CORPORATE GOVERNANCE

Governance Practices

General

Our Board believes that adherence to sound corporate governance policies and practices is important in ensuring that we are governed and managed with the highest standards of responsibility, ethics and integrity and in the best interests of our stockholders. As a result, our Board has adopted key governance documents, including Corporate Governance Guidelines, Corporate Code of Business Conduct and Ethics and committee charters, which are intended to reflect a set of core values that provide the foundation for our governance and management systems and our interactions with others.

Copies of these documents are available on our website at <http://www.goodrichpetroleum.com/about-us/corporate-governance/> and are also available in print, free of charge, to any stockholder who requests them.

Corporate Governance Guidelines

Our Board has adopted Corporate Governance Guidelines, which can be viewed on our website at <http://www.goodrichpetroleum.com/files/4614/1159/7259/CorporateGovernanceGuidelines.pdf>.

Among other things, the Corporate Governance Guidelines address the following matters:

director qualification standards,

director responsibilities,

director access to management and independent advisors,

director compensation,

director orientation and continuing education,

management succession, and

annual performance evaluations of our Board.

Corporate Code of Business Conduct and Ethics

Our Corporate Code of Business Conduct and Ethics, which is applicable to our directors, employees, agents and representatives, can be viewed on our website at <http://www.goodrichpetroleum.com/files/5014/1159/7233/CodeofBusinessConductandEthics.pdf>.

Any change to, or waiver from, our Corporate Code of Business Conduct and Ethics may be made only by our independent directors and will be disclosed as required by applicable securities laws and listing standards.

Our Board

Board Size

In December, 2015, the Board resolved to reduce the size of our Board to eight members. Our Board consisted of eight members until the resignation of Peter Goodson in January, 2016.

Board Meetings, Annual Meeting Attendance

Our Board held thirteen meetings during the fiscal year ended December 31, 2015. Each director attended at least 75% of the meetings of the Board and the committees of which each is a member. We do not have a formal policy regarding director attendance at Board meetings. However, our Board must consider a director's history of attendance at Board and committee meetings as well as the director's participation in such meetings when considering the director for re-nomination to our Board.

Table of Contents

We believe that there are benefits to having members of our Board attend the annual meetings of our stockholders. From time to time, however, a member of our Board might have a compelling and legitimate reason for not attending an annual meeting. As a result, our Board has decided that director attendance at annual meetings should be strongly encouraged, but not required.

Executive Sessions and Presiding Director

To facilitate candid discussion by our non-management directors, the agenda for certain Board and committee meetings provides for a meeting of non-management directors in executive session without any members of management present. Mr. Seeligson has been designated as the director to preside over executive sessions of non-management directors.

Limitation on Public Company Board Service

To ensure that each director is able to devote sufficient time to performing his or her duties, the number of other public company boards on which a director may serve is subject to a case-by-case review by the Nominating and Corporate Governance Committee. In addition, the Audit Committee's Charter prohibits committee members from serving on the audit committee of more than two other public company boards unless our Board determines that such simultaneous service does not impair the ability of the director to effectively serve on the Audit Committee.

Chairman and Chief Executive Officer

Our Board has determined that a leadership structure consisting of a combined role of Chairman of the Board and Chief Executive Officer, together with a strong Lead Independent Director, is appropriate for our Company. As Mr. Goodrich bears the primary responsibility for managing our day-to-day business, the combination of the role of Chairman and Chief Executive Officer ensures that key business issues and stockholder interests are brought to the attention of our Board. In addition, as a result of his role as the Chief Executive Officer of the Company, Mr. Goodrich has Company-specific experience that can benefit his role as Chairman of the Board in identifying strategic priorities, leading the discussion and execution of strategy, and facilitating the flow of information between management and the Board.

To give a significant voice to our independent, non-management directors and to reinforce effective, independent leadership on the Board, and in recognition of his demonstrated leadership skills, the Board has appointed Mr. Seeligson as Lead Independent Director.

We believe that the above structure, when combined with the Company's other governance policies and procedures, provide for appropriate oversight, discussion and evaluation of decisions and direction from the Board, and are in the best interest of our stockholders.

Our Board's Role in Risk Oversight

Our Board generally administers its risk oversight function through the board as a whole. Our Chief Executive Officer, who reports to the Board, and the other executives named in this filing, who report to our Chief Executive Officer, have day-to-day risk management responsibilities. Each of these executives attends the meetings of our Board, where the Board routinely receives reports on our financial results, the status of our operations and our safety performance, and other aspects of implementation of our business strategy, with ample opportunity for specific inquiries of management. The Audit Committee provides additional risk oversight through its quarterly meetings, where it receives a report from our Chief Financial Officer and our Controller, and reviews our contingencies,

significant transactions and subsequent events, among other matters, with management and our independent auditors. In addition, our Hedging Committee assists management in establishing pricing and production guidelines to be used by management in entering into oil and gas hedging contracts in order to manage the commodity price risk for a portion of our oil and gas production.

