Intertape Polymer Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

June 30, 2015

(In US dollars, tabular amounts in thousands, except as otherwise noted)

(Unaudited)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the *Parent Company*), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Québec, Canada and in Sarasota, Florida, U.S.A. The address of the *Parent Company*'s registered office is 800 Place Victoria, Suite 3700, Montreal, Québec H4Z 1E9, c/o Fasken Martineau DuMoulin LLP. The *Parent Company*'s common shares are listed on the Toronto Stock Exchange (*TSX*) in Canada.

The *Parent Company* and its subsidiaries (together referred to as the *Company*) develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, polyethylene and specialized polyolefin films, woven coated fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the *Company*'s ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (*Financial Statements*) present the *Company*'s consolidated balance sheets as of June 30, 2015 and December 31, 2014, as well as its consolidated earnings, comprehensive income and cash flows for the three and six months ended June 30, 2015 and 2014, and the changes in shareholders' equity for the six months ended June 30, 2015 and 2014.

These *Financial Statements* have been prepared in accordance with International Accounting Standard (*IAS*) 34 *Interim Financial Reporting* and are expressed in United States (*US*) dollars. Accordingly, certain information and footnote disclosures normally included in annual audited consolidated financial statements prepared in accordance with International Financial Reporting Standards (*IFRS*), as issued by the International Accounting Standards Board (*IASB*), have been omitted or condensed. These *Financial Statements* use the same accounting policies and methods of computation as compared with the *Company*'s most recent annual audited consolidated financial statements, except for (i) the estimate of the provision for income taxes, which is determined in these *Financial Statements* using the estimated weighted average annual effective income tax rate applied to the earnings before income tax expense (benefit) of the interim period, which may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes, and (ii) the re-measurement of the defined benefit liability, which is required at year-end and if triggered by plan amendment or settlement during interim periods.

These *Financial Statements* reflect all adjustments which are, in the opinion of management, necessary to present a fair statement of the results for these interim periods. These adjustments are of a normal recurring nature.

These Financial Statements were authorized for issuance by the Company's Board of Directors on August 12, 2015.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of these Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Significant changes in the underlying assumptions could result in significant changes to these estimates. Consequently, management reviews these estimates on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The judgments, estimates and assumptions applied in these Financial Statements were the same as those applied in the Company's most recent annual audited consolidated financial statements other than (as noted above) the accounting policies and methods of computation for the estimate of the provision for income taxes and the re-measurement of the defined benefit liability.

Changes in Accounting Policies

On January 1, 2015, the Company adopted and implemented IFRS 9 (2013) *Financial Instruments*. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement* and previous versions of IFRS 9. IFRS 9 (2013) includes revised guidance on the classification and measurement of financial assets and liabilities and introduces a new general hedge accounting model which aims to better align a company's hedge accounting with risk management.

Previously, the Company classified financial assets when they were first recognized as fair value through profit or loss, available for sale, held to maturity investments or loans and receivables. Under IFRS 9 (2013), the Company classifies financial assets under the same two measurement categories as financial liabilities; amortized cost or fair value through profit and loss. Financial assets are classified as amortized cost if the purpose of the Company's business model is to hold the financial assets for collecting cash flows and the contractual terms give rise to cash flows that are solely payments of principal and interest. All other financial assets are classified as fair value through profit or loss. All of the Company's financial assets and financial liabilities as at December 31, 2014 will continue to be classified and measured at amortized cost with the exception of derivative financial instruments disclosed below. The adoption of this standard has not resulted in any changes to comparative figures.

The Company has not yet adopted IFRS 9 (2014) *Financial Instruments* that incorporates the new impairment model that assesses financial assets based on expected losses rather than incurred losses as applied in IAS 39. This final standard will replace IFRS 9 (2013) and is effective for annual periods on or after January 1, 2018.

Derivative Financial Instruments and Hedging

When the requirements for hedge accounting are met at inception, the Company's policy is to designate each derivative financial instrument as a hedging instrument in a cash flow hedge relationship. Upon designation, the Company documents the relationships between the hedging instrument and the hedged item, including the risk management objectives and strategy in undertaking the hedge transaction, and the methods that will be used to assess the effectiveness of the hedging relationship.

