Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, those that contain words such as “believes”, “expects”, “potential”, “continues”, “may”, “will”, “should”, “s”, “predicts”, “intends”, “plans”, “estimates”, “anticipates”, “target”, “could” or the negative version of these words or other comparable words.

These statements are subject to various risks and uncertainties, many of which are outside our control, including, among others, strength of the economy, changes in the overall level of consumer spending, the performance of the Company's products within the prevailing retail environment, implementation of our strategy, trade restrictions, availability of suitable store locations at appropriate terms, the availability of raw materials, compliance with regulations, certifications and best practices with respect to the development, manufacture, sales and marketing of the Company's products, management changes, maintaining appropriate levels of inventory, changes in tax policy, e-commerce relationships, disruptions of manufacturing, warehouse or distribution facilities or information systems, political environment and other specific factors discussed herein and in other Securities and Exchange Commission (the "SEC") filings by us (including our reports on Forms 10-K and 10-Q filed with the SEC).

We believe that all forward-looking statements are based on reasonable assumptions when made; however, we caution that it is impossible to predict actual results or outcomes or the effects of risks, uncertainties or other factors on anticipated results or outcomes with certainty and that, accordingly, one should not place undue reliance on these statements. Forward-looking statements speak only as of the date when made and we undertake no obligation to update these statements in light of subsequent events or developments. Actual results may differ materially from anticipated results or outcomes discussed in any forward-looking statement.

VITAMIN SHOPPE, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

Vitamin Shoppe, Inc. ("VSI"), is incorporated in the State of Delaware, and through its wholly-owned subsidiary, Vitamin Shoppe Industries Inc. ("Subsidiary" or "Industries" together with VSI, the "Company"), is an omni-channel specialty retailer of nutritional products. Sales of both national brands and our own brands of vitamins, minerals, herbs, specialty supplements, sports nutrition and other health and wellness products ("VMS products") are made through VSI-operated retail stores and the internet to customers located primarily in the United States. The consolidated financial statements as of September 29, 2018 and September 30, 2017 are unaudited. The consolidated balance sheet as of December 30, 2017 was derived from our audited financial statements and has been restated to reflect discontinued operations. Refer to Note 2., "Discontinued Operations" for additional information. As a result of the discontinued operations, the Company currently operates through one business segment. In addition, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to such rules and regulations. The interim financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation in conformity with GAAP. The interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended December 30, 2017, as filed with the Securities and Exchange Commission on February 27, 2018 (the "Fiscal 2017 Form 10-K"). The results of operations for the interim periods should not be considered indicative of results to be expected for the full year.

The Company's fiscal year ends on the last Saturday in December. As used herein, the term "Fiscal Year" or "Fiscal" refers to a 52-week period, ending on the last Saturday in December. The results for the three and nine months ended September 29, 2018 and September 30, 2017 are each based on 13-week and 39-week periods, respectively.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the reporting period. Actual results could differ from those estimates.

Except as noted below, the Company has considered all new accounting pronouncements and has concluded that there are no new pronouncements that may have a material impact on its results of operations, financial condition, or cash flows, based on current information.

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2016-02 ("ASU 2016-02"), Leases (Topic 842). ASU 2016-02 was issued by the FASB to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The main difference between previous GAAP and Topic 842 is the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. The Company has elected to adopt ASU 2016-02 in accordance with Accounting Standards Update No. 2018-11 ("ASU 2018-11"), Leases (Topic 842) Targeted Improvements. Under the transition method included in ASU 2018-11, the Company will initially apply ASU 2016-02 at the adoption date of December 30, 2018, which is the first day of Fiscal 2019, and will recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company's reporting for the comparative periods presented in its financial statements will continue to be in accordance with previous GAAP (Topic 840, Leases). Under this transition method, the Company will provide the required Topic 840 disclosures for all periods that continue to be in accordance with Topic 840. The Company expects ASU 2016-02 will not have a material impact on its results of operations, however, this guidance will result in a significant increase to long-term assets and liabilities on the Company's balance sheet given the Company has a significant number of leases. The Company is in the process of implementing changes to its business processes, systems and controls to support the adoption of ASU 2016-02 in Fiscal 2019.

2. Discontinued Operations

On May 7, 2018, the Company sold certain assets, including the Betancourt Nutrition® brand, and liabilities of FDC Vitamins, LLC d/b/a Nutri-Force Nutrition (“Nutri-Force”) to Arizona Nutritional Supplements, LLC (“ANS”). Proceeds from the sale, net of transaction costs, were approximately \$14.8 million after working capital adjustments in the third quarter of Fiscal 2018 of approximately \$0.8 million. The Company recognized a pre-tax loss on the sale of Nutri-Force of \$0.2 million. In connection with the sale, the parties executed a transition services agreement for an initial term of six months whereby the Company agreed to provide services to operate the manufacturing facilities in Miami Lakes, Florida and to transition the production of products to ANS facilities. In addition, the parties executed supply agreements in which the Company has agreed

Table of Contents

to purchase a total of \$53.0 million annually of its private label products and Betancourt Nutrition® brand products from ANS for a term of five years.

The results of operations of Nutri-Force for the three and nine months ended September 29, 2018 are classified as discontinued operations in the consolidated statements of operations. The consolidated balance sheet as of December 30, 2017 and the statements of operations for the three and nine months ended September 30, 2017 have been restated to reflect the discontinued operations.

| | \$ 59,411 | \$ 62,645 |

5. Credit Arrangements

Convertible Senior Notes due 2020

On December 9, 2015, the Company issued \$143.8 million of its 2.25% Convertible Senior Notes due 2020 (the “Convertible Notes”). The Convertible Notes are senior unsecured obligations of VSI. Interest on the Convertible Notes is payable on June 1 and December 1 of each year until their maturity date of December 1, 2020. The Company may not redeem the Convertible Notes prior to the maturity date.

Prior to July 1, 2020, the Convertible Notes will be convertible only under certain circumstances. The Convertible Notes are convertible at an initial conversion rate of 25.1625 shares of the Company’s common stock per \$1,000 principal amount of the Convertible Notes, which is equivalent to a conversion price of approximately \$39.74. The conversion rate is subject to adjustment in some events but will not be adjusted for any accrued and unpaid interest. In addition, following certain corporate events that occur prior to the maturity date, the Company is required to increase, in certain circumstances, the conversion rate for a holder who elects to convert its Convertible Notes in connection with such a corporate event including customary conversion rate adjustments in connection with a “make-whole fundamental change” as defined. Upon conversion, the Company may satisfy its conversion obligation by paying or delivering, as applicable, cash, shares of its common stock or a combination of cash and shares of its common stock, at its election.