Table of Contents

Annual Board Evaluation

The Nominating and Corporate Governance Committee is responsible for the Board evaluation process. Following the end of each fiscal year, the Nominating and Corporate Governance Committee requests that the Chairman of each committee report to the full Board about the committee's annual evaluation of its performance and evaluation of its charter. In addition, the Nominating and Corporate Governance Committee receives comments from all directors and reports to the full Board with an assessment of the Board's and management's performance each fiscal year.

Director Orientation and Continuing Education

Our Board takes measures as it deems appropriate to ensure that its members may act on a fully informed basis. The Nominating and Corporate Governance Committee evaluates general education and orientation programs for our directors. Newly appointed directors are required to become knowledgeable (if not already) about the responsibilities of directors for publicly traded companies. In addition, we provide our directors with information regarding changes in our business and industry as well as the responsibilities of the directors in fulfilling their duties.

Director Nomination Process

Director Qualifications

When identifying prospective director nominees, our Board, with assistance from the Nominating and Corporate Governance Committee, considers the following:

the prospective nominee's reputation, integrity and independence;

the prospective nominee's skills and business, government or other professional experience and acumen, bearing in mind the composition of our Board and the current state of and the energy industry generally at the time of determination; and

the number of other public companies for which the prospective nominee serves as a director and the availability of the prospective nominee's time and commitment to us.

Although we do not have a formal policy for the consideration of diversity in identifying director nominees, the Nominating and Corporate Governance Committee believes that the backgrounds and qualifications of the directors, considered as a group, should provide a diverse mix of skills, knowledge, attributes and experiences that cover the spectrum of areas that affect our business. The Nominating and Corporate Governance Committee regularly assesses whether the mix of skills, experience and background of our Board as a whole is appropriate for us.

In the case of directors being considered for reelection, our Board also takes into account the director's history of attendance and participation at Board and committee meetings, and the director's tenure as a member of our Board.

Director Nominations

In connection with its governance function, the Nominating and Corporate Governance Committee identifies individuals qualified to become Board members and recommends those individuals for election as directors, either at

the annual meeting of stockholders or to the Board to fill any vacancies. When the need to fill a vacancy arises, the Nominating and Corporate Governance Committee solicits recommendations from existing directors and from senior management. These recommendations are considered along with any recommendations made by stockholders. There have been no material changes to the procedures by which stockholders may nominate director candidates to the Nominating and Corporate Governance Committee since the Company last provided this disclosure.

The Hedging Committee did not hold any formal meetings during the fiscal year ended December 31, 2015.

Audit Committee

Pursuant to its charter, our Audit Committee functions in an oversight role and has the following purposes:

overseeing the quality, integrity and reliability of the financial statements and other financial information we provide to any governmental body or the public;

overseeing our compliance with legal and regulatory requirements;

Table of Contents

overseeing the qualifications, independence and performance of the independent auditor engaged for the purpose of rendering or issuing an audit report or performing other audit, review or attest services for us;

overseeing the effectiveness and performance of our internal audit function;

overseeing our systems of internal controls regarding finance, accounting, legal compliance and ethics that our management and our Board has established;

producing the Audit Committee Report for inclusion in our annual proxy statement; and

performing such other functions our Board may assign to the Audit Committee from time to time.

A copy of our Audit Committee Charter can be viewed on our website at

<http://www.goodrichpetroleum.com/files/9114/1159/7219/AuditCommitteeCharter.pdf>.

In connection with these purposes, the Audit Committee recommends to our Board the independent registered public accounting firm to be engaged to audit our financial statements, annually reviews the independent auditor's independence and quality control procedures, meets with the auditors and our financial management to review with them our significant accounting policies and its internal controls, provides opportunities for the auditors to meet with the Audit Committee and management, discusses matters discussed at Audit Committee meetings with the full Board, investigates any matters brought to its attention within the scope of its duties, reviews and assesses the adequacy of the Audit Committee charter on an annual basis, and has general responsibility in connection with related matters.

Our Board has determined that each member of the Audit Committee is independent under the SEC's rules and regulations. Based on Mr. Perdue's business experience, our Board has determined that he qualifies as an audit committee financial expert under the SEC's rules and regulations. None of the members of the Audit Committee serve on the audit committee of more than two other public companies.

During the fiscal year ended December 31, 2015, the Audit Committee held nine meetings, including quarterly meetings, as well as took action through unanimous written consent throughout the year.

