Management's Discussion of Funds Performance

(unaudited)

Market Environment Overview

International equity markets, as measured by the MSCI EAFE Index, a broad measure of equity performance for the developed world outside the U.S. and Canada, returned 14.80% in the 12-month period that ended March 31, 2018 (the period), which outperformed the S&P 500 Index by 0.81%. Measured in local currency, the MSCI EAFE Index returned 5.34% over the period, lagging the return of the S&P 500 Index by 8.65%. It is important to note that when foreign currencies weaken or strengthen relative to the U.S. dollar, there is also an impact on the returns experienced by U.S. investors who invest overseas. Over the period, the U.S. dollar experienced significant depreciation (i.e. weakened) against most major currencies. In particular, the British pound, Japanese yen, and the Euro (which account for about 75% of the MSCI EAFE Index's currency exposure) all experienced positive spot returns over the period against the U.S. dollar.

Ultimately, non-U.S. international equities saw fairly muted returns as a byproduct of appreciating local currencies and political uncertainties that surround these major markets, particularly in Europe. While the first half of the period could be characterized by a rebound in European economic activity and improving investor sentiment, geopolitical tension was on the rise in Europe due to elections in England, France, and Italy. In Japan, we continued to see momentum in economic growth through 2017 carry over into the first quarter of 2018. Unemployment fell to a 20 year low, as the manufacturing sector continued to expand. While there is some concern over domestic political shakeups, there continues to be a strong desire for the European nations to continue reforms aimed at boosting economic growth.

Mid-way through 2017, U.K. Prime Minister Theresa May called a snap-election in an effort to secure a larger parliamentary majority. Unfortunately for her party, the election resulted in a net reduction in Tory seats forcing her into a confidence and supply agreement with the Northern Irish Democratic Unionist Party. Outside of politics, the U.K. witnessed three straight reported quarters of positive, albeit small, GDP growth numbers. Employment has surged from the end of 2017 through the first quarter of 2018, as nominal wage growth picked up and price pressures are eased.

Mainland Europe (Eurozone) also saw three straight quarters of robust and improving economic data through 2017. However, the first quarter of 2018 saw a near-term reversal of this trend. While unemployment levels remained at multi-year lows, much of the recent economic data came in weaker than expected which has weighed on market sentiment. More recently, U.S. President Trump announced tariffs on steel and aluminum products, which increased volatility. In October 2017, Mario Draghi, President of the European Central Bank (ECB), announced that it would begin to methodically scale back its quantitative easing program, citing broad and solid growth. While there was a muted reaction in markets to the announcement, many now wonder if interest rate hikes could occur sooner than investors originally anticipated. In local currency terms, all 11 sectors within the MSCI EAFE Index were positive over the period with the Telecommunication Services sector lagging while the Materials and Information Technology sectors were the strongest performers. The Energy sector was a strong performer as energy prices rebounded. A rise in the general commodity complex also served as a tailwind for Materials sector firms. In local currency terms, defensive sectors like Consumer Staples, Telecommunication Services, and Health Care were among the worst performing portions of the MSCI EAFE Index.

WisdomTree Funds Performance Overview

The following table reflects the WisdomTree Funds' performance versus capitalization-weighted benchmark indexes:

Ticker	WisdomTree Fund	1-Year NAV Return	Performance Benchmark	1-Year Return	Difference
AUSE	WisdomTree Australia Dividend Fund	3.29%	MSCI Pacific ex-Japan Value/MSCI Australia Spliced Index	1.42%	1.87%
HEDJ	WisdomTree Europe Hedged Equity Fund	2.03%	MSCI EAFE Local Currency/MSCI EMU Local Currency Spliced Index	2.21%	-0.18%
EUSC	WisdomTree Europe Hedged SmallCap Equity Fund	9.88%	MSCI European and Monetary Union (EMU) Small Cap Local Currency Index	12.26%	-2.38%
EUDG	WisdomTree Europe Quality Dividend Growth Fund	15.03%	MSCI Europe Index	14.49%	0.54%
DFE	WisdomTree Europe SmallCap Dividend Fund	20.94%	MSCI Europe Small Cap Index	24.54%	-3.60%
DXGE	WisdomTree Germany Hedged Equity Fund	4.63%	MSCI Germany Local Currency Index	-1.19%	5.82%
DOO	WisdomTree International Dividend ex-Financials Fund	12.84%	MSCI EAFE Value Index	12.19%	0.65%
DWM	WisdomTree International Equity Fund	13.61%	MSCI EAFE Index	14.80%	-1.19%
IHDG	WisdomTree International Hedged Quality Dividend Growth Fund	9.05%	MSCI EAFE Local Currency Index	5.34%	3.71%
DTH	WisdomTree International High Dividend Fund	11.12%	MSCI EAFE Value Index	12.19%	-1.07%
DOL	WisdomTree International LargeCap Dividend Fund	12.41%	MSCI EAFE Index	14.80%	-2.39%
DIM	WisdomTree International MidCap Dividend Fund	16.87%	MSCI EAFE Mid Cap Index	18.07%	-1.20%
IQDG	WisdomTree International Quality Dividend Growth Fund	18.33%	MSCI EAFE Index	14.80%	3.53%
DLS	WisdomTree International SmallCap Dividend Fund	19.91%	MSCI EAFE Small Cap Index	23.49%	-3.58%
DXJ	WisdomTree Japan Hedged Equity Fund	13.45%	MSCI Japan/MSCI Japan Local Currency Spliced Index	14.19%	-0.74%
DXJF	WisdomTree Japan Hedged Financials Fund	4.44%	MSCI Japan Local Currency Index	14.19%	-9.75%
JHDG	WisdomTree Japan Hedged Quality Dividend Growth Fund	15.56%	JPX-Nikkei 400 Local Currency Index	14.31%	1.25%
DXJS	WisdomTree Japan Hedged SmallCap Equity Fund	20.42%	MSCI Japan Small Cap Local Currency Index	19.79%	0.63%
DFJ	WisdomTree Japan SmallCap Dividend Fund	23.84%	MSCI Japan Small Cap Index	25.51%	-1.67%

WisdomTree's international dividend-weighted funds are designed to track indexes based on the dividend stream generated by the companies included in the index. The dividend stream is defined as the sum of all dividends paid over the prior 12 months for each company. There are two primary factors that drive performance differentials versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors or countries. The second is stock selection within each sector or country. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream.

WisdomTree's best performing fund for the period was the WisdomTree Japan SmallCap Dividend Fund (DFJ) which returned 23.84% based on NAV. This strategy underperformed its benchmark, the MSCI Japan Small Cap Index by 1.67%. Small-cap companies in Japan have been some of the top beneficiaries of a growing Japanese economy, and by being unhedged, DFJ generated additional total return from local

Table of Contents

Management's Discussion of Funds Performance

(unaudited) (continued)

currency appreciation against the U.S. dollar. The best relative outperformer in the suite was the WisdomTree Germany Hedged Equity Fund (DXGE), which outperformed the MSCI Germany Local Currency Index by 5.82% during the period based on NAV. This was due in large part from its overweight in the Consumer Discretionary sector, and its underweights in the Telecommunication Services and Consumer Staples sectors.

By and large, the vast majority of WisdomTree small-cap strategies have continued to perform favorably over the period and outperform their large-cap counterparts. Such strong small-cap performers are the WisdomTree Japan SmallCap Dividend Fund (DFJ), WisdomTree Europe SmallCap Dividend Fund (DFE), the WisdomTree International SmallCap Dividend Fund (DLS), the WisdomTree Japan Hedged SmallCap Equity Fund (DXJS), and the WisdomTree Europe Hedged SmallCap Equity Fund (EUSC), respectively returning 23.84%, 20.94%, 19.91%, 20.42%, and 9.88%. Small-cap equities came into focus in these markets as fears of recession and economic slowdowns from earlier in the period gave way to renewed emphasis on reflation and growth. Given the volatile environment for equities over the period, the fundamental screens for return on equity and return on assets helped these funds outperform.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 23-25 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and an index is not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or taxes that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month-end performance information visit www.wisdomtree.com.

AMP Ltd.	2.5%
Australia & New Zealand Banking Group Ltd.	2.5%
Crown Resorts Ltd.	2.4%

*The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Australia Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Australia Dividend Index.

The Fund returned 3.29% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited from its investment in Materials, which contributed positively to performance. The Fund's position in Telecommunication Services detracted from performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

Edgar Filing: WisdomTree Trust - Form N-CSR

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.58%.**

Performance as of 3/31/18

	Average Annual Total Return				Since Inception ¹
	1 Year	3 Year	5 Year	10 Year	
Fund NAV Returns	3.29%	4.86%	1.00%	4.10%	6.27%
Fund Market Price Returns	4.02%	5.57%	1.07%	4.12%	6.35%

The WisdomTree Europe Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Hedged Equity Index.