At inception of a hedge relationship and at each subsequent reporting date, the Company evaluates if the hedging relationship qualifies for hedge accounting under IFRS 9 (2013), which includes the following conditions to be met:

There is an economic relationship between the hedged item and the hedging instrument;

The effect of credit risk does not dominate the value changes that result from that economic relationship; and

The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

Hedge accounting is discontinued prospectively when a derivative instrument ceases to satisfy the conditions for hedge accounting, or is sold or liquidated. If the hedged item ceases to exist, unrealized gains or losses recognized in OCI are reclassified to earnings.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Company. Management anticipates that all of the relevant pronouncements will be adopted in the first reporting period following the date of application. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's consolidated financial statements, are detailed as follows:

IFRS 15 *Revenue from Contracts with Customers* replaces IAS 18 *Revenue*, IAS 11 *Construction Contracts* and some revenue related interpretations. IFRS 15 establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized at a point in time or over time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2017. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

IFRS 9 (2014) *Financial Instruments* was issued in July 2014 and differs in some regards from IFRS 9 (2013) which the Company adopted effective January 1, 2015. IFRS 9 (2014) includes updated guidance on the classification and measurement of financial assets. The final standard also amends the impairment model by introducing a new expected credit loss model for calculating impairment. The mandatory effective date of IFRS 9 (2014) is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exemptions. Early adoption is permitted. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's consolidated financial statements.

7 - INTANGIBLE ASSETS

The Company has a trademark and goodwill which are identifiable intangible assets for which the expected useful life is indefinite. The trademark represents the value of a brand name acquired in a business acquisition which management expects will provide benefit to the Company for an indefinite period. Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets acquired in a business acquisition. Intangible assets with indefinite useful lives that are acquired separately are carried at cost.

When intangible assets are purchased with a group of assets, the cost of the group of assets is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. When intangible assets are purchased separately, the cost comprises its purchase price and any directly attributable cost of preparing the asset for its intended use.

Intangible assets are carried at cost less accumulated amortization and are amortized using the straight-line method, over their estimated useful lives as follows:

	Years
Goodwill and trademark	Indefinite
Customer lists	5 to 15
Distribution rights and customer contracts	6
License agreements and software	5
Non-compete agreement	3

The amortization methods, useful lives and residual values related to intangible assets are reviewed and adjusted if necessary at each financial year-end. Amortization begins when the asset is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Amortization expense is recognized in earnings in the expense category consistent with the function of the intangible asset.

On July 3, 2014, the Company was informed of a complaint filed on June 27, 2014 by its former Chief Financial Officer with the Occupational Safety and Health Administration of the US Department of Labor (OSHA) alleging certain violations by the Company related to the terms of his employment and his termination. The Company aggressively contested the allegations and, it believes, demonstrated that the former Chief Financial Officer's assertions are without merit.

In a letter dated July 16, 2015, OSHA informed the Company that the former Chief Financial Officer had withdrawn his OSHA complaint in order to file a complaint against the Company in US federal district court. The withdrawal occurred prior to any determination by OSHA regarding the complaint. As of the date of the filing of these Financial Statements, the Company is not aware of any complaint filed against it in US federal district court by the former Chief Financial Officer. Because such complaint has not been filed and the Company is not aware of any information to lend merit to such a complaint, the Company is not currently able to predict the probability of a favourable or unfavourable outcome, or the amount of any possible loss in the event of an unfavourable outcome. Consequently, no material provision or liability has been recorded for these allegations and claims as of June 30, 2015. As of June 30, 2015, approximately \$0.4 million in severance and other provisions is for an estimated amount relating to the former Chief Financial Officer based on the employment letter agreements entered into with him on October 30, 2009 and November 17, 2009.

The Company is engaged from time-to-time in various legal proceedings and claims that have arisen in the ordinary course of business. The outcome of all of the proceedings and claims against the Company is subject to future resolution, including the uncertainties of litigation. Based on information currently known to the Company and after consultation with outside legal counsel, management believes that the probable ultimate resolution of any such proceedings and claims, individually or in the aggregate, will not have a material adverse effect on the financial condition of the Company, taken as a whole, and accordingly, no amounts have been recorded as of June 30, 2015.

Share Repurchases

On July 7, 2014, the Company announced a normal course issuer bid (NCIB) effective on July 10, 2014. In connection with this NCIB, the Company is entitled to repurchase for cancellation up to 2,000,000 of the Company's common shares issued and outstanding. This NCIB, which was scheduled to expire on July 9, 2015, was renewed effective July 10, 2015. Refer to Note 15 for more information on the renewed NCIB.