Pursuant to its charter, our Compensation Committee's duties include, among other things, the responsibility to:

Our Board has determined that each member of the Compensation Committee is independent under our Corporate Governance Guidelines.

During the fiscal year ended December 31, 2015, the Compensation Committee held three meetings as well as took action through unanimous written consent throughout the year.

Nominating and Corporate Governance Committee

Pursuant to its charter, the Nominating and Corporate Governance Committee's duties include, among other things, the responsibility to:

Item 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

The following Compensation Discussion and Analysis contains statements regarding future company performance targets and goals. These targets and goals are disclosed in the limited context of our executive compensation program and should not be understood to be statements of management's expectations or estimates of results or other guidance. We specifically caution investors not to apply these statements to other contexts.

Table of Contents

2015 Advisory Vote on Executive Compensation

The Company provides its stockholders with the opportunity to cast an annual advisory vote on executive compensation (the Say-On-Pay Proposal). We obtained majority support for our Say-On-Pay Proposal at the Company's annual meeting of stockholders held in May 2015, as approximately 90% of stockholders voting on the proposal voted for it. As a result of this support, the compensation committee did not revise the executive compensation programs and policies that were in place for 2015.

Summary of 2015 Executive Compensation

The low commodity price environment had a significant impact on the company and the continued decline in our stock price and impact on our financial results had the following direct effects on our executive compensation program:

base salaries were held flat year-over-year;

no payout under the Non-Equity Incentive Plan to our NEOs for 2015; however, a cash bonus was paid upon the successful completion of certain strategic financing objectives during the first quarter (the cash bonus awards are reflected in the Summary Compensation Table under Bonus);

no awards of performance shares were issued to our NEOs;

no annual grants of time-vested restricted stock to our NEOs; and

in September, 2015, the Compensation Committee implemented an employee retention program. See Employee Retention Program for details.

As a result of these events, our CEO's total compensation, excluding the cash bonus and retention plan payments, decreased 32% and our NEO's total compensation decreased 24% year-over-year.

Overview of Our Executive Compensation Program and Compensation Philosophy

Our continued success is contingent on our ability to recruit, develop, motivate and retain top executive talent with the requisite skills and experience to develop, expand and execute our business strategy. Historically, we have provided fair and competitive compensation for our executive officers by structuring our executive compensation program principally around three goals:

- 1) Maintaining compensation at competitive market levels, targeting the median of comparative pay of our Peer Group (defined below) for similar positions;

- 2) Rewarding executive officers for executing performance goals designed to generate returns for our stockholders. As a result, we historically tied selected elements of our executive compensation program to company performance goals; and
- 3) Retain and motivate our executives through a combination of grants of pure time-vested phantom stock and performance awards of phantom stock, each of which vest over three years, commencing on the first anniversary after the grant date. Our CEO and our President are each significant stockholders, and the award of phantom stock grants directly align their interests with those of our stockholders.

While the Compensation Committee has engaged compensation consultants in the past to provide a market analysis of the compensation payable to our NEOs, given the Company's implementation of significant cost saving reductions to the Company's compensation programs in 2015 no compensation consultant was engaged or market analysis sought. Throughout this filing, the individuals who served as our CEO and our Interim Chief Financial Officer during the fiscal year ended December 31, 2015, as well as the other individuals included in the Summary Compensation Table are referred to as Named Executive Officers or NEOs.

Table of Contents***Elements of Executive Compensation***

The elements of overall compensation for executive management have always included (1) base salary levels that are generally near the median of the Peer Group, (2) an annual bonus plan with payouts (if any) based on achievement of objectives approved by the Board and (3) a combination of long-term equity based incentives in the form of pure time-vested phantom stock grants and performance awards of phantom stock. The Compensation Committee historically targeted overall compensation to reflect the approximate median for similar positions as determined through comparison to peer group proxies and independent compensation surveys.

Base Salaries. The Company has historically provided its executive officers with assured cash compensation in the form of a base salary that is generally near the median for similar positions as determined through comparison to peer group proxies and independent compensation surveys. However, as a result of the continued decline in commodity prices and the impact on our stock price and financial results, the Compensation Committee held salaries flat year-over-year for the second year in a row. The base salaries paid to top executive officers during 2015 are shown in the Summary Compensation Table under the Salary column. The Compensation Committee expects to continue to review executive base salaries annually and to approve changes as appropriate.

