1. The Company

Alpha Pro Tech, Ltd. ("Alpha Pro Tech" or the "Company") is in the business of protecting people, products and environments. The Company accomplishes this by developing, manufacturing and marketing a line of building supply products for the new home and re-roofing markets; a line of disposable protective apparel for the cleanroom, industrial and pharmaceutical markets; and a line of infection control products for the medical and dental markets.

The Building Supply segment consists of construction weatherization products, such as housewrap and synthetic roof underlayment, as well as other woven material.

The Disposable Protective Apparel segment consists of a complete line of shoecovers, bouffant caps, coveralls, gowns, frocks and lab coats.

The Infection Control segment consists of a line of face masks and eye shields.

The Company's products are sold under the "Alpha Pro Tech" brand name and under private label, and are predominantly sold in the United States of America ("US").

2. Basis of Presentation and Revenue Recognition Policy

The interim financial information included herein is unaudited; however, the information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for the fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods. These interim condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") and, therefore, omit certain information and note disclosures necessary to present the statements in accordance with US generally accepted accounting principles ("US GAAP"). The interim condensed consolidated financial statements should be read in conjunction with the Company's current year SEC filings on Form 8-K and Form 10-Q as well as the consolidated financial statements for the year ended December 31, 2017, which are included in the Company's Annual Report on Form 10-K (the "2017 Form 10-K"), which was filed on March 12, 2018. The results of operations for the nine months ended September 30, 2018 reported in this Form 10-Q are not necessarily indicative of the results to be expected for the full year. The condensed consolidated balance sheet as of December 31, 2017 was prepared using information from the audited consolidated balance sheet contained in the 2017 Form 10-K and does not include all disclosures required by US GAAP for annual consolidated financial statements.

The Company adopted Accounting Standards Update 2014-09, *Revenue from Contracts with Customers* (Topic 606) effective January 1, 2018 on a full retrospective basis. Adoption of this standard did not result in significant changes to our accounting policies, business processes, systems or controls, or have a material impact on our financial position, results of operations and cash flows or related disclosures. As such, prior period financial statements were not recast. The Company recognizes revenue for the transfer of promised goods to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company typically satisfies its performance obligations in contracts with customers upon shipment of the goods. Generally, payment is due from customers within a fixed number of days of the invoice date, and the contracts do not have significant financing components.

The Company has determined that control does not pass at the time of manufacture for private label goods, based on the nature of the private labeling.

See Notes 10 and 11 for revenue disaggregated by type and by geographic region.

Notes to Condensed Consolidated Financial Statements (Unaudited)

3.Stock-Based Compensation

The Company maintains a stock option plan under which the Company may grant incentive stock options and non-qualified stock options to employees and non-employee directors. Stock options have been granted with exercise prices at or above the fair market value of the underlying shares of common stock on the date of grant. Options vest and expire according to terms established at the grant date.

The Company records compensation expense for the fair value of stock-based awards determined as of the grant date, including employee stock options, over the determined requisite service period, which is generally ratably over the vesting term.

For the nine months ended September 30, 2018 and 2017, 349,750 and 25,000 respectively, of stock options were granted under the Company's option plan. The Company recognized \$312,000 and \$244,000 in stock-based compensation expense for the nine months ended September 30, 2018 and 2017, respectively.

The Company uses the Black-Scholes option-pricing model to value the options. The Company uses historical data to estimate the expected life of the options. The risk-free interest rate for periods within the contractual life of the award is based on the US Treasury yield curve in effect at the time of grant. The estimated volatility is based on historical volatility and management's expectations of future volatility. The Company uses an estimated dividend payout of zero, as the Company has not paid dividends in the past and, at this time, does not expect to do so in the future.

