NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. BUSINESS OPERATIONS AND BASIS OF PRESENTATION

Business Operations- DSW Inc. and its wholly owned subsidiaries are herein referred to collectively as DSW Inc. or the “Company”. DSW refers to the DSW segment, which includes DSW stores and dsw.com. DSW Class A Common Shares are listed on the New York Stock Exchange under the ticker symbol “DSW”. DSW Class B Common Shares are not listed on a stock exchange but are exchangeable for Class A Common Shares at the election of the shareholder.

DSW Inc. has two reportable segments: the DSW segment, which includes DSW stores and dsw.com, and the Affiliated Business Group (“ABG”) segment. DSW offers a wide assortment of brand name dress, casual and athletic footwear and accessories for women, men and kids. As of August 1, 2015, DSW operated a total of 449 stores located in 42 states, the District of Columbia and Puerto Rico, and dsw.com. During the six months ended August 1, 2015, DSW opened 19 new DSW stores and closed one DSW store.

DSW Inc., through its ABG segment, also partners with four other retailers to help build and optimize their footwear businesses. As of August 1, 2015, ABG supplied merchandise to 268 Stein Mart stores and Steinmart.com, 101 Gordmans stores and Gordmans.com, and one Frugal Fannie’s store. During the six months ended August 1, 2015, ABG added five new shoe departments and ceased operations in two shoe departments. As of August 1, 2015, ABG operated four Yellow Box retail stores, which offer core fashion sandals, flats, dress shoes, boots and exclusive products.

DSW Inc. also has an equity investment in Town Shoes Limited (“Town Shoes”). Town Shoes is the market leader in branded footwear in Canada. As of August 1, 2015, Town Shoes operated 174 locations across Canada primarily under The Shoe Company, Shoe Warehouse and Town Shoes banners, as well as an e-commerce site. In May 2014, DSW entered into a licensing agreement with Town Shoes, which allows Town Shoes to use the DSW Designer Shoe Warehouse tradename for their new larger concept Canadian stores. As of August 1, 2015, there are six DSW Designer Shoe Warehouse stores in Canada.

Basis of Presentation- The accompanying unaudited condensed consolidated interim financial statements should be read in conjunction with DSW Inc.’s Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 26, 2015 (the “2014 Annual Report”). In the opinion of management, the unaudited condensed consolidated interim financial statements reflect all adjustments, consisting of normal recurring adjustments, which are necessary to present fairly the condensed consolidated financial position, results of operations and cash flows for the periods presented. The condensed consolidated interim financial statements include the accounts of DSW Inc. and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. All amounts are in United States Dollars (“USD”), unless otherwise noted.

2. INVESTMENT IN TOWN SHOES LIMITED

On May 12, 2014, DSW Inc. acquired a 49.2% interest in Town Shoes, the largest branded footwear and accessories retailer in Canada, for \$75.1 million Canadian dollars (“CAD”) (\$68.9 million USD). As of August 1, 2015, DSW Inc.’s ownership interest is 46.3%, and the dilution of the Company’s ownership is due to Town Shoes’ employee exercises of stock options. DSW Inc.’s stake provides 50% voting control and board representation equal to the co-investor.

Additionally, the Town Shoe co-investor holds the option to sell the remaining portion of the company in fiscal 2017, and on that date for the subsequent two years. DSW Inc. holds the option to purchase the remaining portion of the company in fiscal 2018, and on the anniversary of that date for the subsequent two years if the Town Shoe co-investor

has not exercised their put option. DSW Inc. purchased \$100 million CAD during the first quarter of fiscal 2015 (approximately \$79 million USD at purchase date) to take advantage of the strength of the dollar and in anticipation of funding the future purchase of the remaining interest in Town Shoes. The funds are also available to fund other business opportunities or return to U.S. operations, if needed. During the first quarter of fiscal 2015, the Company recorded \$3.3 million in foreign currency exchange gains related to the purchase of CAD within non-operating income. The Company invested the CAD in available-for-sale securities in the second quarter of fiscal 2015 and the foreign currency exchange loss of \$5.9 million is recorded within other comprehensive income.

3. SIGNIFICANT ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS

A description of DSW's significant accounting policies is included in DSW's 2014 Annual Report. The following policies represent new or updates to significant accounting policies.

Non-operating (Expense) Income- Non-operating (expense) income includes remeasurement effects of foreign currency.