Named Executive Officers	Position	Salaries as of January 1,		
		2014 (\$)	2015 (\$)	2016 (\$)
Walter G. Goodrich	Vice Chairman and CEO	515,000	515,000	515,000
Robert C. Turnham, Jr.	President and COO	486,000	486,000	486,000
Mark E. Ferchau	Executive Vice President	380,000	380,000	380,000
Jan L. Schott (1)	Sr. Vice President and CFO	325,000	325,000	
Joseph T. Leary (2)	Interim CFO Sr. Vice President, General		250,000	250,000
Michael J. Killelea	Counsel & Corporate Secretary	307,000	307,000	307,000

(1) Ms. Schott resigned from the Company in September 2015.

(2) Mr. Leary joined the Company as interim Chief Financial Officer in October 2015.

Effective March 1, 2016, salaries for executive officers were reduced by 20% as follows: Mr. Goodrich - \$412,000, Mr. Turnham - \$388,800, Mr. Ferchau - \$304,000, and Mr. Killelea - \$245,600.

Incentive Bonus. Incentive bonuses, considered for payment annually as cash compensation, ensure that the executive officers focus on the achievement of near-term goals that are approved by the Board. Bonuses may be earned if the Company achieves its objectives in key performance metrics and executes on strategic achievements. Bonus targets as a percentage of base salary have historically been set near the median for similar positions. Those targets are 150% for the CEO and President, 100% for the Executive Vice President and 80% for the Senior Vice President and General Counsel. The Interim CFO did not participate in the incentive bonus program. No incentive bonuses were awarded in 2015.

Long-Term Equity-Based Incentives. The specific objectives of our long-term equity-based compensation plan are to attract, motivate, and retain the services of key employees and enhance a sense of ownership, as well as to encourage those persons to assist in our development, growth and financial success. To align the compensation of our executive officers with the attainment of our business goals and an increase in stockholder value, we historically

awarded grants of phantom stock, which are subject to time-based vesting requirements, as part of our total compensation package. These grants would be made pursuant to our 2006 Long-Term Incentive Plan, as amended. Existing ownership levels are not a factor in award determination, as we do not want to discourage executives from holding significant amounts of our common stock.

We believe that providing grants of phantom stock focuses the named executives on delivering long-term value to our stockholders, while providing value to the executives in the form of equity awards. A grant of phantom stock offers executives the opportunity to receive shares of our common stock on the date the forfeiture restriction lapses. In this regard, phantom stock serves both to reward and retain executives, as the value of the phantom stock is linked to the price of our common stock on the date the forfeiture restrictions lapses. Our phantom stock awards vest in three equal annual installments beginning one year after the grant date. We believe that these vesting schedules aid us in retaining executives and motivating longer-term performance. Annual long-term equity-based incentives were not awarded in 2015, however, as described below under the Employee Retention Plan, our NEOs did receive restricted phantom stock retention awards.

Employee Retention Program

Due to our substantial indebtedness, liquidity issues and the potential for restructuring transactions there was and is still, risk that, among other things, it may become more difficult to retain or replace key employees. Therefore, in September 2015, we implemented an employee retention program in an effort to retain our top executive talent while focusing on restructuring the Company's balance sheet.

Table of Contents

The Compensation Committee utilized the incentive bonus targets to determine cash retention payouts. Each NEO would receive an initial pro rata quarterly cash payment equal to 25% of their maximum potential bonus payout at a score of 100%, with such amount increasing to 125% or their maximum potential bonus payout if certain defined goals were met, with additional payments beginning at the end of the quarter in which the achievements had been reached. The proposed objectives were (i) the closing of the \$118 million sale of the Company's Eagle Ford properties and the use of the proceeds to pay off the balance of outstanding on the senior revolving credit facility, (ii) a minimum debt reduction of \$125 million of unsecured notes accomplished through an exchange transaction relating to the Company's 5% convertible notes and/or the Company's 8.875% senior notes, and (iii) maintaining a minimum liquidity of \$50 million or greater. The initial retention payments would be made, pro rata, for the month of September 2015, and then quarterly through September 2016. In addition, as a further retention incentive for the NEOs, an equity grant of restricted stock in an amount equal to 75% of such NEO's base salary would be granted. The 2015 cash retention payments are reflected in the Summary Compensation Table under "Bonus". The equity grants are reflected in the Grants of Plan-Based Awards table.

In addition to the cash component, the Compensation Committee awarded each NEO equity grants in the form of restricted phantom stock to vest over the next three years with a grant date value of 75% of their annual salary.

As Interim Chief Financial Officer, Mr. Leary did not participate in the employee retention program.

Severance Benefits

We have severance agreements with Messrs. Goodrich, Turnham, and Ferchau. Mr. Killelea is covered by the Goodrich Petroleum Officer Severance Plan. We believe that the severance payments and other benefits provided under these agreements and the severance plan are appropriate, accounting for the time that is expected to take a separated officer to find another job following a termination that may have been outside of his control. Under the agreements and this plan, each officer is eligible for severance payments and other benefits if the officer's employment is terminated without cause or such officer resigns due to a "change in duties" (as defined in the applicable plan or agreement) following the occurrence of a change of control (each a "Triggering Event") as described below and under "Potential Payments Upon Termination or Change in Control" of this Amendment.

