second standard is the Net Stable Funding Ratio (NSFR). The NSFR measures the ratio of stable funding with a maturity greater than one year to the liquidity characteristics of assets plus contingent exposures. The Basel Committee on Banking Supervision expects the LCR to be implemented beginning in January 2015 and the NSFR beginning in January 2018. We continue to monitor developments and the potential impact of these evolving proposals and expect to be able to meet the final requirements.

Funding Strategy

Our liquidity and ongoing profitability are largely dependent on our timely access to funding and the costs associated with raising funds in different segments of the capital markets and raising deposits. We continue to be focused on maintaining and enhancing our liquidity. Our funding strategy largely focuses on the development of diversified funding sources across a global investor base to meet all our liquidity needs throughout different market cycles, including periods of financial distress. These funding sources include unsecured debt capital markets, public and private asset-backed securitizations, whole-loan asset sales, domestic and international committed and uncommitted credit facilities, brokered certificates of deposits, and retail deposits. We also supplement these sources with a modest amount of short-term borrowings, including Demand Notes, unsecured bank loans, and repurchase arrangements. The diversity of our funding sources enhances funding flexibility, limits dependence on any one source, and results in a more cost-effective funding strategy over the long term. We evaluate funding markets on an ongoing basis to achieve an appropriate balance of unsecured and secured funding sources and the maturity profiles of both. In addition, we further distinguish our funding strategy between Ally Bank funding and parent company or nonbank funding.

In addition, the FDIC indicated that it expected us to diversify Ally Bank's overall funding in order to reduce reliance on any one source of funding and to achieve a well-balanced funding portfolio across a spectrum of risk, duration, and cost of funds characteristics. Over the past few years, we have been focused on diversifying our funding sources, in particular at Ally Bank by expanding its securitization programs, through both public and private committed credit facilities, extending the maturity profile of our brokered deposit portfolio while not exceeding a \$10 billion portfolio, establishing repurchase agreements, and continuing to access funds from the Federal Home Loan Banks.

Since 2009, we have been directing new bank-eligible assets in the United States to Ally Bank in order to reduce and minimize our nonbanking exposures and funding requirements and utilize our growing consumer deposit-taking capabilities. This has allowed us to use bank funding for a wider array of our automotive finance assets and to provide a sustainable long-term funding channel for the business, while also improving the cost of funds for the enterprise.

Ally Bank

Ally Bank raises deposits directly from customers through the direct banking channel via the internet and over the telephone. These deposits provide our automotive finance and mortgage loan operations with a stable and low-cost funding source. At December 31, 2011, Ally Bank had \$39.6 billion of total external deposits, including \$27.7 billion of retail deposits. We expect that our cost of funds will continue to improve over time as our deposit base grows.

At December 31, 2011, Ally Bank maintained cash liquidity of \$3.6 billion and highly liquid U.S. federal government and U.S. agency securities of \$6.3 billion, excluding certain securities that were encumbered at December 31, 2011. In addition, at December 31, 2011, Ally Bank had unused capacity in committed secured funding facilities of \$4.9 billion, including an equal allocation of shared unused capacity of \$2.5 billion from a

Table of Contents

facility also available to the parent company. Our ability to access this unused capacity depends on having eligible assets to collateralize the incremental funding and, in some instances, the execution of interest rate hedges.

Maximizing bank funding continues to be a key part of our long-term liquidity strategy. We have made significant progress in migrating assets to Ally Bank and growing our retail deposit base since becoming a bank holding company in December 2008. Retail deposit growth is key to further reducing our cost of funds and decreasing our reliance on the capital markets. We believe deposits provide a low-cost source of funds that are less sensitive to interest rate changes, market volatility, or changes in our credit ratings than other funding sources. We have continued to expand our deposit gathering efforts through our direct and indirect marketing channels. Current retail product offerings consist of a variety of savings products including certificates of deposits (CDs), savings accounts, money market accounts, IRA deposit products, as well as an online checking product. In addition, we utilize brokered deposits, which are obtained through third-party intermediaries. During 2011, the deposit base at Ally Bank grew \$5.7 billion, ending the year at \$39.6 billion from \$33.9 billion at December 31, 2010. The growth in deposits has been primarily attributable to our retail deposit portfolio. Strong retention rates continue to materially contribute to our growth in retail deposits. In the fourth quarter of 2011 and full year 2011, we retained 92% and 89% of maturing CD balances, respectively. In addition to retail and brokered deposits, Ally Bank had access to funding through a variety of other sources including FHLB advances, public securitizations, private secured funding arrangements, and the Federal Reserve's Discount Window. At December 31, 2011, debt outstanding from the FHLB totaled \$5.4 billion with no debt outstanding from the Federal Reserve. Also, as part of our liquidity and funding plans, Ally Bank utilizes certain securities as collateral to access funding from repurchase agreements with third parties. Repurchase agreements are generally short-term and often on an overnight basis. Funding from repurchase agreements is accounted for as debt on our Consolidated Balance Sheet. At December 31, 2011, and December 31, 2010, Ally Bank had no debt outstanding under repurchase agreements.

Refer to Note 15 to the Consolidated Financial Statements for a summary of deposit funding by type.

The following table shows Ally Bank's number of accounts and deposit balances by type as of the end of each quarter since 2010.

| | 4th Quarter 2011 | 3rd Quarter 2011 | 2nd Quarter 2011 | 1st Quarter 2011 | 4th Quarter 2010 | 3rd Quarter 2010 | 2nd Quarter 2010 | 1st Quarter 2010 |
|---------------------------|------------------------|------------------------|------------------------|------------------------|------------------------|------------------------|------------------------|------------------------|
| (\$ in millions) | | | | | | | | |
| Number of retail accounts | 976,877 | 919,670 | 851,991 | 798,622 | 726,104 | 676,419 | 616,665 | 573,388 |
| Deposits | | | | | | | | |
| Retail | \$ 27,685 | \$ 26,254 | \$ 24,562 | \$ 23,469 | \$ 21,817 | \$ 20,504 | \$ 18,690 | \$ 17,672 |
| Brokered | 9,890 | 9,911 | 9,903 | 9,836 | 9,992 | 9,978 | 9,858 | 9,757 |
| Other (a) | 2,029 | 2,704 | 2,405 | 2,064 | 2,108 | 2,538 | 2,267 | 1,914 |
| Total deposits | \$ 39,604 | \$ 38,869 | \$ 36,870 | \$ 35,369 | \$ 33,917 | \$ 33,020 | \$ 30,815 | \$ 29,343 |

(a) Other deposits include mortgage escrow and other deposits (excluding intercompany deposits).

In addition to building a larger deposit base, we continue to remain active in the securitization markets to finance our Ally Bank automotive loan portfolios. During 2011, Ally Bank completed 11 transactions and raised \$9.3 billion of secured funding backed by retail automotive loans as well as dealer floorplan automotive loans. Continued structural efficiencies in securitizations combined with improving capital market conditions have resulted in a reduction in the cost of funds achieved through secured funding transactions, making them a very attractive source of funding. Additionally, for retail automotive loans and leases, the term structure of the transaction locks in funding for a specified pool of loans and leases for the life of the underlying asset making a

Table of Contents

very effective funding program. Also in 2011, Ally Bank raised \$1.5 billion from whole-loan sales of U.S. retail automotive loans. We manage the execution risk arising from secured funding by maintaining a diverse investor base and maintaining capacity in our committed secured facilities. At December 31, 2011, Ally Bank had exclusive access to \$9.5 billion of funding capacity from committed credit facilities. Ally Bank also had access to a \$4.1 billion committed facility that is shared with the parent company.

Nonbank Funding

At December 31, 2011, the parent company maintained cash liquidity in the amount of \$7.9 billion and available liquidity from unused capacity in committed credit facilities of \$13.2 billion, including an equal allocation of shared unused capacity of \$2.5 billion from a facility also available to Ally Bank. Parent company funding is defined as our consolidated operations less our Insurance operations, ResCap, and Ally Bank. The unused capacity amount at December 31, 2011 also includes \$3.1 billion of availability that is expected to be utilized during 2012 and that is sourced from committed funding arrangements reliant upon the origination of future automotive receivables. Our ability to access unused capacity in secured facilities depends on the availability of eligible assets to collateralize the incremental funding and, in some instances, the execution of interest rate hedges. Funding sources at the parent company generally consist of longer-term unsecured debt, committed credit facilities, asset-backed securitizations, and a modest amount of short-term borrowings.

During 2011, we completed a total of \$3.8 billion in funding through the debt capital markets. We will continue to access the unsecured debt capital markets on an opportunistic basis to help pre-fund upcoming debt maturities. In addition, we offer short-term and long-term unsecured debt through a retail debt program known as SmartNotes. SmartNotes are floating-rate instruments with fixed-maturity dates ranging from 9 months to 30 years that we have issued through a network of participating broker-dealers. There were \$9.0 billion and \$9.8 billion of SmartNotes outstanding at December 31, 2011, and December 31, 2010, respectively.

We also obtain unsecured funding from the sale of floating-rate demand notes under our Demand Notes program. The holder has the option to require us to redeem these notes at any time without restriction. Demand Notes outstanding were \$2.8 billion at December 31, 2011, compared to \$2.0 billion at December 31, 2010. Unsecured short-term bank loans also provide short-term funding. At December 31, 2011, we had \$4.5 billion in short-term unsecured debt outstanding, an increase of \$0.3 billion from December 31, 2010. Refer to Note 16 and Note 17 to the Consolidated Financial Statements for additional information about our outstanding short-term borrowings and long-term unsecured debt, respectively.

Secured funding continues to be a significant source of financing at the parent company. In the United States, during 2011, we completed private securitization transactions that raised \$6.6 billion of funding, a \$1.3 billion whole-loan sale of retail automotive loans, and two private transactions that provided new committed capacity totaling \$4.5 billion. Internationally in 2011, we completed four term securitization transactions that raised \$2.0 billion and we completed numerous private transactions that created new committed capacity totaling \$7.8 billion. We continue to maintain significant credit capacity at the parent company to fund automotive-related assets, including a \$7.5 billion syndicated facility that can fund U.S. and Canadian automotive retail and commercial loans, as well as leases. In addition to this facility, there are a variety of others that provide funding in various countries. At December 31, 2011, there was a total of \$27.5 billion of committed capacity available exclusively for the parent company in various secured facilities around the globe.

Recent Funding Developments

In summary, during 2011, we completed funding transactions totaling over \$38 billion and we renewed key existing funding facilities as we realized access to both the public and private markets. Key funding highlights from 2011 and 2012 were as follows:

We issued \$3.8 billion of public term unsecured debt in 2011. In February 2012, we accessed the unsecured debt capital markets for the first time since the first half of 2011 and raised \$1.0 billion.

Table of Contents

We raised \$18.5 billion from the sale of asset-backed securities publicly and privately in multiple jurisdictions and raised \$2.8 billion from whole loan sales of U.S. retail automotive loans. In 2012, we have continued to access the public asset backed securitization markets completing two U.S. transactions that raised \$2.4 billion and a Canadian transaction that raised \$516 million.

We created \$13.3 billion of new funding capacity from the completion of new facilities and increases to existing facilities.

We renewed \$25.0 billion of key funding facilities that fund our Automotive Finance and Mortgage operations.

In March, we completed a key first step in our plan to repay the U.S. taxpayer. Treasury was repaid \$2.7 billion from the sale of all the Trust Preferred Securities that Treasury held with Ally. This represented the full value of Treasury's investment in these securities. Ally did not receive any proceeds from the offering of the Trust Preferred Securities.

Table of Contents**Funding Sources**

The following table summarizes debt and other sources of funding and the amount outstanding under each category for the periods shown.

As a result of our funding strategy to maximize funding sources at Ally Bank and grow our retail deposit base, the percentage of funding sources from Ally Bank has increased in 2011 from 2010 levels. In addition, deposits represent a larger portion of the overall funding mix.

| December 31, (\$ in millions) | Bank | Nonbank | Total | % |

(a) Primarily includes \$9.0 billion and \$9.8 billion of Ally SmartNotes at December 31, 2011 and 2010, respectively.

(b) Excludes fair value adjustment as described in Note 27 to the Consolidated Financial Statements.

(c) Bank deposits include retail, brokered, mortgage escrow, and other deposits. Nonbank deposits include dealer wholesale deposits and deposits at ResMor Trust. Intercompany deposits are not included.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Refer to Note 17 to the Consolidated Financial Statements for a summary of the scheduled maturity of long-term debt at December 31, 2011.

Table of Contents**Funding Facilities**

We utilize both committed and uncommitted credit facilities. The financial institutions providing the uncommitted facilities are not legally obligated to advance funds under them. The amounts outstanding under our various funding facilities are included on our Consolidated Balance Sheet.

The total capacity in our committed funding facilities is provided by banks and other financial institutions through private transactions. The committed secured funding facilities can be revolving in nature and allow for additional funding during the commitment period, or they can be amortizing and not allow for any further funding after the closing date. At December 31, 2011, \$32.0 billion of our \$43.1 billion of committed capacity was revolving. Our revolving facilities generally have an original tenor ranging from 364 days to two years. As of December 31, 2011, we had \$16.5 billion of committed funding capacity from revolving facilities with a remaining tenor greater than 364 days.

Committed Funding Facilities

| December 31, (\$ in billions) | Outstanding | | Unused capacity (a) | | Total capacity | |
|-----------------------------------|-------------|---------|---------------------|---------|----------------|---------|

Ally Bank Funding Facilities*Facilities for Automotive Finance Operations Secured*

At December 31, 2011, Ally Bank had exclusive access to \$9.5 billion of funding capacity from committed credit facilities. Ally Bank's largest facility is a \$7.5 billion revolving syndicated credit facility secured by automotive receivables. Half of this facility matures on March 28, 2012, with the remainder maturing on March 30, 2013. We are currently in the process of extending this entire facility for one year. At December 31, 2011, the amount outstanding under this facility was \$5.0 billion. Ally Bank also had access to a \$4.1 billion committed facility that is shared with the parent company. In the event these facilities are not renewed, the outstanding debt will be repaid over time as the underlying collateral amortizes.

Nonbank Funding Facilities*Facilities for Automotive Finance Operations Unsecured*

Revolving credit facilities At December 31, 2011, we maintained \$486 million of commitments in our U.S. unsecured revolving credit facility maturing June 2012. We also maintained \$268 million of committed unsecured bank facilities in Canada and \$67 million in Europe. The Canadian facilities expire in June 2012 and the European facility expires in March 2012.

Facilities for Automotive Finance Operations Secured

The parent company's largest facility is a \$7.5 billion revolving syndicated credit facility secured by U.S. and Canadian automotive receivables. Half of this facility matures on March 28, 2012, with the remainder maturing on March 30, 2013. We are currently in the process of extending this entire facility for one year. In the event this facility is not renewed at maturity, the outstanding debt will be repaid over time as the underlying collateral amortizes. At December 31, 2011, there was \$250 million of debt outstanding under this facility.

In addition to our syndicated revolving credit facility, we also maintain various bilateral and multilateral secured credit facilities in multiple countries that fund our Automotive Finance operations. These are primarily

Table of Contents

private securitization facilities that fund a specific pool of automotive assets. Many of the facilities have revolving commitments and allow for the funding of additional assets during the commitment period. At December 31, 2011, the parent company maintained exclusive access to \$27.5 billion of committed secured credit facilities and forward purchase commitments to fund automotive assets, and also had access to a \$4.1 billion committed facility that is shared with Ally Bank.

Facilities for Mortgage Operations Secured

At December 31, 2011, we had capacity of \$500 million to fund eligible mortgage servicing rights and capacity of \$475 million to fund mortgage servicer advances. We also maintain an additional \$250 million of committed capacity to fund mortgage loans.

Cash Flows

Net cash provided by operating activities was \$5.5 billion for the year ended December 31, 2011, compared to \$11.6 billion in 2010. During the year ended December 31, 2011, the net cash inflow from sales and repayments of mortgage and automobile loans held-for-sale exceeded cash outflow from new originations and purchases of such loans by \$0.9 billion. During the year ended December 31, 2010, this activity resulted in cash inflow of \$6.3 billion.

Net cash used in investing activities was \$14.1 billion for the year ended December 31, 2011, compared to \$7.6 billion used in 2010. The cash outflow to purchase operating lease assets exceeded cash inflows from disposals of such assets by \$1.0 billion for the year ended December 31, 2011. These activities resulted in a net cash inflow of \$5.1 billion for the year ended December 31, 2010. The shift in net cash flow attributable to leasing activities compared to the prior year was primarily due to a year over year increase in lease origination activity. Cash used to purchase available-for-sale investment securities, net of sales and maturities, decreased \$1.5 billion during the year ended December 31, 2011, compared to 2010.

Net cash provided by financing activities for the year ended December 31, 2011, totaled \$10.1 billion, compared to net cash used of \$8.0 billion in 2010. Cash generated from long-term debt issuances exceeded cash used to repay such debt by \$4.3 billion for the year ended December 31, 2011. For the comparable period in 2010, cash repayments exceeded proceeds from new issuances of long-term debt by \$10.5 billion. Also contributing to the increase in cash inflow was an increase in short-term borrowing obligations of \$4.1 billion for the year ended December 31, 2011, compared to 2010.

Capital Planning and Stress Tests

In December 2011, Ally became subject to a new capital planning and stress test regime generally applicable to bank holding companies with \$50 billion or more of consolidated assets. The new regime requires Ally to conduct periodic stress tests and submit a proposed capital action plan to the FRB every January, which the FRB must take action on by the following March. The proposed capital action plan must include a description of all planned capital actions over a nine-quarter planning horizon, including any issuance of a debt or equity capital instrument, any capital distribution, and any similar action that the FRB determines could have an impact on Ally's consolidated capital. The proposed capital action plan must also include a discussion of how Ally will maintain capital above the minimum regulatory capital ratios and above a Tier 1 common equity-to-total risk-weighted assets ratio of 5 percent, and serve as a source of strength to Ally Bank. The FRB must approve Ally's proposed capital action plan before Ally may take any proposed capital action covered by the new regime. Ally submitted its capital plan in January 2012, and on March 13, 2012, the FRB released its Comprehensive Capital Analysis and Review which required us to submit a revised capital plan in the near future. It is unknown whether the FRB will accept Ally's revised plan as submitted or require further revisions.

Regulatory Capital

Refer to Note 23 to the Consolidated Financial Statements.

Table of Contents
Credit Ratings

The cost and availability of unsecured financing are influenced by credit ratings, which are intended to be an indicator of the creditworthiness of a particular company, security, or obligation. Lower ratings result in higher borrowing costs and reduced access to capital markets. This is particularly true for certain institutional investors whose investment guidelines require investment-grade ratings on term debt and the two highest rating categories for short-term debt (particularly money market investors).

Nationally recognized statistical rating organizations have rated substantially all our debt. The following table summarizes our current ratings and outlook by the respective nationally recognized rating agencies.

| | Rating agency | Commercial paper | Senior debt | Outlook | Date of last action |
|---------|----------------------|-------------------------|--------------------|----------------|----------------------------|
| Fitch | | B | BB- | Negative | February 2, 2012 (a) |
| Moody's | | Not-Prime | B1 | Stable | February 7, 2011 (b) |
| S&P | | C | B+ | Stable | May 4, 2011 (c) |
| DBRS | | R-4 | BB-Low | Positive | February 4, 2011 (d) |

- (a) Fitch downgraded our senior debt to BB- from BB, affirmed the commercial paper rating of B, and changed the outlook to Negative on February 2, 2012.
- (b) Moody's upgraded our senior debt rating to B1 from B3, affirmed the commercial paper rating of Not-Prime, and affirmed the outlook of Stable on February 7, 2011.
- (c) Standard & Poor's upgraded our senior debt rating to B+ from B, affirmed the commercial paper rating of C, and affirmed the outlook of Stable on May 4, 2011.
- (d) DBRS affirmed our senior debt rating of BB-Low, affirmed the commercial paper rating of R-4, and changed the outlook to Positive on February 4, 2011.

Insurance Financial Strength Ratings

Substantially all of our U.S. Insurance operations have a Financial Strength Rating (FSR) and an Issuer Credit Rating (ICR) from A.M. Best Company. The FSR is intended to be an indicator of the ability of the insurance company to meet its senior most obligations to policyholders. Lower ratings generally result in fewer opportunities to write business as insureds, particularly large commercial insureds, and insurance companies purchasing reinsurance have guidelines requiring high FSR ratings. Our Insurance operations outside the United States are not rated.

On July 20, 2010, A.M. Best removed our U.S. insurance companies from under review with developing implications and affirmed the FSR of B++ (good) and the ICR of BBB.

Off-balance Sheet Arrangements

Refer to Note 11 to the Consolidated Financial Statements.

Securitization

Securitization of assets allows us to diversify funding sources by enabling us to convert assets into cash earlier than what would have occurred in the normal course of business. Information regarding our securitization activities is further described in Note 11 to the Consolidated Financial Statements. As part of these activities, assets are generally sold to securitization entities. These securitization entities are separate legal entities that assume the risk and reward of ownership of the receivables. Neither we nor those subsidiaries are responsible for the other entities' debts, and the assets of the subsidiaries are not available to satisfy our claim or those of our

Table of Contents

creditors. In turn, the securitization entities establish separate trusts to which they transfer the assets in exchange for the proceeds from the sale of asset- or mortgage-backed securities issued by the trust. The trusts' activities are generally limited to acquiring the assets, issuing asset- or mortgage-backed securities, making payments on the securities, and periodically reporting to the investors. We may account for the transfer of assets as a sale if we either do not hold a significant variable interest or do not provide servicing or asset management functions for the financial assets held by the securitization entity.

Certain of our securitization transactions, while similar in legal structure to the transaction described in the foregoing do not meet the required criteria to be accounted for as off-balance sheet arrangements; therefore, they are accounted for as secured financings. As secured financings, the underlying automobile finance retail contracts, wholesale loans, automobile leases, or mortgage loans remain on our Consolidated Balance Sheet with the corresponding obligation (consisting of the beneficial interests issued by the securitization entity) reflected as debt. We recognize interest income on the finance receivables, automobile leases and loans, and interest expense on the beneficial interests issued by the securitization entity; and we provide for loan losses on the finance receivables and loans as incurred or adjust to fair value for fair value-elected loans. At December 31, 2011 and 2010, \$78.5 billion and \$72.6 billion of our total assets, respectively, were related to secured financings. Refer to Note 17 to the Consolidated Financial Statements for further discussion.

As part of our securitization activities, we typically agree to service the transferred assets for a fee, and we may earn other related ongoing income. The amount of the fees earned is disclosed in Note 12 to the Consolidated Financial Statements. We may also retain a portion of senior and subordinated interests issued by the trusts; these interests are reported as trading assets, investment securities, or other assets on our Consolidated Balance Sheet and are disclosed in Notes 6, 7, and 14 to the Consolidated Financial Statements. For secured financings, retained interests are not recognized as a separate asset on our Consolidated Balance Sheet. Subordinate interests typically provide credit support to the more highly rated senior interest in a securitization transaction and may be subject to all or a portion of the first loss position related to the sold assets.

The FDIC, which regulates Ally Bank, promulgated a new safe harbor regulation for securitizations by banks which took effect on January 1, 2011. Compliance with this regulation requires the sponsoring bank to retain either five percent of each class of beneficial interests issued in the securitization or a representative sample of similar financial assets equal to five percent of the securitized financial assets. The retained interests or assets must be held for the life of the securitization and may not be sold, pledged or hedged, except that interest rate and currency hedging is permitted. This risk retention requirement adversely affects the efficiency of securitizations, because it reduces the amount of funds that can be raised against a given pool of financial assets.

We sometimes use derivative financial instruments to facilitate securitization activities, as further described in Note 24 to the Consolidated Financial Statements.

Our economic exposure related to the securitization trusts is generally limited to cash reserves, our other interests retained in financial asset sales, and our customary representation and warranty provisions described in Note 11 to the Consolidated Financial Statements. The trusts have a limited life and generally terminate upon final distribution of amounts owed to investors or upon exercise by us, as servicer of a cleanup call option, when the servicing of the sold contracts becomes burdensome. In addition, the trusts do not invest in our equity or in the equity of any of our affiliates.

Purchase Obligations

Certain of the structures related to whole-loan sales, securitization transactions, and other off-balance sheet activities contain provisions that are standard in the whole-loan sale and securitization markets where we may (or, in certain limited circumstances, are obligated to) purchase specific assets from entities. Our obligations are as follows.

Table of Contents*Loan Repurchases and Obligations Related to Loan Sales*

Overview Certain mortgage companies (Mortgage Companies) within our Mortgage operations sell loans that take the form of securitizations guaranteed by the GSEs, securitizations to private investors, and to whole-loan investors. In connection with a portion of our Mortgage Companies' private-label securitizations, the monolines insured all or some of the related bonds and guaranteed timely repayment of bond principal and interest when the issuer defaults. In connection with securitizations and loan sales, the trustee for the benefit of the related security holders and, if applicable, the related monoline insurer, are provided various representations and warranties related to the loans sold. The specific representations and warranties vary among different transactions and investors but typically relate to, among other things, the ownership of the loan, the validity of the lien securing the loan, the loan's compliance with the criteria for inclusion in the transaction, including compliance with underwriting standards or loan criteria established by the buyer, the ability to deliver required documentation and compliance with applicable laws. In general, the representations and warranties described above may be enforced against the applicable Mortgage Companies at any time unless a sunset provision is in place. Upon discovery of a breach of a representation or warranty, the breach is corrected in a manner conforming to the provisions of the sale agreement. This may require the applicable Mortgage Companies to repurchase the loan, indemnify the investor for incurred losses, or otherwise make the investor whole. We have entered into settlement agreements with both Fannie Mae and Freddie Mac that, subject to certain exclusions, limit our remaining exposure with the GSEs. See Government-sponsored Enterprises below. ResCap assumes all of the customary mortgage representation and warranty obligations for loans purchased from Ally Bank and subsequently sold into the secondary market, generally through securitizations guaranteed by the GSEs. In the event ResCap fails to meet these obligations, Ally Financial Inc. has provided Ally Bank a guaranteed coverage of certain of these liabilities.

Originations The total exposure of the applicable Mortgage Companies to mortgage representation and warranty claims is most significant for loans originated and sold between 2004 through 2008, specifically the 2006 and 2007 vintages that were originated and sold prior to enhanced underwriting standards and risk-mitigation actions implemented in 2008 and forward. Since 2009, we have focused primarily on originating domestic prime conforming and government-insured mortgages. In addition, we ceased offering interest-only jumbo mortgages in 2010. Representation and warranty risk-mitigation strategies include, but are not limited to, pursuing settlements with investors where economically beneficial in order to resolve a pipeline of demands in lieu of loan-by-loan assessments that could result in repurchasing loans, aggressively contesting claims we do not consider valid (rescinding claims), or seeking recourse against correspondent lenders from whom we purchased loans wherever appropriate.

The following table summarizes domestic mortgage loans sold with contractual representation and warranty obligations by the type of investor (original unpaid principal balance).

| Year ended December 31, (\$ in billions) | 2011 | 2010 | 2009 | 2008 | 2007 | 2006 | 2005 | 2004 |
|--|----------------|----------------|----------------|----------------|----------------|-----------------|-----------------|-----------------|
| GSEs | | | | | | | | |
| Fannie Mae | \$ 33.9 | \$ 35.3 | \$ 21.2 | \$ 24.9 | \$ 31.6 | \$ 33.5 | \$ 31.8 | \$ 30.5 |
| Freddie Mac | 15.8 | 15.7 | 8.7 | 12.3 | 15.5 | 12.6 | 16.1 | 13.7 |
| Ginnie Mae | 8.1 | 16.2 | 24.9 | 12.5 | 3.2 | 3.6 | 4.2 | 4.8 |
| Private-label securitizations | | | | | | | | |
| Insured (monolines) | | | | | 6.5 | 10.7 | 10.4 | 15.1 |
| Uninsured | | 0.3 | | | 29.1 | 63.6 | 53.5 | 35.9 |
| Whole-loan/other | 0.4 | 1.6 | 0.1 | 2.2 | 8.2 | 23.9 | 17.4 | 10.9 |
| Total sales | \$ 58.2 | \$ 69.1 | \$ 54.9 | \$ 51.9 | \$ 94.1 | \$ 147.9 | \$ 133.4 | \$ 110.9 |

Repurchase Process After receiving a claim under representation and warranty obligations, the applicable Mortgage Companies will review the claim to determine the appropriate response (e.g. appeal and provide or

Table of Contents

request additional information) and take appropriate action (rescind, repurchase the loan, or remit indemnification payment). Historically, repurchase demands were generally related to loans that became delinquent within the first few years following origination. As a result of market developments over the past several years, investor repurchase demand behavior has changed significantly. GSEs and investors are more likely to submit claims for loans at any point in their life cycle, including requests for loans that become delinquent or loans that incur a loss. Investors are more likely to submit claims for loans that become delinquent at any time while a loan is outstanding or when a loan incurs a loss. Representation and warranty claims are generally reviewed on a loan-by-loan basis to validate if there has been a breach requiring a potential repurchase or indemnification payment. The applicable Mortgage Companies actively contest claims to the extent they are not considered valid. The applicable Mortgage Companies are not required to repurchase a loan or provide an indemnification payment where claims are not valid.

During the year ended December 31, 2011, we experienced a decrease in new claims compared to 2010, in part due to settlements with certain counterparties. The following table presents new claims by vintage (original unpaid principal balance).

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|---|---------------|-----------------|
| 2004 and prior period | \$ 36 | \$ 46 |
| 2005 | 43 | 58 |
| 2006 | 291 | 235 |
| 2007 | 116 | 461 |
| 2008 | 147 | 255 |
| Post 2008 | 157 | 60 |
| Unspecified | | 4 |
| Total claims (a) | \$ 790 | \$ 1,119 |

(a) Excludes certain populations where counterparties have requested additional information.

The risk of repurchase or indemnification and the associated credit exposure is managed through underwriting and quality assurance practices and by servicing mortgage loans to meet investor standards. We believe that, in general, the longer a loan performs prior to default the less likely it is that an alleged breach of representation and warranty will be found to have a material and adverse impact on the loan's performance. When loans are repurchased, the applicable Mortgage Companies bear the related credit loss on the loans. Repurchased loans are classified as held-for-sale and initially recorded at fair value.

Refer to Note 31 to the Consolidated Financial Statements for additional information related to representation and warranties.

The following table summarizes the unpaid principal balance on mortgage loans repurchased in connection with our representation and warranty obligations.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|---|---------------|---------------|
| GSEs | \$ 143 | \$ 389 |
| Private-label securitizations | | |
| Insured (monolines) | 1 | 13 |
| Uninsured | 37 | |
| Whole-loan/other | 9 | 82 |
| Total loan repurchases | \$ 190 | \$ 484 |

Table of Contents

The following table summarizes indemnification payments made in connection with our representation and warranty obligations.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|--|--------|--------|
| GSEs | \$ 59 | \$ 228 |
| Private-label securitizations | | |
| Insured (monolines) | 13 | 27 |
| Uninsured | 167 | |
| Whole-loan/other | 26 | 11 |
| Total indemnification payments | \$ 265 | \$ 266 |

The following table presents the total number and original unpaid principal balance of loans related to unresolved representation and warranty demands (indemnification claims or repurchase demands). The table includes demands that we have requested be rescinded but which have not been agreed to by the investor.

| December 31, (\$ in millions) | 2011 | | 2010 | |
|--|-----------------|------------------------|-----------------|------------------------|
| | Number of loans | Dollar amount of loans | Number of loans | Dollar amount of loans |
| GSEs | 357 | \$ 71 | 833 | \$ 170(a) |
| Monolines | | | | |
| MBIA | 7,314 | 490 | 6,819 | 466 |
| FGIC | 4,608 | 369 | 1,109 | 164 |
| Other | 730 | 58 | 278 | 31 |
| Whole-loan/other | 513 | 81 | 392 | 88 |
| Total number of loans and unpaid principal balance (b) | 13,522 | \$ 1,069 | 9,431 | \$ 919 |

(a) This amount is gross of any loans that would be removed due to the Fannie Mae settlement. At December 31, 2010, \$48 million of outstanding claims were covered under the Fannie Mae settlement agreement.

(b) Excludes certain populations where counterparties have requested additional documentation.

We are currently in litigation with MBIA Insurance Corporation (MBIA) and Financial Guaranty Insurance Company (FGIC) with respect to certain of their private-label securitizations. Historically we have requested that most of the repurchase demands presented to us by both MBIA and FGIC be rescinded, consistent with the repurchase process described above. As the litigation process proceeds, additional loan reviews are expected and will likely result in additional repurchase demands.

Representation and Warranty Obligation Reserve Methodology The liability for representation and warranty obligations reflects management's best estimate of probable lifetime losses at the applicable Mortgage Companies. We consider historical and recent demand trends in establishing the reserve. The methodology used to estimate the reserve considers a variety of assumptions including borrower performance (both actual and estimated future defaults), repurchase demand behavior, historical loan defect experience, historical mortgage insurance rescission experience, and historical and estimated future loss experience, which includes projections of future home price changes as well as other qualitative factors including investor behavior. In cases where we do not have or have limited current or historical demand experience with an investor, it is difficult to predict and estimate the level and timing of any potential future demands. In such cases, we may not be able to reasonably estimate losses, and a liability is not recognized. Management monitors the adequacy of the overall reserve and makes adjustments to the level of reserve, as necessary, after consideration of other qualitative factors including ongoing dialogue and experience with counterparties.

Table of Contents

At the time a loan is sold, an estimate of the fair value of the liability is recorded and classified in accrued expenses and other liabilities on our Consolidated Balance Sheet and recorded as a component of gain (loss) on mortgage and automotive loans, net, in our Consolidated Statement of Income. We recognize changes in the liability when additional relevant information becomes available. Changes in the liability are recorded as other operating expenses in our Consolidated Statement of Income. The repurchase reserve at December 31, 2011, relates primarily to non-GSE exposure.

Government-sponsored Enterprises Between 2004 and 2008, the applicable Mortgage Companies sold \$250.8 billion of loans to the GSEs. Each GSE has specific guidelines and criteria for sellers and servicers of loans underlying their securities. In addition, the risk of credit loss of the loan sold was generally transferred to investors upon sale of the securities into the secondary market. Conventional conforming loans were sold to either Freddie Mac or Fannie Mae, and government-insured loans were securitized with Ginnie Mae. For the year ended December 31, 2011, the applicable Mortgage Companies received repurchase claims relating to \$441 million of original unpaid principal balance of which \$285 million are associated with the 2004 through 2008 vintages. The remaining \$156 million in repurchase claims relate to post-2008 vintages. During the year ended December 31, 2011, the applicable Mortgage Companies resolved claims with respect to \$540 million of original unpaid principal balance, including settlement, repurchase, or indemnification payments related to \$349 million of original unpaid principal balance, and rescinded claims related to \$191 million of original unpaid principal balance. The applicable Mortgage Companies' representation and warranty obligation liability with respect to the GSEs considers the existing unresolved claims and the best estimate of future claims that could be received. The Mortgage Companies consider their experience with the GSE in evaluating its liability. During 2010, we reached agreements with Freddie Mac and Fannie Mae that, subject to certain exclusions, limits the remaining exposure of the applicable Mortgage Companies to each counterparty.

In March 2010, certain of our Mortgage Companies entered into an agreement with Freddie Mac under which we made a one-time payment to Freddie Mac for the release of repurchase obligations relating to most of the mortgage loans sold to Freddie Mac prior to January 1, 2009. This agreement does not release obligations of the applicable Mortgage Companies with respect to exposure for private-label mortgage-backed securities (MBS) in which Freddie Mac had previously invested, loans where Ally Bank is the owner of the servicing, as well as defects in certain other specified categories of loans. Further, the applicable Mortgage Companies continue to be responsible for other contractual obligations we have with Freddie Mac, including all indemnification obligations that may arise in connection with the servicing of the mortgages. The total original unpaid principal balance of loans originated prior to January 1, 2009 and where Ally Bank was the owner of the servicing was \$10.9 billion. For the year ended December 31, 2011, the amount of losses taken on loans repurchased relating to defects where Ally Bank was the owner of the servicing was \$31 million and the amount of losses taken on loans that we have repurchased relating to defects in the other specified categories was \$15 million. These other specified categories include (i) loans subject to certain state predatory lending and similar laws; (ii) groups of 25 or more mortgage loans purchased, originated, or serviced by one of our mortgage subsidiaries, the purchase, origination, or sale of which all involve a common actor who committed fraud; (iii) non-loan-level representations and warranties which refer to representations and warranties that do not relate to specific mortgage loans (examples of such non-loan-level representations and warranties include the requirement that our mortgage subsidiaries meet certain standards to be eligible to sell or service loans for Freddie Mac or our mortgage subsidiaries sold or serviced loans for market participants that were not acceptable to Freddie Mac); and (iv) mortgage loans that are ineligible for purchase by Freddie Mac under its charter and other applicable documents. If, however, a mortgage loan was ineligible under Freddie Mac's charter solely because mortgage insurance was rescinded (rather than for example, because the mortgage loan is secured by a commercial property), and Freddie Mac required our mortgage subsidiary to repurchase that loan because of the ineligibility, Freddie Mac would pay our mortgage subsidiary any net loss we suffered on any later liquidation of that mortgage loan.

Certain of our Mortgage Companies received subpoenas in July 2010 from the Federal Housing Finance Agency (FHFA), which is the conservator of Fannie Mae and Freddie Mac. The subpoenas relating to Fannie Mae investments have been withdrawn with prejudice. The FHFA indicated that documents provided in response

Table of Contents

to the remaining subpoenas will enable the FHFA to determine whether they believe issuers of private-label MBS are potentially liable to Freddie Mac for losses they might have incurred. Although Freddie Mac has not brought any representation and warranty claims against us with respect to private-label securities subsequent to the settlement, they may well do so in the future. The FHFA has commenced securities and related common law fraud litigation against Ally and certain of our Mortgage Companies with respect to certain of Freddie Mac's private-label securities investments. Refer to the Legal Proceedings described in Note 31 to the Consolidated Financial Statements for additional information.

On December 23, 2010, certain of our mortgage subsidiaries entered into an agreement with Fannie Mae under which we made a one-time payment to Fannie Mae for the release of repurchase obligations related to most of the mortgage loans we sold to Fannie Mae prior to June 30, 2010. The agreement also covers potential exposure for private-label MBS in which Fannie Mae had previously invested. This agreement does not release the obligations of the applicable Mortgage Companies with respect to loans where Ally Bank is the owner of the servicing, as well as for defects in certain other specified categories of loans. Further, the applicable Mortgage Companies continue to be responsible for other contractual obligations they have with Fannie Mae, including all indemnification obligations that may arise in connection with the servicing of the mortgages, and the applicable Mortgage Companies continue to be obligated to indemnify Fannie Mae for litigation or third party claims (including by borrowers) for matters that may amount to breaches of selling representations and warranties. The total original unpaid principal balance of loans originated prior to January 1, 2009 and where Ally Bank was the owner of the servicing was \$24.4 billion. For the year ended December 31, 2011, the amount of losses we have taken on loans that we have repurchased relating to defects where Ally Bank was the owner of the servicing was \$66 million and the amount of losses we have taken on loans that we have repurchased relating to defects in the other specified categories of loans was \$13 million. These other specified categories include, among others, (i) those that violate anti-predatory laws or statutes or related regulations or that otherwise violate other applicable laws and regulations; (ii) those that have non-curable defects in title to the secured property, or that have curable title defects, to the extent our mortgage subsidiaries do not cure such defects at our subsidiary's expense; (iii) any mortgage loan in which title or ownership of the mortgage loan was defective; (iv) groups of 13 or more mortgage loans, the purchase, origination, sale, or servicing of which all involve a common actor who committed fraud; and (v) mortgage loans not in compliance with Fannie Mae Charter Act requirements (e.g., mortgage loans on commercial properties or mortgage loans without required mortgage insurance coverage). If a mortgage loan falls out of compliance with Fannie Mae Charter Act requirements because mortgage insurance coverage has been rescinded and not reinstated or replaced, upon the borrower's default our mortgage subsidiaries would have to pay to Fannie Mae the amount of insurance proceeds that would have been paid by the mortgage insurer with respect to such mortgage loan. If the amount of the loss exceeded the amount of insurance proceeds, Fannie Mae would be responsible for such excess.

The following table summarizes the changes in the original unpaid principal balance related to unresolved repurchase demands with respect to our GSE exposure. The table includes demands that we have requested be rescinded but which have not been agreed to by the investor.

| <i>(\$ in millions)</i> | 2011 | 2010 |
|-------------------------|-------------|-------------|
| Balance at January 1, | \$ 170 | \$ 296 |
| New claims (a) | 441 | 842 |
| Resolved claims (b) | (349) | (756) |
| Rescinded claims/other | (191) | (212) |
| Balance at December 31, | \$ 71 | \$ 170 |

(a) Excludes certain populations where counterparties have requested additional documentation.

(b) Includes losses, settlements, impairments on repurchased loans, and indemnification payments.

Table of Contents

Monoline Insurers Historically, the applicable Mortgage Companies securitized loans where the monolines insured all or some of the related bonds and guaranteed the timely repayment of bond principal and interest when the issuer defaults. Typically, any alleged breach requires the insurer to have both the ability to assert a claim as well as evidence that a defect has had a material and adverse effect on the interest of the security holders or the insurer. For the period 2004 through 2007, the Mortgage Companies sold \$42.7 billion of loans into these monoline-wrapped securitizations. During the year ended December 31, 2011, the Mortgage Companies received repurchase claims related to \$265 million of original unpaid principal balance from the monolines associated with the 2004 through 2007 securitizations. The Mortgage Companies have resolved repurchase demands through indemnification payments related to \$20 million of original unpaid principal balance.

We are currently in litigation with MBIA and FGIC, and additional litigation with other monolines is likely. Refer to Note 31 to the Consolidated Financial Statements for information with respect to pending litigation.

The following table summarizes the changes in our original unpaid principal balance related to unresolved repurchase demands with respect to our monoline exposure. The table includes demands that we have requested be rescinded but which have not been agreed to by the investor.

| <i>(\$ in millions)</i> | 2011 | 2010 |

| Resolved claims (b) | (20) | (36) |
| Rescinded claims/other | 11 | (7) |
| Balance at December 31, | \$ 917 | \$ 661 |

(a) Excludes certain populations where counterparties have requested additional documentation.

(b) Includes losses, settlements, impairments on repurchased loans, and indemnification payments.

Private-label Securitization Historically, our Mortgage operations were very active in the securitization market selling whole loans into special-purpose entities and selling these private-label MBS to investors.

The following table summarizes the original unpaid principal balance of our domestic uninsured private-label mortgage securitization activity issued from various shelf registration statements of our subsidiaries and its corresponding majority product type and current unpaid principal balance for securitizations completed during 2004 through 2007.

| <i>(\$ in billions)</i> | Original UPB | Current UPB at December 31, 2011 | UPB at December 31, 2010 |
|-----------------------------|---------------------|---|---|
| RFMSI (Prime) | \$ 21.8 | \$ 8.3 | \$ 10.0 |
| RALI (Option ARM and Alt-A) | 66.7 | 26.2 | 30.7 |
| RAMP (HELOC and Subprime) | 55.9(a) | 12.9 | 15.0 |
| RASC (Subprime) | 36.8 | 8.0 | 9.0 |
| RFMSII (HELOC) | 0.9 | 0.3 | 0.3 |
| Total | \$ 182.1 | \$ 55.7 | \$ 65.0 |

(a) RAMP original unpaid principal balance comprises \$37.7 billion subprime, \$8.8 billion prime, and \$9.4 billion other.

Table of Contents

The following table summarizes the original unpaid principal balance of our domestic insured private-label mortgage securitization activity issued from various shelf registration statements of our Mortgage Subsidiaries and its corresponding majority product type and current unpaid principal balance for securitizations completed during 2004 through 2007.

| <i>(\$ in billions)</i> | Original UPB | Current UPB at December 31, 2011 | UPB at December 31, 2010 |
|-----------------------------|--------------|--|--------------------------------|
| RFMSI (Prime) | \$ 1.7 | \$ 0.5 | \$ 0.6 |

| RAMP (HELOC and Subprime) | 26.5 | 6.3 | 7.3 |
| RASC (Subprime) | 3.6 | 0.6 | 0.7 |
| RFMSII (HELOC) | 9.5 | 2.1 | 2.6 |
| Total | \$ 42.7 | \$ 10.1 | \$ 11.9 |

In general, representations and warranties provided as part of our securitization activities are less rigorous than those provided to the GSEs and generally impose higher burdens on parties seeking repurchase. In order to successfully assert a claim, it is our position that a claimant must prove a breach of the representations and warranties that materially and adversely affects the interest of the investor in the allegedly defective loan. Securitization documents typically provide the investors with a right to request that the trustee investigate and initiate a repurchase claim. However, a class of investors generally is required to coordinate with other investors in that class comprising not less than 25%, and in some cases, 50%, of the percentage interest constituting a class of securities of that class issued by the trust to pursue claims for breach of representations and warranties. In addition, our private-label securitizations generally require that the servicer or trustee give notice to the other parties whenever it becomes aware of facts or circumstances that reveal a breach of representation that materially and adversely affects the interest of the certificate holders.

Regarding our securitization activities, certain of our Mortgage Companies have exposure to potential losses primarily through two avenues. First, investors, through trustees to the extent required by the applicable agreements (or monoline insurers in certain transactions), may request pursuant to applicable agreements that the applicable Mortgage Company repurchase loans or make the investor whole for losses incurred if it is determined that the applicable Mortgage Company violated representations and warranties made at the time of the sale, provided that such violations materially and adversely impacted the interests of the investor. Contractual representations and warranties are different based on the specific deal structure and investor. It is our position that litigation of these matters must proceed on a loan by loan basis. This issue is being disputed throughout the industry in various pending litigation matters. Similarly in dispute, as a matter of law, is the degree to which claimants will have to prove that the alleged breaches of representations and warranties actually caused the losses they claim to have suffered. Ultimate resolution by courts of these and other legal issues will impact litigation and treatment of non-litigated claims pursuant to similar contractual provisions. Second, investors in securitizations may attempt to achieve rescission of their investments or damages through litigation by claiming that the applicable offering documents were materially deficient. If an investor properly made and proved its allegations, the investor might attempt to claim that damages could include loss of market value on the investment even if there were little or no credit loss in the underlying loans.

Whole-loan Sales In addition to the settlements with the GSEs noted earlier, certain of our Mortgage Companies have settled with whole-loan investors concerning alleged breaches of underwriting standards. For the year ended December 31, 2011, certain of our Mortgage Companies have received \$84 million of original unpaid principal balance in repurchase claims of which \$83 million are associated with the 2004 through 2008 vintages of loans sold to whole-loan investors. Certain of our Mortgage Companies resolved claims related to \$91 million of original unpaid principal balance, including settlements, repurchases, indemnification payments, and rescinded claims.

Table of Contents

The following table summarizes the changes in the original unpaid principal balance related to unresolved repurchase demands with respect to our whole-loan sales exposure.

| <i>(\$ in millions)</i> | 2011 | 2010 |
|-----------------------------|-------------|-------------|
| Balance at January 1, | \$ 88 | \$ 70 |
| New claims (a) | 84 | 126 |
| Resolved claims (b) | (34) | (44) |
| Rescinded claims/other | (57) | (64) |
| Balance at December 31, | \$ 81 | \$ 88 |

(a) Excludes certain populations where counterparties have requested additional documentation.

(b) Includes losses, settlements, impairments on repurchased loans, and indemnification payments.

Private Mortgage Insurance

Mortgage insurance is required for certain consumer mortgage loans sold to the GSEs and certain securitization trusts and may have been in place for consumer mortgage loans sold to whole-loan investors. Mortgage insurance is typically required for first-lien consumer mortgage loans having a loan-to-value ratio at origination of greater than 80 percent. Mortgage insurers are, in certain circumstances, permitted to rescind existing mortgage insurance that covers consumer loans if they demonstrate certain loan underwriting requirements have not been met. Upon receipt of a rescission notice, the applicable Mortgage Companies will assess the notice and, if appropriate, refute the notice, or if the notice cannot be refuted, the applicable Mortgage Companies attempt to remedy the defect. In the event the mortgage insurance cannot be reinstated, the applicable Mortgage Companies may be obligated to repurchase the loan or provide an indemnification payment in the event of a loss, subject to contractual limitations. While the applicable Mortgage Companies make every effort to reinstate the mortgage insurance, they have had limited success and as a result, most of these requests result in rescission of the mortgage insurance. At December 31, 2011, the applicable Mortgage Companies have approximately \$227 million in original unpaid principal balance of outstanding mortgage insurance rescission notices where we have not received a repurchase demand. However, this unpaid principal amount is not representative of expected future losses.

Private-label Mortgage-backed Securities Litigation, Repurchase Obligations, and Related Claims

We believe it is reasonably possible that losses beyond amounts currently reserved for the litigation matters described in Note 31 to the Consolidated Financial Statements and potential repurchase obligations and related claims with respect to our Mortgage Companies discussed above could occur, and such losses could have a material adverse impact on our results of operations, financial position, or cash flows. However, based on currently available information, we are unable to estimate a range of reasonably possible losses above reserves that have been established.

Guarantees

Guarantees are defined as contracts or indemnification agreements that contingently require us to make payments to third parties based on changes in an underlying agreement that is related to a guaranteed party. Our guarantees include standby letters of credit and certain contract provisions regarding securitizations and sales. Refer to Note 30 to the Consolidated Financial Statements for more information regarding our outstanding guarantees to third parties.

Table of Contents**Aggregate Contractual Obligations**

The following table provides aggregated information about our outstanding contractual obligations disclosed elsewhere in our Consolidated Financial Statements.

| December 31, 2011 (\$ in millions) | Total | Payments due by period | | | |
|--|------------|------------------------|-----------|-----------|-------------------|
| | | Less than 1 year | 1-3 years | 3-5 years | More than 5 years |
| Description of obligation | | | | | |
| Long-term debt | | | | | |
| Total (a) | \$ 93,930 | \$ 26,535 | \$ 34,407 | \$ 11,292 | \$ 21,696 |
| Scheduled interest payments for fixed-rate long-term debt | 26,286 | 3,434 | 4,542 | 3,655 | 14,655 |
| Estimated interest payments for variable-rate long-term debt (b) | 1,516 | 594 | 864 | 52 | 6 |
| Estimated net payments under interest rate swap agreements (b) | 72 | | | | 72 |
| Originate/purchase mortgages or securities | 6,741 | 6,672 | | | 69 |
| Commitments to provide capital to investees | 56 | 35 | 3 | 8 | 10 |
| Home equity lines of credit | 2,234 | 207 | 654 | 502 | 871 |
| Lending commitments | 2,322 | 1,289 | 671 | 339 | 23 |
| Lease commitments | 316 | 83 | 129 | 67 | 37 |
| Purchase obligations | 777 | 291 | 418 | 47 | 21 |
| Bank certificates of deposit | 30,498 | 15,571 | 8,815 | 6,112 | |
| Total | \$ 164,748 | \$ 54,711 | \$ 50,503 | \$ 22,074 | \$ 37,460 |

(a) Total amount reflects the remaining principal obligation and excludes original issue discount of \$2.2 billion related to the December 2008 bond exchange and fair value adjustments of \$1.1 billion related to fixed-rate debt designated as a hedged item.

(b) Estimate utilized a forecasted variable interest model, when available, or the applicable variable interest rate as of the most recent reset date prior to December 31, 2011.

The foregoing table does not include our reserves for insurance losses and loss adjustment expenses, which total \$580 million at December 31, 2011. While payments due on insurance losses are considered contractual obligations because they related to insurance policies issued by us, the ultimate amount to be paid and the timing of payment for an insurance loss is an estimate subject to significant uncertainty. Furthermore, the timing on payment is also uncertain; however, the majority of the balance is expected to be paid out in less than five years. Similarly, due to uncertainty in the timing of future cash flows related to our unrecognized tax benefits, the contractual obligations detailed above do not include \$198 million in unrecognized tax benefits.

The following provides a description of the items summarized in the preceding table of contractual obligations.

Long-term Debt

Amounts represent the scheduled maturity of long-term debt at December 31, 2011, assuming that no early redemptions occur. The maturity of secured debt may vary based on the payment activity of the related secured assets. The amounts presented are before the effect of any unamortized discount or fair value adjustment. Refer to Note 16 and Note 17 to the Consolidated Financial Statements for additional information on our debt obligations.

Table of Contents

Originate/Purchase Mortgages or Securities

As part of our Mortgage operations, we enter into commitments to originate and purchase mortgages and MBS. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Commitments to Provide Capital to Investees

As part of arrangements with specific private equity funds, we are obligated to provide capital to investees. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Home Equity Lines of Credit

We are committed to fund the future remaining balance on unused lines of credit on mortgage loans. The funding is subject to customary lending conditions, such as a satisfactory credit rating, delinquency status, and adequate home equity value. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Lending Commitments

Our Automotive Finance operations, Mortgage operations, and Commercial Finance Group have outstanding revolving lending commitments with customers. The amounts presented represent the unused portion of those commitments at December 31, 2011. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Lease Commitments

We have obligations under various operating lease arrangements (primarily for real property) with noncancelable lease terms that expire after December 31, 2011. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Purchase Obligations

We enter into multiple contractual arrangements for various services. The arrangements represent fixed payment obligations under our most significant contracts and primarily relate to contracts with information technology providers. Refer to Note 30 to the Consolidated Financial Statements for additional information.

Bank Certificates of Deposit

Refer to Note 15 to the Consolidated Financial Statements for additional information.

Critical Accounting Estimates

Accounting policies are integral to understanding our Management's Discussion and Analysis of Financial Condition and Results of Operations. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make certain judgments and assumptions, on the basis of information available at the time of the financial statements, in determining accounting estimates used in the preparation of these statements. Our significant accounting policies are described in Note 1 to the Consolidated Financial Statements; critical accounting estimates are described in this section. An accounting estimate is considered critical if the estimate requires management to make assumptions about matters that were highly uncertain at the time the accounting estimate was made. If actual results differ from our judgments and assumptions, then it may have an adverse impact on the results of operations and cash flows. Our management has discussed the development, selection, and disclosure of these critical accounting estimates with the Audit Committee of the Board, and the Audit Committee has reviewed our disclosure relating to these estimates.

Table of Contents**Fair Value Measurements**

We use fair value measurements to record fair value adjustments to certain instruments and to determine fair value disclosures. Refer to Note 27 to the Consolidated Financial Statements for a description of valuation methodologies used to measure material assets and liabilities at fair value and details of the valuation models, key inputs to those models, and significant assumptions utilized. We follow the fair value hierarchy set forth in Note 27 to the Consolidated Financial Statements in order to prioritize the inputs utilized to measure fair value. We review and modify, as necessary, our fair value hierarchy classifications on a quarterly basis. As such, there may be reclassifications between hierarchy levels.

The following table summarizes assets and liabilities measured at fair value and the amounts measured using Level 3 inputs. The table includes recurring and nonrecurring measurements.

| Year ended December 31, (\$ in millions) | 2011 | 2010 |
|---|-------------|-------------|
| Assets at fair value | \$ 30,172 | \$ 33,001 |
| As a percentage of total assets | 16% | 19% |
| Liabilities at fair value | \$ 6,299 | \$ 4,832 |
| As a percentage of total liabilities | 4% | 3% |
| Assets at fair value using Level 3 inputs | \$ 4,666 | \$ 6,969 |
| As a percentage of assets at fair value | 15% | 21% |
| Liabilities at fair value using Level 3 inputs | \$ 878 | \$ 1,090 |
| As a percentage of liabilities at fair value | 14% | 23% |

Level 3 assets declined 33% or \$2.3 billion primarily due to a decline in mortgage servicing rights caused by a drop in interest rates and increased market volatility compared to favorable valuation adjustments in 2010. The decline in the Level 3 assets was also attributable to settlements of interests retained in securitization trusts and the fair value-elected finance receivables and loans, net. As the value of the finance receivable and loans, net declined, the value of the related on-balance sheet securitization debt also declined, which was the primary reason Level 3 liabilities declined by 19% or \$212 million. The on-balance sheet securitization debt is also at fair value under the fair value option election.

We have numerous internal controls in place to ensure the appropriateness of fair value measurements. Significant fair value measures are subject to detailed analytics and management review and approval. We have an established model validation policy and program in place that covers all models used to generate fair value measurements. This model validation program ensures a controlled environment is used for the development, implementation, and use of the models and change procedures. Further, this program uses a risk-based approach to select models to be reviewed and validated by an independent internal risk group to ensure the models are consistent with their intended use, the logic within the models is reliable, and the inputs and outputs from these models are appropriate. Additionally, a wide array of operational controls are in place to ensure the fair value measurements are reasonable, including controls over the inputs into and the outputs from the fair value measurement models. For example, we backtest the internal assumptions used within models against actual performance. We also monitor the market for recent trades, market surveys, or other market information that may be used to benchmark model inputs or outputs. Certain valuations will also be benchmarked to market indices when appropriate and available. We have scheduled model and/or input recalibrations that occur on a periodic basis but will recalibrate earlier if significant variances are observed as part of the backtesting or benchmarking noted above.

Considerable judgment is used in forming conclusions from market observable data used to estimate our Level 2 fair value measurements and in estimating inputs to our internal valuation models used to estimate our Level 3 fair value measurements. Level 3 inputs such as interest rate movements, prepayment speeds, credit losses, and discount rates are inherently difficult to estimate. Changes to these inputs can have a significant effect on fair value measurements. Accordingly, our estimates of fair value are not necessarily indicative of the amounts that could be realized or would be paid in a current market exchange.

Table of Contents***Allowance for Loan Losses***

We maintain an allowance for loan losses (the allowance) to absorb probable loan credit losses inherent in the held-for-investment portfolio, excluding those measured at fair value in accordance with applicable accounting standards. The allowance is maintained at a level that management considers to be adequate based upon ongoing quarterly assessments and evaluations of collectability and historical loss experience in our lending portfolio. The allowance is management's estimate of incurred losses in our lending portfolio and involves significant judgment. Management performs quarterly analysis of these portfolios to determine if impairment has occurred and to assess the adequacy of the allowance based on historical and current trends and other factors affecting credit losses. Additions to the allowance are charged to current period earnings through the provision for loan losses; amounts determined to be uncollectible are charged directly against the allowance, while amounts recovered on previously charged-off accounts increase the allowance. Determining the appropriateness of the allowance requires management to exercise significant judgment about matters that are inherently uncertain, including the timing, frequency, and severity of credit losses that could materially affect the provision for loan losses and, therefore, net income. The methodology for determining the amount of the allowance differs between the consumer automobile, consumer mortgage, and commercial portfolio segments. For additional information regarding our portfolio segments and classes, refer to Note 9 to the Consolidated Financial Statements. While we attribute portions of the allowance across our lending portfolios, the entire allowance is available to absorb probable loan losses inherent in our total lending portfolio.

The consumer portfolio segments consist of smaller-balance, homogeneous loans. Excluding certain loans that are identified as individually impaired, the allowance for each consumer portfolio segment (automobile and mortgage) is evaluated collectively. The allowance is based on aggregated portfolio segment evaluations that begin with estimates of incurred losses in each portfolio segment based on various statistical analyses. We leverage proprietary statistical models, including vintage and migration analyses, based on recent loss trends, to develop a systematic incurred loss reserve. These statistical loss forecasting models are utilized to estimate incurred losses and consider several credit quality indicators including, but not limited to, historical loss experience, estimated foreclosures or defaults based on observable trends, delinquencies, and general economic and business trends. Management believes these factors are relevant to estimate incurred losses and are updated on a quarterly basis in order to incorporate information reflective of the current economic environment, as changes in these assumptions could have a significant impact. In order to develop our best estimate of probable incurred losses inherent in the loan portfolio, management reviews and analyzes the output from the models and may adjust the reserves to take into consideration environmental, qualitative and other factors that may not be captured in the models. These adjustments are documented and reviewed through our risk management processes. Management reviews, updates, and validates its systematic process and loss assumptions on a periodic basis. This process involves an analysis of loss information, such as a review of loss and credit trends, a retrospective evaluation of actual loss information to loss forecasts, and other analyses.

The commercial loan portfolio segment is primarily composed of larger-balance, nonhomogeneous exposures within our Automotive Finance operations, Commercial Finance Group, and Mortgage operations. These loans are primarily evaluated individually and are risk-rated based on borrower, collateral, and industry-specific information that management believes is relevant in determining the occurrence of a loss event and measuring impairment. A loan is considered impaired when it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement based on current information and events. Management establishes specific allowances for commercial loans determined to be individually impaired based on the present value of expected future cash flows, discounted at the loans' effective interest rate, observable market price or the fair value of collateral, whichever is determined to be the most appropriate. Estimated costs to sell or realize the value of the collateral on a discounted basis are included in the impairment measurement, when appropriate. In addition to the specific allowances for impaired loans, loans that are not identified as individually impaired are grouped into pools based on similar risk characteristics and collectively evaluated. These allowances are based on historical loss experience, concentrations, current economic conditions, and performance trends within specific geographic locations. The commercial historical loss experience is updated quarterly to incorporate the most recent data reflective of the current economic environment.

Table of Contents

The determination of the allowance is influenced by numerous assumptions and many factors that may materially affect estimates of loss, including volatility of loss given default, probability of default, and rating migration. The critical assumptions underlying the allowance include: (1) segmentation of each portfolio based on common risk characteristics; (2) identification and estimation of portfolio indicators and other factors that management believes are key to estimating incurred credit losses; and (3) evaluation by management of borrower, collateral, and geographic information. Management monitors the adequacy of the allowance and makes adjustments as the assumptions in the underlying analyses change to reflect an estimate of incurred loan losses at the reporting date, based on the best information available at that time. In addition, the allowance related to the commercial portfolio segment is influenced by estimated recoveries from automotive manufacturers relative to guarantees or agreements with them to repurchase vehicles used as collateral to secure the loans. If an automotive manufacturer is unable to fully honor its obligations, our ultimate loan losses could be higher. To the extent that actual outcomes differ from our estimates, additional provision for credit losses may be required that would reduce earnings.

Valuation of Automobile Lease Assets and Residuals

We have significant investments in vehicles in our operating lease portfolio. In accounting for operating leases, management must make a determination at the beginning of the lease contract of the estimated realizable value (i.e., residual value) of the vehicle at the end of the lease. Residual value represents an estimate of the market value of the vehicle at the end of the lease term, which typically ranges from two to four years. We establish risk adjusted residual values based on independently published residuals. Risk adjustments are determined at lease inception and are based on current auction results adjusted for key variables that historically have shown an impact on auction values (as further described in the Lease Residual Risk discussion in the Risk Management section of this MD&A). The customer is obligated to make payments during the term of the lease for the difference between the purchase price and the contract residual value. However, since the customer is not obligated to purchase the vehicle at the end of the contract, we are exposed to a risk of loss to the extent the value of the vehicle is below the residual value estimated at contract inception. Management periodically performs a detailed review of the estimated realizable value of leased vehicles to assess the appropriateness of the carrying value of lease assets.

To account for residual risk, we depreciate automobile operating lease assets to estimated realizable value on a straight-line basis over the lease term. The estimated realizable value is initially based on the residual value established at contract inception. Over the life of the lease, management evaluates the adequacy of the estimate of the realizable value and may make adjustments to the extent the expected value of the vehicle at lease termination changes. Any adjustments would result in a change in the depreciation rate of the lease asset, thereby affecting the carrying value of the operating lease asset.

In addition to estimating the residual value at lease termination, we must also evaluate the current value of the operating lease assets and test for impairment to the extent necessary in accordance with applicable accounting standards. Impairment is determined to exist if the undiscounted expected future cash flows (including the expected residual value) are lower than the carrying value of the asset. There were no such impairment charges in 2011 or 2010.

Our depreciation methodology on operating lease assets considers management's expectation of the value of the vehicles upon lease termination, which is based on numerous assumptions and factors influencing used vehicle values. The critical assumptions underlying the estimated carrying value of automobile lease assets include: (1) estimated market value information obtained and used by management in estimating residual values, (2) proper identification and estimation of business conditions, (3) our remarketing abilities, and (4) automotive manufacturer vehicle and marketing programs. Changes in these assumptions could have a significant impact on the value of the lease residuals. Expected residual values include estimates of payments from automotive manufacturers related to residual support and risk-sharing agreements. To the extent an automotive manufacturer is not able to fully honor its obligation relative to these agreements, our depreciation expense would be negatively impacted.

Table of Contents
Valuation of Mortgage Servicing Rights

Mortgage servicing rights represent the capitalized value of the right to receive future cash flows from the servicing of mortgage loans for others. Mortgage servicing rights are a significant source of value derived from the sale or securitization of mortgage loans. Because residential mortgage loans typically contain a prepayment option, borrowers may often elect to prepay their mortgage loans by refinancing at lower rates during declining interest rate environments. The borrower's ability to prepay is at times impacted by other factors in the current environment that may limit their eligibility to access a refinance (e.g. a high loan-to-value ratio). When this occurs, the stream of cash flows generated from servicing the original mortgage loan is terminated. As such, the market value of mortgage servicing rights has historically been very sensitive to changes in interest rates and tends to decline as market interest rates decline and increase as interest rates rise.

We capitalize mortgage servicing rights on residential mortgage loans that we have originated and purchased based on the fair market value of the servicing rights associated with the underlying mortgage loans at the time the loans are sold or securitized. GAAP requires that the value of mortgage servicing rights be determined based on market transactions for comparable servicing assets, if available. In the absence of representative market trade information, valuations should be based on other available market evidence and modeled market expectations of the present value of future estimated net cash flows that market participants would expect from servicing. When observable prices are not available, management uses internally developed discounted cash flow models to estimate the fair value. These internal valuation models estimate net cash flows based on internal operating assumptions that we believe would be used by market participants, combined with market-based assumptions for loan prepayment rate, interest rates, default rates and discount rates that management believes approximate yields required by investors for these assets. Servicing cash flows primarily include servicing fees, escrow account income, ancillary income and late fees, less operating costs to service the loans. The estimated cash flows are discounted using an option-adjusted spread-derived discount rate. Management considers the best available information and exercises significant judgment in estimating and assuming values for key variables in the modeling and discounting process. All of our mortgage servicing rights are carried at estimated fair value.

We use the following key assumptions in our valuation approach.

Prepayment The most significant drivers of mortgage servicing rights value are actual and forecasted portfolio prepayment behavior. Prepayment speeds represent the rate at which borrowers repay their mortgage loans prior to scheduled maturity. Prepayment speeds are influenced by a number of factors such as the value of collateral, competitive market factors, government programs or incentives, or levels of foreclosure activity. However, the most significant factor influencing prepayment speeds is generally the interest rate environment. As interest rates rise, prepayment speeds generally slow, and as interest rates decline, prepayment speeds generally accelerate. When mortgage loans are paid or expected to be paid earlier than originally estimated, the expected future cash flows associated with servicing such loans are reduced. We primarily use third-party models to project residential mortgage loan payoffs. In other cases, we estimate prepayment speeds based on historical and expected future prepayment rates. We measure model performance by comparing prepayment predictions against actual results at both the portfolio and product level.

Discount rate The cash flows of our mortgage servicing rights are discounted at prevailing market rates, which include an appropriate risk-adjusted spread, which management believes approximates yields required by investors for these assets.

Base mortgage rate The base mortgage rate represents the current market interest rate for newly originated mortgage loans. This rate is a key component in estimating prepayment speeds of our portfolio because the difference between the current base mortgage rate and the interest rates on existing loans in our portfolio is an indication of the borrower's likelihood to refinance.

Table of Contents

Cost to service In general, servicing cost assumptions are based on internally projected actual expenses directly related to servicing. These servicing cost assumptions are compared to market-servicing costs when market information is available. Our servicing cost assumptions include expenses associated with our activities related to loans in default.

Volatility Volatility represents the expected rate of change of interest rates. The volatility assumption used in our valuation methodology is intended to estimate the range of expected outcomes of future interest rates. We use implied volatility assumptions in connection with the valuation of our mortgage servicing rights. Implied volatility is defined as the expected rate of change in interest rates derived from the prices at which options on interest rate swaps, or swaptions, are trading. We update our volatility assumptions for the change in implied swaptions volatility during the period, adjusted by the ratio of historical mortgage to swaption volatility. We also periodically perform a series of reasonableness tests as we deem appropriate, including the following.

Review and compare data provided by an independent third-party broker. We evaluate and compare our fair value price, multiples, and underlying assumptions to data provided by independent third-party broker, including prepayment speeds, discount rates, cost to service, and fair value multiples.

Review and compare pricing of publicly traded interest-only securities. We evaluate and compare our fair value to publicly traded interest-only stripped MBS by age and coupon for reasonableness.

Review and compare fair value price and multiples. We evaluate and compare our fair value price and multiples to market fair value price and multiples in external surveys produced by third parties.

Compare actual monthly cash flows to projections. We reconcile actual monthly cash flows to those projected in the mortgage servicing rights valuation. Based on the results of this reconciliation, we assess the need to modify the individual assumptions used in the valuation. This process ensures the model is calibrated to actual servicing cash flow results.

Review and compare recent bulk mortgage servicing right acquisition activity. We evaluate market trades for reliability and relevancy and then consider, as appropriate, our estimate of fair value of each significant transaction to the traded price. Currently, there is a lack of comparable transactions between willing buyers and sellers in the bulk acquisition market, which are the best indicators of fair value. However, we continue to monitor and track market activity on an ongoing basis.

We generally expect our valuation to be within a reasonable range of that implied by these tests. Changes in these assumptions could have a significant impact on the determination of fair market value. In order to develop our best estimate of fair value, management reviews and analyzes the output from the models and may adjust the reserves to take into consideration other factors that may not be captured. If we determine our valuation has exceeded the reasonable range, we may adjust it accordingly. At December 31, 2011, based on the market information obtained, we determined that our mortgage servicing rights valuations and assumptions used to value those servicing rights were reasonable and consistent with what an independent market participant would use to value the asset.

The assumptions used in modeling expected future cash flows of mortgage servicing rights have a significant impact on the fair value of mortgage servicing rights and potentially a corresponding impact to earnings. Refer to Note 12 to the Consolidated Financial Statements for sensitivity analysis.

Goodwill

The accounting for goodwill is discussed in Note 14 to the Consolidated Financial Statements. Goodwill is reviewed for potential impairment at the reporting unit level on an annual basis, as of August 31, or in interim

Table of Contents

periods if events or circumstances indicate a potential impairment. Goodwill is allocated to the reporting units at the date the goodwill is initially recorded. Once goodwill has been allocated to the reporting units, it generally no longer retains its identification with a particular acquisition, but instead becomes identified with the reporting unit as a whole. As a result, all of the fair value of each reporting unit is available to support the value of goodwill allocated to the unit. Goodwill impairment testing is performed at the reporting unit level, one level below the business segment. For more information on our segments, refer to Note 28 to the Consolidated Financial Statements.

Goodwill impairment testing involves management's judgment, requiring an assessment of whether the carrying value of the reporting unit can be supported by the fair value of the individual reporting unit using widely accepted valuation techniques, such as the market approach (earnings, transaction, and/or pricing multiples) and discounted cash flow methods. In applying these methodologies we utilize a number of factors, including actual operating results, future business plans, economic projections, and market data. A combination of methodologies is used and weighted appropriately for each reporting unit. If actual results differ from these estimates, it may have an adverse impact on the valuation of goodwill that could result in a reduction of the excess over carrying value and possible impairment of goodwill. At December 31, 2011, we did not have material goodwill at our reporting units that is at risk of failing Step 1 of the goodwill impairment test.

Determination of Reserves for Insurance Losses and Loss Adjustment Expenses

Our Insurance operations include an array of insurance underwriting, including vehicle service contracts and consumer products that create a liability for unpaid losses and loss adjustment expenses incurred (further described in Insurance). The reserve for insurance losses and loss adjustment expenses represents an estimate of our liability for the unpaid cost of insured events that have occurred as of a point in time but have not yet been paid. More specifically, it represents the accumulation of estimates for reported losses and an estimate for losses incurred, but not reported, including claims adjustment expenses at the end of any given accounting period.

Our Insurance operations' claim personnel estimate reported losses based on individual case information or average payments for categories of claims. An estimate for current incurred, but not reported, claims is also recorded based on the actuarially determined expected loss ratio for a particular product, which also considers significant events that might change the expected loss ratio, such as severe weather events and the estimates for reported claims. These estimates of the reserves are reviewed regularly by product line management, by actuarial and accounting staffs, and ultimately, by senior management.

Our Insurance operations' actuaries assess reserves for each business at the lowest meaningful level of homogeneous data in each type of insurance, such as general or product liability and automobile physical damage. The purpose of these assessments is to confirm the reasonableness of the reserves carried by each of the individual subsidiaries and product lines and, thereby, the Insurance operations' overall carried reserves. The selection of an actuarial methodology is judgmental and depends on variables such as the type of insurance, its expected payout pattern, and the manner in which claims are processed. Special characteristics such as deductibles, reinsurance recoverable, or special policy provisions are also considered in the reserve estimation process. Estimates for salvage and subrogation recoverable are recognized at the time losses are incurred and netted against the provision for losses. Our reserves include a liability for the related costs that are expected to be incurred in connection with settling and paying the claim. These loss adjustment expenses are generally established as a percentage of loss reserves. Our reserve process considers the actuarially calculated reserves based on prior patterns of claim incurrence and payment and the degree of incremental volatility associated with the underlying risks for the types of insurance; it represents management's best estimate of the ultimate liability. Since the reserves are based on estimates, the ultimate liability may be more or less than our reserves. Any necessary adjustments, which may be significant, are included in earnings in the period in which they are deemed necessary. These changes may be material to our results of operations and financial condition and could occur in a future period.

Table of Contents

Our determination of the appropriate reserves for insurance losses and loss adjustment expenses for significant business components is based on numerous assumptions that vary based on the underlying business and related exposure.

Vehicle service contracts Vehicle service contract losses are generally reported and settled quickly through dealership service departments resulting in a relatively small balance of outstanding claims at any point in time relative to the volume of claims processed annually. Vehicle service contract claims are primarily composed of parts and labor for repair or replacement of the affected components or systems. Changes in the cost of replacement parts and labor rates will affect the cost of settling claims. Considering the short time frame between a claim being incurred and paid, changes in key assumptions (e.g., part prices, labor rates) would have a minimal impact on the loss reserve as of a point in time. The loss reserve amount is influenced by the estimate of the lag between vehicles being repaired at dealerships and the claim being reported by the dealership.

Personal automobile Automobile insurance losses are principally a function of the number of occurrences (e.g., accidents or thefts) and the severity (e.g., the ultimate cost of settling the claim) for each occurrence. The number of incidents is generally driven by the demographics and other indicators or predictors of loss experience of the insured customer base including geographic location, number of miles driven, age, sex, type and cost of vehicle, and types of coverage selected. The severity of each claim, within the limits of the insurance purchased, is generally random and settles to an average over a book of business, assuming a broad distribution of risks. Changes in the severity of claims have an impact on the reserves established at a point in time. Changes in bodily injury claim severity are driven primarily by inflation in the medical sector of the economy. Changes in automobile physical damage claim severity are caused primarily by inflation in automobile repair costs, automobile parts prices, and used car prices. However, changes in the level of the severity of claims paid may not necessarily match or track changes in the rate of inflation in these various sectors of the economy.

At December 31, 2011, we concluded that our insurance loss reserves were reasonable and appropriate based on the assumptions and data used in determining the estimate. However, because insurance liabilities are based on estimates, the actual claims ultimately paid may vary from the estimates.

Legal and Regulatory Reserves

Our legal and regulatory reserves reflect management's best estimate of probable losses on legal and regulatory matters. As a legal or regulatory matter develops, management, in conjunction with internal and external counsel handling the matter, evaluates on an ongoing basis whether such matter presents a loss contingency that is both probable and estimable. If, at the time of evaluation, the loss contingency related to a legal or regulatory matter is not both probable and estimable, the matter will continue to be monitored for further developments that would make such loss contingency both probable and estimable. When the loss contingency related to a legal or regulatory matter is deemed to be both probable and estimable, we will establish a liability with respect to such loss contingency and record a corresponding amount to other operating expenses. To estimate the probable loss, we evaluate the individual facts and circumstances of the case including information learned through the discovery process, rulings on dispositive motions, settlement discussions, our prior history with similar matters and other rulings by courts, arbitrators or others. The reserves are continuously monitored and updated to reflect the most recent information related to each matter.

Additionally, in matters for which a loss event is not deemed probable, but rather reasonably possible to occur, we would attempt to estimate a loss or range of loss related to that event, if possible. For these matters, we do not record a liability. However, if we are able to estimate a loss or range of loss, we would disclose this loss, if it is material to our financial statements. To estimate a range of probable or reasonably possible loss, we evaluate each individual case in the manner described above. We do not accrue for matters for which a loss event is deemed remote.

Table of Contents

For details regarding the nature of all material contingencies, refer to Note 31 to the Consolidated Financial Statements.

Loan Repurchase and Obligations Related to Loan Sales

The liability for representation and warranty obligations reflects management's best estimate of probable lifetime loss. We consider historic and recent demand trends in establishing the reserve. The methodology used to estimate the reserve considers a variety of assumptions including borrower performance (both actual and estimated future defaults), repurchase demand behavior, historic loan defect experience, historic and estimated future loss experience, which includes projections of future home price changes as well as other qualitative factors including investor behavior. In cases where we do not have or have limited current or historical demand experience with an investor, because of the inherent difficulty in predicting the level and timing of future demands, if any, losses cannot currently be reasonably estimated, and a liability is not recognized. Management monitors the adequacy of the overall reserve and makes adjustments to the level of reserve, as necessary, after consideration of other qualitative factors including ongoing dialogue with counterparties.

Determination of Provision for Income Taxes

As of June 30, 2009, we converted from an LLC to a Delaware corporation, thereby ceasing to be a pass-through entity for income tax purposes. As a result, we adjusted our deferred tax assets and liabilities to reflect the estimated future corporate effective tax rate. Our banking, insurance, and foreign subsidiaries were generally always corporations and continued to be subject to tax and provide for U.S. federal, state, and foreign income taxes.

Our income tax expense, deferred tax assets and liabilities, and reserves for unrecognized tax benefits reflect management's best assessment of estimated future taxes to be paid. We are subject to income taxes in both the United States and numerous foreign jurisdictions. Significant judgments and estimates are required in determining the consolidated income tax expense.

Deferred income taxes arise from temporary differences between the tax and financial statement recognition of revenue and expense. In evaluating our ability to recover our deferred tax assets within the jurisdiction from which they arise we consider all available positive and negative evidence including scheduled reversals of deferred tax liabilities, projected future taxable income, tax planning strategies and recent financial operations. In projecting future taxable income, we begin with historical results adjusted for the results of discontinued operations and changes in accounting policies and incorporate assumptions including the amount of future state, federal and foreign pretax operating income, the reversal of temporary differences, and the implementation of feasible and prudent tax planning strategies. These assumptions require significant judgment about the forecasts of future taxable income and are consistent with the plans and estimates we are using to manage the underlying businesses. In evaluating the objective evidence that historical results provide, we consider three years of cumulative operating income (loss). For the years ended December 31, 2011 and 2010, we have concluded that the negative evidence is more objective and therefore outweighs the positive evidence, and therefore we have recorded total valuation allowances on net deferred tax assets of \$2.2 billion and \$2.0 billion, respectively.

A sustained period of profitability in our U.S. operations is required before we would change our judgment regarding the need for a full valuation allowance against our net U.S. deferred tax assets. Our cumulative pretax losses in the three-year period ending with the current quarter are significant objectively verifiable negative evidence regarding future profitability. However, weight of this negative evidence decreased during 2011 as losses incurred during 2008 became more distant. We continue to believe, however, that losses experienced in the previous three-year period serve as negative evidence outweighing subjectively determined positive evidence, and accordingly, we have not changed our judgment regarding the need for a valuation allowance against our U.S. net deferred tax assets at December 31, 2011. Looking forward, continued decreases in negative objective evidence could potentially lead to a reversal of a portion of our U.S. valuation allowance in 2012. Until such time, utilization of tax attributes to offset U.S.-based taxable income will continue to reduce the overall level of our U.S. deferred tax assets and related valuation allowance.

Table of Contents

For additional information regarding our provision for income taxes, refer to Note 25 to the Consolidated Financial Statements.

Recently Issued Accounting Standards

Refer to Note 1 to the Consolidated Financial Statements for further information related to recently adopted and recently issued accounting standards.

Statistical Tables

The accompanying supplemental information should be read in conjunction with the more detailed information, including our Consolidated Financial Statements and the notes thereto, which appear elsewhere in this prospectus.

Table of Contents**Net Interest Margin Tables**

The following tables present an analysis of net interest margin excluding discontinued operations for the periods shown.

| Year ended December 31, (\$ in millions) | Average balance (a) | 2011 Interest income/ interest expense | Yield/ rate | Average balance (a) | 2010 Interest income/ interest expense | Yield/ rate | Average balance (a) | 2009 Interest income/ interest expense | Yield/ rate |

| Net interest spread excluding original issue discount and including noninterest-bearing deposit liabilities (k) | | | 1.85% | | | 2.38% | | | 1.82% |
| Net yield on interest earning assets (l) | | | 1.57% | | | 1.81% | | | 1.43% |
| Net yield on interest earning assets excluding original issue discount (l) | | | 2.15% | | | 2.65% | | | 2.18% |

- (a) Average balances are calculated using a combination of monthly and daily average methodologies.
- (b) Excludes income on equity investments of \$25 million, \$17 million and \$9 million at December 31, 2011, 2010 and 2009, respectively. Yields on available-for-sale debt securities are based on fair value as opposed to historical cost.

Table of Contents

- (c) Nonperforming finance receivables and loans are included in the average balances. For information on our accounting policies regarding nonperforming status refer to Note 1 to the Consolidated Financial Statements.
- (d) Includes other interest income of \$20 million, \$9 million and \$92 million at December 31, 2011, 2010 and 2009, respectively.
- (e) Includes gains on sale of \$395 million, \$723 million and \$530 million during the year ended December 31, 2011, 2010 and 2009, respectively. Excluding these gains on sale, the yield would be 9.58%, 8.04% and 9.64% at December 31, 2011, 2010 and 2009, respectively.
- (f) Includes the effects of derivative financial instruments designated as hedges.
- (g) Average balance includes \$2,522 million, \$3,710 million and \$4,804 million related to original issue discount at December 31, 2011, 2010 and 2009, respectively. Interest expense includes original issue discount amortization of \$912 million, \$1,204 million and \$1,143 million during the year ended December 31, 2011, 2010 and 2009, respectively.
- (h) Excluding original issue discount the rate on long-term debt was 4.62%, 4.94% and 4.68% at December 31, 2011, 2010 and 2009, respectively.
- (i) Excluding original issue discount the rate on total interest-bearing liabilities was 3.76%, 4.14% and 4.37% at December 31, 2011, 2010, and 2009, respectively.
- (j) Excluding original issue discount the rate on total funding sources is 3.70%, 4.08% and 4.30% at December 31, 2011, 2010, and 2009, respectively.
- (k) Net interest spread represents the difference between the rate on total interest earning assets and the rate on total interest-bearing liabilities.
- (l) Net yield on interest earning assets represents net financing revenue as a percentage of total interest earning assets. The following table presents an analysis of the changes in net interest income, volume and rate.

| Year ended December 31, (\$ in millions) | 2011 vs 2010 | | | 2010 vs 2009 | | |
|--|---------------------|----------------|---------|---------------------|----------------|---------|
| | Increase (decrease) | | | Increase (decrease) | | |
| | Volume | Yield/ rate | Total | Volume | Yield/ rate | Total |
| Assets | | | | | | |

BUSINESS

General

Ally Financial Inc. (formerly GMAC Inc.) is a leading, independent, globally diversified, financial services firm with \$184 billion in assets and operations in 32 countries. Founded in 1919, we are a leading automotive financial services company with over 90 years of experience providing a broad array of financial products and services to automotive dealers and their customers. We are also one of the largest residential mortgage companies in the United States. We became a bank holding company on December 24, 2008, under the Bank Holding Company Act of 1956, as amended (the BHC Act). Our banking subsidiary, Ally Bank, is an indirect wholly owned subsidiary of Ally Financial Inc. and a leading franchise in the growing direct (online and telephonic) banking market, with \$39.6 billion of deposits at December 31, 2011.

Our Business

Global Automotive Services and Mortgage are our primary lines of business. Our Global Automotive Services business is centered around our strong and longstanding relationships with automotive dealers and supports our automotive manufacturing partners and their marketing programs. Our Global Automotive Services business serves over 21,000 dealers globally with a wide range of financial services and insurance products. We believe our dealer-focused business model makes us the preferred automotive finance company for thousands of our automotive dealer customers. We have specialized incentive programs that are designed to encourage dealers to direct more of their business to us. In addition, we believe our longstanding relationship with GM and our recent relationship with Chrysler Group LLC (Chrysler) has resulted in particularly strong relationships between us and thousands of dealers and extensive operating experience relative to other automotive finance companies.

Our mortgage business is a leading originator and servicer of residential mortgage loans in the United States.

Ally Bank, our direct banking platform, provides our automotive finance and mortgage loan operations with a stable and low-cost funding source and facilitates prudent asset growth. Our focus is on building a stable deposit base driven by our compelling brand and strong value proposition. Ally Bank raises deposits directly from customers through a direct banking channel over the internet and by telephone. Ally Bank offers a full spectrum of deposit product offerings including certificates of deposit, savings accounts, money market accounts, IRA (individual retirement account) deposit products, as well as an online checking product. We continue to expand the product offerings in our banking platform in order to meet customer needs. Ally Bank's assets and operating results are divided between our North American Automotive Finance operations and Mortgage operations based on its underlying business activities.

Table of Contents

The following table reflects the primary products and services offered by the continuing operations of each of our lines of business.

(a) On November 2, 2011, we announced that in order to proactively address changes in the mortgage industry as a whole, we will be taking immediate action to reduce the focus on the correspondent mortgage lending channel.

Global Automotive Services

Global Automotive Services includes our North American Automotive Finance operations, International Automotive Finance operations, and Insurance operations. Our Global Automotive Services business had \$120.5 billion of assets at December 31, 2011, and generated \$6.4 billion of total net revenue in 2011.

Our primary customers are automotive dealers, which are independently owned businesses. As part of the process of selling a vehicle, automotive dealers typically originate loans and leases to their retail customers. Dealers then select Ally or another automotive finance provider to which they sell loans and leases.

Our Global Automotive Services operations offer a wide range of financial services and insurance products to over 21,000 automotive dealerships and 5.8 million of their retail customers. We have deep dealer relationships that have been built over our 90-year history. Our dealer-focused business model encourages dealers to use our broad range of products through incentive programs like our Ally Dealer Rewards program, which rewards individual dealers based on the depth and breadth of our relationship. During 2011 and 2010, 70%

Table of Contents

and 60%, respectively, of our U.S. automotive dealer customers received benefits under the Ally Dealer Rewards program, which was initiated in 2009. We expect even higher participation levels going forward as all of our automotive dealer customers are eligible to participate in the program. Our automotive finance services include providing retail installment sales contracts, loans, and leases, offering term loans to dealers, financing dealer floorplans and other lines of credit to dealers, fleet leasing, and vehicle remarketing services. We also offer vehicle service contracts and commercial insurance primarily covering dealers' wholesale vehicle inventories in the United States. We are a leading provider of vehicle service contracts, and maintenance coverage.

Global Automotive Services is supported by approximately 8,600 employees worldwide. A significant portion of our Global Automotive Services business is conducted with or through GM- and Chrysler-franchised dealers and their customers.

Automotive Finance

Our North American Automotive Finance operations consist of our automotive finance operations in the United States and Canada. At December 31, 2011, our North American Automotive Finance operations had \$97.0 billion of assets and generated \$3.6 billion of total net revenue in 2011. According to Experian Automotive, we were the largest independent provider of new retail automotive loans in the United States during 2011. We funded one out of every ten new car purchases that were financed in the United States during 2011. In the United States and Canada we have approximately 2,100 automotive finance and insurance employees in five regions focused on serving the needs of our dealer customers with finance and insurance products, expanding the number of overall dealer and automotive manufacturer relationships, and supporting our dealer lending and underwriting functions. In addition, we have over 2,100 employees that support our North American servicing operations. We manage commercial account servicing for over 5,000 dealers in the United States that utilize our floorplan inventory lending or other commercial loans. In the United States and Canada, we provide consumer asset servicing for a \$76.0 billion portfolio at December 31, 2011. The extensive infrastructure and experience of our servicing operation are important to our ability to minimize our loan losses and enable us to deliver favorable customer experience to both our dealers and their retail customers.