Table of Contents

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

Income Taxes- In accordance with Accounting Standards Codification ("ASC") Topic 740, Income Taxes, interest and penalties related to unrecognized income tax benefits may either be classified as income tax expense or another appropriate expense classification in the consolidated statements of operations. Previously, the Company had elected to classify interest expense or income related to income tax liabilities, when applicable, as part of interest expense or income in its consolidated statements of operations rather than as part of income tax expense. The Company classified income tax penalties as part of operating expenses in its statements of operations. Beginning in the first quarter of fiscal 2015, the Company has elected to reflect interest and penalties from income taxes through the income tax provision in its statement of operations.

The policy is consistent with the policies elected by many of the Company's peers and thus will improve comparability of the Company's financial statements. The new policy is more consistent with the way in which the Company manages the settlement of uncertain income tax positions as one overall amount inclusive of interest and penalties. The Company also believes that interest and penalties related to unrecognized income tax benefits are costs of managing taxes payable and thus, it will provide more meaningful information to investors by including only interest expense from debt financing activities within interest expense.

This change in accounting policy was completed in accordance with ASC Topic 250, Accounting Changes and Error Corrections. Accordingly, the change in accounting policy has been applied retrospectively by adjusting the statement of operations for the prior periods presented. The change to historical periods was limited to classifications within the consolidated statements of operations and has no effect on net income or earnings per share.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") and the International Accounting Standards Board ("IASB") released standard No. 2014-09 on the recognition of revenue from contracts with customers that is designed to create greater comparability for financial statement users across industries and jurisdictions. Under the new standard, companies will recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the payment to which a company expects to be entitled in exchange for those goods or services. The standard also will require enhanced disclosures and provide more comprehensive guidance for transactions such as service revenue and contract modifications. The standard will take effect for public companies for annual reporting periods beginning after December 15, 2017, including interim reporting periods. The Company is evaluating the impact of the new standard on its financial statements and disclosures.

In April 2015, the FASB and the IASB released Accounting Standard Update ("ASU") 2015-03 simplifying the presentation of debt issuance costs. Under the new standard, debt issuance costs related to a recognized debt liability will be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The standard will take effect for public companies for annual reporting periods beginning after December 15, 2015, including interim reporting periods. There is currently no impact to the Company, however the Company will monitor the new standard and determine if it is likely to be impacted in the future.

In April 2015, the FASB released ASU 2015-05 to provide guidance to customers concerning whether a cloud computing arrangement includes a software license. Under this new standard, 1) if a cloud computing arrangement

includes a software license, the software license element of the arrangement should be accounted for in a manner consistent with the acquisition of other software licenses, or 2) if the arrangement does not include a software license, the arrangement should be accounted for as a service contract. The standard will take effect for public companies for annual reporting periods beginning after December 15, 2015, including interim reporting periods. The Company is evaluating the impact of the new standard on its financial statements and disclosures.

License Agreement with Town Shoes- In fiscal 2014, DSW Inc. entered into a licensing agreement with Town Shoes, which allows Town Shoes to use the DSW Designer Shoe Warehouse tradename for their new larger concept Canadian stores. 5. EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY

Earnings per Share- Basic earnings per share is based on net income and a simple weighted average of common shares outstanding. Diluted earnings per share reflects the potential dilution of common shares adjusted for outstanding stock options, restricted stock units ("RSU") and performance-based restricted stock units ("PSU") calculated using the treasury stock method.

The following table is a reconciliation of the number of shares used in the calculation of diluted earnings per share computations for the periods presented:

	Three months ended		Six months ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014

Number of shares for computation of diluted earnings per share	89,693	91,126	89,660	91,618

Options, RSUs and PSUs- The number of potential common shares that were not included in the computation of dilutive earnings per share because the effect would be anti-dilutive was approximately 2.0 million and 1.4 million for the three months ended August 1, 2015 and August 2, 2014, respectively, and 1.5 million and 1.2 million for the six months ended August 1, 2015 and August 2, 2014, respectively.

