AMETEK, Inc.

Notes to Consolidated Financial Statements

March 31, 2015

(Unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements are unaudited. AMETEK, Inc. (the Company) believes that all adjustments (which primarily consist of normal recurring accruals) necessary for a fair presentation of the consolidated financial position of the Company at March 31, 2015, and the consolidated results of its operations and its cash flows for the three months ended March 31, 2015 and 2014 have been included. Quarterly results of operations are not necessarily indicative of results for the full year. The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 as filed with the Securities and Exchange Commission.

2. Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (ASU 2014-08). ASU 2014-08 revised guidance to only allow disposals of components of an entity that represent a strategic shift (e.g., disposal of a major geographical area, a major line of business, a major equity method investment, or other major parts of an entity) and that have a major effect on a reporting entity's operations and financial results to be reported as discontinued operations. The revised guidance also requires expanded disclosure in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. The Company adopted ASU 2013-08 effective January 1, 2015 and the adoption did not have an impact on the Company's consolidated results of operations, financial position or cash flows.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09). The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance. The core principle of ASU 2014-09 is that an entity recognizes revenue at the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new guidance, the Company must (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the contract's performance obligations; and (5) recognize revenue when the Company satisfies a performance obligation. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB Accounting Standards Codification. ASU 2014-09 is effective for interim and annual reporting periods beginning after December 15, 2016 and can be adopted by the Company using either a full retrospective or modified retrospective approach, with early adoption prohibited. The Company continues to evaluate the impacts and monitor the developments related to ASU 2014-09. The Company has not determined the impact ASU 2014-09 may have on the Company's consolidated results of operations, financial position or cash flows nor decided upon the method of adoption.

In February 2015, the FASB issued ASU No. 2015-02, *Amendments to the Consolidation Analysis* (ASU 2015-02). ASU 2015-02 is intended to improve targeted areas of consolidation guidance for legal entities such as limited partnerships, limited liability corporations, and securitization structures (collateralized debt obligations, collateralized loan obligations, and mortgage-backed security transactions). ASU 2015-02 makes specific amendments to the current consolidation guidance and ends the deferral granted to investment companies from applying the variable interest entities guidance. ASU 2014-02 is effective for interim and annual reporting periods beginning after December 15, 2015. The Company does not expect the adoption of ASU 2015-02 to have a significant impact on the Company's consolidated results of operations, financial position or cash flows.

In April 2015, the FASB issued ASU No. 2015-03, *Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). ASU 2015-03 requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. ASU 2015-03 is effective for interim and annual reporting periods beginning after December 15, 2015. The new guidance will be applied on a retrospective basis and early adoption is permitted. The Company does not expect the adoption of ASU 2015-03 to have a significant impact on the Company's consolidated results of operations, financial position or cash flows.

Table of Contents**AMETEK, Inc.****Notes to Consolidated Financial Statements****March 31, 2015**

(Unaudited)

3. Earnings Per Share

The calculation of basic earnings per share is based on the weighted average number of common shares considered outstanding during the periods. The calculation of diluted earnings per share reflects the effect of all potentially dilutive securities (principally outstanding stock options and restricted stock grants). The number of weighted average shares used in the calculation of basic earnings per share and diluted earnings per share was as follows:

	Three Months Ended March 31, 2015 2014 (In thousands)	
Weighted average shares:		
Basic shares	240,947	244,911
Equity-based compensation plans	1,850	2,318
Diluted shares	242,797	247,229

4. Accumulated Other Comprehensive Income (Loss)

The components of accumulated other comprehensive income (loss) consisted of the following:

	Three Months Ended March 31, 2015			Three Months Ended March 31, 2014		
	Foreign Currency Items and Other	Defined Benefit Pension Plans	Total (In thousands)	Foreign Currency Items and Other	Defined Benefit Pension Plans	Total
Balance at the beginning of the period	\$ (124,912)	\$ (141,982)	\$ (266,894)	\$ (1,171)	\$ (64,068)	\$ (65,239)
Other comprehensive income (loss) before reclassifications:						
Translation adjustments	(34,370)		(34,370)	(5,781)		(5,781)
Change in long-term intercompany notes	(54,693)		(54,693)	4,357		4,357
Net investment hedges	(11,011)		(11,011)	719		719
Gross amounts reclassified from accumulated other comprehensive income (loss)		2,160	2,160		1,031	1,031
Income tax benefit (expense)	3,854	(742)	3,112	(252)	(361)	(613)
Other comprehensive (loss) income, net of tax	(96,220)	1,418	(94,802)	(957)	670	(287)
Balance at the end of the period	\$ (221,132)	\$ (140,564)	\$ (361,696)	\$ (2,128)	\$ (63,398)	\$ (65,526)

Reclassifications for the amortization of defined benefit pension plans are included in Cost of sales, excluding depreciation in the consolidated statement of income. See Note 11 for further details.

5. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The Company utilizes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Table of Contents**AMETEK, Inc.****Notes to Consolidated Financial Statements****March 31, 2015**

(Unaudited)

The following table provides the Company's assets that are measured at fair value on a recurring basis as of March 31, 2015 and December 31, 2014, consistent with the fair value hierarchy:

	March 31, 2015	December 31, 2014
	Fair Value	Fair Value
	(In thousands)	
Fixed-income investments	\$ 9,164	\$ 9,219

The fair value of fixed-income investments, which are valued as level 1 investments, was based on quoted market prices. The fixed-income investments are shown as a component of long-term assets on the consolidated balance sheet.

For the three months ended March 31, 2015, gains and losses on the investments noted above were not significant. No transfers between level 1 and level 2 investments occurred during the three months ended March 31, 2015.

Financial Instruments

Cash, cash equivalents and fixed-income investments are recorded at fair value at March 31, 2015 and December 31, 2014 in the accompanying consolidated balance sheet.

The following table provides the estimated fair values of the Company's financial instrument liabilities, for which fair value is measured for disclosure purposes only, compared to the recorded amounts at March 31, 2015 and December 31, 2014:

	March 31, 2015		December 31, 2014	
	Recorded Amount	Fair Value	Recorded Amount	Fair Value
	(In thousands)			
Short-term borrowings	\$ (70,000)	\$ (70,000)	\$ (88,100)	\$ (88,100)
Long-term debt (including current portion)	(1,602,676)	(1,735,590)	(1,625,926)	(1,768,439)

The fair value of short-term borrowings approximates the carrying value. Short-term borrowings are valued as level 2 investments as they are corroborated by observable market data. The Company's long-term debt is all privately held with no public market for this debt, therefore, the fair value of long-term debt was computed based on comparable current market data for similar debt instruments and is considered to be a level 3 liability.

6. Hedging Activities

The Company has designated certain foreign-currency-denominated long-term borrowings as hedges of the net investment in certain foreign operations. As of March 31, 2015, these net investment hedges included British-pound-denominated long-term debt and Euro-denominated short-term debt. These borrowings were designed to create net investment hedges in each of the designated foreign subsidiaries. The Company designated the British-pound- and Euro-denominated loans referred to above as hedging instruments to offset translation gains or losses on the net investment due to changes in the British pound and Euro exchange rates. These net investment hedges are evidenced by management's contemporaneous documentation supporting the hedge designation. Any gain or loss on the hedging instrument (the debt) following hedge

Edgar Filing: AMETEK INC/ - Form 10-Q

designation is reported in accumulated other comprehensive income in the same manner as the translation adjustment on the investment based on changes in the spot rate, which is used to measure hedge effectiveness.

At March 31, 2015, the Company had \$178.2 million of British-pound-denominated loans, which were designated as a hedge against the net investment in British pound functional currency foreign subsidiaries. At March 31, 2015, the Company had a \$53.7 million Euro-denominated loan, which was designated as a hedge against the net investment in Euro functional currency foreign subsidiaries. As a result of these British-pound- and Euro-denominated loans being designated and 100% effective as net investment hedges, \$15.7 million of currency remeasurement gains have been included in the foreign currency translation component of other comprehensive income for the three months ended March 31, 2015.