Our International Automotive Finance operations are in Europe, Latin America, and Asia. At December 31, 2011, our International Automotive Finance operations had \$15.5 billion of assets and generated \$901 million of total net revenue in 2011. Through our longstanding relationship with GM, we have extensive experience operating in international markets and broad global capabilities. We currently originate loans in 15 countries (other than the United States and Canada). Our international presence is focused on strategic operations in five core markets: Germany, the United Kingdom, Brazil, Mexico, and China through our joint venture, GMAC-SAIC. In China, GMAC-SAIC is a leading automotive finance company with broad geographic coverage and a full suite of products. We own 40% of GMAC-SAIC. The other joint venture partners include Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation Limited. Brazil and Mexico remain markets that we see as growth opportunities. In these markets we offer a full product line and have strong positions in the automotive dealer channel. Brazil and Mexico comprise \$5.0 billion of our total finance receivables and loans at December 31, 2011. Germany and the United Kingdom remain our core markets in Europe with \$5.7 billion of total finance receivables and loans at December 31, 2011.

Our success as an automotive finance provider is driven by the consistent and broad range of products and services we offer to dealers who originate loans and leases to their retail customers who are acquiring new and used automobiles. In the United States and Canada, Ally and other automotive finance providers purchase these loans and leases from automotive dealers. In other countries, we offer retail installment loans and leases directly to retail customers of the dealers. Automotive dealers are independently owned businesses and are our primary customer. Our growth strategy continues to focus on diversifying the franchise by expanding into different products as well as broadening our network of dealer relationships. During 2011, we continued to focus on the used vehicle market, which resulted in strong growth in used vehicle origination volume compared to 2010. Additionally, during 2011, we expanded the Ally Buyer's Choice product on new GM and Chrysler vehicles

Table of Contents

from Canada to select states in the United States. The Ally Buyer's Choice financing product allows customers to own their vehicle with a fixed rate and payment with the option to sell it to us at a pre-determined point during the contract term and at a pre-determined price.

Automotive dealers require a full range of financial products, including new and used vehicle inventory financing, inventory insurance, working capital and capital improvement loans, and vehicle remarketing services to conduct their respective businesses as well as service contracts and guaranteed asset protection (GAP) products to offer their customers. We have consistently provided this full suite of products to dealers.

For consumers, we offer retail automotive financing for new and used vehicles and leasing for new vehicles. In the United States, retail financing for the purchase of vehicles takes the form of installment sale financing. References to consumer automobile loans in this document include installment sales financing unless the context suggests otherwise. During 2011, we originated a total of 2.3 million automotive loans and leases worldwide totaling approximately \$53.3 billion. We provided financing for 38% and 29% of GM's and Chrysler's North American retail sales including leases, respectively, and 28% of GM's international retail sales including leases in countries where both GM and we operate and we had retail financing volume, excluding China. For additional information about our relationship and business transactions with GM, refer to Item 13. Certain Relationships and Related Transactions, and Director Independence.

Our consumer automotive financing operations generate revenue through finance charges or lease payments and fees paid by customers on the retail contracts and leases. We also recognize a gain or loss on the remarketing of the vehicles financed through lease contracts at the end of the lease. When the lease contract is originated, we estimate the residual value of the leased vehicle at lease termination. Periodically we revise the projected value of the leased vehicle at lease termination. Our actual sales proceeds from remarketing the vehicle may be higher or lower than the estimated residual value.

Automotive manufacturers may elect as a marketing incentive to sponsor special financing programs for retail sales of their respective vehicles. The manufacturer can lower the financing rate paid by the customer on either a retail contract or a lease by paying us the present value of the difference between the customer rate and our standard market rates at contract inception. These marketing incentives are referred to as rate support or subvention. GM may also from time to time offer lease pull-ahead programs, which encourage consumers to terminate existing leases early if they acquire a new GM vehicle. As part of these programs, we waive all or a portion of the customer's remaining payment obligation. In most cases, GM compensates us for a portion of the foregone revenue from those waived payments after consideration of the extent that our remarketing sale proceeds are higher than otherwise would be realized if the vehicle had been remarketed at lease contract maturity. Historically, the manufacturer elected to lower a customer's lease payments through a residual support incentive program; in these instances, the manufacturer and we agreed to increase the projected value of the vehicle at the time the lease contract was signed, and the manufacturer reimbursed us if the remarketing sales proceeds were less than the adjusted residual value. Over the past several years, automotive manufacturers have primarily supported leasing products through rate support programs.

Our commercial automotive financing operations primarily fund dealer inventory purchases of new and used vehicles, commonly referred to as wholesale or floorplan financing. This represents the largest portion of our commercial automotive financing business. We extend lines of credit to individual dealers. In general, each wholesale credit line is secured by all the vehicles financed and, in some instances, by other assets owned by the dealer or by a personal guarantee. The amount we advance to dealers is equal to 100% of the wholesale invoice price of new vehicles. Interest on wholesale automotive financing is generally payable monthly and is usually indexed to a floating rate benchmark. The rate for a particular dealer is based on the dealer's creditworthiness and eligibility for various incentive programs, among other factors. During 2011, we financed an average of \$34.3 billion of dealer vehicle inventory worldwide through wholesale or floorplan financings. We financed 79% and 65% of GM's and Chrysler's North American dealer inventory, respectively, during 2011, and 78% of GM's international dealer inventory in countries where GM operates and we provide dealer inventory financing,

Table of Contents

excluding China. Additional commercial offerings include automotive dealer term loans, revolving lines of credit, and dealer fleet financing. We provide comprehensive automotive remarketing services, including the use of SmartAuction, our online auction platform, which efficiently supports dealer-to-dealer and other commercial wholesale car transactions. In 2011, we and others utilized SmartAuction to sell 344,000 vehicles to dealers and other commercial customers. SmartAuction served as the remarketing channel for 61% of Ally's off-lease vehicles.

Manufacturer Relationships

On November 30, 2006, we entered into an agreement with GM that, subject to certain conditions and limitations, whenever GM offers vehicle financing and leasing incentives to customers, it would do so exclusively through Ally. This agreement was subsequently modified on May 22, 2009. As a result of these modifications: (1) after December 31, 2010, GM became permitted to offer any incentive programs on a graduated basis through third parties on a nonexclusive, side-by-side basis with Ally provided that the pricing of the third parties meets certain requirements; (2) Ally has no obligation to provide operating lease financing products; and (3) Ally has no targets against which it could be assessed penalties. The modified agreement will expire on December 31, 2013. A primary objective of Ally under the agreement continues to be supporting distribution and marketing of GM products.

On August 6, 2010, we entered into an agreement with Chrysler (which replaced a term sheet that was originally effective on April 30, 2009) to make available automotive financing products and services to Chrysler dealers and customers. We are Chrysler's preferred provider of new wholesale financing for dealer inventory in the United States, Canada, and Mexico, along with other international markets upon the mutual agreement of the parties. We provide dealer financing and services and retail financing to qualified Chrysler dealers and customers as we deem appropriate according to our credit policies and in our sole discretion. Chrysler is obligated to provide us with certain exclusivity privileges including the use of Ally for designated minimum threshold percentages of certain Chrysler retail financing subvention programs. The agreement extends through April 30, 2013, with automatic one-year renewals unless either we or Chrysler provides sufficient notice of nonrenewal. During 2010, Chrysler also selected Ally to be the preferred financing provider for Fiat vehicles in the United States. Under this agreement, our North American Automotive Finance operations will offer retail financing, leasing, wholesale financing, working capital and facility loans, and remarketing services for Fiat vehicles in the United States.

Subvented loans, originated through our preferred financing relationships, represented 36% of our 2011 North American new retail loan and lease origination volume, respectively, compared to 41% in 2010 and 52% in 2009. For non-subvented retail loan originations, we successfully compete at the dealer-level based on our strong dealer relationships, competitive pricing, full suite of products, and comprehensive service.

We have further diversified our customer base by establishing agreements to become preferred financing providers with other manufacturers including Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom).

Insurance

Our Insurance operations offer both consumer finance and insurance products sold primarily through the automotive dealer channel and commercial insurance products sold to dealers. As part of our focus on offering dealers a broad range of consumer finance and insurance products, we provide vehicle service contracts and maintenance coverage. We also underwrite selected commercial insurance coverages, which primarily insure dealers' wholesale vehicle inventory in the United States. Additionally, the Insurance operations offer GAP products in the United States and personal automobile insurance coverage in certain countries outside the United States. Our Insurance operations had \$8.0 billion of assets at December 31, 2011, and generated \$1.9 billion of total net revenue in 2011.

Table of Contents

Our vehicle service contracts for retail customers offer owners and lessees mechanical repair protection and roadside assistance for new and used vehicles beyond the manufacturer's new vehicle warranty. These vehicle service contracts are marketed to the public through automotive dealerships and on a direct response basis in the United States and Canada. The vehicle service contracts cover virtually all vehicle makes and models. We also offer GAP products, which allow the recovery of a specified economic loss beyond the covered vehicle's value in the event the vehicle is damaged and declared a total loss.

Wholesale vehicle inventory insurance for dealers provides physical damage protection for dealers' floorplan vehicles. Dealers are generally required to maintain this insurance by their floorplan finance provider. We offer vehicle inventory insurance in the United States to virtually all new car franchised dealerships. We sell insurance products to approximately 4,000 dealers in the United States. Among U.S. GM dealers to whom we provide wholesale financing, our wholesale insurance product penetration rate is approximately 78%. Dealers who receive wholesale financing from Ally are eligible for wholesale insurance incentives, such as automatic eligibility in our preferred insurance programs and increased financial benefits. Our ABA Seguros subsidiary provides personal automobile insurance and certain commercial insurance in Mexico. We also provide personal automobile insurance in Canada.

A significant aspect of our Insurance operations is the investment of proceeds from premiums and other revenue sources. We use these investments to satisfy our obligations related to future claims at the time these claims are settled. Our Insurance operations have an Investment Committee, which develops investment guidelines and strategies. The guidelines established by this committee reflect our risk tolerance, liquidity requirements, regulatory requirements, and rating agency considerations, among other factors.

Mortgage

Our Mortgage operations are now reported as two distinct segments: (1) Origination and Servicing operations and (2) Legacy Portfolio and Other operations. These operations are conducted through the mortgage operations of Ally Bank and subsidiaries of the Residential Capital, LLC (ResCap) legal entity in the United States. Our Mortgage operations had \$33.9 billion of assets at December 31, 2011, and generated \$1.2 billion of total net revenue in 2011.

Origination and Servicing

Our Origination and Servicing operations is one of the leading originators of conforming and government-insured residential mortgage loans in the United States. We are one of the largest residential mortgage loan servicers in the United States and we provide collateralized lines of credit to other mortgage originators, which we refer to as warehouse lending. We finance our mortgage loan originations primarily in Ally Bank. On November 2, 2011, we announced that in order to proactively address changes in the mortgage industry as a whole, we will be taking immediate action to reduce the focus on the correspondent mortgage-lending channel; however, we will maintain correspondent relationships with key customers. This reduction will allow us to shift our focus and origination capacity to our retail and direct network channel. As a result, we believe our exposure to mortgage servicing rights (MSR) asset volatility will decrease over time, and we will be better positioned to comply with Basel III requirements. This change is also expected to result in a decrease in total origination levels in 2012 as compared to 2011. After consideration of our experience to-date and the shift in focus to the higher margin retail and direct channels, overall profitability is not expected to be significantly impacted if we are able to increase our retail and direct production volume due to government refinance programs. We will continue to evaluate this business in the future and further reductions in the correspondent channel could occur. We sell the conforming mortgages we originate or purchase in sales that take the form of securitizations guaranteed by the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac), and sell government-insured mortgage loans we originate or purchase in securitizations guaranteed by the Government National Mortgage Association (Ginnie Mae). Fannie Mae, Freddie Mac, and Ginnie Mae are collectively known as the Government-sponsored Enterprises or GSEs. We

Table of Contents

also selectively originate prime jumbo mortgage loans in the United States. In 2011, we sold \$57.9 billion of mortgage loans guaranteed by the GSEs, representing 99.8% of total loans sold by us. At December 31, 2011, we were the primary servicer of 2.3 million mortgage loans with an unpaid principal balance of \$356.4 billion. Our Origination and Servicing operations had \$23.0 billion of assets at December 31, 2011, and generated \$933 million of total net revenue during the year ended December 31, 2011.

Legacy Portfolio and Other

Our Legacy Portfolio and Other operations primarily consists of loans originated prior to January 1, 2009, and includes noncore business activities including discontinued operations, portfolios in runoff, and cash held in the ResCap legal entity. These activities, all of which we have discontinued, include, among other things: lending to real estate developers and homebuilders in the United States and the United Kingdom; purchasing, selling and securitizing nonconforming residential mortgage loans (with the exception of U.S. prime jumbo mortgage loans) in both the United States and internationally; certain conforming origination channels closed in 2008 and our mortgage reinsurance business. We continue to strategically review our mortgage business. As a result of our review, we exited the European mortgage market through the sale of our United Kingdom and continental Europe operations in 2010 and entered into an agreement to sell the assets of our Canadian operations in 2011. Since the onset of the housing crisis, we have reduced our overall mortgage assets, primarily through the runoff and divestiture of noncore businesses and assets. In 2011, we sold \$250 million in domestic legacy mortgage loans to investors through whole-loan securitizations. At December 31, 2011, our Legacy Portfolio and Other operations had total assets of \$10.9 billion that included mortgage loans held-for-investment with a net carrying value of \$8.0 billion and mortgage loans held-for-sale with a net carrying value of \$1.6 billion, which have been marked at 47% of their unpaid principal balance on average. In addition, in 2010 we reached agreements with Freddie Mac and Fannie Mae, significantly limiting our repurchase obligations with each counterparty. Our Mortgage operations hold reserves of \$825 million at December 31, 2011, for potential repurchase obligations related to potential breaches of representations and warranties. Refer to Note 31 to the Consolidated Financial Statements for further information regarding the reserve for representation and warranty obligations.

Corporate and Other

Corporate and Other primarily consists of our centralized corporate treasury and deposit gathering activities, such as management of the cash and corporate investment securities portfolios, short- and long-term debt, retail and brokered deposit liabilities, derivative instruments, the amortization of the discount associated with new debt issuances and bond exchanges, most notably from the December 2008 bond exchange, and the residual impacts of our corporate funds-transfer pricing (FTP) and treasury asset liability management (ALM) activities. Corporate and Other also includes our Commercial Finance Group, certain equity investments, and reclassifications and eliminations between the reportable operating segments. Our Commercial Finance Group provides senior secured commercial-lending products to small and medium sized businesses primarily in the United States.

Ally Bank

Ally Bank raises deposits directly from customers through the direct banking channel via the internet and over the telephone. We have quickly become a leader in direct banking with our recognizable brand, accessible 24/7 customer service, and competitively priced deposit products. We have distinguished our direct bank with our *Talk Straight, Do Right, Be Obviously Better* branding and products that are *Easy to Use* with *No Fine Print, Hidden Fees, Rules or Penalties*.

Ally Bank provides our automotive finance and mortgage loan operations with a stable and low-cost funding source and facilitates prudent asset growth. At December 31, 2011, we had \$39.6 billion of deposits including \$27.7 billion of retail deposits sourced by Ally Bank. The focus on retail deposits and growth in our deposit base from \$19.2 billion at the end of 2008 to \$39.6 billion at the end 2011, combined with improving capital markets and a lower interest rate environment have contributed to a reduction in our cost of funds of approximately 178

Table of Contents

basis points since the first quarter of 2009. Looking forward, our cost of funds will be influenced by changes in the level of deposits as well as the interest rate environment and the state of capital markets.

Consumer preferences for the online banking model have grown consistently over the past several years. We believe internet banking is now the preferred banking channel by consumers. According to a 2011 American Bankers Association survey, the number of bank customers who prefer to do their banking online increased to 62% in 2011 from just 36% in 2010. The survey also showed those who prefer branch banking declined from 25% to 20% over the same period. We have received a positive response to innovative product offerings launched in 2011, including IRA deposit products, 48-month raise your rate certificates of deposit, pop money, eCheck deposit, and the Ally Perks debit rewards program. We believe that Ally Bank is well-positioned to take advantage of the consumer-driven shift from branch to direct banking.

Industry and Competition

The markets for automotive and mortgage financing, banking, and insurance are highly competitive. The market for automotive financing has grown more competitive as more consumers are financing their vehicle purchases and as more competitors continue to enter this market as a result of how well automotive finance assets generally performed relative to other asset classes through the economic cycle during the past three years. More recently, competition for automotive financing has further intensified as a growing number of banks have become increasingly interested in automotive-finance assets. In addition, our mortgage business and Ally Bank face significant competition from commercial banks, savings institutions, mortgage companies, and other financial institutions. Our insurance business also faces significant competition from automotive manufacturers, insurance carriers, third-party administrators, brokers, and other insurance-related companies. Many of our competitors have substantial positions nationally or in the markets in which they operate. Some of our competitors have lower cost structures, substantially lower costs of capital, and are much less reliant on securitization activities, unsecured debt, and other public markets. We face significant competition in most areas, including product offerings, rates, pricing and fees, and customer service. Further, there has been significant consolidation among companies in the financial services industry, which is expected to continue. This is likely to result in larger and better capitalized competitors.

The markets for automotive and mortgage securitizations and whole-loan sales are also competitive, and other issuers and originators could increase the amount of their issuances and sales. In addition, lenders and other investors within those markets often establish limits on their credit exposure to particular issuers, originators, and asset classes, or they may require higher returns to increase the amount of their exposure. Increased issuance by other participants in the market or decisions by investors to limit their credit exposure to (or to require a higher yield for) us or to automotive or mortgage securitizations or whole-loans could negatively affect our ability and that of our subsidiaries to price our securitizations and whole-loan sales at attractive rates. The result would be lower proceeds from these activities and lower profits for our subsidiaries and us.

Our Strengths

Automotive financial services category leader with full product suite.

We are one of the largest providers of retail and wholesale automotive financing in the world and are an integral part of the automotive industry. We believe that our over 90-year history has provided us extensive knowledge of the automotive industry and the financial services needs of its dealers, automotive manufacturers, and retail consumers.

Our full suite of financing and insurance products and extensive on-site service relationships differentiate us from most of our competitors. As of December 31, 2011, over 5,000 of our automotive dealer customers utilized four or more of our products. We use incentive programs, such as our Ally Dealer Rewards program, to increase the volume of business and number of products used by our dealer customers. During fiscal year 2011, 70% of our U.S. dealer customers received benefits under the Ally Dealer Rewards program which was initiated in 2009.

Implementation of our market-driven strategies since 2008 has enabled us to grow our Global Automotive Services business within our existing dealer relationships and expand into new relationships with dealers of

Table of Contents

various manufacturers. Since 2008, we have successfully added preferred provider agreements, including Chrysler (for the United States including Fiat, Canada and Mexico), Thor Industries (for the United States), Maserati (for the United States and Canada), MG Motor UK Ltd (in the United Kingdom), The Vehicle Production Group LLC (for the United States) and SsangYoung Motor UK Ltd (in the United Kingdom). Our strong relationships with manufacturers have allowed us to offer more products, expand our dealer base and strengthen our existing network of dealer relationships. We have increased our North American new non-GM retail originations from \$1.0 billion in 2006 to \$11.4 billion in 2011.

We believe that the combination of our full suite of products, service standards, global platform, incentive programs, and funding strategy put us in a strong position relative to competing financial institutions and future entrants to the market.

Scalable platform with significant growth opportunities.

We are well-positioned for growth as the U.S. economy recovers and U.S. SAAR of vehicle sales rebounds from its 2008-2009 recessionary levels. Consumer and business spending on automobiles has recovered from recent lows but remains well below historical average levels. The chart below shows historical consumer, business and government spending on automobiles as a percentage of U.S. GDP.

Source: Bureau of Economic Analysis, U.S. Department of Commerce

The chart below shows historical and projected U.S. SAAR (in millions):

Table of Contents

In the United States and Canada, we have approximately 2,100 automotive finance and insurance employees dedicated to dealer sales, product support, lending and underwriting. This infrastructure allows us to accommodate our growing volume of business and support our existing customers. We maintain a dedicated sales force, which meets the needs of our existing dealer customers, expands our market penetration in the dealer network and supports our existing and new automotive manufacturing partners. Our sales force consists of direct dealer account relationship professionals, supplemental product support coverage professionals, and primary manufacturer relationship account professionals.

We also have invested significantly in our technology infrastructure and other initiatives to support our automotive financing and banking services platforms to further enhance our dealer and retail customer relationships and increase business volumes. This focus has resulted in increased credit application flow and originations from dealers representing various manufacturers, including GM and Chrysler. We are now able to access applications from almost all U.S. automotive dealerships under any brand. The combination of our extensive infrastructure, our relationships with finance and insurance departments of dealers, and our participation in the major credit application on-line networks, provides us with a strong platform to efficiently grow our consumer business volumes across a broad mix of automotive dealers.

In addition, we expect our incentive programs, such as Ally Dealer Rewards and other market-driven strategies, to increase business volumes and the number of products used by dealers. Other major initiatives underway such as dealer diversification strategies and additional preferred relationships with other manufacturers should increase our consumer retail, lease, and dealer funding volumes. The used vehicle financing market is highly fragmented and we believe this provides us with a growth opportunity within our franchised dealer relationships. We believe our significant presence in attractive markets such as China and Brazil also supports our growth opportunity internationally.

Leading direct banking franchise.

We believe Ally Bank is well-positioned for continued growth within the direct banking market. The Ally Bank brand has attained strong recognition since it was launched in 2009. Ally Bank provides us with a diversified source of stable, low-cost funding. The bank's assets primarily consist of high quality commercial and consumer automotive finance receivables and conforming and government-insured residential mortgage loans originated through our automotive and mortgage businesses, respectively. We believe there are opportunities to deliver other products to our growing banking customer base, in addition to our full suite of deposit, savings and checking products.

Strong balance sheet, liquidity position and risk management.

We believe that the consumer automotive loans on our balance sheet reflect the significantly tighter underwriting standards across the credit spectrum that we adopted since 2008. Our underwriting process utilizes a robust combination of credit metrics, including, among others, FICO scores, loan-to-value ratios, debt-to-income ratios and proprietary scoring models. The average FICO score at origination of the U.S. new retail loans in our outstanding portfolio as of December 31, 2011 was 727. We are prudently expanding automotive originations across the credit spectrum in accordance with our underwriting standards. During fiscal year 2011, the loss rate on our U.S. consumer automotive portfolio was 0.60%.

Our commercial automotive financing business consists primarily of wholesale financing in which credit is extended to individual dealers and is secured by vehicles in inventory and, in some circumstances, other assets owned by the dealer or by a personal guarantee. We manage risk in our commercial automotive financing business through our rigorous credit underwriting process, which utilizes our proprietary dealer credit evaluation system, our ongoing risk monitoring program, and vehicle inventory audits to verify collateral and dealer compliance with lending agreements. During fiscal year 2011, the loss rate on our U.S. commercial automotive portfolio was 0.05%.

Table of Contents

The loans originated in our mortgage operations are currently comprised primarily of high credit quality conforming, government-insured and prime jumbo residential mortgage loans. At December 31, 2011, we held reserves of \$825 million for potential repurchase obligations for loans we sold to counterparties. See Management's Discussion and Analysis of Financial Condition and Results of Operations Off-balance Sheet Arrangements Government-sponsored Enterprises for further details with respect to the scope of our settlement agreements with Fannie Mae and Freddie Mac.

We have demonstrated strong access to funding and liquidity that are critical to our business. In fiscal year 2011, we raised over \$38 billion of secured and unsecured funding in the capital markets. We also have significant liquidity available beyond capital markets funding with access to \$36.9 billion of liquidity in the form of cash, highly liquid unencumbered securities, and available committed credit facility capacity at December 31, 2011.

Our access to deposits is an important source of diversified funding. Approximately 31% of our funding at the end of 2011 came from deposits compared to 14% at the end of 2008. We believe Ally Bank gives us the stable, low-cost benefits of deposit funding with a direct-to-consumer delivery model. Ally Bank's leadership in direct banking, recognizable brand and compelling customer value proposition position us well for consistent growth.

Our balance sheet is well capitalized. At December 31, 2011, we had a Tier 1 capital ratio of 13.71%, and a Tier 1 common ratio of % pro forma for this offering. We believe this capitalization compares favorably to our peers and positions us well for the future.

Experienced management team.

Our senior management team is comprised of financial professionals with deep operating experience in automotive and consumer finance and extensive experience managing some of the largest and most successful financial institutions in the world. Our senior management team has successfully led us to consistent profitability in our core automotive finance operations and the development of our strong liquidity and capital position following the financial crisis. Our management team has taken significant actions to make our automotive finance business more efficient and better positioned for growth opportunities. Our capital structure and prudent liquidity actions by management have positioned us for growth as the automotive industry and overall economy continue to rebound.

Our Business Strategy

Expand our position as a leading global provider of automotive financial services products.

We believe that our dealer-focused business model, global platform, full range of product offerings and sales organization position us to further broaden our relationships with existing and new dealers and automotive manufacturers, and to originate attractive retail automotive loans and leases for our portfolio in addition to other products. Our market-driven strategies, including incentive programs, have been designed and implemented to drive higher business volumes with our dealer relationships. Furthermore, we have dedicated resources to the underwriting and financing of used vehicle sales that should allow us to expand loan origination volume with our existing dealer base. We are also leveraging our existing dealer relationships, product suite, and extensive operating experience to expand our diversified dealer network and facilitate financing relationships with additional automotive manufacturers. We intend to continue to strongly support our financing relationships with GM and Chrysler by providing dependable new car inventory and consumer financing through all economic cycles. We will continue to utilize our international infrastructure to build upon our strong presence in attractive, developing markets such as China, Brazil and Mexico. Our objective is to generate incremental profitability and asset growth without straying from our core competencies in automotive finance.

Table of Contents

Reduce our funding costs and continue funding diversification.

We continue to expand and diversify our funding in order to improve our profitability and enhance our competitiveness. Our success at developing our franchise at Ally Bank has supported the growth of our retail deposit base to \$27.7 billion at December 31, 2011 from \$7.2 billion at the end of 2008. Our retail deposit growth has enabled us to diversify and reduce our cost of funds since 2008. Our strategy is to continue to increase our retail deposit base through the delivery of our full suite of deposit products and continued investment in the Ally Bank brand name.

Our objective is to attain investment grade credit ratings from the rating agencies. We believe that improved ratings will help us to reduce our cost of funds further and improve our ability to compete even more effectively with other large banks and financial institutions across all products. We believe that the stable performance of our asset base, strong capitalization, demonstrated access to diversified funding markets, and the ability to operate profitably will help us reach this goal over time.

By continuing to diversify our funding sources and lower our overall cost of funding, including the prudent growth of Ally Bank, we believe that we can provide even more efficient and consistent funding for our dealers and their retail customers through various economic cycles.

Maintain a strong balance sheet through disciplined origination, servicing and risk management.

We will continue to focus primarily on originating and managing secured automotive and related products. The types of secured commercial and consumer automotive loans that we originate performed well through the recent financial crisis. Our Mortgage Origination and Servicing operations originate conforming, government-insured residential and prime jumbo residential mortgage loans.

We believe that we maintain strong levels of capital and liquidity relative to other bank holding companies. Our strategy is to materially increase our volume of automotive finance assets within our existing infrastructure and with prudent underwriting criteria which we believe will allow us to efficiently utilize our capital and enhance our profitability.

Improve our shareholder return profile.

We seek to enhance our returns for shareholders by prudently originating loans and leases across the credit spectrum. We have also recently increased our focus on offering financing for used vehicles through our franchised dealer relationships. We have invested significant capital in risk management and technology to manage this expansion. By prudently expanding automotive originations across broad credit segments and with continued diversification, we believe we can increase asset yields and generate attractive risk-adjusted returns in a variety of interest rate and credit environments. We plan to continue to decrease our overall costs by increasing productivity, adding retail deposits, and efficiently accessing secured and unsecured wholesale markets as certain higher-cost legacy funding matures. The combination of higher asset yields and lower operating and funding costs with an efficient capital structure will provide opportunities for us to improve returns to our shareholders.

Certain Regulatory Matters

We are subject to various regulatory, financial, and other requirements of the jurisdictions in which our businesses operate. In light of recent conditions in the global financial markets, regulators have increased their focus on the regulation of the financial services industry. As a result, proposals for legislation that could increase the scope and nature of regulation of the financial services industry are possible. The following is a description of some of the primary laws and regulations that currently affect our business.

Table of Contents***Bank Holding Company Status***

Ally Financial Inc. (Ally) and IB Finance Holding Company, LLC (IB Finance) are both bank holding companies under the BHC Act. IB Finance is the direct holding company for Ally's FDIC-insured depository institution, Ally Bank. As a bank holding company, Ally is subject to supervision, examination and regulation by the Board of Governors of the Federal Reserve System (FRB). Ally must also comply with regulatory risk-based capital and leverage requirements, as well as various safety and soundness standards imposed by the FRB, and is subject to certain statutory restrictions concerning the types of assets or securities it may own and the activities in which it may engage. Ally Bank, our direct banking subsidiary, is not a member of the Federal Reserve System and is subject to supervision, examination and regulation by the Federal Deposit Insurance Corporation (FDIC) and the Utah Department of Financial Institutions (UDFI). This regulatory oversight is established to protect depositors, the FDIC's Deposit Insurance Fund, and the banking system as a whole, not security holders, and in some instances may be contrary to their interests.

Permitted Activities As a bank holding company, subject to certain exceptions, Ally is not permitted to acquire more than 5% of any class of voting shares of any nonaffiliated bank or bank holding company, directly or indirectly, or to acquire control of any other company, directly or indirectly (including by acquisition of 25% or more of a class of voting shares), without first obtaining FRB approval. Furthermore, the activities of Ally must be generally limited to banking or to managing or controlling banks or to other activities deemed closely related to banking or otherwise permissible under the BHC Act. Likewise, Ally generally may not hold more than 5% of any class of voting shares of any company unless that company's activities conform with the above requirements. Upon our bank holding company approval on December 24, 2008, we were permitted an initial two-year grace period to bring our activities and investments into conformity with these restrictions. This grace period expired in December 2010. The FRB initially granted a one-year extension that expired in December 2011, and recently granted a second one-year extension that expires in December 2012. We will be permitted to apply to the FRB for one additional one-year extension. Absent a further extension, certain of Ally's existing activities and investments deemed impermissible under the BHC Act must be terminated or disposed of by the expiration of the grace period and any extensions. For further information, refer to the section of this prospectus entitled "Risk Factors."

Gramm-Leach-Bliley Act The enactment of the Gramm-Leach-Bliley Act of 1999 (GLB Act) eliminated large parts of a regulatory framework that had its origins in the Depression era of the 1930s. Effective with its enactment, new opportunities became available for banks, other depository institutions, insurance companies, and securities firms to enter into combinations that permit a single financial services organization to offer customers a more comprehensive array of financial products and services. To further this goal, the GLB Act amended the BHC Act by providing a new regulatory framework applicable to financial holding companies, which are bank holding companies that meet certain qualifications and elect financial holding company status. The FRB supervises, examines, and regulates financial holding companies, as it does all bank holding companies. However, insurance and securities activities conducted by a financial holding company or its nonbank subsidiaries are regulated primarily by functional regulators. As a bank holding company, we would be eligible to elect financial holding company status upon satisfaction of certain regulatory requirements applicable to us and to Ally Bank (and any depository institution subsidiary that we may acquire in the future). We do not currently satisfy these requirements. As a financial holding company, Ally would then be permitted to engage in a broader range of financial and related activities than those that are permissible for bank holding companies, in particular, securities, insurance, and merchant banking activities.

Dodd-Frank Wall Street Reform and Consumer Protection Act On July 21, 2010, the President of the United States signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). The Dodd-Frank Act addresses risks to the economy and the payment system,

Table of Contents

especially those posed by large, systemically important financial firms. The regulations, when implemented will have material implications for Ally and the entire financial services industry. Among other things, it will or potentially could:

result in Ally being subject to enhanced oversight and scrutiny as a result of being a bank holding company with \$50 billion or more in consolidated assets;

result in the appointment of the FDIC as receiver of Ally in an orderly liquidation proceeding, if the Secretary of the Treasury, upon recommendation of at least two-thirds of the members of the FRB and two-thirds of the members of the board of directors of the FDIC and in consultation with the President of the United States, finds Ally to be in default or danger of default;

increase the levels of capital and liquidity with which Ally must operate and affect how it plans capital and liquidity levels;

subject Ally to new and/or higher fees paid to various regulatory entities, including but not limited to deposit insurance fees paid by Ally Bank to the FDIC;

impact Ally's ability to invest in certain types of entities or engage in certain activities;

impact a number of Ally's business and risk management strategies;

restrict the revenue that Ally generates from certain businesses; and

subject Ally to a new Consumer Financial Protection Bureau (CFPB), which has very broad rule-making and enforcement authorities.

Many provisions of the Dodd-Frank Act will only become effective at a later date or after a rulemaking process is completed. The orderly liquidation authority became effective in July 2010, with implementing regulations adopted thereafter in stages, with some rulemakings still to come. If Ally were subject to the orderly liquidation authority, the FDIC would be appointed as receiver, giving the FDIC the ability to wind-up Ally, including the ability to assign assets and liabilities without the need for creditor consent or prior court review and the ability of the FDIC to differentiate and determine priority among creditors.

In December 2011, the FRB proposed rules to implement some provisions of the systemic risk regime. If adopted as proposed, among other provisions, the rules would require Ally to maintain a sufficient quantity of highly liquid assets to survive a projected 30-day liquidity stress event and implement various liquidity-related corporate governance measures; limit Ally's aggregate exposure to any unaffiliated counterparty to 25% of Ally's capital and surplus; and potentially subject Ally to an early remediation regime that could limit the ability of Ally to pay dividends or expand its business if the FRB identified Ally as suffering from financial or management weaknesses.

In January 2012, President Obama appointed Richard Cordray as director of the CFPB. Since then, the CFPB has proposed various rules to implement consumer financial protection provisions of the Dodd-Frank Act and related requirements. Many of these proposed rules, when finalized, will impose new requirements on Ally and its business operations. In addition, as an insured depository institution with total assets of more than \$10 billion, Ally Bank may be required in the future to submit periodic reports to the CFPB, and will become subject to examination by the CFPB.

Capital Adequacy Requirements Ally and Ally Bank are subject to various guidelines as established under FRB and FDIC regulations. Refer to Note 23 to the Consolidated Financial Statements for additional information. See also Basel Capital Accord

below.

Table of Contents

Capital Planning and Stress Tests In December 2011, Ally became subject to a new capital planning and stress test regime generally applicable to bank holding companies with \$50 billion or more of consolidated assets. The new regime requires Ally to conduct periodic stress tests and submit a proposed capital action plan to the FRB every January, which the FRB must take action on by the following March. The proposed capital action plan must include a description of all planned capital actions over a nine-quarter planning horizon, including any issuance of a debt or equity capital instrument, any capital distribution, and any similar action that the FRB determines could have an impact on Ally's consolidated capital. The proposed capital action plan must also include a discussion of how Ally will maintain capital above the minimum regulatory capital ratios and above a Tier 1 common equity-to-total risk-weighted assets ratio of 5 percent, and serve as a source of strength to Ally Bank. The FRB must approve Ally's proposed capital action plan before Ally may take any proposed capital action covered by the new regime. Ally submitted its capital plan in January 2012, and on March 13, 2012, the FRB released its Comprehensive Capital Analysis and Review which required us to submit a revised capital plan in the near future.

Limitations on Bank Holding Company Dividends and Capital Distributions Utah law (and, in certain instances, federal law) places restrictions and limitations on dividends or other distributions payable by our banking subsidiary, Ally Bank, to Ally. With respect to dividends payable by Ally to its shareholders, in December 2011, the FRB adopted a regulation that requires bank holding companies with \$50 billion or more in total consolidated assets, such as Ally, to submit annual capital plans for FRB non-objection. In the absence of a non-objection regarding the capital plan, the new regulation prohibits bank holding companies from paying dividends or making certain other capital distributions without specific FRB non-objection for such action. Even if a bank holding company receives a non-objection to its capital plan, it may not pay a dividend or make certain other capital distributions without FRB approval under certain circumstances (e.g., after giving effect to the dividend or distribution, the bank holding company would not meet a minimum regulatory capital ratio or a Tier 1 common ratio of at least 5%) and subject to certain exceptions. The FRB has previously issued supervisory guidance requiring bank holding companies such as Ally to consult with the FRB prior to increasing dividends, implementing common stock repurchase programs or redeeming or repurchasing capital instruments. Such guidance provides for a supervisory capital assessment program that outlines FRB expectations concerning the processes that bank holding companies have in place to ensure they hold adequate capital under adverse conditions to maintain ready access to funding. The federal bank regulatory agencies are also authorized to prohibit a banking subsidiary or bank holding company from engaging in unsafe or unsound banking practices and, depending upon the circumstances, could find that paying a dividend or making a capital distribution would constitute an unsafe or unsound banking practice.

Transactions with Affiliates Certain transactions between Ally Bank and any of its nonbank affiliates, including but not limited to Ally and ResCap, are subject to federal statutory and regulatory restrictions. Pursuant to these restrictions, unless otherwise exempted, covered transactions including Ally Bank's extensions of credit to and asset purchases from its nonbank affiliates, generally (1) are limited to 10% of Ally Bank's capital stock and surplus with respect to transactions with any individual affiliate, with an aggregate limit of 20% of Ally Bank's capital stock and surplus for all affiliates and all such transactions; (2) in the case of certain credit transactions, are subject to stringent collateralization requirements; (3) in the case of asset purchases by Ally Bank, may not involve the purchase of any asset deemed to be a low quality asset under federal banking guidelines; and (4) must be conducted in accordance with safe-and-sound banking practices (collectively, the Affiliate Transaction Restrictions). Also, transactions between Ally Bank and a nonbank affiliate generally must be on market terms and conditions. Under the Dodd-Frank Act, among other changes to the Affiliate Transaction Restrictions, credit exposures resulting from derivatives transactions and securities lending and borrowing transactions are now treated as covered transactions. Furthermore, there is an attribution rule under the Affiliate Transaction Restrictions that provides that a transaction between Ally Bank and a third party must be treated as a transaction

Table of Contents

between Ally Bank and a nonbank affiliate to the extent that the proceeds of the transaction are used for the benefit of or transferred to a nonbank affiliate of Ally Bank.

Because Ally controls Ally Bank, Ally is an affiliate of Ally Bank for purposes of the Affiliate Transaction Restrictions. Thus, retail financing transactions by Ally Bank involving vehicles for which Ally provided floorplan financing are subject to the Affiliate Transaction Restrictions because the proceeds of the retail financings are deemed to benefit, and are ultimately transferred to, Ally Financial.

Historically, the FRB was authorized to exempt, in its discretion, transactions or relationships from the requirements of these rules if it found such exemptions to be in the public interest and consistent with the purposes of the rules. As a result of the Dodd-Frank Act, exemptions now may be granted by the FDIC if the FDIC and FRB jointly find that the exemption is in the public interest and consistent with the purposes of the rules, and the FDIC finds that the exemption does not present an unacceptable risk to the Deposit Insurance Fund. The FRB granted several such exemptions to Ally Bank in the past. However, the existing exemptions are subject to various conditions and, particularly in light of the statutory changes made by the Dodd-Frank Act, any requests for future exemptions may not be granted. Moreover, these limited exemptions generally do not encompass consumer leasing or used vehicle financing. Since there is no assurance that Ally Bank will be able to obtain future exemptions or waivers with respect to these restrictions, the ability to grow Ally Bank's business will be affected by the Affiliate Transaction Restrictions and the conditions set forth in the existing exemption letters.

Source of Strength Pursuant to the Federal Deposit Insurance Act, FRB policy and regulations, and under the Parent Company Agreement and the Capital and Liquidity Maintenance Agreement as described in Note 23 to the Consolidated Financial Statements, Ally is expected to act as a source of strength to Ally Bank and is required to commit necessary capital and liquidity to support Ally Bank. This support may be required at inopportune times for Ally.

Enforcement Authority The FDIC and FRB have broad authority to issue orders to banks and bank holding companies to cease and desist from unsafe or unsound banking practices and from violations of laws, rules, regulations, or conditions imposed in writing by the banking agencies. The FDIC and FRB also are empowered to require affirmative actions to correct any violation or practice; issue administrative orders that can be judicially enforced; direct increases in capital; limit dividends and distributions; restrict growth; assess civil money penalties against institutions or individuals who violate any laws, regulations, orders, or written agreements with the banking agencies; order termination of certain activities of bank holding companies or their subsidiaries; remove officers and directors; order divestiture of ownership or control of a nonbanking subsidiary by a bank holding company (in the case of the FRB); terminate deposit insurance; and/or place a bank into receivership (in the case of the FDIC).

Basel Capital Accord

The minimum risk-based capital requirements adopted by the federal banking agencies follow the Capital Accord (Capital Accord or Basel I) of the Bank for International Settlements – Basel Committee on Banking Supervision (Basel Committee). The Capital Accord was published in 1988 and generally applies to depository institutions and their holding companies in the United States. In 2004, the Basel Committee published a revision to the Capital Accord (Basel II). The goal of the Basel II capital rules is to provide more risk-sensitive regulatory capital calculations and promote enhanced risk management practices among large, internationally active banking organizations. U.S. banking regulators published final Basel II rules in December 2007. Ally is required to comply with the Basel II rules as implemented by the U.S. banking regulators. Prior to full implementation of the Basel II rules, Ally is required to complete a qualification period of four consecutive quarters during which it needs to demonstrate that it meets the requirements of the rules to the satisfaction of its primary U.S. banking

Table of Contents

regulator. Pursuant to an extension that was granted to Ally, this qualification period, or parallel run, is required to begin no later than October 1, 2013. During this period, capital is calculated using both Basel I and Basel II methodologies. Upon completion of this parallel run and with the approval of the primary U.S. banking regulator, Ally will begin to use Basel II to calculate regulatory capital. Basel II contemplated a three-year transition period during which a bank holding company or bank could gradually lower its capital level below the levels required by Basel I. However, under a final capital rule that implements a provision of the Dodd-Frank Act, Ally and Ally Bank must continue to calculate their risk-based capital requirements under Basel I, and the capital requirements that each computes under Basel I will serve as a floor for its risk-based capital requirement computed under Basel II.

In addition to Basel II, the Basel Committee recently adopted new capital, leverage, and liquidity guidelines under the Capital Accord (Basel III) that when implemented in the United States may have the effect of raising capital requirements beyond those required by current law and the Dodd-Frank Act. Basel III will increase the minimum Tier 1 common equity ratio to 4.5%, net of regulatory deductions, and introduces a capital conservation buffer of an additional 2.5% of common equity to risk-weighted assets raising the target minimum common equity ratio to 7.0%. Basel III increases the minimum Tier 1 capital ratio to 8.5% inclusive of the capital conservation buffer, increases the minimum total capital ratio to 10.5% inclusive of the capital buffer, and introduces a countercyclical capital buffer of up to 2.5% of common equity or other fully loss absorbing capital for periods of excess credit growth. Basel III also introduces a nonrisk adjusted Tier 1 leverage ratio of 3%, based on a measure of the total exposure rather than total assets, and new liquidity standards. The Basel III capital, leverage, and liquidity standards will be phased in over a multiyear period. The Basel III rules, when implemented, will also impose a 15% cap on the amount of Tier 1 capital that can be met, in the aggregate, through significant investments in the common shares of unconsolidated financial subsidiaries, MSRs, and deferred tax assets through timing differences. In addition, under Basel III rules, after a ten-year phase-out period beginning in January 2013, trust preferred and other hybrid securities will no longer qualify as Tier 1 capital. However, under the Dodd-Frank Act, subject to certain exceptions (e.g., for debt or equity issued to the U.S. government under the Emergency Economic Stabilization Act), trust preferred and other hybrid securities are phased out from Tier 1 capital over a three-year period starting January 2013. We continue to monitor developments with respect to Basel III and, pending the adoption of final capital rules and subsequent regulatory interpretation by the U.S. regulators, there remains a degree of uncertainty on the full impact of Basel III.

It is also anticipated that during 2012 the U.S. banking agencies will issue final rules based on the 2010 Notice of Proposed Rulemaking on the Risk-Based Capital Guidelines for Market Risk, as amended in December 2011 (Market Risk rules). We continue to monitor developments with respect to the Market Risk rules.

Troubled Asset Relief Program

As part of the Automotive Industry Financing Program created under the Troubled Asset Relief Program (TARP) established by the U.S. Department of the Treasury (Treasury) under the Emergency Economic Stabilization Act of 2008 (the EESA), Ally has entered into agreements pursuant to which Treasury has purchased preferred stock and trust preferred securities of Ally. As a result of these investments, subject to certain exceptions, Ally and its subsidiaries are generally prohibited from paying certain dividends or distributions on, or redeeming, repurchasing, or acquiring any common stock without consent of Treasury. Ally has further agreed that until Treasury ceases to hold Ally preferred stock, Ally will comply with certain restrictions on executive privileges and compensation. Ally must also take all necessary action to ensure that its corporate governance and benefit plans with respect to its senior executive officers comply with Section 111(b) of the EESA as implemented by any guidance or regulation under the EESA, as amended by the American Recovery and Reinvestment Act of 2009, which was signed into law on February 17, 2009, as implemented by the Interim Final Rule issued by Treasury on June 15, 2009. For further details regarding these restrictions on compensation as a result of TARP investments, refer to the section of this prospectus entitled Executive Compensation.

Table of Contents

Depository Institutions

On December 24, 2008, Ally Bank received approval from the UDFI to convert from an industrial bank to a commercial nonmember state-chartered bank. Ally Bank's deposits are insured by the FDIC, and Ally Bank is required to file periodic reports with the FDIC concerning its financial condition. Total assets of Ally Bank were \$85.3 billion and \$70.3 billion at December 31, 2011 and 2010, respectively.

As a commercial nonmember bank chartered by the State of Utah, Ally Bank is subject to various regulatory capital adequacy requirements administered by state and federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and discretionary actions by regulators that, if undertaken, could have a direct material effect on Ally Bank's results of operations and financial condition. At December 31, 2011, we were in compliance with our regulatory capital requirements. For an additional discussion of capital adequacy requirements, refer to Note 23 to the Consolidated Financial Statements.

International Banks, Finance Companies, and Other Non-U.S. Operations

Certain of our foreign subsidiaries operate in local markets as either banks or regulated finance companies and are subject to regulatory restrictions. These regulatory restrictions, among other things, require that our subsidiaries meet certain minimum capital requirements and may restrict dividend distributions and ownership of certain assets. Total assets of our regulated international banks and finance companies were approximately \$13.6 billion and \$14.5 billion at December 31, 2011 and 2010, respectively. In addition, the BHC Act imposes restrictions on Ally's ability to invest equity abroad without FRB approval. Many of our other operations are also heavily regulated in many jurisdictions outside the United States.

U.S. Mortgage Business

Our U.S. mortgage business is subject to extensive federal, state, and local laws, rules, and regulations in addition to judicial and administrative decisions that impose requirements and restrictions on this business. As a Federal Housing Administration-approved lender, certain of our U.S. mortgage subsidiaries are required to submit audited financial statements to the Department of Housing and Urban Development on an annual basis. The U.S. mortgage business is also subject to examination by the Federal Housing Commissioner to assure compliance with Federal Housing Administration regulations, policies, and procedures. The federal, state, and local laws, rules, and regulations to which our U.S. mortgage business is subject, among other things, impose licensing obligations and financial requirements; limit the interest rates, finance charges, and other fees that can be charged; regulate the use of credit reports and the reporting of credit information; impose underwriting requirements; regulate marketing techniques and practices; require the safeguarding of nonpublic information about customers; and regulate servicing practices, including the assessment, collection, foreclosure, claims handling, and investment and interest payments on escrow accounts. In addition, proposals have been enacted in the U.S. Congress and are under consideration by various regulatory authorities that would affect the manner in which the GSEs conduct their business and there is some possibility that Fannie Mae and Freddie Mac will be subject to winding down.

Insurance Companies

Our Insurance operations are subject to certain minimum aggregate capital requirements, net asset and dividend restrictions under applicable state and foreign insurance law, and the rules and regulations promulgated by various U.S. and foreign regulatory agencies. Under various state and foreign insurance regulations, dividend distributions may be made only from statutory unassigned surplus with approvals required from the regulatory authorities for dividends in excess of certain statutory limitations. In addition, the BHC Act imposes restrictions on our ability to invest equity abroad without FRB approval.

Table of Contents

Investments in Ally

Because Ally Bank is an FDIC-insured bank and Ally and IB Finance are bank holding companies, acquisitions of our voting stock above certain thresholds may be subject to regulatory approval or notice under federal or state law. Investors are responsible for ensuring that they do not, directly or indirectly, acquire shares of our stock in excess of the amount that may be acquired without regulatory approval under the Change in Bank Control Act, the BHC Act, and Utah state law.

Other Regulations

Some of the other more significant regulations that we are subject to include:

Privacy The GLB Act imposes additional obligations on us to safeguard the information we maintain on our customers, requires us to provide notice of our privacy practices, and permits customers to opt-out of information sharing with third parties. Regulations have been issued by several agencies that establish obligations to safeguard information. In addition, several states have enacted even more stringent privacy and safeguarding legislation. If a variety of inconsistent state privacy rules or requirements are enacted, our compliance costs could increase substantially.

Fair Credit Reporting Act The Fair Credit Reporting Act regulates the use of credit reports and the reporting of information to credit reporting agencies, and also provides a national legal standard for lenders to share information with affiliates and certain third parties and to provide firm offers of credit to consumers. In late 2003, the Fair and Accurate Credit Transactions Act was enacted, making this preemption of conflicting state and local law permanent. The Fair Credit Reporting Act was also amended to place further restrictions on the use of information shared between affiliates, to provide new disclosures to consumers when risk-based pricing is used in the credit decision, and to help protect consumers from identity theft. All of these provisions impose additional regulatory and compliance costs on us and reduce the effectiveness of our marketing programs.

Truth in Lending Act The Truth in Lending Act (TILA), as amended, and Regulation Z, which implements TILA, requires lenders to provide borrowers with uniform, understandable information concerning terms and conditions in certain credit transactions. These rules apply to Ally and its subsidiaries in transactions in which they extend credit to consumers and require, in the case of certain mortgage and automotive financing transactions, conspicuous disclosure of the finance charge and annual percentage rate, if any. In addition, if an advertisement for credit states specific credit terms, Regulation Z requires that such advertisement state only those terms that actually are or will be arranged or offered by the creditor. Failure to comply with TILA can result in liability for damages as well as criminal and civil penalties.

Sarbanes-Oxley Act The Sarbanes-Oxley Act of 2002 implements a broad range of corporate governance and accounting measures designed to promote honesty and transparency in corporate America. The principal provisions of the act include, among other things, (1) the creation of an independent accounting oversight board; (2) auditor independence provisions that restrict non-audit services that accountants may provide to their audit clients; (3) additional corporate governance and responsibility measures including the requirement that the chief executive officer and chief financial officer certify financial statements; (4) the forfeiture of bonuses or other incentive-based compensation and profits from the sale of an issuer's securities by directors and senior officers in the twelve-month period following initial publication of any financial statements that later require restatement; (5) an increase in the oversight of and enhancement of certain requirements relating to audit committees and how they interact with the independent auditors; (6) requirements that audit committee members must be independent and are barred from accepting consulting, advisory, or other compensatory fees from the issuer; (7) requirements that companies disclose whether at least one member of the audit

Table of Contents

committee is a financial expert (as defined by the SEC) and, if not, why the audit committee does not have a financial expert; (8) a prohibition on personal loans to directors and officers, except certain loans made by insured financial institutions, on nonpreferential terms and in compliance with other bank regulatory requirements; (9) disclosure of a code of ethics; (10) requirements that management assess the effectiveness of internal control over financial reporting and that the Independent Registered Public Accounting firm attest to the assessment; and (11) a range of enhanced penalties for fraud and other violations.

USA PATRIOT Act/Anti-Money-Laundering Requirements In 2001, the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT Act) was signed into law. Title III of the USA PATRIOT Act amends the Bank Secrecy Act and contains provisions designed to detect and prevent the use of the U.S. financial system for money laundering and terrorist financing activities. The Bank Secrecy Act, as amended by the USA PATRIOT Act, requires bank holding companies, banks, and certain other financial companies to undertake activities including maintaining an anti-money-laundering program, verifying the identity of clients, monitoring for and reporting on suspicious transactions, reporting on cash transactions exceeding specified thresholds, and responding to requests for information by regulatory authorities and law enforcement agencies. We have implemented internal practices, procedures, and controls designed to comply with these anti-money-laundering requirements.

Community Reinvestment Act Under the Community Reinvestment Act (CRA), a bank has a continuing and affirmative obligation, consistent with the safe-and-sound operation of the institution, to help meet the credit needs of its entire community, including low- and moderate-income neighborhoods. The CRA does not establish specific lending requirements or programs for financial institutions. However, institutions are rated on their performance in meeting the needs of their communities.

Other Our U.S. mortgage business has subsidiaries that are required to maintain regulatory capital requirements under agreements with the GSEs and the Department of Housing and Urban Development.

Employees

We had approximately 14,800 employees worldwide at December 31, 2011.

Segment and Geographic Information

The results of operations for each of our reportable operating segments and the products and services offered are contained in the individual business operations sections of Management's Discussion and Analysis of Financial Condition and Results of Operations. Financial information related to reportable operating segments and geographic areas is provided in Note 28 to the Consolidated Financial Statements.

Properties

Our principal corporate offices are located in Detroit, Michigan; New York, New York; and Charlotte, North Carolina. In Detroit, we lease approximately 247,000 square feet from GM pursuant to a lease agreement expiring in November 2016. In New York, we lease approximately 35,000 square feet of office space under a lease that expires in July 2015. In Charlotte, we lease approximately 133,000 square feet of office space under a lease expiring in December 2015.

The primary offices for our Global Automotive Services operations are located in Detroit, Michigan, and Southfield, Michigan. The primary office for our North American Automotive Finance operations is located in

Table of Contents

Detroit, Michigan, and is included in the totals referenced above. Our International Automotive Finance operations leased space in 22 countries totaling approximately 375,000 square feet. The largest location is in the United Kingdom with office space under lease of approximately 76,000 square feet. The primary office for our U.S. Insurance operations is located in Southfield, Michigan, where we lease approximately 71,000 square feet of office space under leases expiring in April 2016. Our Insurance operations also have significant leased offices in Mexico.

The primary offices for our Mortgage operations are located in Fort Washington, Pennsylvania, and Minneapolis, Minnesota. In Fort Washington, we lease approximately 450,000 square feet of office space pursuant to a lease that expires in November 2019. In Minneapolis, we lease approximately 60,000 square feet of office space expiring in March 2014. Our Mortgage operations also have significant leased offices in Texas and California.

In addition to the properties described above, we lease additional space throughout the United States and in other countries in which we have significant operations, including Canada, Germany, and Brazil. We believe our facilities are adequate for us to conduct our present business activities.

Legal Proceedings

Refer to Note 31 to the Consolidated Financial Statements for a discussion related to our legal proceedings.

Table of Contents**MANAGEMENT**

The following table presents information regarding directors, executive officers, and other significant employees of Ally.

| Name | Age | Position |
|----------------------|------------|--|
| Franklin W. Hobbs | 64 | Director (Chairman of the Board) |
| Robert T. Blakely | 70 | Director (Chairman of Audit Committee) |

| David J. DeBrunner | 45 | Vice President, Chief Accounting Officer, and Corporate Controller |
| Sanjay Gupta | 43 | Chief Marketing Officer |
| Thomas Marano | 50 | Chief Executive Officer, ResCap, and Chief Capital Markets Officer |

Directors, Executive Officers, and Other Significant Employees

Franklin W. Hobbs Director of Ally since May 2009. He currently serves as Chairman of the board. Since 2004, he has been an advisor to One Equity Partners LLC, which manages investments and commitments for JPMorgan Chase & Co. in direct private equity transactions. He was previously the CEO of Houlihan Lokey Howard & Zukin. In that role, he oversaw all operations, which included advisory services for mid-market companies involved in mergers and acquisitions and corporate restructurings. He previously was Chairman of UBS AG's Warburg Dillon, Read & Co. Inc. unit. Prior to that, he was President and CEO of Dillon, Read & Co. Inc. Hobbs earned his bachelor's degree from Harvard College and master's degree in business administration from Harvard Business School. He serves as a director on the Boards of the Lord Abbett & Company and Molson Coors Brewing Company.

Robert T. Blakely Director of Ally since May 2009. He currently serves as Chairman of the Audit Committee. He is a trustee of the Financial Accounting Foundation, the oversight board for the Financial Accounting Standards Board. Blakely is the former executive vice president and chief financial officer of Fannie Mae. In this role, he led the financial restatement and implementation of SOX controls. He was previously the chief financial officer of WorldCom/MCI, Lyondell Chemical, Tenneco, and US Synthetic Fuels Corporation where he gained valuable experience dealing with accounting principles and financial reporting rules and regulations, evaluating financial results, and generally overseeing the financial reporting processes of large corporations. Blakely received his PhD from Massachusetts Institute of Technology and his master's and bachelor's degrees from Cornell University.

Mayree C. Clark Director of Ally since May 2009. She currently serves as Chairman and member of the Ally Risk Management and Compliance Committee and the Audit Committee. Clark also serves as a member of the investment committee for Aetos Capital Asia, which manages the firm's investments in Japanese and Chinese real estate, and is a director of the Stanford Management Company, which manages the University's endowment. Clark is a former partner and member of the executive committee at AEA Holdings. Clark held a variety of executive positions at Morgan Stanley over a span of nearly 25 years, serving as Global Research Director, Director of Global Private Wealth Management. Clark began her career as an economic associate in antitrust

Table of Contents

litigation at National Economic Research Associates, Inc. Clark earned a bachelor's degree from the University of Southern California and a master's degree in business administration from Stanford University Graduate School of Business.

John D. Durrett Director of Ally since February 2011. He currently serves as a member of the Audit Committee and Compliance Committee. He currently serves as a strategic adviser to Serent Capital, a San Francisco-based private equity firm, and sits on the boards of two of Serent's portfolio companies. Durrett is a director emeritus of McKinsey & Co., Inc., and completed his 27-year career with the firm in 2007. He served in numerous senior leadership positions during his tenure at McKinsey and also served as a member of the firm's Shareholder's Council and chaired its Finance and Infrastructure Committee. Durrett was also a long-time member of McKinsey's Compensation Committee and the Director's and Principal's Review Committees. Durrett received a bachelor's degree from Millsaps College, a juris doctorate from Emory University and a master's degree in business administration from the Wharton School of the University of Pennsylvania.

Stephen A. Feinberg Director of Ally since March 2009. He founded Cerberus Capital Management in November 1992. He also founded or cofounded the other Cerberus general partners/management companies and investment funds and is the Chief Executive Officer of an affiliated loan origination company. Feinberg began his career at Drexel Burnham Lambert where he was actively involved in trading large pools of firm capital. From 1985 to 1992, after leaving Drexel Burnham Lambert, he managed money in separate accounts, most of which was firm capital of Gruntal & Co., Inc. Feinberg has over 25 years of experience in distressed investing, including investments in the financial services industry, and he has served as a control party in connection with investments in numerous financial institutions, including various lending institutions. Feinberg is a 1982 graduate of Princeton University.

Kim S. Fennebresque Director of Ally since May 2009. Fennebresque is chairman and chief executive officer of Dahlman Rose & Co. and is a senior advisor at Cowen Group, Inc. He previously served as its chairman, president, and chief executive officer where he oversaw all aspects of the management and operations of the company. Fennebresque has extensive business experience and has served as an investment banker for over three decades. He has demonstrated leadership capability and has extensive knowledge of the management of a publicly traded company. The depth and breadth of his exposure to areas of compensation, legal, accounting, and regulatory issues make him a skilled advisor. Prior to joining Cowen Group, Fennebresque served as head of the Corporate Finance and Mergers & Acquisitions departments at UBS. He also was a general partner and co-head of Investment Banking at Lazard Frères & Co. and held various positions at The First Boston Corporation. Fennebresque is a graduate of Trinity College and Vanderbilt Law School. He is currently on the boards of TEAK Fellowship, and Fountain House.

Marjorie Magner Appointed to the Ally board of directors in May 2010. She also serves on the Audit Committee and Risk and Compliance Committee. Magner is a founding member and partner of Brysam Global Partners. Previously, she served as chairman and chief executive officer of the Global Consumer Group at Citigroup. In this position, she was responsible for the company's operations serving consumers through retail banking, credit cards, and consumer finance. She earned a bachelor's degree in psychology from Brooklyn College and a master's degree from Krannert School of Management, Purdue University. Magner also serves on the boards of Accenture Ltd., Gannett Company, Inc., and the Brooklyn College Foundation. She is a member of the dean's advisory council for the Krannert School of Management.

John J. Stack Appointed to the Ally board of directors in April 2010. He also serves on the Audit Committee and Risk and Compliance Committee. Stack served as chairman and chief executive officer of Ceska Sporitelna, a.s., the largest bank in the Czech Republic, from 2000 to 2007. Prior to that, he spent 22 years in retail banking in various roles at Chemical Bank and then later at Chase Bank. Stack began his career in government working in staff roles in the New York City Mayor's Office and then the New York City Courts System. He earned a bachelor's degree from Iona College and a master's degree from Harvard Graduate School of Business Administration. He also serves on the boards of Erste Bank Group and Mutual of America.

Table of Contents

Michael A. Carpenter Chief Executive Officer of Ally since November 2009 and a member of the Ally Board of Directors since May 2009. He oversees all Ally strategy and operations to focus on strengthening the core businesses, while positioning the company for long-term growth. Carpenter has broad and deep experience in banking, capital markets, turnarounds, and corporate strategy. Most recently, he founded Southgate Alternative Investments in 2007. From 2002 to 2006, he was chairman and chief executive officer of Citigroup Alternative Investments overseeing \$60 billion of proprietary capital and customer funds globally in various alternative investment vehicles. From 1998 to 2002, Carpenter was chairman and chief executive officer of Citigroup's Global Corporate & Investment Bank with responsibility for Salomon Smith Barney Inc. and Citibank's corporate banking activities globally. Carpenter was named chairman and CEO of Salomon Smith Barney in 1998, shortly after the merger that created Citigroup, and led the first ever successful integration of a commercial and investment bank. Prior to Citigroup, he was chairman and CEO of Travelers Life & Annuity and vice chairman of Travelers Group Inc. responsible for strategy and business development. From 1989 to 1994, he was chairman of the board, president, and CEO of Kidder Peabody Group Inc., a wholly owned subsidiary of General Electric Company. From 1986 to 1989, Carpenter was executive vice president of GE Capital Corporation. He first joined GE in 1983 as vice president of Corporate Business Development and Planning and was responsible for strategic planning and development as well as mergers and acquisitions. Earlier in his career, Carpenter spent nine years as vice president and director of the Boston Consulting Group consulting to major companies on corporate strategy and three years with Imperial Chemical Industries of the United Kingdom. Carpenter received a bachelor of science degree from the University of Nottingham, England, and an MBA from the Harvard Business School where he was a Baker Scholar. He also holds an honorary degree of Doctor of Laws from the University of Nottingham. He serves on the boards of US Retirement Partners and the New York City Investment Fund and has been a board member of the New York Stock Exchange, General Signal, Loews Cineplex, and various other private and public companies.

Jeffrey J. Brown Appointed Senior Executive Vice President of Finance and Corporate Planning in June 2011. In this role, Brown oversees the finance, treasury and corporate strategy activities of the company. Brown joined Ally in March 2009 as corporate treasurer with responsibility for global treasury activities, including funding and balance sheet management. Prior to joining Ally, Brown was the corporate treasurer for Bank of America where he had responsibility for the core treasury functions including funding and managing interest rate risk. Brown was at Bank of America for 10 years, beginning his career in finance and later joining the balance sheet management division. Brown previously served as the bank's deputy treasurer and oversaw balance sheet management and the company's corporate funding division. He was also a member of the company's Asset/Liability Management Committee. He received a bachelor's degree in economics from Clemson University and an executive master's degree in business from Queens University in Charlotte. He serves on the Trevillian Cabinet of the College of Business and Behavioral Sciences at Clemson University and on the advisory board of McColl School of Business at Queen's University in Charlotte.

James G. Mackey Chief Financial Officer of Ally since June 2011, after serving as interim Chief Financial Officer since April 2010. In this role, he is responsible for the oversight of the company's financial analysis, controls and reporting, accounting, business planning, and investor relations. Mackey joined the company in 2009 as group vice president and senior finance executive responsible for financial planning and analysis, investor relations, corporate treasury finance, and banking subsidiary financial departments. Previously, Mackey served as chief financial officer for the corporate investments, corporate treasury, and private equity divisions at Bank of America. Earlier in his tenure at Bank of America, he served as managing director within the global structured products group. Prior to Bank of America, Mackey served in the financial institutions practice group at PricewaterhouseCoopers LLP, specializing in capital markets accounting and consulting. He holds a bachelor's degree in business administration and a master's degree in accounting from the University of North Carolina at Chapel Hill. He is also a registered certified public accountant in North Carolina.

Barbara A. Yastine Chief Administrative Officer of Ally since May 2010. In this role, she has oversight for the risk, compliance, legal and technology functions and also serves as Chair of Ally Bank. Yastine is a seasoned executive with diverse experience at financial services companies. Prior to joining Ally, she served as a

Table of Contents

principal of Southgate Investment Partners, LLC. Before that, she was chief financial officer for Credit Suisse First Boston from 2002 to 2004 and had responsibility for controllership, treasury, risk management, strategy, mergers and acquisitions, and tax. She was with Citigroup and its predecessors for 15 years with her last position being as chief financial officer of Citigroup's global corporate and investment bank. During her time at Citigroup, she also served as chief auditor, chief administrative officer of the global consumer group, and as executive vice president of what is now CitiFinancial. Yastine began her career at Citigroup predecessor Primerica as the head of investor relations. Yastine chairs the Audit Committee of the board of directors of Symphony Services, a portfolio company of private equity firm Symphony Technology Group. She is also a member of the board of trustees of Phoenix House where she chairs the Finance and Audit Committee and serves on the Compensation and Succession Planning Committees. She also serves on the board of Primerica Inc. Yastine is a former trustee of the Financial Accounting Foundation. She holds a bachelor's degree in journalism and a master's degree in finance, both from New York University.

William F. Muir President of Ally since 2004, Chairman of Ally Insurance Group since June 1999, and a Member of the Ally Commercial Finance and Ally Bank Boards of Directors since February 2002 and March 2004, respectively. Prior to that time, Muir served as executive vice president and chief financial officer from February 1998 to 2004. From 1996 to 1998, Muir served as executive-in-charge of operations and then executive director of planning at Delphi Automotive Systems, a former subsidiary of GM. Prior to serving at Delphi Automotive Systems, Muir served in various executive capacities with Ally since first joining Ally in 1992. He also served in a number of capacities with GM since joining the company in 1983.

David J. DeBrunner Vice President, Chief Accounting Officer, and Controller of Ally since September 2007. DeBrunner joined Ally from Fifth Third Bancorp (Fifth Third) where he was senior vice president, corporate controller, and chief accounting officer from January 2002 to August 2007. Prior to that position, he served as the chief financial officer for the commercial division of Fifth Third beginning in December 1999. DeBrunner joined Fifth Third in 1992 and held various financial leadership positions throughout the company. Prior to his time at Fifth Third, he held positions at Deloitte and Touche LLP in the Chicago and Cincinnati offices. DeBrunner holds a bachelor's degree in accounting from Indiana University and is a member of the American Institute of Certified Public Accountants.

Sanjay Gupta Chief Marketing Officer of Ally Financial Inc. since March 2008. Gupta has responsibility for all marketing, e-commerce, and product innovation at Ally. Before joining Ally, Gupta held the position of global consumer & small business marketing executive at Bank of America. Prior to joining Bank of America in 2001, Gupta served as chief marketing officer of SciQuest.com and before that assignment as managing director of interactive marketing and e-commerce at Federal Express. Gupta has a bachelor's degree in electronics engineering from the University of Bombay and a master's degree in business administration from the University of Texas at Austin with a concentration in finance and management information systems.

Thomas Marano Chairman and Chief Executive Officer of Ally's Mortgage operations and, as of May 1, 2009, Ally's Chief Capital Markets Executive. As CEO of Mortgage operations, Marano oversees mortgage lending and servicing at Residential Capital, LLC (ResCap) and ResMor Trust (the Canadian depository) and the correspondent and warehouse lending at Ally Bank. Marano has served as Chairman and Chief Executive Officer of ResCap since July 2008 and is a chairman on its board of directors and member of its executive committee. In the role of Chief Capital Markets Executive, Marano oversees the coordination of Ally's capital commitments across the firm's bank, broker-dealer, mortgage, automotive, and proprietary trading divisions. Before joining ResCap, Marano was managing director for Cerberus Capital Management, L.P., responsible for residential and commercial capital markets. Marano spent more than 25 years at Bear Stearns & Co. Inc., most recently as senior managing director and global head of mortgage and asset-backed securities responsible for mortgage sales, trading, and origination. Marano earned a bachelor's degree from Columbia College in New York City. He serves on the board of the Intrepid Fallen Heroes Fund and is on Columbia University's Board of Visitors and a Trustee of the Samuel Waxman Cancer Research Foundation.

Table of Contents

Ally Code of Ethics

Ally has published on its website the Ally Code of Conduct and Ethics (the Code) that is applicable to all employees. The Code further includes certain provisions that apply specifically to Ally financial professionals (as that term is defined in the Code). The Code has been posted on Ally's internet website at www.ally.com, under About Ally, and Policies & Charters. Any amendment to, or waiver from, a provision of the Code that applies to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions will be posted at this same internet website location as required by applicable law.

Board and Committee Composition

Our current directors were elected pursuant to the terms of the Amended and Restated Governance Agreement dated May 21, 2009 (the Governance Agreement), which we previously entered into with our shareholders. Based on the current ownership of our common stock, the Governance Agreement provides that the Board is to be comprised of the following: (1) one director designated by affiliates of Cerberus Capital Management, L.P., (2) six directors designated by Treasury, (3) the chief executive officer of Ally and (4) three independent directors chosen by the members described in (1) through (3) above. Currently, the Board consists of the Cerberus appointed director, the chief executive officer of Ally, four directors designated by Treasury, and three independent directors. As of December 31, 2011, there were two open director seats to be appointed by Treasury. See Certain Stockholder Agreements.

The Board has independently and affirmatively determined that all Board members, except for Mr. Carpenter, meet all the requirements for independence under the rules and regulations promulgated by the NYSE.

We have established a separately designated standing Audit Committee. Members currently include Chairman Robert T. Blakely, Mayree C. Clark, Marjorie Magner, John D. Durrett Jr. and John J. Stack. Each member is independent as required by Rule 10A-3 of the Exchange Act and under rules of the NYSE, and the Board has determined that all members are also qualified as audit committee financial experts, as defined by the SEC. The Audit Committee operates pursuant to a charter approved by the Board of Directors. The Audit Committee reviews and, as it deems appropriate, recommends to our Board of Directors our internal accounting and financial controls and the accounting principles and auditing practices and procedures to be employed in preparation and review of our financial statements. The Audit Committee also makes recommendations to the Board concerning the engagement of independent public auditors and the scope of the audit to be undertaken by such auditors.

We have also established a Compensation, Nominating, and Governance Committee (the CNG Committee). Members of the CNG Committee currently include Kim S. Fennebresque (Committee Chairman), Robert T. Blakely, and Franklin W. Hobbs. The Board has independently and affirmatively determined that all CNG Committee members meet all the requirements for independence under the rules and regulations promulgated by the NYSE. The CNG Committee operates pursuant to a charter approved by the Board of Directors. For a description of CNG's responsibilities, see Executive Compensation.

We have also established a Risk and Compliance Committee (the Risk Committee). Members of the Risk Committee currently include Mayree C. Clark (Committee Chairwoman), Stephen A. Feinberg, Franklin W. Hobbs, Marjorie Magner and John J. Stack. The Risk Committee operates pursuant to a charter approved by the Board of Directors. The Risk Committee assists the Board of Directors in setting risk appetite and tolerances, and overseeing our management's responsibility to manage our risk profile and implement our risk program, with emphasis on credit, market, liquidity, operational, and reputational risks from both an enterprise and a line of business perspective. Additionally, the Risk Committee oversees our management's responsibility to implement our compliance program, with emphasis on our compliance with legal and regulatory requirements.

Table of Contents

EXECUTIVE COMPENSATION

Corporate Governance and Related Disclosures

The Compensation, Nominating and Governance Committee

The Ally Compensation, Nominating and Governance Committee (the Committee) is a committee of the Ally Board of Directors (Board) consisting of three non-employee independent directors, including Kim S. Fennebresque (Committee Chairman), Robert T. Blakely, and Franklin W. Hobbs.

The Committee, pursuant to its Charter, is responsible for the following:

Discharging the Board's responsibilities with respect to the establishment, maintenance and administration of Ally's compensation plans, including determining the total compensation of the Chief Executive Officer and executive officers plus other senior executives designated by the Committee as under its purview;

Overseeing Ally's leadership development and succession planning programs;

Identifying qualified individuals for membership on the Board (consistent with criteria approved by the Board) and to recommend to the Board the director nominees;

Reviewing and recommending to the Board the director compensation for service on the Board;

Leading the Board and its committees in their annual self-evaluation and the annual review of the Board's performance;

Developing and recommending to the Board a corporate governance policy for the Board, and overseeing Ally's corporate governance procedures and practices related to the Board; and

Performing any and all duties required of it under the Emergency Economic Stabilization Act of 2008 (EESA) and any regulations or other legal authority promulgated at any time thereunder.

Compensation, Nominating and Governance Committee Process

Ally's executive compensation programs are administered by the Committee. During 2011, the Committee met 11 times.

The Committee determines the compensation of senior executives under its purview, including the compensation of our named executive officers (NEOs), who are also our Senior Executive Officers (SEOs) for purposes of the Troubled Asset Relief Program (TARP) requirements. In making its determination for senior executives, other than the Chief Executive Officer (CEO), and in making changes to our executive compensation program, the Committee considers the recommendations of the CEO. The Committee determines the compensation of the CEO without recommendations from the CEO or from management. The Committee has delegated to the CEO the authority to determine cash compensation for, and to grant long-term incentive awards to, executives other than for the approximately 25 highest-compensated employees and other select senior executives as determined by the Committee. The Committee also meets periodically in executive session without the presence of any members of management. The Committee seeks the input of Ally's Risk Management functions, and in its deliberations on compensation related issues it also consults with the chairperson of the Board's Risk and Compliance Committee and Audit Committee.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Frederic W. Cook & Co. (Cook) has been appointed by the Committee to serve as its independent advisor. Cook reports directly to the Committee and provides ongoing advice with respect to the plans and programs covering the executives, including our NEOs and non-employee directors, for which the Committee is responsible. Cook reviews all materials developed by management in advance of Committee meetings, provides

Table of Contents

advice and recommendations concerning changes to our plans and programs, as well as information on market practices and trends, and attends meetings of the Committee. Cook undertakes no separate work for Ally's management.

Ally's management engaged Pearl Meyer & Partners (Pearl Meyer) to provide consulting assistance on matters pertaining to executive compensation. More specifically, Pearl Meyer provided assistance regarding the following matters: a competitive assessment of the compensation paid to Ally's CEO, a price differential analysis for purposes of assisting in the Company's valuation to determine restricted stock unit awards, an analysis of total direct compensation for top executives and an updated competitive assessment of the compensation for Ally's 25 highest-compensated executives requested by the Special Master.

Executive Compensation Discussion and Analysis

Introduction

In 2011, Ally successfully maintained its position as the industry's leading auto finance company, and was ranked as the No. 1 overall auto lender in the U.S. (Source: AutoCount data from Experian Automotive Full Year 2011). Ally showed significant growth in auto loan originations, with its U.S. consumer financing originations increasing 27 percent year-over-year to \$40.2 billion in 2011, and continued to diversify its base of manufacturers served. Further, Ally maintained a strong capital and liquidity profile, and continued to build the deposit base at Ally Bank with a strong consumer value proposition and expanded product offerings. Since 2008, GMAC Mortgage has completed more than 765,000 default workouts for borrowers, which comprised approximately 28 percent of the loans serviced during that period. Notwithstanding these accomplishments, Ally reported a full-year net loss of \$157 million, which included a \$230 million charge for penalties which were imposed by certain regulators and other governmental agencies in connection with foreclosure-related matters. Our mortgage operations also experienced a decrease in the fair value of its mortgage servicing rights of \$1.6 billion in 2011.

TARP Executive Compensation Limitations

In connection with our participation in TARP and certain determinations of the Special Master, Ally is subject to certain limitations on executive compensation, the most significant of which are:

Cash salaries are limited based on the determination of the Special Master;

The majority of an CEO's compensation paid in equity that must be held long-term;

Incentive compensation granted in the form of long-term restricted equity that is contingent on performance and paid out after incremental TARP repayments;

Perquisites and other compensation capped at \$25,000, with limited exceptions;

Suspension of the accrual of benefits to supplemental executive retirement plans;

Prohibition on incentives for CEOs that could cause them to take unnecessary or excessive risks;

Clawback of any bonus or incentive compensation paid to an CEO based on statements of earnings, revenues, gains, or other performance criteria that are later found to be materially inaccurate, is based on erroneous data that resulted in an accounting restatement due to material noncompliance with any financial reporting requirement under the securities laws within the three years prior to payment, or is found to require repayment under the provisions of any other Federal law or regulation that may govern the Company's executive compensation; and

Prohibition on any severance payable to the CEOs and the next five most highly compensated employees. These limitations apply until Ally is no longer subject to TARP.

Table of Contents

Ally Compensation Program Overview and Philosophy

Working within the limitations imposed on our executive compensation by TARP, Ally's compensation philosophy has been, and continues to be, that there should be a strong linkage between compensation and performance. We believe compensation should:

Align with long-term value creation for our shareholders;

Provide appropriate incentives based on individual, business, and Company performance;

Encourage prudent, but not excessive risk taking;

Provide a total compensation opportunity competitive with market practice; and

Be internally equitable for the relative value of the employee's position at Ally.

In addition, our compensation plans are intended to achieve performance enabling us to complete the repayment to the U.S. taxpayers as quickly as practicable.

Ally supports the compensation principles underlying the TARP compensation rules, and we believe our compensation philosophy is consistent with the TARP compensation principles. The Special Master has required that the majority of compensation for NEOs and the next 20 highest-compensated employees be in the form of long-term stock or stock units, that such stock or stock units should be held for specified minimum periods of time, and that incentive payments should be subject to recoupment if paid based on information that is subsequently found to be materially inaccurate. The Company and the Committee fully support and have implemented these principles for our NEOs and the next 20 highest-compensated employees.

Refer to the *Long-term Equity-based Incentives* section for a discussion of the long-term stock awards that are granted to our NEOs.

The Pay Process for 2011

For 2011, the total compensation opportunity for the NEOs was determined by the Special Master, following review and approval of recommended total direct compensation levels for each of the NEOs by the Committee. As part of the process for developing pay recommendations for submission to the Special Master, the Committee approved individual performance goals and objectives for awarding long-term incentive restricted stock units (IRSUs) at year-end.

Assessing Ally Compensation Competitiveness

We compare our total direct compensation against a peer group of other comparably sized financial services companies with whom we compete for business and senior executive talent, primarily in the auto finance, mortgage finance, and commercial finance markets. We use publicly available reported pay data from a peer group of companies approved by the Committee to conduct the competitive assessment for the CEO and principal financial officer positions. For the other NEO and senior executive positions, we use market survey data from several survey sources to conduct the competitive assessments. Wherever practical, the market surveys include companies that are part of the peer group approved by the Committee.

Table of Contents

During 2011, the Committee approved revisions to the peer group to increase the focus on bank holding companies. The new peer group consists of the ten financial services companies listed below:

| | | |
|-----------------------|-------------------|--------------|
| BB&T | KeyCorp | U.S. Bancorp |
| Capital One Financial | PNC Financial | Wells Fargo |
| Discover | Regions Financial | |
| Fifth Third Bancorp | SunTrust Banks | |

For 2011, survey data used for the remaining NEOs and other senior executives came from one or more survey sources including Hewitt's Total Compensation Measurement (TCM) database, Towers Watson Executive Financial Services survey, McLagan Investment Management survey, and McLagan Fixed Income Sales and Trading survey. Because multiple survey sources are used and not all survey participants provide data for each of the remaining NEOs, it is not possible to list the survey participants included in our competitive data analyzed for positions other than the CEO and the principal financial officer.

For executives whose pay is not determined by the Special Master, our compensation philosophy is to set base salaries and employee benefits at median competitive levels and to set annual incentives to deliver total annual cash compensation up to or exceeding the 75th percentile when warranted by achievement of aggressive performance goals and top quartile competitive performance. If annual performance goals are not achieved, annual incentives are reduced or eliminated, and total annual cash compensation falls to below the market median. The size of long-term incentive awards relative to total compensation is set annually to ensure senior management maintains an appropriate level of long-term balance in their total compensation and to achieve individual differentiation of total compensation based on performance considerations and retention needs.

Due to the pay restrictions applicable to the NEOs under TARP, including limitations on incentive compensation, total direct compensation rather than individual elements of pay (i.e., base salary, annual incentives, and long-term incentives) is set to provide competitive compensation when attainment of individual performance goals supports the awarding of long-term IRSUs at year-end. If IRSUs are partially awarded or not awarded at all because of insufficient performance, total direct compensation will fall below competitive levels.

At the beginning of the year, the Committee sets proposed direct and incentive compensation levels for each of the NEOs based on his or her job responsibilities. Once the Committee determines and approves the proposed compensation packages for the NEOs, they are submitted to the Special Master for approval. The Special Master then reviews the proposed packages to determine if they are aligned with TARP requirements and set at appropriate market levels. The Special Master subsequently issues a determination letter, specifying the final design and allocation of total pay approved for the NEOs. At the end of the year, the Committee reviews the performance of the NEOs relative to their individual goals and objectives and determines the total incentive compensation (i.e., the IRSUs) to be awarded to each NEO, which can be up to 100% of the amount previously approved in the determination letter.

Role of Management in Compensation Decisions

Compensation recommendations for the NEOs other than the CEO are presented to and discussed with the Committee by the CEO. The Committee then determines and approves the proposed compensation for the NEOs, which is submitted to the Special Master for final approval.

The Committee determines and approves the compensation of the CEO without the recommendation of management.

Table of Contents**Components of Ally Compensation Program**

Due to the TARP restrictions on cash compensation and limitations on incentive compensation, base salary is delivered in a combination of cash and equity. Additionally, all NEOs are ineligible to receive annual cash incentives, but are eligible to receive incentives of up to one-third of total compensation in the form of long-term IRSUs. We also offer limited perquisites and other benefits in order to enhance the effectiveness of our NEOs in focusing their time and energy on performing their duties and responsibilities and to enable us to offer a competitive compensation package to attract and retain senior executive talent.

Base Salary

Under our compensation philosophy, base salary is intended to provide a predictable level of compensation that is competitive in the marketplace for the position responsibilities and individual skills, knowledge, and experience of each executive. However, the pay restrictions under TARP significantly limit the form and amount of base salary paid in 2011. As a result, a significant portion of total direct compensation is delivered in the form of equity-based salary for alignment with shareholders' interests.

The following table shows base salaries paid to the NEOs in 2011.

| NEO | Cash (\$) | 2011 Base salary Equity (Deferred stock units) (\$) | Total (\$) |
|----------------------|-----------|---|------------|
| Michael A. Carpenter | | 8,000,000 | 8,000,000 |
| Jeffrey J. Brown | 600,000 | 2,350,000 | 2,950,000 |
| Thomas Marano | 600,000 | 4,735,633 | 5,335,633 |
| Barbara Yastine | 600,000 | 2,858,238 | 3,458,238 |
| William Muir | 509,000 | 1,931,520 | 2,440,520 |
| James G. Mackey | 550,000 | 1,353,825 | 1,903,825 |

Equity salary is delivered in the form of deferred stock units (DSUs), which are immediately vested, but are subject to restrictions on the timing of payout. DSUs awarded in 2011 are paid out in installments beginning one year after grant and continuing over the next three years.

Annual Cash Incentives

All NEOs were ineligible to receive annual cash incentives in 2011 due to restrictions under TARP and will continue to be ineligible for as long as the TARP restrictions are in place.

Long-term Equity-based Incentives

We provide long-term equity-based incentives in the form of IRSUs to have an incentive compensation component in the total direct compensation opportunity for our NEOs, and to provide retention and alignment with shareholder interests. Due to the restrictions under TARP, grants of long-term IRSUs are the only incentive compensation permitted for the NEOs and the next 20 highest-compensated employees.

The long-term IRSU awards granted in 2011 to our NEOs and the next 20 highest-compensated employees vest two-thirds after two years from the day they are granted and in full three years after they are granted. After the vesting requirement is met, the NEOs will receive payouts only when the Company starts to repay its TARP obligations. Payouts will be made on an incremental basis. For example, after the vesting requirement is met and Ally repays 25% of the TARP obligations, 25% of the value of the vested IRSU award will be paid to the NEOs (the payout schedule is the same for all NEOs and the next 20 highest-compensated employees receiving these awards). The NEOs will receive additional installments equal to 25% of the vested IRSU value after 50%, 75%, and 100% of the TARP obligations have been repaid.

Table of Contents

As of December 31, 2011, Ally had repaid more than 25% of its TARP obligations. Therefore, 25% of IRSUs granted will be immediately payable to recipients upon the vesting date(s).

Incentive Compensation Determination for the NEOs

At the beginning of 2011, the Committee established proposed incentive compensation levels for each of the NEOs up to the maximum level permitted by TARP of one-third of their total compensation. As noted above, IRSU awards are the only permitted incentive compensation for the NEOs. Individual goals and objectives related both to Ally performance and individual performance including the performance of the individual's business unit or function were set for the awarding of incentive compensation at year-end.

Based on its reviews of Ally and individual performance, the Committee granted the IRSU awards to the NEOs as indicated in the Summary Compensation Table. The value of each IRSU award granted was determined at the end of the year primarily based on the 2011 performance of Ally relative to Company objectives and accomplishments and the Committee's judgment of how each NEO performed relative to his or her individual goals and objectives, including adherence to standards set by Ally's risk, audit, model validation, loan review and compliance functions, and the limitation established under TARP that incentive compensation cannot exceed one-third of total compensation and cannot be earned above 100% to reflect overachievement of any goals and objectives. In its determination process, the Committee did not employ any formula or quantitative adjustment methodology, but relied instead on its overall assessment of the individual's performance against stated goals and objectives and its subjective judgment regarding the individual's contribution to the Company's annual performance. Forms of compensation other than IRSUs were not impacted by these reviews since they were set at the permitted levels in accordance with the applicable TARP restrictions on executive compensation.

The significant 2011 performance objectives and accomplishments for Ally are discussed in the CEO Compensation section below. Each NEO was responsible for various contributions to achieve these enterprise-wide objectives. Below is a listing of the overall responsibilities of each NEO, along with the NEO's significant individual 2011 performance objectives and applicable 2011 accomplishments. In addition to the performance objectives and accomplishments listed below, in determining the incentive compensation amounts for the NEOs, the Committee also considered the overall financial performance of Ally for 2011.

CEO Compensation

Michael A. Carpenter Chief Executive Officer of Ally since November 2009 and a member of the Ally Board of Directors since May 2009. Mr. Carpenter oversees all Ally strategy and operations to focus on strengthening the core businesses, while positioning the Company for long-term growth. The 2011 performance objectives and accomplishments for Mr. Carpenter are included in the table below. In making the incentive compensation award determination for Mr. Carpenter, the Committee considered the performance objectives and accomplishments of Ally.

| 2011 Performance Objectives | 2011 Accomplishments |
|--|--|
| Capitalize on opportunities in the auto finance business | Continued profitability in the Global Automotive Services business Ally ranked as the number one overall auto lender in the United States by Experian Automotive Increased consumer auto financing originations for new and used vehicles Named the recommended provider of financing products and services for Vehicle Production Group, Baojun, and SsangYong Expanded Ally Buyer's Choice, a unique consumer financing product launched in October, to a total of 47 states to date |

Table of Contents

| 2011 Performance Objectives | 2011 Accomplishments |
|---|--|
| Continue to build Ally Bank with a strong consumer value proposition and expanded product offerings | Achieved strong deposit growth and high CD retention rates at Ally Bank Introduced new Investment Retirement Accounts, Ally Perks and eCheck remote deposit products at Ally Bank |
| Demonstrate commitment to home ownership preservation | Completed more than 765,000 default workouts for borrowers since 2008 |
| Maintain a strong capital and liquidity profile | Completed new funding transactions totaling \$38 billion during the year Improved cost of funds in 2011, as compared to 2010 |
| Position Ally to repay the United States Department of Treasury as soon as practical | The United States Treasury sold \$2.7 billion of Trust Preferred Securities to third-party investors To date, Ally Financial has paid \$5.4 billion to the United States Treasury including preferred dividends |

Other NEO Compensation

Mr. Carpenter, in consultation with the Compensation Committee and the Board, established the priorities for Ally and each NEO at the beginning of the year. Each is a member of the Management Council, a group which is responsible for the strategic direction and overall performance of the Company. Each NEO plays a key role in the stewardship and overall success of Ally and achievement of Ally's established performance objectives. Therefore, the 2011 Ally accomplishments outlined in the CEO Compensation section above were the main deciding factors in determining the incentive compensation awards provided to each NEO for 2011. In addition to the accomplishments of Ally, the Committee also considered each NEO's individual accomplishments discussed below in a non-formulaic manner. When awarding incentive compensation grants to individual NEOs, the Committee is limited in the awards that can be granted as governed by the TARP compensation rules discussed above.

