

Virtus Global Multi-Sector Income Fund
Form N-Q
October 30, 2018

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM N-Q

QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED

MANAGEMENT INVESTMENT COMPANY

Investment Company Act file number 811-22608

Virtus Global Multi-Sector Income Fund

(Exact name of registrant as specified in charter)

101 Munson Street

Greenfield, MA 01301-9683

(Address of principal executive offices) (Zip code)

William Renahan, Esq.

Vice President, Chief Legal Officer and Secretary for Registrant

100 Pearl Street

Hartford, CT 06103-4506

(Name and address of agent for service)

Registrant's telephone number, including area code: (866) 270-7788

Date of fiscal year end: November 30

Date of reporting period: August 31, 2018

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (§§ 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30b1-5 under the Investment Company Act of 1940 (17 CFR 270.30b1-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-Q

unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Item 1. Schedule of Investments.

The Schedules of Investments are attached herewith.

Footnote Legend:

- (1) Variable rate security. Rate disclosed is as of August 31, 2018. For leveraged loans, the rate shown may represent a weighted average interest rate. Information in parenthesis represents benchmark and reference rate for each security. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions, or, for mortgage-backed securities, are impacted by the individual mortgages which are paying off over time. These securities do not indicate a reference rate and spread in their descriptions.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At August 31, 2018, these securities amounted to a value of \$110,006 or 68.2% of net assets.
- (3) Regulation S security. Security is offered and sold outside of the United States, therefore, it is exempt from registration with the SEC under Rules 903 and 904 of the Securities Act of 1933.
- (4) All or a portion of the security is segregated as collateral for written options.
- (5) No contractual maturity date.
- (6) Interest payments may be deferred.
- (7) This Note was issued for the sole purpose of funding a leveraged loan between the issuer and the borrower. As the credit risk for this security lies solely with the borrower, the name represented here is that of the borrower.
- (8) This loan will settle after August 31, 2018, at which time the interest rate, based on the LIBOR and the agreed upon spread on trade date, will be reflected.
- (9) Value shown as par value.
- (10) Security in default, no interest payments are being received during the bankruptcy proceedings.
- (11) 100% of the income received was in cash.
- (12) Security valued at fair value as determined in good faith by or under the direction of the Trustees. This security is disclosed as a Level 3 security in the Fair Value Hierarchy table located after the Schedule of Investments.
- (13) The value of this security was determined using significant unobservable inputs and is reported as a Level 3 security in the Fair Value Hierarchy table located at the end of the Schedule of Investments.
- (14) Non-income producing.
- (15) Amount is less than \$500.

- (16) 87% of the income received was in cash and 13% in PIK.
- (17) Shares of this fund are publicly offered, and its prospectus and annual report are publicly available.
- (18) Interest may be forfeited.
- (19) All or a portion of the portfolio is segregated as collateral for borrowings.

There were no transfers between Level 1, Level 2, or Level 3 related to securities held at August 31, 2018.

Some of the Fund's investments that were categorized as Level 3 were valued utilizing third party pricing information

without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of Level 3 investments.

Management has determined that the amount of Level 3 securities compared to total net assets is de minimis; therefore, the rollforward of Level 3 securities and assumptions are not shown for the period ended August 31, 2018.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)

AUGUST 31, 2018

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to Investment Companies.

The significant accounting policies consistently followed by the Fund in the preparation of its Schedule of Investments are summarized below and, for derivatives, included in Note 2 below. The preparation of the Schedule of Investments in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the Schedule of Investments. Actual results could differ from those estimates and those differences could be significant.

A. SECURITY VALUATION

Security valuation procedures for the Fund, which include nightly price variance, as well as back-testing items such as bi-weekly unchanged price, monthly secondary source and transaction analysis, have been approved by the Board of Trustees (the Board, or the Trustees). All internally fair valued securities are approved by a valuation committee appointed by the Board (the Valuation Committee). The Valuation Committee is comprised of certain members of management as identified to the Board and convenes independently from portfolio management. All internally fair valued securities are updated daily and reviewed in detail by the Valuation Committee monthly unless changes occur within the period. The Valuation Committee reviews the validity of any model inputs and any changes to the model. Fair valuations are reviewed by the Board at least quarterly.

The Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Fund's policy is to recognize transfers between levels at the end of the reporting period.

- Level 1 quoted prices in active markets for identical securities (security types generally include listed equities).
- Level 2 prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 prices determined using significant unobservable inputs (including the Valuation Committee's own assumptions in determining the fair value of investments).