The Fund returned 2.03% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited from its investment in France, which had positive returns. The Fund's position in Austria detracted from performance. During the fiscal year, the Fund utilized forward foreign currency contracts to offset euro currency exposure from positions in European equities. The Fund's use of forward foreign currency contracts detracted from Fund performance as a result of the U.S. dollar weakening against the euro during the fiscal year. The Fund also utilized equity futures contracts on a temporary basis during the fiscal year to obtain market exposure consistent with the Fund's investment objective as part of its annual portfolio rebalance. The Fund's use of equity futures contracts contributed positively to Fund performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

*The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Europe Quality Dividend Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Quality Dividend Growth Index.

The Fund returned 15.03% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund's position in Germany contributed to performance while its position in Austria detracted from performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange

Edgar Filing: WisdomTree Trust - Form N-CSR

where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.58%.**

Performance as of 3/31/18

	Average Annual Total Return		
	1 Year	3 Year	Since Inception ¹
Fund NAV Returns	15.03%	6.26%	3.03%
Fund Market Price Returns	15.49%	6.38%	3.07%
<i>WisdomTree Europe Quality Dividend Growth Index</i>	<i>15.68%</i>	<i>6.80%</i>	<i>3.52%</i>
<i>MSCI Europe Index</i>	<i>14.49%</i>	<i>4.79%</i>	<i>1.67%</i>

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on May 7, 2014.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Germany Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Germany Hedged Equity Index.

The Fund returned 4.63% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund's position in Consumer Discretionary contributed positively to performance while its position in Telecommunication Services contributed negatively to performance. During the fiscal year, the Fund utilized forward foreign currency contracts to offset euro currency exposure from positions in German equities. The Fund's use of forward foreign currency contracts detracted from Fund performance as a result of the U.S. dollar weakening against the euro during the fiscal year.

Edgar Filing: WisdomTree Trust - Form N-CSR

The WisdomTree International Hedged Quality Dividend Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree International Hedged Quality Dividend Growth Index.

The Fund returned 9.05% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete performance information please see table below). The Fund's position in the Netherlands contributed positively to performance while its position in Israel contributed negatively to performance. During the fiscal year, the Fund utilized forward foreign currency contracts to offset applicable international currency exposure from positions in international equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the overall depreciation in the U.S. dollar against applicable international currencies during the fiscal year. The Fund also utilized equity futures contracts on a temporary basis during the fiscal year to obtain market exposure consistent with the Fund's investment objective as part of its annual portfolio rebalance. The Fund's use of equity futures contracts contributed positively to Fund performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. *The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree International High Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree International High Dividend Index.

The Fund returned 11.12% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete performance information please see the table below). The Fund benefited most from its investment in France, which contributed positively to performance. The Fund's position in Australia was a drag on performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.58%.**

The WisdomTree Japan Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Equity Index. The Fund seeks to provide Japanese equity returns while mitigating or hedging against fluctuations between the value of the Japanese yen and the U.S. dollar.

The Fund returned 13.45% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see the table below). The Fund benefited the most from its investment in Industrials. The Fund's position in Energy contributed least positively to performance. During the fiscal year, the Fund utilized forward foreign currency contracts to offset Japanese yen currency exposure from positions in Japanese equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the Japanese yen during the fiscal year.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Japan Hedged Financials Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Financials Index.

The Fund returned 4.44% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see the table below). The Fund's position in Tokio Marine Holdings, Inc. contributed to performance while its position in Suruga Bank Ltd. detracted from performance. During the fiscal year, the Fund utilized forward foreign currency contracts to offset Japanese yen currency exposure from positions in Japanese equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the Japanese yen during the fiscal year.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as

Edgar Filing: WisdomTree Trust - Form N-CSR

the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.48%.**

Performance as of 3/31/18

	Average Annual Total Return		
	1 Year	3 Year	Since Inception ¹

22 WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds

Table of Contents

Description of Indexes (unaudited)

Below are descriptions of each Index referenced in this report:

The **JPX-Nikkei 400 Local Currency Index** is a free-float adjusted market capitalization index composed of Japanese companies whose main market is the TSE First Section, Second Section, Mothers or JASDAQ market (in principal), calculated in local currency.

The **MSCI Australia Index** is comprised of large- and mid-capitalization segments of the Australia market.

The **MSCI EAFE Index** is a market cap-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan.

The **MSCI EAFE Local Currency Index** is a free float-adjusted market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. and Canada which is calculated in local currency.

The **MSCI EAFE Mid Cap Index** is a free float-adjusted market capitalization index that is designed to measure the performance of mid-capitalization equities in the developed markets excluding the U.S. & Canada.

The **MSCI EAFE Small Cap Index** is comprised of small-capitalization stocks in the MSCI EAFE Index.

The **MSCI EAFE Value Index** is comprised of value stocks in the MSCI EAFE Index.

The **MSCI Europe Index** is a free float-adjusted market capitalization index that is designed to measure the performance of large- and mid-cap stocks within 15 developed market European countries.

The **MSCI Europe Small Cap Index** is comprised of small-capitalization stocks in the MSCI Europe Index.

The **MSCI European Economic and Monetary Union (EMU) Local Currency Index** is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of the developed market countries within the EMU. The securities are priced in local currency terms with no conversion into U.S. dollars.

The **MSCI European Economic and Monetary Union (EMU) Small Cap Local Currency Index** is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of small-cap stocks from developed market countries within the EMU. The securities are priced in local currency terms with no conversion into U.S. dollars.

The **MSCI Germany Local Currency Index** is a capitalization weighted index that measures the performance of the Germany equity market and provides local currency returns, which are not translated back to U.S. dollars.

The **MSCI Japan Index** is a capitalization weighted index that is comprised of stocks in Japan.

The **MSCI Japan Local Currency Index** is a free float-adjusted market capitalization index that is designed to measure developed market equity performance in Japan and calculated in local currency.

The **MSCI Japan Small Cap Index** is comprised of small cap stocks in the MSCI Japan Index.

The **MSCI Japan Small Cap Local Currency Index** is a free float-adjusted market capitalization index that is designed to measure the performance of small cap stocks within Japan and calculated in local currency.

The **MSCI Pacific ex-Japan Index** is a subset of the MSCI EAFE Index that is comprised of stocks in Australia, Hong Kong, Singapore and New Zealand.

The **MSCI Pacific ex-Japan Value Index** is comprised of value stocks in the MSCI Pacific ex-Japan Index.

Edgar Filing: WisdomTree Trust - Form N-CSR

The **WisdomTree Australia Dividend Index** is comprised of dividend-paying companies incorporated in Australia.

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 23

Table of Contents

Description of Indexes (unaudited) (continued)

The **WisdomTree DEFA International Hedged Equity Index** is comprised of dividend-paying companies in the industrialized world, excluding Canada and the United States, and is designed to neutralize exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies reflected in the index. This index is based on the WisdomTree International Equity Index.

The **WisdomTree Europe Hedged Equity Index** is designed to provide exposure to European equities while at the same time neutralizing exposure to fluctuations between the Euro and the U.S. dollar.

The **WisdomTree Europe Hedged SmallCap Equity Index** is a dividend weighted index designed to provide exposure to small cap equity securities within Europe, while at the same time neutralizing exposure to fluctuations between the value of the Euro and the U.S. dollar.

The **WisdomTree Europe Quality Dividend Growth Index** is a fundamentally weighted index that measures the performance of dividend-paying common stocks with growth characteristics selected from the WisdomTree International Equity Index.

The **WisdomTree Europe SmallCap Dividend Index** is comprised of the small-capitalization segment of the European dividend-paying market.

The **WisdomTree Germany Hedged Equity Index** is designed to provide exposure to Germany equity markets while at the same time neutralizing exposure to fluctuations of the Euro movements relative to the U.S. dollar. In this sense, the Index hedges against fluctuations in the relative value of the Euro against the U.S. dollar.

The **WisdomTree International Dividend ex-Financials Index** is comprised of high dividend-yielding international stocks outside the financial sector.

The **WisdomTree International Dividend Top 100 Index** is comprised of the 100 highest dividend-yielding companies in the WisdomTree International LargeCap Dividend Index.

The **WisdomTree International Equity Index** is comprised of dividend-paying companies in the industrialized world, excluding Canada and the United States.

The **WisdomTree International Hedged Quality Dividend Growth Index** is designed to provide exposure to the developed market companies while at the same time neutralizing exposure to fluctuations between the value of foreign currencies and the U.S. dollar.

The **WisdomTree International High Dividend Index** is comprised of companies with high dividend yields selected from the WisdomTree International Equity Index.

The **WisdomTree International LargeCap Dividend Index** is comprised of the large-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

The **WisdomTree International MidCap Dividend Index** is comprised of the mid-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

The **WisdomTree International Quality Dividend Growth Index** is a fundamentally weighted index designed to provide exposure to dividend paying developed market companies.

The **WisdomTree International SmallCap Dividend Index** is comprised of the small-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

The **WisdomTree Japan Dividend Index** is comprised of dividend-paying companies incorporated in Japan, listed on the Tokyo Stock Exchange and that meet other requirements necessary to be included in the WisdomTree International Equity Index.

Edgar Filing: WisdomTree Trust - Form N-CSR

The **WisdomTree Japan Hedged Equity Index** is designed to provide exposure to Japanese equity markets while at the same time neutralizing exposure to fluctuations of the Japanese Yen movements relative to the U.S. dollar. This index is based on the WisdomTree Japan Dividend Index.