Jeffrey J. Brown Senior Executive Vice President of Finance and Corporate Planning of Ally since June 2011. Mr. Brown oversees the finance, treasury and corporate strategy activities of the company. In making the incentive compensation award determination for Mr. Brown, the Committee considered the performance objectives and accomplishments of Ally. The significant additional 2011 performance objectives and accomplishments for Mr. Brown are included in the table below.

| 2011 Performance Objectives | 2011 Accomplishments |
|--|--|
| Maintain a strong capital and liquidity profile | Improved cost of funds in 2011, as compared to 2010 |
| Implement expense and process improvements in the Treasury department | Significantly reduced spending in Treasury business while maintaining appropriate staffing level to complete business objectives |
| Attract new investors to the business and focus on continued international funding expansion | Completed new funding transactions totaling \$38 billion during the year |
| Position Ally to repay the United States Department of Treasury as soon as practical | The United States Treasury sold \$2.7 billion of Trust Preferred Securities to third-party investors To date, Ally Financial has paid \$5.4 billion to the United States Treasury including preferred dividends |

Table of Contents

Thomas Marano Chairman and Chief Executive Officer of Ally’s Mortgage operations and, as of May 1, 2009, Ally’s Chief Capital Markets Executive. As CEO of Mortgage operations, Mr. Marano oversees mortgage lending and servicing at Residential Capital, LLC (ResCap) and ResMor Trust (the Canadian depository) and the correspondent and warehouse lending at Ally Bank. In making the incentive compensation award determination for Mr. Marano, the Committee considered the performance objectives and accomplishments of Ally. The significant additional 2011 performance objectives and accomplishments for Mr. Marano are included in the table below.

2011 Performance Objectives

Manage risk through the current market volatility to minimize earnings volatility / maximize revenues
 Manage expenses in line with company wide initiatives
 Reduce non-core assets
 Demonstrate commitment to home ownership preservation

2011 Accomplishments

Assisted Capital Markets team with generating \$1.1 billion of revenue at Ally IM, Ally Bank and GMAC Insurance
 Achieved planned expense reductions in targeted areas
 Generated gains through non-core asset sales
 Completed more than 765,000 default workouts for borrowers since 2008

Barbara Yastine Chief Administrative Officer of Ally since May 2010. Ms. Yastine oversees the risk, compliance, legal, and technology functions, and also serves as the Chair of Ally Bank. In making the incentive compensation award determination for Ms. Yastine, the Committee considered the performance objectives and accomplishments of Ally. The significant additional 2011 performance objectives and accomplishments for Ms. Yastine are included in the table below.

2011 Performance Objectives

Continue to build Ally Bank with a strong consumer value proposition and expanded product offerings
 Implement strategies to drive cultural change objectives and foster transparency, escalation, accountability and consistency

2011 Accomplishments

Achieved strong deposit growth and high CD retention rates at Ally Bank
 Introduced new Investment Retirement Accounts, Ally Perks and eCheck remote deposit products at Ally Bank
 Improved employee communications, updated management
 Led cross-functional effort to design enterprise risk management framework to clarify expectations, roles and responsibilities, empowered lines-of-business (LOB), drove greater cooperation among LOB and functions with respect to effectively addressing operating risks while reducing duplication

William Muir President of Ally Financial Inc. since 2004. Mr. Muir oversees the Company’s auto finance, insurance, vehicle remarketing, and service operations. Mr. Muir is also chairman of Ally Insurance Group, and a member of the Ally Commercial Finance and Ally Bank Boards of Directors. In making the incentive compensation determination for Mr. Muir, the Committee considered the performance objectives and accomplishments of Ally. The significant additional 2011 performance objectives and accomplishments for Mr. Muir are included in the table below.

2011 Performance Objectives

Capitalize on opportunities in the auto finance business

2011 Accomplishments

Continued profitability in the Global Automotive Services business

Table of Contents

2011 Performance Objectives

2011 Accomplishments

Ally ranked as the number one overall auto lender in the United States by Experian Automotive

Increased consumer auto financing originations for new and used vehicles

Named the recommended provider of financing products and services for Vehicle Production Group, Baojun, and SsangYong

Expanded Ally Buyer's Choice, a unique consumer financing product launched in October, to a total of 47 states to date

James G. Mackey Chief Financial Officer of Ally since June 2011. Mr. Mackey is responsible for the oversight of the Company's financial analysis, controls and reporting, accounting, business planning, and investor relations. In making the incentive compensation award determination for Mr. Mackey, the Committee considered the performance objectives and accomplishments of Ally. The significant additional 2011 performance objectives and accomplishments for Mr. Mackey are included in the table below.

2011 Performance Objectives

2011 Accomplishments

Drive improvements in organization, process & technology

Implemented new financial forecasting system, forecast accuracy scorecards for LOB and completed finance technology long range plan

Position Ally to repay the United States Department of Treasury as soon as practical

The United States Treasury sold \$2.7 billion of Trust Preferred Securities to third-party investors

To date, Ally Financial has paid \$5.4 billion to the United States Treasury including preferred dividends

Support strategic growth of the businesses

Developed growth and benchmarking metrics for each business and implemented annual business unit survey

Benefits and Perquisites

We provide our NEOs with health and welfare benefits under the broad-based program generally available to all of our employees. This allows them to receive certain benefits that are not readily available to individuals except through an employer and to receive certain benefits on a pretax basis. Our benefit program includes the Ally Retirement Savings Plan. We provide the savings plan in lieu of higher current cash compensation to ensure that employees have a source of retirement income and because these plans enjoy more favorable tax treatment than current compensation. Under this plan, employee contributions of up to 6% of salary were matched 100% by Ally. The plan also provided a 2% nonmatching contribution on both salary and annual incentives, which fully vests after being employed for three years, and a 2% nonmatching discretionary contribution on salary in light of the Company's 2011 performance.

Ally suspended nonqualified contributions to its Retirement Savings Plan in 2009 and did not make any additional nonqualified contributions in 2011. Therefore, employer contributions for 2011 were made only under the qualified portion of the plan only which limits contributions to pay up to \$245,000.

In addition to broad-based benefits, the NEOs are provided with limited supplemental benefits and perquisites to remain competitive in attracting and retaining executive talent. For 2011, in accordance with the TARP restrictions, the total value of these perquisites and supplemental benefits was capped at \$25,000.

Table of Contents**Long-term Compensation Structure**

Based on the compensation structure for 2011, long-term equity-based compensation, represented by DSUs and IRSUs, comprises a significant portion of each NEOs total compensation. The long-term equity-based portion of total compensation for each NEO and its associated percentage of total compensation for 2011 are as follows.

| Name | Total compensation (\$) | Long-term equity-based compensation | |
|----------------------|-------------------------------|--|--|
| | | Dollar amount awarded (\$) | Percent of total compensation (%) |
| Michael A. Carpenter | 9,543,077 | 9,500,000 | 99.5% |
| Jeffrey J. Brown | 4,373,287 | 3,743,678 | 85.6% |
| Thomas Marano | 8,034,899 | 7,403,449 | 92.1% |
| Barbara Yastine | 5,215,307 | 4,587,357 | 88.0% |
| William Muir | 3,686,875 | 3,147,280 | 85.4% |
| James G. Mackey | 2,885,391 | 2,305,738 | 79.9% |

Employment Agreements and Severance

Ally currently has no employment agreement with any of the NEOs.

As a condition to participating in TARP, Ally's NEOs and the next five most highly compensated employees are not eligible for any severance in the event of termination of employment. These restrictions apply until Ally repays its TARP obligations.

Clawback Provisions

In connection with the risk assessment Ally conducted in 2011, the Company has reviewed all of its incentive compensation programs to ensure they include language allowing the Company to recoup incentive payments made to recipients in the event those payments were based on financial statements that are later found to be materially inaccurate. Incentive plans that did not include such language were revised to allow for incentive payments to be recovered. A recipient who fails to promptly repay Ally under such circumstances is subject to termination of employment.

Substantial Conformance with Federal Reserve Guidance on Incentive Compensation

In 2009, the Federal Reserve initiated a horizontal review of incentive compensation practices at 25 large, complex banking organizations. The goals of the horizontal review were to better understand incentive compensation practices across the firms and to provide guidance to assist each firm in conforming to the incentive compensation guidance adopted by all federal banking agencies in 2009. Ally was one of the 25 participants in the horizontal review process.

Ally has also independently assessed its incentive compensation practices in light of the Federal Reserve guidance and the pay restrictions applicable to the Company under TARP. Based on this assessment, at year-end 2011, management believes that Ally's incentive compensation practices are in full compliance with all TARP restrictions applicable to Ally and are also in substantial conformance with the guidance for all NEOs, other executive officers and other employees.

Table of Contents

Ally's NEOs, are all top 25 covered employees under TARP. Accordingly, their compensation is subject to certain unique restrictions and oversight that we believe provide risk-balancing features in conformance with the regulatory guidance as described below:

Pay Levels and Terms Set by Special Master

Levels of compensation (including incentive compensation) that may be paid to each Ally NEO and to other members of the top 25, as well as the terms of the pay arrangements, are determined by the Office of the Special Master for TARP Executive Compensation. The Special Master is an appointee of the US Treasury. Approved compensation is benchmarked to market levels deemed appropriate by the Special Master and are not excessive.

Incentive Compensation Is Capped

Incentive compensation for Ally's top 25 can be no greater than one-third of total annual compensation, or an amount established by the Special Master, *whichever is less*. Incentives may not be earned above the target level so there is no motivation to take excessive risks to maximize incentive payouts.

Incentives are Performance-based and Linked to Long-term Value Creation

All incentives payable to Ally's NEOs, and to other members of the top 25, are in the form of long-term equity grants that are therefore closely tied to the long-term value of the firm. These awards do not fully vest for three years from the date of grant. The sizes of the equity grants are determined on the basis of performance, subject to the limits determined by the Special Master. Once vested, equity awards are subject to a further performance hurdle that is linked to the repayment of TARP assistance. The vesting and TARP repayment requirements ensure that the top 25 are rewarded for sustained improvement in Ally's performance over the long-term and not the short-term.

Summary Compensation Table

The following table shows compensation for any person serving as principal executive officer or principal financial officer during 2011, as well as Ally's next three most highly compensated executive officers.

| Name and principal position | Year | Salary (\$ (a) (b)) | Stock awards (\$ (c) (d) (e)) | All other | Total (\$) |
|---|------|------------------------|----------------------------------|--------------------------|---------------|
| | | | | compensation (\$ (f)) | |
| Michael A. Carpenter Chief Executive Officer | 2011 | | 9,500,000 | 43,077 | 9,543,077 |
| | 2010 | 186,346 | 9,708,750 | 29,958 | 9,925,054 |
| | 2009 | 119,726 | 682,438 | 35 | 802,199 |
| Jeffrey J. Brown Senior Executive Vice President of Finance and Corporate Planning | 2011 | 600,000 | 3,743,678 | 29,609 | 4,373,287 |
| | 2010 | 500,000 | 3,750,000 | 38,908 | 4,288,908 |
| Thomas Marano Chief Executive Officer, ResCap, and Chief Capital Markets Officer | 2011 | 600,000 | 7,403,449 | 31,450 | 8,034,899 |
| | 2010 | 500,000 | 6,906,250 | 26,785 | 7,433,035 |
| | 2009 | 2,419,231 | 3,223,108 | 51,994 | 5,694,333 |
| Barbara Yastine Chief Administrative Officer | 2011 | 600,000 | 4,587,357 | 27,950 | 5,215,307 |
| William Muir President | 2011 | 509,000 | 3,147,280 | 30,595 | 3,686,875 |
| James G. Mackey Chief Financial Officer | 2011 | 550,000 | 2,305,738 | 29,653 | 2,885,391 |
| | 2010 | 475,068 | 1,922,951 | 21,604 | 2,419,623 |

(a) Amounts represent the cash portion of the base salary earned from each executive's employment commencement with Ally. These dates are: November 15, 2009, for Mr. Carpenter and May 1, 2009, for Mr. Marano. Mr. Mackey was named CFO on June 1, 2011. The amounts shown as salary do not include the DSU award values that are part of the executive's base salary and are shown as stock awards in this table.

Table of Contents

- (b) For 2010, represents the amount of Mr. Carpenter's compensation that was paid in cash prior to March 23, 2010, when his compensation structure changed to be fully based on long-term equity of the Company.
- (c) The 2011 total represents the grant date fair value of the Ally DSU and IRSU awards granted in 2011 and is not necessarily the cash payment received. The amounts for each NEO for 2011 are displayed in the following table.

| Name | DSU(\$) | IRSU(\$) | Total (\$) |
|----------------------|-----------|-----------|------------|
| Michael A. Carpenter | 8,000,000 | 1,500,000 | 9,500,000 |
| Jeffrey J. Brown | 2,350,000 | 1,393,678 | 3,743,678 |
| Thomas Marano | 4,735,633 | 2,667,816 | 7,403,449 |
| Barbara Yastine | 2,858,238 | 1,729,119 | 4,587,357 |
| William Muir | 1,931,520 | 1,215,760 | 3,147,280 |
| James G. Mackey | 1,353,825 | 951,913 | 2,305,738 |

- (d) The 2010 total represents the grant date fair value of the Ally DSU and IRSU awards granted in 2010 and is not necessarily the cash payment received. The amount for Mr. Carpenter includes \$395,096 of IRSU awards that were granted in January 2010 for performance in 2009, as per the SEC rules. The amounts for each NEO for 2010 are displayed in the following table.

| Name | DSU(\$) | IRSU(\$) | Total(\$) |
|----------------------|-----------|-----------|-----------|
| Michael A. Carpenter | 7,813,654 | 1,895,096 | 9,708,750 |
| Jeffrey J. Brown | 2,350,000 | 1,400,000 | 3,750,000 |
| Thomas Marano | 4,437,500 | 2,468,750 | 6,906,250 |
| James G. Mackey | 1,119,964 | 802,987 | 1,922,951 |

- (e) The 2009 total represents the grant date fair value of the Ally DSU and IRSU awards granted in 2009 and is not necessarily the cash payment received. The amount for Mr. Carpenter does not include \$395,096 of IRSU awards that were granted in January 2010 for performance in 2009 and were included in the 2010 total, as per the SEC rules. The Restricted Stock Unit (RSU) value shown for Mr. Marano represents the grant date fair value of his RSU awards granted in 2009. Subsequent to the grant, RSU awards with a fair value of \$671,135 were vested and settled, and RSU awards with a fair value of \$2,013,407 were converted to IRSU awards with the original RSU grant date. Based on TARP restrictions, a portion of Mr. Marano's IRSU awards were converted to DSU awards in December 2010. The balances below have been restated to include this conversion. The amounts for each NEO for 2009 are displayed in the following table.

| Name | RSU(\$) | DSU(\$) | Total(\$) |
|-------------------|-----------|---------|-----------|
| Michael Carpenter | | 682,438 | 682,438 |
| Thomas Marano | 2,569,246 | 653,862 | 3,223,108 |

- (f) See the All Other Compensation in 2011 section for further details.

Table of Contents

- (a) We provide a taxable allowance to certain senior executives for financial counseling and estate planning services with one of several approved providers. The NEOs are provided an enhanced financial and estate planning service. This program does not provide for tax preparation services. Costs associated with this benefit are reflected in the table above, based on the actual charge for the services received. Any taxes assessed on the imputed income for the value of this service are the responsibility of the executive.
- (b) Represents the total cost of liability insurance for 2011.
- (c) Represents the total cost of life insurance for 2011.
- (d) Represents the employer contribution, Company match contribution, and discretionary contribution made to the employees' 401(k) fund.

Grants of Plan-based Awards in 2011 Estimated Future Payments under Equity Incentive Plan Awards

The following table represents Ally DSU and IRSU awards, which are stated in phantom shares.

| Name | Award | Grant date (a) | All other stock awards: number of shares or unit of stock (b) | Grant date fair value of stock or unit awards \$(c) |
|----------------------|-------|----------------|---|---|
| Michael A. Carpenter | DSU | | 825.8 | 8,000,000 |
| | IRSU | 12/19/2011 | 187.5 | 1,500,000 |
| Jeffrey J. Brown | DSU | | 242.6 | 2,350,000 |
| | IRSU | 12/19/2011 | 174.2 | 1,393,678 |
| Thomas Marano | DSU | | 488.8 | 4,735,633 |
| | IRSU | 12/19/2011 | 333.5 | 2,667,816 |
| Barbara Yastine | DSU | | 295.0 | 2,858,238 |
| | IRSU | 12/19/2011 | 216.1 | 1,729,119 |
| William Muir | DSU | | 199.4 | 1,931,520 |
| | IRSU | 12/19/2011 | 152.0 | 1,215,760 |
| James G. Mackey | DSU | | 139.8 | 1,353,825 |
| | IRSU | 12/19/2011 | 119.0 | 951,913 |

- (a) The DSU awards are granted ratably in each pay period.
- (b) The award grants are expressed as phantom shares of Ally Financial.
- (c) The grant date fair value amounts shown do not reflect realized cash compensation by the NEOs, which is described in the Stock Awards Vested Table for the awards. The value shown represents the computed fair value at the date of grant of each award, which was \$10,341.91 per share for each award from January 1, 2011 through September 29, 2011. The grant date fair value for awards granted between September 30, 2011 through December 30, 2011 was \$8,000.00 per share. For a further discussion of the valuation of equity awards, see footnote (a) in the *Outstanding Equity Awards at 2011 Fiscal Year End* Stock Awards section below and Note 26 to our Consolidated Financial Statements.

Table of Contents**Outstanding Equity Awards at 2011 Fiscal Year End Stock Awards**

The following table provides information for the named executive officers regarding the Ally RSU and IRSU awards outstanding at December 31, 2011.

| Name | Grant date | Number of shares or units of stock that have not vested (#) (a) | Market value of shares or units of stock that have not vested (\$) (a) |
|--------------------------|------------|---|--|
| Michael A. Carpenter | 1/28/2010 | 50.6 | 429,865 |
| | 12/16/2010 | 192.0 | 1,632,001 |
| | 12/19/2011 | 187.5 | 1,593,750 |
| Jeffrey J. Brown (b) (c) | 10/28/2009 | 131.9 | 1,120,766 |
| | 12/14/2009 | 25.7 | 218,582 |
| | 12/16/2010 | 179.2 | 1,523,201 |
| | 12/19/2011 | 174.2 | 1,480,783 |
| Thomas Marano (b) | 10/28/2009 | 206.2 | 1,752,700 |
| | 12/14/2009 | 36.8 | 312,800 |
| | 12/16/2010 | 316.0 | 2,686,002 |
| | 12/19/2011 | 333.5 | 2,834,555 |
| Barbara Yastine | 12/16/2010 | 64.0 | 544,000 |
| | 12/19/2011 | 216.1 | 1,837,189 |
| William Muir | 9/15/2008 | 13.0 | 110,400 |
| | 12/31/2009 | 140.2 | 1,191,361 |
| | 12/16/2010 | 128.0 | 1,088,001 |
| | 12/19/2011 | 152.0 | 1,291,745 |
| James G. Mackey (c) | 3/26/2009 | 58.4 | 496,534 |
| | 12/14/2009 | 11.7 | 99,168 |
| | 12/16/2010 | 102.8 | 873,651 |
| | 12/19/2011 | 119.0 | 1,011,408 |

(a) Amounts shown represent Ally RSU and IRSU awards granted to named executives that have not vested. The RSU awards vest ratably over five years. The IRSU awards granted in 2009 and 2010 cliff vest over three years, in each case subject to continued service with Ally. The 2011 IRSU awards vest two-thirds after two years and in full after three years, subject to continued service with Ally. No portion of the 2009, 2010 or 2011 IRSU grants vested during 2011. Each award represents one phantom share of Ally. The market value for the phantom shares is determined by the Board at least annually, as required by the plan. The value for each phantom share at December 31, 2011, was \$8,500. During 2011, Sandler O'Neill & Partners, L.P. (Sandler O'Neill), an independent investment banking firm, was engaged to provide certain valuation analyses and to prepare an annual report regarding the value of the Company's common equity securities, to prepare quarterly updates starting with September 30, 2011 based on a market index established with Sandler O'Neill's advice, and to provide other services related thereto. The valuation amounts as of September 30, 2011 and December 31, 2011 were determined based on the analyses provided by Sandler O'Neill.

(b) Based on TARP restrictions a portion of Mr. Brown's and Mr. Marano's 2009 IRSU awards were converted to DSU awards. The balances shown here have been restated to include this conversion.

(c) The vesting and payout schedules of Mr. Brown's and Mr. Mackey's 2009 awards changed on December 19, 2009 to comply with TARP rules.

Table of Contents**Options Exercised and Shares Vested in 2011**

During 2011, no stock options were exercised by the named executive officers.

During 2011, no shares held by the named executive officers vested.

Nonqualified Deferred Compensation in 2011

The table below reflects year-end balances, Company distributions, and all earnings associated primarily with the Ally nonqualified equalization plan. This plan allows Company contributions to this plan to continue after the IRS maximum limits under our 401(k) plan have been reached.

Nonqualified deferred compensation

| Name | Plan name | Executive contributions in last FY (\$) | Registrant contributions in last FY (\$) | Aggregate earnings in last FY (\$) | Aggregate withdrawals/distributions (\$) | Aggregate balance at last FYE (\$) |
|----------------------|--|---|--|------------------------------------|--|------------------------------------|
| Michael A. Carpenter | DSUs (a) (b) | | 8,000,000 | (2,608,128) | 2,269,863 | 13,943,264 |
| Jeffrey J. Brown | Nonqualified Benefit Equalization Plan (c) | | | (9) | | 24,763 |
| | DSUs (a) (b) | | 2,350,000 | (746,989) | 632,545 | 4,017,124 |
| Thomas Marano | Nonqualified Benefit Equalization Plan (c) | | | 1,718 | | 45,253 |
| | DSUs (a) (b) | | 4,735,633 | (1,548,660) | 1,355,740 | 8,255,088 |
| Barbara Yastine | DSUs (a) (b) | | 2,858,238 | (844,352) | 651,517 | 4,517,096 |
| William Muir | Nonqualified Benefit Equalization Plan (c) | | | 1,367 | | 190,976 |
| | DSUs (a) (b) | | 1,931,520 | (809,798) | 858,758 | 4,119,166 |
| James G. Mackey | DSUs (a) (b) | | 1,353,825 | (384,423) | 308,161 | 2,114,292 |

- (a) In 2009, we included DSU awards, which vested at grant date, within the Options Exercised and Shares Vested in 2009 table. Starting in 2010 and continuing in 2011, we have included the DSU award information in the Nonqualified Deferred Compensation in 2011 table to more accurately reflect the form of the awards.
- (b) The NEOs had outstanding DSU award values at December 31, 2010, of \$10,821,255 for Mr. Carpenter, \$3,046,658 for Mr. Brown, \$6,423,855 for Mr. Marano, \$3,154,727 for Ms. Yastine, \$3,856,202 for Mr. Muir, and \$1,453,051 for Mr. Mackey.
- (c) Ally maintains a nonqualified benefit equalization plan for highly-compensated employees, including the NEOs. This plan is a nonqualified savings plan designed to allow for the equalization of benefits for highly compensated employees under the Ally 401(k) Program when such employees' contribution and benefit levels exceed the maximum limitations on contributions and benefits imposed by Section 2004 of the Employee Retirement Income Security Act of 1974, as amended, and Section 401(a)(17) and 415 of the Internal Revenue Code of 1986, as amended. This plan is maintained as an unfunded plan and all expenses for administration of the plan and payment of amounts to participants are borne by Ally. Each participant is credited with earnings based on a set of investment options selected by the participant similar to 401(k) investment option to all employees. Pursuant to the Special Master's determination letter dated October 22, 2009, contributions to this plan were suspended. Therefore, the amounts shown reflect contributions made by the Company prior to receipt of the determination letter.

Table of Contents

Executive Compensation Post-employment and Termination Benefits

As a condition to participating in TARP, Ally's NEOs and next five highest paid employees waived any right to severance in the event of their termination of employment. These waivers apply until Ally repays its TARP obligations to Treasury. At December 31, 2011, none of our NEOs were eligible to retire under any qualified or nonqualified Ally retirement plan.

Ally Financial Inc. 2011 Incentive Compensation Plan

We have adopted the Ally Financial Inc. 2011 Incentive Compensation Plan (the "2011 Incentive Plan"), which allows us to grant an array of equity-based and cash incentive awards to our NEOs and other employees and service providers (other than our non-employee directors). The purpose of the 2011 Incentive Plan is to motivate and reward those employees and other individuals who are expected to contribute significantly to our success.

Plan Term. The 2011 Incentive Plan expires after ten years, unless prior to that date the maximum number of our common shares available for issuance under the 2011 Incentive Plan has been issued or our Board of Directors terminates the 2011 Incentive Plan.

Authorized Shares. Subject to adjustment as described below, _____ shares of our common stock are available for awards to be granted under the 2011 Incentive Plan and awards granted under the Ally Financial Inc. Long-Term Equity Compensation Incentive Plan that will settle in shares of our common stock following the closing of this offering. No participant may receive under the 2011 Incentive Plan in any three consecutive calendar years stock options and stock appreciation rights that relate to more than _____ shares and restricted stock, restricted stock units, performance awards and other stock-based awards (to the extent that such awards are denominated in shares and intended to qualify as performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code")) that relate to more than _____ shares. Generally, if an award expires or is canceled, forfeited or settled in cash, then the shares covered by such award again will be available for issuance under the 2011 Incentive Plan. Shares tendered or withheld in payment of an exercise price or for withholding taxes also again will be available for issuance under the 2011 Incentive Plan.

Administration. The CNG Committee or such other committee as designated by the Board of Directors administers the 2011 Incentive Plan and has authority to select individuals to whom awards are granted and determine the types of awards and number of shares covered and the terms and conditions of awards, including the applicable vesting schedule, performance conditions and whether the award will settle in cash or shares.

Types of Awards. The 2011 Incentive Plan provides for grants of stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards (cash-based and share-based) and other stock-based awards.

Stock Options. A stock option is a contractual right to purchase shares at a future date at a specified exercise price. Generally, the per share exercise price of a stock option will be determined by the CNG Committee or such other committee as designated by the Board of Directors but may not be less than the closing price of a share of our common stock on the grant date. The CNG Committee or such other committee as designated by the Board of Directors will determine the date after which each stock option may be exercised and the expiration date of each option; however, no stock option will be exercisable more than ten years from the grant date. Stock options that are intended to qualify as incentive stock options must meet the requirements of Section 422 of the Code.

Stock Appreciation Rights. A stock appreciation right is a contractual right to receive, in cash or shares, an amount equal to the appreciation of one share of our common stock from the grant date. Any stock appreciation right will be granted subject to the same terms and conditions as apply to stock options, as described above.

Table of Contents

Restricted Stock. Restricted stock is an award of shares of our common stock that are subject to restrictions on transfer and a substantial risk of forfeiture.

Restricted Stock Units. Restricted stock units represent a contractual right to receive the value of a share of our common stock at a future date, subject to specified vesting and other restrictions.

Performance Awards. Performance awards, which may be denominated in cash or shares, will be earned upon the satisfaction of performance conditions specified by the CNG Committee or such other committee as designated by the Board of Directors, which has authority to specify that any other award granted under the 2011 Incentive Plan will constitute a performance award by conditioning the exercisability or settlement of the award upon the satisfaction of performance conditions. The performance conditions with respect to awards that are intended to qualify as performance-based compensation for purposes of Section 162(m) of the Code will be limited to overhead costs, general and administration expense, market price of our common stock, cash flow, reserve value, net asset value, earnings, net income, operating income, cash from operations, revenue growth, margin, EBITDA (earnings before interest, taxes, depreciation and amortization), net capital employed, return on assets, stockholder return, reserve replacement, return on equity, return on capital employed, production, assets, unit volume, sales, market share, or strategic business criteria consisting of one or more objectives based on meeting specified goals relating to acquisitions or divestitures, each as determined in accordance with generally accepted accounting principles, where applicable, as consistently applied by us. These performance criteria may be measured on an absolute (e.g., plan or budget) or relative basis. Relative performance may be measured against a group of peer companies, a financial market index or other acceptable objective and quantifiable indices. The amount of any performance awards denominated in cash that is intended to qualify as performance-based compensation for purposes of Section 162(m) of the Code that may be earned in any calendar year may not exceed \$10,000,000.

Other Stock-Based Awards. The CNG Committee or such other committee as designated by the Board of Directors is authorized to grant other stock-based awards, which may be denominated in our common shares or factors that may influence the value of our common shares, including convertible or exchangeable debt securities, other rights convertible or exchangeable into shares, purchase rights for shares, awards with value and payment contingent upon our performance or business units or any other factors that the committee specifies.

Eligibility. Our employees, consultants, advisors and other service providers (other than our non-employee directors) are eligible to receive awards under the 2011 Incentive Plan.

Adjustments. If necessary to prevent dilution or enlargement of benefits or potential benefits under the 2011 Incentive Plan, the CNG Committee or such other committee as designated by the Board of Directors will adjust equitably the terms of any outstanding awards and the number of our common shares issuable under the 2011 Incentive Plan to reflect any change in our common shares resulting from a dividend or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of our common shares or other securities or any other similar corporate transaction or event affecting our common shares.

Termination of Service and Change in Control. Except as otherwise provided in an award agreement, all unvested awards will be forfeited upon a participant's termination of service other than death, disability, retirement, termination as a result of a sale of a business unit, termination by us without cause and a qualifying termination by the participant (as such terms are defined in the 2011 Incentive Plan), in which events all or portions of the participant's unvested awards will become nonforfeitable and options and stock appreciation rights will be immediately exercisable and will remain outstanding for one year from the date of termination of service. In the event of a change in control (as defined in the 2011 Incentive Plan), all outstanding stock options,

Table of Contents

stock appreciation rights and restricted stock units not continued in effect or converted into similar awards of the survivor or successor corporation will vest upon the change in control, and all outstanding stock options, stock appreciation rights and restricted stock units so continued or converted will vest upon the occurrence of the participant's termination of service without cause or a qualifying termination by him or her within twelve months following the change in control.

Amendment and Termination. Our Board of Directors may amend, alter, suspend, discontinue or terminate the 2011 Incentive Plan, subject to approval of our shareholders if required by the rules of the stock exchange on which our common shares are principally traded or by applicable law. The CNG Committee or such other committee as designated by the Board of Directors may amend, alter, suspend, discontinue or terminate any outstanding award. However, no such board or committee action that would materially adversely affect the rights of a holder of an outstanding award may be taken without the holder's consent. The CNG Committee or such other committee as designated by the Board of Directors also may not lower the per share exercise price of a stock option or stock appreciation right or cancel a stock option or a stock appreciation right in exchange for cash or another award when the per share exercise price exceeds the fair market value (other than in connection with a change in control or other corporation transaction necessitating an anti-dilution type adjustment in the outstanding stock options or stock appreciation rights).

Initial Awards in Connection with This Offering. In connection with this offering, we plan to make grants of restricted stock units to substantially all of our employees. The grant date fair value of each grant will range from a minimum of \$100 to a maximum of \$1,500. These restricted stock units will cliff vest three years from the date of grant and in the case of our U.S.-based employees, settle in shares and in the case of our employees based outside of the United States, settle in cash.

Ally Financial Inc. 2011 Executive Performance Plan

We have adopted the Ally Financial Inc. 2011 Executive Performance Plan (the "2011 Executive Performance Plan"), which allows us to grant incentive compensation awards that are intended to qualify as performance-based compensation for purposes of Section 162(m) of the Code to certain executive officers. The purpose of the 2011 Executive Performance Plan is to attract and retain executive officers who can make significant contributions to our success by providing incentives and financial rewards to such executive officers.

Administration. The CNG Committee administers the 2011 Executive Performance Plan and has authority to select plan participants, determine the terms and conditions of each incentive award granted under the 2011 Executive Performance Plan, certify the calculation of performance metrics based on which the awards are paid and the amount payable to each participant, determine the time when incentive awards will be paid and the form of such payment, determine whether and to what extent any incentive award will be reduced based on such factors as the CNG Committee deems appropriate in its discretion, determine whether payment of awards may be in shares of our common stock or may be deferred, interpret and administer the 2011 Executive Performance Plan and any instrument or agreement entered into in connection with the 2011 Executive Performance Plan, correct any defect, supply any omission or reconcile any inconsistency in the 2011 Executive Performance Plan or any incentive award in the manner and to the extent that the CNG Committee deems desirable to carry it into effect, establish such rules and regulations and appoint such agents as it deems appropriate for the proper administration of the 2011 Executive Performance Plan, and make any other determination and take any other action that the CNG Committee deems necessary or desirable for administration of the 2011 Executive Performance Plan.

Eligibility. Participants of the 2011 Executive Performance Plan are our Chief Executive Officer and other executive officers of the Company or a subsidiary selected by the CNG Committee.

Performance Period. The performance period underlying each incentive award will be our fiscal year or another period not exceeding five years in length established by the CNG Committee. No later than 90 days after the commencement of each fiscal year, the CNG Committee will designate one or more performance periods for such fiscal year as well as the participants for such performance period(s).

Table of Contents

Incentive Awards. The incentive award will be an amount equal to 2.0%, in the case of our Chief Executive Officer and 1.0%, in the case of each other participant, of our core pre-tax income for each calendar year in the performance period (proportionately adjusted for any portion of the performance period that is less than a full calendar year). The amount of incentive award actually paid to a participant will be determined by the CNG Committee based on factors it deems appropriate and may not exceed the original amount of the incentive award established using the formula above.

Termination of Service. All unpaid incentive awards will be forfeited upon a participant's termination of service, except that in the event of the participant's death, disability, retirement, termination by us without cause and a qualifying termination (as such terms are defined in the 2011 Incentive Plan) during a performance period, the CNG Committee may proportionately reduce the incentive award payable to such participant based on the period of his or her actual employment during the applicable performance period.

Amendment and Termination. Our Board of Directors may alter, amend, suspend or terminate the 2011 Executive Performance Plan, subject to approval of our shareholders if required by the rules of the stock exchange on which our common shares are principally traded or by applicable law, including Section 162(m) of the Code. No amendment to, or termination of, the 2011 Executive Performance Plan may impair the rights of a participant under any incentive award previously granted without such participant's consent.

Ally Financial Inc. Employee Stock Purchase Plan

We have adopted the Ally Financial Inc. Employee Stock Purchase Plan (the "ESPP"), the purpose of which is to provide our employees with an opportunity to purchase our stock at a discount and thus encourage broad-based employee ownership of our stock. The ESPP has two components: The Section 423 component is intended to qualify as an "employee stock purchase plan" for purposes of Section 423 of the Code and will be construed so as to extend and limit participation in a uniform and nondiscriminatory basis consistent with the requirements of Section 423 of the Code; the non-Section 423 component is not intended to qualify as an "employee stock purchase plan" for purposes of Section 423 of the Code and purchase rights under that component will be granted pursuant to rules, procedures, or sub-plans set forth by us to achieve such tax, legal, or other objectives for eligible employees and us as we deem appropriate.

Authorized Shares. The aggregate number of shares authorized for sale under the ESPP (for both Section 423 and Non-Section 423 components) is .

Administration. The CNG Committee administers the ESPP and has authority to interpret, construe, apply and make final determinations regarding the ESPP, including authority to determine eligibility under both components of the ESPP and the terms and conditions of any purchase right under the ESPP.

Offering Period. The initial offering period under the ESPP will commence as soon as practicable following the closing of this offering. This initial offering period will expire not sooner than six months after the consummation of this offering. Subsequently, the ESPP will have consecutive offering periods with a new offering period commencing approximately every six months, as determined by the CNG Committee.

Eligibility. Any of our active employees (including active employees of our designated subsidiaries and affiliates) on a given offering date (*i.e.*, the first trading day of an offering period) is eligible to participate in the ESPP; however, employees who are citizens or residents of a non-U.S. jurisdiction may be excluded from participation in the ESPP or an offering if participation is prohibited under applicable local law or if complying with applicable local laws would cause the ESPP or an offering to violate Section 423 of the Code. Additionally, no employee may be granted a purchase right under the Section 423 component of the ESPP if immediately after the grant such employee would own our capital stock and/or hold outstanding purchase rights to purchase capital stock possessing 5% or more of the total combined voting power or value of all classes of our capital stock, or if his or her rights to purchase capital stock under all of our employee stock purchase plans accrues at a rate that exceeds \$25,000 worth of such stock (determined at the fair market value of the shares of such stock at the time such purchase right is granted) for each calendar year in which such purchase right is both outstanding and exercisable.

Table of Contents

Enrollment and Contribution. An eligible employee may become a participant in the ESPP by completing, within the prescribed enrollment period prior to the applicable offering date, a participation election, at which time he or she may elect to have payroll deductions made on each pay day during the applicable offering period in an amount not exceeding 10% of the compensation he or she receives on each pay day during the offering period.

Purchase Right. On the offering date of each offering period, each eligible employee participating in the offering period will be granted a right to purchase on the purchase date (*i.e.*, the last trading day of the offering period) a number of shares determined by dividing such employee's payroll deductions accumulated prior to the purchase date by the applicable purchase price, which will be no less than the lower of 85% of the closing price of a share of our common stock on the offering date or 85% of the closing price of a share of our common stock on the purchase date. In no event will an eligible employee be permitted to purchase during any offering period more than 100,000 shares; however, the CNG Committee may, for future offering period, increase or decrease the maximum number of shares that an eligible employee may purchase during each offering period.

Purchase of Shares. On the purchase date, the maximum number of shares that may be purchased with the accumulated payroll deductions in the participant's account will be purchased for the participant at the applicable purchase price (as described above). Fractional shares may not be purchased, and any payroll deductions accumulated in a participant's account that are not sufficient to purchase a full share will, at our discretion, be returned to the participant or be retained in the participant's account for the subsequent offering period.

Delivery of Shares. As soon as reasonably practicable after each purchase date on which a purchase occurs, we will arrange for the delivery to each participant of the shares purchased to the participant's brokerage or plan account in a form determined by us.

Withdrawal. A participant may withdraw all, but not less than all, the payroll deductions credited to his or her account and not yet used to purchase shares under the ESPP by giving notice in a form or manner and time prescribed by us prior each purchase date.

Termination of Employment. Unless otherwise determined by us, upon a participant's employment termination for any reason, he or she will be deemed to have elected to withdraw from the ESPP and the payroll deductions credited to his or her account during the offering period but not yet used to purchase shares under the ESPP will be returned to him or her.

Change in Control. In the event of a change in control (as defined in the ESPP), the offering period then in progress will be shortened and end on a new purchase date, which will be before the date of the proposed merger or change in control. We will notify each participant in writing, at least ten business days prior to the new purchase date, that the purchase date for the applicable period has been changed to the new purchase date and that shares will be purchased automatically for the participant on the new purchase date. The CNG Committee may provide for an alternative process that provides participants with the economic equivalent of the benefits described above.

Adjustments. The CNG Committee may proportionately adjust the maximum number of shares available under the ESPP, the maximum number of shares each participant may purchase during the offering period or over a calendar year under the \$25,000 limitation and the per share price used to determine the purchase price for any increase or decrease in the number of issued shares resulting from any nonreciprocal transaction between us and our stockholders (*e.g.*, a stock dividend, stock split, spin-off, rights offering or recapitalization through a large, nonrecurring cash dividend) that affects our common stock or the price of our common stock and cause a change in the per share value of the shares underlying outstanding purchase rights.

Amendment and Termination. Subject to any applicable law or government regulation and to the rules of the stock exchange on which our common shares are principally traded, our Board of Directors may amend, modify, suspend or terminate the ESPP without the approval of our shareholders; however, no amendment may make any

Table of Contents

change in any purchase right previously granted that adversely affects the rights of any participant without the consent of the affected participant. To comply with Section 423 of the Code, we will obtain shareholder approval of any amendment in such a manner and to such a degree as required. Without shareholder approval and without regard to whether any participant rights may be considered to have been adversely affected, the CNG Committee may change the offering periods, limit the frequency or number of changes in the amount withheld during an offering period, establish the exchange rate applicable to amounts withheld in a currency other than U.S. dollars, permit payroll withholding in excess of the amount designated by a participant to adjust for delays or mistakes in our processing of any properly completed participation election, establish reasonable waiting and adjustment periods, accounting, or crediting procedures to ensure that amounts applied toward the purchase of shares for each participant properly correspond with amounts withheld from the participant's compensation and establish such other limitations or procedures as the CNG Committee determines.

Director Compensation

Employee directors do not receive any separate compensation for their Board activities. Non-employee directors receive the compensation described below.

For 2011, each non-employee director received an annual retainer of \$180,000, of which \$110,000 was paid in the form of DSUs rather than cash. DSUs are immediately vested, but not payable until after leaving the Board and, at the discretion of the Board, may be paid in common shares. An additional retainer was paid to non-employee directors who serve as a chair of a standing committee in the amount of \$50,000 each. Other non-employee directors who serve as members of committees were paid additional retainers of \$20,000 each. The Chair of the Board received an additional retainer of \$250,000 which was paid half in cash and half in DSUs. Meeting fees of \$1,500 for each in-person meeting and telephonic meeting lasting more than one hour and \$750 for each telephonic meeting lasting less than one hour are payable only when Board and committee meetings exceed eight per year.

Non-employee directors are reimbursed for travel expenses incurred in conjunction with their duties as directors. Furthermore, Ally will provide the broadest form of indemnification permitted under Delaware law in connection with liabilities that may arise as a result of their role on the Board, provided that the director satisfies the statutory standard of care.

Beginning January 1, 2012, Ally will pay additional director compensation to John J. Stack for his service as a director of Ally Bank in an annual amount equal to \$165,000, representing the equivalent of a Board retainer of \$115,000 and an additional retainer of \$50,000 for service on committees in lieu of meeting fees.

The following table provides compensation for non-employee directors who served during fiscal 2011.

2011 Director Compensation Table

| Director name | Fees earned or | Stock awards | Total |
|---------------------|------------------------------|------------------|----------|
| | paid in cash (\$ (a) (b)) | (\$ (a) (c) (d)) | (\$ (a)) |
| Robert T. Blakely | 171,500 | 110,000 | 281,500 |
| Mayree C. Clark | 189,508 | 110,000 | 299,508 |
| John D. Durrett | 106,929 | 84,911 | 191,840 |
| Kim S. Fennebresque | 132,000 | 110,000 | 242,000 |
| Franklin W. Hobbs | 260,353 | 235,000 | 495,353 |
| Steven Feinberg | | | |
| Marjorie Magner | 162,124 | 110,000 | 272,124 |
| John J. Stack | 181,655 | 110,000 | 291,655 |

(a) The retainer and fees for our non-employee directors were prorated based on when each director served on the Board and their respective committees.

Table of Contents

(b) As noted above, the non-employee directors' cash retainer and fees consist of the following components:

| Director Name | Annual cash retainer (\$) | Committee chair or member/chair of Board fees (\$) | Additional meeting fees (\$) |
|----------------------|----------------------------------|---|-------------------------------------|
| Robert T. Blakely | 70,000 | 70,000 | 31,500 |
| Mayree C. Clark | 70,000 | 94,008 | 25,500 |
| John D. Durrett | 58,637 | 25,042 | 23,250 |
| Kim S. Fennebresque | 70,000 | 50,000 | 12,000 |
| Franklin W. Hobbs | 70,000 | 174,603 | 15,750 |
| Steven Feinberg | | | |
| Marjorie Magner | 70,000 | 62,124 | 30,000 |
| John J. Stack | 70,000 | 80,905 | 30,750 |

(c) As noted above, stock awards granted to the non-employee directors are in the form of DSUs. Amounts in this column represent the aggregate grant date fair value of the DSU awards granted to the directors in 2011. The grant date fair value of each DSU award granted to the directors in 2011 is as follows:

| Director name | Award | Grant Date | Grant date fair value of stock or unit awards (\$) |
|----------------------|--------------|-------------------|---|
| Robert T. Blakely | DSU | 3/31/2011 | 27,500 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |
| Mayree C. Clark | DSU | 3/31/2011 | 27,500 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |
| John D. Durrett | DSU | 3/31/2011 | 2,411 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |
| Kim S. Fennebresque | DSU | 3/31/2011 | 27,500 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |
| Franklin W. Hobbs | DSU | 3/31/2011 | 58,750 |
| | DSU | 6/30/2011 | 58,750 |
| | DSU | 10/1/2011 | 58,750 |
| | DSU | 12/31/2011 | 58,750 |
| Marjorie Magner | DSU | 3/31/2011 | 27,500 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |
| John J. Stack | DSU | 3/31/2011 | 27,500 |
| | DSU | 6/30/2011 | 27,500 |
| | DSU | 10/1/2011 | 27,500 |
| | DSU | 12/31/2011 | 27,500 |

Table of Contents

- (d) The following table sets forth the aggregate number of DSUs held by each non-employee director at December 31, 2011. Each DSU represents one phantom share of Ally.

| Name | Number of DSUs (#) |
|---------------------|-----------------------|
| Robert T. Blakely | 12.0 |
| Mayree C. Clark | 12.0 |
| John D. Durrett | 9.6 |
| Kim S. Fennebresque | 12.0 |
| Franklin W. Hobbs | 25.6 |
| Marjorie Magner | 12.0 |
| John J. Stack | 12.0 |

Ally Financial Inc. 2011 Non-Employee Directors Equity Compensation Plan

We have adopted the Ally Financial Inc. 2011 Non-Employee Directors Equity Compensation Plan (the 2011 Directors Plan), which allows us to grant restricted stock units to our non-employee directors. The purpose of the 2011 Directors Plan is to attract and retain the services of our experienced non-employee directors.

Plan Term. The 2011 Directors Plan expires after ten years, unless prior to that date the maximum number of our common shares available for issuance under the 2011 Directors Plan has been issued or our Board of Directors terminates the 2011 Directors Plan.

Authorized Shares. Subject to adjustment as described below, _____ shares of our common stock are available for awards to be granted under the 2011 Directors Plan.

Administration. Our CNG Committee (or other committee of our Board of Directors, as designated, or if no committee is designated, the Board of Directors) administers the 2011 Directors Plan and has authority to select individuals to whom awards are granted and interpret and administer the 2011 Directors Plan and any instrument or agreement relating to, or award made under, the 2011 Directors Plan.

Types of Awards. The 2011 Directors Plan provides for grants of stock options, DSUs and shares of our common stock.

Eligibility. Each member of our Board of Directors who is not our employee is eligible to receive awards under the 2011 Directors Plan.

Adjustments. If necessary to prevent diminution or enlargement of benefits or potential benefits under the 2011 Directors Plan, our CNG Committee (or other committee of our Board of Directors, as designated, or if no committee is designated, the Board of Directors) will adjust equitably the terms of any outstanding awards and the number of our common shares issuable under the 2011 Directors Plan to reflect any change in our common shares resulting from a dividend or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of our common shares or other securities or any other similar corporate transaction or event affecting our common shares.

Initial Award. Each director who is in office as of, and will continue in office following, _____, 2011 will receive a one-time award of DSUs (with each DSU representing a right to receive the value of one share of our common stock on the terms and conditions set forth in the 2011 Directors Plan and the applicable award agreement) equal to the quotient of (i) \$110,000 divided by (ii) the fair market value of one share of our common stock on the date of such grant, with each fractional DSU rounded up to the nearest whole DSU. Each new director who joins our Board of Directors for the first time following _____, 2011 will also receive a one-

Table of Contents

time award of DSUs equal to the quotient of (i) \$110,000 divided by (ii) the fair market value of one share of our common stock on the date of such grant, with each fractional DSU rounded up to the nearest whole DSU.

Annual Award. Beginning at our Annual Meeting of Shareholders in 2012 and at each Annual Meeting of Shareholders thereafter, each director who is to continue in service following such meeting will receive an award of DSUs equal to the quotient of (i) \$110,000 divided by (ii) the fair market value of one share of our common stock on the date of such grant, with each fractional DSU rounded up to the nearest whole DSU. Each director who joins our Board of Director following the grant date of an annual award but prior to the date of our next Annual Meeting of Shareholders will receive a prorated annual award.

Vesting and Settlement. Each initial award, annual award and prorated award will vest and settle pursuant to the terms of the applicable award agreement.

Termination of Service and Change in Control. Except as otherwise provided in an award agreement, all unvested awards will be forfeited upon a participant's termination of service other than death and disability, in which events all of the participant's unvested awards will become nonforfeitable. In the event of a change in control (as defined in the 2011 Incentive Plan), all outstanding awards will vest and be immediately due and payable.

Amendment and Termination. Our Board of Directors may amend, alter, suspend, discontinue or terminate the 2011 Directors Plan, subject to approval of our shareholders if required by the rules of the stock exchange on which our common shares are principally traded or by applicable law. Our CNG Committee (or other committee of our Board of Directors, as designated, or if no committee is designated, the Board of Directors) may also amend, alter, suspend, discontinue or terminate any outstanding award. However, no such board or committee action that would materially adversely affect the rights of a holder of an outstanding award may be taken without the holder's consent.

CERTAIN STOCKHOLDER AGREEMENTS

Amended and Restated Governance Agreement

On May 21, 2009, Ally, FIM Holdings LLC (FIM), GM Finance Co. Holdings LLC (GM HoldCo) and Treasury entered into an amended and restated Governance Agreement in order to amend and restate certain understandings between the parties regarding the composition of Ally's Board of Directors previously set forth in the Governance Agreement, dated as of January 16, 2009, as amended by Amendment No. 1 thereto, dated as of March 24, 2009, and by Amendment No. 2 thereto, dated as of May 21, 2009.

On December 30, 2010, 110,000,000 shares of Ally's Series F-2 preferred stock held by Treasury was converted into common stock of Ally (the MCP Conversion).

Following the MCP Conversion, the Governance Agreement established the number of directors and the composition of the Board of Directors based upon the percentage of common stock held by Treasury. To the extent certain minimum common stock ownership percentages were met, the Governance Agreement provided Treasury and FIM with the right to designate a specified number of directors to the Board of Directors and for FIM and GM HoldCo to appoint non-voting observers to the Board of Directors.

The Governance Agreement terminates upon the earlier to occur of (i) when Treasury and the UST Trust collectively cease to hold at least 9.9% of Ally's common stock and (ii) when any party to the Governance Agreement ceases to own any common stock of Ally (other than Treasury).

Registration Rights Agreement

Pursuant to a Registration Rights Agreement, which is included as Exhibit A to Ally's Bylaws, Ally granted eligible holders registration rights with respect to certain securities of the Company.

For purposes of the Registration Rights Agreement, registrable securities consist of Ally's common stock and all equity securities issued or otherwise distributed in respect of Ally's common stock in a stock or other equity split or combination, or a stock or other equity dividend, or in connection with certain specified events, including a merger, conversion, recapitalization, reclassification or reorganization, in each case held by eligible holders. Eligible holders include holders of Common Membership Interests of GMAC LLC as of May 22, 2009 and holders that acquired registrable securities from such persons in transactions not consummated on a national securities exchange and not registered under the Securities Act.

Any particular registrable securities shall cease to be registrable securities for purposes of the Registration Rights Agreement when they have been distributed to the public through a registered offering, when they have otherwise been sold on a national securities exchange and when they have been repurchased by Ally or a subsidiary of Ally.

Shelf Registrations

The Registration Rights Agreement provides that, subject to certain limitations, at any time that Ally is eligible to use Form S-3, Ally will file a shelf registration statement covering all registrable securities and, if such shelf registration statement is not automatically effective, use commercially reasonable best efforts to cause the shelf registration statement to be declared effective. Once it is effective, Ally is required to use commercially reasonable best efforts to keep the shelf registration statement continuously effective and usable for resale of registrable securities until there are no registrable securities held by eligible holders or all registrable securities may be sold without restriction under Rule 144.

Table of Contents

The Registration Rights Agreement provides that, subject to limitations described below, any holder with registrable securities registered pursuant to a shelf registration may effect an underwritten offering of its registrable securities after delivery of advance notice to the Company, provided that the Company is not required to facilitate an underwritten offering unless either registrable securities representing at least 2% of the then outstanding class of such registrable securities are proposed by the eligible holders to be included in such offering or the expected aggregate gross proceeds from such offering exceed \$200 million. The other holders shall have the right to elect to include in such underwritten offering such portion of their registrable securities as they may request, subject to underwriter cutback provisions. The Registration Rights Agreement also provides that, after the effective date of a shelf registration date but before December 24, 2011, non-underwritten sales or distributions of registrable securities by a holder must not be in excess of the volume limitations of Rule 144.

Demand Registration Rights

So long as Ally does not have an effective shelf registration statement with respect to the registrable securities, any eligible holder may request registration of all or a portion of its registrable securities (a Demand Registration). Demand Registrations are limited to registration of an aggregate number of registrable securities representing at least 2% of the outstanding class of such registrable securities or registrable securities having a value of at least \$200 million. Ally shall not be obligated to effectuate more than 3 Demand Registrations in any 12-month period or any non-underwritten offering for registrable securities that could otherwise be sold without restriction under Rule 144. Additionally, Ally may postpone for up to 90 days the filing or effectiveness of, or, if already effective, suspend a Demand Registration upon a good faith determination by the Board of Directors that the failure to do so would have a material adverse effect on certain proposed transactions. However, the Company may not delay a Demand Registration more than once in any 12-month period and only if holders of similar securities with registration rights have been subject to a similar limitation.

Piggyback Registration Rights

Provided that a shelf registration statement is not in effect at the time, any time Ally proposes to register equity securities under the Securities Act or proposes to undertake an underwritten offering of equity securities (each a Piggyback Registration), Ally must, subject to certain limitations, promptly notify all eligible holders of registrable securities of its intention to do so and must include, on the same terms and conditions, any registrable securities that are requested to be included by such eligible holders in writing.

Holdback Agreements

Ally may not effect any public sale or distribution of equity securities (1) during the 10-day period preceding and the 75-day period following the effective date of any underwritten Demand Registration or Piggyback Registration or (2) the period commencing on the date Ally is notified that an eligible holder intends to undertake an underwritten shelf offering and ending 75 days after commencement of such underwritten shelf offering, unless the managing underwriters agree to a shorter period.

If Ally has previously filed a registration statement with respect to registrable securities pursuant to a Demand Registration or a Piggyback Registration or if an underwritten shelf offering has commenced, Ally may not file or cause or permit to be effective any other registration of any of its equity securities until at least 60 days have elapsed from the relevant effective date or commencement date, as applicable.

The Registration Rights Agreement provides that until December 24, 2011, in connection with any underwritten shelf offering and underwritten demand registration, no eligible holder (excluding Treasury and the GM Trust) may effect any sale or distribution of any registrable securities of the Company, other securities of the Company, or of securities convertible into or exchangeable for other securities of the Company during the 10 days prior to, and during the period (established by the managing underwriters) beginning on, the closing date of the sale of such securities pursuant to an effective registration statement. Subject to the qualifications below, this

Table of Contents

holdback period shall not exceed 190 days in the case of this offering or 100 days in the case of other offerings. If Treasury's participation in an offering (other than this offering) accounted for 90% or more of all registrable securities sold in the offering and any eligible holder's participation was restricted as a result of the underwriter's cutback described above, the holdback period for such eligible holder may not exceed 30 days.

Indemnification and Contribution

Under the Registration Rights Agreement, Ally agrees, subject to certain limitations, to indemnify each holder of registrable securities, its officers, directors, managers and partners, and each person controlling such holder against all losses, claims, actions, damages, liabilities and expenses in certain circumstances and to pay any expenses reasonably incurred in connection investigating, preparing or defending these; except insofar as the same are caused by or contained in any information furnished in writing to the Company by such holder expressly for use therein or by such holder's failure to deliver a copy of the registration statement or prospectus or any amendments or supplements thereto after the Company has furnished such holder with a sufficient number of copies of the same.

Letter Agreement with Treasury

On February 17, 2011, Ally and Treasury entered into a letter agreement in connection with this offering which provides, among other things, that Ally will pay all underwriting discounts and commissions, transfer taxes and transaction fees, if any, applicable to the sale of the common stock and the fees and disbursement of counsel for the selling security holder incurred in connection with the sale.

Registration Rights Agreements with Treasury and Preferred Stockholders

Units

Pursuant to a Letter Agreement (including the Securities Purchase Agreement and the other documents incorporated by reference therein) with Treasury dated May 21, 2009, Ally agreed that, subject to certain limitations, it would prepare and file with the SEC a shelf registration statement covering all of the Units (since the Units are being issued in exchange for Series F-2 preferred stock held by Treasury) and to the extent the shelf registration statement was not declared effective or not automatically effective upon such filing, Ally would use its reasonable best efforts to cause such shelf registration statement to be declared effective and to keep such shelf registration statement continuously effective until such time as the Units (i) are sold pursuant to an effective registration statement, (ii) may be sold pursuant to Rule 144 without limitation thereunder on volume or manner of sale, (iii) have ceased to be outstanding or (iv) have been sold in a private transaction in which the transferor's right under the agreement are not assigned to the transferee. Notwithstanding the foregoing, if Ally is not eligible to file a registration statement on Form S-3, then Ally is not obligated to file a shelf registration statement unless and until requested to do so in writing by Treasury.

The agreement provides that the holders of the Units may effect an underwritten offering of their Units; provided that Ally is not required to facilitate an underwritten offering unless the expected gross proceeds from such offering exceed \$200 million.

Ally shall not be required to effect a registration or an underwritten offering of the Units if Ally has notified the holders of the Units that in the good faith judgment of the Board of Directors, it would be materially detrimental to Ally or its securityholders for such registration or underwritten offering to be effected at such time, Ally shall have the right to defer such registration for not more than 45 days. However, Ally may not delay a registration or underwritten offering more than three times in any 12-month period and more than 90 days in the aggregate in any 12-month period, and only if holders of similar securities with registration rights have been subject to a similar limitation.

Table of Contents

If during any period when an effective shelf registration statement is not available, Ally proposes to register any of its equity securities, and the registration form to be filed may be used for the registration of the Units, Ally will promptly notify (but in no event less than 10 days prior to the anticipated filing date) the holders of Units of its intention to do so and, subject to certain limitations, will include any Units that are requested to be included by such holders in writing.

Series G Preferred Stock

On December 31, 2008, Ally and certain holders of the shares of Series G preferred stock entered into a registration rights agreement. Pursuant to the registration rights agreement, Ally has filed an effective shelf registration statement covering the Series G preferred stock and is required to use its commercially reasonable efforts to keep such shelf registration statement continuously effective for a year from the date such shelf registration statement is declared effective or such shorter period when all shares of the Series G preferred stock have been sold under the registration statement or when all shares of Series G preferred stock may be sold without restrictions under Rule 144. However, Ally may for a period of up to 60 days in any three-month period, not to exceed 90 days in any calendar year determine that the shelf registration statement is not usable under certain circumstances relating to corporate developments, public filings with the SEC and similar events, and suspend the use of the prospectus that is part of such shelf registration statement.

If Ally fails to keep the registration statement effective as required by the agreement, Ally will pay additional cumulative dividends of 0.25% per annum over the applicable dividend rate of the Series G preferred stock, until such failure is cured.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Certain relationships and related transactions are described below.

Relationship with General Motors

Products and Services Provided to GM

We provide various products and services to GM on terms comparable to those we provide to third parties. Except as described below, we currently expect to continue to provide these services to GM on an ongoing basis. These products and services include the following:

We provide wholesale and term-loan financing to dealerships that are either wholly owned by GM or in which GM has a controlling interest. The majority of these dealerships are located in the United States. At December 31, 2011, 2010 and 2009, finance receivables and loans to dealerships owned or majority-owned by GM totaled \$304 million, \$301 million and \$351 million, respectively.

We provide operating leases to GM-affiliated entities for buildings with a net book value of \$59 million and \$65 million at December 31, 2011 and 2010, respectively. At December 31, 2009, the net book value of operating leases we provided to GM-affiliated entities including vehicles, buildings, and other equipment was \$69 million. Lease revenues of \$6 million, \$2 million and \$9 million were received during the years ended December 31, 2011, 2010 and 2009, respectively.

We received interest on notes receivable from GM of \$37 million, \$9 million and \$63 million during the years ended December 31, 2011, 2010 and 2009, respectively.

We have other lease arrangements whereby we lease facilities to GM whereby we have advanced \$12 million, \$21 million and \$29 million at December 31, 2011, 2010 and 2009, respectively. We receive leasing revenues under these arrangements for which we recognized lease property revenues of \$3 million for each of the years ended December 31, 2011, 2010 and 2009.

In certain states, we provide insurance to GM for vehicle service contracts and for which we have recognized insurance premiums of \$122 million, \$155 million and \$159 million for the years ended December 31, 2011, 2010 and 2009, respectively.

GM may elect to sponsor financing incentive programs for wholesale dealer financing, primarily in our International Automotive Finance operations. This is known as wholesale subvention. We received wholesale subvention and service fees of \$163 million, \$189 million and \$215 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Under wholesale financing arrangements, we lend money to GM-franchised dealers to finance their vehicle inventory purchases from GM. We advance the loan proceeds directly to GM. Under an agreement with GM, the advances were made before the date the vehicles were expected to be delivered to the dealers. We earned \$178 million and \$149 million of interest under the terms of this arrangement during the years ended December 31, 2010 and 2009, respectively. At the end of 2010 GM terminated this advance payment arrangement.

We provide servicing for certain GM-owned U.S. operating lease assets distributed to GM on November 22, 2006. Servicing fees of \$2 million and \$25 million were received for the years ended December 31, 2010 and 2009, respectively, related to this arrangement.

Table of Contents

Support Services Provided by GM

GM historically has provided a variety of support services for our business, and we reimburse GM for the costs of providing these services to us. In addition, GM supports us by reimbursing us for certain programs it has with its customers or for expenses we may experience due to their business operations. The services GM provides us, including reimbursement arrangements, include:

GM may elect to sponsor incentive programs (on both retail contracts and leases) by supporting financing rates below standard rates at which we purchase retail contracts. In addition, under residual support programs, GM may upwardly adjust residual values above the standard lease rates. Out of our total new retail and lease contracts in North America and International, 53% and 53%, respectively, had rate or residual incentives for the year ended December 31, 2011; 51% and 43%, respectively, had rate or residual incentives for the year ended December 31, 2010; and 69% and 53%, respectively, had rate or residual incentives for the year ended December 31, 2009.

GM provides lease residual value support as a marketing incentive to encourage consumers to lease vehicles. At termination of the lease, GM reimburses us to the extent the remarketing sales proceeds are less than the residual value set forth in the contract and no greater than our standard residual rates. To the extent remarketing sales proceeds are more than the contract residual at termination, we reimburse GM for its portion of the higher residual value. We reimbursed GM \$299 million and \$82 million in residual support for the years ended December 31, 2011 and 2010, respectively. For the year ended December 31, 2009, GM reimbursed us \$195 million in residual support.

GM provides financing rates below standard rates at which we purchase contracts (rate support). GM reimbursed us \$578 million, \$674 million and \$770 million in rate support for the years ended December 31, 2011, 2010 and 2009, respectively.

GM sponsors lease pull-ahead programs whereby consumers are encouraged to terminate lease contracts early in conjunction with the acquisition of a new GM vehicle. Under these programs, GM waives all or a portion of the customer's remaining payment obligations and compensates us for the waived payments, adjusted based on the remarketing results associated with the underlying vehicle. We reported net financing revenue from this compensation program of \$18 million, \$15 million and \$78 million for the years ended December 31, 2011, 2010 and 2009, respectively.

GM reimburses us for certain selling expenses we may incur on certain vehicles sold by us at auction. We received reimbursements of \$9 million, \$14 million and \$26 million for the years ended December 31, 2011, 2010 and 2009, respectively.

GM occasionally provides payment guarantees on certain commercial and dealer loans and receivables Ally has outstanding. The amount of commercial and dealer loans and receivables covered by a GM guarantee was \$127 million, \$122 million and \$68 million at December 31, 2011, 2010, and 2009, respectively.

GM provides us certain other services and facilities services for which we reimburse them. We made reimbursement payments to GM of \$110 million, \$125 million and \$111 million for the years ended December 31, 2011, 2010 and 2009, respectively.

GM provides us certain marketing services for which we reimburse them. We made reimbursement payments to GM of \$3 million, \$5 million and \$11 million for the years ended December 31, 2011, 2010 and 2009, respectively.

We have accounts payable to GM that include wholesale settlements payments to GM, subvention receivables due from GM, and notes payable. The net balance outstanding for accounts payable was \$262 million, \$227 million and \$333 million for the years

Edgar Filing: Ally Financial Inc. - Form S-1/A

ended December 31, 2011, 2010, and 2009, respectively.

Table of Contents

We paid interest on loans from GM of \$4 million and \$46 million during the years ended December 31, 2010 and 2009, respectively.

Certain arrangements existed whereby GM accounts for the sale of a vehicle at the time the vehicle is sold to us and delivered to a dealer on consignment from us. GM provided us with a guaranteed right of return for this inventory. At December 31, 2011 and 2010, we had no vehicles with this right of return. At December 31, 2009, we had \$12 million of vehicles with this right of return. Similar arrangements existed whereby GM provided us with the option to take back the vehicles.

During 2010 and 2009, Promark Global Advisors (formerly known as GMIMCo), an indirect wholly owned subsidiary of GM, provided asset management services to Ally with respect to the investment of assets at our Insurance operations. The fees paid to Promark Global Advisors for these services were based on the costs associated with managing those assets. With respect to the management of these insurance assets, we incurred expenses of \$2 million and \$4 million for the years ended December 31, 2010 and 2009, respectively. This relationship was terminated in August 2010.

Credit Arrangements and Other Amounts Due from or Owed to GM

We provide wholesale financing to GM for vehicles in which GM retains title while the vehicles are consigned to Ally or dealers in the United Kingdom and Italy. The financing to GM remains outstanding until title is transferred to the dealers. The amount of financing provided to GM by Ally under this arrangement varies based on inventory levels. At December 31, 2011, 2010, and 2009, the amount of this financing outstanding was \$504 million, \$446 million and \$769 million, respectively.

In various countries in Europe, we were party to a Rental Fleet Agreement in which we agreed to buy from the rental companies, on agreed terms reflecting fair value, all vehicles sold by GM to rental car companies that GM had become obligated to repurchase. The Rental Fleet Agreement provided for a true-up mechanism whereby GM was required to reimburse us to the extent the revenues we earned from the resale of the vehicles were less than the amount we paid the rental companies to purchase such vehicles. At December 31, 2011, 2010 and 2009 we had a receivable in the amount of \$13 million, \$38 million and \$138 million, respectively, for providing this service.

We have certain financing arrangements with GM with outstanding receivables totaling \$12 million for the year ended December 31, 2011. These receivables include certain of our borrowings related to various other arrangements.

During 2009, we provided loans to minority-owned dealerships whereby GM reimbursed us for the full amount, and we recorded a payable until the dealer paid the loan balance. We recorded a payable to GM in the amount of \$2 million at December 31, 2009.

Capital Contributions Received from GM

During 2011 and 2010, we did not receive any capital contributions from GM. During 2009, GM made \$1,280 million in capital contributions.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS**

The following table sets forth information regarding beneficial ownership of our common stock as of December 31, 2011, by:

each person whom we know to own beneficially more than 5% of our common stock;

each of the directors and named executive officers individually;

all directors and executive officers as a group; and

the selling stockholder.

In accordance with the rules of the SEC, beneficial ownership includes voting or investment power with respect to securities and includes the shares issuable pursuant to stock options that are exercisable within 60 days of December 31, 2011. Shares issuable pursuant to stock options are deemed outstanding for computing the percentage of the person holding such options but are not outstanding for computing the percentage of any other person.

The percentage of beneficial ownership for the following table is based on 1,330,970 shares of common stock outstanding as of December 31, 2011.

We provide various products and services to GM, receive support services from GM, and have certain financing arrangements with GM. For additional information on our relationship with GM, see the section of this prospectus entitled "Certain Relationships and Related Party Transactions."

- (1) Beneficial ownership includes the shares of our common stock that will be issued pursuant to the conversion described under Concurrent Transactions assuming the common stock offering price is the midpoint of the price range set forth on the cover of this prospectus but not the shares of our common stock issuable upon settlement of the purchase contracts that are components of the Units being offered in the concurrent offering.

Table of Contents

- (2) The following description of the selling stockholder was provided by Treasury: Treasury is the executive agency of the U.S. government responsible for promoting economic prosperity and ensuring the financial security of the United States. Treasury is responsible for a wide range of activities, such as advising the President of the United States on economic and financial issues, encouraging sustainable economic growth and fostering improved governance in financial institutions. Treasury operates and maintains systems that are critical to the nation's financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection and the borrowing of funds necessary to run the federal government. Treasury works with other federal agencies, foreign governments and international financial institutions to encourage global economic growth, raise standards of living and, to the extent possible, predict and prevent economic and financial crises. Treasury also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the United States, identifying and targeting the financial support networks of national security threats and improving the safeguards of our financial systems. In addition, under EESA, Treasury was given certain authority and facilities to restore the liquidity and stability of the financial system. See also the section of this prospectus entitled "Risk Factors - Risks Relating to this Offering and Ownership of Our Common Stock." Treasury, the selling stockholder, is a federal agency, and your ability to bring a claim against it under the federal securities laws may be limited.
- (3) On May 6, 2011, GM Finance Co. Holdings LLC ("GM") transferred its holding of 4% of our outstanding common stock to GMAC Common Equity Trust I ("GM Trust"). As a result, GM Trust now holds 9.94% of our outstanding common stock. However, pursuant to the trust agreement of GM Trust, GM may cause the trustee to return all or any part of our common stock to GM, so long as GM's directly held voting and total common equity interests remain below 10% of our outstanding common stock.

Table of Contents

CONCURRENT TRANSACTIONS

Conversion and Exchange of Series F-2 Preferred Stock

Treasury currently holds 118,750,000 shares of our Series F-2 preferred stock having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent Units offering, Treasury intends (i) to convert 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the common stock public offering price, and (ii) to exchange the remaining 60,000,000 shares of Series F-2 preferred stock having an aggregate liquidation amount of \$3 billion, for a number of our Units having an aggregate stated amount of \$3 billion.

The number of shares of common stock we will issue to Treasury in connection with the conversion will depend upon the common stock public offering price. The higher the common stock public offering price is, the fewer the number of shares of common stock Treasury will receive and the lower the common stock public offering price is, the greater the number of shares of common stock Treasury will receive. The following table sets forth the number of shares we will issue to Treasury in connection with the conversion for each common stock public offering price set forth below:

| Public Offering Price | Number of Shares Issued to Treasury |
|-----------------------|-------------------------------------|
| \$ | |
| \$ | |
| \$ | |
| \$ | |

In addition, we and Treasury intend to modify certain terms of the Series F-2 preferred stock so that Treasury will receive additional shares of our common stock in connection with the offering.

The closing of each of the Units offering described below, this offering, the conversion and the exchange is conditioned upon the closing of each such other transaction.

Concurrent Units Offering

Treasury is offering in the concurrent Units offering a number of Units having an aggregate stated amount of \$. Treasury has granted the underwriters of that offering the right to purchase up to additional Units to cover over-allotments, if any, at the public offering price of the Units, less the underwriters discount for the Units, within 30 days from the date of the prospectus for the concurrent Units offering. Upon completion of the Units offering, Treasury will hold Units having an aggregate stated amount of \$ (or \$ if the underwriters for the Units offering exercise their over-allotment option in full). The Units that are retained by Treasury will be fungible with the Units being offered in the Units offering.

Each Unit has a stated amount of \$ and is composed of a prepaid stock purchase contract and a junior subordinated amortizing note due , 2015. Each amortizing note has an initial principal amount of \$ and a scheduled final installment payment date of , 2015.

On , 2015 (subject to postponement in certain limited circumstances), each purchase contract will automatically settle, unless settled earlier as described herein, and we will deliver a number of shares of our common stock based on the applicable market value of our common stock. The applicable market value is the average of the daily volume weighted average prices, or daily VWAPs, of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding , 2015.

Table of Contents

On the mandatory settlement date, each purchase contract will settle, unless settled earlier, as follows (subject to adjustment):

if the applicable market value equals or exceeds the threshold appreciation price, which is \$ _____, the holder of such purchase contract will receive _____ shares of our common stock;

if the applicable market value is greater than \$ _____ but less than the threshold appreciation price, the holder of such purchase contract will receive a number of shares of our common stock having a value, based on the applicable market value, equal to \$ _____; and

if the applicable market value is less than or equal to \$ _____, the holder of such purchase contract will receive _____ shares of our common stock.

At any time prior to the close of business on the third scheduled trading day immediately preceding _____, 2015, a holder may settle a purchase contract early, and we will deliver _____ shares of our common stock per purchase contract (subject to adjustment). In addition, if a fundamental change (as defined in the purchase contract agreement for the Units) occurs and a holder elects to settle its purchase contracts early in connection with such fundamental change, such holder will receive a number of shares of our common stock based on the fundamental change early settlement rate in accordance with the purchase contract agreement for the Units. We may elect to settle all, but not less than all, outstanding purchase contracts prior to _____, 2015 at the early mandatory settlement rate (as defined in the purchase contract agreement for the Units), upon a date fixed by us upon not less than 10 business days' notice. Except for cash in lieu of fractional shares, the purchase contract holders will not receive any cash distributions under the purchase contracts.

The amortizing notes will pay holders equal quarterly cash installments of \$ _____ per amortizing note, which in the aggregate will be equivalent to _____ % per year with respect to each \$ _____ stated amount of Units. Ally will have the right to defer installment payments at any time and from time to time under the circumstances, and subject to the conditions, set forth in the indenture for the amortizing notes, so long as such deferral period does not extend beyond _____, 2018. The amortizing notes will be our junior subordinated obligations, and will rank (i) junior both in liquidation and right of payment, to the extent set forth in our junior subordinated debt indenture, to all of our Senior Indebtedness (as defined in such indenture) and (ii) equally with all of our unsecured, junior subordinated indebtedness, whether currently existing or hereinafter created, other than junior subordinated indebtedness that is designated as junior to the amortizing notes. If we elect to settle the purchase contracts early, holders of Units will have the right to require us to repurchase their amortizing notes, except in certain limited circumstances.

Each Unit may be separated into its constituent purchase contract and amortizing note after the initial issuance date of the Units, and the separate components may be combined to create a Unit.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following descriptions are summaries of the material terms of our Certificate of Incorporation and Bylaws that will be in effect upon the consummation of this offering. Reference is made to the more detailed provisions of, and the descriptions are qualified in their entirety by reference to, the Certificate of Incorporation and Bylaws, copies of which are filed with the SEC as exhibits to the registration statement of which this prospectus is a part, and applicable law.

General

Upon the consummation of this offering, our Certificate of Incorporation will authorize us to issue _____ shares of capital stock, consisting of:

_____ shares of common stock, par value \$0.01 per share; and

394,792,092 shares of preferred stock, par value \$0.01 per share of which:

160,870,560 are designated as Preferred Stock, Series A;

8,330 are designated as Preferred Stock, Series C;

2,576,601 are designated as Preferred Stock, Series E;

228,750,000 are designated as Preferred Stock, Series F-2;

2,576,601 are designated as Preferred Stock, Series G; and

_____ are designated as Preferred Stock, Series H.

As of December 31, 2011, the following shares of capital stock were issued and outstanding:

1,330,970 shares of common stock;

40,870,560 shares of Series A preferred stock;

118,750,000 shares of Series F-2 preferred stock; and

2,576,601 shares of Series G preferred stock.

Upon consummation of this offering, no shares of our Series F-2 preferred stock will remain outstanding.

Common Stock

Edgar Filing: Ally Financial Inc. - Form S-1/A

Common stock outstanding. As of December 31, 2011 there were 1,330,970 shares of common stock outstanding which were held of record by 173 stockholders. Further, we have reserved 690,272 of the remaining authorized but unissued shares of common stock for issuance in connection with any future conversion of Ally's Series F-2 preferred stock. All outstanding shares of common stock are fully paid and non-assessable.

Voting rights. The holders of common stock are entitled to one vote per share, except as provided by law or as may otherwise be provided in a certificate of designations designating the rights, powers and preferences of any series of preferred stock.

Table of Contents

Unless otherwise required by law, our Certificate of Incorporation or our Bylaws, all matters subject to a stockholder vote will be decided by the vote of the holders of at least a majority of the outstanding shares of stock entitled to vote on the matter and present at the meeting in which the vote occurs. The election of directors will be decided by a plurality of the votes cast by the holders of common stock outstanding.

Dividend rights. Subject to the preferences that may be applicable to any outstanding preferred stock, dividends on common stock will be paid if, as, and when declared by the Board. See Dividend Policy.

Rights upon liquidation. In the event of liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to the distribution rights of preferred stock, if any, then outstanding.

Other rights. There are no redemption or sinking fund provisions applicable to the common stock.

Preferred Stock

Description of Series A Preferred Stock

General

A total of 40,870,560 shares of the Series A preferred stock, liquidation amount \$25 per share, are outstanding as of December 31, 2011. The Series A certificate of designations authorizes the issuance of up to a total of 160,870,560 shares of the Series A preferred stock. The Series A preferred stock have no maturity date. The holders of the Series A preferred stock are not entitled to preemptive rights, or to any similar rights.

Dividends

Holders of the Series A preferred stock are entitled to receive, when, as and if declared by the board of directors or a duly authorized committee of the board of directors, on each share of Series A preferred stock with respect to each dividend period, non-cumulative cash dividends at the fixed rate of 8.500% per annum on the liquidation amount from March 25, 2011 to but excluding May 15, 2016, quarterly in arrears, without accumulation of any undeclared dividends, commencing on May 15, 2011, and thereafter at a rate equal to Three-Month LIBOR plus 6.243%, quarterly in arrears, without accumulation of any undeclared dividends, commencing on May 15, 2016, in each case on the 15th day of February, May, August and November. Dividends payable on the Series A preferred stock on any dividend payment date will be payable to holders of record of such Series A preferred stock as they appear on Ally's stock register at the close of business on the preceding February 1, May 1, August 1 or November 1, as the case may be, or on such other date, not more than seventy calendar days prior to the dividend payment date, as will be fixed by the board of directors or any duly authorized committee of the board of directors.

In the event that dividends payable on shares of Series A preferred stock with respect to a dividend period have not been paid in full on the dividend payment date, Ally will be prohibited, subject to certain exceptions, from (i) redeeming, purchasing or otherwise acquiring, directly or indirectly any Junior Stock (as defined below) or Parity Stock (as defined below), (ii) paying any dividends or making any distributions to any Junior Stock until such time as Ally has paid the dividends payable on shares of the Series A preferred stock with respect to a subsequent dividend period, and (iii) declaring or paying any dividend on any Parity Stock, except with respect to certain dividends payable solely in shares of Junior Stock or with respect to dividends declared on the Series A preferred stock such that the respective amounts of such dividends declared on the Series A preferred stock and each such other class or series of Parity Stock shall bear the same ratio to each other as all accrued and unpaid dividends per share on the shares of the Series A preferred stock and such class or series of Parity Stock bear to each other.

Table of Contents

Junior Stock means (i) our common stock, (ii) our Series C preferred stock, and (iii) each class or series of our stock established on or after June 30, 2009, the terms of which do not expressly provide that such class or series ranks senior to or on a parity with the Series A preferred stock and the Parity Stock as to dividend rights or rights upon liquidation, winding-up or dissolution. We have no outstanding or authorized series of Junior Stock other than our common stock and Series C preferred stock.

Parity Stock means (i) each class or series of our preferred stock established after June 30, 2009, the terms of which expressly provide that such class or series will rank on a parity with the our Series E preferred stock, our Series F-2 preferred stock, our Series G preferred stock and the Series A preferred stock as to dividend rights and/or as to rights on our liquidation, dissolution or winding up (in each case without regard to whether dividends accrue cumulatively or non-cumulatively); (ii) the Series E preferred stock; (iii) the Series F-2 preferred stock; and (iv) the Series G preferred stock.

Liquidation Rights

In the event of any liquidation, dissolution or winding up of our affairs, whether voluntary or involuntary, holders of the Series A preferred stock will be entitled to receive for each share of Series A preferred stock held by such holder, out of assets or proceeds thereof (whether capital or surplus) available for distribution and subject to the rights of Ally's creditors, before any distribution of such assets or proceeds is made or set aside for holders of Junior Stock or any other of our stock ranking junior to the Series A preferred stock as to such distribution, payment in full in an amount equal to the sum of the liquidation amount per share of Series A preferred stock and an amount equal to all declared, but unpaid dividends declared prior to the date of payment of such distribution.

Redemptions

We may not redeem the Series A preferred stock before May 15, 2016. Subject to (i) obtaining any required regulatory approvals, (ii) compliance with Ally's replacement capital covenant agreement entered into for the benefit of certain of its debtholders on November 30, 2006 and (iii) any restrictions imposed by our other series of outstanding preferred stock, our outstanding debt or agreements with the United States Department of the Treasury, we may redeem all or any portion of the outstanding shares of Series A preferred stock on any dividend payment date on or after May 15, 2016. A redemption date must fall on a date that is also a dividend payment date.

The redemption price for each share of Series A preferred stock will be equal to the sum of (i) the liquidation amount and (ii) any accrued and unpaid dividends for the period from and including the dividend payment date immediately preceding the redemption date to but excluding the redemption date. Payments of the redemption price will be made in cash in immediately available funds.

No Conversion Rights

Holders of the Series A preferred stock have no rights to exchange or convert their shares for or into any of our other capital stock or any other securities.

Voting Rights

If and when dividends on any shares of Series A preferred stock or any Parity Stock having similar voting rights shall have not been declared and paid for the equivalent of six or more dividend periods, whether or not consecutive (nonpayment), the holders, voting together as a class with holders of any and all other series of such Parity Stock then outstanding, will be entitled to vote for the election of a total of two additional members of the board of directors, subject to certain limitations. Such voting rights will continue until the dividends on the shares of the Series A preferred stock and any such series of Parity Stock shall have been fully paid for at least four regular dividend periods following the nonpayment. The foregoing voting rights will be divested if and

Table of Contents

when dividends for at least four regular dividend periods following a nonpayment have been fully paid on the Series A preferred stock and any other class or series of Parity Stock. In such event, the term of office of each director so elected shall terminate and the number of directors on the board of directors shall automatically be decreased by two.

In addition, the vote or consent of the holders of at least two-thirds of the shares of the Series A preferred stock is required for Ally to do the following (i) to authorize or issue certain equity securities of Ally that rank senior to the Series A preferred stock with respect to dividends or upon a sale or liquidation of Ally, (ii) to amend, alter or repeal any provision of the terms of the Series A preferred stock contained in Ally's Bylaws or Certificate of Incorporation, including the certificate of designations for the Series A preferred stock included therein, if such action would affect the Series A preferred stock in any manner materially adverse to the holders of the Series A preferred stock, or (iii) to the extent Ally has failed to pay dividends payable on shares of Series A preferred stock with respect to the immediately preceding dividend period, redeem, purchase or otherwise acquire, directly or indirectly, any Junior Stock or Parity Stock other than as permitted by the terms of the certificate of designations for the Series A preferred stock.

No Sinking Fund

The shares of Series A preferred stock do not have the benefit of any mandatory redemption, sinking fund or other similar provisions. Holders of the Series A preferred stock have no right to require redemption or repurchase of any shares of Series A preferred stock.

Description of Series G Preferred Stock

General

A total of 2,576,601 shares of the Series G preferred stock, liquidation amount \$1,000 per share, are outstanding as of December 31, 2011, which constitutes all of the currently authorized shares pursuant to the Series G certificate of designations. The shares of Series G preferred stock have no maturity date. The holders of the Series G preferred stock are not entitled to preemptive rights, or to any similar rights.

Dividends

Holders of the Series G preferred stock are entitled to receive, if declared by the board of directors out of funds legally available for payment, cash dividends at a rate per annum of 7%, payable quarterly on February 15, May 15, August 15 and November 15 of each year.

Unless all accrued and unpaid dividends on the Series G preferred stock for all past dividend periods have been paid in full, we are not permitted to (i) make any Restricted Payments (as defined below); (ii) declare or pay any dividend or make any distribution of assets on any Parity Stock (as defined below), other than dividends or distributions in the form of shares of Parity Stock or Junior Stock (as defined below); or (iii) redeem, purchase or otherwise acquire any shares of Parity Stock, except upon conversion into or exchange for other Parity Stock or Junior Stock.

A Restricted Payment means (i) any dividend payment or distribution of assets on any share of Junior Stock, other than (1) distributions in the form of shares of Junior Stock and (2) certain tax distributions; (ii) any redemption, purchase or other acquisition of any shares of Junior Stock, other than upon conversion or exchange for other shares of Junior Stock, or (iii) any payment of monies, or making monies available, for a sinking fund for such Junior Stock.

Junior Stock means our common stock, our Series C preferred stock, and each class or series of our stock established on or after June 30, 2009, the terms of which stock do not expressly provide that such class or series ranks senior to or on a parity with the Series G preferred stock and the Parity Stock as to dividend rights or rights upon liquidation, winding-up or dissolution.

Table of Contents

Parity Stock means (i) each class or series of our preferred stock established after June 30, 2009, the terms of which expressly provide that such class or series will rank on a parity with our Series A preferred stock, our Series F-2 preferred stock and our Series G preferred stock as to dividend rights and/or as to rights on our liquidation, dissolution or winding-up (in each case without regard to whether dividends accrue cumulatively or non-cumulatively); (ii) our Series A preferred stock; and (iii) our Series F-2 preferred stock.

In addition, whether or not all accrued and unpaid dividends on the Series G preferred stock for all past dividend periods have been paid in full, we may not make dividend payments on our common stock before January 1, 2014 and dividend payments may be made thereafter only if (1) our senior guaranteed notes issued on December 31, 2008 are rated investment grade and (2) the payment together with other dividend payments we made since December 31, 2008 is less than 25% of the excess of our cumulative consolidated net income from January 1, 2014 to the most recently ended fiscal quarter for which financial statements are available at the time of such dividend payment.

Liquidation Rights

In the event of any liquidation, dissolution or winding-up of our affairs, whether voluntary or involuntary, the holder of the Series G preferred stock shall be entitled to receive for each share of Series G preferred stock held by them, out of our assets or proceeds thereof (whether capital or surplus) available for distribution to our stockholders, subject to the rights of any of our creditors, before any distribution of such assets or proceeds is made to or set aside for the holders of our common stock and any of our other stock ranking junior to the Series G preferred stock as to such distribution, payment in full in an amount equal to the sum of (i) the liquidation amount and (ii) the amount of any accrued and unpaid dividends to the date of payment.

Redemptions

At our option and subject to any required regulatory approvals, we may redeem the Series G preferred stock, in whole or in part, at any time or from time to time, at a redemption price equal to the liquidation amount, plus the amount of any accrued and unpaid dividends thereon through the date of redemption.

Further, so long as any Series G preferred stock remains outstanding, if any shares of Parity Stock are redeemed, then shares of the Series G preferred stock shall also be redeemed on a pro rata basis based on the aggregate liquidation preference of the Series G preferred stock and such Parity Stock.

No Conversion Rights

Holders of the Series G preferred stock have no rights to exchange or convert their shares for or into any of our other capital stock or any other securities.

Voting Rights

The vote or consent of the holders of at least a majority of the outstanding shares of Series G preferred stock is necessary for any alteration, repeal or amendment, whether by merger, consolidation, combination, reclassification or otherwise, of any provisions of our certificate of incorporation or the certificate of designations if such action would amend, alter or affect the powers, preferences or rights of, or limitations relating to, the Series G preferred stock in any manner materially adverse to the holders of the Series G preferred stock, including, the creation of, increase in the authorized number of, or issuance of, any capital stock that ranks senior to the Series G preferred stock as to distribution rights or rights upon a sale of us or our liquidation, winding-up or dissolution.

Table of Contents

No Sinking Fund

The Series G preferred stock do not have the benefit of any mandatory redemption, sinking fund or other similar provisions. Holders of Series G preferred stock have no right to require redemption or repurchase of any shares of Series G preferred stock.

Purchase Contracts

General

None of the purchase contracts that are components of the Units being offered concurrently with this offering were outstanding as of December 31, 2011. However, if this offering and the transactions described under *Concurrent Transactions* are successfully completed, a total of _____ purchase contracts (or _____ if the underwriters in the concurrent Units offering exercise their over-allotment option in full) will be outstanding, all of which will initially be components of Units.

Mandatory Settlement

On _____, 2015 (subject to postponement in certain limited circumstances), each purchase contract will automatically settle, unless settled earlier as described below, and we will deliver a number of shares of our common stock based on the applicable market value of our common stock, as follows:

If the applicable market value is equal to or greater than the threshold appreciation price (as defined below), holders will receive _____ shares of common stock per purchase contract (the *minimum settlement rate*).