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Restricted equity securities and private placements that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-Q

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market or other regional and local developments) may occur between the time that non-U.S. markets close (where the security is principally traded) and the time that a Fund calculates its

Other information regarding the Fund is available in the Fund's most recent
Report to Shareholders

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)

AUGUST 31, 2018

net asset value (NAV) (at the close of regular trading on the New York Stock Exchange (NYSE), generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets.

In such cases the Fund fair values non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, exchange-traded funds, and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Debt securities, including restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, and current day trade information, as well as dealer-supplied prices. These valuations are generally categorized as Level 2 in the hierarchy. Structured debt instruments, such as mortgage-backed and asset-backed securities, may also incorporate collateral analysis and utilize cash flow models for valuation, and are generally categorized as Level 2 in the hierarchy. Pricing services do not provide pricing for all securities and therefore indicative bids from dealers are utilized which are based on pricing models used by market makers in the security and are generally categorized as Level 2 in the hierarchy. Debt securities that are not widely traded or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Claims are valued by brokers based on pricing models that take into account, among other factors, both cash and non-cash assets. The valuation is derived from expected cash flow of the claims and the non-cash assets, which include all real estate, private equity or other securities within the estate. To the extent that these inputs are observable, the values of the claims are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds are valued as of the close of regular trading on the NYSE each business day. Both are categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Fund's net assets by each major security type is disclosed at the end of the Schedule of Investments for the Fund. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. When-issued Purchases and Forward Commitments (Delayed Delivery)

The Fund may engage in when-issued or forward commitment transactions. Securities purchased on a when-issued or forward commitment basis are also known as delayed delivery transactions. Delayed delivery transactions involve a

commitment by the Fund to purchase or sell a security at a future date (ordinarily up to 90 days later). Delayed delivery enables the Fund to lock in what is believed to be an attractive price or yield on a particular security for a period of time, regardless of future changes in interest rates.

Other information regarding the Fund is available in the Fund's most recent
Report to Shareholders

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)

AUGUST 31, 2018

The Fund records delayed delivery securities on the trade date. The Fund maintains collateral for the securities purchased. Securities purchased on a when-issued or forward commitment basis begin earning interest on the settlement date.

C. Leveraged Loans

The Fund may invest in direct debt instruments which are interests in amounts owed by a corporate, governmental, or other borrower to lenders or lending syndicates. Leveraged loans are generally non-investment grade and often involve borrowers that are highly leveraged. The Fund may invest in obligations of borrowers who are in bankruptcy proceedings. Leveraged loans are typically senior in the corporate capital structure of the borrower. A loan is often administered by a bank or other financial institution (the lender) that acts as agent for all holders. The agent administers the terms of the loan, as specified in the leveraged loan. The Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in loan participations, the Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan participation and only upon receipt by the lender of payments from the borrower. The Fund generally has no right to enforce compliance with the terms of the leveraged loan with the borrower. As a result, the Fund may be subject to the credit risk of both the borrower and the lender that is selling the leveraged loan. When the Fund purchases assignments from lenders it acquires direct rights against the borrower on the loan.

The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. Leveraged loans may involve foreign borrowers and investments may be denominated in foreign currencies. Direct indebtedness of emerging countries involves a risk that the government entities responsible for the repayment of the debt may be unable, or unwilling, to pay the principal and interest when due.

The leveraged loans have floating rate loan interests which generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally the London Interbank Offered Rate (LIBOR), the prime rate offered by one or more U.S. banks or the certificate of deposit rate. When a leveraged loan is purchased, the Fund may pay an assignment fee. On an ongoing basis, the Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a leveraged loan. Prepayment penalty fees are received upon the prepayment of a leveraged loan by a borrower. Prepayment penalty, facility, commitment, consent and amendment fees are recorded to income as earned or paid.

D. Credit Risk and Asset Concentrations

In countries with limited or developing markets, investments may present greater risks than in more developed markets and the prices of such investments may be volatile. The consequences of political, social or economic changes in these markets may have disruptive effects on the market prices of these investments and the income they generate, as well as the Fund's ability to repatriate such amounts.

High-yield/high-risk securities typically entail greater price volatility and/or principal and interest rate risk. There is a greater chance that an issuer will not be able to make principal and interest payments on time. Analysis of the creditworthiness of issuers of high-yield/high-risk securities may be complex, and as a result, it may be more difficult

for the Adviser and/ or subadviser to accurately predict risk.