24 WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds

Table of Contents

Description of Indexes (unaudited) (concluded)

The **WisdomTree Japan Hedged Financials Index** is designed to provide exposure to Japanese financial companies while at the same time neutralizing exposure to fluctuations between the Yen and the U.S. dollar.

The **WisdomTree Japan Hedged Quality Dividend Growth Index** is a fundamentally weighted index that measures the performance of dividend-paying common stocks with growth characteristics selected from the WisdomTree International Equity Index while at the same time neutralizing exposure to fluctuations between the Yen and the U.S. dollar.

The **WisdomTree Japan Hedged SmallCap Equity Index** is designed to provide exposure to the small-capitalization segment of the Japanese equity markets while at the same time neutralizing exposure to fluctuations of the Japanese Yen movements relative to the U.S. dollar.

The **WisdomTree Japan SmallCap Dividend Index** is comprised of dividend-paying small-capitalization companies in Japan.

The **WisdomTree Pacific ex-Japan Equity Income Index** is comprised of companies with high dividend yields selected from the WisdomTree Pacific ex-Japan Dividend Index.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2017 to March 31, 2018.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 10/1/17 to 3/31/18** to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

* Non-income producing security.

(a) Security, or portion thereof, was on loan at March 31, 2018 (See Note 2).

(b) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

(c) Affiliated company (See Note 3).

(d) Rate shown represents annualized 7-day yield as of March 31, 2018.

Edgar Filing: WisdomTree Trust - Form N-CSR

(e) At March 31, 2018, the total market value of the Fund's securities on loan was \$20,511,870 and the total market value of the collateral held by the Fund was \$21,659,074. The total market value of the collateral includes non-cash U.S. Government and U.S. Government Agencies securities collateral having a value of \$6,312,645. Total securities on loan may not correspond with the amounts identified in the Schedule of Investments because pending sales of securities on loan may be in the process of recall from the borrower.

* Non-income producing security.

(a) Security, or portion thereof, was on loan at March 31, 2018 (See Note 2).

(b) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

(c) Rate shown represents annualized 7-day yield as of March 31, 2018.

(d) At March 31, 2018, the total market value of the Fund's securities on loan was \$673,665 and the total market value of the collateral held by the Fund was \$728,579. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$131,234. Total securities on loan may not correspond with the amounts identified in the Schedule of Investments because pending sales of securities on loan may be in the process of recall from the borrower.

* Non-income producing security.

(a) Security, or portion thereof, was on loan at March 31, 2018 (See Note 2).

(b) Rate shown represents annualized 7-day yield as of March 31, 2018.

(c) At March 31, 2018, the total market value of the Fund's securities on loan was \$542,027,489 and the total market value of the collateral held by the Fund was \$575,194,221. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$183,690,842. Total securities on loan may not correspond with the amounts identified in the Schedule of Investments because pending sales of securities on loan may be in the process of recall from the borrower.

¹ Based on average shares outstanding.

Edgar Filing: WisdomTree Trust - Form N-CSR

Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees for the WisdomTree Europe Hedged Equity Fund, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

³ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.

⁴ Annualized.

⁵ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

See Notes to Financial Statements.

Table of Contents**Financial Highlights** (concluded)**WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds**

Selected data for a share of beneficial interest outstanding throughout the period is presented below:

WisdomTree Japan SmallCap Dividend Fund	For the Year Ended March 31, 2018	For the Year Ended March 31, 2017	For the Year Ended March 31, 2016	For the Year Ended March 31, 2015	For the Period Ended March 31, 2014
Net asset value, beginning of period	\$ 66.48	\$ 55.30	\$ 54.09	\$ 50.28	\$ 48.84
Investment operations:					
Net investment income ¹	1.47	1.11	0.91	0.71	0.72
Net realized and unrealized gain	14.27	11.16	1.00	3.89	1.84
Total from investment operations	15.74	12.27	1.91	4.60	2.56
Dividends to shareholders:					
Net investment income	(1.29)	(1.09)	(0.70)	(0.79)	(1.12)
Net asset value, end of period	\$ 80.93	\$ 66.48	\$ 55.30	\$ 54.09	\$ 50.28
TOTAL RETURN²	23.84%	22.43%	3.51%	9.26%	5.41%
RATIOS/SUPPLEMENTAL DATA:					
Net assets, end of period (000 s omitted)	\$ 1,100,591	\$ 475,304	\$ 423,031	\$ 286,651	\$ 284,106
Ratios to average net assets ³ of:					
Expenses ⁴	0.58%	0.58%	0.58%	0.59% ⁵	0.58% ⁶
Net investment income	1.94%	1.84%	1.65%	1.40%	1.44% ⁶
Portfolio turnover rate ⁷	18%	33%	29%	36%	21%

¹ Based on average shares outstanding.

² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

³ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.

⁴ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.

⁵ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.

⁶ Annualized.

⁷ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

See Notes to Financial Statements.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of March 31, 2018, the Trust consisted of 80 operational investment funds (each a Fund, collectively, the Funds). In accordance with Accounting Standards Update (ASU) 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

Fund	Commencement of Operations
WisdomTree Australia Dividend Fund (Australia Dividend Fund)	June 16, 2006
WisdomTree Europe Hedged Equity Fund (Europe Hedged Equity Fund and also referred to herein as Currency Hedged Equity Fund)	December 31, 2009
WisdomTree Europe Hedged SmallCap Equity Fund (Europe Hedged SmallCap Equity Fund and also referred to herein as Currency Hedged Equity Fund)	March 4, 2015
WisdomTree Europe Quality Dividend Growth Fund (Europe Quality Dividend Growth Fund)	May 7, 2014
WisdomTree Europe SmallCap Dividend Fund (Europe SmallCap Dividend Fund)	June 16, 2006
WisdomTree Germany Hedged Equity Fund (Germany Hedged Equity Fund and also referred to herein as Currency Hedged Equity Fund)	October 17, 2013
WisdomTree International Dividend ex-Financials Fund (International Dividend ex-Financials Fund)	June 16, 2006
WisdomTree International Equity Fund (International Equity Fund)	June 16, 2006
WisdomTree International Hedged Quality Dividend Growth Fund (International Hedged Quality Dividend Growth Fund and also referred to herein as Currency Hedged Equity Fund)	May 7, 2014
WisdomTree International High Dividend Fund (International High Dividend Fund)	June 16, 2006
WisdomTree International LargeCap Dividend Fund (International LargeCap Dividend Fund)	June 16, 2006
WisdomTree International MidCap Dividend Fund (International MidCap Dividend Fund)	June 16, 2006
WisdomTree International Quality Dividend Growth Fund (International Quality Dividend Growth Fund)	April 7, 2016
WisdomTree International SmallCap Dividend Fund (International SmallCap Dividend Fund)	June 16, 2006
WisdomTree Japan Hedged Equity Fund (Japan Hedged Equity Fund and also referred to herein as Currency Hedged Equity Fund)	June 16, 2006
WisdomTree Japan Hedged Financials Fund (Japan Hedged Financials Fund and also referred to herein as Currency Hedged Equity Fund)	April 8, 2014
WisdomTree Japan Hedged Quality Dividend Growth Fund (Japan Hedged Quality Dividend Growth Fund and also referred to herein as Currency Hedged Equity Fund)	April 9, 2015
WisdomTree Japan Hedged SmallCap Equity Fund (Japan Hedged SmallCap Equity Fund and also referred to herein as Currency Hedged Equity Fund)	June 28, 2013
WisdomTree Japan SmallCap Dividend Fund (Japan SmallCap Dividend Fund)	June 16, 2006

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. (WTAM), the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Edgar Filing: WisdomTree Trust - Form N-CSR

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

154 WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds

Table of Contents**Notes to Financial Statements** (continued)

Investment Valuation The net asset value (NAV) of each Fund s shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund s net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund s NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments, which include derivatives, will be fair valued in accordance with the Fund s pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV Calculation Time that may materially affect the value of a Fund s investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund s assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a

Edgar Filing: WisdomTree Trust - Form N-CSR

security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 155

Table of Contents**Notes to Financial Statements** (continued)

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2018 in valuing each Fund's assets:

* Please refer to the Schedule of Investments for a breakdown of the valuation by industry type and/or country.

The following is a summary of transfers between fair value measurement levels that occurred during fiscal year ended March 31, 2018. The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

	Transfers from Level 1 to Level 2¹	Transfers from Level 1 to Level 3	Transfers from Level 2 to Level 1
International SmallCap Dividend Fund	\$ 566,705	\$	\$
Japan Hedged Financials Fund	84,483		
Japan Hedged SmallCap Equity Fund	300,913		
Japan SmallCap Dividend Fund	375,068		

¹ Transfers from Level 1 to Level 2 are as a result of the unavailability of a quoted price in an active market for identical investments as of March 31, 2018.

