Securities registered or to be registered pursuant to Section 12(b) of the Act.

| Title of Each Class | Name of Each Exchange on Which Registered |
|---|--|
| American Depositary Shares, each representing one ordinary share, par value US\$0.01 per share | Nasdaq Global Market |

Securities registered or to be registered pursuant to Section 12(g) of the Act.

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act.

None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

96,583,929 ordinary shares (including 27,039,893 ordinary shares we reserved for issuance upon the exercise of options under our share incentive plan and for our treasury ADSs), par value US\$0.01 per share, as of December 31, 2017.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: The9 LTD - Form 20-F

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or an emerging growth company. See definition of large accelerated filer, accelerated filer, and emerging growth company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Emerging growth company

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

The term new or revised financial accounting standard refers to any update issued by the by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012. Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued

Other

by the International Accounting Standards Board

* If Other has been checked in response to the previous question, indicate by check mark which financial statement Item the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

INTRODUCTION

In this annual report, unless otherwise indicated, (1) the terms we, us, our company, our and The9 refer to The9 Limited and, as the context may require, its subsidiaries and our consolidated affiliated entities, (2) the terms affiliated entities and affiliated PRC entities refer to our consolidated affiliated PRC entities, including, among others, Shanghai The9 Information Technology Co., Ltd., or Shanghai IT, in which we do not have direct equity interests but over which we effectively control through a series of contractual arrangements as described under Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions Arrangements with Affiliated PRC Entities, (3) the terms shares and ordinary shares refer to our ordinary shares, and ADSs refers to our American depository shares, each of which represents one ordinary share, (4) China and PRC refer to the People's Republic of China, and solely for the purpose of this annual report, excluding Taiwan, Hong Kong and Macau, (5) all references to RMB and Renminbi are to the legal currency of China and all references to U.S. dollars, dollars, US\$ and \$ are to the legal currency of the United States, (6) all discrepancies in any table between the amounts identified as total amounts and the sum of the amounts listed therein are due to rounding, and (7) all translations from Renminbi to U.S. dollars and from U.S. dollars to RMB in this annual report were made at a rate of RMB6.5063 to US\$1.00, based on the H.10 weekly statistical release of the Federal Reserve Bank of New York as of December 29, 2017. Such translations have been provided for the convenience of the reader only and should not be construed as representations that the RMB amounts represent, or have been or could be converted into, United States dollars at that or any other rate.

PART I

Item 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not Applicable.

Item 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not Applicable.

Item 3. KEY INFORMATION

A. Selected Financial Information

The following table presents selected consolidated financial information for our company. You should read the following information in conjunction with Item 5. Operating and Financial Review and Prospects below. The selected consolidated statement of operations data for the years ended December 31, 2015, 2016 and 2017 and the selected consolidated balance sheet data as of December 31, 2016 and 2017 have been derived from our audited consolidated financial statements and should be read in conjunction with those statements, which are included in this annual report beginning on page F-1. The selected consolidated statement of operations data for the years ended December 31, 2013 and 2014 and the selected consolidated balance sheet data as of December 31, 2013, 2014 and 2015 have been derived from our audited consolidated financial statements, which are not included in this annual report. The consolidated financial statements were prepared and presented in accordance with United States generally accepted accounting principles, or U.S. GAAP.

(1) Translation from Renminbi amounts into U.S. dollars was made at a rate of RMB6.5063 to US\$1.00 for the convenience of the reader only. See Item 3. Key Information A. Selected Financial Information Exchange Rate Information.

(2) Each ADS represents one ordinary share.

Exchange Rate Information

Our business is primarily conducted in China and a significant portion of our revenues are denominated in RMB. This annual report contains translations of RMB amounts into U.S. dollars based on the exchange rate set forth in the H.10 statistical release of the Federal Reserve Bank of New York. For the convenience of the readers only, this annual report contains translations of some RMB or U.S. dollar amounts for 2017 at US\$1.00 to RMB6.5063, which was the noon buying rate in effect as of December 29, 2017. The prevailing rate on April 20, 2018 was US\$1.00 to RMB

6.2940. We make no representation that any RMB or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or RMB, as the case may be, at any particular rate, the rates stated below, or at all. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Future movements in exchange rates between the U.S. dollar and the RMB may adversely affect the value of our ADSs.

The following table sets forth information concerning exchange rates between the RMB and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our other periodic reports or any other information to be provided to you.

C. Reasons for the Offer and Use of Proceeds

Not Applicable.

D. Risk Factors**Risks Related to Our Company and Our Industry**

We may continue to incur losses, negative cash flows from operating activities and net current liabilities in the future. If we are not able to return to profitability or raise sufficient capital to cover our capital needs, we may not continue as a going concern.

We incurred a net loss of RMB354.2 million, RMB667.1 million and RMB112.1 million (US\$17.2 million) for the years ended December 31, 2015, 2016 and 2017, respectively, as we continue to incur product development and sales and marketing expenses for our new products and general and administrative expenses while we have not generated significant revenues from our new games or other operations in those periods and since 2009. Our product development, sales and marketing and general and administrative expenses may increase in the future as we continue to explore various opportunities of new product and services development and business expansion in order to grow our revenues. In 2015, we recorded a gross loss of RMB21.3 million, reflecting lower revenues generated coupled with the continued incurrence of a relatively fixed portion of our costs, such as overhead, depreciation and rental charges. In 2016, we recorded a gross profit of RMB7.7 million primarily due to a decrease in cost of revenues, which was resulted from a decrease in amortization of intangible assets following an impairment of intangible assets in

mid-2016. In 2017, we had a gross profit of RMB49.4 million (US\$7.6 million), primarily due to an increase in revenue, which was resulted from recognition of deferred licensing fees, and a decrease in cost of revenues, which was resulted from a decrease in amortization of intangible assets following an impairment of intangible assets in mid-2016. Our ability to achieve profitability depends on the competitiveness of our products and services as well as our ability to control costs and to provide new products and services to meet the market demands and attract new customers. Due to the numerous risks and uncertainties associated with our business, we may not be able to achieve profitability in the short-term or long-term.

Table of Contents

In addition, our cash and cash equivalents have significantly and generally decreased since 2009, primarily due to the cash outflows from operating activities associated with our product development and sales and marketing efforts for our new games. Our cash and cash equivalents increased from RMB38.9 million as of December 31, 2016 to RMB142.6 million (US\$21.9 million) as of December 31, 2017, primarily due to the settlement payment of US\$25.0 million from one of our investee. We recorded negative operating cash flow of RMB175.6 million, RMB181.0 million and RMB86.7 million (US\$13.3 million) for the years ended December 31, 2015, 2016 and 2017, respectively. Furthermore, as of December 31, 2015, 2016 and 2017, we recorded net current liabilities of RMB350.7 million, RMB485.7 million and RMB 636.3 million (US\$97.8 million), respectively. Our net current liabilities positions as of December 31, 2015, 2016 and 2017 were primarily due to the continuous cash outflow in connection with our product development and sales and marketing activities. See Item 5. Operating and Financial Review and Prospects A. Operating Results Results of Operations. We cannot assure you that our liquidity position will improve in the future. We may continue to incur losses, negative cash flows from operating activities and net current liabilities, which may materially and adversely affect our business, prospects, liquidity, financial condition and results of operations.

We had an accumulated deficit of approximately RMB3,016.0 million (US\$463.5 million) and total current liabilities exceeded total assets by approximately RMB496.3 million (US\$76.3 million) as of December 31, 2017. If we are unable to achieve profitability or raise sufficient capital to cover our capital needs, we may not continue as a going concern. There can be no assurance that we can obtain additional financing. Our ability to obtain additional financing is subject to a number of factors, which may be beyond our control. See We may not be able to obtain additional financing to support our business and operations, and our equity or debt financings may have an adverse effect on our business operations and share price.

Our consolidated financial statements for each of the three years ended December 31, 2017 included in this annual report beginning on page F-1 have been prepared based on the assumption that we will continue on a going concern basis. The auditors of our consolidated financial statements have included in their audit reports an explanatory paragraph relating to substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts of liabilities that might result from the outcome of this uncertainty.

Our business is intensely competitive and hit driven. If we do not deliver new hit products to the market, or if consumers prefer our competitors products or services over those we provide, our operating results will suffer.

We operate in a highly competitive and dynamic market, and our future success depends not only on the popularity of our existing online games but also, in a large part, on our ability to develop and introduce new games that are attractive to our customers. To achieve this, we need to anticipate and effectively adapt to rapidly changing consumer tastes and preferences and technological advances. The development of new games and the procurement of licenses from third-party developers can be very difficult and requires high levels of innovation and significant investments. We currently focus on and have made significant investment in developing our own proprietary games., primarily mobile games. However, we do not have a proven track record of developing such games or other online games. While new products are regularly introduced, only a small number of hit titles account for a significant portion of total revenues in our industry. We may decide to cease to operate or develop any game that is no longer profitable. There is no assurance that any new game, proprietary, licensed or otherwise, to be introduced by us from time to time, including those named in Item 4. Information on the Company B. Business Overview Products and Services, could become hit products and widely accepted by the customers and the market. We may continue to incur losses, and experience net cash outflow from operating activities, decrease in cash and cash equivalents balance and net current liabilities if we fail to introduce hit games or products which gain substantial market acceptance. In addition, hit products offered by our competitors may take a larger share of the market than we anticipate, which could cause

revenues generated by our products to fall below expectations. Our competitors may develop more successful products, or offer similar products at lower price points or pursuant to payment models viewed as offering a better value than we do. Any such negative development may materially and adversely affect our business, financial condition and results of operations.

Table of Contents

We currently depend on a limited number of games, and we may not be able to successfully implement our growth strategies.

We currently depend on a limited number of games for substantially all of our revenues. In addition, we currently focus on developing a number of proprietary games and obtaining licenses to games to grow our business. We have invested significant time and resources in developing our proprietary online games, including a new mobile game that we are developing based on the intellectual property relating to CrossFire, or the CrossFire New Mobile Game. In addition, our subsidiary Asian Way Development Limited obtained a right from T3 Entertainment Co., Ltd., or T3 Entertainment, to develop a mobile game based on the intellectual property relating to a game called Audition and has sub-licensed all of its rights and obligations with respect to the development, marketing, distribution and publishing of the game to a third-party entity. However, there is no assurance that we can successfully develop the games we invest in, that we may successfully launch the games as expected on a timely basis, or at all, or if any newly launched games such as CrossFire New Mobile Game would be widely accepted by game players. In particular, the development and operation of a game usually involves significant investments and dedication of time and resources, but the resulting game product may not yield the financial return that we anticipate. Our business strategies may also involve the development and marketing of new products and services for which there are no established markets in China or in which we lack experience and expertise. If any of our games encounters any adverse development or if we are unable to develop, purchase or license additional games that are attractive to users, our business, financial condition and results of operations may be materially and adversely affected. We cannot assure you that we will be able to launch new games or continue operating existing games on a commercially viable basis or in a timely manner, or at all, or that we will be able to implement our other growth strategies. If any of these occur, our competitiveness may be harmed and our business, financial condition and results of operations may be materially and adversely affected.

New lines of business or new products and services may subject us to additional risks.

From time to time, we may implement new lines of business or offer new products and services within our existing lines of business. In January 2018, we decided to build up our blockchain-related technology capacities and we plan to provide customized services in connection with the development, offshore offering, investment and financing of blockchain-technology-enabled products, such as cryptocurrencies. However, there are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. There may be licensing and compliance requirements regarding new lines of business and the regulatory regime governing certain new markets could remain unclear. We may invest significant time and resources to develop new lines of business or new products and services, and the attention of our management may be distracted from our core business. Moreover, there can be no assurance that the introduction and development of new lines of business or new products and services would not encounter significant difficulties or delay or would achieve the profitability as we expect. Failure to successfully manage these risks in the development and implementation of new lines of business or new products or services could have a material adverse effect on our business, results of operations and prospects.

We may not be able to obtain additional financing to support our business and operations, and our equity or debt financings may have an adverse effect on our business operations and share price.

We may continue to experience material decrease in cash and cash equivalents balance and we may require additional cash resources to fund our working capital and expenditure needs, such as product developments expenses, payment of license fees and royalties, sales and marketing activities, as well as investment or acquisition transactions. We expect to continue to incur product development costs to develop our proprietary online games, primarily mobile games, and license fees and royalties to obtain game licenses from third-party developers. If our internal financial resources are insufficient to satisfy our cash requirements, we may seek additional financing through the issuance of equity securities or through debt financing, such as borrowings from commercial banks or other financial institutions

or lenders. To meet our anticipated capital needs, we have engaged and are considering multiple alternatives, including but not limited to additional equity financings, debt financings, launch of new games, other financing transactions, and cost control. See Item 5. Operating and Financial Review and Prospects B. Liquidity and Capital Resources Cash Flows and Working Capital. There can be no assurance that we will be able to successfully complete any such transaction or conduct any cost control measure with results favorable to us, or at all. If we are unable to obtain the necessary financing, we may need to license or sell our assets, seek to be acquired by another entity and/or cease operations.

Table of Contents

Any equity or debt financing may result in dilution to our existing shareholders' interests or an increase in our debt service obligations. For example, in December 2015, we issued and sold senior secured convertible notes, or the Convertible Notes, in an aggregate principal amount of US\$40,050,000 to Splendid Days Limited, or Splendid Days, in three tranches at initial conversion prices of US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively. In connection with the sale of Convertible Notes, we also issued warrants, or the Warrants, in an aggregate principal amount of US\$9,950,000 to Splendid Days in four tranches at initial exercise prices of US\$1.5, US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively. In December 2015, we obtained an entrusted loan of approximately RMB31.6 million from a third party. In 2016, we obtained bank loans of approximately RMB25.0 million (US\$3.8 million) which was subsequently fully repaid in 2017. See Item 5. Operating and Financial Review and Prospects B. Liquidity and Capital Resources Cash Flows and Working Capital. In June 2017, we entered into a share purchase agreement with each of Ark Pacific Special Opportunities Fund I, L.P., or AP Fund, and Incisight Limited, or Incisight, which is wholly owned by Mr. Jun Zhu, our chairman and chief executive officer, for the issuance and sale of a total of 25,000,000 ordinary shares, par value of US\$0.01, for a total consideration of US\$30 million. We have issued 12,500,000 unpaid ordinary shares to AP Fund and 12,500,000 unpaid ordinary shares to Incisight in June 2017, respectively. In February 2018, AP Fund assigned its rights and obligations under the share purchase agreement as a whole as well as 12,500,000 unpaid ordinary shares to a third party, Jupiter Explorer Limited, or Jupiter, and Jupiter assumed all the rights and obligations of AP Fund under the share purchase agreement. Pursuant to the share purchase agreement, these shares will be subject to redemption rights of the subsidiary of AP Fund and Incisight as long as long as the market price of our ADSs fails to reach a floor price. Both transactions are subject to customary closing conditions and have not been completed as of the date of this annual report. The Convertible Notes and the aforesaid loans significantly increased our debt obligations and any conversion or exercise, as applicable, of the Convertible Notes and Warrants by Splendid Days and any issuance of new shares may cause significant dilution to our existing shareholders' interest in our company.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance, our indebtedness, including the Convertible Notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. For example, in June 2016, Asian Development Limited, or Asian Development, our wholly-owned subsidiary, borrowed a loan of HK\$92.3 million (US\$11.9 million) from a financial services company, which is secured by a pledge of shares of L&A International Holding Limited, or L&A. As Asian Development is currently in default of the loan due to a sharp decline in the share price of L&A, the lender is entitled to foreclose the pledged L&A shares. If the market value of the pledged shares cannot cover the total outstanding amount owed by Asian Development to the lender, the lender may also make a claim against Asian Development for any outstanding amounts of the loan. As of the date of this annual report, we had not received any claims from the lender against Asian Development. Our business may not generate cash flow from operations in the future sufficient to service our debt and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations. Incurrence of additional indebtedness could also result in operating and financing covenants restricting our business operations. In addition, we cannot assure you that any such future financing will be available to us in amounts or on terms acceptable to us, if at all. If we fail to obtain sufficient financing to fund our capital needs, our business, financial condition and results or operations could be materially and adversely affected.

The Convertible Notes are subject to redemption rights by holders upon a change of control of our company or an event of default, and they contain covenants that may restrict our ability to declare dividends and our operational and financial flexibility.

In December 2015, we completed the issuance and sale of the Convertible Notes. Pursuant to the terms of the Convertible Notes, if we undergo a change of control, holders of the Convertible Notes will be entitled to require us to redeem all or part of the Convertible Notes, at a price payable in cash equal to 100% of the outstanding principal amount of the Convertible Notes, plus all accrued and unpaid interests thereon, if any. The Convertible Notes define a change of control to include: (1) our company's consolidation with, or merger with or into, any other company, and vice versa; (2) our company disposing of all or substantially all of its assets; (3) the adoption of a plan relating to the liquidation or dissolution of our company; or (4) Mr. Jun Zhu, our chairman and chief executive officer, ceasing to directly or indirectly own 20% or more of the total outstanding and issued shares of our company on a fully-diluted and as-converted basis. In addition, pursuant to the terms of the Convertible Notes, if there is a continuing event of default, the holders will be entitled to declare any of the Convertible Notes immediately due and payable, and request redemption by us at a price equal to the outstanding principal amount plus all accrued and unpaid interests thereon, if any. Events of default as defined in the Convertible Notes include, among other things, an event of default of any indebtedness of our company or our principal subsidiaries in the amount exceeding US\$500,000, and the delisting of our ADSs from the Nasdaq Global Market. In March 2017, AP Fund has provided us with a waiver agreement waiving its right to declare the Convertible Notes immediately due and payable and request redemption as a result of the default of Asian Development under the HK\$92.3 million loan. If there is a change of control of our company and any event of default under the Convertible Notes, and our cash flows and capital resources are insufficient to fund our debt service obligation, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations, which could cause a material and adverse impact on our operations and financial results.

Table of Contents

In addition, the Convertible Notes contains covenants that may limit our financial and operating flexibility. The covenants restrict our ability to, among other things, (1) make dividend or other distribution to our shareholders, and (2) sell or dispose of certain assets, if such action would result in an event of default under the Convertible Notes. As a result of the covenants, our ability to pay dividends or other distributions on our ordinary shares, including those represented by ADSs, may be limited. These covenants could also restrict our ability to raise additional capital in the future through bank borrowings and debt and equity issuances and may restrict our ability to engage in some transactions that we expect to be of benefit to us.

Certain ordinary shares issued in private placement are subject to redemption rights of our investors. If such investors exercise the redemption rights upon the occurrence of triggering event, our liquidity will be reduced.

In June 2017, we entered into a share purchase agreement with each of AP Fund and IncSight, respectively, pursuant to which we would issue and sell 12,500,000 ordinary shares of the Company, par value of US\$0.01, at a per share price of US\$1.2 to each of AP Fund and IncSight for an aggregate consideration of US\$30 million. AP Fund is controlled by its general partner, Ark Pacific Investment Management Limited, or AP Management. IncSight is controlled and wholly owned by Mr. Jun Zhu, our chairman and executive officer. AP Management and Mr. Jun Zhu have been our major shareholders prior to such transactions. We have issued 12,500,000 unpaid ordinary shares to AP Fund and 12,500,000 unpaid ordinary shares to IncSight in June 2017, respectively. In February 2018, AP Fund assigned its rights and obligations under the share purchase agreement as a whole as well as 12,500,000 unpaid ordinary shares to Jupiter, a third party, and Jupiter assumed all the rights and obligations of AP Fund under the share purchase agreement. Both transactions are subject to customary closing conditions and have not been completed yet.

After the transactions described above complete, we will be subject to certain redemption rights of the investors in accordance with these agreements. Pursuant to these agreements, if (i) the rolling volume weighted average price of our ADS is below US\$4.0 per ADS for any given 30 consecutive trading day period within the second year after the closing or (ii) any Early Redemption Event occurs within two years after the closing, Jupiter or IncSight may require us to redeem all of the ordinary shares issued under these agreement, at a price payable in cash equal to 120% of the purchase price. Early Redemption Event is defined to include, among other things, (1) the delisting or suspension of trading for more than 10 business days of our ADSs, (2) an event of default of any indebtedness of our group company in the amount exceeding US\$500,000 that result in the accelerated repayment, our company's consolidation with, or merger with or into, any other company, and vice versa; (3) Mr. Jun Zhu, our chairman and chief executive officer, ceasing to directly or indirectly own 20% or more of the total outstanding and issued shares of our company on a fully-diluted and as-converted basis; (4) material breach of the share purchase agreement or ancillary agreements by us or our Hong Kong subsidiary; and (5) insolvency of us, our Hong Kong subsidiary or other principal subsidiary. If our the market price of ADSs does not meet the floor price or any Early Redemption Event occurs within the specified period of time, we may be required to divert significant amount of cash to perform the redemption obligation, and therefore be forced to reduce or delay the expenditure in business operations or investment. We may also need to obtain additional financing for the payment of redemption price. Occurrence of any of the foregoing may materially and significantly affect our operations and financial results.

Table of Contents

The Convertible Notes are secured by, among other things, a pledge of our 100% equity interest in The9 Computer, which may result in our loss of control over Shanghai IT if we default under the Convertible Notes.

The Convertible Notes are secured by a pledge of our 100% equity interest in each of The9 Computer Technology Consulting (Shanghai) Co., Ltd., or The9 Computer, and China The9 Interactive (Shanghai) Limited, or C9I Shanghai, our wholly-owned subsidiaries in China. Each of The9 Computer and C9I Shanghai holds a significant portion of our assets and operations in China, and The9 Computer possesses the effective control over Shanghai IT, the affiliated PRC entity that operates our online game business and other ICP related businesses, through a series of contractual arrangements. If we default under the Convertible Notes in the future, the holders may enforce their claims against our equity interests in these two wholly-owned subsidiaries to satisfy our obligations under the Convertible Notes. In such an event, the holders could gain ownership of all the equity interests in The9 Computer and C9I Shanghai, and, as a result, own and control these subsidiaries as well as Shanghai IT. As we conduct substantially all of our operations in China through Shanghai IT, if we default under the Convertible Notes, we could lose control or ownership of our assets and operations in China, which would materially and adversely affect our operations and financial results. In addition, the Convertible Notes are also secured by a mortgage over our office building in Shanghai, which we currently use as our principal executive offices.

Illegal game servers, unauthorized character enhancements and other infringements of our intellectual property rights, as well as theft of in-game goods, could harm our business and reputation and materially and adversely affect our results of operation.

With the increase in the number of online game players in China, we face the risks of illegal game servers, unauthorized character enhancements and other infringements of our intellectual property rights as well as the risk of theft of in-game goods purchased by our customers. Although we have adopted a number of measures to address illegal server usage, misappropriation of our game server installation software and the establishment of illegal game servers could harm our business and reputation and materially and adversely affect our results of operations.

From time to time, we have detected a number of players who have gained an unfair advantage by installing tools that fraudulently facilitate character progression. We have installed software patches designed to prevent unauthorized modifications to our execution files. However, we cannot assure you that we will be able to identify and eliminate new illegal game servers, unauthorized character enhancements or other infringements of our intellectual property rights in a timely manner, or at all. The deletion of unauthorized character enhancements requires the affected players to restart with a new character from the starting level, and this may cause some of these players to cease playing the game altogether. If we are unable to eliminate illegal servers, unauthorized character enhancements or suffer other infringement of our intellectual property rights, our players' perception of the reliability of our games may be negatively impacted, which may reduce the number of players using our games, shorten the lifespan of our games and adversely affect our results of operations.

Our business, financial condition and results of operations may be adversely affected by the downturn in the global or Chinese economy.

Our operations are primarily conducted in China and a significant majority of our revenues are sourced from China. Accordingly, our results of operations, financial condition and prospects are influenced by economic, political and legal development in China. Although the Chinese economy has grown significantly in the past decade, its growth started to slow down since 2012. Economic conditions in China are sensitive to global economic conditions, as well as changes in domestic economic and political policies and the expected or perceived overall economic growth rate in China. Subsequent to the financial crisis in 2008, there has been considerable uncertainty over the long-term effects of the expansionary monetary and fiscal policies adopted by the central banks and financial authorities of some of the

world's leading economies, including the United States and China. There have been concerns over unrest and terrorist threats in the Middle East and Africa, which have resulted in volatility in oil and other markets, and over the conflicts involving Ukraine and Syria. There have also been concerns on the relationship among China and other Asian countries, which may result in or intensify potential conflicts in relation to territorial disputes. Any prolonged slowdown in the global or Chinese economy or the recurrence of any financial disruptions in any jurisdiction may significantly restrict our ability to obtain financing in the capital markets or from financial institutions on commercially reasonable terms, or at all. In addition, our customers may reduce, delay or cease discretionary spending on our products and services, while we may have difficulty expanding our customer base fast enough, or at all, to offset the impact of decreased spending by our existing customers.

Table of Contents

We face the risks of changing consumer preferences and uncertainty about market acceptance of our new products.

The online game industry is constantly evolving in China. Customer demand for and market acceptance of our online games is subject to a high degree of uncertainty. Our future operating results will depend on numerous factors beyond our control. These factors include, among others:

the ability of our existing and new online games to gain popularity;

customer demand for mobile games and web games;

our ability to adopt and stay abreast of any new gaming technologies;

competition against game developers and operators in and outside China;

general economic conditions, particularly economic conditions affecting discretionary consumer spending;

our ability to anticipate and timely and successfully adapt our product and service offerings constantly changing customer tastes and preferences;

the availability of other forms of entertainment;

customer demand for our in-game items; and

critical reviews and public reception of our new products.

Our ability to plan for product development and distribution and promotional activities will be significantly affected by our ability to anticipate and adapt to relatively rapid changes in consumer tastes and preferences. We currently offer and develop online games, primarily mobile games and TV games. A decline in the popularity of the types of games we offer or develop could adversely affect our business and prospects.

We may not be able to recover our market share and profitability as we operate in a highly competitive industry with numerous competitors.

There are numerous online game operators in China. Given the relatively low entry barriers, an increasing number of companies have entered the online game industry in China and a wider range of online games have been introduced to the Chinese market, and we expect this trend to continue. Our competitors vary in size and include large companies, many of which have significantly greater financial, marketing and game development resources and name recognition

than we have, such as Tencent Holdings Limited, NetEase, Inc., Happy-elements Inc., Giant Interactive Group Inc., Changyou.com Limited and Perfect World Co., Ltd. As a result, we may not be able to devote the same degree of resources as our competitors do to designing, developing, licensing or acquiring new games, undertaking extensive marketing campaigns, adopting aggressive pricing policies, paying high compensation to game developers or compensating independent game developers. Our competitors may introduce new business methods, technologies or gaming platforms from time to time. If these new business methods, technologies or gaming platforms are more attractive to customers than what we offer, our customers may switch to our competitors' games, and we may lose market share. We cannot assure you that we will be able to compete successfully against new or existing competitors, or against new business methods, technologies or gaming platforms implemented by them. In addition, the increasing competition we experience in the online game industry may also reduce the number of our users or the growth rate of our user base or reduce the game points spending for in-game premiums. All of these competitive factors could materially and adversely affect our business, financial condition and results of operations and prevent us from recovering market share and profitability.

Table of Contents

If we or our joint ventures fail to renew or acquire new online game licenses on favorable terms or at all, our future results of operations and profitability may be materially impacted.

In addition to developing and offering our own proprietary games, we and our joint ventures also seek to offer games licensed from game licensors. Historically, we have operated a number of games licensed from game licensors, most of which already expired or terminated. There is no assurance that we or our joint ventures will be able to acquire new online game licenses or favorable terms or at all, or that we or our joint ventures will be able to renew the game licenses upon their expiration.

We and our joint ventures need to renew existing licenses and may need to obtain new online game licenses, and any failure to do so on favorable terms or at all may materially and adversely affect our business, financial condition and results of operations. Online game developers may not grant or continue to grant licenses to us or our joint ventures due to commercial or other reasons. For example, our exclusive license from Smilegate Entertainment Inc., or Smilegate, to publish and operate CrossFire 2 in China was terminated in 2017 due to the slowdown of massively multiplayer online game market. If we or our joint ventures are unable to maintain a satisfactory relationship with the online game developers that have licensed games to us or our joint ventures, resulting in licenses not being renewed or licenses being prematurely terminated, or should any of these game developers either establish similar or more favorable relationships with our competitors in violation of their contractual arrangements with us or our joint ventures, or otherwise, our operating results and our business would be harmed. We cannot assure you that online game developers will renew their license agreements with us or our joint ventures, or grant us or our joint ventures a license for any new online games that they will develop or make available to us or our joint ventures expansion packs for existing games. Any failure to obtain or renew online game licenses from online game operators could harm our future results of operations or the growth of our business.

If we are unable to successfully launch and operate CrossFire New Mobile Game in China, our future results of operations may be materially and adversely affected.

We have invested a significant amount of financial and personnel resources in development of our proprietary CrossFire New Mobile Game and we expect to launch this game in 2019. In November 2017, we entered into an exclusive publishing agreement with a third-party company, pursuant to which this third-party company was granted with an exclusive right to publish the CrossFire New Mobile Game in China. There is no assurance that CrossFire New Mobile Game can be successfully developed, tested and launched, or that once CrossFire New Mobile Game is launched, we will be able to continue to operate the game at a profit or at all. The relevant Chinese governmental authorities may delay or deny the granting of the approvals required for the open beta test, commercial launch or operation of CrossFire New Mobile Game due to the content of the game or other factors. Furthermore, there is no assurance that CrossFire New Mobile Game will attract sufficient users and be commercially successful.

Future acquisitions may have an adverse effect on our ability to manage our business and our results of operations.

Pursuing selective acquisitions was a part of our strategy to expand our business in the past. Although we currently may not have the necessary capital to conduct future acquisitions given the significant net loss and negative operating cash flow we have been experiencing, we may opportunistically acquire or invest in assets, businesses or companies that we believe would be beneficial for our company. Any acquisition or investment that we make may divert the attention of our management away from our ordinary course of business and any difficulties encountered in the integration process could have an adverse effect on our ability to manage our business. In addition, our ability to grow through future acquisitions, investments or organic means will also depend on the availability of suitable acquisitions and investment targets at an acceptable cost as well as our ability to compete effectively to attract these candidates.

We may face significant competition in acquiring new businesses or companies, which may hinder the execution of our growth strategy. Future acquisitions or investments could result in a potential dilutive issuance of equity securities or the incurrence of debt, contingent liabilities, impairment losses or amortization expenses related to goodwill and other intangible assets, each of which could adversely affect our financial condition and results of operations. The benefits of an acquisition or investment may also take considerable time to develop and we cannot be certain that any particular acquisition or investment will produce its intended benefits. Future acquisitions would also expose us to potential risks, including risks associated with the assimilation of new operations, technologies and personnel, unforeseen or hidden liabilities, the diversion of resources from our existing businesses, sites and technologies, the inability to generate sufficient revenue to offset the costs and expenses of acquisitions, and potential loss of, or harm to, our relationships with employees, customers, licensors and other suppliers as a result of the integration of new businesses.

Table of Contents

Our equity investments or establishment of joint ventures and any material disputes with our investment or joint venture partners may have an adverse effect on our financial results, business prospects and our ability to manage our business.

From time to time, subject to the availability of the necessary financial resources, we make equity investments into selected targets, such as online game developers, operators or application platforms, or establish joint venture with business partners, to seek business growth opportunities. For example, in August 2014, we formed a joint venture company, System Link, with Qihoo 360, for publishing and operating Firefall, a MMOFPS, in China. In the same month, System Link licensed Firefall from our subsidiary Red 5 Singapore Pte. Ltd., or Red 5 Singapore, for a term of five years. In November 2015, our joint venture Oriental Shiny, which is majority-owned by System Link, obtained an exclusive license from Smilegate to publish and operate CrossFire 2 in China for an initial term of three years, subject to an extension to five years. We may have limited power to direct or otherwise participate in the management of operations and strategies of the companies in which we invest or the joint venture we establish. The diversion of our management's attention away from our business and any difficulties encountered in managing our interests in the respective investees or joint ventures could have an adverse effect on our ability to manage our business. Any material disputes with our investment or joint venture partners and existing shareholders may also require us to allocate significant corporate and other resources. For example, Red 5 and its affiliates are currently in dispute with Qihoo 360 and its affiliates regarding System Link and Firefall and various legal proceedings have been initiated and are ongoing in connection with such dispute. The process of legal proceedings may be lengthy and costly and may divert the attention of our management. If we cannot settle the dispute with Qihoo 360 and cannot obtain a judgment in favor of us, we may incur additional costs or damages and our business, financial condition and results of operations may be adversely affected. In addition, if our relationship with Qihoo 360 continues to deteriorate and we fail to identify an alternative partner with similar resources, we may no longer be able to continue to carry out the business conducted through System Link or its affiliates, and our operating results, business prospect and reputation may be materially and adversely affected. In addition, we may not recover our equity investments if the companies in which we invest do not perform well and equity investments could result in the incurrence of impairment losses, which could materially and adversely affect our results of operations.

Undetected programming errors or flaws in our games could harm our reputation or decrease market acceptance of our games, which would materially and adversely affect our results of operations.

Our games may contain errors or flaws, which may only be discovered after their release, particularly as we launch new games or introduce new features to existing games under tight time constraints. If our games contain programming errors or other flaws, our customers may be less inclined to continue playing our games or to recommend our games to other potential customers, and may switch to our competitors' games. Undetected programming errors and game defects can disrupt our operations, adversely affect the gaming experience of our users, harm our reputation, cause our customers to stop playing our games, divert our resources and delay market acceptance of our games, any of which could materially and adversely affect our results of operations.

We may not be able to prevent others from infringing upon our intellectual property rights, which may harm our business and expose us to litigation.

We regard our proprietary software, domain names, trade names, trademarks and similar intellectual properties as critical to our business. Intellectual property rights and confidentiality protection in China may not be as effective as in the United States or other countries. Monitoring and preventing the unauthorized use of proprietary technology is difficult and expensive. The steps we have taken may be inadequate to prevent the misappropriation of our proprietary technology. Any misappropriation could have a negative effect on our business and operating results. We may need to resort to court proceedings to enforce our intellectual property rights in the future. Litigation relating to our

intellectual property might result in substantial costs and diversion of resources and management attention away from our business. See Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

Table of Contents

Any delay or failure by the online game platforms or distributors to successfully market or sell our products and services could adversely affect our business and results of operations.

We primarily rely on game platforms and distributors to distribute, promote, market and sell our games in China. End users can purchase our virtual currencies and prepaid cards through such game platforms and distributors. A substantial portion of our sales are carried out via such game platforms and distributors. We do not have long-term agreements with any online game platforms or distributors. A delay or failure by the online game platforms or distributors to successfully market or sell our prepaid cards or products may adversely affect our business and results of operations. We cannot assure you that we will continue to maintain favorable relationships with the online game platforms and distributors, and any failure to do so could materially and adversely affect our business and results of operations could be materially and adversely affected.

We rely on services and licenses from third parties to carry out our businesses, and if there is any negative development in these services or licenses, our end users may cease to use our products and services.

We rely on third parties for certain services and licenses for our business, including game platforms and distributors for the distribution of our games, and other services and licenses for our operations. For example, we rely on third-party licenses for some of the software underlying our technology platform, and on China Telecom's Internet data centers for hosting our servers. See Item 4. Information on the Company B. Business Overview Pricing, Distribution and Marketing.

Any interruption or any other negative development in our ability to rely on these services and licenses, such as material deterioration of quality of the third-party services or the loss of intellectual property relating to licenses held by our licensors, could have a material and adverse impact on our business operations. In particular, our game licensors may be subject to intellectual property rights claims with respect to the games or software licensed to us. If such licensors cannot prevail on the legal proceedings brought against them, we could lose the right to use the licensed games or software. Furthermore, if our arrangements with any of these third parties are terminated or modified against our interest, we may not be able to find alternative solutions on a timely basis or on terms favorable to us. If any of these events occur, our end users may cease using our products and services, and our business, financial condition and results of operations may be materially and adversely affected.

Unexpected network interruptions caused by system failures or other internal or external factors may lead to user attrition, revenue reductions and may harm our reputation.

Any failure to maintain satisfactory performances, reliability, security and availability of our network infrastructure may cause significant harm to our reputation and our ability to attract and maintain users. The system hardware for our operations is located in several cities in China. We maintain our backup system hardware and operate our back-end infrastructure in Shanghai. Server interruptions, breakdowns or system failures in the cities where we maintain our servers and system hardware, including failures that may be attributable to sustained power shutdowns, or other events within or outside our control that could result in a sustained shutdown of all or a material portion of our services, could adversely impact our ability to service our users.

Our network systems are also vulnerable to damage from computer viruses, fire, flood, earthquake, power loss, telecommunications failures, computer hacking and similar events. We maintain property insurance policies covering our servers, but do not have business interruption insurance.

Our business may be harmed if our technology becomes obsolete or if our system infrastructure fails to operate effectively.

The online game industry is subject to rapid technological change. We need to anticipate the emergence of new technologies and games, assess their acceptance and make appropriate investments. If we are unable to do so, new technologies in online game programming or operations could render our games obsolete or unattractive. In addition, our business may be harmed if we are unable to upgrade our systems fast enough to accommodate fluctuations in future traffic levels, avoid obsolescence or successfully integrate any newly developed or acquired technology with our existing systems. Capacity constraints could cause unanticipated system disruptions and slower response times, affecting data transmission and game play. These factors could, among other things, cause us to lose existing or potential customers and existing or potential game development partners.

Table of Contents

We have been and may be subject to future intellectual property rights claims or other claims, which could result in substantial costs and diversion of our financial and management resources away from our business.

There is no assurance that our online games, including our mobile games, or other content posted on our websites, whether proprietary or licensed from third parties, do not or will not infringe upon patents, valid copyrights or other intellectual property rights held by third parties. We may be subject to legal proceedings and claims from time to time relating to the intellectual property of others. For example, in May 2012, the People's Supreme Court of China affirmed a judgment against us and other defendants in a lawsuit filed by Beijing Founder Electronics Co., Ltd., which ruled that WoW client installation packages sold by us in 2007 contained fonts that infringed Beijing Founder Electronics Co., Ltd.'s intellectual property rights. Based on the People's Supreme Court's judgment, we were required to compensate Beijing Founder Electronics Co., Ltd. an aggregate amount of RMB2.2 million, which we have fully settled. In June 2013, Beijing No.1 People's Intermediate Court issued a judgment against us in a lawsuit filed by Diego Maradona, a former Argentina soccer player, which ruled that we infringed Maradona's personal right by using his name and photos on our game Winning Goal, a web and social game we previously operated, without proper authorization. We were required to compensate Maradona an aggregate amount of RMB3.0 million and any accrued interests thereof for late payment. In February 2015, we agreed with the plaintiff to settle the claim with RMB3.3 million, which we have fully paid. See Item 8. Financial Information A. Consolidated Statements and Other Financial Information Legal Proceedings.

Some of our employees were previously employed at other companies, including our current and potential competitors. We also intend to hire additional personnel to expand our product development and technical support teams. To the extent these employees have been involved in research at our company similar to research in which they had been involved at their former employers, we may become subject to claims that such employees have used or disclosed trade secrets or other proprietary information of their former employers. In addition, our competitors may file lawsuits against us in order to gain an unfair competitive advantage over us.

If any such claim arises in the future, litigation or other dispute resolution proceedings may be necessary to retain our ability to offer our current and future games, which could result in substantial costs and diversion of our financial and management resources. Furthermore, if we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property, incur additional costs to license or develop alternative games and be forced to pay fines and damages, each of which may materially and adversely affect our business and results of operations.

Our operating results may fluctuate due to various factors, and therefore may not be indicative of our future results.

Our operating results have experienced fluctuations from time to time and will likely continue to fluctuate in the future. These fluctuations in operating results depend on a variety of factors, including the timing of new game launches, the expiration or termination of existing game licenses, and acquisition or disposal of subsidiaries. Other factors include the demand for our products and the products of our competitors, the level of usage of illegal game servers, the level of usage of the Internet, the size and rate of growth of the online game market and development and promotional expenses related to the introduction of new products. In addition, because our game software is susceptible to unauthorized character enhancements, we may periodically delete characters that are enhanced with unauthorized modifications. This has caused some affected customers to stop playing the respective game, which, in the aggregate, may cause our operating results to fluctuate.

To a significant degree, our operating expenses are based on planned expenditures and our expectations regarding prospective customer usage. Failure to meet our expectations could disproportionately and adversely affect our

operating results in any given period. As a result, our historical operating results may not necessarily be indicative of our future results.

Table of Contents

Our business depends substantially on the continuing efforts of our senior executives, and our business may be severely disrupted if we lose their services.

Our business and prospect depend heavily upon the continued services of our senior executives. We rely on their expertise in business operations, technology support and sales and marketing and on their relationships with our shareholders and distributors. We do not maintain key-man life insurance for any of our key executives. If one or more of our key executives are unable or unwilling to continue in their present positions, we may not be able to replace them easily or at all. As a result, our business may be severely disrupted, our financial condition and results of operations may be materially and adversely affected, and we may incur additional expense to recruit and train personnel.

Each of our executive officers has entered into an employment agreement with us, which contains confidentiality and non-competition provisions. If any disputes arise between our executive officers and us, we cannot assure you the extent to which any of these agreements could be enforced in China, where these executive officers reside and hold most of their assets, in light of uncertainties with the PRC legal system. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

If we are unable to attract, train and retain key individuals and highly skilled employees, our business may be adversely affected.

Our business relies on our ability to hire and retain additional qualified employees, including skilled and experienced online game developers. Since our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to retain key personnel in the future. We cannot assure you that we will be able to attract or retain the qualified game developers or other key personnel that we will need to achieve our business objectives.

PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

We are a Cayman Islands exempted company and, as such, we are classified as a foreign enterprise under PRC laws. Various regulations in China currently restrict foreign or foreign-owned entities from holding certain licenses required in China to provide online game operation services over the Internet, including Internet content provision, or ICP, Internet culture operation and Internet publishing licenses. In light of such restrictions, we primarily rely on Shanghai IT, one of our affiliated PRC entities, to hold and maintain the licenses necessary for the operation of our online games in China.

In July 2006, the Ministry of Information Industry (which has subsequently been reorganized as the Ministry of Industry and Information Technology), or MIIT, issued a notice entitled Notice on Strengthening Management of Foreign Investment in Operating Value-Added Telecommunication Services, or the MII Notice, which prohibits ICP license holders from leasing, transferring or selling a telecommunications business operating license to foreign investors in any form, or providing resources, sites or facilities to any foreign investors for their illegal operation of a telecommunications business in China. The notice also requires that ICP license holders and their shareholders directly own the domain names and trademarks used by such ICP license holders in their daily operations. The notice further requires each ICP license holder to have the necessary facilities for its approved business operations and to maintain such facilities in the regions covered by its license. In addition, all value-added telecommunication service providers are required to maintain network and information security in accordance with the standards set forth under

relevant PRC regulations. The local authorities in charge of telecommunications services are required to ensure that existing ICP license holders conduct a self-assessment of their compliance with the MII Notice and submit status reports to MIIT before November 1, 2006. Since the MII Notice was issued, we have transferred to Shanghai IT all of the domain names used in our daily operations and certain trademarks used in our daily operations, as required under the MII Notice. All relevant transfers have been completed and relevant approvals have been obtained.

Table of Contents

In September 2009, the General Administration of Press and Publication, Radio, Film and Television, or GAPPRFT (formerly known as the General Administration of Press and Publication, or GAPP), promulgated the Circular Regarding the Implementation of the Department Reorganization Regulation by State Council and Relevant Interpretation by State Commission Office for Public Sector Reform to Further Strengthen the Administration of Pre-approval on Online Games and Approval on Import Online Games, or the GAPP Circular, which provides that foreign investors shall not control or participate in PRC online game operation businesses indirectly or in a disguised manner by establishing joint venture companies or entering into relevant agreements with, or by providing technical supports to, such PRC online game operation companies, or by inputting the users' registration, account management or game card consumption directly into the interconnected gaming platform or fighting platform controlled or owned by the foreign investor. In addition, on February 4, 2016, the GAPPRFT and the MIIT jointly issued the Administrative Measures on Network Publication, or the Network Publication Measures, which took effect in March 2016. Pursuant to the Network Publication Measures, wholly foreign-owned enterprises, Sino-foreign equity joint ventures and Sino-foreign cooperative enterprises shall not engage in the provision of web publishing services, including online game services. Project cooperation involving internet publishing services between an internet publishing service provider and a wholly foreign-owned enterprise, Sino-foreign equity joint venture, or Sino-foreign cooperative enterprise within China or an overseas organization or individual shall be subject to prior examination and approval by the GAPPRFT. It is unclear whether the authorities will deem our VIE structure as a kind of such manners of cooperation by foreign investors to gain control over or participate in domestic online game operators, and it is not clear whether GAPPRFT and MIIT have regulatory authority over the ownership structures of online game companies based in China and online game operation in China.

Subject to the interpretation and implementation of the GAPP Circular and the Network Publication Measures, the ownership structure and the business operation models of our PRC subsidiaries and affiliated PRC entities comply with all applicable PRC laws, rules and regulations, and no consent, approval or license is required under any of the existing laws and regulations of China for their ownership structure and business operation models except for those which we have already obtained or which would not have a material adverse effect on our business or operations as a whole. There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Accordingly, we cannot assure you that PRC government authorities will ultimately take a view that is consistent with the opinion of our PRC legal counsel.

For example, the Ministry of Commerce, or MOFCOM, promulgated the Rules of Ministry of Commerce on Implementation of Security Review System of Mergers and Acquisitions of Domestic Enterprises by Foreign Investors in August 2011, or the MOFCOM Security Review Rules, to implement the Notice of the General Office of the State Council on Establishing the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors promulgated on February 3, 2011, or Circular No. 6. According to these circulars and rules, a security review is required for mergers and acquisitions by foreign investors having national defense and security concerns and mergers and acquisitions by which foreign investors may acquire the de facto control of domestic enterprises having national security concerns. In addition, when deciding whether a specific merger or acquisition of a domestic enterprise by foreign investors is subject to the security review, MOFCOM will look into the substance and actual impact of the transaction. The MOFCOM Security Review Rules further prohibit foreign investors from bypassing the security review requirement by structuring transactions through proxies, trusts, indirect investments, leases, loans, control through contractual arrangements or offshore transactions. There is no explicit provision or official interpretation stating that our online game operation services falls into the scope subject to the security review, and there is no requirement for foreign investors in those merger and acquisition transactions already completed prior to the promulgation of Circular No. 6 to submit such transactions to MOFCOM for security review. As we have already obtained the de facto control over our affiliated PRC entities prior to the effectiveness of these circulars and rules, we do not believe we are required to submit our existing contractual arrangement to MOFCOM for security review. However, we are advised by our PRC legal counsel that, as there is a lack of clear statutory interpretation on

the implementation of these circulars and rules, there is no assurance that MOFCOM will have the same view as we do when applying these national security review-related circulars and rules.

We have been further advised by our PRC counsel that if we, any of our PRC subsidiaries or affiliated PRC entities are found to be in violation of any existing or future PRC laws or regulations, including the MII Notice, the GAPP Circular and the Network Publication Measures, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities, would have broad discretion in dealing with such violations, including:

revoking the business and operating licenses of Shanghai IT;

confiscating our income or the income of Shanghai IT;

Table of Contents

discontinuing or restricting the operations of any related party transactions among us and Shanghai IT;

limiting our business expansion in China by way of entering into contractual arrangements;

imposing fines or other requirements with which we may not be able to comply;

requiring Shanghai IT or us to restructure our corporate structure or operations; or

requiring Shanghai IT or us to discontinue any portion or all of our operations related to online games.

The imposition of any of these penalties could result in a material and adverse effect on our ability to conduct our business and on our results of operations. If any of these penalties results in our inability to direct the activities of Shanghai IT that most significantly impact its economic performance, and/or our failure to receive the economic benefits from Shanghai IT, we may not be able to consolidate Shanghai IT in our consolidated financial statements in accordance with U.S. GAAP.

We rely on contractual arrangements for our operations and operating licenses in China, which may not be as effective in providing operational control as direct ownership.

Because the PRC government restricts our ownership of ICP, Internet culture operation and Internet publishing businesses in China, we primarily depend on Shanghai IT, in which we have no ownership interest, to operate our online game business and other ICP related businesses, and hold and maintain the requisite licenses. We have relied and expect to continue to rely on contractual arrangements to obtain effective control over Shanghai IT. Such contractual arrangements may not be as effective as direct ownership in providing us with control over the Shanghai IT. From the legal perspective, if Shanghai IT fails to perform its obligations under the contractual arrangements, we may have to incur substantial costs and spend other resources to enforce such arrangements, and rely on legal remedies under PRC law, including seeking specific performance or injunctive relief and claiming damages. For example, if the shareholders of Shanghai IT were to refuse to transfer their equity interests in Shanghai IT to us or our designee when we exercise the call option pursuant to the Call Option Agreement, or if such shareholders otherwise act in bad faith toward us, we may have to take legal action to compel it to fulfill their contractual obligations, which could be time consuming and costly.

These contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. The legal environment in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In particular, a draft version of the PRC Foreign Investment Law from the MOFCOM may have a substantial impact on our corporate structure as well as our business operations. See Substantial uncertainties exist with respect to the enactment timetable, interpretation and implementation of the draft PRC Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations. We have historically derived significant revenues from Shanghai IT. For the years ended December 31, 2015, 2016 and 2017, Shanghai IT contributed 74.1%, 60.4% and 25.8%, respectively, of our total revenues. In the event we are unable to enforce the contractual arrangements, we may not be able to have the power to direct the activities that most significantly affect the economic performance of Shanghai IT, and our ability to conduct our business may be negatively affected, and we may not be able to consolidate the financial results of Shanghai IT into our consolidated financial statements in accordance with U.S. GAAP.

We believe that our option to purchase all or part of the equity interests in Shanghai IT, when and to the extent permitted by PRC law, or request any existing shareholder of Shanghai IT to transfer all or part of the equity interest in Shanghai IT to another PRC person or entity designated by us at any time in our discretion, and the rights under the Shareholder Voting Proxy Agreement that the shareholders of Shanghai IT have granted to us, effectively enable us to have the ability to cause the related contractual arrangements to be renewed when needed. However, if we are not able to effectively enforce these agreements or otherwise renew the relevant agreements when they expire, our ability to receive the economic benefits of Shanghai IT may be adversely affected.

Table of Contents***Our ability to enforce the Equity Pledge Agreements between us and the shareholders of Shanghai IT may be subject to limitations based on PRC laws and regulations.***

Pursuant to the Equity Pledge Agreements with the shareholders of Shanghai IT, such shareholders agreed to pledge their equity interests in Shanghai IT to secure their performance under the relevant contractual arrangements. The equity pledges of Shanghai IT under these Equity Pledge Agreements have been registered with the relevant local administration for industry and commerce pursuant to the new PRC Property Rights Law. According to the PRC Property Rights Law and PRC Guarantee Law, the pledgee and the pledgor are prohibited from making an agreement prior to the expiration of the debt performance period to transfer the ownership of the pledged equity to the pledgee when the obligor fails to pay the debt due. However, under the PRC Property Rights Law, when an obligor fails to pay its debt when due, the pledgee may choose to either conclude an agreement with the pledgor to obtain the pledged equity or seek payments from the proceeds of the auction or sell-off of the pledged equity. If Shanghai IT or its shareholders fail to perform their obligations secured by the pledges under the Equity Pledge Agreements, one remedy in the event of default under the agreements is to require the pledgors to sell the equity interests of Shanghai IT in an auction or private sale and remit the proceeds to our wholly-owned subsidiaries in China, net of related taxes and expenses. Such an auction or private sale may not result in our receipt of the full value of the equity interests in Shanghai IT. We consider it very unlikely that the public auction process would be undertaken since, in an event of default, our preferred approach is to ask The9 Computer, our PRC wholly-owned subsidiary and a party to the Call Option Agreement, to replace or designate another PRC person or entity to replace the existing shareholders of Shanghai IT pursuant to the direct transfer option we have under the option agreement.

In addition, in the registration forms of the local branch of State Administration for Industry and Commerce for the pledges over the equity interests under the Equity Pledge Agreements, the amount of registered equity interests in Shanghai IT pledged to us was stated as RMB23.0 million, which represent 100% of the registered capital of Shanghai IT. The Equity Pledge Agreements with the shareholders of Shanghai IT provide that the pledged equity interest shall constitute continuing security for any and all of the indebtedness, obligations and liabilities under all of the contractual arrangements and the scope of pledge shall not be limited by the amount of the registered capital of Shanghai IT. However, it is possible that a PRC court may take the position that the amount listed on the equity pledge registration forms represents the full amount of the collateral that has been registered and perfected. If this is the case, the obligations that are supposed to be secured under the Equity Pledge Agreements in excess of the amount listed on the equity pledge registration forms could be determined by the PRC court as unsecured debt, which takes last priority among creditors and often does not have to be paid back at all. We do not have agreements that pledge the assets of Shanghai IT for the benefit of us.

