Not FDIC Insured May Lose Value No Bank Guarantee The Markets in Review

Dear Shareholder,

In the 12 months ended January 31, 2018, assets with higher risk and return potential, such as stocks and high-yield bonds, continued to deliver strong performance. The equity market advanced despite geopolitical uncertainty and relatively high valuations, while bond returns were constrained by rising interest rates.

Emerging market stocks posted the strongest performance, as accelerating growth in China, the second largest economy in the world and the most influential of all developing economies, improved the outlook for corporate profits and economic growth across most developing nations. Chinese demand for commodities and other raw materials allayed concerns about the country s banking system, leading to rising equity prices and foreign investment flows.

Rising interest rates worked against high-quality assets with more interest rate sensitivity. Consequently, the 10-year U.S. Treasury a bellwether of the bond market posted a modest negative return, as rising energy prices, higher wages, and steady job growth drove expectations of higher inflation and interest rate increases by the U.S. Federal Reserve (the Fed ).

The market s performance reflected reflationary expectations early in the reporting period, as investors began to sense that a global recovery was afoot. Thereafter, many countries experienced sustained and synchronized growth for the first time since the financial crisis. Growth rates and inflation are still relatively low, but they are finally rising together. Consensus expectations for global economic growth also rose, as long-anticipated fiscal stimulus and capital spending plans indicated that new sources of demand could extend the current economic cycle.

The Fed responded to these positive developments by increasing short-term interest rates three times during the year. In October 2017, the Fed also reduced its \$4.5 trillion balance sheet by \$10 billion, while setting expectations for additional modest reductions and rate hikes in 2018.

By contrast, the European Central Bank ( ECB ) and the Bank of Japan ( BoJ ) continued to expand their balance sheets despite nascent signs of sustained economic growth. Rising global growth and inflation, as well as limited bond supply, put steady pressure on other central banks to follow in the Fed s footsteps. In October 2017, the ECB announced plans to cut its bond purchases in half for 2018, while the BoJ reiterated its commitment to economic stimulus, as the country s inflation rate remained below 2.0%.

Rising consumer confidence and improving business sentiment are driving momentum for the U.S. economy. If the Fed maintains a measured pace of stimulus reduction, to the extent that inflation rises, it s likely to be accompanied by rising real growth and higher wages. That could lead to a favorable combination of moderately higher inflation, steadily rising interest rates, and improving growth in 2018. We continue to believe the primary risks to the economic expansion are trade protectionism, rapidly rising interest rates, and geopolitical tension.

In December 2017, Congress passed a sweeping tax reform bill. The U.S. tax overhaul is likely to accentuate the existing reflationary themes, including faster growth and rising interest rates. Changing the corporate tax rate to a flat 21% will create many winners and losers among high-and-low tax companies, while the windfall from lower taxes could boost business and consumer spending.

In this environment, investors need to think globally, extend their scope across a broad array of asset classes, and be nimble as market conditions change. We encourage you to talk with your financial advisor and visit **blackrock.com** for further insight about investing in today s markets.

Sincerely,

Rob Kapito

Municipal Market Overview For the Reporting Period Ended January 31, 2018

#### **Municipal Market Conditions**

Municipal bonds experienced positive performance during the period alongside a favorable technical backdrop and a flattening yield curve resulting from continued Fed monetary policy normalization and largely muted inflation expectations. Ongoing reassurance from the Fed that rates would be increased gradually and would likely remain low overall resulted in continued demand for fixed income investments. More specifically, investors favored the tax-exempt income, diversification, quality, and value of municipal bonds amid fiscal policy uncertainty, which saw tax reform ultimately lower the top individual tax rate just 2.6% while eliminating deductions and increasing demand for tax shelter. During the 12 months ended January 31, 2018, municipal bond funds experienced net inflows of approximately \$33 billion (based on data from the Investment Company Institute).

For the same 12-month period, total new issuance remained elevated from a historical perspective at \$394 billion (though well below the robust \$455 billion issued in the prior 12-month period). Notably, issuance in December posted the highest monthly total on record at \$56 billion, as issuers rushed deals to market ahead of the expected elimination of the tax-exemption for advanced refunding bonds and possibly private activity bonds (PABs). Ultimately, the final version of the Tax Cuts and Jobs Act left PABs unchanged, though the elimination of advanced refundings will likely suppress supply going forward, providing a powerful technical. A **Closer Look at Yields** 

S&P Municipal Bond Index
Total Returns as of January 31, 2018
6 months: 0.01%
12 months: 3.41%

From January 31, 2017 to January 31, 2018, yields on AAA-rated 30-year municipal bonds decreased by 17 basis points (bps) from 3.08% to 2.91%, while 10-year rates increased by 3 bps from 2.32% to 2.35% and 5-year rates increased by 20 bps from 1.63% to 1.83% (as measured by Thomson Municipal Market Data). The municipal yield curve flattened significantly over the 12-month period with the spread between 2- and 30-year maturities flattening by 64 bps.

During the same time period, on a relative basis, tax-exempt municipal bonds strongly outperformed U.S. Treasuries with the greatest outperformance experienced in the front and intermediate portions of the yield curve. Notably, January saw interest rates move rapidly higher alongside strong global growth and a more hawkish bias from global central banks. The relative positive performance of municipal bonds was driven largely by a supply/demand imbalance within the municipal market as investors sought income and incremental yield in an environment where opportunities became increasingly scarce. The asset class is known for its lower relative volatility and preservation of principal with an emphasis on income as tax rates rise.

### **Financial Conditions of Municipal Issuers**

The majority of municipal credits remain strong, despite well-publicized distress among a few issuers. Four of the five states with the largest amount of debt outstanding California, New York, Texas and Florida have exhibited markedly improved credit fundamentals during the slow national recovery. However, several states with the largest unfunded pension liabilities have seen their bond prices decline noticeably and remain vulnerable to additional price deterioration. On the local level, Chicago s credit quality downgrade is an outlier relative to other cities due to its larger pension liability and inadequate funding remedies. BlackRock maintains the view that municipal bond defaults will remain minimal and in the periphery while the overall market is fundamentally sound. We continue to advocate careful credit research and believe that a thoughtful approach to structure and security selection remains imperative amid uncertainty in a modestly improving economic environment.

The opinions expressed are those of BlackRock as of January 31, 2018, and are subject to change at any time due to changes in market or economic conditions. The comments should not be construed as a recommendation of any individual holdings or market sectors. Investing involves risk including loss of principal. Bond values fluctuate in price so the value of your investment can go down depending on market conditions. Fixed income risks include interest-rate and credit risk. Typically, when interest rates rise, there is a corresponding decline in bond values. Credit risk refers to the possibility that the bond issuer will not be able to make principal and interest payments. There may be less information on the financial condition of municipal issuers than for public corporations. The market for municipal bonds may be less liquid than for taxable bonds. Some investors may be subject to Alternative Minimum Tax ( AMT ). Capital gains distributions, if any, are taxable.

The Standard & Poor s Municipal Bond Index, a broad, market value-weighted index, seeks to measure the performance of the U.S. municipal bond market. All bonds in the index are exempt from U.S. federal income taxes or subject to the AMT. Past performance is no guarantee of future results. Index performance is shown for illustrative purposes only. It is not possible to invest directly in an index.

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the distribution rate on, and net asset value (NAV) of, their common shares (Common Shares). However, there is no guarantee that these objectives can be achieved in all interest rate environments.

In general, the concept of leveraging is based on the premise that the financing cost of leverage, which is based on short-term interest rates, is normally lower than the income earned by a Trust on its longer-term portfolio investments purchased with the proceeds from leverage. To the extent that the total assets of the Trusts (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, the Trusts shareholders benefit from the incremental net income. The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV.

To illustrate these concepts, assume a Trust s Common Shares capitalization is \$100 million and it utilizes leverage for an additional \$30 million, creating a total value of \$130 million available for investment in longer-term income securities. If prevailing short-term interest rates are 3% and longer-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, a Trust s financing costs on the \$30 million of proceeds obtained from leverage are based on the lower short-term interest rates. At the same time, the securities purchased by a Trust with the proceeds from leverage earn income based on longer-term interest rates. In this case, a Trust s financing cost of leverage is significantly lower than the income earned on a Trust s longer-term investments acquired from such leverage proceeds, and therefore the holders of Common Shares (Common Shareholders) are the beneficiaries of the incremental net income.

However, in order to benefit Common Shareholders, the return on assets purchased with leverage proceeds must exceed the ongoing costs associated with the leverage. If interest and other costs of leverage exceed the Trusts return on assets purchased with leverage proceeds, income to shareholders is lower than if the Trusts had not used leverage. Furthermore, the value of the Trusts portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the value of the Trusts obligations under their respective leverage arrangements generally does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trusts NAVs positively or negatively. Changes in the future direction of interest rates are very difficult to predict accurately, and there is no assurance that the Trusts intended leveraging strategy will be successful.

The use of leverage also generally causes greater changes in each Trust s NAV, market price and dividend rates than comparable portfolios without leverage. In a declining market, leverage is likely to cause a greater decline in the NAV and market price of a Trust s Common Shares than if the Trust were not leveraged. In addition, each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause the Trusts to incur losses. The use of leverage may limit a Trust s ability to invest in certain types of securities or use certain types of hedging strategies. Each Trust incurs expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares. Moreover, to the extent the calculation of the Trusts investment advisory fees includes assets purchased with the proceeds of leverage, the investment advisory fees payable to the Trusts investment adviser will be higher than if the Trusts did not use leverage.

To obtain leverage, each Trust has issued Variable Rate Demand Preferred Shares (VRDP Shares), Variable Rate Muni Term Preferred Shares (VMTP Shares), Remarketable Variable Rate Muni Term Preferred Shares (RVMTP Shares) (collectively, Preferred Shares) and/or leveraged its assets through the use of tender option bond trusts (TOB

Trusts ) as described in the Notes to Financial Statements.

Under the Investment Company Act of 1940, as amended (the 1940 Act ), each Trust is permitted to issue debt up to 33 1/3% of its total managed assets or equity securities (e.g., Preferred Shares) up to 50% of its total managed assets. BTT is permitted to use economic leverage (which includes leverage attributable to reverse repurchase agreements) of up to 50% of its total managed assets. A Trust may voluntarily elect to limit its leverage to less than the maximum amount permitted under the 1940 Act. In addition, a Trust may also be subject to certain asset coverage, leverage or portfolio composition requirements imposed by the Preferred Shares governing instruments or by agencies rating the Preferred Shares, which may be more stringent than those imposed by the 1940 Act.

If a Trust segregates or designates on its books and records cash or liquid assets having a value not less than the value of a Trust s obligations under the TOB Trust (including accrued interest), then the TOB Trust is not considered a senior security and is not subject to the foregoing limitations and requirements imposed by the 1940 Act.

Derivative Financial Instruments

The Trusts may invest in various derivative financial instruments. These instruments are used to obtain exposure to a security, commodity, index, market, and/or other assets without owning or taking physical custody of securities, commodities and/or other referenced assets or to manage market, equity, credit, interest rate, foreign currency exchange rate, commodity and/or other risks. Derivative financial instruments may give rise to a form of economic leverage and involve risks, including the imperfect correlation between the value of a derivative financial instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the instrument. The Trusts successful use of a derivative financial instrument depends on the investment adviser s ability to predict pertinent market movements accurately, which cannot be assured. The use of these instruments may result in losses greater than if they had not been used, may limit the amount of appreciation a Trust can realize on an investment and/or may result in lower distributions paid to shareholders. The Trusts investments in these instruments, if any, are discussed in detail in the Notes to Financial Statements.

THE BENEFITS AND RISKS OF LEVERAGING

Trust Summary as of January 31, 2018

### BlackRock California Municipal Income Trust

#### **Trust Overview**

**BlackRock California Municipal Income Trust s (BFZ) (the Trust**) investment objective is to provide current income exempt from regular U.S. federal income and California income taxes. The Trust seeks to achieve its investment objective by investing primarily in municipal obligations exempt from U.S. federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and California income taxes. The Trust invests, under normal market conditions, at least 80% of its assets in municipal obligations that are investment grade quality, or are considered by the Trust s investment adviser to be of comparable quality, at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Trust Information**

| Symbol on New York Stock Exchange ( NYSE )                                    | BFZ           |
|---|---------------|
| Initial Offering Date   | July 27, 2001 |
| Yield on Closing Market Price as of January 31, 2018 (\$13.34) <sup>(a)</sup> | 4.95%         |
| Tax Equivalent Yield <sup>(b)</sup>   | 10.78%        |
| Current Monthly Distribution per Common Share <sup>(c)</sup>                  | \$0.0550      |
| Current Annualized Distribution per Common Share <sup>(c)</sup>               | \$0.6600      |
| Economic Leverage as of January 31, 2018 <sup>(d)</sup>                       | 42%           |

<sup>(a)</sup> Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.

<sup>(b)</sup>Tax equivalent yield assumes the maximum marginal U.S. federal and state tax rate of 54.10%, which includes the 3.8% Medicare tax. Actual tax rates will vary based on income, exemptions and deductions. Lower taxes will result in lower tax equivalent yields.

