QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the quarterly period ended September 30, 2011

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from _____ to _____

Commission File No. 333-166454

Rich Star Development Corporation
(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of incorporation or organization)

42-1769584
(I.R.S. Employer Identification No.)

10300 Charleston Blvd., Las Vegas, NV 89135
(Address of principal executive offices)

(Zip Code)

(702) 722-0865
Registrant's telephone number, including area code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No (Not required)

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: RICH STAR DEVELOPMENT, CORP - Form 10-Q

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date: 3,500,000 shares of common stock as of November 15, 2011.

Rich Star Development Corporation
(A Development Stage Company)
Notes to Financial Statements
September 30, 2011
(Unaudited)

Note 1 Nature of Operations

Rich Star Development Corporation (“the Company”) was incorporated in the State of Nevada on May 29, 2009.

The Company intends to become a distribution company that will import and source locally, products in the food service business. The Company is in the developmental stage and has not yet implemented its business plan.

Note 2 Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the United States Securities and Exchange Commission for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

The financial information as of December 31, 2010 is derived from the audited financial statements presented in the Company’s Annual Report on Form S-1 for the years ended December 31, 2010 and 2009. The unaudited interim financial statements should be read in conjunction with the Company’s Annual Report on Form S-1, which contains the audited financial statements and notes thereto, together with the Plan of Operations for the year ended December 31, 2010.

Certain information or footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been or omitted, pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, or cash flows. It is management's opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation. The interim results for the nine months ended September 30, 2011 are not necessarily indicative of results for the full fiscal year.

Note 3 Summary of Significant Accounting Policies

Development Stage

The Company's unaudited interim financial statements are presented as those of a development stage enterprise. Activities during the development stage primarily include negotiating distribution agreements and marketing the territory for product distribution outlets. The Company, while seeking to implement its business plan, will look to obtain additional debt and/or equity related funding opportunities. The Company has not generated any revenues since inception.

Rich Star Development Corporation
(A Development Stage Company)
Notes to Financial Statements
September 30, 2011
(Unaudited)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions have an impact on the fair value of share-based payments, estimates and the valuation allowance for deferred tax assets due to continuing and expected future operating losses.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at September 30, 2011 and December 31, 2010, respectively.

Risks and Uncertainties

The Company intends to operate in an industry that is subject to intense competition and change in consumer demand. The Company's operations will be subject to significant risk and uncertainties including financial and operational risks including the potential risk of business failure. Also, see Note 4 regarding going concern matters.

Fair Value of Financial Instruments

The Company measures assets and liabilities at fair value based on an expected exit price as defined by the authoritative guidance on fair value measurements, which represents the amount that would be received on the sale of an asset or paid to transfer a liability, as the case may be, in an orderly transaction between market participants. As such, fair value may be based on assumptions that market participants would use in pricing an asset or liability. The authoritative guidance on fair value measurements establishes a consistent framework for measuring fair value on either a recurring or nonrecurring basis whereby inputs, used in valuation techniques, are assigned a hierarchical level.

Rich Star Development Corporation
(A Development Stage Company)
Notes to Financial Statements
September 30, 2011
(Unaudited)

The following are the hierarchical levels of inputs to measure fair value:

- Level 1: Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2: Inputs reflect quoted prices for identical assets or liabilities in markets that are not active; quoted prices for similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the assets or liabilities; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Unobservable inputs reflecting the Company's assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.

The Company's financial instruments consisted primarily of cash and accounts payable. The carrying amounts of the Company's financial instruments generally approximate their fair values as of September 30, 2011 and December 31, 2010, due to the short-term nature of these instruments.

Share Based Payments

Generally, all forms of share-based payments, including stock option grants, warrants, restricted stock grants and stock appreciation rights are measured at their fair value on the grant date, and based on the estimated number of awards that are ultimately expected to vest. Share based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable.

Earnings (Loss) per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss), adjusted for changes in income or loss that resulted from the assumed conversion of convertible shares, by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

Rich Star Development Corporation
(A Development Stage Company)
Notes to Financial Statements
September 30, 2011
(Unaudited)

The computation of basic and diluted loss per share for the periods presented is equivalent since the Company had continuing losses. The Company had no common stock equivalents as of September 30, 2011 and December 31, 2010.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that are expected to have an effect on the Company's interim unaudited financial statements.

Note 4 Going Concern

As reflected in the accompanying unaudited interim financial statements, the Company had a net loss of \$22,058 and net cash used in operations of \$22,792 for the nine months ended September 30, 2011. The Company had a working capital deficit and stockholders' deficit of \$6,969 at September 30, 2011. The Company had no revenues and incurred losses since inception resulting in a deficit accumulated during the development stage of \$108,469.