Table of Contents**AMETEK, Inc.****Notes to Consolidated Financial Statements****March 31, 2015**

(Unaudited)

7. Inventories

	March 31, 2015	December 31, 2014
	(In thousands)	
Finished goods and parts	\$ 82,892	\$ 80,307
Work in process	96,797	94,298
Raw materials and purchased parts	326,397	321,291
Total inventories	\$ 506,086	\$ 495,896

8. Goodwill

The changes in the carrying amounts of goodwill by segment were as follows:

	Electronic Instruments Group	Electro- mechanical Group (In millions)	Total
Balance at December 31, 2014	\$ 1,646.7	\$ 967.3	\$ 2,614.0
Purchase price allocation adjustments and other	2.7		2.7
Foreign currency translation adjustments	(24.7)	(25.0)	(49.7)
Balance at March 31, 2015	\$ 1,624.7	\$ 942.3	\$ 2,567.0

9. Income Taxes

At March 31, 2015, the Company had gross unrecognized tax benefits of \$69.2 million, of which \$57.0 million, if recognized, would impact the effective tax rate.

The following is a reconciliation of the liability for uncertain tax positions (in millions):

Balance at December 31, 2014	\$ 71.7
Additions for tax positions	3.9
Reductions for tax positions	(6.4)
Balance at March 31, 2015	\$ 69.2

Edgar Filing: AMETEK INC/ - Form 10-Q

The Company recognizes interest and penalties accrued related to uncertain tax positions in income tax expense. The amounts recognized in income tax expense for interest and penalties during the three months ended March 31, 2015 and 2014 were not significant.

Table of Contents**AMETEK, Inc.****Notes to Consolidated Financial Statements****March 31, 2015**

(Unaudited)

10. Share-Based Compensation

Total share-based compensation expense was as follows:

	Three Months Ended March 31,	
	2015	2014
	(In thousands)	
Stock option expense	\$ 1,895	\$ 1,834
Restricted stock expense	2,967	2,332
Total pre-tax expense	4,862	4,166
Related tax benefit	(1,578)	(1,233)
Reduction of net income	\$ 3,284	\$ 2,933

Pre-tax share-based compensation expense is included in the consolidated statement of income in either Cost of sales, excluding depreciation or Selling, general and administrative expenses, depending on where the recipient's cash compensation is reported.

11. Retirement and Pension Plans

The components of net periodic pension benefit expense (income) were as follows:

	Three Months Ended March 31,	
	2015	2014
	(In thousands)	
Defined benefit plans:		
Service cost	\$ 1,749	\$ 1,636
Interest cost	6,689	7,233
Expected return on plan assets	(13,004)	(12,560)
Amortization of net actuarial loss and other	2,160	1,031
Pension income	(2,406)	(2,660)
Other plans:		
Defined contribution plans	6,494	5,738
Foreign plans and other	1,248	1,288
Total other plans	7,742	7,026

Edgar Filing: AMETEK INC/ - Form 10-Q

Total net pension expense	\$ 5,336	\$ 4,366
---------------------------	----------	----------

For the three months ended March 31, 2015 and 2014, contributions to the Company's defined benefit pension plans were \$50.8 million and \$0.9 million, respectively. The Company's current estimate of 2015 contributions to its worldwide defined benefit pension plans is in line with the range disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents**AMETEK, Inc.****Notes to Consolidated Financial Statements****March 31, 2015**

(Unaudited)

12. Product Warranties

The Company provides limited warranties in connection with the sale of its products. The warranty periods for products sold vary widely among the Company's operations, but for the most part do not exceed one year. The Company calculates its warranty expense provision based on past warranty experience and adjustments are made periodically to reflect actual warranty expenses.

Changes in the accrued product warranty obligation were as follows:

	Three Months Ended March 31,	
	2015	2014
	(In thousands)	
Balance at the beginning of the period	\$ 29,764	\$ 28,036
Accruals for warranties issued during the period	1,859	1,873
Settlements made during the period	(2,438)	(3,234)
Warranty accruals related to acquired businesses and other during the period	(949)	2,316
Balance at the end of the period	\$ 28,236	\$ 28,991

Certain settlements of warranties made during the period were for specific nonrecurring warranty obligations. Product warranty obligations are reported as current liabilities in the consolidated balance sheet.