<sup>(c)</sup>The distribution rate is not constant and is subject to change.

<sup>(d)</sup>Represents VMTP Shares and TOB Trusts as a percentage of total managed assets, which is the total assets of the Trust, including any assets attributable to VMTP Shares and TOB Trusts, minus the sum of accrued liabilities. For a discussion of leveraging techniques utilized by the Trust, please see The Benefits and Risks of Leveraging on page 5.

## Performance

Returns for the six months ended January 31, 2018 were as follows:

| BFZ <sup>(a)(b)</sup>                                 |  |
|---|--|
| Lipper California Municipal Debt Funds <sup>(c)</sup> |  |

 Returns Based On

 Market Price
 NAV

 (7.06)%
 0.01%

 (5.62)
 0.03

- <sup>(a)</sup> All returns reflect reinvestment of dividends and/or distributions at actual reinvestment prices.
- <sup>(b)</sup> The Trust s discount to NAV widened during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the Fed would continue to tighten monetary policy, dampening returns across the fixed-income market.

California underperformed the national indices due to questions about the long-term effects the Federal tax reform bill could have on the supply-and-demand profile of the state s municipal market.

Portfolio income contributed to performance by offsetting the downturn in bond prices. The use of leverage helped boost the Trust s income, but it also amplified the effect of market weakness.

Holdings that the Trust purchased when rates were higher also aided performance due to their generous income and lower sensitivity to the negative effects of rising interest rates.

The Trust s cash reserves, while minimal, helped dampen the effect market volatility as yields rose.

The Trust sought to manage interest rate risk using U.S. Treasury futures. Given that Treasury yields rose, as prices fell, this aspect of the Trust s positioning had a positive effect on returns.

Holdings in more highly-rated investment-grade bonds (those rated AA and AAA) lagged non-investment grade holdings, as fund flows into high yield products led to greater price appreciation for lower-rated issues. This trend was most pronounced in the beginning of the period but less so in January once high yield fund flows turned negative.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>(a)</sup>For financial reporting purposes, credit quality ratings shown above reflect the highest rating assigned by either Standard & Poor s ( S&P ) or Moody s Investors Service ( Moody s ) if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

<sup>(b)</sup>Represents less than 1% of the Trust s total investments.

TRUST SUMMARY

Trust Summary as of January 31, 2018

### BlackRock Florida Municipal 2020 Term Trust

### **Trust Overview**

**BlackRock Florida Municipal 2020 Term Trust s (BFO) (the Trust**) investment objectives are to provide current income exempt from regular U.S. federal income tax and Florida intangible personal property tax and to return \$15.00 per common share (the initial offering price per share) to holders of common shares on or about December 31, 2020. The Trust seeks to achieve its investment objectives by investing at least 80% of its assets in municipal bonds exempt from U.S. federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and Florida intangible personal property tax. The Trust invests at least 80% of its assets in municipal bonds that are investment grade quality, or are considered by the Trust s investment adviser to be of comparable quality, at the time of investment. The Trust actively manages the maturity of its bonds to seek to have a dollar-weighted average effective maturity approximately equal to the Trust s maturity date. The Trust may invest directly in such securities or synthetically through the use of derivatives. Effective January 1, 2007, the Florida intangible personal property tax was repealed.

There is no assurance that the Trust will achieve its investment objective of returning \$15.00 per share.

### **Trust Information**

| Symbol on NYSE  | BFO                |
|---|--------------------|
| Initial Offering Date   | September 30, 2003 |
| Termination Date (on or about)  | December 31, 2020  |
| Yield on Closing Market Price as of January 31, 2018 (\$14.33) <sup>(a)</sup> | 2.18%              |
| Tax Equivalent Yield <sup>(b)</sup>   | 3.68%              |
| Current Monthly Distribution per Common Share <sup>(c)</sup>                  | \$0.0260           |
| Current Annualized Distribution per Common Share <sup>(c)</sup>               | \$0.3120           |
| Economic Leverage as of January 31, 2018 <sup>(d)</sup>                       |                    |

- <sup>(a)</sup> Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.
- <sup>(b)</sup> Tax equivalent yield assumes the maximum marginal U.S. federal tax rate of 40.80%, which includes the 3.8% Medicare tax. Actual tax rates will vary based on income, exemptions and deductions. Lower taxes will result in lower tax equivalent yields.
- <sup>(c)</sup>The distribution rate is not constant and is subject to change.
- <sup>(d)</sup>Percentage is less than 1% which represents TOB Trusts as a percentage of total managed assets, which is the total assets of the Trust, including any assets attributable to TOB Trusts, minus the sum of accrued liabilities. For a discussion of leveraging techniques utilized by the Trust, please see The Benefits and Risks of Leveraging on page 5.

### Performance

Returns for the six months ended January 31, 2018 were as follows:

|   | Market Price | NAV     |
|---|--------------|---------|
| BFO <sup>(a)(b)</sup>                                   | (3.65)%      | (0.56)% |
| Lipper Other States Municipal Debt Funds <sup>(c)</sup> | (4.74)       | (0.22)  |

- (a) All returns reflect reinvestment of dividends and/or distributions at actual reinvestment prices.
- <sup>(b)</sup> The Trust moved to a discount to NAV during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the Fed would continue to tighten monetary policy, dampening returns across the fixed-income market. At the state level, Florida s economy continued to outperform behind strong employment growth in construction, professional services and hospitality.

Since the Trust is scheduled to terminate on or about December 31, 2020, it holds securities that will mature close to that date. Short-term bonds were the weakest segment of the market during the reporting period due to expectations for additional Fed rate increases, so the Trust s short-term bias detracted from performance.

While higher short-term rates were an overall headwind, the trend also allowed the Trust to reinvest the proceeds from bond calls and maturities at higher yields. The municipal market benchmark rate for 2020 moved higher by 60 basis points (0.60%) during the period.

The Trust s positions in cash and pre-refunded bonds, while limited, largely avoided the price declines that occurred in the broader market.

Positions in housing bonds, which are defensive by virtue of their continuously callable structures, added to performance.

From a ratings perspective, positions in high-grade bonds underperformed lower-rated securities due to investors continued demand for yield.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

|----------------------------------|-----|
| 2018                             | 15% |
| 2019                             | 11  |
| 2020                             | 65  |
| 2021                             | 1   |
| 2022                             | 6   |
|                                  |     |

<sup>(d)</sup>Scheduled maturity dates and/or bonds that are subject to potential calls by issuers over the next five years.

\* Excludes short-term securities.

## **CREDIT QUALITY ALLOCATION** (a)

| 01/31/18 | 07/31/17       |
|----------|----------------|
| 1%       | 1%             |
| 54       | 56             |
| 31       | 28             |
|          |                |
| 14       | 15             |
|          | 1%<br>54<br>31 |

<sup>(a)</sup>For financial reporting purposes, credit quality ratings shown above reflect the highest rating assigned by either S&P or Moody s if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

<sup>(b)</sup>Represents less than 1% of the Trust s total investments.

<sup>(c)</sup> The investment adviser evaluates the credit quality of unrated investments based upon certain factors including, but not limited to, credit ratings for similar investments and financial analysis of sectors and individual investments. Using this approach, the investment adviser has deemed certain of these unrated securities as investment grade quality. As of January 31, 2018 and July 31, 2017, the market value of unrated securities deemed by the investment adviser to be investment grade represents 3% and 4%, respectively, of the Trust s total investments.

TRUST SUMMARY

Trust Summary as of January 31, 2018

### BlackRock Municipal 2030 Target Term Trust

#### **Trust Overview**

**BlackRock Municipal 2030 Target Term Trust s (BTT) (the Trust**) investment objectives are to provide current income exempt from regular U.S. federal income tax (but which may be subject to the federal alternative minimum tax in certain circumstances) and to return \$25.00 per common share (the initial offering price per share) to holders of common shares on or about December 31, 2030. The Trust seeks to achieve its investment objectives by investing at least 80% of its assets in municipal bonds exempt from U.S. federal income taxes (except that the interest may be subject to the federal alternative minimum tax). The Trust invests at least 80% of its assets in municipal bonds that are investment grade quality, or are considered by the Trust s investment adviser to be of comparable quality, at the time of investment. The Trust actively manages the maturity of its bonds to seek to have a dollar weighted average effective maturity approximately equal to the Trust s maturity date. The Trust may invest directly in such securities or synthetically through the use of derivatives.

There is no assurance that the Trust will achieve its investment objective of returning \$25.00 per share.

#### **Trust Information**

| Symbol on NYSE  | BTT               |
|---|-------------------|
| Initial Offering Date   | August 30, 2012   |
| Termination Date (on or about)  | December 31, 2030 |
| Current Distribution Rate on Closing Market Price as of January 31, 2018 (\$21.39) <sup>(a)</sup> | 4.03%             |
| Tax Equivalent Rate <sup>(b)</sup>  | 6.81%             |
| Current Monthly Distribution per Common Share <sup>(c)</sup>                                      | \$0.0718          |
| Current Annualized Distribution per Common Share <sup>(c)</sup>                                   | \$0.8616          |
| Economic Leverage as January 31, 2018 <sup>(d)</sup>  | 37%               |

(a) Current Distribution Rate on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. The current distribution rate may consist of income, net realized gains and/or a return of capital. See the financial highlights for the actual sources and character of distributions. Past performance does not guarantee future results.

<sup>(b)</sup>Tax equivalent yield assumes the maximum marginal U.S. federal tax rate of 40.80%, which includes the 3.8% Medicare tax. Actual tax rates will vary based on income, exemptions and deductions. Lower taxes will result in lower tax equivalent yields.

<sup>(c)</sup> The distribution rate is not constant and is subject to change. A portion of the distribution may be deemed a return of capital or net realized gain at fiscal year end.

<sup>(d)</sup>Represents RVMTP Shares and TOB Trusts as a percentage of total managed assets, which is the total assets of the Trust, including any assets attributable to RVMTP Shares and TOB Trusts, minus the sum of accrued

liabilities. For a discussion of leveraging techniques utilized by the Trust, please see The Benefits and Risks of Leveraging on page 5.

## Performance

Returns for the six months ended January 31, 2018 were as follows:

|  | Returns Based On |       |  |
|--|------------------|-------|--|
|  | Market Price     | NAV   |  |
| BTT <sup>(a)(b)</sup>  | (5.77)%          | 1.55% |  |
| Lipper General & Insured Municipal Debt Funds (Leveraged) <sup>(c)</sup> | (6.00)           | 0.50  |  |

- <sup>(a)</sup> All returns reflect reinvestment of dividends and/or distributions at actual reinvestment prices.
- <sup>(b)</sup> The Trust s discount to NAV widened during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the Fed would continue to tighten monetary policy, dampening returns across the fixed-income market.

The Trust s position in New Jersey bonds made a meaningful contribution to performance. The state government passed legislation that redirected roughly \$1 billion annually in lottery proceeds to its pension funds, which helped stabilize its credit rating and contributed to outperformance for the state s debt.

Positions in the tax-backed and health care sectors made positive contributions to absolute performance.

The Trust s investments in lower-rated issues, which outpaced the broader market, also aided results.

The Trust s allocation to zero-coupon bonds, while limited, detracted from performance since their longer duration accentuated the negative price performance in a down market. (Duration is a measure of interest-rate sensitivity.)

Reinvestment had an adverse effect on the Trust s income, as the proceeds of higher-yielding bonds that matured or were called needed to be reinvested at lower prevailing rates.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Using this approach, the investment adviser has deemed certain of these unrated securities as investment grade quality. As of July 31, 2017, the market value of unrated securities deemed by the investment adviser to be investment grade represents less than 1% of the Trust s total investments.

TRUST SUMMARY

11

Trust Summary as of January 31, 2018

### **BlackRock Municipal Income Investment Trust**

#### **Trust Overview**

**BlackRock Municipal Income Investment Trust s (BBF) (the Trust**) investment objective is to provide current income exempt from regular U.S. federal income tax. The Trust seeks to achieve its investment objective by investing at least 80% of its assets in municipal bonds, the interest of which is exempt from U.S. federal income taxes. The Trust invests at least 80% of its assets in municipal bonds that are investment grade quality, or are considered by the Trust sinvestment adviser to be of comparable quality, at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Trust Information**

### Performance

Returns for the six months ended January 31, 2018 were as follows:

|  | Market Price | NAV   |
|--|--------------|-------|
| BBF <sup>(a)(b)</sup>  | (8.66)%      | 0.38% |
| Lipper General & Insured Municipal Debt Funds (Leveraged)(c) | (6.00)       | 0.50  |

- (a) All returns reflect reinvestment of dividends and/or distributions at actual reinvestment prices.
- <sup>(b)</sup> The Trust moved from a premium to NAV to a discount during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the Fed would continue to tighten monetary policy, dampening returns across the fixed-income market.

Positions in longer-dated securities contributed to performance, as yields on longer-maturity bonds rose less than those of short-term issues. (Prices and yields move in opposite directions.) In addition, longer-term debt generated higher income relative to other segments of the yield curve. Conversely, the Trust s allocation to shorter-dated bonds also detracted from returns.

