and Report on the Review of

Quarterly Information

Auditors Report on the Review of Quarterly Information

To the Board of Directors and Shareholders

Braskem S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Braskem S.A., included in the Quarterly Information - ITR Form for the quarter ended September 30, 2011, comprising the balance sheet as of September 30, 2011 and the statements of operations and comprehensive income (loss) for the three and nine-month periods then ended, and the statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - Interim Financial Reporting and of the consolidated interim accounting information in accordance with accounting standard CPC 21 and International Accounting Standard 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission, applicable to the preparation of the Quarterly Information. Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity,

respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent

company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities Commission.

Conclusion on the consolidated

interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities Commission.

Other matters

Interim statements

of value added

We have also reviewed the parent company and consolidated interim statements of value added for the nine-month period ended September 30, 2011, which are required to be presented in accordance with standards issued by the Brazilian Securities Commission applicable to the preparation of Quarterly Information - ITR and are considered supplementary information under IFRS, which does not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been properly prepared, in all material respects, in relation to the parent company and consolidated interim accounting information taken as a whole.

1. Operations

Braskem S.A. (“Braskem” or “the Company”) is a publicly-held corporation headquartered in Camaçari, State of Bahia (BA) and controlled by Odebrecht S.A. (“Odebrecht”), which indirectly holds 50.12% and 38.11% of its voting and total capital, respectively.

(a) Corporate events

(a.1) On January 1, 2011, Braskem America, a subsidiary of the Company, was merged into its subsidiary Braskem PP America. On the same date, the corporate name of Braskem PP Americas, Inc. was changed to Braskem America, Inc. (“Braskem America”).

(a.2) On January 3, 2011, the shareholders of IQ Soluções & Química S.A. (“Quantiq”) approved the merger of Unipar Comercial e Distribuidora S.A. (“Unipar Comercial”). The merger resulted in an increase in the capital of Quantiq by R\$ 38,710, from R\$ 61,141 to R\$ 99,851 without the issue of new shares. Such increase was based on the equity of Unipar Comercial on November 30, 2010 (base date of the operation), under the terms and conditions established in the “Protocol and Justification” dated December 27, 2010.

(a.3) On May 25, 2011, Braskem entered into a private instrument for the purchase and sale of quotas by means of which all the quotas of the subsidiary ISATEC – Pesquisa, Desenvolvimento e Análises Ltda. were sold for R\$ 1,100.

(a.4) On July 7, 2011 the company Braskem America Finance, a wholly-owned subsidiary of Braskem America, was incorporated. Braskem America Finance was the issuer of the US\$ 500 million bond issued on July 19, 2011

(Note 15 (b.ii)).

(a.5) On July 29, 2011, the Extraordinary General Meeting approved the capital increase of Quattor by R\$ 543,224, which was fully subscribed and paid up by the Company. Since no new shares were issued, this increase was diluted among the shareholders of Braskem and Braskem Petroquímica, simultaneously generating in the Company's financial statements a loss on the investment in Quattor and a gain on the investment in Braskem Petroquímica in the amount of R\$ 16,521. These effects offset each other in the parent company's equity and are eliminated from consolidation (Note 11 (b)).

(a.6) On July 29, 2011, Braskem increased the capital of many subsidiaries (Note 11 (b)). The breakdown of the increases that were fully subscribed and paid up by the Company is presented below:

	Capital increase	Number of shares/quotas issued
Braskem Participações S.A. ("Braskem Participações")	53	without the issue of new shares
Ideom Tecnologia Ltda. ("Ideom")	23,701	23,700,974
Politeno Empreendimentos Ltda. ("Politeno Empreendimentos")	35	18
IQ Soluções & Química S.A. ("Quantiq")	61,100	without the issue of new shares
Rio Polímeros S.A. ("Riopol")	14,108	without the issue of new shares
	98,997

(a.7) On August 25, 2011, the company Braskem Europe GmbH, a wholly-owned subsidiary of Braskem Europe B.V. was incorporated for the purpose of producing, trading, distributing, importing and exporting chemical and petrochemical products and conducting research and development in the area of such products, among other things. The assets acquired in the business combination of Dow Chemical (Note 34) in Germany will be recorded in this subsidiary as from October 2011.