Our contractual arrangements with our affiliated entities may result in adverse tax consequences to us.

We could face material and adverse tax consequences if the PRC tax authorities determine that our contractual arrangements with Shanghai IT and our other affiliated entities were not made on reasonable or arm's length commercial terms or otherwise. If this were to occur, they may adjust our income and expenses for PRC tax purposes in the form of a transfer pricing adjustment. A transfer pricing adjustment could result in a reduction, for PRC tax purposes, of costs and expenses recorded by our affiliated entities, which could adversely affect us by: (i) increasing the tax liability of our affiliated entities without reducing our other PRC subsidiaries' tax liability, which could further result in late payment fees and other penalties to our affiliated entities for underpaid taxes; or (ii) limiting the abilities of our affiliated entities to maintain preferential tax treatments and other financial incentives.

We may not be able to get approval for renewing our current foreign games, or for licensing new foreign games, if the PRC regulatory authorities promote a policy of domestic online or mobile game development and tighten approval criteria for online or mobile game imports.

We license and operate foreign games and may continue to do so in the near future. In the past, such foreign games mainly included massively multiplayer online role-playing games (MMORPGs) or casual games. With mobile social gaming being one of our new businesses, we also license foreign mobile games. Since 2004, relevant government authorities have promulgated several circulars, according to which the development of domestically developed online games, including mobile games, will be strategically supported by the PRC government. For example, in July 2005, MIIT and the Ministry of Culture issued the Opinion on Development and Management of Online Games, or the Opinion. The Opinion provided that domestic software development companies, network service providers and content providers will be encouraged, guided and supported to develop and promote self-developed and self-owned online games so that such games can take up a leading position in the domestic market and expand into the international market.

Table of Contents

The government will also encourage the development of derivative products to domestic online games. In support of this policy, GAPPRFT may tighten approval criteria for online game imports in an effort to protect the development of domestic online game enterprises, as well as to limit the influence of foreign culture on Chinese youth. If GAPPRFT implements such rules and policies, we may not be able to get approval for renewing our current foreign game licenses or for licensing new foreign games, and our business, financial condition and results of operations may be materially and adversely affected.

Failure to obtain or renew approvals or filings for online games and mobile games we operate may adversely affect our operations or subject us to penalties.

The Ministry of Culture has promulgated laws and regulations that require, among other things, (i) the review and prior approval of all new online games licensed from foreign game developers and related license agreements, (ii) the review of patches and updates with substantial changes of games which have already been approved, and (iii) the filing of domestically developed online games. Furthermore, online games, regardless of whether imported or domestic, will be subject to content review and approval by GAPPRFT prior to the commencement of games operations in China. Failure to obtain or renew approvals or complete filings for online games, including mobile games, may materially delay or otherwise affect a game operator's plan to launch new games, and the operator may be subject to fines, the restriction or suspension of operations of the related games or revocation of licenses in the event that the relevant governmental authority believes that the violation is severe.

We have obtained all the necessary approvals from, and have completed the necessary filings with, the Ministry of Culture and GAPP for operations of applicable games. Consistent with the general practice of the mobile and TV game industry in China, we have not yet completed filings with the Ministry of Culture and GAPPRFT for our mobile and TV games before we commenced our operations. From time to time, we also rely on certain third-party licensors of domestically developed online games to obtain approvals and complete filings with the PRC regulatory authorities. If we or any such third-party licensors fail to obtain the required approvals or complete the filings, we may not be able to continue the operation of such games. If any such negative event occurs, our business, financial condition and results of operations may be materially and adversely affected.

The principal shareholders of our affiliated PRC entities have potential conflicts of interest with us, which may adversely affect our business.

Zhimin Lin and Wei Ji, two of our employees, are the principal shareholders of Shanghai IT, one of our affiliated entities. Thus, there may be conflicts of interest between their respective duties to our company as employees and their respective shareholder interests in these affiliated PRC entities. We cannot assure you that when conflicts of interest arise, these persons will act in our best interests or that conflicts of interests will be resolved in our favor. These persons could violate their legal duties, including duties under their non-competition or employment agreements with us, by engaging in activities that are not in the best interest in our company, such as diverting business opportunities from us. In any such event, we would have to rely on the PRC legal system to enforce these agreements. Any legal proceeding could result in the disruption of our business, diversion of our resources and the incurrence of substantial costs. See Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

Table of Contents***Our subsidiaries in China are subject to restrictions on paying dividends or making other payments.***

From time to time, we may rely on dividends paid by our subsidiaries in China to fund our operations, such as paying dividends to our shareholders or meeting obligations under any indebtedness incurred by us or our overseas subsidiaries. Current PRC regulations restrict our subsidiaries in China from paying dividends in the following two principal aspects: (i) our subsidiaries in China are only permitted to pay dividends out of their respective after-tax profits, if any, determined in accordance with PRC accounting standards and regulations, and (ii) these entities are required to allocate at least 10% of their respective after-tax profits each year, if any, to fund statutory reserve funds until the cumulative total of the allocated reserves reaches 50% of registered capital, and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective boards of directors or shareholders. These reserves are not distributable as dividends. See Item 4. Information on the Company B. Business Overview Government Regulations. Further, if these entities incur debt on their behalf in the future, the instruments governing such debt may restrict their ability to pay dividends or make other payments. Our inability to receive dividends or other payments from our PRC subsidiaries may adversely affect our ability to continue to grow our business and make cash or other distributions to the holders of our ordinary shares and ADSs. In addition, failure to comply with relevant State Administration of Foreign Exchange, or SAFE, regulations may restrict the ability of our subsidiaries to make dividend payments to us. See Risks Related to Doing Business in China PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries' ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

We could be liable for breaches of security of third-party online payment channels, which may have a material adverse effect on our reputation and business.

Currently, a portion of our online game operation revenues are generated from sales through third-party online payment platforms. In such transactions, secured transmission of confidential information, such as customers' credit card numbers and expiration dates, personal information and billing addresses, over public networks, in some cases including our website, is essential to maintain consumer confidence. While we have not experienced any material breach of our security measures to date, we cannot assure you that our current security measures are adequate. We do not have control over the security measures of our third-party online payment vendors and we cannot assure you that these vendors' security measures are adequate or will be adequate with the expected increased usage of online payment systems. Security breaches of the online payment systems that we use could expose us to litigation and possible liability for failing to secure confidential customer information and could harm our reputation, ability to attract customers and ability to encourage customers to purchase in-game items.

The PRC income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to decrease.

Our subsidiaries and affiliated entities in the PRC are subject to enterprise income tax, or EIT, on the taxable income as reported in their respective statutory financial statements adjusted in accordance with the Enterprise Income Tax Law of the People's Republic of China, or EIT Law, which was approved by the National People's Congress on March 16, 2007. The EIT Law went into effect as of January 1, 2008 and was amended on February 24, 2017, which unified the tax rate generally applicable to both domestic and foreign-invested enterprises in the PRC. Our subsidiaries and affiliated entities in the PRC are generally subject to EIT at a statutory rate of 25%. Shanghai IT, our affiliated entity which holds a High and New Technology Enterprise, or HNTE, qualification is entitled to enjoy a 15% preferential EIT rate. However, we cannot assure you that Shanghai IT will meet these criteria and continue to be qualified as an HNTE if we apply to the tax authorities in the future.

Moreover, unlike the tax regulations effective before 2008, which specifically exempted withholding taxes on dividends payable to non-PRC investors from foreign-invested enterprises in the PRC, the EIT Law and its implementation rules provide that a withholding income tax rate of 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and the governments of other countries or regions. While the Tax Agreement between the PRC and Hong Kong provides dividends paid by a foreign-invested enterprise in the PRC to its corporate shareholder, which is considered a Hong Kong tax resident, will be subject to withholding tax at the rate of 5% of total dividends, this is limited to instances where the corporate shareholder directly holds at least 25% of the shares of the company that is to pay dividends for at least twelve consecutive months immediately prior to receiving the dividends and meets certain other criteria prescribed by the relevant regulations. Furthermore, under the Administrative Measures for Non-Resident Enterprises to Enjoy Treatments under Tax Treaties, non-resident taxpayers which satisfy the criteria for entitlement to tax treaty benefits may, at the time of tax declaration or withholding declaration through a withholding agent, enjoy the tax treaty benefits, and be subject to follow-up administration by the tax authorities. If the non-resident taxpayer does not apply to the withholding agent for the tax treaty benefits, or such taxpayer do not satisfy the criteria for entitlement of tax treaty benefits, the withholding agent will withhold tax pursuant to the provisions of PRC tax laws.

Table of Contents

In February 2018, the State Administration of Taxation, or SAT issued the Announcement of the State Administration of Taxation on Issues Relating to Beneficial Owner in Tax Treaties on issues relating to beneficial owner in tax treaties, or Circular No. 9, which took effect on April 1, 2018. Circular No. 9 provides detailed guidance to determine whether the applicant engages in substantive business activities to constitute a beneficial owner. When determining the applicant's status of the beneficial owner regarding tax treatments in connection with dividends, interests or royalties in the tax treaties, several factors, including without limitation, whether the applicant is obligated to pay more than 50% of his or her income in the past twelve months to residents in third country or region, whether the business operated by the applicant constitutes the actual business activities, and whether the other country or region to the tax treaties does not levy any tax or grant tax exemption on relevant incomes at all or levy tax at an extremely low rate, will be taken into account, and it will be analyzed according to the actual circumstances of the specific cases. If the non-resident taxpayer does not apply to the withholding agent for the tax treaty benefits, or such taxpayer does not satisfy the criteria to be entitled to tax treaty benefits, the withholding agent should withhold tax pursuant to the provisions of PRC tax laws. We cannot assure you that any dividends to be distributed by our subsidiaries to us or by us to our non-PRC shareholders and ADS holders, whose jurisdiction of incorporation has a tax treaty with China providing a different withholding arrangement, will be entitled to the benefits under the relevant withholding arrangement.

In addition, the EIT Law deems an enterprise established offshore but having its management organ in the PRC as a resident enterprise that will be subject to PRC tax at the rate of 25% of its global income. Under the Implementation Rules of the EIT Law, the term management organ is defined as an organ which has substantial and overall management and control over the manufacturing and business operation, personnel, accounting, properties and other factors. On April 22, 2009, the SAT further issued a notice regarding recognizing an offshore-established enterprise controlled by PRC shareholders as a resident enterprise according to its management organ, or Circular 82. According to Circular 82, a foreign enterprise controlled by a PRC company or a PRC company group shall be deemed a PRC resident enterprise, if (i) the senior management and the core management departments in charge of its daily operations are mainly located and function in the PRC; (ii) its financial decisions and human resource decisions are subject to the determination or approval of persons or institutions located in the PRC; (iii) its major assets, accounting books, company seals, minutes and files of board meetings and shareholders' meetings are located or kept in the PRC; and (iv) more than half of the directors or senior management with voting rights reside in the PRC. On July 27, 2011, SAT issued the Administrative Measures of Enterprise Income Tax of Chinese-Controlled Offshore Incorporated Resident Enterprises (Trial), or SAT Bulletin 45, which was amended in April 2015 and June 2016. SAT Bulletin 45 further clarified the detailed procedures for determining resident status under Circular 82, competent tax authorities in charge and post-determination administration of such resident enterprises. Although our offshore companies are not controlled by any PRC company or PRC company group, we cannot assure you that we will not be deemed to be a resident enterprise under the EIT Law and thus be subject to PRC EIT on our global income.

According to the EIT Law and its implementation rules, dividends are exempted from income tax if such dividends are received by a resident enterprise on equity interests it directly owns in another resident enterprise. However, foreign corporate holders of our shares or ADSs may be subject to taxation at a rate of 10% on any dividends received from us or any gains realized from the transfer of our shares or ADSs if we are deemed to be a resident enterprise or if such income is otherwise regarded as income from sources within the PRC. The EIT Law empowers the PRC State Council to enact appropriate implementing rules and measures and there is no guarantee that we or our subsidiaries will be entitled to any of the preferential tax treatments. Nor can we assure you that the tax authorities will not, in the future, discontinue any of our preferential tax treatments, potentially with retroactive effect. Any significant increase in the EIT rate under the EIT Law applicable to our PRC subsidiaries and affiliated entities, or the imposition of withholding taxes on dividends payable by our subsidiaries to us, or an EIT levy on us or any of our subsidiaries or affiliated entities registered outside the PRC, or dividends or capital gains received by our shareholders due to shares or ADSs held in us will have a material adverse impact on our results of operations and financial conditions and the

value of investments in us.

Table of Contents

We are required to pay value added tax as a result of tax reforms in various regions in China and we may be subject to similar tax treatments elsewhere in China.

On March 23, 2016, the Ministry of Finance and the SAT jointly issued the Circular on the Pilot Program for Overall Implementation of the Collection of Value Added Tax Instead of Business Tax, or Circular 36, which took effect on May 1, 2016. Pursuant to Circular 36, all companies operating in construction, real estate, finance, modern service or other sectors which were required to pay business tax are required to pay VAT in lieu of business tax. As a result of Circular 36, the services provided by Shanghai IT, The9 Computer, C9I Shanghai, Shanghai Fire Wing and The9 Education as general VAT payers will be subject to VAT at the rate of 6%, and the services provided by our other PRC subsidiaries and affiliated PRC entities as small-scale VAT payers will be subject to VAT at the rate of 3%. While as general VAT payers may reduce their VAT payable amount by the VAT which they paid in connection with their purchasing activities, or the Input VAT, those companies as small-scale VAT payers may not reduce their VAT payable amount by their Input VAT. As a result, some of our subsidiaries and affiliated PRC entities may be subject to more unfavorable tax treatment as a result of the tax reform, and our business, financial condition and results of operations could be materially and adversely affected.

Strengthened scrutiny over acquisition transactions by the PRC tax authorities may have a negative impact on our acquisition strategy.

In connection with the EIT Law, the SAT issued, on February 3, 2015, the Notice on Several Issues regarding Enterprise Income Tax for Indirect Property Transfer by Non-resident Enterprises, or SAT Circular 7, which further specifies the criteria for judging reasonable commercial purpose, and the legal requirements for the voluntary reporting procedures and filing materials in the case of indirect property transfer. SAT Circular 7 has listed several factors to be taken into consideration by tax authorities in determining whether an indirect transfer has a reasonable commercial purpose. However, despite these factors, an indirect transfer satisfying all the following criteria shall be deemed to lack reasonable commercial purpose and be taxable under the PRC laws: (i) 75% or more of the equity value of the intermediary enterprise being transferred is derived directly or indirectly from the PRC taxable properties; (ii) at any time during the one year period before the indirect transfer, 90% or more of the asset value of the intermediary enterprise (excluding cash) is comprised directly or indirectly of investments in the PRC, or 90% or more of its income is derived directly or indirectly from the PRC; (iii) the functions performed and risks assumed by the intermediary enterprise and any of its subsidiaries that directly or indirectly hold the PRC taxable properties are limited and are insufficient to prove their economic substance; and (iv) the foreign tax payable on the gains derived from the indirect transfer of the PRC taxable properties is lower than the potential PRC tax on the direct transfer of such assets. Nevertheless, the indirect transfer falling into the scope of the safe harbor under SAT Circular 7 may not be subject to PRC tax and such safe harbor includes qualified group restructuring, public market trading and tax treaty exemptions. According to SAT Circular 7, where the payer fails to withhold tax in a sufficient amount, the transferor can declare and pay such tax to the tax authority by itself within the statutory time period. Late payment of applicable tax will subject the transferor to default interest.

On October 17, 2017, the SAT released the Public Notice Regarding Issues Concerning the Withholding of Non-resident Enterprise Income Tax at Source, or SAT Public Notice 37, which further elaborates the relevant implementation rules regarding the calculation, reporting and payment obligations of the withholding tax by the non-resident enterprises.

Under SAT Circular 7 and SAT Public Notice 37, the entities or individuals obligated to pay the transfer price to the transferor shall be the withholding agent and shall withhold the PRC tax from the transfer price. If the withholding agent fails to do so, the transferor shall report to and pay the PRC tax to the PRC tax authorities. In case neither the withholding agent nor the transferor complies with the obligations under SAT Circular 7 and SAT Public Notice 37,

other than imposing penalties such as late payment interest on the transferors, the tax authority may also hold the withholding agent liable and impose a penalty of 50% to 300% of the unpaid tax on the withholding agent, provided that such penalty imposed on the withholding agent may be reduced or waived if the withholding agent has submitted the relevant materials in connection with the indirect transfer to the PRC tax authorities in accordance with SAT Circular 7 and SAT Public Notice 37.

Since we may pursue acquisition as one of our growth strategies, and have conducted and may conduct acquisitions involving complex corporate structures, the PRC tax authorities may, at their discretion, adjust the capital gains and impose tax return filing obligations on us or request us to submit additional documentation for their review in connection with any of our acquisitions, thus causing us to incur additional acquisition costs.

Table of Contents

We have adopted a shareholders rights plan, which, together with the other anti-takeover provisions of our articles of association, could discourage a third party from acquiring us, which could limit our shareholders opportunity to sell their shares, including ordinary shares represented by our ADSs, at a premium.

On January 8, 2009, our board of directors adopted a shareholder rights plan, which was subsequently amended from time to time. Under the rights plan, as amended, one right was distributed with respect to each of our ordinary shares outstanding at the close of business on January 22, 2009. In the event that, subject to limited exceptions, a person or group obtains beneficial ownership of 15% or more of our voting securities (including by acquisition of our ADSs representing ordinary shares), or enters into an acquisition transaction without the approval of our board of directors, such person or group will become the acquiring person under the plan. As a result, these rights will entitle the holders, other than the acquiring person, to purchase upon the exercise of such right the number of our ordinary shares having a market value of two times the then current purchase price associated with the right. For example, at a purchase price of US\$19.50 per right, each right not owned by an acquiring person would entitle its holder to purchase US\$39.00 worth of our ordinary shares for US\$19.50.

This rights plan and the other anti-takeover provisions of our amended and restated memorandum and articles of association could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our existing authorized ordinary shares confer on the holders of our ordinary shares equal rights, privileges and restrictions. The shareholders have, by virtue of adoption of our amended and restated memorandum and articles of association, authorized the issuance of shares of par value of US\$0.01 each without specifying any special rights, privileges and restrictions. Therefore, our board of directors may, without further action by our shareholders, issue ordinary shares, or issue shares of such class and attach to such shares special rights, privileges or restrictions, which may be different from those associated with our ordinary shares. Preferred shares could also be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue ordinary shares or preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

We have limited business insurance coverage in China.

The insurance industry in China is still at an early stage of development. Insurance companies in China offer limited business insurance products. As a result, we do not have any business liability or disruption insurance coverage for our operations in China. Any business disruption, litigation or natural disaster might result in our incurring substantial costs and the diversion of our resources.

Some of our subsidiaries, affiliated entities and joint ventures in China engaged in certain business activities beyond the authorized scope of their respective licenses, and if they are subject to administrative penalties or fines, our operating results may be adversely affected.

Some of our subsidiaries, affiliated entities and joint ventures in China engaged in business activities that were not within the authorized scope of their respective licenses in the past. The relevant PRC authorities may impose administrative fines or other penalties for the non-compliance with the authorized scope of the business licenses, which may in turn adversely affect our operating results.

Failure to achieve and maintain effective internal controls could have a material adverse effect on our business, results of operations and the trading price of our ADSs.

We are subject to reporting obligations under the U.S. securities laws. The Securities and Exchange Commission, or the SEC, as required by Section 404 of the Sarbanes-Oxley Act of 2002, has adopted rules requiring public companies to include a report of management in its annual report that contains management's assessment of the effectiveness of such company's internal controls over financial reporting.

Table of Contents

Our management has concluded that our internal controls over financial reporting were effective as of December 31, 2017. We however were not subject to the requirement to provide an attestation report on our management's assessment of our internal control over financial reporting as we were not an accelerated filer or a large accelerated filer (as defined in § 240.12b-2 under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of December 31, 2017.

However, if we fail to maintain effective internal controls over financial reporting in the future, our management and, if applicable, our independent registered public accounting firm may not be able to conclude that we have effective internal controls over financial reporting at a reasonable assurance level. This could result in a loss of investor confidence in the reliability of our financial conditions which in turn could negatively impact the trading price of our ADSs and result in lawsuits being filed against us by our shareholders or otherwise harm our reputation. Furthermore, we have incurred and anticipate that we will continue to incur considerable costs and use significant management time and other resources in an effort to comply with Section 404 and other requirements of the Sarbanes-Oxley Act.

The audit report included in this annual report is prepared by auditors who are not inspected by the Public Company Accounting Oversight Board and, as such, you may be deprived of the benefits of such inspection.

As an auditor of companies that are traded publicly in the United States and as an audit firm registered with the Public Company Accounting Oversight Board, or PCAOB, our independent registered public accounting firm is required by the laws of the United States to undergo regular inspections by the PCAOB. As our auditor is located in the PRC, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the PRC authorities, our auditor, like other independent registered public accounting firms operating in the PRC, is not currently inspected by the PCAOB. On May 24, 2013, the PCAOB announced that it had entered into a memorandum of understanding on enforcement and cooperation with the CSRC and the PRC Ministry of Finance, or the MOF, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations in the United States and China. However, direct PCAOB inspections of independent registered accounting firms in China are still not permitted by Chinese authorities.

The lack of direct PCAOB inspections in China prevents the PCAOB from regularly evaluating audit documentation located in China and its related quality control procedures. As a result, our investors may be deprived of the benefits of the PCAOB's oversight of our auditors through such inspections. The inability of the PCAOB to conduct inspections of our auditors' work papers in China makes it more difficult to evaluate the effectiveness of our auditors' audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may consequently lose confidence in our reported financial information and procedures and the quality of our financial statements.

On December 3, 2012, the SEC issued an order instituting administrative proceedings against five of the largest global public accounting firms relating to work performed in the PRC and such firms' failure to provide audit work papers to the SEC in this regard. Our independent registered public accounting firm is not one of the accounting firms referenced in the order. On January 22, 2014, an initial administrative law decision was issued, censuring the five accounting firms and suspending four of the five firms from practicing before the SEC for a period of six months. On February 12, 2014, four of these PRC-based accounting firms appealed to the SEC against this decision. In February 2015, each of the four PRC-based accounting firms agreed to a censure and to pay a fine to the SEC to settle the dispute and avoid suspension of their ability to practice before the SEC. The settlement requires the firms to follow detailed procedures to seek to provide the SEC with access to Chinese firms' audit documents via the CSRC. If the firms do not follow these procedures, the SEC could impose penalties such as suspensions, or it could restart the administrative proceedings.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with significant PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about the proceedings against these audit firms may cause investor uncertainty regarding China-based, United States-listed companies and the market price of our shares may be adversely affected.

If our independent registered public accounting firm was denied, temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined to not be in compliance with the requirements of the Exchange Act. Such a determination could ultimately lead to the delisting of our ordinary shares from Nasdaq or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Table of Contents***We face risks related to health epidemics and other natural disasters.***

Our business could be adversely affected by swine or avian influenza, severe acute respiratory syndrome, or SARS, or another epidemic or outbreak. Any prolonged recurrence of swine or avian influenza, SARS or other adverse public health developments in China may have a material adverse effect on our business operations. Our operations may be impacted by a number of health-related factors, including, among other things, quarantines or closures of our offices which could severely disrupt our operations, the sickness or death of our key officers and employees and closure of Internet cafés and other public areas where people access the Internet. Any of the foregoing events or other unforeseen consequences of public health problems could adversely affect our business and results of operations. We have not adopted any written preventive measures or contingency plans to combat any future outbreak of swine or avian influenza, SARS or any other epidemic. In addition, other major natural disasters may also adversely affect our business by, for example, causing disruptions of the Internet network or otherwise affecting access to our games, or resulting in damages to our facilities.

Risks Related to Doing Business in China***Our business may be adversely affected by public opinion and government policies in China.***

Currently, most of our recurring users are young males, including students. Due to the recent population and higher degree of user loyalty to mobile games, easy access to personal computers and mobile devices, and lack of more appealing forms of entertainment in China, many teenagers frequently play online games. This may result in these teenagers spending less time on, or refraining from, other activities, including education and sports. In April 2007, various governmental authorities, including GAPP, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities jointly issued a circular concerning the mandatory implementation of an anti-fatigue system in online games, which aims to protect the physical and psychological health of minors. This circular required all online games to incorporate an anti-fatigue system and an identity verification system, both of which have limited the amount of time that a minor or other user may continuously spend playing an online game. We have implemented such anti-fatigue and identification systems on all of our online games as required. Since March 2011, various governmental authorities, including MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities have jointly launched the Online Game Parents Guardianship Project for Minors, which allows parents to require online game operators to take relevant measures to limit the time spent by the minors playing online games and the minors' access to their online game accounts. On February 5, 2013, the Ministry of Culture, MIIT, GAPP and various other governmental authorities, jointly issued the Working Plan on the Comprehensive Prevention Scheme on Online Game Addiction of Minors, which further strengthens the administration of Internet cafés, reinstates the importance of the anti-fatigue system and Online Game Parents Guardianship Project for Minors as prevention measures against the online game addiction of minors and orders all relevant governmental authorities to take all necessary actions in implementing such measures. In addition, on December 1, 2016, MOC issued the Circular on Regulating Online Game Operations and Strengthening Interim and Ex Post Regulation, or the MOC Online Games Regulation, which became effective on May 1, 2017. Pursuant to the MOC Online Games Regulation, an enterprise engaged in online game operations shall strictly comply with the provisions of the Online Game Parents Guardianship Project for Minors, and online game operators are encouraged to set upper limits on the consumption by users who are minors, limit the amount of time that such users are allowed to spend on online games, and take technical measures to block scenes and functions, among other things, that are not suitable for users who are minors. Further strengthening of these systems, or enactment by the PRC government of any additional laws to further tighten its administration over the Internet and online games may result in less time spent by customers or fewer customers playing our online games, which may materially and adversely affect our business results and prospects for future growth.

Table of Contents

Adverse changes in economic and political policies of the PRC government could have a material adverse effect on the overall economic growth of China, which could adversely affect our business.

We conduct substantially all of our business operations in China. As the gaming industry is highly sensitive to business and personal discretionary spending, it tends to decline during general economic downturns. Accordingly, our results of operations, financial condition and prospects are subject to a significant degree to economic, political and legal developments in China. China's economy differs from the economies of most developed countries in many respects, including with respect to the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past twenty years, growth has slowed down since 2012 and has been uneven across different regions and among various economic sectors of China. The PRC government has implemented various measures to encourage economic development and guide the allocation of resources. While some of these measures benefit the overall PRC economy, they may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us. As the PRC economy is increasingly intricately linked to the global economy, it is affected in various respects by downturns and recessions of major economies around the world. The various economic and policy measures the PRC government enacts to forestall economic downturns or shore up the PRC economy could affect our business.

Although the PRC government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China are still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. These actions, as well as future actions and policies of the PRC government, could materially affect our liquidity and access to capital and our ability to operate our business.

The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected.

The online game industry in China is highly regulated by the PRC government. Various regulatory authorities of the PRC central government, such as the State Council, MIIT, GAPPRFT, the Ministry of Culture and the Ministry of Public Security, are empowered to issue and implement regulations governing various aspects of the online games industry.

We are required to obtain applicable permits or approvals from different regulatory authorities in order to provide online games to our customers. For example, an Internet content provider must obtain a value-added telecommunications business operating license for ICP, or ICP License, in order to engage in any commercial ICP operations within China. In addition, an online games operator must also obtain a license from the Ministry of Culture and a license from GAPPRFT in order to distribute games through the Internet. Furthermore, an online game operator is required to obtain approval from the Ministry of Culture in order to distribute virtual currencies for online games such as prepaid value cards, prepaid money or game points. If we fail to obtain or maintain any of the required filings, permits or approvals in the future, we may be subject to various penalties, including fines and the discontinuation or restriction of our operations. Any such disruption in our business operations would materially and adversely affect our financial condition and results of operations.

As the online game industry is at an early stage of development in China, new laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have, and may address new issues that arise from time to time. As a result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to the online gaming industry. We cannot assure you that we will be able to timely obtain any new license required in the future, or at all. While we believe that we are in compliance in all material respects with all applicable PRC laws and regulations currently in effect, we cannot assure you that we will not be found in violation of any current or future PRC laws and regulations.

Table of Contents***Regulation and censorship of information disseminated over the Internet in China may adversely affect our business, and we may be liable for information displayed on, retrieved from, or linked to our Internet websites.***

The PRC government has adopted certain regulations governing Internet access and the distribution of news and other information over the Internet. Under these regulations, Internet content providers and Internet publishers are prohibited from posting or displaying over the Internet content that, among other things, violates PRC laws and regulations, impairs the national dignity of China, or is obscene, superstitious, fraudulent or defamatory. Failure to comply with these requirements could result in the revocation of ICP and other required licenses and the closure of the concerned websites. The website operator may also be held liable for such prohibited information displayed on, retrieved from or linked to such website.

The Ministry of Culture has promulgated laws and regulations that reiterate the government's policies to prohibit the distribution of games with violence, cruelty or other elements that are believed to have the potential effect of instigating crimes, and to prevent the influx of harmful cultural products from overseas.

The Ministry of Culture has promulgated laws and regulations that require, among other things, (i) the review and prior approval of all new online games licensed from foreign game developers and related license agreements, (ii) the review of patches and updates with substantial changes of games which have already been approved, and (iii) the filing of domestically developed online games. Furthermore, online games, regardless of whether imported or domestic, will be subject to content review and approval by GAPPRT prior to the commencement of games operations in China. Failure to obtain or renew approvals or to complete filings for online games, including mobile games, may materially delay or otherwise affect game operator's plans to launch new games, and the operator may be subject to fines, restriction or suspension of operations of the related games or revocation of licenses in the event that the relevant governmental authority believes that the violation is severe. We obtained the necessary approvals from and completed necessary filings with the Ministry of Culture and GAPP for operations of our games as applicable. Consistent with the general practice of the mobile and TV game industry in China, we have not yet completed filings with the Ministry of Culture and GAPPRT for our mobile and TV games before we commenced our operations. If any such negative event occurs, our business, financial condition and results of operations may be materially and adversely affected.

In addition, MIIT has published regulations that subject website operators to potential liability for content included on their websites and the actions of users and others using their websites, including liability for violations of PRC laws prohibiting the dissemination of content deemed to be socially destabilizing. The Ministry of Public Security has the authority to order any local Internet service provider to block any Internet website maintained outside China at its sole discretion. Periodically, the Ministry of Public Security has stopped the dissemination over the Internet of information which it believes to be socially destabilizing. The State Secrecy Bureau, which is directly responsible for the protection of State secrets of the PRC government, is authorized to block any website it deems to be leaking state secrets or failing to meet the relevant regulations relating to the protection of state secrets in the dissemination of online information.

As these regulations are subject to interpretation by the relevant authorities, it may not be possible for us to determine in all cases the type of content that could result in liability for us as a website operator. In addition, we may not be able to control or restrict the content of other Internet content providers linked to or accessible through our websites, or content generated or placed on our websites by our users, despite our attempt to monitor such content. To the extent that regulatory authorities find any portion of our content objectionable, they may require us to limit or eliminate the dissemination of such information or otherwise curtail the nature of such content on our websites, which may reduce our user traffic and have a material adverse effect on our financial condition and results of operations. In addition, we may be subject to significant penalties for violations of those regulations arising from information displayed on,

retrieved from or linked to our websites, including a suspension or shutdown of our operations.

Table of Contents***Future movements in exchange rates between the U.S. dollar and the RMB may adversely affect the value of our ADSs.***

We are exposed to foreign exchange risk arising from various currency exposures. A portion of our financial assets and liabilities, primarily the Convertible Notes, are denominated in U.S. dollars while currently a significant portion of our revenues are denominated in RMB, the legal currency in China. We have not used any forward contracts or currency borrowings to hedge our exposure to foreign currency risk. The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions and China's foreign exchange policies. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar. Under the new policy, the RMB is permitted to fluctuate within a managed band based on market supply and demand and by reference to a basket of certain foreign currencies. Since the change in policy in July 2005, the RMB appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the RMB and the U.S. dollar remained within a narrow band. In June 2010, the People's Bank of China announced that the PRC government would reform the RMB exchange rate regime and increase the flexibility of the exchange rate. Between June 30, 2010 and December 30, 2011, the value of the RMB appreciated approximately 7.2% against the U.S. dollar. On April 16, 2012, the People's Bank of China further enlarged the floating band of RMB's trading prices against the U.S. dollar in the inter-bank spot foreign exchange market from 0.5% to 1% around the middle rate released by the China Foreign Exchange Trade System each day. There remains significant international pressure on the PRC government to adopt a more lenient RMB policy, which could result in further appreciation of RMB against other major currencies. It is difficult to predict how long the current situation may last and when and how RMB exchange rates may change going forward. Renminbi was added to its group of global reserve currencies by The International Monetary Fund on November 30, 2015, which makes Renminbi to some extent more susceptible to market forces.

A significant portion of our revenues and costs are denominated in RMB, while a portion of our financial assets and liabilities are denominated in U.S. dollars. We rely substantially on dividends and other fees paid to us by our subsidiaries and affiliated entities in China. Any significant appreciation of RMB against the U.S. dollar may adversely affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. For example, an appreciation of the RMB against the U.S. dollar would make any new RMB denominated investments or expenditures more costly to us, to the extent that we need to convert U.S. dollars into RMB for such purposes. An appreciation of RMB against the U.S. dollar would also result in foreign currency translation losses for financial reporting purposes when we translate our U.S. dollar denominated financial assets into RMB, as RMB is our reporting currency. Conversely, a significant depreciation of the RMB against the U.S. dollar may significantly reduce the U.S. dollar equivalent of our earnings, which in turn could adversely affect the price of our ADSs.

Restrictions on currency exchange in China limit our ability to utilize our revenues effectively, make dividend payments and meet our foreign currency denominated obligations.

Currently, a significant portion of our revenues are denominated in RMB. Restrictions on currency exchange in China limit our ability to utilize revenues generated in RMB to fund our business activities outside China, make dividend payments in U.S. dollars, or obtain and remit sufficient foreign currency to satisfy our foreign currency-denominated obligations, such as paying license fees and royalty payments. The principal regulation governing foreign currency exchange in China is the Foreign Exchange Administration Rules (1996), as amended. Under such rules, the RMB is generally freely convertible for trade and service-related foreign exchange transactions, but not for direct investment, loans or investment in securities outside China unless the prior approval of SAFE or designated banks is obtained. Although the PRC government regulations now allow greater convertibility of RMB for current account transactions, significant restrictions still remain. For example, foreign exchange transactions under our PRC subsidiaries' capital

account, including principal payments in respect of foreign currency-denominated obligations, remain subject to significant foreign exchange controls and the approval of SAFE or designated banks. These limitations could affect our ability to obtain foreign exchange for capital expenditures. We cannot be certain that the PRC regulatory authorities will not impose more stringent restrictions on the convertibility of the RMB, especially with respect to foreign exchange transactions.

Table of Contents

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries' ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

On July 4, 2014, SAFE issued the Circular on Several Issues Concerning Foreign Exchange Administration of Domestic Residents Engaging in Overseas Investment, Financing and Round-Trip Investment via Special Purpose Vehicles, or SAFE Circular 37. SAFE Circular 37 and its detailed guidelines require PRC residents to register with the local branch of SAFE before contributing their legally owned onshore or offshore assets or equity interest into any special purpose vehicle, or SPV, directly established, or indirectly controlled, by them for the purpose of investment or financing. SAFE Circular 37 further requires that when there is (a) any change to the basic information of the SPV, such as any change relating to its individual PRC resident shareholders, name or operation period or (b) any material change, such as increase or decrease in the share capital held by its individual PRC resident shareholders, a share transfer or exchange of the shares in the SPV, or a merger or split of the SPV, the PRC resident must register such changes with the local branch of SAFE on a timely basis.

We have requested all of our shareholders who, based on our knowledge, are PRC residents or whose ultimate beneficial owners are PRC residents to comply with all applicable SAFE registration requirements. However, we have no control over our shareholders. We cannot assure you that the PRC beneficial owners of our company and our subsidiaries have completed the required SAFE registrations or complied with other related requirements. Nor can we assure you that they will be in full compliance with the SAFE registration in the future. Any non-compliance by the PRC beneficial owners of our company and our subsidiaries may subject us or such PRC resident shareholders to fines and other penalties. It may also limit our ability to contribute additional capital to our PRC subsidiaries and our subsidiaries' ability to distribute profits or make other payments to us.

Uncertainties with respect to the PRC legal system could adversely affect us.

We conduct our business primarily through our subsidiaries and consolidated affiliated entities incorporated in China. Our PRC subsidiaries are generally subject to laws and regulations applicable to foreign investment in China and, in particular, laws applicable to wholly-foreign-owned enterprises. We entered into a series of contractual arrangements with our consolidated affiliated entities in PRC to exercise effective control over these entities. Almost all of the agreements under those contractual arrangements are governed by PRC law and disputes arising out of these agreements are expected to be decided by arbitration in China. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value. PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China for the past decades. However, since the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involves uncertainties, which may limit legal protections available to us. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

Substantial uncertainties exist with respect to the enactment timetable, interpretation and implementation of the draft PRC Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.

In January 2015, MOFCOM published a draft of the proposed Foreign Investment Law, or Draft FIL. If enacted, the Draft FIL would replace the existing laws regulating foreign investment in China and harmonize the regulations governing both foreign invested enterprises and PRC domestic entities. However, foreign invested enterprises that operate in industries deemed to be either restricted or prohibited in a negative list will be subject to entry clearance

and other approvals not required for PRC domestic entities unless such foreign invested enterprises can demonstrate that the ultimate controlling person(s) is/are of PRC nationality (either PRC citizen, or PRC government and its branches or agencies). Because the negative list has yet to be published, it is unclear whether it will differ from the current list of industries subject to restrictions or prohibitions on foreign investment. The entry clearance and approvals could prevent certain foreign invested enterprises that operate in industries on the negative list from continuing to conduct their operations through contractual arrangements.

There is substantial uncertainty regarding the Draft FIL, including, the content of its final form and the timing of its adoption and implementation. For example, our chairman, chief executive officer and largest shareholder, Mr. Jun Zhu, is a citizen of Singapore, which could be one of the significant factors for purposes of determining whether we are ultimately controlled by persons that are of PRC nationality under the Draft FIL. Moreover, it is uncertain whether the Internet content provision service, online gaming, internet publishing and other internet-based industries, in which our subsidiaries and affiliated entities operate, will be subject to the foreign investment restrictions or prohibitions set forth in the negative list to be issued. If adopted in its current form, the Draft FIL could have a material and adverse impact on our ability to participate in key sectors of the Chinese economy, including the online game business, as well as the effectiveness or the necessity of our contractual arrangements with our affiliated entities.

Table of Contents

We may not be able to pursue growth through strategic acquisitions in China due to complicated procedures under PRC laws and regulations for foreign investors to acquire PRC companies.

In recent years, certain PRC laws and regulations have established procedures and requirements that are expected to make merger and acquisition activities in China by foreign investors more time-consuming and complex. These laws and regulations include, without limitation, the Rules on the Merger and Acquisition of Domestic Enterprises by Foreign Investors, or the M&A Rules, and the Anti-Monopoly Law and the MOFCOM Security Review Rules. In some instances, MOFCOM needs to be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. The approval by MOFCOM may also need to be obtained in circumstances where overseas companies established or controlled by PRC enterprises or residents acquire affiliated domestic companies. PRC laws and regulations also require certain merger and acquisition transactions to be subject to merger control review or security review. The MOFCOM Security Review Rules, effective from September 1, 2011, provide that, when deciding whether a specific merger or acquisition of a domestic enterprise by foreign investors shall be subject to the security review by MOFCOM, the principle of substance over form shall be applied. In particular, foreign investors are prohibited from bypassing the security review requirement by structuring transactions through proxies, trusts, indirect investments, leases, loans, control through contractual arrangements or offshore transactions.

If the business of any target company that we expect to acquire becomes subject to the security review, we may not be able to successfully complete the acquisition of such company, either by equity or asset acquisition, capital contribution or through any contractual arrangement. Complying with the requirements of the PRC laws and regulations to complete acquisition transactions could become more time-consuming and complex. Any required approval, such as approval by MOFCOM, may delay or inhibit our ability to complete such transactions, which could affect our ability to grow our business or increase our market share. Furthermore, it is uncertain whether the M&A Rules, security review rules or the other PRC regulations regarding the acquisitions of PRC companies by foreign investors will be amended when the Draft FIL becomes effective in the future.

The continued growth of China's Internet market depends on the establishment of adequate telecommunications infrastructure.

Although private sector Internet service providers currently exist in China, almost all access to the Internet is maintained through state-owned telecommunication operators under the administrative control and regulatory supervision of China's MIIT. In addition, the national networks in China connect to the Internet through government-controlled international gateways. These government-controlled international gateways are the only channel through which a domestic PRC user can connect to the international Internet network. We rely on this infrastructure to provide data communications capacity primarily through local telecommunications lines. Although the government has announced plans to aggressively develop the national information infrastructure, we cannot assure you that this infrastructure will be developed as planned or at all. In addition, we will have no access to alternative networks and services, on a timely basis if at all, in the event of any infrastructure disruption or failure. The Internet infrastructure in China may not support the demands necessary for the continued growth in Internet usage.

Table of Contents**Risks Related to Our Shares and ADSs*****Our ADSs may be delisted from the Nasdaq Global Market as a result of our not meeting the Nasdaq Global Market continued listing requirements.***

Our ADSs are currently listed on the Nasdaq Global Market under the symbol NCTY. We must continue to meet the requirements set forth in Nasdaq Listing Rule 5450 to remain listing on the Nasdaq Global Market. The listing standards of the Nasdaq Global Market provide that a company, in order to qualify for continued listing, must maintain a minimum ADS price of US\$1.00 and satisfy standards relative to minimum shareholders' equity, minimum market value of publicly held shares (MVPHS), minimum market value of listed securities (MVLS) and various additional requirements. On November 30, 2017, we received a written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum bid price per ADS for the Nasdaq Global Market because our bid price for a period of 30 consecutive business days was below US\$1.00. On March 19, 2018, we received a written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum MVPHS for the Nasdaq Global Market because our MVPHS for the last 30 consecutive business days was below the minimum requirement of US\$15 million. On April 4, 2018, we received a written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum MVLS for the Nasdaq Global Market because the market value of our total outstanding shares for the last 30 consecutive business days was below the minimum requirement of US\$50 million. Pursuant to the relevant Nasdaq listing rules, we have a compliance period of 180 calendar days, or until May 29, 2018, September 17, 2018 and October 1, 2018, respectively, to regain compliance with the minimum bid price, minimum MVLS and MVPHS requirements. If we fail to satisfy Nasdaq Global Market's continued listing requirements and fail to regain compliance on a timely basis, our ADSs could be delisted from Nasdaq Global Market, and we may need to transfer the listing or trading of our ADSs to other stock exchange or trading venues.

However, there can be no assurance that our ADSs will be eligible for trading on any such alternative exchanges or markets in the United States. If Nasdaq determines to delist our ordinary shares, or if we fail to list our ADSs on other stock exchanges or find alternative trading venue for our ADSs, the market liquidity and the price of our ADSs and our ability to obtain financing for our operations could be materially and adversely affected.

There can be no assurance that we will not be classified as a passive foreign investment company for any taxable year, which could result in adverse U.S. federal income tax consequences to U.S. Holders of our ADSs or ordinary shares.

A non-U.S. corporation will be a PFIC for any taxable year if either (1) at least 75% of its gross income for such year consists of certain types of passive income, or (2) at least 50% of the average quarterly value of its assets (as generally determined on the basis of fair market value) during such year produce or are held for the production of passive income. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the PFIC test will generally be determined by reference to the market price of our ADSs or ordinary shares, our PFIC status will depend in part on the market price of the ADSs or ordinary shares, which may fluctuate significantly, and the composition of our assets and liabilities.

Based on the market price of our ADSs and the value and composition of our assets and liabilities, we believe we were not a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2017. However, as previously disclosed, although not free from doubt, we believed that we were a PFIC for U.S. federal income tax purposes for prior years. In addition, it is possible that one or more of our subsidiaries were also PFICs for such year for U.S. federal income tax purposes.

If we were treated as a PFIC for any taxable year during which a U.S. Holder (as defined in Item 10. Additional Information E. Taxation U.S. Federal Income Taxation) holds our ADSs or ordinary shares, such U.S. Holders may incur significantly increased U.S. income tax on gain recognized on the sale or other disposition of the ADSs or ordinary shares and on the receipt of distributions on the ADSs or ordinary shares to the extent such gain or distribution is treated as excess distribution under the U.S. federal income tax rules. Further, a U.S. Holder will generally be treated as holding an equity interest in a PFIC in the first taxable year of the U.S. Holder's holding period in which we become classified as a PFIC and subsequent taxable years (PFIC-Tainted Shares) even if, we in fact, cease to be a PFIC in subsequent taxable years. See Item 10. Additional Information E. Taxation U. S. Federal Income Taxation Passive Foreign Investment Company.

You are strongly urged to consult your tax advisors regarding the impact of our being a PFIC in any taxable year on your investment in our ADSs and ordinary shares as well as the application of the PFIC rules.

Table of Contents***Substantial future sales or the perception of sales of our ADSs or ordinary shares could adversely affect the price of our ADSs.***

If our shareholders sell or are perceived by the market to sell substantial amounts of our ADSs, including those issued upon the exercise of outstanding options, in the public market, the market price of our ADSs could fall. Such sales also might make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate. If any existing shareholder or shareholders sell or are perceived by the market to sell a substantial amount of ordinary shares, the prevailing market price for our ADSs could be adversely affected. In December 2015, we issued and sold the Convertible Notes in an aggregate principal amount of US\$40,050,000 to Splendid Days in three tranches at initial conversion prices of US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively. In connection with the sale of Convertible Notes, we also issued the Warrants in an aggregate principal amount of US\$9,950,000 to Splendid Days in four tranches at initial exercise prices of US\$1.5, US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively. See Item 5 Operating and Financial Review and Prospects B. Liquidity and Capital Resources Cash Flows and Working Capital. Pursuant to the relevant agreement, we registered the ordinary shares into which the Convertible Notes are convertible and the Warrants are exercisable on a registration statement on F-3, which was declared effective by the SEC on June 17, 2016. Upon registration, any ordinary shares that Splendid Days would acquire by conversion of the Convertible Notes or exercise of the Warrants will become freely tradable. In June 2017, we entered into a share purchase agreement with each of Ark Pacific Special Opportunities Fund I, L.P., or AP Fund, and Incisight Limited, or Incisight, which is wholly owned by Mr. Jun Zhu, our chairman and chief executive officer, for the issuance and sale of a total of 25,000,000 ordinary shares, par value of US\$0.01, for a total consideration of US\$30 million. We have issued 12,500,000 unpaid ordinary shares to AP Fund in June 2017. In February, 2018, AP Fund assigned its rights and obligations under the share purchase agreement as a whole to Jupiter, a third party. Both transactions are subject to customary closing conditions and have not been completed yet.

In addition, we may issue additional ordinary shares or ADSs for future acquisitions. If we pay for our future acquisitions in whole or in part with additionally issued ordinary shares or ADSs, your ownership interest in our company would be diluted and this, in turn, could have a material adverse effect on the price of our ADSs.

The market price for our ADSs may be volatile.

The market price for our ADSs is likely to be highly volatile and subject to wide fluctuations in response to factors including the following:

actual or anticipated fluctuations in our operating results;

announcements of new games by us or our competitors;

changes in financial estimates by securities analysts;

price fluctuations of publicly traded securities of other China-based companies engaging in Internet-related services or other similar businesses;

conditions in the Internet or online game industries;

changes in the economic performance or market valuations of other Internet or online game companies;

announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments;

fluctuations in the exchange rates between the U.S. dollar and the RMB;

addition or departure of key personnel; and

pending and potential litigation.

In addition, the securities market has from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our ADSs.

Table of Contents

You may face difficulties in protecting your interests, and our ability to protect our rights through the U.S. federal courts may be limited, because we are incorporated under Cayman Islands law.

Our corporate affairs are governed by our memorandum and articles of association and by the Companies Law (2018 Revision) and common law of the Cayman Islands. The rights of our shareholders and the fiduciary duties of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedents in the United States. In particular, the Cayman Islands has a less developed body of securities laws as compared to the United States, and provides significantly less protection to investors. Therefore, our public shareholders may have more difficulties protecting their interests in the face of actions by our management, directors or controlling shareholders than would shareholders of a corporation incorporated in a jurisdiction in the United States. In addition, shareholders of Cayman Islands companies may not have standing to initiate a shareholder derivative action before the federal courts of the United States. As a result, our shareholders may not be able to protect their interests if they are harmed in a manner that would otherwise enable them to sue in a United States federal court.

Your ability to bring an action against us or against our directors and officers, or to enforce a judgment against us or them, will be limited because we are incorporated in the Cayman Islands, because we conduct a substantial portion of our operations in China and because the majority of our directors and officers reside outside of the United States.

We are an exempted company incorporated in the Cayman Islands, and we conduct a substantial portion of our operations through our wholly-owned subsidiaries and affiliated entities in China. Most of our directors and officers reside outside of the United States and most of the assets of those persons are located outside of the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States in the event that you believe that your rights have been infringed under the securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers.

You may not be able to exercise your right to vote.

As a holder of ADSs, you will not have any direct right to attend general meetings of our shareholders or to cast any votes at such meetings. You may give voting instructions to the depositary of our ADSs to vote the underlying shares represented by your ADSs but only if we ask the depositary to request your instruction. Otherwise, you will not be able to exercise your right to vote with respect to the underlying shares represented by your ADSs unless you withdraw the shares and become the registered holder of such shares prior to the record date for the general meeting. However, you may not receive sufficient advance notice of a shareholders' meeting to withdraw the underlying shares represented by your ADSs and become the registered holder of such shares to allow you to attend the general meeting and to vote directly with respect to any specific matter or resolution to be considered and voted upon at the general meeting. Pursuant to our amended and restated memorandum and articles of association, a shareholders' meeting may be convened by us on seven business days' notice. If we ask for your instructions, the depositary will notify you of the upcoming vote and arrange to deliver our voting materials to you. We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the underlying shares represented by your ADSs. Pursuant to the amended and restated deposit agreement dated November 2010 that we entered into with our depositary, if after complying with the procedures set forth in the deposit agreement, the depositary does not receive voting instructions from the holder of the relevant ADSs on or before the instruction date, the depositary shall vote such underlying shares represented by the relevant ADSs in accordance with the recommendations of our board of directors as advised by our company in writing. In addition, the depositary and its agents are not responsible for failing to carry out your voting instructions or for the manner of carrying out your voting instructions, if any such action or non-action is in good faith. This means that you may not be able to exercise your right to direct how the

underlying shares represented by your ADSs are voted and you may have no legal remedy if the underlying shares represented by your ADSs are not voted as you requested.

Table of Contents

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register the rights and the securities to which the rights relate under the Securities Act of 1933, as amended, or the Securities Act, or an exemption from the registration requirements is available. Also, under the deposit agreement, the depositary will not make rights available to you unless the distribution to ADS holders of both the rights and any related securities are either registered under the Securities Act, or exempt from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. The depositary may, but is not required to, sell such undistributed rights to third parties in this situation. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

You may not receive distributions on ordinary shares or any value for them if it is illegal or impractical to make them available to you.

The depositary of our ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian receives on ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of ordinary shares your ADSs represent. However, the depositary is not responsible if it decides that it is unlawful or impractical to make a distribution available to any holders of ADSs. We have no obligation to register ADSs, ordinary shares, rights or other securities under U.S. securities laws. We also have no obligation to take any other action to permit the distribution of ADSs, ordinary shares, rights or anything else to holders of ADSs. This means that you may not receive the distribution we make on our ordinary shares or any value for them if it is illegal or impractical for us to make them available to you. These restrictions may have a material adverse effect on the value of your ADSs.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depositary. However, the depositary may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depositary may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depositary are closed, or at any time if we or the depositary deem it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Item 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

We were incorporated in the Cayman Islands on December 22, 1999 under the name GameNow.net Limited as a company limited by shares and were renamed The9 Limited in February 2004. We formed GameNow.net (Hong Kong) Limited, or GameNow, on January 17, 2000 in Hong Kong, as a wholly-owned subsidiary. We have historically conducted our operations in large part through The9 Computer, a direct wholly-owned subsidiary of GameNow in China.