Positions in BBB rated and non-investment grade bonds, which outperformed higher-quality securities, added to performance. Holdings in the tax-backed state and local sectors further aided results, particularly investments in New Jersey and Illinois. However, positions in higher-quality securities underperformed relative to lower-quality issues.

The Trust sought to manage interest rate risk using U.S. Treasury futures. Given that Treasury yields rose, as prices fell, this aspect of the Trust s positioning had a positive effect on returns.

The use of leverage helped performance by augmenting portfolio income, but it exacerbated the impact of declining bond prices.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

| N/R <sup>(b)</sup> | 8        | 6        |

(a) For financial reporting purposes, credit quality ratings shown above reflect the highest rating assigned by either S&P or Moody s if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

(b) The investment adviser evaluates the credit quality of unrated investments based upon certain factors including, but not limited to, credit ratings for similar investments and financial analysis of sectors and individual investments. Using this approach, the investment adviser has deemed certain of these unrated securities as investment grade quality. As of January 31, 2018 and July 31, 2017, the market value of unrated securities deemed by the investment adviser to be investment grade represents 1% and less than 1%, respectively, of the Trust s total investments.

TRUST SUMMARY

Trust Summary as of January 31, 2018

### BlackRock New Jersey Municipal Income Trust

### **Trust Overview**

**BlackRock New Jersey Municipal Income Trust s (BNJ) (the Trust**) investment objective is to provide current income exempt from regular U.S. federal income tax and New Jersey gross income tax. The Trust seeks to achieve its investment objective by investing primarily in municipal bonds exempt from U.S. federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and New Jersey gross income taxes. The Trust invests at least 80% of its assets in municipal bonds that are investment grade quality, or are considered by the Trust s investment adviser to be of comparable quality, at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

On September 6, 2017, the Boards of the Trust, BlackRock New Jersey Municipal Bond Trust (BLJ) and BlackRock MuniYield New Jersey Fund, Inc. (MYJ) approved the reorganizations of the Trust and BLJ with and into MYJ, with MYJ continuing as the surviving fund after the reorganization. The reorganizations are subject to approval by each fund s shareholders and certain other conditions.

No assurance can be given that the Trust s investment objective will be achieved.

### **Trust Information**

| Symbol on NYSE  | BNJ           |
|---|---------------|
| Initial Offering Date   | July 27, 2001 |
| Yield on Closing Market Price as of January 31, 2018 (\$14.35) <sup>(a)</sup> | 5.31%         |
| Tax Equivalent Yield <sup>(b)</sup>   | 10.57%        |
| Current Monthly Distribution per Common Share <sup>(c)</sup>                  | \$0.0635      |
| Current Annualized Distribution per Common Share <sup>(c)</sup>               | \$0.7620      |
| Economic Leverage as of January 31, 2018 <sup>(d)</sup>                       | 41%           |

<sup>(a)</sup> Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.

<sup>(b)</sup>Tax equivalent yield assumes the maximum marginal U.S. federal and state tax rate of 49.77%, which includes the 3.8% Medicare tax. Actual tax rates will vary based on income, exemptions and deductions. Lower taxes will result in lower tax equivalent yields.

<sup>(c)</sup>The distribution rate is not constant and is subject to change.

<sup>(d)</sup> Represents VMTP Shares and TOB Trusts as a percentage of total managed assets, which is the total assets of the Trust, including any assets attributable to VMTP Shares and TOB Trusts, minus the sum of accrued liabilities. For a discussion of leveraging techniques utilized by the Trust, please see The Benefits and Risks of Leveraging on page 5.

### Performance

Returns for the six months ended January 31, 2018 were as follows:

|   | Market Price | NAV   |
|---|--------------|-------|
| BNJ <sup>(a)(b)</sup>                                 | (7.72)%      | 2.04% |
| Lipper New Jersey Municipal Debt Funds <sup>(c)</sup> | (5.19)       | 0.79  |

- (a) All returns reflect reinvestment of dividends and/or distributions at actual reinvestment prices.
- <sup>(b)</sup> The Trust moved from a premium to NAV to a discount during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the Fed would continue to tighten monetary policy, dampening returns across the fixed-income market.

New Jersey bonds outperformed the national market due in part to investors positive perception of legislation that redirected roughly \$1 billion annually in lottery proceeds to the state s pension funds. The yield spreads on New Jersey tax-backed issues compressed significantly, making it the best performing sector held in the Fund during the past six months.

Positions in longer-term securities, which strongly outpaced short-term issues, contributed positively. Conversely, the Trust s holdings in short-term and intermediate bonds which are more sensitive to Fed policy lagged due to expectations for higher rates.

The Trust s investments in lower-rated issues, which outpaced the broader market, also added value.

The Trust sought to manage interest rate risk using U.S. Treasury futures. Given that Treasury yields rose, as prices fell, this aspect of the Fund s positioning had a positive effect on returns.

Reinvestment had an adverse effect on the Trust s income, as the proceeds of higher-yielding bonds that matured or were called needed to be reinvested at lower prevailing rates.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

- <sup>(b)</sup> The Trust moved from a premium to NAV to a discount during the period, which accounts for the difference between performance based on market price and performance based on NAV.
- <sup>(c)</sup> Average return. Returns reflect reinvestment of dividends and/or distributions at NAV on the ex-dividend date as calculated by Lipper.

Performance results may include adjustments made for financial reporting purposes in accordance with U.S. generally accepted accounting principles.

Past performance is not indicative of future results.

## The following discussion relates to the Trust s absolute performance based on NAV:

U.S. municipal bonds produced generally flat returns during the period, with income offsetting a modest decline in prices. Stronger economic growth and concerns about emerging inflation pressures fueled expectations that the U.S. Federal Reserve would continue to tighten monetary policy, dampening returns across the fixed-income market.

New York municipal bonds underperformed the national market. New issuance in the state was relatively robust compared to the nation as a whole, which contributed to the weaker performance. Unfortunately, much of the new issuance was concentrated in several large issuers in which the Fund already had positions, thereby limiting the opportunity set. New York s overall economic trends continued to improve, albeit at a rate slightly below the national level. However, the state continued to enjoy a broad and diverse economic base. One area of potential concern was the capping of deductibility of state and local taxes due to recently enacted Federal tax reform policies, which may reduce New York s ability to raise taxes in the future.

Portfolio income, enhanced by leverage, made the largest positive contribution to performance at a time in which bond prices fell. However, the use of leverage also exacerbated the effect of market weakness.

Exposure to lower-rated issues (those rated A and below) helped results as this market segment outperformed higher-rated bonds.

From a sector perspective, the Trust s allocations to the education and transportation sectors were beneficial.

The Trust sought to manage interest rate risk using U.S. Treasury futures. Given that Treasury yields rose, as prices fell, this aspect of the Trust s positioning had a positive effect on returns.

The Trust s positions in shorter-term bonds proved detrimental as rates increased the most in the two- to five-year portion of the yield curve. This allocation is largely comprised of advance-refunded bonds purchased in a higher-yield environment. Conversely, the Trust s exposure to the long end of the yield curve was beneficial as rates increased less in this area.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.
- (b) The investment adviser evaluates the credit quality of unrated investments based upon certain factors including, but not limited to, credit ratings for similar investments and financial analysis of sectors and individual investments. Using this approach, the investment adviser has deemed certain of these unrated securities as investment grade quality. As of January 31, 2018 and July 31, 2017, the market value of unrated securities deemed by the investment adviser to be investment grade represents 2% and 4%, respectively, of the Trust s total investments.

January 31, 2018

#### Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments and derivative financial instruments categorized in the disclosure hierarchy:

|  | Level 1    | Level 2       | Level 3 | Total         |
|--|------------|---------------|---------|---------------|
| Assets:  |            |               |         |               |
| Investments:   |            |               |         |               |
| Long-Term Investments <sup>(a)</sup>                       | \$         | \$811,561,903 | \$      | \$811,561,903 |
| Short-Term Securities                                      | 417,569    |               |         | 417,569       |
|  | \$417,569  | \$811,561,903 | \$      | \$811,979,472 |
| Derivative Financial Instruments <sup>(b)</sup><br>Assets: |            |               |         |               |
| Interest rate contracts                                    | \$ 880,670 | \$            | \$      | \$ 880,670    |
|  | + 000,070  | Ŧ             | Ŧ       | + 000,000     |

<sup>(a)</sup> See above Schedule of Investments for values in each sector.

<sup>(b)</sup> Derivative financial instruments are futures contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of period end, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|                                  | Level 1 | Level 2          | Level 3 | Total            |
|----------------------------------|---------|------------------|---------|------------------|
| Liabilities:                     |         |                  |         |                  |
| TOB Trust Certificates           | \$      | \$ (170,958,028) | \$      | \$ (170,958,028) |
| VMTP Shares at Liquidation Value |         | (171,300,000)    |         | (171,300,000)    |
|                                  | \$      | \$ (342,258,028) | \$      | \$ (342,258,028) |

During the period ended January 31, 2018, there were no transfers between levels.

<sup>(a)</sup> Includes net capital gain distributions, if applicable.

For Trust compliance purposes, the Trust s sector classifications refer to one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by the investment adviser. These definitions may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

#### Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments categorized in the disclosure hierarchy:

|                                      | Level 1    | Level 2      | Level 3 | Total             |
|--------------------------------------|------------|--------------|---------|-------------------|
| Assets:                              |            |              |         |                   |
| Investments:                         |            |              |         |                   |
| Long-Term Investments <sup>(a)</sup> | \$         | \$81,373,922 | \$      | \$81,373,922      |
| Short-Term Securities                | 149,356    |              |         | 149,356           |
|                                      |            |              | *       | * * * * * * * * * |
|                                      | \$ 149,356 | \$81,373,922 | \$      | \$81,523,278      |

<sup>(a)</sup> See above Schedule of Investments for values in each sector. During the period ended January 31, 2018, there were no transfers between levels.

See notes to financial statements.

<sup>(a)</sup>Zero-coupon bond.

<sup>(b)</sup>Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.

- <sup>(c)</sup>U.S. Government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- <sup>(d)</sup>Variable or floating rate security, which interest rate adjusts periodically based on changes in current interest rates and prepayments on the underlying pool of assets. Rate shown is the rate in effect as of period end.
- <sup>(e)</sup> Step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate as of period end.
- <sup>(f)</sup> Represent bonds transferred to a TOB Trust in exchange of cash and residual certificates received by the Trust. These bonds serve as collateral in a secured borrowing. See Note 4 of the Notes to Financial Statements for details.

- <sup>(g)</sup>All or a portion of security is subject to a recourse agreement. The aggregate maximum potential amount the Trust could ultimately be required to pay under the agreement, which expires between November 1, 2018 to November 15, 2020, is \$128,621,860. See Note 4 of the Notes to Financial Statements for details.
   <sup>(h)</sup>Annualized 7-day yield as of period end.
- <sup>(i)</sup> During the period ended January 31, 2018, investments in issuers considered to be an affiliate of the Trust for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

|                        | Shares     |              | Shares     |              |           | Nat      | Change<br>in<br>Unrealized |

BlackRock Municipal 2030 Target Term Trust (BTT)

January 31, 2018

#### Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments and derivative financial instruments categorized in the disclosure hierarchy:

|                                      | Level 1      | Level 2         | Level 3 | Total           |
|--------------------------------------|--------------|-----------------|---------|-----------------|
| Assets:                              |              |                 |         |                 |
| Investments:                         |              |                 |         |                 |
| Long-Term Investments <sup>(a)</sup> | \$           | \$2,631,642,491 | \$      | \$2,631,642,491 |
| Short-Term Securities                | 26,416,247   |                 |         | 26,416,247      |
|                                      |              |                 |         |                 |
|                                      | \$26,416,247 | \$2,631,642,491 | \$      | \$2,658,058,738 |

<sup>(a)</sup> See above Schedule of Investments for values in each state or political subdivision.

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying for financial statement purposes. As of period end, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|   | Level 1 | Level 2                           | Level 3 | Total                             |
|---|---------|-----------------------------------|---------|-----------------------------------|
| Liabilities:<br>TOB Trust Certificates<br>RVMTP Shares at Liquidation Value | \$      | \$ (251,819,915)<br>(750,000,000) | \$      | \$ (251,819,915)<br>(750,000,000) |
|   | \$      | \$(1,001,819,915)                 | \$      | \$(1,001,819,915)                 |

During the period ended January 31, 2018, there were no transfers between levels.

See notes to financial statements.

- <sup>(a)</sup> Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- <sup>(b)</sup> U.S. Government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- <sup>(c)</sup> Variable or floating rate security, which interest rate adjusts periodically based on changes in current interest rates and prepayments on the underlying pool of assets. Rate shown is the rate in effect as of period end.
- <sup>(d)</sup> Zero-coupon bond.