(a.8) On September 27, 2011, Braskem increased the capital of its subsidiary Braskem Europa by R\$ 415,168 (US\$ 230 million) through the issue of 84,465,660 shares (Note 11 (b)). A portion of this amount was used in the incorporation of its subsidiary Braskem Germany (Note 11 (a.2)).

(b) Net working capital

On September 30, 2011, Braskem's net working capital (parent company) was negative by R\$ 1,518,716 as compared with a positive consolidated net working capital of R\$ 1,390,200. Because the consolidated figures are used in the management of working capital, as the Company uses mechanisms to transfer funds between the companies efficiently, without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements, any analysis of the parent company's working capital will not reflect the actual liquidity position of the consolidated group.

The Company also has two revolving credit lines, which allows it to reduce the amount of cash maintained by Braskem (Note 17.1 (c)).

(c) Effect of foreign exchange variation

The Company has balances denominated in US dollars, such as financial investments, trade accounts receivable, inventories, trade payables and borrowings, which were translated from US dollars into Brazilian reais at the commercial sell rate disclosed by the Central Bank of Brazil on September 30, 2011, of US\$ 1.00 to R\$ 1.8544 (US\$ 1.00 to R\$ 1.6662 on December 31, 2010). The percentage variation in the US dollar-Brazilian real exchange rate was 11.30%.

2. Summary of significant accounting policies

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem S.A. as of December 31, 2010 and for the year then ended, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (“IFRS”) issued by IASB.

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the management of the Company to exercise its judgment in the process of applying its accounting policies. There were no changes in the assumptions and judgments made by the Company’s management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2010 financial statements, except for the full consolidation of Cetrel S.A. (“Cetrel”) as from June 30, 2011, as mentioned in Note 2.3 (viii).

(a) Consolidated quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 and IAS 34 – Interim Financial Reporting, which aim to establish the minimum content for interim financial statements.

(b) Parent company quarterly information

The parent company Quarterly Information was prepared and is being presented in accordance with pronouncement CPC 21.

2.2. Accounting practices

There were no changes in the accounting practices used for the Quarterly Information in relation to those presented in the December 31, 2010 financial statements.

Due to the consolidation of Cetrel as from 2011, the balance of cash and cash equivalents presented in the consolidated statement of cash flows for the beginning of the period (January 1, 2011) was increased by the amount of R\$ 73,805, which corresponds to the amount of cash and cash equivalents of Cetrel on that date.

3. Business combinations

The Company adopted the accounting pronouncement CPC 15 and the IFRS 3 for the acquisitions of companies in 2010. The results of such adoption are presented below:

(a) Quattor Participações S.A.

On April 27, 2010, Braskem acquired 60% of the total capital of Quattor held by União de Indústrias Brasileiras S.A. (“Unipar”) for R\$ 659,454 and, subsequently, it acquired the remaining 40% held by Petróleo Brasileiro S.A. (“Petrobras”) by means of the barter for 18,000,097 shares issued by the Company. On April 30, 2010, the Company acquired the control of Quattor, and this date is the date of acquisition for the purposes of accounting for the business combination. As a result of the acquisition, a bargain purchase gain of R\$ 841,459 was recorded within “results from business combinations” in the income statement.

(b) Sunoco Chemicals, Co.

On April 1, 2010, Braskem acquired 100% of Sunoco Chemicals’ shares for R\$ 620,838 (US\$ 351 million), date on which the control was acquired by the Company. In this operation, a bargain purchase gain of R\$ 126,089 was recognized within “results from business combinations” in the income statement. Right after the purchase, the name of this subsidiary was changed to Braskem PP Americas. In January 2011, Braskem America was merged into its parent company Braskem PP Americas and its name was changed to Braskem America Inc. (Nota 1 (a.1)).

(c) Unipar Comercial

On May 10, 2010, the Company acquired 100% of the voting capital and control of Unipar Comercial. In this operation, the Company recognized a bargain purchase gain of R\$ 7,735 within “results from business combinations” in the income statement.