The Company anticipates that it will continue to generate significant losses from operations in the near future. The Company believes its current available cash, along with anticipated revenues, may be insufficient to meet its cash needs for the near future.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets until such time that funds provided by operations are sufficient to fund working capital requirements.

The accompanying unaudited interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 5 Loan Payable - Stockholder

In April 2009, the Company entered into an agreement with a stockholder for advances of \$65,000. All advances were non-interest bearing, unsecured, and due on demand. As of December 31, 2009, the Company received an advance in the amount of \$50,000. In January 2010, the stockholder advanced an additional \$15,000. In January 2010, the \$65,000 was repaid.

Rich Star Development Corporation
(A Development Stage Company)
Notes to Financial Statements
September 30, 2011
(Unaudited)

Note 6 Stockholders' Equity

(A) Stock Issued for Services

In August 2009, the Company issued 1,500,000 shares of common stock to its founders for pre-incorporation services, having a fair value of \$1,500 (\$0.001/share), based upon the fair value of the services rendered. The fair value of the services provided reflected a more readily determinable fair value than the shares issued. The Company expensed this stock issuance as a component of general and administrative expense.

(B) Stock Issued for Cash

In November 2009, under the terms of a private placement, the Company issued 2,000,000 shares of common stock for \$100,000 (\$0.05/share).

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and plan of operations should be read in conjunction with our unaudited interim financial statements and related notes appearing elsewhere in this Quarterly Report. Various statements have been made in this Quarterly Report on Form 10-Q that may constitute "forward-looking statements". Forward-looking statements may also be made in Rich Star Development Corporation's other reports filed with or furnished to the United States Securities and Exchange Commission (the "SEC") and in other documents. In addition, from time to time, Rich Star Development Corporation through its management may make oral forward-looking statements. Forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from such statements. The words "believe," "expect," "anticipate," "optimistic," "intend," "plan," "aim," "will," "may," "should," "could," "would," "likely" and similar expressions are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. Rich Star Development Corporation undertakes no obligation to update or revise any forward-looking statements.

History and Overview

Rich Star Development Corporation ("the Company") was incorporated in the State of Nevada on May 29, 2009.

The Company intends to become a distribution company that will import and source locally, products in the food service business. The Company is in the developmental stage and has not yet implemented its business plan.

Results of Operations

The following discussion of the financial condition and results of operations should be read in conjunction with the financial statements included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future.

Three and nine months ended September 30, 2011 and 2010 and for the period from May 29, 2009 (inception) to September 30, 2011:

Revenue

The Company did not generate any revenue during the period from May 29, 2009 (inception) to September 30, 2011. During this development stage, the Company was primarily focused on corporate organization, the initial public offering and the development of our business plan.

Expenses

Our total expenses for the three months ended September 30, 2011 were \$5,552 for general and administrative expenses, as compared to interest income of \$9 for the three months ended September 30, 2010. The largest component of general and administrative expense was professional fees in the amounts of \$4,180 and \$0-, respectively.

Our total expenses for the nine months ended September 30, 2011 were \$22,058 for general and administrative expenses, as compared to \$27,018 for the nine months ended September 30, 2010. The largest components of general and administrative expense were professional fees in the amounts of \$17,755 and \$10,550 and consulting fees in the amounts of \$0- and \$15,000, respectively.

Our total expenses for the period from May 29, 2009 (inception) to September 30, 2011 were \$108,469 for general and administrative expenses. The largest components of general and administrative expense during that period were professional fees in the amount of \$35,975 and consulting fees in the amount of \$65,000.

Net Loss

Our net loss for the three months ended September 30, 2011 was \$5,552 as compared to interest income of \$9 for the three months ended September 30, 2010.

Our net loss for the nine months ended September 30, 2011 was \$22,058 as compared to a net loss of \$27,018 for the nine months ended September 30, 2010. Our deficit accumulated during the development stage for the period from May 29, 2009 (inception) to September 30, 2011 was \$108,469.

Liquidity and Financial Condition

As of September 30, 2011 we had current assets of \$157, current liabilities of \$7,126 and a working capital deficit of \$6,969 as compared to current asset of \$22,949, current liabilities of \$7,860 and working capital of \$15,089 at December 31, 2010.

Operating Activities

During the nine months ended September 30, 2011, the Company used cash in the amount of \$22,792 for operating activities. This includes a net loss of \$22,058 offset by a \$734 decrease in accounts payable.

By comparison, during the nine months ended September 30, 2010, the Company used cash in the amount of \$27,018 for operating activities. Cash used in operating activities included net loss of \$27,018.