Weighted average fair value per PSU	\$ 15.15	\$ 11.38	\$ 13.64	\$ 11.38

The weighted average fair value of PSUs granted was estimated based on a Monte Carlo simulation model, taking into account the following weighted average assumptions:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Expected life	3 years	3 years	3 years	3 years
Expected volatility ⁽¹⁾	35%	38%	35%	38%

Performance period starting price ⁽³⁾	CDN\$ 17.86	CDN\$ 12.74	CDN\$ 17.86	CDN\$ 12.74
Stock price at grant date	CDN\$ 17.53	CDN\$ 12.72	CDN\$ 17.53	CDN\$ 12.72

(1) Expected volatility was calculated based on the daily dividend adjusted closing price change on the TSX for a term commensurate with the expected life of the grant.

(2) A participant will receive a cash payment from the Company upon PSU settlement that is equivalent to the number of shares issued or delivered to the participant multiplied by the amount of cash dividends per share declared by the Company between the date of grant and the third anniversary of the grant date. As such, there is no impact from expected future dividends in the Monte Carlo simulation model. As of June 30, 2015 and December 31, 2014, the Company accrued less than \$0.1 million in the consolidated balance sheets in other liabilities.

(3) The performance period starting price is measured as the five day volume weighted average trading price for the common shares of the Company on the grant date.

The PSUs granted in 2014 and 2015 are earned over a three-year period with vesting at the third anniversary of the grant date. The number of shares earned can range from 0% to 150% of the grant amount based on entity performance criteria, specifically the total shareholder return (TSR) ranking versus a specified peer group of companies.

As of June 30, 2015, the Company's TSR ranking was such that if the awards granted in 2014 and 2015 were to be settled at June 30, 2015, the number of shares earned would be 150% of the grants awarded.

12 - FINANCIAL INSTRUMENTS

The Company is exposed to a risk of change in cash flows due to the fluctuations in interest rates applicable on its variable rate Revolving Credit Facility and other floating rate debt. The Company's overall risk management objective is to minimize the long-term cost of debt, taking into account short-term and long-term earnings and cash flow volatility. The Company's risk strategy with respect to its exposure associated with floating rate debt is that the Chief Executive Officer, Chief Financial Officer and Treasurer monitor the Company's amount of floating rate debt, taking into account the current and expected interest rate environment, the Company's leverage and sensitivity to earnings and cash flows due to changes in interest rates. The Company's risk management objective at this time is to mitigate the

variability in 30-day LIBOR-based cash flows from the first \$40,000,000 of such variable rate debt due to changes in the benchmark interest rate.

On March 18, 2015, to help achieve accomplish this objective, the Company entered into an interest rate swap agreement and designated it as a cash flow hedge. The terms of the interest rate swap agreement are as follows:

Maturity	Notional amount	Settlement	Fixed interest rate paid
November 18, 2019	\$ 40,000,000	Monthly	1.61%

The interest rate swap agreement involves the exchange of periodic payments excluding the notional principal amount upon which the payments are based. These payments were recorded as an adjustment of interest expense on the hedged debt instrument. The related amount payable to or receivable from counterparties is included as an adjustment to accrued interest.

Additionally, the Company elects to use the Hypothetical Derivative methodology to measure the ineffectiveness of the hedging relationship in a given reporting period to be recorded in earnings. Under the Hypothetical Derivative method, the actual interest rate swap would be recorded at fair value on the balance sheet, and accumulated OCI would be adjusted to a balance that reflects the lesser of either the cumulative change in the fair value of the actual interest rate swap or the cumulative change in the fair value of the hypothetical derivative. The determination of the fair value of both the hypothetical derivative and the actual interest rate swap will use discounted cash flows based on the relevant interest rate swap curves. The amount of ineffectiveness, if any, recorded in earnings in finance costs in other expense, net, would be equal to the excess of the cumulative change in the fair value of the actual interest rate swap over the cumulative change in the fair value of the hypothetical derivative. Amounts previously included as part of OCI are transferred to earnings in the period during which the hedged item impacts net earnings.

The change in fair value of the derivative used for calculating hedge effectiveness was \$0.3 million as of June 30, 2015.

The carrying amount and fair value was a liability, included in other liabilities in the consolidated balance sheet, amounting to \$0.3 million as of June 30, 2015.

The Company categorizes its interest rate swap as Level 2 within the fair value measurement hierarchy as the fair value is estimated using a valuation technique based on observable market data, including interest rates, as a listed market price is not available.