38

- <sup>(e)</sup> When-issued security.
- <sup>(f)</sup> Represent bonds transferred to a TOB Trust in exchange of cash and residual certificates received by the Trust. These bonds serve as collateral in a secured borrowing. See Note 4 of the Notes to Financial Statements for details.
- (g) All or a portion of security is subject to a recourse agreement. The aggregate maximum potential amount the Trust could ultimately be required to pay under the agreement, which expire between May 7, 2018 to November 15, 2019, is \$11,993,816. See Note 4 of the Notes to Financial Statements for details.
- <sup>(h)</sup> Annualized 7-day yield as of period end.

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

BlackRock Municipal Income Investment Trust (BBF)

January 31, 2018

Schedules of Investments

BlackRock Municipal Income Investment Trust (BBF)

January 31, 2018

#### Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments and derivative financial instruments categorized in the disclosure hierarchy:

|   | Level 1    | Level 2       | Level 3 | Total         |
|---|------------|---------------|---------|---------------|
| Assets:   |            |               |         |               |
| Investments:                                    |            |               |         |               |
| Long-Term Investments <sup>(a)</sup>            | \$         | \$248,618,944 | \$      | \$248,618,944 |
| Short-Term Securities                           | 437,279    |               |         | 437,279       |
|   | \$ 437,279 | \$248,618,944 | \$      | \$249,056,223 |
| Derivative Financial Instruments <sup>(b)</sup> |            |               |         |               |
| Assets:   |            |               |         |               |
| Interest rate contracts                         | \$222,349  | \$            | \$      | \$ 222,349    |

<sup>(a)</sup> See above schedule of investments for values in each state or political subdivision.

<sup>(b)</sup> Derivative financial instruments are futures contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of period end, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|                                  | Level 1 | Level 2         | Level 3 | Total           |
|----------------------------------|---------|-----------------|---------|-----------------|
| Liabilities:                     |         |                 |         |                 |
| TOB Trust Certificates           | \$      | \$ (53,134,805) | \$      | \$ (53,134,805) |
| VRDP Shares at Liquidation Value |         | (52,000,000)    |         | (52,000,000)    |
|                                  |         |                 |         |                 |
|                                  | \$      | \$(105,134,805) | \$      | \$(105,134,805) |

During the period ended January 31, 2018, there were no transfers between levels.

- <sup>(a)</sup> Issuer filed for bankruptcy and/or is in default.
- <sup>(b)</sup> Non-income producing security.
- <sup>(c)</sup> Security is collateralized by municipal bonds or U.S. Treasury obligations.
- <sup>(d)</sup> Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- <sup>(e)</sup> U.S. Government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.

<sup>(f)</sup> Zero-coupon bond.

- <sup>(g)</sup> Represent bonds transferred to a TOB Trust in exchange of cash and residual certificates received by the Trust. These bonds serve as collateral in a secured borrowing. See Note 4 of the Notes to Financial Statements for details.
- (h) All or a portion of security is subject to a recourse agreement. The aggregate maximum potential amount the Trust could ultimately be required to pay under the agreement, which expire between June 15, 2019 to September 1, 2020, is \$7,519,842. See Note 4 of the Notes to Financial Statements for details.
- <sup>(i)</sup> Annualized 7-day yield as of period end.
- <sup>(j)</sup> During the period ended January 31, 2018, investments in issuers considered to be an affiliate of the Trust for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

|                     |           |             |                 |                 |                   |       |         | Ch    | nange  |

<sup>(a)</sup> Includes net capital gain distributions, if applicable.

For Trust compliance purposes, the Trust s sector classifications refer to one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by the investment adviser. These definitions may not apply for purposes of this report, which may combine such sector

sub-classifications for reporting ease.

#### Average Quarterly Balances of Outstanding Derivative Financial Instruments

For more information about the Trust s investment risks regarding derivative financial instruments, refer to the Notes to Financial Statements.

## Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments and derivative financial instruments categorized in the disclosure hierarchy:

|   | Level 1    | Level 2        | Level 3 | Total          |
|---|------------|----------------|---------|----------------|
| Assets:<br>Investments:                         |            |                |         |                |
| Long-Term Investments <sup>(a)</sup>            | \$         | \$ 195,678,047 | \$      | \$195,678,047  |
| Short-Term Securities                           | 197,337    |                |         | 197,337        |
|   | \$ 197,337 | \$ 195,678,047 | \$      | \$ 195,875,384 |
| Derivative Financial Instruments <sup>(b)</sup> |            |                |         |                |
| Assets:   |            |                |         |                |
| Interest rate contracts                         | \$ 303,627 | \$             | \$      | \$ 303,627     |

<sup>(a)</sup> See above Schedule of Investments for values in each sector.

<sup>(b)</sup> Derivative financial instruments are futures contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

#### **Average Quarterly Balances of Outstanding Derivative Financial Instruments**

Futures contracts:

Average notional value of contracts short \$18,295,957 For more information about the Trust s investment risks regarding derivative financial instruments, refer to the Notes to Financial Statements.

#### Fair Value Hierarchy as of Period End

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Trust s policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Trust s investments and derivative financial instruments categorized in the disclosure hierarchy:

|   | Level 1         | Level 2       | Level 3 | Total                      |
|---|-----------------|---------------|---------|----------------------------|
| Assets:<br>Investments:                                       |                 |               |         |                            |
| Long-Term Investments <sup>(a)</sup><br>Short-Term Securities | \$<br>1,310,333 | \$313,965,201 | \$      | \$313,965,201<br>1,310,333 |

|   | . , ,           | . , , ,       | ·       | . , ,                      |

Derivative Financial Instruments<sup>(b)</sup>

| Assets:                 |               |    |          |         |
|-------------------------|---------------|----|----------|---------|
| Interest rate contracts | \$<br>484,671 | \$ | \$<br>\$ | 484,671 |

<sup>(a)</sup> See above Schedule of Investments for values in each sector.

<sup>(b)</sup> Derivative financial instruments are futures contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of period end, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|  | Level 1 | Level 2 Level                      | 3 Total                         |
|--|---------|------------------------------------|---------------------------------|
| Liabilities:<br>TOB Trust Certificates<br>VMTP Shares at Liquidation Value | \$      | \$ (32,047,199) \$<br>(94,500,000) | \$ (32,047,199)<br>(94,500,000) |
|  | \$      | \$ (126,547,199) \$                | \$(126,547,199)                 |

During the period ended January 31, 2018, there were no transfers between levels.

See notes to financial statements.

- <sup>(a)</sup> Commencement of operations.
- <sup>(b)</sup> Net asset value, beginning of period, reflects a deduction of \$1.125 per share sales charge from the initial offering price of \$25.00 per share.
- <sup>(c)</sup> Based on average Common Shares outstanding.
- <sup>(d)</sup> Distributions for annual periods determined in accordance with U.S. federal income tax regulations.
- <sup>(e)</sup> Total returns based on market price, which can be significantly greater or less than the net asset value, may result in substantially different returns. Where applicable, excludes the effects of any sales charges and assumes the reinvestment of distributions at actual reinvestment prices.
- <sup>(f)</sup> Aggregate total return.
- (g) Annualized.
- <sup>(h)</sup> Excludes expenses incurred indirectly as a result of investments in underlying funds as follows:

|                | Six Months Ended | Year Ended |
|----------------|------------------|------------|
|                | 01/31/2018       | 07/31/2017 |
| Expense ratios | 0.01%            | 0.01%      |

(i) Interest expense, fees and amortization of offering costs related to TOB Trusts and/or RVMTP Shares. See Note 4 and Note 10 of the Notes to Financial Statements for details.
See note to financial statements of details.

<sup>(a)</sup> Based on average Common Shares outstanding.

<sup>(b)</sup> Distributions for annual periods determined in accordance with U.S. federal income tax regulations.

- <sup>(c)</sup> Total returns based on market price, which can be significantly greater or less than the net asset value, may result in substantially different returns. Where applicable, excludes the effects of any sales charges and assumes the reinvestment of distributions at actual reinvestment prices.
- <sup>(d)</sup> Aggregate total return.
- (e) Annualized.
- <sup>(f)</sup> Includes reorganization costs associated with the Trust s reorganization in 2017. Without these costs, total expenses, total expenses after fees waived and/or paid indirectly and total expenses after fees waived and/or paid indirectly and excluding interest expense, fees and amortization of offering costs would have been 2.45%, 2.45% and 1.18% respectively, for the period ended January 31, 2018.
- <sup>(g)</sup> Interest expense, fees and amortization of offering costs related to TOB Trusts and/or VMTP Shares. See Note 4 and Note 10 of the Notes to Financial Statements for details.

#### 1. ORGANIZATION

The following are registered under the Investment Company Act of 1940, as amended (the 1940 Act ), as closed-end management investment companies and are referred to herein collectively as the Trusts or individually as a Trust :

|  |                         |               | Diversification  |
|--|-------------------------|---------------|------------------|
| Trust Name   | Herein Referred to As   | Organized     | Classification   |
| BlackRock California Municipal Income Trust              | BFZ                     | Delaware      | Diversified      |
| BlackRock Florida Municipal 2020 Term Trust              | BFO                     | Delaware      | Non-diversified  |
| BlackRock Municipal 2030 Target Term Trust               | BTT                     | Delaware      | Diversified      |
| BlackRock Municipal Income Investment Trust              | BBF                     | Delaware      | Diversified      |
| BlackRock New Jersey Municipal Income Trust              | BNJ                     | Delaware      | Non-diversified  |
| BlackRock New York Municipal Income Trust                | BNY                     | Delaware      | Diversified      |
| On September 6, 2017, the Boards of the Trust, BlackRock | New Jersey Municipal Bo | ond Trust (BL | J) and BlackRock |
|  |                         | 1 DI I 14     | 1                |

MuniYield New Jersey Fund, Inc. (MYJ) approved the reorganizations of the Trust and BLJ with and into MYJ, with MYJ continuing as the surviving fund after the reorganization. The reorganizations are subject to approval by each fund s shareholders and certain other conditions.

The Boards of Trustees of the Trusts are collectively referred to throughout this report as the Board of Trustees or the Board, and the trustees thereof are collectively referred to throughout this report as Trustees. The Trusts determine and make available for publication the net asset value ( NAVs ) of their Common Shares on a daily basis.

The Trusts, together with certain other registered investment companies advised by BlackRock Advisors, LLC (the Manager ) or its affiliates, are included in a complex of closed-end funds referred to as the Closed-End Complex.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP), which may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Each Trust is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies. Below is a summary of significant accounting policies:

**Investment Transactions and Income Recognition:** For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates ). Realized gains and losses on investment transactions are determined on the identified cost basis. Interest income, including amortization and accretion of premiums and discounts on debt securities, is recognized on an accrual basis.

**Segregation and Collateralization:** In cases where a Trust enters into certain investments (e.g., futures contracts) or certain borrowings (e.g., TOB Trust transactions) that would be treated as senior securities for 1940 Act purposes, a Trust may segregate or designate on its books and records cash or liquid assets having a market value at least equal to the amount of its future obligations under such investments or borrowings. Doing so allows the investment or

borrowing to be excluded from treatment as a senior security. Furthermore, if required by an exchange or counterparty agreement, the Trusts may be required to deliver/deposit cash and/or securities to/with an exchange, or broker-dealer or custodian as collateral for certain investments or obligations.

**Distributions:** Distributions from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend date and made at least annually. The character and timing of distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP. Distributions to Preferred Shareholders are accrued and determined as described in Note 10.

**Deferred Compensation Plan:** Under the Deferred Compensation Plan (the Plan ) approved by each Trust s Board, the independent Trustees (Independent Trustees ) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of certain other BlackRock closed-end funds selected by the Independent Trustees. This has the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in certain other BlackRock closed-end funds.

The Plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Trust, if applicable. Deferred compensation liabilities are included in the Trustees and Officer s fees payable in the Statements of Assets and Liabilities and will remain as a liability of the Trust until such amounts are distributed in accordance with the Plan.

**Recent Accounting Standards:** In November 2016, the Financial Accounting Standards Board issued Accounting Standards Update Restricted Cash which will require entities to include the total of cash, cash equivalents, restricted cash, and restricted cash equivalents in the beginning and ending cash balances in the Statements of Cash Flows. The guidance will be applied retrospectively and is effective for fiscal years beginning after December 15, 2017, and interim periods within those years. Management is evaluating the impact, if any, of this guidance on the Trusts presentation in the Statements of Cash Flows.

In March 2017, the Financial Accounting Standards Board issued Accounting Standards Update Premium Amortization of Purchased Callable Debt Securities which amends the amortization period for certain purchased callable debt securities. Under the new guidance, the premium amortization of purchased callable debt securities that have explicit, non-contingent call features and are callable at fixed prices will be amortized to the earliest call date. The guidance will be applied on a modified retrospective basis and is effective for fiscal years, and their interim periods, beginning after December 15, 2018. Management is currently evaluating the impact of this guidance to the Trusts.

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

**Indemnifications:** In the normal course of business, a Trust enters into contracts that contain a variety of representations that provide general indemnification. A Trust s maximum exposure under these arrangements is unknown because it involves future potential claims against a Trust, which cannot be predicted with any certainty.

