Notes to Interim Condensed Consolidated Financial Statements

June 30, 2016

(In US dollars, tabular amounts in thousands, except as otherwise noted)

(Unaudited)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the *Parent Company*), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Québec, Canada and in Sarasota, Florida, U.S.A. The address of the *Parent Company*'s registered office is 800 Place Victoria, Suite 3700, Montreal, Québec H4Z 1E9, c/o Fasken Martineau DuMoulin LLP. The *Parent Company*'s common shares are listed on the Toronto Stock Exchange (*TSX*) in Canada.

The *Parent Company* and its subsidiaries (together referred to as the *Company*) develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, polyethylene and specialized polyolefin films, woven coated fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the *Company*'s ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (*Financial Statements*) present the *Company*'s consolidated balance sheets as of June 30, 2016 and December 31, 2015, as well as its consolidated earnings, comprehensive income, changes in shareholders' equity and cash flows for the three and six months ended June 30, 2016 and 2015.

These *Financial Statements* have been prepared in accordance with International Accounting Standard (*IAS*) 34 *Interim Financial Reporting* and are expressed in United States (*US*) dollars. Accordingly, certain information and footnote disclosures normally included in annual audited consolidated financial statements prepared in accordance with International Financial Reporting Standards (*IFRS*), as issued by the International Accounting Standards Board (*IASB*), have been omitted or condensed. These *Financial Statements* use the same accounting policies and methods of computation as compared with the *Company*'s most recent annual audited consolidated financial statements, except for (i) the estimate of the provision for income taxes, which is determined in these *Financial Statements* using the estimated weighted average annual effective income tax rate applied to the earnings before income tax expense (benefit) of the interim period, which may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes and (ii) the re-measurement of the defined benefit liability, which is required at year-end and if triggered by plan amendment or settlement during interim periods.

These *Financial Statements* reflect all adjustments which are, in the opinion of management, necessary to present a fair statement of the results for these interim periods. These adjustments are of a normal recurring nature.

These Financial Statements were authorized for issuance by the Company's Board of Directors on August 10, 2016.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of these Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Significant changes in the underlying assumptions could result in significant changes to these estimates. Consequently, management reviews these estimates on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The judgments, estimates and assumptions applied in these Financial Statements were the same as those applied in the Company's most recent annual audited consolidated financial statements other than (as noted above) the accounting policies and methods of computation for the estimate of the provision for income taxes and the re-measurement of the defined benefit liability.

New Standards and Interpretations Issued but Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Company. Management anticipates that all of the relevant pronouncements will be adopted in the first reporting period following the date of application. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's consolidated financial statements, are detailed as follows:

IFRS 15 Revenue from Contracts with Customers replaces IAS 18 Revenue, IAS 11 Construction Contracts and some revenue related interpretations. IFRS 15 establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized at a point in time or over time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2018. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

IFRS 9 (2014) Financial Instruments was issued in July 2014 and differs in some regards from IFRS 9 (2013) which the Company adopted effective January 1, 2015. IFRS 9 (2014) includes updated guidance on the classification and measurement of financial assets. The final standard also amends the impairment model by introducing a new expected credit loss model for calculating impairment. The mandatory effective date of IFRS 9 (2014) is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exemptions. Early adoption is permitted. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

IFRS 16 Leases which will replace IAS 17 Leases was issued in January 2016. IFRS 16 eliminates the classification as an operating lease and requires lessees to recognize a right-of-use asset and a lease liability in the statement of financial position for all leases with exemptions permitted for short-term leases and leases of low value assets. In addition, IFRS 16 changes the definition of a lease; sets requirements on how to account for the asset and liability, including complexities such as non-lease elements, variable lease payments and options periods; changes the accounting for sale and leaseback arrangements; largely retains IAS 17's approach to lessor accounting and introduces new disclosure requirements. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019 with early application permitted in certain circumstances. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's consolidated financial statements.

Performance Share Unit Plan

On May 9, 2016, the Board of Directors approved an amendment to the PSU Plan to provide the Company the option of settling PSUs in cash. In the event of cash settlement, the cash payment will equal the number of shares that would otherwise have been issued or delivered to the participant, multiplied by the volume weighted average trading price (VWAP) of the shares on the TSX for the five consecutive trading days immediately preceding the day of payment. The Board has full discretion to determine the form of settlement of the PSUs and as of June 30, 2016, no such discretion has been used. As a result, the Company has no present obligation to settle the PSUs in cash and the amendment to the PSU Plan had no impact on the treatment of the PSUs as equity-settled share-based payment transactions as of June 30, 2016.

