This Form 6-K consists of:

A press release regarding the third quarter 2011 results of JA Solar Holding Co., Ltd. (the “Registrant”), made by the Registrant in English on November 22, 2011.

JA Solar Announces Third Quarter 2011 Results

SHANGHAI, November 22, 2011 -- JA Solar Holdings Co., Ltd. (Nasdaq:JASO) ("JA Solar" or the "Company"), one of the world's largest manufacturers of high-performance solar cells and solar power products, today announced its financial results for its third quarter ended September 30, 2011.

Third Quarter 2011 Highlights

1 Third quarter shipments of 445 MW, an increase of 6.5% year-over-year and an increase of 11.0% sequentially

1 Third quarter revenue of \$388.0 million, a decrease of 31.6% year-over-year and a decrease of 7.3% sequentially

1 Strong balance sheet with a cash balance of \$506.5 million and working capital of \$734.9 million

Dr. Peng Fang, CEO of JA Solar, commented, "This continues to be a challenging period for the solar industry, but we are heartened that JA Solar has been able to retain customers and maintain strong market share in the third quarter. While ongoing macro-economic and industry volatility continued to restrain demand, overall product shipments were at the low end of our guidance at 445MW. With the European debt crisis limiting the amount of financing available for solar power projects, we did not see the anticipated demand recovery in major European markets during the month of September. However, JA Solar performed relatively well as customers increasingly relied on top tier suppliers with strong liquidity. In the current market environment, where customers have more choices of products and suppliers, we have seen customers shifting more of their orders to suppliers who can deliver high power products together with a strong brand, a reputation for quality, and a healthy balance sheet. JA Solar's suite of industry-leading high-performance products gives us a clear advantage and this is particularly evident in our module shipments for the third quarter, which grew by more than 45% sequentially. Our gross margin for the quarter has been impacted by an inventory provision of US\$21.7 million. Excluding this inventory provision, gross margin would have been positive."

Dr. Fang continued, "As a result of on-going macro-economic and industry uncertainty, visibility in the near term is limited. We remain confident that we can outperform our peers by building on our already strong relationships with our diverse global customer base, and maintaining our long-term partnerships with leading solar companies internationally. JA Solar is also committed to ensuring operational efficiency by continuing our cost optimization efforts, reducing inventory, and producing to order. We believe that these efforts, supported by our healthy cash position and balance sheet strength, will ensure that JA Solar is well positioned to benefit when market

conditions improve."

Third quarter 2011 Financial Results

Total shipments in the third quarter of 2011 were 445 MW, compared with shipments of 401 MW in the second quarter of 2011, representing a sequential increase of 11.0%. Compared with the same period last year, shipments grew 6.5% from 418 MW.

Revenue in the third quarter of 2011 was RMB 2.5 billion (\$388.0 million), a decrease of 7.3% compared to RMB 2.7 billion (\$418.5 million) in the second quarter of 2011 and a decrease of 31.6% from RMB 3.6 billion (\$567.4 million) reported in the third quarter of 2010.

Gross loss in the third quarter of 2011 was RMB 106.1 million (\$16.6 million), compared with gross loss of RMB 72.0 million (\$11.3 million) in the second quarter of 2011 and gross profit of RMB 816.0 million (\$127.9 million) in the third quarter of 2010. Gross margin was negative 4.3% in the third quarter of 2011, compared with negative 2.7% in the second quarter of 2011 and 22.5% in the third quarter of 2010. Included in the cost of sales was an inventory provision of RMB 138.6 million (\$21.7 million) recorded in the third quarter. The provision was recorded to write down inventory costs in order to reflect a decline in the average selling price. The provision had a negative impact on gross margin of 5.6%. Excluding the impact of the inventory provision, gross margin would have been positive.

Total operating expenses in the third quarter of 2011 were RMB 170.2 million (\$26.7 million), compared with RMB 130.0 million (\$20.4 million) in the second quarter of 2011 and RMB 146.7 million (\$23.0 million) in the third quarter of 2010. Included in operating expenses was a non-cash provision for advance to third party suppliers of RMB 42.2 million (\$6.6 million). Total operating expenses represented 6.9% of net revenue in the third quarter of 2011, compared with 4.9% in the second quarter of 2011 and 4.1% in the third quarter of 2010.

Operating loss in the third quarter of 2011 was RMB 276.3 million (\$43.3 million), compared with operating loss of RMB 202.0 million (\$31.7 million) in the second quarter of 2011 and operating income of RMB 669.3 million (\$104.9 million) in the third quarter of 2010.

Loss per diluted ADS in the third quarter of 2011 was RMB 2.28 (\$0.36), compared with loss per diluted ADS of RMB 1.39 (\$0.22) in the second quarter of 2011 and earnings per diluted ADS of RMB 3.14 (\$0.49) in the third quarter of 2010.

Liquidity

The Company maintained a strong balance sheet with cash and cash equivalents of RMB 3.2 billion (\$506.5 million), and total working capital of RMB 4.7 billion (\$734.9

million) at September 30, 2011. Total long term and short term borrowings were RMB 4.5 billion (\$703.9 million) and the face value of outstanding convertible bonds due 2013 was RMB 1.5 billion (\$228.2 million) at September 30, 2011.

Outlook

Solar cell and module shipments in the fourth quarter are expected to be in the range of approximately 310 MW to 330 MW. The Company currently estimates that total cell and module shipments for full year 2011 will be approximately 1.6 GW. This compares to the Company's previous guidance of 1.8 GW.

Investor Conference Call / Webcast Details

A conference call has been scheduled for today, November 22, 2011, at 8:00a.m. US Eastern Time.

Dial-in details for the live conference call are as follows:

U.S./International: +1-718-354-1231

Hong Kong: +852-2475-0994

Passcode: JA Solar.

A live webcast of the conference call will be available on the Company's website at <http://www.jasolar.com>.

A replay of the call will be available beginning three hours after the live call.

The dial-in details for the replay are as follows:

International: + 61-2-8235-5000

United States: +1-718-354-1232

Passcode: 25400164

Currency Convenience Translation

The conversion of Renminbi into U.S. dollars in this release, made solely for the convenience of the reader, is based on the noon buying rate in the city of New York for cable transfers of Renminbi as certified for customs purposes by the Federal Reserve Bank of New York as of September 30, 2011, which was RMB 6.378 to USD \$1. No representation is intended to imply that the Renminbi amounts could have been, or could be, converted, realized or settled into U.S. dollars at that rate

September 30, 2011, or at any other date. The percentages stated in this press release are calculated based on Renminbi.

Forward-looking Statements

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by words such as "may," "expect," "anticipate," "aim," "intend," "plan," "believe," "estimate," "potential," "continue," and other similar statements. Statements other than statements of historical facts in this announcement are forward-looking statements, including but not limited to, our expectations regarding the expansion of our manufacturing capacities, our future business development, and our beliefs regarding our production output and production outlook. These forward-looking statements involve known and unknown risks and uncertainties and are based on current expectations, assumptions, estimates and projections about the Company and the industry. Further information regarding these and other risks is included in Form 20-F and other documents filed with the Securities and Exchange Commission. The Company undertakes no obligation to update forward-looking statements, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that its expectations will turn out to be correct, and investors are cautioned that actual results may differ materially from the anticipated results.

About JA Solar Holdings Co., Ltd.

JA Solar Holdings Co., Ltd. is a leading manufacturer of high-performance solar power products. The Company sells its products to solar manufacturers worldwide, who assemble and integrate solar cells into modules and systems that convert sunlight into electricity for residential, commercial, and utility-scale power generation. For more information, please visit <http://www.jasolar.com>.