If the applicable market value is greater than \$ _____ (the *reference price*) but less than the threshold appreciation price, holders will receive a number of shares per purchase contract equal to \$ _____, *divided by* the applicable market value.

If the applicable market value is less than or equal to the reference price, holders will receive _____ shares of common stock per purchase contract (the *maximum settlement rate*).

Each of the maximum settlement rate and the minimum settlement rate is subject to customary adjustments.

The *applicable market value* means the average of the *daily VWAPs* (as defined below) of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding _____, 2015.

The *reference price* will be the public offering price of our common stock in this offering.

The *threshold appreciation price* will be equal to \$ _____, *divided by* the minimum settlement rate (rounded to the nearest \$0.01). The *threshold appreciation price*, which is initially \$ _____, represents an appreciation of approximately _____ % over the reference price.

No fractional shares of our common stock will be issued to holders upon settlement of purchase contracts. In lieu of fractional shares, holders will be entitled to receive a cash payment of equivalent value. Other than cash payments in lieu of fractional shares, the purchase contract holders will not receive any cash distributions under the purchase contracts.

Early Settlement at the Holder's Election

At any time prior to the close of business on the third scheduled trading day immediately preceding _____, 2015, a holder may settle any or all of its purchase contracts early, and we will deliver to such holder a number of shares of our common stock per purchase contract equal to the minimum settlement rate, which is subject to customary adjustments. That is, the market value of our common stock on the early settlement date will not affect the early settlement rate.

Table of Contents

However, if a holder settles its purchase contracts early in connection with a fundamental change (as defined in the purchase contract agreement for the Units), such holder will receive a number of shares of our common stock based on the fundamental change early settlement rate, which will be based on the stock price in the fundamental change and the effective date of the fundamental change.

Each holder's right to settle its purchase contracts prior to the close of business on the third scheduled trading day immediately preceding , 2015 is subject to delivery of the purchase contracts.

Upon early settlement at a holder's election of a purchase contract that is a component of a Unit (whether or not in connection with a fundamental change), the corresponding amortizing note will remain outstanding and registered in the name of the holder who elected to settle the related purchase contract early.

Early Mandatory Settlement at Our Option

We may elect to settle all, but not less than all, outstanding purchase contracts early at the early mandatory settlement rate (as defined below) upon a date fixed by us upon not less than 10 business days' notice (the early mandatory settlement date).

The early mandatory settlement rate will be the maximum settlement rate, unless the daily VWAP of our common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the trading day immediately preceding the notice date (as defined in the purchase contract agreement for the Units) exceeds 130% of the threshold appreciation price in effect on each such trading day, in which case the early mandatory settlement rate will be the fundamental change early settlement rate with the effective date for this purpose being deemed to be the early mandatory settlement date and the stock price for this purpose being deemed to be the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the early mandatory settlement date.

Anti-Takeover Effects of Delaware Law

Following consummation of this offering, we will be subject to the business combination provisions of Section 203 of the DGCL. In general, such provisions prohibit a publicly held Delaware corporation from engaging in various business combination transactions with any interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless

the transaction is approved by the board of directors prior to the date the interested stockholder obtained such status;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or subsequent to such date the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders (and not by written consent) by the affirmative vote of at least 66²/₃% of the outstanding voting stock which is not owned by the interested stockholder.

A business combination is defined to include mergers, asset sales and other transactions resulting in direct or indirect financial benefit to a stockholder. In general, an interested stockholder is a person who, together with affiliates and associates, owns (or within three years, did own) 15% or more of a corporation's voting stock (subject to certain exclusions).

Table of Contents

The statute could prohibit or delay mergers or other takeover or change in control attempts with respect to us and, accordingly, may discourage attempts to acquire us even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price.

Certain Provisions of our Certificate of Incorporation and Bylaws

Amendments to Our Certificate of Incorporation and Bylaws

The Board of Directors may change or repeal any provision contained in our Certificate of Incorporation and may insert additional provisions to the Certificate of Incorporation, subject to and in the manner prescribed by applicable law. Under Delaware law, the amendment of a corporation's certificate of incorporation requires the affirmative vote of a majority of the outstanding shares entitled to vote thereon and a majority of the outstanding stock of each class entitled to vote thereon. Under Delaware law, the holders of the outstanding shares of a class of our capital stock shall be entitled to vote as a class upon a proposed amendment, whether or not entitled to vote thereon by the certificate of incorporation, if the amendment would:

Increase or decrease the aggregate number of authorized shares of such class;

Increase or decrease the par value of the shares of such class; or

Alter or change the powers, preferences, or special rights of the shares of such class so as to affect them adversely.

If any proposed amendment would alter or change the powers, preferences, or special rights of one or more series of any class of our capital stock so as to affect them adversely, but shall not so affect the entire class, then only the shares of the series so affected by the amendment shall be considered a separate class for the purposes of this provision.

The Board of Directors may change or repeal our Bylaws, or adopt additional bylaws. Common stockholders may change or repeal our Bylaws or adopt additional bylaws at any annual or special meeting of the common stockholders, in accordance with Delaware law.

Vacancies in the Board of Directors

Our Bylaws provide that any vacancy occurring in our Board of Directors created by reason of the death, removal, or resignation of a director, or by increase in the number of directors, may be filled by a majority of the remaining members of our Board of Directors then in office, even if such majority is less than a quorum. Each director shall hold office until his or her successor is duly elected and qualified or until his or her earlier death, resignation, or removal.

Special Meetings of Stockholders

Under our Bylaws, special meetings of stockholders may be called by the Board of Directors, the chief executive officer, or, subject to requirements and limitations set forth in our Bylaws, holders holding of record more than _____ percent of our outstanding common stock.

Requirements for Notice of Stockholder Director Nominations and Stockholder Business

If a stockholder wishes to bring any business before an annual or special meeting or nominate a person for election to our Board of Directors, our Bylaws contain certain procedures that must be followed for the advance timing required for delivery of stockholder notice of such business and the information that such notice must contain.

Table of Contents

The information that may be required in a stockholder notice includes general information regarding the stockholder, a description of the proposed business, and, with respect to nominations for the Board of Directors, certain specified information regarding the nominee(s). In addition to the information required in a stockholder notice described above, our Bylaws require a representation that the stockholder is a holder of our voting stock and intends to appear in person or by proxy at the meeting to make the nomination or bring up the matter specified in the notice.

Stockholder Action by Written Consent without a Meeting

Our Certificate of Incorporation provides that no action that is required or permitted to be taken by our stockholders at any annual or special meeting of stockholders may be taken by written consent of stockholders without a meeting.

Listing

The company has applied to list the common stock on the NYSE under the symbol `ALLY`.

Transfer Agent and Registrar

The Transfer Agent and Registrar for the common stock is Computershare Limited.

Table of Contents

U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of common stock by a non-U.S. holder. A non-U.S. holder is a beneficial owner of a share of our common stock that is, for U.S. federal income tax purposes:

a non-resident alien individual, other than a former citizen or resident of the United States subject to U.S. tax as an expatriate,

a foreign corporation, or

a foreign estate or trust.

If a partnership or other pass-through entity (including an entity or arrangement treated as a partnership or other type of pass-through entity for U.S. federal income tax purposes) owns our common stock, the tax treatment of a partner or beneficial owner of the entity may depend upon the status of the owner, the activities of the entity and certain determinations made at the partner or beneficial owner level. Partners and beneficial owners in partnerships or other pass-through entities that own our common stock should consult their own tax advisors as to the particular U.S. federal income and estate tax consequences applicable to them.

This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein (possibly with retroactive effect). This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to non-U.S. holders in light of their particular circumstances and does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. Prospective holders are urged to consult their tax advisors with respect to the particular tax consequences to them of owning and disposing of our common stock, including the consequences under the laws of any state, local or foreign jurisdiction.

Dividends

As discussed under Dividend Policy above, we do not currently expect to pay dividends. In the event that we do pay dividends out of our current and accumulated earnings and profits (as determined under U.S. federal income tax principles), such dividends paid to a non-U.S. holder generally will be subject to U.S. federal withholding tax at a 30% rate, or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding under an applicable income tax treaty, a non-U.S. holder generally will be required to provide an Internal Revenue Service (IRS) Form W-8BEN certifying its entitlement to benefits under the treaty.

No amounts in respect of U.S. federal withholding tax will be withheld from dividends paid to a non-U.S. holder if the holder provides an IRS Form W-8ECI certifying that the dividends are effectively connected with the non-U.S. holder's conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. resident, subject to an applicable income tax treaty providing otherwise. A non-U.S. holder that is a corporation receiving effectively connected dividends may also be subject to an additional branch profits tax imposed at a rate of 30% (or a lower treaty rate) on its effectively connected earnings and profits (subject to certain adjustments).

Table of Contents

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income tax on gain realized on a sale or other disposition of common stock unless:

the gain is effectively connected with a trade or business of the non-U.S. holder in the United States, subject to an applicable income tax treaty providing otherwise, in which case the gain will be subject to U.S. federal income tax generally in the same manner as effectively connected dividend income as described above;

the non-U.S. holder is an individual present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met, in which case the gain (net of certain U.S.-source losses) generally will be subject to U.S. federal income tax at a rate of 30% (or a lower treaty rate); or

we are or have been a United States real property holding corporation (as described below), at any time within the five-year period preceding the disposition or the non-U.S. holder's holding period, whichever period is shorter, and either (i) our common stock is not regularly traded on an established securities market prior to the beginning of the calendar year in which the sale or disposition occurs or (ii) the non-U.S. holder has owned or is deemed to have owned, at any time within the five-year period preceding the disposition or the non-U.S. holder's holding period, whichever period is shorter, more than 5% of our common stock.

We will be a United States real property holding corporation at any time that the fair market value of our United States real property interests, as defined in the Code and applicable Treasury regulations, equals or exceeds 50% of the aggregate fair market value of our worldwide real property interests and our other assets used or held for use in a trade or business. We believe that we are not, and do not anticipate becoming in the foreseeable future, a United States real property holding corporation.

Information Reporting Requirements and Backup Withholding

Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of common stock. A non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against the non-U.S. holder's U.S. federal income tax liability and may entitle the non-U.S. holder to a refund, provided that the required information is furnished to the IRS in a timely manner.

FATCA Withholding Taxes

Payments to foreign entities, after December 31, 2012, of dividends on and the gross proceeds of dispositions of common stock of a U.S. issuer will be subject to a withholding tax (separate and apart from, but without duplication of, the withholding tax described above) at a rate of 30%, unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied. The IRS has announced that regulations implementing this withholding tax will defer the withholding obligation until January 1, 2014 for payments of dividends on common stock of a U.S. issuer and until January 1, 2015 for gross proceeds from dispositions of common stock of a U.S. issuer. Non-U.S. holders should consult their tax advisors regarding the possible implications of this withholding tax on their investment in our common stock.

Table of Contents

Federal Estate Tax

Individual non-U.S. holders (as specifically defined for U.S. federal estate tax purposes) and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that the common stock will be treated as U.S. situs property subject to U.S. federal estate tax, unless an applicable estate tax treaty provides otherwise.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no market for our common stock. Future sales of substantial amounts of our common stock in the public market could adversely affect market prices prevailing from time to time. Furthermore, because only a limited number of shares will be available for sale shortly after this offering due to existing contractual and legal restrictions on resale as described below, there may be sales of substantial amounts of our common stock in the public market after the restrictions lapse. This may adversely affect the prevailing market price and our ability to raise equity capital in the future.

Upon completion of this offering, we will have _____ shares of common stock outstanding assuming (i) the exercise of the underwriters over-allotment option, (ii) that the public offering price of our common stock in this offering will be \$ _____ per share (the midpoint of the price range set forth on the cover of the prospectus) for purposes of calculating the number of shares we issue to Treasury in the conversion described under Concurrent Transactions and (iii) no exercise of any options and warrants outstanding as of December 31, 2011. Of these shares, the _____ shares, or _____ shares if the underwriters exercise their over-allotment option in full, sold in this offering will be freely transferable without restriction or registration under the Securities Act, except for any shares purchased by one of our existing affiliates, as that term is defined in Rule 144 under the Securities Act. The remaining _____ shares of common stock existing are restricted shares as defined in Rule 144. Restricted shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144 or 701 of the Securities Act.

In addition, at our request, the underwriters have reserved up to approximately 5% of the shares of common stock offered for sale pursuant to this prospectus for sale to some of our dealers in a directed shares program. Any reserved shares not purchased by these individuals will be offered by the underwriters to the general public on the same basis as the other shares of common stock offered by this prospectus. We have agreed to indemnify the underwriters against certain liabilities and expenses, including liabilities under the Securities Act, in connection with the sales of directed shares.

Rule 144

In general, under Rule 144, an affiliate who has beneficially owned restricted shares of our common stock for at least six months would be entitled to sell within any three-month period a number of shares that does not exceed the greater of 1% of the number of shares of common stock then outstanding, which will equal _____ shares immediately after this offering; assuming no exercise of the underwriters over-allotment option; or the average weekly reported volume of trading of our common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale. Sales by affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and the availability of current public information about us.

Following this offering, a person that is not an affiliate of ours at the time of, or at any time during the three months preceding, a sale and who has beneficially owned restricted shares of our common stock for at least six months, may sell shares without complying with the volume limitation, manner of sale or notice provisions described above, and any such person who has beneficially owned restricted shares of our common stock for at least one year may sell shares without complying with the abovementioned restrictions and the current public information requirement.

We are unable to estimate the number of shares that will be sold under Rule 144 since this will depend on the market price for our common stock, the personal circumstances of the stockholder and other factors.

Rule 701

In general, under Rule 701, any of our employees, directors, officers, consultants or advisors who purchases shares from us in connection with a compensatory stock or option plan or other written agreement before the

Table of Contents

effective date of this offering is entitled to resell such shares after the effective date of this offering in reliance on Rule 144, without having to comply with the holding period requirements or other restrictions contained in Rule 701.

The Securities and Exchange Commission has indicated that Rule 701 will apply to typical stock options granted by an issuer before it becomes subject to the reporting requirements of the Securities Exchange Act of 1934, along with the shares acquired upon exercise of such options, including exercises after the date of this prospectus. Securities issued in reliance on Rule 701 are restricted securities and, subject to the contractual restrictions described above, beginning the date after this prospectus, may be sold by persons other than affiliates, as defined in Rule 144, subject only to the manner of sale provisions of Rule 144 and by affiliates under Rule 144 without compliance with its one-year minimum holding period requirement.

Registration Rights

Upon completion of this offering, the holders of _____ shares of common stock and _____ shares of common stock issuable upon the conversion of preferred stock and Treasury, as the holder of the Units that are not being offered in the concurrent Units offering and as the holder of the shares of common stock issued upon settlement of such Units, will be entitled to various rights with respect to the registration of these securities under the Securities Act. Registration of these securities under the Securities Act would result in these securities becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of the registration, except for securities purchased by affiliates. See Certain Stockholder Agreements Registration Rights Agreement Holdback Agreements for the lockup provisions and exceptions to the lockup provisions under the Registration Rights Agreement.

Stock Options

As of December 31, 2011, options to purchase a total of _____ shares of common stock were outstanding. _____ of the shares subject to options are subject to lock-up agreements. An additional _____ shares of common stock were available for future option grants under our stock plans.

Upon completion of this offering, we intend to file a registration statement under the Securities Act covering all shares of common stock subject to outstanding options or issuable pursuant to our stock plans. Shares registered under this registration statement will be available for sale in the open market, subject to Rule 144 volume limitations applicable to affiliates, vesting restrictions with us or the contractual restrictions described below.

Lock-up Agreements

All of our directors, executive officers and the holders of approximately _____ shares of our common stock have agreed, subject to limited exceptions, not to (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Exchange Act relating to, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of common stock or any securities convertible into or exercisable or exchangeable for common stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of common stock or such other securities, in cash or otherwise for a period of _____ days after the date of this prospectus, without the prior written consent of Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC. See Underwriting. In addition, certain of our shareholders are subject to lock-up provisions under our Registration Rights Agreement. See Certain Stockholder Agreements Registration Rights Agreement Holdback Agreements.

Table of Contents

UNDERWRITING

Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC are acting as joint global coordinators and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus, each underwriter named below has severally agreed to purchase, and the selling stockholder has agreed to sell to that underwriter, the number of common shares (the shares) set forth opposite the underwriter's name.

| Underwriter | Number of Shares |
|-------------------------------|------------------|
| Citigroup Global Markets Inc. | |
| Goldman, Sachs & Co. | |
| J.P. Morgan Securities LLC | |
| Morgan Stanley & Co. LLC | |
| Barclays Capital Inc. | |
| Deutsche Bank Securities Inc. | |
| Total | |

We may add additional underwriters to the table above. Any such underwriters would be selected by us taking into account various criteria, including among other things their marketing and distribution capability, ownership and management diversity, and automotive finance industry expertise.

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the over-allotment option described below) if they purchase any of the shares.

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any common shares sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed \$ per share. If all the shares are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to the underwriters' right to reject any order in whole or in part.

If the underwriters sell more shares than the total number set forth in the table above, the selling stockholder has granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to additional common shares at the public offering price less the underwriting discount. The underwriters may exercise the option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional common shares approximately proportionate to that underwriter's initial purchase commitment in such shares. Any shares issued or sold under the option will be issued and sold on the same terms and conditions as the other shares that are the subject of this offering.

We, our officers and directors, certain of our employees and the selling stockholder and our other stockholders have agreed that, subject to limited exceptions, for a period of days from the date of this prospectus, we and they will not, without the prior written consent of Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC, (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Exchange Act relating to, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of common stock

Table of Contents

or any securities convertible into or exercisable or exchangeable for common stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of common stock or such other securities, in cash or otherwise. Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. Notwithstanding the foregoing, if (1) during the last _____ days of the _____-day restricted period, we issue an earnings release or material news or a material event relating to us occurs; or (2) prior to the expiration of the _____-day restricted period, we announce that we will release earnings results during the _____-day period beginning on the last day of the _____-day restricted period, the restrictions described above shall continue to apply until the expiration of the _____-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event. In addition, certain of our shareholders are subject to lock-up provisions under our Registration Rights Agreement. See Certain Stockholder Agreements Registration Rights Agreement Holdback Agreements.

In addition, at our request, the underwriters have reserved up to approximately 5% of the shares of common stock offered for sale pursuant to this prospectus for sale to some of our dealers in a directed shares program. Any reserved shares not purchased by these individuals will be offered by the underwriters to the general public on the same basis as the other shares of common stock offered by this prospectus. We have agreed to indemnify the underwriters against certain liabilities and expenses, including liabilities under the Securities Act, in connection with the sales of directed shares.

Prior to this offering, there has been no public market for our shares. Consequently, the initial public offering price for the shares was determined by negotiations among us, the selling stockholder and the representatives. Among the factors considered in determining the initial public offering price were our results of operations, our current financial condition, our future prospects, our markets, the economic conditions in and future prospects for the industry in which we compete, our management, and currently prevailing general conditions in the equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the shares will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our shares will develop and continue after this offering.

We have applied to list our common shares on the NYSE under the symbol ALLY.

The following table shows the per share and total public offering price and proceeds to the selling stockholder and the underwriting discounts and commissions payable to the underwriters in connection with this offering. Ally has agreed to pay all underwriting discounts and commissions, transfer taxes and transaction fees, if any, applicable to the sale of the common stock and the fees and disbursement of counsel for the selling security holder incurred in connection with the sale. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.

| | Per Share | Total | |
|---|-----------|-------------|---------------|
| | | No Exercise | Full Exercise |
| Public offering price and proceeds to selling stockholder | \$ | \$ | \$ |
| Underwriting discounts and commissions | \$ | \$ | \$ |
| We estimate that our total expenses for this offering will be approximately \$ _____ million. | | | |

The underwriters have informed us that they do not intend to confirm sales to discretionary accounts that exceed 5% of the total number of shares offered by them.

Table of Contents

In connection with the offering, the underwriters may purchase and sell shares in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

Short sales involve secondary market sales by the underwriters of a greater number of shares than they are required to purchase in the offering.

Covered short sales are sales of shares in an amount up to the number of shares represented by the underwriters over-allotment option.

Naked short sales are sales of shares in an amount in excess of the number of shares represented by the underwriters over-allotment option.

Covering transactions involve purchases of shares either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.

To close a naked short position, the underwriters must purchase shares in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

To close a covered short position, the underwriters must purchase shares in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of shares to close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.

Stabilizing transactions involve bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum. Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the shares. They may also cause the price of the shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the NYSE, in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, lending, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, currently perform, and may in the future perform, various financial advisory and investment banking services for us, for which they have received customary compensation and may provide such services and receive customary compensation in the future. Certain of the relationships involve transactions that are material to us or our affiliates and for which the underwriters and/or their respective affiliates have received significant fees. In addition, the underwriters and/or their affiliates serve as agents and lenders under certain of our existing credit facilities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Table of Contents

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of the securities which are the subject of the offering contemplated by this prospectus to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of the securities shall require the issuer or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of securities to the public in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

Each underwriter has also represented and agreed that:

- (a) (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the securities other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the securities would otherwise constitute a contravention of Section 19 of the FSMA by the issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the securities in circumstances in which Section 21(1) of the FSMA does not apply to the issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the shares described in this prospectus has been submitted to the clearance procedures of the *Autorité des Marchés Financiers* or of the competent authority of another member state of the European Economic Area and notified to the *Autorité des Marchés Financiers*. The shares have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the shares has been or will be:

released, issued, distributed or caused to be released, issued or distributed to the public in France; or

used in connection with any offer for subscription or sale of the shares to the public in France.

Such offers, sales and distributions will be made in France only:

to qualified investors (*investisseurs qualifiés*) and/or to a restricted circle of investors (*cercle restreint d'investisseurs*), in each case investing for their own account, all as defined in, and in accordance with articles L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French *Code monétaire et financier*;

to investment services providers authorized to engage in portfolio management on behalf of third parties; or

in a transaction that, in accordance with article L.411-2-II-1^o-or-2^o-or 3^o of the French *Code monétaire et financier* and article 211-2 of the General Regulations (*Règlement Général*) of the *Autorité des Marchés Financiers*, does not constitute a public offer (*appel public à l'épargne*).

The shares may be resold directly or indirectly, only in compliance with articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French *Code monétaire et financier*.

Notice to Prospective Investors in Hong Kong

The shares may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

The shares offered in this prospectus have not been registered under the Securities and Exchange Law of Japan. The shares have not been offered or sold and will not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (i) pursuant to an exemption from the registration requirements of the Securities and Exchange Law and (ii) in compliance with any other applicable requirements of Japanese law.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the shares are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,
shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;

where no consideration is or will be given for the transfer; or

where the transfer is by operation of law.

VALIDITY OF COMMON STOCK

The validity of the issuance of the shares of common stock offered hereby will be passed upon for us by Davis Polk & Wardwell LLP, New York, New York and by Cahill Gordon & Reindel LLP, New York, New York, for the underwriters.

EXPERTS

The consolidated financial statements of Ally, as of December 31, 2011 and 2010, and for each of the three years in the period ended December 31, 2011, included in this preliminary prospectus, and the effectiveness of Ally's internal control over financial reporting, have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are included herein. Such consolidated financial statements have been so included in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC, Washington, D.C. 20549, a registration statement on Form S-1 under the Securities Act with respect to the common stock offered hereby. This prospectus does not contain all of the information set forth in the registration statement and the exhibits and schedules thereto. For further information with respect to the company and its common stock, reference is made to the registration statement and the exhibits and any schedules filed therewith. Statements contained in this prospectus as to the contents of any contract or other document referred to are not necessarily complete and in each instance, if such contract or document is filed as an exhibit, reference is made to the copy of such contract or other document filed as an exhibit to the registration statement, each statement being qualified in all respects by such reference.

We file annual, quarterly, current reports, and other information with the SEC. The information we file with the SEC is not part of this prospectus or the registration statement of which this prospectus is a part. Our filings with the SEC, including a copy of the registration statement and the exhibits and schedules thereto, may be read and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains an Internet website that contains reports, proxy statements and other information about issuers, like us, that file electronically with the SEC. The address of that site is www.sec.gov.

Ally management is responsible for establishing and maintaining effective internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Senior Executive Vice President of Finance and Corporate Planning to provide reasonable assurance regarding the reliability of financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

The Company's internal control over financial reporting includes policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Consolidated Financial Statements in conformity with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated Financial Statements.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance and may not prevent or detect misstatements. Further, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management conducted, under the supervision of the Company's Chief Executive Officer and Senior Executive Vice President of Finance and Corporate Planning, an evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the COSO criteria.

Based on the assessment performed, management concluded that at December 31, 2011, Ally's internal control over financial reporting was effective based on the COSO criteria.

The independent registered public accounting firm, Deloitte & Touche LLP, has audited the Consolidated Financial Statements of Ally and has issued an attestation report on our internal control over financial reporting at December 31, 2011, as stated in its report, which is included herein.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Ally Financial Inc.:

We have audited the accompanying Consolidated Balance Sheet of Ally Financial Inc. and subsidiaries (the Company) as of December 31, 2011 and 2010, and the related Consolidated Statements of Income, Comprehensive Income, Changes in Equity, and Cash Flows for each of the three years in the period ended December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2012, expressed an unqualified opinion on the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Ally Financial Inc.:

We have audited the internal control over financial reporting of Ally Financial Inc. and subsidiaries (the Company) as of December 31, 2011, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, as stated in the accompanying *Management's Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2011, of the Company and our report dated February 28, 2012, expressed an unqualified opinion on those consolidated financial statements.

- (a) Effective June 30, 2009, we converted from a Delaware limited liability company into a Delaware corporation. Each unit of each class of common membership interest issued and outstanding immediately prior to the conversion was converted into an equivalent number of shares of common stock with substantially the same rights and preferences as the common membership interests. Upon conversion, holders of our preferred membership interests also received an equivalent number of preferred stock with substantially the same rights and preferences as the former preferred membership interests.
- (b) Relates to the adoption of ASU 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*.
- (c) Refer to Note 20 to the Consolidated Financial Statements for further detail.
- (d) Represents a reduction of the estimated payment accrued for tax distributions as a result of the completion of the GMAC LLC U.S. Return of Partnership Income for the tax period January 1, 2009, through June 30, 2009.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements****1. Description of Business, Basis of Presentation, and Significant Accounting Policies**

Ally Financial Inc. (formerly GMAC Inc. and referred to herein as Ally, we, our, or us) is a leading, independent, globally diversified, financial services firm with \$184 billion in assets and operations in 32 countries. Founded in 1919, we are a leading automotive financial services company with over 90 years experience providing a broad array of financial products and services to automotive dealers and their customers. We are also one of the largest residential mortgage companies in the United States. We became a bank holding company on December 24, 2008, under the Bank Holding Company Act of 1956, as amended. Our banking subsidiary, Ally Bank, is an indirect wholly owned subsidiary of Ally Financial Inc. and a leading franchise in the growing direct (online and telephonic) banking market, with \$39.6 billion of deposits at December 31, 2011.

Residential Capital, LLC

Residential Capital, LLC (ResCap), one of our mortgage subsidiaries continues to be negatively impacted by the events and conditions in the mortgage banking industry and the broader economy that began in 2007. Market deterioration has led to fewer sources of, and significantly reduced levels of, liquidity available to finance ResCap's operations. ResCap is highly leveraged relative to its cash flow and has recognized credit and valuation losses and other charges resulting in a significant deterioration in capital. In the future, ResCap may also continue to be negatively impacted by exposure to representation and warranty obligations, adverse outcomes with respect to current or future litigation, fines, penalties, or settlements related to our mortgage-related activities, and additional expenses to address regulatory requirements. During the fourth quarter of 2011, ResCap recorded a charge of \$212 million for penalties imposed by certain of our regulators and other governmental agencies in connection with mortgage foreclosure-related matters. Refer to Note 31 for additional information. ResCap is required to maintain consolidated tangible net worth, as defined, of \$250 million at the end of each month, under the terms of certain of its credit facilities. For this purpose, consolidated tangible net worth is defined as ResCap's consolidated equity excluding intangible assets. As a result of the fourth quarter charge, ResCap's consolidated tangible net worth was \$92 million at December 31, 2011, and was therefore temporarily reduced to below \$250 million. This was, however, immediately remediated by Ally through a capital contribution of \$197 million, which was provided through forgiveness of intercompany debt during January 2012. Notwithstanding the immediate cure, the temporary reduction in tangible net worth resulted in a covenant breach in certain of ResCap's credit facilities as of December 31, 2011. ResCap has obtained waivers from all applicable lenders with respect to this covenant breach and an acknowledgment letter from a Government-sponsored Enterprise indicating they would take no immediate action as a result of the breach. In the future Ally may choose not to remediate any further breaches of covenants.

ResCap seeks to manage its liquidity and capital positions and explores initiatives to address its debt covenant compliance and liquidity needs including debt maturing in the next twelve months and other risks and uncertainties. ResCap's initiatives could include, but are not limited to, the following: continuing to work with key credit providers to optimize all available liquidity options; possible further reductions in assets and other restructuring activities; focusing production on conforming and government-insured residential mortgage loans; and continued exploration of opportunities for funding and capital support from Ally and its affiliates. The outcomes of most of these initiatives are to a great extent outside of ResCap's control resulting in increased uncertainty as to their successful execution.

During 2009 and 2010, we performed a strategic review of our mortgage business. As a result of this, we effectively exited the European mortgage market through the sale of our U.K. and continental Europe operations. We also completed the sale of certain higher-risk legacy mortgage assets and settled representation and warranty claims with certain counterparties. The ongoing focus of our Mortgage Origination and Servicing operations will be predominately the origination and sale of conforming and government-insured residential mortgages and mortgage servicing.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

In the future, Ally or ResCap may take additional actions with respect to ResCap as each party deems appropriate. These actions may include Ally providing or declining to provide additional liquidity and capital support for ResCap; refinancing or restructuring some or all of ResCap's existing debt; the purchase or sale of ResCap debt securities in the public or private markets for cash or other consideration; entering into derivative or other hedging or similar transactions with respect to ResCap or its debt securities; Ally purchasing assets from ResCap; or undertaking corporate transactions such as a tender offer or exchange offer for some or all of ResCap's outstanding debt securities, asset sales, or other business reorganization or similar action with respect to all or part of ResCap and/or its affiliates. In this context, Ally and ResCap each typically consider a number of factors to the extent applicable and appropriate including, without limitation, its financial condition, results of operations, and prospects; ResCap's ability to obtain third-party financing; tax considerations; the current and anticipated future trading price levels of ResCap's debt instruments; conditions in the mortgage banking industry and general economic conditions; other investment and business opportunities available to Ally and/or ResCap; and any nonpublic information that ResCap may possess or that Ally receives from ResCap.

ResCap remains heavily dependent on Ally and its affiliates for funding and capital support, and there can be no assurance that Ally or its affiliates will continue such actions or that Ally will choose to execute any further strategic transactions with respect to ResCap or that any transactions undertaken will be successful. Consequently, there remains substantial doubt about ResCap's ability to continue as a going concern. Should Ally no longer continue to support the capital or liquidity needs of ResCap or should ResCap be unable to successfully execute other initiatives, it would have a material adverse effect on ResCap's business, results of operations, and financial position.

Ally has extensive financing and hedging arrangements with ResCap that could be at risk of nonpayment if ResCap were to file for bankruptcy. At December 31, 2011, we had \$2.6 billion in funding arrangements with ResCap. This amount included \$1.0 billion of senior secured credit facilities, which were fully drawn at December 31, 2011. This amount further included a \$1.6 billion line of credit consisting of \$1.1 billion in secured capacity, of which \$235 million was drawn, and \$500 million of unsecured capacity. The unsecured portion is only available after the secured portion has been fully drawn. At December 31, 2011, the hedging arrangements were fully collateralized. Amounts outstanding under the secured financing and hedging arrangements fluctuate. If ResCap were to file for bankruptcy, ResCap's repayments of its financing facilities, including those with us, could be slower. In addition, we could be an unsecured creditor of ResCap to the extent that the proceeds from the sale of our collateral are insufficient to repay ResCap's obligations to us. It is possible that other ResCap creditors would seek to recharacterize our loans to ResCap as equity contributions or to seek equitable subordination of our claims so that the claims of other creditors would have priority over our claims. In addition, should ResCap file for bankruptcy, our \$92 million investment related to ResCap's equity position as of December 31, 2011, which did not reflect our recent \$197 million capital contribution, would likely be reduced to zero. If a ResCap bankruptcy were to occur and a substantial amount of our credit exposure is not repaid to us, it could have an adverse impact on our near-term net income and capital position, but we do not believe it would have a materially adverse impact on Ally's consolidated financial position over the longer term.

During 2011, ResCap received capital contributions from Ally of \$58 million in the form of forgiveness of debt on the line of credit. In January 2012, ResCap received capital contributions of \$197 million through additional forgiveness of debt on the line of credit as described above.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Consolidation and Basis of Presentation

The Consolidated Financial Statements include our accounts and accounts of our majority-owned subsidiaries after eliminating all significant intercompany balances and transactions and include all variable interest entities (VIEs) in which we are the primary beneficiary. Refer to Note 11 for further details on our VIEs. Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America (GAAP).

We operate our international subsidiaries in a similar manner as we operate in the United States of America (U.S. or United States), subject to local laws or other circumstances that may cause us to modify our procedures accordingly. The financial statements of subsidiaries that operate outside of the United States generally are measured using the local currency as the functional currency. All assets and liabilities of foreign subsidiaries (excluding Venezuela due to hyperinflation) are translated into U.S. dollars at year-end exchange rates. The resulting translation adjustments are recorded in accumulated other comprehensive income. Income and expense items are translated at average exchange rates prevailing during the reporting period.

Certain amounts in prior periods have been reclassified to conform to the current period presentation. During 2011, interest paid to investors in connection with consumer mortgage loans that are paid off prior to their stated maturity and interest paid to borrowers in connection with escrow deposits, both of which were included in interest on short-term borrowings in prior periods, have been reclassified to servicing fees in the Consolidated Statement of Income. Additionally, interest paid on loans that we repurchase out of Government National Mortgage Association (Ginnie Mae) securitizations, which were included in interest on short-term borrowings, have been reclassified to interest on loans held-for-sale in the Consolidated Statement of Income. These reclassifications had no impact to our consolidated financial position or results of operations.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and that affect income and expenses during the reporting period and related disclosures. In developing the estimates and assumptions, management uses all available evidence; however, actual results could differ because of uncertainties associated with estimating the amounts, timing, and likelihood of possible outcomes.

Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and certain highly liquid investment securities with maturities of three months or less from the date of purchase. Cash and cash equivalents that have restrictions on our ability to withdraw the funds are included in other assets on our Consolidated Balance Sheet. The book value of cash equivalents approximates fair value because of the short maturities of these instruments. Certain securities with original maturities less than 90 days that are held as a portion of longer-term investment portfolios, primarily held by our Insurance operations, are classified as investment securities.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Securities**

Our portfolio of securities includes government securities, corporate bonds, asset- and mortgage-backed securities (MBS), interests in securitization trusts, equity securities, and other investments. Securities are classified based on management's intent. Our trading assets primarily consist of MBS and retained and purchased interests in certain securitizations. The retained interests are carried at fair value with changes in fair value recorded in current period earnings. All other securities are classified as available-for-sale and carried at fair value with unrealized gains and losses included in accumulated other comprehensive income or loss, on an after-tax basis. Premiums and discounts on debt securities are amortized as an adjustment to investment yield generally over the stated maturity of the security. We employ a systematic methodology that considers available evidence in evaluating potential other-than-temporary impairment of our investments classified as available-for-sale or held-to-maturity. If the cost of an investment exceeds its fair value, we evaluate, among other factors, the magnitude and duration of the decline in fair value. We also evaluate the financial health of and business outlook for the issuer, the performance of the underlying assets for interests in securitized assets, and our intent and ability to hold the investment.

Once a decline in fair value of an equity security is determined to be other-than-temporary, an impairment charge for the credit component is recorded to other gain (loss) on investments, net, in our Consolidated Statement of Income, and a new cost basis in the investment is established. Noncredit component losses of a debt security are recorded in other comprehensive income (loss) when we do not intend to sell the security or it is not more likely than not that we will have to sell the security prior to the security's anticipated recovery. Noncredit component losses are amortized over the remaining life of the debt security by offsetting the recorded value of the asset.

Realized gains and losses on investment securities are reported in other gain (loss) on investments, net, and are determined using the specific identification method.

For information on trading assets refer to Note 6 and for information on investment securities refer to Note 7.

Loans Held-for-sale

Loans held-for-sale may include consumer automobile, consumer mortgage, and commercial receivables and loans. Loans held-for-sale are carried at either fair value because of the fair value option election or lower of cost or estimated fair value. Loan origination fees, as well as discount points and incremental direct origination costs, are initially recorded as an adjustment of the cost of the loan and are reflected in the gain or loss on sale of loans when sold. Fair value is determined by type of loan and is generally based on contractually established commitments from investors, current investor yield requirements, current secondary market pricing, or cash flow models using market-based yield requirements. Our fair value option election loans primarily consist of conforming and government-insured mortgage loans. Refer to Note 8 for information on loans held-for-sale and Note 27 for information on fair value measurement.

Finance Receivables and Loans

Finance receivables and loans are reported at the principal amount outstanding, net of unearned income, premiums and discounts, and allowances. Unearned income, which includes unearned rate support received from an automotive manufacturer on certain automotive loans and deferred origination fees reduced by origination costs, is amortized over the contractual life of the related finance receivable or loan using the effective interest method. Loan commitment fees are generally deferred and amortized over the commitment period. For information on finance receivables and loans, refer to Note 9.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

We classify finance receivables and loans between loans held-for-sale and loans held-for-investment based on management's assessment of our intent and ability to hold loans for the foreseeable future or until maturity. Management's intent and ability with respect to certain loans may change from time to time depending on a number of factors including economic, liquidity, and capital conditions. Management's view of the foreseeable future is based on the longest reasonably reliable net income, liquidity, and capital forecast period.

Our portfolio segments are based on the level at which we develop and document our methodology for determining the allowance for loan losses. Additionally, the classes of finance receivables are based on several factors including the method for monitoring and assessing credit risk, the method of measuring carrying value, and the risk characteristics of the finance receivable. Based on an evaluation of our process for developing the allowance for loan losses including the nature and extent of exposure to credit risk arising from finance receivables, we have determined our portfolio segments to be consumer automobile, consumer mortgage, and commercial.

Consumer automobile Consists of retail automobile financing for new and used vehicles.

Consumer mortgage Consists of the following classes of finance receivables.

1st Mortgage Consists of residential mortgage loans that are secured in a first-lien position and have priority over all other liens or claims on the respective collateral.

Home equity Consists of residential home equity loans or mortgages with a subordinate-lien position.

Commercial Consists of the following classes of finance receivables.

Commercial and Industrial

Automobile Consists of financing operations to fund dealer purchases of new and used vehicle through wholesale or floorplan financing. Additional commercial offerings include automotive dealer term loans, revolving lines of credit, and dealer fleet financing.

Mortgage Consists primarily of warehouse lending.

Other Consists of senior secured commercial lending and our resort finance portfolio prior to its sale during the third quarter of 2010.

Commercial Real Estate

Edgar Filing: Ally Financial Inc. - Form S-1/A

Automobile Consists of term loans to finance dealership land and buildings.

Mortgage Related primarily to activities within our business capital group, which provides financing to residential land developers and homebuilders. These activities are in wind-down and do not represent a material component of our business.

Nonaccrual Loans

Revenue recognition is suspended when any finance receivables and loans are placed on nonaccrual status. Generally, all classes of finance receivables and loans are placed on nonaccrual status when principal or interest has been delinquent for 90 days or when determined not to be probable of full collection. Exceptions include commercial real estate loans that are placed on nonaccrual status when delinquent for 60 days. Revenue accrued, but not collected, at the date finance receivables and loans are placed on nonaccrual status is reversed and subsequently recognized only to the extent it is received in cash or until it qualifies for return to accrual status. However, where there is doubt regarding the ultimate collectability of loan principal, all cash received is applied to reduce the carrying value of such loans. Finance receivables and loans are restored to accrual status only when contractually current and the collection of future payments is reasonably assured.

Generally, we recognize all classes of loans as past due when they are 30 days delinquent.

Troubled Debt Restructurings (TDRs)

When the terms of finance receivables or loans are modified, consideration must be given as to whether or not the modification results in a TDR. A modification is considered to be a TDR when both a) the borrower is experiencing financial difficulty and b) the creditor grants a concession to the borrower. These considerations require significant judgment and vary by portfolio segment. In all cases, the cumulative impacts of all modifications are considered at the time of the most recent modification.

For all classes of consumer loans, various qualitative factors are utilized for assessing the financial difficulty of the borrower. These include, but are not limited to, the borrowers default status on any of its debts, bankruptcy and recent changes in financial circumstances (loss of job, etc.). A concession has been granted when as a result of the modification the creditor does not expect to collect all amounts due, including interest accrued at the original contract rate. Types of modifications that may be considered concessions include but are not limited to extensions of terms at a rate that does not constitute a market rate and a reduction, deferral or forgiveness of principal or interest owed.

In addition to the modifications noted above, in our consumer automobile class of loans we also provide extensions or deferrals of payments to borrowers who we deem to be experiencing only temporary financial difficulty. In these cases, there are limits within our operational policies to minimize the number of times a loan can be extended, as well as limits to the length of each extension, including a cumulative cap over the life of the loan. Before offering an extension or deferral, we evaluate the capacity of the customer to make the scheduled payments after the deferral period. During the deferral period, we continue to accrue and collect interest on the loan as part of the deferral agreement. We grant these extensions or deferrals when we expect to collect all amounts due including interest accrued at the original contract rate.

A restructuring that results in only a delay in payment that is deemed to be insignificant is not a concession and such modification is not considered to be a TDR. In order to assess whether a restructuring that results in a delay in payment is insignificant, we consider the amount of the restructured payments subject to delay in conjunction with the unpaid principal balance or the collateral value of the loan, whether or not the delay is significant with respect to the frequency of payments under the original contract, or the loan's original expected duration. In the cases where payment extensions on our automobile loan portfolio cumulatively extend beyond 90 days and are more than 10% of the original contractual term, we deem the delay in payment to be more than insignificant, and as such, classify these types of modifications as TDRs. Otherwise, we believe that the modifications do not represent a concessionary modification and accordingly, they are not classified as TDRs.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

For all classes of commercial loans, similar qualitative factors are considered when assessing the financial difficulty of the borrower. In addition to the factors noted above, consideration is also given to the borrower's forecasted ability to service the debt in accordance with the contractual terms, possible regulatory actions and other potential business disruptions (e.g. the loss of a significant customer or other revenue stream). Consideration of a concession is also similar for commercial loans. In addition to the factors noted above, consideration is also given to whether additional guarantees or collateral have been provided.

For all loans, TDR classification typically results from our loss mitigation activities. For loans held-for-investment that are not carried at fair value and are TDRs, impairment is typically measured based on the differences between the net carrying value of the loan and the present value of the expected future cash flows. The loan may also be measured for impairment based on the fair value of the underlying collateral. If the loan is considered to be collateral dependent, the impairment is required to be measured based on the fair value of the collateral. If the calculated value of the loan or the fair value of the collateral is less than the recorded investment in the loan, we recognize impairment by establishing a valuation allowance.

The financial impacts of modifications that meet the definition of a TDR are reported in the period in which they are identified as TDRs. Additionally, if a loan that is classified as a TDR redefaults within twelve months of the modification, we are required to disclose such instances of redefault. For the purpose of this disclosure, we have determined that a loan is considered to have redefaulted when the loan meets the requirements for evaluation under our charge-off policy except for commercial loans where redefault is defined as 90 days past due.

Our policy is to generally place all TDRs on nonaccrual status until the loan has been brought fully current, the collection of contractual principal and interest is reasonably assured, and six consecutive months of repayment performance is achieved. In certain cases, if a borrower has been current up to the time of the modification and repayment of the debt subsequent to the modification is reasonably assured, we may choose to continue to accrue interest on the debt.

Impaired Loans

All classes of loans are considered impaired when we determine it is probable that we will be unable to collect all amounts due (both principal and interest) according to the terms of the loan agreement.

For all classes of consumer loans, impaired loans are loans that have been modified in troubled debt restructurings.

All classes of commercial loans are considered impaired on an individual basis and reported as impaired when we determine it is probable that we will be unable to collect all amounts due according to the terms of the loan agreement.

For all classes of impaired loans, income recognition is consistent with that of nonaccrual loans discussed above. For collateral dependent loans, if the recorded investment in impaired loans exceeds the fair value of the collateral, a valuation allowance is established consistent with the previous discussion within TDRs above.

Charge-offs

As a general rule, consumer automobile loans are written down to estimated collateral value, less costs to sell, once a loan becomes 120 days past due; and second-lien consumer mortgage loans within our home equity class are charged off at 180 days past due. Consumer first-lien mortgage loans, which consists of our entire 1st

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

mortgage class and a subset of our home equity class that are secured by real estate in a first-lien position are written down to the estimated fair value of the collateral, less costs to sell, once a mortgage loan becomes 180 days past due. Second-lien consumer mortgage loans in bankruptcy that are 60 days past due are fully charged off within 60 days of receipt of notification of filing from the bankruptcy court. Consumer automobile and first-lien consumer mortgage loans in bankruptcy that are 60 days past due are written down to the estimated fair value of the collateral, less costs to sell, within 60 days of receipt of notification of filing from the bankruptcy court. Regardless of other timelines noted within this policy, loans are considered collateral dependent at the time foreclosure proceedings begin and are charged off to the estimated fair value of the underlying collateral, less costs to sell at that time.

Commercial loans are individually evaluated and where collectability of the recorded balance is in doubt are written down to the estimated fair value of the collateral less costs to sell. Generally, all commercial loans, both collateral and noncollateral dependent, are charged off when they are 360 days or more past due.

Allowance for Loan Losses

The allowance for loan losses (the allowance) is management's estimate of incurred losses in the lending portfolios. We determine the amount of the allowance required for each of our portfolio segments based on its relative risk characteristics. The evaluation of these factors for both consumer and commercial finance receivables and loans involves complex, subjective judgments. Additions to the allowance are charged to current period earnings through the provision for loan losses; amounts determined to be uncollectible are charged directly against the allowance, net of amounts recovered on previously charged-off accounts.

The allowance is comprised of two components: specific reserves established for individual loans evaluated as impaired and portfolio-level reserves established for large groups of typically smaller balance homogenous loans that are collectively evaluated for impairment. We evaluate the adequacy of the allowance based on the combined total of these two components. Determining the appropriateness of the allowance is complex and requires judgment by management about the effect of matters that are inherently uncertain. It is possible that others, given the same information, may at any point in time reach different reasonable conclusions.

Measurement of impairment for specific reserves is generally determined on a loan-by-loan basis. Loans determined to be specifically impaired are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate, an observable market price, or the estimated fair value of the collateral less estimated costs to sell, whichever is determined to be the most appropriate. When these measurement values are lower than the carrying value of that loan, impairment is recognized. Loans that are not identified as individually impaired are pooled with other loans with similar risk characteristics for evaluation of impairment for the portfolio-level allowance.

For the purpose of calculating portfolio-level reserves, we have grouped our loans into three portfolio segments: consumer automobile, consumer mortgage, and commercial. The allowance consists of the combination of a quantitative assessment component based on statistical models, a retrospective evaluation of actual loss information to loss forecasts, and could include a qualitative component based on management judgment. Management takes into consideration relevant qualitative factors, including external and internal trends such as the impacts of changes in underwriting standards, collections and account management effectiveness, geographic concentrations, and economic events, among other factors, that have occurred but are not yet reflected in the quantitative assessment component. All qualitative adjustments are adequately documented, reviewed, and approved through our established risk governance processes. Refer to Note 9 for information on the allowance for loan losses.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Consumer Loans

Our consumer automobile and consumer mortgage portfolio segments are reviewed for impairment based on an analysis of loans that are grouped into common risk categories (i.e., past due status, loan or lease type, collateral type, borrower, industry or geographic concentrations). We perform periodic and systematic detailed reviews of our lending portfolios to identify inherent risks and to assess the overall collectability of those portfolios. Loss models are utilized for these portfolios, which consider a variety of factors including, but not limited to, historical loss experience, current economic conditions, anticipated repossessions or foreclosures based on portfolio trends, delinquencies and credit scores, and expected loss factors by loan type.

Consumer Automobile Portfolio Segment

The allowance for loan losses within the consumer automobile portfolio segment is calculated using proprietary statistical models and other risk indicators applied to pools of loans with similar risk characteristics, including credit bureau score, loan-to-value and vehicle type, to arrive at an estimate of incurred losses in the portfolio. These statistical loss forecasting models are utilized to estimate incurred losses and consider a variety of factors including, but not limited to, historical loss experience, estimated defaults based on portfolio trends, delinquencies, and general economic and business trends. These statistical models predict forecasted losses inherent in the portfolio based on both vintage and migration analyses.

The forecasted losses consider historical factors such as frequency (the number of contracts that we expect to default) and loss severity (the expected loss on a per vehicle basis). The loss severity within the consumer automobile portfolio segment is impacted by the market values of vehicles that are repossessed. Vehicle market values are affected by numerous factors including the condition of the vehicle upon repossession, the overall price and volatility of gasoline or diesel fuel, consumer preference related to specific vehicle segments, and other factors. The historical loss experience is updated quarterly to incorporate the most recent data reflective of the current economic environment.

The quantitative assessment component maybe supplemented with qualitative reserves based on management's determination that such adjustments provide a better estimate of credit losses. This qualitative assessment takes into consideration relevant internal and external factors that have occurred but are not yet reflected in the forecasted losses and may affect the credit quality of the portfolio.

Our methodology and policies with respect to the allowance for loan losses for our consumer automobile portfolio segment did not change during 2011.

Consumer Mortgage Portfolio Segment

The allowance for loan losses within the consumer mortgage portfolio segment is calculated by using proprietary statistical models based on pools of loans with similar risk characteristics, including credit score, loan-to-value, loan age, documentation type, product type, and loan purpose, to arrive at an estimate of incurred losses in the portfolio. These statistical loss forecasting models are utilized to estimate incurred losses and consider a variety of factors including, but not limited to, historical loss experience, estimated foreclosures or defaults based on portfolio trends, delinquencies, and general economic and business trends.

The forecasted losses are statistically derived based on a suite of loan-level behavior models linked into a state transition modeling framework. This transition framework predicts various stages of delinquency, default, and voluntary prepayment over the course of the life of the loan. The transition probability is a function of the loan

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

and borrower characteristics and economic variables and considers historical factors such as frequency (the number of contracts that we expect to default) and loss severity (the expected loss on a per loan basis). When a default event is predicted, a severity model is applied to estimate future loan losses. Loss severity within the consumer mortgage portfolio segment is impacted by the market values of foreclosed properties, which is affected by numerous factors, including geographic considerations and the condition of the foreclosed property. The historical loss experience is updated quarterly to incorporate the most recent data reflective of the current economic environment.

The quantitative assessment component is supplemented with qualitative reserves based on management's determination that such adjustments provide a better estimate of credit losses. This qualitative assessment takes into consideration relevant internal and external factors that have occurred but are not yet reflected in the forecasted losses and may affect the credit quality of the portfolio.

Our methodology and policies with respect to the allowance for loan losses for our consumer mortgage portfolio segment did not change during 2011.

Commercial

The allowance for loan losses within the commercial portfolio is comprised of reserves established for specific loans evaluated as impaired and portfolio-level reserves based on nonimpaired loans grouped into pools based on similar risk characteristics and collectively evaluated.

A commercial loan is considered impaired when it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement based on current information and events. These loans are primarily evaluated individually and are risk-rated based on borrower, collateral, and industry-specific information that management believes is relevant in determining the occurrence of a loss event and measuring impairment. Management establishes specific allowances for commercial loans determined to be individually impaired based on the present value of expected future cash flows, discounted at the loan's effective interest rate, observable market price or the fair value of collateral, whichever is determined to be the most appropriate. Estimated costs to sell or realize the value of the collateral on a discounted basis are included in the impairment measurement, when appropriate.

Loans not identified as impaired are grouped into pools based on similar risk characteristics and collectively evaluated. Our risk rating models use historical loss experience, concentrations, current economic conditions, and performance trends. The commercial historical loss experience is updated quarterly to incorporate the most recent data reflective of the current economic environment. The determination of the allowance is influenced by numerous assumptions and many factors that may materially affect estimates of loss, including volatility of loss given default, probability of default, and rating migration. In assessing the risk rating of a particular loan, several factors are considered including an evaluation of historical and current information involving subjective assessments and interpretations. In addition, the allowance related to the commercial portfolio segment is influenced by estimated recoveries from automotive manufacturers relative to guarantees or agreements with them to repurchase vehicles used as collateral to secure the loans.

The quantitative assessment component maybe supplemented with qualitative reserves based on management's determination that such adjustments provide a better estimate of credit losses. This qualitative assessment takes into consideration relevant internal and external factors that have occurred and may affect the credit quality of the portfolio.

Notes to Consolidated Financial Statements (Continued)

Our methodology and policies with respect to the allowance for loan losses for our commercial portfolio segment did not change during 2011.

Securitizations and Variable Interest Entities

We securitize, sell, and service consumer automobile loans, operating leases, wholesale loans, and consumer mortgage loans. Securitization transactions typically involve the use of variable interest entities and are accounted for either as sales or secured financings. We may retain economic interests in the securitized and sold assets, which are generally retained in the form of senior or subordinated interests, interest- or principal-only strips, cash reserve accounts, residual interests, and servicing rights.

In order to conclude whether or not a variable interest entity is required to be consolidated, careful consideration and judgment must be given to our continuing involvement with the variable interest entity. Subsequent to the implementation of ASU 2009-17 on January 1, 2010, in circumstances where we have both the power to direct the activities of the entity that most significantly impact the entity's performance and the obligation to absorb losses or the right to receive benefits of the entity that could be significant, we would conclude that we would consolidate the entity, which would also preclude us from recording an accounting sale on the transaction. In the case of a consolidated variable interest entity, the accounting is consistent with a secured financing, i.e., we continue to carry the loans and we record the securitized debt on our balance sheet. Unrecorded economic interests in consolidated variable interest entities can be determined as the difference between the recognized assets and recognized liabilities.

In transactions where either one or both of the power or economic criteria mentioned above are not met, we then must determine whether or not we achieve a sale for accounting purposes. In order to achieve a sale for accounting purposes, the assets being transferred must be legally isolated, not be constrained by restrictions from further transfer, and be deemed to be beyond our control. If we were to fail any of the three criteria for sale accounting, the accounting would be consistent with the preceding paragraph (i.e., a secured borrowing). Refer to Note 11 for discussion on variable interest entities.

Prior to the implementation of ASU 2009-17, many of our securitizations were executed utilizing qualifying special-purpose entities (SPEs), which were exempt from consideration for consolidation so long as the transaction would otherwise qualify as a sale. Therefore, these transactions were recorded as sales. Additionally, the gain or loss on sale was dependent on the previous carrying amount of the assets involved in the transfer and were allocated between the assets sold and the retained interests based on relative fair values except for certain servicing assets and liabilities, which were initially recorded at fair value on the date of the sale.

Subsequent to the implementation of ASU 2009-17, gains or losses on off-balance sheet securitizations take into consideration the fair value of the retained interests including the value of certain servicing assets or liabilities, which are initially recorded at fair value at the date of sale. The estimate of the fair value of the retained interests and servicing requires us to exercise significant judgment about the timing and amount of future cash flows from the interests. Refer to Note 27 for a discussion of fair value estimates.

Gains or losses on off-balance sheet securitizations and sales are reported in gain (loss) on mortgage and automotive loans, net, in our Consolidated Statement of Income for consumer automobile loans, wholesale loans, and consumer mortgage loans. Declines in the fair value of retained interests, other than servicing, below the carrying amount are reflected in other comprehensive income, or as other (loss) gain on investments, net, in our Consolidated Statement of Income if such declines are determined to be other-than-temporary or if the interests are classified as trading. Retained interests, as well as any purchased securities, are generally included in

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

available-for-sale investment securities, trading investment securities, or other assets. Designation as available-for-sale or trading depends on management's intent. Securities that are noncertificated and cash reserve accounts related to securitizations are included in other assets on our Consolidated Balance Sheet.

We retain servicing responsibilities for all of our consumer automobile loan, operating lease, and wholesale loan securitizations and for the majority of our consumer mortgage loan securitizations. We may receive servicing fees based on the securitized loan balances and certain ancillary fees, all of which are reported in servicing fees in the Consolidated Statement of Income. We also retain the right to service the consumer mortgage loans sold in securitization transactions involving the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac), and the Government National Mortgage Association (Ginnie Mae) (collectively the Government-sponsored Enterprises or GSEs) and private investors. We also serve as the collateral manager in the securitizations of commercial investment securities.

Whether on- or off-balance sheet, the investors in the securitization trusts generally have no recourse to our assets outside of customary market representation and warranty repurchase provisions.

Mortgage Servicing Rights

Primary servicing rights represent our right to service consumer residential mortgages securitized by us or through the GSEs and third-party whole-loan sales. Primary servicing involves the collection of payments from individual borrowers and the distribution of these payments to the investors or master servicer. Master-servicing rights represent our right to service mortgage- and asset-backed securities and whole-loan packages issued for investors. Master-servicing involves the collection of borrower payments from primary servicers and the distribution of those funds to investors in mortgage- and asset-backed securities and whole-loans packages. We also purchase and sell primary and master-servicing rights through transactions with other market participants.

We capitalize the value expected to be realized from performing specified mortgage servicing activities for others as mortgage servicing rights (MSRs) when the expected future cash flows from servicing are projected to be more than adequate compensation for such activities. These capitalized servicing rights are purchased or retained upon sale or securitization of mortgage loans. MSRs are not recorded on securitizations accounted for as secured financings.

We measure all mortgage servicing assets and liabilities at fair value. We define our servicing rights based on both the availability of market inputs and the manner in which we manage the risks of our servicing assets and liabilities. We leverage all available relevant market data to determine the fair value of our recognized servicing assets and liabilities.

Since quoted market prices for MSRs are not readily available, we estimate the fair value of MSRs by determining the present value of future expected cash flows using modeling techniques that incorporate management's best estimates of key variables including expected cash flows, prepayment speeds, and return requirements commensurate with the risks involved. Cash flow assumptions are modeled using our internally forecasted revenue and expenses, and where possible, the reasonableness of assumptions is periodically validated through comparisons to market data. Prepayment speed estimates are determined from historical prepayment rates on similar assets or obtained from third-party data. Return requirement assumptions are determined using data obtained from market participants, where available, or based on current relevant interest rates plus a risk-adjusted spread. We also consider other factors that can impact the value of the MSRs, such as surety provider termination clauses and servicer terminations that could result if we failed to materially comply with the covenants or conditions of our servicing agreements and did not remedy the failure. Since many factors can

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

affect the estimate of the fair value of MSRs, we regularly evaluate the major assumptions and modeling techniques used in our estimate and review these assumptions against market comparables, if available. We monitor the actual performance of our MSRs by regularly comparing actual cash flow, credit, and prepayment experience to modeled estimates. Refer to Note 12 for further discussion of our servicing activities.

Reposessed and Foreclosed Assets

Assets are classified as reposessed and foreclosed and included in other assets when physical possession of the collateral is taken regardless of whether foreclosure proceedings have taken place. Reposessed and foreclosed assets are carried at the lower of the outstanding balance at the time of repossession or foreclosure or the fair value of the asset less estimated costs to sell. Losses on the revaluation of reposessed and foreclosed assets are charged to the allowance for loan losses at the time of repossession. Declines in value after repossession are charged to other operating expenses for loans and depreciation on operating lease assets for lease contracts as incurred.

Goodwill and Other Intangibles

Goodwill and other intangible assets, net of accumulated amortization, are reported in other assets. In accordance with applicable accounting standards, goodwill represents the excess of the cost of an acquisition over the fair value of net assets acquired, including identifiable intangibles. Goodwill is reviewed for impairment utilizing a two-step process. The first step of the impairment test requires us to define the reporting units and compare the fair value of each of these reporting units to the respective carrying value. The fair value of the reporting units in our impairment test is determined based on various analyses including discounted cash flow projections using assumptions a market participant would use. If the carrying value is less than the fair value, no impairment exists, and the second step does not need to be completed. If the carrying value is higher than the fair value or there is an indication that impairment may exist, a second step must be performed to compute the amount of the impairment, if any. Applicable accounting standards require goodwill to be tested for impairment annually at the same time every year and whenever an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Our annual goodwill impairment assessment is performed as of August 31 of each year. Refer to Note 14 for further discussion on goodwill.

Investment in Operating Leases

Investment in operating leases is reported at cost, less accumulated depreciation and net of impairment charges and origination fees or costs. Depreciation of vehicles is generally provided on a straight-line basis to an estimated residual value over the lease term. Rate support payments that we receive from manufacturers are treated as a reduction to the cost-basis in the underlying lease asset and are recognized over the life of the contract as a reduction to depreciation expense. We periodically evaluate our depreciation rate for leased vehicles based on projected residual values. Income from operating lease assets that includes lease origination fees, net of lease origination costs, is recognized as operating lease revenue on a straight-line basis over the scheduled lease term.

We have significant investments in the residual values of assets in our operating lease portfolio. The residual values represent an estimate of the values of the assets at the end of the lease contracts and are initially determined based on residual values established at contract inception by consulting independently published residual value guides. Realization of the residual values is dependent on our future ability to market the vehicles under the prevailing market conditions. Over the life of the lease, we evaluate the adequacy of our estimate of the

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

residual value and may make adjustments to the depreciation rates to the extent the expected value of the vehicle (including any residual support payments) at lease termination changes. In addition to estimating the residual value at lease termination, we also evaluate the current value of the operating lease asset and test for impairment to the extent necessary based on market considerations and portfolio characteristics. Impairment is determined to exist if the undiscounted expected future cash flows are lower than the carrying value of the asset. If our operating lease assets are considered to be impaired, the impairment is measured as the amount by which the carrying amount of the assets exceeds the fair value as estimated by discounted cash flows. The accrual of revenue on operating leases is generally discontinued at the time an account is determined to be uncollectible at the earliest of time of repossession, within 60 days of bankruptcy notification and greater than 60 days past due, or greater than 120 days past due.

When a lease vehicle is returned to us, the asset is reclassified from investment in operating leases, net, to other assets and recorded at the lower-of-cost or estimated fair value, less costs to sell, on our Consolidated Balance Sheet.

Impairment of Long-lived Assets

The carrying value of long-lived assets (including property and equipment) are evaluated for impairment whenever events or changes in circumstances indicate that their carrying values may not be recoverable from the estimated undiscounted future cash flows expected to result from their use and eventual disposition. Recoverability of assets to be held and used is measured by a comparison of their carrying amount to future net undiscounted cash flows expected to be generated by the assets. If these assets are considered to be impaired, the impairment is measured as the amount by which the carrying amount of the assets exceeds the fair value as estimated by discounted cash flows. No material impairment was recognized in 2011, 2010, or 2009.

An impairment test on an asset group to be sold or otherwise disposed of is performed upon occurrence of a triggering event or when certain criteria are met (e.g., the asset is planned to be disposed of within twelve months, appropriate levels of authority have approved the sale, there is an active program to locate a buyer, etc), which cause the disposal group to be classified as held-for-sale. Long-lived assets held-for-sale are recorded at the lower of their carrying amount or estimated fair value less cost to sell. If the carrying value of the assets held-for-sale exceeds the fair value less cost to sell, we recognize an impairment loss based on the excess of the carrying amount over the fair value of the assets less cost to sell. During 2011, 2010 and 2009, impairment losses were recognized on asset groups that were classified as held-for-sale or disposed of by sale. Refer to Note 2 for a discussion of discontinued and held-for-sale operations.

Property and Equipment

Property and equipment stated at cost, net of accumulated depreciation and amortization, are reported in other assets on our Consolidated Balance Sheet. Included in property and equipment are certain buildings, furniture and fixtures, leasehold improvements, company vehicles, IT hardware and software, and capitalized software costs. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets, which generally ranges from three to thirty years. Capitalized software is generally amortized on a straight-line basis over its useful life, which generally ranges from three to five years. Capitalized software that is not expected to provide substantive service potential or for which development costs significantly exceed the amount originally expected is considered impaired and written down to fair value. Software expenditures that are considered general, administrative, or of a maintenance nature are expensed as incurred.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Unearned Insurance Premiums and Service Revenue

Insurance premiums, net of premiums ceded to reinsurers, and service revenue are earned over the terms of the policies. The portion of premiums and service revenue written applicable to the unexpired terms of the policies is recorded as unearned insurance premiums or unearned service revenue. For extended service and maintenance contracts, premiums and service revenues are earned on a basis proportionate to the anticipated cost emergence. For other short duration contracts, premiums and unearned service revenue are earned on a pro rata basis. For further information, refer to Note 3.

Deferred Policy Acquisition Costs

Commissions, including compensation paid to sellers of vehicle service contracts and other costs of acquiring insurance that are primarily related to and vary with the production of business, are deferred and recorded in other assets. Deferred policy acquisition costs are amortized over the terms of the related policies and service contracts on the same basis as premiums and revenue are earned except for direct response advertising costs, which are amortized over their expected future benefit. We group costs incurred for acquiring like contracts and consider anticipated investment income in determining the recoverability of these costs.

Reserves for Insurance Losses and Loss Adjustment Expenses

Reserves for insurance losses and loss adjustment expenses are established for the unpaid cost of insured events that have occurred as of a point in time. More specifically, the reserves for insurance losses and loss adjustment expenses represent the accumulation of estimates for both reported losses and those incurred, but not reported, including claims adjustment expenses relating to direct insurance and assumed reinsurance agreements. Estimates for salvage and subrogation recoverable are recognized at the time losses are incurred and netted against provision for insurance losses and loss adjustment expenses. Reserves are established for each business at the lowest meaningful level of homogeneous data. Since the reserves are based on estimates, the ultimate liability may vary from such estimates. The estimates are regularly reviewed and adjustments, which can potentially be significant, are included in earnings in the period in which they are deemed necessary. Refer to Note 18 for information on these reserves.

Legal and Regulatory Reserves

Reserves for legal and regulatory matters are established when those matters present loss contingencies that are both probable and estimable, with a corresponding amount recorded to other noninterest expense. In cases where we have an accrual for losses, it is our policy to include an estimate for probable and estimable legal expenses related to the case. If, at the time of evaluation, the loss contingency related to a litigation or regulatory matter is not both probable and estimable, we do not establish an accrued liability. We continue to monitor legal and regulatory matters for further developments that could affect the requirement to establish a liability or that may impact the amount of a previously established liability. There may be exposure to loss in excess of any amounts recognized. For certain other matters where the risk of loss is determined to be reasonably possible, estimable, and material to the financial statements, disclosure regarding details of the matter and an estimated range of loss is required. The estimated range of possible loss does not represent our maximum loss exposure. Financial statement disclosure is also required for matters that are deemed probable or reasonably possible, material to the financial statements, but for which an estimated range of loss is not possible to determine. While we believe our reserves are adequate, the outcome of legal and regulatory proceedings is extremely difficult to predict and we may settle claims or be subject to judgments for amounts that differ from our estimates. For information regarding the nature of all material contingencies, refer to Note 31.

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Loan Repurchase and Obligations Related to Loan Sales

Our Mortgage operations sell loans that take the form of securitizations guaranteed by the GSEs and whole-loan purchasers. In addition, we infrequently sell securities to investors through private-label securitizations. In connection with these activities we provide to the GSEs, investors, whole-loan purchasers, and financial guarantors (monolines) various representations and warranties related to the loans sold. These representations and warranties generally relate to, among other things, the ownership of the loan, the validity of the lien securing the loan, the loan's compliance with the criteria for inclusion in the transaction, including compliance with underwriting standards or loan criteria established by the buyer, ability to deliver required documentation and compliance with applicable laws. Generally, the representations and warranties described in Note 31 may be enforced at any time over the life of the loan. ResCap assumes all of the customary representation and warranty obligations for loans purchased from Ally Bank and subsequently sold into the secondary market. In the event ResCap fails to meet these obligations, Ally Financial Inc. has provided a guarantee to Ally Bank that covers it from liability.

Upon a breach of a representation, we correct the breach in a manner conforming to the provisions of the sale agreement. This may require us either to repurchase the loan or to indemnify (make-whole) a party for incurred losses or provide other recourse to a GSE or investor. Repurchase demands and claims for indemnification payments are reviewed on a loan-by-loan basis to validate if there has been a breach requiring repurchase or a make-whole payment. We actively contest claims to the extent we do not consider them valid. In cases where we repurchase loans, we bear the credit loss on the loans. Repurchased loans are classified as held-for-sale and initially recorded at fair value and subsequently at the lower of cost or market. We seek to manage the risk of repurchase and associated credit exposure through our underwriting and quality assurance practices and by servicing mortgage loans to meet investor standards.

The reserve for representation and warranty obligations reflects management's best estimate of probable lifetime loss. We consider historical and recent demand trends in establishing the reserve. The methodology used to estimate the reserve considers a variety of assumptions including borrower performance (both actual and estimated future defaults), repurchase demand behavior, historical loan defect experience, historical and estimated future loss experience, which includes projections of future home price changes as well as other qualitative factors including investor behavior. In cases where we do not have or have limited current or historical demand experience with an investor, because it is difficult to predict the level and timing of future demands, if any, losses cannot currently be reasonably estimated, and a liability is not recognized. Management monitors the adequacy of the overall reserve and makes adjustments to the level of reserve, as necessary, after consideration of other qualitative factors including ongoing dialogue with counterparties.

At the time a loan is sold, an estimate of the fair value of the liability is recorded and classified in other liabilities on our Consolidated Balance Sheet, and recorded as a component of gain (loss) on mortgage and automotive loans, net, in our Consolidated Statement of Income. We recognize changes in the reserve when additional relevant information becomes available. Changes in the liability are recorded as other operating expenses in our Consolidated Statement of Income.

Earnings per Common Share

We compute earnings (loss) per common share by dividing net income (loss) (after deducting dividends on preferred stock) by the weighted-average number of common shares outstanding during the period. We compute diluted earnings (loss) per common share by dividing net income (loss) (after deducting dividends on preferred stock) by the weighted-average number of common shares outstanding during the period plus the dilution resulting from the conversion of convertible preferred stock, if applicable.

Notes to Consolidated Financial Statements (Continued)

Derivative Instruments and Hedging Activities

We primarily use derivative instruments for risk management purposes. Derivatives held for trading purposes are limited to those entered into by our broker-dealer. Some of our derivative instruments are designated in qualifying hedge accounting relationships; other derivative instruments do not qualify for hedge accounting or are not elected to be designated in a qualifying hedging relationship. In accordance with applicable accounting standards, all derivative financial instruments, whether designated for hedge accounting or not, are required to be recorded on the balance sheet as assets or liabilities and measured at fair value. Additionally, we report derivative financial instruments on the Consolidated Balance Sheet on a gross basis. For additional information on derivative instruments and hedging activities, refer to Note 24.

At inception of a hedge accounting relationship, we designate each qualifying derivative financial instrument as a hedge of the fair value of a specifically identified asset or liability (fair value hedge); as a hedge of the variability of cash flows to be received or paid related to a recognized asset or liability (cash flow hedge); or as a hedge of the foreign-currency exposure of a net investment in a foreign operation. We formally document all relationships between hedging instruments and hedged items and risk management objectives for undertaking various hedge transactions. Both at the hedge's inception and on an ongoing basis, we formally assess whether the derivatives that are used in hedging relationships are highly effective in offsetting changes in fair values or cash flows of hedged items.

Changes in the fair value of derivative financial instruments that are designated and qualify as fair value hedges along with the gain or loss on the hedged asset or liability attributable to the hedged risk, are recorded in the current period earnings. For qualifying cash flow hedges, the effective portion of the change in the fair value of the derivative financial instruments is recorded in accumulated other comprehensive income, and recognized in the income statement when the hedged cash flows affect earnings. For a derivative designated as hedging the foreign-currency exposure of a net investment in a foreign operation, the gain or loss is reported in accumulated other comprehensive income as part of the cumulative translation adjustment. The ineffective portions of fair value, cash flow, and net investment hedges are immediately recognized in earnings, along with the portion of the change in fair value that is excluded from the assessment of hedge effectiveness, if any.

The hedge accounting treatment described herein is no longer applied if a derivative financial instrument is terminated or the hedge designation is removed or is assessed to be no longer highly effective. For these terminated fair value hedges, any changes to the hedged asset or liability remain as part of the basis of the asset or liability and are recognized into income over the remaining life of the asset or liability. For terminated cash flow hedges, unless it is probable that the forecasted cash flows will not occur within a specified period, any changes in fair value of the derivative financial instrument previously recognized remain in accumulated other comprehensive income, and are reclassified into earnings in the same period that the hedged cash flows affect earnings. The previously recognized net derivative gain or loss for a net investment hedge continues to remain in accumulated other comprehensive income until earnings are impacted by sale or liquidation of the associated foreign operation. In all instances, after hedge accounting is no longer applied, any subsequent changes in fair value of the derivative instrument will be recorded into earnings.

Changes in the fair value of derivative financial instruments held for risk management purposes that are not designated for hedge accounting under GAAP and changes in the fair value of derivative financial instruments held for trading purposes are reported in current period earnings.

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Loan Commitments

We enter into commitments to purchase and make loans whereby the interest rate on the loans is set prior to funding (i.e., interest rate lock commitments). Interest rate lock commitments for mortgage loans to be originated for sale and all purchase commitments are derivative financial instruments carried at fair value in accordance with applicable accounting standards with changes in fair value included within current period earnings. The fair value of purchase and interest rate lock commitments include expected net future cash flows related to the associated servicing of the loan. Servicing assets are recognized as distinct assets once they are contractually separated from the underlying loan by sale or securitization. Day-one gains or losses on derivative interest rate lock commitments are recognized when applicable.

Income Taxes

Effective June 30, 2009, we converted from an LLC to a Delaware corporation, thereby ceasing to be a pass-through entity for income tax purposes. As a result, we recorded our deferred tax assets and liabilities using the estimated corporate effective tax rate. Our banking, insurance, and foreign subsidiaries were generally always corporations and continued to be subject to tax and provide for U.S. federal, state, and foreign income taxes.

Our income tax expense, deferred tax assets and liabilities, and reserves for unrecognized tax benefits reflect management's best assessment of estimated future taxes to be paid. We are subject to income taxes in the United States and numerous foreign jurisdictions. Significant judgments and estimates are required in determining the consolidated income tax expense.

Deferred income taxes arise from temporary differences between the tax and financial statement recognition of revenue and expense. In evaluating our ability to recover our deferred tax assets within the jurisdiction from which they arise we consider all available positive and negative evidence including scheduled reversals of deferred tax liabilities, projected future taxable income, tax planning strategies and recent financial operations. In projecting future taxable income, we begin with historical results adjusted for the results of discontinued operations and changes in accounting policies and incorporate assumptions including the amount of future state, federal and foreign pretax operating income, the reversal of temporary differences, and the implementation of feasible and prudent tax planning strategies. For additional information regarding our provision for income taxes, refer to Note 25.

We recognize the financial statement effects of an uncertain income tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Also, we recognize accrued interest and penalties related to uncertain income tax positions in interest expense and other operating expenses, respectively.

Share-based Compensation

Under accounting guidance for share-based compensation, compensation cost recognized includes cost for share-based awards. For certain share-based awards compensation cost is ratably charged to expense over the applicable service periods. For other share-based awards the awards require liability treatment and are remeasured quarterly at fair value until they are paid, with changes in fair value charged to compensation expense in the period in which the change occurs. Refer to Note 26 for a discussion of our share-based compensation plans.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Foreign Exchange**

Foreign-denominated assets and liabilities resulting from foreign-currency transactions are valued using period-end foreign-exchange rates and the results of operations and cash flows are determined using approximate weighted average exchange rates for the period. Translation adjustments are related to foreign subsidiaries using local currency as their functional currency and are reported as a separate component of accumulated other comprehensive income. We may elect to enter into foreign-currency derivatives to mitigate our exposure to changes in foreign-exchange rates. Refer to Derivative Instruments and Hedging Activities above for a discussion of our hedging activities of the foreign-currency exposure of a net investment in a foreign operation.

Recently Adopted Accounting Standards**Comprehensive Income Presentation of Comprehensive Income (ASU 2011-05)**

As of December 31, 2011, we early adopted Accounting Standards Update (ASU) 2011-05, which amended Accounting Standards Codification (ASC) 220, *Comprehensive Income*. The amendments increased the prominence of items reported in other comprehensive income and facilitated convergence between GAAP and International Financial Reporting Standards (IFRS). This ASU required that nonowner changes in stockholders equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. We elected to early adopt ASU 2011-05, including the deferral permitted under ASU 2011-12 (*Comprehensive Income Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*), by retrospective application for the three years ended December 31, 2011, 2010, and 2009. Because this ASU impacts only presentation, there was not a material impact to our financial condition or results of operation.

Receivables A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring (ASU 2011-02)

As of July 1, 2011, we adopted ASU 2011-02, which amends ASC 310, *Receivables*. ASU 2011-02 clarifies which loan modifications constitute a TDR. It is intended to assist creditors in determining whether a modification of the terms of a receivable meets the criteria to be considered a TDR, both for purposes of recording an impairment loss and for disclosure of TDRs. The ASU must be applied retrospectively to modifications made subsequent to the beginning of the annual period of adoption, which for us is January 1, 2011.

ASU 2011-02 also required us to disclose the total amount of receivables and the allowance for credit losses related to those receivables that are newly considered impaired for which impairment was previously measured under ASC 450-20, *Contingencies Loss Contingencies*. Refer to Note 9 for additional information regarding TDRs.

The adoption did not have a material impact to our consolidated financial condition or results of operations.

Receivables Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (ASU 2010-20)

ASU 2010-20 was implemented in three distinct components as required by the ASU. Beginning with the three months ended September 30, 2011, and in conjunction with the requirements of ASU 2011-02, the deferral of TDR related disclosures within ASU 2010-20 prescribed by ASU 2011-01, *Deferral of the Effective Date of*

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Disclosures about Troubled Debt Restructurings in Update No. 2010-20, was ended, which required us to expand our TDR disclosures to include more information on modifications that are classified as TDRs. Beginning with the three months ended March 31, 2011, ASU 2010-20 required us to disclose a rollforward of the allowance for loan losses and additional activity-based disclosures for both financing receivables and the allowance for each reporting period. We early adopted the rollforward requirement during the December 31, 2010, reporting period along with the initial expansion of disclosures related to the credit quality of finance receivables and loans. Since the guidance relates only to disclosures, adoption of each of the phases did not have a material impact on our consolidated financial condition or results of operations.

Revenue Recognition Multiple-Deliverable Revenue Arrangements (ASU 2009-13)

As of January 1, 2011, we adopted ASU 2009-13, which amends ASC 605, *Revenue Recognition*. The guidance significantly changed the accounting for revenue recognition in arrangements with multiple deliverables and eliminated the residual method, which allocated the discount of a multiple deliverable arrangement among the delivered items. The guidance requires entities to allocate the total consideration to all deliverables at inception using the relative selling price and to allocate any discount in the arrangement proportionally to each deliverable based on each deliverable's selling price. The adoption did not have a material impact to our consolidated financial condition or results of operations.

Recently Issued Accounting Standards**Financial Services Insurance Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts (ASU 2010-26)**

In October 2010, the Financial Accounting Standards Board (FASB) issued ASU 2010-26, which amends ASC 944, *Financial Services Insurance*. The amendments in this ASU specify which costs incurred in the acquisition of new and renewal insurance contracts should be capitalized. All other acquisition-related costs should be expensed as incurred. If the initial application of the amendments in this ASU results in the capitalization of acquisition costs that had not been previously capitalized, an entity may elect not to capitalize those types of costs. The ASU will be effective for us on January 1, 2012 and will be applied prospectively. Both retrospective application and early adoption are permitted. The adoption will not have a material impact to our consolidated financial condition or results of operations.

Fair Value Measurement Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04)

In May 2011, the FASB issued ASU 2011-04, which amends ASC 820, *Fair Value Measurements*. The amendments in this ASU clarify how to measure fair value. It is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. The ASU will be effective for us on January 1, 2012, and must be applied prospectively. Early adoption is not permitted. We do not expect the adoption to have a material impact to our consolidated financial condition or results of operations.

Intangibles-Goodwill and Other Testing Goodwill for Impairment (ASU 2011-08)

In September 2011, the FASB issued ASU 2011-08, which permits the option of performing a qualitative assessment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If it is determined, on the basis of qualitative factors, that the fair value of a reporting unit is more likely than not more

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

than the carrying amount, the two-step impairment test would not be required. Otherwise, further evaluation would be needed. ASU 2011-03 is effective for us on January 1, 2012. We do not expect the adoption to have a material impact to our consolidated financial condition or results of operation.

Balance Sheet Disclosures about Offsetting Assets and Liabilities (ASU 2011-11)

In December 2011, the FASB issued ASU 2011-11, which contains new disclosure requirements regarding the nature of an entity's rights of setoff and related arrangements associated with its financial instruments and derivative instruments. The new disclosures will give financial statement users information about both gross and net exposures. ASU 2011-11 is effective for us on January 1, 2013, and retrospective application is required. Since the guidance relates only to disclosures, adoption is not expected to have a material effect on our consolidated financial condition or results of operation.

2. Discontinued and Held-for-sale Operations

Discontinued Operations

We classify operations as discontinued when operations and cash flows will be eliminated from our ongoing operations and we will not retain any significant continuing involvement in their operations after the respective sale transactions. For all periods presented, all of the operating results for these discontinued operations were removed from continuing operations and were presented separately as discontinued operations, net of tax, in the Consolidated Statement of Income. The Notes to the Consolidated Financial Statements were adjusted to exclude discontinued operations unless otherwise noted.

Select Mortgage Legacy Portfolio and Other Operations

During the fourth quarter of 2011, we committed to sell the Canadian mortgage operations of ResMor Trust. No impairment was recognized to present the operations at the lower-of-cost or fair value. We expect to complete the sale during 2012.

During 2010, we sold certain international operations. These operations included residential mortgage loan origination, acquisition, servicing, asset management, sale, and securitizations in the United Kingdom and continental Europe.

Select Global Automotive Services Insurance Operations

During the fourth quarter of 2011, we committed to sell our U.K.-based operations that provide vehicle service contracts and insurance products in Europe and Latin America. No impairment was recognized to present the operations at the lower-of-cost or fair value. We expect to complete the sale during 2012.

During the second quarter of 2011, we completed the sale of our U.K. consumer property and casualty insurance business. During 2010, we completed the sale of our U.S. consumer property and casualty insurance business.

Select Global Automotive Services International Automotive Finance Operations

During the fourth quarter of 2011, we committed to sell our full-service leasing operations in Austria, Germany, Greece, Portugal, and Spain, which resulted in a pretax loss of \$30 million. The loss represents the impairment recognized to present the operations at the lower-of-cost or fair value. The fair value was determined

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

using sales price negotiations with potential third-party purchasers (a Level 2 fair value input). We expect to complete the sale during 2012. We expect to complete the sale of our Venezuela operations, also classified as discontinued operations, during the first quarter of 2012.

During the first quarter of 2011, we completed the sale of our Ecuador operations. During 2010, we completed the sale of our Argentina and Poland operations and our full-service leasing operations in Australia, Belgium, France, Poland, and the United Kingdom. We also ceased operations in Australia and Russia and classified them as discontinued during 2010. During 2009, we completed the sale of our full-service leasing operations in Italy, Mexico, and the Netherlands.

Select Financial Information

Select financial information of discontinued operations is summarized below. The pretax income or loss, including direct costs to transact, includes any impairment recognized to present the operations at the lower-of-cost or fair value. Fair value was based on the estimated sales price, which could differ from the ultimate sales price due to the fluidity of ongoing negotiations, price volatility, changing interest rates, changing foreign-currency rates, and future economic conditions.

| Total available-for-sale securities (c) | \$ 15,167 | \$ 197 | \$ (229) | \$ 15,135 | \$ 14,774 | \$ 210 | \$ (138) | \$ 14,846 |

(a) Residential MBS include agency-backed bonds totaling \$6,114 million and \$4,503 million at December 31, 2011 and 2010, respectively.

(b) In connection with certain borrowings and letters of credit relating to certain assumed reinsurance contracts, \$153 million of primarily U.K. Treasury securities were pledged as collateral at December 31, 2010. No equivalent securities were pledged at December 31, 2011.

(c) Certain entities related to our Insurance operations are required to deposit securities with state regulatory authorities. These deposited securities totaled \$16 million and \$12 million at December 31, 2011 and 2010, respectively.

The maturity distribution of available-for-sale debt securities outstanding is summarized in the following tables. Prepayments may cause actual maturities to differ from scheduled maturities.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The balance of cash equivalents was \$5.6 billion and \$5.3 billion at December 31, 2011 and 2010, respectively and are composed primarily of money market accounts and short-term securities, including U.S. Treasury bills.

The following table presents gross gains and losses realized upon the sales of available-for-sale securities and other-than-temporary impairment.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|---|--------|--------|--------|
| Gross realized gains | \$ 333 | \$ 540 | \$ 346 |
| Gross realized losses | (28) | (35) | (129) |
| Other-than-temporary impairment | (11) | (1) | (55) |
| Net realized gains | \$ 294 | \$ 504 | \$ 162 |

The following table presents interest and dividends on available-for-sale securities.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|--|--------|--------|--------|
| Taxable interest | \$ 373 | \$ 329 | \$ 174 |
| Taxable dividends | 25 | 17 | 9 |
| Interest and dividends exempt from U.S. federal income tax | | 10 | 37 |
| Interest and dividends on available-for-sale securities | \$ 398 | \$ 356 | \$ 220 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Certain available-for-sale securities were sold at a loss in 2011, 2010, and 2009 as a result of market conditions within these respective periods (e.g., a downgrade in the rating of a debt security). The table below summarizes available-for-sale securities in an unrealized loss position in accumulated other comprehensive income. Based on the methodology described below that has been applied to these securities, we believe that the unrealized losses relate to factors other than credit losses in the current market environment. At December 31, 2011, we do not have the intent to sell the debt securities with an unrealized loss position in accumulated other comprehensive income, and it is not more likely than not that we will be required to sell these securities before recovery of their amortized cost basis. Also, at December 31, 2011, we had the ability and intent to hold equity securities with an unrealized loss position in accumulated other comprehensive income. As a result, we believe that the securities with an unrealized loss position in accumulated other comprehensive income are not considered to be other-than-temporarily impaired at December 31, 2011. Refer to Note 1 for further information related to investment securities and our methodology for evaluating potential other-than-temporary impairment.

| December 31, (\$ in millions) | 2011 | | | | 2010 | | | |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****8. Loans Held-for-sale, Net**

The composition of loans held-for-sale, net, was as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | | | 2010 | | |
|--|-----------------|--------------|-----------------|------------------|---------------|------------------|
| | Domestic | Foreign | Total | Domestic | Foreign | Total |
| Consumer automobile | \$ 425 | \$ | \$ 425 | \$ | \$ | \$ |
| Consumer mortgage | | | | | | |
| 1st Mortgage | 7,360 | 12 | 7,372 | 10,191 | 364 | 10,555 |
| Home equity | 740 | | 740 | 856 | | 856 |
| Total consumer mortgage (a) | 8,100 | 12 | 8,112 | 11,047 | 364 | 11,411 |
| Commercial and industrial | | | | | | |
| Other | 20 | | 20 | | | |
| Total loans held-for-sale (b) | \$ 8,545 | \$ 12 | \$ 8,557 | \$ 11,047 | \$ 364 | \$ 11,411 |

(a) Fair value option-elected domestic consumer mortgages were \$3.9 billion and \$6.4 billion at December 31, 2011 and 2010, respectively. Refer to Note 27 for additional information.

(b) Totals are net of unamortized premiums and discounts and deferred fees and costs. Included in the totals are net unamortized discounts of \$221 million and \$161 million at December 31, 2011 and 2010, respectively.