The following table summarizes stock option activity for the nine months ended September 30, 2018:

Weighted

| | Options | Average Exercise Price Per Option |
|-------------------------------------------------|-----------|-----------------------------------------------|
| Options outstanding, December 31, 2017 | 884,998 | \$ 2.26 |
| Granted to employees and non-employee directors | 349,750 | 3.27 |
| Exercised | (131,834) | 1.70 |
| Canceled/expired/forfeited | - | 0.00 |
| Options outstanding, September 30, 2018 | 1,102,914 | 2.65 |
| Options exercisable, September 30, 2018 | 415,169 | 2.13 |

As of September 30, 2018, \$793,000 of total unrecognized compensation cost related to stock options was expected to be recognized over a weighted average period of 1.30 years.

4. Investments

As of September 30, 2018 and December 31, 2017, investments totaled \$289,000 and \$343,000, respectively, which consisted of equity securities.

Notes to Condensed Consolidated Financial Statements (Unaudited)

The following provides information regarding the Company's marketable securities as of September 30, 2018 and December 31, 2017:

| | September 30, | December 31, |

Certain marketable securities were sold during the nine months ended September 30, 2018. No marketable securities were sold during the year ended December 31, 2017. Realized gains recognized from the sale of marketable securities during the nine months ended September 30, 2018 were \$3,000, which realized gains are reported in the Condensed Consolidated Statements of Income (Unaudited) for that period. The unrealized gain of \$22,000 since July 1, 2018 is recognized in the statement of income for the three months ended September 30, 2018. The unrealized loss of \$208,000 in the statement of comprehensive income is presented net of tax for the three months ended September 30, 2017. The unrealized loss of \$43,000 since January 1, 2018 is recognized in the Condensed Consolidated Statement of Income(Unaudited) for the nine months ended September 30, 2018. The unrealized loss of \$43,000 since January 1, 2018 is recognized in the Condensed Consolidated Statement of Income(Unaudited) for the nine months ended September 30, 2017. The unrealized loss of \$43,000 since January 1, 2018 is recognized in the Condensed Consolidated Statement of Income(Unaudited) for the nine months ended September 30, 2018. The unrealized loss of \$243,000 in the statement of unrealized loss was \$113,000 for the nine months ended September 30, 2017. The tax benefit on the unrealized loss was \$113,000 for the nine months ended September 30, 2017.

Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers* (Topic 606) ("ASU 2014-09") is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration that it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 is effective for the first interim period within an annual reporting period beginning after December 15, 2017, and early adoption is not permitted. The Company adopted ASU 2014-09 during the first quarter of 2018. Management evaluated the provisions of this update and has determined that its adoption did not have a significant impact on the Company's financial position or results of operations.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall* (Subtopic 825-10): *Recognition and Measurement of Financial Assets and Financial Liabilities*, which provides guidance for the recognition, measurement, presentation and disclosure of financial instruments. The new guidance revises the accounting requirements related to the classification and measurement of investments in equity securities and the presentation of certain fair value changes for financial liabilities measured at fair value. The guidance also changes certain disclosure requirements associated with the fair value of financial instruments. These changes will require an entity to measure, at fair value, investments in equity securities and other ownership interests in an entity and recognize the changes in fair value within net income. The guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. As a result of adopting this guidance effective January 1, 2018, the Company recorded a cumulative-effect adjustment to reclassify the \$458,000 accumulated other comprehensive loss balance to retained earnings, which balance was the result of unrealized losses on marketable securities. Effective January 1, 2018, unrealized gains and losses on marketable securities are recorded in the statement of income.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842), which requires lessees to recognize most leases on the balance sheet. The provisions of this guidance are effective for annual periods beginning after December 15, 2018 and interim periods within those years, with early adoption permitted. Management is evaluating the requirements of this guidance and has not yet determined the impact of the adoption on the Company's financial position or results of operations.

Notes to Condensed Consolidated Financial Statements (Unaudited)

In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation* (Topic 718): *Improvements to Employee Share-Based Payment Accounting*, which simplifies several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, an option to recognize gross stock compensation expense with actual forfeitures recognized as they occur, as well as certain classifications on the statement of cash flows. The provisions of this guidance were effective for annual reporting periods beginning after December 15, 2016 and interim periods within those annual periods, with early adoption permitted. The Company adopted this guidance during the quarter ended March 31, 2017, and the Company recorded a one-time \$866,000 cumulative-effect adjustment to reduce additional paid-in capital and increase retained earnings for excess tax benefits from stock option exercises that had previously been recorded to additional paid-in capital. The adoption of this guidance also increased the number of dilutive shares because excess tax benefits are no longer included in the assumed proceeds when calculating the number of dilutive shares. In addition, the effective tax rate will be reduced in future periods when there are excess tax benefits from stock options exercised.