Without Cause. Payments and other benefits are provided under the separation agreements and the plan if the officer is terminated without cause. The payments and other benefits provided upon this Triggering Event are intended to ease the consequences to the separated officer of an unexpected termination that under different circumstances would not have occurred and which is beyond the control of the officer.

Change in Duties following Change of Control. Recognizing the importance of avoiding the distraction and loss of key management personnel that may occur in connection with rumored or actual fundamental corporate changes, we provide payments and other benefits under the separation agreements if an officer is terminated resigns due to a "change in duties" following a change of control. We believe that use of this Triggering Event protects stockholder interests by enhancing employee focus during rumored or actual change of control activity through (1) providing incentives to our officers to remain employed by us despite uncertainties while a transaction is under consideration or pending and (2) assuring severance and benefits for involuntarily or constructively terminated officers.

Other Benefits

In addition to base pay, annual cash incentive, long-term equity-based incentives and severance benefits, we provide the following forms of compensation:

401(k) Savings Plan. We have a defined contribution profit sharing 401(k) plan designed to assist our eligible officers and employees in providing for their retirement. We match the contributions of our employees to the plan in cash, up to a maximum of 6% of eligible deferrals. Employees are immediately 100% vested in company contributions. Matching contributions were suspended effective April 1, 2016.

Health and Other Welfare Benefits. Our executive officers are eligible to participate in medical, dental, vision, disability insurance and life insurance to meet their health and welfare needs. These benefits are provided so as to assure that we are able to maintain a competitive position in terms of attracting and retaining officers and other employees. This is a fixed component of compensation and the benefits are provided on a non-discriminatory basis to all employees.

Table of Contents

Perquisites. We do not provide significant perquisites or personal benefits to our executive officers. To the extent perquisites or other personal benefits are provided, they are determined on an individual basis as appropriate in light of competitive standards and the performance of our executive officers.

Other Matters

Stock Ownership Guidelines

The Board adopted stock ownership guidelines for non-employee directors and named executive officers of Goodrich in September 2013. The guidelines, as described below, are intended to further align the financial interests of our non-employee directors and named executive officers with those of our shareholders.

Officer Stock Ownership Guidelines. The officer stock ownership guidelines provides that our CEO, President and other named executive officers, as set forth in the guidelines or as may otherwise be determined by the Compensation Committee, are expected to hold an amount of stock equal in value to a multiple of three to six times their base salary, depending on their position and responsibilities. Of our named executive officers, our CEO is expected to hold stock equal in value to six times his base salary, our President is expected to hold stock equal in value to five times his base salary, and the other named executive officers are expected to hold an amount of stock equal in value to three times their respective base salaries. Officers to whom the guidelines become applicable in the future are expected to achieve the prescribed holdings within three years of the date on which the guidelines become applicable to them.

Policy on Recovery of Compensation and Clawbacks

In December 2014, the Board adopted a clawback policy under which the Board, or a committee of the Board, has the right to cause the reimbursement by an executive officer of the Company of certain incentive compensation if the compensation was predicated upon the achievement of certain financial results that were subsequently the subject of a required restatement of the Company's financial statements and the executive officer engaged in fraudulent or intentional illegal conduct that cause the need for the restatement.

Tax Treatment of Executive Compensation

Compensation payable to our CEO and our three other most highly compensated employees other than our chief financial officer is subject to the limitations of Section 162(m) of the Internal Revenue Code, which limits our ability to deduct compensation in excess of \$1,000,000. While the deductibility of compensation is important to us and actions will, when deemed appropriate, be taken to ensure the deductibility of compensation, the Committee has also determined that flexibility in determining the appropriate amount of compensation is required, notwithstanding the statutory and regulatory provisions, in negotiating and implementing incentive compensation programs. Accordingly, the Compensation Committee retains the discretion to award compensation that exceeds Section 162(m)'s deductibility limit.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Our Compensation Committee is comprised of Messrs. Washington, Austin and Seeligson. During the fiscal year ended December 31, 2015, no member of the Compensation Committee (1) was an officer or employee, (2) was formerly an officer or (3) had any relationship requiring disclosure under the rules and regulations of the SEC.

Compensation Committee of our Board; (2) a director of another entity, one of whose executive officers served on the Compensation Committee of our Board; or (3) a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on our Board.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

The following is a discussion of material factors necessary to an understanding of the information disclosed in the Summary Compensation Table and the Grants of Plan-Based Awards Table.