The Company allocated the principal amount of the Convertible Notes between its liability and equity components (see table below). The carrying amount of the liability component was determined by measuring the fair value of a similar debt instrument of similar credit quality and maturity that did not have the conversion feature. The carrying amount of the equity component, representing the embedded conversion option, was determined by deducting the fair value of the liability component from the principal amount of the Convertible Notes as a whole. The equity component was recorded to additional paid-in capital and is not remeasured as long as it continues to meet the conditions for equity classification. The excess of the principal amount of the Convertible Notes over the carrying amount of the liability component was recorded as a debt discount, and is being amortized to interest expense using an effective interest rate of 3.8% over the term of the Convertible Notes. The Company allocated the total amount of transaction costs incurred to the liability and equity components using the same proportions as the proceeds from the Convertible Notes. Transaction costs attributable to the liability component were recorded as a direct deduction from the liability component of the Convertible Notes, and are being amortized to interest expense using the effective interest method through the maturity date. Transaction costs attributable to the equity component were netted with the equity component of the Convertible Notes in additional paid-in capital.

During Fiscal 2018, the Company repurchased \$75.3 million in aggregate principal amount of its Convertible Notes for an aggregate purchase price of \$57.2 million, which includes accrued interest of \$0.3 million. The repurchases were funded through borrowings under the Company's Revolving Credit Facility. The gain on extinguishment of the repurchased Convertible Notes was \$16.2 million.

Table of Contents

The Convertible Notes consist of the following components (in thousands):

| | September 29, 2018 | December 30, 2017 |
|--|-----------------------|----------------------|
| Liability component: | | |
| Principal | \$ 68,439 | \$ 143,750 |
| Conversion feature | (17,685) | (24,800) |
| Liability portion of debt issuance costs | (2,758) | (3,802) |
| Amortization | 14,232 | 11,267 |
| Net carrying amount | \$ 62,228 | \$ 126,415 |
| Equity component: | | |
| Conversion feature | \$ 18,908 | \$ 24,800 |
| Equity portion of debt issuance costs | (793) | (793) |
| Deferred taxes | 941 | 941 |
| Net carrying amount | \$ 19,056 | \$ 24,948 |

In connection with the issuance of the Convertible Notes, the Company entered into convertible note hedge transactions for which it paid an aggregate \$26.4 million. In addition, the Company sold warrants for which it received aggregate proceeds of \$13.0 million. The convertible note hedge transactions are expected generally to reduce potential dilution of the Company's common stock upon any conversion of notes and/or offset any cash payments the Company is required to make in excess of the principal amount of converted notes. However, the warrant transaction could separately have a dilutive effect to the extent that the market value per share of the Company's common stock exceeds the applicable strike price of the warrant transactions, which is approximately \$52.99 at inception. As these transactions meet certain accounting criteria, the convertible note hedge and warrant transactions are recorded in stockholders' equity, are not accounted for as derivatives and are not remeasured each reporting period.

The net proceeds from the Convertible Notes and related transactions of \$125.7 million, net of commissions and offering costs of \$4.6 million, were used to repurchase shares of the Company's common stock under the Company's share repurchase programs.

In connection with the repurchases of Convertible Notes, the convertible note hedge transactions and the warrant transaction noted above were reduced in ratable proportion to the face amount of Convertible Notes that were repurchased. The net proceeds received by the Company from these transactions were de minimis.

Revolving Credit Facility

As of September 29, 2018 and December 30, 2017, the Company had zero and \$12.0 million of borrowings outstanding on its Revolving Credit Facility (the "Revolving Credit Facility"), respectively.

In May 2017, the Company executed an amendment to its Revolving Credit Facility, which provides for an extension of the maturity date to May 9, 2022, provided that the maturity date would be any day on or after September 2, 2020 only if the Company did not on any such day have enough liquidity to retire its Convertible Notes then outstanding, if any. The amendment also provides for a reduction of the interest rate under the Revolving Credit Facility, as noted below.

Subject to the terms of the Revolving Credit Facility, the Company may borrow up to \$90.0 million, with a Company option to increase the facility up to a total of \$150.0 million. The availability under the Revolving Credit Facility is subject to a borrowing base calculated on the value of certain inventory as well as certain accounts receivable of the Company. The obligations thereunder are secured by a security interest in substantially all of the assets of the Company. Under the Revolving Credit Facility, VSI has guaranteed the Company's obligations, and Industries and its wholly-owned subsidiaries have each guaranteed the obligations of the other respective entities. The Revolving Credit Facility provides for affirmative and negative covenants affecting the Company. The Revolving Credit Facility restricts, among other things, the Company's ability to incur indebtedness, create or permit liens on the Company's assets, declare or pay dividends and make certain other restricted payments, consolidate, merge or recapitalize, sell assets, make certain investments, loans or other advances, enter into transactions with affiliates, change our line of

business, and restricts the types of hedging activities the Company can enter into.

Table of Contents

The largest amount borrowed during the nine months ended September 29, 2018 and September 30, 2017 was \$44.0 million and \$38.0 million, respectively. The unused available line of credit under the Revolving Credit Facility at September 29, 2018 was \$85.8 million.

Borrowings under the Revolving Credit Facility accrue interest, at the Company's option, at the rate per annum based on an "alternative base rate" plus 0.00%, 0.125% or 0.25% or the adjusted Eurodollar rate plus 1.00%, 1.125% or 1.25%, in each case with the highest spread applicable in the event that the average excess collateral availability under the Revolving Credit Facility is less than 33% of the borrowing base availability under the Revolving Credit Facility, the second highest spread applicable in the event that the average excess collateral availability under the Revolving Credit Facility is less than 66% and greater than or equal to 33% of the borrowing base availability under the Revolving Credit Facility and the lowest spread applicable in the event that the average excess collateral availability under the Revolving Credit Facility is greater than or equal to 66% of the borrowing base availability under the Revolving Credit Facility. The weighted average interest rate for the Revolving Credit Facility during the nine months ended September 29, 2018 and September 30, 2017 was 2.92% and 2.18%, respectively. The commitment fee on the undrawn portion of the \$90.0 million Revolving Credit Facility is 0.25% per annum.