Due to the current restrictions on foreign ownership of ICP and Internet culture operation in China, currently, we primarily rely on Shanghai IT, one of our affiliated PRC entities, in holding certain licenses and approvals necessary

for our business online game operations through a series of contractual arrangements with Shanghai IT and its shareholders. See Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions Arrangements with Affiliated PRC Entities for details of the contractual arrangements with Shanghai IT and its shareholders. We do not hold any equity interest in Shanghai IT.

We operated WoW, a MMORPG licensed from Blizzard Entertainment, Inc., in China between June 2005 and June 2009 and had relied on the game as a major source of revenue during that period. After the non-renewal of the WoW license, we continued to operate our other licensed and proprietary games.

Table of Contents

In April 2010, we acquired a controlling interest in Red 5 Studios, Inc., or Red 5, an online game developer based in the United States. In June 2016, we completed a share exchange transaction with L&A International Holding Limited, or L&A, a Cayman Islands company with shares publicly listed on the Growth Enterprise Market of the Hong Kong Stock Exchange (HKEx: 8195), and certain other shareholders of Red 5, whereby we exchanged approximately 30.6% equity interest (on a fully-diluted basis) that we owned in Red 5 for a total of 769,481,940 (after a one-to-five stock split) newly issued shares of L&A, which are held by Asian Development, our wholly-owned subsidiary.

In July 2014, we and Qihoo 360 entered into an agreement to form a joint venture in which each party shall own 50% equity interest in the joint venture and share profits based on the respective equity interests in the joint venture. The joint venture, System Link Corporation Limited, or System Link, was formed in August 2014. In August 2014, our subsidiary Red 5 Singapore Pte. Ltd., or Red 5 Singapore, a wholly-owned subsidiary of Red 5, entered into a license agreement with System Link for publishing and operating Firefall, a MMOFPS game, for a five-year term in China. In April 2016, System Link ceased to operate Firefall in China. We do not consolidate the results of System Link into our results of operations and treat it as an equity investee. Currently, Red 5 and its affiliates are in dispute with Qihoo 360 and its affiliates regarding System Link and Firefall and various legal proceedings have been initiated and are ongoing in connection with such dispute. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry Our equity investments or establishment of joint ventures and any material disputes with our investment or joint venture partners may have an adverse effect on our financial results, business prospects and our ability to manage our business.

In February 2013, we established a new joint venture, namely Zhongxing The9 Network Technology Co., Ltd., or ZTE9, in cooperation with Shanghai Zhongxing Communication Technology Enterprise Co., Ltd. and Shanghai Ruigao Information Technology Co., Ltd., in Wuxi, Jiangsu province of China, to develop and operate the business of Fun Box, a home entertainment set top box. In February 2014, Guangdong Hongtu Guangdian Investment Limited Company made a capital investment of RMB12.5 million to acquire 10% equity interests in ZTE9. As of December 31, 2017, we held 26.0% equity interest of ZTE9. We do not consolidate the results of ZTE9 into our results of operations and treat it as an equity investee.

In August 2014, Shanghai IT sold 100% equity interest in Huopu Cloud Computing Terminal Technology Co., Ltd., or Huopu Cloud, to Shanghai Zhengwu Investment Center (Limited Partnership), a third party, for a total consideration of RMB200 million in cash. Huopu Cloud developed and held a web game QiJiGuiLai.

In August 2015, Globe Wealthy Link Limited, or Globe Wealthy, a wholly-owned subsidiary of System Link, entered into an agreement with Smilegate Entertainment Inc., or Smilegate, a Korean game developer, to form a joint venture. The joint venture, Oriental Shiny Star Limited, or Oriental Shiny, was formed in August 2015. Smilegate shall hold nominal shares in Oriental Shiny upon the incorporation of Oriental Shiny. In November 2015, Oriental Shiny entered into a license agreement with Smilegate for publishing and operating CrossFire 2 in China on an exclusive basis for an initial term of three years, which has been terminated in 2017. We do not consolidate the results of Oriental Shiny into our results of operations and treat it as an equity investee.

In November 2015, we disposed of 58% equity interest in Shanghai Jiucheng Advertisement Co., Ltd., or Shanghai Jiucheng Advertisement, which operates a mobile advertising platform and was wholly owned by Shanghai IT prior to such disposal. We account for Shanghai Jiucheng Advertisement as an equity investment after such disposal.

In April 2016, Shanghai The9 Education Technology Co., Ltd., or The9 Education, one of our consolidated affiliated entities, listed its shares on the National Equities Exchange and Quotations, commonly known as the New Third Board, an emerging over-the-counter market in China. In August 2017, Shanghai IT entered into a transaction with Beijing Yingke Artwork Co., Ltd., or Beijing Yingke, and certain other parties, pursuant to which Beijing Yingke will

acquire all of the equity interest in The9 Education for an aggregate consideration of RMB12.0 million and Shanghai IT will assume the assets and liabilities of The9 Education after the completion of the transactions. Prior to the transaction, Shanghai IT and an unrelated third party held 70% and 30% of equity interest in The9 Education, respectively. Moreover, The9 Education issued certain new shares to Beijing Yingke in November 2017. As of the date of this prospectus, the transaction was not completed, and Shanghai IT received partial consideration of RMB6.8 million and owned 8.75% equity interest in The9 Education.

Table of Contents

In July 2017, we completed a share exchange transaction with a Korean company IE Limited, or IE, whereby we exchanged approximately 12,500,000 ordinary shares newly issued by us at a per share price of US\$1.2 for approximately 14.6% equity interest of Smartposting Co., Ltd., a wholly-owned subsidiary of IE, held by IE. We do not consolidate the results of Smartposting Co., Ltd. into our results of operations and treat it as an equity investee.

In January 2018, we completed a share exchange transaction with Red Ace Limited, or Red Ace, a BVI company, whereby we exchanged approximately 3,571,429 ordinary shares newly issued by us for approximately 29.0% equity interest of Maxline Holdings Limited, a Hong Kong company engaged in the provision of information technology infrastructure solutions, website and mobile app design, held by Red Ace. We do not consolidate the results of Maxline Holdings Limited into our results of operations and treat it as an equity investee.

On April 24, 2018, we, through The Bank of New York Mellon, announced a ratio change on the ADSs from one ADS representing one ordinary share to a new ratio of one ADS representing three ordinary shares, which we anticipate to be effective on May 9, 2018.

On January 20, 2017, we received a written notification from the Nasdaq Stock Market, Inc. indicating that we no longer met the continued listing requirement of minimum market value of listed securities (MVLS) for the Nasdaq Global Market because the market value of our total outstanding shares for the last 30 consecutive business days was below the minimum requirement of US\$50 million. On February 22, 2017, we received a second written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum market value of publicly held shares (MVPHS) for the Nasdaq Global Market because our MVPHS for the last 30 consecutive business days was below the minimum requirement of US\$15 million. On July 3, 2017, we received two notification letters from Nasdaq stating that we have regained compliance with the requirement of minimum MVLS and MVPHS. On November 30, 2017, we received a written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum bid price per ADS. On December 27, 2017, we received another written notification from Nasdaq indicating that we no longer met the continued listing requirement of minimum MVPHS. On January 29, 2018, we received a notification letter from Nasdaq stating that we have regained compliance with the requirement of minimum MVPHS. On March 19, 2018, we received a written notification from the Nasdaq Stock Market indicating that we no longer met the continued listing requirement of minimum MVPHS. On April 4, 2018, we received another written notification from the Nasdaq Stock Market indicating that we no longer met the continued listing requirement of minimum MVLS. As of the date of this annual report, the matters regarding the minimum bid price, minimum MVPHS and minimum MVLS have not been closed yet. For further discussion about Nasdaq rules deficiency, see

Item 3. Key Information D. Risk Factors Risks Related to Our Shares and ADSs Our ADSs may be delisted from the Nasdaq Global Market as a result of our not meeting the Nasdaq Global Market continued listing requirements.

Our principal executive office is located at Building No. 3, 690 Bibo Road, Zhangjiang Hi-Tech Park, Pudong New Area, Shanghai 201203, People's Republic of China, and our telephone number is +86-21-5172-9999. Our registered office in the Cayman Islands is located at the offices of CARD Corporate Services Ltd, c/o Collas Crill Corporate Services Limited, Floor 2, Willow House, Cricket Square, PO Box 709, Grand Cayman KY1-1107 Cayman Islands. Our agent for service of process in the United States is CT Corporation System located at 111 Eighth Avenue, New York, New York 10011.

B. Business Overview

We primarily operate and develop proprietary and licensed online games. We are developing several proprietary mobile games, including CrossFire New Mobile Game and Knight Forever.

We generate our online game service revenues primarily through an item-based revenue model, under which players play games for free, but they are charged for in-game items, such as performance-enhancing items, clothing and accessories. Our customers typically access our online games through personal computers, mobile devices or TVs.

In 2018, we started to step into the blockchain-related service market. We plan to provide services related to the development, offshore offering, investing and financing of blockchain-technology-enabled products.

Table of Contents**Products and Services*****Online Games***

We operate and develop proprietary or licensed online games, primarily mobile games, and TV games.

As of the date of this annual report, we or our joint ventures own or have licenses to operate or develop the following online games in China and other countries:

| Game | Developer/ Licensor | Description | Status |
|---------------------------|--|--------------------|--|
| Knight Forever | The9 | Mobile game | Under development by The9 |
| CrossFire New Mobile Game | The9 / Smilegate | Mobile game | Under development by The9 |
| Q Jiang San Guo | The9 | Mobile game | Under development by The9 |
| Audition | Asian Way Development Limited / T3 Entertainment | Mobile game | Under development by Asian Way Development Limited |
| Song of Knights | The9 | Mobile game | Commercialized in Korea, Taiwan and Thailand |

Knight Forever. is our proprietary mobile game that we have been developing since 2017. We plan to start the online test before mid-2018.

CrossFire New Mobile Game. In January 2016, we obtained a right from Smilegate to develop a mobile game based on the intellectual property relating to CrossFire, or the CrossFire New Mobile Game. The development of the game is financed with funding through Inner Mongolia Culture Assets and Equity Exchange. See Item 5. Operating and Financial Review and Prospects B. Liquidity and Capital Resources Cash Flows and Working Capital. In November 2017, we entered into an exclusive publishing agreement with a third-party company, pursuant to which this third-party company was granted with an exclusive right to publish the CrossFire New Mobile Game in China.

Q Jiang San Guo. Q Jiang San Guo is our proprietary mobile game that we have been developing since 2017. We plan to start the online test before mid-2018.

Audition. Asian Way Development Limited obtained a right from T3 Entertainment to develop a mobile game based on the intellectual property relating to a game called Audition and has sublicensed all of its rights and obligations with respect to the development, marketing, distribution and publishing of the game to a third-party company.

Song of Knights. Developed in 2014, Song of Knights is a proprietary mobile game. We have licensed Song of Knights to different game operators for distribution in Korea, Taiwan and Thailand.

In preparation for the commercial launch of a new game, we conduct closed beta testing of the game to resolve operational issues, which is followed by limited commercial release and open beta testing. In both limited commercial release and open beta testing, we allow our registered users to play without removing their in-game data to ensure the performance consistency and stability of our operating systems. While we limit the number of users allowed to play the game in limited commercial release, we do not set such a limit in open beta testing. We can choose to start charging users in limited commercial release or open beta testing or at a later stage at our discretion.

Table of Contents

Our online games are available 24 hours a day, seven days a week. Our users can access our online games from any location with an Internet connection. Substantially all of our users in China access the game servers either from cell phones, personal computers at home or at Internet cafés equipped with multiple personal computers that have Internet access.

TV Game Platform. In February 2013, we established ZTE9, a joint venture, with Shanghai Zhongxing Communication Technology Enterprise Co., Ltd. and Shanghai Ruigao Information Technology Co., Ltd. in Wuxi, Jiangsu Province of China. In February 2014, Guangdong Hongtu Guangdian Investment Limited Company made capital investment to ZTE9. The joint venture operates the business of Fun Box, a home entertainment set top box, which enables online video and video games on TV.

Blockchain-Related Services

In January 2018, The9 Singapore Pte. Ltd, our wholly-owned subsidiary in Singapore, reached a partnership agreement with Ginkoo Technology Company Limited, or Ginkoo Technology, to provide blockchain related services. We plan to provide the services related to the development, offshore offering, investment and financing of blockchain-technology-enabled products, such as cryptocurrencies, to global enterprises, while Ginkoo Technology will provide technical support for us to build up the block-chain technology capacities.

We also intend to explore other applications and business opportunities of blockchain technology. In February 2018, The9 Singapore Pte. Ltd entered into a partnership agreement with C&I Singapore Renewable and Innovative Tech Pts. Ltd., or C&I, a joint venture established by Comtec Solar Systems Group Limited (SEHK: 00712) and ISDN Holdings Limited (SEHK: 01656 and SGX:I07). Pursuant to this agreement, we will provide C&I with related blockchain technology with respect to the trading and distribution of solar energy. We are also contemplating to explore further cooperation to create a decentralized platform for the trading and distribution of solar generated energy with other solar energy companies and consumers.

Other Products and Services

Our other products and services mainly consist of training services, primarily smartphone application programming trainings provided to college students in China.

Customer Service

Since our inception, we have continuously focused on providing excellent customer service in order to retain our existing customers and to attract new customers. Our online games customers can access our customer service center via phone or e-mail at any time, or visit our visitor center in Shanghai during regular business hours. We have in-game game masters dedicated to each of the online games that we operate. Game masters are responsible for organizing in-game events, troubleshooting and actively and continuously monitoring the online game environment. Game masters are available to respond to players' inquiries, to initiate the bug reporting and removal processes, as well as to identify, record and deal with players' inappropriate behavior such as dishonesty, fraud or other conducts that violates our rules and policies. We believe that positioning game masters to monitor the gaming environment is important to us to maintain customer loyalty and to efficiently address any technical problems that may arise.

Purchase of In-game Items

A customer can access online games free of charge and buy in-game items online by charging a payment directly to Alipay, or by credit card or debit card.

Pricing, Distribution and Marketing

Pricing. We price our in-game virtual items near the end of the free testing period based on several factors, including the prices of other comparable games, the technological and other features of the game, and the targeted marketing position of the game. Our prepaid game cards are offered in a variety of denominations to provide users with maximum flexibility.

Table of Contents

Distribution. We primarily rely on game platforms and distributors to distribute, promote, market and sell our games in China. End users can purchase our virtual currencies through such game platforms and distributors. A substantial portion of our sales are carried out via such game platforms and distributors. We do not have long-term agreements with any online game platforms or distributors. In addition, we also directly sell game points through our game players' online accounts.

Marketing. Our overall marketing strategy is to rapidly attract new customers and increase revenues from recurring customers. The marketing programs and promotional activities that we employ to promote our games include:

Advertising and Online Promotion. We place advertisements in many game magazines and on online game sites, which are updated regularly.

Cross-Marketing. We have cross-marketing relationships with major consumer brands, technology companies and major telecom carriers. We believe that our cross-marketing relationships with well-known companies will increase the recognition of our online game brands.

On-Site Promotion. We distribute free game-related posters, promotional prepaid cards for beginners, game-related souvenirs such as watches, pens, mouse pads and calendars at trade shows, selected Internet cafés and computer stores.

In-Game Marketing. We conduct in-game marketing programs from time to time, including online adventures for grand prizes.

Game Development and Licensing

We believe that the online game industry in China will continue its pattern of developing increasingly sophisticated online games tailored to the local market. In order to remain competitive, we focus on continuing to develop new proprietary online games, primarily mobile games. Our product development team is responsible for game design, technical development and art design. We also plan to further enhance our game development capability and diversify our game portfolio and pipeline.

Our game licensing process begins with a preliminary screening, review and testing of a game, followed by a cost analysis, negotiations and ultimate licensing of a game, including all regulatory and approval processes. A team is then designated to conduct closed beta testing of the game to resolve operational matters, followed by open beta testing during which our registered users may play the game without removing their in-game data to ensure performance consistency and stability of our operation systems. Testing generally takes three to six months, during which time we commence other marketing activities.

Technology

We aim to build a reliable and secure technology infrastructure to fully support our operations, and we maintain separate technology networks for each of our games. Our current technology infrastructure consists of the following:

servers and network devices located in two Internet data centers in China as of December 31, 2017;

proprietary software, including game monitor tools, that are integrated with our websites and customer service center operations; and

hardware platform and server sites primarily consisting of IBM storage systems, HP, H3C and Cisco network equipment.

We have a network operation team responsible for the stability and security of our network. The team monitors our server and works to detect, record, analyze and solve problems that arise from our network. In addition, we frequently upgrade our game server software to ensure the stability of our operations and to reduce the risks of hacking.

Table of Contents

Competition

Our major competitors include, but are not limited to, online game operators in China. These include Tencent Holdings Limited (which operates CrossFire, League of Legends and Dungeon & Fighter), NetEase, Inc. (which operates Onmyoji, Knives Out), Happy-elements Inc. (which operates Anipop).

Our existing and potential competitors may compete with us on marketing activities, quality of online games and sales and distribution networks. Some of our existing and potential competitors have greater financial and marketing resources than us. For a discussion of risks relating to competition, see Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry We may not be able to recover our market share and profitability as we operate in a highly competitive industry with numerous competitors.

Intellectual Property

Our intellectual property rights include trademarks and domain names associated with the name The9 in China and copyright and other rights associated with our websites, technology platform, self-developed software and other aspects of our business. We regard our intellectual property rights as critical to our business. We rely on trademark and copyright law, trade secret protection, non-competition and confidentiality agreements with our employees, and license agreements with our partners, to protect our intellectual property rights. We require our employees to enter into agreements requiring them to keep confidential all information relating to our customers, methods, business and trade secrets during and after their employment with us and assign their inventions developed during their employment to us. Our employees are required to acknowledge and recognize that all inventions, trade secrets, works of authorship, developments and other processes made by them during their employment are our property.

We have registered our domain names with third-party domain registration entities, and have legal rights over these domain names through Shanghai IT, our affiliated PRC entity. We conduct our business under the The9 Limited brand name and The9 logo.

Legal Proceedings

See Item 8. Financial Information A. Consolidated Statements and Other Financial Information Legal Proceedings.

Government Regulations

Current PRC laws and regulations impose substantial restrictions on foreign ownership of the online gaming and ICP businesses in China. As a result, we conduct our online gaming and ICP businesses in China through contractual arrangements with Shanghai IT, one of our affiliated PRC entities. Shanghai IT is owned by Zhimin Lin and Wei Ji, both of whom are PRC citizens.

In the opinion of our PRC counsel, Zhong Lun Law Firm, subject to the interpretation and implementation of the GAPP Circular and the Network Publication Measures, the ownership structure and the business operation models of our PRC subsidiaries and our affiliated PRC entities comply with all applicable PRC laws, rules and regulations, and no consent, approval or license is required under any of the existing laws and regulations of China for their ownership structure and business operation models except for those which we have already obtained or which would not have a material adverse effect on our business or operations as a whole.

In the online game industry in China, new laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have, and address new issues that arise from time to time. As a

result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to the online games industry. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected.

Table of Contents

Regulations on Internet Content Provision Service, Online Gaming and Internet Publishing

Our provision of online game-related content on our websites is subject to various PRC laws and regulations relating to the telecommunications industry, Internet and online gaming, and is regulated by various government authorities, including MIIT, the Ministry of Culture, GAPPRFT and the State Administration for Industry and Commerce. The principal PRC regulations governing the ICP industry as well as the online gaming services in China include:

Telecommunications Regulations (2000), as amended in 2014 and 2016;

The Administrative Rules for Foreign Investments in Telecommunications Enterprises (2001), as amended in 2008;

The Administrative Measures for Telecommunications Business Operating License (2017);

The Administrative Measures for Internet Information Services (2000), as amended in 2011;

The Tentative Measures for Administration of Internet Culture (2003), as amended and reissued in 2011 and further amended in 2017;

Administrative Measures on Network Publication (2016);

The Tentative Measures for Administration of Online Games (2010), as amended in 2017; and

The Foreign Investment Industrial Guidance Catalogue (2017).

In July 2006, MIIT issued the MII Notice. The MII Notice prohibits ICP license holders from leasing, transferring or selling a telecommunications business operating license to any foreign investors in any form, or providing any resource, sites or facilities to any foreign investors for their illegal operation of telecommunications businesses in China. The notice also requires that ICP license holders and their shareholders directly own the domain names and trademarks used by such ICP license holders in their daily operations. The notice further requires each ICP license holder to have the necessary facilities for its approved business operations and to maintain such facilities in the regions covered by its license. In addition, all the value-added telecommunication service providers are required to maintain network and information security in accordance with the standards set forth under relevant PRC regulations. The local authorities in charge of telecommunications services are required to ensure that existing ICP license holders conduct a self-assessment of their compliance with the MII Notice and submit status reports to MIIT before November 1, 2006. For those which are not in compliance with the above requirements and further fail to rectify the situation, the relevant governmental authorities would have broad discretion in adopting one or more measures against them, including but not limited to revoking their operating licenses. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to

the application and implementation of PRC laws and regulations.

Under these regulations, a foreign investor is currently prohibited from owning more than 50% of the equity interest in a PRC entity that provides value-added telecommunications services (except for e-commerce services). ICP services are classified as value-added telecommunications businesses, and a commercial operator of such services must obtain an ICP License from the appropriate telecommunications authorities in order to carry on any commercial ICP operations in China.

Table of Contents

With respect to the online gaming industry in China, since online games fall into the definition of Internet culture products under The Tentative Measures for Administration of Internet Culture (2017), a commercial operator of online games must, in addition to obtaining the ICP License, obtain an Internet culture operation license from the appropriate culture administrative authorities for its operation of online games. Furthermore, according to The Tentative Measures for Administration of Internet Publication (2002), the provision of online games is deemed an Internet publication activity. Therefore, approval from the appropriate press and publication administrative authorities as an Internet publisher or cooperation with a licensed Internet publisher is required for an online game operator to carry on its online gaming businesses in China. In February 2016, the GAPPRT and the MIIT jointly issued the Administrative Measures on Network Publication, which took effect in March 2016 and replaced the Tentative Administrative Measures on Internet Publication. The Administrative Measures on Network Publication further strengthen and expand the supervision and management on the network publication service, including online games service. Furthermore, online games, including mobile games, regardless of whether imported or domestic, shall be subject to a content review and approval by or a filing with the Ministry of Culture and GAPPRT prior to commencement of operations in China.

GAPPRT and MIIT jointly impose a license requirement for any company that intends to engage in network publishing, defined as any activity of providing network publications to the public through information networks. Network publications refer to the digitalized works with publishing features such as editing, producing and processing. Furthermore, the distribution of online game cards and CD-keys for online gaming programs is subject to a licensing requirement. Shanghai IT holds the license necessary to distribute electronic publications, which allows it to distribute prepaid cards and CD-Keys for the games we operate. We sell our prepaid cards and CD-Keys through third-party distributors, which are responsible for maintaining requisite licenses for distributing our prepaid cards and CD Keys in China.

On February 15, 2007, fourteen governmental authorities, including the Ministry of Culture, MIIT, the State Administration for Industry and Commerce, and the People's Bank of China, or the PBOC, jointly issued a circular entitled Circular for Further Strengthening the Administration of Internet Café and Online Games. This circular gave the PBOC administrative authority over virtual currencies issued by online game operators for use by players in online games to avoid the potential impact such virtual currencies may have on the real-world financial systems. According to this circular, the volume that may be issued and the purchase of such virtual currencies must be restricted, and virtual currency must not be used for the purchase of any physical products, refunded with a premium or otherwise illegally traded. The Notice of Strengthening the Management of Virtual Currency of Online Games promulgated by the Ministry of Culture and MOFCOM on June 4, 2009 and the Tentative Measures for Administration of Online Games promulgated by the Ministry of Culture on June 3, 2010 impose more restrictions and requirements on online game operators that issue virtual currencies. According to the above regulations, an online game operator which issues virtual currency used for online game services shall apply for approval from the Ministry of Culture. An online game operator shall further report detailed rules of issuance for virtual currencies, such as distribution scope, pricing, and terms for refunds and shall make certain periodic and supplementary filings as required by the relevant regulations. In addition, under these rules, online game operators are prohibited from assigning game tools or virtual currency to users by way of drawing lots, random samplings or other arbitrary means in exchange for users' cash or virtual currency. These rules also require that service agreements entered into between online game operators and end users contain the general terms of a standard online game service agreement issued by the Ministry of Culture.

In September 2009, GAPP further promulgated the GAPP Circular, which provides that foreign investors are prohibited from making investment and engaging in online game operation services by setting up foreign-invested enterprises in China. Further, foreign investors shall not control and participate in PRC online game operation businesses indirectly or in a disguised manner by establishing joint venture companies or entering into agreements with or providing technical support to such PRC online game operation companies, or by inputting the users

registration, account management, game cards consumption directly into the interconnected gaming platform or fighting platform controlled or owned by the foreign investor. In addition, on February 4, 2016, the GAPPRFT and the MIIT jointly issued the Administrative Measures on Network Publication, or the Network Publication Measures, which took effect in March 2016. Pursuant to the Network Publication Measures, wholly foreign-owned enterprises, Sino-foreign equity joint ventures and Sino-foreign cooperative enterprises shall not engage in the provision of web publishing services, including online game services. Project cooperation involving internet publishing services between an internet publishing service provider and a wholly foreign-owned enterprise, Sino-foreign equity joint venture, or Sino-foreign cooperative enterprise within China or an overseas organization or individual shall be subject to prior examination and approval by the GAPPRFT. It is not clear whether GAPPRFT and MIIT have regulatory authority over the ownership structures of online game companies based in China and online game operation in China. The relevant governmental authorities have broad discretion in adopting one or more of administrative measures against companies now in compliance with these measures, including revoking relevant licenses and relevant registration. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

Table of Contents

On December 1, 2016, MOC issued the Circular on Regulating Online Game Operations and Strengthening Interim and Ex Post Regulation, or the MOC Online Games Regulation, which became effective on May 1, 2017. Pursuant to the MOC Online Games Regulation, MOC further clarified the scope of online game operations. Online game operations shall include technical testing of online games by means of, for example, making the online games available for user registration, opening the fee-charging system of the online games, and providing client-end software with direct server registration and login functions. In addition, enterprises that engage in providing user systems, fee-charging systems, program downloading, publicity and promotion and other services for online game products of other operating enterprises and that share revenue from online game operations shall be deemed as engaging in joint operations, and shall be subject to relevant obligations. In addition, this circular sets the regulatory standard for distributing virtual items, as follows:

Virtual items distributed by enterprises engaged in online game operations shall be managed pursuant to the provisions regulating virtual currencies of online games.

Enterprises engaged in online game operations that intend to change a version of an online game, increase the types of virtual items, adjust the functions and consumption period of virtual items or hold intermittent campaigns shall, on the official homepage of the online game or in conspicuous locations within the online game, promptly make public the name, functions, price, exchange rate and expiration date of each relevant virtual items, the means of gifting, transferring or trading the virtual items and other relevant information.

Enterprises engaged in online game operations that provide random draws of virtual items and value-added services of an online game shall not require users to participate in the random draws with legal tender or virtual currency.

Enterprises engaged in online game operations shall publish the random draw results on the official website of an online game or in conspicuous locations within the online game, and keep relevant records for at least 90 days for any future inquiries by competent authorities.

An enterprise engaged in online game operations that provide random draws of virtual items and value-added services of an online game shall concurrently offer users alternative ways to acquire the virtual items and value-added services with the same performance, such as through exchange with virtual items or payment with virtual currency.

Enterprises engaged in online game operations shall not offer services for the exchange of online game virtual currency with legal tender or physical items, except where the said enterprise terminates its online gaming products and services, and refunds the virtual currency unused by users in the form of legal tender or by other means acceptable to the users.

Enterprises engaged in online game operations shall not offer services for the exchange of virtual items with legal tender.

In addition, enterprises engaged in online game operations shall require online game users to register their real names by using valid identity documents and shall limit the amount that an online game user may top up each time in each game. Such enterprises shall also send information that requires confirmation by users when they top up or engage in consumption, and shall display their contact details for handling matters relating to use rights protection in conspicuous locations within each online game.

Table of Contents

On May 24, 2016, the GAPPRFT issued the Circular on the Administration over Mobile Game Publishing Services to further regulate the administration of mobile game publishing services. Pursuant to this circular, game publishing service entities shall be responsible for examining the contents of their games, applying for publication and applying for game publication numbers. Upgrades or new expansions of a mobile game that have been approved for publication shall be deemed as new works and the relevant publishing service entities shall go through relevant approval formalities again depending on the classification of the new works. Entities engaged in the joint operation of such new works must verify whether such games have gone through all the relevant approval formalities and whether the relevant information has been clearly displayed, or otherwise refrain from the joint operation. Mobile games without the required approval formalities shall be treated as illegal publications and the relevant entities shall be punished accordingly. The operation of SMS in China is classified as a value-added telecommunication business and SMS service providers shall obtain the relevant value-added telecommunication business permits.

Regulations on Internet Content

The PRC government has promulgated measures relating to Internet content through a number of ministries and agencies, including MIIT, the Ministry of Culture and GAPPRFT. These measures specifically prohibit Internet activities, including the operation of online games that result in the publication of any content which is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

In April 2007, various governmental authorities, including GAPP, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities jointly issued a circular concerning the mandatory implementation of an anti-fatigue system in online games, which was aimed at protecting the physical and psychological health of minors. This circular required all online games to incorporate an anti-fatigue system and an identity verification system, both of which have limited the amount of time that a minor or other user may continuously spend playing an online game. We have implemented such anti-fatigue and identification systems on all of our online games as required. Since March 2011, various governmental authorities, including the Ministry of Culture, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities have jointly launched the Online Game Parents Guardianship Project for Minors, which allows parents to require online game operators to take relevant measures to limit the time spent by the minors on playing online games and the minors' access to their online game accounts. On February 5, 2013, the Ministry of Culture, MIIT, GAPP and various other governmental authorities, jointly issued the Working Plan on the Comprehensive Prevention Scheme on Online Game Addiction of Minors, which further strengthened the administration of the Internet cafés, reinstated the importance of the anti-fatigue system and Online Game Parents Guardianship Project for Minors as prevention measures against the online game addiction of minors and ordered all relevant governmental authorities to take all necessary actions in implementing such measures. In addition, pursuant to the MOC Online Games Regulation, which was issued on December 1, 2016 by MOC, an enterprise engaged in online game operations shall strictly comply with the provisions of the Online Game Parents Guardianship Project for Minors, and online game operators are encouraged to set upper limits on the consumption by users who are minors, limit the amount of time that such users are allowed to spend on online games, and take technical measures to block scenes and functions, among other things, that are not suitable for users who are minors. Additional requirements for anti-fatigue and identification systems in our games, as well as the implementation of any other measures required by any new regulations the PRC government may enact to further tighten its administration of the Internet and online games, and its supervision of Internet cafés, may limit or slow down our prospects for growth, or may materially and adversely affect our business results. See Item 3. Key Information D. Risk Factors Risks Related

to Doing Business in China Our business may be adversely affected by public opinion and government policies in China.

Internet content in China is also regulated and restricted from a state security standpoint. The National People's Congress, China's national legislative body, has enacted a law that may subject to criminal punishment in China any effort to: (1) gain improper entry into a computer or system of strategic importance; (2) disseminate politically disruptive information; (3) leak state secrets; (4) spread false commercial information; or (5) infringe intellectual property rights.

Table of Contents

The Ministry of Public Security has promulgated measures that prohibit the use of the Internet in ways which, among other things, results in a leakage of state secrets or a spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection rights in this regard, and we may be subject to the jurisdiction of the local security bureaus. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Regulation and censorship of information disseminated over the Internet in China may adversely affect our business, and we may be liable for information displayed on, retrieved from, or linked to our Internet websites. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

Regulations on Privacy Protection

PRC laws and regulations do not prohibit Internet content providers from collecting and analyzing personal information from their users subject to the user's prior consent. We require our users to accept a user agreement whereby they agree to provide certain personal information to us. PRC law prohibits Internet content providers from disclosing to any third parties any information transmitted by users through their networks unless otherwise permitted by law. If an Internet content provider violates these regulations, it may be liable for damages caused to its users and it may be subject to administrative penalties such as warnings, fines, confiscation of its unlawful income, revocation of licenses, cancellation of filings, shutdown of their websites or even criminal liabilities.

Import Regulations

Our ability to obtain licenses for online games from abroad and import them into China is regulated in several ways. We are required to register with MOFCOM any license agreement with a foreign licensor that involves an import of technologies, including online game software into China. Without that registration, we may not remit licensing fees out of China to any foreign game licensor. In addition, the Ministry of Culture requires us to submit for its content review and/or approval any online games we want to license from overseas game developers or any patch or updates for such game if it contains substantial changes. If we license and operate games without that approval, the Ministry of Culture may impose penalties on us, including revoking the Internet culture operation license required for the operation of online games in China. Also, pursuant to a jointly issued notice in July 2004, GAPP and the State Copyright Bureau require us to obtain their approval for imported online game publications. Furthermore, the State Copyright Bureau requires us to register copyright license agreements relating to imported software. Without the State Copyright Bureau registration, we cannot remit licensing fees out of China to any foreign game licensor and we are not allowed to publish or reproduce the imported game software in China.

Regulations on Intellectual Property Rights

The State Council and the State Copyright Bureau have promulgated various regulations and rules relating to the protection of software in China. Under these regulations and rules, software owners, licensees and transferees may register their rights in software with the State Copyright Bureau or its local branches and obtain software copyright registration certificates. Although such registration is not mandatory under PRC law, software owners, licensees and transferees are encouraged to go through the registration process and registered software rights may receive better protection. We have registered most of our in-house developed online games with the State Copyright Bureau.

Regulations on Foreign Currency Exchange and Dividend Distribution

Foreign Currency Exchange. Foreign currency exchange regulation in China is primarily governed by the following rules:

Edgar Filing: The9 LTD - Form 20-F

Foreign Exchange Administration Rules (1996), as amended in 1997 and 2008; and

Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996).

Table of Contents

Pursuant to the Foreign Exchange Administration Rules (1996), as amended in 1997 and 2008, the RMB is generally freely convertible for trade and service-related foreign exchange transactions, but not for direct investment, loans, investment in securities, or other transactions through a capital account outside China unless the prior approval of SAFE or designated banks is obtained. Furthermore, foreign investment enterprises in China in general may purchase foreign exchange without the approval of SAFE or designated banks for trade and service-related foreign exchange transactions by providing commercial documents evidencing these transactions. Foreign investment enterprises that need foreign exchange for the distribution of profits to their shareholders may effect payment from their foreign exchange account or purchase and pay foreign exchange at the designated foreign exchange banks to their foreign shareholders by producing board resolutions for such profit distribution. Under the Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), based on their needs, foreign investment enterprises are permitted to open foreign exchange settlement accounts for current account receipts and payments of foreign exchange along with specialized accounts for capital account receipts and payments of foreign exchange at certain designated foreign exchange banks.

On November 19, 2012, SAFE promulgated the Circular of Further Improving and Adjusting Foreign Exchange Administration Policies on Foreign Direct Investment, or SAFE Circular 59, which became effective on December 17, 2012. The major developments under SAFE Circular 59 were that the opening of various special purpose foreign exchange accounts (e.g. pre-establishment expenses account, foreign exchange capital account, guarantee account) no longer required the approval of SAFE. Furthermore, multiple capital accounts for the same entity may be opened in different provinces, which was not possible before the issuance of SAFE Circular 59. Reinvestment of RMB proceeds by foreign investors in the PRC no longer required SAFE approval or verification, and remittance of foreign exchange profits and dividends by a foreign-invested enterprise to its foreign shareholders no longer required SAFE approval.

On May 10, 2013, SAFE promulgated the Circular on Printing and Distributing the Provisions on Foreign Exchange Administration over Domestic Direct Investment by Foreign Investors and the Supporting Documents, which specifies that the administration by SAFE or its local branches over direct investment by foreign investors in the PRC shall be based on registration. Institutions and individuals shall register with SAFE and/or its branches for their direct investment in the PRC. Banks shall process foreign exchange business relating to the direct investment in the PRC based on the registration information provided by SAFE and its branches.

On February 13, 2015, SAFE issued the Circular on Further Simplifying and Improving the Foreign Exchange Administration Policies on Direct Investments, or SAFE Circular 13, which took effect on June 1, 2015. Pursuant to SAFE Circular 13, the administrative examination and approval procedures with SAFE or its local branches relating to the foreign exchange registration approval for domestic direct investments as well as overseas direct investments have been cancelled, and qualified banks are delegated the power to directly conduct such foreign exchange registrations under the supervision of SAFE or its local branches.

On April 26, 2016, SAFE issued the Circular of the State Administration of Foreign Exchange on Further Promoting Trade and Investment Facility and Improving the Examination and Verification of the Authenticity, pursuant to which when handling the remittance of profits exceeding the equivalent of US\$50,000 abroad for a domestic institution, a bank should examine the authenticity of the transaction by reviewing related corporate approvals, tax filing record and other materials.

On June 9, 2016, SAFE promulgated the Notice of the State Administration of Foreign Exchange on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account, or SAFE Circular 16, effective on June 9, 2016, which reiterates some of the rules set forth in Circular 19, but changes the prohibition against using RMB capital converted from foreign currency-denominated registered capital of a foreign-invested company to issue RMB entrusted loans to a prohibition against using such capital to issue loans to non-affiliated

enterprises.

Table of Contents

Dividend Distribution. The principal regulations governing distribution of dividends of foreign holding companies include:

The Wholly Foreign Invested Enterprise Law (1986), as amended in 2000 and 2016; and

Administrative Rules under the Wholly Foreign Invested Enterprise Law (1990), as amended in 2001 and 2014.

Under these regulations, foreign investment enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, foreign investment enterprises in China are required to allocate at least 10% of their respective profits each year, if any, to fund certain reserve funds until the cumulative total of the allocated reserve funds reaches 50% of an enterprise's registered capital and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective board of directors or shareholders. These reserves are not distributable as dividends.

Regulations on Foreign Exchange in Certain Onshore and Offshore Transactions

On July 4, 2014, SAFE issued SAFE Circular 37, which is the Circular on Several Issues Concerning Foreign Exchange Administration of Domestic Residents Engaging in Overseas Investment, Financing and Round-Trip Investment via Special Purpose Vehicles. SAFE Circular 37 and its detailed guidelines require PRC residents to register with the local branch of SAFE before contributing their legally owned onshore or offshore assets or equity interest into any SPV directly established, or indirectly controlled, by them for the purpose of investment or financing. In addition, when there is (a) any change to the basic information of the SPV, such as any change relating to its individual PRC resident shareholders, name or operation period or (b) any material change, such as increase or decrease in the share capital held by its individual PRC resident shareholders, a share transfer or exchange of the shares in the SPV, or a merger or split of the SPV, the PRC resident must register such changes with the local branch of SAFE on a timely basis. According to the relevant SAFE rules, failure to comply with the registration procedures set forth in SAFE Circular 37 may result in restrictions being imposed on the foreign exchange activities of the relevant onshore companies of SPVs, including the payment of dividends and other distributions to its offshore parent or affiliate and the capital inflow from such offshore entity, and may also subject the relevant PRC residents and onshore companies to penalties under PRC foreign exchange administration regulations. Further, failure to comply with various SAFE registration requirements described above would result in liability for foreign exchange evasion under PRC laws. On February 13, 2015, SAFE issued SAFE Circular 13, which is the Circular on Further Simplifying and Improving the Foreign Exchange Administration Policies on Direct Investments, which took effect on June 1, 2015. Under SAFE Circular 13, qualified banks are delegated the power to register all PRC residents' investments in SPVs pursuant to SAFE Circular 37, saving for supplementary registration application made by PRC residents who failed to comply with SAFE Circular 37, which shall still fall into the jurisdiction of the local branch of SAFE.

As a result of the uncertainties relating to the interpretation and implementation of SAFE Circular 37 and other regulations of SAFE, we cannot predict how these regulations will affect our business operations or strategies. For example, our present or future PRC subsidiaries' ability to conduct foreign exchange activities, such as remittance of dividends and foreign-currency-denominated borrowings, may be subject to compliance with such SAFE registration requirements by relevant PRC residents, over whom we have no control. In addition, we cannot assure you that any such PRC residents will be able to complete the necessary approval and registration procedures required by the SAFE regulations. We have requested all of our shareholders who, based on our knowledge, are PRC residents or whose ultimate beneficial owners are PRC residents to comply with all applicable SAFE registration requirements, but we

have no control over our shareholders. We cannot assure you that the PRC beneficial owners of our company and our subsidiaries have completed the required SAFE registrations. Nor can we assure you that they will be in full compliance with the SAFE registration in the future. Any non-compliance by the PRC beneficial owners of our company and our subsidiaries may subject us or such PRC resident shareholders to fines and other penalties. It may also limit our ability to contribute additional capitals to our PRC subsidiaries and our subsidiaries' ability to distribute profits or make other payments to us.

C. Organizational Structure

The following diagram illustrates our organizational structure, the place of formation, ownership interest of each of our significant subsidiaries and material affiliated entities as of the date of this annual report:

Table of Contents

D. Property, Plants and Equipment

Our headquarters are located on premises comprising approximately 14,000 square meters in an office building in Shanghai, China. We purchased the office building in which our headquarters are located, and lease all of our other premises from unrelated third-parties. Our office building has been mortgaged to secure the Convertible Notes in the aggregate principal amount of US\$40,050,000 issued and sold to Splendid Days and an entrusted loan of approximately RMB31.6 million that we obtained from a third party in December 2015. In addition, we have subsidiaries located in the United States, Singapore and South Korea and small branch offices in Beijing, Nanjing, Wuhan, Xi an, Chengdu and Shenyang, China. Our equipment consists substantially of numerous servers and network devices located in two Internet data centers in China.

Item 4A. UNRESOLVED STAFF COMMENTS

None.

Item 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our financial condition and results of operations is based upon and should be read in conjunction with our consolidated financial statements and their related notes included in this annual report. This report contains forward-looking statements. See G. Safe Harbor. In evaluating our business, you should carefully consider the information provided under the caption Risk Factors in this annual report. We caution you that our businesses and financial performance are subject to substantial risks and uncertainties.

A. Operating Results

The major factors affecting our results of operations and financial conditions include:

Table of Contents

our revenues composition and sources of revenues;

our cost of revenue; and

our operating expenses.

Revenue Composition and Sources of Revenue. In 2015, 2016 and 2017, we generated substantially all of our revenues from online game services, and the remaining portion of our revenues from other services. The following table sets forth our revenues generated from providing online game services and other services, both in absolute amounts and as percentages of total revenues for the periods indicated.

| | For the Year Ended December 31, | | | | | | |
|----------------------|------------------------------------|-------|--------|-------|--------|--------|-------|
| | 2015 | | 2016 | | 2017 | | |
| | RMB | % | RMB | % | RMB | US\$ | |
| | (in thousands, except percentages) | | | | | | |
| Revenue: | | | | | | | |
| Online game services | 40,504 | 86.9 | 48,566 | 86.3 | 71,564 | 10,999 | 97.8 |
| Other revenues | 6,106 | 13.1 | 7,720 | 13.7 | 1,644 | 253 | 2.2 |
| Total revenues | 46,610 | 100.0 | 56,286 | 100.0 | 73,208 | 11,252 | 100.0 |

Online Game Services. In 2015, 2016 and 2017, revenues from our online game services amounted to RMB40.5 million, RMB48.6 million and RMB71.6 million (US\$11.0 million), respectively. We primarily generate our online game service revenues through item-based revenue models. Under an item-based revenue model, players of our games play the games for free, but are charged for purchases of in-game items, such as performance-enhancing items, clothing and accessories. Thus, we generate revenues through the sale of such in-game premium features that players use game points to purchase. The distribution of points to end users is typically made through sales of prepaid online points. Fees from prepaid online points are deferred when initially received. This revenue is recognized over the life of the premium features or as the premium features are consumed. Future usage patterns may differ from the historical usage patterns on which the virtual items and services consumption model is based. We will continue to monitor the operational statistics and usage patterns affecting our recognition of these revenues.

Other Revenues. Other revenues mainly included revenues from mobile app training services and, starting in 2016, revenues from the provision of game development and technical services to customers.

Cost of Revenue. Our cost of revenue consists of costs directly attributable to rendering our services, including online game royalties, payroll, sharing to third-party game platform, telecom carries and other suppliers, depreciation and rental of Internet data center sites, depreciation and amortization of computer equipment and software, intangible assets amortization and other overhead expenses directly attributable to the services we provide.

Operating Expenses. Our operating expenses consist primarily of product development expenses, sales and marketing expenses, general and administrative expenses, impairment on intangible assets and impairment on goodwill.

Product Development Expenses. Our product development expenses consist primarily of compensation to our product development personnel, outsourced research and development expenses, equipment and software depreciation charges

and other overhead expenses for the development of our proprietary games. Our product development expenses amounted to RMB135.0 million, RMB78.0 million and RMB45.1 million (US\$6.9 million) for the years ended December 31, 2015, 2016 and 2017, respectively. Most of our proprietary online games have entered into their final stages of development and we have the ability to control the level of discretionary spending on product development in the near future.

Sales and Marketing Expenses. Our sales and marketing expenses consist primarily of advertising and marketing expenses incurred to promote our games and compensation expenses relating to our sales and marketing personnel. Our sales and marketing expenses amounted to RMB31.7 million, RMB21.3 million and RMB9.1 million (US\$1.4 million) for the years ended December 31, 2015, 2016 and 2017, respectively.

Table of Contents

General and Administrative Expenses. Our general and administrative expenses consist primarily of compensation and travel expenses for our administrative staff, depreciation of property and equipment, entertainment expenses, administrative office expenses, as well as fees paid to professional service providers for auditing, legal services and equity transactions. General and administration expenses amounted to RMB131.8 million, RMB129.0 million and RMB108.8 million (US\$16.7 million) for the years ended December 31, 2015, 2016 and 2017, respectively. General and administrative expenses continued to decrease from 2016 to 2017, which reflects our cost cutting efforts.

Impairment on Intangible Assets. We had impairment charges on certain intangible assets of RMB68.0 million for the year ended December 31, 2016. We did not have such impairment charges for the years ended December 31, 2015 and 2017.

Impairment Loss on Goodwill. We had no impairment charges of goodwill for the year ended December 31, 2017. We had impairment charges on goodwill of RMB10.6 million for the year ended December 31, 2016, which represented the impairment of goodwill in connection with our acquisition of Red 5 in 2010. In 2016, due to the weaker-than-expected operating performance of Red 5, we concluded that the goodwill was fully impaired. We did not have such impairment charges for the years ended December 31, 2015.

Other Operating Income (Expenses). We had operating income of RMB0.3 million (US\$0.05 million) for the year ended December 31, 2017, including office rental fee of RMB0.4 million. We had operating income of RMB3.6 million for the year ended December 31, 2016, including primarily IDC rental fee and office rental fee of RMB4.2 million, which were partially offset by the disposal of property, equipment and software of RMB0.6 million. We had operating expenses of RMB1.6 million for the year ended December 31, 2015, representing a loss on disposal of property, equipment and software.

Holding Company Structure

We are a holding company incorporated in the Cayman Islands and rely primarily on dividends and other distributions from our subsidiaries and our affiliated entities in China for our cash requirements. Current PRC regulations restrict our affiliated entities and subsidiaries from paying dividends in the following two principal aspects: (i) our affiliated entities and subsidiaries in China are only permitted to pay dividends out of their respective accumulated profits, if any, determined in accordance with PRC accounting standards and regulations; and (ii) these entities are required to allocate at least 10% of their respective accumulated profits each year, if any, to fund certain capital reserves until the cumulative total of the allocated reserves reach 50% of registered capital, and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective boards of directors. These reserves are not distributable as dividends. See Item 4. Information on the Company B. Business Overview Government Regulations. In addition, failure to comply with relevant SAFE regulations may restrict the ability of our subsidiaries to make dividend payments to us. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries' ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

Income and Sales Taxes

The National People's Congress of the PRC adopted and promulgated the EIT Law on March 16, 2007. The EIT Law went into effect as of January 1, 2008 and revised on February 24, 2017, and unified the tax rate generally applicable to both domestic and foreign-invested enterprises in the PRC. Our company's subsidiaries and affiliated entities in the PRC are generally subject to EIT at a statutory rate of 25%. Our subsidiaries and affiliated entities in the PRC that

hold a HNTE qualification are entitled to enjoy a 15% preferential EIT rate.

In addition, under the EIT Law, enterprises organized under the laws of their respective jurisdictions outside the PRC may be classified as either non-resident enterprises or resident enterprises. Non-resident enterprises are subject to withholding tax at the rate of 20% with respect to their PRC-sourced dividend income if they have no establishment or place of business in the PRC or if such income is not related to their establishment or place of business in the PRC, unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and the governments of other countries or regions. The State Council has reduced the withholding tax rate to 10% in the newly promulgated implementation rules of the EIT Law. As we are incorporated in the Cayman Islands, we may be regarded as a non-resident enterprise. We hold equity interests in certain PRC subsidiaries through subsidiaries in Hong Kong. According to the Tax Agreement between the PRC and Hong Kong, dividends paid by a foreign-invested enterprise in the PRC to its corporate shareholder in Hong Kong holding 25% or more of its equity interest may be subject to withholding tax at the maximum rate of 5% if certain criteria are met. Entitlement to such lower tax rate on dividends according to tax treaties or arrangements between the PRC central government and governments of other countries or regions is further subject to approval of relevant tax authority.

Table of Contents

In February 2018, the SAT issued the Announcement of the State Administration of Taxation on Issues Relating to Beneficial Owner in Tax Treaties on issues relating to beneficial owner in tax treaties, or Circular No. 9, which took effect on April 1, 2018. Circular No. 9 provides a more elastic guidance to determine whether the applicant engages in substantive business activities to constitute a beneficial owner. When determining the applicant's status of the beneficial owner regarding tax treatments in connection with dividends, interests or royalties in the tax treaties, several factors, including without limitation, whether the applicant is obligated to pay more than 50% of his or her income in the past twelve months to residents in third country or region, whether the business operated by the applicant constitutes the actual business activities, and whether the other country or region to the tax treaties does not levy any tax or grant tax exemption on relevant incomes at all or levy tax at an extremely low rate, will be taken into account, and it will be analyzed according to the actual circumstances of the specific cases. This circular further provides that applicants who intend to prove his or her status of the beneficial owner shall submit the relevant documents to the relevant tax bureau according to the Administrative Measures for Non-Resident Enterprises to Enjoy Treatments under Tax Treaties, pursuant to which non-resident taxpayers which satisfy the criteria to be entitled to tax treaty benefits may, at the time of tax declaration or withholding declaration through a withholding agent, enjoy the tax treaty benefits, and be subject to follow-up administration by the tax authorities. If the non-resident taxpayer does not apply to the withholding agent for the tax treaty benefits, or such taxpayer does not satisfy the criteria to be entitled to tax treaty benefits, the withholding agent should withhold tax pursuant to the provisions of PRC tax laws. We cannot assure you that any dividends to be distributed by us or by our subsidiaries to our non-PRC shareholders and ADS holders whose jurisdiction of incorporation has a tax treaty with China providing a different withholding arrangement will be entitled to the benefits under the relevant withholding arrangement.

The EIT law deems an enterprise established offshore but having its management organ in the PRC as a resident enterprise that will be subject to PRC tax at the rate of 25% of its global income. Under the Implementation Rules of the New Enterprise Income Tax Law, the term management organ is defined as an organ which has substantial and overall management and control over the manufacturing and business operation, personnel, accounting, properties and other factors. On April 22, 2009, the SAT further issued Circular 82. According to Circular 82, a foreign enterprise controlled by a PRC company or a PRC company group shall be deemed a PRC resident enterprise, if (i) the senior management and the core management departments in charge of its daily operations are mainly located and function in the PRC; (ii) its financial decisions and human resource decisions are subject to the determination or approval of persons or institutions located in the PRC; (iii) its major assets, accounting books, company seals, minutes and files of board meetings and shareholders meetings are located or kept in the PRC; and (iv) more than half of the directors or senior management with voting rights reside in the PRC. On July 27, 2011, SAT issued SAT Bulletin 45 which further clarified the detailed procedures for determination of the resident status provided in Circular 82, competent tax authorities in charge and post-determination administration of such resident enterprises. Although our offshore companies are not controlled by any PRC company or PRC company group, we cannot assure you that we will not be deemed to be a resident enterprise under the EIT Law and thus be subject to PRC EIT on our global income.