During the fiscal year ended March 31, 2018, there were no significant transfers into or out of Level 3 of the fair value hierarchy.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts during the year ended March 31, 2018 and open positions in such derivatives as of March 31, 2018 are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements also contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at March 31, 2018 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 166 and 167. At March 31, 2018, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of March 31, 2018, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

¹ The volume of derivative activity for the period is based on intra-month balances.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income (net of foreign taxes withheld, if any) is recognized on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Non-cash dividend income is recognized at the fair value of securities received on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Income earned from securities lending activities (i.e. Securities lending income), net of fees payable to the securities borrower and/or securities lending agent, is accrued daily.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net increase (decrease) in unrealized appreciation (depreciation) from investment transactions*, respectively, on the Statements of Operations. Realized and unrealized foreign exchange gains or losses from foreign currency contracts are included in *net realized gain (loss) from foreign currency contracts* and *net increase (decrease) in unrealized appreciation/depreciation from foreign currency contracts*, respectively, on the Statements of Operations. Realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency related transactions* and/or *increase (decrease) in unrealized appreciation (depreciation) from translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Table of Contents**Notes to Financial Statements** (continued)

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Acquired fund fees and expenses (which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies) are not operating expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under *Service fees*, of up to 0.0044% per annum of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts The Funds, other than the Currency Hedged Equity Funds, utilized forward foreign currency contracts (Forward Contracts) primarily to facilitate foreign security settlements. The Currency Hedged Equity Funds utilized Forward Contracts to dynamically obtain either a net long or net short exposure to foreign currencies consistent with each Currency Hedged Equity Fund's investment objective. A Forward Contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds and included in *net increase (decrease) in unrealized appreciation (depreciation) from foreign currency contracts* on the Statements of Operations. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have settled are included in *net realized gain (loss) from foreign currency contracts* on the Statements of Operations.

Futures Contracts Each of the Europe Hedged Equity Fund, International Hedged Quality Dividend Growth Fund and Japan SmallCap Dividend Fund utilized equity futures contracts on a temporary basis during the period to obtain market exposure consistent with its investment objective during the Fund's annual portfolio rebalance. When a Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. When a Fund sells a listed futures contract, it agrees to sell a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange-listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation.

Edgar Filing: WisdomTree Trust - Form N-CSR

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the initial margin. Subsequent payments, known as variation margin, generally are made or received by the Fund each day or at other agreed-upon time periods depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures. When a Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the

164 WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds

Table of Contents**Notes to Financial Statements** (continued)

risk associated with the use of leverage and other related risks. To cover its position, a Fund will segregate assets consisting of, or take other measures with respect to, cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, will cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. This will function as a practical limit on the amount of leverage which a Fund may undertake and on the potential increase in the speculative character of a Fund's outstanding portfolio securities.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

The Funds' security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Funds and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned.

Edgar Filing: WisdomTree Trust - Form N-CSR

Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 165

Table of Contents**Notes to Financial Statements** (continued)

market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of March 31, 2018, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

Fund	Gross Amounts in the Statements of	Assets			Net Amount	Gross Amounts in the Statements of	Liabilities

¹ The amount of collateral presented has been limited such that the net amount by counterparty cannot be less than zero.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for BNY Mellon Asset Management North America Corporation (BNY Mellon AMNA) to provide sub-advisory services to the Funds. BNY Mellon AMNA is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Edgar Filing: WisdomTree Trust - Form N-CSR

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee, accrued daily and paid monthly in arrears, of up to 0.0044% per annum

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 167

¹ WTAM has contractually agreed to waive a portion of its advisory fee by the waiver amount listed per annum based on the average daily net assets through the expiration date listed, unless earlier terminated by the Board of Trustees of the Trust for any reason. The dollar amount of contractual fee waivers are included in Expense waivers on the Statements of Operations.

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees for each Fund's investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations in Expense waivers.

Affiliated holdings are funds which are managed by, or an affiliate of, WTAM. Transactions with affiliated funds during the fiscal year ended March 31, 2018 are as follows:

Fund	Value at 3/31/2017	Purchases/ Additions	Sales/ Reductions	Realized Gain/(Loss)	Change in Unrealized Appreciation/ Depreciation	Value at 3/31/2018	Dividend Income

International SmallCap Dividend Fund	275		21,018	442
Japan Hedged Equity Fund	117		6,553	127
Japan SmallCap Dividend Fund	27		2,196	22

Edgar Filing: WisdomTree Trust - Form N-CSR

* No shares were held in this Fund by WTAM at the end of the period.

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 169

Table of Contents**Notes to Financial Statements** (continued)

At March 31, 2018, approximately 25% of the International Quality Dividend Growth Fund's outstanding shares were held by an affiliated fund.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2018, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a portfolio of equity securities and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding short-term investments) for the fiscal year ended March 31, 2018 are shown in the following table. Realized gains and losses on sales resulting from in-kind capital share redemptions, as shown on the Statements of Operations, are not recognized by the Funds for tax purposes.

Fund	Purchases	Sales	In-kind Capital Share Transactions	
			Purchases	Sales

Japan Hedged SmallCap Equity Fund	984,502	(12,450,741)	11,466,239
Japan SmallCap Dividend Fund	1,563,589	(8,335,601)	6,772,012

The differences are primarily due to redemptions-in-kind, foreign currency transactions, investments in passive foreign investment companies, expiration of capital loss carryforwards and foreign capital gains taxes.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2018, the Funds did not have any liabilities for unrecognized tax benefits relating to uncertain income tax positions they have taken or expect to take in the future. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in

Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended March 31, 2018, remains subject to examination by taxing authorities.

7. ADDITIONAL INFORMATION

The Board of Trustees, after careful consideration, approved the liquidation of the WisdomTree Global ex-U.S. Hedged Dividend Fund, the WisdomTree Global ex-U.S. Hedged Real Estate Fund, the WisdomTree Japan Hedged Capital Goods Fund, the WisdomTree Japan Hedged Health Care Fund, the WisdomTree Japan Hedged Real Estate Fund and the WisdomTree United Kingdom Hedged Equity Fund.

The last day of secondary market trading of shares of the Funds on their respective exchanges was March 16, 2018. Shareholders were able to sell Fund shares through a broker in the standard manner through this date. Customary brokerage charges may have applied to such transactions. Each Fund was closed to new investors after the close of business on March 16, 2018.

Beginning on or about this date, each Fund was in the process of liquidating its portfolio assets. This caused each Fund to increase its cash holdings and deviate from the investment objective and strategies stated in its prospectus.

Edgar Filing: WisdomTree Trust - Form N-CSR

Shareholders that remained in the Funds had their shares automatically redeemed and received cash in an amount equal to the net asset value of their shares as of the close of business on March 23, 2018 and were not charged any transaction fees by the Funds. This amount included any accrued capital gains and dividends.

Whether an investor sold their shares or were automatically redeemed, an investor generally would have recognized a capital gain (or loss) equal to the amount received above (or below) their adjusted cost basis in such shares.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more WisdomTree investment companies since 2006.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Inflation protected securities do not eliminate risks associated with inflation or deflation. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only by Authorized Participants in large creation unit size aggregations of shares.

Management's Discussion of Funds Performance (unaudited)

Market Environment Overview

The emerging markets, as measured by the MSCI Emerging Markets Index, a broad measure of equity performance for emerging markets, returned 24.93% in the 12-month period that ended March 31, 2018. (the period). The global ex-U.S. equity markets, as measured by the MSCI ACWI ex-USA Index, a broad measure of equity performance for both developed and emerging markets excluding the U.S., returned 16.53% over the period. The MSCI ACWI ex-USA Index outperformed the S&P 500 Index by 2.54% and the MSCI Emerging Markets Index outperformed the S&P 500 Index by 10.94%. In local currency terms, the MSCI Emerging Markets Index and the MSCI ACWI ex-USA Index returned 22.01% and 8.93%, respectively. It is important to note the variations in the returns of these international exposures in both U.S. dollar and local currency terms. Particularly within the emerging markets, volatility in commodities prices combined with geopolitical risk led to mixed performance between emerging market currencies relative to the U.S. dollar over the period. On average, returns from foreign currency boosted returns experienced by U.S. investors holding emerging market securities.

Within the MSCI Emerging Markets Index, in U.S. dollar terms, all eleven sectors were positive. The Information Technology and Healthcare sectors led in performance, while the Utilities and Telecommunications sectors lagged. Within the MSCI ACWI ex-USA Index, in local currency terms, all but one of the eleven sectors were positive, with the Materials and Energy sectors leading and the Telecommunication Services and Real Estate sectors lagging. It is particularly important to note the effects of the U.S. dollar, which depreciated against most global currencies during the period.

Emerging markets were the best performing region among global asset classes for the period, as they have been one of the largest benefactors from the rebound in global growth. Much of the strong performance in emerging markets has been in the energy space, as oil has rallied strongly off the lows in mid-2017.

In Brazil, economic growth rebounded through the end of 2017 and has continued to be one of the main focal points for Brazilian markets, along with higher oil prices. Brazilian equities rallied strongly from mid 2017 through 2018, despite bouts of volatility from geopolitical risk.