Interest expense, net for the three and nine months ended September 29, 2018 and September 30, 2017 consists of the following (in thousands):

| | Three Months Ended September 29, 2018 | | Nine Months Ended September 29, 2018 | |
|---|--|----------|---|----------|
| | September 30, 2017 | | September 30, 2017 | |
| Amortization of debt discount on Convertible Notes | \$594 | \$ 1,201 | \$2,570 | \$ 3,569 |
| Interest on Convertible Notes | 390 | 818 | 1,738 | 2,453 |
| Amortization of deferred financing fees | 120 | 220 | 485 | 678 |
| Interest / fees on the Revolving Credit Facility and other interest | 185 | 187 | 636 | 512 |
| Interest expense, net | \$1,289 | \$ 2,426 | \$5,429 | \$ 7,212 |

6. Revenue Recognition

The Company recognizes revenue from retail customers when merchandise is sold "at point of sale" in retail stores or upon delivery to a customer. Substantially all revenue from customers represents goods transferred at a point in time. The Company applied the modified retrospective method for the transition to FASB Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606). The modified retrospective method requires application of the new revenue standard only to the current year financial statements (i.e., the financial statements for the year in which the new revenue standard is first implemented). Under the modified retrospective method, an entity records a cumulative-effect adjustment on the opening balance sheet to retained earnings. The opening adjustment to retained earnings is determined on the basis of the impact of the new revenue standard's application on contracts that were not completed as of the date of initial application. The Company did not record an opening adjustment to retained earnings as the impact of the application of the new revenue standard was de minimis.

Disaggregation of Revenue

The Company disaggregates revenue from contracts with customers into two categories, sales fulfilled in stores and direct to consumer sales. The Company determines that disaggregating revenue into these categories achieves the disclosure objective to depict how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors.

Table of Contents

The following table contains net sales by fulfillment category (in thousands):

| Total net sales | \$276,636 | \$282,407 | \$865,703 | \$884,599 |

Delivery revenue represents shipping fees billed to customers which are included in net sales in the consolidated statements of operations.

Contract Balances

Receivables primarily consist of amounts due from debit and credit card processors and amounts due from third-party e-commerce marketplaces. These receivables balances are included in prepaid expenses and other current assets in the consolidated balance sheets.

For the periods presented, the Company does not have contract assets. A contract asset would exist when an entity has a contract with a customer for which revenue has been recognized but payment is contingent on a future event other than the passage of time (e.g., unbilled receivables).

Contract liabilities primarily include deferred sales related to the loyalty program, a liability for future gift card redemptions and a liability for sales in transit. These liabilities are included in accrued expenses and other current liabilities in the consolidated balance sheets.

Table of Contents

The opening and closing balances of the Company's receivables and contract liabilities are as follows (in thousands):

| | Receivables | Contract Liabilities |

| Increase / (Decrease) | 466 | (957) |
| Balances as of September 30, 2017 | \$ 11,550 | \$ 6,424 |

The amounts of revenue recognized during the three month periods ended March 31, 2018 and April 1, 2017 that were included in the opening contract liability balances were \$6.5 million and \$6.0 million, respectively. The amounts of revenue recognized during the three month periods ended June 30, 2018 and July 1, 2017 that were included in the opening contract liability balances were \$6.4 million and \$5.6 million, respectively. The amounts of revenue recognized during the three month periods ended September 29, 2018 and September 30, 2017 that were included in the opening contract liability balances were \$8.4 million and \$6.5 million, respectively. This revenue consists primarily of loyalty point redemptions, the delivery of sales in transit and gift card redemptions.

Performance Obligations

For retail sales, the performance obligation is the transfer of retail merchandise to the customer at the retail store or at the time of delivery to the customer. Variable consideration for retail sales is primarily related to our loyalty program. Under the loyalty program, sales are deferred at the time points are earned based on the value of points that are projected to be redeemed, which are based on historical redemption data and current trends. The Company records a liability in the period points are earned with a corresponding reduction of sales. Under the current program, loyalty points are earned each calendar quarter and must be redeemed within the subsequent calendar quarter or they expire. During Fiscal 2018, the Company is testing potential changes to the loyalty program, such as extending the redemption period on loyalty points, in order to improve the effectiveness of the program.

Performance obligations are typically satisfied at the point in time when the Company transfers control of the merchandise to the customer and at such point in time the customer is able to direct the use of and obtains substantially all of the benefits from the merchandise transferred to the customer. For retail sales, payment is due at the time the customer purchases retail merchandise. For retail sales, the Company establishes a provision for estimated returns of retail products, based on historical information.

The Company considers shipping and handling costs as fulfillment costs, and does not consider such activities as a separate performance obligation. When applicable, the Company is responsible for shipment and delivery of the merchandise, even when using a third-party shipping company.

Significant Judgments and Estimates

The Company considers control of retail products to have transferred upon delivery, at the retail location or the place of delivery, because the Company has a present right to payment at that time, the customer has legal title to the products, the Company has transferred physical possession of the products, and the customer has significant risks and rewards of ownership of the products.

Table of Contents

Under the loyalty program, the value of points projected to be redeemed is dependent on the estimated redemption rates which are based on both historical information and current trends.

For retail sales in transit, the Company defers the recognition of revenue based on an estimate of the respective anticipated timing of delivery.

Practical Expedients

The Company has elected to use the following practical expedients affecting the measurement and recognition of revenue:

Significant financing component - As substantially all of the Company's contracts with customers have an original duration of one year or less, the Company uses the practical expedient applicable to such contracts and does not consider the time value of money.

Sales taxes - Consistent with prior periods, sales taxes collected from customers are presented on a net basis and as such are excluded from revenue.

Contract costs - Due to the short term duration of the Company's contracts with customers, such incremental costs of obtaining or fulfilling a contract are recognized as an expense when incurred since the amortization period of the asset that the Company otherwise would have recognized is one year or less.

Portfolio approach - For its retail contracts with customers, the Company has applied the new revenue standard to a portfolio of contracts with similar characteristics since the Company reasonably expects that the effects on the financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio.