On April 16, 2015, DSW Inc. provided notice of termination of the agreement with the non-employee resulting in an acceleration of the vesting of the SARs as outlined in the agreement, and the SARs remain exercisable until June 2016. DSW Inc. will value the SARs at fair value until the expiration or exercise date using a Black-Scholes model. 7. INVESTMENTS

For the available-for-sale bonds and term notes, the carrying value plus any unrealized gains or losses equals the fair value. Held-to-maturity investments were primarily corporate bonds, municipal bonds and municipal term notes and were held at amortized cost, which approximated fair value. Long-term investments have maturities longer than one year but shorter than three years. The Company accounts for its purchases and sales of investments on the trade date of the investment. The following table discloses the major categories of the Company's investments as of the periods presented:

	Short-term investments			Long-term investments			
	August 1, 2015	January 31, 2015	August 2, 2014	August 1, 2015	January 31, 2015	August 2, 2014

Change in Investment Classification- During the first quarter of fiscal 2015, the Company liquidated investments classified as held-to-maturity. As a result of the sale of held-to-maturity investments, the Company transferred its entire portfolio to the available-for-sale classification at fair value at the date of transfer. The Company determined that this transfer was a change in investment strategy. The unrealized holding gains or losses for the available-for-sale securities are reported in other comprehensive income.

8. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Therefore, fair value is a market-based measurement based on assumptions of the market participants. As a basis for these assumptions, the Company classifies its fair value measurements under the following fair value hierarchy:

-

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are publicly accessible. Active markets have frequent transactions with enough volume to provide ongoing pricing information. Level 2 inputs are other than level 1 inputs that are directly or indirectly observable. These can include unadjusted quoted prices for similar assets or liabilities in active markets, unadjusted quoted prices for identical assets or liabilities in inactive markets or other observable inputs. Level 3 inputs are unobservable inputs.

(b) The shareholder note is valued based on similar assets in active markets.

(c) Stock appreciation rights are valued using the Black-Scholes model.

There are no financial assets or liabilities valued using level 3 inputs for the periods presented.

Non-Financial Assets- The Company periodically evaluates the carrying amount of its long-lived assets, primarily property and equipment, and finite-lived intangible assets when events and circumstances warrant such a review to ascertain if any assets have been impaired. For the six months ended August 1, 2015, there was a full impairment related to one store in the ABG segment of \$0.4 million recorded in cost of sales where the future expected cash flows will not recover the carrying amount of its long-lived assets. For the six months ended August 2, 2014, there were impairments of \$1.3 million recorded in cost of sales related to three DSW stores, where the future expected cash flows will not recover the carrying amount of their long-lived assets.

9. DEBT OBLIGATIONS

\$50 Million Secured Credit Facility- On August 2, 2013, the Company entered into a \$50 million secured revolving credit agreement (the "Credit Facility"), which has a term of five years and will expire on July 31, 2018. The Credit Facility may be increased by up to \$100 million upon the Company's request and the increase would be subject to lender availability, DSW Inc.'s financial condition and compliance with covenants. The Credit Facility is secured by a lien on substantially all of DSW Inc.'s personal property assets and its subsidiaries with certain exclusions and may be used to provide funds for general corporate purposes, to provide for ongoing working capital requirements and to make permitted acquisitions. The Credit Facility contains restrictive covenants relating to management and the operation of DSW Inc.'s business. These covenants, among other things, limit or restrict DSW Inc.'s ability to grant liens on its assets, limit its ability to incur additional indebtedness, limit its ability to enter into transactions with affiliates and limit its ability to merge or consolidate with another entity. The Credit Facility also requires that DSW Inc. meet the minimum cash and short-term investments requirement of \$125 million, as defined in the Credit Facility. An additional covenant limits payments for capital expenditures to \$200 million in any fiscal year. The Company paid \$51.0 million for capital expenditures for the six months ended August 1, 2015.

14. INCOME TAXES

The provision for income taxes is based on the current estimate of the annual effective tax rate and is adjusted as necessary for quarterly events. The effective tax rate reflects the impact of federal, state and local, and foreign taxes, as well as tax on the income or loss from Town Shoes. The effective tax rate for the three and six months ended August 1, 2015 was 37.4% and 37.8%, respectively. The effective tax rate for the three and six months ended August 2, 2014 was 38.0%.

15. COMMITMENTS AND CONTINGENCIES

Legal Proceedings- The Company is involved in various legal proceedings that are incidental to the conduct of its business. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, the amount of any potential liability with respect to current legal proceedings will not be material to results of operations or financial condition. As additional information becomes available, the Company will assess the potential liability related to its pending litigation and revise the estimates as needed.

