Payment of Filing Fee (Check the appropriate box):

No fee required.

Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.

(1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

Fee paid previously with preliminary materials.

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing:

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Filed pursuant to Rule 14a-6

of the Securities Exchange Act of 1934, as amended

Filing by: Horizon Pharma Public Limited Company

Subject Company: Depomed, Inc.

SEC File No. of Depomed, Inc.: 001-13111

Horizon Pharma plc ( Horizon Pharma ) has filed a definitive proxy statement with the Securities and Exchange Commission and accompanying WHITE and BLUE proxy cards to be used to solicit requests that Depomed, Inc. ( Depomed ) call two related special meetings of shareholders.

This Schedule 14A filing consists of the following amended investor presentation regarding the proposed acquisition of Depomed by Horizon Pharma and Horizon Pharma s solicitation of requests that Depomed call two related special meetings of shareholders. Horizon Pharma first released the investor presentation on September 17, 2015 and first released the following amended investor presentation on September 25, 2015.

Non-Confidential Information Horizon Pharma plc

2

This presentation contains forward-looking statements, including, but not limited to, statements related to Horizon's offer to exchange its ordinary shares for all issued and outstanding shares of Depomed's stock and the potential strategic and financial benefits of the future financial performance and prospects of each of Horizon and Depomed, Horizon's business strategy and plans and other statements that are not historical facts.

These forward-looking statements are based on Horizon's current expectations and inherently involve significant risks and uncertainties. Actual results and the timing of events could differ materially from those anticipated in such forward-looking statements.

as a result of these risks and uncertainties, which include, without limitation, risks that the conditions to the exchange offer will not be satisfied, Horizon will ultimately not pursue a transaction with Depomed or Depomed will reject engaging in any transaction with Horizon; if the conditions of the exchange offer are satisfied and/or a transaction is negotiated between Horizon and Depomed, risks related to Horizon's ability to complete the acquisition on the proposed terms; the possibility that competing offers will be made; risks associated with business combination transactions, such as the risk that the businesses will not be integrated successfully, that integration may be more difficult, time-consuming or costly than expected or that the expected benefits of the acquisition will not be realized; risks related to future opportunities and plans for the combined company, including uncertainty of the expected financial performance and results of the combined company following completion of the proposed acquisition; disruption from the proposed acquisition, making it more difficult to conduct business as usual or maintain relationships with customers, employees or suppliers; and the possibility that if the combined company does not achieve the perceived benefits of the proposed acquisition as rapidly as the extent anticipated by financial analysts or investors, the market price of Horizon's shares could decline, as well as other risks related to the Horizon and Depomed's businesses, including the ability to grow sales and revenues from existing products; competition, including potential generic competition; the ability to protect intellectual property and defend patents; regulatory obligations and oversight; and those risks detailed from time-to-time under the caption "Risk Factors" and elsewhere in Horizon and Depomed's respective filings and reports with the U.S. Securities and Exchange Commission. Horizon Pharma undertakes no obligation to update any forward-looking statements contained in this presentation as a result of new information except as required by applicable law or regulation.

For full prescribing information refer to product websites.

Forward-Looking Statements

3

Non-Confidential Information Horizon Pharma plc

Horizon Pharma provides certain financial measures such as adjusted EBITDA, or earnings before interest, taxes, depreciation and amortization, pro forma net sales adjusted for sales of certain products pre-acquisition and adjusted net income that include adjustments to GAAP figures. Adjustments to GAAP figures as well as EBITDA exclude acquisition transaction related expenses, loss on debt extinguishment, as well as non-cash items such as share-based compensation, depreciation and amortization, royalty accretion, non-cash interest expense, and other non-cash adjustments. Certain other special items or substantive events may also be included in the non-GAAP adjustments periodically when their magnitude is significant within the periods incurred. In the c