Disclosure of remaining performance obligations - Due to the short duration of its contracts with customers of one year or less, the Company has elected not to disclose the information regarding the remaining performance obligations as of the end of each reporting period or when the Company expects to recognize this revenue.

7. Stock Based Compensation

Equity Incentive Plans – In June 2018, the Company's shareholders approved the 2018 Long-term Incentive Plan (the "2018 Plan") to provide stock based compensation to certain directors, officers, consultants and employees of the Company. The 2018 Plan replaces the two previous plans, the 2006 Stock Option Plan and the Vitamin Shoppe 2009 Equity Incentive Plan, as amended and restated effective April 6, 2012. Upon adoption of the 2018 Plan, 1,410,928 additional shares were authorized to grant under this plan. As of September 29, 2018, there were 2,932,155 shares available to grant under the 2018 Plan which includes 240,900 shares currently held by the Company as treasury stock.

During the three months ended September 29, 2018, the Company granted inducement awards to certain executives, which were granted outside of the 2018 Plan, but generally incorporate the terms and conditions of the 2018 Plan. These inducement awards consisted of 104,510 performance share units and 31,250 restricted share units.

The following table summarizes restricted shares for the 2018 Plan as of September 29, 2018 and changes during the nine month period then ended:

| | Number of Unvested Restricted Shares | Weighted Average Grant Date Fair Value |
|--------------------------------|---|--|
| Unvested at December 30, 2017 | 724,104 | \$ 18.65 |
| Granted | 287,439 | \$ 4.63 |
| Vested | (147,814) |) \$ 22.75 |
| Canceled/forfeited | (372,570) |) \$ 15.26 |
| Unvested at September 29, 2018 | 491,159 | \$ 11.79 |

The total intrinsic value of restricted shares vested during the nine months ended September 29, 2018 and September 30, 2017 was \$0.7 million and \$1.4 million, respectively.

Table of Contents

The following table summarizes stock options for the 2018 Plan as of September 29, 2018 and changes during the nine month period then ended:

| | Number of Options | Weighted Average Exercise Price | Weighted Average Remaining Contractual Life (years) | Aggregate Intrinsic Value (in thousands) |
|--|----------------------|---------------------------------------|---|--|
| Outstanding at December 30, 2017 | 308,888 | \$ 27.74 | | |
| Granted | 141,777 | \$ 4.65 | | |
| Exercised | — | \$ — | | |

| Outstanding at September 29, 2018 | 281,155 | \$ 17.56 | 7.32 | \$ 759 |
| Vested or expected to vest at September 29, 2018 | 263,492 | \$ 18.13 | 7.21 | |
| Vested and exercisable at September 29, 2018 | 104,526 | \$ 32.01 | 4.49 | \$ — |

No options were exercised during the nine months ended September 29, 2018. The total intrinsic value of options exercised during the nine months ended September 30, 2017 was \$0.7 million. The cash received from options exercised during the nine months ended September 30, 2017 was \$1.5 million.

Stock options were not granted during the nine months ended September 30, 2017. The weighted-average grant date fair value of stock options during the nine months ended September 29, 2018 was \$1.76. The fair value of each option grant was estimated on the date of grant using the Monte Carlo option-pricing model, because these awards contain a market condition based on the achievement of predetermined targets related to the share price of our common stock, with the following assumptions:

| | Nine Months Ended September 29, 2018 | |
|--|---|-------|
| Expected dividend yield | 0.0 | % |
| Weighted average expected volatility | 42.61 | % |
| Weighted average risk-free interest rate | 2.54 | % |
| Expected holding period | 6.02 | years |

The following table summarizes performance share units for the 2018 Plan, as well as inducement awards, as of September 29, 2018 and changes during the nine month period then ended:

| | Number of Unvested Performance Share Units | Weighted Average Grant Date Fair Value |
|--------------------------------|--|--|
| Unvested at December 30, 2017 | 288,365 | \$ 22.43 |
| Granted | 650,910 | \$ 6.00 |
| Vested | — | \$ — |
| Canceled/forfeited | (485,870) | \$ 11.39 |
| Unvested at September 29, 2018 | 453,405 | \$ 10.67 |

Performance share units granted during the nine months ended September 29, 2018 shall vest on December 26, 2020 and December 25, 2021 if the performance criteria are achieved. Performance share units can vest at a range of 0% to 150% based on the achievement of pre-established performance targets.

Table of Contents

The following table summarizes restricted share units for the 2018 Plan, as well as inducement awards, as of September 29, 2018 and changes during the nine month period then ended:

| | Number of Unvested Restricted Share Units | Weighted Average Grant Date Fair Value |
|--------------------------------|---|--|
| Unvested at December 30, 2017 | 39,708 | \$ 11.90 |
| Granted | 160,560 | \$ 7.45 |
| Vested | (67,843) |) \$ 9.68 |
| Canceled/forfeited | (23,723) |) \$ 6.85 |
| Unvested at September 29, 2018 | 108,702 | \$ 7.82 |

The total intrinsic value of restricted share units vested during the nine months ended September 29, 2018 and September 30, 2017 was \$0.7 million and \$0.1 million, respectively.

Compensation expense attributable to stock based compensation for the three and nine months ended September 29, 2018 was approximately \$0.8 million and \$1.7 million, respectively, and for the three and nine months ended September 30, 2017 was approximately \$1.4 million and \$4.1 million, respectively. As of September 29, 2018, the remaining unrecognized stock based compensation expense for non-vested stock options, restricted shares, performance share units and restricted share units to be expensed in future periods is \$5.5 million, and the related weighted-average period over which it is expected to be recognized is 1.6 years. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The Company estimates forfeitures based on its historical forfeiture rate since the inception of granting stock based awards. The estimated value of future forfeitures for stock options, restricted shares, performance share units and restricted share units as of September 29, 2018 is approximately \$0.5 million.

Treasury Stock – As part of the Company's equity incentive plan, the Company makes required tax payments on behalf of employees as their restricted shares vest. The Company withholds the number of vested shares having a value on the date of vesting equal to the minimum statutory tax obligation. The shares withheld are recorded as treasury shares. During the nine months ended September 29, 2018, the Company purchased 58,156 shares in settlement of employees' tax obligations for a total of \$0.3 million. The Company accounts for treasury stock using the cost method. 240,900 treasury shares are available to grant under the Company's equity incentive plan.

