**Item 8.01 Other Events**

***Reedsport, Oregon Update***

Ocean Power Technologies (the “Company”) and the U.S. Department of Energy (the “DOE”) agreed in principle on March 28, 2014 to proceed with a termination by mutual agreement of the Company’s contract with the DOE covering the ocean deployment of a single PowerBuoy off the coast of Reedsport, Oregon.

As previously disclosed, the Reedsport project encountered a considerable increase in costs related to the project. The Company was unable to obtain the required financing directly related to the completion of the project. In light of the determination to terminate by mutual agreement, the Company and the DOE are discussing the steps necessary to close out the project. The Company does not expect the termination of the contract to have a material impact on its reported financial position.

***Australia Update***

On April 1, 2014, the Company announced receipt by its indirect subsidiary Victorian Wave Partners of approximately A\$5 million in initial grant funding under the announced A\$66.5 million grant awarded to VWP by the Australian Renewable Energy Agency. The grant requires the raising of significant additional funding by VWP as well as the completion of specific milestones. VWP will be deferring revenue recognition of this payment pending satisfaction of certain grant requirements.

The Company issued a press release announcing the receipt of grant funds, a copy of which is attached hereto as Exhibit 99.1 and incorporated herein by reference.

**Item 9.01. Financial Statements and Exhibits**

(d) Exhibits.

99.1 Press release issued by the Company dated April 1, 2014.

SIGNATURE