According to the EIT Law and its implementation rules, dividends are exempted from income tax if such dividends are received by a PRC resident enterprise on equity interests it directly owns in another PRC resident enterprise. However, foreign corporate holders of our shares or ADSs may be subject to taxation at a rate of 10% on any dividends received from us or any gains realized from the transfer of our shares or ADSs if we are deemed to be a resident enterprise or if such income is otherwise regarded as income sourced within the PRC. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry The PRC income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to decrease.

Table of Contents

With respect to sales taxes, before December 31, 2011, all the services provided by our PRC subsidiaries were subject to business taxes at the rate of 5%. On March 23, 2016, the Ministry of Finance and the SAT jointly issued the Circular on the Pilot Program for Overall Implementation of the Collection of Value Added Tax Instead of Business Tax, or Circular 36, which took effect on May 1, 2016. Pursuant to Circular 36, all companies operating in construction, real estate, finance, modern service or other sectors which were required to pay business tax are required to pay VAT in lieu of business tax. As a result of Circular 36, the services provided by Shanghai IT, The9 Computer, C9I Shanghai, Shanghai Fire Wing and The9 Education as general VAT payers will be subject to VAT at the rate of 6%, and the services provided by our other PRC subsidiaries or affiliated PRC entities as small-scale VAT payers will be subject to VAT at the rate of 3%.

Our subsidiaries in the United States are registered in California and are subject to U.S. federal corporate marginal income tax at a rate of 35% and state income tax at a rate of 8.84%, respectively.

Inflation

Since our inception, inflation in China has not materially impacted our results of operations. According to the National Bureau of Statistics of China, the year-over-year percent changes in the consumer price index for December 2015, 2016 and 2017 increases of 1.6%, 2.1% and 1.8%, respectively. Although we have not been materially affected by inflation, we may be affected if China experiences higher rates of inflation in the future.

Critical Accounting Policies

We prepare financial statements in conformity with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements, and the reported amounts of revenue and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our financial statements as their application assists management in making their business decisions.

Consolidation of Variable Interest Entities, or VIEs

PRC laws and regulations, including the GAPP Circular and the Network Publication Measures, currently prohibit or restrict foreign ownership of Internet-related businesses. We believe, consistent with the view of our PRC legal counsel, that our current structure complies with these foreign ownership restrictions, subject to the interpretation and implementation of the GAPP Circular and the Network Publication Measures. Specifically, we operate our business through Shanghai IT and have entered into a series of contractual arrangements with Shanghai IT and its equity owners. See the contractual arrangements set forth in Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions. As a result of these contractual arrangements, we are entitled to receive service fees for services provided to Shanghai IT for an amount determined at our discretion, up to 90% of PRC entities' profits. In addition, the equity owners of record for these entities have pledged all their equity interests in the VIEs to us as collateral for all of their payments due to the wholly-owned foreign enterprise, or WOFE, and to secure performance of all obligations of the VIEs and their shareholders under various agreements. In addition, the agreements provide that any dividend distributions made by the VIEs, if any, are required to be deposited in an escrow account over which

we have exclusive control. Moreover, through the Call Option Agreements and Shareholder Voting Proxy Agreements, each shareholder of the VIEs granted WOFE or any third parties designated by the WOFE an irrevocable power of attorney to act on all matters pertaining to the VIEs. We believe that the terms of the Call Option Agreements are currently exercisable and legally enforceable under the PRC laws and regulations. We also believe that the minimum amount of consideration permitted by the applicable PRC law to exercise the options does not represent a financial barrier or disincentive for us to exercise our rights under the Call Option Agreements. A simple majority vote of our board of directors is required to pass a resolution to exercise our rights under the Call Option Agreements, for which consent of the shareholder of the VIEs is not required. As a result of the totality of these arrangements, we have both the power to direct activities that most significantly impact the VIEs economic performance and the obligation to absorb losses of or right to receive benefits from the VIEs that are significant to Shanghai IT. As a result, we concluded we are the primary beneficiary of Shanghai IT and as such Shanghai IT is consolidated VIE of our company.

Table of Contents

The GAPP Circular reiterates and reinforces the long-standing prohibition of foreign ownership of Internet-related publication businesses via direct, indirect or disguised methods, and the Network Publication Measures provides that the manner of project cooperation shall be subject to prior examination and approval by the GAPPRFT. However, it is not clear whether GAPPRFT and MIIT have regulatory authority over the ownership structures of online game companies based in China and online game operation in China. In addition, the GAPP Circular and the Network Publication Measures do not specifically invalidate VIE agreements, and we are not aware of any online game companies adopting similar contractual arrangements as ours having been penalized or ordered to terminate such arrangements since the GAPP Circular first became effective. Therefore, we believe that our ability to direct the activities of Shanghai IT that most significantly impact our economic performance is not affected by the GAPP Circular. Any changes in PRC laws and regulations that affect our ability to control Shanghai IT might preclude us from consolidating Shanghai IT in the future. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

Revenue Recognition***Online Game Services***

We earn revenue from provision of online game operation services to players on our game servers and third-party platform and overseas licensing of the online game to other operators. We recognize revenues when persuasive evidence of an arrangement exists, services are delivered or performed, our price is fixed or determinable and collectability is reasonably assured. We will adopt the new guidance using the modified retrospective transition approach method, reflecting the cumulative effect of initially applying the new standard to revenue recognition in 2018. We are in the process of completing the process for all revenue streams to evaluate the impact of the new standard on revenue contracts. While we continues to assess all potential impacts effects from the updates new guidance, we currently believes the most significant potential impact relates to the accounting is for licensing agreements and sales-based royalty agreements.

Online game services to players on our game server

We generate revenue primarily from the sale of prepaid online points for our online game services products to distributors who in turn ultimately sell them to players. We also sell the points directly to players via certain online payment platforms.

We utilize a virtual item/service consumption model to recognize revenue. Under this model, we generate online game service revenues through the sale of in-game premium features. In this model, players can access our basic games free of charge and then may purchase game points to acquire in-game premium features. The distribution of points to players is typically made through sales of prepaid online points. Fees for prepaid online points are deferred when initially received. This revenue is recognized over the estimated life of the premium features or as the premium features are consumed.

For in-game premium features that are immediately consumed, revenue is recognized upon consumption. For premium features with a stated expiration time, which ranges from one to 180 days, revenue is recognized ratably over the period starting from when the feature is first used to the expiration time. For perpetual features with no predetermined expiration, revenue is recognized ratably over the estimated average lives of the perpetual features, which are typically less than one year. When estimating the average lives of the in-game perpetual features, we consider the average period that players typically play the game, other player behavior patterns, and factors including

the acceptance and popularity of expansion packs, promotional events launched, and market conditions. Future usage patterns of players may differ from the historical usage patterns on which the virtual item / service consumption revenue recognition model is based. We continually monitor the operational statistics and usage patterns, and adjust its estimates accordingly.

Table of Contents

Online game services over third-party platform

Certain social games, TV games, certain web games and certain MMOGS, have adopted the virtual item / service consumption model, and are launched on the third-party game platforms and telecom carriers. Revenue from social and web games operated through third-party game platforms are recognized upon consumption of the in-game premium features with the amount net of remittance to the third-party game platforms as we do not set the pricing of the in-game currency of the third-party game platforms.

Revenue from TV games operated through telecom carriers and certain MMOGS operated on the third-party game platforms are recognized upon consumption of the in-game premium features based on the gross amount paid, as we are the primary obligor of the games operation. The remittance to the telecom carrier and third-party game platforms is recognized as costs of revenue when incurred.

Licensing revenue

We license our proprietary online games to other game operators and receive license fees and royalty income in connection with their operation of the games. License fee revenue is recognized over the license period upon the commercialization of the game in the market. Royalty income is recognized when earned, provided that collectability is reasonably assured.

Other Revenues

Other revenues mainly include those generated from providing technical training to college students on mobile application programming. These revenues are recognized when delivery of the service has occurred or when services have been rendered and the collection of the related fees is reasonably assured.

Income Taxes

We account for income taxes under the asset and liability method. Deferred taxes are determined based upon the differences between the carrying value of assets and liabilities for financial reporting and tax purposes at currently enacted statutory tax rates for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period of change.

A valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that such deferred tax assets will not be realized. The total income tax provision includes current tax expenses under applicable tax regulations and the change in the balance of deferred tax assets and liabilities. Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including our ability to generate taxable income within the period during which the temporary differences reverse or our tax loss carry forwards expire, the outlook for the PRC economic environment, and the overall future industry outlook. We consider these factors in reaching our conclusion on the recoverability of the deferred tax assets and determine the valuation allowances necessary at each balance sheet date.

We recognize the impact of an uncertain income tax position at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. Income tax related interest is classified as interest expenses and penalties as income tax expense. As of December 31, 2015, 2016 and 2017, we did not have any material liability for uncertain tax positions. Our policy is to recognize, if any, tax-related interest as interest expenses and penalties as income tax expenses. For the years ended December 31, 2015, 2016 and 2017, we did not have any material interest and penalties associated with tax positions.

Table of Contents***Intangible Assets***

Our intangible assets consist primarily of acquired game licenses and acquired game development costs from business combination.

Acquired game licenses are amortized on a straight-line basis over the shorter of the useful economic life of the relevant online game or license period, which range from two to seven years. Amortization of upfront licensing fees commences upon the monetization of the related online game. We recognize intangible assets acquired through business acquisitions as assets separate from goodwill. Acquired in-process research and development costs are initially considered an indefinite-lived asset. Subsequently, they are recorded as acquired game development cost upon completion of the research and development efforts and are amortized on a straight-line basis over the useful economic life of the relevant online game. Amortization of acquired game development cost commences upon the monetization of the related online game.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired as a result of our business acquisition. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. In September 2011, the Financial Accounting Standards Board, or FASB, issued an authoritative pronouncement related to testing goodwill for impairment. The guidance permits us to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. We have adopted this pronouncement since 2012. If it is more likely than not that the fair value of a reporting unit is less than its carrying amount, we complete a two-step goodwill impairment test in December of each year. The first step is to compare the fair value of each reporting unit to its carrying amount, including goodwill. If the fair value of a reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step is to compare the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. This allocation process is only performed for purposes of evaluating goodwill impairment and does not result in an entry to adjust the value of any assets or liabilities. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill. After completing our annual impairment reviews during the fourth quarter of 2015, the reporting unit that was subject to the annual impairment testing had a fair value which exceeded its respective carrying value by a significant margin with no risk of failing the first step of the impairment test. We concluded that goodwill was not impaired as of December 31, 2015. In 2016, due to the weaker-than-expected operating performance of Red 5, we concluded that goodwill was fully impaired as of December 31, 2016. There was no goodwill as of December 31, 2017.

Share-Based Compensation

Under the 2004 Stock Option Plan, or the Option Plan, we granted options to purchase a total of 355,000 and 10,110,000 ordinary shares of our company to our employees and directors in 2013 and 2015, respectively. We did not grant any options under the Option Plan in 2014. We granted options to purchase a total of 6,000,000 and nil ordinary shares of our company to a director and a consultant in 2016 and 2017, respectively.

We measure the cost of employee services received in exchange for stock-based compensation measured at the grant date fair value of the award. For the awards that are modified, we determine the incremental cost as the excess of the fair value of the modified award over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date. We recognize the compensation costs, net of the estimated forfeiture, on a straight-line basis over the vesting period of the award, which generally ranges from one to four years. Forfeiture rates are estimated based on historical forfeiture patterns and adjusted to reflect future changes in circumstances and facts, if any. If actual forfeitures differ from those estimates, the estimates may be revised in subsequent periods. We use historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

Table of Contents

Determining the fair value of stock options requires significant judgment. We measure the fair value of the stock options using the Black-Scholes option-pricing model with assumptions made regarding expected term, volatility, risk-free interest rate, and dividend yield. The expected term represents the period of time that the awards granted are expected to be outstanding. The expected term is determined based on historical data on employee exercise and post-vesting employment termination behavior, or the simplified method for stock option awards with the characteristics of plain vanilla options for 2010 and 2011. Expected volatilities are based on historical volatilities of our ordinary shares. Risk-free interest rate is based on U.S. government bonds issued with maturity terms similar to the expected term of the stock-based awards. While we paid a discretionary cash dividend in January 2009, we do not anticipate paying any recurring cash dividends in the foreseeable future.

In addition, on December 8, 2010, we granted 1,500,000 ordinary shares to Jun Zhu, our chairman and chief executive officer, which will only be vested if our company achieves certain income targets and the shares are not entitled to receive dividends until they become vested. Of such shares, 500,000 ordinary shares were vested and issued to Insight Limited, a company wholly-owned by Jun Zhu, on November 17, 2015. We considered the grant of ordinary shares as an incentive to retain Mr. Jun Zhu's services with our company. The awarded non-vested shares would be valid for five years from December 8, 2010. The fair value of the granted non-vested shares is US\$6.48 per share, the market price on the date of grant. We record share-based compensation expenses for these performance-based awards based upon our estimate of the probable outcome at the end of the performance period (i.e., the estimated performance against the performance targets). We periodically adjust the cumulative share-based compensation recorded when the probable outcome for these performance-based awards is updated based upon changes in actual and forecasted operating results. Our actual performance against the performance targets could differ materially from our estimates.

In May 2011, we granted 30,000 ordinary shares to each of our four non-executive directors, of which 10,000 ordinary shares vest for each director on July 1 of each year from 2011 to 2013 so long as such director continues his service as of such date. An aggregate of 40,000 ordinary shares vested in each of July 2011, July 2012 and July 2013, respectively. The fair value of the shares granted was US\$6.03 per share, being the market price on the date of the grant.

In February 2006, Red 5 adopted a Stock Incentive Plan, or Red 5 Stock Incentive Plan, under which Red 5 may grant to its employees, director and consultants stock options to purchase common stocks or restricted stocks of Red 5. Red 5 granted options to purchase an aggregate of 28,963,258 shares of common stock under the Red 5 Stock Incentive Plan from April 6, 2010 to December 31, 2013. In September 2012, Red 5 granted an aggregate of 6,122,435 restricted common stocks to two directors of Red 5 including Mr. Zhu for their services to Red 5. We measure the share-based compensation based on the fair value of the award as of the grant date. We measure the fair value of the stock options using the Black-Scholes option-pricing model with assumptions made regarding the fair value of the common stock, expected term, volatility, risk-free interest rate, and dividend yield.

Share-based compensation expenses of RMB34.0 million, RMB28.1 million and RMB38.0 million (US\$5.8 million) were recognized for the years ended December 31, 2015, 2016 and 2017, respectively, for options and warrants granted to our company's and its subsidiaries' employees and directors, including incremental compensation cost due to the modification of option exercise price in April 2013 and November 2015 and compensation cost due to the acceleration vesting and exercise of options in June 2017.

Impairment Loss of Equity Investment

We assess our equity investments for impairment on a periodic basis by considering factors including, but not limited to, current economic and market conditions, the operating performance of the investees including current earnings trends, the technological feasibility of the investee's products and technologies, the general market conditions in the

investee's industry or geographic area, factors related to the investee's ability to remain in business, such as the investee's liquidity, debt ratios, and cash burn rate and other company-specific information including recent financing rounds. If it has been determined that the carrying amount of equity investment are higher than related fair value and that this decline is other-than-temporary, the carrying value of the equity investment is adjusted downward to reflect these declines in value. Impairment loss relating to investment in an equity investee of nil, RMB2.8 million and nil was recognized in 2015, 2016 and 2017, respectively.

Table of Contents***Impairment on Long-lived Assets and Allowance on Long-term Receivable***

We review long-lived assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. We assess the recoverability of long-lived assets and intangible assets (other than goodwill) by comparing the carrying amount to the estimated future undiscounted cash flow associated with the related assets. We recognize impairment of long-lived assets and intangible assets in the event that the net book value of such assets exceeds the estimated future undiscounted cash flow attributable to such assets. We use estimates and judgment in our impairment tests, and if different estimates or judgments had been utilized, the timing or the amount of the impairment charges could be different. Impairment charges relating to intangible assets and other assets amounting to RMB8.4 million, RMB68.0 million and nil were recognized in 2015, 2016 and 2017, respectively. We determine the allowances on long-term receivables when facts and circumstances indicate that the long-term receivable is unlikely to be collected.

Refund of WoW Game Points

As a result of non-renewal of WoW license on June 7, 2009, we announced a refund plan in connection with inactivated WoW game point cards. According to the plan, inactivated WoW game point card holders are eligible to receive a cash refund from us. We recorded a liability in connection with both inactivated points cards and activated but unconsumed point cards of approximately RMB200.4 million, of which RMB4.0 million was refunded in 2009. Upon the loss of the WoW license, we concluded that the nature of the obligation substantively changed from deferred revenue, for which we had the ability to satisfy the underlying performance obligation, to an obligation to refund players for their unconsumed points. Thus, we have accounted for this refund liability by applying the relevant de-recognition guidance when determining the proper accounting treatment. In accordance with this guidance, the refund liability associated with these WoW game points, to the extent not refunded, will be recorded as other operating income after we are legally released from the obligation to refund amounts under the applicable laws. As we announced the refund plan on September 7, 2009, the statute of limitations of the creditors (in this case the game players with claims for refund of inactivated WoW game point cards) to assert their claims for refund is two years from such date under applicable laws and thus our legal liability relating to the inactivated WoW game point cards was extinguished on September 7, 2011 and the associated liability amounting to RMB26.0 million was recognized as other operating income for the year ended December 31, 2011. With respect to the remaining refund liability, based on current PRC laws, to the extent not refunded, we, in consultation with legal counsel, have determined that we will be legally released from this liability in 2029, which represents 20 years from the date of discontinuation of WoW in 2009. However, if management were to publicly announce a refund policy, we would be legally released from any remaining liability for these activated, but unconsumed points, sooner than 20 years. To date, we have determined not to publicly announce any refund policy with respect to this remaining liability, and no refunds have been claimed. The remaining refund liability relating to the activated, but unconsumed WoW game points was RMB170.0 million (US\$26.1 million) as of December 31, 2017.

Convertible Notes and Beneficial Conversion Feature (BCF)

We have issued convertible notes and warrants in December 2015. We have evaluated whether the conversion feature of the notes is considered an embedded derivative instrument subject to bifurcation in accordance with ASC 815, Accounting for Derivative Instruments and Hedging Activities. Based on our evaluation, the conversion feature is not considered an embedded derivative instrument subject to bifurcation as conversion option does not provide the holder of the notes with means to net settle the contracts. Convertible notes, for which the embedded conversion feature does not qualify for derivative treatment, are evaluated to determine if the effective rate of conversion pursuant to the terms of the convertible note agreement is below market value. In these instances, the value of the BCF is determined as the intrinsic value of the conversion feature, which is recorded as deduction to the carrying amount of the notes and

credited to additional paid-in-capital. For convertible notes issued with detachable warrants, a portion of the note's proceeds is allocated to the warrant based on the fair value of the warrants as of the date of issuance. The allocated fair values for the warrants and BCF are both recorded in the financial statements as debt discounts from the face amount of the notes, which are then accreted to interest expense over the life of the related debt using the effective interest method.

Table of Contents**Warrants**

We account for the detachable warrants issued in connection with convertible notes under the authoritative guidance on accounting for derivative financial instruments indexed to, and potentially settled in, a company's own stock. We classify warrants in our consolidated balance sheet as a liability which is revalued at each balance sheet date subsequent to the initial issuance. We use the Black-Scholes pricing model to value the warrants. Determining the appropriate fair-value model and calculating the fair value of warrants requires considerable judgment. A small change in the estimates used may cause a relatively large change in the estimated valuation. The estimated volatility of our common stock at the date of issuance, and at each subsequent reporting period, is based on historic fluctuations in our stock price. The risk-free interest rate is based on U.S. government bonds with a maturity similar to the expected remaining life of the warrants at the valuation date. The expected life of the warrants is based on the historical pattern of exercises of warrants.

Redeemable Non-controlling Interests

Redeemable non-controlling interests are equity interests of our consolidated subsidiary not attribute to us that have redemption features that are not solely within our control. These interests are classified as temporary equity because their redemption is considered probable. These interests are measured at the greater of estimated redemption value at the end of each reporting period or the initial carrying amount of the redeemable non-controlling interests adjusted for cumulative earnings (loss) allocations.

Recent Accounting Pronouncements

A list of recent accounting pronouncements that are relevant to us is included in note 2 to our consolidated financial statements, which are included in this annual report.

Results of Operations

The following table sets forth a summary of our consolidated statements of operations for the periods indicated.

| | For the Year Ended December 31, | | | |

Year 2017 Compared to Year 2016

Revenues. Our revenues increased by 30.1%, from RMB56.3 million in 2016 to RMB73.2 million (US\$11.3 million) in 2017, primarily due to the increase in revenues from the recognition of remaining unamortized Firefall licensing fees from System Link..

Online Game Services. Our revenues from our online game services increased by 47.4%, from RMB48.6 million in 2016 to RMB71.6 million (US\$11.6 million) in 2017. The increase was primarily due to an increase in revenues from

the recognition of remaining unamortized Firefall licensing fees from System Link of RMB33.4 million (US\$5.1 million) in 2017. Such increase was partially offset by the decrease in revenues due to the cease of operations of Firefall in the United States and Europe and Song of Knights in China in July 2017.

Our revenues from TV games decreased from RMB24.0 million in 2016 to RMB17.2 million (US\$2.6 million) in 2017. Unlike PC online games, our TV games are operated through telecommunication carriers and we do not maintain information relating to active users pursuant to our cooperation agreements with the telecom carriers.

Other Revenues. Revenues generated from other products and services decreased by 78.7% from RMB7.7 million in 2016 to RMB1.6 million (US\$0.3 million) in 2017, primarily due to a decrease in our revenues from providing technical training to college students on mobile application programming.

Table of Contents

Cost of Revenue. Cost of revenue decreased by 51.0% from RMB48.5 million in 2016 to RMB23.8 million (US\$3.7 million) in 2017, primarily due to a decrease in amortization of intangible assets following an impairment of intangible assets and a decrease in IPTV cost in 2017.

Operating Expenses. Operating expenses decreased by 46.9% from RMB306.9 million in 2016 to RMB163.0 million (US\$25.1 million) in 2017.

Product Development Expenses. Product development expenses decreased by 42.2% from RMB78.0 million in 2016 to RMB45.1 million (US\$6.9 million) in 2017. The decrease was primarily due to a decrease in staff cost relating to research and a decrease in depreciation expenses of fixed assets and rental fees of Red 5 as Red 5 ceased the operation of Firefall in 2017 and had no business operations since then.

Sales and Marketing Expenses. Sales and marketing expenses decreased by 57.3% from RMB21.3 million in 2016 to RMB9.1 million (US\$1.4 million) in 2017. The decrease in sales and marketing expenses was primarily due to a decrease in expenses incurred for Firefall.

General and Administrative Expenses. General and administrative expenses decreased by 15.7% from RMB129.0 million in 2016 to RMB108.8 million (US\$16.7 million) in 2017. The decrease was primary due to a decrease in payroll-related expenses under our cost control measures and a decrease in agency fees and related charges for the pledge of L&A shares.

Impairment on Intangible Assets. We had impairment charges on certain intangible assets of RMB68.0 million and nil for the year ended December 31, 2016 and 2017, respectively.

Impairment Loss on Goodwill. We recorded impairment of goodwill of RMB10.6 million and nil for the year ended December 31, 2016 and 2017, respectively.

Other Operating (Expenses) Income. We had an operating income of RMB0.3 million (US\$0.05 million) in 2017, including primarily office rental fee. We had an operating income of RMB3.6 million in 2016, including primarily IDC rental fee and office rental fee of RMB4.2 million, which were partially offset by the disposal of property, equipment and software of RMB0.6 million.

Impairment on Available-for-sale Investment. We did not record impairment on available-for-sale investments in 2017. We recorded an impairment on available-for-sale investment of RMB244.8 million in 2016, primarily due to a decrease in the share price of L&A, which we classify as available-for-sale investment.

Impairment on Other Investment. We recorded an impairment of other investment amounting to RMB9.1 million (US\$1.4 million) in 2017, primarily due to the decrease in the market value of our investment in Smartposting and Beijing Ti Knight. We recognized the impairment of RMB5.1 million (US\$0.8 million) and RMB4.0 million (US\$0.6 million) for Smartposting and Beijing Ti Knight, respectively, in 2017. We recorded an impairment of other investment amounting of RMB2.8 million in 2016, primarily due to a decrease in the market value of our investment in Tandem Fund II, L.P., or the Tandem Fund.

Interest Income. Interest income decreased from RMB0.2 million in 2016 to RMB0.03 million (US\$0.01 million) in 2017, primarily due to a decrease in our bank cash deposits during 2017.

Interest Expenses. Interest expenses increased from RMB56.5 million in 2016 to RMB83.9 million (US\$12.9 million) in 2017, primarily due to the increase in accrued interest expenses on the Convertible Notes.

Fair Value of Change on Warrants. We had a fair value of change on convertible bonds and warrants of RMB12.6 million (US\$1.9 million) in 2017, primarily due to a decrease in our share price as of December 31, 2017 compared to December 31, 2016.

Gain (loss) on disposal of equity investee and available-for-sale investment. We have disposed partial shareholding in L&A and recorded a gain on disposal of equity investee and available-for-sale investment of RMB0.1 million (US\$0.02 million) in 2017. We recorded a loss on disposal of equity investee and available for sale investment of RMB1.2 million in November 2016 in connection with the disposal of all of our equity interest in Crowdstar Inc., our equity investee, to a third-party investor.

Table of Contents

Foreign exchange gain (loss). We recorded foreign exchange gain of RMB19.2 million (US\$3.0 million) in 2017, as compared to foreign exchange loss of RMB13.1 million in 2016, primarily due to the depreciation of U.S. dollars against Renminbi in 2017.

Other Income (Expenses), Net. We recorded other net income of RMB4.7 million (US\$0.7 million) in 2017, as compared to other net expenses of RMB3.2 million in 2016, primarily due to the government subsidies received in 2017.

Recovery of equity investment in excess of cost. We recorded recovery of equity investment in excess of cost of RMB60.5 million (US\$9.3 million) in 2017, primarily related to the settlement payment of US\$25.0 million received due to the termination of the CrossFire 2 license agreement related to and the joint venture agreement entered into by and between Oriental Shiny and Smilegate. Oriental Shiny and Smilegate agreed to terminate the CrossFire 2 license agreement in October 2017, and a settlement agreement was entered into by and among Qihoo 360, Smilegate and us. Pursuant to the settlement agreement, the joint venture agreement between Oriental Shiny and Smilegate would be terminated subsequent to the settlement payments of an aggregate amount of US\$50.0 million by Smilegate. Smilegate later made settlement payments of US\$25.0 million to Qihoo 360 and us, respectively. During 2017, we offset our share of losses in System Link for 2017 against the compensation of US\$25.0 million from Smilegate and reduced our investment in System Link to nil. The remaining portion of the compensation, i.e. RMB60.5 million (US\$9.3 million), was recorded as a gain as we have no further funding obligation to System Link or Oriental Shiny.

Net Loss Attributable to Holders of Ordinary Shares. Primarily as a result of the cumulative effect of the above factors, net loss attributable to our holders of ordinary shares decreased from RMB676.7 million in 2016 to RMB175.3 million (US\$26.9 million) in 2017.

Year 2016 Compared to Year 2015

Revenues. Our revenues increased by 20.8%, from RMB46.6 million in 2015 to RMB56.3 million in 2016, primarily due to an increase in revenues from our online game services.

Online Game Services. Our revenues from our online game services increased by 20.0%, from RMB40.5 million in 2015 to RMB48.6 million in 2016. The increase was primarily due to an increase in revenues from Firefall amounting to RMB5.7 million and an increase in revenues from Song of Knights amounting to RMB5.0 million. Such increase was primarily due to the increase of our average quarterly paying user from 10,364 in 2015 to 11,049 in 2016.

Quarterly paying user refers to the number of users who purchase virtual currency at least once for our online games during a quarter. Average quarterly paying user is the average of quarterly paying users for each of the four quarters during a year. Quarterly revenue per paying user refers to our revenues from online games during a given quarter divided by the number of the quarterly paying users. Average quarterly revenue per paying user is the average of quarterly revenues per paying users for each of the four quarters during a year.

Our revenues from TV games increased from RMB22.8 million in 2015 to RMB24.0 million in 2016. Unlike PC online games, our TV games are operated through telecommunication carriers and we do not maintain information relating to active users pursuant to our cooperation agreements with the telecom carriers.

Other Revenues. Revenues generated from other products and services increased by 26.4% from RMB6.1 million in 2015 to RMB7.7 million in 2016, primarily due to revenues from the provision of game development and technical services to third parties in 2016, which amounted to RMB1.2 million in 2016.

Table of Contents

Cost of Revenue. Cost of revenue decreased by 28.4% from RMB67.7 million in 2015 to RMB48.5 million in 2016, primarily due to a decrease in amortization of intangible assets following an impairment of intangible assets in 2016.

Operating Expenses. Operating expenses increased slightly by 1.1% from RMB303.6 million in 2015 to RMB306.9 million in 2016.

Product Development Expenses. Product development expenses decreased by 42.3% from RMB135.0 million in 2015 to RMB78.0 million in 2016. The decrease was primarily due to a decrease in staff cost relating to research and development personnel and a decrease in the development outsourcing expenses relating to Firefall due to a reduced volume of outsourced development works.

Sales and Marketing Expenses. Sales and marketing expenses decreased by 32.8% from RMB31.7 million in 2015 to RMB21.3 million in 2016. The decrease in sales and marketing expenses was primarily due to decreased expenses incurred for Firefall in North America and Europe in 2016.

General and Administrative Expenses. General and administrative expenses decreased slightly by 2.1% from RMB131.8 million in 2015 to RMB129.0 million in 2016.

Provision (Reversal of Provision) for Allowance for Long-term Receivables and Prepayments. We had an allowance of other receivable of RMB8.4 million in 2015. We did not have such allowance in 2016.

Impairment on Intangible Assets. We had impairment charges on certain intangible assets of RMB68.0 million for the year ended December 31, 2016. We did not have such impairment charges in 2015.

Impairment Loss on Goodwill. We recorded impairment of goodwill of RMB10.6 million in 2016, compared to nil in 2015.

Gain/loss on Disposal of Subsidiaries. We recorded a gain on disposal of a subsidiary of RMB3.3 million in October 2015 in connection with the disposal of 58% equity interest in Shanghai Jiucheng Advertisement, which operates a mobile advertising platform. We did not have any gain or loss on disposal of subsidiaries in 2016.

Other Operating Income (Expenses). We had an operating income of RMB3.6 million in 2016, including primarily IDC rental fee and office rental fee of RMB4.2 million, which were partially offset by the disposal of property, equipment and software of RMB0.6 million. We had operating expenses of RMB1.6 million in 2015, which represented a loss on disposal of property, equipment and software.

Impairment on Available-for-sale Investment. We recorded an impairment on available-for-sale investment of RMB244.8 million in 2016, primarily due to a decrease in the share price of L&A, which we classify as available-for-sale investment. There was no such impairment in 2015.

Impairment on Other Investment. We recorded an impairment of other investment amounting of RMB2.8 million in 2016, primarily due to a decrease in the market value of our investment in Tandem Fund II, L.P., or the Tandem Fund. There was no such impairment in 2015.

Interest Income. Interest income decreased to RMB0.2 million in 2016 from RMB0.8 million in 2015, primarily due to a decrease in our bank cash deposits during the year of 2016.

Interest Expenses. Interest expenses increased to RMB56.5 million in 2016 from RMB6.4 million in 2015, primarily due to accrued interest expenses of RMB50.4 million on the Convertible Notes and loan interest expenses of RMB5.3 million.

Fair Value of Change on Convertible Bonds and Warrants. We had a fair value of change on convertible bonds and warrants of RMB48.1 million in 2016, primarily due to a decrease in our share price as of December 31, 2016 compared to December 31, 2015.

Table of Contents

Other Income (Expenses), Net. Other expenses increased from RMB1.9 million in 2015 to RMB10.0 million in 2016, which mainly reflected an increase in exchange loss.

Loss on Disposal of Equity Investee and Available-for-Sale Investment. We recorded a loss on disposal of equity investee and available-for-sale investment of RMB1.2 million in November 2016 in connection with the disposal of all of our equity interest in Crowdstar Inc., our equity investee, to a third-party investor.

Net Loss Attributable to Holders of Ordinary Shares. Primarily as a result of the cumulative effect of the above factors, net loss attributable to our holders of ordinary shares increased to RMB676.7million in 2016 from RMB384.6 million in 2015.

B. Liquidity and Capital Resources

We are a holding company and conduct our operations primarily through our subsidiaries and affiliated PRC entities in China. As a result, our cash requirements and our ability to pay dividends principally depend upon dividends and other distributions from our subsidiaries, which in turn are derived principally from earnings generated by our affiliated PRC entities. Specifically, The9 Computer, one of our subsidiaries in China, obtains funds from the PRC entities in the form of payments under the exclusive technical service agreements, pursuant to which The9 Computer is entitled to determine the amount of payment.

We acknowledge that the PRC government imposes controls on the convertibility of the RMB into foreign currencies, and in certain cases, the remittance of currency out of China. However, under existing PRC foreign exchange regulations, payments of current account items, including profit distributions and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval from SAFE, by complying with certain procedural requirements. Therefore, we are able to pay dividends in foreign currencies without prior approval from SAFE or designated banks. Approval from or registration with appropriate government authorities is required where RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies.

Furthermore, if our subsidiaries or any newly formed subsidiaries incur debt on their own behalf, the agreements governing their debt may restrict their ability to pay dividends to us. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Restrictions on currency exchange in China limit our ability to utilize our revenues effectively, make dividend payments and meet our foreign currency denominated obligations.

Current PRC regulations restrict our affiliated entities and subsidiaries from paying dividends in the following two principal aspects: (i) our affiliated entities and subsidiaries in China are only permitted to pay dividends out of their respective accumulated profits, if any, determined in accordance with PRC accounting standards and regulations; and (ii) these entities are required to allocate at least 10% of their respective accumulated profits each year, if any, to fund certain capital reserves until the cumulative total of the allocated reserves reaches 50% of registered capital, and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective boards of directors. Although the statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, companies may not distribute the reserve funds as cash dividends except upon a liquidation of these subsidiaries. In addition, dividend payments from our PRC subsidiaries could be delayed as we may only distribute such dividends upon completion of annual statutory audits of the subsidiaries. As of December 31, 2017, such restricted portion was RMB28.9 million (US\$4.4 million). We have not directed our PRC subsidiaries or affiliated entities to distribute any dividends to-date.

The aggregate net assets as of December 31, 2015, 2016 and 2017, as reflected on our statutory accounts, including registered capital and statutory reserves, were approximately RMB97.9 million, RMB76.1 million and RMB52.0 million (US\$8.0 million) higher than the amounts determined under U.S. GAAP, respectively.

Table of Contents**Cash Flows and Working Capital**

We fund our operations primarily through our available cash in hand as well as cash generated from our operating, financing and investing activities. As of December 31, 2015, 2016 and 2017, we had RMB49.0 million, RMB38.9 million and RMB142.6 million (US\$21.9 million), respectively, in cash and cash equivalents. The increase in cash and cash equivalents from 2016 to 2017 was primarily because we received US\$25.0 million settlement payment from one of our investee in 2017. The decrease in cash and cash equivalents from 2015 to 2016 was primarily due to cash outflows to operating activities for product development and sales and marketing, offset by net proceeds from the a loan provided by a financial services company, a bank loan provided by Bank of Shanghai, loans from related parties and fund-raising on Inner Mongolia Culture Assets and Equity Exchange.

We have an accumulated deficit of approximately RMB3,016.0 million (US\$463.5 million) and total current liabilities exceeded total assets by approximately RMB496.3 million (US\$76.3 million) as of December 31, 2017. We also had a net loss of approximately RMB 112.1 million (US\$17.2 million) for the year ended December 31, 2017, and have not generated significant revenues or positive cash flows from operations since 2009. We expect to continue to incur product development and sales and marketing expenses for licensed and proprietary new games in order to achieve revenue growth. To meet our capital needs, we have engaged and are considering multiple alternatives, including but not limited to debt financings, other financing transactions, launch new games and cost control, as discussed below. We may continue to incur losses, negative cash flows from operating activities and net current liabilities in the future. If we are not able to return to profitability or raise sufficient capital to cover our capital needs, we may not continue as a going concern. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry We may continue to incur losses, negative cash flows from operating activities and net current liabilities in the future. If we are not able to return to profitability or raise sufficient capital to cover our capital needs, we may not continue as a going concern.

Additional External Debt Financing

In March 2016, we obtained a one-year credit facility for a principal of RMB50.0 million (US\$7.7 million). RMB25.0 million (US\$3.8 million) under this credit facility was drawn down in 2016 and has been fully repaid as of December 31, 2017.

In June 2016, our subsidiary Asian Development borrowed a total of HK\$92.3 million from a financial services company at an annual interest rate of 2% for a term of 24 months, which is secured by a pledge of 417,440,000 shares of L&A. As Asian Development is currently in default on the loan due to a sharp decline in the stock price of L&A, the lender is entitled to foreclose the pledged L&A shares. If the market value of the pledged shares cannot cover the total outstanding amount owed by Asian Development to the lender, the lender may also make a claim against Asian Development for any outstanding amounts of the loan. As of the date of this report, the lender has not made any claim against Asian Development.

In December 2015, we borrowed an entrusted loan of approximately RMB31.6 million from a third party, at an interest rate of 12% per year, for an initial term of three years, subject to an extension for two years. The loan is secured by a mortgage over our office building in Shanghai which we currently use as our principal executive offices. As of December 31, 2017, all of the entrusted loan remained outstanding.

Equity Financing

In June 2017, we entered into a share purchase agreement with each of Ark Pacific Special Opportunities Fund I, L.P., or AP Fund, and Incisight Limited, or Incisight, which is wholly owned by Mr. Jun Zhu, our chairman and chief

executive officer, for the issuance and sale of a total of 25,000,000 ordinary shares, par value of US\$0.01, for a total consideration of US\$30 million. We have issued 12,500,000 unpaid ordinary shares to AP Fund and 12,500,000 unpaid ordinary shares to Incisight in June 2017, respectively. In February 2018, AP Fund assigned its rights and obligations under the share purchase agreement as a whole as well as 12,500,000 unpaid ordinary shares to a third party, Jupiter Explorer Limited, or Jupiter, and Jupiter assumed all the rights and obligations of AP Fund under the share purchase agreement.

Table of Contents

Other External Financing

We are financing the development of the CrossFire New Mobile Game through fund-raising on Inner Mongolia Culture Assets and Equity Exchange. As of December 31, 2017, we had raised RMB57.5 million (US\$8.8 million), and we aim at raising an additional RMB100.0 million (US\$15.4 million) until the game is launched. Under this fund-raising arrangement, we are required to share certain percentages of the revenues generated from the CrossFire New Mobile Game with the investors that provided funding to us.

Launch of New Games

We plan to launch our proprietary mobile online games, including the CrossFire New Mobile Game. Audition, Knight Forever and Q Jiang San Guo.

Cost Control

Currently a significant portion of our cash requirements is attributable to payroll-related costs. We have the ability to control the level of discretionary spending on payroll by reducing our headcount within a short period of time when necessary. However, there can be no assurance that we will be able to successfully conduct the cost control measures with results favorable to us, or at all.

If we are unable to obtain the necessary capital, we will need to license or sell our assets, seek to be acquired by another entity and/or cease operations. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry We may not be able to obtain additional financing to support our business and operations, and our equity or debt financings may have an adverse effect on our business operations and share price.

We believe that, with the foregoing potential sources of cash flow and potential cost control measures, we have sufficient financial resources to meet our anticipated operating cash flow requirements, to meet our obligations and to pay off liabilities as and when they fall due for the 12 months following the date of this annual report.

In addition to the above financing measures, pursuant to the Convertible Note and Warrant Purchase Agreement dated November 24, 2015, on December 11, 2015, we issued and sold the Convertible Notes in the aggregate principal amount of US\$40,050,000 to Splendid Days Limited, or Splendid Days. We received net proceeds of US\$36,850,000 from the sale of the Convertible Notes. The Convertible Notes are divided into three tranches in principal amounts of US\$22,250,000, US\$13,350,000 and US\$4,450,000, respectively, which will be convertible at the option of the holder at any time into our ADSs at initial conversion prices of US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively, provided that at no time shall the holder convert any portion of the Convertible Notes if subsequent to such conversion such holder will hold more than 20% of the total outstanding and issued shares of our company. The Convertible Notes bear interest at a rate of 12% per year, payable when the principal amount of the Convertible Notes becomes due, and have initial terms of three years, subject to an extension for two years at the discretion of the holder. The initial conversion prices are subject to adjustments for share splits, reverse splits, share dividends and distributions, and certain issuances (or deemed issuances) of ordinary shares or ADSs for consideration less than the conversion price then in effect. In addition, the holder of the Convertible Notes is entitled to any extraordinary cash dividend (to the extent that it exceeds the accrued interest amount per share) and dividend in kind that we distribute based on the number of shares into which the Convertible Notes are then convertible. Following a change of control, as such term is defined in the Convertible Notes, the holder of the Convertible Notes will be entitled to require us to redeem all or part of the Convertible Notes, at a price payable in cash equal to 100% of the outstanding principal amount of the Convertible Notes, plus all accrued and unpaid interests thereon, if any. In addition, pursuant to the terms of the Convertible Notes, if there is a continuing event of default, the holder will be entitled to declare any of the Convertible

Notes immediately due and payable, and request redemption by us at a price equal to the outstanding principal amount plus all accrued and unpaid interests thereon, if any. Events of default as defined in the Convertible Notes include, among other things, an event of default under any indebtedness in the amount exceeding US\$500,000.

Table of Contents

Pursuant to the same agreement, on December 11, 2015, we issued to Splendid Days four tranches of warrants in an aggregate principal amount of US\$9,950,000. The Warrants are divided into four tranches in principal amounts of US\$5,000,000, US\$2,750,000, US\$1,650,000 and US\$550,000, respectively, which will be exercisable for our ADSs at the option of the holder at any time at initial exercise prices of US\$1.5, US\$2.6, US\$5.2 and US\$7.8 per ADS, respectively. The initial exercise prices are subject to adjustments for share splits, reverse splits, share dividends and distributions, distribution of assets, certain issuances (or deemed issuances) of ordinary shares or ADSs for consideration less than the exercise price then in effect, as applicable for each warrant. In addition, the holder of the Warrants with initial exercise prices of US\$2.6, US\$5.2 and US\$7.8 per ADS is entitled to any cash dividend (to the extent that it exceeds the notional interest amount attributable to such Warrants) and dividend in kind that we distribute based on the number of shares into which the Warrants are then exercisable. The tranche of Warrants with an exercise price of US\$1.5 per ADS has a term of five years, while the remaining three tranches have initial terms of three years, subject to an extension for two years if the holder exercises its discretion to extend the term of the Convertible Notes. The Convertible Notes are secured by a pledge of our 100% equity interests in two of our wholly-owned subsidiaries in China, including The9 Computer and C9I Shanghai, and a mortgage over our office building in Shanghai which we currently use as our principal executive offices. Pursuant to the agreement, we have registered the ordinary shares into which the Convertible Notes are convertible and the Warrants are exercisable on a registration statement on F-3, which was declared effective by the SEC on June 17, 2016.

The following table sets forth the summary of our cash flows for the periods indicated:

| | For the Year Ended December 31, | | | |
|--|--|-------------|-------------|---------------------------|
| | 2015 | 2016 | 2017 | |
| | RMB | RMB | RMB | US\$⁽¹⁾ |
| | (in thousands) | | | |
| Net cash used in operating activities | (175,587) | (180,986) | (86,652) | (13,318) |
| Net cash (used in)/provided by investing activities | (208,996) | (10,395) | 161,923 | 24,887 |
| Net cash (used in)/provided by financing activities | 257,937 | 190,092 | 44,073 | 6,774 |
| Effect of foreign exchange rate changes on cash | (5,826) | (8,844) | 4,529 | 696 |
| Cash reclassified as held for sale | | | (20,127) | (3,093) |
| Net (decrease)/increase in cash and cash equivalents | (132,472) | (10,133) | 103,746 | 15,946 |
| Cash and cash equivalents at beginning of year | 181,483 | 49,011 | 38,878 | 5,975 |
| Cash and cash equivalents at end of year | 49,011 | 38,878 | 142,624 | 21,921 |

Operating Activities

Net cash used in operating activities was RMB86.7 million (US\$13.3 million) in 2017, compared to RMB181.0 million in 2016 and RMB175.6 million in 2015. The decrease of net cash used in operating activities in 2017 was mainly due to a decrease in cash outflow associated with product development and sales and marketing expenses.

The net cash used in operating activities in 2017 primarily reflected a net loss of RMB112.1 million (US\$17.2 million), partially offset by the interest expense on convertible note of RMB77.0 million (US\$11.8 million), recovery of equity investment in excess of cost of RMB60.5 million (US\$9.3 million), adjustments for share-based compensation expense of RMB38.0 million (US\$5.8 million), consulting fee paid by equity of RMB13.5 million (US\$2.1 million), and depreciation and amortization of property, equipment and software of RMB7.2 million (US\$1.1 million).

The net cash used in operating activities in 2016 primarily reflected a net loss of RMB667.1 million, partially offset by the impairment of available-for-sales investment of RMB244.8 million, adjustments for share-based compensation expense of RMB28.1 million, impairment of intangible assets of RMB68.0 million, amortization of intangible assets of RMB10.2 million, and depreciation and amortization of property, equipment and software of RMB7.3 million.

The net cash used in operating activities in 2015 primarily reflected a net loss of RMB354.2 million in 2015, partially offset by the adjustments for share-based compensation expense of RMB34.0, changes in amounts due to related party of RMB61.5 million primarily due to the receipt of the initial license fee of Firefall in China, amortization of intangible assets of RMB19.1 million, depreciation and amortization of property, equipment and software of RMB11.6 million and allowance of receivables of RMB8.4 million.

Table of Contents***Investing Activities***

Net cash provided by investing activities was RMB161.9 million (US\$24.9 million) in 2017, which primarily included (i) the settlement payment of US\$25 million from our investee in 2017, (ii) investment in Ti Knight Inc. of RMB4.0 million (US\$0.6 million), (iii) loan receivable due from ZTE9 of RMB4.0 million (US\$0.6 million), and (iv) proceeds from disposal of other investment in Tandem Fund of RMB1.2 million (US\$0.2 million).

Net cash used in investing activities was RMB10.4 million in 2016, which primarily included (i) loan receivable due from ZTE9 of RMB2.8 million, (ii) capital expenditures including purchase of property, equipment, software and license of RMB8.3 million, partially offset by a dividend of RMB0.7 million from Tandem Fund.

Net cash used in investing activities was RMB209.0 million in 2015, which primarily included (i) cash used for investment in System Link of RMB223.4 million, (ii) loan receivable due from ZTE9 of RMB9.9 million, and (iii) capital expenditures including purchase of property, equipment and software of RMB10.6 million, partially offset by collection of long-term receivable from WoW game points refund agent which amounted to RMB17.9 million and receipt of proceeds of RMB12.2 million in connection with the disposal of our equity interest in Kai Yue.

Financing Activities

Net cash provided by financing activities in 2017 was RMB44.1 million (US\$6.8 million), primarily attributable to loans of RMB73.9 million (US\$11.4 million), borrowed from related parties, contributions from noncontrolling interest of RMB20.0 million (US\$3.1 million), partially offset by repayments on the bank loan of RMB25.5 million (US\$3.9 million) provided by Bank of Shanghai. Net cash provided by financing activities in 2016 was RMB190.1 million, primarily attributable to a loan of RMB79.2 million borrowed from a financial services company and secured by a pledge of shares of L&A, a bank loan of RMB25.0 million provided by Bank of Shanghai and loans of RMB60.0 million borrowed from related parties, partially offset by repayments on loans of RMB34.8 million from related parties. We also obtained funding for the development of CrossFire New Mobile Game through fund-raising on Inner Mongolia Culture Assets and Equity Exchange of RMB57.5 million in 2016. Net cash provided by financing activities in 2015 was RMB258.0 million, primarily attributable to the issuance and sale of the Convertible Notes in the aggregate principal amount of US\$40,050,000 to Splendid Days in December 2015 and an entrusted loan of RMB31.6 million provided by a third party.

As a result of non-renewal of WoW license on June 7, 2009, we announced a refund plan in connection with inactivated WoW game point cards. According to the plan, inactivated WoW game point card holders are eligible to receive a cash refund from us. We recorded a liability in connection with both inactivated points cards and activated but unconsumed point cards of approximately RMB200.4 million, of which RMB4.0 million was refunded in 2009. Upon the loss of the WoW license, we concluded that the nature of the obligation substantively changed from deferred revenue, for which we had the ability to satisfy the underlying performance obligation, to an obligation to refund players for their unconsumed points. Thus, we have accounted for this refund liability by applying the relevant de-recognition guidance when determining the proper accounting treatment. In accordance with this guidance, the refund liability associated with these WoW game points, to the extent not refunded, will be recorded as other operating income after we are legally released from the obligation to refund amounts under the applicable laws. As we announced the refund plan on September 7, 2009, the statute of limitations of the creditors (in this case the game players with claims for refund of inactivated WoW game point cards) to assert their claims for refund is two years from such date under applicable laws and thus our legal liability relating to the inactivated WoW game point cards was extinguished on September 7, 2011 and the associated liability amounting to RMB26.0 million was recognized as other operating income for the year ended December 31, 2011. With respect to the remaining refund liability, based on current PRC laws, to the extent not refunded, we, in consultation with legal counsel, have determined that we will be

legally released from this liability in 2029, which represents 20 years from the date of discontinuation of WoW in 2009. However, if management were to publicly announce a refund policy, we would be legally released from any remaining liability for these activated, but unconsumed points, sooner than 20 years. To date, we have determined not to publicly announce any refund policy with respect to this remaining liability, and no refunds have been claimed. The remaining refund liability relating to the activated, but unconsumed WoW game points was RMB170.0 million (US\$26.1 million) as of December 31, 2017.

Table of Contents**Capital Expenditures**

We incurred capital expenditures of RMB30.1 million, RMB8.3 million and RMB0.5 million in 2015, 2016 and 2017, respectively. The capital expenditures principally consisted of purchases of servers, computers and other items related to our network infrastructure. If we license new games or enter into strategic joint ventures or acquisitions, we may require additional funds for necessary capital expenditures.

C. Research and Development, Patents and Licenses, etc.

Our research and development efforts are primarily focused on the development of our proprietary online games and the maintenance of our websites. Our research and development expenses were RMB135.0 million, RMB78.0 million and RMB45.1 million (US\$6.9 million) in 2015, 2016 and 2017, respectively.

D. Trend Information

Except as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2017 to December 31, 2017 that are reasonably likely to have a material adverse effect on our net sales or revenues, results of operations, profitability, liquidity or capital resources, or that would cause the reported financial information not necessarily to be indicative of future operating results or financial conditions.

E. Off-Balance Sheet Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third-parties. We have not entered into any off-balance sheet derivative instruments. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

F. Contractual Obligations

The following table sets forth our contractual obligations and other commitments under as of December 31, 2017:

| | Total | Payments Due by Period | | | |
|--|-----------|------------------------|-----------|-----------|-------------------|
| | | Less than 1 year | 1-2 years | 3-5 years | More than 5 years |
| | | (in thousands of RMB) | | | |
| Short-term borrowings ⁽¹⁾ | 108,743.4 | 108,743.4 | | | |
| Long-term borrowings ⁽²⁾ | | | | | |
| Convertible notes payable ⁽³⁾ | 260,563.0 | 260,563.0 | | | |
| | 105,239.8 | 105,239.8 | | | |

Interest expense on short-term borrowings,
 long-term borrowings and notes payable

| | | |
|--|------------------|------------------|
| Purchase obligation ⁽⁴⁾ | 6,800.0 | 6,800.0 |
| Operating lease obligations ⁽⁵⁾ | | |
| Total | 481,346.2 | 481,346.2 |

Table of Contents

- (1) Short-term borrowings include (i) a pledged loan of RMB77.1 million (US\$11.9 million) from a financial services company, (ii) loan of approximately RMB31.6 million (US\$4.9 million) obtained from a third party, all of which is due within one year and is reclassified to short-term bank borrowings.
- (2) Long-term borrowings was an entrusted loan of approximately RMB31.6 million (US\$4.9 million) obtained from a third party, all of which is reclassified to short-term bank borrowing.
- (3) Represents the Convertible Notes in an aggregate principal amount of US\$40,050,000 which bear interest at a rate of 12% per year, payable when the principal amount of the Convertible Notes becomes due. The Convertible Notes have initial terms of three years, subject to an extension to five years at the discretion of the holder.
- (4) We have entered into a game development agreement with a related party game developer for a total consideration of RMB8.6 million (US\$1.3 million) and we had paid RMB1.8 million (US\$0.3 million) as of December 31, 2017.
- (5) We have entered into leasing arrangements related to the use of certain office premises and Internet data centers. We have no significant outstanding operating lease arrangements as of December 31, 2017.