(a) ICMS

One of the main actions aimed at speeding up the use of the ICMS credits is the Agreement entered into with the State of Bahia in November 2009 that ensures the effective implementation of State Decree No. 11,807 of October 27, 2009, which (i) gradually reduced the effective ICMS rate on domestic naphtha acquired in that same state from 17% to 5.5% and, subsequently, allowed for the use of the credits from April 2011; and (ii) established that the amount of

R\$ 9,100 per month can be deducted from the debt balance between April 2011 and March 2014, and the amount of R\$ 5,907 per month between April 2014 and March 2018.

(b) PIS and COFINS

This account includes PIS and COFINS credits on the acquisition of property, plant and equipment items, the changes in which in the period total R\$ 89,103, particularly the project for the expansion of the PVC plant in the State of Alagoas and the scheduled stoppages for maintenance.

(c) PIS – Decree-Laws No. 2,445 and No. 2,449/88

In the quarter, the Company recognized credits in the amount of R\$ 91,431 as a result of the final and unappealable decision on lawsuits filed by Braskem and its merged companies. This amount will be used to offset future payments of federal taxes.

(d) Tax on Net Income - ILL

In May 2011, the Company offset the amount of R\$ 48,299 with federal taxes due.

Braskem S.A.**Notes to the quarterly information****at September 30, 2011****All amounts in R\$ thousands unless otherwise stated****Impairment test of intangible assets with an indefinite useful life**

In December 2010, the Company tested intangible assets for impairment and did not identify any losses. The projection of cash flows used was for 5 years from December 2010. The assumptions used to determine the amount using the discounted cash flow method include: projections of cash flows based on estimates of business for future cash flows, discounted rates based on the Weighted Average Cost of Capital (WACC) and growth rates to determine the perpetuity based on annual inflation rate according to the Broad Consumer Price Index (“IPCA”).

There were no significant events or circumstances in the period ended September 30, 2011 that indicate the need for an impairment test on the intangible assets with an indefinite useful life.

The Company and its subsidiaries capitalized financial charges in the period ended September 30, 2011 in the amount of R\$ 70,226 (R\$ 38,404 on September 30, 2010), including monetary and exchange variation. The average rate of these charges in the period was 7.34% per year.

(e) Covenants

Some of the financing agreements of the Company establish limits for certain indicators related to the capacity for indebtedness and payment of interest.

The first indicator establishes a limit for the indebtedness of the Company based on its EBITDA generating capacity.

The second indicator found in the agreements of the Company is the division of consolidated EBITDA by net interest, which corresponds to the difference between interest paid and interest received.

At September 30, 2011, all commitments assumed were complied with.

The information related to borrowings was presented in the Company's 2010 annual financial statements, in Note 17.

16. Debentures (public issue of non-convertible debentures)

On September 1, 2011, the Company paid the amount of R\$ 530,424 for non-convertible debentures related to the 14th issue started in August 2006.

On September 30, 2011, the balance of R\$ 18,518 refers to the first issue of non-convertible debentures of the jointly-controlled subsidiary RPR presented in the consolidated non-current liability.

The information on debentures was presented in the Company's 2010 annual financial statements, in Note 18.

17. Financial instruments

17.1. Risk management

The Company is exposed to market risks arising from variations in commodity prices, foreign exchange and interest rates; to credit risk arising from the possibility of default by its counterparties in cash equivalents, financial investments and trade accounts receivable; and to liquidity risk to meet its obligations related to financial liabilities.

The Company adopts procedures for managing market and credit risks that are in conformity with the new Financial Policy approved by the Board of Directors on August 9, 2010. The purpose of risk management is to protect the cash flows of the Company and reduce the threats to the financing of its operating working capital and investment

programs.

(a) Market risk

The Company prepares a sensitivity analysis for each type of market risk to which it is exposed, which is presented in Note 17.5.

(b) Credit risk

The maximum exposure to credit risks of non-derivative assets on the reporting date is their carrying amounts less any impairment loss. On September 30, 2011, the balance of trade accounts receivable is net of the allowance for doubtful accounts and amounts to R\$ 273,333 (December 31, 2010 – R\$ 269,159).