**Other:** Expenses directly related to a Trust are charged to that Trust. Other operating expenses shared by several funds, including other funds managed by the Manager, are prorated among those funds on the basis of relative net assets or other appropriate methods.

#### 3. INVESTMENT VALUATION AND FAIR VALUE MEASUREMENTS

**Investment Valuation Policies:** The Trusts investments are valued at fair value (also referred to as market value within the financial statements) as of the close of trading on the New York Stock Exchange ( NYSE ) (generally 4:00 p.m., Eastern time). U.S. GAAP defines fair value as the price the Trusts would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The Trusts determine the fair values of their financial instruments using various independent dealers or pricing services under policies approved by the Board of Trustees of each Trust (the Board ). The BlackRock Global Valuation Methodologies Committee (the Global Valuation Committee ) is the committee formed by management to develop global pricing policies and procedures and to oversee the pricing function for all financial instruments.

**Fair Value Inputs and Methodologies:** The following methods and inputs are used to establish the fair value of each Trust s assets and liabilities:

Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and information with respect to various relationships between investments.

Investments in open-end U.S. mutual funds are valued at NAV each business day.

Futures contracts traded on exchanges are valued at their last sale price.

If events (e.g., a company announcement, market volatility or a natural disaster) occur that are expected to materially affect the value of such investments, or in the event that the application of these methods of valuation results in a price for an investment that is deemed not to be representative of the market value of such investment, or if a price is not available, the investment will be valued by the Global Valuation Committee, or its delegate, in accordance with a policy approved by the Board as reflecting fair value ( Fair Valued Investments ). The fair valuation approaches that may be used by the Global Valuation Committee will include market approach, income approach and cost approach. Valuation techniques such as discounted cash flow, use of market comparables and matrix pricing are types of valuation approaches and are typically used in determining fair value. When determining the price for Fair Valued Investments, the Global Valuation Committee, or its delegate, seeks to determine the price that each Trust might reasonably expect to receive or pay from the current sale or purchase of that asset or liability in an arm s-length

transaction. Fair value determinations shall be based upon all available factors that the Global Valuation Committee, or its delegate, deems relevant and consistent with the principles of fair value measurement. The pricing of all Fair Valued Investments is subsequently reported to the Board or a committee thereof on a quarterly basis.

**Fair Value Hierarchy:** Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a fair value hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 Unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Trust has the ability to access

Level 2 Other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 Unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Trust s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety. Investments classified within Level 3 have significant unobservable inputs used by the Global Valuation Committee in determining the price for Fair Valued Investments. Level 3 investments include equity or debt issued by privately held companies or funds. There may not be a secondary market, and/or there are a limited number of investors. Level 3 investments may also be adjusted to reflect illiquidity and/or non-transferability, with the amount of such discount estimated by the Global Valuation Committee in formation.

Changes in valuation techniques may result in transfers into or out of an assigned level within the hierarchy. In accordance with each Trust s policy, transfers between different levels of the fair value hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investments and derivative financial instruments and is not necessarily an indication of the risks associated with investing in those securities.

### 4. SECURITIES AND OTHER INVESTMENTS

**Zero-Coupon Bonds:** Zero-coupon bonds are normally issued at a significant discount from face value and do not provide for periodic interest payments. These bonds may experience greater volatility in market value than other debt obligations of similar maturity which provide for regular interest payments.

NOTES TO FINANCIAL STATEMENTS

**Forward Commitments and When-Issued Delayed Delivery Securities:** Certain Trusts may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. A Trust may purchase securities under such conditions with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, a Trust may be required to pay more at settlement than the security is worth. In addition, a Trust is not entitled to any of the interest earned prior to settlement. When purchasing a security on a delayed delivery basis, a Trust assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, a Trust s maximum amount of loss is the unrealized appreciation of unsettled when-issued transactions.

**Municipal Bonds Transferred to TOB Trusts:** Certain Trusts leverage their assets through the use of TOB Trust transactions. The Trusts transfer municipal bonds into a special purpose trust (a TOB Trust ). A TOB Trust issues two classes of beneficial interests: short-term floating rate interests ( TOB Trust Certificates ), which are sold to third party investors, and residual inverse floating rate interests ( TOB Residuals ), which are issued to the participating trusts that contributed the municipal bonds to the TOB Trust. The TOB Trust Certificates have interest rates that reset weekly and their holders have the option to tender such certificates to the TOB Trust for redemption at par and any accrued interest at each reset date. The TOB Residuals held by a Trust provides the Trust with the right to cause the holders of a proportional share of the TOB Trust Certificates to tender their certificates to the TOB Trust at par plus accrued interest. The Trusts may withdraw a corresponding share of the municipal bonds from the TOB Trust. Other trusts managed by the investment adviser may also contribute municipal bonds to a TOB Trust, the economic rights and obligations under the TOB Residuals will be shared among the trusts ratably in proportion to their participation in the TOB Trust.

TOB Trusts are supported by a liquidity facility provided by a third party bank or other financial institution (the Liquidity Provider ) that allows the holders of the TOB Trust Certificates to tender their certificates in exchange for payment of par plus accrued interest on any business day. The tendered TOB Trust Certificates are remarketed by a Remarketing Agent. In the event of a failed remarketing, the TOB Trust may draw upon a loan from the Liquidity Provider to purchase the tendered TOB Trust Certificates. Any loans made by the Liquidity Provider will be secured by the purchased TOB Trust Certificates held by the TOB Trust and will be subject to an increased interest rate based on number of days the loan is outstanding.

The TOB Trust may be collapsed without the consent of a Trust, upon the occurrence of a termination event, as defined in the TOB Trust agreement. Upon the occurrence of a termination event, a TOB Trust would be liquidated with the proceeds applied first to any accrued fees owed to the trustee of the TOB Trust, the Remarketing Agent and the Liquidity Provider. Upon certain termination events, TOB Trust Certificates holders will be paid before the TOB Residuals holders (i.e., the Trusts) whereas in other termination events, TOB Trust Certificates holders and TOB Residuals holders will be paid pro rata.

While a Trust s investment policies and restrictions expressly permit investments in inverse floating rate securities, such as TOB Residuals, they restrict the ability of a Trust to borrow money for purposes of making investments. Each Trust s transfer of the municipal bonds to a TOB Trust is considered a secured borrowing for financial reporting purposes. The cash received by the TOB Trust from the sale of the TOB Trust Certificates, less certain transaction expenses, is paid to a Trust. A Trust typically invests the cash received in additional municipal bonds.

Accounting for TOB Trusts: The municipal bonds deposited into a TOB Trust are presented in a Trust s Schedule of Investments and the TOB Trust Certificates are shown in Other Liabilities in the Statements of Assets and Liabilities. Any loans drawn by the TOB Trust pursuant to the liquidity facility to purchase tendered TOB Trust Certificates are shown as Loan for TOB Trust Certificates. The carrying amount of a Trust s payable to the holder of the TOB Trust Certificates, as reported in the Statements of Assets and Liabilities as TOB Trust Certificates, approximates its fair value.

Interest income, including amortization and accretion of premiums and discounts, from the underlying municipal bonds is recorded by a Trust on an accrual basis. Interest expense incurred on the TOB Trust transaction and other expenses related to remarketing, administration, trustee, liquidity and other services to a TOB Trust are shown as interest expense, fees and amortization of offering costs in the Statements of Operations. Fees paid upon creation of the TOB Trust are recorded as debt issuance costs and are amortized to interest expense, fees and amortization of offering costs in the Statements of Operations to the expected maturity of the TOB Trust. In connection with the restructurings of the TOB Trusts to non-bank sponsored TOB Trusts, a Trust incurred non-recurring, legal and restructuring fees, which are recorded as interest expense, fees and amortization of deferred offering costs in the Statements of Operations. Amounts recorded within interest expense, fees and amortization of offering costs in the Statements of Operations are:

| BFZ | \$ 360,616,910            | \$ 170,958,028              | 1.17% - 1.36%   | \$170,703,300          | 1.66%      |
| BTT | 429,078,003               | 251,819,915                 | 1.18% - 1.31%   | 209,024,105            | 1.91       |
| BBF | 93,788,744                | 53,134,805                  | 1.17% - 1.39%   | 51,150,192             | 1.65       |
| BNJ | 38,161,391                | 21,333,497                  | 1.16% - 1.36%   | 21,234,742             | 1.77       |
| BNY | 57,334,795                | 32,047,199                  | 1.18% - 1.31%   | 32,047,199             | 1.66       |

(a) The municipal bonds transferred to a TOB Trust are generally high grade municipal bonds. In certain cases, when municipal bonds transferred are lower grade municipal bonds, the TOB Trust transaction may include a credit enhancement feature that provides for the timely payment of principal and interest on the bonds to the TOB Trust by a credit enhancement provider in the event of default of the municipal bond. The TOB Trust would be responsible for the payment of the credit enhancement fee and the trusts, as TOB residuals holders, would be responsible for reimbursement of any payments of principal and interest made by the credit enhancement provider. The maximum potential amounts owed by the trusts, for such reimbursements, as applicable, are included in the maximum potential amounts disclosed for recourse TOB Trusts.

(b) The Trusts may invest in TOB Trusts that are structured on a non-recourse or recourse basis. When a Trust invests in TOB Trusts on a non-recourse basis, the Liquidity Provider may be required to make a payment under the liquidity facility. In such an event, the Liquidity Provider will typically either (i) fund the full amount owed under the liquidity facility and be subsequently reimbursed from only the proceeds of the liquidation of all or a portion of the municipal bonds held in the TOB Trust or the remarketing of the TOB Trust Certificates, or (ii) liquidate all or a portion of the municipal bonds held in the TOB Trust and then fund the balance, if any, of the amount owed under the liquidity facility facility over the liquidation proceeds (the

Liquidation Shortfall ). If a Trust invests in a TOB Trust on a recourse basis, a Trust will usually enter into a reimbursement agreement with the Liquidity Provider where a Trust is required to reimburse the Liquidity Provider the amount of any Liquidation Shortfall. As a result, if a Trust invests in a recourse TOB Trust, a Trust will bear the risk of loss with respect to any Liquidation Shortfall. If multiple trusts participate in any such TOB Trust, these losses will be shared ratably, including the maximum potential amounts owed by a Trust at January 31, 2018, in proportion to its participation in the TOB Trust. The recourse TOB Trusts are identified in the Schedules of Investments including the maximum potential amounts owed by a Trust at January 31, 2018.

For the six months ended January 31, 2018, the following table is a summary of each Trust s Loan for TOB Trust Certificates:

|     |               | Range of<br>Interest Rates |   |     |          | Daily Weighted<br>Average<br>Rate |
|-----|---------------|----------------------------|---|-----|----------|-----------------------------------|
|     |               | on                         |   |     |          | of Interest                       |

| BBF | \$            |                            | % | \$  | 33,326   | 0.78%                             |
| BNJ |               |                            |   |     | 43,393   | 0.75                              |

### 5. DERIVATIVE FINANCIAL INSTRUMENTS

The Trusts engage in various portfolio investment strategies using derivative contracts both to increase the returns of the Trusts and/or to manage their exposure to certain risks such as credit risk, equity risk, interest rate risk, foreign currency exchange rate risk, commodity price risk or other risks (e.g., inflation risk). Derivative financial instruments categorized by risk exposure are included in the Schedules of Investments. These contracts may be transacted on an exchange or over-the-counter (OTC).

**Futures Contracts:** Futures contracts are purchased or sold to gain exposure to, or manage exposure to, changes in interest rates (interest rate risk), changes in the value of equity securities (equity risk) or foreign currencies (foreign currency exchange rate risk).

Futures contracts are agreements between the Trusts and a counterparty to buy or sell a specific quantity of an underlying instrument at a specified price and on a specified date. Depending on the terms of a contract, it is settled either through physical delivery of the underlying instrument on the settlement date or by payment of a cash amount on the settlement date. Upon entering into a futures contract, the Trusts are required to deposit initial margin with the broker in the form of cash or securities in an amount that varies depending on a contract s size and risk profile. The initial margin deposit must then be maintained at an established level over the life of the contract.

Securities deposited as initial margin are designated in the Schedules of Investments and cash deposited, if any, is shown as cash pledged for futures contracts in the Statements of Assets and Liabilities. Pursuant to the contract, the Trusts agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in market value of the contract (variation margin). Variation margin is recorded as unrealized appreciation (depreciation) and, if any, shown as variation margin receivable (or payable) on futures contracts in the Statements of Assets and Liabilities. When the contract is closed, a realized gain or loss is recorded in the Statements of Operations equal to the difference between the notional amount of the contract at the time it was opened and the notional amount at the time it was closed. The use of futures contracts involves the risk of an imperfect correlation in the movements in the price of futures contracts and interest, foreign currency exchange rates or underlying assets.

# 6. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

The PNC Financial Services Group, Inc. is the largest stockholder and an affiliate of BlackRock, Inc. (BlackRock) for 1940 Act purposes.