Asian markets have also undergone many noteworthy changes, particularly in China. China has been the best performing country within emerging markets, led by large tech technology companies like Alibaba and Tencent. Liberalization of financial markets, as well as the rise of their technology sector, have driven these and other companies to record highs. The hard landing fears of a China slowdown seemed to have subsided, as China has been moving towards sustainable growth levels, backed by strong economic data. In June 2017, MSCI announced that it would include mainland China listed A-shares in their emerging market indexes for the first time beginning in May 2018. In early March 2018, the National People's Congress removed the two-term limit on the presidency, allowing President Xi to serve indefinitely. While no definitive steps have been taken, concerns remain about U.S.-China relations as they relate to North Korea, trade, and intellectual property rights.

In Russia, volatility continues to be a concern as geopolitical tension is juxtaposed against a rebound in energy prices. Employment and consumer confidence remain strong due to the rebound in oil and natural gas. However, concerns over hacking, election meddling, and supporting controversial regimes has led the U.S. to impose even harsher economic sanctions.

WisdomTree Funds Performance Overview

The following table reflects the WisdomTree Funds' performance versus capitalization-weighted benchmark indexes:

Ticker	WisdomTree Fund	1-Year NAV Return	Performance Benchmark	1-Year Return	Difference
AXJL	WisdomTree Asia Pacific ex-Japan Fund	11.75%	MSCI Pacific ex-Japan/MSCI AC Asia Pacific ex-Japan Spliced Index	20.71%	-8.96%
CXSE	WisdomTree China ex-State-Owned Enterprises Fund	53.95%	FTSE China 50 Index	25.22%	28.73%
EMCG	WisdomTree Emerging Markets Consumer Growth Fund	19.05%	MSCI Emerging Markets Index	24.93%	-5.88%
XSOE	WisdomTree Emerging Markets ex-State-Owned Enterprises Fund	30.30%	MSCI Emerging Markets Index	24.93%	5.37%
DEM	WisdomTree Emerging Markets High Dividend Fund	20.98%	MSCI Emerging Markets Index	24.93%	-3.95%
DGRE	WisdomTree Emerging Markets Quality Dividend Growth Fund	19.44%	MSCI Emerging Markets Index	24.93%	-5.49%
DGS	WisdomTree Emerging Markets SmallCap Dividend Fund	23.55%	MSCI Emerging Markets Small Cap Index	18.62%	4.93%
DNL	WisdomTree Global ex-U.S. Quality Dividend Growth Fund	20.18%	MSCI Japan Value/MSCI AC World ex-USA Growth Spliced Index	19.92%	0.26%
DRW	WisdomTree Global ex-U.S. Real Estate Fund	21.90%	Dow Jones Global ex-U.S. Select Real Estate Securities Index	10.09%	11.81%
DEW	WisdomTree Global High Dividend Fund	7.02%	MSCI Europe Value/MSCI AC World Spliced Index	14.85%	-7.83%
EPI	WisdomTree India Earnings Fund	8.46%	MSCI India Index	10.23%	-1.77%
GULF	WisdomTree Middle East Dividend Fund	9.49%	MSCI Arabian Markets ex-Saudi Arabia Index	1.43%	8.06%

WisdomTree's emerging market and global ex-U.S. fundamental-weighted funds are designed to track indexes based on the dividend or earnings stream generated by the companies included in the index. The dividend stream is defined as the sum of all dividends paid over the prior twelve months for each company. The earnings stream is defined as the total dollar level of earnings for all companies within each index. There are two primary factors that drive performance differentials versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors or countries. The second is stock selection within each sector or country. Both are determined as part of WisdomTree's rules based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the index rebalancing dates based on the dividend stream or earnings stream.

While the overall emerging markets performed in line or above both the broad U.S. and developed international markets, there was a noticeable difference in performance between the different sectors and countries. Most notably, the WisdomTree China ex-State-Owned Enterprises Fund (CXSE) was the best performing fund over the full period, outperforming the FTSE China 50 Index by 28.73% and the MSCI Emerging Markets Index by 29.02% based on NAV. CXSE's strategy aims to screen out companies in which the state owns 20% or more which has led to overweights in Information Technology and Consumer Cyclical sectors and underweights in Financials and Energy sectors.

Among the WisdomTree global and global-ex U.S. funds, the WisdomTree Global ex-U.S. Real Estate Fund (DRW) was one of the best performing. DRW returned 21.90% over the period based on NAV, and it outperformed its benchmark, the Dow Jones Global ex-U.S. Select Real Estate Securities Index by 11.81%. The main reason for this outperformance is attributed to its largest country exposures in Hong Kong and China. One of the worst performing funds over the period was the WisdomTree Global High Dividend Fund (DEW) which trailed its benchmark by 7.83% based on NAV. This was in large part due to the largest country weight being the U.S., which had marginally positive performance during the period.

Management's Discussion of Funds' Performance

(unaudited) (concluded)

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 16-18 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and an index is not available for direct investment. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or taxes that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month-end performance information visit www.wisdomtree.com.

The WisdomTree Asia Pacific ex-Japan Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Asia Pacific ex-Japan Index.

The Fund returned 11.75% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited from its investment in China. The Fund's investment in Australia detracted from performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.48%.**

Performance as of 3/31/18

	Average Annual Total Return				Since Inception ¹
	1 Year	3 Year	5 Year	10 Year

The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's net and gross annual expenses ratios were 0.32% and 0.63%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.32% through July 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

Performance as of 3/31/18

	Average Annual Total Return		
	1 Year	3 Year	Since Inception ¹
Fund NAV Returns	19.05%	4.23%	3.38%
Fund Market Price Returns	20.76%	4.81%	3.63%
<i>WisdomTree Emerging Markets Consumer Growth Index</i>	19.39%	4.70%	4.03%
<i>MSCI Emerging Markets Index</i>	24.93%	8.81%	5.92%

¹ Total returns are calculated based on the commencement of Fund trading on the NASDAQ on September 27, 2013.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The Fund returned 21.90% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited most from its position in China, which had positive performance. The Fund's position in Taiwan contributed negatively to performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.58%.**

Performance as of 3/31/18

	Average Annual Total Return				Since Inception ¹
	1 Year	3 Year	5 Year	10 Year	
Fund NAV Returns	21.90%	8.60%	6.91%	3.67%	1.75%
Fund Market Price Returns	22.06%	8.73%	6.80%	3.51%	1.66%
<i>WisdomTree International Real Estate/Global ex-U.S. Real Estate Spliced Index²</i>	22.25%	8.84%	7.14%	3.73%	1.92%
<i>Dow Jones Global ex-U.S. Select Real Estate Securities Index</i>	10.09%	2.31%	3.26%	2.67%	0.12%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 5, 2007.

² WisdomTree International Real Estate Index through June 17, 2011; WisdomTree Global ex-U.S. Real Estate Index thereafter.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

Table of Contents

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2017 to March 31, 2018.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/1/17 to 3/31/18 to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

* Non-income producing security.

Security is being fair valued using significant unobservable inputs by a pricing committee under the direction of the Board of Trustees. The aggregate value of fair valued securities is \$98,267, which represents 0.11% of net assets.

(a) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

(b) Security, or portion thereof, was on loan at March 31, 2018 (See Note 2).

(c) Rate shown represents annualized 7-day yield as of March 31, 2018.

(d) At March 31, 2018, the total market value of the Fund's securities on loan was \$627,142 and the total market value of the collateral held by the Fund was \$661,168. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$418,078.

ADR American Depositary Receipt

GDR Global Depositary Receipt

NVDR Non-Voting Depositary Receipt

Reg S Regulation S provides an exclusion from the registration requirements of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Portfolio turnover rate ⁸	20%	37%	143%	30%	21%

¹ Based on average shares outstanding.

² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not

Edgar Filing: WisdomTree Trust - Form N-CSR

been waived (Notes 2 and 3).

- ³ Includes a voluntary reimbursement from the sub-advisor for investment losses on certain foreign exchange transactions during the period. Excluding this voluntary reimbursement, total return would have been unchanged.
- ⁴ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- ⁵ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- ⁶ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.48%.
- ⁷ Annualized.
- ⁸ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.
- ⁹ Effective June 30, 2017, the investment advisor contractually agreed to limit the advisory fee to 0.32% through July 31, 2018, unless earlier terminated by the Board of Trustees of the Trust.
- ¹⁰ Effective July 1, 2015, the investment advisor contractually agreed to limit the advisory fee to 0.53% through July 31, 2017, unless earlier terminated by the Board of Trustees of the Trust.
- ¹¹ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.63%.
- ¹² The information reflects the investment objective and strategy of the WisdomTree China Dividend ex-Financials Fund through June 30, 2015 and the investment objective and strategy of the WisdomTree China ex-State-Owned Enterprises Fund thereafter.

See Notes to Financial Statements.

¹ Based on average shares outstanding.

Edgar Filing: WisdomTree Trust - Form N-CSR

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- ⁴ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- ⁵ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.63%.
- ⁶ Annualized.
- ⁷ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.
- ⁸ Includes a voluntary reimbursement from the sub-advisor for investment losses on certain foreign exchange transactions during the period. Excluding this voluntary reimbursement, total return would have been unchanged.
- ⁹ Effective June 30, 2017, the investment advisor contractually agreed to limit the advisory fee to 0.32% through July 31, 2018, unless earlier terminated by the Board of Trustees of the Trust.