G. Safe Harbor

This annual report on Form 20-F contains statements of a forward-looking nature. These statements are made under the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these forward-looking statements by terminology such as may, will, expects, anticipates, future, intend, plan, estimate, is/are likely to, considers or other and similar expressions. The accuracy of these statements may be impacted by a number of risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, the following:

our ability to return to profitability or raise sufficient capital to cover our capital needs;

our ability to successfully launch and operate additional games in China and overseas;

our ability to develop, license or acquire additional online games that are attractive to users;

the maintenance and expansion of our relationships with game distributors and online game developers, including our existing licensors;

our ability to maintain and expand our relationships with joint venture partners and other business partners;

our ability to develop blockchain related service business;

uncertainties in and the timeliness of obtaining necessary governmental approvals and licenses for operating any new online game;

risks inherent in the online game business;

risks associated with our future acquisitions and investments;

our ability to compete effectively against our competitors;

risks associated with our corporate structure and the regulatory environment in China; and

other risks outlined in our filings with the SEC including this annual report on Form 20-F.

Table of Contents

These risks are not exhaustive. We operate in an emerging and evolving environment. New risk factors emerge from time to time and it is impossible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any specific factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

We would like to caution you not to place undue reliance on forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in Item 3. Key Information D. Risk Factors. We do not undertake any obligation to update forward-looking statements except as required under applicable law.

Item 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**A. Directors and Senior Management**

The following table sets forth information regarding our directors and executive officers as of the date of this annual report.

| Directors and Executive Officers | Age | Position/Title |
|---|------------|---|
| Jun Zhu | 51 | Chairman of the Board and Chief Executive Officer |
| Davin A. Mackenzie ⁽¹⁾⁽²⁾ | 57 | Independent Director |
| Kwok Keung Chau ⁽¹⁾⁽²⁾ | 41 | Independent Director |
| Ka Keung Yeung ⁽¹⁾⁽²⁾ | 58 | Independent Director |
| George Lai (Lai Kwok Ho) | 41 | Chief Finance Officer and Director |
| Arthur Lau | 36 | President |
| Yue Dong | 47 | Chief Technology Officer |
| Chris Shen | 49 | Vice President |

(1) Member of Audit Committee.

(2) Member of Compensation Committee.

Biographical Information

Jun Zhu is one of our co-founders. He has served as the chairman of our board of directors and chief executive officer since our inception. Prior to founding our company, Mr. Zhu co-founded Flagholder New Technology Co. Ltd., an information technology company based in China, in 1997, and served as its director from 1997 to 1999. From 1993 to 1997, Mr. Zhu worked at QJ (U.S.A.) Investment, Ltd., a trading company in the United States. Mr. Zhu attended an undergraduate program at Shanghai Jiaotong University.

Davin A. Mackenzie has served as our independent director since July 2005. Mr. Mackenzie was a consultant of Spencer Stuart Beijing Office, a renowned global executive search company, from 2012 to 2014. Mr. Mackenzie is also a director of MicroCred Group, a France-based investment company, Sports Beijing, a non-profit recreational youth sports organization, and a director of Mountain Hazelnut Ventures, a private agricultural company. From 2009 to 2011, Mr. Mackenzie was the Beijing representative of Brocade Capital Limited, a private equity advisory firm that he founded in 2009. From 2008 to 2009, Mr. Mackenzie was the managing director and Beijing representative of Arctic Capital Limited, a pan-Asia private equity advisory firm. Between 2000 and 2008, Mr. Mackenzie held the same positions in Peak Capital LLC, another private equity investment and advisory firm that focuses on the China

market. Prior to Peak Capital, Mr. Mackenzie worked with the International Finance Corporation, a private sector arm of The World Bank Group, for seven years, including four years as the resident representative for China and Mongolia. Mr. Mackenzie has also worked at Mercer Management Consultants in Washington, D.C., and at First National Bank of Boston in Taiwan. Mr. Mackenzie received a bachelor's degree in Government from Dartmouth College. He received a master's degree in international studies and an MBA degree from the Wharton School of Business at the University of Pennsylvania. Mr. Mackenzie has also completed the World Bank Executive Development Program at Harvard Business School.

Table of Contents

Kwok Keung Chau has served as our independent director since October 2015. Mr. Chau is an executive director, the chief financial officer and the company secretary of Comtec Solar Systems Group Limited (HKEx:00712), responsible for corporate financial and general management. Currently, he also serves as an independent non-executive director and the chairman of the audit committee of Qingdao Port International Co., Ltd. (HKEx: 06198) and an independent non-executive director and the chairman of the audit committee of China Xinhua Education Group Limited (HKEx: 02779). He acted as a member of supervisory board of RIB Software AG, a software company in Germany, which was listed in Frankfurt Stock Exchange, from May 2010 to June 2013. Prior to joining Comtec Solar in November 2007, Mr. Chau served in various positions at China.com Inc., a Hong Kong listed company (Stock Code: 8006) from October 2005 to October 2007, including vice president of the finance department, chief financial officer, company secretary and authorized representative. Prior to joining China.com Inc., Mr. Chau served as the deputy group financial controller of China South City Holdings Limited, a Hong Kong listed company (Stock Code: 1668) from August 2003 to April 2005. Before that, he served as the financial controller of Shanghai Hawei New Material and Technology co., Ltd. from June 2002 to August 2003. Mr. Chau has been a fellow member of the Association of Chartered Certified Accountants since June 2002, a member of the Hong Kong Institute of Certified Public Accountants since July 2005 and a Chartered Financial Analyst of the CFA Institute since September 2003. Mr. Chau received his bachelor's degree in business administration from the Chinese University of Hong Kong in May 1998.

Ka Keung Yeung has served as our independent director since July 2005. Mr. Yeung is the executive vice president and chief financial officer of Phoenix Satellite Television Holdings Limited, or Phoenix, a listed company in Hong Kong, and is in charge of corporate finance and administration. He is also the company secretary and qualified accountant. Mr. Yeung joined Phoenix in March 1996 and is in charge of all of Phoenix's internal and external financial management and arrangements and also supervises administration and personnel matters. Mr. Yeung also serves as a director of Phoenix New Media, a subsidiary of Phoenix and a company listed on the NYSE. Mr. Yeung graduated from the University of Birmingham and is qualified as a chartered accountant. Upon returning to Hong Kong, he worked at Hutchison Telecommunications and STAR in the fields of finance and business development.

George Lai has served as our chief financial officer since July 2008 and our director since January 2016. Prior to joining us, Mr. Lai worked for Deloitte Touche Tohmatsu since 2000. Mr. Lai worked in several different Deloitte offices, including Hong Kong, New York and Beijing. During his eight years at Deloitte, Mr. Lai played key roles in the audit function in a number of IPO projects in the United States and China. He also assisted public companies in the United States, Hong Kong and China with a wide range of accounting matters. Mr. Lai received his bachelor of business administration, with a focus in professional accountancy, from the Chinese University of Hong Kong. Mr. Lai holds various accounting professional qualifications, including from AICPA, FCCA and HKICPA.

Arthur Lau has served as our president since January 2018. Mr. Lau is currently the co-founder and partner of Ark Pacific Capital Management, a multi-strategy alternative asset manager focusing in Greater China, and also served as the directors of multiple portfolio companies. Prior to that, he was an investment director of Elliott Advisors, the Asian office of Elliott Associates, a global hedge fund managing over US\$30 billion of assets. Before that, Mr. Lau was a technology, media and telecom investment banker at Citigroup and an investment banker at JPMorgan. Mr. Lau graduated from The London School of Economics and Political Science with a Bachelor of Laws degree and holds a Master of Economics degree from The University of Hong Kong.

Yue Dong has served as our chief technology officer since January 2018. He has over 20 years of information technology experience in various business areas. Prior to joining us, Mr. Dong served as the chief technology officer of Ivmama.com. He also served as the chief technology officer of lashou.com, a top Chinese group buying platform. He also served as the principal director of YiHaoDian Corp. Before that, Mr. Dong worked at Royal Bank of Scotland (RBS) and managed a team to develop and maintain RBS global trading platform. Prior to that, Mr. Dong worked at Oracle headquarter for Oracle eBusiness Research and Development, and then Oracle North American consulting

team for Business Intelligence/Data Mining and Enterprise Resource Planning Application. During his time at Oracle consulting team, he worked for more than ten Fortune 500 clients. Mr. Dong received his bachelor's degree in engineering from Huazhong University of Science and Technology in 1990. He also received a master's degree from Nanyang Technological University in 1996 and a master's degree from Carnegie Mellon University in 1999.

Table of Contents

Chris Shen has served as our vice president since January 2006. Mr. Shen joined us in August 2005 as our senior director of marketing and is in charge of our mobile social gaming platform and marketing and public relations activities. Prior to joining us, Mr. Shen served as the group account director and account director for several renowned advertising agencies in Shanghai and Taipei, mainly serving multinational companies in various industries, such as consumer goods, financial services and retail. During the past twelve years, Mr. Shen helped numerous local and international brands plan and executed various marketing initiatives. Mr. Shen received his bachelor's degree in management science from the National Chiao Tung University in Taiwan.

B. Compensation**Compensation of Directors and Executive Officers**

In 2017, the aggregate cash compensation paid to our executive officers was approximately RMB5.1 million (US\$0.8 million). We paid a total of RMB1.0 million (US\$0.2 million) in cash to our non-executive directors for their services in 2017. No director or executive officer is entitled to any severance benefits upon termination of his or her employment with or appointment by our company. On December 8, 2010, we granted 1,500,000 ordinary shares to Jun Zhu, our chairman and chief executive officer, which will only be vested if our company achieves certain income targets and the shares are not entitled to receive dividends until they become vested. Of such shares, 500,000 ordinary shares were vested and issued to IncSight, a company wholly owned by Jun Zhu, on November 17, 2015. In May 2011, our board of directors granted 30,000 ordinary shares to each of our four non-executive directors then in office, of which 10,000 ordinary shares vest for each director on July 1 of each year from 2011 to 2013 so long as such director continues his services as of such date. An aggregate of 40,000 ordinary shares, 40,000 ordinary shares and 40,000 ordinary shares were vested in July 2011, 2012 and 2013, respectively. The fair value of the shares granted was US\$6.03 per share, being the market price on the date of the grant.

Share Incentive Plan***Seventh Amended and Restated 2004 Stock Option Plan***

Our board of directors and our shareholders have adopted and approved the 2004 Stock Option Plan, as amended and restated, or the Option Plan, in order to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentives to employees, directors and consultants and to promote the success of our business. The Option Plan was amended and restated in December 2006, November 2008, August 2010, November 2010, November 2015, August 2016 and June 2017. By the amendment to the Option Plan in August 2016, we increased the total number of ordinary shares reserved under the Option Plan from 14,449,614 to 34,449,614. As of February 28, 2018, options to purchase 9,250,000 ordinary shares under the Option Plan were outstanding. In April 2013, our board of directors approved an adjustment to the exercise price of options to purchase 2,829,941 shares previously granted from 2008 to 2011 under our Option Plan to establish a new exercise price for such share options at US\$2.41 per ADS, which was the closing price of our ADSs as of April 22, 2013. In November 2015, our board of directors approved an adjustment to the exercise price of options to purchase 4,629,100 shares previously granted from 2010 to 2015 under our Option Plan to establish a new exercise price for such share options at US\$1.53 per ADS, which was the closing price of our ADSs on November 9, 2015. In June 2017, our board of directors approved an adjustment of the exercise price and the acceleration of the vesting of options to purchase 17,135,200 shares previously granted to certain directors and employees under our Option Plan. The new exercise price for such share options was US\$0.00 per ADS. These directors and employees immediately exercised the stock options to acquire a total of 6,328,535 ADSs. In exchange for the repricing and vesting acceleration, we have cancelled the stock options to purchase a total of 10,806,665 ordinary shares previously granted to these directors and employees upon the mutual

agreement with them. In January 2018, our board of directors approved the issuance of stock options to purchase 8,250,000 ordinary shares to certain directors, officers and consultants of our Company, with the exercise price for such share options at US\$0.93 per ADS, which was the closing price of our ADSs as of January 23, 2018.

The following table provides a summary of the options granted to our directors, executive officers and other individuals as a group under the Option Plan as of February 28, 2018 and that remained outstanding.

Table of Contents

| | Total Number of Ordinary Shares Underlying Options Outstanding | Exercise Price (in US\$) | Expiration Date |
|---|---|---|------------------------|
| Jun Zhu | 2,000,000 | 0.93 | January 24, 2023 |
| Davin Alexander Mackenzie | | | |
| Kwok Keung Chau | | | |
| Ka Keung Yeung | | | |
| George Lai | 1,000,000 | 0.93 | January 24, 2023 |
| Arthur Lau | 1,000,000 | 0.93 | January 24, 2023 |
| Yue Dong | 1,000,000 | 0.93 | January 24, 2023 |
| Chris Shen | | | |
| All Directors and Senior Executive Officers as a Group | 5,000,000 | 0.93 | January 24, 2023 |
| Other Individuals as a Group (other than those listed above) | 3,250,000 | 0.93 | January 24, 2023 |
| | 1,000,000 | 1.86 | August 6, 2021 |

Excluding 0 options forfeited and 0 options exercised as of February 28, 2018 pursuant to the terms of our Option Plan.

Termination of Options. Where the option agreement permits the exercise or purchase of the options granted for a certain period of time following the recipient's termination of service with us, or the recipient's disability or death, the options will terminate to the extent not exercised or purchased on the last day of the specified period or the last day of the original term of the options, whichever occurs first.

Administration. Our stock option plan is administered by our board of directors or an option administrative committee designated by our board of directors and constituted to comply with applicable laws. In each case, our board of directors or the committee it designates will determine the provisions, terms and conditions of each option grant, including, but not limited to, the option vesting schedule, repurchase provisions, forfeiture provisions, form of payment upon settlement of the award, payment contingencies and satisfaction of any performance criteria.

Vesting Schedule. Options granted under our stock option plan vest over a two to four year period following a specified vesting commencement date. In general, the options granted will vest over the vesting period on a monthly basis, subject to the recipient of the options continuing to be employed by us on each vesting date.

Option Agreement. Options granted under our stock option plan are evidenced by an option agreement that contains, among other things, provisions concerning exercisability and forfeiture upon termination of employment or consulting arrangements, as determined by our board. In addition, the option agreement also provides that options granted under our stock option plan are subject to a 180-day lock-up period following the effective date of a registration statement filed by us under the Securities Act, if so requested by us or any representative of the underwriters in connection with any registration of the offering of any of our securities.

Option Exercise. The term of options granted under our stock option plan may not exceed five years from the date of grant. The consideration to be paid for our shares upon exercise of an option or purchase of shares underlying the option will be determined by the plan administrator and may include cash, check, ordinary shares, a promissory note, consideration received by us under a cashless exercise program implemented by us in connection with our stock

option plan, or any combination of the foregoing methods of payment.

Table of Contents

Third-Party Acquisition. If a third party acquires us through the purchase of all or substantially all of our assets, a merger or other business combination, all outstanding options or share purchase rights will be assumed or equivalent options or rights substituted by the successor corporation or parent or subsidiary of the successor corporation. In the event that the successor corporation refuses to assume or substitute for the options or share purchase rights, all options or share purchase rights will become fully vested and exercisable immediately prior to such transaction and all unexercised awards will terminate unless, in either case, the awards are assumed by the successor corporation or its parent.

Changes in Capitalization and Other Adjustments. If we shall at any time increase or decrease the number of outstanding shares, or change in any way the rights and privileges of our outstanding shares, by means of a payment or a stock dividend or any other distribution upon such ordinary shares, or through a stock split, subdivision, consolidation, combination, reclassification or recapitalization involving such ordinary shares, then in relation to the ordinary shares that are covered by the options granted or available under the plan and are affected by one or more of the above events, the number, rights and privileges shall be increased, decreased or changed in like manner as if such ordinary shares had been issued and outstanding, fully paid and non-assessable at the time of such occurrence.

Termination of Plan. Unless terminated earlier, our stock option plan will expire in 2024. Our board of directors has the authority to amend, alter, suspend or terminate our stock option plan. However, no such action may (i) impair the rights of any optionee unless agreed by the optionee and the stock option plan administrator, or (ii) affect the stock option plan administrator's ability to exercise the powers granted to it under our stock option plan.

C. Board Practices

Board of Directors

Our board of directors consists of the following five directors: Jun Zhu, Kwok Keung Chau, Davin A. Mackenzie, Ka Keung Yeung and George Lai. A director is not required to hold any shares in our company by way of qualification. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested so long as he has disclosed the nature of the interest at a meeting of the directors. A director may exercise all the powers of our company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of our company or of any third party.

Committees of the Board of Directors

Audit Committee. Our audit committee consists of Messrs. Kwok Keung Chau, Davin A. Mackenzie and Ka Keung Yeung, all of whom satisfy the independence definition under Rule 5605 of the Nasdaq Stock Market, Inc. Marketplace Rules, or the Nasdaq Rules, and the audit committee independence standard under Rule 10A-3 under the Exchange Act. All the members of our audit committee meet the financial expert definition of the Nasdaq Rules.

The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

selecting the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;

reviewing and approving all proposed related party transactions;

discussing the annual audited financial statements with management and the independent auditors;

Table of Contents

annually reviewing and reassessing the adequacy of our audit committee charter;

meeting separately and periodically with management and the independent auditors;

reporting regularly to the full board of directors; and

such other matters that are specifically delegated to our audit committee by our board of directors from time to time.

Compensation Committee. Our compensation committee consists of Messrs. Kwok Keung Chau, Davin A. Mackenzie and Ka Keung Yeung, all of whom meet the independence standards for compensation committee members under the Nasdaq Rules. The compensation committee assists the board in reviewing and approving the compensation structure of our executive officers, including all forms of compensation to be provided to our executive officers. The compensation committee will be responsible for, among other things:

reviewing and determining the compensation for our five most senior executives;

reviewing the compensation of our other employees and recommending any proposed changes to the management;

reviewing and approving director and officer indemnification and insurance matters;

reviewing and approving any employee loans in an amount equal to or greater than US\$60,000 (or such amount as from time to time announced by the relevant regulatory bodies as requiring the approval of the Committee); and

reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pensions and welfare benefits plans.

Duties of Directors

Under Cayman Islands law, our directors owe to our company have fiduciary duties to act honestly, in good faith and with a view to our best interests. Our directors also owe to our company a duty to act with care and diligence that a reasonably prudent person would exercise in comparable circumstances and a duty to exercise the skill they actually possess. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time. We have the right to seek damages if a duty owed by our directors is breached.

Terms of Directors

Our board of directors is currently divided into three classes with different terms. This provision would delay the replacement of a majority of our directors and would make changes to the board of directors more difficult than if such provision were not in place. Our independent directors, namely Kwok Keung Chau, Davin A. Mackenzie and Ka Keung Yeung, were re-elected (elected in the case of Kwok Keung Chau) at our 2015 annual general meeting and each of them is serving a three-year term until the 2018 annual general meeting or until his successor is duly elected and qualified, whichever is earlier. Jun Zhu, our chairman and chief executive officer, was re-elected as a director at our 2016 annual general meeting and is serving a three-year term until the 2019 annual general meeting or until his successor is duly elected and qualified, whichever is earlier. George Lai, our chief financial officer and director, was re-elected as a director at our 2016 annual general meeting and is serving a three-year term until the 2019 annual general meeting or until his successor is duly elected and qualified, whichever is earlier. Upon expiration of the term of office of each class, succeeding directors in each class will be elected for a term of three years. Directors may be removed from office by ordinary resolution of shareholders at any time before the expiration of his/her term. Pursuant to the natural expiration of the directorial terms, elections for directors would be held on the date of the annual general meeting of shareholders.

Table of Contents**D. Employees**

As of December 31, 2017, we had 236 employees, of which 234 were based in China, including 36 in management and administration, 11 in our customer service centers, 23 in game operations, sales and marketing, and 164 in product development, including supplier management personnel and technical support personnel and 2 were based in the United States. We had 565 and 354 employees as of December 31, 2015 and 2016, respectively. The decrease in the number of employees as of December 31, 2017 as compared to that of December 31, 2016 was primarily due to our business restructuring. We consider our relations with our employees to be good.

E. Share Ownership

As of February 28, 2018, there were 100,155,358 ordinary shares outstanding, including 27,039,893 ordinary shares issued to The Bank of New York Mellon, our ADS depository, for our future issuance of ADSs upon the exercise of options under our share incentive plan and for our treasury ADSs.

The following table sets forth information with respect to the beneficial ownership of our ordinary shares as of February 28, 2018 by:

each of our directors and executive officers who are also our shareholders; and

each person known to us to own beneficially more than 5% of our ordinary shares.

| | Ordinary Shares Beneficially Owned | |
|---|---|------------------------|
| | Number⁽¹⁾ | %⁽²⁾ |

| Jupiter Explorer Limited ⁽⁸⁾ | 12,500,000 | 12.5 |

* Less than 1% of our total outstanding shares.

(1)

Beneficial ownership is determined in accordance with the rules of the SEC, and includes voting or investment power with respect to the securities. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to acquire within 60 days of February 28, 2018, including through the exercise of any option, warrant or other right or the conversion of any other security.

- (2) Percentage of beneficial ownership is based on 100,155,358 ordinary shares outstanding as of February 28, 2018, as well as the shares underlying share options and warrants exercisable by such person or group within 60 days from February 28, 2018.

Table of Contents

- (3) Includes (i) 18,607,334 ordinary shares (including 12,500,000 unpaid ordinary shares) and 912,094 ordinary shares represented by ADSs held by IncSight Limited, a British Virgin Islands company wholly owned and controlled by Jun Zhu, (ii) 4,839,424 ordinary shares represented by ADSs held by Jun Zhu and (iii) 166,667 ordinary shares that Jun Zhu has the right to acquire upon exercise of options within 60 days after February 28, 2018.
- (4) Includes ordinary shares, ordinary shares represented by ADSs and ordinary shares issuable upon exercise of options held by all of our directors and executive officers as a group.
- (5) Includes 18,607,334 ordinary shares (including 12,500,000 unpaid ordinary shares) and 912,094 ordinary shares represented by ADSs held by IncSight Limited, a British Virgin Islands company wholly owned and controlled by Jun Zhu, reported by IncSight Limited on the Schedule 13D/A filed with the SEC on July 27, 2017. The business address for IncSight Limited is Building No. 3, 690 Bibo Road, Zhangjiang Hi-Tech Park, Pudong New Area, Shanghai 201203, People's Republic of China.
- (6) Includes an aggregate 11,695,511 ADSs issuable upon conversion of the Convertible Notes and an aggregate 4,778,844 ADSs issuable upon exercise of the Warrants within 60 days of March 5, 2018 that are beneficially owned by Splendid Days Limited, or Splendid Days, as reported by Splendid Days on the Schedule 13D filed with the SEC on March 5, 2018. Splendid Days currently holds all of the Convertible Notes and the Warrants that we issued in December 2015, and it may not convert any portion of the Convertible Notes if subsequent to such conversion it will hold more than 20% of our total outstanding and issued ordinary shares. Splendid Days Limited is controlled by Truth Beauty Limited, a British Virgin Islands company, which is in turn controlled by Cyrus Jun-Ming Wen. The address for Splendid Days Limited is Sea Meadow House, Blackburne Highway, (P.O. Box 116), Road Town, Tortola, British Virgin Islands.
- (7) Includes 12,500,000 ordinary shares held by IE Limited, as reported by IE Limited on the Schedule 13G filed with the SEC on February 9, 2018. The address for IE Limited is 7th Floor, Revesant Building, 6 Bongeunsa-ro 86-gil, Gangnam-gu, Seoul, Korea.
- (8) Includes 12,500,000 unpaid ordinary shares held by Jupiter Explorer Limited, as reported by Jupiter Explorer Limited, or Jupiter, as reported by Jupiter on the Schedule 13D filed with the SEC on March 5, 2018. Jupiter is controlled by Greatest Dream Group Limited, which is in turn controlled by its sole director and shareholder Mr. Ka Lok Wong. The principal business address for Jupiter Explorer Limited is Sea Meadow House, Blackburne Highway, (P.O. Box 116), Road Town, Tortola, British Virgin Islands.

To our knowledge, as of February 28, 2018, 52,016,595 ordinary shares, or approximately 51.9% of the issued and outstanding shares, were held by one record shareholder in the United States, namely, The Bank of New York Mellon, our ADS depository. The number of beneficial owners of our ADSs in the United States is likely to be much larger than the number of record holders of our ordinary shares in the United States.

None of our shareholders has different voting rights from other shareholders as of the date of this annual report. We are currently not aware of any arrangement that may, at a subsequent date, result in a change of control of our company.

Item 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS**A. Major Shareholders**

Please refer to Item 6. Directors, Senior Management and Employees E. Share Ownership.

B. Related Party Transactions

Arrangements with Affiliated PRC Entities

Current PRC laws and regulations impose substantial restrictions on foreign ownership of entities involved in ICP, Internet culture operation and Internet publishing businesses, including online game operations, in China. Therefore, we conduct part of our activities through a series of agreements with Shanghai IT, our key affiliated PRC entity. Shanghai IT holds the requisite licenses and approvals for conducting ICP, Internet culture operation and Internet publishing businesses in China. Shanghai IT is owned by our employee Wei Ji, who acquired his equity interests in Shanghai IT from Jun Zhu in November 2011, and our employee Zhimin Lin, who acquired his equity interests in Shanghai IT from Yong Wang in April 2014.

Table of Contents

We have obtained the exclusive right to benefit from Shanghai IT's licenses and approvals. In addition, through a series of contractual arrangements with Shanghai IT and its shareholders, we are able to direct and control the operation and management of Shanghai IT. We believe that the individual shareholders of Shanghai IT will not receive material personal benefits from these agreements except as shareholders or employees of The9 Limited.

We do not believe we could have obtained these agreements, taken as a whole, from unrelated third parties. Because of the uncertainty relating to the legal and regulatory environment in China, the terms of most of the agreements were not defined unless terminated by the parties thereto. According to our PRC counsel, Zhong Lun Law Firm, subject to the interpretation and implementation of the GAPP Circular and the Network Publication Measures, these agreements, except those that have already been terminated, are valid, binding and enforceable under the current laws and regulations of China. The principal provisions of these agreements are described below.

Exclusive Technical Service Agreement. We provide Shanghai IT with technical services for the operation of computer software and related businesses, including the provision of systematic solutions for the operation of Internet websites, the rental of computer and Internet facilities, daily maintenance of Internet servers and databases, the development and update of relevant computer software, and all other related technical and consulting services. Shanghai IT pays service fees to us based on their actual operating results at a service fee equal to 90% of all operating profit generated by Shanghai IT. We are the exclusive provider of these services to Shanghai IT. According to the relevant PRC rules and regulations, related party transactions should be negotiated at the arm's length basis and apply reasonable transfer pricing methods. However, the determination of service fees is under the sole discretion of us. This agreement does not have specific clauses on renewal but does have an initial term of 20 years (with the earliest expiration date being December 31, 2029). By virtue of the governance rights we maintain over Shanghai IT, through the terms of the other agreement noted above, we are able to unilaterally renew, extend or amend the service agreement at our discretion.

Shareholder Voting Proxy Agreement. Each of the shareholders of Shanghai IT has entered into a shareholder voting proxy agreement with us, under which each shareholder of Shanghai IT irrevocably grants any third parties designated by us the power to exercise all voting rights to which he/she is entitled as a shareholder of Shanghai IT, including the right to attend shareholders meetings, to exercise voting rights and to appoint directors, a general manager, and other senior management of Shanghai IT. The power of proxy is irrevocable and may only be terminated at our discretion.

Call Option Agreement. We entered into a call option agreement with each of the shareholders of Shanghai IT, under which the parties irrevocably agreed that, at our sole discretion, we and/or any third parties designated by us will be entitled to acquire all or part of the equity interests in Shanghai IT, to the extent permitted by the then-effective PRC laws and regulations. The consideration for such acquisition will be the price equal to the lower of the amount of the registered capital of Shanghai IT and the minimum amount permissible by the then-applicable PRC law. The shareholders of Shanghai IT have also agreed not to enter into any transaction, or fail to take any action, that would substantially affect the assets, liabilities, equity, operations or other legal rights of Shanghai IT without our prior written consent, including, without limitation, declaration and distribution of dividends and profits; sale, assignment, mortgage or disposition of, or encumbrances on, Shanghai IT's equity; merger or consolidation; creation, assumption, guarantee or incurrence of any indebtedness; entering into other materials contracts. This agreement shall not expire until such time as we acquire all equity interests of Shanghai IT subject to applicable PRC laws.

Loan Agreement. From 2002 to May 2005, we provided an aggregate of RMB23.0 million in loan to the then shareholders of Shanghai IT, namely Jun Zhu and Yong Wong, for the purposes of capitalizing and increasing the registered capital of Shanghai IT. Such loan agreement was assumed by the current shareholders of Shanghai IT when Jun Zhu transferred the equity interest in Shanghai IT to Wei Ji in 2011 and Yong Wang transferred the equity interests in Shanghai IT to Zhimin Lin in 2014. Pursuant to the terms of this loan agreement, we granted an

interest-free loan to each shareholder of Shanghai IT for the explicit purpose of making a capital contribution to Shanghai IT. The loans have an unspecified term and will remain outstanding for the shorter of the duration of The9 Computer or that of the Shanghai IT, or until such time that we elect to terminate the agreement (which is at our sole discretion) at which point the loans are payable on demand. Such loan shall only become immediately due and payable when we send a written notice to the borrowers requesting repayment. Currently, Zhimin Lin and Wei Ji have pledged all of their equity interests in Shanghai IT in favor of us under the equity pledge agreements. In the event of a breach of any term in the loan agreement or any other agreements by either Shanghai IT or its shareholders, we will be entitled to enforce our rights as a pledgee under the agreement.

Table of Contents

Equity Pledge Agreements. To secure the full performance by Shanghai IT or its shareholders of their respective obligations under the Shareholder Voting Proxy Agreement, the Call Option Agreement and the Loan Agreement, the shareholders of Shanghai IT have pledged all of their equity interests in Shanghai IT in favor of us under two equity pledge agreements. In addition, the dividend distributions to the shareholders of Shanghai IT, if any, will be deposited in an escrow account over which we have exclusive control. The pledge shall remain effective until all obligations under such agreements have been fully performed. The shareholder has the obligation to maintain ownership and effective control over the pledged equity. Under no circumstances, without our prior written consent, may the shareholder transfer or otherwise encumber any equity interests in Shanghai IT. If any event of default as provided for therein occurs, The9 Computer, as the pledgee, will be entitled to dispose of the pledged equity interests through transfer or assignment and use the proceeds to repay the loans or make other payments due under the above loan agreement up to the loan amounts. Each of the shareholders of Shanghai IT has registered the pledge of its equity interests with the relevant local administration for industry and commerce pursuant to the new PRC Property Rights Law. In the event of a breach of any term in the above agreements by either Shanghai IT or its shareholders, we will be entitled to enforce our pledge rights over such pledged equity interests to compensate for any and all losses suffered from such breach.

Investments or Agreements entered into with Affiliated Entities or Associates

In February 2013, we established a new joint venture, namely ZTE9, in cooperation with Shanghai Zhongxing Communication Technology Enterprise Co., Ltd. and Shanghai Ruigao Information Technology Co., Ltd., in Wuxi, Jiangsu province of China, to develop and operate home entertainment set top box business. In February 2014, Guangdong Hongtu Guangdian Investment Limited Company made a capital investment of RMB12.5 million to acquire 10% equity interests in ZTE9. As of December 31, 2017, we held 26.0% equity interest in ZTE9. ZTE9 charged net royalty and other service fee related to IPTV business to us in an amount of RMB13.0 million and RMB7.1 million (US\$1.1 million) in 2016 and 2017, respectively. We provided IPTV related advertising service to ZTE9 in an amount of RMB0.5 million and nil in 2016 and 2017, respectively. Total amount due to ZTE9 for IPTV business was RMB16.8 million and RMB2.7 million (US\$0.4 million) as of December 31, 2016 and 2017, respectively.

In 2016 and 2017, we lent RMB2.8 million and RMB4.0 million (US\$0.6 million) to ZTE9 to fund its operations, respectively. The loans are interest-free. As of December 31, 2016 and 2017, total outstanding amount for loan due from ZTE9 was RMB12.7 million and RMB2.1 million (US\$0.3 million), respectively.

In 2014, we entered into a license agreement with System Link, a 50% joint venture of us, for publishing and operating Firefall for a five-year term in China. Under this license agreement, System Link should pay to Red 5 and Red 5 Singapore licensing fees and royalties in an aggregate amount of at least US\$160.0 million during the term of the agreement. In 2015, System Link paid US\$10.0 million to us as licensing fees. We recorded the US\$10.0 million as amount due to the related party and was to amortize the amount over the five-year period. System Link has become dormant since the cessation of Firefall in March 2016 and the termination of the licensing arrangement of CrossFire 2 in November 2017. As Red 5 is no longer required to render any services to System Link in relation to Firefall, Red 5 recognized the remaining unamortized licensing fees for Firefall as revenues in 2017. The balance due to System Link was RMB54.1 million and nil as of December 31, 2016 and 2017, respectively. We recognized licensing revenue of RMB13.6 million and RMB51.1 million (US\$7.9 million) for the years ended December 31, 2016 and 2017, respectively.

In 2016, we charged service fee, including IDC rental fee, office rental fee and etc., to Big Data (previously known as Jiucheng Advertisement) amounted to RMB4.5 million and the service fee was paid in 2016. In 2017, the service fee amounted to RMB0.1 million (US\$0.01 million).

Table of Contents

In 2016, Asian Way entered into a license agreement with T3, an equity investee of us, for developing a game using augmented reality (AR) technologies based on the intellectual property relating to the game Audition. Upon commercial launch, Asian Way will share certain percentages of revenues of the game to T3. The game is still under development as of December 31, 2017.

In 2017, we entered into a share purchase agreement with IncSight Limited, which is controlled by Mr. Jun Zhu, our chairman and chief executive officer. Pursuant to this agreement, Mr. Jun Zhu will acquire 12,500,000 newly issued shares of us for a total cash consideration of US\$15.0 million. The transaction has not been completed as of the date of this prospectus.

In 2017, we entered into a share purchase agreement with Ark Pacific Special Opportunities Fund I, L.P., which beneficially owns more than 10% of share capital in our company. Pursuant to this agreement, Ark Pacific Special Opportunities Fund I, L.P. will acquire 12,500,000 newly issued shares of us for a total cash consideration of US\$15.0 million. The transaction has not been completed as of the date of this prospectus.

Loan from Related Parties

Mr. Jun Zhu, the chairman and chief executive officer, extended aggregate of RMB60.0 million and RMB73.9 million (US\$11.4 million) in loan to us in 2016 and 2017, respectively. The loans are interest-free. As of December 31, 2016 and 2017, RMB25.2 million and RMB75.2 million (US\$11.6 million) of such loan remained outstanding, respectively.

Stock Option Grants

See Item 6. Directors, Senior Management and Employees B. Compensation Share Incentive Plan Seventh Amended and Restated 2004 Stock Option Plan.

C. Interests of Experts and Counsel

Not applicable.

Item 8. FINANCIAL INFORMATION

A. Consolidated Statements and Other Financial Information

We have appended consolidated financial statements filed as part of this annual report.

Legal Proceedings

Red 5 and its affiliates are currently in dispute with Qihoo 360 and its affiliates regarding System Link and Firefall and various legal proceedings have been initiated and are ongoing in connection with such dispute. See Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry Our equity investments or establishment of joint ventures and any material disputes with our investment or joint venture partners may have an adverse effect on our financial results, business prospects and our ability to manage our business. Other than the foregoing, we are not currently a party to any material litigation or other legal proceeding.

Dividend Policy

We currently intend to retain most, if not all, of our available funds and any future earnings for use in the operation of our business. Our board of directors has discretion as to whether we will distribute dividends in the future, subject to applicable laws. Even if our board of directors determines to distribute dividends, the form, frequency and amount of our dividends will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions, legal restrictions and other factors as the board of directors may deem relevant. Any dividend we declare will be paid to the holders of ADSs, subject to the terms of the deposit agreement, to the same extent as holders of our ordinary shares, less the fees and expenses payable under the deposit agreement. Any dividend we declare will be distributed by the depositary bank to the holders of our ADSs. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

Table of Contents**B. Significant Changes**

Except as otherwise disclosed in this annual report, we have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

Item 9. THE OFFER AND LISTING**A. Offer and Listing Details**

Our ADSs, each representing one ordinary share, have been listed on the Nasdaq Global Market since December 15, 2004. Our ADSs are traded under the symbol NCTY. On April 24, 2018, we, through The Bank of New York Mellon, announced a ratio change on the ADSs from one ADS representing one ordinary share to a new ratio of one ADS representing three ordinary shares, which we anticipate to be effective on May 9, 2018. The following table provides the high and low trading prices for our ADSs on the Nasdaq Global Market for the periods specified.

| | Sales Price | |
|-------------------------------|--------------------|------------|
| | High | Low |
| Annual High and Low | | |
| 2013 | 4.50 | 2.08 |
| 2014 | 4.22 | 1.52 |
| 2015 | 4.49 | 0.90 |
| 2016 | 3.28 | 1.20 |
| 2017 | 1.36 | 0.63 |
| Quarterly High and Low | | |
| First Quarter 2016 | 3.28 | 1.81 |
| Second Quarter 2016 | 2.55 | 1.67 |
| Third Quarter 2016 | 2.20 | 1.43 |
| Fourth Quarter 2016 | 1.84 | 1.20 |
| First Quarter 2017 | 1.27 | 0.94 |
| Second Quarter 2017 | 1.36 | 0.88 |
| Third Quarter 2017 | 1.26 | 0.90 |
| Fourth Quarter 2017 | 1.09 | 0.63 |
| First Quarter 2018 | | |
| Monthly High and Low | | |
| October 2017 | 1.09 | 0.89 |
| November 2017 | 1.03 | 0.67 |
| December 2017 | 0.75 | 0.63 |
| January 2018 | 1.68 | 0.55 |
| February 2018 | 1.02 | 0.64 |
| March 2018 | 0.74 | 0.45 |
| April 2018 (through April 26) | 0.58 | 0.37 |

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

We are an exempted company incorporated in the Cayman Islands and our affairs are governed by our memorandum and articles of association and the Companies Law (2018 Revision) of the Cayman Islands, which is referred to as the Companies Law below.

As of the date of this annual report, our authorized share capital is US\$2,500,000, consisting of 250,000,000 ordinary shares, par value of US\$0.01 each. The following are summaries of material provisions of our currently effective amended and restated memorandum and articles of association and the Companies Law insofar as they relate to the material terms of our ordinary shares.

Ordinary Shares

General. All of our outstanding ordinary shares are fully paid and non-assessable. Certificates representing the ordinary shares are issued in registered form. Our shareholders may freely hold and vote their shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law.

Voting Rights. Each ordinary share is entitled to one vote on all matters upon which the ordinary shares are entitled to vote. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by any shareholder or shareholders together holding at least ten percent of the shares given a right to vote at the meeting, present in person or by proxy.

A quorum required for a meeting of shareholders consists of holders of not less than one-third of all outstanding shares entitled to vote. Shareholders' meetings shall, if required by the Companies Law, be held annually. Annual general meetings and extraordinary general meetings may be convened by our board of directors on its own initiative. Extraordinary general meetings shall be convened by our board of directors upon a request to the directors by shareholders holding in aggregate at least 33% of our voting share capital. Advance notice of at least seven business days is required for the convening of our annual general meeting and extraordinary general meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes attaching to the ordinary shares cast in a general meeting and includes a unanimous written resolution expressly passed as a special resolution. A special resolution is required for important matters such as a change of name, a decrease of our share capital, or amending our memorandum and articles of association. Holders of our ordinary shares may effect certain changes by ordinary resolution, including an increase of our share capital, the consolidation and division of all or any of our share capital into shares of a larger amount than our existing share capital, and the cancellation of any shares.

Table of Contents

Transfer of Shares. Subject to the restrictions of our articles of association, as applicable, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board. The transferor shall be deemed to remain the holder of the shares until the name of the transferee is entered in the register of members in respect thereof.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares shall be distributed among the holders of the ordinary shares as the liquidator deems fair. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders proportionately.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any moneys unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Redemption and Repurchase of Shares. Subject to the provisions of the Companies Law and our articles of association, we may issue shares on terms that are subject to redemption, at our option or at the option of the holders, on such terms and in such manner as may be determined by our board of directors. Our company may also repurchase any of our shares (including any redeemable shares) provided that the manner of such purchase has been approved by ordinary resolution of our shareholders or the manner of such purchase is in accordance with our articles of association. Under the Companies Law, the redemption or repurchase of any share may be paid out of our company's profits or out of the proceeds of a fresh issue of shares made for the purpose of such redemption or repurchase, or out of capital (including share premium account and capital redemption reserve) if the company can, immediately following such payment, pay its debts as they fall due in the ordinary course of business. In addition, under the Companies Law no such share may be redeemed or repurchased (a) unless it is fully paid up, (b) if such redemption or repurchase would result in there being no shares outstanding, or (c) if the company has commenced liquidation.

Variation of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of the Companies Law, be varied either with the written consent of a majority of the issued shares of that class or with the sanction of an ordinary resolution passed at a general meeting of the holders of the shares of that class.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See H. Documents on Display.

Differences in Corporate Law

The Companies Law is modeled after that of English law but does not follow recent English law statutory enactments. In addition, the Companies Law differs from laws applicable to Delaware corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Law applicable to us and the laws applicable to Delaware corporations and their shareholders.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and non-Cayman Islands companies. For these purposes:

a merger means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company; and

a consolidation means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company.

Table of Contents

In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by:

a special resolution of the shareholders of each constituent company; and

such other authorizations, if any, as may be specified in such constituent company's articles of association.

The plan of merger or consolidation must be filed with the Registrar of Companies together with a declaration as to the solvency of the consolidated or surviving company, a declaration as to the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company that notification of the merger or consolidation will be published in the Cayman Islands Gazette. Save in certain limited circumstances, a shareholder of a Cayman constituent company who dissents from the merger or consolidation is entitled to payment of the fair value of his shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) upon dissenting to the merger or consolidation, provided the dissenting shareholder complies strictly with the procedures set out in the Companies Law. The exercise of dissenter rights will preclude the exercise by the dissenting shareholder of any other rights to which he or she might otherwise be entitled by virtue of holding shares, save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful. The fair value of the shares will be determined by the Cayman Islands court if it cannot be agreed among the parties. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

In addition, there are statutory provisions that facilitate the reconstruction and amalgamation of companies, by way of schemes of arrangement, provided that the arrangement is approved by a majority in number of each class of shareholders or creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

the statutory provisions as to majority vote have been met;

the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;

the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and

the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

The Companies Law also contains a statutory power of compulsory acquisition which may facilitate the squeeze out of dissentient minority shareholder upon a tender offer. When a tender offer is made and accepted by holders of 90% of the shares affected within four months, the offeror may, within a two month period commencing on the expiration of such four month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

If the arrangement and reconstruction is thus approved, or if a tender offer is made and accepted, a dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Table of Contents

Shareholders Suits. The Cayman Islands courts can be expected to follow English case law precedents. The Cayman Islands courts can be expected to apply and follow common law principles (namely the rule in *Foss v Harbottle* and the exceptions thereto) that permit a minority shareholder to commence a class action against the company or a derivative action in the name of the company to challenge (1) an act that is outside the company's corporate powers or that is illegal, (2) an act constituting a fraud against the minority shareholders where the wrongdoers are themselves in control of the company, and (3) an action requiring a resolution passed by a qualified or special majority that has not been obtained.

Directors Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director act in a manner he reasonably believes to be in the best interests of the corporation, he must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, a director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company: a duty to act in good faith in the best interests of the company, a duty not to make a personal profit out of his position as director (unless the company permits him to do so), a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party and a duty to exercise powers for the purpose for which such powers were intended. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, there are indications that the English and Commonwealth courts are moving towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our articles of association provide that shareholders may approve corporate matters by way of written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings. Cayman Islands law and our articles of association allow our shareholders holding not less than 33 per cent of the paid up voting share capital of our company to requisition a shareholder's meeting.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting

potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. As permitted under Cayman Islands law, our articles of association do not provide for cumulative voting.

Table of Contents

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation may be removed with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our articles of association, directors can be removed with or without cause, but only by the vote of a majority of the holders of our shares voting at a general meeting or the unanimous written resolution of all shareholders.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware public corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an interested shareholder for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or group who or which owns or owned 15% or more of the target's outstanding voting stock within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware public corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and for a proper corporate purpose and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding Up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board. Under the Companies Law, our company may be dissolved, liquidated or wound up by either an order of the courts of the Cayman Islands or by a special resolution, or by an ordinary resolution on the basis that our company is unable to pay its debts as they fall due. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under our articles of association, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class only with the written consent of the holders of at least a majority of the shares of such class or with the sanction of a resolution passed by at least a majority of the holders of such class present in person or by proxy at a separate general meeting of the holders of the shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. As permitted by Cayman Islands law, our memorandum and articles of association may be amended with the vote of at least two-thirds of holders of our shares at a general meeting or the unanimous written resolution of all of our shareholders.

Anti-Takeover Provisions in Memorandum and Articles of Association. Some provisions of our memorandum and articles of association may discourage, delay or prevent a change in control of our company or management that shareholders may consider favorable, including provisions that:

Table of Contents

authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and

create a classified board of directors pursuant to which our directors are elected for staggered terms, which means that shareholders can only elect, or remove, a limited number of directors in any given year.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Rights of Non-Resident or Foreign Shareholders. There are no limitations imposed by our memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

Inspection of Books and Records. Under the Delaware General Corporation Law, any shareholder of a corporation may for any proper purpose inspect or make copies of the corporation's stock ledger, list of shareholders and other books and records. Holders of our shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or corporate records. However, we will provide our shareholders with annual audited financial statements.

Shareholder Rights Plan

On January 8, 2009, our board of directors declared a dividend of one ordinary share purchase right, or a Right, for each of our ordinary shares outstanding at the close of business on January 22, 2009. The shareholder rights plan was subsequently amended in March 2009 and June 2017, respectively. See Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.

C. Material Contracts

We have not entered into any material contracts other than in the ordinary course of business and other than those described in Item 4. Information on the Company or elsewhere in this annual report.

D. Exchange Controls

See Item 4. Information on the Company B. Business Overview Government Regulations Regulations on Foreign Currency Exchange and Dividend Distribution.

E. Taxation

Cayman Islands Taxation

In the opinion of our Cayman Islands counsel, Maples and Calder (Hong Kong) LLP, the Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. No Cayman Islands stamp duty will be payable unless an instrument is executed in, or after execution, brought into, or produced before a court of the Cayman Islands. The Cayman Islands is not party to any double tax treaties which are applicable to payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

People s Republic of China Taxation

If we are considered a PRC resident enterprise under the EIT Law, our shareholders and ADS holders who are deemed non-resident enterprises may be subject to the 10% EIT on the dividends payable by us or any gains realized from the transfer of our shares or ADSs, if such income is deemed derived from China, provided that (i) such foreign enterprise investor has no establishment or premises in China, or (ii) it has establishment or premises in China but its income derived from China has no real connection with such establishment or premises. Furthermore, if we are considered a PRC resident enterprise and relevant PRC tax authorities consider the dividends we pay with respect to our shares or ADSs and the gains realized from the transfer of our shares or ADSs to be income derived from sources within the PRC, it is also possible that such dividends and gains earned by non-resident individuals may be subject to the 20% PRC individual income tax. It is uncertain whether, if we are considered a PRC resident enterprise, holders of our shares or ADSs would be able to claim the benefit of tax treaties or arrangements entered into between China and other jurisdictions.

Table of Contents

If we are required under the PRC tax law to withhold PRC income tax on our dividends payable to our non-PRC resident shareholders and ADS holders, or if any gains realized from the transfer of our shares or ADSs by our non-PRC resident shareholders and ADS holders are subject to the EIT or the individual income tax, your investment in our shares or ADSs could be materially and adversely affected.

U. S. Federal Income Taxation

The following discussion is a summary of U.S. federal income tax considerations to U.S. Holders (as defined below) relating to the ownership and disposition of the ADSs or ordinary shares. This discussion applies only to U.S. Holders of the ADSs or ordinary shares as capital assets (generally, property held for investment). This discussion is based on the tax laws of the United States in effect as of the date of this annual report and on U.S. Treasury regulations in effect or, in some cases, proposed as of the date of this annual report, as well as judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which change could apply retroactively and could affect the tax consequences described below.

The following discussion is for general information only and does not address all of the tax considerations that may be relevant to any particular investor or to persons in special tax situations such as:

banks and other financial institutions;

insurance companies;

pension plans;

cooperatives;

regulated investment companies;

real estate investment trusts;

broker-dealers;

traders that elect to use a mark-to-market method of accounting;

U.S. expatriates or entities subject to the U.S. anti-inversion rules;

tax-exempt entities (including private foundations);

persons liable for alternative minimum tax;

persons whose functional currency is not the U.S. dollar;

persons holding ADSs or ordinary shares as part of a straddle, hedging, conversion or integrated transaction for U.S. federal income tax purposes;

Table of Contents

persons holding ADSs or ordinary shares through a bank, financial institution or other entity, or a branch thereof, located, organized or resident outside the United States;

persons that directly, indirectly or constructively own 10% or more of our stock;

partnerships or other pass-through entities, or persons holding ADSs or ordinary shares through such entities; or

persons who acquired ADSs or ordinary shares pursuant to the exercise of any employee share option or otherwise as compensation.

In addition, the discussion below does not address any U.S. state, local or non-U.S. tax considerations, the Medicare tax, alternative minimum tax, or any non-income tax (such as U.S. federal estate or gift tax) considerations.

U.S. HOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES AS WELL AS THE STATE, LOCAL, NON-U.S. AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ADSs OR ORDINARY SHARES.

The discussion below of the U.S. federal income tax consequences to U.S. Holders will apply to you if you are a beneficial owner of ADSs or ordinary shares and you are, for U.S. federal income tax purposes:

an individual who is a citizen or resident of the United States;

a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust that (1) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons for all substantial decisions or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (or other entity taxable as a partnership for U.S. federal income tax purposes) is a beneficial owner of our ADSs or ordinary shares, the tax treatment of a partner in such partnership will depend on the status of such partner and the activities of such partnership. If you are a partner or a partnership holding our ADSs or ordinary shares, you are urged to consult your tax advisor as to the particular U.S. federal income tax considerations of an investment in the ADSs or ordinary shares that is applicable to you.

It is generally expected that a holder of ADSs should be treated, for U.S. federal income tax purposes, as the beneficial owner of the underlying shares represented by the ADSs. The remainder of this discussion assumes that a holder of ADSs will be treated in this manner. Predicated upon such treatment, deposits or withdrawals of our ordinary shares

for our ADSs will not be subject to U.S. federal income tax. The U.S. Treasury has expressed concerns that intermediaries in the chain of ownership between the holder of an ADS and the issuer of the security underlying the ADS may be taking actions that are inconsistent with the beneficial ownership of the underlying security (for example, pre-releasing ADSs to persons that do not have beneficial ownership of the securities underlying the ADSs). Accordingly, the creditability of any foreign tax credits or the availability of the reduced tax rate for dividends received by certain non-corporate U.S. Holders, including individual U.S. Holders (as discussed below), could be affected by actions taken by intermediaries in the chain of ownership between the holders of ADSs and our company if as a result of such actions the holders of ADSs are not properly treated as beneficial owners of underlying ordinary shares.

Passive Foreign Investment Company

Table of Contents

Based on the market price of our ADSs and the value and composition of our assets and liabilities, we believe we were not a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for the taxable year ended December 31, 2017. However, as previously disclosed, although not free from doubt, we believed that we were a PFIC for U.S. federal income tax purposes for prior years.