NOTES TO FINANCIAL STATEMENTS

**Investment Advisory:** Each Trust entered into an Investment Advisory Agreement with the Manager, the Trusts investment adviser, an indirect, wholly-owned subsidiary of BlackRock, to provide investment advisory and administrative services. The Manager is responsible for the management of each Trust s portfolio and provides the personnel, facilities, equipment and certain other services necessary to the operations of each Trust.

For such services, each Trust, except BTT, pays the Manager a monthly fee at an annual rate equal to the following percentages of the average weekly value of each Trust s managed assets.

BFZBFOBBFBNJBNYInvestment advisory fees0.58%0.50%0.57%0.60%0.60%For such services, BTT pays the Manager a monthly fee at an annual rate equal to 0.40% of the average daily value of the Trust s managed assets.0.40%0.60%0.60%

For purposes of calculating these fees, except for BTT, managed assets mean the total assets of the Trust minus the sum of its accrued liabilities (other than the aggregate indebtedness constituting financial leverage).

For purposes of calculating these fees for BTT, managed assets means the total assets of the Trust (including any assets attributable to money borrowed for investment purposes) minus the sum of its accrued liabilities (other than money borrowed for investment purposes).

**Expense Waivers:** With respect to each Trust, the Manager voluntarily agreed to waive its investment advisory fees by the amount of investment advisory fees each Trust pays to the Manager indirectly through its investment in affiliated money market funds (the affiliated money market fund waiver ). These amounts are included in fees waived and/or reimbursed by the Manager in the Statements of Operations. For the six months ended January 31, 2018, the amounts waived were as follows:

|   | BFZ     | BFO          | BTT          | BBF     | BNJ        | BNY           |  |  |
|---|---------|--------------|--------------|---------|------------|---------------|--|--|
| Amounts waived  | \$810   | \$1,572      | \$28,526     | \$131   | \$198      | \$ 1,044      |  |  |
| The Manager contractually agreed to waive its investment advisory fee with respect to any portion of each Trust s   |         |              |              |         |            |               |  |  |
| assets invested in affiliated equity and fixed-income mutual funds and affiliated exchange-traded funds that have a |         |              |              |         |            |               |  |  |
| contractual management fee through June 30, 2018. The   | agreeme | nt can be re | enewed for a | nnual p | eriods the | ereafter, and |  |  |
| may be terminated on 90 days notice, each subject to approval by a majority of the Trusts Independent Trustees. For |         |              |              |         |            |               |  |  |
| the six months ended January 31, 2018, there were no fees waived by the Manager.                                    |         |              |              |         |            |               |  |  |

**Trustees and Officers:** Certain Trustees and/or officers of the Trusts are trustees and/or officers of BlackRock or its affiliates. The Trusts reimburse the Manager for a portion of the compensation paid to the Trusts Chief Compliance Officer, which is included in Trustees and Officer in the Statements of Operations.

# 7. PURCHASES AND SALES

For the six months ended January 31, 2018, purchases and sales of investments, excluding short-term securities were as follows:

|           | BFZ           | BFO         | BTT           | BBF          | BNJ          | BNY          |
|-----------|---------------|-------------|---------------|--------------|--------------|--------------|
| Purchases | \$106,571,704 | \$7,891,205 | \$378,842,038 | \$41,396,148 | \$ 7,675,508 | \$14,832,018 |
| Sales     | 107,476,772   | 8,835,000   | 332,248,178   | 38,161,649   | 10,440,890   | 13,914,979   |

### 8. INCOME TAX INFORMATION

It is each Trust s policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of its taxable income to its shareholders. Therefore, no U.S. federal income tax provision is required.

Each Trust files U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on each Trust U.S. federal tax returns generally remains open for each of the four years ended July 31, 2017. The statutes of limitations on each Trust state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Management has analyzed tax laws and regulations and their application to the Trusts as of January 31, 2018, inclusive of the open tax return years, and does not believe that there are any uncertain tax positions that require recognition of a tax liability in the Trusts financial statements.

As of July 31, 2017, the Trusts had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates as follows:

| Expires July 31,                  | BFZ         | BFO       | BTT          | BBF          | BNJ         | BNY         |
|-----------------------------------|-------------|-----------|--------------|--------------|-------------|-------------|
| No expiration date <sup>(a)</sup> | \$          | \$820,209 | \$31,050,310 | \$ 3,775,937 | \$1,034,744 | \$4,272,129 |
| 2018                              | 1,442,647   | 62,100    |              | 6,927,043    | 842,367     | 1,480,575   |
| 2019                              |             |           |              | 651,464      | 27,464      | 1,982,931   |
|                                   |             |           |              |              |             |             |
|                                   | \$1,442,647 | \$882,309 | \$31,050,310 | \$11,354,444 | 1,904,575   | \$7,735,635 |

<sup>(a)</sup> Must be utilized prior to losses subject to expiration.

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

As of January 31, 2018, gross unrealized appreciation and depreciation for investments and derivative financial instruments and derivatives based on cost for U.S. federal income tax purposes were as follows:

| Tax cost                                     | <i>BFZ</i><br>\$610,695,169 | <i>BFO</i><br>\$ 80,719,642 | \$2 | <i>BTT</i><br>,381,407,289 | \$<br><i>BBF</i><br>182,961,095 | \$<br><i>BNJ</i><br>164,736,267 | \$2 | <i>BNY</i><br>267,292,212 |

#### 9. PRINCIPAL RISKS

Many municipalities insure repayment of their bonds, which may reduce the potential for loss due to credit risk. The market value of these bonds may fluctuate for other reasons, including market perception of the value of such insurance, and there is no guarantee that the insurer will meet its obligation.

Inventories of municipal bonds held by brokers and dealers may decrease, which would lessen their ability to make a market in these securities. Such a reduction in market making capacity could potentially decrease a Trust s ability to buy or sell bonds. As a result, a Trust may sell a security at a lower price, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative impact on performance. If a Trust needed to sell large blocks of bonds, those sales could further reduce the bonds prices and impact performance.

In the normal course of business, certain Trusts invest in securities or other instruments and may enter into certain transactions and such activities subject each Trust to various risks, including among others, fluctuations in the market (market risk) or failure of an issuer to meet all of its obligations. The value of securities or other instruments may also be affected by various factors, including, without limitation: (i) the general economy; (ii) the overall market as well as local, regional or global political and/or social instability; (iii) regulation, taxation or international tax treaties between various countries; or (iv) currency, interest rate and price fluctuations.

Each Trust may be exposed to prepayment risk, which is the risk that borrowers may exercise their option to prepay principal earlier than scheduled during periods of declining interest rates, which would force each Trust to reinvest in lower yielding securities. Each Trust may also be exposed to reinvestment risk, which is the risk that income from each Trust s portfolio will decline if each Trust invests the proceeds from matured, traded or called fixed-income securities at market interest rates that are below each Trust portfolio s current earnings rate.

The Trusts may hold a significant amount of bonds subject to calls by the issuers at defined dates and prices. When bonds are called by issuers and the Trusts reinvest the proceeds received, such investments may be in securities with lower yields than the bonds originally held, and correspondingly, could adversely impact the yield and total return performance of a Trust.

There is no assurance that BFO will achieve its investment objective and BFO may return less than \$15.00 per share. As BFO approaches its scheduled termination date, it is expected that the maturity of BFO s portfolio securities will shorten, which is likely to reduce BFO s income and distributions to shareholders.

There is no assurance that BTT will achieve its investment objective and BTT may return less than \$25.00 per share. As BTT approaches its scheduled termination date, it is expected that the maturity of BTT s portfolio securities will shorten, which is likely to reduce BTT s income and distributions to shareholders.

A Trust structures and sponsors the TOB Trusts in which it holds TOB Residuals and has certain duties and responsibilities, which may give rise to certain additional risks including, but not limited to, compliance, securities law and operational risks.

Should short-term interest rates rise, the Trusts investments in the TOB Trusts may adversely affect the Trusts net investment income and dividends to Common Shareholders. Also, fluctuations in the market value of municipal bonds deposited into the TOB Trust may adversely affect the Trusts NAVs per share.

The SEC and various federal banking and housing agencies have adopted credit risk retention rules for securitizations (the Risk Retention Rules ). The Risk Retention Rules would require the sponsor of a TOB Trust to retain at least 5% of the credit risk of the underlying assets supporting the TOB Trust s municipal bonds. The Risk Retention Rules may adversely affect the Trusts ability to engage in TOB Trust transactions or increase the costs of such transactions in certain circumstances.

TOB Trusts constitute an important component of the municipal bond market. Any modifications or changes to rules governing TOB Trusts may adversely impact the municipal market and the Trusts, including through reduced demand for and liquidity of municipal bonds and increased financing costs for municipal issuers. The ultimate impact of any potential modifications on the TOB Trust market and the overall municipal market is not yet certain.

**Counterparty Credit Risk:** The Trusts may be exposed to counterparty credit risk, or the risk that an entity may fail to or be unable to perform on its commitments related to unsettled or open transactions. The Trusts manage counterparty credit risk by entering into transactions only with counterparties that the Manager believes have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Trusts to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Trusts exposure to market, issuer and counterparty credit risks with respect to these financial assets is approximately their value recorded in the Statements of Assets and Liabilities, less any collateral held by the Trusts.

A derivative contract may suffer a mark-to-market loss if the value of the contract decreases due to an unfavorable change in the market rates or values of the underlying instrument. Losses can also occur if the counterparty does not perform under the contract.

With exchange-traded futures, there is less counterparty credit risk to the Trusts since the exchange or clearinghouse, as counterparty to such instruments, guarantees against a possible default. The clearinghouse stands between the buyer and the seller of the contract; therefore, credit risk is limited to failure of the clearinghouse. While

NOTES TO FINANCIAL STATEMENTS

offset rights may exist under applicable law, a Trust does not have a contractual right of offset against a clearing broker or clearinghouse in the event of a default (including the bankruptcy or insolvency). Additionally, credit risk exists in exchange-traded futures with respect to initial and variation margin that is held in a clearing broker s customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro rata basis across all the clearing broker s customers, potentially resulting in losses to the Trusts.

**Concentration Risk:** BFZ, BFO, BNJ and BNY invests a substantial amount of its assets in issuers located in a single state or limited number of states. This may subject each Trust to the risk that economic, political or social issues impacting a particular state or group of states could have an adverse and disproportionate impact on the income from, or the value or liquidity of, the Trusts respective portfolios. Investment percentages in specific states or U.S. territories are presented in the Schedules of Investments.

As of period end, BFZ, BFO and BBF invested a significant portion of their assets in securities in the county, special district and school district sector. Changes in economic conditions affecting such sectors would have a greater impact on the Trusts and could affect the value, income and/or liquidity of positions in such securities.

The Trusts invest a significant portion of their assets in fixed-income securities and/or use derivatives tied to the fixed-income markets. Changes in market interest rates or economic conditions may affect the value and/or liquidity of such investments. Interest rate risk is the risk that prices of bonds and other fixed-income securities will increase as interest rates fall and decrease as interest rates rise. The Trusts may be subject to a greater risk of rising interest rates due to the current period of historically low rates.

# 10. CAPITAL SHARE TRANSACTIONS

Each Trust is authorized to issue an unlimited numbers of shares, all of which were initially classified as Common Shares. The par value for each Trust s Common Shares is \$0.001. The par value for each Trust s Preferred Shares outstanding is \$0.001. The Board is authorized, however, to reclassify any unissued Common Shares to Preferred Shares without the approval of Common Shareholders.

### **Common Shares:**

For the periods shown, shares issued and outstanding increased by the following amounts as a result of dividend reinvestment:

|   | BBF            | BNJ       | BNY    |
|---|----------------|-----------|--------|
| Six Months Ended January 31, 2018   | 7,282          | 4,561     | 12,500 |
| Year Ended July 31, 2017  | 10,545         | 5,281     | 15,306 |
| For the six months ended January 31, 2018 and year ended July 31, 2017, shares is | sued and outst | anding re | mained |
| constant for BFZ, BFO and BTT.  |                |           |        |

#### **Preferred Shares**

Each Trust s Preferred Shares rank prior to the Trust s Common Shares as to the payment of dividends by the Trust and distribution of assets upon dissolution or liquidation of a Trust. The 1940 Act prohibits the declaration of any dividend on a Trust s Common Shares or the repurchase of a Trust s Common Shares if a Trust fails to maintain asset coverage of at least 200% of the liquidation preference of the Trust s outstanding Preferred Shares. In addition, pursuant to the Preferred Shares governing instruments, a Trust is restricted from declaring and paying dividends on classes of shares ranking junior to or on parity with the Trust s Preferred Shares or repurchasing such shares if a Trust fails to declare and pay dividends on the Preferred Shares, redeem any Preferred Shares required to be redeemed under the Preferred Shares governing instruments or comply with the basic maintenance amount requirement of the ratings agencies rating the Preferred Shares.