13. Contingencies*Asbestos Litigation*

The Company (including its subsidiaries) has been named as a defendant, along with many other companies, in a number of asbestos-related lawsuits. Many of these lawsuits either relate to businesses which were acquired by the Company and do not involve products which were manufactured or sold by the Company or relate to previously owned businesses of the Company which are under new ownership. In connection with many of these lawsuits, the sellers or new owners of such businesses, as the case may be, have agreed to indemnify the Company against these claims (the "Indemnified Claims"). The Indemnified Claims have been tendered to, and are being defended by, such sellers and new owners. These sellers and new owners have met their obligations, in all respects, and the Company does not have any reason to believe such parties would fail to fulfill their obligations in the future; however, one of these companies filed for bankruptcy liquidation in 2007. To date, no judgments have been rendered against the Company as a result of any asbestos-related lawsuit. The Company believes it has strong defenses to the claims being asserted and intends to continue to vigorously defend itself in these matters.

Environmental Matters

Certain historic processes in the manufacture of products have resulted in environmentally hazardous waste by-products as defined by federal and state laws and regulations. At March 31, 2015, the Company is named a Potentially Responsible Party ("PRP") at 14 non-AMETEK-owned former waste disposal or treatment sites (the "non-owned sites"). The Company is identified as a de minimis party in 13 of these sites based on the low volume of waste attributed to the Company relative to the amounts attributed to other named PRPs. In nine of these sites, the Company has reached a tentative agreement on the cost of the de minimis settlement to satisfy its obligation and is awaiting executed agreements. The

Edgar Filing: AMETEK INC/ - Form 10-Q

tentatively agreed-to settlement amounts are fully reserved. In the other four sites, the Company is continuing to investigate the accuracy of the alleged volume attributed to the Company as estimated by the parties primarily responsible for remedial activity at the sites to establish an appropriate settlement amount. At the remaining site where the Company is a non-de minimis PRP, the Company is participating in the investigation and/or related required remediation as part of a PRP Group and reserves have been established sufficient to satisfy the Company's expected obligations. The Company historically has resolved these issues within established reserve levels and reasonably expects this result will continue. In addition to these non-owned sites, the Company has an ongoing practice of providing reserves for probable remediation activities at certain of its current or previously owned manufacturing locations (the "owned" sites). For claims and proceedings against the Company with respect to other environmental matters, reserves are established once the Company has determined that a loss is probable and

AMETEK, Inc.

Notes to Consolidated Financial Statements

March 31, 2015

(Unaudited)

estimable. This estimate is refined as the Company moves through the various stages of investigation, risk assessment, feasibility study and corrective action processes. In certain instances, the Company has developed a range of estimates for such costs and has recorded a liability based on the low end of the range. It is reasonably possible that the actual cost of remediation of the individual sites could vary from the current estimates and the amounts accrued in the consolidated financial statements; however, the amounts of such variances are not expected to result in a material change to the consolidated financial statements. In estimating the Company's liability for remediation, the Company also considers the likely proportionate share of the anticipated remediation expense and the ability of the other PRPs to fulfill their obligations.

Total environmental reserves at March 31, 2015 and December 31, 2014 were \$25.4 million and \$26.6 million, respectively, for both non-owned and owned sites. For the three months ended March 31, 2015, the Company recorded \$0.2 million in reserves. Additionally, the Company spent \$1.4 million on environmental matters for the three months ended March 31, 2015. The Company's reserves for environmental liabilities at March 31, 2015 and December 31, 2014 include reserves of \$11.6 million and \$11.7 million, respectively, for an owned site acquired in connection with the 2005 acquisition of HCC Industries (HCC). The Company is the designated performing party for the performance of remedial activities for one of several operating units making up a Superfund site in the San Gabriel Valley of California. The Company has obtained indemnifications and other financial assurances from the former owners of HCC related to the costs of the required remedial activities. At March 31, 2015, the Company had \$9.3 million in receivables related to HCC for probable recoveries from third-party escrow funds and other committed third-party funds to support the required remediation. Also, the Company is indemnified by HCC's former owners for approximately \$19.0 million of additional costs.

