### **GPA Food 2Q12 x 2Q11** *(excludes real estate projects)*

GPA Food's gross sales revenue increased 5.9% in 2Q12 over 2Q11, due, among other factors, to the opening of 14 stores in the past 12 months and to the conclusion of the conversion process for banners CompreBem and Sendas into Extra Supermercado and banner Extra Fácil into Minimercado Extra.

Gross same-store sales growth was 4.7%, or -0.2% in real terms, when deflated by the IPCA benchmark inflation index for the period. It is worth noting that, differently from 2Q11, the shopping period ahead of Easter Day also impacted the first quarter of 2012. The Company's sales performance was also impacted by the retail sales in the beginning of the second quarter, in line with the performance released by the Brazilian Geography and Statistics Institute (IBGE), which showed the slowest growth pace since March 2009.

4 Retail: Gross sales revenue up 5.0% over 2Q11, mainly due to:

§ Differentiated performance in some segments, mainly of the general merchandise segment, which posted higher sales revenue due to the introduction of a broader assortment for such products, and of the home and personal care segment, for which several initiatives were developed jointly with suppliers. The trend was offset by a decline in the fish segment's sales revenue, due to the Easter effect and to a lower average price per kilo;

§ Faster sales pace in the neighborhood and supermarket formats. The first format saw the conversion of 66 Extra Fácil stores into Minimercado Extra. Minimercado's value proposition is different from Extra Fácil's, once the first offers a broader assortment of perishables and services, in addition to assortment adjusted to each microregion. In 2Q12, the conversion process of banner Extra Fácil into Minimercado Extra was concluded. As for the second format, Extra Supermercado also posted growth above the Group's average in gross same-store sales.

4 Cash and carry: Gross sales revenue up 11.1%, mainly due to:

§ Brand repositioning, with assortment changes, a process which began in the second half of 2011, focusing on the assortment to the target publics - processors, distributors and users, which favors an increase in the average ticket.

In the first half of 2012, gross sales revenue increased 8.4%. The 7.0% same-store sales growth, or 2.0% in real terms, is due to the successful conversions into Extra Supermercado and Minimercado Extra, as these banners' stores posted improved performance compared with the ones in operation before the conversion, and to the opening of 10 stores in the past 12 months (for further information, see page 10, on the CAPEX section).

### **GPA Consolidated 2Q12 x 2Q11**

Gross sales revenue totaled R\$ 13.414 billion in 2Q12, up 6.4%. In addition to GPA Food's growth, as explained above, sales increase at Viavarejo stood out. The operation posted sales growth in two of the industry's main shopping dates for the home appliances segment: Mothers' Day, in May, and Valentines' Day, commemorated in June in Brazil, and were also benefitted by an extension of the reduction on the IPI tax on some white-line products and relaxation in the tax on furniture.

**GPA Consolidated 1H12 x 1H11**

Gross sales revenue totaled R\$ 27.073 billion, up 8.4%. Same-store sales growth was 7.6%.

In 2Q12, EBITDA totaled R\$ 479 million, up 14.2%, and margin was up 50 basis points, to 7.2%. EBITDA of the retail segment increased 8.2%, while EBITDA of the cash-and-carry segment increased 192.3%. GPA Food's EBITDA accounted for 8.3% in 2Q12, up from 3.3% in 2Q11.

4 Retail: EBITDA margin reached 7.9%, a 20-basis-point gain, due to:

§ 30-basis-point gain in gross margin, following a sales mix with higher value-added products, such as perishables and general merchandise, which were also favored by the conversions into Minimercado Extra and Extra Supermercado, once these categories' presence is higher on those formats. Such performance was in line with the trend in the previous quarters;

§ Increase of 20 basis points in total operating expenses as percentage of net sales revenue due to an increase in personnel and marketing expenses.

4 Cash and carry: the segment posted EBITDA margin at 3.8%, up 230 basis points over 2Q11, due to:

§ 230 basis-point increase in gross margin, to 14.6%, following maturation of stores opened in the past 2 years; new positioning in assortment for the target public, which privileges more profitable items;

§ Reduction in sales expenses due to productivity gains in stores and adjustment of services rendered at the stores. The sales area reformatting, for inventory optimization, and the logistics model review benefit expense control;

In 2Q12, EBITDA totaled R\$ 692 million, up 7.9%, with margin at 5.8%, up 10 basis points over 2Q11, due to operation improvement in GPA Food, as mentioned above, through maintenance in operating expenses as percentage of net sales revenue.

### **GPA Food 2Q12 x 2Q11** *(excludes real estate projects)*

The net financial expense was R\$ 121 million, and accounted for 1.8% of net sales revenue, down 90 basis points from that in 2Q11. Such reduction is due to the effects from the decline in the base interest rate, notably as from September 2011, which impacts the Company as explained below:

§ R\$ 64 million in charges on the net bank debt, which accounted for 1.0% of net sales volume, down 40 basis points from 2Q11. The interest rate decline in the period benefitted this reduction;

§ R\$ 26 million in discounted credit card receivables cost, which accounted for 0.4% of net sales revenue. The 20 basis-point reduction, as compared with 2Q11, is directly impacted by a maintenance in the Company's commercial policy coupled with an interest rate decline;

§ R\$ 32 million in restatement of other assets and liabilities, which accounted for 0.5% of net sales revenue in the quarter, down 20 basis points from 2Q11.

### **GPA Food 1H12 x 1H11** *(excludes real estate projects)*

The net financial result was an expense of R\$ 264 million, down 19.6%, despite the 8.4% increase in gross sales revenue. The result was impacted by a decline in interest rates and control in payment conditions.

### **GPA Consolidated 2Q12 x 2Q11**

The net financial result was an expense of R\$ 285 million and accounted for 2.4% of net sales revenue, down 60 basis points from 2Q11.

### **GPA Consolidated 1H12 x 1H11**

In the first half of 2012, the net financial result was an expense of R\$ 621 million and accounted for 2.6% of net sales revenue, down 40 basis points from 1H11.

On 06/30/2012, GPA Food's net debt totaled R\$ 2.630 billion, down R\$ 120 million from 03/31/2012, mainly due to the cash generation in the period. The net-debt-to-EBITDA ratio was at 1.26 x at the end of June.

#### **GPA Consolidated**

Net debt totaled R\$ 2.557 billion as of 06/30/2012, up R\$ 34 million in comparison with 03/31/2012. The net-debt-to-EBITDA ratio was at 0.78x.

The Company issued three new series of debentures in the quarter and will use the proceeds to lengthen its debt profile:

The Company endorsed both debenture issues.

## GPA Malls & Properties

The opening of stores at Grupo Pão de Açúcar is the result of a planned expansion process. The Company uses its market intelligence to promote synergies between its retail strength and its real estate assets, which are managed by its real estate unit, GPA Malls & Properties (GPA M&P). GPA M&P manages and explores the Company's real estate assets, and looks at unlocking value in this market.

In the second quarter, a R\$ 98 million gross sales revenue was recognized. It is related to a land swap with Cyrela and with Pitangueiras Desenvolvimento Imobiliário of Company's pieces of land for the development and construction of projects, among them Thera Faria Lima Pinheiros, launched in October 2011, and Figue, respectively. The swap revenue is net of the accounting cost of the piece of land.

It is worth noting that the operational cycle at the real estate industry is different from that at the retail industry, for it is longer, generally exceeds the fiscal year period in which the project started and relies on real estate launches and their pace.

For further information on the recognition of such revenue, see explanatory notes number 3.b. and 26, on the Financial Statements.