A non-U.S. corporation will be a PFIC for any taxable year if either:

at least 75% of its gross income for such year consists of certain types of passive income (the income test); or

at least 50% of the average quarterly value of its assets (as generally determined on the basis of fair market value) produce or are held for the production of passive income (the asset test).

For this purpose, cash and assets readily convertible into cash are generally classified as passive assets and goodwill and other unbooked intangibles associated with active business activities may generally be classified as non-passive assets. Passive income generally includes dividends, interest, royalties and rents (other than certain royalties and rents derived in the active conduct of a trade or business and not derived from a related person), and gains from the disposition of passive assets. The classification of certain of our income as active or passive and certain of our assets as producing active or passive income, and hence whether we expect to be or will become a PFIC, depends on the interpretation of certain U.S. Treasury Regulations, including certain regulations relating to royalty income and income from intangible assets, as well as certain Internal Revenue Service guidance, or IRS guidance, relating to the classification of assets as producing active or passive income and certain IRS guidance relating to the distinction between services income and royalties for U.S. federal income tax purposes. Such regulations and guidance are potentially subject to different interpretations. If the percentage of our passive income or our assets treated as producing passive income increases, we may be more likely to be treated as a PFIC for such taxable year.

We will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock. In applying this rule, however, it is not clear whether the contractual arrangements between us and our affiliated entities will be treated as ownership of stock. Moreover, it is not clear whether gain recognized from the sale of stock (or an arrangement treated as ownership of stock for U.S. federal income tax purposes) in a 25% (by value) or greater owned subsidiary (or VIE) is characterized as passive or as if we had held and sold directly our proportionate share of our subsidiary's (or VIE's) assets.

Although the law in this regard is not clear, we treat our VIEs as being owned by us for U.S. federal income tax purposes because we exercise effective control over them and are entitled to substantially all of their economic benefits. As a result, we consolidate the VIEs' results of operations in our consolidated U.S. GAAP financial statements. If it were determined that we are not the owner of our VIEs for U.S. federal income tax purposes, the composition of our income and assets would change and we may be more likely to be treated as a PFIC for any subsequent taxable year.

We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the asset test generally will be determined by reference to the market price of our ADSs or ordinary shares from time to time, our PFIC status will depend in part on the market price of our ADSs or ordinary shares, which may fluctuate significantly, and the composition of our assets and liabilities. Based on the market price of our ADSs and the value and composition of our assets and liabilities, we

believe that we were not a PFIC for U.S. federal income tax purposes for the taxable year ended December 31, 2017. However, as previously disclosed, although not free from doubt, we believed that we were a PFIC for U.S. federal income tax purposes for prior years.

If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares, we generally will continue to be treated as a PFIC with respect to you for all succeeding years during which you hold ADSs or ordinary shares. However, if we cease to be a PFIC, provided that you have not made a mark-to-market election, as described below, you may avoid some of the adverse effects of the PFIC regime by making a deemed sale election with respect to the ADSs or ordinary shares, as applicable. If such election is made, you will be deemed to have sold our ADSs or ordinary shares you hold at their fair market value and any gain from such deemed sale would be subject to the rules described in the following two paragraphs. After the deemed sale election, so long as we do not become a PFIC in a subsequent taxable year, your ADSs or ordinary shares with respect to which such election was made will not be treated as shares in a PFIC and you will not be subject to the rules described below with respect to any excess distribution you receive from us or any gain from an actual sale or other disposition of the ADSs or ordinary shares. The rules dealing with deemed sale elections are very complex. **You are strongly urged to consult your tax advisors as to the possibility and consequences of making a deemed sale election if we cease to be a PFIC and such election becomes available to you.**

Table of Contents

For each taxable year that we are treated as a PFIC with respect to you, you will be subject to special tax rules with respect to any excess distribution you receive and any gain you recognize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a mark-to-market election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules, if you receive any excess distribution or recognize any gain from a sale or other disposition of the ADSs or ordinary shares:

the excess distribution or recognized gain will be allocated ratably over your holding period for the ADSs or ordinary shares;

the amount allocated to the current taxable year, and any taxable years in your holding period prior to the first taxable year in which we became a PFIC (a pre-PFIC year), will be treated as ordinary income;

the amount allocated to each prior taxable year, other than a pre-PFIC year, will be subject to the highest tax rate in effect for individuals or corporations, as applicable, for each such year; and

the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each prior taxable year other than a pre-PFIC year.

The tax liability for amounts allocated to years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) from the sale or other disposition of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

If we are a PFIC for any taxable year and any of non-U.S. subsidiaries is also a PFIC, a U.S. Holder would be treated as owning a proportionate amount (by value) of the shares of the lower-tier PFIC for purposes of the application of these rules, and could incur liability for the deferred tax and interest charge described below if either (1) we receive a distribution from, or dispose of all or part of our interest in, the lower-tier PFICs or (2) you dispose of all or part of your ADSs or ordinary shares. It is possible that one or more of our subsidiaries were PFICs for the taxable year ending December 31, 2017. You should consult your tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

The tax liability for amounts allocated to years prior to the year of disposition of excessive distribution cannot be offset by any net operating losses for such years, and gains (but not losses) realized on the sale of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

Alternatively, a U.S. Holder of marketable stock (as defined below) of a PFIC may make a mark-to-market election for such stock to elect out of the PFIC rules described above regarding excess distributions and recognized gains. If you make a valid mark-to-market election for the ADSs or ordinary shares, you will include in income for each year that we are a PFIC an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You will be allowed a deduction for the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. However, deductions will be allowable only to the extent of any net mark-to-market

gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as gain on the actual sale or other disposition of the ADSs or ordinary shares, will be treated as ordinary income. Ordinary loss treatment will apply to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss from the actual sale or other disposition of the ADSs or ordinary shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income or loss amounts. If you make a mark-to-market election, any distributions that we make generally would be subject to the tax rules discussed below under Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares, except that the lower tax rate applicable to qualified dividend income would not apply.

Table of Contents

The mark-to-market election is available only for marketable stock, which is stock that is traded in greater than *de minimis* quantities on at least 15 days during each calendar quarter (regularly traded) on a qualified exchange or other market, as defined in applicable U.S. Treasury regulations. Although our ADSs are currently listed on, and historically regularly traded on, Nasdaq, which is a qualified exchange or other market for these purposes, no assurance can be given that the ADSs will be regularly traded on an established securities market in the United States for any taxable year. Moreover, if our ADSs are delisted (as described in Item 3. Key Information D. Risk Factors Risks Related to Our Shares and ADSs We currently fail to meet two of the continued listing requirements for the Nasdaq Global Market. If we fail to regain compliance with the listing requirement on a timely basis or fail to meet other listing requirements for the Nasdaq Global Market, our ADSs may be delisted from the Nasdaq Global Market or need to be transferred to other stock exchanges or trading venues, which may materially and adversely affect the market liquidity of our ADSs and our ability to obtain financing), then the mark-to-market election generally would be unavailable to U.S. Holders. If any of our subsidiaries are or become PFICs, the mark-to-market election will likely not be available with respect to the shares of such subsidiaries that are treated as owned by you. Consequently, you could be subject to the PFIC rules with respect to income of the lower-tier PFICs the value of which already had been taken into account indirectly via mark-to-market adjustments. You should consult your tax advisors as to the availability and desirability of a mark-to-market election, as well as the impact of such election on interests in any lower-tier PFICs.

Alternatively, a U.S. Holder of stock in a PFIC may make a qualified electing fund election with respect to such corporation to elect out of the PFIC rules described above regarding excess distributions and recognized gains. A U.S. Holder that makes a qualified electing fund election with respect to a PFIC generally will include in income such holder's pro rata share of the corporation's income on a current basis. However, you may make a qualified electing fund election with respect to your ADSs or ordinary shares only if we furnish you annually with certain tax information, and we currently do not intend to prepare or provide such information.

Unless otherwise provided by the U.S. Treasury, each U.S. shareholder of a PFIC is required to file an annual report containing such information as the U.S. Treasury may require. In addition, if you hold ADSs or ordinary shares in any year in which we are a PFIC, you will be required to file Internal Revenue Service Form 8621 regarding distributions received on the ADSs or ordinary shares and any gain realized on the disposition of the ADSs or ordinary shares. You should consult your tax advisors regarding any reporting requirements that may apply to you.

YOU ARE STRONGLY URGED TO CONSULT YOUR TAX ADVISORS REGARDING THE IMPACT OF OUR BEING A PFIC FOR PRIOR YEARS ON YOUR INVESTMENT IN OUR ADSs AND ORDINARY SHARES AS WELL AS THE APPLICATION OF THE PFIC RULES AND THE POSSIBILITY OF MAKING A MARK-TO-MARKET OR DEEMED SALE ELECTION.

Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares

Subject to the PFIC rules discussed above, the gross amount of any distribution we make to you with respect to the ADSs or ordinary shares generally will be includible in your gross income as dividend income on the date of receipt by the depository, in the case of ADSs, or by you, in the case of ordinary shares, but only to the extent that the distribution is paid out of our current or accumulated earnings and profits (as computed under U.S. federal income tax principles). The dividends will not be eligible for the dividends-received deduction allowed to corporations in respect of dividends received from other U.S. corporations. To the extent the amount of the distribution exceeds our current and accumulated earnings and profits, (as computed under U.S. federal income tax principles) such excess amount will be treated first as a tax-free return of your tax basis in your ADSs or ordinary shares, and then, to the extent such excess amount exceeds your tax basis, as a capital gain. Because we do not intend to determine our earnings and profits on the basis of U. S. federal income tax principles, any distribution paid will generally be reported as a dividend for U. S. federal income tax purposes.

Table of Contents

With respect to certain non-corporate U.S. Holders, including individual U.S. Holders, dividends will be taxed at the lower capital gains rate applicable to qualified dividend income, provided that (1) the ADSs or ordinary shares, as applicable, are readily tradable on an established securities market in the United States, or we are eligible for the benefits of a qualifying income tax treaty with the United States that includes an exchange of information program, (2) we are neither a PFIC nor treated as such with respect to you for the taxable year in which the dividend was paid and the preceding taxable year, and (3) certain holding period requirements are met. Under Internal Revenue Service authority, common or ordinary shares, or ADSs representing such shares, are considered for the purpose of clause (1) above to be readily tradable on an established securities market in the United States if they are listed on Nasdaq, as are our ADSs (but not our ordinary shares). There can be no assurance that our ADSs will be considered readily tradable on an established securities market in the United States in later years. Moreover, if our ADSs are delisted and not readily tradable on an established securities market in the United States (as described in Item 3. Key Information D. Risk Factors Risks Related to Our Shares and ADSs If we fail to comply with the continued listing requirement of the Nasdaq Global Market, our ADSs may be delisted from the Nasdaq Global Market or need to be transferred to other stock exchanges or trading venues, which may materially and adversely affect the market liquidity of our ADSs and our ability to obtain financing.), clause (1) above would not be satisfied, and dividends would not qualify for the preferential rate applicable to qualified dividend income. Since we do not expect that our ordinary shares will be listed on an established securities market in the United States, it is unclear the dividends that we pay on our ordinary shares that are not backed by ADSs currently meet the conditions required for the reduced tax rate. Furthermore, as previously disclosed, although not free from doubt, we believed that we were a PFIC for U.S. federal income tax purposes for prior years. If we are treated as a resident enterprise for PRC tax purposes under the EIT Law (see Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry The PRC income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), we may be eligible for the benefits of the income tax treaty between the United States and the PRC. You should consult your tax advisors regarding the availability of the lower capital gains rate applicable to qualified dividend income for dividends paid with respect to our ADSs or ordinary shares.

Dividends will constitute foreign source income for foreign tax credit limitation purposes. If the dividends are taxed as qualified dividend income (as discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation in general will be limited to the gross amount of the dividend, multiplied by the reduced tax rate applicable to qualified dividend income and divided by the highest tax rate normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, dividends distributed by us with respect to the ADSs or ordinary shares generally will constitute passive category income but could, in the case of certain U.S. Holders, constitute general category income.

If PRC withholding taxes apply to dividends paid to you with respect to our ADSs or ordinary shares (see Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry The PRC income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), subject to certain conditions and limitations, such PRC withholding taxes may be treated as foreign taxes eligible for credit against your U.S. federal income tax liability. The rules relating to the determination of the foreign tax credit are complex, and you should consult your tax advisors regarding the availability of a foreign tax credit in your particular circumstances, including the effects of any applicable income tax treaties.

Taxation of Disposition of the ADSs or Ordinary Shares

Subject to the PFIC rules discussed above, you will recognize taxable gain or loss on any sale, exchange or other taxable disposition of an ADS or ordinary share equal to the difference between the amount realized (in U.S. dollars)

for the ADS or ordinary share and your tax basis (in U.S. dollars) in the ADS or ordinary share. If the consideration you receive for the ADS or ordinary share is not paid in U.S. dollars, the amount realized will be the U.S. dollar value of the payment received. In general, the U.S. dollar value of such a payment will be determined on the date of receipt of payment if you are a cash basis taxpayer and on the date of disposition if you are an accrual basis taxpayer. However, if the ADSs or ordinary shares, as applicable, are treated as traded on an established securities market and you are either a cash basis taxpayer or an accrual basis taxpayer who has made a special election, you will determine the U.S. dollar value of the amount realized in a foreign currency by translating the amount received at the spot rate of exchange on the settlement date of the sale. The gain or loss generally will be a capital gain or loss. If you are a non-corporate U.S. Holder, including an individual U.S. Holder, that has held the ADS or ordinary share for more than one year, you generally will be eligible for reduced tax rates. The deductibility of capital losses is subject to limitations.

Table of Contents

Any gain or loss that you recognize on a disposition of ADSs or ordinary shares generally will be treated as U.S. source income or loss for foreign tax credit limitation purposes (in the case of loss, subject to certain limitations). However, if we are treated as a resident enterprise for PRC tax purposes and PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares (see Item 3. Key Information D. Risk Factors Risks Related to Our Company and Our Industry The PRC income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), a U.S. Holder that is eligible for the benefits of the income tax treaty between the United States and the PRC may elect to treat the gain as PRC source income for foreign tax credit purposes. You should consult your tax advisors regarding the proper treatment of gain or loss in your particular circumstances, including the effect of any applicable income tax treaties.

Information Reporting

Dividend payments with respect to ADSs or ordinary shares and proceeds from the sale, exchange or redemption of ADSs or ordinary shares generally will be subject to information reporting to the Internal Revenue Service.

U.S. Holders who are individuals generally will be required to report our name, address and such information relating to an interest in the ADSs or ordinary shares as is necessary to identify the class or issue of which your ADSs or ordinary shares are a part. These requirements are subject to exceptions, including an exception for ADSs or ordinary shares held in accounts maintained by certain financial institutions and an exception applicable if the aggregate value of all specified foreign financial assets (as defined in the Code) does not exceed certain thresholds.

U.S. Holders should consult their tax advisors regarding the application of the information reporting rules.

F. Dividends and Paying Agents

Not applicable.

G. Statement by Experts

Not applicable.

H. Documents on Display

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the SEC. The SEC also maintains a web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding Registrants that make electronic filings with the SEC using its EDGAR system. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

Table of Contents

Our financial statements have been prepared in accordance with U.S. GAAP.

We will furnish our shareholders with annual reports, which will include a review of operations and annual audited consolidated financial statements prepared in conformity with U.S. GAAP.

I. Subsidiary Information

Not applicable.

Item 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our exposure to interest rate risk for changes in interest rates relates primarily to the interest income generated by excess cash invested in bank deposits. We have not used any derivative financial instruments in our investment portfolio or for cash management purposes. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. However, our future interest income may fall short of expectations due to changes in interest rates.

Foreign Exchange Risk

We are exposed to foreign exchange risk arising from various currency exposures. Our payments to overseas developers, a portion of our financial assets and the Convertible Notes are denominated in U.S. dollars and other foreign currencies, while a significant portion of our revenues are denominated in RMB, the legal currency in China. We have not used any forward contracts or currency borrowings to hedge our exposure to foreign currency risk. The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. Any significant revaluation of RMB against the U.S. dollar may materially affect our earnings and financial position, and the value of, and any dividends payable on, our ADS in U.S. dollars. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Future movements in exchange rates between the U.S. dollar and the RMB may adversely affect the value of our ADSs.

A hypothetical 10% increase or decrease in the exchange rate of the U.S. dollar against the RMB would have resulted in an increase or decrease of RMB26.1 million (US\$4.0 million) in the aggregate principal amount of our U.S. dollar-denominated convertible notes outstanding as of December 31, 2017.

Item 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

The Bank of New York Mellon, our ADS depositary, collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depositary may collect its annual fee for depositary services by deductions from cash distributions, or by directly billing investors, or by charging the book-entry system accounts of participants acting for them. The depositary may generally refuse to provide fee-attracting services until its fees for those services are paid.

Table of Contents

Persons depositing or withdrawing shares must pay:
 US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs)

For:
 Issuance of ADSs, including issuances resulting from a distribution of shares or rights or other property

Cancellation of ADSs for the purpose of withdrawal, including if the deposit agreement terminates

US\$0.02 (or less) per ADS

Any cash distribution to ADS registered holders

A fee equivalent to the fee that would be payable if securities distributed to you had been shares and the shares had been deposited for issuance of ADSs

Distribution of securities distributed to holders of deposited securities that are distributed by the depositary to ADS registered holders

US\$0.02 (or less) per ADS per calendar year

Depositary services

Registration or transfer fees

Transfer and registration of shares on our share register to or from the name of the depositary or its agent when you deposit or withdraw shares

Expenses of the depositary

Cable, telex and facsimile transmissions (when expressly provided in the deposit agreement)

Converting foreign currency to U.S. dollars

Taxes and other governmental charges the depositary or the custodian have to pay on any ADS or share underlying an ADS, for example, stock transfer taxes, stamp duty or withholding taxes

As necessary

Any charges incurred by the depositary or its agents for servicing the deposited securities

As necessary

The depositary has agreed to reimburse us for expenses we incur that are related to the administration and maintenance of our ADS facility including, but not limited to, investor relations expenses, the annual Nasdaq Stock Market continued listing fees or any other program related expenses every year. There are limits on the amount of expenses for which the depositary will reimburse us, but the amount of reimbursement available to us is not related to the amounts of fees the depositary collects from investors. As of December 31, 2017, we had US\$0.2 million

reimbursement receivable for the year 2017, after deducting withholding tax, from the depositary as reimbursement for legal fees and administrative expenses.

Table of Contents

PART II

Item 1. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

Item 2. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

Shareholder Rights Plan

On January 8, 2009, our board of directors declared a dividend of one ordinary share purchase right, or a Right, for each of our ordinary shares outstanding at the close of business on January 22, 2009. As long as the Rights are attached to the ordinary shares, we will issue one Right (subject to adjustment) with each new ordinary share so that all such ordinary shares will have attached Rights. When exercisable, each Right will entitle the registered holder to purchase from us one ordinary share at a price of US\$19.50 per ordinary share, subject to adjustment. The shareholder rights plan was subsequently amended on March 9, 2009, June 8, 2017 and June 16, 2017.

The Rights will expire on January 8, 2019, subject to our right to extend such date and are exercisable only if a person or group obtains ownership of or announces a tender offer for 15% or more of our voting securities (including ADSs representing our ordinary shares). Upon exercise, all Rights holders except the potential acquirer will be entitled to acquire our shares or the acquirer's shares at a discount. We are entitled to redeem the Rights in whole at any time on or before the acquisition by a person or group of 15% or more of our voting securities (which for these purposes include ADSs representing ordinary shares), or exchange the Rights, in whole or in part, at an exchange ratio of one ordinary share, and of other securities, cash or other assets deemed to have the same value as one ordinary share, per Right, subject to adjustment.

Use of Proceeds

Not Applicable.

Item 3. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of December 31, 2017, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such item is defined in Rules 13a-15(f) under the Exchange Act, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements in accordance with U.S. GAAP and includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that a company's receipts and expenditures are being made only in accordance with authorizations of a company's management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of a company's assets that could have a material effect on the consolidated financial statements.

Table of Contents

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process, and it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As required by Section 404 of the Sarbanes-Oxley Act and related rules as promulgated by the SEC, our management assessed the effectiveness of the internal control over financial reporting as of December 31, 2017 using criteria established in Internal Control Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management concluded that our internal control over financial reporting was effective as of December 31, 2017.

Attestation Report of the Registered Public Accounting Firm

This annual report on Form 20-F does not include an attestation report of our registered public accounting firm because our company is neither an accelerated filer nor a large accelerated filer, as such terms are defined in Rule 12b-2 under the Exchange Act.

Changes in Internal Control over Financial Reporting

Our management has evaluated, with the participation of our chief executive officer and chief financial officer, whether any changes in our internal control over financial reporting that occurred during our last fiscal year have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on the evaluation we conducted, our management has concluded that no such changes occurred during the period covered by this annual report on Form 20-F.

Item 16A. AUDIT COMMITTEE FINANCIAL EXPERT

See Item 6. Directors, Senior Management and Employees C. Board Practices.

Item 16B. CODE OF ETHICS

Our board of directors has adopted a code of ethics that applies to our directors, officers, employees and agents, including certain provisions that specifically apply to our chief executive officer, chief financial officer, principal accounting officer, controller, vice presidents and any other persons who perform similar functions for us. We hereby undertake to provide to any person, without charge, a copy of our code of business conduct and ethics within ten working days after we receive such person's written request.

Item 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by Grant Thornton, our principal external auditors for the periods indicated below.

2016**2017**

| | RMB | RMB | US\$ |
|---------------------------|------------|------------|-------------|
| Audit fees ⁽¹⁾ | 2,850,000 | 2,640,000 | 405,761 |
| Tax fees ⁽²⁾ | 132,472 | | |

Table of Contents

- (1) **Audit fees** means the aggregate fees billed in each of the fiscal years listed for professional services rendered by our principal auditors for the audit of our annual financial statements.
- (2) **Tax fees** means the fees billed for tax compliance services, including the preparation of tax returns and tax consultations.

The policy of our audit committee is to pre-approve all audit and non-audit services provided by our independent registered public accounting firm, including audit services, audit-related services, tax services and other services as described above, other than those for de minimus services which are approved by our audit committee prior to the completion of the audit.

Item 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

Not applicable.

Item 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

None.

Item 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

On December 5, 2016, we dismissed Deloitte Touche Tohmatsu Certified Public Accountants LLP, or Deloitte, as our independent registered public accounting firm. On the same date, we engaged Grant Thornton as our independent registered public accounting firm in connection with the audit of our consolidated financial statements for the fiscal year ended December 31, 2016, effective immediately. During the fiscal years ended December 31, 2014 and 2015 and in the subsequent interim period through December 5, 2016, neither we nor anyone acting on our behalf consulted Grant Thornton regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered with respect to the consolidated financial statements of our company, and neither a written report nor oral advice was provided to us by Grant Thornton that Grant Thornton concluded was an important factor considered by us in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement (as that term is used in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as that term is defined in Item 304(a)(1)(v) of Regulation S-K).

Deloitte's audit report on our company's consolidated financial statements as of and for the year ended December 31, 2014 did not contain any adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principles. Deloitte's audit report on our company's consolidated financial statements as of and for the year ended December 31, 2015 expresses an unqualified opinion and includes an explanatory paragraph concerning substantial doubt about our company's ability to continue as a going concern. Deloitte did not audit any financial statements of our company as of any date or for any period subsequent to December 31, 2015.

Our decision to dismiss Deloitte and engage Grant Thornton was approved by our independent audit committee.

During the years ended December 31, 2014 and 2015 and the subsequent interim period through our dismissal of Deloitte on December 5, 2016, there were no disagreements between us and Deloitte on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Deloitte, would have caused Deloitte to make references thereto in their reports on the financial statements for such years. In addition, there were no reportable events requiring disclosure pursuant to Item

16F(a)(1)(v) of Form 20-F.

We provided Deloitte with a copy of the foregoing disclosure, and requested that Deloitte furnish us with a letter addressed to the SEC stating whether it agrees with the above statements, and if not, stating the respects in which it does not agree. We have received the requested letter from Deloitte, a copy of which is filed as Exhibit 15.8 to this Form 20-F.

Table of Contents**Item 16G. CORPORATE GOVERNANCE**

We are an exempted company incorporated in the Cayman Islands and our corporate governance practices are governed by applicable Cayman Islands law. In addition, because our ADSs are listed on the Nasdaq Global Market, we are subject to corporate governance requirements of the Nasdaq. However, Nasdaq Marketplace Rule 5615(a)(3) permits foreign private issuers like us to follow home country practice with respect to certain corporate governance matters, and we may decide to follow the home country practice on a case-by-case basis. In each of November 2015 and August 2016, our board of directors approved an increase in the total number of ordinary shares reserved for issuance under our Option Plan, for which we have followed home country practice in lieu of obtaining a shareholder approval pursuant to Nasdaq Marketing Rule 5635(c). We are committed to a high standard of corporate governance. As such, we endeavor to comply with most of the Nasdaq corporate governance practices and believe that we are currently in compliance with the Nasdaq corporate governance practices.

Item 16H. MINE SAFETY DISCLOSURE

Not applicable.

PART III**Item 17. FINANCIAL STATEMENTS**

We have elected to provide financial statements pursuant to Item 18.

Item 18. FINANCIAL STATEMENTS

The consolidated financial statements for The9 Limited and its subsidiaries are included at the end of this annual report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders of The9 Limited:

Opinion on the financial statements

We have audited the accompanying consolidated balance sheets of The9 Limited, and its subsidiaries and its variable interest entities (the Group) as of December 31, 2017 and 2016, the related consolidated statements of operations and comprehensive loss, changes in equity, and cash flows for each of the two years in the period ended December 31, 2017, and the related notes and the financial statement schedule (collectively referred to as the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2017 and 2016, and the results of its operations, changes in equity and cash flows for each of the two years in the period ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Going concern

The accompanying consolidated financial statements have been prepared assuming that the Group will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Group has an accumulated deficit of approximately RMB3,016.0 million (US\$463.5 million) as of December 31, 2017, and incurred a net loss of approximately RMB112.1 million (US\$17.2 million) for the year ended December 31, 2017. These conditions, along with other matters set forth in Note 2, raise substantial doubt about the Group's ability to continue as a going concern. Management's plans in regard to these matters are also discussed in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for opinion

These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Group in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Group is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ GRANT THORNTON

We have served as the Group's auditor since
2016.

REPORT OF PREDECESSOR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of The9 Limited:

We have audited the accompanying the consolidated statements of operations and comprehensive loss, changes in equity, and cash flows for the year ended December 31, 2015 of The9 Limited, its subsidiaries and its variable interest entities (the Group), and the related notes and the schedule included in Schedule I. These consolidated financial statements and financial statement schedule are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Group is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the results of the Group's operations and the Group's cash flows for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects, the information set forth therein.

Table of Contents**THE9 LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2015, 2016 AND 2017****1. ORGANIZATION AND NATURE OF OPERATIONS**

The accompanying consolidated financial statements include the financial statements of The9 Limited, which was incorporated on December 22, 1999 in the Cayman Islands, its subsidiaries and variable interest entities (VIE subsidiaries or VIEs), collectively referred to as the Group .

The Group is principally engaged in the development and operation of online games and internet related businesses, including massively multiplayer online games (MMOGs), mobile games, web games and TV games.

The Group s principal subsidiaries and VIE subsidiaries are as follows as of December 31, 2017:

| Name of Entity | Date of Registration | Place of Registration | Legal Ownership |
|--|-----------------------------|------------------------------|------------------------|

2. PRINCIPAL ACCOUNTING POLICIES

<1> Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP). Significant accounting policies followed by the Group in the preparation of the accompanying consolidated financial statements are summarized below.

The accompanying consolidated financial statements have been prepared on a going concern basis. The Group has accumulated deficit of approximately RMB3,016.0 million (US\$463.5 million) and total current liabilities exceeded total assets by approximately RMB496.3 million (US\$76.3 million) as of December 31, 2017. The Group also suffered a net loss of approximately RMB112.1 million (US\$17.2 million) for the year ended December 31, 2017. The Group expects to continue to incur product development and sales and marketing expenses for licensed and proprietary new games in order to achieve overall revenue growth. These factors raise substantial doubt about the Group s ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset amounts, or amounts of liabilities that might result from the outcome of this uncertainty.

To meet its capital needs, the Group is considering multiple alternatives, including, but not limited to, additional equity financing, launch of new games, other external financing, and cost controls as outlined below. There can be no assurance that the Group will be able to complete any such transaction on acceptable terms or otherwise. If the Group is unable to obtain the necessary capital, it will need to pursue a plan to license or sell its assets, seek to be acquired by another entity, or cease operations.

On November 24, 2015, the Group entered into an agreement with a third-party investor for a private placement of secured convertible notes and warrants for gross proceeds of US\$40,050,000. This transaction closed on December 11, 2015. Pursuant to the terms of the agreement, the convertible notes shall mature in 2018, subject to a two-year extension at the discretion of the investor. Upon the maturity of convertible notes and warrants, if the third-party investor did not opt to extend or convert into ordinary shares, the Group may consider to sells certain assets to repay this obligation.

Table of Contents

Launch of New Games

The Group plans to launch our proprietary online games on different platforms, including the CrossFire New Mobile Game, Audition and Q Jiang San Guo, which are all mobile games. In November 2017, the Group entered into an exclusive publishing agreement with a third-party company, pursuant to which this third-party company was granted an exclusive right to publish the CrossFire New Mobile Game in China. The Group has invested significant financial and personnel resources in development of our proprietary CrossFire New Mobile Game and the Group expects to launch this game in 2019.

Other External Financing

The Group is financing the development of CrossFire New Mobile Game through fund raising on the Inner Mongolia Culture Assets and Equity Exchange. As of December 31, 2017, the Group had raised RMB57.5 million (US\$8.8 million), and plans to raise an additional RMB100.0 million (US\$15.4 million) until the game is launched (see Note 18).

Cost Controls

Currently, a significant portion of our cash outflows is attributable to payroll-related costs. We have the ability to control the level of discretionary spending on payroll costs by reducing our headcount within a short period of time when necessary.

<2> Consolidation

The consolidated financial statements include the financial statements of The9 Limited, its subsidiaries and VIEs in which it has a controlling financial interest. A subsidiary is consolidated from the date on which the Group obtained control and continues to be consolidated until the date that such control ceases. A controlling financial interest is typically determined when a company holds a majority of the voting equity interest in an entity. If the Group demonstrates its ability to control a VIE through its rights to all the residual benefits of the VIE and its obligation to fund losses of the VIE, then the VIE is consolidated. All intercompany balances and transactions between The9 Limited, its subsidiaries and VIEs have been eliminated in consolidation.

In April 2010, the Group acquired a controlling interest in Red 5. In June 2016, the Group completed a share exchange transaction with L&A International Holding Limited (L&A) and certain other shareholders of Red 5 (see Note 8). After the transaction, the Group owned 34.71% shareholding in Red 5. As the Group controls a majority of Board of Director seats and has continuously funded to the operation of Red 5, the Group still retained effective control over Red 5 and Red 5 remained as a consolidated entity of the Group as of December 31, 2017.

Table of Contents

PRC laws and regulations currently prohibit or restrict foreign ownership of internet-related business. In September 2009, the General Administration of Press and Publication Radio, Film and Television (GAPP RFT) further promulgated the Circular Regarding the Implementation of the Department Reorganization Regulation by State Council and Relevant Interpretation by State Commission Office for Public Sector Reform to Further Strengthen the Administration of Pre-approval on Online Games and Approval on Import Online Games (the GAPP Circular). Pursuant to Administrative Measures on Network Publication (the Network Publication Measures) jointly issued by GAPP RFT and the Ministry of Information Industry (which has subsequently been reorganized as the Ministry of Industry and Information Technology) (MIIT) on February 4, 2016, effective from March 2016, wholly foreign-owned enterprises, Sino-foreign equity joint ventures and Sino-foreign cooperative enterprises shall not engage in the provision of web publishing services, including online game services. Prior examination and approval by GAPP RFT are required on project cooperation involving internet publishing services between an internet publishing services and a wholly foreign-owned enterprise, Sino-foreign equity joint venture, or Sino-foreign cooperative enterprise within China or an overseas organization or individual. It is unclear whether PRC authorities will deem our VIE structure as a kind of such manners of cooperation by foreign investors to gain control over or participate in domestic online game operators, and it is not clear whether GAPP RFT and MIIT have regulatory authority over the ownership structures of online game companies based in China and online game operations in China. Therefore, the Group believes that its ability to direct those activities of its VIEs that most significantly impact their economic performance is not affected by the GAPP Circular.

<3> Use of estimates

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported revenues and expenses during the reported periods. Significant accounting estimates reflected in the Group s consolidated financial statements include the valuation of non-marketable equity investments and determination of other-than-temporary impairment, allowance for doubtful accounts and prepayments, revenue recognition, assessment of recoverability of long-lived assets and goodwill impairment, assessment of impairment of available-for-sale investments, assessment of impairment of other long-lived assets, fair value of redeemable noncontrolling interest, the fair value of the warrants, share-based compensation expense, consolidation of VIEs, valuation allowances for deferred tax assets, and contingencies. Such accounting policies are affected significantly by judgments, assumptions and estimates used in the preparation of our consolidated financial statements, and actual results could differ materially from these estimates.

Table of Contents**<4> Foreign currency translation**

The Group's reporting currency is the Renminbi (RMB). The Group's functional currency with the exception of its subsidiaries, Red 5, The9 Interactive, Red 5 Singapore, Red 5 Korea and The9 Korea, is the RMB. The functional currency of Red 5, The9 Interactive, Red 5 Singapore, Red 5 Korea and The9 Korea is the United States Dollar (US\$ or US dollars), United States Dollar, Singapore Dollar, Korean Won and Korean Won, respectively. Assets and liabilities of Red 5, The9 Interactive, Red 5 Singapore, Red 5 Korea and The9 Korea are translated at the current exchange rates quoted by the People's Bank of China (the PBOC) in effect at the balance sheet dates. Equity accounts are translated at historical exchange rates and revenues and expenses are translated at the average exchange rates in effect during the reporting period to RMB. Gains and losses resulting from foreign currency translation to reporting currency are recorded in accumulated other comprehensive gain/loss in the consolidated statements of changes in equity for the years presented.

Transactions denominated in currencies other than functional currencies, are translated into functional currencies at the exchange rates prevailing at the dates of the transactions. Gains and losses resulting from foreign currency transactions are included in the consolidated statements of operations and comprehensive loss. Monetary assets and liabilities denominated in foreign currencies are translated into functional currencies using the applicable exchange rates at the balance sheet dates. All such exchange gains and losses are included in other income (expense) in the consolidated statements of operations and comprehensive loss.

<5> Cash and cash equivalents

Cash and cash equivalents represent cash on hand and highly-liquid investments with a maturity date when acquired of three months or less. As of December 31, 2016 and 2017, cash equivalents were comprised primarily of bank deposits. Included in cash and cash equivalents as of December 31, 2016 and 2017 are amounts denominated in US Dollars totaling US\$4.2 million and US\$21.0 million, respectively.

The RMB is not a freely convertible currency. The PRC State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in China's foreign exchange trading system market. The Group's aggregate amount of cash and cash equivalents denominated in RMB amounted to RMB10.0 million and RMB5.2 million (US\$0.8 million) as of December 31, 2016 and 2017, respectively.

Table of Contents**<6> Allowance for doubtful accounts**

Accounts receivable mainly consist of receivables from prepaid card distributors and third-party game platforms, and are recorded net of allowance for doubtful accounts. The Group determines the allowances for doubtful accounts when facts and circumstances indicate that the receivable is unlikely to be collected. Allowances for doubtful accounts are charged to general and administrative expenses. If the financial condition of the Group's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The Company provided allowance for doubtful accounts of RMB0.7 million, nil and RMB0.1 million (US\$0.01 million) in 2015, 2016 and 2017, respectively.

<7> Prepaid royalties and deferred costs

Royalties paid to the licensors of games are initially recognized as prepaid royalties when paid and subsequently recognized as deferred costs upon the customers' online registration and activation of their cards or online points. Royalties payable to the licensors or receivable from collection agents upon customers' charging their accounts are initially recorded as deferred costs upon the customers' online registration and activation of their cards or online points. Deferred costs are then ultimately recognized as cost of services in the consolidated statements of operations and comprehensive loss based upon the actual consumption of game premium features or usage of the game playing time by the customers or when the likelihood that the Group would provide further services to those customers becomes remote.

<8> Investments in equity method investee and loan to equity method investee

Equity investments are comprised of investments in privately held companies. The Group uses the equity method to account for an equity investment over which it has the ability to exert significant influence but does not otherwise have control. The Group records equity method investments at the cost of acquisition, plus the Group's share in undistributed earnings and losses since acquisition. For equity investments over which the Group does not have significant influence or control, the cost method of accounting is used.

The Group has historically provided financial support to certain equity investees in the form of loans. If the Group's share of the undistributed losses exceeds the carrying amount of an investment accounted for by the equity method, the Group continues to report losses up to the investment carrying amount, including any loans balance due from the equity investees.

Table of Contents

The Group assesses its equity investments and loans to equity investees for impairment on a periodic basis by considering factors including, but not limited to, current economic and market conditions, the operating performance of the investees including current earnings trends, the technological feasibility of the investee's products and technologies, the general market conditions in the investee's industry or geographic area, factors related to the investee's ability to remain in business, such as the investee's liquidity, debt ratios, cash burn rate, and other company-specific information including recent financing rounds. If it has been determined that the equity investment is less than its related fair value and that this decline is other-than-temporary, the carrying value of the investment and loan to equity investee is adjusted downward to reflect these declines in value.

<9> Available-for-sale investments

Investments in debt and equity securities are, on initial recognition, classified into the three categories: held-to-maturity securities, trading securities, and available-for-sale securities. Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and reported at amortized cost. Debt and equity securities that are bought and held principally for the purpose of selling in the near term are classified as trading securities and reported at fair value, with unrealized gains and losses included in earnings. Debt and equity securities not classified as either held-to-maturity securities or trading securities are classified as available-for-sale securities and reported at fair value, with unrealized gains and losses recognized in accumulated other comprehensive income.

When there is objective evidence that an available-for-sale investment is impaired, the cumulative losses from declines in fair value that had been recognized directly in other comprehensive income are removed from equity and recognized in earnings. When the available-for-sale investment is sold, the cumulative fair value adjustments previously recognized in accumulated other comprehensive income are recognized in the current period operating results. When the Group determines that the impairment of an available-for-sale equity security is other-than-temporary, the Group recognizes an impairment loss in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. When other-than-temporary impairment has occurred for an available-for-sale debt security and the Group intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current-period credit loss, an impairment loss is recognized in earnings equal to the difference between the investment's amortized cost basis and its fair value at the balance sheet date. The new cost basis will not be changed for subsequent recoveries in fair value. To determine whether a loss is other-than-temporary, the Group reviews the cause and duration of the impairment, the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the Group's intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery of its amortized cost.

Table of Contents**<10> Property, equipment and software**

Property, equipment and software are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

| | |
|-------------------------------|---|
| Leasehold improvements | the shorter of respective lease term or the estimated useful lives of the leasehold improvement |
| Computer and equipment | 3 to 4 years |
| Software | 5 years |
| Office furniture and fixtures | 3 years |
| Motor vehicles | 5 years |
| Office buildings | 10 to 20 years |

<11> Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired as a result of the Group's business acquisition. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. In September 2011, the Financial Accounting Standards Board (FASB) issued an authoritative pronouncement related to testing goodwill for impairment. The guidance permits us to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. The Company adopted this pronouncement since 2012. If it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Group completes a two-step goodwill impairment test in December of each year. The first step compares the fair value of each reporting unit to its carrying amount, including goodwill. If the fair value of a reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. This allocation process is only performed for purposes of evaluating goodwill impairment and does not result in an entry to adjust the value of any assets or liabilities. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill.

Table of Contents

<12> Assets held for sale

Net assets held for sale represent property, equipment and software for business operation that has met the criteria of held for sale accounting, as specified by Accounting Standards Codification (ASC) 360, Property, Plant, and Equipment. The effect of suspending depreciation on the property, equipment and software held for sale is immaterial to the results of operations for both 2016 and 2017. The net assets held for sale are being marketed for sale and it is the Company's intention to complete the sales of these assets within 2018.

<13> Intangible assets

Intangible assets consist primarily of acquired game licenses and acquired game development costs from business combinations.

Acquired game licenses are amortized on a straight-line basis over the shorter of the useful economic life of the relevant online game or license period, which range from two to seven years. Amortization of acquired game licenses commences upon monetization of the related online game.

The Group recognizes intangible assets acquired through business acquisitions as assets separate from goodwill. Acquired in-process research and development costs are initially considered an indefinite-lived asset. Upon completion of the research and development efforts, these costs are recorded as acquired game development costs and are amortized on a straight-line basis over the useful economic life of the relevant online game. Amortization of acquired game development cost commences upon monetization of the related online game.

<14> Land use right

Land use right represents operating lease prepayments to the PRC's land bureau for usage of the parcel of land where the Group's office building is located. Amortization is calculated using the straight-line method over the estimated land use right period of 44 years.

<15> Impairment of long-lived assets and allowance on long-term receivables

The Group evaluates its long-lived assets, including finite-lived intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable or that the useful life is shorter than the Group had originally estimated. The Group assesses the recoverability of the long-lived assets by comparing the carrying amount to the estimated future undiscounted cash flow expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets.

Table of Contents

Indefinite-lived intangible assets are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test consists of a comparison of the fair value of the intangible asset to its carrying amount. If the carrying amount exceeds the fair value, an impairment loss is recognized in an amount equal to that excess.

The Group determines an allowance on doubtful long-term receivables when facts and circumstances indicate that the long-term receivable is unlikely to be collected.

<16> Revenue recognition

Online game services

The Group earns revenue from provision of online game operation services to players on the Group's game servers and third-party platforms, and overseas licensing of online games to other operators. The Group recognizes revenues when persuasive evidence of an arrangement exists, services are delivered or performed, price is fixed or determinable, and collectability is reasonably assured.

Online game services to players on the Group's game server

The Group sells prepaid online points for its online game products directly to players via various online payment platforms. The Group adopts a virtual item / service consumption model for the online game services.

Players can access certain games free of charge, but may purchase game points to acquire in-game premium features. The distribution of points to players is typically made by sales of prepaid game cards and prepaid online points. Fees for prepaid game cards and prepaid online points are deferred when received. Revenue is recognized over the estimated life of the premium features or as the premium features are consumed.

For in-game premium features that are immediately consumed, revenue is recognized upon consumption. For premium features with a stated expiration time, which range from one to 180 days, revenue is recognized ratably over the period starting from when the feature is first used to the expiration time. For perpetual features with no predetermined expiration, revenue is recognized ratably over the estimated average lives of the perpetual features, which are typically less than one year. When estimating the average lives of in-game perpetual features, the Group considers the average period that players typically play the game, other player behavior patterns, and factors including the acceptance and popularity of expansion packs, promotional events launched, and market conditions. Future usage patterns of players may differ from the historical usage patterns on which the virtual item / service consumption revenue recognition model is based. The Group continually monitors the operational statistics and usage patterns, and adjusts its estimates accordingly.

Table of Contents

Online game operation services over third-party platform

Certain social games, TV games, certain web games and certain MMOGS, have adopted the virtual item / service consumption model, and are launched on the third-party game platforms and telecom carriers. Revenue from social and web games operated through third-party game platforms are recognized upon consumption of the in-game premium features, with the amount net of remittance to the third-party game platforms as the Group does not set the pricing of the in-game currency of the third-party game platforms.

Revenue from TV games operated through telecom carriers and certain MMOGS operated on the third-party game platforms are recognized upon consumption of the in-game premium features based on the gross amount paid, as the Group is the primary obligor of the games operation. The remittance to the telecom carrier and third-party game platforms is recognized as costs of revenue when incurred.

Licensing revenue

The Group licenses certain proprietary online games to other game operators and receives license fees and royalty income in connection with their operation of the games. License fee revenue is recognized over the license period upon the commercialization of the game in the licensee's market. Royalty income is recognized when earned, provided that collectability is reasonably assured.

Other revenues

Other revenues mainly include those generated from training. Training revenue includes revenues generated from providing technical training to college students on mobile application programming. These revenues are recognized when delivery of the service has occurred or when services have been rendered and the collection of the related fees is reasonably assured.

<17> Advances from customers and deferred revenue

The Group licenses proprietary games to operators in other countries and receives license fees and royalty income. License fee received in advance of the monetization of the game is recorded in advances from customers.

Online points that have been sold but not activated are recognized as advances from customers. Online points that have been activated but for which online game services will be rendered in the future are recognized as deferred revenue. Deferred revenue is recognized as income based upon the actual consumption of in-game premium features by players or when the likelihood that the Group would provide further online game service to those customers is remote.

Table of Contents**<18> Convertible note and warrants****Convertible Notes and Beneficial Conversion Feature (BCF)**

The Group issued convertible notes and warrants in December 2015. The Group has evaluated whether the conversion feature of the notes is considered an embedded derivative instrument subject to bifurcation in accordance with ASC 815, *Accounting for Derivative Instruments and Hedging Activities*. Based on the Group's evaluation, the conversion feature is not considered an embedded derivative instrument subject to bifurcation as conversion option does not provide the holder of the notes with means to net settle the contracts. Convertible notes, for which the embedded conversion feature does not qualify for derivative treatment, are evaluated to determine if the effective rate of conversion per the terms of the convertible note agreement is below market value. In these instances, the value of the BCF is determined as the intrinsic value of the conversion feature is recorded as deduction to the carrying amount of the notes and credited to additional paid-in-capital. For convertible notes issued with detachable warrants, a portion of the notes' proceeds is allocated to the warrant based on the fair value of the warrants at the date of issuance. The allocated fair value for the warrants and the value of the BCF are both recorded in the financial statements as a debt discount from the face amount of the notes, which is then accreted to interest expense over the life of the related debt using the effective interest method.

The Group has early adopted ASU 2015-3, simplifying the presentation of debt issuance costs to present the occurred debt issuance costs as a direct deduction from the convertible note rather than as an asset. Amortization of the costs is reported as interest expense.

Warrants

The Group accounts for the detachable warrants issued in connection with convertible notes under the authoritative guidance on accounting for derivative financial instruments indexed to, and potentially settled in, a company's own stock. The Group classifies warrants in its consolidated balance sheet as a liability which is revalued at each balance sheet date subsequent to the initial issuance. The Group uses the Black-Scholes pricing model to value the warrants. Determining the appropriate fair-value model and calculating the fair value of warrants requires considerable judgment. A small change in the estimates used may cause a relatively large change in the estimated valuation. The estimated volatility of the Group's common stock at the date of issuance, and at each subsequent reporting period, is based on historic fluctuations in the Company's stock price. The risk-free interest rate is based on United States Treasury zero-coupon issues with a maturity similar to the expected remaining life of the warrants at the valuation date. The expected life of the warrants is based on the historical pattern of exercises of warrants.

Table of Contents

<19> Cost of sales

Cost of sales consists primarily of online game royalties, payroll, sharing to third-party game platform, telecom carriers and other suppliers, depreciation, maintenance and rental of Internet data center sites, depreciation and amortization of computer equipment and software, production costs for prepaid game cards, intangible assets amortization and other overhead expenses directly attributable to the services provided.

<20> Product development costs

For software development costs, including online games, to be sold or marketed to customers, the Group expenses software development costs incurred prior to reaching technological feasibility. Once a software product has reached technological feasibility, all subsequent software costs for that product are capitalized until that product is released for marketing. After an online game is released, the capitalized product development costs are amortized over the estimated product life. To date, the Group has essentially completed its software development concurrently with the establishment of technological feasibility, and, accordingly, no costs have been capitalized.

For website and internally used software development costs, the Group expenses all costs that are incurred in connection with the planning and implementation phases of development and costs that are associated with repair or maintenance of the existing websites and software. Costs incurred in the application and infrastructure development phase are capitalized and amortized over the estimated product life. Since the inception of the Group, the amount of internally generated costs qualifying for capitalization has been immaterial and, as a result, all website and internally used software development costs have been expensed as incurred.

Product development costs consist primarily of outsourced research and development expenses, payroll, depreciation charges and other overhead expenses for the development of the Group's proprietary games. Other overhead product development costs include costs incurred by the Group to develop, maintain, monitor, and manage its websites.

<21> Sales and marketing expenses

Sales and marketing expenses consist primarily of advertising and promotional expenses, payroll and other overhead expenses incurred by the Group's sales and marketing personnel. Advertising expenses in the amount of RMB3.2 million, RMB2.5 million and RMB0.9 million (US\$0.1 million) for the years ended December 31, 2015, 2016 and 2017, respectively, were expensed as incurred.

Table of Contents**<22> Government grants**

Unrestricted government subsidies from local government agencies allowing the Group full discretion to utilize the funds were RMB0.3 million, RMB1.1 million and RMB2.3 million (US\$0.4 million) for the years ended December 31, 2015, 2016 and 2017, respectively, which were recorded in other income (expense) in the consolidated statements of operations and comprehensive loss.

<23> Share-based compensation

The Group has granted share-based compensation awards to certain employees under several equity plans. The Group measures the cost of employee services received in exchange for an equity award, based on the fair value of the award at the date of grant. Share-based compensation expense is recognized net of estimated forfeitures, determined based on historical experience. The Group recognizes share-based compensation expense over the requisite service period. For performance and market-based awards which also require a service period, the Group uses graded vesting over the longer of the derived service period or when the performance condition is considered probable. The Company determines the grant date fair value of stock options using a Black-Scholes-Merton option pricing model (the Black-Scholes Model) with assumptions made regarding expected term, volatility, risk-free interest rate, and dividend yield. The fair value of the stock options containing a market condition are estimated using a Monte Carlo simulation model. For options awarded by private subsidiaries of the Group, the fair value of shares is estimated based on the equity value of the subsidiary. The Group evaluates the fair value of the subsidiary by making judgments and assumptions about the projected financial and operating results of the subsidiary. Once the equity value of the subsidiary is determined, it is allocated (as applicable) into the various classes of shares and options using the option-pricing method, which is one of the generally accepted valuation methodologies.

The expected term represents the period of time that stock-based awards granted are expected to be outstanding. The expected term of stock-based awards granted is determined based on historical data on employee exercise and post-vesting employment termination behavior. Expected volatilities are based on historical volatilities of the Company's ordinary shares. Risk-free interest rate is based on United States (US) government bonds issued with maturity terms similar to the expected term of the stock-based awards.

The Group recognizes compensation expense, net of estimated forfeitures, on all share-based awards on a straight-line basis over the requisite service period, which is generally a one-to-four year vesting period or in the case of market-based awards, over the greater of the vesting period or derived service period. Forfeiture rate is estimated based on historical forfeiture patterns and adjusted to reflect future changes in circumstances and facts, if any. If actual forfeitures differ from those estimates, the estimates may need to be revised in subsequent periods. The Group uses historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

Table of Contents

For stock option modifications, the Group compares the fair value of the original award immediately before and after the modification. For modifications, or probable-to-probable vesting conditions, the incremental fair value of fully vested awards is recognized as expense on the date of the modification, with the incremental fair value of unvested awards recognized ratably over the new service period.

On June 6, 2017, the Board of Directors of the Group (the BOD) approved cancellation of a portion of the options and accelerated vesting of the remaining options in addition to the repricing of the exercise price which was US\$0.00. Pursuant to the option agreement entered with the optionees, options totaling 6,328,535 were exercised and options totaling 10,806,665 were canceled. An independent appraiser engaged by the Group prepared a valuation report assessing the fair value of the options. The cancellation and acceleration of the options shall be considered as an option modification. Subject to ASC 780-20-35, the remaining unrecognized compensation cost of unvested stock option measured at grant date shall be recognized at the date of modification. The incremental compensation cost which is the excess of the fair value of the replacement award over the fair value of the canceled award shall be recognized at the date of cancellation.

<24> Leases

Leases for which substantially all of the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases net of any incentives received by the Group from the leasing company are charged to earnings on a straight-line basis over the lease periods.

<25> Income taxes

Current income taxes are provided for in accordance with the laws and regulations applicable to the Group as enacted by the relevant tax authorities. Income taxes are accounted for under the asset and liability method. Deferred taxes are determined based upon differences between the financial reporting and tax bases of assets and liabilities at currently enacted statutory tax rates for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized as income in the period of change. A valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that such deferred tax assets will not be realized. The total income tax provision includes current tax expenses under applicable tax regulations and the change in the balance of deferred tax assets and liabilities.

The Group recognizes the impact of an uncertain income tax position at the largest amount that is more-likely-than not to be sustained upon audit by the relevant tax authority. Income tax related interest is classified as interest expenses and penalties as income tax expense.