Merger with Retail Ventures, Inc. ("the Merger")- On May 26, 2011, RVI merged with and into DSW MS LLC ("Merger Sub"), with Merger Sub surviving the Merger and continuing as a wholly owned subsidiary of DSW Inc. Upon the closing of the Merger, each outstanding RVI common share was converted into 0.435 DSW Class A Common Shares, unless the holder of each outstanding RVI common share properly and timely elected to receive a like number of DSW Class B Common Shares.

As of the effective time of the Merger, a subsidiary of DSW Inc. assumed the obligations under RVI's guarantees related to discontinued operations. DSW Inc. may become subject to various risks related to guarantees and in certain circumstances may be responsible for certain other liabilities related to these discontinued operations. In the first quarter of fiscal 2015, the Company recorded a \$2.0 million benefit from the final distribution from the bankruptcy debtor's estates related to Filene's Basement's bankruptcy in 2011.

Filene's Basement- Following the Merger, a subsidiary of DSW Inc., Merger Sub, assumed RVI's obligations under lease guarantees for three Filene's Basement retail store locations for leases assumed by Syms Corp in its purchase of Filene's Basement in fiscal 2009. The remaining guarantee is described in more detail below:

Union Square, NY- RVI guaranteed Filene's Basement's obligations for the Union Square location when RVI owned Filene's Basement, and the landlord at the Union Square location brought a lawsuit against Merger Sub in the Supreme Court of the State of New York ("the Court") seeking payment under a guarantee of the lease (the lease is scheduled to expire in 2024). On February 27, 2015, the parties jointly entered into a Stipulation and Settlement Agreement that provides for the settlement and release of the guaranty litigation and certain claims arising from the Filene's/Syms bankruptcy. The settlement approximated the accrual.

Contractual Obligations- As of August 1, 2015, the Company has entered into various construction commitments, including capital items to be purchased for projects that were under construction, or for which a lease has been signed. The Company's obligations under these commitments were \$5.7 million as of August 1, 2015. In addition, the Company has signed lease agreements for 34 new DSW store locations, expected to be opened in fiscal 2015 and 2016 with total annual rent of \$9.2 million. In connection with the new lease agreements, the Company will receive a total of \$13.5 million of construction and tenant allowance reimbursements for expenditures at these locations.

16. SUBSEQUENT EVENTS

Dividends- On August 25, 2015, DSW Inc.'s Board of Directors declared a quarterly cash dividend payment of \$0.20 per share. The dividend will be paid on September 30, 2015 to shareholders of record at the close of business on September 18, 2015.

Overview. Our net income for the six months ended August 1, 2015 was \$85.0 million, or \$0.95 per share. This compares against last year's net income of \$73.0 million, or \$0.80 per share. During the six months ended August 1, 2015, total net sales increased 8.1% to \$1.28 billion, driven by a 3.5% increase in comparable sales, and the opening of 39 new stores over last year.

We continue to focus on being customer-centric in the way we operate. We continue to add technologies and make organizational changes to provide a seamless and relevant shopping experience to our customers. We put in place a new labor scheduling tool, upgraded our dsw.com platform (including the integration of PayPal as an alternative payment method), introduced a mobile app and fully launched our assortment planning system, which will increase localization of assortments based on customer preferences. We continue to leverage our strengths, enhance our offerings to the customer, and create meaningful differentiation from our competitors.

THREE AND SIX MONTHS ENDED AUGUST 1, 2015 COMPARED TO THREE AND SIX MONTHS ENDED AUGUST 2, 2014

Net Sales. Net sales for the second quarter of fiscal 2015 increased 6.8% compared to the second quarter of fiscal 2014. Net sales for the six months ended August 1, 2015 increased 8.1% compared to the six months ended August 2, 2014. The following tables summarize the net change in our net sales:

	Three months ended August 1, 2015 (in millions)	Six months ended August 1, 2015
Net sales for the same period last year	\$587.1	\$1,186.0
Increase in comparable sales	10.3	40.2
Net increase from non-comparable and closed store sales	29.8	56.5
Net sales for the current period	\$627.2	\$1,282.7

The following table summarizes our net sales by reportable segment and in total:

	Three months ended		Six months ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
	(in thousands)			
DSW segment	\$592,583	\$553,814	\$1,204,794	\$1,112,680
ABG segment	34,623	33,282	77,898	73,363
Total DSW Inc.	\$627,206	\$587,096	\$1,282,692	\$1,186,043

The following table summarizes our comparable sales change by reportable segment and in total:

	Three months ended		Six months ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
DSW segment	1.9%	0.8%	3.5%	(1.7)%
ABG segment	0.7%	2.5%	3.1%	1.6%
Total DSW Inc.	1.8%	0.8%	3.5%	(1.5)%

Our increase in total net sales for the DSW segment for the three and six months ended August 1, 2015 was primarily a result of an increase in both comparable and new store sales growth, with the opening of 39 new stores over last year. For the three months ended August 1, 2015, average unit retail increased in the low single digits, leading to a low single digit increase in average dollar sales. Store traffic declined, however continued to outpace industry trends, while digital traffic increased in the high single digits. For the six months ended August 1, 2015, the increase in comparable sales was primarily a result of an increase in average unit retail.