pro forma net sales, the figures exclude net sales of orphan and oncology products and include net sales attributed to other companies that marketed certain products prior to their acquisition by Horizon Pharma or Depomed, as applicable. Horizon Pharma believes that these non-GAAP financial measures, when considered together with the GAAP figures, can enhance an overall understanding of Horizon Pharma's and Depomed's financial performance. The non-GAAP financial measures are included with the intent of providing investors with a more complete understanding of the Company's operational results, and expectations, including in relation to Depomed. In addition, these non-GAAP financial measures are among the indicators Horizon Pharma's management uses for planning and forecasting purposes and measuring the Company's performance. These non-GAAP financial measures should be considered in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The non-GAAP financial measures used by the Company may be calculated differently and therefore may not be comparable to, non-GAAP financial measures used by other companies. The Company has not provided a reconciliation of adjusted EBITDA or adjusted net income outlook for future periods to a net income (loss) outlook because certain items that are a component of net income (loss) but not part of adjusted EBITDA and/or adjusted net income, such as the gain (loss) on derivative revaluation associated with convertible senior notes, stock compensation, acquisition related expenses and certain purchase accounting items such as intangibles and step-up inventory, cannot be reasonably projected, either due to the significant impact of changes in Horizon Pharma's or Depomed's stock price on share-based compensation, the variability associated with acquisition related expenses due to timing and other factors.

Note Regarding Use of Non-GAAP Financial Measures

Planned Structure Provides a Larger, More Focused Sales Force

Non-Confidential Information    Horizon Pharma plc  
Operational Synergies

(1)

Tax Synergies

Horizon expects combined company tax rate  
to be in the mid-single digits, increasing to  
the low-teens over the next five years

We believe that the costs of operating

Depomed's existing business could be significantly reduced through the elimination of certain general and administrative costs, including consolidation of locations, reductions in headcount and elimination of duplicate external costs, including public company expenses

DEPO should have a long term tax rate in the high 30's.

Piper Jaffray, July 7, 2015, Depomed

DEPO pays a corporate tax rate of 37% and HZNP of course has a tax-advantaged corporate structure in place.

Piper Jaffray, July 7, 2015, Depomed

Given the broader platform, larger anticipated rep base and re-price potential we think HZNP could drive upside.

NUCYNTA is the biggest value driver with each 500 bps of annual TRx growth through 2022E driving +\$3 in NPV (and opportunity in other products).

Other synergy

opportunities are to refinance the 10.75% debt, cut G&A and lower the full DEPO tax rate.

RBC, July 8, 2015, Depomed

16

Note: Permission to use quoted material was neither sought nor obtained.

(2)  
Market data as of 9/15/2015 assuming Horizon 159.2mm basic shares outstanding and stock price of \$29.20 and Depomed 60.

(3)

Edgar Filing: DEPOMED INC - Form DFAN14A

Represents total debt / 2015 estimated Adjusted EBITDA. Based on current Depomed debt of \$920mm and Adjusted EBITDA debt of \$1,275mm and adjusted EBITDA of \$272.5mm (midpoint of Horizon guidance). Pro forma assumes retirement of Dep convertible debt and \$175mm in incremental senior term loan. By this presentation, Horizon is not confirming or updating price (4)

Based on latest pure debt financings excluding convertible debt. Includes HZNP \$400mm term loan at 4.5% and \$475mm high Horizon expects the combination would provide additional financial flexibility and increased free cash flow, enhanced access to the capital markets and considerably lower borrowing costs

Milestone & royalty agreement related to  
IW-3718 with Ironwood

Milestone & single digit royalty agreement  
related to Xartemis XR and MNK-155 with

Mallinckrodt

Both medicines have been  
abandoned by Mallinckrodt  
DEPOMED R&D Opportunity?

We had been evaluating the performance  
of XARTEMIS XR.

And certainly, as the  
company has changed its focus to  
autoimmune rare diseases in the hospital  
sector, our emphasis on the office space  
pain activities has certainly been less  
strategic.

And so in light of that change in  
strategic direction, coupled with the  
performance of XARTEMIS XR, as of June,  
we have discontinued promotion of  
XARTEMIS XR, and we're considering a  
number of different strategic alternatives for  
that product.