2006 Long-Term Incentive Plan.

Phantom Stock. The phantom stock awards generally vest in one-third increments on each anniversary of the grant date, and will vest earlier upon the grantee's termination of employment due to his death or disability. In addition, the phantom stock will vest on a change in control of the Company (see the Potential Payments Upon Termination or Change in Control section below for definitions). Payment of vested phantom stock may be made in cash, shares of our common stock or any combination thereof, as determined by the Committee in its discretion. Any payment to be made in cash will be based on the fair market value of a share of common stock on the payment date.

Non-Equity Incentive Plan Compensation.

As a result of the significant adverse impact on the Company during the continued low commodity price environment, the Compensation Committee did not authorize payouts under the Non-Equity Incentive Plan for 2015. As Interim Chief Financial Officer, Mr. Leary did not participate in the Company's Non-Equity Incentive Plan.

For a description of the plan, please see Compensation Discussion and Analysis Annual Cash Incentive Awards.

Salary in Proportion to Total Compensation. The percentage of each NEO's total compensation that was paid and awarded for 2015 in the form of base salary was approximately 38% for each of Messrs. Goodrich and Turnham; 43% for Mr. Ferchau; 78% for Ms. Schott and 44% Mr. Killelea.

Potential Payments Upon Termination or Change in Control

The discussion below discloses the amount of compensation and/or other benefits potentially due to Messrs. Goodrich, Turnham, Ferchau and Killelea, in the event of a change in control, or a termination of their employment, including, but not limited to, in connection with a change in control of the Company. The amounts shown assume that such termination was effective as of December 31, 2015, and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their respective termination or upon a change in control. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company or upon the change in control of the Company. We believe that change in control protection allows management to focus their attention and energy on the business transaction at hand without any distractions regarding the effects of a change-of-control. Likewise, post-termination payments allow management to focus their attention and energy on making the best objective business decisions that are in the interest of the company without allowing personal considerations to cloud the decision-making process.

Table of Contents

Severance Agreement

Each of Messrs. Goodrich, Turnham, and Ferchau has entered into a severance agreement with the Company providing for a cash lump sum payment to each of them in the event of their termination of employment without cause or due to a change in duties, during the eighteen (18) month period immediately following a change in control, or the executive is terminated without cause by the Company at any time (each term as defined below). The amount to which each is entitled is equal to two (2) times his then current annual rate of total compensation, to be paid within a ninety (90) day period following the applicable termination of employment, or in the event the executive is a specified employee as defined in Section 409A of the Code at the time of termination, on the first business day following the six (6) month period immediately following the executive's termination of employment. The severance agreement also provides for continued health and life insurance coverage under the Company plans (or the equivalent thereof) for each of them through the second anniversary of their respective termination of employment date, but only to the extent that the continuation of benefits is exempt from Section 409A of the Code. In the event that payments pursuant to the severance agreements create excise taxes for the executive pursuant to Section 4999 of the Code, we will provide the executive with an additional payment solely to compensate them for the additional excise tax payment; the additional payment is not intended to apply to the income, excise or other taxes that such an additional payment may create for the executive.

The severance agreements define cause as (1) a material failure to perform expected duties, (2) the commission of fraud, embezzlement, or misappropriation against us, (3) a material breach by the executive of his fiduciary duty, or (4) a conviction of a felony offense or a crime involving moral turpitude.

The executive's current annual rate of total compensation is comprised of the executive's annual base salary, the annual cash bonus last awarded to the executive prior to the change of control, and the value of the equity-based compensation awards granted to the executive during the twelve (12) months immediately prior to the change of control. All equity awards to be included in this calculation will be valued as of the date of grant.

A change of control of the Company will be deemed to have occurred upon the occurrence of the following events: (1) a sale or other transfer of all or substantially all of our assets, (2) our liquidation or dissolution, (3) a person or group becomes the beneficial owner of fifty percent (50%) or more of our voting power, or (4) a merger or consolidation, unless for at least six (6) months after the transaction, we own at least fifty percent (50%) of the total voting power of all the voting securities.

The executives may voluntarily resign upon a change in duties upon (1) a reduction in the executive's duties or responsibilities, (2) a reduction in the executive's current annual rate of total compensation or (3) a change in location of the executive's principal place of business of more than fifty (50) miles.