During the second quarter of fiscal 2015, women's footwear posted a flat comparable sales performance. The athletic category performance posted the strongest comparable sales increase at 12%. This was driven by strong sales across fashion and performance in both genders. Men's footwear experienced a comparable sales increase of 3% driven by the dress, casual and seasonal categories. Accessories experienced a low single digit comparable sales decrease driven by handbags.

Gross Profit. Gross profit is defined as net sales less cost of sales. Gross profit increased as a percentage of net sales to 30.5% in the second quarter of fiscal 2015 from 29.3% in the second quarter of fiscal 2014. Gross profit increased as a percentage of net sales to 31.5% in the six months ended August 1, 2015 from 30.3% in the six months ended August 2, 2014. By reportable segment and in total, gross profit as a percentage of net sales was:

	Three months ended		Six months ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
DSW segment	31.2%	30.0%	32.3%	30.9%

Edgar Filing: DSW Inc. - Form 10-Q

ABG segment	19.0%	17.5%	20.0%	21.2%
Total DSW Inc.	30.5%	29.3%	31.5%	30.3%

19

Gross profit for the second quarter of fiscal 2015 increased as a percentage of net sales 120 basis points primarily due to lower markdown activity. Gross profit for the six months ended August 1, 2015 increased as a percentage of net sales 120 basis points primarily due to reduced markdown activity, partially offset by lower initial mark up. Occupancy, distribution and fulfillment center expense rates for the total company leveraged by 15 basis points for the quarter compared to last year and 20 basis points year to date compared to last year.

Gross profit for our ABG segment increased for the second quarter of fiscal 2015 primarily due to improved initial mark up and lower markdown activity. Gross profit for our ABG segment decreased for the six months ended August 1, 2015 primarily as a result of impairment expense.

For the DSW segment, the reconciliation of gross profit to merchandise margin is as follows:

	Three months ended		Six months ended		
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014	
DSW segment gross profit	31.2	% 30.0	% 32.3	% 30.9	%
Store occupancy expense	11.3	% 11.3	% 10.8	% 11.1	%
Distribution and fulfillment expenses	2.0	% 2.1	% 2.0	% 2.1	%
DSW segment merchandise margin	44.5	% 43.4	% 45.1	% 44.1	%

Operating Expenses. Operating expenses as a percentage of net sales were 21.0% and 20.2% for the second quarter of fiscal 2015 and fiscal 2014, respectively, driven by higher equity and incentive compensation. Operating expenses as a percentage of net sales were 21.1% and 20.7% for the six months ended August 1, 2015 and August 2, 2014, respectively. This increase was driven by higher equity and incentive compensation partially offset by the leverage of store expenses.

Interest Income, Net. Interest income, net for the second quarter of fiscal 2015 and for the six months ended August 1, 2015 was essentially flat compared to the second quarter of fiscal 2014 and the six months ended August 2, 2014.

Non-operating (expense) income. DSW Inc. reported a foreign currency gain of \$3.3 million related to the purchase of \$100 million CAD in the first quarter of 2015. The CAD was invested during the second quarter of 2015 and any foreign exchange gains/losses are recorded in other comprehensive income.

(Loss) Income from Town Shoes. Income (loss) from Town Shoes includes DSW's portion of the income or loss in Town Shoes' operations, partially offset by interest income on the shareholder note. Town Shoes' profits are seasonally skewed toward the second through fourth quarters of the fiscal year.

Income from Discontinued Operations. Income from discontinued operations for the second quarter of fiscal 2014 and the six months ended August 2, 2014 was due to the final distribution from the Filene's Basement debtor's estates.

Income Taxes. The effective tax rate reflects the impact of federal, state and local, and foreign taxes, as well as tax on the income or loss from Town Shoes. The effective tax rate for the three and six months ended August 1, 2015 was 37.4% and 37.8%, respectively. The effective tax rate for the three and six months ended August 2, 2014 was 38.0%.