The holders of Preferred Shares have voting rights equal to the voting rights of the holders of Common Shares (one vote per share) and will vote together with holders of Common Shares (one vote per share) as a single class on certain matters. However, the holders of Preferred Shares, voting as a separate class, are also entitled to elect two Trustees to the Board of each Trust. The holders of Preferred Shares are also entitled to elect the full Board of Directors if dividends on the Preferred Shares are not paid for a period of two years. The holders of Preferred Shares are also generally entitled to a separate class vote to amend the Preferred Share governing documents. In addition, the 1940 Act requires the approval of the holders of a majority of any outstanding Preferred Shares, voting as a separate class, to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares, (b) change a Trust s sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

#### **VRDP** Shares

BBF has issued Series W-7 VRDP Shares, \$100,000 liquidation preference per share, in a privately negotiated offering. The VRDP Shares were offered to qualified institutional buyers as defined pursuant to Rule 144A under the Securities Act of 1933, as amended (the Securities Act ). The VRDP Shares include a liquidity feature and are currently in a special rate period, as described below.

As of period end, the VRDP Shares outstanding of BBF were as follows:

|     | Issue    | Shares |              | Maturity |
|-----|----------|--------|--------------|----------|
|     |          |        | Aggregate    |          |
|     | Date     | Issued | Principal    | Date     |
| BBF | 09/15/11 | 342    | \$34,200,000 | 10/01/41 |
|     | 05/16/16 | 178    | 17,800,000   | 10/01/41 |

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

**Redemption Terms:** BBF is required to redeem its VRDP Shares on the maturity date, unless earlier redeemed or repurchased. Six months prior to the maturity date, BBF is required to begin to segregate liquid assets with the Trust s custodian to fund the redemption. In addition, BBF is required to redeem certain of its outstanding VRDP Shares if it fails to comply with certain asset coverage, basic maintenance amount or leverage requirements.

Subject to certain conditions, the VRDP Shares may also be redeemed, in whole or in part, at any time at the option of BBF. The redemption price per VRDP Share is equal to the liquidation preference per share plus any outstanding unpaid dividends.

**Liquidity Feature:** BBF entered into a fee agreement with its liquidity provider that requires a per annum liquidity fee payable to the liquidity provider. These fees, if applicable, are shown as liquidity fees in the Statements of Operations.

The initial fee agreement between BBF and its liquidity provider was for a 364 day term and was scheduled to expire on September 14, 2012. BBF subsequently renewed the fee agreement for an additional terms. The most recent extension is scheduled to expire on October 22, 2018 unless renewed or terminated in advance.

In the event the fee agreement is not renewed or is terminated in advance, and BBF does not enter into a fee agreement with an alternate liquidity provider, the VRDP Shares will be subject to mandatory purchase by the liquidity provider prior to the termination of the fee agreement. In the event of such mandatory purchase, BBF is required to redeem the VRDP Shares six months after the purchase date. Immediately after such mandatory purchase, BBF is required to begin to segregate liquid assets with its custodian to fund the redemption. There is no assurance BBF will replace such redeemed VRDP Shares with any other preferred shares or other form of leverage.

**Remarketing:** BBF may incur remarketing fees of 0.10% on the aggregate principal amount of all the Trust s VRDP Shares, which, if any, are included in remarketing fees on Preferred Shares in the Statements of Operations. During any special rate period (as described below), BBF may incur no remarketing fees.

**Dividends:** Dividends on the VRDP Shares are payable monthly at a variable rate set weekly by the remarketing agent. Such dividend rates are generally based upon a spread over a base rate and cannot exceed a maximum rate. In the event of a failed remarketing, the dividend rate of the VRDP Shares will be reset to a maximum rate. The maximum rate is determined based on, among other things, the long-term preferred share rating assigned to the VRDP Shares and the length of time that the VRDP Shares fail to be remarketed. At the date of issuance, the VRDP Shares were assigned long-term ratings of Aaa from Moody s and AAA from Fitch. Subsequent to the issuance of the VRDP Shares, Moody s completed a review of its methodology for rating securities issued by registered closed-end funds. As of period end, the VRDP Shares were assigned a long-term rating of AA1 from Moody s under its new ratings methodology. The VRDP Shares continue to be assigned a long-term rating of AAA from Fitch.

For the six months ended January 31, 2018, the annualized dividend rate for BBF s VRDP Shares was 1.91%.

**Ratings:** The short-term ratings on the VRDP Shares are directly related to the short-term ratings of the liquidity provider for such VRDP Shares. Changes in the credit quality of the liquidity provider could cause a change in the short-term credit ratings of the VRDP Shares as rated by Moody s, Fitch and/or S&P. A change in the short-term credit rating of the liquidity provider or the VRDP Shares may adversely affect the dividend rate paid on such shares, although the dividend rate paid on the VRDP Shares is not directly based upon either short-term rating. The liquidity provider may be terminated prior to the scheduled termination date if the liquidity provider fails to maintain

short-term debt ratings in one of the two highest rating categories.

**Special Rate Period:** On October 22, 2015, BBF commenced a three-year term ending April 18, 2018 (the special rate period ) with respect to its VRDP Shares, during which the VRDP Shares was not subject to any remarketing and the dividend rate was not based on a predetermined methodology. The implementation of the special rate period resulted in a mandatory tender of the VRDP Shares prior to the commencement of the special rate period. The mandatory tender event was not the result of a failed remarketing. The short-term ratings on the VRDP Shares for BBF were withdrawn by Moody s, Fitch and/or S&P at the commencement of the special rate period. Prior to April 18, 2018, the holder of the VRDP Shares and BBF may mutually agree to extend the special rate period. If the special rate period is not extended, the VRDP Shares will revert to remarketable securities upon the termination of the special rate period and will be remarketed and available for purchase by qualified institutional investors.

During the special rate period, the liquidity and fee agreements remain in effect and the VRDP Shares remain subject to mandatory redemption by BBF on the maturity date. The VRDP Shares will not be remarketed or subject to optional or mandatory tender events during the special rate period. During the special rate period, BBF is required to comply with the same asset coverage, basic maintenance amount and leverage requirements for the VRDP Shares as is required when the VRDP Shares are not in a special rate period. BBF will not pay any fees to the liquidity provider and remarketing agent during the special rate period. BBF will also pay dividends monthly based on the sum of the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index rate and a percentage per annum based on the long-term ratings assigned to the VRDP Shares.

If BBF redeems the VRDP Shares prior to end of the special rate period and the VRDP Shares have long-term ratings above A1/A+ and its equivalent by all ratings agencies then rating the VRDP Shares, then such redemption may be subject to a redemption premium payable to the holder of the VRDP Shares based on the time remaining in the special rate period, subject to certain exceptions for redemptions that are required to comply with minimum asset coverage requirements.

For the six months ended January 31, 2018, VRDP Shares issued and outstanding of BBF remained constant.

# **VMTP Shares**

BFZ, BNJ and BNY (collectively, the VMTP Trusts ) have issued Series W-7 VMTP Shares, \$100,000 liquidation preference per share, in privately negotiated offerings and sales of VMTP Shares exempt from registration under the Securities Act. The VMTP Shares are subject to certain restrictions on transfer, and VMTP Trusts may also be required to register the VMTP Shares for sale under the Securities Act under certain circumstances. In addition, amendments to the VMTP governing documents generally require the consent of the holders of VMTP Shares.

NOTES TO FINANCIAL STATEMENTS

As of period end, the VMTP Shares outstanding of each Trust were as follows:

|     | Issue    | Shares | Aggregate     | Term       |
|-----|----------|--------|---------------|------------|
|     |          |        |               | Redemption |
|     | Date     | Issued | Principal     | Date       |
| BFZ | 03/22/12 | 1,713  | \$171,300,000 | 03/30/19   |
| BNJ | 03/22/12 | 591    | 59,100,000    | 03/30/19   |
| BNY | 03/22/12 | 945    | 94,500,000    | 03/30/19   |

**Redemption Terms:** Each VMTP Trust is required to redeem its VMTP Shares on the term redemption date, unless earlier redeemed or repurchased or unless extended. There is no assurance that the term of a Trust s VMTP Shares will be extended further or that a Trust s VMTP Shares will be replaced with any other preferred shares or other form of leverage upon the redemption or repurchase of the VMTP Shares. Six months prior to the term redemption date, each VMTP Trust is required to begin to segregate liquid assets with the Trust s custodian to fund the redemption. In addition, each VMTP Trust is required to redeem certain of its outstanding VMTP Shares if it fails to comply with certain asset coverage, basic maintenance amount or leverage requirements.

Subject to certain conditions, a Trust s VMTP Shares may be redeemed, in whole or in part, at any time at the option of each VMTP Trust. The redemption price per VMTP Share is equal to the liquidation preference per share plus any outstanding unpaid dividends and applicable redemption premium. If the Trusts redeem the VMTP Shares prior to the term redemption date and the VMTP Shares have long-term ratings above A1/A+ or its equivalent by the ratings agencies then rating the VMTP Shares, then such redemption may be subject to a prescribed redemption premium (up to 3% of the liquidation preference) payable to the holder of the VMTP Shares based on the time remaining until the term redemption date, subject to certain exceptions for redemptions that are required to comply with minimum asset coverage requirements.

**Dividends:** Dividends on the VMTP Shares are declared daily and payable monthly at a variable rate set weekly at a fixed rate spread to the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index. The fixed spread is determined based on the long-term preferred share rating assigned to the VMTP Shares by the ratings agencies then rating the VMTP Shares. At the date of issuance, the VMTP Shares were assigned long-term ratings of Aaa from Moody s and AAA from Fitch. Subsequent to the issuance of the VMTP Shares, Moody s completed a review of its methodology for rating securities issued by registered closed-end funds. As of period end, the VMTP Shares were assigned a long-term rating of Aa2 from Moody s under its new rating methodology. The VMTP Shares continue to be assigned a long-term rating of AAA from Fitch. The dividend rate on the VMTP Shares is subject to a step-up spread if the Trusts fails to comply with certain provisions, including, among other things, the timely payment of dividends, redemptions or gross-up payments, and complying with certain asset coverage and leverage requirements.

For the six months ended January 31, 2018, the annualized dividend rates for the VMTP Shares were as follows:

| BFZ   | BNJ   | BNY   |
|-------|-------|-------|
| 1.93% | 1.93% | 1.93% |

For the six months ended January 31, 2018, VMTP Shares issued and outstanding of BFZ, BNJ and BNY remained constant.

### **RVMTP Shares**

BTT has issued Series W-7 RVMTP Shares, \$5,000,000 liquidation preference per share, in a privately negotiated offerings and sale of RVMTP Shares exempt from registration under the Securities Act. The RVMTP Shares are subject to certain restrictions on transfer outside of a remarketing. Amendments to the RVMTP governing documents generally require the consent of the holders of RVMTP Shares.

As of period end, the RVMTP Shares outstanding of BTT were as follows:

|     |          |        |               | Ierm       |
|-----|----------|--------|---------------|------------|
|     | Issue    | Shares |               |            |
|     |          |        | Aggregate     | Redemption |
|     | Date     | Issued | Principal     | Date       |
| BTT | 01/10/13 | 50     | \$250,000,000 | 12/31/30   |
|     | 01/30/13 | 50     | 250,000,000   | 12/31/30   |
|     | 02/20/13 | 50     | 250,000,000   | 12/31/30   |

**Redemption Terms:** BTT is required to redeem its RVMTP Shares on the term redemption date or within six months of an unsuccessful remarketing, unless earlier redeemed or repurchased. There is no assurance that BTT s RVMTP Shares will be replaced with any other preferred shares or other form of leverage upon the redemption or repurchase of the RVMTP Shares. In addition, BTT is required to redeem certain of its outstanding RVMTP Shares if it fails to comply with certain asset coverage, basic maintenance amount or leverage requirements.

Subject to certain conditions, BTT s RVMTP Shares may be redeemed, in whole or in part, at any time at the option of BTT. The redemption price per RVMTP Share is equal to the liquidation preference per share plus any outstanding unpaid dividends. The RVMTP Shares are subject to certain restrictions on transfer outside of a remarketing. The RVMTP Shares are subject to remarketing upon 90 days notice by holders of the RVMTP Shares and 30 days notice by BTT. Each remarketing must be at least six months apart from the last remarketing. A holder of RVMTP Shares may submit notice of remarketing only if such holder requests a remarketing of at least the lesser of (i) \$100,000,000 of RVMTP Shares or (ii) all of the RVMTP Shares held by such holder.

**Dividends:** Dividends on the RVMTP Shares are declared daily and payable monthly at a variable rate set weekly at a fixed rate spread to the SIFMA Municipal Swap Index. The initial fixed rate spread was agreed upon by the initial purchaser and BTT on the initial date of issuance for the RVMTP Shares. The initial fixed rate spread may be adjusted at each remarketing or upon the agreement of BTT and all of the holders of the RVMTP Shares. In the event that all of the RVMTP Shares submitted for

Torm

remarketing are not successfully remarketed, a failed remarketing would occur, and all holders would retain their RVMTP Shares. In the event of a failed remarketing, the fixed rate spread would be set at the fixed rate spread applicable to such failed remarketing. BTT has the right to reject any fixed spread determined at a remarketing, and such rejection would result in a failed remarketing and the fixed rate spread would be set at the fixed rate spread applicable to such failed remarketing. The fixed rate spread applicable due to a failed remarketing depends on whether the remarketing was pursuant to a mandatory or non-mandatory tender. In the case of a failed remarketing following a mandatory tender, the failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing spread would be the sum of the last applicable spread in effect immediately prior to the failed remarketing date for such failed remarketing plus 0.25%.