Officer Severance Plans

Mr. Killelea is covered under the Goodrich Petroleum Officer Severance Plan, which provides for a cash lump sum payment to each of them in the event of their termination of employment without cause or due to a change in duties, during the eighteen (18) month period immediately following a change in control, each term as defined below. Prior to any payments under the Officer Severance Plan becoming payable, however, the executive will be required to file a general release in the Company's favor. The amount to which each is entitled is equal to two (2) times the sum of his annual base salary (defined below), bonus amount (defined below) and Equity Award Value, to be paid no later than the ten (10) day period following the executive's release becoming irrevocable, or in the event the executive is a specified employee as defined in Section 409A of the Code at the time of termination, on the first business day following the six (6) month period immediately following the executive's termination of employment. The severance

plan also provides for continued health coverage under the Company plans (or the equivalent thereof) for each of them for up to 18 months from their respective termination of employment date, but only to the extent that the continuation of benefits is exempt from Section 409A of the Code. In the event that payments pursuant to the severance plan create excise taxes for the executive pursuant to Section 4999 of the Code, we will provide the executive with an additional payment solely to compensate them for the additional excise tax payment; the additional payment is not intended to apply to the income, excise or other taxes that such an additional payment may create for the executive.

Table of Contents

If Mr. Killelea incurs an involuntary termination other than following a change in control, then such executive is entitled to receive 100% of the sum of his annual base salary and bonus amount as well as up to twelve months of continued health benefits.

A change in duties and a change in control under the severance plan are defined similarly to a change in duties and a change in control under our individual severance agreements.

The severance plan defines cause as (1) a material failure to perform expected duties, (2) a conviction of a felony offense or a crime involving moral turpitude, or (3) gross negligence or willful misconduct in the performance of duties.

The executive's annual base salary shall mean the highest rate of base salary in effect during the six-month period ending immediately prior to the change in control or involuntary termination and the executive's target bonus amount shall mean an amount equal to the product of (i) the Executive's annual base salary and (ii) the executive's target bonus percentage for the fiscal year of the Employer immediately preceding the year of termination.

An involuntary termination shall mean any termination of the executive's employment with the Company that results from either (i) termination (whether before, on or following a change of control) by the Company other than for cause; or (ii) upon a change in duties by the executive on or within 18 months following a change of control.

Equity-Based Compensation Plans

The Company maintains the Goodrich Petroleum Corporation 2006 Long-Term Incentive Plan (2006 Plan), under which each of Messrs. Goodrich, Turnham, Ferchau, and Mr. Killelea have received grants of stock options and/or phantom stock. The terms of the 2006 Plan and related award agreements provide for options to become fully vested and exercisable upon a change of control (as defined below) of the Company or upon the grantee's termination of employment due to death or disability. Phantom stock granted under the 2006 Plan become fully vested upon a change of control of the Company, or upon a grantee's termination of employment with the Company due to death or disability. A change of control of the Company is defined for purposes of the 2006 Plan as a change of control event as defined in the regulations and guidance issued under Section 409A of the Code. Our Committee has the authority to provide for alternative acceleration or exercise treatment for the awards granted pursuant to the 2006 Plan at its discretion, but for purposes of the table below, we have assumed that the executives would receive the treatment of their equity awards as currently noted in the 2006 Plan and their award agreements.

A summary of the possible cash severance payments and continuation of health and life insurance coverage, as well as the accelerated vesting or settlement of the options and phantom stock, are detailed below for each of the named executive officers. The value of all equity awards is based upon the closing price of our stock on December 31, 2015, or \$0.27. None of our NEOs held unvested stock options at the end of 2015; therefore, there is no value associated with accelerated vesting of stock options in the table below.

Risk Assessment Related to our Compensation Structure

We believe our compensation plans for all employees, including the Named Executive Officers, are appropriately structured and are not reasonably likely to have a material adverse effect on the Company. We believe our approach to goal setting, setting of targets with payouts at multiple levels of performance, and evaluation of performance results assist in mitigating excessive risk-taking that could harm our value or reward poor judgment by our executives. Several features of our programs reflect sound risk management practices. We set performance goals that we believe are reasonable in light of past performance and market conditions. We also believe we have allocated our compensation among base salary and short and long-term compensation target opportunities in such a way as to not encourage excessive risk-taking. Further, with respect to our incentive compensation programs, the metrics that determine payouts for our employees are company-wide metrics only. This is based on our belief that applying Company-wide metrics encourages decision-making that is in the best long-term interests of the Company and our stockholders as a whole. We use phantom stock rather than stock options for equity awards because phantom stock retains value even in a depressed market so that employees are less likely to take unreasonable risks to get, or keep, options in-the-money. Finally, the time-based vesting over three years for our long-term incentive awards, even after achievement of any performance criteria, ensures that our employees' interests align with those of our stockholders for

the long-term performance of the Company.