In June 2016, the FASB issued ASU 2016-13 *Financial Instruments - Credit Losses* (Topic 326): *Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 requires an organization to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. ASU 2016-13 is effective for public entities for the annual periods, including interim periods within those annual periods, beginning after December 15, 2019. This guidance is applicable to the Company's fiscal year beginning January 1, 2020. Management is currently evaluating the requirements of this guidance and has not yet determined the impact on the adoption of the Company's financial position or results from operations.

Management periodically reviews new accounting standards that are issued. Management has not identified any other new standards that it believes merit further discussion at this time.

6. Inventories

As of September 30, 2018 and December 31, 2017, inventories consisted of the following:

| | September 30, 2018 | December 31, 2017 |
|-----------------|--------------------------|-------------------------|
| Raw materials | \$4,493,000 | \$4,567,000 |

| Finished goods | 4,067,000 | 4,624,000 |
| | \$9,352,000 | \$10,249,000 |

7. Equity Investment in Unconsolidated Affiliate

In 2005, Alpha ProTech Engineered Products, Inc. (a subsidiary of Alpha Pro Tech, Ltd.) entered into a joint venture with a manufacturer in India for the production of building products. Under the terms of the joint venture agreement, a private company, Harmony Plastics Private Limited ("Harmony"), was created with ownership interests of 41.66% by Alpha ProTech Engineered Products, Inc. and 58.34% by Maple Industries and Associates.

Notes to Condensed Consolidated Financial Statements (Unaudited)

This joint venture positions Alpha ProTech Engineered Products, Inc. to respond to current and expected increased product demand for housewrap and synthetic roof underlayment and provides future capacity for sales of specialty roofing component products and custom products for industrial applications requiring high quality extrusion coated fabrics. In addition, the joint venture now supplies products for the Disposable Protective Apparel segment.

The capital from the initial funding and a bank loan, which loan is guaranteed exclusively by the individual shareholders of Maple Industries and associates and collateralized by the assets of Harmony, were utilized to purchase the original manufacturing facility in India. Harmony currently has four facilities in India (three owned and one rented), consisting of: (1) a 113,000 square foot building for manufacturing building products; (2) a 73,000 square foot building for manufacturing coated material and sewing proprietary disposable protective apparel; (3) a 16,000 square foot facility for sewing proprietary disposable protective apparel; and (4) a 93,000 square foot rental for manufacturing of Building Supply segment products. All additions have been financed by Harmony with no guarantees from the Company.

In accordance with Accounting Standards Codification ("ASC") 810, *Consolidation*, the Company assesses whether or not related entities are variable interest entities ("VIEs"). For those related entities that qualify as VIEs, ASC 810 requires the Company to determine whether or not the Company is the primary beneficiary of the VIE, and, if so, to consolidate the VIE. The Company has determined that Harmony is not a VIE and is, therefore, considered to be an unconsolidated affiliate.

The Company records its investment in Harmony as "equity investment in unconsolidated affiliate" in the accompanying condensed consolidated balance sheets. The Company records its equity interest in Harmony's results of operations as "equity in income of unconsolidated affiliate" in the accompanying condensed consolidated statements of income. The Company periodically reviews its investment in Harmony for impairment. Management has determined that no impairment was required as of September 30, 2018 and December 31, 2017.

For the three months ended September 30, 2018 and 2017, Alpha Pro Tech purchased \$4,535,000 and \$3,258,000 of inventories, respectively, from Harmony. For the nine months ended September 30, 2018 and 2017, Alpha Pro Tech

purchased \$12,036,000 and \$11,097,000 of inventories, respectively, from Harmony.