The Company has agreements with other former owners of certain of its acquired businesses, as well as new owners of previously owned businesses. Under certain of the agreements, the former or new owners retained, or assumed and agreed to indemnify the Company against, certain environmental and other liabilities under certain circumstances. The Company and some of these other parties also carry insurance coverage for some environmental matters. To date, these parties have met their obligations in all material respects.

The Company believes it has established reserves which are sufficient to perform all known responsibilities under existing claims and consent orders. The Company has no reason to believe that other third parties would fail to perform their obligations in the future. In the opinion of management, based upon presently available information and past experience related to such matters, an adequate provision for probable costs has been made and the ultimate cost resulting from these actions is not expected to materially affect the consolidated results of operations, financial position or cash flows of the Company.

14. Reportable Segments

The Company has two reportable segments, Electronic Instruments Group (EIG) and Electromechanical Group (EMG). The Company's operating units are identified based on the existence of segment managers. Certain of the Company's operating units have been aggregated for segment reporting purposes primarily on the basis of product type, production processes, distribution methods and similarity of economic characteristics.

At March 31, 2015, there were no significant changes in identifiable assets of reportable segments from the amounts disclosed at December 31, 2014, nor were there any significant changes in the basis of segmentation or in the measurement of segment operating results. Operating information relating to the Company's reportable segments for the three months ended March 31, 2015 and 2014 can be found in the table included in Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations of this Quarterly Report on Form 10-Q.

(Unaudited)

15. First Quarter of 2015 Restructuring Charges

During the first quarter of 2015, the Company recorded pre-tax charges totaling \$15.9 million, which had the effect of reducing net income by \$10.8 million (\$0.04 per diluted share). The restructuring charges were reported in segment operating income as follows: \$9.3 million in EIG, \$6.5 million in EMG and \$0.1 million in corporate administrative expenses. The restructuring costs primarily resulted from a reduction in workforce in response to the effects of a continued strong U.S. dollar and a weak global economy on certain of our businesses. The restructuring costs will be broadly implemented across the Company's various businesses throughout the remainder of 2015. At March 31, 2015, the Company had \$15.9 million reported as Accrued liabilities in the Company's consolidated balance sheet related to this restructuring.

16. Subsequent Event

On April 1, 2015, the Company's Board of Directors approved an increase of \$350 million in the authorization for repurchase of the Company's common stock.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations**

The following table sets forth net sales and income by reportable segment and on a consolidated basis:

	Three Months Ended March 31,	
	2015	2014
	(In thousands)	
Net sales(1):		
Electronic Instruments	\$ 593,798	\$ 572,394
Electromechanical	390,261	402,898
Consolidated net sales	\$ 984,059	\$ 975,292
Operating income and income before income taxes:		
Segment operating income(2):		
Electronic Instruments	\$ 151,217	\$ 150,319
Electromechanical	81,964	83,880
Total segment operating income	233,181	234,199
Corporate administrative and other expenses	(12,229)	(12,568)
Consolidated operating income	220,952	221,631
Interest and other expenses, net	(24,166)	(22,715)
Consolidated income before income taxes	\$ 196,786	\$ 198,916

(1) After elimination of intra- and intersegment sales, which are not significant in amount.

(2) Segment operating income represents net sales less all direct costs and expenses (including certain administrative and other expenses) applicable to each segment, but does not include interest expense.

Results of operations for the first quarter of 2015 compared with the first quarter of 2014

For the quarter ended March 31, 2015, the Company posted strong sales, operating income, operating income margins, net income and diluted earnings per share despite U.S. dollar headwinds and the sluggish global economy. Contributions from the acquisitions of Amptek, Inc. in August 2014 and Zygo Corporation in June 2014, as well as the Company's Operational Excellence initiatives had a positive impact on the first quarter of 2015 results. In the first quarter of 2015, the Company recorded pre-tax realignment costs totaling \$15.9 million, which reduced net income by \$10.8 million (\$0.04 per diluted share). These realignment costs are primarily related to employee severance. The full year impact of the 2014 acquisitions and continued focus on and implementation of Operational Excellence initiatives, including the realignment of the Company's operations, are expected to have a positive impact on the remainder of the Company's 2015 results while a stronger U.S. dollar is expected to be a continual headwind in 2015.