The following table summarizes held-for-sale mortgage loans reported at carrying value by higher-risk loan type.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|---------------|---------------|
| High original loan-to-value (greater than 100%) mortgage loans | \$ 423 | \$ 331 |
| Payment-option adjustable-rate mortgage loans | 12 | 16 |
| Interest-only mortgage loans | 298 | 481 |
| Below-market rate (teaser) mortgages | 169 | 151 |
| Total higher-risk mortgage loans held-for-sale (a) | \$ 902 | \$ 979 |

(a) The majority of these loans are held by our Mortgage Legacy Portfolio and Other operations at December 31, 2011 and 2010.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****9. Finance Receivables and Loans, Net**

The composition of finance receivables and loans, net, reported at carrying value before allowance for loan losses was as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | | | 2010 | | |
|---|-----------|-----------|------------|-----------|-----------|------------|
| | Domestic | Foreign | Total | Domestic | Foreign | Total |
| Consumer automobile | \$ 46,576 | \$ 16,883 | \$ 63,459 | \$ 34,604 | \$ 16,650 | \$ 51,254 |

Troubled Debt Restructurings

TDRs are loan modifications where concessions were granted to borrowers experiencing financial difficulties. Numerous initiatives, such as Home Affordable Modification Program are in place to provide support to our mortgage customers in financial distress, including principal forgiveness, maturity extensions, delinquent interest capitalization, and changes to contractual interest rates. Additionally for automobile loans, we offer several types of assistance to aid our customers including changing the due date, and rewriting the loan terms. Total TDRs recorded at historical cost and reported at carrying value before allowance for loan losses at December 31, 2011, increased \$224 million to \$734 million from December 31, 2010. Refer to Note 1 for additional information.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following table presents information related to finance receivables and loans recorded at historical cost modified in connection with a troubled debt restructuring during the period.

| Year ended December 31, 2011 (\$ in millions) | Number of loans | Pre-modification carrying value before allowance | Post-modification carrying value before allowance |
|--|------------------------|---|--|

F-57

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****10. Investment in Operating Leases, Net**

Investments in operating leases were as follows.

| December 31, (\$ in millions) | 2011 | 2010 |
|--|-----------|-----------|
| Vehicles and other equipment, after impairment | \$ 11,160 | \$ 13,571 |
| Accumulated depreciation | (1,885) | (4,443) |
| Investment in operating leases, net | \$ 9,275 | \$ 9,128 |

Depreciation expense on operating lease assets includes remarketing gains and losses recognized on the sale of operating lease assets. The following summarizes the components of depreciation expense on operating lease assets.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|--|----------|----------|----------|
| Depreciation expense on operating lease assets (excluding remarketing gains) | \$ 1,433 | \$ 2,626 | \$ 4,049 |
| Remarketing gains | (395) | (723) | (530) |
| Depreciation expense on operating lease assets | \$ 1,038 | \$ 1,903 | \$ 3,519 |

The following table presents the future lease nonresidual rental payments due from customers for equipment on operating leases.

| Year ended December 31, (\$ in millions) | |
|--|----------|
| 2012 | \$ 1,850 |
| 2013 | 1,501 |
| 2014 | 675 |
| 2015 | 35 |
| 2016 and after | |
| Total | \$ 4,061 |

Our investment in operating lease assets represents the net book value of our leased assets based on the expected residual value upon remarketing the vehicle at the end of the lease. Our automotive manufacturing partners may elect to sponsor incentive programs which may take the form of rate or residual support. Rate incentive programs support financing rates below the standard market rates at which we purchase leases. Residual incentive programs support contractual residual values in excess of our standard values. Over the past several years, our automotive partners have primarily supported leasing products through rate support programs.

In addition to rate and residual support programs, for leases originated prior to 2009, GM also participates in a risk-sharing arrangement whereby GM shares equally in residual losses to the extent that remarketing proceeds are below our standard residual rates (limited to a floor). In connection with the sale of 51% ownership interest in Ally, GM settled its estimated liabilities with respect to residual support and risk sharing on a portion of our operating lease portfolio. With respect to residual support and risk-sharing agreements with GM, as of December 31, 2011, the maximum amount that could be paid under these arrangements was \$36 million and \$150 million respectively. Embedded in our residual value projections are estimates of projected recoveries from GM relative to residual support and risk-sharing agreements. No adjustment to these

Edgar Filing: Ally Financial Inc. - Form S-1/A

estimates has been made for the collectability of the projected recoveries from GM. At December 31, 2011, expected residual values included estimates of payments from GM of \$81 million related to residual support and risk-sharing agreements. To the extent GM is not able to fully honor its obligations relative to these agreements, our depreciation expense and remarketing performance would be negatively impacted.

Notes to Consolidated Financial Statements (Continued)

11. Securitizations and Variable Interest Entities

Overview

We are involved in several types of securitization and financing transactions that utilize SPEs. An SPE is an entity that is designed to fulfill a specified limited need of the sponsor. Our principal use of SPEs is to obtain liquidity and favorable capital treatment by securitizing certain of our financial assets.

The SPEs involved in securitization and other financing transactions are generally considered variable interest entities (VIEs). VIEs are entities that have either a total equity investment that is insufficient to permit the entity to finance its activities without additional subordinated financial support or whose equity investors lack the ability to control the entity's activities.

Securitizations

We provide a wide range of consumer and commercial automobile loans, operating leases, and mortgage loan products to a diverse customer base. We often securitize these loans and leases (which we collectively describe as loans or financial assets) through the use of securitization entities, which may or may not be consolidated on our Consolidated Balance Sheet. We securitize consumer and commercial automobile loans and operating leases through private-label securitizations. We securitize consumer mortgage loans through transactions involving the GSEs or private-label mortgage securitizations. During 2010 and 2011, our consumer mortgage loans were primarily securitized through the GSEs.

In executing a securitization transaction, we typically sell pools of financial assets to a wholly owned, bankruptcy-remote SPE, which then transfers the financial assets to a separate, transaction-specific securitization entity for cash, servicing rights, and in some transactions, other retained interests. The securitization entity is funded through the issuance of beneficial interests in the securitized financial assets. The beneficial interests take the form of either notes or trust certificates which are sold to investors and/or retained by us. These beneficial interests are collateralized by the transferred loans and entitle the investors to specified cash flows generated from the securitized loans. In addition to providing a source of liquidity and cost-efficient funding, securitizing these financial assets also reduces our credit exposure to the borrowers beyond any economic interest we may retain.

Each securitization is governed by various legal documents that limit and specify the activities of the securitization entity. The securitization entity is generally allowed to acquire the loans, to issue beneficial interests to investors to fund the acquisition of the loans, and to enter into derivatives or other yield maintenance contracts (e.g., coverage by monoline bond insurers) to hedge or mitigate certain risks related to the financial assets or beneficial interests of the entity. A servicer, who is generally us, is appointed pursuant to the underlying legal documents to service the assets the securitization entity holds and the beneficial interests it issues. Servicing functions include, but are not limited to, making certain payments of property taxes and insurance premiums, default and property maintenance payments, as well as advancing principal and interest payments before collecting them from individual borrowers. Our servicing responsibilities, which constitute continued involvement in the transferred financial assets, consist of primary servicing (i.e., servicing the underlying transferred financial assets) and/or master servicing (i.e., servicing the beneficial interests that result from the securitization transactions). Certain securitization entities also require the servicer to advance scheduled principal and interest payments due on the beneficial interests issued by the entity regardless of whether cash payments are received on the underlying transferred financial assets. Accordingly, we are required to provide these servicing advances when applicable. Refer to Note 1 and Note 12 for additional information regarding our servicing rights.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The GSEs provide a guarantee of the payment of principal and interest on the beneficial interests issued in securitizations. In private-label securitizations, cash flows from the assets initially transferred into the securitization entity represent the sole source for payment of distributions on the beneficial interests issued by the securitization entity and for payments to the parties that perform services for the securitization entity, such as the servicer or the trustee. In certain private-label securitization transactions, a liquidity facility may exist to provide temporary liquidity to the entity. The liquidity provider generally is reimbursed prior to other parties in subsequent distribution periods. Monoline insurance may also exist to cover certain shortfalls to certain investors in the beneficial interests issued by the securitization entity. As noted above, in certain private-label securitizations, the servicer is required to advance scheduled principal and interest payments due on the beneficial interests regardless of whether cash payments are received on the underlying transferred financial assets. The servicer is allowed to reimburse itself for these servicing advances. Additionally, certain private-label securitization transactions may allow for the acquisition of additional loans subsequent to the initial loan transfer. Principal collections on other loans and/or the issuance of new beneficial interests, such as variable funding notes, generally fund these loans; we are often contractually required to invest in these new interests.

We may retain beneficial interests in our private-label securitizations, which may represent a form of significant continuing economic interest. These retained interests include, but are not limited to, senior or subordinate mortgage- or asset-backed securities, interest-only strips, principal-only strips, and residuals. Certain of these retained interests provide credit enhancement to the trust as they may absorb credit losses or other cash shortfalls. Additionally, the securitization agreements may require cash flows to be directed away from certain of our retained interests due to specific over-collateralization requirements, which may or may not be performance-driven.

We generally hold certain conditional repurchase options that allow us to repurchase assets from the securitization entity. The majority of the securitizations provide us, as servicer, with a call option that allows us to repurchase the remaining transferred financial assets or outstanding beneficial interests at our discretion once the asset pool reaches a predefined level, which represents the point where servicing becomes burdensome (a clean-up call option). The repurchase price is typically the par amount of the loans plus accrued interest. Additionally, we may hold other conditional repurchase options that allow us to repurchase a transferred financial asset if certain events outside our control are met. The typical conditional repurchase option is a delinquent loan repurchase option that gives us the option to purchase the loan or contract if it exceeds a certain prespecified delinquency level. We generally have complete discretion regarding when or if we will exercise these options, but generally, we would do so only when it is in our best interest.

Other than our customary representation and warranty provisions, these securitizations are nonrecourse to us, thereby transferring the risk of future credit losses to the extent the beneficial interests in the securitization entities are held by third parties. Representation and warranty provisions generally require us to repurchase loans or indemnify the investor or other party for incurred losses to the extent it is determined that the loans were ineligible or were otherwise defective at the time of sale. Refer to Note 31 for detail on representation and warranty provisions. We did not provide any noncontractual financial support to any of these entities during 2011 or 2010.

Other Variable Interest Entities**Servicer Advance Funding Entity**

To assist in the financing of our servicer advance receivables, we formed an SPE that issues term notes to third-party investors that are collateralized by servicer advance receivables. These servicer advance receivables are transferred to the SPE and consist of delinquent principal and interest advances we made as servicer to

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

various investors; property taxes and insurance premiums advanced to taxing authorities and insurance companies on behalf of borrowers; and amounts advanced for mortgages in foreclosure. The SPE funds the purchase of the receivables through financing obtained from the third-party investors and subordinated loans or an equity contribution from our mortgage activities. This SPE is consolidated on our balance sheet at December 31, 2011 and 2010. The beneficial interest holder of this SPE does not have legal recourse to our general credit. We do not have a contractual obligation to provide any type of financial support in the future, nor have we provided noncontractual financial support to the entity during 2011 or 2010.

Other

In 2010, we sold a portfolio of resort finance backed receivables to a third party that financed the acquisition through an SPE. We provided seller financing for the purchase of these assets and also hold a contingent value right in the SPE, which were both recorded at fair value. We do not consolidate the SPE because we have no control over the activities of the SPE.

We have involvements with various other on-balance sheet, immaterial SPEs. Most of these SPEs are used for additional liquidity whereby we sell certain financial assets into the VIE and issue beneficial interests to third parties for cash.

We also provide long-term guarantee contracts and a line of credit to certain nonconsolidated affordable housing entities. Since we do not have control over the entities or the power to make decisions, we do not consolidate the entities and our involvement is limited to the guarantee and the line of credit.

Involvement with Variable Interest Entities

The determination of whether financial assets transferred by us to these VIEs (and related liabilities) are consolidated on our balance sheet (also referred to as on-balance sheet) or not consolidated on our balance sheet (also referred to as off-balance sheet) depends on the terms of the related transaction and our continuing involvement (if any) with the SPE. Subsequent to the adoption of ASU 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*, on January 1, 2010, we are deemed the primary beneficiary and therefore consolidate VIEs for which we have both (a) the power, through voting rights or similar rights, to direct the activities that most significantly impact the VIE's economic performance, and (b) a variable interest (or variable interests) that (i) obligates us to absorb losses that could potentially be significant to the VIE and/or (ii) provides us the right to receive residual returns of the VIE that could potentially be significant to the VIE. We determine whether we hold a significant variable interest in a VIE based on a consideration of both qualitative and quantitative factors regarding the nature, size, and form of our involvement with the VIE. We assess whether we are the primary beneficiary of a VIE on an ongoing basis.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Our involvement with consolidated and nonconsolidated VIEs in which we hold variable interests is presented below.

| December 31, (\$ in millions) | Consolidated involvement with VIEs | Assets of nonconsolidated VIEs (a) | Maximum exposure to loss in nonconsolidated VIEs |
|--|--|--|---|
| 2011 | | | |
| On-balance sheet variable interest entities | | | |
| Consumer automobile | \$ 26,504 | \$ | \$ |
| Consumer mortgage private-label | 1,098 | | |
| Commercial automobile | 19,594 | | |
| Other | 956 | | |
| Off-balance sheet variable interest entities | | | |
| Consumer mortgage Ginnie Mae | 2,652 (b) | 44,127 | 44,127 (c) |
| Consumer mortgage CMHC | 66(b) | 3,222 | 66(d) |
| Consumer mortgage private-label | 141(b) | 4,408 | 4,408 (c) |
| Consumer mortgage other | | (e) | 17(f) |
| Commercial other | 83(g) | (h) | 242 |
| Total | \$ 51,094 | \$ 51,757 | \$ 48,860 |
| 2010 | | | |
| On-balance sheet variable interest entities | | | |
| Consumer automobile | \$ 20,064 | \$ | \$ |
| Consumer mortgage private-label | 1,397 | | |
| Commercial automobile | 15,114 | | |
| Other | 1,035 | | |
| Off-balance sheet variable interest entities | | | |
| Consumer mortgage Ginnie Mae | 2,909 (b) | 43,595 | 43,595 (c) |
| Consumer mortgage CMHC | 124(b) | 4,222 | 124(d) |
| Consumer mortgage private-label | 183(b) | 5,371 | 5,371 (c) |
| Commercial other | 483(g) | (h) | 698 |
| Total | \$ 41,309 | \$ 53,188 | \$ 49,788 |

(a) Asset values represent the current unpaid principal balance of outstanding consumer finance receivables and loans within the VIEs.

(b) Includes \$2.4 billion and \$2.5 billion classified as mortgage loans held-for-sale, \$92 million and \$162 million classified as trading assets or other assets, and \$386 million and \$569 million classified as mortgage servicing rights at December 31, 2011, and December 31, 2010, respectively. CMHC is the Canada Mortgage and Housing Corporation.

(c) Maximum exposure to loss represents the current unpaid principal balance of outstanding loans based on our customary representation and warranty provisions. This measure is based on the unlikely event that all of the loans have underwriting defects or other defects that trigger

Edgar Filing: Ally Financial Inc. - Form S-1/A

a representation and warranty provision and the collateral supporting the loans are worthless. The maximum exposure above is not an indication of our expected loss.

- (d) Due to combination of the credit loss insurance on the mortgages and the guarantee by CMHC on the issued securities, the maximum exposure to loss would be limited to the amount of the retained interests.

F-62

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Additionally, the maximum loss would occur only in the event that CMHC dismisses us as servicer of the loans due to servicer performance or insolvency.

- (e) Includes a VIE for which we have no management oversight and therefore we are not able to provide the total assets of the VIE. However, in March 2011 we sold excess servicing rights valued at \$266 million to the VIE.
- (f) Our maximum exposure to loss in this VIE is a component of servicer advances made that are allocated to the trust. The maximum exposure to loss presented represents the unlikely event that every loan underlying the excess servicing rights sold defaults, and we, as servicer, are required to advance the entire excess service fee to the trust for the contractually established period. This required disclosure is not an indication of our expected loss.
- (g) Includes \$100 million and \$515 million classified as finance receivables and loans, net, and \$20 million and \$20 million classified as other assets, offset by \$37 million and \$52 million classified as accrued expenses and other liabilities at December 31, 2011, and December 31, 2010, respectively.
- (h) Includes VIEs for which we have no management oversight and therefore we are not able to provide the total assets of the VIEs. However, in 2010 we sold loans with an unpaid principal balance of \$1.5 billion into these VIEs.

On-balance Sheet Variable Interest Entities

We engage in securitization and other financing transactions that do not qualify for off-balance sheet treatment. In these situations, we hold beneficial interests or other interests in the VIE, which represent a form of significant continuing economic interest. The interests held include, but are not limited to, senior or subordinate mortgage- or asset-backed securities, interest-only strips, principal-only strips, residuals, and servicing rights. Certain of these retained interests provide credit enhancement to the securitization entity as they may absorb credit losses or other cash shortfalls. Additionally, the securitization documents may require cash flows to be directed away from certain of our retained interests due to specific over-collateralization requirements, which may or may not be performance-driven. Because these securitization entities are consolidated, these retained interests and servicing rights are not recognized as separate assets on our Consolidated Balance Sheet.

Subsequent to adoption of ASU 2009-17 as of January 1, 2010, we consolidated certain of these entities because we had a controlling financial interest in the VIE, primarily due to our servicing activities, and because we hold a significant variable interest in the VIE. Under ASC 810, *Consolidation*, as amended by ASU 2009-17, we are generally the primary beneficiary of automobile securitization entities, as well as certain mortgage private-label securitization entities for which we perform servicing activities and have retained a significant variable interest in the form of a beneficial interest. In cases where we did not meet sale accounting under previous guidance, unless we have made modifications to the overall transaction, we do not meet sale accounting under current guidance as we are not permitted to revisit sale accounting guidelines under the current guidance. In cases where substantive modifications are made, we then reassess the transaction under the amended guidance, based on the new circumstances.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The consolidated VIEs included in the table below represent separate entities with which we are involved. The third-party investors in the obligations of consolidated VIEs have legal recourse only to the assets of the VIEs and do not have such recourse to us, except for the customary representation and warranty provisions or when we are the counterparty to certain derivative transactions involving the VIE. In addition, the cash flows from the assets are restricted only to pay such liabilities. Thus, our economic exposure to loss from outstanding third-party financing related to consolidated VIEs is significantly less than the carrying value of the consolidated VIE assets. All assets are restricted for the benefit of the beneficial interest holders. Refer to Note 27 for discussion of the assets and liabilities for which the fair value option has been elected.

| December 31, (\$ in millions) | 2011 | 2010 |
|---|------------------|------------------|
| Assets | | |

Off-balance Sheet Variable Interest Entities

The nature, purpose, and activities of nonconsolidated securitization entities are similar to those of our consolidated securitization entities with the primary difference being the nature and extent of our continuing involvement. The cash flows from the assets of nonconsolidated securitization entities generally are the sole source of payment on the securitization entities' liabilities. The creditors of these securitization entities have no recourse to us with the exception of market customary representation and warranty provisions as described in Note 31.

Subsequent to the adoption of ASU 2009-17 as of January 1, 2010, nonconsolidated VIEs include entities for which we either do not hold significant variable interests or do not provide servicing or asset management functions for the financial assets held by the securitization entity. Additionally, to qualify for off-balance sheet treatment, transfers of financial assets must meet the sale accounting conditions in ASC 860, *Transfers and Servicing*. Our residential mortgage loan securitizations consist of GSEs and private-label securitizations. Under ASU 2009-17, we are not the primary beneficiary of any GSE loan securitization transaction because we do not have the power to direct the significant activities of such entities. Additionally, under ASU 2009-17, we do not consolidate certain private-label mortgage securitizations because we do not have a variable interest that could potentially be significant or we do not have power to direct the activities that most significantly impact the performance of the VIE.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

For nonconsolidated securitization entities, the transferred financial assets are removed from our balance sheet provided the conditions for sale accounting are met. The financial assets obtained from the securitization are primarily reported as cash, servicing rights, or retained interests (if applicable). Typically, we conclude that the fee we are paid for servicing consumer automobile finance receivables represents adequate compensation, and consequently, we do not recognize a servicing asset or liability. As an accounting policy election, we elected fair value treatment for our MSR portfolio. Liabilities incurred as part of these securitization transactions, such as representation and warranty provisions, are recorded at fair value at the time of sale and are reported as accrued expenses and other liabilities on our Consolidated Balance Sheet. Upon the sale of the loans, we recognize a gain or loss on sale for the difference between the assets recognized, the assets derecognized, and the liabilities recognized as part of the transaction.

The following summarizes all pretax gains and losses recognized on financial assets sold into nonconsolidated securitization and similar asset-backed financing entities.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|---|--------|----------|--------|
| Consumer mortgage GSEs | \$ 818 | \$ 1,065 | \$ 854 |
| Consumer mortgage private-label | | 17 | 21 |
| Commercial automobile | | | 110 |
| Total pretax gain | \$ 818 | \$ 1,082 | \$ 985 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following table summarizes cash flows received from and paid related to securitization entities, asset-backed financings, or other similar transfers of financial assets where the transfer is accounted for as a sale and we have a continuing involvement with the transferred assets (e.g., servicing) that were outstanding in 2011, 2010, and 2009. Cash flows presented below may not be comparable because 2009 includes cash flows related to securitization entities that are now consolidated. Additionally, the table contains information regarding cash flows received from and paid to nonconsolidated securitization entities that existed during each period.

| Year ended December 31, (<i>\$ in millions</i>) | Consumer automobile | Commercial automobile | Consumer mortgage GSEs | Consumer mortgage private-label |
|--|---------------------|-----------------------|------------------------|---------------------------------|
| 2011 | | | | |
| Cash proceeds from transfers completed during the year | \$ | \$ | \$ 59,815 | \$ 722 |
| Cash flows received on retained interests in securitization entities | | | | 68 |
| Servicing fees | | | 999 | 201 |
| Purchases of previously transferred financial assets | | | (2,537) | (222) (a) |
| Representations and warranties obligations | | | (143) | (38) |

| Representations and warranties obligations | | | (343) | (64) |
| Other cash flows | (64) | | (177) | (123) |

(a) Includes repurchases in connection with clean up call options.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following table represents on-balance sheet loans held-for-sale and finance receivable and loans, off-balance sheet securitizations, and whole-loan sales where we have continuing involvement. The table presents quantitative information about delinquencies and net credit losses. Refer to Note 12 for further detail on total serviced assets.

| December 31, (\$ in millions) | Total amount | | Amount 60 days or more past due | | Net credit losses | |
|--|-------------------|-------------------|------------------------------------|------------------|-------------------|------------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | 2010 |
| On-balance sheet loans | | | | | | |
| Consumer automobile | \$ 63,884 | \$ 51,254 | \$ 341 | \$ 373 | \$ 321 | \$ 613 |
| Consumer mortgage (a) | 18,940 | 23,174 | 3,242 | 3,437 | 181 | 173 (b) |
| Commercial automobile | 37,302 | 35,629 | 162 | 186 | 13 | 84 |
| Commercial mortgage | 1,925 | 1,660 | 14 | 110 | 31 | 91 |
| Commercial other | 1,261 | 2,107 | 1 | 20 | (5) | 227 |
| Total on-balance sheet loans | 123,312 | 113,824 | 3,760 | 4,126 | 541 | 1,188 |
| Off-balance sheet securitization entities | | | | | | |
| Consumer automobile | | | | | | 1 |
| Consumer mortgage GSEs (c) | 262,984 | 253,192 | 9,456 | 13,990 | n/m | n/m |
| Consumer mortgage private-label | 63,991 | 73,638 | 11,301 | 12,220 | 3,982 | 4,605 |
| Total off-balance sheet securitization entities | 326,975 | 326,830 | 20,757 | 26,210 | 3,982 | 4,606 |
| Whole-loan transactions (d) | 33,961 | 38,212 | 2,901 | 2,950 | 782 | 1,269 (b) |
| Total | \$ 484,248 | \$ 478,866 | \$ 27,418 | \$ 33,286 | \$ 5,305 | \$ 7,063 |

n/m = not meaningful

- (a) Includes loans subject to conditional repurchase options of \$2.3 billion and \$2.3 billion guaranteed by the GSEs, and \$132 million and \$146 million sold to certain private-label mortgage securitization entities at December 31, 2011 and 2010, respectively.
- (b) We identified an immaterial error in the amounts previously disclosed related to net credit losses for on-balance sheet consumer mortgage, and whole-loan transactions for the December 31, 2010 period. We corrected the net credit losses for these balances, resulting in a decrease of \$162 million for on-balance sheet consumer mortgage, and an increase of \$969 million for whole-loan transactions from the amounts previously presented. The change had no impact on our consolidated financial condition or results of operation.
- (c) Anticipated credit losses are not meaningful due to the GSE guarantees.

- (d) Whole-loan transactions are not part of a securitization transaction, but represent consumer automobile and consumer mortgage pools of loans sold to third-party investors.

Changes in Accounting for Variable Interest Entities

During 2009, we executed an amendment to a commercial automobile securitization entity that was previously considered as a QSPE and, therefore, was not consolidated. The amendment contractually required us to deposit additional cash into a collateral account held by the securitization entity. Management determined the amendment caused the entity to no longer be considered a QSPE, and therefore we consolidated the entity. We continued to consolidate this entity after adoption of ASU 2009-17.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

ASU 2009-17 became effective on January 1, 2010, and upon adoption, we consolidated certain securitization entities that were previously held off-balance sheet. On January 1, 2010, we recognized a net increase of \$17.6 billion to assets and liabilities on our Consolidated Balance Sheet (\$10.1 billion of the increase relates to operations classified as held-for-sale that were ultimately sold). Refer to Note 1 for further discussion of the requirements of ASC 860 and ASC 810, including changes to the accounting requirements related to transfers of financial assets and consolidation of VIEs.

We previously held on our Consolidated Balance Sheet certain mortgage securitization entities, which were on-balance sheet prior to the adoption of ASU 2009-17 because we did not meet the sale accounting requirements at the inception of the transactions. Specific provisions inherent in these deals, included but were not limited to, the ability of the trust to enter into a derivative contract and the inclusion of a loan repurchase right. The existence of the ability to enter into a derivative precluded the entities from being deemed a QSPE and the existence of the loan repurchase right precluded sale accounting treatment. These two provisions, when used in combination, were deemed substantive and precluded sale accounting. We also retained servicing and, in most cases, retained an economic interest in the entities in the form of economic residuals, subordinate bonds, and/or IO strips. During 2010, we completed the sale of 100% of our retained residuals and subordinate bonds related to certain of these on-balance sheet securitization entities. In addition, any repurchase rights associated with these structures were removed from these deals through exercise of such right. These collective actions were deemed to be substantial to warrant a re-characterization of the original transactions and, as such, they were reassessed under ASC 860 and it was concluded that the securitization entities satisfied sale accounting requirements. Furthermore, the sale of the 100% economic interests resulted in the loss of a controlling financial interest in the securitization entities and accordingly consolidation was not required. The combination of these actions resulted in the derecognition of assets previously sold to these securitization entities. Consolidated assets and consolidated liabilities of \$1.2 billion and \$1.2 billion, respectively, associated with this transaction were derecognized and a gain of \$51 million was recorded.

During 2010, we further completed the sale of our significant retained residuals and subordinate bonds related to certain other on-balance sheet securitization entities, which were consolidated upon adoption of ASU 2009-17 (but were not consolidated prior to the adoption of ASU 2009-17). Since we disposed of our variable interests in these securitization entities to unrelated third parties, a reassessment was required to determine whether we continued to hold a controlling financial interest. All subordinate retained economic interests in these entities were sold and therefore we no longer held a controlling financial interest. All assets and liabilities associated with the trust were derecognized and all retained interests in the entities, including insignificant retained senior interests and mortgage servicing rights, were recorded at their fair values at the date of deconsolidation. Consolidated assets and consolidated liabilities of \$709 million and \$707 million, respectively, associated with this transaction were derecognized and a gain of \$1 million was recorded.

We continue to hold servicing rights associated with these deconsolidation transactions, however retained servicing does not preclude deconsolidation because the retained servicing we hold does not absorb a potentially significant level of variability in the securitization entities. Upon completion of the sale, \$9 million of servicing rights and \$1 million of retained interests associated with this transaction were recorded.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****12. Servicing Activities****Mortgage Servicing Rights**

The following table summarizes activity related to MSRs, which are carried at fair value. Although there are no market transactions that are directly observable, management estimates fair value based on the price it believes would be received to sell the MSR asset in an orderly transaction under current market conditions.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|---|----------|----------|
| Estimated fair value at January 1, | \$ 3,738 | \$ 3,554 |
| Additions recognized on sale of mortgage loans | 622 | 1,006 |
| Additions from purchases of servicing rights | 31 | 56 |
| Subtractions from sales of servicing assets | (266) | (1) |
| Changes in fair value | | |
| Due to changes in valuation inputs or assumptions used in the valuation model | (1,041) | 23 |
| Other changes in fair value | (565) | (894) |
| Decrease due to change in accounting principle | | (19) |
| Other changes that affect the balance | | 13 |
| Estimated fair value at December 31, | \$ 2,519 | \$ 3,738 |

Changes in fair value due to changes in valuation inputs or assumptions used in the valuation model include all changes due to a revaluation by a model or by a benchmarking exercise. Other changes in fair value primarily include the accretion of the present value of the discount related to forecasted cash flows and the economic runoff of the portfolio. The decrease due to change in accounting principle reflects the effect of the initial adoption of ASU 2009-17.

The key economic assumptions and sensitivity of the fair value of MSRs to immediate 10% and 20% adverse changes in those assumptions were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|----------|----------|
| Weighted average life (<i>in years</i>) | 4.7 | 7.0 |
| Weighted average prepayment speed | 15.7% | 9.8% |
| Impact on fair value of 10% adverse change | \$ (135) | \$ (155) |
| Impact on fair value of 20% adverse change | (257) | (295) |
| Weighted average discount rate | 10.2% | 12.3% |
| Impact on fair value of 10% adverse change | \$ (59) | \$ (80) |
| Impact on fair value of 20% adverse change | (114) | (156) |

These sensitivities are hypothetical and should be considered with caution. Changes in fair value based on a 10% and 20% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumptions to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another (e.g., increased market interest rates may result in lower prepayments and increased credit losses) that could magnify or counteract the sensitivities. Further, these sensitivities show only the change in the asset balances and do not show any expected change in the fair value of the instruments used to manage the interest rates and prepayment risks associated with these assets.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Risk Mitigation Activities**

The primary risk of our servicing rights is interest rate risk and the resulting impact on prepayments. A significant decline in interest rates could lead to higher-than-expected prepayments that could reduce the value of the MSR. We economically hedge the impact of these risks with both derivative and nonderivative financial instruments. Refer to Note 24 for additional information regarding the derivative financial instruments used to economically hedge MSR.

The components of servicing valuation and hedge activities, net, were as follows.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|---|-----------------|-----------------|-------------------|
| Change in estimated fair value of mortgage servicing rights | \$ (1,606) | \$ (872) | \$ (106) |
| Change in fair value of derivative financial instruments | 817 | 478 | (998) |
| Servicing valuation and hedge activities, net | \$ (789) | \$ (394) | \$ (1,104) |

Mortgage Servicing Fees

The components of mortgage servicing fees were as follows.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|--|-----------------|-----------------|-----------------|
| Contractual servicing fees, net of guarantee fees and including subservicing | \$ 977 | \$ 998 | \$ 993 |
| Late fees | 65 | 77 | 75 |
| Ancillary fees | 156 | 187 | 162 |
| Total mortgage servicing fees | \$ 1,198 | \$ 1,262 | \$ 1,230 |

Mortgage Servicing Advances

In connection with our primary servicing activities (i.e., servicing of mortgage loans), we make certain payments for property taxes and insurance premiums, default and property maintenance payments, as well as advances of principal and interest payments before collecting them from individual borrowers. Servicing advances, including contractual interest, are priority cash flows in the event of a loan principal reduction or foreclosure and ultimate liquidation of the real estate-owned property, thus making their collection reasonably assured. These servicing advances are included in other assets on the Consolidated Balance Sheet and totaled \$1.9 billion and \$1.9 billion at December 31, 2011 and 2010, respectively. We maintain an allowance for uncollected primary servicing advances of \$43 million and \$25 million at December 31, 2011 and 2010, respectively. Our potential obligation is influenced by the loan's performance and credit quality. Additionally, we have a fiduciary responsibility for mortgage escrow and custodial funds that totaled \$4.4 billion and \$4.2 billion at December 31, 2011 and 2010, respectively. A portion of these balances are included in deposit liabilities on our Consolidated Balance Sheet. Refer to Note 15 for additional information.

When we act as a subservicer of mortgage loans we perform the responsibilities of a primary servicer but do not own the corresponding primary servicing rights. We receive a fee from the primary servicer for such services. As the subservicer, we would have the same responsibilities of a primary servicer in that we would make certain payments of property taxes and insurance premiums, default and property maintenance, as well as advances of principal and interest payments before collecting them from individual borrowers. At December 31, 2011 and 2010, outstanding servicer advances related to subserviced loans were \$125 million and \$140 million, respectively, and we had a reserve for uncollected subservicer advances of \$1.1 million and \$1.0 million, respectively.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

At December 31, 2011 and 2010, we were the master servicer (i.e., servicer of beneficial interests issued by mortgage securitization entities) for 467,722 and 528,249 loans, respectively, having an aggregate unpaid principal balance of \$61.4 billion and \$72.6 billion, respectively. In many cases, where we act as master servicer, we also act as primary servicer. In connection with our master-servicing activities, we service the mortgage-backed and mortgage-related asset-backed securities and whole-loan packages sold to investors. As the master servicer, we collect mortgage loan payments from primary servicers and distribute those funds to investors in the mortgage-backed and mortgage-related asset-backed securities and whole-loan packages. As the master servicer, we are required to advance scheduled payments to the securitization trust or whole-loan investors. To the extent the primary servicer does not advance the payments, we are responsible for advancing the payment to the trust or whole-loan investors. Master-servicing advances, including contractual interest, are priority cash flows in the event of a default, thus making their collection reasonably assured. In most cases, we are required to advance these payments to the point of liquidation of the loan or reimbursement of the trust or whole-loan investors. We had outstanding master-servicing advances of \$158 million and \$90 million at December 31, 2011 and 2010, respectively. We had no reserve for uncollected master-servicing advances at December 31, 2011 or 2010.

Serviced Mortgage Assets

Our total serviced mortgage assets consist of primary, master and subservicing activities as follows.

Loans owned by us and we are the primary servicer. These loans are categorized as loans held-for-sale or consumer finance receivables and loans. Included in consumer finance receivables and loans are on-balance sheet securitization entities. Our loans held-for-sale and consumer finance receivable and loan portfolios are discussed in further detail in Note 8 and Note 9, respectively.

Loans sold to third-party investors where we have retained primary servicing. The loans sold to a third-party investor were sold through an off-balance sheet securitization entity or a whole-loan transaction.

Loans that have never been and currently are not owned by us but the primary servicing rights have been purchased. In the case of purchased servicing rights, there is no recourse to us outside of customary contractual provisions relating to the execution of the services we provide.

Loans that have never been and currently are not owned by us but for which we act as subservicer under contractual agreements with the primary servicer. In these cases, loans are not recorded on our Consolidated Balance Sheet. In the case of subservicing rights, there is no recourse to us outside of customary contractual provisions relating to the execution of the services we provide.

In many cases we act as both the primary and master servicer. However, in certain cases, we also service loans that have been purchased and subsequently sold through a securitization trust or whole-loan sale whereby the originator retained the primary servicing rights and we retained the master-servicing rights.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The unpaid principal balance of our serviced mortgage assets were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|-------------------|-------------------|
| On-balance sheet mortgage loans | | |
| Held-for-sale and investment | \$ 18,871 | \$ 20,224 |
| Operations held-for-sale | 541 | |
| Off-balance sheet mortgage loans | | |
| Loans sold to third-party investors | | |
| Private-label | 50,886 | 63,685 |
| GSEs | 262,868 | 255,388 |
| Whole-loan | 15,105 | 17,524 |
| Purchased servicing rights | 3,247 | 3,946 |
| Operations held-for-sale | 4,912 | |
| Total primary serviced mortgage loans | 356,430 | 360,767 |
| Subserviced mortgage loans | 26,358 | 24,173 |
| Subserviced operations held-for-sale | 4 | |
| Total subserviced mortgage loans | 26,362 | 24,173 |
| Master-servicing-only mortgage loans | 8,557 | 10,548 |
| Total serviced mortgage loans | \$ 391,349 | \$ 395,488 |

Our Mortgage operations that conduct primary and master-servicing activities are required to maintain certain servicer ratings in accordance with master agreements entered into with GSEs. At December 31, 2011, our Mortgage operations were in compliance with the servicer-rating requirements of the master agreements.

At December 31, 2011, domestic insured private-label securitizations with an unpaid principal balance of \$6.0 billion entitles the monoline or other provider of contractual credit support (surety providers) to declare a servicer default and terminate the servicer upon the failure of the loans to meet certain portfolio delinquency and/or cumulative loss thresholds. Securitizations with an unpaid principal balance of \$5.4 billion had breached a delinquency and/or cumulative loss threshold. We continue to receive service fee income with respect to these securitizations. Securitizations with an unpaid principal balance of \$607 million have not yet breached a delinquency or cumulative loss threshold. The value of the related MSR is \$3 million at December 31, 2011. Refer to Note 31 for additional information.

Automobile Servicing Activities

We service consumer automobile contracts. Historically, we have sold a portion of the consumer automobile contracts that we originated. With respect to contracts we sell, we retain the right to service and earn a servicing fee for our servicing function. Typically, we conclude that the fee we are paid for servicing consumer automobile finance receivables represents adequate compensation, and consequently, we do not recognize a servicing asset or liability. We recognized automobile servicing fee income of \$160 million, \$231 million, and \$237 million during the years ended December 31, 2011, 2010, and 2009, respectively.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Automobile Serviced Assets**

The total serviced automobile loans outstanding were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|------------|------------|
| On-balance sheet automobile loans and leases | | |
| Consumer automobile | \$ 63,884 | \$ 51,254 |
| Commercial automobile | 37,302 | 35,629 |
| Operating leases | 9,275 | 9,128 |
| Operations held-for-sale | 102 | 242 |
| Off-balance sheet automobile loans | | |
| Loans sold to third-party investors | | |
| Whole-loan | 12,318 | 18,126 |
| Total serviced automobile loans and leases | \$ 122,881 | \$ 114,379 |

13. Premiums Receivable and Other Insurance Assets

Premiums receivable and other insurance assets consisted of the following.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|----------|----------|
| Prepaid reinsurance premiums | \$ 218 | \$ 249 |
| Reinsurance recoverable on unpaid losses | 321 | 487 |
| Reinsurance recoverable on paid losses | 54 | 54 |
| Premiums receivable | 288 | 341 |
| Deferred policy acquisition costs | 972 | 1,050 |
| Total premiums receivable and other insurance assets | \$ 1,853 | \$ 2,181 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****14. Other Assets**

The components of other assets were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|---|------------------|------------------|
| Property and equipment at cost | \$ 1,152 | \$ 1,315 |
| Accumulated depreciation | (787) | (939) |
| Net property and equipment | 365 | 376 |
| Fair value of derivative contracts in receivable position | 5,687 | 3,966 |
| Servicer advances | 2,142 | 2,137 |
| Restricted cash collections for securitization trusts (a) | 1,596 | 1,705 |
| Collateral placed with counterparties | 1,448 | 1,569 |
| Restricted cash and cash equivalents | 1,381 | 1,323 |
| Other accounts receivable | 1,110 | 641 |
| Cash reserve deposits held-for-securitization trusts (b) | 838 | 1,168 |
| Debt issuance costs | 612 | 704 |
| Prepaid expenses and deposits | 568 | 638 |
| Goodwill | 518 | 525 |
| Nonmarketable equity securities | 419 | 504 |
| Real estate and other investments | 385 | 280 |
| Accrued interest and rent receivable | 232 | 238 |
| Interests retained in financial asset sales | 231 | 568 |
| Repossessed and foreclosed assets | 141 | 211 |
| Investment in used vehicles held-for-sale | 76 | 386 |
| Other assets | 992 | 625 |
| Total other assets | \$ 18,741 | \$ 17,564 |

(a) Represents cash collection from customer payments on securitized receivables. These funds are distributed to investors as payments on the related secured debt.

(b) Represents credit enhancement in the form of cash reserves for various securitization transactions we have executed.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The changes in the carrying amounts of goodwill for the periods shown were as follows.

| <i>(\$ in millions)</i> | International Automotive Finance operations | Insurance operations | Total |
|---|--|---------------------------------|--------------|
| Goodwill acquired prior to December 31, 2009 | \$ 490 | \$ 909 | \$ 1,399 |
| Accumulated impairment losses (a) | | (649)(b) | (649) |
| Sale of reporting unit | | (107) | (107) |
| Transfer of assets of discontinued operations held-for-sale | (22) | (108) | (130) |
| Foreign-currency translation | 1 | 12 | 13 |
| Goodwill at December 31, 2009 | \$ 469 | \$ 57 | \$ 526 |
| Transfer of assets of discontinued operations held-for-sale | (1) | (1) | (2) |
| Foreign-currency translation | | 1 | 1 |
| Goodwill at December 31, 2010 | \$ 468 | \$ 57 | \$ 525 |
| Transfer of assets of discontinued operations held-for-sale | | (4) | (4) |
| Foreign-currency translation | | (3) | (3) |
| Goodwill at December 31, 2011 | \$ 468 | \$ 50 | \$ 518 |

- (a) The impairment losses of our Insurance operations were reported as loss from discontinued operations, net of tax, in the Consolidated Statement of Income. All other impairment losses were reported as other operating expenses in the Consolidated Statement of Income.
- (b) During the three months ended June 30, 2009, our Insurance operations initiated an evaluation of goodwill for potential impairment, which was in addition to our annual impairment evaluation. These tests were initiated in light of a more-than-likely expectation that a reporting unit or a significant portion of a reporting unit would be sold. The fair value was determined using an offer provided by a willing purchaser. Based on the preliminary results of the assessments, our Insurance operations concluded that the carrying value of the reporting unit exceeded the fair value resulting in an impairment loss during 2009.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****15. Deposit Liabilities**

Deposit liabilities consisted of the following.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|------------------|------------------|
| Domestic deposits | | |
| Noninterest-bearing deposits | \$ 2,029 | \$ 2,108 |
| Interest-bearing deposits | | |
| Savings and money market checking accounts | 9,035 | 8,081 |
| Certificates of deposit | 28,540 | 23,728 |
| Dealer deposits | 1,769 | 1,459 |
| Total domestic deposit liabilities | 41,373 | 35,376 |
| Foreign deposits | | |
| Noninterest-bearing deposits | | 23 |
| Interest-bearing deposits | | |
| Savings and money market checking accounts | 1,408 | 961 |
| Certificates of deposit | 1,958 | 2,390 |
| Dealer deposits | 311 | 298 |
| Total foreign deposit liabilities | 3,677 | 3,672 |
| Total deposit liabilities | \$ 45,050 | \$ 39,048 |

Noninterest-bearing deposits primarily represent third-party escrows associated with our mortgage loan-servicing portfolio. The escrow deposits are not subject to an executed agreement and can be withdrawn without penalty at any time. At December 31, 2011 and 2010, certificates of deposit included \$10.0 billion and \$7.0 billion, respectively, of domestic certificates of deposit in denominations of \$100 thousand or more.

The following table presents the scheduled maturity of total certificates of deposit.

| Year ended December 31, (<i>\$ in millions</i>) | |
|---|------------------|
| 2012 | \$ 15,571 |
| 2013 | 6,702 |
| 2014 | 2,113 |
| 2015 | 3,737 |
| 2016 | 2,375 |
| Total certificates of deposit | \$ 30,498 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****16. Short-term Borrowings**

The following table presents the composition of our short-term borrowings portfolio.

| December 31, (\$ in millions) | 2011 | | | 2010 | | |
|------------------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| | Unsecured | Secured | Total | Unsecured | Secured | Total |
| Demand notes | \$ 2,756 | \$ | \$ 2,756 | \$ 2,033 | \$ | \$ 2,033 |
| Bank loans and overdrafts | 1,613 | | 1,613 | 1,970 | | 1,970 |
| Federal Home Loan Bank | | 1,400 | 1,400 | | 1,300 | 1,300 |
| Other (a) | 146 | 1,765 | 1,911 | 224 | 1,981 | 2,205 |
| Total short-term borrowings | \$ 4,515 | \$ 3,165 | \$ 7,680 | \$ 4,227 | \$ 3,281 | \$ 7,508 |
| Weighted average interest rate (b) | | | 3.6% | | | 3.5% |

(a) Other primarily includes nonbank secured borrowings at our Mortgage and International Automotive Finance operations.

(b) Based on the debt outstanding and the interest rate at December 31 of each year.

17. Long-term Debt

The following tables present the composition of our long-term debt portfolio.

| December 31, (\$ in millions) | Amount | Interest rate | Weighted average interest rate (a) | Due date range |
|------------------------------------|---------------|--------------------|------------------------------------|------------------|
| 2011 | | | | |
| Senior debt | | | | |
| Fixed rate (b) | \$ 39,657 | | | |
| Variable rate | 3,393 | | | |
| Total senior debt (c) | 43,050 | 0.00 16.68% | 6.15% | 2012 2049 |

F-79

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

To achieve the desired balance between fixed- and variable-rate debt, we utilize interest rate swap agreements. The use of these derivative financial instruments had the effect of synthetically converting \$14.1 billion of our fixed-rate debt into variable-rate obligations and \$13.5 billion of our variable-rate debt into fixed-rate obligations at December 31, 2011. In addition, certain of our debt obligations are denominated in currencies other than the currency of the issuing country. Foreign-currency swap agreements are used to hedge exposure to changes in the exchange rates of obligations.

The following summarizes assets restricted as collateral for secured borrowing arrangements, which primarily arise from securitization transactions accounted for as secured borrowings and repurchase agreements.

| December 31, (\$ in millions) | 2011 | | 2010 | |
|---|-----------|---------------|-----------|---------------|
| | Total | Ally Bank (a) | Total | Ally Bank (a) |
| Trading assets | \$ 27 | \$ | \$ 36 | \$ |
| Loans held-for-sale | 805 | | 1,035 | |
| Mortgage assets held-for-investment and lending receivables | 12,197 | 11,188 | 12,451 | 11,137 |
| Consumer automobile finance receivables | 33,888 | 17,320 | 27,164 | 14,927 |
| Commercial automobile finance receivables | 20,355 | 14,881 | 19,741 | 15,034 |
| Investment securities | 780 | 780 | 2,191 | 2,190 |
| Investment in operating leases, net | 4,555 | 431 | 3,199 | |
| Mortgage servicing rights | 1,920 | 1,286 | 2,801 | 1,746 |
| Other assets | 3,973 | 1,816 | 3,990 | 1,700 |
| Total assets restricted as collateral (b) | \$ 78,500 | \$ 47,702 | \$ 72,608 | \$ 46,734 |
| Secured debt (c) | \$ 52,965 | \$ 25,533 | \$ 42,392 | \$ 20,199 |

(a) Ally Bank is a component of the total column.

(b) Ally Bank has an advance agreement with the Federal Home Loan Bank of Pittsburgh (FHLB) and access to the Federal Reserve Bank Discount Window. Ally Bank had assets pledged and restricted as collateral to the FHLB and Federal Reserve Bank totaling \$11.8 billion and \$15.2 billion at December 31, 2011 and 2010, respectively. These assets were composed of consumer and commercial mortgage finance receivables and loans, net, consumer automobile finance receivables and loans, net, and investment securities. Under the agreement with the FHLB, Ally Bank also had assets pledged as collateral under a blanket lien totaling \$7.3 billion and \$5.3 billion at December 31, 2011 and 2010, respectively. These assets were primarily composed of mortgage servicing rights, consumer automobile finance receivables and loans, net, and other assets. Availability under these programs is generally only for the operations of Ally Bank and cannot be used to fund the operations or liabilities of Ally or its subsidiaries.

(c) Includes \$3,165 million and \$3,281 million of short-term borrowings at December 31, 2011 and 2010, respectively.

Trust Preferred Securities

On December 30, 2009, we entered into a Securities Purchase and Exchange Agreement with U.S. Department of Treasury (Treasury) and GMAC Capital Trust I, a Delaware statutory trust (the Trust), which is a finance subsidiary that is wholly owned by Ally. As part of the agreement, the Trust sold to Treasury 2,540,000 trust preferred securities (TRUPS) issued by the Trust with an aggregate liquidation preference of \$2.5 billion. Additionally, we issued and sold to Treasury a ten-year warrant to purchase up to 127,000 additional TRUPS with an aggregate

Edgar Filing: Ally Financial Inc. - Form S-1/A

liquidation preference of \$127 million, at an initial exercise price of \$0.01 per security, which Treasury immediately exercised in full.

F-80

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

On March 1, 2011, the Declaration of Trust and certain other documents related to the TRUPS were amended and all the outstanding TRUPS held by Treasury were designated 8.125% Fixed Rate / Floating Rate Trust Preferred Securities, Series 2 (Series 2 TRUPS). On March 7, 2011, Treasury sold 100% of the Series 2 TRUPS in an offering registered with the SEC. Ally did not receive any proceeds from the sale.

Each Series 2 TRUPS security has a liquidation amount of \$25. Distributions are cumulative and are payable until redemption at the applicable coupon rate. Distributions are payable at an annual rate of 8.125% payable quarterly in arrears, beginning August 15, 2011, to but excluding February 15, 2016. From and including February 15, 2016, to but excluding February 15, 2040, distributions will be payable at an annual rate equal to three-month London interbank offer rate plus 5.785% payable quarterly in arrears, beginning May 15, 2016. Ally has the right to defer payments of interest for a period not exceeding 20 consecutive quarters. The Series 2 TRUPS have no stated maturity date, but must be redeemed upon the redemption or maturity of the related debentures (Debentures), which mature on February 15, 2040. The Series 2 TRUPS are generally nonvoting, other than with respect to certain limited matters. During any period in which any Series 2 TRUPS remain outstanding but in which distributions on the Series 2 TRUPS have not been fully paid, none of Ally or its subsidiaries will be permitted to (i) declare or pay dividends on, make any distributions with respect to, or redeem, purchase, acquire or otherwise make a liquidation payment with respect to, any of Ally's capital stock or make any guarantee payment with respect thereto; or (ii) make any payments of principal, interest, or premium on, or repay, repurchase or redeem, any debt securities or guarantees that rank on a parity with or junior in interest to the Debentures with certain specified exceptions in each case.

Covenants and Other Requirements

ResCap, our separate mortgage subsidiary, is required to maintain consolidated tangible net worth of at least \$250 million at the end of each month under the terms of certain of its credit facilities. For this purpose, consolidated tangible net worth is defined as ResCap's consolidated equity, excluding intangible assets. At December 31, 2011, ResCap's consolidated tangible net worth was temporarily reduced to below \$250 million resulting in a covenant breach in certain of ResCap's credit facilities. ResCap subsequently received waivers from all applicable lenders with respect to this covenant breach. Refer to Note 1, Residential Capital, LLC, for additional information.

In secured funding transactions, there are trigger events that could cause the debt to be prepaid at an accelerated rate or could cause our usage of the credit facility to be discontinued. The triggers are generally based on the financial health and performance of the servicer as well as performance criteria for the pool of receivables, such as delinquency ratios, loss ratios, commercial payment rates. During 2011, there were no trigger events that resulted in the repayment of debt at an accelerated rate or impacted the usage of our credit facilities.

When we issue debt securities in private offerings we are generally subject to registration rights agreements. Under these agreements, we agree to use reasonable efforts to cause the consummation of a registered exchange offer or to file a shelf registration statement within a prescribed period. In the event that we fail to meet these obligations, we may be required to pay additional penalty interest with respect to the covered debt during the period in which we fail to meet our contractual obligations.

Funding Facilities

We utilize both committed and uncommitted credit facilities. The financial institutions providing the uncommitted facilities are not legally obligated to advance funds under them. The amounts outstanding under our various funding facilities are included on our Consolidated Balance Sheet.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The total capacity in our committed funding facilities is provided by banks and other financial institutions through private transactions. The committed secured funding facilities can be revolving in nature and allow for additional funding during the commitment period, or they can be amortizing and not allow for any further funding after the closing date. At December 31, 2011, \$32.0 billion of our \$43.1 billion of committed capacity was revolving. Our revolving facilities generally have an original tenor ranging from 364 days to two years. As of December 31, 2011, we had \$16.5 billion of committed funding capacity from revolving facilities with a remaining tenor greater than 364 days.

Committed Funding Facilities

| December 31, (\$ in billions) | Outstanding | | Unused capacity (a) | | Total capacity | |
|-----------------------------------|----------------|----------------|---------------------|----------------|----------------|----------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | 2010 |
| Bank funding | | | | | | |
| Secured | \$ 5.8 | \$ 6.4 | \$ 3.7 | \$ 1.9 | \$ 9.5 | \$ 8.3 |
| Nonbank funding | | | | | | |

| Mortgage operations | 0.7 | 1.0 | 0.5 | 0.6 | 1.2 | 1.6 |
| Total nonbank funding | 15.3 | 10.1 | 14.2 | 9.7 | 29.5 | 19.8 |
| Shared capacity (c) | 1.6 | 0.2 | 2.5 | 3.9 | 4.1 | 4.1 |
| Total committed facilities | \$ 22.7 | \$ 16.7 | \$ 20.4 | \$ 15.5 | \$ 43.1 | \$ 32.2 |

(a) Funding from committed secured facilities is available on request in the event excess collateral resides in certain facilities or is available to the extent incremental collateral is available and contributed to the facilities.

(b) Total unused capacity includes \$4.9 billion as of December 31, 2011, and \$1.2 billion as of December 31, 2010, from committed funding arrangements that are reliant upon the origination of future automotive receivables and that are available in 2012 and 2013.

(c) Funding is generally available for assets originated by Ally Bank or the parent company, Ally Financial Inc.

| Reinsurance recoverables | 321 | 487 | 670 |
| Balance at end of year | \$ 580 | \$ 862 | \$ 1,215 |

F-83

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

- (a) Represents the fair value of reserves of discontinued operations held-for-sale at the beginning of the year.
- (b) On November 30, 2010, we entered into a loss portfolio transfer that ceded our losses and loss adjustment expenses related to business underwritten by our international reinsurance agency, which was sold on the same date. The loss portfolio transfer was accounted for as retroactive reinsurance. Retroactive reinsurance balances result from reinsurance placed to cover losses on insured events occurring prior to the inception of a reinsurance contract.
- (c) During 2011, we completed the sale of our U.K. consumer property and casualty insurance business. During 2010 and 2009, we completed sales related to our U.S. consumer property and casualty insurance business.
- (d) Incurred losses and loss adjustment expenses from continuing operations were adjusted as a result of changes in prior year reserve estimates for certain assumed reinsurance coverages, international private passenger automobile coverages, or dealer-related products.
- (e) Incurred losses and loss adjustment expenses from discontinued operations were adjusted as a result of changes in prior year reserve estimates for certain private passenger automobile coverages.
- (f) Reclassification is net of reinsurance recoveries.

19. Accrued Expenses and Other Liabilities

The components of accrued expenses and other liabilities were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|---|-----------|-----------|
| Fair value of derivative contracts in payable position | \$ 5,367 | \$ 3,860 |
| Loan repurchase liabilities | 2,387 | 2,500 |
| Collateral received from counterparties | 1,410 | 916 |
| Accounts payable | 1,178 | 1,267 |
| Reserve for mortgage representation and warranty obligation | 825 | 830 |
| Employee compensation and benefits | 649 | 591 |
| Non-income tax payable | 296 | 339 |
| GM payable, net | 228 | 202 |
| Regulatory penalties imposed in foreclosure related matters | 223 | |
| Current income tax payable | 200 | 308 |
| Deferred income tax liability | 111 | |
| Securitization trustee payable | 87 | 179 |
| Deferred revenue | 86 | 85 |
| Reinsurance payable | 79 | 91 |
| Other liabilities | 958 | 958 |
| Total accrued expenses and other liabilities | \$ 14,084 | \$ 12,126 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****20. Equity****Common Stock**

Our common stock has a par value of \$0.01 and there are 2,021,384 shares authorized for issuance. Our common stock is not registered with the Securities and Exchange Commission, and there is no established trading market for the shares. Treasury holds 73.78% of Ally common stock. The following table presents changes in the number of shares issued and outstanding.

| (in shares) | 2011 | 2010 | 2009 |
|--|-----------|-----------|---------|
| Common stock / members interest (a) | | | |
| January 1, | 1,330,970 | 799,120 | 269,960 |
| New issuances | | | |
| Conversion of Series F-2 Preferred Stock (b) | | 531,850 | |
| Common equity investments (c) | | | 269,960 |
| Conversion of Series F Preferred Stock (d) | | | 259,200 |
| December 31, | 1,330,970 | 1,330,970 | 799,120 |

- (a) On June 30, 2009, our members' interests became common stock due to our conversion from a limited liability company to a corporation. As a result, each unit of each class of common and preferred membership interests issued and outstanding was converted into shares of capital stock with substantially the same rights and preferences as such membership interests. Refer to Note 25 for additional information regarding the tax impact of the conversion.
- (b) On December 30, 2010, 110,000,000 shares of Series F-2 Preferred Stock owned by Treasury were converted into 531,850 shares of Ally common stock.
- (c) On January 16, 2009, we completed a rights offering for \$1.3 billion of common equity from existing Ally common shareholders.
- (d) On December 30, 2009, 60,000,000 shares of Series F Preferred Stock, all of which were owned by Treasury, were converted into 259,200 shares of Ally common stock.

Mandatorily Convertible Preferred Stock held by Treasury**Series F-2 Preferred Stock**

On December 30, 2009, Ally entered into a Securities Purchase and Exchange Agreement (the Purchase Agreement) with Treasury, pursuant to which a series of transactions occurred resulting in Treasury acquiring 228,750,000 shares of Ally's newly issued Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 (the New MCP), with a total liquidation preference of \$11.4 billion. On December 30, 2010, Treasury converted 110,000,000 shares of the New MCP into 531,850 shares of Ally common stock. The conversion occurred at an agreed upon rate that exceeded the initial conversion rate as defined in Exhibit H to the Ally Certificate of Incorporation. The fair value of the additional shares was approximately \$586 million and represented an inducement. The fair value of the additional common shares issued to Treasury was determined using a combination of valuation techniques consistent with the market approach (Level 3 fair value inputs). The market approach we used to estimate the fair value of our common stock incorporated a combination of the tangible equity and earnings multiples from comparable publicly traded companies deemed similar to Ally (and its operating segments) and by observing comparable transactions in the marketplace. We also considered the implied valuation of our common stock based on the December 30, 2010, conversion

with Treasury.

F-85

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

In connection with the conversion, the New MCP Certificate of Designation was amended to require us to deliver additional shares to the New MCP holders upon occurrence of certain specified events. The fair value associated with this provision was \$30 million and was reflected in the New MCP balance at December 31, 2010. The fair value of the provision was determined utilizing an option pricing model using inputs and assumptions that management believes a willing market participant would use in estimating fair value (a Level 3 fair value input).

As a result, Treasury now holds 118,750,000 shares of the New MCP, with a total liquidation preference of \$5.9 billion. Dividends of the New MCP accrue at 9% per annum. Dividends are payable quarterly, in arrears, only if and when declared by Ally's Board of Directors. The New MCP generally is nonvoting, other than class-voting on certain matters under certain circumstances, including generally, the authorization of senior capital stock, the adverse amendment of the New MCP, and any exchange or reclassification involving the New MCP or merger or consolidation of Ally. Upon conversion of the New MCP into Ally common stock, the holder would have the voting rights associated with the common stock.

The shares of the New MCP are convertible into common stock at the applicable conversion rate (as provided in the Certificate of Designation) either: (i) at Ally's option, at any time or from time to time, with the prior approval of the Federal Reserve provided that Ally is not permitted to convert any shares of the New MCP held by Treasury except (a) with the prior written consent of Treasury (which consent may be granted in the sole discretion of Treasury with respect to each conversion considering such factors as it deems appropriate at such time, which may include seeking to condition the terms on which it may provide such consent, which may include seeking an alteration of the conversion rate) or (b) pursuant to an order of the Federal Reserve compelling such a conversion; or (ii) at the option of the holder, upon the occurrence of certain specified transactions. All shares of the New MCP that remain outstanding on December 30, 2016, will automatically convert into common stock at a conversion rate of 0.00432 common shares per share of the New MCP. Under any conversion of the New MCP, settlement will always occur by issuance of our common stock.

Subject to the approval of the Federal Reserve and the restrictions imposed by the terms of our other preferred stock, we may opt to redeem, in whole or in part, from time to time, the New MCP then outstanding at any time. On or before December 30, 2011, the New MCP may be redeemed at the liquidation preference, plus any accrued and unpaid dividends. After December 30, 2011, the New MCP may be redeemed at the greater of the liquidation preference, plus any accrued and unpaid dividends or the as-converted value, as defined in the Certificate of Designation.

Subject to certain exceptions, for so long as any shares of the New MCP are outstanding and owned by Treasury, Ally is generally prohibited from paying certain dividends or distributions on, or redeeming, repurchasing, or acquiring its capital stock or other equity securities without the consent of Treasury. Additionally, Ally is generally prohibited from making any dividends or distributions on, or redeeming, repurchasing, or acquiring its capital stock or other equity securities unless all accrued and unpaid dividends for all past dividend periods on the New MCP are fully paid.

The following table summarizes information about the New MCP.

| December 31, | 2011 | 2010 |
|---|---------------|-------------|

| Dividend/coupon | Fixed 7% | |
| Redemption/call feature | Perpetual (d) | |

(a) Refer to the next section of this note for a description of an amendment to the Series A preferred stock that occurred on March 25, 2011.

(b) Nonredeemable prior to May 15, 2016.

(c) Pursuant to a registration rights agreement, we are required to maintain an effective shelf registration statement. In the event we fail to meet this obligation, we may be required to pay additional interest to the holders of the Series G Preferred Stock.

(d) Redeemable beginning at December 31, 2011.

Series A Preferred Stock

Edgar Filing: Ally Financial Inc. - Form S-1/A

On March 1, 2011, pursuant to a registration rights agreement between Ally and GM, GM notified Ally of its intent to sell shares of Ally's existing Fixed Rate Perpetual Preferred Stock, Series A (Existing Series A Preferred Stock), held by a subsidiary of GM. On March 25, 2011, Ally filed a Certificate of Amendment of Amended and Restated Certificate of Incorporation (the Amendment) with the Secretary of State of the State of Delaware. Pursuant to the Amendment, Ally's Certificate of Incorporation, which included the terms of the Existing Series A Preferred Stock, was amended to modify certain terms of the Existing Series A Preferred Stock. As part of the Amendment, the Existing Series A Preferred Stock was redesignated as Ally's Fixed Rate / Floating Rate Perpetual Preferred Stock, Series A (the Amended Series A Preferred Stock) and the liquidation

F-87

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

amount was reduced from \$1,000 per share to \$25 per share. The Amendment, and a corresponding amendment to Ally's bylaws, also increased the authorized number of shares of Amended Series A Preferred Stock to 160,870,560 shares, which was adjusted to account for the decreased liquidation amount per share. The total number of shares outstanding following the Amendment is 40,870,560 shares.

Immediately following the Amendment, the subsidiary of GM that held all of the outstanding Amended Series A Preferred Stock sold 100% of such stock in an offering registered with the SEC. Ally did not receive any proceeds from the sale.

Holders of the Amended Series A Preferred Stock are entitled to receive, when, and if declared by Ally, noncumulative cash dividends. Beginning March 25, 2011, to but excluding May 15, 2016, dividends accrue at a fixed rate of 8.500% per annum. Beginning on May 15, 2016, dividends will accrue at a rate equal to three-month London interbank offer rate (LIBOR) plus 6.243%, commencing on August 15, 2016, in each case on the 15th day of February, May, August, and November. Dividends will be payable to holders of record at the close of business on the preceding February 1, May 1, August 1, or November 1, as the case may be, or on such other date, not more than seventy calendar days prior to the dividend payment date, as will be fixed by the Ally Board of Directors. In the event that dividends with respect to a dividend period have not been paid in full on the dividend payment date, we will be prohibited, subject to certain specified exceptions, from (i) redeeming, purchasing or otherwise acquiring, any stock that ranks on a parity basis with, or junior in interest to, the Amended Series A Preferred Stock; (ii) paying any dividends or making any distributions with respect to any stock that ranks junior in interest to the Amended Series A Preferred Stock, until such time as Ally has paid the dividends payable on shares of the Amended Series A Preferred Stock with respect to a subsequent dividend period; and (iii) declaring or paying any dividend on any stock ranking on a parity basis with the Amended Series A Preferred Stock, subject to certain exceptions.

The holders of the Amended Series A Preferred Stock do not have voting rights other than those set forth in the certificate of designations for the Amended Series A Preferred Stock included in Ally's Certificate of Incorporation. Ally may not redeem the Amended Series A Preferred Stock before May 15, 2016, and after such time the Amended Series A Preferred Stock may be redeemed in certain circumstances. In the event of any liquidation, dissolution or winding up of the affairs of Ally, holders of the Amended Series A Preferred Stock will be entitled to receive the liquidation amount per share of Amended Series A Preferred Stock and an amount equal to all declared, but unpaid dividends declared prior to the date of payment out of assets available for distribution, before any distribution is made for holders of stock that ranks junior in interest to the Amended Series A Preferred Stock, subject to the rights of Ally's creditors.

The changes to the terms of the Existing Series A Preferred Stock pursuant to the terms of the Amendment were deemed substantive, and as a result, the transaction was accounted for as a redemption of the Existing Series A Preferred Stock and the issuance of the Amended Series A Preferred Stock. The Existing Series A Preferred Stock was removed at its carrying value, the Amended Series A Preferred Stock was recognized at its fair value, and the difference of \$32 million was recorded as an increase to retained earnings, which impacted the income available to common stockholders used for the earnings per common share calculation.

Series G Preferred Stock

Effective June 30, 2009, we converted (the Conversion) from a Delaware limited liability company into a Delaware corporation in accordance with applicable law. In connection with the Conversion, the 7% Cumulative Perpetual Preferred Stock (the Blocker Preferred) of Preferred Blocker Inc. (PBI), a wholly owned subsidiary, was required to be converted into or exchanged for preferred stock. For this purpose, we had previously

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

authorized for issuance its 7% Fixed Rate Cumulative Perpetual Preferred Stock, Series G (the Series G Preferred Stock). Pursuant to the terms of a Certificate of Merger, effective October 15, 2009, PBI merged with and into Ally with Ally continuing as the surviving entity. At that time, each share of the Blocker Preferred issued and outstanding immediately prior to the effective time of the merger was converted into the right to receive an equal number of newly issued shares of Series G Preferred Stock. In the aggregate, 2,576,601 shares of Series G Preferred Stock were issued to holders of the Blocker Preferred in connection with the merger. The Series G Preferred Stock ranks equally in right of payment with each of our outstanding series of preferred stock in accordance with the terms thereof.

The Series G Preferred Stock accrues dividends at a rate of 7% per annum. Dividends are payable quarterly, in arrears, only if and when declared by Ally's Board of Directors. Subject to any other restrictions contained in the terms of any other series of stock or other agreements that Ally is or may become subject to, at Ally's option and subject to Ally having obtained any required regulatory approvals, Ally may, subject to certain conditions, redeem the Series G Preferred Stock, in whole or in part, at any time or from time to time, upon proper notice given, at a redemption price equal to the liquidation amount plus the amount of any accrued and unpaid dividends thereon through the date of redemption. The Series G Preferred Stock generally is nonvoting other than class-voting on certain matters under certain circumstances including generally, the authorization of senior capital stock or amendments that adversely impact the Series G Preferred Stock. Ally is generally prohibited from making any Restricted Payments on or prior to January 1, 2014, and may only make Restricted Payments after January 1, 2014, if certain conditions are satisfied. For this purpose, Restricted Payments include, subject to certain exceptions, any dividend payment or distribution of assets on any common stock or any redemption, purchase, or other acquisition of any shares of common stock.

21. Accumulated Other Comprehensive Income (Loss)

The following table presents changes, net of tax, in each component of accumulated other comprehensive income (loss).

| <i>(\$ in millions)</i> | Unrealized (losses) gains on investment securities (a) | Translation adjustments and net investment hedges | Cash flow hedges | Defined benefit pension plans | Accumulated other comprehensive (loss) income |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

- (a) Due to the antidilutive effect of converting the Fixed Rate Cumulative Mandatorily Convertible Preferred Stock into common shares and the net loss attributable to common shareholders for 2011, 2010 and 2009, income attributable to common shareholders and basic weighted-average common shares outstanding were used to calculate basic and diluted earnings per share.

The effects of converting the outstanding Fixed Rate Cumulative Mandatorily Convertible Preferred Stock into common shares are not included in the diluted earnings per share calculation for the years ended December 31, 2011, 2010, and 2009, as the effects would be antidilutive for those periods. As such, 574 thousand, 987 thousand, and 417 thousand of potential common shares were excluded from the diluted earnings per share calculation for the years ended December 31, 2011, 2010, and 2009, respectively.

23. Regulatory Capital and Other Regulatory Matters

As a bank holding company, we and our wholly owned state-chartered banking subsidiary, Ally Bank, are subject to risk-based capital and leverage guidelines issued by federal and state banking regulators that require that our capital-to-assets ratios meet certain minimum standards. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary action by regulators that, if undertaken, could have a direct material effect on the consolidated financial statements or the results of operations and financial condition of Ally and Ally Bank. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, we must meet specific capital guidelines that involve quantitative measures of our assets and certain off-balance sheet items. Our capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk-weightings, and other factors.

The risk-based capital ratios are determined by allocating assets and specified off-balance sheet financial instruments into several broad risk categories with higher levels of capital being required for the categories that present greater risk. Under the guidelines, total capital is divided into two tiers: Tier 1 capital and Tier 2 capital. Tier 1 capital generally consists of common equity, minority interests, qualifying noncumulative preferred stock, and the fixed rate cumulative preferred stock sold to Treasury under the Troubled Asset Relief Program (TARP), less goodwill and other adjustments. Tier 2 capital generally consists of perpetual preferred stock not qualifying as Tier 1 capital, limited amounts of subordinated debt and the allowance for loan losses, and other adjustments. The amount of Tier 2 capital may not exceed the amount of Tier 1 capital.

Total risk-based capital is the sum of Tier 1 and Tier 2 capital. Under the guidelines, banking organizations are required to maintain a minimum Total risk-based capital ratio (Total capital to risk-weighted assets) of 8% and a Tier 1 risk-based capital ratio (Tier 1 capital to risk-weighted assets) of 4%.

The federal banking regulators also have established minimum leverage ratio guidelines. The leverage ratio is defined as Tier 1 capital divided by adjusted quarterly average total assets (which reflect adjustments for disallowed goodwill and certain intangible assets). The minimum Tier 1 leverage ratio is 3% or 4% depending on factors specified in the regulations.

A banking institution meets the regulatory definition of well-capitalized when its Total risk-based capital ratio equals or exceeds 10% and its Tier 1 risk-based capital ratio equals or exceeds 6%; and for insured depository institutions, when its leverage ratio equals or exceeds 5%, unless subject to a regulatory directive to maintain higher capital levels.

In conjunction with the Supervisory Capital Assessment Program (S-CAP) in 2009, the banking regulators have developed a new measure of capital called Tier 1 common defined as Tier 1 capital less noncommon

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

elements, including qualifying perpetual preferred stock, minority interest in subsidiaries, trust preferred securities, and mandatory convertible preferred securities. Tier 1 common is used by banking regulators, investors and analysts to assess and compare the quality and composition of Ally's capital with the capital of other financial services companies. Also, bank holding companies with assets of \$50 billion or more, such as Ally, must develop and maintain a capital plan annually, and among other elements, the capital plan must include a discussion of how we will maintain a pro forma Tier 1 common ratio (Tier 1 common to risk-weighted assets) above 5% under expected conditions and certain stressed scenarios.

On October 29, 2010, Ally, IB Finance Holding Company, LLC, Ally Bank, and the FDIC entered into a Capital and Liquidity Maintenance Agreement (CLMA). The CLMA requires capital at Ally Bank to be maintained at a level such that Ally Bank's leverage ratio is at least 15%. For this purpose, the leverage ratio is determined in accordance with the FDIC's regulations related to capital maintenance.

The following table summarizes our capital ratios.

| December 31, (\$ in millions) | 2011 | | 2010 | | Required Minimum | Well-capitalized Minimum |
|---|-----------|--------|-----------|--------|------------------|--------------------------|
| | Amount | Ratio | Amount | Ratio | | |
| Risk-based capital | | | | | | |
| Tier 1 (to risk-weighted assets) | | | | | | |
| Ally Financial Inc. | \$ 21,158 | 13.71% | \$ 22,189 | 15.00% | 4.00% | 6.00% |
| Ally Bank | 12,920 | 17.39 | 10,738 | 19.23 | 4.00 | 6.00 |
| Total (to risk-weighted assets) | | | | | | |
| Ally Financial Inc. | \$ 22,755 | 14.75% | \$ 24,213 | 16.36% | 15.00% (a) | 10.00% |
| Ally Bank | 13,643 | 18.37 | 11,438 | 20.48 | 8.00 | 10.00 |
| Tier 1 leverage (to adjusted quarterly average assets) (b) | | | | | | |
| Ally Financial Inc. | \$ 21,158 | 11.50% | \$ 22,189 | 13.05% | 3.00 4.00% | (c) |
| Ally Bank | 12,920 | 15.47 | 10,738 | 15.81 | 15.00 (d) | 5.00% |
| Tier 1 common (to risk-weighted assets) | | | | | | |
| Ally Financial Inc. | \$ 11,676 | 7.57% | \$ 12,677 | 8.57% | n/a | n/a |
| Ally Bank | n/a | n/a | n/a | n/a | n/a | n/a |

n/a = not applicable

(a) Ally was previously subject to a directive from the Board of Governors of the Federal Reserve System (FRB) to maintain a Total risk-based capital ratio of 15%. The directive expired on December 31, 2011.

(b) Federal regulatory reporting guidelines require the calculation of adjusted quarterly average assets using a daily average methodology.

(c) There is no Tier 1 leverage component in the definition of a well-capitalized bank holding company.

(d) Ally Bank, in accordance with the CLMA is required to maintain a Tier 1 leverage ratio of at least 15%.

At December 31, 2011, Ally and Ally Bank were well-capitalized and met all capital requirements to which each was subject.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Basel Capital Accord and Other Regulatory Matters**

The minimum risk-based capital requirements adopted by the U.S. banking regulators follow the Capital Accord (Capital Accord or Basel I) of the Bank for International Settlements Basel Committee on Banking Supervision (Basel Committee). The Capital Accord was published in 1988 and generally applies to depository institutions and their holding companies in the United States. In 2004, the Basel Committee published a revision to the Capital Accord (Basel II). The goal of the Basel II capital rules is to provide more risk-sensitive regulatory capital calculations and promote enhanced risk management practices among large, internationally active banking organizations. U.S. banking regulators published final Basel II rules in December 2007. Ally is required to comply with the Basel II rules as implemented by the U.S. banking regulators. Prior to full implementation of the Basel II rules, Ally is required to complete a qualification period of four consecutive quarters during which it needs to demonstrate that it meets the requirements of the rules to the satisfaction of its primary U.S. banking regulator. Pursuant to an extension that was granted to Ally, this qualification period, or parallel run, is required to begin no later than October 1, 2013. During this period, capital is calculated using both Basel I and Basel II methodologies. Upon completion of this parallel run and with the approval of its primary U.S. banking regulator, Ally and Ally Bank will begin to use Basel II to calculate regulatory capital. Basel II contemplated a three-year transition period during which a bank holding company or bank could gradually lower its capital level below the levels required by Basel I. However, under a final capital rule that implements a provision of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), Ally must continue to calculate their risk-based capital requirements under Basel I, and the capital requirements that each computes under Basel I will serve as a floor for its risk-based capital requirement computed under Basel II.

In addition to Basel II, the Basel Committee recently adopted new capital, leverage, and liquidity guidelines under the Capital Accord (Basel III) that when implemented in the United States, may have the effect of raising capital requirements beyond those required by current law and the Dodd-Frank Act. Basel III will increase the minimum Tier 1 common equity ratio to 4.5%, net of regulatory deductions, and introduces a capital conservation buffer of an additional 2.5% of common equity to risk-weighted assets, raising the target minimum common equity ratio to 7.0%. Basel III increases the minimum Tier 1 capital ratio to 8.5% inclusive of the capital conservation buffer, increases the minimum total capital ratio to 10.5% inclusive of the capital buffer, and introduces a countercyclical capital buffer of up to 2.5% of common equity or other fully loss absorbing capital for periods of excess credit growth. Basel III also introduces a nonrisk adjusted Tier 1 leverage ratio of 3%, based on a measure of the total exposure rather than total assets, and new liquidity standards. The Basel III capital, leverage, and liquidity standards will be phased in over a multiyear period. The Basel III rules, when implemented, will also impose a 15% cap on the amount of Tier 1 capital that can be met, in the aggregate, through significant investments in the common shares of unconsolidated financial subsidiaries, MSRs and deferred tax assets through timing differences. In addition, under Basel III rules, after a ten-year phase-out period beginning in January 2013, trust preferred and other hybrid securities will no longer qualify as Tier 1 capital. However, under the Dodd-Frank Act, subject to certain exceptions (e.g., for debt or equity issued to the U.S. government under the Emergency Economic Stabilization Act), trust preferred and other hybrid securities are phased out from Tier 1 capital over a three-year period starting January 2013. We continue to monitor developments with respect to Basel III and, pending the adoption of the final capital rules and subsequent regulatory interpretation by the U.S. regulators, there remains a degree of uncertainty on the full impact of Basel III.

On November 4, 2011, the Financial Stability Board (FSB), which is an inter-governmental body coordinating an overall set of measures to reduce the moral hazard posed by global systemically important financial institutions, published its Policy Measures to Address Systemically Important Financial Institutions (FSB Policy Measures). If implemented in the United States, the FSB Policy Measures would require a global systemically

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

important financial institution (G-SIFI) in the United States to hold additional Tier 1 common equity from 1% to as much as 3.5% of risk-weighted assets. The additional capital requirement would be phased in between January 1, 2016 and January 1, 2019. Ally was not included in the initial list of G-SIFIs, which must comply with the FSB Policy Measures by the end of 2012. The FSB intends to update and publish the list of G-SIFIs annually in November. We are not able to predict at this time whether Ally will meet the qualifications of a G-SIFI in the future and whether these additional capital requirements, if and when implemented in the United States, will apply to Ally.

In December 2011, the FRB proposed rules to implement some provisions of the systemic risk regime. If adopted as proposed, among other provisions, the rules would require Ally to maintain a sufficient quantity of highly liquid assets to survive a projected 30-day liquidity stress event and implement various liquidity-related corporate governance measures; limit Ally's aggregate exposure to any unaffiliated counterparty to 25% of Ally's capital and surplus; and potentially subject Ally to an early remediation regime that could limit the ability of Ally to pay dividends or expand its business if the FRB identified Ally as suffering from financial or management weaknesses.

It is also anticipated that during 2012 the U.S. banking agencies will issue final rules based on the 2010 Notice of Proposed Rulemaking on the Risk-Based Capital Guidelines for Market Risk, as amended in December 2011 (Market Risk rules). We continue to monitor developments with respect to the Market Risk rules.

Compliance with evolving capital requirements is a strategic priority for Ally. We expect to be in compliance with all applicable requirements within the established timelines.

International Banks, Finance Companies, and Other Foreign Operations

Certain of our foreign subsidiaries operate in local markets as either banks or regulated finance companies and are subject to regulatory restrictions. These regulatory restrictions, among other things, require that our subsidiaries meet certain minimum capital requirements and may restrict dividend distributions and ownership of certain assets. Total assets of our regulated international banks and finance companies were approximately \$13.6 billion and \$14.5 billion at December 31, 2011 and 2010, respectively. In addition, the Bank Holding Company Act of 1956 imposes restrictions on Ally's ability to invest equity abroad without FRB approval. Many of our other operations are also heavily regulated in many jurisdictions outside the United States.

Depository Institutions

Ally Bank is a state nonmember bank, chartered by the State of Utah, and subject to the supervision of the FDIC and the Utah Department of Financial Institutions. Ally Bank's deposits are insured by the FDIC, and Ally Bank is required to file periodic reports with the FDIC concerning its financial condition. Total assets of Ally Bank were \$85.3 billion and \$70.3 billion at December 31, 2011 and 2010, respectively. Ally Bank is subject to Utah law (and, in certain instances, federal law) that places restrictions and limitations on the amount of dividends or other distributions. Ally Bank did not make any dividend or other distributions to Ally in 2011 or 2010.

The FRB requires banks to maintain minimum average reserve balances. The amount of the required reserve balance for Ally Bank was \$205.3 million and \$2.4 million at December 31, 2011 and 2010, respectively.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

U.S. Mortgage Business

Our U.S. mortgage business is subject to extensive federal, state, and local laws, rules, and regulations, in addition to judicial and administrative decisions that impose requirements and restrictions on this business. As a Federal Housing Administration-approved lender, certain of our U.S. mortgage subsidiaries are required to submit audited financial statements to the Department of Housing and Urban Development on an annual basis. The U.S. mortgage business is also subject to examination by the Federal Housing Commissioner to assure compliance with Federal Housing Administration regulations, policies, and procedures. The federal, state, and local laws, rules, and regulations to which our U.S. mortgage business is subject, among other things, impose licensing obligations and financial requirements; limit the interest rates, finance charges, and other fees that can be charged; regulate the use of credit reports and the reporting of credit information; impose underwriting requirements; regulate marketing techniques and practices; require the safeguarding of nonpublic information about customers; and regulate servicing practices, including the assessment, collection, foreclosure, claims handling, and investment and interest payments on escrow accounts.

Certain of our mortgage subsidiaries are required to satisfy regulatory net worth requirements. Failure to meet minimum capital requirements can initiate certain mandatory actions by federal, state, and foreign agencies that could have a material effect on our results of operations and financial condition. These entities were in compliance with these requirements at December 31, 2011.

Insurance Companies

Our Insurance operations are subject to certain minimum aggregate capital requirements, net asset and dividend restrictions under applicable state and foreign insurance law, and the rules and regulations promulgated by various U.S. and foreign regulatory agencies. Under various state and foreign insurance regulations, dividend distributions may be made only from statutory unassigned surplus, with approvals required from the regulatory authorities for dividends in excess of certain statutory limitations. At December 31, 2011, the maximum dividend that could be paid by the U.S. insurance subsidiaries over the next twelve months without prior statutory approval was \$135 million. Total assets of our Insurance operations were \$8.0 billion and \$8.8 billion at December 31, 2011 and 2010, respectively.

24. Derivative Instruments and Hedging Activities

We enter into interest rate and foreign-currency swaps, futures, forwards, options, and swaptions in connection with our market risk management activities. Derivative instruments are used to manage interest rate risk relating to specific groups of assets and liabilities, including investment securities, MSRs, debt, and deposits. In addition, we use foreign exchange contracts to mitigate foreign-currency risk associated with foreign-currency-denominated investment securities, foreign-currency-denominated debt, foreign exchange transactions, and our net investment in foreign subsidiaries. Our primary objective for utilizing derivative financial instruments is to manage market risk volatility associated with interest rate and foreign-currency risks related to the assets and liabilities.

Interest Rate Risk

We execute interest rate swaps to modify our exposure to interest rate risk by converting certain fixed-rate instruments to a variable rate and certain variable-rate instruments to a fixed rate. We monitor our mix of fixed- and variable-rate debt in relation to the rate profile of our assets. When it is cost effective to do so, we may enter into interest rate swaps to achieve our desired mix of fixed- and variable-rate debt. Derivatives qualifying for

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

hedge accounting consist of fixed-rate debt obligations in which receive-fixed swaps are designated as hedges of specific fixed-rate debt obligations. In June 2011, we also executed derivatives qualifying for hedge accounting that consisted of an existing variable-rate liability in which pay fixed swaps are designated as hedges of the expected future cash flows in the form of interest payments on the outstanding borrowing associated with Ally Bank's secured floating-rate credit facility.

We enter into economic hedges to mitigate exposure for the following categories.

MSRs and retained interests Our MSRs and retained interest portfolios are generally subject to loss in value when mortgage rates decline. Declining mortgage rates generally result in an increase in refinancing activity that increases prepayments and results in a decline in the value of MSRs and retained interests. To mitigate the impact of this risk, we maintain a portfolio of financial instruments, primarily derivative instruments that increase in value when interest rates decline. The primary objective is to minimize the overall risk of loss in the value of MSRs and retained interests due to the change in fair value caused by interest rate changes.

We may use a multitude of derivative instruments to manage the interest rate risk related to MSRs and retained interests. They include, but are not limited to, interest rate futures contracts, call or put options on U.S. Treasuries, swaptions, MBS, futures, U.S. Treasury futures, interest rate swaps, interest rate floors, and interest rate caps. We monitor and actively manage our risk on a daily basis.

Mortgage loan commitments and mortgage and automobile loans held-for-sale We are exposed to interest rate risk from the time an interest rate lock commitment (IRLC) is made until the time the mortgage loan is sold. Changes in interest rates impact the market price for our loans; as market interest rates decline, the value of existing IRLCs and loans held-for-sale increase and vice versa. Our primary objective in risk management activities related to IRLCs and mortgage loans held-for-sale is to eliminate or greatly reduce any interest rate risk associated with these items.

The primary derivative instrument we use to accomplish the risk management objective for mortgage loans and IRLCs is forward sales of MBS, primarily Fannie Mae or Freddie Mac to-be-announced securities. These instruments typically are entered into at the time the IRLC is made. The value of the forward sales contracts moves in the opposite direction of the value of our IRLCs and mortgage loans held-for-sale. We also use other derivatives, such as interest rate swaps, options, and futures, to economically hedge automobile loans held-for-sale and certain portions of the mortgage portfolio. Nonderivative instruments, such as short positions of U.S. Treasuries, may also be periodically used to economically hedge the mortgage portfolio.

Debt With the exception of a portion of our fixed-rate debt and a portion of our outstanding floating-rate borrowing associated with Ally Bank's secured floating-rate credit facility, we do not apply hedge accounting to our derivative portfolio held to mitigate interest rate risk associated with our debt portfolio. Typically, the significant terms of the interest rate swaps match the significant terms of the underlying debt resulting in an effective conversion of the rate of the related debt.

Other We enter into futures, options, and swaptions to economically hedge our net fixed versus variable interest rate exposure. We also enter into equity options to economically hedge our exposure to the equity markets.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Foreign Currency Risk

We enter into derivative financial instrument contracts to mitigate the risk associated with variability in cash flows related to foreign-currency financial instruments. Currency swaps and forwards are used to economically hedge foreign exchange exposure on foreign-currency-denominated debt by converting the funding currency to the same currency of the assets being financed. Similar to our interest rate derivatives, the swaps are generally entered into or traded concurrent with the debt issuance with the terms of the swap matching the terms of the underlying debt.

Our foreign subsidiaries maintain both assets and liabilities in local currencies; these local currencies are generally the subsidiaries' functional currencies for accounting purposes. Foreign-currency exchange-rate gains and losses arise when the assets or liabilities of our subsidiaries are denominated in currencies that differ from its functional currency. In addition, our equity is impacted by the cumulative translation adjustments resulting from the translation of foreign subsidiary results; this impact is reflected in our accumulated other comprehensive income (loss). We enter into foreign-currency forwards and option-based contracts with external counterparties to hedge foreign exchange exposure on our net investments in foreign subsidiaries. In March 2011, we elected to dedesignate all of our existing net investment hedge relationships and changed our method of measuring hedge effectiveness from the spot method to the forward method for new hedge relationships entered into during the remainder of the quarter and prospectively. For the net investment hedges that were designated under the spot method for the first portion of the quarter, the hedges were recorded at fair value with changes recorded to accumulated other comprehensive income (loss) with the exception of the spot to forward difference that was recorded to earnings. For the new net investment hedges that were designated under the forward method, the hedges were recorded at fair value with the changes recorded to accumulated other comprehensive income (loss) including the spot to forward difference. The net derivative gain or loss remains in accumulated other comprehensive income (loss) until earnings are impacted by the sale or the liquidation of the associated foreign operation.

We also have a centralized lending program to manage liquidity for all of our subsidiary businesses. Foreign-currency-denominated loan agreements are executed with our foreign subsidiaries in their local currencies. We evaluate our foreign-currency exposure resulting from intercompany lending and manage our currency risk exposure by entering into foreign-currency derivatives with external counterparties. Our foreign-currency derivatives are recorded at fair value with changes recorded as income offsetting the gains and losses on the associated foreign-currency transactions.

During the three months ended December 31, 2011, we purchased nonfunctional currency denominated investment securities and entered into foreign currency forward contracts with external counterparties to hedge against changes in the fair value of the securities, through maturity, due to changes in the related foreign-currency exchange rate. The foreign-currency forward contracts are recorded at fair value with changes recorded to earnings. The changes in value of the securities due to changes in foreign-currency exchange rates are also recorded to earnings. In the case of securities classified as available-for-sale, any changes in fair value due to unhedged risks were recorded to accumulated other comprehensive income.

Except for our net investment hedges and fair value foreign currency hedges of available-for-sale securities, we generally have not elected to treat any foreign-currency derivatives as hedges for accounting purposes principally because the changes in the fair values of the foreign-currency swaps are substantially offset by the foreign-currency revaluation gains and losses of the underlying assets and liabilities.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Credit Risk

Derivative financial instruments contain an element of credit risk if counterparties are unable to meet the terms of the agreements. Credit risk associated with derivative financial instruments is measured as the net replacement cost should the counterparties that owe us under the contract completely fail to perform under the terms of those contracts, assuming no recoveries of underlying collateral as measured by the market value of the derivative financial instrument.