- ⁷ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.88%.
- ⁸ Annualized.
- ⁹ Includes a reimbursement from the sub-advisor for an operational error. Excluding the reimbursement, total return would have been unchanged (Note 3).

See Notes to Financial Statements.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the **Trust**) is registered under the Investment Company Act of 1940, as amended (the **1940 Act**), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of March 31, 2018, the Trust consisted of 80 operational investment funds (each a **Fund**, collectively, the **Funds**). In accordance with Accounting Standards Update (ASU) 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

Fund	Commencement of Operations
WisdomTree Asia Pacific ex-Japan Fund (Asia Pacific ex-Japan Fund)	June 16, 2006
WisdomTree China ex-State-Owned Enterprises Fund (China ex-State-Owned Enterprises Fund)	September 19, 2012
WisdomTree Emerging Markets Consumer Growth Fund (Emerging Markets Consumer Growth Fund)	September 27, 2013
WisdomTree Emerging Markets ex-State-Owned Enterprises Fund (Emerging Markets ex-State-Owned Enterprises Fund)	December 10, 2014
WisdomTree Emerging Markets High Dividend Fund (Emerging Markets High Dividend Fund)	July 13, 2007
WisdomTree Emerging Markets Quality Dividend Growth Fund (Emerging Markets Quality Dividend Growth Fund)	August 1, 2013
WisdomTree Emerging Markets SmallCap Dividend Fund (Emerging Markets SmallCap Dividend Fund)	October 30, 2007
WisdomTree Global ex-U.S. Quality Dividend Growth Fund (Global ex-U.S. Quality Dividend Growth Fund)	June 16, 2006
WisdomTree Global ex-U.S. Real Estate Fund (Global ex-U.S. Real Estate Fund)	June 5, 2007
WisdomTree Global High Dividend Fund (Global High Dividend Fund)	June 16, 2006
WisdomTree India Earnings Fund (India Earnings Fund) (consolidated)	February 22, 2008
WisdomTree Middle East Dividend Fund (Middle East Dividend Fund)	July 16, 2008

The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the **Portfolio**), a wholly owned subsidiary organized in the Republic of Mauritius (**Mauritius**). The Portfolio was incorporated under the provisions of the Mauritius Companies Act, 2001 and holds a Global Business License Category 1 issued by the Financial Services Commission. The Portfolio is advised by WisdomTree Asset Management, Inc. (**WTAM**) and is sub-advised by BNY Mellon Asset Management North America Corporation (**BNY Mellon AMNA**).

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (**Index**) developed by WisdomTree Investments, Inc. (**WisdomTree Investments**). WisdomTree Investments is the parent company of WTAM, the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (**FASB**) Accounting Standards Codification (the **Codification**) is the exclusive reference of authoritative U.S. generally accepted accounting principles (**GAAP**) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (**SEC**) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Edgar Filing: WisdomTree Trust - Form N-CSR

Basis of Consolidation The financial statements for the India Earnings Fund include the accounts of a wholly-owned and controlled Mauritius subsidiary (the Subsidiary). The Fund's accompanying financial statements reflect the financial position and the results of operations on a consolidated basis with its Subsidiary. All intercompany accounts and transactions have been eliminated in the consolidation.

94 WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds

Table of Contents**Notes to Financial Statements** (continued)

Investment Valuation The net asset value (NAV) of each Fund 's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund 's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund 's NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less), if any, generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities, may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund 's investments, which include derivatives, will be fair valued in accordance with the Fund 's pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund 's next NAV Calculation Time that may materially affect the value of a Fund 's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity 's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund 's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Edgar Filing: WisdomTree Trust - Form N-CSR

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an

WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds 95

Table of Contents**Notes to Financial Statements** (continued)

event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2018 in valuing each Fund's assets:

* Please refer to the Schedule of Investments for a breakdown of the valuation by industry type and/or country.

** Security is being fair valued using significant unobservable inputs by the Pricing Committee.

The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

There were no transfers into or out of any fair value measurement levels during the fiscal year ended March 31, 2018.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts during the year ended March 31, 2018 and open positions in such derivatives as of March 31, 2018 are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements also contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at March 31, 2018 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the

Table of Contents**Notes to Financial Statements** (continued)

payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on page 103. At March 31, 2018, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of March 31, 2018, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

Fund	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Value	Balance Sheet Location	Value
Asia Pacific ex-Japan Fund				
Foreign exchange contracts	Unrealized appreciation on foreign currency contracts	\$ 27	Unrealized depreciation on foreign currency contracts	\$

Foreign exchange contracts	16,962	37,292

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income (net of foreign taxes withheld, if any) is recognized on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Non-cash dividend income is recognized at the fair value of securities received on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Interest income (including amortization of premiums and accretion of discounts), net of any foreign taxes withheld, is accrued daily. Generally, amortization of premiums and accretion of discounts are recognized daily using the interest method (also known as the scientific amortization method). Income earned from securities lending activities (i.e.

Edgar Filing: WisdomTree Trust - Form N-CSR

Securities lending income), net of fees payable to the securities borrower and/or securities lending agent, is accrued daily.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net increase (decrease) in unrealized appreciation (depreciation) from investment transactions*, respectively, on the Statements of

100 WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds

Table of Contents**Notes to Financial Statements** (continued)

Operations. Realized and unrealized foreign exchange gains or losses from foreign currency contracts are included in *net realized gain (loss) from foreign currency contracts* and *net increase (decrease) in unrealized appreciation/depreciation from foreign currency contracts*, respectively, on the Statements of Operations. Realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency related transactions* and/or *increase (decrease) in unrealized appreciation (depreciation) from translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Acquired fund fees and expenses (which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies) are not operating expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under *Service fees*, of up to 0.0044% per annum of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency contracts to facilitate local securities settlements or to protect against currency exposure. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts The Funds utilized forward foreign currency contracts (Forward Contracts) primarily to facilitate foreign security settlements. A Forward Contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Edgar Filing: WisdomTree Trust - Form N-CSR

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds and included in *net increase (decrease) in unrealized appreciation (depreciation) from foreign currency contracts* on the

WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds 101

Table of Contents**Notes to Financial Statements** (continued)

Statements of Operations. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have settled are included in *net realized gain (loss) from foreign currency contracts* on the Statements of Operations.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

The Funds' security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Funds and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash

Edgar Filing: WisdomTree Trust - Form N-CSR

collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

Table of Contents**Notes to Financial Statements** (continued)

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of March 31, 2018, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

Fund	Assets			Net Amount	Gross Amounts in the Statements of Assets and Liabilities	Liabilities			Net Amount

¹ The amount of collateral presented has been limited such that the net amount by counterparty cannot be less than zero.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment

Edgar Filing: WisdomTree Trust - Form N-CSR

company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is

WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds 103

Table of Contents**Notes to Financial Statements** (continued)

available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital. The India Earnings Fund has filed an election to treat the Portfolio as a pass-through entity for tax purposes.

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for BNY Mellon AMNA to provide sub-advisory services to the Funds. BNY Mellon AMNA is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee, accrued daily and paid monthly in arrears, of up to 0.0044% per annum of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Fund	Advisory Fee Rate (before fee waiver)	Advisory Fee Waiver¹	Advisory Fee Waiver Expiration Date
Asia Pacific ex-Japan Fund	0.48%		
China ex-State-Owned Enterprises Fund	0.63%	(0.31)% ²	July 31, 2018
Emerging Markets Consumer Growth Fund	0.63%	(0.31)% ³	July 31, 2018
Emerging Markets ex-State-Owned Enterprises Fund	0.58%	(0.26)% ³	July 31, 2018
Emerging Markets High Dividend Fund	0.63%		
Emerging Markets Quality Dividend Growth Fund	0.63%	(0.31)% ³	July 31, 2018
Emerging Markets SmallCap Dividend Fund	0.63%		
Global ex-U.S. Quality Dividend Growth Fund	0.58%		
Global ex-U.S. Real Estate Fund	0.58%		
Global High Dividend Fund	0.58%		
India Earnings Fund (<i>consolidated</i>)	0.83%		
Middle East Dividend Fund	0.88%		

¹ WTAM has contractually agreed to waive a portion of its advisory fee by the waiver amount listed per annum based on the average daily net assets through the expiration date listed, unless earlier terminated by the Board of Trustees of the Trust for any reason. The dollar amount of contractual fee waivers are included in the Expense waivers on the Statements of Operations.

² Effective June 30, 2017. Prior to June 30, 2017, the Fund's advisory fee waiver was 0.10% per annum based on average daily net assets.

³ Effective June 30, 2017.

During the fiscal year ended March 31, 2018, the Middle East Dividend Fund received a reimbursement from BNY Mellon AMNA of \$613 resulting from an operational error. The dollar amount of the reimbursement is shown in the Statements of Operations in *Net realized gain from*

Edgar Filing: WisdomTree Trust - Form N-CSR

payment by sub-advisor .

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees for each Fund's investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations in *Expense waivers* .