(c) Liquidity risk

The analysis of the borrowings of the Company by maturity is presented in Note 15 (c) and of the derivative financial instruments is presented in Note 17.3.1. In addition, the Company has two revolving credit lines of (i) US\$350 million, which may be used without restrictions for three years as of September, 2010 and (ii) as from August 2011, an additional US\$ 250 million that may be used for five years, which allows for the reduction of the amount of cash maintained by Braskem.

The information on risk management was presented in the Company's 2010 annual financial statements, in Note 19.

Fair value hierarchy

Level 1 – fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange.

Level 2 – Fair value obtained from discounted cash flow models, when the instrument is a forward purchase or sale or a swap contract, or valuation models of option contracts, such as the Black-Scholes model, when the derivative has the characteristics of an option; and

Level 3 – techniques that use data that have a significant effect on fair value and that are not based on observable market data, that is, unobservable inputs. The Company did not apply this technique on its financial instruments.

17.3.2. Hedge operations presented in “other comprehensive income” in equity

The derivatives indicated in items 17.3.1 (b) were designated as cash flow hedge, resulting in closing balances in “other comprehensive income”. The appropriations of interest are allocated to interest expenses in the financial expenses group. The summary of changes in the account is as follows:

December/2010**September/2011**

		Appropriation of accrued interest	Change in fair value	
Swaps EPP Braskem Inc.	(39,315)	31,375	7,940	
Swaps EPP Braskem	(23,013)	9,865	(7,999)	(21,147)

On September 30, 2011, the appropriation of accrued interest and change in the fair value of derivatives designated as “cash flow hedge” was R\$ 35,847, which, with the effect of income tax and social contribution of R\$ 1,099, amounts to R\$ 34,748, and is presented within “other comprehensive income” in equity.

Braskem S.A.**Notes to the quarterly information****at September 30, 2011****All amounts in R\$ thousands unless otherwise stated****17.4. Credit quality of financial assets****(a) Trade accounts receivable**

Only a few of the Company's customers have risk ratings assigned by credit rating agencies. For this reason, the Company developed its own credit rating system for all accounts receivable from domestic customers and part of the accounts receivable from foreign customers. The Company does not apply this rating to all of its foreign customers because most accounts receivable from them are covered by an insurance policy or letters of credit issued by banks. As of September 30, 2011, the credit ratings are as follows:

		Percentage
1	Minimum risk	25.79
2	Low risk	32.74
3	Moderate risk	28.83
4	High risk	3.96
5	Very high risk (i)	8.68

(i) Most customers in this group are inactive and the respective accounts are in the process of collection actions. Customers in this group that are still active purchase from Braskem and pay in advance.

17.5. Sensitivity analysis

The derivative financial instruments may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

The three main risks that may most affect the value of the Company's financial instruments are:

- a) Brazilian real-U.S. dollar exchange rate;
- b) Brazilian real-yen exchange rate;
- c) Libor floating interest rate.

For the purposes of the risk sensitivity analysis, the Company presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Selection of scenarios

In accordance with CVM Instruction No. 475/08, the Company included three scenarios in the sensitivity analysis, one of which is probable and the other two represent adverse effects to the Company. In the preparation of the adverse scenarios, only the impact of the variables on the financial instruments, including derivatives, and on the items covered by hedge transactions, was considered. The overall impacts on the Company's operations, such as the one arising from the revaluation of inventories and revenue and future costs, were not considered. Since the Company manages its exposure to foreign exchange rate risk on a net basis, adverse effects from a depreciation of the Brazilian real in relation to the U.S. dollar can be offset by opposing effects on the Braskem's operating results.

The FOCUS survey published by the Central Bank of Brazil on September 30, 2011 was considered for the probable scenario for the base date December 31, 2011. For the interest rate variables not considered in the FOCUS survey, the probable scenario considered was the Interbank Deposit Certificate (CDI) percentage variation. For the exchange rate variables not included in the FOCUS survey, the probable scenario considered was the U.S. dollar-real percentage variation.

For the Brazilian real-U.S. dollar exchange rate, an increase of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on September 30, 2011.

For the Brazilian real-yen exchange rate, an increase of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on September 30, 2011.