To mitigate the risk of counterparty default, we maintain collateral agreements with certain counterparties. The agreements require both parties to maintain collateral in the event the fair values of the derivative financial instruments meet established thresholds. In the event that either party defaults on the obligation, the secured party may seize the collateral. Generally, our collateral arrangements are bilateral such that we and the counterparty post collateral for the value of our total obligation to each other. Contractual terms provide for standard and customary exchange of collateral based on changes in the market value of the outstanding derivatives. The securing party posts additional collateral when their obligation rises or removes collateral when it falls. We also have unilateral collateral agreements whereby we are the only entity required to post collateral.

Certain derivative instruments contain provisions that require us to either post additional collateral or immediately settle any outstanding liability balances upon the occurrence of a specified credit risk-related event. If a credit risk related event had been triggered the amount of additional collateral required to be posted by us would have been insignificant.

We placed cash and securities collateral totaling \$1.4 billion and \$1.6 billion at December 31, 2011 and 2010, respectively, in accounts maintained by counterparties. We received cash collateral from counterparties totaling \$1.4 billion and \$916 million at December 31, 2011 and 2010, respectively. The receivables for collateral placed and the payables for collateral received are included on our Consolidated Balance Sheet in other assets and accrued expenses and other liabilities, respectively. In certain circumstances, we receive or post securities as collateral with counterparties. We do not record such collateral received on our Consolidated Balance Sheet unless certain conditions are met. At December 31, 2011 and 2010, we received noncash collateral of \$43 million and \$29 million, respectively.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Balance Sheet Presentation**

The following table summarizes the fair value amounts of derivative instruments reported on our Consolidated Balance Sheet. The fair value amounts are presented on a gross basis, are segregated by derivatives that are designated and qualifying as hedging instruments or those that are not, and are further segregated by type of contract within those two categories. At December 31, 2011, \$5.7 billion and \$14 million of the derivative contracts in a receivable position were classified as other assets and trading assets, respectively, on the Consolidated Balance Sheet. During the normal course of business, our broker-dealer enters into forward purchases and sales, which are classified as trading derivatives. We had no trading derivative assets at December 31, 2010. Refer to Note 6 for our trading assets. At December 31, 2011, \$5.4 billion of derivative contracts in a liability position and \$12 million of trading derivatives were both classified as accrued expenses and other liabilities on the Consolidated Balance Sheet. We had no trading derivative liabilities at December 31, 2010.

| Total foreign exchange contracts | 88 | (11) | (872) |
| Gain (loss) recognized in earnings on derivatives | \$ 136 | \$ 77 | \$ (2,075) |

- (a) Amounts exclude gains of \$264 million, \$329 million, and \$535 million for the years ended December 31, 2011, 2010, and 2009, respectively, related to interest for derivatives qualifying for hedge accounting of debt, which are primarily offset by the fixed coupon payment on the long-term debt.

Edgar Filing: Ally Financial Inc. - Form S-1/A

- (b) Amounts exclude gains of \$229 million, \$210 million, and \$144 million related to amortization of deferred basis adjustments on the hedged items for the years ended December 31, 2011, 2010, and 2009, respectively.

- (c) Amounts exclude losses of \$107 million, losses of \$14 million, and gains of \$632 million for the years ended December 31, 2011, 2010, and 2009 respectively, related to the revaluation of the related foreign-denominated debt or receivable.

F-101

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following table summarizes derivative instruments used in cash flow hedge accounting relationships and net investment hedge accounting relationships.

| Year ended December 31, (\$ in millions) | 2011 | 2010 | 2009 |
|---|---------|----------|---------|
| Cash flow hedges | | | |
| Interest rate contracts | | | |
| Gain recorded directly to interest on long-term debt (a) | \$ 5 | \$ | \$ |
| Foreign exchange contracts | | | |
| Gain recognized in other comprehensive income (b) | | 4 | 10 |
| Net investment hedges | | | |
| Foreign exchange contracts | | | |
| (Loss) gain reclassified from accumulated other comprehensive income to other income, net of losses | \$ (8) | \$ 12 | \$ |
| Loss recorded directly to other income, net of losses (c) | (3) | (18) | |
| Total other income, net of losses | \$ (11) | \$ (6) | \$ |
| Gain (loss) recognized in other comprehensive income (d) | \$ 173 | \$ (183) | \$ (32) |

- (a) The amount represents hedge ineffectiveness and excludes interest losses of \$5 million for the year ended December 31, 2011.
- (b) The amount for the year ended December 31, 2010, represents gains of \$111 million related to the effective portion of cash flow hedges offset by the reclassification of accumulated gains totaling \$107 million from accumulated other comprehensive income on our Consolidated Balance Sheet to other income, net of losses in the Consolidated Statement of Income. The amount for the year ended December 31, 2009, represents losses of \$18 million related to the effective portion of cash flow hedges offset by the reclassification of accumulated losses totaling \$28 million from accumulated other comprehensive income on our Consolidated Balance Sheet to other income, net of losses in the Consolidated Statement of Income. The reclassified amounts completely offset the effective portion related to the revaluation of the related foreign-denominated debt. The amount of hedge ineffectiveness on cash flow hedges during the years ended December 31, 2010 and 2009 was insignificant.
- (c) The amounts represent the forward points excluded from the assessment of hedge effectiveness.
- (d) The amounts represent the effective portion of net investment hedges. There are offsetting losses of \$237 million, gains of \$187 million, and gains of \$1 million for the years ended December 31, 2011, 2010, and 2009, respectively, recognized in accumulated other comprehensive income related to the revaluation of the related net investment in foreign operations.

25. Income Taxes

Effective June 30, 2009, we converted from a limited liability company (LLC) to a corporation (the Conversion). Prior to the Conversion, most of our U.S. entities were pass-through entities for U.S. federal income tax purposes. U.S. federal, state, and local income taxes were generally not provided for these entities as they were not taxable entities except in a few local jurisdictions that tax LLCs or partnerships. LLC members were required to report their share of our taxable income on their respective income tax returns. As a result of the Conversion, we became

Edgar Filing: Ally Financial Inc. - Form S-1/A

subject to corporate U.S. federal, state, and local taxes beginning in the third quarter of 2009.

F-102

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Deferred tax assets and liabilities result from temporary differences between assets and liabilities measured for financial reporting purposes and those measured for income tax return purposes. The Conversion resulted in a \$1.2 billion increase in income tax expense related to the establishment of deferred tax liabilities and assets of \$2.5 billion and \$1.3 billion, respectively. Our banking, insurance, and foreign subsidiaries generally were and continue to be corporations that are subject to U.S. and foreign income taxes and are required to provide for these taxes. The Conversion did not change the tax status of these subsidiaries.

The following table summarizes income (loss) from continuing operations before income tax expense.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|---|--------------|-----------------|-------------------|
| U.S. (loss) income | \$ (785) | \$ 594 | \$ (5,209) |
| Non-U.S. income (loss) | 852 | 545 | (1,700) |
| Income (loss) from continuing operations before income tax expense | \$ 67 | \$ 1,139 | \$ (6,909) |

The significant components of income tax expense from continuing operations were as follows.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|--|---------------|---------------|--------------|
| Current income tax expense | | | |
| U.S. federal | \$ 18 | \$ 12 | \$ 146 |
| Foreign | 353 | 470 | 173 |
| State and local | 12 | 58 | 14 |
| Total current expense | 383 | 540 | 333 |
| Deferred income tax benefit | | | |
| U.S. federal | | (6) | (109) |
| Foreign | (204) | (374) | (32) |
| State and local | | (7) | (118) |
| Total deferred benefit | (204) | (387) | (259) |
| Total income tax expense from continuing operations | \$ 179 | \$ 153 | \$ 74 |

A reconciliation of the provision (benefit) for income taxes with the amounts at the statutory U.S. federal income tax rate is shown in the following table.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|---|-------|--------|------------|
| Statutory U.S. federal tax expense (benefit) | \$ 23 | \$ 399 | \$ (2,418) |
| Change in tax resulting from | | | |
| Effect of valuation allowance change | 215 | (132) | 2,118 |
| Taxes on unremitted earnings of subsidiaries | 24 | (71) | (25) |
| State and local income taxes, net of federal income tax benefit | 7 | 2 | (285) |

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Worldwide tax expense does not naturally correspond with worldwide pretax income because we apply a valuation allowance to the majority of our domestic and certain foreign net deferred tax assets. For 2011, consolidated tax expense of \$179 million is largely driven by the results of our foreign operations that are not subject to a valuation allowance, by certain U.S. taxes that are not eligible for offset by U.S. net operating losses and by U.S. state income taxes where profitable subsidiaries are required to file separately from the consolidated group.

At December 31, 2011, we had U.S. federal and state net operating loss carryforwards and capital loss carryforwards of \$3.2 billion and \$1.9 billion, respectively. The federal net operating loss carryforwards expire in the years 2025–2031. The capital loss carryforwards expire in the years 2013–2015. The corresponding expiration periods for the state operating and capital loss carryforwards are 2014–2031 and 2013–2015, respectively. Additionally, foreign tax credit carryforwards of \$139 million are available as of December 31, 2011, in the United States and expire in the years 2012–2021.

Also, at December 31, 2011, we had foreign net operating loss carryforwards of \$1.2 billion. The foreign operating loss carryforwards of \$917 million in Belgium, Brazil, Denmark, Italy, Sweden, and the UK have an indefinite carryforward period. The Canadian loss carryforwards of \$169 million expire in the years 2026–2031. The remaining net operating loss carryforwards of \$104 million expire in the years 2012–2025.

We assessed the available positive and negative evidence to estimate if sufficient future taxable income of the appropriate character will be generated to utilize the existing deferred tax assets. A significant piece of objective negative evidence evaluated for certain tax jurisdictions that have legal entities with net deferred tax assets was the cumulative loss incurred over the three-year period ended December 31, 2011 and the absence of any available tax-planning strategies. This objective negative evidence outweighed the positive evidence, which was more subjective in nature.

Based on this assessment, valuation allowances have been recorded against our domestic net deferred tax assets and certain international net deferred tax assets. Included within tax expense were charges of \$215 million in 2011, benefits of \$132 million in 2010, and charges of \$2.1 billion in 2009 to adjust valuation allowances. These adjustments include establishment of valuation allowances, release of valuation allowances, and movement in valuation allowances stemming from pretax results after establishment. The charges for 2011 included a \$101 million reversal of valuation allowance on net deferred tax assets in one of our Canadian subsidiaries. The reversal related to modifications to the legal structure of our Canadian operations. The amount of the net U.S. deferred tax asset considered realizable could change in the future depending on actual taxable income or capital gains and other relevant factors. In particular, improving trends in the U.S. could lead to reversal of a large portion of our U.S. valuation allowance in 2012. Until such time, utilization of tax attributes to offset U.S. profits will continue to reduce the overall level of our U.S. deferred tax assets and related valuation allowance.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The significant components of deferred tax assets and liabilities are reflected in the following table.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|----------------|----------------|
| Deferred tax assets | | |
| Tax loss carryforwards | \$ 1,976 | \$ 1,728 |
| Provision for loan losses | 775 | 753 |
| Mark-to-market on consumer finance receivables and loans | 695 | 655 |
| Hedging transactions | 248 | 9 |
| State and local taxes | 184 | 170 |
| Sales of finance receivables and loans | 182 | 205 |
| Contingency | 169 | 223 |
| Tax credit carryforwards | 161 | 132 |
| Unearned insurance premiums | 158 | 151 |
| Basis difference in subsidiaries | 105 | 82 |
| MSRs | 95 | (54) |
| Other | 368 | 354 |
| Gross deferred tax assets | 5,116 | 4,408 |
| Valuation allowance | (2,240) | (1,993) |
| Net deferred tax assets | 2,876 | 2,415 |
| Deferred tax liabilities | | |
| Lease transactions | 2,052 | 1,545 |
| Deferred acquisition costs | 328 | 332 |
| Unrealized gains on securities | 180 | 304 |
| Tax on unremitted earnings | 63 | 46 |
| Debt transactions | 32 | 84 |
| Other | 94 | 101 |
| Gross deferred tax liabilities | 2,749 | 2,412 |
| Net deferred tax assets | \$ 127 | \$ 3 |

Foreign pretax income is subject to U.S. taxation when effectively repatriated. Through the Conversion date, our U.S. incorporated insurance and banking operations provided federal income taxes on the undistributed earnings of foreign subsidiaries to the extent these earnings were not deemed indefinitely reinvested outside the United States. It was the responsibility of our members to provide for federal income taxes on the undistributed foreign subsidiary earnings of our disregarded entities to the extent the earnings was not indefinitely reinvested. Subsequent to the Conversion date, all of our domestic subsidiaries fully provide for federal income taxes on the undistributed earnings of foreign subsidiaries except to the extent these earnings are indefinitely reinvested outside the United States. At December 31, 2011, \$4.1 billion of accumulated undistributed earnings of foreign subsidiaries were indefinitely reinvested. Quantification of the deferred tax liability associated with indefinitely reinvested earnings is not practicable. If in the future we decide to repatriate such foreign earnings, we would incur incremental U.S. federal and state income tax, reduced by the current benefit of our U.S. federal and state net operating loss and tax credit carryforwards. However, our intent is to keep these funds indefinitely reinvested outside of the United States and our current plans do not demonstrate a need to repatriate them to fund our U.S. operations.

Edgar Filing: Ally Financial Inc. - Form S-1/A

Tax benefits related to positions considered uncertain are recognized only if, based on the technical merits of the issue, it is more likely than not that we will sustain the position and then at the largest amount that is greater than 50% likely to be realized upon ultimate settlement.

F-105

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following table provides a reconciliation of the beginning and ending amount of unrecognized tax benefits.

| <i>(\$ in millions)</i> | 2011 | 2010 | 2009 |
|--|-------------|-------------|-------------|
| Balance at January 1, | \$ 214 | \$ 172 | \$ 150 |
| Additions based on tax positions related to the current year | 11 | 69 | 27 |
| Additions for tax positions of prior years | 20 | 3 | 24 |
| Reductions for tax positions of prior years | (3) | (23) | (24) |
| Settlements | (35) | (9) | (28) |
| Expiration of statute of limitations | | (2) | |
| Foreign-currency translation adjustments | (9) | 4 | 23 |
| Balance at December 31, | \$ 198 | \$ 214 | \$ 172 |

Included in the unrecognized tax benefits balances are some items, the recognition of which would not affect the effective tax rate, such as the tax effect of certain temporary differences, and the portion of gross state unrecognized tax benefits that would be offset by the tax benefit of the associated federal deduction. At December 31, 2011, 2010, and 2009, the balance of unrecognized tax benefits that, if recognized, would affect our effective tax rate is \$179 million, \$199 million, and \$157 million, respectively.

We recognize accrued interest and penalties related to uncertain income tax positions in interest expense and other operating expenses, respectively. For the years ended December 31, 2011, 2010, and 2009, \$16 million, \$26 million, and \$12 million, respectively, were accrued for interest and penalties with the cumulative accrued balance totaling \$178 million at December 31, 2011; \$201 million at December 31, 2010; and \$170 million at December 31, 2009. In addition, the accrued balances for interest and penalties were impacted by translation adjustments on those denominated in foreign currencies.

We anticipate the examination of various U.S. income tax returns along with the examinations by various foreign, state, and local jurisdictions will be completed within the next twelve months. As such, it is reasonably possible that certain tax positions may be settled and the unrecognized tax benefits would decrease by \$210 million which includes interest and penalties.

We file tax returns in the U.S. federal jurisdiction and various states and foreign jurisdictions. For our most significant operations, at December 31, 2011, the following summarizes the oldest tax years that remain subject to examination.

| Jurisdiction | Tax year |
|---------------------|-----------------|
| United States | 2004 |
| Canada | 2004 |
| Germany | 2007 |
| United Kingdom | 1995 |
| Mexico | 2006 |
| Brazil | 2006 |

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****26. Employee Benefit and Compensation Plans****Defined Contribution Plan**

A significant number of our employees are covered by defined contribution plans. Employer contributions vary based on criteria specific to each individual plan and amounted to \$68 million, \$62 million, and \$52 million in 2011, 2010, and 2009, respectively. These costs were recorded in compensation and benefits expense in our Consolidated Statement of Income. We expect contributions for 2012 to be similar to contributions made in 2011.

Defined Benefit Pension Plan

Certain of our employees are eligible to participate in separate retirement plans that provide for pension payments upon retirement based on factors such as length of service and salary. In recent years, we have transferred, frozen, or terminated a significant number of our other defined benefit plans. All income and expense noted for pension accounting was recorded in compensation and benefits expense in our Consolidated Statement of Income.

The following summarizes information related to our pension plans.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|---|----------|----------|
| Projected benefit obligation | \$ 528 | \$ 509 |
| Fair value of plan assets | 398 | 388 |
| Underfunded status | \$ (130) | \$ (121) |

The underfunded position is recognized on the Consolidated Balance Sheet and the change in the underfunded position was recorded in other comprehensive income (loss).

Net periodic pension expense (income) includes curtailment, settlement, and other gains and losses and was minimal for 2011, 2010, and 2009.

Other Postretirement Benefits

Certain of our subsidiaries participated in various postretirement medical, dental, vision, and life insurance plans. We have provided for certain amounts associated with estimated future postretirement benefits other than pensions and characterized such amounts as other postretirement benefits. Other postretirement benefits expense (income), which is recorded in compensation and benefits expense in our Consolidated Statement of Income, was minimal in 2011, 2010, and 2009. We expect our other postretirement benefit expense to continue to be minimal in future years.

Share-based Compensation Plans

Based on our transactions with Treasury during 2009, we are required to comply with the limitations on executive pay as determined by the Special Master of TARP Compensation (Special Master). We have established Deferred Stock Units (DSUs) and Incentive Restricted Stock Units (RSUs) as forms of compensation to our senior executives, which have been approved by the Special Master. We also grant Restricted Stock Units (RSUs) to executives under the Long-Term Equity Compensation Incentive Plan (LTIP). Each of our approved compensation plans and awards were designed to provide our executives with an opportunity to share in the future growth in value of Ally, which is necessary to attract and retain key executives.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

In December 2011 we performed an annual valuation analysis as required by the LTIP plan. The valuation resulted in a value of \$8,500 per share for outstanding stock awards as of December 31, 2011. A similar valuation analysis in 2010 resulted in a value of \$10,342 per share for outstanding stock awards as of December 31, 2010. The decrease in award value was approved by the Compensating, Nominating and Governance Committee (CNG Committee) and the Ally Board of Directors and resulted in a reduction to compensation expense for RSU, DSU, and IRSU awards of \$20 million, \$25 million, and \$5 million, respectively, recognized in 2011. The impact was recorded in the compensation and benefits expense line item in our Consolidated Statement of Income.

RSU awards are incentive awards granted to executives as phantom shares of Ally. The majority of awards granted in 2008 and 2009 vest ratably on an annual basis based on continued service on December 31 with the final tranche vesting on December 31, 2012. Participants had the option at grant date to defer the valuation and payout for awards granted in 2008 and 2009. Awards granted in 2010 and 2011 vest ratably over a three-year period starting on the date the award was issued with the majority of the awards fully vesting in February 2013 and February 2014. The awards require liability treatment and are remeasured quarterly at fair value until they are paid. The compensation costs related to these awards are ratably charged to expense over the applicable service period. Changes in fair value related to the portion of the awards that have vested and have not been paid are recognized in earnings in the period in which the changes occur. The fair value of the awards granted during 2008 was diluted by the capital transactions that occurred at the end of 2008. At December 31, 2011 there were a total of 26,707 RSU award shares outstanding, composed of 3,806 shares awarded during 2008, 5,199 shares awarded during 2009, 9,281 shares awarded during 2010, and 8,421 shares awarded during 2011. At December 31, 2010 there were a total of 23,321 RSU award shares outstanding, composed of 6,001 shares awarded during 2008, 7,249 shares awarded during 2009, and 10,071 shares awarded during 2010. We recognized compensation expense related to RSU awards of \$56 million, \$63 million and \$25 million for the years ended December 31, 2011, 2010 and 2009, respectively. These costs were recorded in the compensation and benefits expense line in our Consolidated Statement of Income.

DSU awards are granted to senior executives as phantom shares of Ally and are included as part of their base salary. The DSU awards are granted ratably each pay period throughout the year, vest immediately upon grant, and are paid in cash ratably each year after grant for either five years (for awards granted in 2009 and 2010) or three years (for awards granted in 2011). The awards require liability treatment and are remeasured quarterly at fair value until they are paid, with each change in value fully charged to compensation expense in the period in which the change occurs. At December 31, 2011 and 2010 there were a total of 13,743 and 10,035 DSU award shares outstanding, respectively. We recognized compensation expense related to DSU awards of \$25 million, \$75 million and \$35 million for the years ended December 31, 2011, 2010 and 2009, respectively, for the outstanding awards. These costs were recorded in the compensation and benefits expense line in our Consolidated Statement of Income.

IRSU awards are incentive awards granted to senior executives as phantom shares of Ally. The IRSU awards from 2009 and 2010 cliff vest three years from the date of grant based on continued service with Ally. The IRSU awards from 2011 vest two-thirds after two years from grant date and in full three years from grant date. The IRSU awards are paid out in 25% increments once we pay Treasury a corresponding 25% increment of our TARP obligations. The payouts are based on the fair value of the phantom shares at the time of the payout. The awards require liability treatment and are remeasured quarterly at fair value until they are paid. The compensation costs related to these awards are ratably charged to expense over the requisite service period. Changes in fair value relating to the portion of the awards that have vested and have not been paid are recognized in earnings in the period in which the changes occur. At December 31, 2011 and 2010 there were a total of 7,975 and 4,996 IRSU award shares outstanding, respectively. We recognized compensation expense related to IRSU awards of \$14 million, \$10 million and \$1 million for the years ended December 31, 2011, 2010 and 2009, respectively, for the outstanding awards. These costs were recorded in the compensation and benefits expense line in our Consolidated Statement of Income.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****27. Fair Value****Fair Value Measurements**

For purposes of this disclosure, fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market in an orderly transaction between market participants at the measurement date. Fair value is based on the assumptions market participants would use when pricing an asset or liability. Additionally, entities are required to consider all aspects of nonperformance risk, including the entity's own credit standing, when measuring the fair value of a liability.

GAAP specifies a three-level hierarchy that is used when measuring and disclosing fair value. The fair value hierarchy gives the highest priority to quoted prices available in active markets (i.e., observable inputs) and the lowest priority to data lacking transparency (i.e., unobservable inputs). An instrument's categorization within the fair value hierarchy is based on the lowest level of significant input to its valuation. The following is a description of the three hierarchy levels.

- | | |
|-----------|---|
| Level 1 | Inputs are quoted prices in active markets for identical assets or liabilities at the measurement date. Additionally, the entity must have the ability to access the active market, and the quoted prices cannot be adjusted by the entity. |
| Level 2 | Inputs are other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices in active markets for similar assets or liabilities; quoted prices in inactive markets for identical or similar assets or liabilities; or inputs that are observable or can be corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities. |
| Level 3 | Unobservable inputs are supported by little or no market activity. The unobservable inputs represent management's best assumptions of how market participants would price the assets or liabilities. Generally, Level 3 assets and liabilities are valued using pricing models, discounted cash flow methodologies, or similar techniques that require significant judgment or estimation. |
| Transfers | Transfers into or out of any hierarchy level are recognized at the end of the reporting period in which the transfer occurred. There was a transfer from Level 3 to Level 2 during 2011 of certain interest rate derivative contracts. Refer to the Level 3 recurring fair value measurements table in this note for additional information. There were no other significant transfers between any levels during the year ended December 31, 2011 or 2010. |

Following are descriptions of the valuation methodologies used to measure material assets and liabilities at fair value and details of the valuation models, key inputs to those models, and significant assumptions utilized.

Trading assets (excluding derivatives) Trading assets are recorded at fair value. Our portfolio includes MBS (including senior and subordinated interests) and may be investment-grade, noninvestment grade, or unrated securities. Valuations are primarily based on internally developed discounted cash flow models (an income approach) that use assumptions consistent with current market conditions. The valuation considers recent market transactions, experience with similar securities, current business conditions, and analysis of the underlying collateral, as available. To estimate cash flows, we utilize various significant assumptions including market observable inputs (e.g., forward interest rates) and internally developed inputs (e.g., prepayment speeds, delinquency levels, and credit losses).

Available-for-sale securities Available-for-sale securities are carried at fair value based on observable market prices, when available. If observable market prices are not available, our valuations are based on internally developed discounted cash flow models (an income approach) that use a market-based discount

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

rate and consider recent market transactions, experience with similar securities, current business conditions, and analysis of the underlying collateral, as available. To estimate cash flows, we are required to utilize various significant assumptions including market observable inputs (e.g., forward interest rates) and internally developed inputs (including prepayment speeds, delinquency levels, and credit losses).

Mortgage loans held-for-sale, net Our mortgage loans held-for-sale are accounted for at either fair value because of fair value option elections or they are accounted for at the lower-of-cost or fair value. Mortgage loans held-for-sale are typically pooled together and sold into certain exit markets depending on underlying attributes of the loan, such as GSE eligibility (domestic only), product type, interest rate, and credit quality. Two valuation methodologies are used to determine the fair value of mortgage loans held-for-sale. The methodology used depends on the exit market as described below.

Level 2 mortgage loans This includes all GSE-eligible mortgage loans carried at fair value due to fair value option election, which are valued predominantly using published forward agency prices. It also includes any domestic loans and foreign loans where recently negotiated market prices for the loan pool exist with a counterparty (which approximates fair value) or quoted market prices for similar loans are available.

Level 3 mortgage loans This includes all conditional repurchase option loans carried at fair value due to the fair value option election and all GSE-ineligible residential mortgage loans that are accounted for at the lower-of-cost or fair value. The fair value of these residential mortgage loans are determined using internally developed valuation models because observable market prices were not available. The loans are priced on a discounted cash flow basis utilizing cash flow projections from internally developed models that utilize prepayment, default, and discount rate assumptions. To the extent available, we will utilize market observable inputs such as interest rates and market spreads. If market observable inputs are not available, we are required to utilize internal inputs, such as prepayment speeds, credit losses, and discount rates.

Refer to the section within this note titled *Fair Value Option for Financial Assets and Financial Liabilities* for further information about the fair value elections.

Consumer mortgage finance receivables and loans, net We elected the fair value option for certain consumer mortgage finance receivables and loans. The elected mortgage loans collateralized on-balance sheet securitization debt in which we estimated credit reserves pertaining to securitized assets that could have exceeded or already had exceeded our economic exposure. We also elected the fair value option for all mortgage securitization trusts required to be consolidated due to the adoption of ASU 2009-17. The elected mortgage loans represent a portion of the consumer finance receivable and loans consolidated upon adoption of ASU 2009-17. The balance for which the fair value option was not elected was reported on the balance sheet at the principal amount outstanding, net of charge-offs, allowance for loan losses, and premiums or discounts.

The loans are measured at fair value using a portfolio approach. The objective in fair valuing the loans and related securitization debt is to account properly for our retained economic interest in the securitizations. As a result of reduced liquidity in capital markets, values of both these loans and the securitized bonds are expected to be volatile. Since this approach involves the use of significant unobservable inputs, we classified all the mortgage loans elected under the fair value option as Level 3. Refer to the section within this note titled *Fair Value Option of Financial Assets and Financial Liabilities* for additional information.

MSRs We typically retain MSRs when we sell assets into the secondary market. MSRs are classified as Level 3 because they currently do not trade in an active market with observable prices; therefore, we use internally developed discounted cash flow models (an income approach) to estimate the fair value. These internal valuation models estimate net cash flows based on internal operating assumptions

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

that we believe would be used by market participants combined with market-based assumptions for loan prepayment rates, interest rates, and discount rates that we believe approximate yields required by investors in this asset. Cash flows primarily include servicing fees, float income, and late fees in each case less operating costs to service the loans. The estimated cash flows are discounted using an option-adjusted spread-derived discount rate.

Derivative instruments We enter into a variety of derivative financial instruments as part of our risk management strategies. Certain of these derivatives are exchange traded, such as Eurodollar futures. To determine the fair value of these instruments, we utilize the quoted market prices for the particular derivative contracts; therefore, we classified these contracts as Level 1.

We also execute over-the-counter derivative contracts, such as interest rate swaps, swaptions, forwards, caps, floors, and agency to-be-announced securities. We utilize third-party-developed valuation models that are widely accepted in the market to value these over-the-counter derivative contracts. The specific terms of the contract and market observable inputs (such as interest rate forward curves and interpolated volatility assumptions) are used in the model. We classified these over-the-counter derivative contracts as Level 2 because all significant inputs into these models were market observable.

We also hold certain derivative contracts that are structured specifically to meet a particular hedging objective. These derivative contracts often are utilized to hedge risks inherent within certain on-balance sheet securitizations. To hedge risks on particular bond classes or securitization collateral, the derivative's notional amount is often indexed to the hedged item. As a result, we typically are required to use internally developed prepayment assumptions as an input into the model to forecast future notional amounts on these structured derivative contracts. Additionally, we hold some foreign currency derivative contracts that utilize an in-house valuation model to determine the fair value of the contracts. Accordingly, we classified these derivative contracts as Level 3.

We are required to consider all aspects of nonperformance risk, including our own credit standing, when measuring fair value of a liability. We reduce credit risk on the majority of our derivatives by entering into legally enforceable agreements that enable the posting and receiving of collateral associated with the fair value of our derivative positions on an ongoing basis. In the event that we do not enter into legally enforceable agreements that enable the posting and receiving of collateral, we will consider our credit risk and the credit risk of our counterparties in the valuation of derivative instruments through a credit valuation adjustment (CVA), if warranted. The CVA calculation utilizes our credit default swap spreads and the spreads of the counterparty.

On-balance sheet securitization debt We elected the fair value option for certain mortgage loans held-for-investment and the related on-balance sheet securitization debt. We value securitization debt that was elected pursuant to the fair value option and any economically retained positions using market observable prices whenever possible. The securitization debt is principally in the form of asset- and MBS collateralized by the underlying mortgage loans held-for-investment. Due to the attributes of the underlying collateral and current market conditions, observable prices for these instruments are typically not available. In these situations, we consider observed transactions as Level 2 inputs in our discounted cash flow models. Additionally, the discounted cash flow models utilize other market observable inputs, such as interest rates, and internally derived inputs including prepayment speeds, credit losses, and discount rates. Fair value option-elected financing securitization debt is classified as Level 3 as a result of the reliance on significant assumptions and estimates for model inputs. Refer to the section within this note titled *Fair Value Option for Financial Assets and Financial Liabilities* for further information about the election. The debt that was not elected under the fair value option is reported on the balance sheet at cost, net of premiums or discounts and issuance costs.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Recurring Fair Value**

The following tables display the assets and liabilities measured at fair value on a recurring basis including financial instruments elected for the fair value option. We often economically hedge the fair value change of our assets or liabilities with derivatives and other financial instruments. The tables below display the hedges separately from the hedged items; therefore, they do not directly display the impact of our risk management activities.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

- (a) The fair value adjustment was reported as other income, net of losses, and the related interest was reported as interest on trading assets in the Consolidated Statement of Income.
- (b) The fair value adjustment was reported as other income, net of losses, and the related interest was reported as interest and dividends on available-for-sale investment securities in the Consolidated Statement of Income.
- (c) Carried at fair value due to fair value option elections. Refer to the next section of this note titled *Fair Value Option for Financial Assets and Liabilities* for the location of the gains and losses in the Consolidated Statement of Income.
- (d) Fair value adjustment was reported as servicing-asset valuation and hedge activities, net, in the Consolidated Statement of Income.
- (e) Represents excess mortgage servicing rights transferred to an agency-controlled trust in exchange for trading securities. These securities were then sold instantaneously to third-party investors for \$266 million.
- (f) Reported as other income, net of losses, in the Consolidated Statement of Income.
- (g) Includes derivatives classified as trading.
- (h) Refer to Note 24 for information related to the location of the gains and losses on derivative instruments in the Consolidated Statement of Income.
- (i) The in-house valuations of some derivative contracts classified as Level 3 was replaced with third-party developed valuation models that are widely accepted in the market to value these over-the-counter derivative contracts. The specific terms of the contract and market observable inputs are entered into the model. We reclassified these over-the-counter derivative contracts as Level 2 because all significant inputs into these models were market observable.

- (e) Refer to Note 24 for information related to the location of the gains and losses on derivative instruments in the Consolidated Statement of Income.

Nonrecurring Fair Value

We may be required to measure certain assets and liabilities at fair value from time to time. These periodic fair value measures typically result from the application of lower-of-cost or fair value accounting or certain impairment measures. These items would constitute nonrecurring fair value measures.

The following tables display the assets and liabilities measured at fair value on a nonrecurring basis.

| December 31, 2011 (\$ in millions) | Nonrecurring fair value measurements | | | | Lower-of-cost or fair value or valuation reserve allowance | Total losses included in earnings for the year ended |
|---|---|---------|---------|--------|---|---|
| | Level 1 | Level 2 | Level 3 | Total | | |

Edgar Filing: Ally Financial Inc. - Form S-1/A

- (a) Represents loans held-for-sale that are required to be measured at the lower-of-cost or fair value. The table above includes only loans with fair values below cost during 2011. The related valuation allowance represents the cumulative adjustment to fair value of those specific assets.
- (b) We consider the applicable valuation or loan loss allowance to be the most relevant indicator of the impact on earnings caused by the fair value measurement. Accordingly, the table above excludes total gains and losses included in earnings for these items. The carrying values are inclusive of the respective valuation or loan loss allowance.
- (c) Represents the portion of the portfolio specifically impaired during 2011. The related valuation allowance represents the cumulative adjustment to fair value of those specific receivables.
- (d) The total gain (loss) included in earnings is the most relevant indicator of the impact on earnings.
- (e) The allowance provided for repossessed and foreclosed assets represents any cumulative valuation adjustment recognized to adjust the assets to fair value.

- (a) Represents loans held-for-sale that are required to be measured at the lower-of-cost or fair value. The table above includes only loans with fair values below cost during 2010. The related valuation allowance represents the cumulative adjustment to fair value of those specific assets.
- (b) We consider the applicable valuation or loan loss allowance to be the most relevant indicator of the impact on earnings caused by the fair value measurement. Accordingly, the table above excludes total gains and losses included in earnings for these items. The carrying values are inclusive of the respective valuation or loan loss allowance.
- (c) Represents the portion of the portfolio specifically impaired during 2010. The related valuation allowance represents the cumulative adjustment to fair value of those specific receivables.
- (d) Represents model homes impaired during 2010. The total loss included in earnings represents adjustments to the fair value of the portfolio based on the estimated fair value if the model home is under lease or the estimated fair value if the model home is marketed for sale.
- (e) The allowance provided for repossessed and foreclosed assets represents any cumulative valuation adjustment recognized to adjust the assets to fair value.

Fair Value Option for Financial Assets and Financial Liabilities

Edgar Filing: Ally Financial Inc. - Form S-1/A

A description of the financial assets and liabilities elected to be measured at fair value is as follows. Our intent in electing fair value for all these items was to mitigate a divergence between accounting losses and economic exposure for certain assets and liabilities.

On-balance sheet mortgage securitizations We elected to measure at fair value certain domestic consumer mortgage finance receivables and loans and the related debt held in on-balance sheet mortgage securitization structures. The fair value-elected loans are classified as finance receivable and loans, net, on the Consolidated Balance Sheet. Our policy is to separately record interest income on the fair value-elected loans (unless the loans are placed on nonaccrual status); however, the accrued interest was excluded from the fair value presentation. We classified the fair value adjustment recorded for the loans as other income, net of losses, in the Consolidated Statement of Income.

F-118

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

We continued to record the fair value-elected debt balances as long-term debt on the Consolidated Balance Sheet. Our policy is to separately record interest expense on the fair value-elected debt, which continues to be classified as interest on long-term debt in the Consolidated Statement of Income. We classified the fair value adjustment recorded for this fair value-elected debt as other income, net of losses, in the Consolidated Statement of Income.

Conforming and government-insured mortgage loans held-for-sale We elected the fair value option for conforming and government-insured mortgage loans held-for-sale funded after July 31, 2009. We elected the fair value option to mitigate earnings volatility by better matching the accounting for the assets with the related hedges.

Excluded from the fair value option were conforming and government-insured loans funded on or prior to July 31, 2009, and those repurchased or rerecognized. The loans funded on or prior to July 31, 2009, were ineligible because the election must be made at the time of funding. Repurchased and rerecognized conforming and government-insured loans were not elected because the election will not mitigate earning volatility. We repurchase or rerecognize loans due to representation and warranty obligations or conditional repurchase options. Typically, we will be unable to resell these assets through regular channels due to characteristics of the assets. Since the fair value of these assets is influenced by factors that cannot be hedged, we did not elect the fair value option.

We carry the fair value-elected conforming and government-insured loans as loans held-for-sale, net, on the Consolidated Balance Sheet. Our policy is to separately record interest income on the fair value-elected loans (unless they are placed on nonaccrual status); however, the accrued interest was excluded from the fair value presentation. Upfront fees and costs related to the fair value-elected loans were not deferred or capitalized. The fair value adjustment recorded for these loans is classified as gain on mortgage and automotive loans, net, in the Consolidated Statement of Income. In accordance with GAAP, the fair value option election is irrevocable once the asset is funded even if it is subsequently determined that a particular loan cannot be sold.

GSE-ineligible mortgage loans held-for-sale subject to conditional repurchase options As of January 1, 2011, we elected the fair value option for both GSE-ineligible mortgage loans held-for-sale subject to conditional repurchase options and the related liability. These conditional repurchase options within our private label securitizations allow us to repurchase a transferred financial asset if certain events outside our control are met. The typical conditional repurchase option is a delinquent loan repurchase option that gives us the option to purchase the loan if it exceeds a certain prespecified delinquency level. We have complete discretion regarding when or if we will exercise these options, but generally we would do so only when it is in our best interest. We record the asset and the corresponding liability on our balance sheet when the option becomes exercisable. The fair value option election must be made at initial recording. As such, the conditional repurchase option assets and liabilities recorded prior to January 1, 2011, were ineligible for the fair value election.

We carry these fair value-elected optional repurchase loan balance as loans held-for-sale, net, on the Consolidated Balance Sheet. The fair value adjustment recorded for these loans is classified as other income, net of losses, in the Consolidated Statement of Income. We carry the fair value-elected corresponding liability as accrued expenses and other liabilities on the Consolidated Balance Sheet. The fair value adjustment recorded for these liabilities are classified as other income, net of losses, in the Consolidated Statement of Income.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

The following tables summarize the fair value option elections and information regarding the amounts recorded as earnings for each fair value option-elected item.

Changes included in the Consolidated Statement of Income

| Year ended December 31, (<i>\$ in millions</i>) | Interest and fees on finance receivables and loans (a) | Interest on loans held-for-sale (a) | Interest on long-term debt (b) | Gain on mortgage and automotive loans, net | Other income, net of losses | Total included in earnings | Change in fair value due to credit risk (c) |
|--|--|-------------------------------------|--------------------------------|--|-----------------------------|----------------------------|---|
| 2011 | | | | | | | |
| Assets | | | | | | | |
| Mortgage loans held-for-sale, net | \$ | \$ 176 | \$ | \$ 908 | \$ | \$ 1,084 | \$ (d) |

| Liabilities | | | | | | | |
| Long-term debt | | | | | | | |
| On-balance sheet securitization debt | | | (116) | | (256) | (372) | (20)(f) |
| Accrued expenses and other liabilities | | | | | | | |
| Loan repurchase liabilities | | | | | 2 | 2 | |
| Total | | | | | | \$ 1,067 | |
| 2010 | | | | | | | |
| Assets | | | | | | | |
| Mortgage loans held-for-sale, net | \$ | \$ 221 | \$ | \$ 845 | \$ 3 | \$ 1,069 | \$ (d) |
| Consumer mortgage finance receivables and loans, net | 555 | | | | 1,348 | 1,903 | (8)(e) |
| Liabilities | | | | | | | |
| Long-term debt | | | | | | | |
| On-balance sheet securitization debt | | | (313) | | (1,568) | (1,881) | 29 (f) |
| Total | | | | | | \$ 1,091 | |

- (a) Interest income is measured by multiplying the unpaid principal balance on the loans by the coupon rate and the number of days of interest due.
- (b) Interest expense is measured by multiplying bond principal by the coupon rate and the number of days of interest due to the investor.
- (c) Factors other than credit quality that impact fair value include changes in market interest rates and the illiquidity or marketability in the current marketplace. Lower levels of observable data points in illiquid markets generally result in wide bid/offer spreads.

- (d) The credit impact for loans held-for-sale is assumed to be zero because the loans are either suitable for sale or are covered by a government guarantee.
- (e) The credit impact for consumer mortgage finance receivables and loans was quantified by applying internal credit loss assumptions to cash flow models.

F-120

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

- (f) The credit impact for on-balance sheet securitization debt is assumed to be zero until our economic interests in a particular securitization is reduced to zero, at which point the losses on the underlying collateral will be expected to be passed through to third-party bondholders. Losses allocated to third-party bondholders, including changes in the amount of losses allocated, will result in fair value changes due to credit. We also monitor credit ratings and will make credit adjustments to the extent any bond classes are downgraded by rating agencies. The following table provides the aggregate fair value and the aggregate unpaid principal balance for the fair value option-elected loans and long-term debt instruments.

| December 31, (<i>\$ in millions</i>) | 2011 | | 2010 | |
|--|--------------------------|----------------|--------------------------|----------------|
| | Unpaid principal balance | Fair value (a) | Unpaid principal balance | Fair value (a) |
| Assets | | | | |
| Mortgage loans held-for-sale, net | | | | |
| Total loans | \$ 3,766 | \$ 3,919 | \$ 6,354 | \$ 6,424 |
| Nonaccrual loans | 54 | 27 | 3 | 1 |
| Loans 90+ days past due (b) | 53 | 27 | | |
| Consumer mortgage finance receivables and loans, net | | | | |
| Total loans | 2,436 | 835 | 2,905 | 1,015 |
| Nonaccrual loans (c) | 506 | 209 | 586 | 260 |
| Loans 90+ days past due (b)(c) | 362 | 163 | 366 | 184 |
| Liabilities | | | | |
| Long-term debt | | | | |
| On-balance sheet securitization debt | \$ (2,559) | \$ (830) | \$ (2,969) | \$ (972) |
| Accrued expenses and other liabilities | | | | |
| Loan repurchase liabilities | (57) | (29) | | |

- (a) Excludes accrued interest receivable.

- (b) Loans 90+ days past due are also presented within the nonaccrual loan balance and the total loan balance; however, excludes government-insured loans that are still accruing interest.

- (c) The fair value of consumer mortgage finance receivables and loans is calculated on a pooled basis; therefore, we allocated the fair value of nonaccrual loans and loans 90+ days past due to individual loans based on the unpaid principal balances. For further discussion regarding the pooled basis, refer to the previous section of this note titled *Consumer mortgage finance receivables and loans, net*.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Fair Value of Financial Instruments**

The following table presents the carrying and estimated fair value of financial instruments, except for those recorded at fair value on a recurring basis presented in the previous section of this note titled *Recurring Fair Value*. When possible, we use quoted market prices to determine fair value. Where quoted market prices are not available, the fair value is internally derived based on appropriate valuation methodologies with respect to the amount and timing of future cash flows and estimated discount rates. However, considerable judgment is required in interpreting market data to develop estimates of fair value, so the estimates are not necessarily indicative of the amounts that could be realized or would be paid in a current market exchange. The effect of using different market assumptions or estimation methodologies could be material to the estimated fair values. Fair value information presented herein was based on information available at December 31, 2011, and 2010.

| December 31, (\$ in millions) | 2011 | | 2010 | |
|--|----------------|----------------------|----------------|----------------------|
| | Carrying value | Estimated fair value | Carrying value | Estimated fair value |
| Financial assets | | | | |
| Loans held-for-sale, net (a) | \$ 8,557 | \$ 8,674 | \$ 11,411 | \$ 11,449 |
| Finance receivables and loans, net (a) | 113,252 | 113,576 | 100,540 | 99,462 |
| Nonmarketable equity investments | 419 | 423 | 504 | 506 |
| Financial liabilities | | | | |
| Deposit liabilities | \$ 45,050 | \$ 45,696 | \$ 39,048 | \$ 39,303 |
| Short-term borrowings | 7,680 | 7,622 | 7,508 | 7,509 |
| Long-term debt (a)(b) | 93,434 | 92,142 | 87,181 | 88,996 |

(a) Includes financial instruments carried at fair value due to fair value option elections. Refer to the previous section of this note titled *Fair Value Option for Financial Assets and Liabilities* for further information about the fair value elections.

(b) Debt includes deferred interest for zero-coupon bonds of \$640 million and \$569 million at December 31, 2011 and 2010, respectively. The following describes the methodologies and assumptions used to determine fair value for the significant classes of financial instruments. In addition to the valuation methods discussed below, we also followed guidelines for determining whether a market was not active and a transaction was not distressed. As such, we assumed the price that would be received in an orderly transaction (including a market-based return) and not in forced liquidation or distressed sale.

Loans held-for-sale, net Refer to the previous sections of this note also titled *Loans held-for-sale, net*, for a description of methodologies and assumptions used to determine fair value.

Finance receivables and loans, net With the exception of mortgage loans held-for-investment, the fair value of finance receivables was based on discounted future cash flows using applicable spreads to approximate current rates applicable to each category of finance receivables (an income approach). The carrying value of wholesale receivables in certain markets and certain other automotive- and mortgage-lending receivables for which interest rates reset on a short-term basis with applicable market indices are assumed to approximate fair value either because of the short-term nature or because of the interest rate adjustment feature. The fair value of wholesale receivables in other markets was based on discounted future cash flows using applicable spreads to approximate current rates applicable to similar assets in those markets.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

For mortgage loans held-for-investment used as collateral for securitization debt, we used a portfolio approach to measure these loans at fair value. The objective in fair valuing these loans (which are legally isolated and beyond the reach of our creditors) and the related collateralized borrowings is to reflect our retained economic position in the securitizations. For mortgage loans held-for-investment that are not securitized, we used valuation methods and assumptions similar to those used for mortgage loans held-for-sale. These valuations consider unique attributes of the loans such as geography, delinquency status, product type, and other factors. Refer to the previous section in this note titled *Loans held-for-sale, net*, for a description of methodologies and assumptions used to determine the fair value of mortgage loans held-for-sale.

Deposit liabilities Deposit liabilities represent certain consumer and brokered bank deposits, mortgage escrow deposits, and dealer deposits. The fair value of deposits with no stated maturity is equal to their carrying amount. The fair value of fixed-maturity deposits was estimated by discounting projected cash flows based on discount factors derived from the forward interest rate swap curve.

Debt The fair value of debt was determined using quoted market prices for the same or similar issues, if available, or was based on the current rates offered to us for debt with similar remaining maturities.

28. Segment and Geographic Information

Operating segments are defined as components of an enterprise that engage in business activity from which revenues are earned and expenses incurred for which discrete financial information is available that is evaluated regularly by our chief operating decision maker in deciding how to allocate resources and in assessing performance.

We report our results of operations on a line-of-business basis through five operating segments – North American Automotive Finance operations, International Automotive Finance operations, Insurance operations, Mortgage Origination and Servicing operations, and Mortgage Legacy Portfolio and Other operations, with the remaining activity reported in Corporate and Other. The operating segments are determined based on the products and services offered and geographic considerations, and reflect the manner in which financial information is currently evaluated by management. The following is a description of each of our reportable operating segments.

North American Automotive Finance operations Provides automotive financing services to consumers and automotive dealers in the United States and Canada and includes the automotive activities of Ally Bank and ResMor Trust. For consumers, we offer retail automotive financing and leasing for new and used vehicles, and through our commercial automotive financing operations, we fund dealer purchases of new and used vehicles through wholesale or floorplan financing.

International Automotive Finance operations Provides automotive financing and full-service leasing to consumers and dealers outside of the United States and Canada. Our International Automotive Finance operations will focus the majority of new originations in five core international markets: Germany, the United Kingdom, Brazil, Mexico, and China through our joint venture.

Insurance operations Offers consumer and commercial insurance products sold primarily through the dealer channel including vehicle service contracts, commercial insurance coverage in the United States (primarily covering dealers' wholesale vehicle inventory), and personal automobile insurance in certain countries outside the United States.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Mortgage Origination and Servicing operations The principal activities include originating, purchasing, selling, and securitizing conforming and government-insured residential mortgage loans in the United States; servicing residential mortgage loans for ourselves and others; and providing collateralized lines of credit to other mortgage originators, which we refer to as warehouse lending. We also originate high-quality prime jumbo mortgage loans in the United States. We finance our mortgage loan originations primarily in Ally Bank in the United States.

Mortgage Legacy Portfolio and Other operations Primarily consists of loans originated prior to January 1, 2009, and includes noncore business activities including discontinued operations, portfolios in runoff, our mortgage reinsurance business, and cash held in the ResCap legal entity. These activities, all of which we have discontinued, included, among other things: lending to real estate developers and homebuilders in the United States and United Kingdom; and purchasing, selling, and securitizing nonconforming residential mortgage loans (with the exception of U.S. prime jumbo mortgage loans originated subsequent to January 1, 2009, which are included in our Origination and Servicing operations) in both the United States and internationally.

Corporate and Other primarily consists of our centralized corporate treasury and deposit gathering activities, such as management of the cash and corporate investment securities portfolios, short- and long-term debt, retail and brokered deposit liabilities, derivative instruments, the amortization of the discount associated with new debt issuances and bond exchanges, most notably from the December 2008 bond exchange, and the residual impacts of our corporate funds-transfer pricing (FTP) and treasury asset liability management (ALM) activities. Corporate and Other also includes our Commercial Finance Group, certain equity investments, and reclassifications and eliminations between the reportable operating segments.

We utilize an FTP methodology for the majority of our business operations. The FTP methodology assigns charge rates and credit rates to classes of assets and liabilities based on expected duration and the LIBOR swap curve plus an assumed credit spread. Matching duration allocates interest income and interest expense to these reportable segments so their respective results are insulated from interest rate risk. This methodology is consistent with our ALM practices, which includes managing interest rate risk centrally at a corporate level. The net residual impact of the FTP methodology is included within the results of Corporate and Other.

The information presented in our reportable operating segments and geographic areas tables that follow are based in part on internal allocations, which involve management judgment.

Change in Reportable Segment Information

Beginning in the fourth quarter of 2011, we began presenting our Canadian mortgage operations of ResMor Trust with Legacy Portfolio and Other operations. Previously these operations were included with Originations and Servicing operations. The change was made because the mortgage operations of ResMor Trust were classified as discontinued and held-for-sale.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Financial information for our reportable operating segments is summarized as follows.

| Year ended December 31, (\$ in millions) | Global Automotive Services | | | Mortgage (a) | | | Consolidated (d) |

| Total domestic (g) | 4,245 | (7,300) | (10,532) | 130,260 | 11,399 |
| Total | \$ 6,202 | \$ (6,909) | \$ (10,298) | \$ 171,780 | \$ 16,331 |

(a) The 2010 and 2009 balances for Asia and domestic were reclassified to conform with the 2011 presentation. These reclassifications have no impact to our consolidated financial position or results of operations.

- (b) Revenue consists of net financing revenue and total other revenue as presented in our Consolidated Statement of Income.
- (c) The domestic amounts include original issue discount amortization of \$925 million, \$1.2 billion, and \$1.1 billion for the years ended December 31, 2011, 2010, and 2009, respectively.
- (d) Identifiable assets consist of total assets excluding goodwill.
- (e) Long-lived assets consist of investment in operating leases, net, and net property and equipment.
- (f) Amounts include eliminations between our foreign operations.

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

(g) Amounts include eliminations between our domestic and foreign operations.

29. Parent and Guarantor Consolidating Financial Statements

Certain of our senior notes are guaranteed by a group of subsidiaries (the Guarantors). The Guarantors, each of which is a 100% directly owned subsidiary of Ally Financial Inc., are Ally US LLC, IB Finance Holding Company LLC, GMAC Latin America Holdings LLC, GMAC International Holdings B.V., and GMAC Continental Corporation. The Guarantors fully and unconditionally guarantee the senior notes on a joint and several basis.

The following financial statements present condensed consolidating financial data for (i) Ally Financial Inc. (on a parent company-only basis), (ii) the combined Guarantors, (iii) the combined nonguarantor subsidiaries (all other subsidiaries), (iv) an elimination column for adjustments to arrive at the information for the parent company, Guarantors, and nonguarantors on a consolidated basis, and (v) the parent company and our subsidiaries on a consolidated basis.

Investments in subsidiaries are accounted for by the parent company and the Guarantors using the equity method for this presentation. Results of operations of subsidiaries are therefore classified in the parent company's and Guarantors' investment in subsidiaries accounts. The elimination entries set forth in the following condensed consolidating financial statements eliminate distributed and undistributed income of subsidiaries, investments in subsidiaries, and intercompany balances and transactions between the parent, Guarantors, and nonguarantors.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****30. Guarantees and Commitments****Guarantees**

Guarantees are defined as contracts or indemnification agreements that contingently require us to make payments to third parties based on changes in the underlying agreements with the guaranteed parties. The following summarizes our outstanding guarantees made to third parties on our Consolidated Balance Sheet, for the periods shown.

| December 31, (<i>\$ in millions</i>) | 2011 | | 2010 | |
|--|-------------------|-----------------------------|-------------------|-----------------------------|
| | Maximum liability | Carrying value of liability | Maximum liability | Carrying value of liability |
| Default automotive repurchases | \$ 1,600 | \$ | \$ 1,274 | \$ 151 |
| Guarantees for repayment of third-party debt | | | 1,068 | 989 |
| Standby letters of credit and other guarantees | 333 | 88 | 513 | 121 |

Default Automotive Repurchases

Our International Automotive Finance operations provide certain investors in our on- and off-balance sheet arrangements (securitizations) and whole-loan transactions with repurchase commitments for loans that become contractually delinquent within a specified time from their date of origination or purchase. The maximum obligation represents the principal balance for loans sold that are covered by these stipulations. Refer to Note 11 for further information regarding our securitization trusts.

Guarantees for Repayment of Third-party Debt

Under certain arrangements, our International Automotive Finance operations guarantee the repayment of third-party debt obligations in the case of default. These guarantees are collateralized by retail loans or finance leases.

Standby Letters of Credit

Our Commercial Finance Group issues standby letters of credit to customers that represent irrevocable guarantees of payment of specified financial obligations. Third-party beneficiaries primarily utilize standby letters of credit as insurance in the event of nonperformance by our customers. Assets of the customers (i.e., trade receivables, inventory, and cash deposits) generally collateralize letters of credit. Expiration dates on letters of credit range from certain ongoing commitments that will expire during the upcoming year to terms of several years for certain letters of credit.

If nonperformance by a customer occurs for letters of credit, we can be liable for payment of the letter of credit to the beneficiary with our likely recourse being a charge back to the customer or liquidation of the collateral. The majority of customers with whom we have letter of credit exposure fall into the acceptable risk-rating category of our Commercial Finance Group's internal risk-rating system. This category is essentially at the midpoint of our risk rating classifications.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Commitments****Financing Commitments**

The contractual commitments were as follows.

| December 31, (<i>\$ in millions</i>) | 2011 | 2010 |
|--|-----------|-----------|
| Commitments to | | |
| Sell mortgages or securities (a) | \$ 12,632 | \$ 14,349 |
| Originate/purchase mortgages or securities (a) | 6,741 | 7,735 |
| Provide capital to investees (b) | 56 | 76 |
| Provide retail automotive receivables to third-parties (c) | 1,779 | |
| Warehouse and construction-lending commitments (d) | 1,018 | 1,509 |
| Home equity lines of credit (e) | 2,234 | 2,749 |
| Unused revolving credit line commitments (f) | 1,304 | 1,910 |

- (a) Amounts primarily include commitments accounted for as derivatives.
- (b) We are committed to contribute capital to certain private equity funds. The fair value of these commitments is considered in the overall valuation of the underlying assets with which they are associated.
- (c) Certain of our International Automotive Finance operations are committed to provide retail automotive receivables to third-party banks in exchange for secured debt. The transaction does not meet the definition of a sale.
- (d) The fair value of these commitments is considered in the overall valuation of the related assets.
- (e) We are committed to fund the remaining unused balances on home equity lines of credit for certain home equity loans sold into securitization structures (both on- and off-balance sheet structures) if certain deal-specific triggers are met. At December 31, 2011, the commitments to fund home equity lines of credit in off-balance sheet securitizations represented \$802 million of the total unfunded commitments of \$2.2 billion.
- (f) The unused portion of revolving lines of credit reset at prevailing market rates and, as such, approximate market value. The mortgage-lending and revolving credit line commitments contain an element of credit risk. Management reduces its credit risk for unused mortgage-lending and unused revolving credit line commitments by applying the same credit policies in making commitments as it does for extending loans. We typically require collateral as these commitments are drawn.

Lease Commitments

Future minimum rental payments required under operating leases, primarily for real property, with noncancelable lease terms expiring after December 31, 2011, are as follows.

Edgar Filing: Ally Financial Inc. - Form S-1/A

| Year ended December 31, (<i>\$ in millions</i>) | |
|---|---------------|
| 2012 | \$ 83 |
| 2013 | 69 |
| 2014 | 60 |
| 2015 | 42 |
| 2016 | 25 |
| 2017 and thereafter | 37 |
| Total minimum payment required | \$ 316 |

F-137

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

Certain of the leases contain escalation clauses and renewal or purchase options. Rental expenses under operating leases were \$105 million, \$97 million, and \$104 million in 2011, 2010, and 2009, respectively.

Contractual Commitments

We have entered into multiple agreements for information technology, marketing and advertising, and voice and communication technology and maintenance. Many of the agreements are subject to variable price provisions, fixed or minimum price provisions, and termination or renewal provisions.

| Year ended December 31, (<i>\$ in millions</i>) | |
|---|---------------|
| 2012 | \$ 291 |
| 2013 and 2014 | 418 |
| 2015 and 2016 | 47 |
| 2017 and thereafter | 21 |
| Total future payment obligations | \$ 777 |

31. Contingencies and Other Risks**Concentration with GM**

The profitability and financial condition of our operations are heavily dependent upon the performance, operations, and prospects of GM. Our preferred provider agreements with GM regarding automotive financing products for their dealers and customers extend through December 2013, unless terminated earlier in accordance with their terms.

The following table presents a summary of transactions with GM having a significant income statement effect.

| Year ended December 31, (<i>\$ in millions</i>) | 2011 | 2010 | 2009 |
|--|----------|---------|--------|
| Net financing revenue | | | |
| GM and affiliates lease residual value support North American Operations (a) | \$ (299) | \$ (82) | \$ 195 |
| GM and affiliates lease rate support North American Operations | 578 | 674 | 770 |
| Wholesale subvention and service fees from GM | 163 | 189 | 215 |
| Interest earned on wholesale settlements | | 178 | 149 |
| Other revenue | | | |
| Insurance premiums earned from GM | 122 | 155 | 159 |

(a) Represents total amount of residual support and risk sharing (incurred) earned under the residual support and risk-sharing programs.

Mortgage Foreclosure Matters**Settlements with Federal Government and State Attorneys General***Agreement*

Edgar Filing: Ally Financial Inc. - Form S-1/A

On February 9, 2012, Ally Financial Inc., ResCap, and certain other of our mortgage subsidiaries (the Ally Entities) reached an agreement in principle with the federal government, 49 state attorneys general, and 45 state banking departments with respect to investigations into procedures followed by mortgage servicing companies

F-138

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

and banks in connection with mortgage origination and servicing activities and foreclosure home sales and evictions (Settlement). The Settlement is expected to be filed as a consent judgment in the U.S. District Court for the District of Columbia. In addition, we separately reached an independent settlement with Oklahoma, which did not participate in the broader settlement described below.

The Settlement requires a payment by ResCap of approximately \$110 million to a trustee, who will then distribute these funds to federal and state governments. This amount is payable upon the filing of the consent judgment. In addition, the Ally Entities have committed to provide \$200 million towards borrower relief. This commitment for borrower relief will include loan modifications, including principal reductions, rate modifications, and refinancing for borrowers that meet certain requirements, and participation in certain other programs. Generally, if certain basic criteria are met, borrowers that are either delinquent or at imminent risk of default and owe more on their mortgages than their homes are worth could be eligible for principal reductions, and borrowers that are current on their mortgages but who owe more on their mortgage than their homes are worth could be eligible for refinancing opportunities.

We currently expect that loans totaling approximately \$550 million in outstanding unpaid principal balance will be modified in connection with these programs. This estimate was determined by identifying loans that appear to meet the program eligibility requirements, and applying various assumptions with respect to anticipated modifications. Given that we have limited historical experience upon which to base our assumptions, the actual unpaid principal balance of loans ultimately modified could be significantly different. It is possible that certain of these modified loans will be accounted for as TDRs. Refer to Note 1 for additional information related to our accounting policy for TDRs.

The Settlement provides incentives for borrower relief that is provided within the first twelve months, and all obligations must be met within three years from the date the consent judgment is filed. In addition to the foregoing, the Ally Entities will be required to implement new servicing standards relating to matters such as foreclosure and bankruptcy information and documentation, oversight, loss mitigation, limitations on fees, and related procedural matters. Compliance with these obligations will be overseen by an independent monitor, who will have authority to impose additional penalties and fines if we fail to meet established timelines or fail to implement required servicing standards.

The Settlement generally resolves potential claims arising out of origination and servicing activities and foreclosure matters, subject to certain exceptions. The Settlement does not prevent state and federal authorities from pursuing criminal enforcement actions, securities-related claims (including actions related to securitization activities and Mortgage Electronic Registration Systems, or MERS), loan origination claims, certain claims brought by the FDIC and the GSEs, and certain other matters. The Settlement also does not prevent claims that may be brought by individual borrowers.

The Settlement is subject to ongoing discussions among the parties and the completion of definitive documentation, as well as required regulatory and court approvals.

Federal Reserve Board Civil Money Penalty

On February 9, 2012, Ally Financial Inc. and ResCap also agreed with the Federal Reserve Board on a civil money penalty (CMP) of \$207 million related to the same activities that were the subject of the Settlement. This amount will be reduced dollar-for-dollar in connection with certain aspects of our satisfaction of the required monetary payment and borrower relief obligations included within the Settlement, as well as our participation in other similar programs approved by the Federal Reserve Board. While additional future cash payments related to

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

the CMP are possible if we are unable to satisfy the borrower relief requirements of the Settlement within two years, we currently expect that the full amount of the CMP will be satisfied through our commitments included within the Settlement.

Financial Impact of the Settlement and CMP

For the year ended December 31, 2011, we recognized a charge of \$230 million related to the matters described above. While we may forego future interest payments received related to modified loans that we may not have otherwise agreed without the Settlement, we do not expect the borrower relief modifications required by the Settlement will have a significant impact on future interest income or key performance metrics, including our net interest margin. Further, we do not expect that our borrower relief commitments overall will have a material adverse impact on our results of operations, financial position, or cash flows.

Other Mortgage Foreclosure Matters

Commonwealth of Massachusetts

On December 1, 2011, the Commonwealth of Massachusetts filed an enforcement action in the Suffolk County Superior Court against GMAC Mortgage and several other lender/servicers. For further details, refer to Legal Proceedings below.

Consent Order

As a result of an examination conducted by the FRB and FDIC, on April 13, 2011, each of Ally Financial Inc., Ally Bank, Residential Capital, LLC and GMAC Mortgage, LLC (collectively, the Ally Entities) entered into a Consent Order (the Consent Order) with the FRB and the FDIC. The Consent Order requires the Ally Entities to make improvements to various aspects of Ally's residential mortgage loan-servicing business, including compliance programs, internal audit, communications with borrowers, vendor management, management information systems, employee training, and oversight by the boards of the Ally Entities.

The Consent Order further requires GMAC Mortgage, LLC to retain independent consultants to conduct a risk assessment related to mortgage servicing activities and, separately, to conduct a review of certain past residential mortgage foreclosure actions. We cannot estimate the ultimate impact of any deficiencies that have been or may be identified in our historical foreclosure procedures. There are potential risks related to these matters that extend beyond potential liability on individual foreclosure actions. Specific risks could include, for example, claims and litigation related to foreclosure remediation and resubmission; claims from investors that hold securities that become adversely impacted by continued delays in the foreclosure process; the reduction in foreclosure proceeds due to delay, or by challenges to completed foreclosure sales to the extent, if any, not covered by title insurance obtained in connection with such sales; actions by courts, state attorneys general, or regulators to delay further the foreclosure process after submission of corrected affidavits, or to facilitate claims by borrowers alleging that they were harmed by our foreclosure practices (by, for example, foreclosing without offering an appropriate range of alternative home preservation options); additional regulatory fines, sanctions, and other additional costs; and reputational risks. To date we have borne all out-of-pocket costs associated with the remediation rather than passing any such costs through to investors for whom we service the related mortgages, and we expect that we will continue to do so.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)****Loan Repurchases and Obligations Related to Loan Sales****Overview**

Certain mortgage companies (Mortgage Companies) within our Mortgage operations sell loans that take the form of securitizations guaranteed by the GSEs, securitizations to private investors, and to whole-loan investors. In connection with a portion of our Mortgage Companies private-label securitizations, the monolines insured all or some of the related bonds and guaranteed timely repayment of bond principal and interest when the issuer defaults. In connection with securitizations and loan sales, the trustee for the benefit of the related security holders and, if applicable, the related monoline insurer, are provided various representations and warranties related to the loans sold. The specific representations and warranties vary among different transactions and investors but typically relate to, among other things, the ownership of the loan, the validity of the lien securing the loan, the loan's compliance with the criteria for inclusion in the transaction, including compliance with underwriting standards or loan criteria established by the buyer, the ability to deliver required documentation and compliance with applicable laws. In general, the representations and warranties described above may be enforced against the applicable Mortgage Companies at any time unless a sunset provision is in place. Upon discovery of a breach of a representation or warranty, the breach is corrected in a manner conforming to the provisions of the sale agreement. This may require the applicable Mortgage Companies to repurchase the loan, indemnify the investor for incurred losses, or otherwise make the investor whole. We have entered into settlement agreements with both Fannie Mae and Freddie Mac that, subject to certain exclusions, limit our remaining exposure with the GSEs. See Government-sponsored Enterprises below. ResCap assumes all of the customary mortgage representation and warranty obligations for loans purchased from Ally Bank and subsequently sold into the secondary market, generally through securitizations guaranteed by the GSEs. In the event ResCap fails to meet these obligations, Ally Financial Inc. has provided Ally Bank a guaranteed coverage of certain of these liabilities.

Originations

The total exposure of the applicable Mortgage Companies to mortgage representation and warranty claims is most significant for loans originated and sold between 2004 through 2008, specifically the 2006 and 2007 vintages that were originated and sold prior to enhanced underwriting standards and risk-mitigation actions implemented in 2008 and forward. Since 2009, we have focused primarily on originating domestic prime conforming and government-insured mortgages. In addition, we ceased offering interest-only jumbo mortgages in 2010. Representation and warranty risk-mitigation strategies include, but are not limited to, pursuing settlements with investors where economically beneficial in order to resolve a pipeline of demands in lieu of loan-by-loan assessments that could result in repurchasing loans, aggressively contesting claims we do not consider valid (rescinding claims), or seeking recourse against correspondent lenders from whom we purchased loans wherever appropriate.

Repurchase Process

After receiving a claim under representation and warranty obligations, the applicable Mortgage Companies will review the claim to determine the appropriate response (e.g. appeal and provide or request additional information) and take appropriate action (rescind, repurchase the loan, or remit indemnification payment). Historically, repurchase demands were generally related to loans that became delinquent within the first few years following origination. As a result of market developments over the past several years, investor repurchase demand behavior has changed significantly. GSEs and investors are more likely to submit claims for loans at any point in their life cycle, including requests for loans that become delinquent or loans that incur a loss. Investors are more likely to submit claims for loans that become delinquent at any time while a loan is outstanding or when

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

a loan incurs a loss. Representation and warranty claims are generally reviewed on a loan-by-loan basis to validate if there has been a breach requiring a potential repurchase or indemnification payment. The applicable Mortgage Companies actively contest claims to the extent they are not considered valid. The applicable Mortgage Companies are not required to repurchase a loan or provide an indemnification payment where claims are not valid.

The risk of repurchase or indemnification and the associated credit exposure is managed through underwriting and quality assurance practices and by servicing mortgage loans to meet investor standards. We believe that, in general, the longer a loan performs prior to default the less likely it is that an alleged breach of representation and warranty will be found to have a material and adverse impact on the loan's performance. When loans are repurchased, the applicable Mortgage Companies bear the related credit loss on the loans. Repurchased loans are classified as held-for-sale and initially recorded at fair value.

The following table presents the total number and original unpaid principal balance of loans related to unresolved representation and warranty demands (indemnification claims or repurchase demands). The table includes demands that we have requested be rescinded but which have not been agreed to by the investor.

| December 31, (\$ in millions) | 2011 | | 2010 | |
|---|-----------------|------------------------|-----------------|------------------------|

| GSEs | 357 | \$ 71 | 833 | \$170(a) |
| Monolines | | | | |
| MBIA | 7,314 | 490 | 6,819 | 466 |
| FGIC | 4,608 | 369 | 1,109 | 164 |
| Other | 730 | 58 | 278 | 31 |
| Whole-loan/other | 513 | 81 | 392 | 88 |
| Total number of loans and unpaid principal balance (b) | 13,522 | \$ 1,069 | 9,431 | \$ 919 |

(a) This amount is gross of any loans that would be removed due to the Fannie Mae settlement. At December 31, 2010, \$48 million of outstanding claims were covered under the Fannie Mae settlement agreement.

(b) Excludes certain populations where counterparties have requested additional documentation.

We are currently in litigation with MBIA Insurance Corporation (MBIA) and Financial Guaranty Insurance Company (FGIC) with respect to certain of their private-label securitizations. Historically we have requested that most of the repurchase demands presented to us by both MBIA and FGIC be rescinded, consistent with the repurchase process described above. As the litigation process proceeds, additional loan reviews are expected and will likely result in additional repurchase demands.

Representation and Warranty Obligation Reserve Methodology

The liability for representation and warranty obligations reflects management's best estimate of probable lifetime losses at the applicable Mortgage Companies. We consider historical and recent demand trends in establishing the reserve. The methodology used to estimate the reserve considers a variety of assumptions including borrower performance (both actual and estimated future defaults), repurchase demand behavior, historical loan defect experience, historical mortgage insurance rescission experience, and historical and estimated future loss experience, which includes projections of future home price changes as well as other

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

qualitative factors including investor behavior. In cases where we do not have or have limited current or historical demand experience with an investor, it is difficult to predict and estimate the level and timing of any potential future demands. In such cases, we may not be able to reasonably estimate losses, and a liability is not recognized. Management monitors the adequacy of the overall reserve and makes adjustments to the level of reserve, as necessary, after consideration of other qualitative factors including ongoing dialogue and experience with counterparties.

At the time a loan is sold, an estimate of the fair value of the liability is recorded and classified in accrued expenses and other liabilities on our Consolidated Balance Sheet and recorded as a component of gain (loss) on mortgage and automotive loans, net, in our Consolidated Statement of Income. We recognize changes in the liability when additional relevant information becomes available. Changes in the liability are recorded as other operating expenses in our Consolidated Statement of Income. The repurchase reserve at December 31, 2011 relates primarily to non-GSE exposure.

The following tables summarize the changes in our reserve for representation and warranty obligations.

| <i>(\$ in millions)</i> | 2011 | 2010 |
|---|-------------|-------------|
| Balance at January 1, | \$ 830 | \$ 1,263 |
| Provision for mortgage representation and warranty expenses | | |
| Loan sales | 19 | 70 |
| Change in estimate continuing operations | 324 | 670 |
| Total additions | 343 | 740 |
| Resolved claims (a) | (360) | (1,185) |
| Recoveries | 12 | 12 |
| Balance at December 31, | \$ 825 | \$ 830 |

(a) Includes principal losses and accrued interest on repurchased loans, indemnification payments, and settlements with counterparties.

Government-sponsored Enterprises

Between 2004 and 2008, the applicable Mortgage Companies sold \$250.8 billion of loans to the GSEs. Each GSE has specific guidelines and criteria for sellers and servicers of loans underlying their securities. In addition, the risk of credit loss of the loan sold was generally transferred to investors upon sale of the securities into the secondary market. Conventional conforming loans were sold to either Freddie Mac or Fannie Mae, and government-insured loans were securitized with Ginnie Mae. For the year ended December 31, 2011, the applicable Mortgage Companies received repurchase claims relating to \$441 million of original unpaid principal balance of which \$285 million are associated with the 2004 through 2008 vintages. The remaining \$156 million in repurchase claims relate to post-2008 vintages. During the year ended December 31, 2011, the applicable Mortgage Companies resolved claims with respect to \$540 million of original unpaid principal balance, including settlement, repurchase, or indemnification payments related to \$349 million of original unpaid principal balance, and rescinded claims related to \$191 million of original unpaid principal balance. The applicable Mortgage Companies' representation and warranty obligation liability with respect to the GSEs considers the existing unresolved claims and the best estimate of future claims that could be received. The Mortgage Companies consider their experience with the GSE in evaluating its liability. During 2010, we reached agreements with Freddie Mac and Fannie Mae that, subject to certain exclusions, limits the remaining exposure of the applicable Mortgage Companies to each counterparty.

Table of Contents**ALLY FINANCIAL INC.****Notes to Consolidated Financial Statements (Continued)**

In March 2010, certain of our Mortgage Companies entered into an agreement with Freddie Mac under which we made a one-time payment to Freddie Mac for the release of repurchase obligations relating to most of the mortgage loans sold to Freddie Mac prior to January 1, 2009. This agreement does not release obligations of the applicable Mortgage Companies with respect to exposure for private-label MBS in which Freddie Mac had previously invested, loans where Ally Bank is the owner of the servicing, as well as defects in certain other specified categories of loans. Further, the applicable Mortgage Companies continue to be responsible for other contractual obligations we have with Freddie Mac, including all indemnification obligations that may arise in connection with the servicing of the mortgages. The total original unpaid principal balance of loans originated prior to January 1, 2009 and where Ally Bank was the owner of the servicing was \$10.9 billion. For the year ended December 31, 2011, the amount of losses taken on loans repurchased relating to defects where Ally Bank was the owner of the servicing was \$31 million and the amount of losses taken on loans that we have repurchased relating to defects in the other specified categories was \$15 million. These other specified categories include (i) loans subject to certain state predatory lending and similar laws; (ii) groups of 25 or more mortgage loans purchased, originated, or serviced by one of our mortgage subsidiaries, the purchase, origination, or sale of which all involve a common actor who committed fraud; (iii) non-loan-level representations and warranties which refer to representations and warranties that do not relate to specific mortgage loans (examples of such non-loan-level representations and warranties include the requirement that our mortgage subsidiaries meet certain standards to be eligible to sell or service loans for Freddie Mac or our mortgage subsidiaries sold or serviced loans for market participants that were not acceptable to Freddie Mac); and (iv) mortgage loans that are ineligible for purchase by Freddie Mac under its charter and other applicable documents. If, however, a mortgage loan was ineligible under Freddie Mac's charter solely because mortgage insurance was rescinded (rather than for example, because the mortgage loan is secured by a commercial property), and Freddie Mac required our mortgage subsidiary to repurchase that loan because of the ineligibility, Freddie Mac would pay our mortgage subsidiary any net loss we suffered on any later liquidation of that mortgage loan.

Certain of our Mortgage Companies received subpoenas in July 2010 from the Federal Housing Finance Agency (FHFA), which is the conservator of Fannie Mae and Freddie Mac. The subpoenas relating to Fannie Mae investments have been withdrawn with prejudice. The FHFA indicated that documents provided in response to the remaining subpoenas will enable the FHFA to determine whether they believe issuers of private-label MBS are potentially liable to Freddie Mac for losses they might have incurred. Although Freddie Mac has not brought any representation and warranty claims against us with respect to private-label securities subsequent to the settlement, they may well do so in the future. The FHFA has commenced securities and related common law fraud litigation against Ally and certain of our Mortgage Companies with respect to certain of Freddie Mac's private-label securities investments. Refer to the Legal Proceedings described below for additional information.

On December 23, 2010, certain of our mortgage subsidiaries entered into an agreement with Fannie Mae under which we made a one-time payment to Fannie Mae for the release of repurchase obligations related to most of the mortgage loans we sold to Fannie Mae prior to June 30, 2010. The agreement also covers potential exposure for private-label MBS in which Fannie Mae had previously invested. This agreement does not release the obligations of the applicable Mortgage Companies with respect to loans where Ally Bank is the owner of the servicing, as well as for defects in certain other specified categories of loans. Further, the applicable Mortgage Companies continue to be responsible for other contractual obligations they have with Fannie Mae, including all indemnification obligations that may arise in connection with the servicing of the mortgages, and the applicable Mortgage Companies continue to be obligated to indemnify Fannie Mae for litigation or third party claims (including by borrowers) for matters that may amount to breaches of selling representations and warranties. The total original unpaid principal balance of loans originated prior to January 1, 2009 and where Ally Bank was the owner of the servicing was \$24.4 billion. For the year ended December 31, 2011, the amount of losses we have taken on loans that we have repurchased relating to defects where Ally Bank was the owner of

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

the servicing was \$66 million and the amount of losses we have taken on loans that we have repurchased relating to defects in the other specified categories of loans was \$13 million. These other specified categories include, among others, (i) those that violate anti-predatory laws or statutes or related regulations or that otherwise violate other applicable laws and regulations; (ii) those that have non-curable defects in title to the secured property, or that have curable title defects, to the extent our mortgage subsidiaries do not cure such defects at our subsidiary's expense; (iii) any mortgage loan in which title or ownership of the mortgage loan was defective; (iv) groups of 13 or more mortgage loans, the purchase, origination, sale, or servicing of which all involve a common actor who committed fraud; and (v) mortgage loans not in compliance with Fannie Mae Charter Act requirements (e.g., mortgage loans on commercial properties or mortgage loans without required mortgage insurance coverage). If a mortgage loan falls out of compliance with Fannie Mae Charter Act requirements because mortgage insurance coverage has been rescinded and not reinstated or replaced, upon the borrower's default our mortgage subsidiaries would have to pay to Fannie Mae the amount of insurance proceeds that would have been paid by the mortgage insurer with respect to such mortgage loan. If the amount of the loss exceeded the amount of insurance proceeds, Fannie Mae would be responsible for such excess.

Monoline Insurers

Historically, the applicable Mortgage Companies securitized loans where the monolines insured all or some of the related bonds and guaranteed the timely repayment of bond principal and interest when the issuer defaults. Typically, any alleged breach requires the insurer to have both the ability to assert a claim as well as evidence that a defect has had a material and adverse effect on the interest of the security holders or the insurer. For the period 2004 through 2007, the Mortgage Companies sold \$42.7 billion of loans into these monoline-wrapped securitizations. During the year ended December 31, 2011, the Mortgage Companies received repurchase claims related to \$265 million of original unpaid principal balance from the monolines associated with the 2004 through 2007 securitizations. The Mortgage Companies have resolved repurchase demands through indemnification payments related to \$20 million of original unpaid principal balance.

We are currently in litigation with MBIA and FGIC, and additional litigation with other monolines is likely.

Private-label Securitization

In general, representations and warranties provided as part of our securitization activities are less rigorous than those provided to the GSEs and generally impose higher burdens on parties seeking repurchase. In order to successfully assert a claim, it is our position that a claimant must prove a breach of the representations and warranties that materially and adversely affects the interest of the investor in the allegedly defective loan. Securitization documents typically provide the investors with a right to request that the trustee investigate and initiate a repurchase claim. However, a class of investors generally is required to coordinate with other investors in that class comprising not less than 25%, and in some cases, 50%, of the percentage interest constituting a class of securities of that class issued by the trust to pursue claims for breach of representations and warranties. In addition, our private-label securitizations generally require that the servicer or trustee give notice to the other parties whenever it becomes aware of facts or circumstances that reveal a breach of representation that materially and adversely affects the interest of the certificate holders.

Regarding our securitization activities, certain of our Mortgage Companies have exposure to potential losses primarily through two avenues. First, investors, through trustees to the extent required by the applicable agreements (or monoline insurers in certain transactions), may request pursuant to applicable agreements that the applicable Mortgage Company repurchase loans or make the investor whole for losses incurred if it is determined that the applicable Mortgage Company violated representations and warranties made at the time of the sale,

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

provided that such violations materially and adversely impacted the interests of the investor. Contractual representations and warranties are different based on the specific deal structure and investor. It is our position that litigation of these matters must proceed on a loan by loan basis. This issue is being disputed throughout the industry in various pending litigation matters. Similarly in dispute, as a matter of law, is the degree to which claimants will have to prove that the alleged breaches of representations and warranties actually caused the losses they claim to have suffered. Ultimate resolution by courts of these and other legal issues will impact litigation and treatment of non-litigated claims pursuant to similar contractual provisions. Second, investors in securitizations may attempt to achieve rescission of their investments or damages through litigation by claiming that the applicable offering documents were materially deficient. If an investor properly made and proved its allegations, the investor might attempt to claim that damages could include loss of market value on the investment even if there were little or no credit loss in the underlying loans.

Whole-loan Sales

In addition to the settlements with the GSEs noted earlier, certain of our Mortgage Companies have settled with whole-loan investors concerning alleged breaches of underwriting standards. For the year ended December 31, 2011, certain of our Mortgage Companies have received \$84 million of original unpaid principal balance in repurchase claims of which \$83 million are associated with the 2004 through 2008 vintages of loans sold to whole-loan investors. Certain of our Mortgage Companies resolved claims related to \$91 million of original unpaid principal balance, including settlements, repurchases, indemnification payments, and rescinded claims.

Private Mortgage Insurance

Mortgage insurance is required for certain consumer mortgage loans sold to the GSEs and certain securitization trusts and may have been in place for consumer mortgage loans sold to whole-loan investors. Mortgage insurance is typically required for first-lien consumer mortgage loans having a loan-to-value ratio at origination of greater than 80 percent. Mortgage insurers are, in certain circumstances, permitted to rescind existing mortgage insurance that covers consumer loans if they demonstrate certain loan underwriting requirements have not been met. Upon receipt of a rescission notice, the applicable Mortgage Companies will assess the notice and, if appropriate, refute the notice, or if the notice cannot be refuted, the applicable Mortgage Companies attempt to remedy the defect. In the event the mortgage insurance cannot be reinstated, the applicable Mortgage Companies may be obligated to repurchase the loan or provide an indemnification payment in the event of a loss, subject to contractual limitations. While the applicable Mortgage Companies make every effort to reinstate the mortgage insurance, they have had limited success and as a result, most of these requests result in rescission of the mortgage insurance. At December 31, 2011, the applicable Mortgage Companies have approximately \$227 million in original unpaid principal balance of outstanding mortgage insurance rescission notices where we have not received a repurchase demand. However, this unpaid principal amount is not representative of expected future losses.

Legal Proceedings

We are subject to potential liability under various governmental proceedings, claims, and legal actions that are pending or otherwise asserted against us. We are named as defendants in a number of legal actions, and we are occasionally involved in governmental proceedings arising in connection with our respective businesses. Some of the pending actions purport to be class actions, and certain legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. We establish reserves for legal claims when payments associated with the claims become probable and the payments can be reasonably

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

estimated. Given the inherent difficulty of predicting the outcome of litigation and regulatory matters, it is generally very difficult to predict what the eventual outcome will be, and when the matter will be resolved. The actual costs of resolving legal claims may be higher or lower than any amounts reserved for the claims.

Mortgage-backed Securities Litigation

Private-label Securities Litigation

Ally and certain of its subsidiaries have been named as defendants in several cases relating to their various roles in MBS offerings. The plaintiffs generally allege that the various defendants made misstatements and omissions in registration statements, prospectuses, prospectus supplements, and other documents related to MBS offerings. The alleged misstatements and omissions typically concern underwriting standards. Plaintiffs generally claim that such misstatements and omissions constitute violations of state and/or federal securities law and common law including negligent misrepresentation and fraud. Plaintiffs seek monetary damages and rescission. Set forth below are descriptions of certain of these legal proceedings.

Allstate Litigation

On February 14, 2011, the Allstate Insurance Company and various of its subsidiaries and affiliates (collectively, Allstate) filed a complaint in Hennepin County District Court, Minnesota, against GMAC Mortgage LLC (GMAC Mortgage); Residential Funding Company LLC (RFC); Residential Funding Securities LLC (RFS); Residential Accredited Loans, Inc. (RALI); Residential Asset Mortgage Products, Inc. (RAMP); Residential Funding Mortgage Securities I, Inc. (RFMSI); Residential Funding Mortgage Securities II, Inc. (RFMSII); and Residential Asset Securities Corporation (RASC). The complaint alleges that the defendants misrepresented the riskiness and credit quality of, and omitted material information related to, residential MBS Allstate purchased in the offering materials. The complaint asserts claims for fraud and negligent misrepresentation and seeks money damages and costs, including attorneys' fees. Discovery in this case is underway.

Charles Schwab Litigation

The Charles Schwab Corporation (Schwab) filed a complaint in San Francisco County Superior Court against RALI, and RAMP, on August 2, 2010. The complaint alleges that the defendants made false representations and omissions of material facts in the offering documents for various securitization trusts backed by residential mortgage loans and seeks rescission and money damages for negligent misrepresentation and violations of state and federal securities laws. The case is entering the discovery phase.

DZ Bank

DZ Bank and DG Holding Trust filed a Summons with Notice on December 13, 2011, in New York County Supreme Court directed at Ally, and numerous of its mortgage subsidiaries, on December 13, 2011, in New York County Supreme Court against numerous defendants including Ally; Residential Capital Corporation (RCC); GMAC-RFC Holding Company LLC (GMAC-RFC); RFC; Ally Securities LLC (Ally Securities); RAMP; RASC; and RALI. The Summons alleges that the offering materials issued by the defendants for MBS they purchased contained material misrepresentations and omissions related to the originator's underwriting guidelines and the credit quality and characteristics of the mortgage loans underlying the securities. It also notifies the defendants of the plaintiffs' claims for damages. Such claims include common law fraud, fraudulent inducement, negligent misrepresentation, and aiding and abetting fraud. The Summons has not been served.

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

FHFA Litigation

FHFA, as conservator for Freddie Mac, filed a complaint on September 2, 2011, against Ally; GMAC Mortgage Group, Inc. (GMAC Mortgage Group); Residential Capital LLC (ResCap); GMAC-RFC; RFC; Ally Securities; RAMP; RASC; and RALI, in New York County Supreme Court. The complaint alleges that Freddie Mac purchased over \$6 billion of residential MBS issued in connection with 21 securitizations sponsored and/or underwritten by the defendants. It further alleges that the registration statements, prospectuses, and other offering materials associated with these transactions contained false and misleading statements and omissions of material facts. The complaint asserts claims for negligent misrepresentation, fraud, and violations of state and federal securities laws, and seeks rescission and recovery of the consideration Freddie Mac paid for the securities, as well as other compensatory and punitive damages. The FHFA has moved to remand this case to state court. That motion is still pending.

FHLB Litigation

Federal Home Loan Bank (FHLB) of Indianapolis filed an Amended Complaint in Marion County Superior Court for rescission and damages on July 14, 2011, asserting claims for common law negligence and violations of state and federal securities laws, and names RFS, RFMSI, and GMAC Mortgage Group, among other defendants. The complaint alleges that the offering documents for the securities underwritten and issued by the defendants contained material misrepresentations of fact, evidenced by high default and foreclosure rates, and seeks unspecified damages and an order voiding the transactions at issue. The defendants' motion to dismiss is pending.

FHLB of Boston filed a complaint on April 20, 2011, in Suffolk County Superior Court, naming numerous defendants including Ally; GMAC Mortgage Group; RALI; and RFC. The complaint alleges that the defendants collectively packaged, marketed, offered, and sold private-label MBS, and FHLB of Boston purchased such securities in reliance upon misstatements and omissions of material facts in the offering documents. The complaint seeks rescission and damages for negligent misrepresentation and violations of the Massachusetts Uniform Securities Act, among other claims. The defendants removed this case to federal court, and FHLB of Boston's motion to remand is pending.

Finally, FHLB of Chicago filed a Corrected Amended Complaint for Rescission and Damages on October 15, 2011, in Cook County Circuit Court, which names, among other defendants, Ally; GMAC Mortgage Group; RFC; RFS; RAMP; RASC; and RFMSI. The complaint alleges that the offering documents for the securities underwritten and issued by defendants contained material misrepresentations of fact and asserts claims for violations of state securities law and negligent misrepresentation. The complaint seeks rescission of the transactions at issue and damages in an amount to be determined at trial. The defendants' motion to dismiss is pending.

