Item 1.01. Entry into a Material Definitive Agreement.

On November 5, 2010, Legacy Reserves Operating LP, a wholly owned subsidiary of Legacy Reserves LP (the “Partnership”), entered into a purchase and sale agreement with COG Operating LLC, a wholly owned subsidiary of Concho Resources Inc., to acquire certain oil and natural gas properties in the Permian Basin for a contract price of \$105 million, subject to customary purchase price adjustments (the “Acquisition”). The properties currently produce 1,419 barrels of oil equivalent per day, of which 47% is oil. Proved reserves are estimated to be 5.8MMBoe, 88% of which are considered proved developed producing. Approximately 60% of the properties are operated, and over 95% of the properties are near Legacy's existing operations in multiple counties throughout the Permian Basin. The Partnership anticipates that the Acquisition will close on or about December 22, 2010, with an effective date of October 1, 2010. The Partnership expects to finance the Acquisition with proceeds from borrowings under the Partnership's existing revolving credit facility. The Acquisition is subject to customary conditions to closing and there can be no assurance that all of the conditions to closing will be satisfied. The purchase and sale agreement also contains customary environmental indemnification provisions.

Item 8.01. Other Events.

In anticipation of the completion of the Acquisition and the Partnership's recent development activity, the Partnership entered into the following crude oil swap agreements:

Calendar Year	Annual Volumes (Bbls)	Price per Bbl
2011	209,698	\$88.90
2012	186,655	\$90.50
2013	169,798	\$90.50
2014	156,804	\$90.50
2015	145,051	\$90.50