Related Party Transactions WTAM or its affiliates may from time to time own shares of a Fund. As of March 31, 2018, WTAM held shares of the following Funds which were purchased through an unaffiliated broker in ordinary brokerage transactions in the secondary market in which the Funds' shares trade:

Fund	Fund Shares held by WTAM	Market Value of Fund Shares held by WTAM	Dividends paid to WTAM on Fund Shares
China ex-State-Owned Enterprises Fund	44	\$ 3,881	\$ 41
Emerging Markets ex-State-Owned Enterprises Fund	935	30,238	111
Emerging Markets High Dividend Fund	19	909	5
Emerging Markets SmallCap Dividend Fund	310	16,752	250
India Earnings Fund (consolidated)	41	1,075	2

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2018, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a portfolio of equity securities and an amount of cash. The India Earnings Fund and Middle East Dividend Fund issue and redeem shares on a cash basis only as certain securities markets in which these Funds invest do not permit in-kind transfers of securities. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding short-term investments) for the fiscal year ended March 31, 2018 are shown in the following table. Realized gains and losses on sales resulting from in-kind capital share redemptions, as shown on the Statements of Operations, are not recognized by the Funds for tax purposes.

Global High Dividend Fund	19,235	15,394,987	(15,414,222)
India Earnings Fund (consolidated)	(215,216)	8,193,702	(7,978,486)
Middle East Dividend Fund	(3,949)	5,102,440	(5,098,491)

The differences are primarily due to redemptions-in-kind, foreign currency transactions, investments in passive foreign investment companies, investments in partnerships, expiration of capital loss carryforwards and foreign capital gain taxes.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2018, the Funds did not have any liabilities for unrecognized tax benefits relating to uncertain income tax positions they have taken or expect to take in the future. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in

Edgar Filing: WisdomTree Trust - Form N-CSR

Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended March 31, 2018, remains subject to examination by taxing authorities.

Notes to Financial Statements (concluded)

7. MAURITIUS INCOME TAX

The Portfolio holds a tax residency certificate issued by the Mauritian Revenue authorities which entitles it to claim the benefits of the double taxation avoidance agreement entered between the Government of India and Mauritius (tax treaty). Since the India Earnings Fund makes its investments through the Portfolio, a wholly owned subsidiary organized in the Republic of Mauritius, this structure should permit the India Earnings Fund to benefit from the tax treaty. The Supreme Court of India upheld the validity of this tax treaty in response to a lower court challenge contesting the treaty s applicability to entities such as the Portfolio.

The taxable profits derived from the worldwide income of the wholly owned subsidiary of the India Earnings Fund, i.e. the Portfolio, is subject to income tax at the rate of 15% in the Republic of Mauritius. As with all Mauritian tax residents, the Portfolio is entitled to a foreign tax credit (FTC) on its foreign sourced income. The FTC is based on the lower of the Mauritian tax or the foreign taxes incurred. Where documentary evidence is not available to substantiate the foreign taxes suffered, the FTC can be presumed to be 80% of the Mauritius tax on its foreign source income. The presumed FTC effectively reduces the Mauritian income tax rate on the foreign sourced income of the Portfolio to a maximum of 3%. Interest income on call and deposit accounts with Mauritian banks is exempt from tax, and there is no tax on capital gains in Mauritius. Prior to August 8, 2012, the Mauritius income tax was paid by the Portfolio, and thereafter, the Mauritius income tax was paid by WTAM.

On May 10, 2016, the Government of India and Mauritius announced the signing of a protocol amending the provisions of the tax treaty (2016 Protocol). The 2016 Protocol has become effective on April 1, 2017 in respect of income and gains received from India. The 2016 Protocol, *inter alia*, provides for capital gains arising on disposal of shares acquired by a company resident in Mauritius on or after April 1, 2017 to be taxed in India. However, investments in shares acquired up to March 31, 2017 are grandfathered, thus exempted from capital gains tax in India irrespective of the date of disposal. In addition, shares acquired from April 1, 2017 and disposed of by March 31, 2019 are taxable at a concessionary rate equivalent to 50% of the domestic tax rate prevailing in India provided the Mauritius company meets the prescribed limitation of benefits (LOB) clause. As such, the LOB Article denies the concessional 50% Indian capital gains tax rate benefit in respect of capital gains arising between April 1, 2017 and March 31, 2019, where the LOB conditions are not fulfilled.

Any shares acquired by the Portfolio after April 1, 2017 and transferred on or after April 1, 2019 are subject to the full rate of capital gains tax in India. The 2016 Protocol only amends the capital gains article in relation to the taxation of shares. As such, all other securities besides shares are subject to similar taxation principles, as they apply currently to the Portfolio.

This amendment will reduce the return to the India Earnings Fund on its investments made on or after April 1, 2017 and the return received by India Earnings Fund shareholders. For the fiscal year ended March 31, 2018, as disclosed in the Statements of Operations, the India Earnings Fund accrued a short-term capital gain tax on net unrealized short-term gains of \$17,866,912 on shares acquired after April 1, 2017.

In March 2012, the Indian Finance Minister introduced a new chapter to the Indian Income Tax Act, 1961 (IT Act), which included certain General Anti-Avoidance Rules (GAAR). GAAR is applicable to financial years beginning on or after April 1, 2017. All investments made into India up-to April 1, 2017 are grandfathered and are exempt from the applicability of GAAR, irrespective of the date of exit of the investments. With effect from April 1, 2017, the investments made by the Portfolio would be subject to GAAR if benefit under the tax treaty is claimed by the Portfolio.

Reference to investments by the India Earnings Fund herein should be understood to refer to investments by the Portfolio.

8. DEMAND NOTE

During the fiscal year ended March 31, 2018, the India Earnings Fund had a demand note agreement with Bank of America, N.A. which allowed the Fund to borrow up to \$400,000,000 until the stated maturity date of October 3, 2017. During the fiscal year ended March 31, 2018, to facilitate purchase transactions in connection with its annual portfolio rebalance, the Fund utilized the demand note and borrowed for a period of 6 days with an average outstanding loan balance of \$198,766,667 and a weighted average interest rate of 3.47% per annum. Interest expense related to the loan for the fiscal year ended March 31, 2018 was \$113,297. At March 31, 2018, the Fund did not have any outstanding demand note agreements or amounts.

9. ADDITIONAL INFORMATION

Edgar Filing: WisdomTree Trust - Form N-CSR

On February 1, 2018, the Finance Minister of India presented the 2018 Finance Bill to the Indian Parliament, which contained a proposal to reintroduce the long-term capital gains tax on capital gains arising from the transfer of listed equity shares, units of an equity-oriented mutual fund, or units of a business trust, which has been subject to securities transactions tax. Effective April 1, 2018, long-term capital gains exceeding 100,000 Indian rupees would be taxed at a rate of 10% plus applicable surcharge and education cess, however, capital gains accrued up to January 31, 2018 would be grandfathered and not subject to the long-term capital gains tax. The 2018 Finance Bill received the assent of the President of India on March 29, 2018 and thus became enacted law. As a result, the 2018 Finance Bill proposals, including the reintroduction of the long-term capital gains tax, came into effect from April 1, 2018.

Report of Independent Registered Public Accounting Firm (concluded)

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more WisdomTree investment companies since 2006.

Table of Contents**Supplemental Information** (unaudited)**Federal Income Tax Information**

The following Federal tax information related to the Funds' fiscal year ended March 31, 2018, is provided for information purposes only and should not be used for reporting to federal or state revenue agencies. Federal tax information for the calendar year will be reported to you on Form 1099-DIV in January 2019.

Certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions paid during the fiscal year ended March 31, 2018, the following represents the maximum amount of ordinary income distributions that may be considered qualified dividend income:

Fund	Qualified Dividend Income
Asia Pacific ex-Japan Fund	\$ 863,699
China ex-State-Owned Enterprises Fund	125,935
Emerging Markets Consumer Growth Fund	584,481
Emerging Markets ex-State-Owned Enterprises Fund	125,650
Emerging Markets High Dividend Fund	53,288,722
Emerging Markets Quality Dividend Growth Fund	845,885
Emerging Markets SmallCap Dividend Fund	20,648,465
Global ex-U.S. Quality Dividend Growth Fund	1,055,807
Global ex-U.S. Real Estate Fund	868,754
Global High Dividend Fund	3,099,065
India Earnings Fund (<i>consolidated</i>)	14,626,040
Middle East Dividend Fund	134,174

The Funds intend to elect to pass through to shareholders the credit for taxes paid during the fiscal year ended March 31, 2018, to foreign countries. The gross foreign source income and foreign taxes paid are as follows:

Fund	Gross Foreign Income	Foreign Taxes Paid
Asia Pacific ex-Japan Fund	\$ 1,712,154	\$ 136,357
China ex-State-Owned Enterprises Fund	238,546	9,212
Emerging Markets Consumer Growth Fund	830,439	78,077
Emerging Markets ex-State-Owned Enterprises Fund	334,805	42,935
Emerging Markets High Dividend Fund	87,963,396	10,665,188
Emerging Markets Quality Dividend Growth Fund	1,645,619	175,956

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Inflation protected securities do not eliminate risks associated with inflation or deflation. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

The Dow Jones Global ex-U.S. Select Real Estate Securities Index is calculated, distributed and marketed by Dow Jones Indexes, a licensed trademark of CME Group Index Services LLC, and has been licensed for use.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only by Authorized Participants in large creation unit sizes of shares.