8. Restructuring Costs

Closing of Distribution Center

In August 2017, the Company announced its intention to close the North Bergen, New Jersey distribution center prior to or by the August 31, 2018 lease expiration. The transition of distribution operations to the Company's other distribution centers was substantially completed during Fiscal 2017.

Costs related to this closure, including occupancy, severance and other expenses, for the three and nine months ended September 29, 2018 were \$0.2 million and \$2.9 million, respectively, of which approximately zero and \$1.8 million, respectively, is included in cost of goods sold and approximately \$0.2 million and \$1.1 million, respectively, is included in selling, general and administrative expenses in the consolidated statements of operations. Costs related to this closure, including inventory obsolescence charges, severance and other expenses, for the three and nine months ended September 30, 2017 were \$2.3 million, of which approximately \$2.0 million is included in cost of goods sold and approximately \$0.3 million is included in selling, general and administrative expenses in the consolidated statements of operations. As of September 29, 2018, the Company had no remaining liabilities related to the closing of the North Bergen, New Jersey distribution center.

9. Advertising Costs

The costs of advertising for online marketing arrangements, direct mail, magazines and radio are expensed as incurred, or the first time the advertising takes place. Advertising expense was \$5.9 million and \$8.7 million for the three months ended September 29, 2018 and September 30, 2017, respectively, and \$19.3 million and \$21.6 million for the nine months ended September 29, 2018 and September 30, 2017, respectively.

10. Income Taxes

The Tax Cut and Jobs Act of 2017 (“U.S. Tax Reform”) was enacted on December 22, 2017, reducing the statutory federal income tax rate from 35% to 21%, effective January 1, 2018. As required, the Company determined a reasonable

Table of Contents

estimate for certain effects of U.S. Tax Reform and recorded that estimate as a provisional amount. Due to the Company's deferred tax position being a net asset, the provisional remeasurement of the deferred tax assets and liabilities resulted in a \$15.3 million discrete tax expense which lowered the effective tax rate by 5.6% in Fiscal 2017. Our federal income tax expense for periods beginning in Fiscal 2018 is based on the new tax rate. As a result of evaluating the impacts of U.S. Tax Reform, the Company updated its tax accounting methods for certain items which were finalized and included in its 2017 filed tax return. These changes were also reflected in the Company's tax provision and resulted in a tax benefit of \$1.3 million for the three and nine month periods ended September 29, 2018. The Company expects no further impacts resulting from U.S. Tax Reform.

11. Net Income (Loss) Per Share

The Company's basic net income (loss) per share excludes the dilutive effect of stock options, unvested restricted shares, unvested performance share units, unvested restricted share units and warrants. It is based upon the weighted average number of common shares outstanding during the period divided into net income (loss).

Diluted net income (loss) per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock. Stock options, unvested restricted shares, unvested performance share units, unvested restricted share units and warrants are included as potential dilutive securities for the periods applicable, using the treasury stock method to the extent dilutive.

The components of the calculation of basic net income (loss) per common share and diluted net income (loss) per common share are as follows (in thousands except share and per share data):

| | Three Months Ended September 29, 2018 | | Nine Months Ended September 30, 2017 | |
|---|--|-------------|---|--------------|

Table of Contents

(a) For the three months ended September 29, 2018 and for the three and nine months ended September 30, 2017, due to a loss for the period, no incremental shares are included because the effect would be anti-dilutive.

Securities for the three months ended September 29, 2018 and September 30, 2017 in the amount of 43,482 shares and 829,080 shares, respectively, have been excluded from the above calculation as they were anti-dilutive. Securities for the nine months ended September 29, 2018 and September 30, 2017 in the amount of 664,916 shares and 555,427 shares, respectively, have been excluded from the above calculation as they were anti-dilutive.

The Company has the intent and ability to settle the principal portion of its Convertible Notes in cash, and as such, has applied the treasury stock method, which has resulted in the underlying convertible shares, and related warrants, being anti-dilutive for the three and nine months ended September 29, 2018 and September 30, 2017 as the Company's average stock price from the date of issuance of the Convertible Notes through September 29, 2018 was less than the conversion price as well as less than the strike price of the warrant transaction. Refer to Note 5., "Credit Arrangements" for additional information on the Convertible Notes.

12. Share Repurchase Programs

Beginning in August 2014, the Company's board of directors approved share repurchase programs that enable the Company to purchase up to an aggregate of \$370 million of its shares of common stock and / or its Convertible Notes, from time to time. As of September 29, 2018, 8,064,325 shares of common stock pursuant to these programs, and 75,311 Convertible Notes, have been repurchased for a total of \$327.1 million. There is approximately \$42.9 million remaining in this program. On October 31, 2018, the Company's board of directors approved a two year extension of the remaining repurchase program. This repurchase program will expire on November 22, 2020.

The repurchase programs do not obligate the Company to acquire any specific number of securities and may be suspended, terminated or modified at any time for any reason, including market conditions, the cost of repurchasing securities, the availability of alternative investment opportunities, liquidity, restrictions under the Company's credit agreement, applicable law and other factors deemed appropriate.

No shares of the Company were repurchased under these programs during the three and nine month periods ended September 29, 2018 and September 30, 2017. During Fiscal 2018, the Company repurchased \$75.3 million in aggregate principal amount of its Convertible Notes for an aggregate purchase price of \$57.2 million, which includes accrued interest of \$0.3 million. Refer to Note 5., "Credit Arrangements" for additional information.

13. Legal Proceedings

The Company is party to various lawsuits arising from time to time in the normal course of business, some of which are covered by insurance. Although the impact of the final resolution of these matters on the Company's financial condition, results of operations or cash flows is not known, management does not believe that the resolution of these lawsuits will have a material adverse effect on the financial condition, results of operations or liquidity of the Company.

14. Fair Value of Financial Instruments

The fair value hierarchy requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.

- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The Company's financial instruments include cash, accounts receivable, accounts payable, contract liabilities and its Revolving Credit Facility. The Company believes that the recorded values of these financial instruments approximate their fair values due to their nature and respective durations.

Table of Contents

The Company's financial instruments also include its Convertible Notes (in thousands):

| | September 29, 2018 | December 30, 2017 |
|--------------------|-----------------------|----------------------|
| Fair Value | \$ 60,055 | \$ 91,612 |
| Carrying Value (1) | 62,228 | 126,415 |

(1) Represents the net carrying amount of the liability component of the Convertible Notes. The Company repurchased a portion of its Convertible Notes during the nine months ended September 29, 2018. Refer to Note 5., "Credit Arrangements" for additional information.