Non-GAAP Financial Measures

We utilize merchandise margin, defined as gross profit excluding occupancy and distribution and fulfillment expenses, a non-GAAP financial measure, to explain our gross profit performance. Management believes this non-GAAP measure is an indication of our performance as the measure provides a consistent means of comparing performance between periods and competitors. Management uses this non-GAAP measure to assist in the evaluation of the performance of our segments and to make operating decisions. Within Management's Discussion and Analysis, we disclose merchandise margin, store occupancy expenses and distribution and fulfillment expenses, as a percentage

of net sales.

Seasonality

Our business is subject to seasonal merchandise trends when our customers' interest in new seasonal styles increases. New spring styles are primarily introduced in the first quarter, and new fall styles are primarily introduced in the third quarter. Unlike many other retailers, we have not traditionally experienced a significant increase in net sales during our fourth quarter associated with the winter holiday season.

Liquidity and Capital Resources

Overview. Our primary ongoing cash flow requirements are for inventory purchases and capital expenditures made in connection with our growth strategy, improving our information technology systems and infrastructure growth. Our working capital and inventory levels typically build seasonally. We believe that we have sufficient financial resources and access to financial resources at this time. We are committed to a cash management strategy that maintains liquidity to adequately support the operation of the business, pursue our growth strategy and to withstand unanticipated business volatility. We believe that cash generated from our operations, together with our current levels of cash and investments as well as availability under our revolving credit facility, should be sufficient to maintain our ongoing operations, support seasonal working capital requirements, fund capital expenditures related to projected business growth and continue payments of dividends to our shareholders.

Net Working Capital. Net working capital is defined as current assets less current liabilities. As of August 1, 2015, January 31, 2015 and August 2, 2014, net working capital was \$566.0 million, \$484.7 million and \$456.6 million, respectively. As of August 1, 2015, January 31, 2015 and August 2, 2014, the current ratio was 2.9, 2.7 and 2.5, respectively. The increase in net working capital is due to an increase in inventory, primarily due to an increase in opportunistic inventory.

Operating Cash Flows. For the six months ended August 1, 2015, our net cash provided by operations was \$114.6 million compared to \$97.7 million for the six months ended August 2, 2014 with the change driven primarily by changes in working capital and an increase in inventories.

Although our plan for continued expansion could place increased demands on our financial, managerial, operational and administrative resources and result in increased demands on management, we do not believe that our anticipated growth plan will have an unfavorable impact on our operations or liquidity. Uncertainty in the United States economy could result in reductions in customer traffic and comparable sales with the resultant increase in inventory levels and markdowns. Reduced sales may result in reduced operating cash flows if we are not able to appropriately manage inventory levels or leverage expenses. These potential negative economic conditions may also affect future profitability and may cause us to reduce the number of future store openings, impair goodwill or impair long-lived assets.

Investing Cash Flows. For the six months ended August 1, 2015, our net cash provided by investing activities was \$4.9 million compared to net cash used in investing activities of \$36.2 million for the six months ended August 2, 2014. During the six months ended August 1, 2015, we incurred \$53.8 million for capital expenditures, of which \$26.0 million related to new stores and remodels and \$27.8 million related to business infrastructure. During the six months ended August 1, 2015, we had net sales of short-term and long-term investments of \$58.2 million compared to net sales of short-term and long-term investments of \$87.6 million during the six months ended August 2, 2014.

We expect to spend approximately \$115 million for capital expenditures in fiscal 2015 for new stores, store remodels and technology and investments, as well as other business projects. Our future investments will depend primarily on the number of stores we open and remodel, infrastructure and information technology programs that we undertake and the timing of these expenditures. We opened 19 new stores in the six months ended August 1, 2015 and closed one store. We plan to open 35 to 40 stores in fiscal 2015. During fiscal 2014, the average investment required to open a typical new DSW store was approximately \$1.5 million, prior to construction and tenant allowances. Of this amount, gross inventory typically accounted for \$0.5 million, fixtures and leasehold improvements typically accounted for \$0.8 million and new store advertising and other new store expenses typically accounted for \$0.2 million.

Financing Cash Flows. For the six months ended August 1, 2015, our net cash used in financing activities was \$30.9 million compared to \$86.5 million for the six months ended August 2, 2014. Net cash used in financing activities was primarily related to the payment of dividends for the six months ended August 1, 2015 and August 2, 2014.

