### **TSMC Fourth Quarter and Full Year 2015 Revenue Outlook**

**Hsinchu, Taiwan, R.O.C. September 23, 2015** TSMC today announced that its third-quarter revenue will exceed the company's guidance given on July 16, 2015 due to a more favorable US dollar exchange rate to the NT dollar. The company now expects its third-quarter revenue to be between NT\$211 billion and NT\$213 billion, and both gross profit and operating profit margins to be within the range of its July guidance of 47% to 49% for the gross profit margin and 36.5% to 38.5% for the operating profit margin. The company further expects its fourth-quarter revenue will experience a sequential decline and is likely to be between NT\$198 billion and NT\$204 billion, with profit margin rates similar to its third quarter. As a result, the company expects its full-year revenue growth rate will still be close to double digits from 2014 as the company previously indicated.