Net sales for the first quarter of 2015 were \$984.1 million, an increase of \$8.8 million or 0.9%, compared with net sales of \$975.3 million for the first quarter of 2014. The increase in net sales for the first quarter of 2015 was attributable to internal sales growth of approximately 1%, acquisitions added 4% and foreign currency translation was an unfavorable 4%.

Total international sales for the first quarter of 2015 were \$507.7 million or 51.6% of net sales, a decrease of \$40.6 million or 7.4%, compared with international sales of \$548.3 million or 56.2% of net sales for the first quarter of 2014. The \$40.6 million decrease in international sales primarily resulted from the unfavorable effect of foreign currency translation. Both reportable segments of the Company maintain strong international sales presences in Europe and Asia.

Edgar Filing: AMETEK INC/ - Form 10-Q

New orders for the first quarter of 2015 were \$943.7 million, a decrease of \$54.7 million or 5.5%, compared with \$998.4 million for the first quarter of 2014. The decrease in orders for the first quarter of 2015 was due to an unfavorable 8% effect of foreign currency translation, partially offset by internal order growth of approximately 1% and acquisitions of 1%. As a result, the Company's backlog of unfilled orders at March 31, 2015 was \$1,156.9 million, a decrease of \$40.4 million or 3.4%, compared with \$1,197.3 million at December 31, 2014, largely driven by unfavorable foreign currency translation.

Table of Contents

Results of Operations (continued)

Segment operating income for the first quarter of 2015 was \$233.2 million, a decrease of \$1.0 million or 0.4%, compared with segment operating income of \$234.2 million for the first quarter of 2014. Segment operating income, as a percentage of net sales, decreased to 23.7% for the first quarter of 2015, compared with 24.0% for the first quarter of 2014. The decrease in segment operating income and segment operating margins resulted primarily from the first quarter of 2015 realignment costs described above, which negatively impacted segment operating margins by 160 basis points, partially offset by the impact of acquisitions and internal sales growth mentioned above.

Selling, general and administrative (SG&A) expenses for the first quarter of 2015 were \$110.9 million, a decrease of \$1.7 million or 1.5%, compared with \$112.6 million for the first quarter of 2014. As a percentage of net sales, SG&A expenses were 11.3% for the first quarter of 2015, compared with 11.5% for the first quarter of 2014. Selling expenses for the first quarter of 2015 were \$98.8 million, a decrease of \$1.4 million or 1.4%, compared with \$100.2 million for the first quarter of 2014. Selling expenses, as a percentage of net sales, decreased to 10.0% for the first quarter of 2015, compared with 10.3% for the first quarter of 2014. The selling expenses decrease and the corresponding decrease in selling expenses as a percentage of sales were primarily due to cost containment initiatives and the impact of foreign currency translation.

Corporate administrative expenses for the first quarter of 2015 were \$12.1 million, a decrease of \$0.3 million or 2.4%, compared with \$12.4 million for the first quarter of 2014. As a percentage of net sales, corporate administrative expenses were 1.2% for the first quarter of 2015, compared with 1.3% for the first quarter of 2014. The decrease in corporate administrative expenses was primarily driven by cost containment initiatives.

Consolidated operating income was \$221.0 million or 22.5% of net sales for the first quarter of 2015, a decrease of \$0.6 million or 0.3%, compared with \$221.6 million or 22.7% of net sales for the first quarter of 2014.

Interest expense was \$22.7 million for the first quarter of 2015, an increase of \$3.9 million or 20.7%, compared with \$18.8 million for the first quarter of 2014. The increase was due to the impact of a private placement senior notes funding in the third quarter of 2014.

Other expenses, net were \$1.5 million for the first quarter of 2015, a decrease of \$2.4 million, compared with \$3.9 million for the first quarter of 2014. The decrease was primarily driven by foreign currency translation and lower acquisition-related expenses.

The effective tax rate for the first quarter of 2015 was 27.8%, compared with 29.3% for the first quarter of 2014. The effective tax rates for the first quarter of 2015 and 2014 reflect the higher proportion of foreign earnings, which are taxed at lower rates. Additionally, the first quarter of 2015 effective tax rate reflected the release of uncertain tax position liabilities related to the conclusion of an advance thin capitalization agreement in the European Union.