Table of Contents

<26> Redeemable noncontrolling interests

Redeemable noncontrolling interests are equity interests of our consolidated subsidiary not attributable to the Group that has redemption features that are not solely within the Group's control. These interests are classified as temporary equity because their redemption is considered probable. These interests are measured at the greater of estimated redemption value at the end of each reporting period or the initial carrying amount of the redeemable noncontrolling interests adjusted for cumulative earnings (loss) allocations.

<27> Noncontrolling interest

A noncontrolling interest in a subsidiary or VIE of the Group represents the portion of the equity (net assets) in the subsidiary or VIE not directly or indirectly attributable to the Group. Noncontrolling interests are presented as a separate component of equity in the consolidated balance sheet and modifies the presentation of net income by requiring earnings and other comprehensive income loss to be attributed to controlling and noncontrolling interest.

<28> Loss per share

Basic loss per share is computed by dividing net loss attributable to the holders of ordinary shares by the weighted average number of ordinary shares outstanding during the year. Diluted loss per share is calculated by dividing net income attributable to the holders of ordinary shares as adjusted for the effect of dilutive ordinary share equivalents, if any, by the weighted average number of ordinary shares and dilutive ordinary share equivalents outstanding during the period. Ordinary share equivalents of stock options and warrants are calculated using the treasury stock method, and are not included in the denominator of the diluted earnings per share calculation when inclusion of such shares would be anti-dilutive, such as in a period in which a net loss is recorded.

<29> Segment reporting

The Group has one operating segment whose business is developing and operating online games and related services. The Group's chief operating decision maker is the chief executive officer, who reviews consolidated results when making decisions about allocating resources and assessing performance of the Group. The Group generates its revenues from customers in the PRC, North America and other areas.

<30> Certain risks and concentration

Financial instruments that potentially subject the Group to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable and prepayments and other current assets. As of December 31, 2016 and 2017, substantially all of the Group's cash and cash equivalents were held by major financial institutions, which management believes are of high credit worthiness.

Table of Contents**<31> Fair value measurements**

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability. The fair value measurement guidance provides a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets that the management has the ability to access at the measurement date.

Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 inputs include unobservable inputs to the valuation methodology that reflect management's assumptions about the assumptions that market participants would use in pricing the asset. Management develops these inputs based on the best information available, including their own data.

<32> Financial instruments

Financial instruments primarily consist of cash and cash equivalents, restricted cash, short-term investment, accounts receivable, accounts payable, warrants, convertible notes, long-term accounts payable and long-term debt. The carrying value of the Group's cash and cash equivalents, restricted cash, short-term investment, accounts receivable and accounts payable approximate their market values due to the short-term nature of these instruments. Warrants are recorded in the consolidated balance sheets based on fair value. The carrying value of long-term accounts payable approximates its fair value as the impact to discount the long-term payable with interest rate is insignificant. The carrying value of long-term debt approximates its fair value as its interest rates is at the same level of the current market yield for comparable loans. The carrying value of convertible notes as of December 31, 2017 was RMB260.6 million (US\$40.0 million) and the fair value of the convertible notes was approximately RMB316.0 million (US\$48.6 million) as of December 31, 2017.

Table of Contents**<33> Recent accounting pronouncements***Revenue*

In May 2014, the Financial Accounting Standards Board (FASB) issued an accounting standard on revenue recognition that will be applied to all contracts with customers, ASU 2014-09, Revenue from Contracts with Customers. The new standard requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. It also requires more detailed disclosures to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, deferring the effective date for ASU 2014-09 by one year, and thus, the new standard will be effective for fiscal years beginning after December 15, 2017, with early application permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The guidance allows for either a full retrospective or a modified retrospective transition method.

In May 2014, the FASB and International Accounting Standards Board formed The Joint Transition Resource Group for Revenue Recognition (TRG), consisting of financial statement preparers, auditors and users, to seek feedback on potential issues related to the implementation of the new revenue standard. As a result of feedback from the TRG, the FASB issued additional guidance to provide clarification, implementation guidance and practical expedients to address some of the challenges of implementation. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which is an amendment on assessing whether an entity is a principal or an agent in a revenue transaction. This amendment addresses issues to clarify the principal versus agent assessment and lead to more consistent application.

In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, which contains amendments to the new revenue recognition standard on identifying performance obligations and accounting for licenses of intellectual property. The amendments related to identifying performance obligations clarify when a promised good or service is separately identifiable and allows entities to disregard items that are immaterial in the context of a contract. The licensing implementation amendments clarify how an entity should evaluate the nature of its promise in granting a license of intellectual property, which will determine whether revenue is recognized over time or at a point in time.

In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, which provides clarity and implementation guidance on assessing collectability, presentation of sales taxes, noncash consideration, and completed contracts and contract modifications at transition. This new standard has the same effective date and transition requirements as ASU 2014-09.

The Group will adopt the new guidance using the modified retrospective transition method, reflecting the cumulative effect of initially applying the new standard to revenue recognition in 2018. The Group is in the process of completing the process for all revenue streams to evaluate the impact of the new standard on revenue contracts. While the Group continues to assess all potential effects from the new guidance, the Group currently believes the most significant potential impact relates to accounting for licensing agreements and sales-based royalty agreements.

Table of Contents

The accounting for licensing agreements: While the effects of the new guidance may differ on a contract-by-contract basis (the actual recognition treatment required under the new guidance will depend on contract specific terms), the Group generally expects earlier revenue recognition for these arrangements under the new guidance. Based on completed contract reviews for current in-process licensing agreements, the Group concluded that the nature of the Group's promise in those agreements is to provide the customer with a right to access the Group's intellectual property and the license fee should be recognized over the authorized period. Therefore, the Group does not expect any significant impact on the accounting for the revenue from licensing activities under the new guidance.

The accounting for sales-based royalty agreements: Under the current revenue recognition policy, the Group recognizes revenue based on the underlying sales of the intellectual property. Under the new guidance, the Group expects revenue will be recognized in a similar pattern as under the current revenue recognition policy. The Group does not expect a significant impact on the accounting for sales-based royalty revenue under the new standard.

Financial Instruments

In January 2016, the FASB issued ASU 2016-01, to improve and to achieve convergence of their respective standards on the accounting for financial instruments and enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. The amendments in this Update address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The Board also is addressing measurement of credit losses on financial assets in a separate project. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The adoption of this guidance is not expected to have a material effect on the Group's financial condition, results of operations and cash flows.

Leases

In February 2016, the FASB issued ASU 2016-02, which replaces existing lease guidance. The new standard is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet. The new guidance will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. The standard is effective for the Group beginning January 1, 2019, with early application permitted. The new standard is required to be applied with a modified retrospective approach to each prior reporting period presented with various optional practical expedients. The Group is currently evaluating the potential effects of this pronouncement.

Table of Contents*Share-based Payment*

In March 2016, the FASB issued ASU 2016-09, which simplifies several aspects of the accounting for employee share-based payment transactions for both public and nonpublic entities, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. For public entities, the ASU is effective for annual reporting periods beginning after December 15, 2016, including interim periods within those annual reporting periods. Early adoption will be permitted in any interim or annual period for which financial statements have not yet been issued or have not been made available for issuance. The adoption of this guidance is not expected to have a material effect on the Group's financial condition, results of operations and cash flows.

Income Taxes

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*. ASU 2016-16 modifies the current prohibition to recognize deferred income taxes from differences between the tax basis of assets in the buyer's tax jurisdiction and their cost resulting from an intra-entity transfer from one tax-paying component to another tax-paying component of the same consolidated group. Under current GAAP, deferred income taxes for intra-entity asset transfers are not recognized until the asset is sold to an outside party. ASU 2016-16 allows entities to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. ASU 2016-16 is effective for fiscal years and interim periods beginning after December 15, 2017. For entities that issue interim financial statements and whose current fiscal year end date is December 31, 2016, early adoption can be made during the three month period ending March 31, 2017. The amendments in ASU 2016-16 should be applied on a modified retrospective basis through a cumulate-effect adjustment directly to retained earnings as of the beginning of the period of adoption. We are currently evaluating the amendments in ASU 2016-16 to determine the effect it will have on the Group's consolidated financial statements.

Definition of a Business

In January 2017, the FASB issued ASU 2017-01, *Clarifying the Definition of a Business*, which requires a reporting entity to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or liabilities. This standard is effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those periods. Early adoption is permitted under specific circumstances and prospective application of the guidance is required. The standard will not have a significant impact upon adoption on January 1, 2018.

Table of Contents*Goodwill Impairment*

In January 2017, the FASB issued ASU 2017-04, Simplifying the Test for Goodwill Impairment. This ASU removes the requirement to perform a hypothetical purchase price allocation to measure goodwill impairment. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. This standard is effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019, with early adoption permitted for interim or annual goodwill impairments tests performed on testing dates after January 1, 2017. The Group is currently assessing the impact that the guidance will have on the Group's financial condition and results of operations.

Derecognition of Nonfinancial Assets

In February 2017, the FASB issued ASU 2017-05, Other Income Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20), which clarify the scope of asset derecognition guidance and to provide new guidance for partial sales of nonfinancial assets. The standard update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted; however, an entity is required to apply the amendments in this ASU in the same period that it applies the amendments for ASU 2014-09. The adoption of this standard update is not expected to have a material impact on the Company's consolidated financial statements.

Stock Compensation Modification

In May 2017, the FASB issued ASU 2017-09, Scope of Stock Compensation Modification accounting, which provides guidance about when a change to the terms or conditions of a share-based payment award must be accounted for as a modification. The new guidance requires modification accounting if the fair value, vesting condition, or the classification of the award is not the same immediately before and after a change to the terms and conditions of the award. This standard is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The standard requires adoption on a prospective basis for awards modified on or after the adoption date. The standard will not have a significant impact upon adoption on January 1, 2018.

3. CONVENIENCE TRANSLATION

The Group, with the exception of its subsidiaries, Red 5, The9 Interactive, Red 5 Singapore, Red 5 Korea and The9 Korea, maintains its accounting records and prepares its financial statements in RMB. The US dollar amounts disclosed in the accompanying financial statements are presented solely for the convenience of the readers at the rate of US\$1.00 = RMB6.5063, representing the noon buying rate in the City of New York for cable transfers of RMB, as certified for customs purposes by the Federal Reserve Bank of New York, on December 31, 2017. Such translations should not be construed as representations that the RMB amounts represent, or have been or could be converted into, United States dollars at that or any other rate.

Table of Contents

4. VARIABLE INTEREST ENTITIES

The Group is the primary beneficiary of its VIEs, including Shanghai IT which was designed by the Group to comply with PRC regulations that prohibit direct foreign ownership of businesses that operate online and TV games in the PRC.

Shanghai IT and its VIE subsidiaries

There are certain key contractual arrangements between the Group's subsidiary, The9 Computer (the WOFE) and each of the VIEs that provide the Group with control over the VIEs. As a result of these contracts, the Group concluded that it is required to consolidate the VIEs pursuant to the guidance in ASC 810.

A summary of these contractual agreements is as follows:

- 1) **Loan Agreement.** The WOFE entered into loan agreements with each shareholder of the relevant VIEs. Pursuant to the terms of these loan agreements, the WOFE granted an interest-free loan to each shareholder of the VIEs for the explicit purpose of making a capital contribution to the VIEs. The loans have an unspecified term and will remain outstanding for the shorter of the duration of WOFE or that of the VIE, or until such time that the WOFE elects to terminate the agreement (which is at the WOFE's sole discretion), at which point the loans are payable on demand. The shareholders of the VIEs may not prepay all or any portion of the loans without the WOFE's prior written request.

- 2) **Equity Pledge Agreement.** The shareholders of the VIEs entered into equity pledge agreements with the WOFE. Under the equity pledge agreements, the shareholders of the VIEs pledged all of their equity interests in the VIEs to the WOFE as collateral for all of their payments due to the WOFE and to secure performance of all obligations of the VIEs and their shareholders under the above loan agreements. In addition, the dividend distributions to the shareholders of VIEs, if any, will be deposited in an escrow account over which the WOFE has exclusive control. The pledge shall remain effective until all obligations under such agreements have been fully performed. The shareholders have the obligation to maintain ownership and effective control over the pledged equity. Under no circumstances, without the prior written consent of the WOFE, may the shareholder transfer or otherwise encumber any equity interests in the VIEs. If any event of default as provided for therein occurs, the WOFE, as the pledgee, will be entitled to dispose of the pledged equity interests through transfer or assignment and use the proceeds to repay the loans or make other payments due under the above loan agreements up to the loan amounts.

Table of Contents

- 3) **Call Option Agreement.** The VIEs and their shareholders entered into equity call option agreements with the WOFE. Pursuant to such agreements, the shareholders of the VIEs grant the WOFE an irrevocable and exclusive option to purchase the shares of VIEs at a purchase price equal to the amount of the registered capital of the VIE or the loan provided by the WOFE, permissible by the then-applicable PRC laws and regulations. WOFE may exercise such right at any time during the term of the agreement. Moreover, under the call option agreements, neither the VIEs nor their shareholders may take actions that could materially affect the VIEs' assets, liabilities, operations, equity or other legal rights without the prior written approval of the WOFE, including, without limitation, declaration and distribution of dividends and profits; sale, assignment, mortgage or disposition of, or encumbrances on, the VIEs' equity; merger or consolidation; acquisition of and investment in any third-party entities; creation, assumption, guarantee or incurrence of any indebtedness; entering into other materials contracts. The agreements shall not expire until such time as the WOFE acquires all equity interests of the relevant VIEs subject to applicable PRC laws.

- 4) **Shareholder Voting Proxy Agreement.** Each of the VIEs' shareholders executed an irrevocable power of proxy to appoint the WOFE as the attorney-in-fact to act on his or her behalf on all matters pertaining to the VIEs and to exercise all of his or her rights as a shareholder of the VIEs, including the right to attend shareholders meetings, to exercise voting rights and to appoint directors, a general manager, and other senior management of the VIEs. The power of proxy is irrevocable and may only be terminated at the discretion of the WOFE.

- 5) **Exclusive Technical Service Agreement.** Under the exclusive technical service agreement, the VIEs agreed to engage the WOFE as their exclusive provider of technology consulting and other services for a service fee equal to 90% of all operating profit generated by the VIEs. According to the relevant PRC rules and regulations, related party transactions should be negotiated at the arm's length basis and apply reasonable transfer pricing methods. The determination of service fees, however, is under the sole discretion of the WOFE. These agreements do not have specific clauses on renewal but do have an initial term of 20 years (with the earliest expiration date being December 31, 2029). By virtue of the governance rights the WOFE maintains over the VIEs, through the terms of the other agreements noted above, the Group is able to unilaterally renew, extend or amend the service agreements at its discretion.

Table of Contents

The Group shall be deemed to have a controlling financial interest in a VIE if it has both of the following characteristics:

- a. The power to direct the activities of a VIE that most significantly impact the VIE's economic performance; and
- b. The obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

In determining that the Group has the power to direct the activities of the VIE that most significantly impact the VIEs economic performance, the Group looked to the specific provisions of the Call Option Agreement and Shareholder Voting Proxy Agreement. These agreements, as summarized above, provide the WOFE effective control over all of the corporate and operating decisions of the VIEs, and as such, the Group's management concluded that the WOFE has the requisite power to direct the activities of the VIEs that most significantly impact the VIEs economic performance. In assessing the Group's obligation to absorb losses, the Group notes that it has funded through the loan agreements all of the entities' share capital and also provides financial support as necessary to the entities through intercompany transactions. The Group's rights to receive economic benefits that are significant to the VIEs are embodied firstly in the Equity Pledge Agreements that secure the equity owners' obligations under the relevant agreements, and ascribes to the WOFE all of the economic benefits of the equity interests including rights to any dividends declared. Secondly, the Exclusive Technical Service Agreement further secures the ability of WOFE to receive substantially all of the economic benefits from each of the VIEs on behalf of the Group.

In conclusion, because the Group, through its wholly owned subsidiary The9 Computer, has (1) the power to direct the activities of the VIEs that most significantly affect the VIE's economic performance, and (2) the right to receive benefits from the VIEs that could potentially be significant to the VIEs, the Group has been deemed to be the primary beneficiary of the VIEs and has consolidated the VIEs since the date of execution of such agreements.

Shareholders of the VIEs may potentially have conflicts of interest with the Company, and they may breach their contracts with the PRC subsidiaries or cause such contracts to be amended in a manner contrary to the interests of the Group. As a result, the Group may have to initiate legal proceedings, which involve significant uncertainty. Such disputes and proceedings may significantly disrupt the Group's business operations and adversely affect the Group's ability to control the VIEs. As most of the shareholders of the VIEs are directors, officers, shareholders or employees of the Group, management is of the view that the risk that misaligned interests may lead to deconsolidation in the foreseeable future is remote and insignificant.

Table of Contents

PRC laws and regulations currently limit foreign ownership of companies that provide Internet content services, which include operating online games. In addition, foreign invested enterprises are currently not eligible to apply for the required licenses to operate online games in the PRC. The9 Limited is incorporated in the Cayman Islands and is considered a foreign entity under PRC laws. Due to restrictions on foreign ownership of companies that provide online games, the Group has entered into contractual arrangements with Shanghai IT to conduct its online games business through its VIEs in the PRC. Shanghai IT holds the necessary licenses and approvals that are essential for the online game business in China. Shanghai IT is principally owned by certain shareholder and employee of the Company. Pursuant to certain other agreements and undertakings, The9 Limited in substance controls Shanghai IT. The Group believes that its current ownership structures and contractual arrangements with Shanghai IT and its equity owners, as well as its operations, are in compliance with all existing PRC laws and regulations. There may, however, be changes and other developments in the PRC laws and regulations or their interpretation. Specifically, following the recent promulgation of the GAPP Circular, it is unclear whether the authorities will deem our VIE structure and contractual arrangements with Shanghai IT as an indirect or disguised way for foreign investors to gain control over or participate in domestic online game operators, and challenge our VIE structure accordingly.

If the Group is found to be in violation of any existing or future PRC laws or regulations, or fails to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion in dealing with such violations, including requiring the Group to undergo a costly and disruptive restructuring, such as forcing The9 Limited to transfer its equity interest in the VIEs to a domestic entity or invalidating the VIE agreements. If the PRC government authorities impose penalties which cause the Group to lose its rights to direct the activities of and receive economic benefits from the VIEs, the Group may lose the ability to consolidate and reflect in its financial statements the financial position, and results of operation of the VIEs. The Group, however, does not believe such actions would result in the liquidation or dissolution of the Group, the WOFEs or VIEs.

The aforementioned contractual arrangements with the VIEs and their respective shareholders are subject to risks and uncertainties:

The VIEs or their shareholders could fail to obtain the proper operating licenses or fail to comply with other regulatory requirements. As a result, the PRC government could impose fines, new requirements or other penalties on the VIEs or the Group, mandate a change in ownership structure or operations for the VIEs or the Group, restrict the VIEs or the Group's use of financing sources, or otherwise restrict the VIEs or the Group's ability to conduct business.

The aforementioned contractual agreements may be unenforceable or difficult to enforce. The equity pledge agreements may be deemed improperly registered or the VIEs or the Group may fail to meet other requirements. Even if the agreements are enforceable, they may be difficult to enforce given the uncertainties in the PRC legal system.

Table of Contents

The PRC government may declare the aforementioned contractual agreements invalid. They may modify the relevant regulation, have a different interpretation of such regulations, or otherwise determine that the Group or the VIEs have failed to comply with the legal obligations required to effectuate such contractual arrangements.

It may be difficult to finance the VIEs by means of loans or capital contributions. Loans from The9 Limited to the VIEs must be approved by the relevant PRC government body and such approval may be difficult or impossible to obtain. The VIEs are domestic PRC enterprises owned by nominee shareholders, thus the Group is not likely to finance activities of the VIEs by means of direct capital contributions.

Summary financial information of the VIE subsidiaries included in the accompanying consolidated financial statements with intercompany balances and transactions eliminated are as follows:

| | December 31, 2016 | December 31, 2017 | December 31, 2017 |
|-------------------|--------------------------|--------------------------|--------------------------|
| | RMB | RMB | US\$ |
| | | | (Note 3) |
| Total assets | 111,978,182 | 99,468,575 | 15,288,041 |
| Total liabilities | 328,689,556 | 335,667,587 | 51,591,163 |

| | December 31, | December 31, | December 31, | December 31, |
|-------------|---------------------|---------------------|---------------------|---------------------|
| | 2015 | 2016 | 2017 | 2017 |
| | RMB | RMB | RMB | US\$ |
| | | | | (Note 3) |
| Net Revenue | 34,390,944 | 38,445,435 | 19,995,118 | 3,073,193 |
| Net loss | (95,285,846) | (80,050,853) | (71,839,112) | (11,041,469) |

The VIEs contributed an aggregate of 74.1%, 68.4% and 27.3% of the consolidated net revenues for the years ended December 31, 2015, 2016 and 2017, respectively. The Group's operations not conducted through contractual arrangements with the VIE subsidiaries primarily consist of its product development on Firefall in the United States. As of the fiscal years ended December 31, 2016 and 2017, the VIEs accounted for an aggregate of 31.9% and 30.8%, respectively, of the consolidated total assets, and 40.8% and 41.0%, respectively, of the consolidated total liabilities.

The VIE's assets are not used as collateral for the VIE's obligations, and can only be used to settle the VIE's obligations.

Relevant PRC laws and regulations restrict the VIE subsidiaries from transferring a portion of their net assets, equivalent to the balance of its statutory reserve and share capital, to the Group in the form of loans and advances or cash dividends. See Note 28 for disclosure of restricted net assets.

Table of Contents**5. ADVANCES TO SUPPLIERS**

Advances to suppliers are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|-----------------|--------------------------------------|--------------------------------------|--|
| Financing fee | 7,497,988 | 7,497,988 | 1,152,419 |
| Advertising fee | 255,259 | 255,259 | 39,233 |

| Other | 631,918 | 349,031 | 53,645 |
| | 9,085,165 | 8,102,278 | 1,245,297 |

The Group is financing development of the CrossFire New Mobile Game through fund-raising on the Inner Mongolia Culture Assets and Equity Exchange. As of December 31, 2017, the Group had paid RMB7.5 million (US\$1.2 million) as the financing fee of the total funds raised and to be raised amounting to RMB157.5 million (US\$ 24.2 million) . According to the agreement, the Group paid the total financing fee of RMB7.5 million upon receipt of the first payment in October 2016 (see Note 18).

6. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and other current assets are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|--------------------------|--------------------------------------|--------------------------------------|--|
| Prepayments and deposits | 6,385,707 | 659,581 | 101,376 |
| Input VAT recoverable | | 2,249,958 | 345,812 |
| Employee advances | 1,927,824 | 1,732,451 | 266,273 |
| Other | 3,312,185 | 1,974,307 | 303,445 |
| | 11,625,716 | 6,616,297 | 1,016,906 |

Table of Contents**7. INVESTMENTS IN EQUITY INVESTEES**

The Group's investments in equity investees comprise the following:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ |

<1> System Link

In August 2014, the Group formed a joint venture, System Link, with Qihoo 360 Technology Co., Ltd., Qihoo 360 . Pursuant to the joint venture agreement, Qihoo 360 and the Group will each own 50% equity interest in the joint venture and share profits based on the equity interest each party holds. In August 2014, Red 5 Singapore entered into a license agreement with System Link for publishing and operating Firefall in the PRC under a five-year term beginning from 2015. The Group received an upfront payment of US\$10.0 million related to the license in 2015 and the Group began amortizing the upfront license payment over the license term starting in 2015 at the launch of game by System Link. For the US\$150.0 million minimum royalty payment, the Group did not recognize any as the amount is unlikely to be received from System Link.

In August 2015, System Link entered into an agreement with Smilegate Entertainment, Inc. (Smilegate) to form a joint venture company, Oriental Shiny Star Limited (Oriental Shiny), for the operation of CrossFire 2. In the event of a successful commercial launch of CrossFire 2, Smilegate will receive a 30% equity share of Oriental Shiny.

Table of Contents

In November 2015, Oriental Shiny entered into a license and distribution agreement with Smilegate for publishing and operating CrossFire 2 on an exclusive basis for a five-year term in the PRC (the License Agreement). In consideration for the exclusive license, Oriental Shiny made an upfront payment of US\$50.0 million and was to make additional payments totaling US\$450.0 million based on certain development and operation milestones of CrossFire 2. The payment of license fees is guaranteed by the Group and Qihoo 360 proportional to their equity interest in System Link.

The Group made total capital contributions to System Link of US\$35.0 million as of both December 31, 2016 and 2017. The Group recorded losses of RMB111.1 million in System Link for the year ended December 31, 2016.

In October 2017, Oriental Shiny and Smilegate agreed to terminate the License Agreement. In November 2017, Smilegate made a settlement payment of US\$25.0 million to both the Group and Qihoo 360, total of US\$50.0 million. A settlement agreement was signed among the Group, Qihoo 360 and Smilegate whereby subsequent to the payment of US\$50.0 million, the joint venture agreement signed among Oriental Shiny and Smilegate has terminated. During 2017, the Group offset its 2017 share of losses in System Link against the US\$25 million recovery and reduced its investment in System Link to nil, with the remaining portion of the recovery, RMB60.5 million (US\$9.3 million), recorded as gain as the Group has no future funding obligation to System Link or Oriental Shiny.

Presented below is summarized financial information of System Link:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) | |

Table of Contents**<2> Big Data (previously known as Shanghai Jiucheng Advertisement Co., Ltd. (Jiucheng Advertisement))**

In June 2015, the Group granted 33.3% equity interest of Jiucheng Advertisement to two of its employees for nil consideration. The Group recorded shared based compensation of RMB2.7 million as a result of this transaction as the equity interest was considered a share-based award for their service. In October, 2015, the Group entered into an agreement with Fei Fan Information Technology Co., Ltd. (Fei Fan), whereby Jiucheng Advertisement acquired 100% equity interest in Fei Fan in exchange of 30% equity interest in Jiucheng Advertisement. Upon completion of the exchange, the Group's equity interest in Jiucheng Advertisement was diluted to 46.7%. The Group accounted for the exchange as a disposal of subsidiary with a gain of RMB3.3 million (US\$0.5 million) recognized upon disposal and an acquisition of an equity method investment in Jiucheng Advertisement at fair value. In November 2015, the Group's equity interest in Jiucheng Advertisement was further diluted to 42.0% as a result of capital injection by other shareholders. In August 2016, Jiucheng Advertisement raised capital from the Group and a third-party, the Group's equity interest in Jiucheng Advertisement became 43.7%. In October 2016, the Group's equity interest in Jiucheng Advertisement further increased to 44.5% after the execution of certain terms under the investment agreements among certain investors of Jiucheng Advertisement.

In December 2016, the Group entered into an agreement with third-party investors of Jiucheng Advertisement. According to the agreement, the Group would repurchase an additional 19.11% equity interest in Jiucheng Advertisement for RMB18.3 million (US\$2.8 million) from those third-party investors if Jiucheng Advertisement is not listed on the PRC's National Equities Exchange and Quotations (NEEQ), commonly known as the New Third Board, before December 31, 2017. In March 2017, Jiucheng Advertisement was renamed as Shanghai Big Data Cultures & Media Co., Ltd. (Big Data). In September 2017, Big Data listed its shares on NEEQ. As Big Data has listed its shares on NEEQ and has fulfilled its obligation, hence the Group was relieved of its obligation to repurchase 19.11% equity interest in Big Data from those third-party investors. After the listings, the Group holds a 44.46% equity interest in Big Data.

<3> T3

In April 2008, the Group, through China Crown Technology, invested US\$38.3 million (RMB249.2 million) in cash to subscribe to 3,031,232 preferred shares issued by G10, an established Korean online game developer and operator, which accounted for less than 20% of the equity interest in G10 on an as converted basis. The preferred shares are convertible, non-redeemable and with a liquidation preference. Considering the liquidation preference is substantive and not available to common shares, the preferred shares are not in substance common shares and equity accounting is not applicable. Further, considering the rights and obligations of these shares, they are not considered debt securities. Accordingly, the Group accounted for the investment in G10 under the cost method. The initial investment was US\$39.5 million, including US\$1.2 million transaction cost. Pursuant to the Series B Preferred Share Subscription Agreement entered into between G10 and the Group, the purchase price would be reduced by up to US\$25.0 million if G10's consolidated net income does not reach the predetermined target for the period from July 1, 2009 to June 30, 2010. The target was not met in the predetermined period, and both parties reached a settlement agreement in November 2010 whereby the purchase price was reduced by US\$10.0 million, payable in 26 equal monthly installments beginning in February 2011. The adjustment to the purchase price was accounted for as a reduction in the carrying value of the underlying investment at the time of the settlement. The Group also performed an impairment assessment and recognized an impairment loss of RMB184.9 million for the year ended December 31, 2010. All the refund of purchase price under the settlement agreement had been received.

Table of Contents

In December 2011, pursuant to the agreements between the shareholders of G10 and T3 Entertainment Co., Ltd. (T3), a wholly-owned subsidiary of G10, G10 was spun off and the shareholders of G10 became shareholders of T3 at the same shareholding percentage. In February 2012, the changes in shareholding structures of G10 and T3 was completed and the Group owned 32,290 ordinary shares of T3, which reflects the same percentage of equity the Group owned in G10 on an as converted basis.

The Group performed an impairment assessment and determined that there is no impairment in the investment as of December 31, 2016 and 2017, respectively.

<4> Smartposting

In June 2017, the Group completed a share exchange transaction with IE Limited (IE), which was a listed company on Korean Securities Dealers Automated Quotations of Korea Exchange (KOSDAQ) for issuance and sale of 12,500,000 ordinary shares of the Group with a 10 year lock-up period. In exchange, IE transferred 14.55% equity interest in Smartposting, a wholly-owned subsidiary of IE. The fair value of 14.55% equity interest in Smartposting was considered to be the value of the assets surrendered to the Group in this non-monetary exchange transaction. In 2017, due to weaker than expected operating performance of Smartposting, the Group recorded an impairment of RMB5.1 million (US\$0.8 million) for the year ended December 31, 2017. (See Note 32)

<5> Beijing Ti Knight

In June 2017, the Group entered into an investment agreement with shareholders of Beijing Ti Knight where the Group will invest a total of RMB9.0 million (US\$1.4 million) in Beijing Ti Knight. As of December 31, 2017, the Group has invested RMB4.0 million (US\$0.6 million). Due to weaker than expected operating performance, the investment in Beijing Ti Knight was fully impaired and the impairment of RMB4.0 million (US\$0.6 million) was recorded for the year ended December 31, 2017 (see Note 32).

<6> Tandem Fund

In December 2016, the Group recorded an impairment loss on Tandem Fund of RMB2.8 million (US\$0.4 million) based on the fair market value of Tandem Fund. In January 2017, the Group disposed its entire interest in Tandem Fund to a third-party for a consideration of RMB1.2 million (US\$0.2 million) which was equivalent to the carrying amount of the investment. No gain or loss was recognized on the disposal.

Table of Contents

The Group recorded impairment charges relating to its investment in equity investees of nil, RMB2.8 million and RMB9.1 million (US\$1.4 million) for the years ended December 31, 2015, 2016 and 2017, respectively.

8. AVAILABLE-FOR-SALE INVESTMENTS

Investment in L&A International Holding Limited (L&A)

In June 2016, the Group along with certain other shareholders of Red 5 completed a share exchange transaction between L&A International Holding Limited (L&A), a Cayman Islands company with shares publicly listed on the Growth Enterprise Market of the Hong Kong Stock Exchange (Stock Code: 8195). The Group exchanged approximately 30.6% equity interest (on a fully-diluted basis) in Red 5 for a total of 723,313,020 (after a one-to-five stock split) newly issued shares of L&A, after deducting 6% of shares received (46,168,920 shares) as payment of a service fee to a third-party consultant.

In June 2016, Asian Development, a wholly-owned subsidiary incorporated in Hong Kong, borrowed a total of HK\$92.3 million from a financial services company, which was secured by a pledge of 417,440,000 shares of L&A (see Note 18). In 2016, Asian Development was in default on the loan due to a sharp decline in share price of L&A. The lender is entitled to foreclose on the pledged shares and become the legal and beneficial owner of the pledged shares (see Note 32.3). In 2016, the Group provided a full impairment allowance of RMB244.8 million (US\$37.6 million) on the investment in L&A. In 2017, the loan remained in default and the lender did not make any claim against Asian Development to recover any outstanding amounts under the agreement.

In 2017, the Group sold 18,360,000 shares in L&A for a consideration of RMB0.1 million (US\$0.02 million). In an extraordinary general meeting in October 2017, L&A's Board of Directors passed a resolution to consolidate every twenty issued and unissued shares into one share. After the share consolidation and as of December 31, 2017, the Group owned 14,375,651 shares in L&A.

Table of Contents**9. PROPERTY, EQUIPMENT AND SOFTWARE, NET**

Property, equipment and software and related accumulated depreciation and amortization are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|--|--------------------------------------|--------------------------------------|--|
| Office buildings | 69,341,652 | 69,341,652 | 10,657,617 |
| Computers and equipment | 109,486,562 | 85,311,170 | 13,112,087 |
| Leasehold improvements | 11,556,908 | 11,503,400 | 1,768,040 |
| Office furniture and fixtures | 7,644,476 | 6,472,915 | 994,869 |
| Motor vehicles | 10,490,731 | 8,487,925 | 1,304,570 |
| Software | 18,601,901 | 15,833,764 | 2,433,605 |
| Less: accumulated depreciation and amortization | (200,356,406) | (176,115,819) | (27,068,506) |
| Property, equipment and software, net, held for sale | | (113,755) | (17,484) |
| Net book value | 26,765,824 | 20,721,252 | 3,184,798 |

Depreciation and amortization charges for the years ended December 31, 2015, 2016 and 2017 amounted to RMB11.6 million, RMB7.3 million and RMB5.3 million (US\$0.8 million) respectively. The office building was mortgaged as collateral for the convertible notes and bank borrowing in 2015 (see Note 20 and 21).

10. GOODWILL

Changes in the carrying amount of goodwill for the years ended December 31, 2015, 2016 and 2017 are as follows:

| | Gross Amount RMB | Accumulated Impairment Loss RMB | Net Amount RMB |
|-------------------------------------|-----------------------------|--|---------------------------|
| Balance at January 1, 2015 | 9,746,054 | | 9,746,054 |
| Translation difference | 596,640 | | 596,640 |
| Balance at December 31, 2015 | 10,342,694 | | 10,342,694 |
| Translation difference | 219,163 | | 219,163 |
| Balance at December 31, 2016 | 10,561,857 | (10,561,857) | |
| Translation difference | | | |
| Balance at December 31, 2017 | | | |

Balance at December 31, 2017 US\$ (Note 3)

In 2010, the Group recognized goodwill of US\$1.6 million in connection with the acquisition of Red 5. The Group measures the consideration it transfers at fair value, which may be calculated as the sum of the acquisition-date fair values of the assets transferred, liabilities incurred to former owners of the acquiree, and equity instruments issued. The costs directly attributable to the acquisition are expensed as incurred. Identifiable assets acquired and liabilities assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any noncontrolling interests. Contingent consideration is measured at fair value and recorded as a liability. The excess of (i) the total cost of acquisition, fair value of the noncontrolling interests and acquisition-date fair value of any previously held equity interest in the acquiree over (ii) the fair value of the identifiable net assets of the acquiree is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference would be recognized directly in the consolidated statements of operations and comprehensive loss.

F-46

Table of Contents

The Group performed annual impairment test on goodwill as of December 31 2015, and as the fair value was greater than carrying value of the reporting unit, no impairment was recorded. In 2016, due to weaker than expected operating performance of Red 5, the Group determined that goodwill was fully impaired. Impairment loss of RMB10.6 million (US\$1.6 million) was recorded for the year ended December 31, 2016.

11. INTANGIBLE ASSETS

Gross carrying amount, accumulated amortization and net book value of the intangible assets as of December 31, 2016 and 2017 are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|--------------------------------|--------------------------------------|--------------------------------------|--|
| Acquired game licenses | 146,925,649 | 146,925,649 | 22,582,059 |
| Acquired game development cost | 12,285,000 | 12,285,000 | 1,888,170 |
| Less: Accumulated amortization | (85,026,783) | (85,026,783) | (13,068,377) |
| Impairment allowance | (72,398,186) | (72,398,186) | (11,127,397) |
| Translation difference | (1,785,680) | (1,785,680) | (274,455) |

Net book value of intangible assets subject to amortization

In 2016 and 2017, none of acquired game licenses had expired or been written-off from cost basis and accumulated amortization.

Since its acquisition by the Group on April 6, 2010, Red 5 has been substantially devoted its operating activities to fulfill its obligations under a game development and license agreement executed in 2006 and amended in 2009 between Red 5 and a third-party game publisher to develop Firefall in exchange for cash consideration from the third-party publisher. Prior to the acquisition, Red 5 received a total of US\$24.7 million cash consideration as an advance recoupable against future royalties payable to Red 5. Red 5 retained the ownership of the game and granted the third-party publisher an exclusive, non-transferable term license to market and distribute the game and host the game for customers in specified regions after Red 5 completes the game development. Red 5 continues to perform its obligations under the agreement post-acquisition, including the provision of post-contract customer support for the hosted version of the game to the third-party publisher during the term of the license. The initial term of the agreement is from February 2006 through the fifth anniversary of the first commercial release of the initial game. Thereafter, the agreement can be renewed in two-year terms.

Table of Contents

In September 2011, Red 5 Korea, Red 5 Singapore and Red 5 entered into a series of agreements with the third-party game publisher. Pursuant to the agreement, Red 5 Singapore were substituted in full for the third-party publisher as a party under the game development and license agreement between Red 5 and the third-party game publisher, including the exclusive, non-transferable term license to market and distribute the game and host the game for customers in specified regions. Under the agreements, the Group paid US\$10.0 million and guaranteed an additional payment of US\$12.7 million to the third-party game publisher due within four years. In addition, the Group is subject to additional contingent payments to be calculated based on certain percentages of the proceeds received from future game licensing and royalties, if any. The total consideration paid, including the US\$10.0 million and the guaranteed amount of US\$12.7 million, was recorded as acquired game license. The contingent payments will be recorded as cost of services when incurred. The balance of accounts payable related to this game license fee was US\$ 3.1 million (RMB20.2 million) as of December 31, 2017.

The Group pledged intellectual property in relation to the game to secure the guaranteed amount. Following this license acquisition, the previously recognized backlog of US\$ 0.4 million in relation to the game development and license agreement acquired in the Red 5 acquisition was reclassified to acquired game licenses as it was considered to be additional cost to acquire the game license.

Amortization expense related to intangible assets was RMB19.1 million, RMB 10.2 million and nil for the years ended December 31, 2015, 2016 and 2017, respectively.

The Group has been monitoring its licensed games that have not commercially launched, including but not limited to their market acceptance and operational performance in other regions where they are commercially launched and operated by other operators. The Group incorporates these factors into its continuous evaluation of the forecasted results of the respective games and takes into account the Group's expected commercial launch and cash flows in the evaluation of potential impairment of the carrying value of upfront licensing fees. Based on the Group's impairment tests, impairment allowance on upfront licensing fees of nil, RMB68.0 million and nil were provided in 2015, 2016 and 2017, respectively.

Table of Contents**12. LAND USE RIGHT, NET**

Gross carrying amount, accumulated amortization and net book value of land use right are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|--------------------------------|--------------------------------------|--------------------------------------|--|
| Land use right | 85,160,348 | 85,160,348 | 13,088,906 |
| Less: accumulated amortization | (18,728,872) | (20,649,782) | (3,173,814) |
| Net book value | 66,431,476 | 64,510,566 | 9,915,092 |

Amortization charge for the years ended December 31, 2015, 2016 and 2017 amounted to RMB1.9 million, RMB1.9 million and RMB1.9 million (US\$0.3 million), respectively. The land-use right was mortgaged for the convertible notes and bank borrowing in 2015 (see Note 20 and 21).

13. OTHER LONG-LIVED ASSETS

Other long-lived assets are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|----------------------|--------------------------------------|--------------------------------------|--|
| Prepaid license fees | 6,515,200 | 6,515,200 | 1,001,368 |
| Other | 103,777 | 6,220 | 956 |
| Total | 6,618,977 | 6,521,420 | 1,002,324 |

Prepaid license fee represents the payment made by the Group pursuant to an IP license agreement with an online game company in January 2016 to use its IP to develop a mobile game.

14. PROVISION OF LONG-TERM RECEIVABLES

| | December 31, 2015 RMB | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|------------------------------------|--------------------------------------|--------------------------------------|--------------------------------------|--|
| Provision of long term receivables | 8,439,580 | | | |

Total 8,439,580

Table of Contents

In 2009, the Group engaged an agent to facilitate a refund to game players and provided an advance payment to the agent for RMB43.3 million for this purpose. In 2013, 2014 and 2015, nil were refunded to game point card holders through the agent. In February 2012, the Group entered into an agreement with the agent pursuant to which the agent will refund the advance to the Group in installments over a five year period after deducting any further refunds paid to game point card holders. As of December 31, 2015, the Group wrote-off the remaining RMB8.4 million receivable because it is unlikely that the agent will refund the amount since the business relationship between the Group and the agent have been terminated.

15. FAIR VALUE MEASUREMENTS***Assets and Liabilities Measured at Fair Value on a Recurring Basis***

The fair values of common stock warrants were measured using the Black-Scholes option-pricing model (see Note 25). Inputs used to determine estimated fair value of the warrant liabilities include the estimated fair value of the underlying stock at the valuation date, the estimated term of the warrants, risk-free interest rates, expected dividends and the expected volatility of the underlying stock. The significant unobservable inputs used in the fair value measurement of the warrant liability are the fair value of the underlying stock at the valuation date and the estimated term of the warrants. The fair value of convertible note is based on a discounted cash flow model with an unobservable input of discount rate. (Level 3).

In 2015, the Group issued warrants in connection with its convertible notes. The warrants are recorded at fair market value at the date of issuance and subsequently at each reporting date. The following table presents the change in the warrants liability that were measured at fair value on a recurring basis using significant Level 3 inputs during 2016 and 2017 (see Note 21).

| | 2016 | 2017 | 2017 |
|--|--------------|--------------|-----------------|
| | RMB | RMB | US\$ |
| | | | (Note 3) |
| Balance at issuance date/beginning of year | 64,414,941 | 16,357,737 | 2,514,138 |
| Unrealized loss recognized in other comprehensive income | (48,057,204) | (12,615,466) | (1,938,962) |
| Balance at the end of the year | 16,357,737 | 3,742,271 | 575,176 |

Table of Contents***Assets and Liabilities Measured at Fair Value on a Non-recurring Basis***

The following table displays assets and liabilities measured at fair value on a non-recurring basis for the years ended December 31, 2015, 2016 and 2017, respectively.

| | Fair Value Measurements at Reporting Date | | | | Total Losses RMB |
|--|--|---|---|--|------------------------|
| | Year Ended December 31, 2015, 2016 and 2017 RMB | Quoted Prices in Active Markets for Identical Assets (Level 1) RMB | Significant Other Observable Inputs (Level 2) RMB | Using Significant Unobservable Inputs (Level 3) RMB | |
| Receivable from WoW game points refund agent (see Note 14) | | | | | 8,439,580 |
| Total | | | | | 8,439,580 |

16. TAXATION*Cayman Islands*

Under the current tax laws of the Cayman Islands, the Company and its subsidiaries are not subject to tax on their income or capital gains. In addition, upon payment of dividends by The9 Limited to its shareholders, no Cayman Islands withholding tax will be imposed.

Hong Kong

The Group's subsidiaries in Hong Kong did not have assessable profits that were derived in Hong Kong during the years ended December 31, 2015, 2016 and 2017. Therefore, no Hong Kong profit tax has been provided for in the years presented.

Singapore

The Group's subsidiaries in Singapore did not have assessable profits that were derived in Singapore during the years ended December 31, 2015, 2016 and 2017. Therefore, no Singapore income tax has been provided for in the years presented.

PRC

The Group's subsidiaries and VIE subsidiaries in the PRC are subject to Enterprise Income Tax (EIT) on the taxable income as reported in their respective statutory financial statements adjusted in accordance with the PRC Enterprise Income Tax Law (EIT Law), which went into effect as of January 1, 2008. The Group's subsidiaries and VIE

subsidiaries in the PRC are generally subject to EIT at a statutory rate of 25%. The subsidiaries that hold a High and New Technology Enterprise (HNTTE) qualification are subject to a 15% preferential EIT rate. The HNTTE qualification is valid for three years and every qualified HNTTE company is required to re-apply for it in the three years after receiving approval. In October 2017, Shanghai IT renewed its HNTTE qualification and obtained approval in 2018, which entitles Shanghai IT to enjoy a preferential EIT rate of 15% during the period from 2017 to 2020. Total tax savings of Shanghai IT were nil for the years ended December 31, 2015, 2016 and 2017, respectively.

Table of Contents

United States

The Group's subsidiaries in the U.S. are registered in the state of California and are subject to U.S. federal corporate marginal income tax rate of 34% and state income tax rate of 0.28%, respectively. The Group has assessed the recently enacted tax reform in the United States and concluded that there is no material effect to the financial statements.

On December 22, 2017, the U.S. government enacted the Tax Cuts and Jobs Act (the Tax Act). The Tax Act includes significant changes to the U.S. corporate income tax system including: a federal corporate rate reduction from 34% to 21%; limitations on the deductibility of interest expense and executive compensation; creation of the base erosion anti-abuse tax (BEAT), a new minimum tax; and the transition of U.S. international taxation from a worldwide tax system to a modified territorial tax system. A majority of the provisions in the Tax Act are effective January 1, 2018.

In response to the Tax Act, the SEC staff issued guidance on accounting for the tax effects of the Tax Act. The guidance provides a one-year measurement period for companies to complete the accounting. To the extent a company's accounting for certain income tax effects of the Tax Act is incomplete but it is able to determine a reasonable estimate, a company should record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply the provisions of the tax laws that were in effect immediately before the enactment of the Tax Act. The Group reflected the income tax effects of those aspects of the Tax Act for which the accounting is complete.

In connection with the Group's initial analysis of the impact of the Tax Act, the Group concluded that there is no material effect to the financial statements.

The Group has not completed the accounting for the income tax effects of certain elements of the Tax Act. The Tax Act creates a new requirement that certain income such as Global Intangible Low-Taxed Income (GILTI) earned by a controlled foreign corporation (CFC) must be included in the gross income of the CFC U.S. shareholder. Because of the complexity of the new GILTI, the Group is continuing to evaluate these provisions of the Tax Act and whether taxes due on future U.S. inclusions related to GILTI should be recorded as a current-period expense when incurred, or factored into measurement of deferred taxes. As a result, the Group has not included an estimate of the tax expense or benefit related to these items for the period ended December 31, 2017.

Table of Contents*Composition of income tax expense*

The current and deferred portions of income tax expense included in the consolidated statements of operations and comprehensive loss are as follows:

| | For the year ended December 31, | | | |
|-------------------------------|--|--------------|---------------|-----------------|
| | 2015 | 2016 | 2017 | 2017 |
| | RMB | RMB | RMB | US\$ |
| | | | | (Note 3) |
| Current income tax expense | | | | |
| China | | | | |
| Other jurisdictions | | | | |
| Deferred taxation | 6,324,015 | 24,295,298 | (208,356,387) | (32,023,790) |
| China | (31,447,143) | (22,553,453) | (84,042,632) | (12,917,116) |

| Less: Valuation allowance | (610,100,105) | (401,743,718) | (61,746,879) |
| Total deferred tax assets | | | |

Table of Contents*Significant components of deferred tax liabilities*

| | For the year ended December 31, 2016 RMB | For the year ended December 31, 2017 RMB | For the year ended December 31, 2017 US\$ (Note 3) |
|--|---|---|---|
| Temporary differences related to amortization of intangible assets | | | |

Movement of valuation allowance on deferred tax assets

| | For the year ended December 31, 2016 RMB | For the year ended December 31, 2017 RMB | For the year ended December 31, 2017 US\$ (Note 3) |
|--|---|---|---|
| Balance at January 1, | 579,725,527 | 610,100,105 | 93,770,669 |
| Increase (decrease) in valuation allowance | 30,374,578 | (208,356,387) | (32,023,790) |
| Balance at December 31, | 610,100,105 | 401,743,718 | 61,746,879 |

For the years ended December 31, 2016 and 2017, an increase of valuation allowance and a reversal of valuation allowance of approximately RMB30.4 million and RMB208.4 million (US\$32.0 million), respectively was provided. The Group considers positive and negative evidence to determine whether some portion or all of the deferred tax assets will more likely than not be realized. This assessment considers, among other matters, the nature, frequency and severity of recent losses, forecasts of future profitability, the duration of statutory carry forward periods, the Group's experience with tax attributes expiring as unused and tax planning alternatives. Valuation allowances have been established for deferred tax assets based on a more-likely-than-not threshold. The Group's ability to realize deferred tax assets depends on its ability to generate sufficient taxable income within the carry forward periods provided for in the tax law.

As of December 31, 2017, the Group's PRC subsidiaries had net operating loss carry forwards of RMB539.9 million, of which RMB191.8 million, RMB46.4 million, RMB 118.2 million, RMB105.4 million and RMB 78.1 million will expire in 2018, 2019, 2020, 2021 and 2022, respectively. The Group has provided a full valuation allowance as it is not more likely than not that the net operating losses can be utilized before expiry.

As of December 31, 2017, Red 5 had net operating loss carry forwards for United States federal and state income tax purposes of approximately US\$137.9 million and US\$70.8 million, respectively, which will begin to expire in 2028 and 2018, respectively. Red 5 also had credits for increasing research activities available to offset future federal and state taxes payable of approximately US\$0.1 million and US\$0.1 million, respectively, that will begin to expire in 2027 for federal purposes and which have no expiration for state purposes. Red 5 had foreign tax credits for federal purposes of approximately US\$2.5 million, which begin to expire in 2018. Pursuant to US tax laws and regulations,

the utilization of an acquired entity's net operation losses and credits are subject to an annual limitation computed based on the fair value of the acquired entity. As a result of the limitation, the Group provided a full valuation allowance as it is not more likely than not that the net operating losses and credits carried forward can be utilized before expiration.

F-54

Table of Contents

In accordance with the Enterprise Income Tax Law (EIT Law), dividends, which arise from profits of foreign invested enterprises (FIEs) earned after January 1, 2008, are subject to a 10% withholding income tax. In addition, under tax treaty between the PRC and Hong Kong, if the foreign investor is incorporated in Hong Kong and qualifies as the beneficial owner, the applicable withholding tax rate is reduced to 5%, if the investor holds at least 25% in the FIE, or 10%, if the investor holds less than 25% in the FIE. A deferred tax liability should be recognized for the undistributed profits of PRC companies unless the Company has sufficient evidence to demonstrate that the undistributed dividends will be reinvested and the remittance of the dividends will be postponed indefinitely. The Group plans to indefinitely reinvest undistributed profits earned after December 31, 2007 from its China subsidiaries in its operations in the PRC. Therefore, no withholding income taxes for undistributed profits of the Company's subsidiaries have been provided as of December 31, 2015, 2016 and 2017.

Under applicable accounting principles, a deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting basis over tax basis in a domestic subsidiary. Recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Group has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interests in VIEs because these entities do not have any accumulated earnings as of December 31, 2015, 2016 and 2017.

The Group made its assessment of the level of authority for each tax position (including the potential application of interests and penalties) based on the tax positions' technical merits, and measured the unrecognized benefits associated with the tax positions. The Group did not have any unrecognized tax benefits as of December 31, 2015, 2016 and 2017. The Group does not anticipate that unrecognized tax benefits will significantly increase or decrease within the next twelve months. For the years ended December 31, 2015, 2016 and 2017, the Group did not have any material interest and penalties associated with its tax positions.

According to PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of taxes is due to computational errors made by the taxpayer or withholding agent. The statute of limitations will be extended five years under special circumstances, which are not clearly defined (but an underpayment of tax liability exceeding RMB 0.1 million is specifically listed as a special circumstance). In the case of a related party transaction, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion. From inception to 2017, the Group is subject to examination of the PRC tax authorities. Red 5's federal income tax returns and state income tax returns for 2006 through 2017 are open tax years, subject to examination by the relevant tax authorities.