Table of Contents**Management's Discussion of Funds Performance** (audited)**Market Environment Overview**

The U.S. equity market, as measured by the S&P 500 Index, returned 13.99% for the 12-month period ended March 31, 2018 (the period). After bottoming in March of 2009, the S&P 500 Index has recorded nine straight years of gains. Measured from March 31, 2009 through March 31, 2018, the nine-year cumulative total return on the S&P 500 Index was 300.10%. This represents a substantial recovery in the equity markets as earnings and dividend levels have recently surpassed previous highs.

While the overall return for the period was positive, it was marked by multiple bouts of volatility. Since the U.S. election in November 2016, the S&P 500 Index has gained 26.93% on a cumulative basis, while the yield on the 10-year U.S. Treasury note has increased 0.88%. The market's move higher has been characterized by improving corporate earnings, tailwinds from recently passed U.S. tax reform, and a strengthening U.S. economy. Hopes for deregulation have boosted expectations for the financial and healthcare sectors. Corporate earnings, share buybacks, and dividends continue to grow at meaningful rates. The unemployment rate in the U.S. has continued to decline while prices have remained steady. As a result, the Federal Reserve has continued to tighten policy. While risks of geopolitical instability remain, analysts remain hopeful that talks between President Trump and global leaders don't generate unintended consequences. In the first quarter of 2018, volatility increased dramatically across most asset classes as fears of a potential trade war combined with concerns over the length of the recovery and market valuations.

WisdomTree Funds Performance Overview

The following table reflects the WisdomTree Funds' performance versus their capitalization-weighted benchmark indexes:

Ticker	WisdomTree Fund	1-Year NAV Return	Performance Benchmark	1-Year Return	Difference
DTN	WisdomTree U.S. Dividend ex-Financials Fund	5.71%	Dow Jones U.S. Select Dividend Index	8.25%	-2.54%
EPS	WisdomTree U.S. Earnings 500 Fund	13.49%	S&P 500 Index	13.99%	-0.50%
DHS	WisdomTree U.S. High Dividend Fund	2.69%	Russell 1000 Value Index	6.95%	-4.26%
DLN	WisdomTree U.S. LargeCap Dividend Fund	9.44%	S&P 500 Index	13.99%	-4.55%
DON	WisdomTree U.S. MidCap Dividend Fund	7.30%	S&P MidCap 400 Index	10.97%	-3.67%
EZM	WisdomTree U.S. MidCap Earnings Fund	10.77%	S&P MidCap 400 Index	10.97%	-0.20%
USMF	WisdomTree U.S. Multifactor Fund*	13.90%	S&P 500 Index	10.75%	3.15%
DGRW	WisdomTree U.S. Quality Dividend Growth Fund	15.95%	NASDAQ U.S. Dividend Achievers Select Index	14.63%	1.32%
QSY	WisdomTree U.S. Quality Shareholder Yield Fund	16.77%	Russell 1000 Value Index	6.95%	9.82%
DES	WisdomTree U.S. SmallCap Dividend Fund	5.02%	Russell 2000 Index	11.79%	-6.77%
EES	WisdomTree U.S. SmallCap Earnings Fund	12.09%	Russell 2000 Index	11.79%	0.30%
DGRS	WisdomTree U.S. SmallCap Quality Dividend Growth Fund	5.97%	Russell 2000 Index	11.79%	-5.82%
DTD	WisdomTree U.S. Total Dividend Fund	8.76%	Russell 3000 Index	13.81%	-5.05%
EXT	WisdomTree U.S. Total Earnings Fund	13.31%	Russell 3000 Index	13.81%	-0.50%

* Since the Fund had less than one year of operating history, the returns shown are cumulative returns since the inception date of the Fund.

Management's Discussion of Funds' Performance

(unaudited) (continued)

The top-performing performance benchmark in the chart above was the NASDAQ U.S. Dividend Achievers Select Index, which is a measure of stocks of companies that have historically increased and paid dividends annually. Conversely, the Russell 1000 Value Index was the weakest performer. In general, growth tended to outperform value and large caps tended to outperform mid- and small-capitalization stocks during the period.

The majority of WisdomTree's fundamentally-weighted Funds are designed to track indexes based on the dividend stream or earnings stream, respectively, generated by the companies included in the underlying WisdomTree Index. The dividend stream is defined as the sum of the dollar value of dividends indicated to be paid by each company. The earnings stream is defined as the total dollar level of earnings for all companies within each Index. There are two primary factors that drive performance differentials of the WisdomTree Funds and Indexes versus their performance benchmarks. The first is aggregate exposure to one or more sectors. The second is stock selection within each sector. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend or earnings stream.

6 of the sectors represented within the S&P 500 Index experienced positive performance over the period, with 4 of them generating double digit returns. The best-performing sectors over the period were the Information Technology (27.68%) and Financial (17.99%) sectors. The Information Technology sector was driven higher by robust earnings and the Financials sector was driven higher as U.S. interest rates climbed alongside greater growth prospects and economic improvement in the United States. Defensive sectors such as Consumer Staples and Telecommunications were the worst performing sectors as rising interest rates weighed on their performance.

The performance of most WisdomTree dividend-weighted Funds as compared to their performance benchmarks were mixed over the period. Historically, WisdomTree's dividend-focused approaches have tended to tilt greater weight toward dividend-paying firms which results in a more value-oriented approach to investing. As a result, many of the dividend funds lagged their performance benchmarks. These results make sense given that dividend paying equities came under pressure with the rise in U.S. interest rates. The performance of most of the WisdomTree earnings-weighted Funds compared to their performance benchmarks was generally favorable over the period, in both total return and relative to their performance benchmarks. The WisdomTree earnings-weighted Funds track an underlying WisdomTree Index that focuses solely on generating exposure to the performance of companies that have generated positive profits on a cumulative basis leading up to the Index screening date. It makes sense that the earnings-weighted Funds outperformed in most cases given that the portfolios tend to be less tilted to value oriented sectors and as such, caught some growth tailwinds over the period.

The strongest relative performance measured versus the performance benchmarks came from the WisdomTree U.S. Quality Shareholder Yield Fund (QSY) (formerly, WisdomTree U.S. LargeCap Value Fund), a model-based actively managed fund, outperforming its performance benchmark by 9.82%. This was primarily driven by rules-based stock selection and sector tilts. The WisdomTree U.S. Quality Dividend Growth Fund (DGRW) also saw outperformance of 1.32% over its performance benchmark with rules-based stock selection and a large overweight in the Information Technology sector again being major drivers of performance.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 18-19 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs.

The WisdomTree U.S. Dividend ex-Financials Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree U.S. Dividend ex-Financials Index.

The Fund returned 5.71% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited from its position in Industrials. The Fund's position in Consumer Staples contributed negatively to performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.38%.**

Performance as of 3/31/18

*The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree U.S. LargeCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree U.S. LargeCap Dividend Index.

The Fund returned 9.44% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund's position in Information Technology contributed positively to performance while its position in Telecommunication Services contributed to a drag on performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.28%.**

Performance as of 3/31/18

	Average Annual Total Return				Since Inception ¹
	1 Year	3 Year	5 Year	10 Year	
Fund NAV Returns	9.44%	9.41%	11.35%	8.34%	7.83%
Fund Market Price Returns	9.53%	9.40%	11.37%	8.35%	7.82%
<i>WisdomTree U.S. LargeCap Dividend Index</i>	9.79%	9.75%	11.67%	8.77%	8.19%
<i>S&P 500® Index</i>	13.99%	10.78%	13.31%	9.49%	8.82%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 16, 2006.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree U.S. SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree U.S. SmallCap Dividend Index.

The Fund returned 5.02% at net asset value (NAV) for the fiscal year ending March 31, 2018 (for more complete information please see table below). The Fund benefited from its position in Industrials. The Fund's position in Real Estate contributed negatively to performance.

Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2017, the Fund's annual expense ratio was 0.38%.**

Performance as of 3/31/18

	Average Annual Total Return				Since Inception ¹
	1 Year	3 Year	5 Year	10 Year	
Fund NAV Returns	5.02%	7.76%	10.77%	9.67%	7.98%
Fund Market Price Returns	5.05%	7.71%	10.73%	9.66%	7.97%
<i>WisdomTree U.S. SmallCap Dividend Index</i>	5.33%	8.01%	10.86%	10.00%	8.08%
<i>Russell 2000® Index</i>	11.79%	8.39%	11.47%	9.84%	8.42%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 16, 2006.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

Table of Contents

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2017 to March 31, 2018.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 10/1/17 to 3/31/18** to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Table of Contents**Shareholder Expense Examples** (unaudited) (concluded)

	Beginning Account Value 10/1/17	Ending Account Value 3/31/18	Annualized Expense Ratio Based on the Period 10/1/17 to 3/31/18	Expenses Paid During the Period 10/1/17 to 3/31/18