Net income for the first quarter of 2015 was \$142.1 million, an increase of \$1.5 million or 1.1%, compared with \$140.6 million for the first quarter of 2014. Diluted earnings per share for the first quarter of 2015 were \$0.59, an increase of \$0.02 or 3.5%, compared with \$0.57 per diluted share for the first quarter of 2014. Diluted earnings per share for the first quarter of 2015 includes the impact of the first quarter of 2015 realignment costs, which negatively impacted earnings by \$0.04 per diluted share.

Table of Contents

Results of Operations (continued)

Segment Results

Electronic Instruments Group s (EIG) net sales totaled \$593.8 million for the first quarter of 2015, an increase of \$21.4 million or 3.7%, compared with \$572.4 million for the first quarter of 2014. The acquisitions of Amptek and Zygo accounted for 7% of the net sales increase, partially offset by an unfavorable 3% effect of foreign currency translation. Internal sales growth was flat quarter over quarter.

EIG s operating income was \$151.2 million for the first quarter of 2015, an increase of \$0.9 million or 0.6%, compared with \$150.3 million for the first quarter of 2014. EIG s increase in operating income was primarily due to the higher sales mentioned above, partially offset by \$9.3 million of first quarter of 2015 realignment costs. EIG s operating margins were 25.5% of net sales for the first quarter of 2015, compared with 26.3% of net sales for the first quarter of 2014. EIG s decrease in operating margins resulted primarily from the 150 basis points negative impact from the realignment costs noted above, partially offset by the benefits of the Group s Operational Excellence initiatives.

Electromechanical Group s (EMG) net sales totaled \$390.3 million for the first quarter of 2015, a decrease of \$12.6 million or 3.1%, compared with \$402.9 million for the first quarter of 2014. The net sales decrease was due to an unfavorable 5% effect of foreign currency translation, partially offset by internal sales growth of approximately 2%.

EMG s operating income was \$82.0 million for the first quarter of 2015, a decrease of \$1.9 million or 2.3%, compared with \$83.9 million for the first quarter of 2014. EMG s decrease in operating income was primarily due to the lower sales mentioned above and includes \$6.5 million of first quarter of 2015 realignment costs, partially offset by the benefits of the Group s Operational Excellence initiatives. EMG s operating margins were 21.0% of net sales for the first quarter of 2015, compared with 20.8% of net sales for the first quarter of 2014. EMG s increase in operating margins was driven by the benefits of the Group s Operational Excellence initiatives, partially offset by the 170 basis points negative impact from the realignment costs described above.

Table of Contents

Financial Condition

Liquidity and Capital Resources

Cash provided by operating activities totaled \$121.9 million for the first three months of 2015, a decrease of \$39.1 million or 24.3%, compared with \$161.0 million for the first three months of 2014. The decrease in cash provided by operating activities was primarily due to the \$49.9 million increase in defined benefit pension plan contributions, driven by a \$50.0 million contribution to the Company's U.S. defined benefit pension plans in the first quarter of 2015. Free cash flow (cash flow provided by operating activities less capital expenditures) was \$107.6 million for the first three months of 2015, compared with \$146.5 million for the first three months of 2014. EBITDA (earnings before interest, income taxes, depreciation and amortization) was \$254.6 million for the first three months of 2015, compared with \$250.9 million for the first three months of 2014. Free cash flow and EBITDA are presented because the Company is aware that they are measures used by third parties in evaluating the Company.

Cash used for investing activities totaled \$14.4 million for the first three months of 2015, compared with \$173.6 million for the first three months of 2014. For the first three months of 2014, the Company paid \$161.5 million, net of cash acquired, to acquire Teseq in January 2014 and VTI in February 2014. Additions to property, plant and equipment totaled \$14.4 million for the first three months of 2015, compared with \$14.5 million for the first three months of 2014.

Cash used for financing activities totaled \$53.2 million for the first three months of 2015, compared with \$14.9 million for the first three months of 2014. The change in financing cash flow was primarily the result of a net total borrowings decrease of \$25.2 million for the first three months of 2015, compared with a net total borrowings decrease of \$6.7 million for the first three months of 2014.