Our Credit Facility, Letter of Credit Agreement and other liquidity considerations are described more fully below:

\$50 Million Secured Credit Facility. On August 2, 2013, we entered into a secured revolving credit agreement (the "Credit Facility"), which has a term of five years and will expire on July 31, 2018. The Credit Facility may be increased by up to \$100 million upon our request and the increase would be subject to lender availability, our financial condition and compliance with covenants. The Credit Facility is secured by a lien on substantially all of our personal property assets and our subsidiaries with certain exclusions and may be used to provide funds for general corporate purposes, to provide for our ongoing working capital requirements, and to make permitted acquisitions. The Credit Facility contains restrictive covenants relating to our management and the operation of our business. These covenants, among other things, limit or restrict our ability to grant liens on our assets, limit our ability to incur additional indebtedness, limit our ability to enter into transactions with affiliates and limit our ability to

merge or consolidate with another entity. The Credit Facility also requires that we meet the minimum cash and short-term investments requirement of \$125 million, as defined in the Credit Facility. An additional covenant limits payments for capital expenditures to \$200 million in any fiscal year. We paid \$51.0 million for capital expenditures for the six months ended August 1, 2015.

\$50 Million Letter of Credit Agreement- Also on August 2, 2013, we entered into a letter of credit agreement (the "Letter of Credit Agreement"). The Letter of Credit Agreement provides for the issuance of letters of credit up to \$50 million, with a term of five years that will expire on August 2, 2018. The facility for the issuance of letters of credit is secured by a cash collateral account containing cash in an amount equal to 103% of the face amount of any letter of credit extension (105% for extensions denominated in foreign currency) and is used for general corporate purposes.

Contractual Obligations

As of August 1, 2015, January 31, 2015 and August 2, 2014, we had \$8.5 million, \$9.3 million and \$7.3 million, respectively, in outstanding letters of credit and \$9.1 million, \$11.5 million and \$10.1 million, respectively, in restricted cash on deposit under the Letter of Credit Agreement.

As of August 1, 2015, we have entered into various construction commitments, including capital items to be purchased for projects that were under construction, or for which a lease has been signed. Our obligations under these commitments were approximately \$5.7 million as of August 1, 2015. In addition, we have signed lease agreements for 34 new DSW store locations, expected to be opened in fiscal 2015 and 2016 with total annual rent of \$9.2 million. In connection with the new lease agreements, we will receive a total of \$13.5 million of construction and tenant allowance reimbursements for expenditures at these locations.

As of August 1, 2015, we operated all of our stores and our fulfillment center from leased facilities. Lease obligations are accounted for either as operating leases or as capital leases based on a lease by lease review at lease inception. We had no capital leases outstanding as of August 1, 2015, January 31, 2015 and August 2, 2014.

Future Cash

The Company is not dependent on dividends from its foreign subsidiaries to fund its U.S. operations or make distributions to DSW stockholders. Unremitted earnings from foreign subsidiaries, which are considered to be invested indefinitely, would become subject to income tax if they were remitted as dividends or were lent to DSW or a U.S. affiliate.

Foreign Currency

During the first quarter of 2015, we held \$100 million CAD in Canadian bank accounts. During the second quarter of 2015, we invested the CAD in available-for-sale investments in Canada in anticipation of funding the future purchase of the remaining interest in Town Shoes of Canada or pursue other business opportunities if they became available, but we would be able to return the funds to U.S. operations if we do not purchase the remaining interest or if U.S. operations require the cash.

Off-Balance Sheet Arrangements

As of August 1, 2015, DSW has not entered into any "off-balance sheet" arrangements, as that term is described by the Securities and Exchange Commission.

Proposed Accounting Standards

The Financial Accounting Standards Board periodically issues Accounting Standard Updates, some of which require implementation by a date falling within or after the close of the fiscal year. See Note 3 to the condensed consolidated financial statements for new accounting standards that will impact DSW.