The fair value of the Convertible Notes was determined based on inputs that are observable in the market or that could be derived from, or corroborated with, observable market data, including the trading price of the Company's Convertible Notes, when available, the Company's stock price and interest rates based on similar debt issued by parties with credit ratings similar to the Company (Level 1 or 2).

Intangible assets and fixed assets are measured at fair value on a non-recurring basis, that is, the assets are subject to fair value adjustments in certain circumstances such as when there is evidence of impairment. These measures of fair value, and related inputs, are considered Level 3 measures under the fair value hierarchy.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the consolidated financial statements and notes thereto included as part of this quarterly report on Form 10-Q.

Company Overview

We are an omni-channel specialty retailer of vitamins, minerals, herbs, specialty supplements, sports nutrition and other health and wellness products. We market approximately 700 nationally recognized brands as well as our own brands, which include The Vitamin Shoppe®, BodyTech®, True Athlete®, Mytrition®, plnt®, ProBioCare® and Next Step®. We believe we offer one of the largest varieties of products among vitamin, mineral and supplement ("VMS") retailers and continue to refine our assortment with approximately 6,700 stock keeping units ("SKUs") offered in our typical store and approximately 8,000 additional SKUs available through e-commerce. We believe our product offering and emphasis on product knowledge and customer service helps us meet the needs of our target customer and serves as a foundation for enhancing strong customer loyalty.

We continue to focus on our strategy to improve the customer experience through the roll-out of initiatives including increasing customer engagement and personalization, redesigning the omni-channel experience (including in stores as well as through the internet and mobile devices), growing our private brands and improving the effectiveness of pricing and promotions. As part of this strategy, we have developed several initiatives, including an emphasis on the development and deployment of our customer facing digital platforms to enhance the customer's omni-channel experience.

Discontinued Operations:

On May 7, 2018, the Company sold certain assets, including the Betancourt Nutrition® brand, and liabilities of FDC Vitamins, LLC d/b/a Nutri-Force Nutrition ("Nutri-Force") to Arizona Nutritional Supplements, LLC ("ANS"). Proceeds from the sale, net of transaction costs, were approximately \$14.8 million after working capital adjustments in the third quarter of Fiscal 2018 of approximately \$0.8 million. The Company recognized a pre-tax loss on the sale of Nutri-Force of \$0.2 million. In connection with the sale, the parties executed a transition services agreement for an initial term of six months whereby the Company agreed to provide services to operate the manufacturing facilities in Miami Lakes, Florida and to transition the production of products to ANS facilities. In addition, the parties executed supply agreements in which the Company has agreed to purchase a total of \$53.0 million annually of its private label products and Betancourt Nutrition® brand products from ANS for a term of five years.

During the three and nine months ended September 29, 2018, the Company incurred approximately \$2.3 million and \$4.0 million, respectively, of costs which primarily consisted of anticipated operating losses during the term of the transition services agreement and severance costs. Additional costs during Fiscal 2018 are expected to be approximately \$1.0 million to \$3.0 million which primarily consists of lease termination charges.

Table of Contents

Convertible Notes Repurchases:

During Fiscal 2018, the Company repurchased \$75.3 million in aggregate principal amount of its Convertible Notes for an aggregate purchase price of \$57.2 million, which includes accrued interest. The gain on extinguishment of the repurchased Convertible Notes was \$16.2 million.

These repurchases were funded through borrowings under the Company's Revolving Credit Facility. Refer to Note 5., "Credit Arrangements" in the notes to consolidated financial statements (unaudited) for additional information.

Elimination of unproductive inventory:

During the second quarter of Fiscal 2018, the Company completed an evaluation in order to refine the product assortment offered in our stores and through ecommerce. The purpose of the evaluation was to identify unproductive products in order to make room for new product offerings. As a result of this evaluation, the Company recorded a charge of \$3.6 million which is included in cost of goods sold in the consolidated statements of operations.

Closing of distribution center:

In August 2017, the Company announced its intention to close the North Bergen, New Jersey distribution center prior to or by the August 31, 2018 lease expiration. Distribution operations have been transitioned to the Company's other distribution centers. Costs related to this closure, such as severance, inventory related costs and other charges were \$3.1 million in Fiscal 2017 and occupancy, severance and other expenses for the three and nine months ended September 29, 2018 were \$0.2 million and \$2.9 million, respectively. No additional costs are expected to be incurred during Fiscal 2018.

Trends and Other Factors Affecting Our Business

Our performance is affected by industry trends including, among others, demographic, health and lifestyle preferences, as well as other factors, such as industry media coverage and governmental actions. For example, our industry is subject to potential regulatory activity and other legal matters that could affect the credibility of a given product or category of products. Consumer trends, the overall impact on consumer spending, which may be affected heavily by current economic conditions, and limited product innovation and introductions in the VMS industry can dramatically affect purchasing patterns. Even though our business model allows us to respond to changing industry trends by introducing new products and adjusting our product mix and sales incentives, such actions may not offset adverse trends.

Additionally, our performance is affected by competitive trends such as the entry and expansion of competitors, changes in pricing and promotional strategies or expansion of product assortment by various competitors. Over recent years, there has been a shift of market share from specialty retailers to other channels such as mass market retailers, supermarket chains, club chains, drug store chains and e-commerce companies. This broader competitive channel availability of VMS products represents a challenge for the Company to keep pace with industry growth rates. We also have observed more competition in our assortment, and more competitive pricing and promotional strategies by competitors and increased levels of marketing spending.

As of September 29, 2018 we operate 780 stores located in 45 states, the District of Columbia and Puerto Rico. We have significantly slowed new store growth while we continue to evaluate our store network strategy.

As we anticipate an acceleration in the shift in our sales towards digital commerce, we are evaluating (1) our store network in order to identify opportunities to reduce fixed costs by closing underperforming stores, (2) our supply chain infrastructure and processes in order to increase the speed of delivery of products for direct to consumer sales, as well as increase the efficiency of our distribution centers, and (3) our merchandising processes in order to, among other things, increase the penetration of our private label brands. The completion of these evaluations may result in actions that could cause (1) the closing of a significant number of stores at or before lease expiration, (2) an increase in capital expenditures, (3) a reduction in the amount of inventory on hand, and / or (4) future charges to our results of operations for store impairments.