23

called MNK-155, and it's a combination  
product of hydrocodone and acetaminophen with  
similar technology to that of XARTEMIS XR. And  
again, it would be focused on the office space  
pain marketplace, which, as I mentioned, is not  
really a strategic focus for us going forward.

(1)

Factset and NASDAQ.

Perception that this deal may  
not generate an adequate

amount of synergies to be attractive does not make sense to us.

If we looked through Horizon's past deal transaction history, none was built on cost cutting

-

rather all were based

on generating revenue upside from increased promotion and better pharmacy pull through. We see the Depomed deal as being no different.

Leerink, Depomed

Per our earlier note, we believe the asset is worth more in the hands of Horizon given the greater S&M resources Horizon could provide, cost savings opportunity, ability to refinance the 10.75% debt and expected reduction of the tax burden.

Viewing the proposed Depomed transaction within that broader context of Horizon's evolution, we believe this transaction makes exceedingly good strategic sense, is nicely value creating and provides enhanced and durable diversification.

Cowen, Horizon

The debate whether Depomed overpaid for Nucynta is yet to be determined, but we believe this is a growth product and the numbers work better within Horizon with the significant tax advantages.

We continue to view a HZNP-DEPO combination as attractive, and believe HZNP has made a strong case to DEPO shareholders.

Depomed Continues to Work Against the Best Interests of  
Shareholders

Non-Confidential Information Horizon Pharma plc

28

Depomed

Continues to Work Against the Best Interests

of Shareholders

Horizon Pharma believes that Depomed will do whatever it can to delay

Depomed's shareholders from expressing their views on Horizon Pharma's

proposals

On July 12

, Depomed's board adopted the Poison Pill

That same day, Depomed's board amended the Depomed bylaws to allow the Depomed board to delay any special meeting of Depomed shareholders to vote on any Horizon Pharma proposals for almost five months

On August 21

, Depomed informed Horizon Pharma that it was not allowing

Horizon Pharma to hold a single special meeting to hear all of its proposals without incurring further delays

On August 31

, Depomed informed Horizon Pharma that it had set the record

date for determining shareholders eligible to call the first special meeting as October 29, 2015, 87 days after the initial request and the SECOND TO LAST possible day that it could under the Depomed bylaws

On September 15

, Depomed informed Horizon Pharma that it had set the

record date for determining shareholders eligible to call the second special meeting as November 13, 2015, 86 days after the initial request and the THIRD TO LAST possible day it could under the Depomed bylaws

th

th

st

Non-Confidential Information Horizon Pharma plc

29

Depomed Continues to Work Against the Best Interests of Shareholders

Absent the Poison Pill and the most recent Depomed bylaw amendments, any Depomed shareholder(s) owning 10% or more of the shares could have called a

special meeting to hear Horizon Pharma's proposals without incurring associated delays

Special meeting request could have happened July 9

and the special meeting

would have already been called

th

Non-Confidential Information Horizon Pharma plc  
Actions to Date in Furtherance of Our Efforts to  
Acquire Depomed

30

(1)

Depomed ignored Horizon's request to set the same Request Record Date for both Meeting one and Meeting two to ensure that and that Horizon is able to call the Special Meetings as of dates that are close in time, if not the same day, under the Company Meeting one.

On September 8

, commenced an exchange offer to acquire all of Depomed s  
common shares

On September 8 , filed definitive Solicitation Materials to call for two Special  
Meetings of Depomed shareholders as follows

Meeting One: Removal of Depomed s directors and recession of the most recent  
Depomed bylaw changes

Request Record Date set by Depomed as October 29  
th

Meeting Two: Election of the new slate of directors

Request Record Date set by Depomed as November 13  
th

Solicitation commenced on September 8

Horizon Pharma purchased 2.25 million shares of Depomed common stock  
representing approximately 3.73% of such shares outstanding

On August 3

, Horizon Pharma filed a lawsuit challenging legality of the Poison Pill  
and most recent Depomed bylaw changes

The Court has set a hearing date of November 5, 2015