The Fund may invest a high percentage of its assets in specific sectors of the market in the pursuit of its investment objective. Fluctuations in these sectors of concentration

Other information regarding the Fund is available in the Fund's most recent

AUGUST 31, 2018

may have a greater impact on the Fund, positive or negative, than if the Fund did not concentrate its investments in such sectors.

The Fund borrows through its line of credit for the purpose of leveraging its portfolio. While leverage presents opportunities for increasing the Fund's total return, it also has the effect of potentially increasing losses. Accordingly, any event which adversely affects the value of an investment held by the Fund would be magnified to the extent the Fund is leveraged.

NOTE 2 DERIVATIVE FINANCIAL INSTRUMENTS

Disclosures about derivative instruments and hedging activities are intended to enable investors to understand how and why the Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect the Fund's results of operations and financial position. Summarized below is a specific type of derivative instrument used by the Fund.

Options contracts

An options contract provides the purchaser with the right, but not the obligation, to buy (call option) or sell (put option) a financial instrument at an agreed-upon price. The Fund pursues an option income strategy whereby it purchases and sells out-of-the-money

puts and calls, creating an options spread designed to generate a consistent level of option cash flow which should result in additional yield. The Fund is subject to equity price risk in the normal course of pursuing its investment objectives.

When the Fund purchases an option, it pays a premium and an amount equal to that premium is recorded as an asset. When the Fund writes an option, it receives a premium and an amount equal to that premium is recorded as a liability. The asset or liability is adjusted daily to reflect the current market value of the option.

Holdings of the Fund designated as collateral for outstanding written options are noted in the Schedule of Investments.

If an option expires unexercised, the Fund realizes a gain or loss to the extent of the premium received or paid. If an option is exercised, the premium received or paid is recorded as an adjustment to the proceeds from the sale or the cost basis of the purchase. The difference between the premium and the amount received or paid on effecting a closing purchase or sale transaction is also treated as a realized gain or loss.

The risk in writing covered call options is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing covered put options is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying options is that the Fund pays a premium whether or not the option is exercised. The use of such instruments may involve certain additional risks as a result of unanticipated movements in the market. Writers (sellers) of options are normally subject to unlimited risk of loss, as the seller will be obligated to deliver or take delivery of the security at a predetermined price

which may, upon exercise of the option, be significantly different from the then-market value. However, the Fund may limit its risk of loss when writing an option by purchasing an option similar to the one that is sold except for the fact it is further out of the money.

For the period ended August 31, 2018, the average daily premiums paid by the Fund for purchased options were \$328, and the average daily premiums received by the Fund for written options were \$672.

NOTE 3 ILLIQUID AND RESTRICTED SECURITIES

(\$ reported in thousands)

Investments are generally considered illiquid if they cannot be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by the Fund. Additionally, the following information is also considered in determining liquidity: the frequency of trades and quotes for the investment, whether the investment is listed for trading on a recognized domestic exchange and/or whether two or more brokers are willing to purchase or sell the security at a comparable price, the extent of market making activity in the investment and the nature of the market for investment.

Restricted securities are illiquid securities, as defined above, not registered under the Securities Act of 1933, as amended (the 1933 Act). Generally, 144A securities are excluded from this category, except where defined as illiquid.

The Fund will bear any costs, including those involved in registration under the 1933 Act, in connection with the disposition of such securities.

The Fund held securities considered to be illiquid at August 31, 2018, with an aggregate value of \$ 51 representing 0.03% of the Fund's net assets.

At August 31, 2018, the Fund did not hold any securities that were restricted.

NOTE 4 REGULATORY MATTERS AND LITIGATION

From time to time, the Adviser, Newfleet and/or their respective affiliates may be involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the Securities and Exchange Commission, involving compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting their products and other activities. At this time, the Adviser believes that the outcomes of such matters are not likely, either individually or in the aggregate, to be material to these financial statements.

NOTE 5 SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that the following subsequent event requires recognition or disclosure in these financial statements.

Effective October 15, 2018, Rampart Investment Management, an investment management affiliate of Virtus Investment Partners that specializes in options strategies, has been appointed as an additional investment subadviser to manage the existing options overlay strategy on the Fund. Warun Kumar, chief investment officer, Rampart, who previously managed the strategy through Newfleet Asset Management, has been added as a portfolio manager to the Fund.

Item 2. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