For the six months ended January 31, 2018, the average annualized dividend rate for BTT s RVMTP Shares was 1.66%.

**Remarketing:** In the event of a failed remarketing that is not subsequently cured, BTT will be required to redeem the RVMTP Shares subject to such failed remarketing on a date that is approximately six months from the remarketing date for such failed remarketing, provided that no redemption of any RVMTP Shares may occur within one year of the date of issuance of such RVMTP Shares. At the date of issuance and as of period end, the RVMTP Shares were assigned long-term ratings of Aa1 from Moody s and AAA from Fitch. The dividend rate on the RVMTP Shares is subject to a step-up spread if BTT fails to comply with certain provisions, including, among other things, the timely payment of dividends, redemptions or gross-up payments, and complying with certain asset coverage and leverage requirements.

During the six months ended January 31, 2018, no RVMTP Shares were tendered for remarketing.

For the six months ended January 31, 2018, RVMTP Shares issued and outstanding of BTT remained constant.

**Offering Costs:** The Trusts incurred costs in connection with the issuance of VRDP, VMTP and RVMTP Shares, which were recorded as a direct deduction from the carrying value of the related debt liability and will be amortized over the life of the VRDP, VMTP and RVMTP Shares with the exception of upfront fees paid to the liquidity provider which were amortized over the life of the liquidity agreement. Amortization of these costs is included in interest expense, fees and amortization of offering costs in the Statements of Operations.

**Financial Reporting:** The VRDP, VMTP and RVMTP Shares are considered debt of the issuer; therefore, the liquidation preference, which approximates fair value of the VRDP, VMTP and RVMTP Shares, is recorded as a liability in the Statements of Assets and Liabilities net of deferred offering costs. Unpaid dividends are included in interest expense and fees payable in the Statements of Assets and Liabilities, and the dividends accrued and paid on the VRDP, VMTP and RVMTP Shares are included as a component of interest expense, fees and amortization of offering costs in the Statements of Operations. The VRDP, VMTP and RVMTP Shares are treated as equity for tax purposes. Dividends paid to holders of VRDP, VMTP and RVMTP Shares are generally classified as tax-exempt income for tax-reporting purposes. Dividends and amortization of offering costs in the Statements of Operations. These and amortization of offering costs on VRDP, VMTP and RVMTP Shares are included in interest expense, fees and amortization of deferred offering costs on VRDP, VMTP and RVMTP Shares are included in interest expense, fees and amortization of deferred offering costs on VRDP, VMTP and RVMTP Shares are included in interest expense, fees and amortization of offering costs in the Statements of Operations.

|     |              | Deferred       |
|-----|--------------|----------------|
|     | Dividends    | Offering Costs |
|     | Accrued      | Amortization   |
| BFZ | \$ 1,659,263 | \$             |
| BTT | 6,245,780    | 15,764         |
| BBF | 498,461      | 3,081          |
| BNJ | 573,723      |                |
| BNY | 918,192      |                |
|     |              |                |

### 11. SUBSEQUENT EVENTS

Management s evaluation of the impact of all subsequent events on the Trusts financial statements was completed through the date the financial statements were issued and the following items were noted:

|     | Common D               | Dividend                                    |                      |        |           |
|-----|------------------------|---|----------------------|--------|-----------|
|     | Per Share              |   | Preferred Shares (c) |        |           |
|     | Paid <sup>(a)</sup> De | Paid <sup>(a)</sup> Declared <sup>(b)</sup> |                      | Series | Declared  |
| BFZ | \$ 0.0550 \$           | 0.0550                                      | VMTP                 | W-7    | \$257,232 |
| BFO | 0.0260                 | 0.0260                                      | N/A                  | N/A    | N/A       |
| BTT | 0.0718                 | 0.0718                                      | RVMTP                | W-7    | 970,890   |
| BBF | 0.0665                 | 0.0665                                      | VRDP                 | W-7    | 77,288    |
| BNJ | 0.0635                 | 0.0635                                      | VMTP                 | W-7    | 88,747    |
| BNY | 0.0505                 | 0.0505                                      | VMTP                 | W-7    | 141,905   |

(a) Net investment income dividend paid on March 1, 2018 to Common Shareholders of record on February 15, 2018.

(b) Net investment income dividend declared on March 1, 2018, payable to Common Shareholders of record on March 15, 2018.

<sup>(c)</sup> Dividends declared for period February 1, 2018 to February 28, 2018.

Effective December 31, 2017, Jerrold B. Harris retired as a Trustee of the Trusts.

As of the date of this report, the portfolio managers of BFZ are Walter O Connor, Ted Jaeckel and Michael Perilli. Mr. Perilli joined BFZ s portfolio management team effective February 1, 2018. Mr. Perilli has been a Vice President of BlackRock, Inc. since 2014, and an Associate thereof from 2008 to 2014.

Effective February 16, 2018, Barbara G. Novick resigned, and Robert Fairbairn was appointed, as an interested Trustee of the Trusts.

2018 BLACKROCK SEMI-ANNUAL REPORT TO SHAREHOLDERS

Additional Information

#### **Trust Certification**

Certain Trusts are listed for trading on the NYSE and have filed with the NYSE their annual chief executive officer certification regarding compliance with the NYSE s listing standards. The Trusts filed with the SEC the certification of its chief executive officer and chief financial officer required by section 302 of the Sarbanes-Oxley Act.

## **Dividend Policy**

Each Trust s dividend policy is to distribute all or a portion of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of distributions, the Trusts may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the distributions paid by the Trusts for any particular month may be more or less than the amount of net investment income earned by the Trusts during such month. The Trusts current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

#### **General Information**

The Trusts do not make available copies of their Statements of Additional Information because the Trusts shares are not continuously offered, which means that the Statement of Additional Information of each Trust has not been updated after completion of the respective Trust s offerings and the information contained in each Trust s Statement of Additional Information may have become outdated.

During the period, there were no material changes in the Trusts investment objectives or policies or to the Trusts charters or by-laws that would delay or prevent a change of control of the Trusts that were not approved by the shareholders or in the principal risk factors associated with investment in the Trusts. Except as disclosed on page 76, there have been no changes in the persons who are primarily responsible for the day-to-day management of the Trusts portfolios.

Quarterly performance, semi-annual and annual reports, current net asset value and other information regarding the Trusts may be found on BlackRock s website, which can be accessed at **http://www.blackrock.com**. Any reference to BlackRock s website in this report is intended to allow investors public access to information regarding the Trusts and does not, and is not intended to, incorporate BlackRock s website in this report.

#### **Electronic Delivery**

Shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual shareholder reports by enrolling in the electronic delivery program. Electronic copies of shareholder reports are available on BlackRock s website.

To enroll in electronic delivery:

## Shareholders Who Hold Accounts with Investment Advisers, Banks or Brokerages:

## Edgar Filing: BLACKROCK CALIFORNIA MUNICIPAL INCOME TRUST - Form N-CSRS

Please contact your financial advisor. Please note that not all investment advisers, banks or brokerages may offer this service.

## Householding

The Trusts will mail only one copy of shareholder documents, annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Trusts at (800) 882-0052.

#### Availability of Quarterly Schedule of Investments

The Trusts file their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trusts Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room or how to access documents on the SEC s website without charge may be obtained by calling (800) SEC-0330. The Trusts Forms N-Q may also be obtained upon request and without charge by calling (800) 882-0052.

## Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available upon request and without charge (1) by calling (800) 882-0052; (2) at **http://www.blackrock.com**; and (3) on the SEC s website at http://www.sec.gov.

## Availability of Proxy Voting Record

Information about how the Trusts voted proxies relating to securities held in the Trusts portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at **http://www.blackrock.com**; or by calling (800) 882-0052; and (2) on the SEC s website at http://www.sec.gov.

ADDITIONAL INFORMATION

Additional Information (continued)

#### **Availability of Trust Updates**

BlackRock will update performance and certain other data for the Trusts on a monthly basis on its website in the Closed-end Funds section of **http://www.blackrock.com** as well as certain other material information as necessary from time to time. Investors and others are advised to check the website for updated performance information and the release of other material information about the Trusts. This reference to BlackRock s website is intended to allow investors public access to information regarding the Trusts and does not, and is not intended to, incorporate BlackRock s website in this report.

#### **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients) and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

GLOSSARY OF TERMS USED IN THIS REPORT

This report is intended for current holders. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares, and the risk that fluctuations in short-term interest rates may reduce the Common Shares yield. Statements and other information herein are as dated and are subject to change.

## (iv) Portfolio Manager Potential Material Conflicts of Interest

BlackRock has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, Inc., its affiliates and significant shareholders and any officer, director, shareholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, Inc., or any of its affiliates or significant shareholders, or any officer, director, shareholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock, Inc. s (or its affiliates or significant shareholders ) officers, directors or employees are directors or officers, or companies as to which BlackRock, Inc. or any of its affiliates or significant shareholders or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Certain portfolio managers also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a fund. It should also be noted that a portfolio manager may be managing hedge fund and/or long only accounts, or may be part of a team managing hedge fund and/or long only accounts, subject to incentive fees. Such portfolio managers may therefore be entitled to receive a portion of any incentive fees earned on such accounts. Currently, the portfolio manager of this Fund is not entitled to receive a portion of incentive fees of other accounts.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock, Inc. has adopted policies that are intended to ensure reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base, as appropriate.

(a)(3) As of January 31, 2018:

## Portfolio Manager Compensation Overview

The discussion below describes the portfolio manager s compensation as of January 31, 2018.

BlackRock s financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock.

Base compensation. Generally, portfolio managers receive base compensation based on their position with the firm.

**Discretionary Incentive Compensation.** Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager s group within BlackRock, the investment performance, including risk-adjusted returns, of the firm s assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual s performance and contribution to the overall performance of these portfolios and BlackRock. In most cases, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Funds or other accounts managed by the portfolio manager s compensation based on the performance of the Funds and other accounts managed by each portfolio manager relative to the various benchmarks. Performance of fixed income funds is measured on a pre-tax and/or after-tax basis over various time periods including 1-, 3- and 5- year periods, as applicable. With respect to the portfolio manager, such benchmarks for the Fund and other accounts are: a combination of market-based indices (e.g., Standard & Poor s Municipal Bond Index), certain customized indices and certain fund industry peer groups.

**Distribution of Discretionary Incentive Compensation.** Discretionary incentive compensation is distributed to portfolio managers in a combination of cash, deferred BlackRock, Inc. stock awards, and/or deferred cash awards that notionally track the return of certain BlackRock investment products.

Portfolio managers receive their annual discretionary incentive compensation in the form of cash. Portfolio managers whose total compensation is above a specified threshold also receive deferred BlackRock, Inc. stock awards annually as part of their discretionary incentive compensation. Paying a portion of discretionary incentive compensation in the form of deferred BlackRock, Inc. stock puts compensation earned by a portfolio manager for a given year at risk based on BlackRock s ability to sustain and improve its performance over future periods. In some cases, additional deferred BlackRock, Inc. stock may be granted to certain key employees as part of a long-term incentive award to aid in retention, align interests with long-term shareholders and motivate performance. Deferred BlackRock, Inc. stock awards are generally granted in the form of BlackRock, Inc. restricted stock units that vest pursuant to the terms of the applicable plan and, once vested, settle in BlackRock, Inc. common stock. The portfolio manager of this Fund has deferred BlackRock, Inc. stock awards.

For certain portfolio managers, a portion of the discretionary incentive compensation is also distributed in the form of deferred cash awards that notionally track the returns of select BlackRock investment products they manage, which provides direct alignment of portfolio manager discretionary incentive compensation with investment product results. Deferred cash awards vest ratably over a number of years and, once vested, settle in the form of cash. Only portfolio managers who manage specified products and whose total compensation is above a specified threshold are eligible to participate in the deferred cash award program.

**Other Compensation Benefits.** In addition to base salary and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

*Incentive Savings Plans* BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock, Inc. employees are eligible to participate, including a 401(k) plan, the BlackRock

Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 8% of eligible pay contributed to the plan capped at \$5,000 per year, and a company retirement contribution equal to 3-5% of eligible compensation up to the Internal Revenue Service limit (\$275,000 for 2018). The RSP offers a range of investment options, including registered investment companies and collective investment funds managed by the firm. BlackRock, Inc. contributions follow the investment direction set by participants for their own contributions or, absent participant investment direction, are invested into a target date fund that corresponds to, or is closest to, the year in which the participant attains age 65. The ESPP allows for investment in BlackRock, Inc. common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares of common stock or a dollar value of \$25,000 based on its fair market value on the purchase date. All of the eligible portfolio managers are eligible to participate in these plans.