For the three months ended September 30, 2018 and 2017, the Company recorded equity in income of unconsolidated affiliate of \$103,000 and \$105,000, respectively, related to Harmony. For the nine months ended September 30, 2018 and 2017, the Company recorded equity in income of unconsolidated affiliate of \$393,000 and \$339,000, respectively, related to Harmony.

As of September 30, 2018, the Company's investment in Harmony was \$4,286,000, which consisted of its original \$1,450,000 investment and cumulative equity in income of unconsolidated affiliate of \$3,855,000, less \$942,000 in repayments of the advance and \$77,000 in dividends.

10. Activity of Business Segments

The Company operates through three business segments:

Building Supply: consisting of a line of construction supply weatherization products. The construction supply weatherization products consist of housewrap and synthetic roof underlayment, as well as other woven material. The majority of the Company's equity in income of unconsolidated affiliate (Harmony) is included in the total segment income for the Building Supply segment.

Disposable Protective Apparel: consisting of a complete line of disposable protective clothing, such as shoecovers (including the Aqua Trak® and spunbond shoecovers), bouffant caps, coveralls, frocks, lab coats, gowns and hoods for the pharmaceutical, cleanroom, industrial and medical markets. A portion of the Company's equity in income of unconsolidated affiliate (Harmony) is included in the total segment income for the Disposable Protective Apparel segment.

Infection Control: consisting of a line of face masks and eye shields.

Segment data excludes charges allocated to the principal executive office and other unallocated expenses and income tax. The Company evaluates the performance of its segments and allocates resources to them based primarily on net sales.

The following table presents consolidated net sales for each segment for the three and nine months ended September 30, 2018 and 2017:

| | For the Three Months Ended September 30, | | For the Nine Months Ended September 30, | | |
|-------------------------------|------------------------------------------------|--------------|-----------------------------------------------|--------------|--|

11. Financial Information about Geographic Areas

The following table summarizes the Company's net sales by geographic region for the three and nine months ended September 30, 2018 and 2017.

| | For the Three Months Ended September 30, | | For the Nine Ended September 3 | |
|--------------------------------|------------------------------------------------|--------------|--------------------------------------|--------------|
| | 2018 | 2017 | 2018 | 2017 |
| Net sales by geographic region | | | | |
| United States | \$11,918,000 | \$11,739,000 | \$34,977,000 | \$33,469,000 |
| International | 186,000 | 310,000 | 678,000 | 613,000 |
| | | | | |
| Consolidated net sales | \$12,104,000 | \$12,049,000 | \$35,655,000 | \$34,082,000 |

Net sales by geographic region are based on the countries in which our customers are located. For the three and nine months ended September 30, 2018 and 2017, the Company did not generate sales from any single country, other than the United States, that were significant to the Company's consolidated net sales.

The following table summarizes the locations of the Company's long-lived assets by geographic region as of September 30, 2018 and December 31, 2017.

| September | December |
|-----------|----------|
| 30, | 31, |
| 2018 | 2017 |

| Long-lived assets by geographic region | | |
|----------------------------------------|-------------|-------------|
| United States | \$2,554,000 | \$2,593,000 |
| International | 604,000 | 565,000 |
| | | |
| Consolidated total long-lived assets | \$3,158,000 | \$3,158,000 |

12. Related Party Transactions

The Company previously used a law firm for certain legal matters whose majority member was a member of the Company's Board of Directors until his resignation on March 31, 2017. For the nine months ended September 30, 2018 and 2017, the Company expensed \$0 and \$65,000, respectively, for legal services from this related party. As of September 30, 2018 and 2017, the Company's outstanding balance to this related party was \$0 and \$0, respectively.

13. Commitments and Contingencies

Legal Proceedings: The Company is subject to various pending and threatened litigation actions in the ordinary course of business. Although it is not possible to determine with certainty at this point in time what liability, if any, the Company will have as a result of such litigation, based on consultation with legal counsel, management does not anticipate that the ultimate liability, if any, resulting from such litigation will have a material effect on the Company's financial condition and results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our unaudited condensed consolidated financial statements and the notes to our unaudited condensed consolidated financial statements, which appear elsewhere in this report.