Huntington Bancshares Litigation

Huntington Bancshares, Inc. (Huntington), commenced a lawsuit on October 11, 2011, against Ally; GMAC Mortgage; RALI; ResCap; GMAC-RFC; RFC; Ally Securities; and several individuals. The complaint alleges that the defendants made misrepresentations and omissions of material facts related to the originator's loan underwriting guidelines in the offering materials for five residential mortgaged-backed securities. The complaint asserts claims for fraud, aiding and abetting fraud, negligent misrepresentation, and violation of the Minnesota Securities Act and seeks rescission, money damages, and costs. The defendants' motion to dismiss is pending.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Massachusetts Mutual Life Insurance Company Litigation

On February 9, 2011, the Massachusetts Mutual Life Insurance Company (MassMutual) filed a complaint in the United States District Court for the District of Massachusetts against numerous defendants including RFC; RALI; RAMP; RASC; and RFS. The complaint alleges that the defendants' public filings and offering documents associated with MBS MassMutual purchased contained false statements and omissions of material facts. MassMutual asserts claims for violations of the Massachusetts Uniform Securities Act and seeks both compensatory and statutory damages. The defendants' motion to dismiss was granted in February 2012, subject to certain additional provisions, which could result in certain of the original counts being reinstated against certain Ally entities.

NCUAB Litigation

On August 9, 2011, the National Credit Union Administration Board (NCUAB) filed a complaint as liquidating agent of U.S. Central Federal Credit Union (U.S. Central) and Western Corporate Federal Credit Union (WesCorp) against Goldman, Sachs & Co. as underwriter and seller, and Fremont Mortgage Securities Corp., GS Mortgage Securities Corp., Long Beach Securities Corp., and RALI, as issuers, of certain residential MBS purchased by U.S. Central and WesCorp. Previously, on June 20, 2011, the NCUAB filed a complaint as liquidating agent of U.S. Central Federal Credit Union (U.S. Central) against numerous defendants including RFMSII. The complaints assert claims under the California securities laws and Sections 11 and 12 of the Securities Act of 1933, alleging the offering documents associated with the underlying transactions contained untrue statements and omissions of material facts, and seek money damages and costs. The defendants have moved to dismiss both complaints, and those motions are pending.

New Jersey Carpenters Litigation

On January 3, 2011, New Jersey Carpenters Health Fund, New Jersey Carpenters Vacation Fund, and Boilermaker Blacksmith National Pension Trust, on behalf of themselves and a putative class (collectively, New Jersey Carpenters), filed a Consolidated Second Amended Securities Class Action Complaint against numerous defendants including ResCap; Residential Funding LLC, RALI; and Residential Funding Securities Corporation d/b/a GMAC RFC Securities. The complaint alleges that the plaintiffs and the class purchased MBS between June 28, 2006, and May 30, 2007, and asserts that the offering documents associated with these transactions contained misrepresentations and omitted material information in violation of Sections 11, 12, and 15 of the Securities Act of 1933. The complaint seeks compensatory damages, rescission or a rescissory measure of damages, and attorneys' fees and costs, among other relief. New Jersey Carpenters moved for class certification. The court denied the plaintiffs' motion, and an appeal from that decision is pending.

Private-label Monoline Bond Insurer Claims

MBIA Litigation

MBIA Insurance Corporation (MBIA) filed complaints on December 4, 2008, and April 1, 2010, in the New York County Supreme Court, entitled MBIA Insurance Corporation v. RFC, and MBIA Insurance Corporation v. GMAC Mortgage, respectively. The complaints allege that defendants breached their contractual representations and warranties relating to the characteristics of mortgage loans contained in certain insured MBS offerings. The complaints further allege that defendants failed to follow specific remedy procedures set forth in the contracts and improperly serviced the mortgage loans. Along with claims for breach of contract, MBIA also alleges fraud. MBIA seeks, among other remedies, repurchase of certain loans, payments on current and future claims under the relevant policies, indemnification for attorneys' fees and costs, and punitive damages. Both cases are in fact discovery.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

FGIC Litigation

FGIC filed three complaints on November 29, 2011, against several of Ally's mortgage subsidiaries in New York County Supreme Court. In two of these cases, both entitled Financial Guaranty Insurance Company v. RFC, et al., FGIC alleges that defendants RFC and ResCap breached their contractual representations and warranties relating to the characteristics of the mortgage loans contained in certain insured MBS offerings. FGIC further alleges that the defendants breached their contractual obligations to permit access to loan files and certain books and records.

In the third case, entitled Financial Guaranty Insurance Company v. GMAC Mortgage, et al., FGIC makes similar contract allegations against GMAC Mortgage and ResCap, as well as a claim against GMAC Mortgage for fraudulent inducement. In addition, FGIC alleges aiding and abetting fraudulent inducement against Ally Bank, which originated a large portion of the loans in the disputed pool, and breach of the custodial agreement for failing to notify FGIC of the claimed breaches of representations and warranties. In each of these cases, FGIC seeks, among other relief, reimbursement of all sums it paid under the various policies and an award of legal, rescissory, equitable, and punitive damages.

On December 15, 2011, FGIC filed a fourth complaint in New York County Supreme Court related to insurance policies issued in connection with an RFC-sponsored transaction. This complaint, entitled Financial Guaranty Insurance Company v. Ally, et al., names Ally, RFC, and ResCap, and seeks various forms of declaratory and monetary relief. The complaint alleges that the defendants are alter egos of one another, fraudulently induced FGIC's agreement to provide insurance by misrepresenting the nature of RFC's business practices and the credit quality and characteristics of the underlying loans, and have now materially breached their agreement with FGIC by refusing its requests for information and documents.

Finally, on December 27, 2011, FGIC filed three additional complaints in New York County Supreme Court against Ally, RFC, and ResCap. These complaints seek relief nearly identical to that of FGIC's previously filed cases and contain substantially similar allegations. In particular, FGIC alleges that the defendants, acting as alter egos of each other, fraudulently induced FGIC to enter into seven separate insurance and indemnity agreements and breached their contractual obligations under same.

The defendants removed these cases to the U.S. District Court for the Southern District of New York.

Other Matters

Kessler Litigation

Several putative class actions filed in 2001-2003, all alleging that originators Community Bank of Northern Virginia and Guaranty National Bank of Tallahassee charged certain interest rates and fees in violation of the applicable Secondary Mortgage Loan Act, were consolidated for settlement purposes in the U.S. District Court for the Western District of Pennsylvania. On September 22, 2010, the Third Circuit Court of Appeals vacated an order approving the settlement and remanded the case to the trial court for further proceedings. On October 10, 2011, plaintiffs filed a joint consolidated amended class action complaint against, among others, RFC alleging violations of the Real Estate Settlement Procedures Act; the Truth in Lending Act, as amended by the Home Ownership and Equity Protection Act; and the Racketeer Influenced and Corrupt Organizations Act. RFC's motion to dismiss is outstanding, and we intend to vigorously defend against these claims.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Mitchell Litigation

In this statewide class action, plaintiffs alleged that Mortgage Capital Resources, Inc. (MCR) violated the Missouri Second Mortgage Loan Act by charging Missouri borrowers fees and interest not permitted by the Act. RFC and Homecomings Financial LLC (HFN), among others, were named as defendants in their role as assignees of certain of the MCR loans. Following a trial concluded in January 2008, the jury returned verdicts against all defendants, including an award against RFC and HFN for \$4 million in compensatory damages (plus pre- and post-judgment interest and attorneys' fees) and against RFC for \$92 million in punitive damages. In a November 2010 decision, the Missouri Court of Appeals affirmed the compensatory damages but ordered a new trial on punitive damages. Upon remand, we paid \$13 million in compensatory damages (including interest and attorneys' fees). Trial on punitive damages against RFC and the other non-company defendants is set to begin on March 5, 2012. We intend to vigorously defend against these claims.

Commonwealth of Massachusetts

On December 1, 2011, the Commonwealth of Massachusetts filed an enforcement action in the Suffolk County Superior Court against GMAC Mortgage and several other lender/servicers. The Commonwealth claims that certain aspects of defendants' foreclosure processes are unlawful, that defendants do not always process loan modifications accurately, and that defendants' use of the Mortgage Electronic Registration Systems (MERS) has damaged the integrity of the Commonwealth's Torrens recording system. The Commonwealth seeks civil penalties, injunctive relief, costs, and attorneys' fees. In connection with the settlement with the federal government and state attorneys general announced on February 9, 2012, the Commonwealth of Massachusetts agreed to settle all servicing-related claims asserted in this action and to certain limits on monetary damages, if any. However, the Commonwealth of Massachusetts continues to pursue claims related to MERS and certain foreclosure-related matters.

Potential Losses Litigation, Repurchase Obligations, and Related Claims

Litigation

As described under Legal Proceedings above, Ally and certain of its subsidiaries have been named as defendants in several cases relating to their various roles in MBS offerings.

Private-label Securitizations Other Potential Repurchase Obligations

When our Mortgage Companies sell mortgage loans through whole-loan sales or securitizations, these entities are required to make customary representations and warranties about the loans to the purchaser and/or securitization trust. These representations and warranties relate to, among other things, the ownership of the loan, the validity of the lien securing the loan, the loan's compliance with the criteria for inclusion in the transaction, including compliance with underwriting standards or loan criteria established by the buyer, ability to deliver required documentation, and compliance with applicable laws. Generally, the representations and warranties described above may be enforced against the applicable Mortgage Companies at any time over the life of the loan. Breaches of these representations and warranties have resulted in a requirement that the applicable Mortgage Companies repurchase mortgage loans. As the mortgage industry continues to experience higher repurchase requirements and additional investors begin to attempt to put back loans, a significant increase in activity beyond that experienced today could occur, resulting in additional future losses at our Mortgage Companies.

Table of Contents

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

Potential Losses

We believe it is reasonably possible that losses beyond amounts currently reserved for the litigation matters and potential repurchase obligations and related claims described above with respect to our Mortgage Companies could occur, and such losses could have a material adverse impact on our results of operations, financial position, or cash flows. However, based on currently available information, we are unable to estimate a range of reasonably possible losses above reserves that have been established.

Other Contingencies

We are subject to potential liability under various other exposures including tax, nonrecourse loans, self-insurance, and other miscellaneous contingencies. We establish reserves for these contingencies when the item becomes probable and the costs can be reasonably estimated. The actual costs of resolving these items may be substantially higher or lower than the amounts reserved for any one item. Based on information currently available, it is the opinion of management that the eventual outcome of these items will not have a material adverse impact on our results of operations, financial position, or cash flows.

ALLY FINANCIAL INC.

Notes to Consolidated Financial Statements (Continued)

33. Subsequent Events

Declaration of Quarterly Dividend Payments

On January 4, 2012, the Ally Board of Directors declared quarterly dividend payments on certain outstanding preferred stock. This included a cash dividend of \$1.125 per share, or a total of \$134 million, on Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 and a cash dividend of \$17.50 per share, or a total of \$45 million, on Fixed Rate Cumulative Perpetual Preferred Stock, Series G. The dividends were paid on February 15, 2012.

Mortgage Foreclosure Matters

On February 9, 2012, we reached an agreement in principle with the federal government and 49 state attorneys general with respect to foreclosure-related matters. We also agreed in principle with the Federal Reserve Board on a monetary penalty related to the same foreclosure-related matters. Refer to Note 31 for additional information.

February 2012 Notes Offering

On February 14, 2012, we completed a securities offering of \$1.0 billion in aggregate principal amount of Ally senior guaranteed notes due February 2017. The notes bear interest at a rate of 5.5% per annum and are guaranteed by certain Ally subsidiaries.

The information in this preliminary prospectus is not complete and may be changed. The selling stockholder may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

[Alternate Pages for Units Prospectus]

Subject to Completion, Dated April 12, 2012

Preliminary Prospectus

% Tangible Equity Units

Ally Financial Inc.

The United States Department of the Treasury (Treasury) is offering tangible equity units, or Units, of Ally Financial Inc. (Ally). See Principal and Selling Stockholders. Ally will not receive any of the proceeds from the sale of Units by Treasury.

Each Unit has a stated amount of \$ and is composed of a prepaid stock purchase contract and a junior subordinated amortizing note due , 2014. Each amortizing note has an initial principal amount of \$ and a scheduled final installment payment date of , 2014.

On , 2014 (subject to postponement in certain limited circumstances), each purchase contract will automatically settle, unless settled earlier as described herein, and we will deliver a number of shares of our common stock based on the applicable market value of our common stock. The applicable market value is the average of the daily volume weighted average prices, or daily VWAPs, of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding , 2014.

On the mandatory settlement date, each purchase contract will settle, unless settled earlier, as follows (subject to adjustment):

if the applicable market value equals or exceeds the threshold appreciation price, which is \$, you will receive shares of our common stock;

if the applicable market value is greater than \$ but less than the threshold appreciation price, you will receive a number of shares of our common stock having a value, based on the applicable market value, equal to \$; and

if the applicable market value is less than or equal to \$, you will receive shares of our common stock.

At any time prior to the close of business on the third scheduled trading day immediately preceding , 2014, you may settle your purchase contract early, and we will deliver shares of our common stock per purchase contract (subject to adjustment). In addition, if a fundamental change (as defined herein) occurs and you elect to settle your purchase contracts early in connection with such fundamental change, you will receive a number of shares of our common stock based on the fundamental change early settlement rate, as described herein. We may elect to settle all, but not less than all, outstanding purchase contracts prior to , 2014 at the early mandatory settlement rate (as defined herein), upon a date fixed by us upon not less than 10 business days notice. Except for cash in lieu of fractional shares, the purchase contract holders will not receive any cash distributions under the purchase contracts.

The amortizing notes will pay you equal quarterly cash installments of \$ per amortizing note, which in the aggregate will be equivalent to % per year with respect to each \$ stated amount of Units. So long as no event of default has occurred and is continuing, we have the right, at any time and from time to time, to defer installment payments by extending the installment payment period, so long as such period does not extend beyond , 2017, which we refer to as an extension period. At the end of any extension period, we will pay all installment payments for which the related installment payment date occurred during such extension period, together with interest on the full amount of such installment payments compounded quarterly at the rate specified for the interest

Edgar Filing: Ally Financial Inc. - Form S-1/A

component of the amortizing notes. The amortizing notes will be our junior subordinated obligations, and will rank (i) junior both in liquidation and right of payment, to the extent set forth in the junior subordinated debt indenture, to all of our Senior Indebtedness (as defined herein) and (ii) equally with all of our unsecured, junior subordinated indebtedness, whether currently existing or hereinafter created, other than junior subordinated indebtedness that is designated as junior to the amortizing notes. If we elect to settle the purchase contracts early, you will have the right to require us to repurchase your amortizing notes, except in certain circumstances as described herein.

Each Unit may be separated into its constituent purchase contract and amortizing note after the initial issuance date of the Units, and the separate components may be combined to create a Unit.

Concurrently with this offering, Treasury is also making a public offering of _____ shares of our common stock. Treasury has granted the underwriters of that offering an option to purchase up to an additional _____ shares of our common stock to cover over-allotments. The closing of the offering of Units is conditioned upon the closing of the offering of our common stock, and the closing of the offering of our common stock is conditioned upon the closing of the offering of Units.

Prior to this offering, there has been no public market for the Units or our common stock. We have applied to list the Units and our common stock on the New York Stock Exchange, subject to satisfaction of its minimum listing standards with respect to the Units and our common stock. If the Units are approved for listing, we expect trading to begin within 30 calendar days after the date on which the Units are first issued. However, we do not intend to apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system.

Treasury has granted the underwriters the right to purchase up to _____ additional Units to cover over-allotments, if any, at the public offering price less the underwriters' discount, within 30 days from the date of this prospectus.

Investing in the Units involves risks. See Risk Factors beginning on page 18.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Neither the Units, the purchase contracts nor the amortizing notes are deposits or savings accounts. These securities are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

| | Per Unit | Total |
|--|-----------------|--------------|
| Public Offering Price and Proceeds to Treasury | \$ | \$ |
| Underwriting Discount, and Commissions (1) | \$ | \$ |

(1) Ally has agreed to pay all underwriting discounts and commissions, transfer taxes and transaction fees, if any, applicable to the sale of the Units and the fees and disbursement of counsel for Treasury incurred in connection with the sale.

The underwriters expect to deliver the Units to purchasers on or about _____, 2012 through the book-entry facilities of The Depository Trust Company.

Table of Contents

The Offering

The summary below describes the principal terms of the Units, the purchase contracts and the amortizing notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. The Description of the Units, Description of the Purchase Contracts and Description of the Amortizing Notes sections of this prospectus contain a more detailed description of the terms and conditions of the Units, the purchase contracts and the amortizing notes. As used in this section, each of the terms we, us, our, and Ally means Ally Financial Inc. and does not include any subsidiary of Ally Financial Inc.

Treasury currently holds 118,750,000 shares of our Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 (the Series F-2 preferred stock), having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent common stock offering, Treasury intends (i) to convert (the conversion) 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the public offering price of our common stock in the concurrent common stock offering (the common stock public offering price), which, based on the midpoint of the price range set forth on the cover of the prospectus for the concurrent common stock offering, would result in the conversion of the Series F-2 preferred stock into shares of common stock and additional shares of our common stock pursuant to the modified terms of the Series F-2 preferred stock, and (ii) to exchange (the exchange) the remaining 60,000,000 shares of Series F-2 preferred stock having an aggregate liquidation amount of \$3 billion, for a number of Units having an aggregate stated amount of \$3 billion. See Concurrent Transactions. The closing of each of this Units offering, the concurrent common stock offering, the conversion and the exchange is conditioned upon the closing of each such other transaction. Unless the context otherwise requires, the following description of us and the Units assumes the successful completion of each of this Units offering, the concurrent common stock offering, the conversion and the exchange.

The Units

Issuer Ally Financial Inc., a Delaware corporation.

Number of Units offered by Treasury Units. Treasury has granted the underwriters the right to purchase up to additional Units to cover over-allotments, if any, at the public offering price less the underwriters discount, within 30 days from the date of this prospectus.

Stated amount and initial offering price of each Unit \$ for each Unit.

Components of each Unit Each Unit is composed of two parts:

a prepaid stock purchase contract (a purchase contract); and

a junior subordinated amortizing note (an amortizing note).

Unless settled earlier at the holder's option or our option, each purchase contract will automatically settle, subject to postponement in certain limited circumstances, on , 2015 (such date, as so postponed, if applicable, the mandatory settlement date), and we will deliver not more than shares and not less than shares of our common stock per purchase contract, subject to adjustment, based upon the applicable settlement rate and applicable market value of our common stock, as described below under Description of the Purchase Contracts Delivery of Common Stock.

Table of Contents

No fractional shares of our common stock will be issued to holders upon settlement of purchase contracts. In lieu of fractional shares, holders will be entitled to receive a cash payment of equivalent value calculated as described herein. Other than cash payments in lieu of fractional shares, the purchase contract holders will not receive any cash distributions under the purchase contracts.

Each amortizing note will have an initial principal amount of \$ _____, will bear interest at the rate of _____% per annum and will have a scheduled final installment payment date of _____, 2015. On _____, _____, and _____ of each year, commencing on _____, 2012, we will pay equal quarterly cash installments of \$ _____ per amortizing note (except for the _____, 2012 installment payment, which will be \$ _____ per amortizing note), which in the aggregate will be equivalent to _____% per year with respect to each \$ _____ stated amount of Units. Each installment payment will constitute a payment of interest and a partial repayment of principal, allocated as set forth on the amortization schedule set forth under Description of the Amortizing Notes Amortization Schedule. We will have the right to defer installment payments at any time and from time to time under the circumstances, and subject to the conditions, described opposite the caption Option to extend installment payment period below, so long as such deferral period does not extend beyond _____, 2018.

The return to an investor on a Unit will depend upon the return provided by each component. The overall return will consist of the value of the shares of our common stock delivered upon settlement of the purchase contracts and the cash installments paid on the amortizing notes.

Each Unit may be separated into, and recreated from, its components

Each Unit may be separated by a holder into its constituent purchase contract and amortizing note on any business day during the period beginning on, and including, the business day immediately following the date of initial issuance of the Units to, but excluding, the third scheduled trading day immediately preceding _____, 2015 or any early mandatory settlement date, as defined below. Prior to separation, the purchase contracts and amortizing notes may only be purchased and transferred together as Units. If you hold a separate purchase contract and a separate amortizing note, you may combine the two components to recreate a Unit. See Description of the Units Separating and Recreating Units.

Trading

Prior to this offering, there has been no public market for the Units or our common stock. We have applied to list the Units and our common stock being offered concurrently with this offering on the New York Stock Exchange, subject to satisfaction of its minimum listing standards with respect to the Units and our common stock. If the Units are approved for listing, we expect trading to begin within 30 calendar days after the Units are first issued. However, we do not

Table of Contents

intend to apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system. See Description of the Units Listing of Securities.

Use of proceeds We will not receive any proceeds from the sale of Units in this offering.

United States federal income tax considerations Although there is no authority directly on point and therefore the issue is not entirely free from doubt, each Unit will be treated as an investment unit composed of two separate instruments for U.S. federal income tax purposes: (i) a purchase contract and (ii) an amortizing note. Under this treatment, a holder of Units will be treated as if it held each component of the Units for U.S. federal income tax purposes. By acquiring a Unit, you will agree to treat (i) a Unit as an investment unit composed of two separate instruments in accordance with its form and (ii) the amortizing notes as indebtedness of Ally for U.S. federal income tax purposes. If, however, the components of a Unit were treated as a single instrument, the U.S. federal income tax consequences could differ from the consequences described herein.

Holders should read the discussion in Certain U.S. Federal Income Tax Considerations and consult their tax advisers regarding the tax treatment of an investment in Units and whether a purchase of a Unit is advisable in light of the investor's particular tax situation.

The Purchase Contracts

Mandatory settlement date , 2015, subject to postponement in limited circumstances.

Mandatory settlement On the mandatory settlement date, unless a purchase contract has been settled earlier, each purchase contract will automatically settle, and we will deliver a number of shares of our common stock, based on the applicable settlement rate.

Settlement rate for the mandatory settlement date The settlement rate for each purchase contract will be not more than shares and not less than shares of our common stock (each subject to adjustment as described herein) depending on the applicable market value of our common stock, calculated as described below.

If the applicable market value is equal to or greater than the threshold appreciation price (as defined below), you will receive shares of common stock per purchase contract (the minimum settlement rate).

If the applicable market value is greater than \$ (the reference price) but less than the threshold appreciation price,

Table of Contents

you will receive a number of shares per purchase contract equal to \$ _____, *divided* by the applicable market value.

If the applicable market value is less than or equal to the reference price, you will receive _____ shares of common stock per purchase contract (the _____ maximum settlement rate _____).

Each of the maximum settlement rate and the minimum settlement rate is subject to adjustment as described below under Description of the Purchase Contracts Adjustments to the Fixed Settlement Rates.

The applicable market value means the average of the daily VWAPs (as defined below) of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding _____, 2015.

The reference price is the public offering price of our common stock in the concurrent common stock offering described above.

The threshold appreciation price is equal to \$ _____, *divided by* the minimum settlement rate (rounded to the nearest \$0.01). The threshold appreciation price, which is initially \$ _____, represents an appreciation of approximately _____% over the reference price.

No fractional shares of our common stock will be issued to holders upon settlement of purchase contracts. In lieu of fractional shares, holders will be entitled to receive a cash payment of equivalent value calculated as described herein. Other than cash payments in lieu of fractional shares, the purchase contract holders will not receive any cash distributions under the purchase contracts.

The following table illustrates the settlement rate per purchase contract and the value of our common stock issuable upon settlement on the mandatory settlement date, determined using the applicable market value shown, subject to adjustment.

| Applicable Market Value of Our Common Stock | Settlement Rate | Value of Common Stock Delivered (Based on the Applicable Market Value Thereof) |
|--|---|---|
| Less than or equal to \$ _____ | _____ shares of our common stock | Less than \$ _____ |
| Greater than \$ _____ but less than the threshold appreciation price | A number of shares of our common stock equal to \$ _____, <i>divided by</i> the applicable market value | \$ _____ |
| Equal to or greater than the threshold appreciation price | _____ shares of our common stock | Greater than \$ _____ |
| Early settlement at your election | At any time prior to the close of business on the third scheduled trading day immediately preceding _____, 2015, you may settle any or all of your purchase | |

contracts early, and we will deliver to you a number of shares of our common stock per purchase contract equal

A-5

Table of Contents

to the minimum settlement rate, which is subject to adjustment as described below under Description of the Purchase Contracts Adjustments to the Fixed Settlement Rates. That is, the market value of our common stock on the early settlement date will not affect the early settlement rate.

However, if you settle your purchase contracts early in connection with a fundamental change (as defined herein), you will receive a number of shares of our common stock based on the fundamental change early settlement rate, as described under Description of the Purchase Contracts Early Settlement Upon a Fundamental Change.

Your right to settle a purchase contract prior to the close of business on the third scheduled trading day immediately preceding , 2015 is subject to delivery of your purchase contract.

Upon early settlement at your election of a purchase contract that is a component of a Unit (whether or not in connection with a fundamental change), the corresponding amortizing note will remain outstanding and registered in the name of the holder who elected to settle the related purchase contract early.

Early mandatory settlement at our election

We may elect to settle all, but not fewer than all, outstanding purchase contracts early at the early mandatory settlement rate (as described under Description of the Purchase Contracts Early Settlement at Our Election) upon a date fixed by us upon not less than 10 business days notice (the early mandatory settlement date).

The early mandatory settlement rate will be the maximum settlement rate, unless the daily VWAP of our common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the trading day immediately preceding the notice date (as defined under Description of the Purchase Contracts Early Settlement at Our Election) exceeds 130% of the threshold appreciation price in effect on each such trading day, in which case the early mandatory settlement rate will be the fundamental change early settlement rate with the effective date for this purpose being deemed to be the early mandatory settlement date and the stock price for this purpose being deemed to be the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the early mandatory settlement date.

If we elect to settle the purchase contracts early, holders will have the right to require us to repurchase their amortizing notes for cash at the repurchase price, except in the certain circumstances, and subject to the conditions, described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

The Amortizing Notes

Initial principal amount of each amortizing note \$

Table of Contents

| | |
|---|---|
| Installment payments | Each installment payment of \$ _____ per amortizing note (except for the _____, 2012 installment payment, which will be \$ _____ per amortizing note) will be paid in cash and will constitute a partial repayment of principal and a payment of interest, computed at an annual rate of ____%. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months. Payments will be applied first to the interest due and payable and then to the reduction of the unpaid principal amount, allocated as set forth on the amortization schedule set forth under Description of the Amortizing Notes Amortization Schedule. |
| Installment payment dates | _____, _____, _____ and _____ of each year, commencing on _____, 2012, with a scheduled final installment payment date of _____, 2015. |
| Option to extend installment payment period | <p>So long as no event of default has occurred and is continuing, we have the right, at any time and from time to time, to defer installment payments by extending the installment payment period, so long as such period of time does not extend beyond _____, 2018 (the _____ extension period ____). At the end of any extension period, we will pay all installment payments for which the related installment payment date occurred during such extension period, together with, to the extent permitted by law, interest on the full amount of such installment payments compounded quarterly at the rate specified for the interest component of the amortizing notes. We will give the holders of Units and separate amortizing notes at least 10 business days notice of the end of an extension period.</p> <p>Prior to the termination of any extension period, we may further defer installment payments by extending such extension period. Such extension period, including all such previous and further extensions, may not extend beyond _____, 2018. Upon the termination of any extension period and the payment of all amounts then due, we may commence a new extension period, if consistent with the terms described under Description of the Amortizing Notes Option to Extend Installment Payment Period. No installment payment (or interest thereon) shall be due and payable during an extension period, except at the end of such period.</p> <p>We have no present intention of exercising our right to defer installment payments by extending the installment payment period on the amortizing notes.</p> |
| Ranking of the amortizing notes | <p>The amortizing notes will be our junior subordinated obligations and will rank:</p> <p>_____ junior both in liquidation and right of payment to all Senior Indebtedness (as defined under Description of the Amortizing Notes Subordination ____);</p> |

Table of Contents

effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness;

structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries; and

equal with all of our junior subordinated indebtedness, whether currently existing or hereinafter created, other than junior subordinated indebtedness that is designated as junior to the amortizing notes, to which the amortizing notes will rank senior.

At December 31, 2011, we had approximately \$101.6 billion in principal amount of total debt outstanding, consisting of \$48.6 billion and \$53.0 billion in principal amount of unsecured and secured debt, respectively. At December 31, 2011, Ally on a standalone basis had approximately \$43.4 billion in aggregate principal amount of total debt outstanding, all of which was unsecured. At December 31, 2011, we had aggregate principal amount of \$2.6 billion of trust preferred securities outstanding.

The indenture governing the amortizing notes does not limit the amount of debt that we or our subsidiaries may incur.

Repurchase of amortizing notes at the option of the holder

If we elect to settle the purchase contracts early, holders will have the right to require us to repurchase their amortizing notes for cash at the repurchase price, except in the circumstances, and subject to the conditions, described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

Concurrent transactions

Treasury currently holds 118,750,000 shares of our Series F-2 preferred stock, having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent common stock offering, Treasury intends (i) to convert 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the common stock public offering price, and (ii) to exchange the remaining 60,000,000 shares of Series F-2 preferred stock having an aggregate liquidation amount of \$3 billion, for a number of our tangible equity units (the Units) having an aggregate stated amount of \$3 billion.

The number of shares of common stock we will issue to Treasury in connection with the conversion will depend upon the common stock public offering price. The higher the common stock public offering price is, the fewer the number of shares of common stock Treasury will receive and the lower the common stock public offering price is, the greater the number of shares of common stock Treasury will receive. The following table sets forth the number of shares we will

Table of Contents

issue to Treasury in connection with the conversion for each common stock public offering price set forth below:

| Public Offering Price | Number of Shares Issued to Treasury |
|-----------------------|-------------------------------------|
| \$ | |
| \$ | |
| \$ | |
| \$ | |

In addition, we and Treasury intend to modify certain terms of the Series F-2 preferred stock relating to the anti-dilution provisions applicable to the common stock received by Treasury from its partial conversion of Series F-2 preferred stock in December 2010, so that Treasury will receive additional shares of our common stock in connection with the offering.

Concurrently with this offering, Treasury is also making a public offering of shares of our common stock. Treasury has granted the underwriters of that offering an option to purchase up to an additional shares of our common stock to cover over-allotments.

The closing of each of this offering, the concurrent common stock offering, the conversion and the exchange is conditioned upon the closing of each such other transaction.

Certain Accounting Treatment of Treasury's Conversion and Receipt of Additional Shares

In connection with Treasury's intention to convert shares of Series F-2 preferred stock it holds into common stock as part of this offering and at the common stock public offering price, Treasury will receive a number of shares of our common stock in excess of the amount it would have received pursuant to the stated conversion rate in the Series F-2 preferred stock. In addition, as stated above, Treasury will also receive additional shares of our common stock as a result of an agreed upon modification to the terms of the Series F-2 preferred stock. The value of these additional shares received by Treasury will be treated as a dividend or equivalent for financial reporting purposes.

The issuance of these additional shares will be a one-time non-cash transaction, which will not affect the amount of our total equity. It will increase our accumulated deficit with an offsetting increase to common stock and paid-in capital, and the value of the non-cash dividend will reduce our net income attributable to common shareholders and therefore will substantially affect the calculation of earnings per share in the quarter in which this offering closes and the full year.

Assuming that the public offering price of our common stock in the concurrent offering will be \$ per share (the midpoint of the range set forth on the cover of the prospectus for the concurrent common stock offering), net income attributable to common stock will be reduced by \$ in the quarter in which this offering closes and earnings per share will be reduced by \$ per share due to this one time, non-cash transaction.

Table of Contents

RISK FACTORS

You should carefully consider the following risk factors that may affect our business, future operating results and financial condition, as well as the other information set forth in this prospectus before making a decision to invest in the Units. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such case, the trading price of the Units would likely decline due to any of these risks, and you may lose all or part of your investment.⁽¹⁾

Risks Related to Ownership of the Units, Separate Purchase Contracts, Separate Amortizing Notes and Common Stock

You will bear the risk that the market value of our common stock may decline.

The purchase contracts, pursuant to which we will deliver to you shares of our common stock, are components of the Units. The number of shares of common stock that you will receive upon settlement of a purchase contract on the mandatory settlement date, whether as a component of a Unit or a separate purchase contract, will depend upon the applicable market value, which is equal to the average of the daily VWAPs of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding , 2015. There can be no assurance that the market value of the common stock received by you will be equal to or greater than the reference price of \$. If the applicable market value of our common stock is less than the reference price, then the market value of the common stock issued to you on the mandatory settlement date (assuming that the market value is the same as the applicable market value of the common stock) will be less than the effective price per share paid by you for such common stock on the date of issuance of the Units. Furthermore, because we will in no event deliver more than shares (subject to adjustment as described herein) upon settlement of a purchase contract, the market value of the common stock delivered to you upon any early settlement may be less than the effective price per share paid by you for such common stock on the date of the issuance of the Units. Therefore, you assume the entire risk that the market value of our common stock may decline before the mandatory settlement date, early settlement date, fundamental change early settlement date or early mandatory settlement date, as applicable. Any decline in the market value of our common stock may be substantial.

The opportunity for equity appreciation provided by an investment in the Units is less than that provided by a direct investment in our common stock.

The aggregate market value of our common stock delivered to you upon settlement of a purchase contract on the mandatory settlement date generally will exceed the \$ stated amount of each Unit only if the applicable market value of our common stock exceeds the threshold appreciation price. Therefore, during the period prior to the mandatory settlement date, an investment in a Unit affords less opportunity for equity appreciation than a direct investment in our common stock. If the applicable market value exceeds the reference price but is less than the threshold appreciation price, you will realize no equity appreciation on our common stock above the reference price. Furthermore, if the applicable market value exceeds the threshold appreciation price, you would receive only a portion of the appreciation in the market value of the shares of our common stock you would have received had you purchased shares of common stock with \$ at the public offering price in the concurrent common stock offering. See Description of the Purchase Contracts Delivery of Common Stock for a table showing the number of shares of common stock that you would receive at various applicable market values.

We may not be able to settle your purchase contracts and deliver shares of our common stock, or make payments on the amortizing notes, in the event that we file for bankruptcy.

Pursuant to the terms of the purchase contract agreement, your purchase contracts will automatically accelerate upon the occurrence of specified events of bankruptcy, insolvency or reorganization with respect to

⁽¹⁾ To replace the first paragraph under Risk Factors in the prospectus for the common stock offering.

Table of Contents

Ally. However, a bankruptcy court may prevent us from delivering our common stock to you in settlement of your purchase contracts. In such circumstances, we expect that your resulting claim for damages will rank equally with the claims of our common stockholders, in which case you will only be able to recover damages to the extent holders of our common stock receive any recovery. See Description of the Purchase Contracts Consequences of Bankruptcy.

In addition, with respect to the amortizing notes, bankruptcy law generally prohibits the payment of pre-bankruptcy debt by a company that has commenced a bankruptcy case while the case is pending. If Ally becomes a debtor in a bankruptcy case, so long as the case was pending, you would likely not receive timely payments of principal or interest due under the amortizing note component of the Units and the subordination provisions of the notes would give the holders of Senior Indebtedness (as defined under Description of the Amortizing Notes Subordination) a prior right to receive any distributions on account of your claim until they were paid in full.

The trading prices for the Units, the purchase contracts and the amortizing notes will be directly affected by the trading prices for our common stock, the general level of interest rates and our credit quality, each of which is impossible to predict.

It is impossible to predict whether the prices of our common stock, interest rates or our credit quality will rise or fall. Trading prices of the common stock will be influenced by general stock market conditions and our operating results and business prospects and other factors described elsewhere in these Risk Factors.

The market for our common stock likely will influence, and be influenced by, any market that develops for the Units or the separate purchase contracts. For example, investors' anticipation of the distribution into the market of the additional shares of common stock issuable upon settlement of the purchase contracts could depress the price of our common stock and increase the volatility of the common stock price, which could in turn depress the price of the Units or the separate purchase contracts. The price of our common stock also could be affected by possible sales of such common stock by investors who view the Units as a more attractive means of equity participation in Ally and by hedging or arbitrage trading activity that is likely to develop involving the Units, separate purchase contracts and the common stock. The arbitrage activity could, in turn, affect the trading prices of the Units, the separate purchase contracts and the common stock.

Developments in the equity-linked and convertible securities markets may adversely affect the market value of the Units.

Governmental actions that interfere with the ability of equity-linked and convertible securities investors to effect short sales of the underlying shares of common stock could significantly affect the market value of the Units. Such government actions would make the convertible arbitrage strategy that many equity-linked and convertible securities investors employ difficult to execute for outstanding equity-linked or convertible securities of any company whose shares of common stock are subject to such actions.

At an open meeting on February 24, 2010, the SEC adopted a new short sale price test through an amendment to Rule 201 of Regulation SHO. The amendments to Rule 201 became effective on May 10, 2010 and restrict short selling when the price of a covered security has triggered a circuit breaker by falling at least 10% in one day, at which point short sale orders can be displayed or executed only if the order price is above the current national best bid, subject to certain limited exceptions. Compliance with the amendments to Rule 201 was required by November 10, 2010. The new restrictions may interfere with the ability of investors in, and potential purchasers of, the Units, to effect short sales in our common stock and conduct the convertible arbitrage strategy that we believe some of them will employ, or seek to employ, with respect to the Units.

In addition, on June 10, 2010, the SEC approved a six-month pilot (the circuit breaker pilot) pursuant to which several national securities exchanges and the Financial Industry Regulatory Authority, Inc. (FINRA)

Table of Contents

adopted rules to halt trading in securities included in the S&P 500 Index if the price of any such security moves 10% or more from a sale in a five-minute period. On September 10, 2010, the SEC approved an expansion of the circuit breaker pilot to include component securities of the Russell 1000 Index and over 300 exchange traded funds. Our common stock is not included in either the S&P 500 Index or the Russell 1000 Index and therefore is not subject to the circuit breaker pilot at this time. However, our common stock may in the future be included in either the S&P 500 Index or the Russell 1000 Index or the SEC could further expand the circuit breaker pilot in the future or adopt other rules that limit trading in response to market volatility. Any such additional regulatory actions may decrease or prevent an increase in the market price and/or liquidity of our common stock and/or interfere with the ability of investors in, and potential purchasers of, the Units, to effect hedging transactions in or relating to our common stock and conduct the convertible arbitrage strategy that we believe some of them will employ, or will seek to employ, with respect to the Units and/or separate purchase contracts.

Although the direction and magnitude of the effect that the amendments to Regulation SHO, the circuit breaker pilot and any additional regulations may have on the trading price and the liquidity of the Units will depend on a variety of factors, many of which cannot be determined at this time, past regulatory actions have had a significant impact on the trading prices and liquidity of convertible debt instruments. For example, in September 2008, the SEC issued emergency orders generally prohibiting short sales in the common stock of a variety of financial services companies while Congress worked to provide a comprehensive legislative plan to stabilize the credit and capital markets. The orders made the convertible arbitrage strategy that many convertible debt investors employ difficult to execute and adversely affected both the liquidity and trading price of convertible notes issued by many of the financial services companies subject to the prohibition. Any governmental actions that restrict the ability of investors in, or potential purchasers of, the Units to effect short sales in our common stock or to implement hedging strategies, including the recently adopted amendments to Regulation SHO, could similarly adversely affect the trading price and the liquidity of the Units and/or separate purchase contracts.

You may receive shares of common stock upon settlement of the purchase contracts that are lower in value than the price of the common stock just prior to the mandatory settlement date.

Because the applicable market value of the common stock is determined over the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding _____, 2015, the number of shares of common stock delivered for each purchase contract may, on the mandatory settlement date, be greater than or less than the number that would have been delivered based on the daily VWAP of the common stock on the last trading day in such 20 trading day period. In addition, you will bear the risk of fluctuations in the market price of the shares of common stock deliverable upon settlement of the purchase contracts between the end of such period and the date such shares are delivered.

If you elect to settle your purchase contracts prior to the mandatory settlement date, you may not receive the same return on your investment as purchasers whose purchase contracts are settled on the mandatory settlement date.

Holders of the Units or separate purchase contracts have the option to settle their purchase contracts early at any time beginning on, and including, the business day immediately following the date of initial issuance of the Units until the close of business on the third scheduled trading day immediately preceding _____, 2015. However, if you settle your purchase contracts prior to the close of business on the third scheduled trading day immediately preceding _____, 2015, you will receive for each purchase contract a number of shares of common stock equal to the minimum settlement rate, regardless of the current market value of our common stock, unless you elect to settle your purchase contracts early in connection with a fundamental change, in which case you will be entitled to settle your purchase contracts at the fundamental change early settlement rate, which may be greater than the minimum settlement rate. In either case, you may not receive the same return on your investment as purchasers whose purchase contracts are settled on the mandatory settlement date.

Table of Contents

Upon issuance of the Units, our common stock will incur immediate dilution.

Upon issuance of the Units, which includes a purchase contract component, our common stock will incur immediate and substantial net tangible book value dilution on a per share basis.

We may issue additional shares of our common stock, which may dilute the value of our common stock but may not trigger an anti-dilution adjustment under the terms of the purchase contracts.

The trading price of our common stock may be adversely affected if we issue additional shares of our common stock. The number of shares of common stock issuable upon settlement of the purchase contracts is subject to adjustment only for certain events, including, but not limited to, the issuance of stock dividends on our common stock, the issuance of certain rights or warrants, subdivisions, combinations, distributions of capital stock, indebtedness or assets, certain cash dividends and certain issuer tender or exchange offers. The number of shares of common stock deliverable upon settlement is not subject to adjustment for other events that may adversely affect the value of our common stock, such as employee stock options grants, offerings of our common stock for cash, certain exchanges of our common stock for other Ally securities or in connection with acquisitions and other transactions. The terms of the Units do not restrict our ability to offer our common stock in the future or to engage in other transactions that could dilute our common stock, which may adversely affect the value of the Units and separate purchase contracts.

If we exercise our right to defer installment payments on the amortizing notes, the market price of the Units and separate amortizing notes is likely to be adversely affected.

We will have the right to defer installment payments at any time and from time to time under the circumstances, and subject to the conditions, described under Description of the Amortizing Notes Option to Extend Installment Payment Period so long as such deferral period does not extend beyond , 2018. During any such deferral period, holders of the Units and separate amortizing notes will have no remedies against us for nonpayment unless we fail to pay all previously deferred installment payments (including interest thereon) in cash within 30 days of the last day of such deferral period. If we exercise our right to defer installment payments, the market price of the Units and separate amortizing notes may be more volatile than the market prices of other securities that are not subject to optional payment deferral features.

The fundamental change early settlement rate may not adequately compensate you.

If a fundamental change occurs and you elect to exercise your fundamental change early settlement right, you will be entitled to settle your purchase contracts at the fundamental change early settlement rate. Although the fundamental change early settlement rate is designed to compensate you for the lost option value of your purchase contracts as a result of the early settlement of the purchase contracts, this feature may not adequately compensate you for such loss. In addition, if the stock price in the fundamental change is greater than \$ per share (subject to adjustment), this feature of the purchase contracts will not compensate you for any loss suffered in connection with a fundamental change. See Description of the Purchase Contracts Early Settlement Upon a Fundamental Change.

Our obligation to settle the purchase contracts at the fundamental change early settlement rate could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness of economic remedies.

The amortizing notes will not provide holders with the right to require us to repurchase them upon a fundamental change.

The terms of the indenture governing the amortizing notes do not provide holders of amortizing notes with the right to require us to repurchase their amortizing notes upon the occurrence of a fundamental change.

Table of Contents

Accordingly, holders of our amortizing notes will bear the risk that any such fundamental change occurs and adversely affects our capital structure, credit ratings or the value of the amortizing notes.

Until you acquire our common stock, you are not entitled to any rights with respect to our common stock, but you are subject to all changes made with respect to our common stock.

Until you acquire our common stock upon settlement on the mandatory settlement date or any early settlement, you are not entitled to any rights with respect to our common stock, including voting rights and rights to receive any dividends or other distributions on our common stock, but you are subject to all changes affecting the common stock. You will have the rights with respect to shares of our common stock only when you become the holder of record of such shares. You will be deemed to be the holder of record of shares of our common stock issuable upon settlement of the purchase contracts as follows:

in the case of settlement of purchase contracts on the mandatory settlement date, as of the close of business on the last trading day of the 20 trading day period during which the applicable market value is determined;

in the case of settlement of purchase contracts in connection with any early settlement at the holder's option, as of the close of business on the early settlement date;

in the case of settlement of purchase contracts following exercise of a holder's fundamental change early settlement right, as of the close of business on the date such right is exercised; and

in the case of settlement of purchase contracts following exercise by us of our early mandatory settlement right, as of the close of business on the notice date.

For example, in the event that an amendment is proposed to our certificate of incorporation or bylaws requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the date you are deemed the owner of the shares of our common stock, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes in the powers, preferences or special rights of our common stock once you become a stockholder.

The secondary market for the Units, the purchase contracts and the amortizing notes may be illiquid.

We have applied to list the Units and our common stock on the New York Stock Exchange, subject to satisfaction of its minimum listing standards with respect to the Units and our common stock. However, we can give you no assurance that the Units and our common stock will be so listed. If the Units are approved for listing, we expect that the Units will begin trading on the New York Stock Exchange within 30 calendar days after the date on which the Units are first issued. In addition, the underwriters have advised us that they intend to make a market in the Units. Listing on the New York Stock Exchange does not guarantee that a trading market will develop, and the underwriters may discontinue market making at any time in their sole discretion without prior notice to Unit holders. Accordingly we cannot assure you that a liquid trading market will develop for the Units (or, if developed, that a liquid trading market will be maintained), that you will be able to sell Units at a particular time or that the prices you receive when you sell will be favorable.

Beginning on the business day immediately succeeding the date of initial issuance of the Units, purchasers of Units will be able to separate each Unit into a purchase contract and an amortizing note. We are unable to predict how the separate purchase contracts or the separate amortizing notes will trade in the secondary market, or whether that market will be liquid or illiquid. We do not intend to apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system.

Table of Contents

The purchase contract agreement will not be qualified under the Trust Indenture Act, and the obligations of the purchase contract agent are limited.

The purchase contract agreement between us and the purchase contract agent will not be qualified as an indenture under the Trust Indenture Act of 1939, and the purchase contract agent will not be required to qualify as a trustee under the Trust Indenture Act. Thus, you will not have the benefit of the protection of the Trust Indenture Act with respect to the purchase contract agreement or the purchase contract agent. The amortizing notes constituting a part of the Units will be issued pursuant to an indenture, which will be qualified under the Trust Indenture Act. Accordingly, if you hold Units, you will have the benefit of the protections of the Trust Indenture Act only to the extent applicable to the amortizing notes. The protections generally afforded the holder of a security issued under an indenture that has been qualified under the Trust Indenture Act include:

disqualification of the indenture trustee for conflicting interests, as defined under the Trust Indenture Act;

provisions preventing a trustee that is also a creditor of the issuer from improving its own credit position at the expense of the security holders immediately prior to or after a default under such indenture; and

the requirement that the indenture trustee deliver reports at least annually with respect to certain matters concerning the indenture trustee and the securities.

Our obligations to make payments on the amortizing notes are subordinate to our payment obligations under our Senior Indebtedness.

Our obligations under the amortizing notes rank junior in right of payment to all of its existing and future Senior Indebtedness, as defined under the caption Description of the Amortizing Notes Subordination. In addition, the amortizing notes will not be guaranteed by any of our subsidiaries, which are separate legal entities that have no obligation to pay, or make funds available to pay, any amounts due on the amortizing notes. The amortizing notes will therefore be effectively subordinated to all indebtedness and other obligations, including trade payables and preferred stock, if any, of our subsidiaries. This means that, unless all Senior Indebtedness is repaid in full, we cannot make any payments on the amortizing notes if our unsecured indebtedness for borrowed money is accelerated in the event of our bankruptcy, insolvency or liquidation or if the amortizing notes are accelerated.

The terms of the indenture under which the amortizing notes will be issued do not limit our ability to incur additional debt, including secured or unsecured debt that will rank senior to the amortizing notes and purchase contracts.

We may not have the ability to raise the funds necessary to repurchase the amortizing notes following the exercise of our early mandatory settlement right, and our debt outstanding at that time may contain limitations on our ability to repurchase the amortizing notes.

If we elect to exercise our early mandatory settlement right, holders of the amortizing notes will have the right to require Ally to repurchase the amortizing notes on the repurchase date at the repurchase price described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder. However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of amortizing notes surrendered for repurchase. In addition, our ability to pay the repurchase price for the amortizing notes may be limited by agreements governing our current and future indebtedness. Our failure to repurchase amortizing notes at a time when the repurchase is required by the indenture would constitute a default under the indenture. A default under the indenture could also lead to a default under agreements governing our indebtedness outstanding at that time. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and the repurchase price for the amortizing notes.

Table of Contents***You have limited remedies for defaults under the indenture.***

Although various events may constitute defaults under the indenture, a default that is not an event of default will not trigger the acceleration of installment payments due on the amortizing notes. Such acceleration will occur only upon our failure to pay in full all installment payments within 30 days of _____, 2018 or as a result of specified events of bankruptcy, insolvency or reorganization of us. See Description of the Amortizing Notes Events of Default.

The U.S. federal income tax consequences relating to the Units are uncertain.

Although there is no authority directly on point and the issue is not entirely free from doubt, each Unit will be treated in accordance with its form as an investment unit composed of two separate instruments for U.S. federal income tax purposes, and the amortizing notes will be treated as indebtedness for U.S. federal income tax purposes. Under this treatment, you will be treated as if you acquired each component of a Unit for U.S. federal income tax purposes. By acquiring a Unit, you will agree to treat (i) a Unit as an investment unit composed of two separate instruments in accordance with its form and (ii) the amortizing notes as indebtedness, in each case for U.S. federal income tax purposes.

No statutory, judicial or administrative authority directly addresses the characterization of the Units or instruments similar to the Units for U.S. federal income tax purposes. As a result, some aspects of the U.S. federal income tax consequences of an investment in the Units are not certain. Specifically, even though in form separate instruments, the amortizing notes and the purchase contracts could be recharacterized as a single instrument for U.S. federal income tax purposes, in which case (i) you could be required to recognize as income the entire amount of each payment on the amortizing notes (rather than treating a portion as a tax-free return of principal) and (ii) payments made to you, if you are a Non-U.S. Holder (as defined below under Certain U.S. Federal Income Tax Considerations), on the amortizing notes, including payments denominated as principal, could be subject to U.S. federal withholding tax as dividend income.

If U.S. federal withholding were imposed or withheld in respect of payments made on or with respect to the Units, the purchase contracts, the amortizing notes or common stock, we would not be required to pay a gross up for such taxes.

No ruling is being requested from the Internal Revenue Service (the IRS) with respect to the Units (or the components thereof), and no assurance can be given that the IRS will agree with the conclusions expressed below under Certain U.S. Federal Income Tax Considerations. You should consult your tax adviser regarding potential alternative tax characterizations of the Units.

You may be subject to tax upon an adjustment to the settlement rate of the purchase contracts even though you do not receive a corresponding cash distribution.

The settlement rate of the purchase contracts is subject to adjustment in certain circumstances, including the payment of cash dividends to our stockholders or upon a fundamental change. If the settlement rate is adjusted as a result of a distribution that is taxable to our common stockholders, such as a cash dividend, you will be deemed, for U.S. federal income tax purposes, to have received a taxable dividend to the extent of our earnings and profits, without the receipt of any cash. If you are a Non-U.S. Holder (as defined in Certain U.S. Federal Income Tax Considerations), this deemed dividend may be subject to U.S. federal withholding tax (currently at a 30% rate, or any lower rate that may be specified by an applicable treaty), which may be withheld from shares of common stock or sales proceeds subsequently paid or credited to you. See Certain U.S. Federal Income Tax Considerations.

Table of Contents

The sale or availability for sale of substantial amounts of our common stock could cause our common stock price to decline or impair our ability to raise capital.

Sales of a substantial number of shares of our common stock in the public market following this offering, or the perception that large sales could occur, or the settlement of the purchase contracts that are components of the Units or the perception that settlement could occur, could depress the market price of our common stock and could impair our ability to raise capital through the sale of equity and equity-related securities. Upon completion of this offering and the concurrent common stock offering, there will be _____ shares of common stock issued and outstanding, assuming the common stock public offering price is the midpoint of the price range set forth on the cover of the prospectus for the common stock offering.

Of the outstanding shares of common stock, the _____ shares of common stock to be sold in the concurrent common stock offering (_____ shares if the underwriters for that offering exercise their over-allotment option in full) will be freely tradable without restriction or further registration under the Securities Act, unless those shares are held by any of our affiliates, as that term is defined under Rule 144 of the Securities Act. Following the expiration of any applicable lock-up periods referred to in the section of this prospectus entitled Shares Eligible for Future Sale, the remaining outstanding shares of common stock may be eligible for resale under Rule 144 under the Securities Act subject to applicable restrictions under Rule 144. In addition, pursuant to Exhibit F of the Bylaws of Ally Financial Inc. (the Registration Rights Agreement), we have granted our existing common stockholders the right to require us in certain circumstances to file registration statements under the Securities Act covering additional resales of our common stock held by them and the right to participate in other registered offerings in certain circumstances. As restrictions on resale end or if these stockholders exercise their registration rights or otherwise sell their shares, the market price of our common stock could decline.

In particular, following this offering, Treasury or GMAC Common Equity Trust I might sell a large number of the shares of our common stock that they hold. Such sales of a substantial number of shares of our common stock could adversely affect the market price of our common stock.

The number of shares of our common stock Treasury will receive upon conversion of our Series F-2 preferred stock will depend upon the public offering price of the common stock in the concurrent offering.

Treasury currently holds 118,750,000 shares of our Series F-2 preferred stock, having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent common stock offering, Treasury intends to convert 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the common stock public offering price, which, based on the midpoint of the price range set forth on the cover of the prospectus for the concurrent common stock offering, would result in the conversion of the Series F-2 preferred stock into _____ shares of common stock. See Concurrent Transactions.

Accordingly, the number of shares of our common stock we will issue to Treasury in connection with the conversion will depend upon the common stock public offering price. For example, if the common stock public offering price is \$ _____ (the midpoint of the price range set forth on the cover of the prospectus for the common stock offering), then we will issue _____ shares of our common stock to Treasury upon conversion. By contrast, if the common stock public offering price were to increase by \$1.00, then we will issue _____ shares of our common stock to Treasury upon conversion and if the common stock public offering price were to decrease by \$1.00, then we will issue _____ shares of our common stock to Treasury upon conversion.

We have no current plans to pay dividends on our common stock, and our ability to pay dividends on our common stock may be limited.

We have no current plans to commence payment of a dividend on our common stock. Our payment of dividends on our common stock in the future will be determined by our Board of Directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity, and other factors.

Table of Contents

Our Series G preferred stock prohibits us from making dividend payments on our common stock before January 1, 2014 and allows dividend payments thereafter only if 1) our senior guaranteed notes issued on December 31, 2008 are rated investment grade and 2) the payment, together with other dividend payments we made since December 31, 2008, is less than 25% of the excess of our cumulative consolidated net income from January 1, 2014 to the most recently ended fiscal quarter for which financial statements are available at the time of such dividend payment. In addition, so long as any share of our Series A preferred stock remains outstanding, no dividend or distribution may be declared or paid on our common stock unless all accrued and unpaid dividends have been paid on such series of preferred stock.

Any indentures and other financing agreements that we enter into in the future may limit our ability to pay cash dividends on our capital stock, including our common stock. In the event that any of our indentures or other financing agreements in the future restrict our ability to pay dividends in cash on our common stock, we may be unable to pay dividends in cash on our common stock unless we can refinance the amounts outstanding under those agreements.

In addition, under Delaware law, our Board of Directors may declare dividends on our capital stock only to the extent of our statutory surplus (which is defined as the amount equal to total assets minus total liabilities, in each case at fair market value, minus statutory capital), or if there is no such surplus, out of our net profits for the then current and/or immediately preceding fiscal year. Further, even if we are permitted under our contractual obligations and Delaware law to pay cash dividends on our common stock, we may not have sufficient cash to pay dividends in cash on our common stock.

Any plans to commence payment of dividends on our common stock in the future would be subject to the FRB's review and absence of objection. See [Business - Certain Regulatory Matters - Bank Holding Company Status](#). There is no assurance that, upon the FRB's review of our future capital plans, we would be permitted to make any planned payments of dividends on our common stock.

Anti-takeover provisions contained in our organizational documents and Delaware law could delay or prevent a takeover attempt or change in control of our company, which could adversely affect the price of our common stock.

Our amended and restated certificate of incorporation, our amended and restated bylaws, and Delaware law contain provisions that could have the effect of rendering more difficult or discouraging an acquisition deemed undesirable by our Board of Directors. Our organizational documents include provisions:

Limiting the liability of our directors, and providing indemnification to our directors and officers; and

Limiting the ability of our stockholders to call and bring business before special meetings.

These provisions, alone or together, could delay hostile takeovers and changes in control of the company or changes in management.

In addition, after the completion of this offering, we will be subject to Section 203 of the General Corporation Law of the State of Delaware (the DGCL), which generally prohibits a corporation from engaging in various business combination transactions with any interested stockholder (generally defined as a stockholder who owns 15% or more of a corporation's voting stock) for a period of three years following the time that such stockholder became an interested stockholder, except under certain circumstances including receipt of prior board approval.

Any provision of our Certificate of Incorporation or our Bylaws or Delaware law that has the effect of delaying or deterring a hostile takeover or change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock and could also affect the price that some investors are willing to pay for our common stock.

See [Description of Capital Stock](#) for a further discussion of these provisions.

Table of Contents

Because there has not been any public market for our common stock, the market price and trading volume of our common stock may be volatile.

You should consider an investment in our common stock to be risky and you should invest in our common stock only if you can withstand a significant loss and wide fluctuations in the market value of your investment. The price of our common stock after the closing of this offering may fluctuate widely, depending upon many factors, including, but not limited to:

the perceived prospects for the auto finance and mortgage industries in general or for our company;

differences between our actual financial and operating results and those expected by investors;

changes in the share price of public companies with which we compete;

news about our new products or services, enhancements, significant contracts, acquisitions or strategic investments;

changes in our capital structure, such as future issuances of securities, repurchases of our common stock or our incurrence of debt;

changes in general economic or market conditions;

broad market fluctuations;

regulatory actions or changes in applicable laws, rules or regulations;

unfavorable or lack of published research by securities or industry analysts; and

departure of key personnel.

In addition, the market price of our common stock is likely to be influenced by the purchase contracts that are components of the Units. For example, the market price of our common stock could become more volatile and could be depressed by investors' anticipation of the potential resale in the market of a substantial number of additional shares of our common stock, including shares of common stock received upon settlement of the purchase contracts that are components of the Units, possible sales of our common stock by investors who view the Units as a more attractive means of equity participation in us than owning shares of our common stock, and hedging or arbitrage trading activity that may develop involving the Units and our common stock.

Our common stock may trade at prices significantly below the initial public offering price in the concurrent offering. In addition, when the market price of a company's common equity drops significantly, stockholders often institute securities class action lawsuits against the company. A lawsuit against us could cause us to incur substantial costs and could divert the time and attention of our management and other resources.

Treasury, which is the selling securityholder, is a federal agency and your ability to bring a claim against Treasury under the federal securities laws may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the "FTCA"), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for

Edgar Filing: Ally Financial Inc. - Form S-1/A

fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Treasury and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the officers, agents or employees of Treasury for a violation of the Securities Act of 1933, as amended (the Securities Act) or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part or resulting from any other act or omission in connection with this offering by Treasury would likely be barred.

A-19

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

The following table sets forth our ratio of earnings to combined fixed charges and preferred dividend requirements for the periods presented:

| | 2011 (a) | Year ended December 31, | | | 2007 (a) |
|--|----------|-------------------------|----------|----------|----------|
| | | 2010 (a) | 2009 (a) | 2008 (a) | |
| Ratio of earnings to combined fixed charges and preferred dividend requirements (b)(c) | 0.89 | 0.88 | 0.01 | 1.53 | 0.88 |

- (a) During 2011, 2010 and 2009, we committed to sell certain operations of our International Automotive Finance operations, Insurance operations, Mortgage operations, and Commercial Finance Group. We report these businesses separately as discontinued operations in the Consolidated Financial Statements. Refer to Note 2 to our Consolidated Financial Statements for further discussion of our discontinued operations. All reported periods of the calculation of the ratio of earnings to fixed charges exclude discontinued operations.
- (b) Amount for 2010 includes a \$616 million reduction to retained earnings (accumulated deficit) related to a conversion of preferred stock and related amendment that occurred on December 30, 2010, as described in Note 20 to our Consolidated Financial Statements.
- (c) The ratio indicates a less than one-to-one coverage for the years ended December 31, 2011, 2010, 2009, and 2007. Earnings available for fixed charges and preferred dividend requirements for the years ended December 31, 2011, 2010, 2009, and 2007, were inadequate to cover total fixed charges and preferred dividend requirements. The deficit amounts for the ratio were \$782 million, \$1,066 million, \$8,142 million, and \$1,593 million for the years ended December 31, 2011, 2010, 2009, and 2007, respectively.

Table of Contents

DESCRIPTION OF THE UNITS

Treasury is offering Units (or Units if the underwriters exercise their over-allotment option in full), each with a stated amount of \$. Each Unit is composed of a prepaid stock purchase contract (a purchase contract) and a junior subordinated amortizing note (an amortizing note). The following summary of the terms of the Units, the summary of the terms of the purchase contracts set forth under the caption Description of the Purchase Contracts and the summary of the terms of the amortizing notes set forth under the caption Description of the Amortizing Notes in this prospectus contain a description of all of the material terms of the Units and their components but are not complete. We refer you to:

the form of purchase contract agreement to be entered into between Ally and The Bank of New York Mellon, as purchase contract agent (the purchase contract agreement), to be dated the date of first issuance of the Units, under which the purchase contracts and Units will be issued; and

the amended and restated junior subordinated debt indenture, dated as of March 1, 2011 (the base indenture), and a related supplemental indenture for such amortizing notes to be dated the date of first issuance of the amortizing notes (the supplemental indenture and, together with the base indenture, the indenture), between Ally, as issuer, and The Bank of New York Mellon, as trustee, under which the amortizing notes will be issued.

The base indenture and the form of purchase contract agreement have been filed, and the supplemental indenture will be filed, as exhibits to the registration statement of which this prospectus forms a part. Whenever particular sections or defined terms are referred to, such sections or defined terms are incorporated herein by reference.

As used in this section, each of the terms we, us, our, and Ally means Ally Financial Inc. and does not include any subsidiary of Ally Financial Inc.

Components of the Units

Each Unit offered is composed of:

a prepaid stock purchase contract pursuant to which we will deliver to the holder, not later than , 2015 (subject to postponement in certain limited circumstances, the mandatory settlement date), a number of shares of our common stock per purchase contract equal to the settlement rate described below under Description of the Purchase Contracts Delivery of Common Stock, subject to adjustment; and

a junior subordinated amortizing note with an initial principal amount of \$ that pays equal quarterly installments of \$ per amortizing note (except for the , 2012 installment payment, which will be \$ per amortizing note), which in the aggregate will be equivalent to % per year with respect to the \$ stated amount per Unit.

Unless previously settled at your option as described in Description of the Purchase Contracts Early Settlement or Description of the Purchase Contracts Early Settlement Upon a Fundamental Change or unless previously settled at our option as described in Description of the Purchase Contracts Early Settlement at Our Election, we will deliver to you not more than shares and not less than shares of our common stock, par value \$0.01 (the common stock) on the mandatory settlement date, based upon the applicable settlement rate (as defined below), which is subject to adjustment as described herein, and the applicable market value (as defined below) of our common stock, as described below under Description of the Purchase Contracts Delivery of Common Stock.

Table of Contents

Each amortizing note will have an initial principal amount of \$. On , and of each year, commencing on , 2012, we will pay equal quarterly installments of \$ on each amortizing note (except for the , 2012 installment payment, which will be \$ per amortizing note). Each installment will be composed of a payment of interest (at a rate of % per annum) and a partial repayment of principal on the amortizing note, allocated as set forth on the amortization schedule set forth under Description of the Amortizing Notes Amortization Schedule. We will have the right to defer installment payments at any time and from time to time under the circumstances, and subject to the conditions, described under Description of the Amortizing Notes Option to Extend Installment Payment Period so long as such deferral period does not extend beyond , 2018.

The stated amount of each Unit must be allocated between the amortizing note and the purchase contract based upon their relative fair market values for U.S. federal income tax purposes. We have determined that the fair market value of each amortizing note is \$ and the fair market value of each purchase contract is \$. Each holder agrees to this allocation and this position will be binding on each holder (but not on the IRS).

Separating and Recreating Units

Subject to the conditions and under the circumstances described below, a holder of a Unit will have the right to separate a Unit into its component parts, and a holder of a separate purchase contract and a separate amortizing note will have the right to combine the two components to recreate a Unit.

Separating Units

At initial issuance, the purchase contracts and amortizing notes may be purchased and transferred only as Units and will trade under the CUSIP number for the Units.

On any business day during the period beginning on, and including, the business day immediately following the date of initial issuance of the Units to, but excluding, the third scheduled trading day immediately preceding , 2015 or any early mandatory settlement date (as defined below), you will have the right to separate your Unit into its constituent purchase contract and amortizing note (which we refer to as a separate purchase contract and a separate amortizing note, respectively, and which will thereafter trade under their respective CUSIP numbers), in which case that Unit will cease to exist.

Business day means any day other than a Saturday, Sunday or any day on which banking institutions in New York, New York are authorized or obligated by applicable law or executive order to close or be closed.

Your Unit, purchase contract and amortizing note will be represented by global securities registered in the name of a nominee of The Depository Trust Company (DTC). You will not be entitled to receive a definitive physical certificate for your Units, purchase contracts or amortizing notes, except under the limited circumstances described under Book-Entry Procedures and Settlement. Beneficial interests in a Unit and, after separation, the separate purchase contract and separate amortizing note will be shown on and transfers will be effected through direct or indirect participants in DTC. In order to separate your Unit into its component parts, you must deliver written instructions to the broker or other direct or indirect participant through which you hold an interest in your Unit (your participant) to notify DTC through DTC s Deposit/ Withdrawal at Custodian (DWAC) System of your election to separate the Unit.

Separate purchase contracts and separate amortizing notes will be transferable independently from each other.

Recreating Units

If you beneficially own a separate purchase contract and a separate amortizing note, you may combine the two components to recreate a Unit by delivering written instructions to your participant to notify DTC through its

Table of Contents

DWAC System of your desire to recreate the Unit on any business day during the period beginning on, and including, the business day immediately following the date of initial issuance of the Units to, but excluding, the third scheduled trading day immediately preceding , 2015 or any early mandatory settlement date.

Listing of Securities

We have applied to list the Units and our common stock being offered concurrently with this offering on the New York Stock Exchange, subject to satisfaction of its minimum listing standards with respect to the Units and our common stock. However, we can give no assurance that the Units will be so listed. If the Units are approved for listing, we expect that the Units will begin trading on the New York Stock Exchange within 30 calendar days after the Units are first issued. In addition, the underwriters have advised us that they intend to make a market in the Units. Listing on the New York Stock Exchange does not guarantee that a trading market will develop, and the underwriters may discontinue market making at any time in their sole discretion without notice. Accordingly, we cannot assure you that a liquid trading market will develop for the Units (or, if developed, that a liquid trading market will be maintained), that you will be able to sell Units or our common stock issued upon settlement of the purchase contracts at a particular time or that the prices you receive when you sell will be favorable.

We do not intend to apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system.

If our common stock is approved for listing on the New York Stock Exchange, we will also apply to have the shares of our common stock deliverable upon settlement of the purchase contracts approved for listing on such exchange.

Title

We and the purchase contract agent will treat the registered owner of any Unit or separate purchase contract or separate amortizing note as the absolute owner of the Unit or separate purchase contract or separate amortizing note for all purposes.

Replacement of Unit Certificates

In the event that physical certificates evidencing the Units have been issued, any mutilated Unit certificate will be replaced by us at the expense of the holder upon surrender of the certificate to the purchase contract agent. Unit certificates that become destroyed, lost or stolen will be replaced by us at the expense of the holder upon delivery to us and the purchase contract agent of evidence of their destruction, loss or theft satisfactory to us and the purchase contract agent. In the case of a destroyed, lost or stolen Unit certificate, an indemnity satisfactory to us and the purchase contract agent may be required at the expense of the registered holder of the Units before a replacement will be issued.

Notwithstanding the foregoing, we will not be obligated to replace any Unit certificates on or after the business day immediately preceding the earliest of , 2015, any early settlement date, any early mandatory settlement date and any fundamental change early settlement date with respect to such Unit. In those circumstances, the purchase contract agreement will provide that, in lieu of the delivery of a replacement Unit certificate, the purchase contract agent, upon delivery of the evidence and indemnity described above, will deliver or arrange for delivery of the shares of common stock issuable pursuant to the purchase contracts included in the Units evidenced by the certificate.

Miscellaneous

The purchase contract agreement will provide that we will pay all fees and expenses related to the enforcement by the purchase contract agent of the rights of the holders of the Units or the separate purchase contracts.

Should you elect to separate or recreate Units, you will be responsible for any fees or expenses payable in connection with that separation or recreation, and we will have no liability therefor.

Table of Contents

DESCRIPTION OF THE PURCHASE CONTRACTS

Each purchase contract, which initially forms a part of a Unit and which, at the holder's option after the date of initial issuance of the Units, can be separated and transferred separately from the amortizing note also forming a part of a Unit, will be issued pursuant to the terms and provisions of the purchase contract agreement.

The following summary of the terms of the purchase contracts contains a description of all of the material terms of the purchase contracts but is not complete and is subject to, and is qualified in its entirety reference to, all of the provisions of the purchase contract agreement, including the definitions in the purchase contract agreement of certain terms. We refer you to the form of purchase contract agreement to be filed as an exhibit to the registration statement of which this prospectus forms a part.

As used in this section, each of the terms "we," "us," "our" and "Ally" means Ally Financial Inc. and does not include any subsidiary of Ally Financial Inc.

Delivery of Common Stock

Unless previously settled early at your or our option, for each purchase contract we will deliver to you on _____, 2015 (subject to postponement in certain limited circumstances described below, the mandatory settlement date) a number of shares of our common stock. The settlement of the purchase contracts on the mandatory settlement date is not deferrable. The number of shares of our common stock issuable upon settlement of each purchase contract on the mandatory settlement date (the settlement rate) will be determined as follows:

if the applicable market value of our common stock is equal to or greater than the threshold appreciation price, then you will receive _____ shares of our common stock for each purchase contract (the minimum settlement rate);

if the applicable market value of our common stock is greater than \$ _____ (the reference price) but less than the threshold appreciation price, then you will receive a number of shares of our common stock for each purchase contract equal to the Unit stated amount of \$ _____, divided by the applicable market value; and

if the applicable market value of our common stock is less than or equal to the reference price of \$ _____, then you will receive _____ shares of our common stock for each purchase contract (the maximum settlement rate).

The maximum settlement rate and the minimum settlement rate are each subject to adjustment as described under "Adjustments to the Fixed Settlement Rates" below. Each of the minimum settlement rate and the maximum settlement rate is referred to as a fixed settlement rate.

Prior to this offering, there has been no public market for our purchase contracts. Consequently, the reference price will be the initial public offering price of our common stock in the concurrent common stock offering, which was determined by negotiations among us, Treasury and the representatives. Among the factors considered in determining the initial public offering price of our common stock in the concurrent offering were our results of operations, our current financial condition, our future prospects, our markets, the economic conditions in and future prospects for the industry in which we compete, our management, and currently prevailing general conditions in the equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the Units will sell in the public market will not be lower than their initial public offering price or that an active trading market in the Units will develop and continue after this offering.

The threshold appreciation price will be equal to \$ _____, divided by the minimum settlement rate (rounded to the nearest \$0.01). The threshold appreciation price, which is initially \$ _____, represents an appreciation of approximately _____% over the reference price.

Table of Contents

For illustrative purposes only, the following table shows the number of shares of common stock issuable upon settlement of a purchase contract at the assumed applicable market values, based on a reference price of \$ [redacted] and a threshold appreciation price of \$ [redacted]. The table assumes that there will be no adjustments to the fixed settlement rates described as under Adjustments to the Fixed Settlement Rates below and that neither we nor holders elect to settle early as described under Early Settlement, Early Settlement Upon a Fundamental Change or Early Settlement at Our Election below. We cannot assure you that the actual applicable market value will be within the assumed range set forth below.

A holder of a Unit or a separate purchase contract, as applicable, will receive on the mandatory settlement date the following number of shares of common stock at the following assumed applicable market values:

| Assumed Applicable Market Value | Number of Shares of Our Common Stock |
|---------------------------------|--------------------------------------|
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |
| \$ [redacted] | [redacted] |

As the above table illustrates, if, on the mandatory settlement date, the applicable market value is greater than or equal to the threshold appreciation price, we would be obligated to deliver [redacted] shares of our common stock for each purchase contract. As a result, you would receive only approximately [redacted] % of the appreciation in market value of the shares of our common stock that you would have received had you purchased \$ [redacted] worth of shares of our common stock at the public offering price in the concurrent common stock offering.

If, on the mandatory settlement date, the applicable market value is less than the threshold appreciation price but greater than the reference price of \$ [redacted], we would be obligated to deliver a number of shares of our common stock on the mandatory settlement date equal to \$ [redacted], divided by the applicable market value. As a result, we would retain all appreciation in the market value of our common stock underlying each purchase contract between the reference price and the threshold appreciation price.

If, on the mandatory settlement date, the applicable market value is less than or equal to the reference price of \$ [redacted], we would be obligated to deliver upon settlement of the purchase contract [redacted] shares of our common stock for each purchase contract, regardless of the market price of our common stock. As a result, the holder would realize the entire loss on the decline in market value of the common stock underlying each purchase contract since the initial issuance date of the Units.

Because the applicable market value of the common stock is determined over the 20 trading days (as defined below) beginning on, and including, the 23rd scheduled trading day immediately preceding [redacted], 2015, the number of shares of common stock delivered for each purchase contract may be greater than or less than the number that would have been delivered based on the daily VWAP of our common stock on the last trading day in such 20 trading day period. In addition, you will bear the risk of fluctuations in the market price of the shares of our common stock deliverable upon settlement of the purchase contracts between the end of such 20 trading day period and the date such shares are delivered.

The term applicable market value means the average of the daily VWAPs of our common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding [redacted], 2015.

Table of Contents

The daily VWAP of our common stock (or any other security for which a daily VWAP must be determined) means, on any trading day, the per share volume-weighted average price as displayed under the heading Bloomberg VWAP on Bloomberg page US <equity> AQR (or, if applicable, the relevant Bloomberg page for such other security) (or, in either case, its equivalent successor if such page is not available) in respect of the period from the scheduled open of trading on such trading day until the scheduled close of trading on such trading day, or, if such volume-weighted average price is unavailable, the market price of one share of our common stock (or, if applicable, such other security) on such trading day determined, using a volume-weighted average method, by a nationally recognized independent investment banking firm retained by us for this purpose.

A trading day is a day on which shares of our common stock (or, in the case of any other security for which a daily VWAP must be determined, shares of such other security):

are not suspended from trading on any U.S. national or regional securities exchange or association or over-the-counter market at the close of business; and

have traded at least once on the U.S. national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of our common stock (or, if applicable, such other security).

If our common stock (or, if applicable, such other security) is not listed or admitted for trading on any U.S. national or regional securities exchange or association or over-the-counter market, trading day means a business day.

A scheduled trading day is a day that is scheduled to be a trading day on the U.S. national or regional securities exchange or association or over-the-counter market on which our common stock (or, if applicable, such other security) is listed or admitted for trading. If our common stock (or, if applicable, such other security) is not so listed or admitted for trading, scheduled trading day means a business day.

On the mandatory settlement date, our common stock will be issued and delivered to you or your designee, upon (i) surrender of certificates representing the purchase contracts, if such purchase contracts are held in certificated form, and (ii) payment by you of any transfer or similar taxes payable in connection with the issuance of our common stock to any person other than you. As long as the purchase contracts are evidenced by one or more global purchase contract certificates deposited with DTC, the procedures for settlement will be governed by standing arrangements between DTC and the purchase contract agent.

If one or more of the 20 scheduled trading days beginning on, and including, the 23rd scheduled trading day immediately preceding , 2015 is not a trading day, the mandatory settlement date will be postponed until the third scheduled trading day immediately following the last trading day of the 20 trading day period during which the applicable market value is determined.

Prior to the close of business on the last trading day of the 20 trading day period during which the applicable market value is determined, the shares of our common stock underlying each purchase contract will not be outstanding, and the holder of such purchase contract will not have any voting rights, rights to dividends or other distributions or other rights of a holder of our common stock by virtue of holding such purchase contract. The person in whose name any shares of our common stock to be issued upon settlement of the purchase contract on the mandatory settlement date will become the holder of record of such shares as of the close of business on the last trading day of the 20 trading day period during which the applicable market value is determined.

We will pay any documentary, stamp or similar issue or transfer taxes due on the issue of any shares of our common stock upon settlement of the purchase contracts, unless the tax is due because the holder requests any shares to be issued in a name other than the holder's name, in which case the holder will pay that tax.

Table of Contents

Early Settlement

On any trading day prior to the close of business on the third scheduled trading day immediately preceding _____, 2015, you, as a holder of Units or a holder of a separate purchase contract, may elect to settle your purchase contracts early, in whole or in part, and receive shares of common stock at the early settlement rate. The early settlement rate is equal to the minimum settlement rate, subject to adjustment as described below under Adjustments to the Fixed Settlement Rates, unless you elect to settle your purchase contracts early in connection with a fundamental change, in which case you will receive upon settlement of your purchase contracts a number of shares of our common stock based on the fundamental change early settlement rate as described under Early Settlement Upon a Fundamental Change.

Your right to receive common stock upon early settlement of your purchase contract is subject to (i) delivery of a written and signed notice of election (an early settlement notice) to the purchase contract agent electing early settlement of your purchase contract, (ii) if such purchase contract or the Unit that includes such purchase contract is held in certificated form, surrendering the certificates representing the purchase contract and (iii) payment by you of any transfer or similar taxes payable in connection with the issuance of our common stock to any person other than you. As long as the purchase contracts or the Units are evidenced by one or more global certificates deposited with DTC, the procedures for early settlement will be governed by standing arrangements between DTC and the purchase contract agent.

Upon surrender of the purchase contract or the related Unit and payment of any applicable transfer or similar taxes due because of any issuance of the underlying shares in a name of a person other than the holder, you will receive the applicable number of shares of common stock (and a cash payment for any fractional share) as promptly as practicable, but no later than the third business day, following the early settlement date (as defined below).

If you comply with the requirements for effecting early settlement of your purchase contracts earlier than the close of business on any business day, then that day will be considered the early settlement date. If you comply with such requirements at or after the close of business on any business day or at any time on a day that is not a business day, then the next business day will be considered the early settlement date. The person in whose name any shares of our common stock to be issued upon such early settlement of the purchase contract will become the holder of record of such shares as of the close of business on the relevant early settlement date.

Upon early settlement of the purchase contract component of a Unit, the corresponding amortizing note will remain outstanding and registered in the name of the holder who elected to settle the related purchase contract early.

Early Settlement Upon A Fundamental Change

If a fundamental change occurs and you elect to settle your purchase contracts early in connection with such fundamental change in accordance with the procedures described under Early Settlement above, you will receive a number of shares of our common stock based on the fundamental change early settlement rate, as described below. An early settlement will be deemed for these purposes to be in connection with such fundamental change if you deliver your early settlement notice to the purchase contract agent, and otherwise satisfy the requirements for effecting early settlement of your purchase contracts, during the period beginning on, and including, the effective date of the fundamental change and ending at the close of business on the 30th business day thereafter (or, if earlier, the third scheduled trading day immediately preceding _____, 2015) (the fundamental change early settlement period). We refer to this right as the fundamental change early settlement right.

If you comply with the requirements for effecting early settlement upon a fundamental change earlier than the close of business on any business day during the fundamental change early settlement period, then that day will be considered the fundamental change early settlement date. If you comply with such requirements at or

Table of Contents

after the close of business on any business day during the fundamental change early settlement period or at any time on a day during the fundamental change early settlement period that is not a business day, then the next business day will be considered the fundamental change early settlement date if such business day is during the fundamental change early settlement period.

We will provide the purchase contract agent and the holders of Units and separate purchase contracts with a notice of a fundamental change within five business days after its occurrence, issue a press release announcing the effective date and post such press release on our website. The notice will also set forth, among other things, (i) the applicable fundamental change early settlement rate, (ii) if not our common stock, the kind and amount of cash, securities and other property receivable by the holder upon settlement and (iii) the deadline by which each holder's fundamental change early settlement right must be exercised.

A fundamental change will be deemed to have occurred upon the occurrence of any of the following:

(a) a person or group within the meaning of Section 13(d) of the Exchange Act, other than us, our subsidiaries, our and our subsidiaries' employee benefit plans and permitted holders (as defined below), has become the direct or indirect beneficial owner, as defined in Rule 13d-3 under the Exchange Act, of our common equity representing more than 50% of the voting power of our common equity;

(b) any permitted holder has, or any permitted holders have, become the direct or indirect beneficial owners of our common equity representing more than % in the aggregate, of the voting power of our common equity; or

(c) consummation of any consolidation or merger of us or similar transaction or any sale, lease or other transfer in one transaction or a series of transactions of all or substantially all of the property and assets of us to any person other than one of our subsidiaries, in each case pursuant to which our common stock will be converted into cash, securities or other property;

provided, however, that a fundamental change will not be deemed to have occurred if at least 90% of the consideration received by holders of our common stock in the transaction or transactions consists of shares of common stock or depository receipts in respect of common stock that are traded on a U.S. national securities exchange or that will be so traded when issued or exchanged in connection with such transaction or transactions.

A permitted holder means the United States Department of the Treasury or any other agent or instrumentality of the United States.

The fundamental change early settlement rate will be determined by us by reference to the table below, based on the date on which the fundamental change occurs or becomes effective (the effective date) and the stock price in the fundamental change, which will be:

in the case of a fundamental change described in clause (c) of the definition of fundamental change in which holders of shares of our common stock receive only cash in the fundamental change, the stock price will be the cash amount paid per share of our common stock; and

in all other cases, the stock price will be the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the effective date.

The stock prices set forth in the first column of the table below will be adjusted as of any date on which any fixed settlement rate is otherwise adjusted. The adjusted stock prices will equal the stock prices applicable immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the maximum settlement rate immediately prior to the adjustment giving rise to the stock price adjustment and the denominator of which is the maximum settlement rate as so adjusted. The number of shares in the table below will be adjusted in the same manner as the fixed settlement rates as set forth under Adjustments to the Fixed Settlement Rates.

Table of Contents

The following table sets forth the fundamental change early settlement rate per purchase contract for each stock price and effective date set forth below:

| Stock Price | Effective Date |
|-------------|----------------|
| \$ | |
| \$ | |
| \$ | |
| \$ | |
| \$ | |
| \$ | |
| \$ | |

The exact stock prices and effective dates may not be set forth in the table above, in which case:

if the stock price is between two stock prices in the table or the effective date is between two effective dates in the table, the fundamental change early settlement rate will be determined by straight line interpolation between the fundamental change early settlement rates set forth for the higher and lower stock prices and the earlier and later effective dates, as applicable, based on a 365-day year;

if the stock price is greater than \$ _____ per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above), then the fundamental change early settlement rate will be the minimum settlement rate; or

if the stock price is less than \$ _____ per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above, the minimum stock price _____), the fundamental change early settlement rate will be determined as if the stock price equaled the minimum stock price, and using straight line interpolation, as described in the first bullet of this paragraph, if the effective date is between two effective dates in the table.

The maximum number of shares of our common stock deliverable under a purchase contract is _____, subject to adjustment in the same manner as the fixed settlement rates as set forth under Adjustments to the Fixed Settlement Rates.

Upon early settlement of the purchase contract component of a Unit upon a fundamental change, the corresponding amortizing note will remain outstanding and registered in the name of the holder who elected to settle the related purchase contract early upon the fundamental change.

If you do not elect to exercise your fundamental change early settlement right, your purchase contracts will remain outstanding and will be subject to normal settlement on any subsequent early settlement date, any early mandatory settlement date, fundamental change early settlement date or the mandatory settlement date, including, if applicable, the provisions set forth under Adjustments to the Fixed Settlement Rates.

Early Mandatory Settlement at Our Election

We have the right to settle the purchase contracts early, in whole but not in part, on a date fixed by us as described below at the early mandatory settlement rate described below. We refer to this right as our early mandatory settlement right.

The early mandatory settlement rate will be the maximum settlement rate on the notice date (as defined below), unless the daily VWAP of our common stock for 20 or more trading days in a period of 30 consecutive

Table of Contents

trading days ending on, and including, the trading day immediately preceding the notice date (as defined below) exceeds 130% of the threshold appreciation price in effect on each such trading day, in which case the early mandatory settlement rate will be the fundamental change early settlement rate with the effective date for this purpose being deemed to be the early mandatory settlement date specified in the early mandatory settlement notice and the stock price for this purpose being deemed to be the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the early mandatory settlement date.

If we elect to settle the purchase contracts early, you will have the right to require us to repurchase your amortizing notes, except in the circumstances, and subject to the conditions, described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

If we elect to exercise our early mandatory settlement right, we will provide the purchase contract agent and the holders of Units, separate purchase contracts and separate amortizing notes with a notice of our election (the early mandatory settlement notice), issue a press release announcing our election and post such press release on our website. The early mandatory settlement notice will specify, among other things:

the early mandatory settlement rate;

the date on which we will deliver shares of our common stock following exercise of our early mandatory settlement right (the early mandatory settlement date), which will be at least 10 but not more than 30 business days following the date of our notice (the notice date);

that holders of Units and separate amortizing notes will have the right to require us to repurchase their amortizing notes that are a component of the Units or their separate amortizing notes, as the case may be (subject to certain exceptions described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder);

if applicable, the repurchase price and repurchase date (each as defined below under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder);

if applicable, the last date on which holders may exercise their repurchase right; and

if applicable, the procedures that holders must follow to require us to repurchase their amortizing notes.

We will deliver the shares of our common stock and any cash payable for fractional shares to you on the early mandatory settlement date. The person in whose name any shares of our common stock to be issued following exercise of our early mandatory settlement right will become the holder of record of such shares as of the close of business on the notice date.

Adjustments to the Fixed Settlement Rates

Each fixed settlement rate will be adjusted as described below, except that no adjustment to the fixed settlement rates will be made if holders of Units or any separate purchase contracts may participate in the transaction (at a level based on the maximum settlement rate) that would otherwise give rise to such adjustment at the same time and on the same terms as holders of our common stock without having to settle such holders' purchase contracts.

- (1) If we exclusively issue shares of our common stock as a dividend or distribution on shares of our common stock, or if we effect a share split or share combination, each fixed settlement rate will be adjusted based on the following formula:

$SR_1 = SR_0 \times OS_1$

OS_0

A-30

Table of Contents

where,

SR_0 = the fixed settlement rate in effect immediately prior to the close of business on the record date of such dividend or distribution, or immediately prior to the open of business on the effective date of such share split or combination, as applicable;

SR_1 = the fixed settlement rate in effect immediately after the close of business on such record date or immediately after the open of business on such effective date;

OS_0 = the number of shares of our common stock outstanding immediately prior to the close of business on such record date or immediately prior to the open of business on such effective date; and

OS_1 = the number of shares of our common stock outstanding immediately after giving effect to such dividend, distribution, share split or share combination.

Any adjustment made under this clause (1) shall become effective immediately after the close of business on the record date for such dividend or distribution, or immediately after the open of business on the effective date for such share split or share combination, as applicable. If any dividend or distribution of the type described in this clause (1) is declared but not so paid or made, each fixed settlement rate shall be immediately readjusted, effective as of the date our board of directors or a committee thereof determines not to pay such dividend or distribution, to the fixed settlement rates that would then be in effect if such dividend or distribution had not been declared.

(2) If we issue to all or substantially all holders of our common stock any rights, options or warrants entitling them, for a period of not more than 60 calendar days after the announcement date of such issuance, to subscribe for or purchase shares of our common stock at a price per share that is less than the average of the daily VWAPs of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement of such issuance, each fixed settlement rate will be increased based on the following formula:

$$SR_1 = SR_0 \times \frac{OS_0 + X}{OS^0 + Y}$$

where,

SR_0 = the fixed settlement rate in effect immediately prior to the close of business on the record date for such issuance;

SR_1 = the fixed settlement rate in effect immediately after the close of business on such record date;

OS_0 = the number of shares of our common stock outstanding immediately prior to the close of business on such record date;

X = the total number of shares of our common stock issuable pursuant to such rights, options or warrants; and

Y =

Edgar Filing: Ally Financial Inc. - Form S-1/A

the number of shares of our common stock equal to the aggregate price payable to exercise such rights, options or warrants, *divided by* the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement of the issuance of such rights, options or warrants.