For the Libor interest rate, a decrease of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the Libor rate on September 30, 2011.

The sensitivity amounts in the table below are the changes in the value of the financial instruments in each scenario, except for table (e), which shows the changes in future cash flows.

Tax debt refinancing program – Law No. 11,941/09

In June 2011, the Federal Revenue Service made available the debt refinancing program provided for in Law No. 11,941/09. Additionally, as allowed by the program, the Company included new tax debts related to an assessment notice arising from the use of a tax credit before the lawsuit that sought the recognition of the unconstitutionality of the changes in the determination of PIS introduced by Decree-Laws No. 2,445 and No. 2,449/88 was granted a final and unappealable decision. The amount of this debt, which was included in the refinancing program based on a legal decision on a writ of mandamus, since the Federal Revenue Service did not allow it in this program, totals R\$ 106,083. As described in Note 9 (b), we note that, at the same time, a credit of R\$ 91,431 arising from a final and unappealable decision that has been recently granted in favor of the Company was recognized. Accordingly, the recognition of the liability and the asset generated a negative impact on the results for the period in the amount of R\$ 14,652.

The amount consolidated by the Federal Revenue Service totaled R\$ 1,664,907 to be paid in monthly and consecutive installments of R\$ 10,678, adjusted based on the SELIC rate as from June 2011. At September 30, 2011, the balance of R\$ 1,664,873 will be paid in 157 installments.

The information related to taxes payable was presented in the Company's 2010 annual financial statements, in Note 20.

(i) This amount is part of the balance of "other receivables" in non-current assets.

The information related to private pension plans was presented in the Company's 2010 annual financial statements, in Note 24.

23. Contingencies

The Company has contingent liabilities related to legal lawsuits and administrative proceedings arising in the ordinary course of its business. These contingencies are of labor and social security, tax, civil and corporate nature and involve risks of losses that are classified by the Company's management as possible. A provision for the lawsuits for which the risk of loss is classified as probable is recognized and it is presented in Note 20 of this Quarterly Information.

Based on the opinion of the internal legal advisors, there were no significant additions of lawsuits representing lawsuits that involve risk of losses classified as possible, nor significant changes in the progress of the existing lawsuits, except for the monetary adjustments to the amounts involved in the quarter ended September 30, 2011.

The description of the main contingent liabilities of the Company was presented in the 2010 annual financial statements, in Note 25.

Braskem S.A.**Notes to the quarterly information****at September 30, 2011****All amounts in R\$ thousands unless otherwise stated****24. Equity****(a) Capital**

At September 30, 2011, the Company's subscribed and paid up capital amounts to R\$ 8,043,222 and comprises 801,665,617 shares with no par value divided into 451,669,063 common shares, 349,402,736 class A preferred shares, and 593,818 class B preferred shares.

(b) Treasury shares and repurchase of shares

The breakdown of treasury shares is as follows:

		Parent company		Consolidated
	September/2011	December/2010	September/2011	December/2010
Number				
Common shares	411	411	411	411

	1,542,669	1,506,471	2,697,427	2,661,229
Amount (R\$ thousand)	11,325	10,379	60,217	59,271

- In January 2011, the Company repurchased 36,198 class A preferred shares for the amount of R\$ 946 arising from the minority shareholders' right to withdraw from Braskem Petroquímica due to its merger into Braskem, which was approved by the shareholders on December 27, 2010.

- On August 26, 2011, Braskem's Board of Directors approved a new program for the repurchase of shares to be effective between August 29, 2011 and August 28, 2012 through which the Company may acquire up to 12,162,504 class A preferred shares at market price. The shares may be acquired by the Company or financial institutions contracted for this purpose.

The program, which was approved by the Brazilian Securities Commission ("CVM"), provides that even if they are in the possession of financial institutions, the shares repurchased in the ambit of the program will not be entitled to the dividends proposed by the Company.

Until the end of the program, Braskem will acquire from the financial institutions, at market price, the shares acquired by them, which is when they will be recorded by the Company as "treasury shares".

By September 30, 2011, 250,100 shares had been repurchased by financial institutions for the amount of R\$ 3,707.