Additionally, on the same date, the Board of Directors approved an amendment to the PSU Plan that allowed for accelerated vesting of PSUs in the event of death, disability or retirement. This amendment required the immediate recognition of expense associated with awards outstanding for certain retirement-eligible participants, the impact of which was \$0.4 million for the three and six months ended June 30, 2016 and was included in earnings in selling, general and administrative expense.

The following tables summarize information related to PSUs:

	Three months ended		Six months ended	
	June 30,	2015	June 30,	2015
	2016		2016	
PSUs granted		126,460	392,572	363,600
Weighted average fair value per PSU granted		\$ 15.15	\$ 13.52	\$ 13.64
PSUs cancelled	3,008		3,008	

June 30, 2016

PSUs outstanding	887,604
Weighted average fair value per PSU outstanding	\$ 13.22

The PSUs granted in 2016 and 2015 are earned over a three-year period with vesting at the third anniversary of the grant date. The number of shares earned can range from 0% to 150% of the grant amount based on entity performance criteria, specifically the total shareholder return (TSR) ranking versus a specified peer group of companies. Based on the Company's TSR ranking as of June 30, 2016, the number of shares earned if all of the outstanding awards were to be settled at June 30, 2016, would be equivalent to 150% of awards granted.

The weighted average fair value of PSUs granted was estimated based on a Monte Carlo simulation model, taking into account the following weighted average assumptions:

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Expected life	3 years	3 years	3 years	3 years
Expected volatility ⁽¹⁾	36%	35%	36%	35%
Risk-free interest rate	1.05%	1.07%	1.05%	1.07%
Expected dividends ⁽²⁾	0.00%	0.00%	0.00%	0.00%
Performance period starting price ⁽³⁾	CDN\$ 18.49	CDN\$ 17.86	CDN\$ 18.49	CDN\$ 17.86
Stock price at grant date	CDN\$ 18.44	CDN\$ 17.53	CDN\$ 18.44	CDN\$ 17.53

- (1) Expected volatility was calculated based on the daily dividend adjusted closing price change on the TSX for a term commensurate with the expected life of the grant.
- (2) A participant will receive a cash payment from the Company upon PSU settlement that is equivalent to the number of shares issued or delivered to the participant or, in the event of cash settlement, an amount equal to the number of shares that would otherwise have been issued or delivered to the participant, multiplied by the amount of cash dividends per share declared by the Company between the date of grant and the third anniversary of the grant date. As such, there is no impact from expected future dividends in the Monte Carlo simulation model. As of June 30, 2016, the Company accrued \$0.3 million (\$0.1 million as of December 31, 2015) in the consolidated balance sheets in other liabilities.
- (3) The performance period starting price is measured as the five-day VWAP for the common shares of the Company on the TSX on the grant date.

7 - FINANCIAL INSTRUMENTS

The terms of the interest swap agreements designated as cash flow hedges are as follows:

Effective Date	Maturity	Notional amount	Settlement	Fixed interest rate paid
March 18, 2015	November 18, 2019	\$40,000,000	Monthly	1.610%
August 18, 2015	August 20, 2018	\$60,000,000	Monthly	1.197%

The change in fair value of the derivatives used for calculating hedge effectiveness was \$1.6 million and \$0.3 million as of June 30, 2016 and 2015, respectively.

The carrying amount and fair value was a liability, included in other liabilities in the consolidated balance sheet, amounting to \$2.1 million and \$0.5 million as of June 30, 2016 and December 31, 2015, respectively.

The Company categorizes its interest rate swap as Level 2 within the fair value measurement hierarchy as the fair value is estimated using a valuation technique based on observable market data, including interest rates, as a listed market price is not available.

As at June 30, 2016 and December 31, 2015, the fair value of long-term debt, excluding finance lease liabilities, mainly bearing interest at variable rates, is estimated using observable market interest rates of similar variable rate loans with similar risk and credit standing and approximates its carrying amount.

8 - COMMITMENTS

The following table summarizes information related to commitments to purchase machinery and equipment:

	June 30, 2016	December 31, 2015
Commitments to purchase machinery and equipment	\$ 20,924	\$ 20,877

Effective May 1, 2016, the Company entered into a five-year electricity service contract for one of its manufacturing facilities under which the Company expects to reduce the overall cost of electricity consumed by the facility. In the event of early termination, the Company is required to pay for unrecovered power supply costs incurred by the supplier which are estimated to be approximately \$13 million as of June 30, 2016, and would decline monthly based on actual service billings to date.