Table of Contents**17. SHORT-TERM BORROWING**

Short-term borrowing is as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|--|--------------------------------------|--------------------------------------|--|
| Pledged loan | 82,525,153 | 77,118,809 | 11,852,944 |
| Long-term borrowings due within one year | | 31,624,560 | 4,860,606 |
| Credit facility with Bank of Shanghai | 24,992,214 | | |
| Total | 107,517,367 | 108,743,369 | 16,713,550 |

In March 2016, the Bank of Shanghai (BOS), issued a commitment letter whereby BOS agreed to grant the Group a one-year credit facility of RMB50.0 million (US\$7.7 million). In March 2017, the credit facility was extended for one year. The Group can apply to draw on the credit facility as needed for its operations. As of December 31, 2016, the Group had withdrawn RMB25.0 million (US\$3.8 million) under this credit facility with annual interest rate of 6.525% and the loans were guaranteed by Zhu Jun and The9 Computer. The credit facility was repaid and closed as of December 31, 2017.

In June 2016, the Group completed a share exchange transaction with L&A for a total of 769,481,940 (after 1 to 5 stock split) newly issued shares of L&A. In June 2016, Asian Development borrowed a total of HK\$92.3 million from a financial services company at an annual interest rate of 2% for a term of 24 months, which is secured by a pledge of 417,440,000 shares of L&A. The outstanding balance as of December 31, 2017 is RMB77.1 million (US\$11.9 million) due to exchange rate changes. As Asian Development is currently in default of the loan due to a sharp decline in stock price of L&A (see Note 32.3), the balance of loan payable and interest payable were reclassified as current liabilities.

In 2015, the Group entered an entrusted bank borrowing agreement, amounted to RMB31.6 million (US\$4.9 million), with a subsidiary of a convertible note investor (see Note 21) and China Merchants Bank as entrustment bank. The agreement matures in December 2018, with an annual interest rate of 12% due on maturity of the loan. The loan is secured by the Group's office building and land use right. The outstanding balance as of December 31, 2017 is RMB38.9 million (US\$6.0 million), including RMB7.3 million (US\$1.1 million) interest payable. As of December 31, 2017, the Group reclassified the long term borrowing to short term loan as the loan is due within one year.

Table of Contents**18. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES**

Other payables and accruals are as follows:

| | December 31, 2016 RMB | December 31, 2017 RMB | December 31, 2017 US\$ (Note 3) |
|---|-----------------------------|-----------------------------|--|
| Staff cost related payables | 12,841,440 | 7,461,738 | 1,146,848 |
| Professional services | 10,443,985 | 7,250,470 | 1,114,377 |
| Product development services | 901,810 | 849,446 | 130,557 |
| Marketing and promotion | 598 | | |
| Funds raised for CrossFire New Mobile Game (see below) | 57,499,910 | 57,499,910 | 8,837,574 |
| Others | 10,615,155 | 10,638,487 | 1,635,106 |
| Total | 92,302,898 | 83,700,051 | 12,864,462 |

The Group is financing the development of CrossFire New Mobile Game through fund raising on the Inner Mongolia Culture Assets and Equity Exchange. As of December 31, 2017, the Group had raised RMB57.5 million (US\$8.8 million), and the Group plans to raise an additional RMB100.0 million (US\$15.4 million) until the game is launched. Under this fund raising arrangement, the Group will share certain percentages of the revenues from CrossFire new mobile game to the investors providing funding to the Group. The Group had also committed to spend certain amounts of the funds raised in marketing, game server purchases and research and development costs of CrossFire New Mobile Game. The Group has invested a significant amount of financial and personnel resources in development of our proprietary CrossFire New Mobile Game and the Group expects to launch this game in 2019. In November 2017, the Group entered into an exclusive publishing agreement with a third-party company, pursuant to which this third-party company was granted with an exclusive right to publish the CrossFire New Mobile Game in the PRC.

19. Refund of WoW game points

As a result of the loss of the WoW license on June 7, 2009, the Group announced a refund plan in connection with inactivated WoW game point cards, which the Group recorded as advance from customers. According to the plan, inactivated WoW game point card holders are eligible to receive a cash refund from the Group. The Group recorded a liability in connection with both inactivated points cards and activated but unconsumed point cards of approximately RMB200.4 million, of which RMB4.0 million was refunded in 2009.

Upon the loss of the WoW license, the Group concluded the nature of the obligation substantively changed from deferred revenue, for which the Group had the ability to satisfy the underlying performance obligation, to an obligation to refund players for their unconsumed points. The Group has accounted for this refund liability by applying the derecognition guidance specified in ASC 405-20. In accordance with this guidance, the refund liability associated with these WoW game points, to the extent not refunded, will be recorded as other operating income after the Group is legally released from the obligation to refund amounts under the applicable laws. In consultation with its legal counsel, the Group concluded the legal liability relating to the inactivated WoW game point cards was extinguished in September 2011 on the basis that the legal liability lapsed two years from the date the Group publicly announced the refund policy that applied to these cards. Accordingly, the associated liability amounting to

RMB26.0 million (US\$4.0 million) was recognized as other operating income for the year ended December 31, 2011. With respect to the remaining refund liability, based on current PRC laws, to the extent not refunded, the Company, in consultation with legal counsel has determined that it will be legally released from this liability in September 2029, which represents 20 years from the discontinuation of WoW in 2009. However, if the Group were to publicly announce a refund policy, the Group would be legally released from any remaining liability for these activated, but unconsumed points that remained two years from the date of such announcement. To date, the Group has determined not to publicly announce any refund policy with respect to this remaining liability, and no refunds have been claimed. The remaining refund liability relating to the activated, but unconsumed WoW game points is RMB170.0 million (US\$26.1 million) as of December 31, 2017.

Table of Contents

20. LONG-TERM BORROWING

In 2015, the Group entered into an entrusted bank borrowing agreement, amounted to RMB31.6 million (US\$4.9 million), with a subsidiary of a convertible note investor (see Note 21) and China Merchants Bank as entrustment bank. The agreement matures in December 2018, with an annual interest rate of 12% due on maturity of the loan. The loan is secured by the Group's office building and land use right. The outstanding balance as of December 31, 2017 is RMB38.9 million (US\$6.0 million), including RMB7.3 million (US\$1.1 million) interest payable. In 2017, the Group reclassified long term borrowing to short term loan as the loan is due within one year.

21. CONVERTIBLE NOTES

On November 24, 2015, the Group entered into agreement with a third-party investor for a private placement of secured convertible notes and warrants for a gross proceeds of US\$40,050,000. The transaction closed on December 11, 2015. Pursuant to the terms of the agreement, the convertible notes shall mature in 2018, subject to an extension for two years at the discretion of the investor. The convertible notes accrue interest at a rate of twelve percent (12%) per annum and are payable upon maturity of the notes. The notes are secured by the equity interest of the Group's subsidiaries (The9 Computer and C9I Shanghai), the office building, and land use right with a total net book value of RMB24.3 million. The third-party investor is entitled to put the convertible notes to the Group upon a change in control and upon an event of default.

Table of Contents

The notes are divided into three tranches and can be converted into a total of 11,695,513 shares of the Group's ADS at any time as follows:

| Convertible Notes | Principal Amount | Conversion Price |
|-------------------|------------------|------------------|
| Tranche A | US\$ 22,250,000 | US\$ 2.60 |
| Tranche B | US\$ 13,350,000 | US\$ 5.20 |
| Tranche C | US\$ 4,450,000 | US\$ 7.80 |

The conversion prices are subject to anti-dilution adjustments in the event the Group issues ordinary shares at a price per share lower than the applicable conversion price in effect immediately prior to the issuance. As of December 31, 2017, no adjustments to the conversion prices had occurred.

The Group has determined that there was BCF attributable to the Tranche A convertible loan as the conversion price is lower than market value at the date of issuance of the convertible note. The value of the BCF is determined to be US\$8.1 million (RMB52.7 million), which is equal to the intrinsic value of the conversion feature. The convertible notes are recorded at net carrying value at the date of issuance as follows:

| | US\$ | RMB |
|--|------------|-------------|
| Principal Amount | 40,050,000 | 260,068,680 |
| Less: | | |
| Fair value allocated to warrants (Note 22) | 8,821,883 | 57,285,780 |
| Beneficial conversion feature | 8,112,556 | 52,679,692 |
| Issuance Cost | 3,200,000 | 20,779,520 |
| Net carrying value | 19,915,561 | 129,323,688 |

The fair value of warrants, BCF and issuance costs are recorded as debt discount and accreted to interest expense over three years using the effective interest method. The convertible notes should be repaid with principal and interest based on the agreement. For the years ended December 31, 2016 and 2017, the carrying amount of the convertible notes and interest payable is RMB197.3 million and RMB260.6 million (US\$40.0 million), respectively. Interest expenses recognized related to the convertible notes are RMB50.4 million and RMB77.0 million (US\$11.8 million) for the years ended December 31, 2016 and 2017.

22. WARRANTS

The warrants are exercisable at any time after the commitment date to purchase up to 4,778,846 shares of the Group's ADS as follows:

| Warrants | Principal Amount | Exercise Price |
|-----------|------------------|----------------|
| Tranche I | US\$ 5,000,000 | US\$ 1.50 |
| Tranche A | US\$ 2,750,000 | US\$ 2.60 |
| Tranche B | US\$ 1,650,000 | US\$ 5.20 |
| Tranche C | US\$ 550,000 | US\$ 7.80 |

Table of Contents

For the tranche A, B, C, the expiration date is the third anniversary of the issuance date or if the holder has exercised its option to extend the maturity date of all or any portion of the convertible notes in accordance with the terms and conditions thereof, the fifth anniversary of the issuance date.

The exercise prices of the warrants are subject to anti-dilution adjustments in the event the Company issue ordinary shares at a price per share lower than the applicable exercise price in effect immediately prior to the issuance. As of December 31, 2017, no adjustments to the exercise prices had occurred.

The Group performs valuations of the warrants using a probability weighted Black-Scholes option pricing model. This model requires input of assumptions including the risk-free interest rates, volatility, expected life and dividend rates, and has also considered the likelihood of down-round financings. Selection of these inputs involves management's judgment and may impact net income.

The assumptions used in the Black-Scholes option pricing model for the warrants were as follows:

| Warrants | Tranche I | Tranche A | Tranche B | Tranche C |
|-------------------------------------|-----------|-----------|-----------|-----------|
| Risk-free interest rate | 1.97% | 1.71% | 1.71% | 1.71% |
| Expected volatility of common stock | 73.67% | 56.59% | 56.59% | 56.59% |
| Dividend yield | 0.00% | 0.00% | 0.00% | 0.00% |
| Expected life of warrants | 2.9 years | 0.9 years | 0.9 years | 0.9 years |

The fair value of the warrants as of issuance date, December 31, 2016 and 2017 is RMB57.3 million, RMB16.4 million, and RMB3.7 million (US\$0.6 million) respectively. The change in fair value of the warrant liability resulted in a gain of RMB48.1 million and a loss of RMB12.6 million (US\$1.9 million) for the years ended December 31, 2016 and 2017, respectively.

23. SHAREHOLDER RIGHTS PLAN

On January 8, 2009, the Company adopted a shareholder rights plan. The shareholder rights plan is designed to protect the best interests of the Company and its shareholders by discouraging third-parties from seeking to obtain control of the Company in a tender offer or similar hostile transaction. The shareholder rights plan was amended on March 9, 2009, June 8, 2017 and June 16, 2017.

Pursuant to the terms of the shareholder rights plan, as amended, one right was distributed with respect to each ordinary share of the Company outstanding at the close of business on January 22, 2009. The rights will become exercisable only if a person or group (the "Acquiring Person") obtains ownership of 15% or more of the Company's voting securities (including by acquisition of the Company's ADSs representing ordinary shares) (a "Triggering Event"), subject to certain exceptions. In the case of a Triggering Event, the rights plan entitles shareholders other than the Acquiring Person to purchase, for an exercise price of US\$19.50, a number of shares with a value twice that of the exercise price. The number of shares each such shareholder will be entitled to purchase is equal to the product of (i) the number of shares then owned by such shareholder and (ii) two times the exercise price divided by the then current market price per share. The rights plan will continue in effect until January 8, 2019, unless the plan is terminated by the Company or the rights are redeemed by the Company before the plan expires. The plan has not been exercisable yet.

Table of Contents**24. EMPLOYEE BENEFITS**

Full-time employees of the Group's subsidiaries and VIE subsidiaries registered in the PRC are entitled to staff welfare benefits, including medical care, welfare subsidies, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan. These entities are required to accrue for these benefits based on certain percentages of the employees' salaries in accordance with the relevant regulations, and to make contributions to the state-sponsored pension and medical plans out of the amounts accrued for medical and pension benefits. The total amounts charged to the consolidated statements of operations and comprehensive loss for such employee benefits amounted to RMB13.1 million, RMB15.4 million and RMB12.9 million (US\$2.0 million) for the years ended December 31, 2015, 2016 and 2017, respectively. The PRC government is responsible for the medical benefits and ultimate pension liability to these employees.

25. SHARE-BASED COMPENSATION*25.1 Share Option Plan*

On December 15, 2004, in connection with its initial public offering, the Company adopted a share option plan ("2004 Option Plan"). As of December 31, 2013, the total number of ordinary shares reserved in the 2004 Option Plan was 6,449,614 shares. The maximum contractual term of the awards under this plan shall be no more than five years from the date of grant. The options granted under this plan shall be at the money on the date of grant and typically vest over a three-year period, with one third of the options to vest on the each of the anniversary after the grant date. The 2004 Option Plan was amended in November 2015 to increase the maximum aggregate number of ordinary shares to 14,449,614 shares. The 2004 Option Plan was amended in August 2016 to increase the maximum aggregate number of ordinary shares to 34,449,614 shares. On June 6, 2017, the Group and optionees have entered into certain stock option agreements, pursuant to which the Group has granted to the optionees options to acquire the ordinary shares, par value US\$0.01 each, of the Group. According to the agreements, 6,328,535 options were exercised to ordinary shares, and 10,806,665 options were canceled. As of December 31, 2017, options to purchase 1,000,000 ordinary shares were outstanding and options to purchase 25,456,208 ordinary shares were available for future grant under the 2004 Option Plan.

Table of Contents**Stock Options**

The following table summarizes the Group's share option activities with its employees and directors:

| | Number of Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term (years) | Aggregate Intrinsic Value |
|---|------------------------------|--|--|--------------------------------------|
| Outstanding at January 1, 2017 | 4,485,200 | US\$ 1.53 | US\$ 3.43 | Nil |
| Granted | | | | |
| Exercised | (1,674,995) | US\$ 0.00 | | Nil |
| Forfeited | (2,810,205) | US\$ 0.00 | | Nil |
| Outstanding at December 31, 2017 | | | | |
| Vested and expected to vest at December 31, 2017 | | | | |
| Exercisable at December 31, 2017 | | | | |

The options expected to vest are estimated by applying the pre-vesting forfeiture rate assumptions to total unvested options. The total intrinsic value of options exercised during the year was nil, nil and nil for years ended December 31, 2015, 2016 and 2017 respectively.

The weighted-average grant-date fair value of options granted during the year 2015 was US\$0.65. The fair value of the share options were measured on the respective grant dates based on the Black-Scholes option pricing model, with below assumptions made regarding expected term and volatility, risk-free interest rate and dividend yield:

| | For the year ended December 31, 2015 |
|-------------------------------------|---|
| Risk-free interest rate | 1.22% |
| Expected life (years) | 3.35 |
| Expected dividend yield | 0 |
| Volatility | 59.74% |
| Fair value of options at grant date | US\$ 0.65 |

On November 17, 2015, the Group granted three tranches of share options to certain directors, officers and key employees totaling 8,200,000 shares with predetermined market conditions as summarized below:

| Options | Target Price (US\$) | Number of Options Vesting |
|----------------|----------------------------|--|
| Tranche I | 2.60 | 4,555,556 |
| Tranche II | 5.20 | 2,733,334 |
| Tranche III | 7.80 | 911,110 |
| Total | | 8,200,000 |

F-62

Table of Contents

Of these share options granted, 7,000,000 options is subject only to the predetermined market condition and will vest immediately when the Company's ADS stock price reaches the respective target stock prices as noted above (Predetermined Market Condition). The vesting of the remaining 1,200,000 options are subject to a derived service period in addition to Predetermined Market Condition.

Activities relating to share options subject to with only Predetermined Market Condition are summarized as follows:

| | Number of Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term (years) | Aggregate Intrinsic Value |
|-----------------------------------|----------------------|------------------------------------|--|------------------------------|
| Outstanding at January 1, 2017 | 6,500,000 | US\$ 1.53 | US\$ 3.88 | Nil |
| Granted | | | | |
| Exercised | (2,379,968) | US\$ 0.00 | | Nil |
| Forfeited | (4,120,032) | US\$ 0.00 | | Nil |

Outstanding at December 31,
2017

Vested and expected to vest at
December 31, 2017

Exercisable at December 31,
2017

The weighted-average grant-date fair value of shares options with only Predetermined Market Condition during 2015 was US\$0.69, US\$0.68, US\$0.60 for Tranche I, II and III, respectively. The fair values for these share options was calculated using the Monte Carlo Simulation model with the key following assumptions:

| | |
|-------------------------------------|--------------------|
| Risk-free interest rate | 1.66% |
| Expected life (years) | 4.49-5.0 |
| Expected dividend yield | 0 |
| Volatility | 62% |
| Fair value of options at grant date | US\$ 0.60-US\$0.69 |

The share options subject to both Predetermined Market Condition and service conditions are as followed:

| Number of Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term | Aggregate Intrinsic Value |
|----------------------|---------------------------------------|--|------------------------------|
|----------------------|---------------------------------------|--|------------------------------|

(years)

| | | | | | | |
|--------------------------------|-----------|------|------|------|------|-----|
| Outstanding at January 1, 2017 | 1,150,000 | US\$ | 1.53 | US\$ | 3.88 | Nil |
| Granted | | | | | | |
| Exercised | (425,029) | US\$ | 0.00 | | | Nil |
| Forfeited | (724,971) | US\$ | 0.00 | | | Nil |

Outstanding at December 31, 2017

Vested and expected to vest at December 31, 2017

Exercisable at December 31, 2017

F-63

Table of Contents

The weighted-average grant-date fair value of options granted with multiple conditions during 2015 was US\$0.71, US\$0.68, US\$0.60 for Tranche I, II and III, respectively. The fair values of the awards that are based on the market condition were calculated using the Monte Carlo Simulation mode with the key following assumption:

| | |
|-------------------------------------|--------------------|
| Risk-free interest rate | 1.66% |
| Expected life (years) | 4.49-5.0 |
| Expected dividend yield | 0 |
| Volatility | 62% |
| Fair value of options at grant date | US\$ 0.60-US\$0.71 |

On August 6, 2016, The Group granted share options totaling 6,000,000 shares to Zhu Jun and a third-party consultant as a reward for facilitating the Mongolia funding platform with total funding amount of RMB157.5 million (US\$24.2 million) to the Group. According to ASC 718, the share option was applicable to the performance condition due to the share options would be vested in line with the percentage of funding received by the Group.

The following table summarizes the share option activities subject to performance condition:

| | Number of Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term (years) | Aggregate Intrinsic Value |
|---|----------------------|---------------------------------------|---|------------------------------|
| Outstanding at January 1, 2017 | 6,000,000 | US\$ 1.86 | US\$ 4.60 | Nil |
| Granted | | | | |
| Exercised | (1,848,544) | US\$ 0.00 | | Nil |
| Forfeited | (3,151,456) | US\$ 0.00 | | Nil |
| Outstanding at December 31, 2017 | 1,000,000 | US\$ 1.86 | | Nil |
| Vested and expected to vest at December 31, 2017 | 1,000,000 | US\$ 1.86 | US\$ 3.60 | Nil |
| Exercisable at December 31, 2017 | 365,079 | US\$ 1.86 | US\$ 3.60 | Nil |

The grant-date fair value of share options with performance condition during 2016 was US\$0.93. The fair value of the awards that are based on the performance condition was calculated using the Black-Scholes option pricing model with the following assumptions:

| | |
|-------------------------|-------|
| Risk-free interest rate | 0.85% |
|-------------------------|-------|

Edgar Filing: The9 LTD - Form 20-F

| | |
|-------------------------------------|-----------|
| Expected life (years) | 2.9 |
| Expected dividend yield | 0 |
| Volatility | 78% |
| Fair value of options at grant date | US\$ 0.93 |

F-64

Table of Contents***Modification of Share-Based Awards***

On April 22, 2013, the Group modified the exercise prices of share options granted to 234 directors, officers and employees granted to US\$2.41 per share, which was the market price on the date of modification. The original exercise price of the modified options ranged from US\$7.36 to US\$4.78.

On June 13, 2015, the Group extended the expiration dates of the stock options granted to 25 directors, officers and employees, with expirations dates of August 26, 2015 and December 10, 2015 to August 26, 2020, and the exercise price of these share options was also reduced to US\$1.78 which was the closing sale price on June 12, 2015.

On November 17, 2015, the Group modified the exercise prices of share options granted to 15 directors, officers and employees to US\$1.53 per share, the closing price of the last trading day. The original exercise price of the modified options ranged from US\$1.78 to US\$2.41.

During 2015, 2016 and 2017, as a result of these modifications, the Group recognized incremental compensation cost of RMB11.8 million (US\$1.8 million), nil and nil respectively upon modification for the vested portion.

The fair value of options, of which exercise prices were modified in April 2013, June 2015 and November 2015, were measured on the modification date based on the Black-Scholes option pricing model with the following assumptions:

| | For the year ended December 31, 2013 | For the year ended December 31, 2015 |
|------------------------------------|---|---|
| Risk-free interest rate | 0.09%-0.24% | 0.50%-1.12% |
| Expected remaining life (years) | 0.57-2.20 | 1.32-2.61 |
| Expected dividend yield | 0 | 0 |
| Volatility | 36%-65% | 64%-71% |
| Fair value of incremental cost | US\$0.16-US\$0.43 | US\$0.21-US\$0.73 |

Table of Contents***Cancellation and Acceleration Vesting of Share-Based Awards***

On June 6, 2017, the Group canceled a portion of the options totaling 10,806,665 and accelerated the vesting and exercise of the remaining options totaling 6,328,535 for options granted to 15 directors, officers and employees. The exercise price was modified to US\$0.00, which the original exercise price of the accelerated vesting options ranged from US\$1.53 to US\$1.86. The incremental compensation cost recognized due to the cancellation and acceleration vesting of options was RMB33.0 million (US\$5.1 million) in 2017. The fair value of the options canceled and accelerated vested under service and performance condition was measured on the modification date using Binomial Tree Pricing Model with the following assumptions:

| | |
|--|-------------------|
| Risk-free interest rate | 1.16%-1.62% |
| Expected life (years) | 4.49-5.0 |
| Expected dividend yield | 0 |
| Volatility | 62%-74% |
| Fair value of options at modification date | US\$0.06-US\$0.31 |

The fair value of the options canceled and accelerated vested under market condition was measured on the modification date using the Monte Carlo Simulation mode with the following assumptions:

| | |
|--|-------------------|
| Risk-free interest rate | 1.52% |
| Expected life (years) | 5.0 |
| Expected dividend yield | 0 |
| Volatility | 72% |
| Fair value of options at modification date | US\$0.18-US\$0.25 |

Share-Based Compensation

For the years ended December 31, 2015, 2016 and 2017, the Group recorded share-based compensation of RMB32.0 million, RMB25.8 million and RMB37.7 million (US\$5.8 million), respectively, for options granted to the Group's employees and directors, including compensation cost due to the cancellation and accelerated vesting of the option exercised in June 2017.

As of December 31, 2017, there was approximately RMB3.8 million (US\$0.6 million) unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested options, for the options with performance condition issued to non-employee, a third-party consultant, subject to ASC 505-50, unrecognized compensation cost would be addressed in Commitment (see Note 32). The cost related to performance condition option was recognized according to the funding schedule. Total unrecognized compensation cost may be adjusted for future changes in estimated forfeitures.

Table of Contents*25.2 Ordinary shares granted to Incisight Limited (Incisight)*

Incisight is a company incorporated in the British Virgin Islands and wholly owned by Mr. Zhu Jun. On December 8, 2010, as approved by the Board of Directors, the Company granted 1,500,000 ordinary shares to Incisight, subject to performance conditions, of which 500,000 shares granted will vest when the Group achieves breakeven and 1,000,000 shares will vest when the Group's cumulative profit reaches US\$5.0 million in a quarter subsequent to the quarter in which the Group breaks even. The ordinary shares granted are not entitled to receive dividends until vested. The Board of Directors considered the grant of ordinary shares as an incentive to retain Mr. Zhu's services with the Group. The awarded nonvested shares would be valid for five years from December 8, 2010. For the quarter ended September 30, 2014, the Group achieved breakeven. It was considered probable the performance targets will be met for the total of 1,500,000 ordinary shares. The fair value of the granted nonvested shares was US\$6.48 per share, the market price on the date of grant. On December 7, 2015, 500,000 shares granted to Incisight Limited were vested. The awarded non-vested shares would be valid for additional three years and will expire on December 7, 2018. The Group recorded share-based compensation of RMB1.2 million, RMB1.9 million and RMB0.5 million (US\$0.1 million) for the years ended December 31, 2015, 2016 and 2017, respectively. The following table reflects the activity of non-vested shares for the year ended December 31, 2017:

| | Number of Options | Weighted-Average Grant-Date Fair Value | |
|---------------------------------|----------------------|---|------|
| Non-vested at January 1, 2017 | 1,000,000 | US\$ | 6.48 |
| Granted | | | |
| Forfeited | | | |
| Vested | | | |
| Non-vested at December 31, 2017 | 1,000,000 | US\$ | 6.48 |

25.3 Stock options and ordinary shares granted by Red 5

In February 2006, Red 5 adopted a Stock Incentive Plan (Red 5 Stock Incentive Plan) under which Red 5 may grant to its employees, director and consultants stock options to purchase common shares or restricted shares. As of December 31, 2010, 13,626,955 shares were reserved under Red 5 Stock Incentive Plan. In September, 2011, Red 5 further increased the number of common shares reserved to 22,855,591. If an option shall expire or terminate for any reason without having been exercised in full, the reserved shares subject to such option shall again be available for subsequent option grants under the plan. From the inception of this plan to December 31, 2017, Red 5 granted a total of 38,191,879 options to its employees and directors at the exercise price ranging from US\$0.0001 to US\$0.2450 per share, which vest over four years commencing from grant date. Options expire within a period of not more than ten years from the grant date. An option granted to a person who is a greater than 10% shareholder on the date of grant may not be exercisable more than five years after the grant date. As of December 31, 2017, options to purchase 5,476,250 shares of common stock were outstanding and options to purchase 15,475,087 shares of common stock were available for future grant.

Table of Contents

The following table summarizes the Red 5's share option activities with its employees and directors for the year ended December 31, 2017:

| | Number of Options | Weighted-Average Exercise Price per Option | Weighted-Average Contractual Term (years) | Aggregate Intrinsic Value |
|--|-------------------|--|---|---------------------------|
| Outstanding at January 1, 2017 | 6,621,336 | US\$ 0.053 | 4.09 | Nil |
| Granted | | | | |
| Exercised | | | | Nil |
| Forfeited | (1,145,086) | US\$ 0.052 | | Nil |
| Outstanding at December 31, 2017 | 5,476,250 | US\$ 0.053 | 3.08 | Nil |
| Vested and expected to vest at December 31, 2017 | 5,476,250 | US\$ 0.053 | 3.08 | Nil |
| Exercisable at December 31, 2017 | 3,895,819 | US\$ 0.055 | 3.01 | Nil |

The option's intrinsic value was calculated by the excess of the estimated fair value of Red 5's common shares, which was determined by the Group with the assistance of an independent valuation firm.

The options expected to vest are estimated by applying the pre-vesting forfeiture rate assumptions to total unvested options. The total intrinsic value of options exercised for the year ended December 31, 2015, 2016 and 2017 were US\$1,200, nil and nil, respectively.

The fair value of options granted ranged from US\$0.012 to US\$0.149, measured on the grant date based on the Black-Scholes option pricing model with assumptions made regarding expected term and volatility, risk-free interest rate and dividend yield:

In September 2012, Red 5 granted 6,122,435 shares of restricted common stock to two directors of Red 5 including Mr. Zhu for their services to Red 5. Of these shares, 60% were vested on the grant date. The remaining shares shall become vested in a series of 36 successive equal monthly installments upon grantees' completion of each month of service to Red 5 over the 36-month period measured from the grant date.

Red 5 recorded share-based compensation of RMB0.8 million, RMB0.4 million and RMB0.3 million (US\$0.1 million) for options and shares of restricted common stock granted for the year ended December 31, 2015, 2016 and 2017, respectively. The share-based payment awards were recorded as a component of noncontrolling interest in the consolidated financial statements.

As of December 31, 2017, there was approximately RMB0.3 million (US\$0.1 million) of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share-based awards granted to Red 5 grantees. This cost is expected to be recognized over 1.2 years. Total unrecognized compensation cost may be adjusted for future changes in estimated forfeitures.

Table of Contents**26. RELATED PARTY TRANSACTIONS AND BALANCES***Transaction with equity investee*

In 2013, the Group entered into an agreement with ZTE9, an equity investee of the Group, to jointly operate IPTV games in China. According to the agreement, the Group pays ZTE9 a royalty fee for providing game contents on IPTV. Net royalty and other service fees related to IPTV business charged by ZTE9 to the Group amounted to RMB13.0 million and RMB7.1 million (US\$1.1million) for years ended December 31, 2016 and 2017, respectively. The Group provided IPTV related advertising services to ZTE9 of RMB0.5 million and nil as of December 31, 2016 and 2017, respectively. Total amount due to ZTE9 for IPTV business was RMB16.8 million and RMB2.7 million (US\$0.4 million) as of December 31, 2016 and 2017, respectively. In 2016, the Group lent RMB2.8 million to ZTE9 to fund its operations. In 2017, the Group lent RMB4.0 million (US\$0.6 million) to ZTE9 to fund its operation. Total amount due from ZTE9 for outstanding loans was RMB12.7 million and RMB2.1 million (US\$0.3 million) as of December 31, 2016 and 2017, respectively.

In 2016, the Group charged service fee, (including internet data center (IDC) rental fee, office rental fee, etc.), to Jiucheng Advertisement of RMB4.5 million and the service fee was paid in 2016. In 2017, the service fee was RMB0.1 million (US\$0.01 million) which remained outstanding as of December 31, 2017.

In 2014, the Group entered into a license agreement with System Link, a 50% joint venture of the Group, for publishing and operating Firefall for a five-year term in the PRC. Under this license agreement, System Link is expected to pay Red 5 and Red 5 Singapore a total of no less than US\$160.0 million (including license fee and royalties) during the term of the agreement. In 2015, System Link paid US\$10.0 million to the Group as license fee. The Group recorded the US\$10.0 million as amount due to the related party and was to amortize the amount over the five-year period. System Link has been dormant since the cessation of Firefall in March 2016 and the termination of CrossFire 2 license in November 2017. As Red 5 was no longer required to render any service to System Link in relation to the operation of Firefall. Red 5 recognized the remaining unamortized license fee for Firefall as revenue in 2017. The balance due to System Link (non-current) was RMB 54.1 million and nil as of December 31, 2016 and 2017, respectively. The Group recognized licensing revenue of RMB13.6 million and RMB 51.1 million (US\$7.9 million) for the years ended December 31, 2016 and 2017, respectively.

Table of Contents*Transaction with T3*

In 2016, Asian Way entered into a license agreement with T3, an equity investee of the Group, for developing a game using augmented reality (AR) technologies based on the intellectual property relating to the game Audition. Upon commercial launch, Asian Way will share certain percentages of revenues of the game to T3. The game is still under development as of December 31, 2017.

Transaction with Zhu Jun

Mr. Zhu Jun, the chairman and chief executive officer, extended loans of RMB60.0 million and RMB73.9 million (US\$11.4 million) to the Group as of December 31, 2016 and 2017, respectively. The loans were interest-free and the outstanding balance of RMB25.2 million and RMB75.2 million (US\$11.6 million), remained as of December 31, 2016 and 2017, respectively.

27. LOSS PER SHARE

Loss per share is calculated as follows:

| | For the year ended December 31, 2015 RMB | For the year ended December 31, 2016 RMB | For the year ended December 31, 2017 RMB | For the year ended December 31, 2017 US\$ (Note 3) |
|---|---|---|---|---|

| Net loss attributable to ordinary shareholders | (384,634,060) | (676,671,777) | (175,292,083) | (26,941,900) |
| Denominator: | | | | |
| Denominator for basic and diluted loss per share weighted-average shares outstanding | 23,235,848 | 23,874,102 | 33,426,448 | 33,426,448 |
| Loss per share | | | | |

| | | | | |
|---------------------|---------|---------|--------|--------|
| - Basic and diluted | (16.55) | (28.34) | (5.24) | (0.81) |
|---------------------|---------|---------|--------|--------|

The Company had 18,656,564, 22,914,046 and 5,778,846 stock options, warrants and non-vested shares outstanding as of December 31, 2015, 2016 and 2017, respectively, which were excluded in the computation of diluted loss per share in the periods presented, as their effect would have been anti-dilutive due to the net loss reported in such periods.

F-70

Table of Contents**28. RESTRICTED NET ASSETS**

Pursuant to laws applicable to entities incorporated in the PRC, the subsidiaries and the VIEs of the Group in the PRC must make appropriations from after-tax profit to non-distributable reserved funds. These reserve funds include one or more of the following: (i) a general reserve, (ii) an enterprise expansion fund and (iii) a staff bonus and welfare fund. Subject to certain cumulative limits, the general reserve fund requires annual appropriation of 10% of after tax profit (as determined under accounting principles generally accepted in the PRC at each year-end) until the accumulative amount of such reserved fund reaches 50% of their registered capital; the other fund appropriations are at the subsidiaries' discretion. These reserved funds can only be used for specific purposes of enterprise expansion and staff bonus and welfare are not distributable as cash dividends. The appropriation to these reserves by the Group's PRC entities were nil for the years ended December 31, 2015, 2016 and 2017. The accumulated reserves as of December 31, 2017 was RMB3.8 million (US\$0.6 million). In addition, due to restrictions on the distribution of registered capital from the Company's PRC subsidiaries, the PRC subsidiaries' registered capital of RMB28.9 million (US\$4.4 million) as of December 31, 2017, were considered restricted. As a result of these PRC laws and regulations, as of December 31, 2017, approximately RMB32.7 million (US\$5.0 million), were not available for distribution to the Company by its PRC subsidiaries in the form of dividends, loans or advances.

29. NONCONTROLLING INTEREST

As of December 31, 2017, the Group's non-controlling interests mainly included equity interest in Red 5, The9 Education, and equity awards granted as compensation by the Group's subsidiaries. The following schedule shows the effects of changes in the ownership interest of The9 Limited in its subsidiaries on equity attributed to The9 Limited for the years ended December 31, 2015, 2016 and 2017.

| | December 31, 2015 RMB | December 31, 2016 RMB | December 31, 2017 RMB |
|--|--------------------------------------|--------------------------------------|--------------------------------------|
| Net loss attributable to The9 Limited | (304,828,354) | (593,781,589) | (176,510,501) |
| Transfers (to) from the noncontrolling interest: | | | |
| Increase in The9 Limited's additional paid-in capital for issuance of shares by Red 5 upon stock option exercise | 75,563 | 436,128 | |

| Change from net loss attributable to The9 Limited and transfers (to) | (304,671,888) | (339,948,706) | (176,517,561) |

from noncontrolling interests

F-71

Table of Contents

(1) In June 2016, the Group completed a share exchange transaction with L&A International Holding Limited and certain other shareholders of Red 5, whereby the Group exchanged approximately 30.6% equity interest (on a fully-diluted basis) owned in Red 5 for a total of 723,313,020 (after a one-to-five stock split) of newly issued shares of L&A, after deducting a 6% of total shares received (769,481,940 shares) for the payment of a service fee to a third-party consultant. As a result, the percentage of noncontrolling interest in Red 5 changed from 10.4% to 58.1%, after deducting shares of Series B redeemable convertible preferred shares (SBPS) from total shares of Red 5.

30. REDEEMABLE NONCONTROLLING INTEREST

In January 2014, Red 5 issued 27,438,952 SBPS to a third-party investor, Shanghai Oriental Pearl Culture Development Co., Ltd., (Oriental Pearl), for an aggregate consideration of RMB118.3 million (US\$18.2 million). In conjunction with the issuance of SBPS, Oriental Pearl also purchased 5,948,488 common shares of Red 5 from two executives of Red 5 at the same per share price as the per share price of SBPS for an aggregate consideration of RMB25.6 million (US\$3.9 million). The purchase price for these common shares was determined to be less than fair value as the transaction was contemplated in conjunction with the issuance of the SPBS. The difference between the purchase price and fair value of SBPS as determined by the Group with the assistance of an independent valuation firm, amounted to RMB131.3 million (US\$20.2 million), was recognized as a compensation paid to the two executives in the amount of RMB13.0 million (US\$2.0 million).

Due to stock exchange transaction with L&A in 2016, a 37% share of SBPS was owned by L&A. As of December 31, 2017, the holders of SBPS were as follows:

| Holder | December 31, | December 31, |
|---|---------------------|---------------------|
| | 2016 | 2017 |
| | Number of | Number of |
| | Shares | Shares |
| L&A International Holdings Ltd. | 10,180,553 | 10,180,553 |
| Shanghai Oriental Pearl Culture Development Co., Ltd. | 17,258,399 | 17,258,399 |

As of December 31, 2014, the Group considered the redemption of the SBPS to be probable. The Group accreted the carrying value of SBPS to redemption value using the effective interest rate method over the period from the issuance date to the redemption date.

Table of Contents

The key terms of the SBPS are as follows:

Conversion

Each SBPS may be converted at any time into common shares at the then applicable conversion price. The initial conversion ratio is 1:1, subject to adjustment in the event of (i) share splits, share combinations, share dividends or distribution, other dividends, recapitalizations and similar events, or (ii) issuance of common shares at a price per share less than the conversion price in effect on the date of or immediately prior to such issuance. In that case, the conversion price shall be reduced concurrently to the subscription price of such issuance.

The SBPS shall be automatically converted into common shares immediately prior to the consummation of a public offering of Red 5's shares wherein gross proceeds are at least US\$30,000,000, immediately following the public offering (the "Qualifying IPO").

The conversion option can only be settled by issuance of common shares except that fractional shares may be settled in cash.

Dividends

The holder of each share of SBPS shall be entitled to receive dividends at the rate per share of \$0.038237 per annum if and when a dividend is declared on common shares. The preferred shares participate in dividends on an as-converted basis and must be paid prior to any payment on common shares.

Upon conversion, any declared or accrued but unpaid dividends will be converted into common shares at the same applicable conversion price.

Redemption

At any time on or after April 1, 2017, if requested by at least 50% of the holders of SBPS then outstanding, Red 5 shall redeem all of the outstanding SBPS at a redemption price equal to 200% of the issuance price in three equal annual installments. The full amount of the redemption price due but not paid shall accrue interest daily at a rate of 10% per annum from the issuance date of SBPS (see Note 32).

Voting

Each SBPS has voting rights equivalent to the number of common shares to which it is convertible at the record date. The holders of SBPS shall vote together with the common shareholders, and not as a separate class or series, on all matters put before the shareholders.

Table of Contents**Liquidation**

The holders of SBPS have preference over holders of common shares with respect to distribution of assets upon voluntary or involuntary liquidation of the Company. The holders of SBPS shall be entitled to receive 100% of the original issue price (preferred liquidation). The holders of SBPS are also entitled to distribution of remaining assets from preferred liquidation, along with other shareholders, while the total distribution entitled to the holders of SBPS should not exceed 200% of the original issue price.

A reconciliation of redeemable noncontrolling interest is as follows:

| | For the year ended December 31, 2016 RMB | For the year ended December 31, 2017 RMB | For the year ended December 31, 2017 US\$ (Note 3) |
|--|---|---|---|
| Redeemable noncontrolling interest opening balance | 178,605,097 | 246,771,133 | 37,928,029 |
| Issuance of Redeemable noncontrolling interest | | | |
| Net profit/(loss) attributable to redeemable noncontrolling interest | (14,724,152) | 2,117,303 | 325,423 |
| Accretion of Redeemable noncontrolling interest | 82,890,188 | 57,126,232 | 8,780,141 |
| Redeemable noncontrolling interest ending balance | 246,771,133 | 306,014,668 | 47,033,593 |

31. DISPOSAL OF A SUBSIDIARY

On August 21, 2017, Beijing Yingke entered into a proposed acquisition agreement with Shanghai IT and Yunmei Partnership, which owned 70% and 30% equity interest in The9 Education, respectively. Beijing Yingke has proposed to acquire the entire equity interest of The9 Education for consideration of RMB12.0 million, payable to Shanghai IT and Yunmei Partnership for RMB8.6 million and RMB3.6 million, respectively.

The proposed acquisition is to sell the shell company of The9 Education, which is listed on NEEQ. Beijing Yingke will not take over the operation of educational services of The9 Education. In November 2017, The9 Education passed a resolution for issuance of additional 20,000,000 new ordinary shares with a par value of RMB1 each, and the new shares were taken and paid-up by Beijing Yingke. In 2017, Shanghai IT received an advance of RMB6.8 million from Beijing Yingke, and Shanghai IT transferred 5,600,000 ordinary shares to Beijing Yingke accordingly. As of December 31, 2017, disposal of The9 Education was yet to be completed. Shanghai IT owned 8.75% equity interest in The9 Education and controls The9 Education through a VIE structure. The assets and liabilities of The9 Education will be transferred from the shell company to Shanghai IT or be disposed off upon completion of the transaction.

Table of Contents

Followed the disposal of shell company, the Group intends to dispose of the business operation of educational services for a minimal consideration. The intended disposal of educational services will not have a significant effect on the Group's operations and financial results. The Group has classified the assets and liabilities directly associated with the assets of educational services as held for sale as of December 31, 2017.

32. COMMITMENTS AND CONTINGENCIES**32.1 Operating lease commitments**

The Group has no significant outstanding operating lease arrangements as of December 31, 2017.

Total rental expenses amounted to RMB19.4 million, RMB 12.7 million and RMB 4.8 million (US\$0.7 million) for the years ended December 31, 2015, 2016 and 2017, respectively.

32.2 Other operating commitments

The Group is financing the development of CrossFire New Mobile Game through fund-raising on Inner Mongolia Culture Assets and Equity Exchange. As of December 31, 2017, the Group had raised RMB57.5 million (US\$8.8 million), and the Group plans to raise an additional RMB100.0 million (US\$15.4 million) until the game is launched. Under this fund raising arrangement, the Group will share certain percentages of the revenues from CrossFire New Mobile Game to investors providing funding to the Group. The revenues to be shared to the investors will be deposited to a bank account monitored by the Group, Inner Mongolia Culture Assets and Equity Exchange and the funding advisor. The Group had also committed to spend certain amounts of the funds raised in the marketing, game server purchases and research and development costs of CrossFire New Mobile Game. In August 2016, the Group granted a third-party consultant 1,000,000 options to acquire shares of the Group as payment for consulting services related to the RMB157.5 million (US\$24.2 million) financing plan of CrossFire Mobile Game with Inner Mongolia Culture Assets and Equity Exchange. The options will vest in accordance with the schedule of the actual funding to be received. In October 2016, 365,079 options were vested after the Group received the first funding of RMB57.5 million (US\$8.8 million). As of December 31, 2017, 634,921 options remain unvested. The financing fee remains as advances until the financing arrangement is concluded.

In June 2017, Shanghai IT has entered into an investment agreement with the shareholders of Beijing Ti Knight where Shanghai IT will invest a total of RMB9.0 million (US\$1.4 million) in Beijing Ti Knight. As of December 31, 2017, Shanghai IT has invested RMB4.0 (US\$0.6 million) and has a remaining capital contribution commitment amounting to RMB5.0 million (US\$0.8 million), which is due within one year. Shanghai IT's purchase commitment amounting to RMB6.8 million (US\$1.0 million) for the outsourcing development agreement entered on October 9, 2016 with Beijing Ti Knight will be waived if Shanghai IT's accumulated investment in Beijing Ti Knight is more than RMB6.0 million (US\$0.9 million). Hence, as of December 31, 2017, the Group has both a capital commitment and a purchase commitment amounting to RMB5.0 million (US\$0.8 million) and RMB6.8 million (US\$1.0 million), respectively, but the purchase commitment will be waived under the condition that accumulated investment in Beijing Ti Knight by Shanghai IT is more than RMB6.0 million (US\$0.9 million). In addition, the Group is subject to additional contingent payments to be calculated based on certain percentages of future revenue from the game.

Table of Contents

In June 2017, the Group entered into a share purchase agreement with each of Ark Pacific Special Opportunities Fund I, L.P. (AP Fund) and Incisight Limited (Incisight), respectively, pursuant to which the Group will issue and sell 12,500,000 ordinary shares of the Group, par value of US\$0.01, at a per share price of US\$1.20 to each of AP Fund and Incisight for an aggregate consideration of US\$30.0 million. AP Fund is controlled by its general partner, Ark Pacific Investment Management Limited (AP Management). Incisight is controlled and wholly owned by Mr. Zhu Jun, our chairman and executive officer. After the transactions described above complete, the Group will be subject to certain redemption rights of the investors in accordance with these agreements. As of the report date, the transaction is subject to customary closing conditions and has not been completed.

32.3 Contingencies

In June 2016, Asian Development borrowed HK\$92.3 million (US\$11.8 million) from a financial services company at an annual interest rate of 2% for a term of 24 months. This loan is secured by 417,440,000 shares of L&A (see Note 17). Pursuant to the financing agreement (Agreement), such loan is considered to be in default since the market price of the pledged shares had fallen below the collateralized stock price by more than 35% for ten consecutive trading days. Asian Development had not made any remediation pursuant to the Agreement. Upon default, the lender shall be entitled to foreclose the pledged shares and become the legal and beneficial owner of the pledged shares. If the market value of the pledged shares cannot cover the total outstanding amount owed by Asian Development to the lender under the Agreement, the lender may claim against Asian Development to recover any outstanding amounts under the Agreement, in addition to foreclosure of the pledged shares as mentioned above.

As mentioned in Note 26, Red 5 and its affiliates are currently in dispute with Qihoo 360 and its affiliates regarding System Link and Firefall and various legal proceedings have been initiated and are ongoing in connection with such dispute. The process of legal proceedings may be lengthy and costly and may divert the attention of the management. If the Group cannot settle the dispute with Qihoo 360 and cannot obtain a judgment in favor of the Group, additional costs or damages may be incurred to adversely affect the Group's business, financial condition and results of operations.

The Group may be subject to other legal or administrative proceedings in the ordinary course of business. The Group does not believe that any currently pending legal or administrative proceeding to which the Group is a party will have a material adverse effect on the business or financial condition.

Table of Contents

As described in Note 30, in August 2014, Red 5 issued 27,438,952 Series B redeemable convertible preferred shares of Red 5 to a new investor, Oriental Pearl. Due to the stock exchange transaction with L&A in 2016, a 37% share of the SBPS was owned by L&A as of December 31, 2017 (see Note 30). Per the Articles of Association of Red 5, major holders of SBPS, at any time on or after April 1, 2017 (the Redemption Election), can require Red 5 to redeem all, but not less than all, of the outstanding shares of SBPS, as applicable, in three equal annual installments. New Star, a wholly owned subsidiary of the Group, owns 39,766,589 Series A redeemable convertible preferred shares which have similar terms with the Series B redeemable convertible preferred shares. The redemption value of SBPS was US\$16.5 million for the first installment, US\$18.1 million for the second installment and US\$19.9 million for the third installment. Since Red 5 is in a net liability position, the Group does not believe the preferred shareholders will request such redemption. As of the report date, there was no such preferred shareholder requiring Red 5 to redeem the preferred stock.

33. SEGMENT REPORTING

The Group operates in one segment whose business is developing and operating online games and related services. The Group's chief operating decision maker is the chief executive officer, who reviews consolidated results when making decisions about allocating resources and assessing performance of the Group. The Group generates its revenues from customers in the Greater China (including PRC, Taiwan, Hong Kong and Macau), North America and other areas.

The following geographic area information includes revenue based on location of players for the years ended December 31, 2015, 2016 and 2017:

| | 2015 | 2016 | 2017 | 2017 |
|---------------|-------------|-------------|-------------|-----------------|
| | RMB | RMB | RMB | US\$ |
| | | | | (Note 3) |
| Greater China | 33,201,421 | 48,041,372 | 19,690,716 | 3,026,407 |
| North America | 8,382,753 | 3,012,901 | 51,156,109 | 7,862,550 |
| Other areas | 4,827,157 | 5,145,013 | 2,301,731 | 353,770 |
| Total | 46,411,331 | 56,199,286 | 73,148,556 | 11,242,727 |

A majority of the Group's assets are located in Greater China.

Table of Contents

34. SUBSEQUENT EVENTS

In January 2018, the Group entered into a definitive agreement with Red Ace Limited, a company incorporated under the laws of the British Virgin Islands, for the issuance and sale of 3,571,429 ordinary shares of the Group, each with par value US\$0.01, to Red Ace Limited. Red Ace Limited will pay consideration with a 29% equity interest in Maxline Holdings Limited (*Maxline*). Maxline based in Hong Kong, is principally engaged in the provision of information technology infrastructure solutions, website and mobile app design, maintenance and support services. Maxline is establishing its business in the PRC. The Group expects that the investment in Maxline will create synergies between its business and Maxline's business.

In January 2018, the Group's Board of Directors approved the issuance of stock options to purchase 8,250,000 ordinary shares to certain directors, officers and consultants of the Group, with the exercise price for such share options at US\$0.93 per ADS, which was the closing price of our ADSs as of January 23, 2018.

In February 2018, AP Fund assigned its rights and obligations under the share purchase agreement as a whole as well as 12,500,000 unpaid ordinary shares to a third-party, Jupiter Explorer Limited (*Jupiter*). Jupiter assumed all the rights and obligations of AP Fund under the share purchase agreement.

In December 2015, Splendid Days Limited (*Splendid Days*) acquired US\$40,050,000 in senior secured convertible notes of the Group and US\$9,950,000 in warrants to acquire ordinary shares of the Group pursuant to a convertible note and warrant purchase agreement (see Note 21). Splendid Days is controlled by AP Management. In February 2018, AP Management entered into a share purchase agreement with Truth Beauty Limited (*Truth Beauty*) whereby AP Management sold to Truth Beauty all of the issued and outstanding share capital of Splendid Days.

ADDITIONAL FINANCIAL INFORMATION OF PARENT COMPANY -

FINANCIAL STATEMENTS SCHEDULE I

THE9 LIMITED

FINANCIAL INFORMATION OF PARENT COMPANY

NOTES TO SCHEDULE I

1) Schedule I has been provided pursuant to the requirements of *Rule 12-04(a)* and *5-04(c)* of *Regulation S-X*, which require condensed financial information as to the financial position, changes in financial position and results of operations of a parent company as of the same dates and for the same periods for which audited consolidated financial statements have been presented when the restricted net assets of consolidated subsidiaries exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year.

2) As disclosed in Note 1 to the consolidated financial statements, the Company was incorporated in December, 1999 in the Cayman Islands to be the holding company of the Group principally engaged in the development and operation of online games and internet related businesses, including massively multiplayer online games (MMOGs), mobile games, web games and TV games.

3) The condensed financial information has been prepared using the same accounting policies as set out in the consolidated financial statements except that the equity method has been used to account for investments in its subsidiaries and VIE. For the parent company, the Company records its investments in subsidiaries and VIE under the equity method of accounting as prescribed in *ASC 323, Investments-Equity Method and Joint Ventures*. Such investments are presented on the Condensed Balance Sheets as Investment in subsidiaries and VIE and the subsidiaries and VIE profit or loss as Equity in income/loss of subsidiaries on the Condensed Statements of Comprehensive Loss. Ordinarily under the equity, an investor in an equity method investee would cease to recognize its share of the losses of an investee once the carrying value of the investment has been reduced to nil absent an undertaking by the investor to provide continuing support and fund losses. For the purpose of this Schedule I, the parent company has continued to reflect its share, based on its proportionate interest, of the losses of subsidiaries and VIE regardless of the carrying value of the investment even though the parent company is not obligated to provide continuing support or fund losses.

4) As of December 31, 2016 and 2017, there were no material contingencies, significant provisions of long-term obligations, mandatory dividend or redemption requirements of redeemable stocks or guarantees of the Company. No dividend was paid by the Company's subsidiaries to the Company in 2015, 2016 and 2017.

5) Translations of balances in the additional financial information of Parent Company Financial Statements Schedule I from RMB into US\$ as of and for the year ended December 31, 2016 and 2017 are solely for the convenience of the readers and were calculated at the rate of US\$1.00 = RMB6.5063, representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on December 31, 2017. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on December 31, 2017, or at any other rate.