During the period from May 29, 2009 (inception) to September 30, 2011, the Company used \$99,843 of cash in operating activities. This included a net loss of \$108,469 offset by stock issued for services in the amount of \$1,500 and a \$7,126 increase in accounts payable.

Investing Activities

There were no investing activities for the nine months ended September 30, 2011 and 2010 or for the period from May 29, 2009 (inception) to September 30, 2011.

Financing Activities

There were no financing activities for the nine months ended September 30, 2011. During the nine months ended September 30, 2010, the Company received stockholder advances in the amount of \$15,000 and repaid \$65,000 due to the stockholder for total cash used in financing activities of \$50,000.

From May 29, 2009 (inception) to September 30, 2011, the Company received stockholder advances in the amount of \$65,000, repaid the \$65,000 due to the stockholder and received proceeds from sale of common stock in the amount of \$100,000 for total cash provided by financing activities of \$100,000.

We currently do not have sufficient funds to satisfy the minimum cash requirements to implement our business plan over the next twelve months. Due to our brief history and historical net losses, our operations have not been a source of liquidity. Therefore, our ability to continue as a going concern is dependent on our ability to raise additional capital.

We presently do not have any available credit, financing or other external sources of liquidity. In order to obtain capital, we may need to sell additional shares of common stock or borrow funds from private lenders. However, the low trading price of our common stock and a downturn in the U.S. stock and debt markets is likely to make it more difficult to obtain financing through the issuance of equity or debt securities. As a result, there can be no assurance that we will be successful in obtaining additional funding.

Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Further, if we issue additional equity or debt securities, stockholders may experience dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of common stock.

Going Concern

As reflected in the accompanying unaudited interim financial statements, the Company had a net loss of \$22,058 and net cash used in operations of \$22,792 for the nine months ended September 30, 2011. The Company had a working capital deficit and stockholders' deficit of \$6,969 at September 30, 2011. The Company had no revenues and incurred losses since inception resulting in a deficit accumulated during the development stage of \$108,469.

The Company anticipates that it will continue to generate significant losses from operations in the near future. The Company believes its current available cash, along with anticipated revenues, may be insufficient to meet its cash needs for the near future.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets until such time that funds provided by operations are sufficient to fund working capital requirements.

The accompanying unaudited interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Plan of Operations

We are a start-up wholesale distribution company that plans to import and source locally products in the food service business including food, paper and janitorial products and restaurant utensils and equipment. The Company's initial customers expect to include the restaurant and hospitality industries as well as small retail grocery stores.

Our business is in the developmental stage. We have not yet begun to implement our business plan. The Company's ability to commence operations is entirely dependent upon our ability to raise additional capital. If we cannot raise additional capital, we will not be able to establish a base of operations to generate revenue. There are no formal or informal agreements to attain such financing. We cannot assure any investor that, if needed, sufficient financing can be obtained or, if obtained, that it will be on reasonable terms.

Upon receipt of sufficient financing, our goal is to buy direct from factories, establish joint ventures and develop private brand products to achieve the best possible cost levels and maximize profitability. The Company has no current plans, proposals or arrangements, written or otherwise, to seek a business combination with another entity in the near future.

Summary of Significant Accounting Policies

Our unaudited interim financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 3 of our unaudited interim financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

We believe the following critical accounting policies and procedures, among others, affect our more significant judgments and estimates used in the preparation of our financial statements:

Development Stage

The Company's unaudited interim financial statements are presented as those of a development stage enterprise. Activities during the development stage primarily include negotiating distribution agreements and marketing the territory for product distribution outlets. The Company, while seeking to implement its business plan, will look to obtain additional debt and/or equity related funding opportunities. The Company has not generated any revenues since inception.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions have an impact on the fair value of share-based payments, estimates and the valuation allowance for deferred tax assets due to continuing and expected future operating losses.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from estimates.

Risks and Uncertainties

The Company intends to operate in an industry that is subject to intense competition and change in consumer demand. The Company's operations will be subject to significant risk and uncertainties including financial and operational risks including the potential risk of business failure. Also, see Note 4 regarding going concern matters.

Share Based Payments

Generally, all forms of share-based payments, including stock option grants, warrants, restricted stock grants and stock appreciation rights are measured at their fair value on the grant date, and based on the estimated number of awards that are ultimately expected to vest. Share based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that are expected to have an effect on the Company's interim unaudited financial statements.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "special purpose entities" (SPEs).

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Not required for a smaller reporting company.

Item 4 Controls and Procedures

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our President and Chief Executive Officer (Principal Executive Officer) and Interim Chief Financial Officer (Interim Principal Financial Officer), the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) and 15d-15 (b) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on that evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