Critical Accounting Policies

Our significant accounting policies are described in Note 2 of the Notes to Consolidated Financial Statements included in our financial statements in the Fiscal 2017 Form 10-K. A discussion of our critical accounting policies and estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Fiscal 2017 Form 10-K. Management has discussed the development and selection of these policies with the Audit

Committee of our Board of Directors, and the Audit Committee of our Board of Directors has reviewed the disclosures relating to them. Management believes there have been no material changes to the critical accounting policies or estimates reported in the Management's Discussion and Analysis of Financial Condition and Results of Operations section of the Fiscal 2017 Form 10-K.

Table of Contents

General Definitions for Operating Results

Net Sales consist of sales, net of sales returns, deferred sales, customer incentives and a provision for estimated future returns. Total comparable net sales include retail sales fulfilled in stores and direct to consumer sales. Sales generated by retail stores after 410 days of operation are included in comparable net sales.

Cost of goods sold includes the cost of inventory sold, costs of warehousing, distribution and store occupancy costs. Warehousing and distribution costs, which are capitalized into inventory and then expensed as merchandise is sold, include freight to transfer merchandise and costs associated with our buying department and distribution facilities. Store occupancy costs include rent, common area maintenance, real estate taxes and utilities.

Gross profit is net sales minus cost of goods sold.

Selling, general and administrative expenses consist of operating payroll and related benefits, advertising and promotion expense, depreciation and amortization expenses not capitalized in cost of goods sold, and other selling, general and administrative expenses.

Income (loss) from operations consists of gross profit minus selling, general and administrative expenses.

Interest expense, net includes interest on our Convertible Notes and Revolving Credit Facility, letters of credit fees, interest on our capital leases, as well as amortization of financing costs, reduced by interest income earned from highly liquid investments (investments purchased with an original maturity of three months or less).

Table of Contents

Net Sales

Net sales decreased 2.0% as a result of a decrease in our total comparable net sales of \$5.4 million, or 1.9%.

Non-comparable net sales decreased \$0.4 million.

Cost of Goods Sold

Cost of goods sold includes product, warehouse, distribution and occupancy costs. As a percentage of net sales, cost of goods sold decreased by 0.6%. This decrease was driven by product margin improvement of 2.0%, and impairment of inventory during the three months ended September 30, 2017 of 0.7% related to the closing of the North Bergen, New Jersey distribution center. This was partially offset by supply chain deleverage of 1.8% and occupancy deleverage of 0.3%.

Selling, General and Administrative Expenses

| | Three Months Ended | | | |

| Total SG&A Expenses | \$82,747 | \$84,423 | \$(1,676) | (2.0)% |

- (a) Store payroll and benefits were relatively flat as higher wage rates and store incentives were substantially offset by lower health insurance costs.
- (b) Advertising and promotion expenses decreased as a result of more targeted promotional programs and expense timing.
- (c) Other selling, general and administrative expenses increased primarily due to an increase in depreciation and amortization expense of \$0.9 million.

Goodwill, Tradename and Store Fixed-Assets Impairment Charges

The third quarter of Fiscal 2018 includes store fixed-assets impairment charges of \$0.7 million. The third quarter of Fiscal 2017 includes a tradename impairment charge of \$59.4 million, a goodwill impairment charge of \$46.3 million and store fixed-assets impairment charges of \$0.3 million.

Interest Expense, Net

Interest expense, net decreased \$1.1 million primarily due to the repurchases of a portion of the Company's Convertible Notes during Fiscal 2018.

Provision (benefit) for Income Taxes

The effective provision (benefit) tax rate for continuing operations for the three months ended September 29, 2018 was 2.9%, compared to (21.5)% for the three months ended September 30, 2017. The change in the effective tax rate is primarily due to the lower federal tax rate and the related one-time tax benefit of \$1.3 million resulting from the adoption of the Tax Cut and Jobs Act of 2017, and the non-deductible portion of the goodwill impairment charge during the three months ended September 30, 2017.

Nine Months Ended September 29, 2018 Compared to Nine Months Ended September 30, 2017

The information presented below is for the nine months ended September 29, 2018 and September 30, 2017 and was derived from our consolidated financial statements, which, in the opinion of management, include all adjustments necessary for a fair presentation of our financial position and operating results for such periods and as of such dates.

Net Sales

Net sales decreased 2.1% as a result of a decrease in our total comparable net sales of \$19.6 million, or 2.2% offset by an increase in our total non-comparable net sales of \$0.7 million.

Cost of Goods Sold

Cost of goods sold includes product, warehouse, distribution and occupancy costs. As a percentage of net sales, cost of goods sold increased by 0.3%. This includes supply chain deleverage of 1.4%, a charge for the elimination of unproductive inventory of 0.4% and occupancy deleverage of 0.2%. This was partially offset by total product margin improvement of 1.7%.

The nine months ended September 30, 2017 includes goodwill impairment charges of \$210.6 million, a tradename impairment charge of \$59.4 million, and store fixed-assets impairment charges of \$4.1 million.

Gain on Extinguishment of Debt

During the nine months ended September 29, 2018 the Company recognized \$16.2 million of gains on the repurchases of a portion of its Convertible Notes.

Interest Expense, Net

Interest expense, net decreased \$1.8 million primarily due to the repurchases of a portion of the Company's Convertible Notes during Fiscal 2018.

Provision (benefit) for Income Taxes

The effective provision (benefit) tax rate for continuing operations for the nine months ended September 29, 2018 was 26.9%, compared to (10.1)% for the nine months ended September 30, 2017. The change in the effective tax rate is primarily due to the lower federal tax rate and the related one-time tax benefit of \$1.3 million resulting from the adoption of the Tax Cut and Jobs Act of 2017, and the non-deductible portion of the goodwill impairment charges during the nine months ended September 30, 2017.