Non-Employee Director Stock Ownership Guidelines

In September 2013, the Board approved stock ownership guidelines for the Company's non-employee directors based upon the belief that stock ownership guidelines further align the interests of the Company's non-employee directors with those of the Company's stockholders. These guidelines provide that each non-employee director is generally expected to accumulate and hold a number of shares of the Company's common stock at least equivalent to the value of three times the annual cash retainer received by the director for his or her service as a director. The non-employee directors are required to accumulate within either three years after the later of (1) the date each non-employee director joins the Board, or (2) the date the guidelines were approved and made effective, whichever date last occurs.

Policies and Procedures

Historically, our Board has reviewed and approved, as appropriate, related person transactions as they have been put before the Board at the recommendation of management. In March 2007, the Board adopted a formal written policy for approving related person transactions, which was slightly modified as described below, in May 2011.

Introduction

The Board of Directors recognizes that related person transactions present a heightened risk of conflicts of interest and/or improper valuation (or the perception thereof) and therefore has adopted a policy that requires the following in connection with all related person transactions involving the Company.

Any Related Person Transaction shall be consummated or shall continue only if:

1. the Audit Committee shall approve or ratify such transaction in accordance with the guidelines set forth in the policy and if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party;
2. the transaction is approved by the disinterested members of the Board of Directors; or
3. the transaction involves compensation approved by the Compensation Committee.

For these purposes, a Related Person is:

1. a senior officer (which shall include at a minimum each executive vice president and Section 16 officer) or director;
2. a shareholder owning in excess of five percent of the Company (or its controlled affiliates);
3. a person who is an immediate family member of a senior officer or director; or
4. an entity which is owned or controlled by someone listed in 1, 2 or 3 above, or an entity in which someone listed in 1, 2 or 3 above has a substantial ownership interest or control of such entity.

For these purposes, a Related Person Transaction is a transaction between us and any Related Person (including any transactions requiring disclosure under Item 404 of Regulation S-K), other than:

1. transactions available to all employees generally; or

2. transactions involving less than \$5,000 when aggregated with all similar transactions.

Audit Committee Approval

The Board of Directors has determined that the Audit Committee of the Board is best suited to review and approve Related Person Transactions. Management shall present any proposed Related Person Transactions to the Committee for review prior to consummation of the transaction. After review, the Audit Committee shall approve or disapprove such transactions and at each subsequently scheduled meeting, management shall update the Audit Committee as to any material change to those proposed transactions.

Corporate Opportunity

The Board recognizes that situations exist where a significant opportunity may be presented to management or a member of the Board of Directors that may equally be available to us, either directly or via referral. An example is a potential property acquisition which could become available to us. Before such opportunity may be consummated by a Related Person (other than an otherwise unaffiliated 5% shareholder), such opportunity shall be presented to the Board of Directors for consideration. The intent is for members of management, directors, or employees who become aware of opportunities (such as potential acquisitions) in an area in which we are currently active to present those opportunities to us before the individual is free to pursue it in his personal capacity. For example, through his/her contacts Director X becomes aware of a land acquisition in the Haynesville Shale, and knows this is something that we might also be interested in buying. Thus, before he/she can buy the land or lease the property, he/she must put it before the Board and we must pass on the opportunity before Director X may take action.

Table of Contents***Disclosure***

All Related Person Transactions are to be disclosed in the Company's applicable filings as required by the Securities Act of 1933 and the Securities Exchange Act of 1934 and related rules. Furthermore, all Related Person Transactions shall be disclosed to the Audit Committee of the Board and any material Related Person Transaction shall be disclosed to the full Board of Directors.

Other Agreements

Management shall assure that all Related Person Transactions are approved in accordance with any requirements of the Company's financing agreements.

Director Independence

In determining director independence, the Nominating and Corporate Governance Committee reviews the relationships between the Company and each director and reports the results of its review to the Board. The Board uses this information to aid it in making its determination of independence. The Board has determined that to be considered independent, an outside director may not have a direct or indirect material relationship with the Company. A material relationship is one which impairs or inhibits or has the potential to impair or inhibit a director's exercise of critical and disinterested judgment on behalf of the Company and its stockholders. In determining whether a material relationship exists, the Board considers, for example, any transactions between the Company and an entity with which a director is affiliated (as an executive officer, partner or substantial stockholder) and whether a director is a current or former employee or consultant of the Company. The Board consults with the Company's legal counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of independent director, including but not limited to those set forth in SEC rules as in effect from time to time.

Consistent with these considerations, the Board has reviewed all the relationships between the Company and the members of the Board and affirmatively has determined that all directors are independent directors except Mr. Walter G. Goodrich and Mr. Robert C. Turnham, Jr., who are employees of the Company.

The chart below describes the basis for the Board's determination that the director is independent. Although service as a director of another company alone is not a material relationship that would impair a director's independence, those relationships have been reviewed and are set forth below.
