Stock issued for acquisition		(37,296)
San Notes to Condensed Consolidated Financial Statements		

See Notes to Condensed Consolidated Financial Statements.

<sup>(1)</sup> See Note 1. Basis of Presentation for further discussion on the current presentation.

#### NOTE 1. BASIS OF PRESENTATION

The interim unaudited Condensed Consolidated Financial Statements contained herein should be read in conjunction with the audited consolidated financial statements and accompanying notes to the consolidated financial statements for the fiscal year ended September 30, 2017 included in Meta Financial Group, Inc.'s ("Meta Financial" or the "Company") Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on November 29, 2017. Accordingly, footnote disclosures which would substantially duplicate the disclosures contained in the audited consolidated financial statements have been omitted.

The financial information of the Company included herein has been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial reporting and has been prepared pursuant to the rules and regulations for reporting on Form 10-Q and Rule 10-01 of Regulation S-X. Such information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the periods presented. The results of the three- and six-month periods ended March 31, 2018 are not necessarily indicative of the results expected for the fiscal year ending September 30, 2018.

In fiscal 2017, the Company early adopted Accounting Standards Update ("ASU") 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting." The requirement to report the excess tax benefit related to settlements of share-based payment awards in earnings as an increase or (decrease) to income tax expense has been applied utilizing the prospective method. While the adoption of ASU 2016-09 requires retrospective application to all fiscal year periods presented, the Company elected to not recast previously reported financial statements as the impact was considered insignificant. However, the Company reclassified stock compensation from financing to operating activities on the Consolidated Statement of Cash Flows as of March 31, 2018 and March 31, 2017.

#### NOTE 2. CREDIT DISCLOSURES

The allowance for loan losses represents management's estimate of probable loan losses which have been incurred as of the date of the consolidated financial statements. The allowance for loan losses is increased by a provision for loan losses charged to expense and decreased by charge-offs (net of recoveries). Estimating the risk of loss and the amount of loss on any loan is necessarily subjective. Management's periodic evaluation of the appropriateness of the allowance is based on the Company's past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, and current economic conditions. While management may periodically allocate portions of the allowance for specific problem loan situations, the entire allowance is available for any loan charge-offs that occur.

Loans are considered impaired if full principal or interest payments are not probable in accordance with the contractual loan terms. Impaired loans are carried at the present value of expected future cash flows discounted at the loan's effective interest rate or at the fair value of the collateral if the loan is collateral dependent. A portion of the allowance for loan losses is allocated to impaired loans if the value of such loans is deemed to be less than the unpaid balance.

The allowance consists of specific, general and unallocated components. The specific component relates to impaired loans. For such loans, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. The general component covers loans not considered impaired and is based on historical loss experience adjusted for qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The

unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

#### **Table of Contents**

Homogeneous loan populations are collectively evaluated for impairment. These loan populations may include commercial insurance premium finance loans, residential first mortgage loans secured by one-to-four family residences, residential construction loans, home equity and second mortgage loans, and tax product loans. Commercial and agricultural loans as well as mortgage loans secured by other properties are monitored regularly by the Bank given the larger balances. When analysis of the borrower's operating results and financial condition indicates that underlying cash flows of the borrower's business is not adequate to meet its debt service requirements, the individual loan or loan relationship is evaluated for impairment. Often this is associated with a delay or shortfall in payments of 210 days or more for commercial insurance premium finance, 180 days or more for tax and other national lending loans and 90 days or more for other loans. Non-accrual loans and all troubled debt restructurings are considered impaired. Impaired loans, or portions thereof, are charged off when deemed uncollectible.

Loans receivable at March 31, 2018 and September 30, 2017 were as follows:

	March 31,	September 30,			
	2018	2017			
	(Dollars in Thousands)