13 - BUSINESS ACQUISITION

On April 7, 2015, a subsidiary of the Parent Company, Intertape Polymer Corp. (IPC), under a Stock Purchase Agreement (the Agreement) dated the same day, purchased 100% of the issued and outstanding common stock of BP Acquisition Corporation (Better Packages) (which wholly-owns a subsidiary, Better Packages, Inc.) (the Acquisition), a leading supplier of water-activated tape dispensers.

IPC paid in cash, funded primarily from the Company's Revolving Credit Facility, a purchase price of \$16.0 million, subject to a working capital adjustment. A post-closing working capital adjustment was determined on July 10, 2015, resulting in a receivable of \$0.1 million as of June 30, 2015 included in other current assets in the consolidated balance sheet. There are no additional contingent consideration arrangements in the Agreement. In addition, IPC and the former shareholders of Better Packages each made customary representations and warranties and covenants in the Agreement and the Agreement contains customary indemnification provisions. The former shareholders of Better Packages have deposited in escrow \$2.9 million related to these items.

The net cash consideration paid on the closing date was as follows:

	April 7, 2015 (Unaudited) \$
Consideration paid in cash	15,867
Less: cash balances acquired	534
	15,333

The Acquisition was accounted for using the acquisition method of accounting. The Acquisition further extends the Company's product offering and global presence in the rapidly growing e-commerce market, resulting in the recognition of goodwill of \$6.1 million. The Company does not expect any of the goodwill to be deductible for income tax purposes. The fair value of net identifiable assets acquired and goodwill at the date of acquisition are as follows:

	April 7, 2015 (Unaudited) \$

Goodwill	6,078

- (1) The Company expects to collect the fair value of the trade receivables of \$1,310. The gross contractual amounts receivable were \$1,324.

The Acquisition's impact on the Company's consolidated earnings for the three and six months ended June 30, 2015, was as follows:

	April 7, 2015 through June 30, 2015 \$
Revenue	4,334
Net earnings	334

Had the Acquisition been effective as of January 1, 2015 the impact on the Company's consolidated earnings would have been as follows:

	Three months ended June 30, 2015 \$	Six months ended June 30, 2015 \$
Revenue	4,334	7,926
Net earnings ⁽¹⁾	350	394

The acquisition-related costs are excluded from the consideration transferred and are included in the Company's consolidated earnings as follows:

Selling, general and administrative expenses	28	382

14 - RELATED PARTY

In June 2014, the Company engaged with a relocation management company to facilitate the purchase of the then-newly appointed Chief Financial Officer's home in Montreal, Québec, Canada to assist in his relocation to Sarasota, FL, U.S.A. The Company provided funding to the relocation management company to purchase the home for \$0.9 million. The sale of the home was completed on April 15, 2015 and the Company was reimbursed for the purchase funding.

15 - POST REPORTING EVENTS

Adjusting Events

No adjusting events have occurred between the reporting date of these Financial Statements and the date of authorization.

Non-Adjusting Events

On August 12, 2015, the Company's Board of Directors approved a change in the quarterly dividend policy by increasing the dividend from \$0.12 to \$0.13 per share. Accordingly, on August 12, 2015, the Company declared a cash dividend of \$0.13 per common share payable September 30, 2015 to shareholders of record at the close of business on September 15, 2015. The estimated amount of this dividend payment is \$7.8 million based on 59,721,385 of the Company's common shares issued and outstanding as of August 12, 2015.

On July 8, 2015, the Company announced the renewal of its NCIB effective July 10, 2015 under which the Company will be entitled to repurchase for cancellation up to 2,000,000 common shares, representing 3.35% of its 59,627,635 common shares issued and outstanding as of June 30, 2015. This renewed NCIB expires on July 9, 2016. As of August 12, 2015, there had been no repurchases since the beginning of this renewed NCIB time period.

No other significant non-adjusting events have occurred between the reporting date of these Financial Statements and the date of authorization.

 - (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that
 - (i) material information relating to the Issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and
 - (ii) information required to be disclosed by the Issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and

(b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Issuer's GAAP.

5.1 **Control framework:** The control framework the Issuer's other certifying officer(s) and I used to design the Issuer's ICFR is the 2013 Internal Control - Integrated Framework published by the Committee of Sponsoring Organization of the Treadway Commission (COSO).

5.2 N/A

5.3 N/A

6. **Reporting changes in ICFR:** The Issuer has disclosed in the interim MD&A any change in the Issuer's ICFR that occurred during the period beginning on April 1, 2015 and ended on June 30, 2015 that has materially affected, or is reasonably likely to materially affect, the Issuer's ICFR.