Additionally, during the term of the program, the shares repurchased by financial institutions will be excluded from the calculation basis of earnings per share since, in essence, they are treasury shares and, for this reason, they are not subject to this calculation.

Braskem S.A.**Notes to the quarterly information****at September 30, 2011****All amounts in R\$ thousands unless otherwise stated****(c) Dividends**

On April 29, 2011, The Ordinary General Meeting approved the payment of dividends in the amount of R\$ 665,630 as from May 10, 2011, R\$ 376,352 of which was made available to common shareholders and R\$ 288,891 and R\$ 357 to class A and B preferred shareholders, respectively. The remaining proposed and undistributed amount, of R\$ 30, was reversed to retained earnings and refers to the 36,198 class A preferred shares acquired by Braskem in January 2011 as a result from the exercise of the right to withdraw by the shareholders of Braskem Petroquímica (Note 24 (b)).

The information related to Company's equity was presented in its 2010 annual financial statements, in Note 26.

25. Earnings per share

The table below shows the reconciliation of profit (loss) for the period adjusted to the amounts used to calculate basic and diluted earnings per share.

31. Insurance coverage

In the period ended September 30, 2011, there were no significant changes in the insurance coverage of Braskem and its subsidiaries.

32. Other receivables

On September 30, 2011, the account “other receivables” in the consolidated includes:

(i) in current assets:

- advances to suppliers amounting to R\$ 112,029;
- amounts receivable from suppliers of the Company as bonus for achieving the contractual target, amounting to R\$ 26,856; and
- amounts receivable from Petrobras amounting to R\$ 106,630 (Note 8 (b)).

(ii) non-current assets:

- expenses for the recovery of damages that occurred in furnaces and in the electric system in the olefin plants of the Camaçari Basic Petrochemicals unit located in the State of Bahia in the amount of R\$ 74,105 and R\$ 43,643, respectively; and
- expenses for the recovery of damages that occurred as a result of a leakage of chloride in the Chloride Soda plant in the State of Alagoas amounting to R\$ 8,847.

33. Advances from customers – non-current

On September 30, 2011, the balance of this account includes the advance of R\$ 139,080 (US\$ 75 million) made by a foreign customer for the acquisition of butadiene between February 2013 and December 2016.

34. Subsequent events

(a) On September 30, 2011 the Company completed the acquisition of the polypropylene (“PP”) business from The Dow Chemical Company (“Dow Chemical”) announced in July 2011. The negotiations included four industrial units, two in the United States and two in Germany, with an annual production capacity of 1,050 thousand metric tons of PP. In the United States, the plants acquired are located in Freeport and Seadrift in the State of Texas and add 505,000 metric tons to Braskem’s production capacity of PP in that country. These plants were incorporated into the assets of the subsidiary Braskem América. In Germany, the plants are located in Wesseling and Schkopau and have an annual production capacity of 545,000 metric tons. These plants were incorporated into the assets of the new subsidiary of Braskem in that country called Braskem Europe GmbH (Braskem Germany).

This acquisition represents a “business combination”, as established in the Accounting Pronouncement CPC 15 and IFRS 3R, which is why the Company’s management will hire a specialized company to measure, at fair value, the assets acquired and liabilities assumed. Under the above mentioned standards, the acquisition date is October 3, 2011, date on which the requirements for the acquisition were met by the parties involved. However, as provided for in the purchase and sale agreement, the assets, liabilities and results of the new plants were assumed retroactively to October 1, 2011. For this reason, the results of the acquired units will be consolidated in the Company’s financial statements as of October 1, 2011.

The information required for an operation of this nature will be disclosed in Braskem's 2011 annual financial statements.

The Purchase Price, as defined in the Sale and Purchase Agreement, amounting to US\$ 323 million, was paid on October 3, 2011. In addition to the industrial plants, the business combination involved inventories, trade accounts receivable and trade payables. These amounts that will be realized in the short term are part of the working capital associated with the new investment.

(b) In October 2011, 902,600 shares of the Company were repurchased by a financial institution in accordance with the repurchase program mentioned in Note 24 (b) for the amount of R\$ 12,634.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