Any increase made under this clause (2) will be made successively whenever any such rights, options or warrants are issued and shall become effective immediately after the close of business on the record date for such

A-31

Table of Contents

issuance. To the extent that shares of common stock are not delivered after the expiration of such rights, options or warrants, each fixed settlement rate shall be decreased to the fixed settlement rate that would then be in effect had the increase with respect to the issuance of such rights, options or warrants been made on the basis of delivery of only the number of shares of common stock actually delivered. If such rights, options or warrants are not so issued, each fixed settlement rate shall be decreased to the fixed settlement rate that would then be in effect if the record date for such issuance had not occurred.

For the purpose of this clause (2), in determining whether any rights, options or warrants entitle the holders to subscribe for or purchase shares of our common stock at a price per share that is less than such average of the daily VWAPs for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement of such issuance, and in determining the aggregate offering price of such shares of common stock, there shall be taken into account any consideration received by us for such rights, options or warrants and any amount payable on exercise thereof, the value of such consideration, if other than cash, to be determined by our board of directors or a committee thereof.

(3) If we distribute shares of our capital stock, evidences of our indebtedness, other assets or property of ours or rights, options or warrants to acquire our capital stock or other securities, to all or substantially all holders of our common stock, excluding:

dividends, distributions or issuances as to which an adjustment was effected pursuant to clause (1) or (2) above;

dividends or distributions paid exclusively in cash as to which an adjustment was effected pursuant to clause (4) below; and

spin-offs as to which the provisions set forth below in this clause (3) shall apply;
then each fixed settlement rate will be increased based on the following formula:

$$SR_1 = SR_0 \times \frac{SP_0}{SP_0 - FMV}$$

where,

SR_0 = the fixed settlement rate in effect immediately prior to the close of business on the record date for such distribution;

SR_1 = the fixed settlement rate in effect immediately after the close of business on such record date;

SP_0 = the average of the daily VWAPs of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such distribution; and

FMV = the fair market value (as determined by our board of directors or a committee thereof) of the shares of capital stock, evidences of indebtedness, assets, property, rights, options or warrants distributed with respect to each outstanding share of our common stock on the ex-dividend date for such distribution.

Any increase made under the portion of this clause (3) above will become effective immediately after the close of business on the record date for such distribution. If such distribution is not so paid or made, each fixed settlement rate shall be decreased to be the fixed settlement rate that would then be in effect if such dividend or distribution had not been declared. Notwithstanding the foregoing, if FMV (as defined above) is

Edgar Filing: Ally Financial Inc. - Form S-1/A

equal to or greater than SP_0 (as defined above), in lieu of the foregoing increase, each holder shall receive, in respect of each Unit or separate purchase contract, at the same time and upon the same terms as holders of our common stock receive the shares of capital stock, evidences of indebtedness, assets, property, rights, options or warrants

A-32

Table of Contents

distributed with respect to each outstanding share of our common stock, the amount of shares of capital stock, evidences of indebtedness, assets, property, rights, options or warrants distributed with respect to each outstanding share of our common stock such holder would have received if such holder owned a number of shares of our common stock equal to the maximum settlement rate in effect on the ex-dividend date for such distribution.

With respect to an adjustment pursuant to this clause (3) where there has been a payment of a dividend or other distribution on our common stock of shares of capital stock of any class or series, or similar equity interest, of or relating to a subsidiary or other business unit, that are, or, when issued, will be, listed or admitted for trading on a U.S. national securities exchange, which we refer to as a spin-off, each fixed settlement rate will be increased based on the following formula:

$$SR_1 = SR_0 \times \frac{FMV_0 + MP_0}{MP_0}$$

where,

SR_0 = the fixed settlement rate in effect immediately prior to the end of the valuation period (as defined below);

SR_1 = the fixed settlement rate in effect immediately after the end of the valuation period;

FMV_0 = the average of the daily VWAPs of the capital stock or similar equity interest distributed to holders of our common stock applicable to one share of our common stock over the first 10 consecutive trading days commencing on, and including, the third trading day after the date on which ex-distribution trading commences for such dividend or distribution on the New York Stock Exchange or such other U.S. national securities exchange on which such capital stock or similar equity interest is then listed or quoted (the valuation period); and

MP_0 = the average of the daily VWAPs of our common stock over the valuation period.

The adjustment to the fixed settlement rates under the preceding paragraph will occur on the last trading day of the valuation period; *provided* that if any date for determining the number of shares of our common stock issuable to a holder occurs during the valuation period, references in the preceding paragraph with respect to 10 trading days shall be deemed to be replaced with such lesser number of trading days as have elapsed between the ex-dividend date of such spin-off and such determination date for purposes of determining the fixed settlement rates.

(4) If a dividend or distribution consisting exclusively of cash is made to all or substantially all holders of our common stock, each fixed settlement rate will be adjusted based on the following formula:

$$SR_1 = SR_0 \times \frac{SP_0}{SP_0 - C}$$

where,

SR_0 = the fixed settlement rate in effect immediately prior to the close of business on the record date for such dividend or distribution;

Edgar Filing: Ally Financial Inc. - Form S-1/A

SR_1 = the fixed settlement rate in effect immediately after the close of business on the record date for such dividend or distribution;

SP_0 = the daily VWAP of our common stock on the trading day immediately preceding the ex-dividend date for such dividend or distribution;
and

C = the amount in cash per share we distribute to all or substantially all holders of our common stock.

A-33

Table of Contents

Any increase made under this clause (4) shall become effective immediately after the close of business on the record date for such dividend or distribution. If such dividend or distribution is not so paid, each fixed settlement rate shall be decreased, effective as of the date our board of directors or a committee thereof determines not to make or pay such dividend or distribution, to the fixed settlement rate that would then be in effect if such dividend or distribution had not been declared. Notwithstanding the foregoing, if C (as defined above) is equal to or greater than SP (as defined above), in lieu of the foregoing increase, each holder shall receive, in respect of each Unit or separate purchase contract, at the same time and upon the same terms as holders of our common stock receive such dividend or distribution, the amount of such dividend or distribution such holder would have received if such holder owned a number of shares of our common stock equal to the maximum settlement rate in effect on the ex-dividend date for such dividend or distribution.

- (5) If we make or any of our subsidiaries makes a payment in respect of a tender or exchange offer for our common stock, to the extent that the cash and value of any other consideration included in the payment per share of common stock exceeds the average of the daily VWAP per share of our common stock on the trading day next succeeding the date (the expiration date) such tender or exchange offer expires, each fixed settlement rate will be increased based on the following formula:

$$SR_1 = SR_0 \times \frac{AC + (SP_1 \times OS_1)}{OS_0 \times SP_1}$$

where,

SR₀ = the fixed settlement rate in effect immediately prior to the close of business on the expiration date;

SR₁ = the fixed settlement rate in effect immediately after the close of business on the expiration date;

AC = the aggregate value of all cash and any other consideration (as determined by our board of directors or a committee thereof) paid or payable for shares purchased in such tender or exchange offer;

OS₀ = the number of shares of our common stock outstanding immediately prior to the date such tender or exchange offer expires (prior to giving effect to the purchase of all shares accepted for purchase or exchange in such tender or exchange offer);

OS₁ = the number of shares of our common stock outstanding immediately after the date such tender or exchange offer expires (after giving effect to the purchase of all shares accepted for purchase or exchange in such tender or exchange offer); and

SP₁ = the average of the daily VWAPs of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the expiration date.

The adjustment to each fixed settlement rate under the immediately preceding paragraph will occur at the close of business on the 10th trading day immediately following, and including, the trading day next succeeding the expiration date; *provided* that if any date for determining the number of shares of our common stock issuable to a holder occurs during the 10 trading days immediately following, and including, the trading day next succeeding the expiration date, references in the preceding paragraph with respect to 10 trading days shall be deemed to be replaced with such lesser number of trading days as have elapsed between the trading day next succeeding the expiration date and such determination date for purposes of determining the fixed settlement rates.

As used in this section, ex-dividend date means the first date on which the shares of our common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive the issuance, dividend or distribution in question, from us or, if applicable, from the seller of our common stock on such exchange or market (in the form of due bills or otherwise) as determined by such exchange or market.

Table of Contents

As used in this section, **record date** means, with respect to any dividend, distribution or other transaction or event in which the holders of our common stock have the right to receive any cash, securities or other property or in which common stock (or other applicable security) is exchanged for or converted into any combination of cash, securities or other property, the date fixed for determination of holders of our common stock entitled to receive such cash, securities or other property (whether such date is fixed by our board of directors or a duly authorized committee thereof, statute, contract or otherwise).

We are permitted to increase the fixed settlement rates by any amount for a period of at least 20 business days if our board of directors or a committee thereof determines that such increase would be in our best interest. We may also (but are not required to) increase each fixed settlement rate to avoid or diminish income tax to holders of our common stock or rights to purchase shares of our common stock in connection with a dividend or distribution of shares (or rights to acquire shares) or similar event. In either case, we may make such an adjustment only so long as we make the same proportionate adjustment to each fixed settlement rate.

To the extent that we have a rights plan in effect upon settlement of a purchase contract, you will receive, in addition to the shares of our common stock, the rights under the rights plan, unless prior to settlement of such purchase contract, the rights have separated from the common stock, in which case, and only in such case, each fixed settlement rate will be adjusted at the time of separation as if we distributed to all holders of our common stock shares of our capital stock, evidences of indebtedness, assets, property, rights, options or warrants as described in clause (3) above, subject to readjustment in the event of the expiration, termination or redemption of such rights.

In the event of a taxable distribution of cash or property to stockholders of Ally or any other event that results in an increase in each fixed settlement rate, you may, in certain circumstances, be deemed to have received a distribution subject to U.S. federal income tax as a dividend. In addition, if you are a Non-U.S. Holder (as defined below under **Certain U.S. Federal Income Tax Considerations**) this distribution may be subject to U.S. federal withholding tax.

Adjustments to each fixed settlement rate will be calculated to the nearest 1/10,000th of a share (or if there is not a nearest 1/10,000th of a share, to the next lower 1/10,000th of a share). No adjustment in the fixed settlement rates will be required unless the adjustment would require an increase or decrease of at least one percent. If any adjustment is not required to be made because it would not change the fixed settlement rates by at least one percent, then the adjustment will be carried forward and taken into account in any subsequent adjustment; *provided* that, on any date for determining the number of shares of our common stock issuable to a holder, adjustments to the fixed settlement rates will be made with respect to any such adjustment carried forward and which has not been taken into account before such determination date.

The fixed settlement rates will only be adjusted as set forth above and will not be adjusted:

upon the issuance of any common stock pursuant to any present or future plan providing for the reinvestment of dividends or interest payable on our securities and the investment of additional optional amounts in common stock under any plan;

upon the issuance of any common stock or rights, options or warrants to purchase our common stock pursuant to any present or future employee, director or consultant benefit plan or program of or assumed by us or any of our subsidiaries;

upon the issuance of any common stock pursuant to any option, warrant, right or exercisable, exchangeable or convertible security outstanding as of the date the Units were first issued; or

solely for a change in the par value or no par value of our common stock.

Whenever the fixed settlement rates are adjusted, we will deliver to the purchase contract agent a certificate setting forth in reasonable detail the method by which the adjustment to each fixed settlement rate was determined and setting forth each revised fixed settlement rate. In addition, we will, within five business days of

Table of Contents

any event requiring such adjustment, provide or cause to be provided written notice of the adjustment to the holders of the Units and separate purchase contracts and describe in reasonable detail the method by which each fixed settlement rate was adjusted.

Each adjustment to each fixed settlement rate will result in a corresponding adjustment to the early settlement rate and the early mandatory settlement rate. If an adjustment is made to the fixed settlement rates, an inversely proportional adjustment will also be made to the reference price solely for the purposes of determining which clauses of the definition of settlement rate will apply on the mandatory settlement date. For the avoidance of doubt, no separate inversely proportional adjustment will be made to the threshold appreciation price because it is equal to \$ _____, *divided by* the minimum settlement rate (rounded to the nearest \$0.01) as adjusted in the manner described herein. Because (a) the applicable market value is an average of the daily VWAPs of our common stock over a 20 consecutive trading day period and (b) the fundamental change early settlement rate is generally calculated based on an average of the daily VWAPs over a 10 trading day period, we will make appropriate adjustments to the daily VWAPs prior to the relevant issuance date, record date, ex-dividend date, effective date or expiration date, as the case may be, used to calculate the applicable market value to account for any adjustments to the fixed settlement rates that become effective during the period in which the applicable market value or the stock price, as the case may be, is being calculated.

Our board of directors or a committee thereof will have the power to resolve any ambiguity or, subject to applicable law, correct any error in this section, and its action in so doing will be final and conclusive.

Recapitalizations, Reclassifications and Changes of Our Common Stock

In the event of:

any consolidation or merger of us with or into another person (other than a merger or consolidation in which we are the continuing or surviving corporation and in which the shares of our common stock outstanding immediately prior to the merger or consolidation are not exchanged for cash, securities or other property of us or another person);

any sale, transfer, lease or conveyance to another person of all or substantially all of our property and assets;

any reclassification of our common stock into securities including securities other than our common stock; or

any statutory exchange of our securities with another person (other than in connection with a merger or acquisition); in each case, as a result of which our common stock would be converted into, or exchanged for, securities, cash or property (each, a reorganization event), each purchase contract outstanding immediately prior to such reorganization event will, without the consent of the holders of the purchase contracts, become a contract to purchase the kind of securities, cash and other property that such holder would have been entitled to receive if such holder had settled its purchase contracts immediately prior to such reorganization event (such securities, cash and other property, the exchange property, with each unit of exchange property meaning the kind and amount of exchange property that a holder of one share of common stock would have been entitled to receive). For purposes of the foregoing, the type and amount of exchange property in the case of any reorganization event that causes our common stock to be converted into the right to receive more than a single type of consideration (determined based in part upon any form of shareholder election) will be deemed to be the weighted average of the types and amounts of consideration received by the holders of our common stock that affirmatively make such an election (or of all holders of our common stock if none makes an election). We will notify holders of the Units and separate purchase contracts of the weighted average as soon as practicable after such determination is

Table of Contents

made. The number of units of exchange property for each purchase contract settled following the effective date of such reorganization event will be determined by the fixed settlement rates then in effect on the applicable settlement date (without interest thereon and without any right to dividends or distributions thereon that have a record date prior to the date such purchase contracts are actually settled). For the purpose of determining which bullet of the definition of settlement rate will apply upon mandatory settlement, and for the purpose of calculating the settlement rate if the second bullet is applicable, the value of a unit of exchange property will be determined in good faith by our board of directors or a committee thereof, except that if a unit of exchange property includes common stock or ADRs that are traded on a U.S. national securities exchange, the value of such common stock or ADRs will be the average during the 20 consecutive trading day period ending on, and including, the third trading day immediately preceding the mandatory settlement date of the volume weighted average prices for such common stock or ADRs, as displayed on the applicable Bloomberg screen (as determined in good faith by our board of directors or a committee thereof); or, if such price is not available, the average market value per share of such common stock or ADRs over such period as determined, using a volume-weighted average method, by a nationally recognized independent investment banking firm retained by us for this purpose. We (or any successor to us) will, as soon as reasonably practicable (but in any event within 20 calendar days) after the occurrence of any reorganization event, provide written notice to the holders of Units and separate purchase contracts of such occurrence and of the kind and amount of cash, securities or other property that constitute the exchange property. Failure to deliver such notice will not affect the operation of the provisions described in this section.

Fractional Shares

No fractional shares of our common stock will be issued or delivered to holders upon settlement of the purchase contracts. In lieu of fractional shares otherwise issuable, holders will be entitled to receive an amount in cash equal to the fraction of a share of our common stock, calculated on an aggregate basis in respect of the purchase contracts being settled, *multiplied by* the daily VWAP of our common stock on the trading day immediately preceding the mandatory settlement date, early settlement date, fundamental change early settlement date or early mandatory settlement date, as the case may be.

Consequences of Bankruptcy

Pursuant to the terms of the purchase contract agreement, the mandatory settlement date for each purchase contract, whether held separately or as part of a Unit, will automatically accelerate upon the occurrence of specified events of bankruptcy, insolvency or reorganization with respect to Ally. Pursuant to the terms of the purchase contract agreement, upon acceleration, holders will be entitled under the terms of the purchase contracts to receive a number of shares of our common stock per purchase contract equal to the maximum settlement rate in effect immediately prior to such acceleration (regardless of the applicable market value of our common stock at that time). However, a bankruptcy court may prevent us from delivering our common stock in settlement of the accelerated purchase contracts. In such event, a holder would have a damage claim against us for the value of the common stock that we would have otherwise been required to deliver upon settlement of the purchase contracts. We expect that this claim for damages will rank equally with the claims by holders of our common stock in the bankruptcy proceeding, in which case you will be able to recover damages only to the extent holders of our common stock receive any recovery.

Modification

The purchase contract agreement will contain provisions permitting us and the purchase contract agent to modify the purchase contract agreement without the consent of the holders of purchase contracts (whether held separately or as a component of Units) for any of the following purposes:

to evidence the succession of another person to Ally, and the assumption by any such successor of the covenants and obligations of Ally in the purchase contract agreement and the Units and separate purchase contracts, if any;

Table of Contents

to add to the covenants for the benefit of holders of purchase contracts or to surrender any of our rights or powers under the agreement;

to evidence and provide for the acceptance of appointment of a successor purchase contract agent;

to make provision with respect to the rights of holders of purchase contracts pursuant to adjustments in the settlement rate due to consolidations, mergers or other reorganization events;

to conform the provisions of the purchase contract agreement to the Description of the Purchase Contracts and Description of the Units sections in this prospectus, as supplemented by the related pricing term sheet;

to cure any ambiguity or manifest error, to correct or supplement any provisions that may be inconsistent, so long as such action does not materially adversely affect the interest of the holders; or

to make any other provisions with respect to such matters or questions, so long as such action does not materially adversely affect the interest of the holders.

The purchase contract agreement will contain provisions permitting us and the purchase contract agent, with the consent of the holders of not less than a majority of the purchase contracts at the time outstanding, to modify the terms of the purchase contracts or the purchase contract agreement. However, no such modification may, without the consent of the holder of each outstanding purchase contract affected by the modification,

reduce the number of shares of common stock deliverable upon settlement of the purchase contract (except to the extent expressly provided in the anti-dilution adjustments);

change the mandatory settlement date, your right to settle purchase contracts early or the fundamental change early settlement right;

reduce the above-stated percentage of outstanding purchase contracts the consent of the holders of which is required for the modification or amendment of the provisions of the purchase contracts or the purchase contract agreement; or

impair the right to institute suit for the enforcement of the purchase contracts.

In executing any modification, the purchase contract agent shall be entitled to receive an opinion of counsel stating that such modification is authorized or permitted under the terms of the purchase contract agreement.

Limitations on Mergers, Consolidations and Sales of Assets

The purchase contract agreement provides that we will not consolidate with or merge into another corporation or convey, transfer or lease our assets substantially as an entirety to any person unless:

Ally or the successor entity, as the case may be, is not, immediately after such consolidation, merger, conveyance, transfer or lease, in default of its obligations under the purchase contracts or the purchase contract agreement; and

Edgar Filing: Ally Financial Inc. - Form S-1/A

the successor is a corporation organized in the United States and expressly assumes the due and punctual performance of all of our obligations under the purchase contracts and the purchase contract agreement.

Upon any such consolidation, merger, conveyance or transfer, the successor corporation shall succeed to and be substituted for Ally under the purchase contract agreement. Thereafter, except in the case of a lease, we shall be relieved of all obligations and covenants under the purchase contract agreement and the purchase contracts.

A-38

Table of Contents

Reservation of Common Stock

We will at all times reserve and keep available out of our authorized and unissued common stock, solely for issuance upon settlement of the purchase contracts, that number of shares of common stock as shall from time to time be issuable upon the settlement of all purchase contracts then outstanding, assuming settlement at the maximum settlement rate.

Governing Law

The purchase contract agreement, the purchase contracts and any claim, controversy or dispute arising under or related to the purchase contract agreement or the purchase contracts will be governed by, and construed in accordance with, the laws of the State of New York.

Information Concerning the Purchase Contract Agent

The Bank of New York Mellon will be the purchase contract agent. The purchase contract agent will act as the agent for the holders of Units and separate purchase contracts from time to time. The purchase contract agreement will not obligate the purchase contract agent to exercise any discretionary actions in connection with a default under the terms of the purchase contracts or the purchase contract agreement.

The purchase contract agreement will contain provisions limiting the liability of the purchase contract agent. The purchase contract agreement will contain provisions under which the purchase contract agent may resign or be replaced. This resignation or replacement would be effective upon the acceptance of appointment by a successor.

Calculations in Respect of Purchase Contracts

We will be responsible for making all calculations called for under the Units and any separate purchase contracts. The purchase contract agent will have no obligation to make any such calculations. All such calculations made by us will be made in good faith and, absent manifest error, will be final and binding on the purchase contract agent and the holders of the Units and any separate purchase contracts. We will provide a schedule of such calculations to the purchase contract agent and the purchase contract agent will be entitled to conclusively rely upon the accuracy of such calculations without independent verification.

Table of Contents

DESCRIPTION OF THE AMORTIZING NOTES

We will issue the amortizing notes under the amended and restated junior subordinated debt indenture (the indenture), dated as of March 1, 2011 (the base indenture), and a related supplemental indenture for such amortizing notes to be dated the date of first issuance of the amortizing notes (the supplemental indenture and, together with the base indenture, the indenture), between us, as issuer, and The Bank of New York Mellon, as trustee.

The following summary of the terms of the amortizing notes contains a description of all of the material terms of the amortizing notes but is not complete and is subject to, and is qualified in its entirety reference to, all of the provisions of the indenture, including the definitions in the indenture of certain terms. We refer you to the base indenture, which has been filed, and the supplemental indenture, which will be filed, as an exhibit to the registration statement of which this prospectus forms a part.

As used in this section, each of the terms we, us, our and Ally means Ally Financial Inc. and does not include any subsidiary of Ally Financial Inc.

General

The amortizing notes will be issued as a separate series of junior subordinated debt securities under the indenture in an initial aggregate principal amount of \$ (or \$ initial aggregate principal amount if the underwriters exercise their over-allotment option in full). The final scheduled installment payment date will be , 2015. We may not redeem the amortizing notes.

Amortizing notes may only be issued in certificated form in exchange for a global security under the circumstances described below under Book-Entry Procedures and Settlement. In the event that amortizing notes are issued in certificated form, such amortizing notes may be transferred or exchanged at the offices described below. Payments on amortizing notes issued as a global security will be made to DTC, to a successor depository or, in the event that no depository is used, to a paying agent for the amortizing notes. In the event amortizing notes are issued in certificated form, installments will be payable, the transfer of the amortizing notes will be registrable and amortizing notes will be exchangeable for amortizing notes of other denominations of a like aggregate principal amount at the corporate trust office of the trustee in New York, NY. Installment payments on certificated amortizing notes may be made at our option by check mailed to the address of the persons entitled thereto. See Book-Entry Procedures and Settlement.

There are no covenants or provisions in the indenture that would afford the holders of the amortizing notes protection in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction involving us that may adversely affect such holders.

Subordination

The indenture provides that the amortizing notes are subordinated and junior, both in liquidation and in priority of payment, to the extent specified in the indenture, to all Senior Indebtedness (as defined below) of Ally. This means that Ally may not acquire any amortizing notes and may not pay any installment payments on the amortizing notes:

in the event and during the continuation of a default by Ally in the payment of principal, premium, interest or any other payment due on any Senior Indebtedness of Ally; or

if the maturity of any Senior Indebtedness of Ally has been accelerated because of a default.

Upon any payment by Ally or distribution of assets of Ally to creditors upon any dissolution, winding-up, liquidation or reorganization, whether voluntary or involuntary, or in bankruptcy, insolvency, receivership or other proceedings, all principal, premium, if any, and interest due or to become due on all Senior Indebtedness of

Table of Contents

Ally must be paid in full before the holders of amortizing notes are entitled to receive or retain any payment. Upon satisfaction of all claims related to all Senior Indebtedness of Ally then outstanding, the rights of the holders of the amortizing notes will be subrogated to the rights of the holders of Senior Indebtedness of Ally to receive payments or distributions applicable to Senior Indebtedness until all amounts owing on the amortizing notes are paid in full.

The term **Senior Indebtedness** means, with respect to Ally, the principal, premium, if any, and interest (including interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to Ally, whether or not such claim for post-petition interest is allowed in such proceeding) on and of all indebtedness and obligations in respect of:

- (i) (a) indebtedness for money borrowed and (b) indebtedness evidenced by securities, notes, debentures, bonds or other similar instruments issued by Ally including all indebtedness (whether now or hereafter outstanding) issued under the subordinated debt indenture, dated as of December 31, 2008, between Ally and The Bank of New York Mellon, as trustee, as the same may be amended, modified or supplemented from time to time;
- (ii) all capital lease obligations of Ally;
- (iii) all obligations of Ally issued or assumed as the deferred purchase price of property, all conditional sale obligations of Ally and all obligations of Ally under any conditional sale or title retention agreement;
- (iv) all obligations, contingent or otherwise, of Ally in respect of any letters of credit, banker's acceptance, security purchase facilities and similar credit transactions;
- (v) all obligations of Ally in respect of interest rate swap, cap or other agreements, interest rate future or option contracts, currency swap agreements, currency future or options contracts and other similar agreements;
- (vi) all obligations of the type referred to in clauses (i) through (v) above of other persons for the payment of which Ally is responsible or liable as obligor, guarantor or otherwise; and
- (vii) all obligations of the type referred to in clauses (i) through (vi) above of other persons secured by any lien on any property or asset of Ally, whether or not such obligation is assumed by Ally;

except that Senior Indebtedness does not include:

- (i) any indebtedness issued under the indenture;
- (ii) any guarantee entered into by Ally in respect of any preferred securities, capital securities or preference stock of the GMAC Capital Trust I, a Delaware statutory trust, or any similar trust created for the purpose of issuing trust preferred securities in connection with the issuance of additional securities under the indenture;
- (iii) any accounts payable or other liabilities to trade creditors (including guarantees thereof or instruments evidencing such liabilities); or
- (iv) any indebtedness or any guarantee that is by its terms subordinated to, or ranks equally with, the amortizing notes and the issuance of which, in the case of this clause (iv) only, (x) has received the concurrence or approval of the Board of Governors of the Federal Reserve System and/or the Federal Reserve Bank of Chicago (the **Federal Reserve**) or its staff or (y) does not at the time of issuance prevent the amortizing notes from qualifying for tier 1 capital treatment (irrespective of any limits on the amount of Ally's tier 1 capital) under applicable capital adequacy guidelines, regulations, policies, published interpretations, or any applicable concurrence or approval of the Federal Reserve or its staff.

Table of Contents

The amortizing notes rank senior to all of Ally's equity securities, including preferred stock.

The indenture does not limit the aggregate amount of Senior Indebtedness that may be issued by Ally.

Notwithstanding the above and anything to the contrary in this prospectus, holders of Senior Indebtedness do not have any rights under the indenture to enforce any of the covenants in the indenture.

Installment Payments

Each amortizing note will have an initial principal amount of \$. On , , and of each year, commencing on , 2012 (each, an installment payment date), we will pay, in cash, equal quarterly installments of \$ on each amortizing note (except for the , 2012 installment payment, which will be \$ per amortizing note). Each installment payment will constitute a payment of interest (at a rate of % per annum) and a partial repayment of principal on the amortizing note, allocated as set forth on the amortization schedule set forth under Amortization Schedule. We will have the right to defer installment payments at any time and from time to time under the circumstances, and subject to the conditions, described under Option to Extend Installment Payment Period so long as such deferral period does not extend beyond , 2018. Installments will be paid to the person in whose name an amortizing note is registered, with limited exceptions, as of the close of business on the business day immediately preceding the related installment payment date. If the amortizing notes do not continue to remain in book-entry only form, we will have the right to select regular record dates, which will be more than 14 days but less than 60 days before the relevant installment payment date.

Each installment payment for any period will be computed on the basis of a 360-day year of twelve 30-day months. The installment payable for any period shorter than a full installment payment period will be computed on the basis of the actual number of days elapsed per 30-day month. In the event that any date on which an installment is payable is not a business day, then payment of the installment on such date will be made on the next succeeding day that is a business day, and without any interest or other payment in respect of any such delay. However, if such business day is in the next succeeding calendar year, then such installment payment will be made on the immediately preceding business day, in each case with the same force and effect as if made on the scheduled installment payment date.

Amortization Schedule

The total installments of principal and interest on the amortizing notes for each scheduled installment payment date are set forth below:

| Scheduled Installment Payment Date | Amount of Principal | Amount of Interest |
|------------------------------------|---------------------|--------------------|
| , 2012 | | |
| , 2012 | | |
| , 2012 | | |

Table of Contents

Option to Extend Installment Payment Period

So long as no event of default has occurred and is continuing, we have the right, at any time and from time to time, to defer installment payments by extending the installment payment period, so long as such period of time does not extend beyond _____, 2018 (the extension period). We may end an extension period on any installment payment date occurring on or before _____, 2015 or, in the case of an extension period that extends beyond _____, 2015, on any business day thereafter that is on or before _____, 2018.

At the end of any extension period, we will pay all installment payments for which the related installment payment date occurred during such extension period, together with interest on the full amount of such installment payments compounded quarterly at the rate specified for the interest component of the amortizing notes to the extent permitted by applicable law. We will give the holders of Units and separate amortizing notes at least 10 business days notice of the end of an extension period.

Prior to the termination of any extension period, we may further defer installment payments by extending such extension period. Such extension period, including all such previous and further extensions, may not extend beyond _____, 2018. Upon the termination of any extension period and the payment of all amounts then due, we may commence a new extension period, if consistent with the terms set forth in this section. No installment payment (or interest thereon) during an extension period, except at the end of such period, shall be due and payable.

We have no present intention of exercising our right to defer installment payments by extending the installment payment period on the amortizing notes.

We will give the holders of Units and separate amortizing notes notice of our election of an extension period (or any extension thereof) at least 10 business days prior to the earlier of:

the next succeeding installment payment date; or

the date we are required to give notice of the record or payment date of such installment payment to the New York Stock Exchange or other applicable self-regulatory organization or to holders of the Units and separate amortizing notes.

Restrictions Applicable During an Extension Period and Certain Other Circumstances

If:

we exercise our right to defer installment payments as described above, or

then: there shall have occurred and be continuing any default under the indenture,

we and any subsidiary of us (other than a subsidiary that is a depository institution, or a subsidiary thereof) shall not declare or pay any dividend on, make any distributions with respect to, or redeem, purchase, acquire or make a liquidation payment with respect to, any of our capital stock or make any guarantee payment with respect thereto, other than:

redemptions, purchases or other acquisitions of shares of our capital stock in connection with the administration of any employee benefit plan in the ordinary course of business and consistent with past practice,

Edgar Filing: Ally Financial Inc. - Form S-1/A

the acquisition by us or any of our subsidiaries of record ownership in our capital stock for the beneficial ownership of any other persons (other than us or any of our subsidiaries), including trustees or custodians,

A-43

Table of Contents

as a result of an exchange or conversion of any class or series of our capital stock for any other class or series of our capital stock or as a result of early settlement of any purchase contracts as described under Description of the Purchase Contracts Early Settlement, Early Settlement Upon a Fundamental Change or Early Mandatory Settlement at Our Election,

distributions by or among any wholly-owned subsidiary of us,

redemptions of securities held by us or any wholly-owned subsidiary of us, and

unpaid tax distributions to holders of membership interests of GMAC LLC pursuant to its Plan of Conversion, dated June 30, 2009, and

we and any subsidiary of us (other than a subsidiary that is a depository institution, or a subsidiary thereof) shall not make any payment of interest on or principal of (or premium, if any, on), or repay, repurchase or redeem, any debt securities or guarantees issued by the Company which rank *pari passu* with or junior to the amortizing notes (junior subordinated indebtedness), other than:

redemptions, purchases or other acquisitions of junior subordinated indebtedness in connection with the administration of any employee benefit plan in the ordinary course of business and consistent with past practice,

the acquisition by us or any of our subsidiaries of record ownership in junior subordinated indebtedness for the beneficial ownership of any other persons (other than us or any of our subsidiaries), including trustees or custodians,

as a result of an exchange or conversion of any class or series of junior subordinated indebtedness for any other class or series of junior subordinated indebtedness or for any class or series of our capital stock,

redemptions of securities held by us or any wholly-owned subsidiary of us, and

any payment of interest on junior subordinated indebtedness paid *pro rata* with interest paid on the amortizing notes such that the respective amounts of such payments made shall bear the same ratio to each other as all accrued but unpaid interest per like-amount of such amortizing notes and all junior subordinated indebtedness bear to each other, *provided, however*, the foregoing restrictions will not apply to (i) any stock dividends paid by us where the dividend stock is the same stock as that on which the dividend is being paid or (ii) dividends or distributions by or other transactions solely among us and any wholly-owned subsidiary of us or solely among wholly-owned subsidiaries of us.

Repurchase of Amortizing Notes at the Option of the Holder

If:

we elect to exercise our early mandatory settlement right with respect to the purchase contracts and

at the time of such election there is not an extension period in effect and we have not given notice as contemplated by the final paragraph under Option to Extend Installment Payment Period that we intend to defer future scheduled installment payments,

Edgar Filing: Ally Financial Inc. - Form S-1/A

then holders of the amortizing notes (whether as components of Units or separate amortizing notes) will have the right (the repurchase right) to require us to repurchase some or all of their amortizing notes for cash at the repurchase price per amortizing note to be repurchased on the repurchase date, as described below. Holders may

A-44

Table of Contents

not require us to repurchase a portion of an amortizing note. Holders will not have the right to require us to repurchase any or all of such holder's amortizing notes in connection with any early settlement of such holder's purchase contracts at the holder's option, as described above under Description of the Purchase Contracts Early Settlement and Description of the Purchase Contracts Early Settlement Upon a Fundamental Change.

Notwithstanding the foregoing, holders may exercise the repurchase right if an extension period is in effect or we have given notice that we intend to defer future scheduled installment payments, if, at the time we elect to exercise our early mandatory settlement right, we have received any required regulatory approval or consent from the Federal Reserve or any successor primary federal regulator or its staff to extend the repurchase right to holders.

The repurchase date will be a date specified by us in the early mandatory settlement notice, which will be at least 20 but not more than 45 business days following the date of our early mandatory settlement notice as described under Description of the Purchase Contracts Early Settlement at Our Option (and which may or may not fall on the early mandatory settlement date).

The repurchase price per amortizing note to be repurchased will be equal to the principal amount of such amortizing note as of the repurchase date, plus (i) accrued and unpaid interest on such principal amount from, and including, the immediately preceding installment payment date to, but not including, the repurchase date, calculated at a rate of % per annum and (ii) if at the time we extend the repurchase right to holders there is an extension period in effect, the aggregate amount of deferred installment payments and interest thereon, determined as set forth above under Option to Extend Installment Payment Period. However, if the amortizing notes are in certificated form and the repurchase date falls after a regular record date and on or prior to the immediately succeeding installment payment date, the installment payment payable on such installment payment date will be paid on such installment payment date to the holder as of the close of business on such regular record date and will not be included in the repurchase price per amortizing note.

To exercise your repurchase right, you must deliver, on or before the close of business on the second business day immediately preceding the repurchase date, the amortizing notes to be repurchased (or the Units including such amortizing notes if the early mandatory settlement date falls on or after the repurchase date and you have not separated your Units into their constituent components), together with a duly completed written repurchase notice in the form entitled Form of Repurchase Notice on the reverse side of the amortizing notes (a repurchase notice), in each case in accordance with appropriate DTC procedures, unless you hold certificated amortizing notes (or Units), in which case you must deliver the amortizing notes to be repurchased (or Units), duly endorsed for transfer, together with a repurchase notice, to the paying agent. Your repurchase notice must state:

if certificated amortizing notes (or Units) have been issued, the certificate numbers of the amortizing notes (or Units), or if not certificated, your repurchase notice must comply with appropriate DTC procedures;

the number of amortizing notes to be repurchased; and

that the amortizing notes are to be repurchased by us pursuant to the applicable provisions of the amortizing notes and the indenture. You may withdraw any repurchase notice (in whole or in part) by a written, irrevocable notice of withdrawal delivered to the trustee, prior to the close of business on the second business day immediately preceding the repurchase date. The notice of withdrawal must state:

the number of the withdrawn amortizing notes;

if certificated amortizing notes (or Units) have been issued, the certificate numbers of the withdrawn amortizing notes (or Units), or if not certificated, your notice must comply with appropriate DTC procedures; and

Table of Contents

the number of amortizing notes, if any, that remain subject to the repurchase notice.

We will be required to repurchase the amortizing notes to be repurchased on the repurchase date. You will receive payment of the repurchase price on the later of (i) the repurchase date and (ii) the time of book-entry transfer or the delivery of the amortizing notes (or Units). If the trustee holds money sufficient to pay the repurchase price of the amortizing notes to be repurchased on the repurchase date, then:

such amortizing notes will cease to be outstanding and interest will cease to accrue (whether or not book-entry transfer of the amortizing notes (or Units) is made or whether or not the amortizing notes (or Units) are delivered to the trustee); and

all other rights of the holder will terminate (other than the right to receive the repurchase price).

In connection with any repurchase offer pursuant to an early mandatory settlement notice, we will, if required:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act that may then be applicable; and

file a Schedule TO or any other required schedule under the Exchange Act, in each case, so as to permit the rights and obligations under this Repurchase of Amortizing Notes at the Option of the Holder to be exercised in the time and in the manner specified in the indenture.

No amortizing notes may be repurchased at the option of holders if the principal amount thereof has been accelerated, and such acceleration has not been rescinded, on or prior to the repurchase date (except in the case of an acceleration resulting from a default by us of the payment of the repurchase price with respect to such amortizing notes).

Events of Default and Acceleration

The indenture provides that the following are events of default relating to the amortizing notes:

failure to pay in full all deferred installment payments on the amortizing notes on or by _____, 2018 and continuance of such failure to pay for a period of 30 days; or

specified events of bankruptcy, insolvency or reorganization, or court appointment of a receiver, liquidator or trustee of Ally.

If any event of default shall occur and be continuing, the trustee or the holders of 25% or more in principal amount of the amortizing notes (which may be held either as a component of Units or separate amortizing notes) will have the right to declare the principal of all the amortizing notes then outstanding to be immediately due and payable, upon which the principal and the interest on the amortizing notes, including any compound interest, and any other amounts payable under the indenture to be immediately due and payable.

Defaults

The indenture provides that the following are defaults relating to the amortizing notes:

an event of default (as set forth above under Events of Default and Acceleration);

Edgar Filing: Ally Financial Inc. - Form S-1/A

a default for 30 days in the payment of any installment payment on any amortizing note when such is due (taking into account any extension period);

A-46

Table of Contents

failure to give notice of a fundamental change as described under Description of the Purchase Contracts Early Settlement Upon a Fundamental Change when due;

failure to pay the repurchase price in connection with any holder's exercise of its repurchase right as described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder ; and

a default for 90 days after written notice in the performance of any other covenant in respect of the amortizing notes. There is no right of acceleration with respect to defaults, except for defaults that are events of default.

Any deferral of installment payments on the amortizing notes made in accordance with the provisions described above in Option to Extend Installment Payment Period will not constitute a default under the indenture.

The trustee may withhold notice to the holders of the amortizing notes of any default with respect thereto, except in the failure to make an installment payment, or the payment of the repurchase price, if it considers such withholding to be in the interests of such holders.

Modifications and Amendments

Modifications and amendments to the indenture through a supplemental indenture may be made by us and the trustee with the consent of the holders of a majority in principal amount of the amortizing notes at the time outstanding (or, with respect to certain actions, without such consent). However, no such modification or amendment may, without the consent of the holder of each amortizing note affected thereby:

- (1) modify the installment payment terms of such amortizing notes; or
- (2) reduce the percentage of holders of amortizing notes necessary to modify or amend the indenture or waive compliance by us with any covenant or past default.

Discharge and Defeasance of Indenture

We may discharge most of our obligations under the indenture to holders of the amortizing notes if such amortizing notes have not already been delivered to the trustee for cancellation and either have become due and payable or are by their terms due and payable within one year. We discharge our obligations by depositing with the trustee an amount certified to be sufficient to pay when due all the remaining installment payments on all outstanding amortizing notes.

We, at our option:

- (1) will be released from any and all obligations in respect of the amortizing notes, which is known as defeasance and discharge ; or
- (2) need not comply with certain covenants specified herein regarding the amortizing notes, which is known as covenant defeasance. If we exercise our covenant defeasance option, the failure to comply with any defeased covenant and any default in the indenture with respect to such defeased covenant will no longer be a default under the indenture.

Table of Contents

To exercise either our defeasance and discharge or covenant defeasance option, we must

- (1) deposit with the trustee, in trust, cash or U.S. government obligations in an amount sufficient to pay all the remaining installments on the amortizing notes when such payments are due; and
- (2) deliver an opinion of counsel (that, in the case of a defeasance and discharge, must be based upon a ruling or administrative pronouncement of the IRS, or a change in applicable U.S. federal income tax law) to the effect that the holders of the amortizing notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit or defeasance and will be required to pay U.S. federal income tax in the same manner as if such defeasance had not occurred.

When there is a defeasance and discharge, the indenture will no longer govern the amortizing notes, we will no longer be liable for payment, and the holders of such amortizing notes will be entitled only to the deposited funds. When there is a covenant defeasance, however, we will continue to be obligated for installment payments when due if the deposited funds are not sufficient to pay the holders.

The obligations under the indenture to register the transfer or exchange of amortizing notes, to replace mutilated, defaced, destroyed, lost or stolen amortizing notes, and to maintain paying agents and hold monies for payment in trust will continue even if we exercise our defeasance and discharge or covenant defeasance option.

Limitations on Mergers, Consolidations and Sales of Assets

The indenture provides that we will not consolidate with or merge into another corporation or convey, transfer or lease our assets substantially as an entirety unless:

the successor is a corporation organized in the United States and expressly assumes the due and punctual payment of the installment payments on all amortizing notes issued thereunder and the performance of every other covenant of the indenture on our part; and

immediately thereafter no default and no event that, after notice or lapse of time, or both, would become a default, shall have happened and be continuing.

Upon any such consolidation, merger, conveyance or transfer, the successor corporation shall succeed to and be substituted for Ally under the indenture. Thereafter, except in the case of a lease, we shall be relieved of all obligations and covenants under the indenture and the amortizing notes.

Governing Law

The indenture and the amortizing notes will be governed by, and construed and interpreted in accordance with, the laws of the State of New York, and all rights and remedies will be governed by such laws without regard for the principles of its conflict of laws.

Unclaimed Funds

Any monies deposited with the trustee or any paying agent or then held by Ally in trust for the payment of installment payments on the amortizing notes that remain unclaimed for two years after the date the payments became due and payable, shall, at Ally's request, be repaid to Ally or released from trust, as applicable, and the holder of the amortizing note shall thereafter look, as a general unsecured creditor, only to Ally for payment thereof.

Table of Contents

BOOK-ENTRY PROCEDURES AND SETTLEMENT

The Units, the separate purchase contracts and the separate amortizing notes will initially be issued under a book-entry system in the form of global securities. We will register the global securities in the name of The Depository Trust Company, New York, New York, or DTC, or its nominee and will deposit the global securities with that depository.

Following the issuance of a global security in registered form, the depository will credit the accounts of its participants with the Units, the separate purchase contracts and the separate amortizing notes, as the case may be, upon our instructions. Only persons who hold directly or indirectly through financial institutions that are participants in the depository can hold beneficial interests in the global securities. Because the laws of some jurisdictions require certain types of purchasers to take physical delivery of such securities in definitive form, you may encounter difficulties in your ability to own, transfer or pledge beneficial interests in a global security.

So long as the depository or its nominee is the registered owner of a global security, we and the trustee will treat the depository as the sole owner or holder of the Units, the separate purchase contracts and the separate amortizing notes, as the case may be. Therefore, except as set forth below, you will not be entitled to have Units, separate purchase contracts or separate amortizing notes registered in your name or to receive physical delivery of certificates representing the Units, the separate purchase contracts or the separate amortizing notes. Accordingly, you will have to rely on the procedures of the depository and the participant in the depository through whom you hold your beneficial interest in order to exercise any rights of a holder under the indenture or the purchase contract agreement, as the case may be. We understand that under existing practices, the depository would act upon the instructions of a participant or authorize that participant to take any action that a holder is entitled to take.

You may elect to hold interests in the global securities either in the United States through DTC or outside the United States through Clearstream Banking, société anonyme (Clearstream) or Euroclear Bank, S.A./N.V., or its successor, as operator of the Euroclear System, (Euroclear) if you are a participant of such system, or indirectly through organizations that are participants in such systems. Interests held through Clearstream and Euroclear will be recorded on DTC's books as being held by the U.S. depository for each of Clearstream and Euroclear, which U.S. depositories will in turn hold interests on behalf of their participants' customers' securities accounts.

As long as the separate amortizing notes are represented by the global securities, we will pay installments on those separate amortizing notes to or as directed by DTC as the registered holder of the global securities. Payments to DTC will be in immediately available funds by wire transfer. DTC, Clearstream or Euroclear, as applicable, will credit the relevant accounts of its participants in accordance with its customary procedures.

Neither Ally, Treasury nor the trustee will be responsible for making any payments to participants or customers of participants or for maintaining any records relating to the holdings of participants and their customers, and you will have to rely on the procedures of the depository and its participants.

Settlement

Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream customers and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream customers or Euroclear participants, on the other, will be effected in

Table of Contents

DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. depositary; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (based on European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to the U.S. depositary to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream customers and Euroclear participants may not deliver instructions directly to their respective U.S. depositaries.

Because of time-zone differences, credits of securities received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in Units, separate purchase contracts or separate amortizing notes, as the case may be, that are settled during such processing will be reported to the relevant Clearstream customers or Euroclear participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of Units, separate purchase contracts or separate amortizing notes, as the case may be, by or through a Clearstream customer or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of Units, separate purchase contracts and separate amortizing notes, as the case may be, among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.

Definitive Securities and Paying Agents

A beneficial owner of book-entry securities represented by a global security may exchange the securities for definitive securities only if:

- (a) the depositary is unwilling or unable to continue as depositary for such global security and we are unable to find a qualified replacement for the depositary within 90 days;
- (b) at any time the depositary ceases to be a clearing agency registered under the Securities Exchange Act of 1934; or
- (c) an event of default with respect to the amortizing notes, or any failure on the part of us to observe or perform any covenant or agreement in the purchase contracts, has occurred and is continuing and such beneficial owner requests that its amortizing notes and/or purchase contracts, as the case may be, be issued in definitive, certificated form.

The global security will be exchangeable in whole for definitive securities in registered form, with the same terms and of an equal aggregate principal amount. Definitive Units, separate purchase contracts or separate amortizing notes, as the case may be, will be registered in the name or names of the person or persons specified by the depositary in a written instruction to the registrar of the securities. The depositary may base its written instruction upon directions it receives from its participants.

If any of the events described above occurs, then the beneficial owners will be notified through the chain of intermediaries that definitive securities are available and notice will be published as described below under Notices. Beneficial owners of book-entry Units, separate purchase contracts or separate amortizing notes, as the case may be, will then be entitled (1) to receive physical delivery in certificated form of definitive Units, separate purchase contracts or separate amortizing notes, as the case may be, equal in aggregate amount of Units, separate purchase contracts or separate amortizing notes, as the case may be, to their beneficial interest and (2) to have the

Table of Contents

definitive securities registered in their names. Thereafter, the holders of the definitive Units, separate purchase contracts and separate amortizing notes, as the case may be, will be recognized as the holders of the Units, separate amortizing notes and separate purchase contracts for purposes of the purchase contract agreement and indenture, respectively.

Each of the purchase contract agreement and indenture provides for the replacement of a mutilated, lost, stolen or destroyed definitive security, so long as the applicant furnishes to us and the trustee or purchase contract agent such security or indemnity and such evidence of ownership as they may require.

In the event definitive separate amortizing notes are issued, the holders thereof will be able to receive installment payments at the office of Ally's paying agent. The final installment payment of a definitive separate amortizing note may be made only against surrender of the separate amortizing note to one of Ally's paying agents. Ally also has the option of making installment payments by mailing checks to the registered holders of the separate certificated amortizing notes. Ally's paying agent is the corporate trust office of The Bank of New York Mellon.

In the event definitive Units, separate purchase contracts or separate amortizing notes are issued, the holders thereof will be able to transfer their securities, in whole or in part, by surrendering such securities for registration of transfer at the office of The Bank of New York Mellon listed above. A form of such instrument of transfer will be obtainable at the relevant office of The Bank of New York Mellon. Upon surrender, we will execute, and the purchase contract agent and the trustee will authenticate and deliver, new Units, separate purchase contracts or separate amortizing notes, as the case may be, to the designated transferee in the amount being transferred, and a new security for any amount not being transferred will be issued to the transferor. Such new securities will be delivered free of charge at the relevant office of The Bank of New York Mellon, as requested by the owner of such new Units, separate purchase contracts or separate amortizing notes. We will not charge any fee for the registration of transfer or exchange, except that we may require the payment of a sum sufficient to cover any applicable tax or other governmental charge payable in connection with the transfer.

Notices

So long as the global securities are held on behalf of DTC or any other clearing system, notices to holders of securities represented by a beneficial interest in the global securities may be given by delivery of the relevant notice to DTC or the alternative clearing system, as the case may be. Any published notice will be deemed to have been given on the date of publication or, if published more than once, on the date of the first publication.

Table of Contents

CONCURRENT TRANSACTIONS

Conversion and Exchange of Series F-2 Preferred Stock

Treasury currently holds 118,750,000 shares of our Series F-2 preferred stock, having an aggregate liquidation amount of \$5,937,500,000. In connection with this offering and the concurrent common stock offering, Treasury intends (i) to convert 58,750,000 shares of Series F-2 preferred stock into shares of our common stock based on a conversion price equal to the common stock public offering price, and (ii) to exchange the remaining 60,000,000 shares of Series F-2 preferred stock having an aggregate liquidation amount of \$3 billion, for a number of our Units having an aggregate stated amount of \$3 billion.

The number of shares of common stock we will issue to Treasury in connection with the conversion will depend upon the common stock public offering price. The higher the common stock public offering price is, the fewer the number of shares of common stock Treasury will receive and the lower the common stock public offering price is, the greater the number of shares of common stock Treasury will receive. The following table sets forth the number of shares we will issue to Treasury in connection with the conversion for each common stock public offering price set forth below:

| Public Offering Price | Number of Shares Issued to Treasury |
|-----------------------|--|
| \$ | |
| \$ | |
| \$ | |
| \$ | |

In addition, we and Treasury intend to modify certain terms of the Series F-2 preferred stock so that Treasury will receive additional shares of our common stock in connection with the offering.

The closing of each of this offering, the concurrent common stock offering, the conversion and the exchange is conditioned upon the closing of each such other transaction.

Concurrent Common Stock Offering

Concurrently with this offering, Treasury is also making a public offering of shares of our common stock. Treasury has granted the underwriters of that offering the right to purchase up to additional shares of our common stock to cover over-allotments, if any, at the common stock public offering price, less the underwriters discount for the concurrent common stock offering, within 30 days from the date of the prospectus for the concurrent common stock offering.

Table of Contents

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

Based on an opinion of Davis Polk & Wardwell LLP which has been filed with the registration statement that this prospectus is a part of, the following are the material U.S. federal income tax consequences of the purchase, ownership and disposition of the Units, the purchase contracts and the amortizing notes that are components of the Units and shares of our common stock acquired under a purchase contract. This discussion applies to you only if you acquire the Units in this offering at the initial offering price for the Units, and you hold the Units, the components of the Units and shares of our common stock as capital assets.

This discussion does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances or if you are a person subject to special rules, such as:

a financial institution;

an insurance company;

a dealer or trader subject to a mark-to-market method of tax accounting with respect to Units, purchase contracts, amortizing notes or shares of our common stock;

a person holding Units, purchase contracts, amortizing notes or shares of our common stock as part of a hedge, straddle, integrated transaction or similar transaction;

a U.S. Holder (as defined below) whose functional currency is not the U.S. dollar;

a partnership for U.S. federal income tax purposes;

a U.S. expatriate;

a tax-exempt entity; or

a person subject to the alternative minimum tax.

If you are a partnership for U.S. federal income tax purposes that holds Units, purchase contracts, amortizing notes or common stock, the U.S. federal income tax treatment of your partners will generally depend on the status of the partners and on your activities. If you are a partnership considering the purchase of Units or a partner in such a partnership, you should consult your tax adviser as to the particular U.S. federal income tax consequences of holding and disposing of Units, purchase contracts, amortizing notes or common stock.

This summary does not address any U.S. federal tax consequences other than U.S. federal income tax consequences (such as estate and gift tax or the recently enacted Medicare tax on certain investment income or any state, local or foreign tax consequences). This summary is based on the Internal Revenue Code of 1986, as amended (the Code), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein (possibly with retroactive effect). If you are considering the purchase of Units, purchase contracts, amortizing notes and shares of our common stock, you are urged to consult your tax adviser with regard to the application of the U.S. federal income tax laws to your particular situation as well as any tax consequences arising under other federal tax laws or the laws of any state, local or foreign taxing jurisdiction.

Characterization of Units and Amortizing Notes

In the opinion of Davis Polk & Wardwell LLP, although there is no authority directly on point and therefore the issue is not entirely free from doubt, each Unit will be treated in accordance with its form as an investment unit composed of two separate instruments, the amortizing notes will be treated as indebtedness, and the purchase contracts will be treated as contracts to acquire our stock, in each case for U.S. federal income tax purposes. Under this treatment, you will be treated as if you acquired each component of a Unit for U.S. federal income tax purposes. By acquiring a Unit, you will agree to treat (i) a Unit as an investment unit composed of two separate instruments in accordance with its form and (ii) the amortizing notes as indebtedness, in each case for U.S. federal income tax purposes.

Table of Contents

If the components of a Unit were treated as a single instrument, the U.S. federal income tax consequences could differ materially from the consequences described below. Specifically, if you are a U.S. Holder, as defined below, you could be required to recognize as income the entire amount of each installment payment on the amortizing notes, rather than merely the portion of such payment denominated as interest. If you are a Non-U.S. Holder, as defined below, payments of principal and stated interest made to you on the amortizing notes could be subject to U.S. federal withholding tax as dividend income. Even if the components of a Unit are respected as separate instruments for U.S. federal income tax purposes, (i) the amortizing notes could be recharacterized as equity for U.S. federal income tax purposes, in which case payments of principal and stated interest to you, if you are a Non-U.S. Holder, on the amortizing notes could be subject to U.S. federal withholding tax and (ii) the purchase contracts could be treated as our stock, in which case the tax consequences of the purchase, ownership and disposition thereof would be substantially the same as the tax consequences described herein.

No ruling has been or will be sought from the IRS with respect to the characterization of the Units (or the components thereof) for U.S. federal income tax purposes or any of the U.S. federal income tax consequences discussed below, and no assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those described above. Unless stated otherwise, the remainder of this discussion is based on counsel’s opinion that the characterization of the Units as two separate instruments, the characterization of the amortizing notes as indebtedness, and the characterization of the purchase contracts as contracts to acquire our common stock will be respected for U.S. federal income tax purposes.

Tax Consequences to U.S. Holders

You are a U.S. Holder if you are, for U.S. federal income tax purposes, a beneficial owner of a Unit, purchase contract, amortizing note or share of our common stock acquired under a purchase contract that is:

an individual citizen or resident of the United States;

a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof or the District of Columbia; or

an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Allocation of the Issue Price

We have determined that the issue price of a Units is \$. We have determined that the portion of the issue price of a Unit allocated to each of the purchase contract and amortizing note that constitute the Unit is \$ and \$, respectively. That allocation will be binding on you (but not on the IRS) unless you explicitly disclose a contrary position on a statement attached to your timely filed U.S. federal income tax return for the taxable year in which you acquire Units. The remainder of this discussion assumes that this allocation of issue price to each purchase contract and amortizing note will be respected for U.S. federal income tax purposes.

Payments of Stated Interest and Original Issue Discount

Under applicable Treasury regulations, a remote possibility that stated interest will not be timely paid will be ignored in determining whether a debt instrument is issued with original issue discount (OID). Ally believes, and thus this summary assumes, that the likelihood of it exercising its option to defer payments is remote within the meaning of the Treasury regulations. Based on the foregoing, Ally believes that the amortizing notes will not be considered to be issued with OID at the time of their original issuance and, accordingly, that payments of stated interest on the amortizing notes will generally be taxable as ordinary interest income at the time they accrue or are received by you in accordance with your regular method of accounting for U.S. federal income tax purposes.

Table of Contents

Under the Treasury regulations, if the exercise by Ally of its option to defer any payment of interest was determined not to be remote, or if Ally actually exercised its option to defer any payment of interest, the amortizing notes would be treated as issued with OID at the time of issuance or at the time of the exercise, as the case may be. All stated interest on the amortizing notes would thereafter be treated as OID as long as the amortizing notes remained outstanding. In this event, all of your taxable interest income relating to the amortizing notes would constitute OID that would have to be included in income on an economic accrual basis before the receipt of the cash attributable to the interest, regardless of your regular method of tax accounting, and payments of stated interest would not be separately includible in your taxable income. You would be required to include OID in gross income (as ordinary income) even if Ally exercised its option to defer one or more payments of interest during an extension period.

In addition, this disclosure assumes that the issue price of the amortizing notes is equal to their initial principal amount. If the difference between the issue price and the initial principal amount of the amortizing notes (or the sum of all payments on the amortizing notes, if the exercise by Ally of its option to defer any payment of interest was determined not to be remote, or if Ally actually exercised that option) was greater than a certain *de minimis* amount, the difference would be OID, which would be includible in income by you as described above.

No rulings or other interpretations have been issued by the IRS that have addressed the meaning of the term remote as used in the applicable Treasury regulations as they may be applied to an instrument such as the amortizing notes, and it is possible that the IRS could take a position contrary to the interpretation in this prospectus.

Settlement of a Purchase Contract

You will not recognize gain or loss on the acquisition of our common stock upon the mandatory or early settlement of a purchase contract except with respect to cash paid in lieu of a fractional share of our common stock. Your tax basis in the common stock received under a purchase contract will equal your tax basis in the purchase contract less the portion of that tax basis allocable to any fractional share. Your holding period for the common stock received under a purchase contract will begin the day after that stock is received.

Deemed Distributions

The settlement rate of the purchase contracts will be adjusted in certain circumstances. Under the Code and applicable Treasury Regulations, adjustments that have the effect of increasing your interest in our assets or earnings and profits may, in some circumstances, result in a deemed distribution to you.

If we were to make a distribution of cash or property (for example, evidences of indebtedness or assets) to our stockholders and each fixed settlement rate of the purchase contracts were increased pursuant to the applicable adjustment provisions, that increase would be deemed to be a distribution to you. In addition, any other increase in each fixed settlement rate of the purchase contracts (including an adjustment to each fixed settlement rate in connection with a fundamental change) may, depending on the circumstances, be deemed to be a distribution to you.

In certain circumstances, the failure to make an adjustment of each fixed settlement rate may result in a taxable distribution to you, if as a result of that failure your proportionate interest in our assets or earnings and profits is increased.

Any deemed distribution will generally be taxed in the same manner as an actual distribution. See **Taxation of Distributions on Common Stock Acquired under the Purchase Contracts** below. You should consult your tax adviser as to the tax consequences of receiving deemed distributions.

Table of Contents

Taxation of Distributions on Common Stock Acquired under the Purchase Contracts

As discussed under *Dividend Policy* above, we do not currently expect to pay dividends. In the event we make distributions on shares of common stock, other than certain pro rata distributions of shares of common stock, the distributions will be treated as dividends to the extent paid out of our current or accumulated earnings and profits and will be includible in income by you as ordinary income when received. If a distribution exceeds our current and accumulated earnings and profits, the excess will be first treated as a tax-free return of your investment, up to your tax basis in the common stock. Any remaining excess (determined on a share-by-share basis) will be treated as a capital gain. If you are a non-corporate U.S. Holder, dividends received by you in tax years beginning prior to 2013 will be eligible to be taxed at reduced rates if you meet certain holding period and other applicable requirements. If you are a corporate U.S. Holder, dividends received by you will be eligible for the dividends-received deduction if you meet certain holding period and other applicable requirements.

Sale or Disposition of Units, Purchase Contracts, Amortizing Notes or Shares of Common Stock

Upon the sale, exchange or retirement of a purchase contract, amortizing note or share of our common stock, you generally will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement and your adjusted tax basis in the purchase contract, amortizing note or share of stock, as the case may be. For purposes of determining gain or loss, your proceeds will not include any amount attributable to accrued and unpaid stated interest not treated as OID, which amount will be treated as discussed above under *Payments of Stated Interest*.

Gain or loss realized on the sale, exchange or retirement of a purchase contract, amortizing note or share of common stock will generally be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange or retirement you have held the purchase contract, amortizing note or share of stock, as the case may be, for more than one year. If you are a non-corporate U.S. Holder, long-term capital gains generally will be subject to reduced tax rates. The deductibility of capital losses may be subject to limitations.

Upon the sale, exchange or other disposition of a Unit, you will be treated as having sold or disposed of the purchase contract and amortizing note that constitute the Unit. The proceeds realized on a disposition of a Unit will be allocated between the purchase contract and amortizing note in proportion to their relative fair market values on the date of sale or disposition. As a result, you will calculate gain or loss on the purchase contract separately from the gain or loss on the amortizing note. It is thus possible that you could recognize a capital gain on one component of a Unit but a capital loss on the other component of the Unit.

Backup Withholding and Information Reporting

Information returns will be filed with the IRS in connection with payments on the amortizing notes, dividends on the common stock and the proceeds from a sale or other disposition of Units, purchase contracts, amortizing notes or shares of our common stock. You will be subject to U.S. backup withholding on these payments if you fail to provide your taxpayer identification number to the paying agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding. The amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

Tax Consequences to Non-U.S. Holders

You are a *Non-U.S. Holder* if, for U.S. federal income tax purposes, you are a beneficial owner of a Unit, purchase contract, amortizing note or share of common stock acquired under a purchase contract that is:

a nonresident alien individual;

a foreign corporation; or

a foreign estate or trust.

Table of Contents

You are not a Non-U.S. Holder if you are a non-resident alien individual present in the United States for 183 days or more in the taxable year of disposition of the Units, purchase contracts, amortizing notes or common stock, in which case you should consult your own tax adviser regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of Units, purchase contracts, amortizing notes or common stock.

Principal and Interest Payments on the Amortizing Notes

Subject to the discussion below concerning backup withholding, under the characterization of each Unit as an investment unit consisting of an amortizing note and a purchase contract for U.S. federal income tax purposes (as described above), payments of principal and interest on the amortizing notes to you (including OID, if any) will generally not be subject to U.S. federal income or withholding tax (if you are a Non-U.S. Holder with effectively connected income, see Effectively Connected Income), provided that, in the case of interest:

you do not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote and are not a controlled foreign corporation related, directly or indirectly, to us through stock ownership; and

you have satisfied the certification requirement described below.

Interest on an amortizing note will not be exempt from withholding tax unless you certify on a properly executed IRS Form W-8BEN, under penalties of perjury, that you are not a United States person.

However, if, as described above under Characterization of Units and Amortizing Notes, the components of a Unit were recharacterized and treated as a single instrument for U.S. federal income tax purposes, payments of principal and stated interest made to you could be subject to U.S. federal withholding at a rate of 30%, unless you are entitled to claim a lower rate as may be specified by an applicable income tax treaty. Even if the components of a Unit are respected as separate instruments for U.S. federal income tax purposes, if the amortizing notes were recharacterized as equity for U.S. federal income tax purposes, payments of principal and stated interest to you on the amortizing notes could be subject to U.S. federal withholding tax. Under recent legislation, if the Units were recharacterized as a single instrument and treated as equity, or the amortizing notes were recharacterized as equity, for U.S. federal income tax purposes, a withholding tax of 30% could be imposed on payments to certain foreign entities, after December 31, 2012, on the Units or amortizing notes, as the case may be, and the gross proceeds from dispositions of the Units or amortizing notes, as the case may be. We are not required to pay a gross up for these or any other taxes imposed or withheld in respect of payments made on or with respect to the Units, the purchase contracts, the amortizing notes or common stock.

Settlement of a Purchase Contract

You will not be subject to U.S. federal income tax upon the mandatory or early settlement of a purchase contract.

Deemed Distributions

An adjustment to each fixed settlement rate of a purchase contract might result in a taxable deemed distribution, as described above under the caption Tax Consequences to U.S. Holders Deemed Distributions. Any taxable deemed distribution resulting from an adjustment to (or failure to adjust, in some cases) each fixed settlement rate will be treated in the same manner as an actual distribution on our common stock, as described below under Dividends.

Table of Contents

Sale, Exchange or Other Disposition of Units, Purchase Contracts, Amortizing Notes or Shares of Common Stock

Subject to the discussion below concerning backup withholding, you generally will not be subject to U.S. federal income tax on gain recognized on a sale or other disposition of Units, purchase contracts, amortizing notes or shares of our common stock, unless:

the gain is effectively connected with your conduct of a trade or business in the United States, subject to an applicable income tax treaty providing otherwise, or

in the case of a sale or other disposition of Units, purchase contracts or common stock, we are or have been a United States real property holding corporation, as defined in the Code, at any time within the five-year period preceding the disposition or your holding period, whichever is shorter.

We believe that we are not, and do not anticipate becoming, a United States real property holding corporation.

As discussed in more detail under *Tax Consequences to U.S. Holders Sale or Disposition of Units, Purchase Contracts, Amortizing Notes or Shares of Common Stock*, the proceeds realized on a disposition of a Unit will be allocated between the purchase contract and amortizing note in proportion to their relative fair market values on the date of sale or disposition.

Dividends

In the event that we pay dividends (including deemed dividends on the Units or purchase contracts described above under *Tax Consequences to U.S. Holders Deemed Distributions*), the dividends generally will be subject to U.S. federal withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding under an applicable treaty, you will be required to provide a properly executed IRS Form W-8BEN certifying your entitlement to benefits under that treaty.

In the case of any deemed distribution, it is possible that the U.S. federal tax on the deemed distribution will be withheld from shares of common stock or sales proceeds subsequently paid or credited to you.

Effectively Connected Income

If you are engaged in a trade or business in the United States, you will generally be taxed in the same manner as a U.S. Holder (see *Tax Consequences to U.S. Holders* above) with respect to income or gain on the amortizing notes, the purchase contracts, the Units and the common stock that is effectively connected with the conduct of that trade or business, subject to an applicable income tax treaty providing otherwise. In order for payments on the amortizing notes and dividends on the common stock to be exempt from the withholding described in *Principal and Interest Payments on the Amortizing Notes* and *Dividends* above, you will generally be required to provide a properly executed IRS Form W-8ECI or, under certain circumstances, W-8BEN.

If you are a Non-U.S. Holder with effectively connected income, you should consult your tax adviser with respect to other U.S. federal income tax consequences of the ownership and disposition of Units, purchase contracts, amortizing notes and common stock, including, if you are a corporation, the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate).

Backup Withholding and Information Reporting

Information returns will be filed with the IRS in connection with interest payments on the amortizing notes and dividends on the common stock. Unless you comply with certification procedures to establish that you are not a United States person, information returns may also be filed with the IRS in connection with the proceeds

Table of Contents

from a sale or other disposition of the Units, purchase contracts, amortizing notes or common stock, and you may be subject to U.S. backup withholding on interest payments on the amortizing notes and dividends on the common stock or on the proceeds from a sale or other disposition of the Units, purchase contracts, amortizing notes or common stock. The certification procedures required to claim the exemption from withholding tax described above under **Principal and Interest Payments on the Amortizing Notes** will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

FATCA Withholding Taxes

Payments to foreign entities, after December 31, 2012, of dividends on and the gross proceeds of dispositions of common stock of a U.S. issuer will be subject to a withholding tax (separate and apart from, but without duplication of, the withholding tax described above) at a rate of 30%, unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied. The IRS has announced that regulations implementing this withholding tax will defer the withholding obligation until January 1, 2014 for payments of dividends on common stock of a U.S. issuer and until January 1, 2015 for gross proceeds from dispositions of common stock of a U.S. issuer. Non-U.S. holders should consult their tax advisors regarding the possible implications of this withholding tax on their investment in our common stock.

Table of Contents**UNDERWRITING**

Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC are acting as joint global coordinators and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus, each underwriter named below has severally agreed to purchase, and the selling stockholder has agreed to sell to that underwriter, the number of Units set forth opposite the underwriter's name.

| Underwriter | Number of Units |
|---------------------------------|-----------------|
| Citigroup Global Markets Inc. . | |
| Goldman, Sachs & Co. . | |
| J.P. Morgan Securities LLC | |
| Morgan Stanley & Co. LLC | |
| Barclays Capital Inc. | |
| Deutsche Bank Securities Inc. | |
| Total | |

We may add additional underwriters to the table above. Any such underwriters would be selected by us taking into account various criteria, including among other things their marketing and distribution capability, ownership and management diversity, and automotive finance industry expertise.

The underwriting agreement provides that the obligations of the underwriters to purchase the Units included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the Units (other than those covered by the over-allotment option described below) if they purchase any of the Units. The completion of this offering is contingent on the completion of the concurrent common stock offering.

Units sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any Units sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed \$ per Unit. If all the Units are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

If the underwriters sell more Units than the total number set forth in the table above, the selling stockholder has granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to additional Units at the public offering price less the underwriting discount. The underwriters may exercise the option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional Units approximately proportionate to that underwriter's initial purchase commitment in such Units. Any Units issued or sold under the option will be issued and sold on the same terms and conditions as the other Units that are the subject of this offering.

We, our officers and directors, certain of our employees and the selling stockholder and our other stockholders have agreed that, subject to limited exceptions, for a period of days from the date of this prospectus, we and they will not, without the prior written consent of Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC, (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Exchange Act relating to, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of common stock or any securities convertible into or exercisable or exchangeable for common stock, whether any such transaction described in clause (i) or

Table of Contents

(ii) above is to be settled by delivery of common stock or such other securities, in cash or otherwise. Citigroup Global Markets Inc., Goldman, Sachs & Co., J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. Notwithstanding the foregoing, if (1) during the last _____ days of the _____-day restricted period, we issue an earnings release or material news or a material event relating to us occurs; or (2) prior to the expiration of the _____-day restricted period, we announce that we will release earnings results during the _____-day period beginning on the last day of the _____-day restricted period, the restrictions described above shall continue to apply until the expiration of the _____-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event. In addition, certain of our shareholders are subject to lock-up provisions under our Registration Rights Agreement. See Certain Stockholder Agreements Registration Rights Agreement Holdback Agreements.

Prior to this offering, there has been no public market for our Units. Consequently, the initial public offering price for the Units was determined by negotiations among us, the selling stockholder and the representatives. Among the factors considered in determining the public offering price were our results of operations, our current financial condition, our future prospects, our markets, the economic conditions in and future prospects for the industry in which we compete, our management, and currently prevailing general conditions in the equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the Units will sell in the public market after this offering will not be lower than the public offering price or that an active trading market in our shares will develop and continue after this offering.

We have applied for listing of the Units on the New York Stock Exchange, subject to satisfaction of its minimum listing standard with respect to the Units; however, no assurance can be provided that the Units will be approved for listing. The Units are a new issue of securities and there is currently no trading market for the Units. Each underwriter has advised us that it intends to make a market in the Units, but no underwriter is obligated to do so. Any underwriter may discontinue any market making in the Units at any time in its sole discretion without notice. Accordingly, we cannot assure you that a liquid market will develop for the Units, that you will be able to sell your Units at a particular time or that the prices you receive when you sell will be favorable.

The following table shows the per Unit and total public offering price and proceeds to the selling stockholder and the underwriting discounts and commissions payable to the underwriters in connection with this offering. Ally has agreed to pay all underwriting discounts and commissions, transfer taxes and transaction fees, if any, applicable to the sale of the Units and the fees and disbursement of counsel for the selling security holder incurred in connection with the sale. These amounts are shown assuming both no exercise and full exercise of the underwriters over-allotment option.

| | Per Unit | No Exercise | Total Full Exercise |
|--|----------|-------------|------------------------|
| Public offering price and proceeds to selling stockholder | | | |
| Underwriting discounts and commissions | | | |
| We estimate that our total expenses for this offering will be approximately \$ | million. | | |

In connection with the offering, the underwriters may purchase and sell Units in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

Short sales involve secondary market sales by the underwriters of a greater number of Units than they are required to purchase in the offering.

Covered short sales are sales of Units in an amount up to the number of Units represented by the underwriters over-allotment option.

Table of Contents

Naked short sales are sales of Units in an amount in excess of the number of Units represented by the underwriters over-allotment option.

Covering transactions involve purchases of Units either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.

To close a naked short position, the underwriters must purchase Units in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Units in the open market after pricing that could adversely affect investors who purchase in the offering.

To close a covered short position, the underwriters must purchase Units in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of Units to close the covered short position, the underwriters will consider, among other things, the price of Units available for purchase in the open market as compared to the price at which they may purchase Units through the over-allotment option.

Stabilizing transactions involve bids to purchase Units so long as the stabilizing bids do not exceed a specified maximum. Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the Units. They may also cause the price of the Units to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the NYSE, in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, lending, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, currently perform, and may in the future perform, various financial advisory and investment banking services for us, for which they have received customary compensation and may provide such services and receive customary compensation in the future. Certain of the relationships involve transactions that are material to us or our affiliates and for which the underwriters and/or their respective affiliates have received significant fees. In addition, the underwriters and/or their affiliates serve as agents and lenders under certain of our existing credit facilities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

Table of Contents

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of the securities which are the subject of the offering contemplated by this prospectus to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of the securities shall require the issuer or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of securities to the public in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

Each underwriter has also represented and agreed that:

- (a) (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the securities other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the securities would otherwise constitute a contravention of Section 19 of the FSMA by the issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the securities in circumstances in which Section 21(1) of the FSMA does not apply to the issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the Units described in this prospectus has been submitted to the clearance procedures of the *Autorité des Marchés Financiers* or of the competent authority of another member state of the European Economic Area and notified to the *Autorité des Marchés Financiers*. The Units have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the Units has been or will be:

released, issued, distributed or caused to be released, issued or distributed to the public in France; or

used in connection with any offer for subscription or sale of the Units to the public in France.

Such offers, sales and distributions will be made in France only:

to qualified investors (*investisseurs qualifiés*) and/or to a restricted circle of investors (*cercle restreint d'investisseurs*), in each case investing for their own account, all as defined in, and in accordance with articles L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French *Code monétaire et financier*;

to investment services providers authorized to engage in portfolio management on behalf of third parties; or

in a transaction that, in accordance with article L.411-2-II-1^o-or-2^o-or 3^o of the French *Code monétaire et financier* and article 211-2 of the General Regulations (*Règlement Général*) of the *Autorité des Marchés Financiers*, does not constitute a public offer (*appel public à l'épargne*).

The Units may be resold directly or indirectly, only in compliance with articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French *Code monétaire et financier*.

Notice to Prospective Investors in Hong Kong

The Units may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the Units may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to Units which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

The Units offered in this prospectus have not been registered under the Securities and Exchange Law of Japan. The Units have not been offered or sold and will not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (i) pursuant to an exemption from the registration requirements of the Securities and Exchange Law and (ii) in compliance with any other applicable requirements of Japanese law.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Units may not be circulated or distributed, nor may the Units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the Units are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Units pursuant to an offer made under Section 275 of the SFA except:

to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;

where no consideration is or will be given for the transfer; or

where the transfer is by operation of law.

Item 14. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with any threatened, pending or completed actions, suits or proceedings in which such person is made a party by reason of such person being or having been a director, officer, employee or agent to the Registrant. The Delaware General Corporation Law provides that Section 145 is not exclusive of other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise. The Registrant's Certificate of Incorporation provides for indemnification by the Registrant of its directors, officers and employees to the fullest extent permitted by the Delaware General Corporation Law.

Section 102(b)(7) of the Delaware General Corporation Law permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for unlawful payments of dividends or unlawful stock repurchases, redemptions or other distributions, or (iv) for any transaction from which the director derived an improper personal benefit. The Registrant's Certificate of Incorporation provides for such limitation of liability.

The Registrant maintains standard policies of insurance under which coverage is provided (a) to its directors and officers against loss arising from claims made by reason of breach of duty or other wrongful act, and (b) to the Registrant with respect to payments which may be made by the Registrant to such officers and directors pursuant to the above indemnification provision or otherwise as a matter of law.

The proposed forms of Underwriting Agreements filed as Exhibits 1.1 and 1.2 to this Registration Statement provide for indemnification of directors and officers of the Registrant by the underwriters against certain liabilities.

Table of Contents

Item 15. Recent Sales of Unregistered Securities.

Since April 1, 2009, the Registrant has sold the following securities without registration under the Securities Act of 1933, as amended (the Securities Act):

Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2

On December 30, 2010, Ally delivered to Treasury a notice of conversion relating to the conversion of 110,000,000 shares of Ally Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 held by Treasury into common stock of Ally (the Series F-2 Conversion). On December 30, 2010, the Series F-2 Conversion was completed and 110,000,000 shares of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2, all of which were owned by Treasury, were converted into 531,850 shares of common stock of Ally. Prior to the Series F-2 Conversion, Treasury held approximately 56.3% of the common stock of Ally and \$11,437,500,000 aggregate liquidation preference amount of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2. Following the Series F-2 Conversion, Treasury held approximately 73.8% of the common stock of Ally and \$5,937,500,000 aggregate liquidation amount of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2. The issuance of common stock in the Series F-2 Conversion was exempt from registration pursuant to Section 4(2) and Section 3(a)(9) of the Securities Act.

6.250% Senior Guaranteed Notes due 2017

On November 18, 2010, Ally issued \$1 billion aggregate principal amount of 6.250% Senior Guaranteed Notes due 2017 at an issue price of 98.602% resulting in approximately \$986 million of gross proceeds. Net proceeds after offering discounts and commissions and before offering expenses payable by Ally were approximately \$973.5 million. The initial purchasers for the 6.250% Senior Guaranteed Notes due 2017 were Barclays Capital Inc., Citigroup Global Markets Inc., J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated. The 6.250% Senior Guaranteed Notes due 2017 were offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act or to non-U.S. investors outside of the United States in compliance with Regulation S of the Securities Act.

7.500% Senior Guaranteed Notes due 2020

On August 12, 2010, Ally issued \$1.750 billion aggregate principal amount of 7.500% Senior Guaranteed Notes due 2020 at an issue price of 99.116% resulting in approximately \$1.735 billion of gross proceeds. Net proceeds after offering discounts and commissions and before offering expenses payable by Ally were approximately \$1.713 billion. The initial purchasers for the 7.500% Senior Guaranteed Notes due 2020 were Banc of America Securities LLC, Citigroup Global Markets Inc., Goldman, Sachs & Co. and RBS Securities Inc. The 7.500% Senior Guaranteed Notes due 2020 were offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act or to non-U.S. investors outside of the United States in compliance with Regulation S of the Securities Act.

8.000% Senior Guaranteed Notes due 2020

On March 25, 2010, Ally issued \$400 million aggregate principal amount of 8.000% Senior Guaranteed Notes due 2020 at an issue price of 99.153%, plus accrued interest from March 15, 2010, resulting in approximately \$396.6 million of gross proceeds. Net proceeds after offering discounts and commissions and before offering expenses payable by Ally were approximately \$391.5 million. The initial purchaser for the 8.000% Senior Guaranteed Notes due 2020 was J.P. Morgan Securities Inc. The 8.000% Senior Guaranteed Notes due 2020 were offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act or to non-U.S. investors outside of the United States in compliance with Regulation S of the Securities Act.

8.000% Senior Guaranteed Notes due 2020

On March 15, 2010, Ally issued \$1.5 billion aggregate principal amount of 8.000% Senior Guaranteed Notes due 2020 at an issue price of 98.320% resulting in approximately \$1.475 billion of gross proceeds. Net

Table of Contents

proceeds after offering discounts and commissions and before offering expenses payable by Ally were approximately \$1.452 billion. The initial purchasers for the 8.000% Senior Guaranteed Notes due 2020 were Banc of America Securities LLC, Citigroup Global Markets Inc., Deutsche Bank Securities Inc. and Morgan Stanley & Co. Incorporated. The 8.000% Senior Guaranteed Notes due 2020 were offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act or to non-U.S. investors outside of the United States in compliance with Regulation S of the Securities Act.

8.300% Senior Guaranteed Notes due 2015

On February 12, 2010, Ally issued \$2.0 billion aggregate principal amount of 8.300% Senior Guaranteed Notes due 2015 at an issue price of 99.199% resulting in approximately \$1.984 billion of gross proceeds. Net proceeds after offering discounts and commissions and before offering expenses payable by Ally were approximately \$1.954 billion. The initial purchasers for the 8.300% Senior Guaranteed Notes due 2015 were Barclays Capital Inc., Citigroup Global Markets Inc., Goldman, Sachs & Co. and J.P. Morgan Securities Inc. The 8.300% Senior Guaranteed Notes due 2015 were offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act or to non-U.S. investors outside of the United States in compliance with Regulation S of the Securities Act.

Securities Purchase and Exchange Agreement

On December 30, 2009, Ally entered into a Securities Purchase and Exchange Agreement with Treasury and GMAC Capital Trust I, a Delaware statutory trust established by Ally (the Trust), pursuant to which (i) Ally issued and sold to Treasury 25,000,000 shares of newly issued Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2, with an aggregate liquidation preference of \$1.250 billion, (ii) Ally issued and sold to Treasury a ten-year warrant to purchase up to 127,000 trust preferred securities with an aggregate liquidation preference of \$127 million, at an initial exercise price of \$0.01 per security, in addition to 2,540,000 trust preferred securities sold to Treasury by the Trust on that date, (iii) Ally issued and sold to Treasury a ten-year warrant to purchase up to 1.250 million additional shares of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2, with an aggregate liquidation amount of \$62.5 million, at an initial exercise price of \$0.01 per security. Treasury immediately exercised each of the ten-year warrants described in (ii) and (iii). The aggregate purchase price for the securities purchased by Treasury was \$3.79 billion in cash. The issuance of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 pursuant to the foregoing transactions was exempt from registration pursuant to Section 4(2) of the Securities Act.

Also pursuant to the Securities Purchase and Exchange Agreement with Treasury and GMAC Capital Trust I, Ally exchanged shares of its existing preferred stock held by Treasury with an aggregate liquidation amount of \$10.125 billion (consisting of (i) 5 million shares of Ally's Fixed Rate Cumulative Perpetual Preferred Stock, Series D-1, (ii) 0.25 million shares of Ally's Fixed Rate Cumulative Perpetual Preferred Stock, Series D-2, and (iii) 97.5 million shares of Ally's Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F), for 202.5 million shares of Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2, with an aggregate liquidation amount of \$10.125 billion. The issuance of common stock and Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F-2 in the foregoing exchanges were exempt from registration pursuant to Section 4(2) and Section 3(a)(9) of the Securities Act.

In connection with the Trust's sale pursuant to the Securities Purchase and Exchange Agreement (i) of trust preferred securities issued by the Trust to Treasury and (ii) of trust common securities issued by the Trust to Ally, Ally sold to the Trust an aggregate principal amount of \$2.747 billion (equal to the sum of the liquidation amount of all of the trust preferred securities and the trust common securities of the Trust) of Ally's 8.00% junior subordinated unsecured debentures due 2040. In addition, Ally has, pursuant to a Guarantee Agreement, fully and unconditionally guaranteed, on a subordinated basis, for the benefit of the holders of the trust preferred securities, the payment of certain amounts due on the trust preferred securities to the extent not paid by or on behalf of the

Table of Contents

Trust. The issuance of the 8.00% junior subordinated unsecured debentures due 2040 and of the guarantee pursuant to the Guarantee Agreement was exempt from registration pursuant to Section 4(2) of the Securities Act.

On December 30, 2009, 60,000,000 shares of GMAC Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F, all of which were owned by Treasury, were converted into 259,200 shares of common stock pursuant to the terms of the GMAC Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F. The issuance of common stock in this conversion was exempt from registration pursuant to Section 4(2) of the Securities Act.

7% Fixed Rate Cumulative Perpetual Preferred Stock, Series G

Pursuant to the terms of a Certificate of Merger, effective October 15, 2009, Preferred Blocker Inc., a wholly-owned subsidiary of Ally, merged with and into Ally, with Ally continuing as the surviving entity. In connection with this merger, each share of outstanding 7% Cumulative Perpetual Preferred Stock of Preferred Blocker Inc. was converted into the right to receive an equal number of newly issued shares of 7% Fixed Rate Cumulative Perpetual Preferred Stock, Series G. In the aggregate, approximately 2.577 million shares of 7% Fixed Rate Cumulative Perpetual Preferred Stock, Series G were issued in connection with the merger. The 7% Fixed Rate Cumulative Perpetual Preferred Stock, Series G was issued in reliance on Section 4(2) of the Securities Act.

FIM Common Stock Transactions

Pursuant to certain agreements with Ally to restructure their common stock investments, FIM Coinvestors Holdings I LLC, FIM CB Holdings LLC, CB FIM LLC, CB FIM Coinvestors I, LLC and CB FIM Coinvestors, LLC exchanged, effective October 15, 2009, all of the Ally common stock previously held by such entities for new shares of Ally common stock with identical terms in an amount equal to the number of existing shares of common stock acquired from each respective entity. The common stock was issued in reliance on Section 4(2) of the Securities Act.

LLC Conversion

Effective June 30, 2009, GMAC LLC, the predecessor to Ally, was converted from a Delaware limited liability company into a Delaware corporation. Each unit of each class of membership interest issued and outstanding immediately prior to this conversion was converted into shares of capital stock of Ally with substantially the same rights and preferences as such membership interests. Holders of GMAC LLC's common membership interests received an equivalent number of shares of common stock of Ally. Holders of GMAC LLC's GM Preferred Membership Interests received an equivalent number of shares of Ally's Fixed Rate Perpetual Preferred Stock, Series A. Holders of GMAC LLC's Class C Membership Interests received an equivalent number of shares of Ally's Preferred Stock, Series C-1. Holders of GMAC LLC's Class D-1 Fixed Rate Cumulative Perpetual Preferred Membership Interests received an equivalent number of shares of Ally's Fixed Rate Cumulative Perpetual Preferred Stock, Series D-1. Holders of GMAC LLC's Class D-2 Fixed Rate Cumulative Perpetual Preferred Membership Interests received an equivalent number of shares of Ally's Fixed Rate Cumulative Perpetual Preferred Stock, Series D-2. Holders of GMAC LLC's Class E Fixed Rate Perpetual Preferred Membership Interests received an equivalent number of shares of Ally's Fixed Rate Perpetual Preferred Stock, Series E. Holders of GMAC LLC's Class F Fixed Rate Cumulative Mandatorily Convertible Preferred Membership Interests received an equivalent number of shares of Ally's Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F. The issuance of common stock, Fixed Rate Perpetual Preferred Stock, Series A, Preferred Stock, Series C-1, Fixed Rate Cumulative Perpetual Preferred Stock, Series D-1, Fixed Rate Cumulative Perpetual Preferred Stock, Series D-2, Fixed Rate Perpetual Preferred Stock, Series E and Fixed Rate Cumulative Mandatorily Convertible Preferred Stock, Series F was exempt from registration pursuant to Section 4(2) and Section 3(a)(9) of the Securities Act.

Table of Contents*Treasury Equity Investment*

On May 21, 2009, Ally entered into a letter agreement with Treasury pursuant to which Ally issued and sold to Treasury (i) 150 million units of Ally's Fixed Rate Cumulative Mandatorily Convertible Preferred Membership Interests, Series F, having a capital amount of \$50 per unit and (ii) a ten-year warrant to purchase up to 7,501,500 units of Fixed Rate Cumulative Mandatorily Convertible Preferred Membership Interests, Series F, at an initial exercise price of \$0.01 per unit, for an aggregate purchase price of \$7.5 billion in cash. Treasury immediately exercised the warrant for a net issuance of 7,500,000 units of Fixed Rate Cumulative Mandatorily Convertible Preferred Membership Interests, Series F. The Fixed Rate Cumulative Mandatorily Convertible Preferred Membership Interests, Series F and the warrant were issued in a private placement exempt from registration pursuant to Section 4(2) of the Securities Act.

(b) The financial statement schedules are incorporated into the Registrant's Consolidated Financial Statements or notes thereto.

Item 17. Undertakings

The undersigned hereby undertakes:

(a) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions referenced in Item 14 of this Registration Statement, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered hereunder, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(b) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this Registration Statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new Registration Statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