Critical Accounting Policies and Estimates

As discussed in Notes 1 and 3 to our condensed consolidated interim financial statements included elsewhere in this Quarterly Report on Form 10-Q, the preparation of our condensed consolidated interim financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of commitments and contingencies at the date of the condensed consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. We base these estimates and judgments on our historical experience and other

factors we believe to be relevant, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The process of determining significant estimates is fact-specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and in some cases, actuarial and appraisal techniques. We constantly re-evaluate these significant factors and make adjustments where facts and circumstances dictate.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Cash and Equivalents and Investments- Our cash and equivalents have maturities of 90 days or less. At times, cash and equivalents may be in excess of Federal Deposit Insurance Corporation (“FDIC”) insurance limits. We also have investments in various short-term and long-term investments. These financial instruments may be subject to interest rate risk through lost income should interest rates increase during their term to maturity and thus may limit our ability to invest in higher income investments.

\$50 Million Credit Facility and \$50 Million Letter of Credit Agreement- As of August 1, 2015, there was no long-term debt outstanding. Future borrowings, if any, would bear interest at rates in accordance with our credit facility and credit agreement and would be subject to interest rate risk. Because we have no outstanding debt, we do not believe that a hypothetical adverse change of 1% in interest rates would have a material effect on our financial position.

Foreign Currency Exchange Risk- As a result of our equity investment in Town Shoes in fiscal 2014, we are exposed to foreign currency rate risk. We currently do not utilize hedging instruments to mitigate foreign currency exchange risks.

During the first quarter of 2015, we held \$100 million CAD in Canadian bank accounts. During the second quarter of 2015, we invested the \$100 million CAD in available-for-sale securities in Canada. As the CAD was fully invested during the second quarter of 2015, any gains/losses due to remeasurement will be recorded in other comprehensive income. If the funds are transferred to cash, we will be exposed to foreign currency rate risk due to remeasurement in our statement of operations.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of our disclosure controls and procedures, as such term is defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded, as of the end of the period covered by this report, that such disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

No change was made in our internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) or 15d-15(e), during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Other legal proceedings- The Company is involved in various legal proceedings that are incidental to the conduct of our business. We estimate the range of liability related to pending litigation where the amount of the range of loss can be estimated. We record our best estimate of a loss when the loss is considered probable. When a liability is probable and there is a range of estimated loss, we record the most likely estimated liability related to the claim. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, the amount of any potential liability with respect to these proceedings will not be material to our results of operations or financial condition.

Item 1A. Risk Factors.

The following risk factor supplements DSW's risk factors as set forth in Part I, Item 1A of our last Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Foreign Currency Exchange Risk- As a result of our equity investment in Town Shoes in fiscal 2014, we are exposed to foreign currency rate risk. We currently do not utilize hedging instruments to mitigate foreign currency exchange risks. During the first quarter of 2015, we held \$100 million CAD in Canadian bank accounts. During the second quarter of 2015, we invested the \$100 million CAD in available-for-sale securities in Canada. As the CAD was fully invested during the second quarter of 2015, any gains/losses due to remeasurement will be recorded in other comprehensive income. If the funds are transferred to cash, we will be exposed to foreign currency rate risk due to remeasurement in our statement of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(a) Recent sales of unregistered securities. None.

(b) Use of Proceeds. Not applicable.

(c) Purchases of equity securities by the issuer and affiliated purchasers.

\$150 Million Share Repurchase Program- In fiscal 2014, the Board of Directors authorized the repurchase of up to an additional \$50 million of DSW Class A Common Shares under the Company's share repurchase program, which was previously authorized for \$100 million. The repurchase program will be funded using our available cash, and we have no obligation to repurchase any amount of our common shares under the program. As of August 1, 2015, we have repurchased a total of 3.0 million Class A Common Shares at a cost of \$86.9 million under this program, with \$63.1 million remaining available. The shares withheld and repurchased are summarized in the table below:

Period	Total number of shares purchased	Average price paid per share (b)	Total number of shares purchased as part of publicly announced programs	Approximate dollar value of shares that may yet be purchased under the programs (in thousands)
May 3, 2015 to May 30, 2015	(a) 262	\$36.27	—	\$63,062
May 31, 2015 to July 4, 2015	—	—	—	63,062
July 5, 2015 to August 1, 2015	—	—	—	63,062
	262	\$36.27	—	\$63,062

(a) The total number of shares repurchased includes shares repurchased as part of publicly announced programs, with the remainder relating to shares withheld in connection with tax payments due upon vesting of employee restricted stock awards.

(b) The average price paid per share includes any broker commissions.

Dividends- The payment of any future dividends is at the discretion of our Board of Directors and is based on our future earnings, cash flow, financial condition, capital requirements, changes in taxation laws, general economic condition and any other relevant factors. It is anticipated that dividends will be declared on a quarterly basis.