Liquidity and Capital Resources

Historically, our primary uses of cash have been to fund working capital, operating expenses and capital expenditures related primarily to the build-out of new stores, the transformation of existing stores and information technology investments as well as to repurchase shares of our common stock and our Convertible Notes. We have financed our requirements predominately through internally generated cash flow, supplemented with short-term financing. We believe that the cash generated by operations and cash and cash equivalents, together with the borrowing availability under our Revolving Credit Facility, will be sufficient to meet our working capital needs for the next twelve months, costs and investments related to our current initiatives, systems development, store improvements and interest payments, as well as the repurchase of shares of our common stock and our Convertible Notes from time to time in negotiated or open market transactions subject to market conditions.

During Fiscal 2018, we plan to spend approximately \$30 million in capital expenditures, including costs for information technology, investments in our digital commerce platforms and the build-out of corporate offices. Of the total capital expenditures projected for Fiscal 2018, we have invested \$24.7 million during the nine months ended September 29, 2018. During Fiscal 2018, we have opened two stores and closed seven stores as of September 29, 2018. During the remainder of Fiscal 2018, no additional stores are planned to be opened and we expect to close seven stores.

The Company is subject to concentrations of credit risk associated with cash and cash equivalents, and at times holds cash balances in excess of Federal Deposit Insurance Corporation limits. Currently, the Company's cash management practice is to hold cash balances in quality institutions and invest in highly liquid and secure investments.

We were in compliance with all financial covenants relating to our Revolving Credit Facility and Convertible Notes as of September 29, 2018. We expect to be in compliance with these same covenants during the remainder of Fiscal 2018 as well.

Cash Provided by Operating Activities

Net cash provided by operating activities was \$77.6 million for the nine months ended September 29, 2018 as compared to \$43.0 million for the nine months ended September 30, 2017. The \$34.6 million increase in cash flows from operating activities is primarily due to the change in net income before impairment charges and the gain on extinguishment of debt, and changes in deferred taxes and inventory.

Cash Used in Investing Activities

Net cash used in investing activities was \$10.1 million during the nine months ended September 29, 2018 as compared to \$43.6 million during the nine months ended September 30, 2017. The \$33.6 million decrease in cash flows from investing activities is primarily due to the net proceeds from the sale of Nutri-Force of \$14.8 million and a decrease in capital expenditures of \$18.7 million.

Cash Used in Financing Activities

Net cash used in financing activities was \$67.7 million for the nine months ended September 29, 2018, as compared to \$0.3 million for the nine months ended September 30, 2017. The \$67.4 million increase in cash used in financing activities is primarily due to the Company's repurchases of Convertible Notes for \$57.2 million and repayments of borrowings on the Revolving Credit Facility during the nine months ended September 29, 2018.

Revolving Credit Facility

The terms of our Revolving Credit Facility extend through May 9, 2022, and allow the Company to borrow up to \$90.0 million, subject to the terms of the facility, with a Company option to increase the facility up to a total of \$150.0 million. For information regarding the terms of our Revolving Credit Facility, refer to Note 5., "Credit Arrangements" in the Notes to Consolidated Financial Statements (unaudited). As of September 29, 2018, the Company had no borrowings outstanding on its Revolving Credit Facility. The largest amount borrowed during the nine months ended September 29, 2018 and September 30, 2017 was \$44.0 million and \$38.0 million, respectively. The unused available line of credit under the Revolving Credit Facility at September 29, 2018 was \$85.8 million.

Convertible Notes

On December 9, 2015, the Company issued \$143.8 million of its 2.25% Convertible Notes. The Convertible Notes are senior unsecured obligations of the Company. Interest is payable on the Convertible Notes on June 1 and December 1 of each year until their maturity date of December 1, 2020. During Fiscal 2018, the Company repurchased \$75.3 million in aggregate principal amount of its Convertible Notes for an aggregate purchase price of \$57.2 million, which includes accrued interest. These repurchases were funded through borrowings under the Company's Revolving Credit Facility. The gains on extinguishment of the repurchased Convertible Notes were \$16.2 million. For additional information regarding our Convertible Notes, refer to Note 5. "Credit Arrangements", in the Notes to Consolidated Financial Statements (unaudited).

Contractual Obligations and Commercial Commitments

Except for the purchase commitments associated with the sale of Nutri-Force and the repurchases of a portion of our Convertible Notes, as of September 29, 2018, there have been no material changes with respect to our contractual obligations since December 30, 2017. For additional information, see Contractual Obligations and Commercial Commitments under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", in the Fiscal 2017 Form 10-K.

Off-Balance Sheet Arrangements

We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business. We do not have any off-balance sheet arrangements or relationships with entities that are not consolidated into our financial statements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources. The Company has commitments for its operating leases, primarily related to its stores, distribution centers, as well as its manufacturing and corporate facilities, which are not reflected on our balance sheet. For additional information, see Contractual Obligations and Commercial Commitments under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", in the Fiscal 2017 10-K.

Effects of Inflation

We do not believe that our sales or operating results have been materially affected by inflation during the periods presented in our financial statements. During the nine months ended September 29, 2018, cost deflation was less than 1%. During Fiscal 2018, we anticipate market driven cost inflation to be in the range of 0% to 2%. Additionally, we may experience increased cost pressure from our suppliers which could have an adverse effect on our gross profit results in the future.

Recent Accounting Pronouncements

Except as discussed in Note 1., "Basis of Presentation" in the Notes to the Consolidated Financial Statements (unaudited), the Company has considered all new accounting pronouncements and has concluded that there are no new pronouncements that may have a material impact on its results of operations, financial condition, or cash flows, based on current information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about market risk affecting us, see "Quantitative and Qualitative Disclosure about Market Risk" in Item 7A of Part II of our Fiscal 2017 Form 10-K. As of September 29, 2018, our exposure to market risk has not changed materially since December 30, 2017.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, who are our principal executive officer and principal financial officer, respectively, of the design and operation of our disclosure controls and procedures as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) as of September 29, 2018, pursuant to Exchange Act Rules 13a-15 and 15d-15. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of September 29, 2018.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 29, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including the Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system’s objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is party to various lawsuits arising from time to time in the normal course of business, some of which are covered by insurance. Although the impact of the final resolution of these matters on the Company's financial condition, results of operations or cash flows is not known, management does not believe that the resolution of these lawsuits will have a material adverse effect on the financial condition, results of operations or liquidity of the Company.

Item 1A. Risk Factors

For a more detailed explanation of the factors affecting our business, please refer to the Risk Factors section in the Fiscal 2017 Form 10-K. There has not been a material change to the risk factors set forth in the Fiscal 2017 Form 10-K.