For the first three months of 2015, the Company repurchased approximately 481,000 shares of its common stock for \$25.7 million. At March 31, 2015, \$21.5 million was available under the Company's Board of Directors authorization for future share repurchases.

On April 1, 2015, the Company's Board of Directors approved an increase of \$350 million in the authorization for repurchase of the Company's common stock.

In the third quarter of 2014, the Company completed a private placement agreement to sell \$700 million in senior notes to a group of institutional investors. There are three funding dates for the senior notes. The first funding occurred in September 2014 for \$500 million, consisting of \$300 million in aggregate principal amount of 3.73% senior notes due September 2024, \$100 million in aggregate principal amount of 3.83% senior notes due September 2026 and \$100 million in aggregate principal amount of 3.98% senior notes due September 2029. The second funding date will be in June 2015 for \$50 million in aggregate principal amount of 3.91% senior notes due June 2025. The third funding date will be in August 2015 for \$150 million, consisting of \$100 million in aggregate principal amount of 3.96% senior notes due August 2025 and \$50 million in aggregate principal amount of 4.45% senior notes due August 2035. The senior notes will carry a weighted average interest rate of 3.88%. The senior notes are subject to certain customary covenants, including financial covenants that, among other things, require the Company to maintain certain debt to EBITDA and interest coverage ratios. The proceeds from the first funding of the senior notes were used to pay down all domestic borrowings under the Company's revolving credit facility.

At March 31, 2015, total debt outstanding was \$1,672.7 million, compared with \$1,714.0 million at December 31, 2014, with no significant maturities until the third quarter of 2015 of \$143.7 million. The debt-to-capital ratio was 33.9% at March 31, 2015, compared with 34.6% at December 31, 2014. The net debt-to-capital ratio (total debt less cash and cash equivalents divided by the sum of net debt and stockholders equity) was 27.9% at March 31, 2015, compared with 29.2% at December 31, 2014. The net debt-to-capital ratio is presented because the Company is aware that this measure is used by third parties in evaluating the Company.

Table of Contents

Financial Condition (continued)

As a result of all of the Company's cash flow activities for the first three months of 2015, cash and cash equivalents at March 31, 2015 totaled \$406.6 million, compared with \$377.6 million at December 31, 2014. At March 31, 2015, the Company had \$373.7 million in cash outside the United States, compared with \$352.8 million at December 31, 2014. The Company utilizes this cash to fund its international operations, as well as to acquire international businesses. The Company is in compliance with all covenants, including financial covenants, for all of its debt agreements. The Company believes it has sufficient cash-generating capabilities from domestic and unrestricted foreign sources, available credit facilities and access to long-term capital funds to enable it to meet its operating needs and contractual obligations in the foreseeable future.

Forward-Looking Information

Information contained in this discussion, other than historical information, is considered "forward-looking statements" and is subject to various factors and uncertainties that may cause actual results to differ significantly from expectations. These factors and uncertainties include general economic conditions affecting the industries the Company serves; changes in the competitive environment or the effects of competition in the Company's markets; risks associated with international sales and operations; the Company's ability to consummate and successfully integrate future acquisitions; the Company's ability to successfully develop new products, open new facilities or transfer product lines; the price and availability of raw materials; compliance with government regulations, including environmental regulations; and the ability to maintain adequate liquidity and financing sources. A detailed discussion of these and other factors that may affect the Company's future results is contained in AMETEK's filings with the Securities and Exchange Commission, including its most recent reports on Form 10-K, 10-Q and 8-K. AMETEK disclaims any intention or obligation to update or revise any forward-looking statements, unless required by the securities laws to do so.

Item 4. Controls and Procedures

The Company maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed, is accumulated and communicated to management in a timely manner. Under the supervision and with the participation of our management, including the Company's principal executive officer and principal financial officer, we have evaluated the effectiveness of our system of disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of March 31, 2015. Based on that evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective at the reasonable assurance level.

Such evaluation did not identify any change in the Company's internal control over financial reporting during the quarter ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