Special Note Regarding Forward-Looking Statements

Certain information set forth in this Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of federal securities laws. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions and other information that is not historical information. When used in this report, the words "estimates," "expects," "anticipates," "forecasts," "plans," "intends," "believes" and variations of such words or similar expressions are intended to identify forward-looking statements. We may make additional forward-looking statements from time to time. All forward-looking statements, whether written or oral and whether made by us or on our behalf, are expressly qualified by this special note.

Any expectations based on these forward-looking statements are subject to risks and uncertainties. These and many other factors could affect the Company's future operating results and financial condition and could cause actual results to differ materially from expectations based on forward-looking statements made in this document or elsewhere by the Company or on its behalf.

Special Note Regarding Smaller Reporting Company Status

We are filing this report as a "smaller reporting company" (as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended). As a result of being a smaller reporting company, we are allowed and have elected to omit certain

information from this Management's Discussion and Analysis of Financial Condition and Results of Operations; however, we have provided all information for the periods presented that we believe to be appropriate.

Where to find more information about us. We make available, free of charge, on our website (http://www.alphaprotech.com) our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q, any current reports on Form 8-K furnished or filed since our most recent Annual Report on Form 10-K, and any amendments to such reports, as soon as reasonably practicable following the electronic filing of such reports with the Securities and Exchange Commission ("SEC"). In addition, in accordance with SEC rules, we provide electronic or paper copies of our filings free of charge upon request.

Critical Accounting Policies

The preparation of our financial statements in conformity with US generally accepted accounting principles ("US GAAP") requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of net sales and expenses during the reported periods. We base estimates on past experience and on various other assumptions that are believed to be reasonable under the circumstances. The application of these accounting policies on a consistent basis enables us to provide timely and reliable financial information. Our critical accounting policies include the following:

Marketable Securities: The Company periodically invests a portion of its cash in excess of short-term operating needs in marketable equity securities. These investments are classified as available-for-sale in accordance with US GAAP. The Company does not have any investments classified as held-to-maturity or trading securities. Available-for-sale investments are carried at their fair value using quoted prices in active markets for identical securities, and, effective January 1, 2018, unrealized gains and losses are reported as a component of net income in the statements of income. Prior to January 1, 2018, unrealized gains and losses were reported as other comprehensive income as a component of equity. The cost of securities sold is based on the specific identification method. Investments that the Company intends to hold for more than one year are classified as long-term investments in the accompanying condensed consolidated balance sheets.

Inventories: Inventories include freight-in, materials, labor and overhead costs and are stated at the lower of cost or net realizable value. Allowances are recorded for slow-moving, obsolete or unusable inventory. We assess our inventory for estimated obsolescence or unmarketable inventory and write down the difference between the cost of inventory and the estimated net realizable value based upon assumptions about future sales and quantities on hand, if necessary. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Accounts Receivable: Accounts receivable are recorded at the invoice amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable; however, changes in circumstances relating to accounts receivable may result in a requirement for additional allowances in the future. The Company determines the allowance based upon historical write-off experience and known conditions about customers' current ability to pay. Account balances are charged against the allowance when management determines that the potential for recovery is remote.

Revenue Recognition: The Company recognizes revenue for the transfer of promised goods to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company typically satisfies its performance obligations in contracts with customers upon shipment of the goods. Generally, payment is due from customers within a fixed number of days of the invoice date, and the contracts do not have significant financing components.

The Company has determined that control does not pass at the time of manufacture for private label goods, based on the nature of the private labeling.

See Notes 10 and 11 of the Notes to Condensed Consolidated Financial Statements (Unaudited), which appear elsewhere in this report, for revenue disaggregated by type and by geographic region.

Sales Returns, Rebates and Allowances: Sales are reduced for any anticipated sales returns, rebates and allowances based on historical experience. Since our return policy is only 90 days and our products are not generally susceptible to external factors such as technological obsolescence or significant changes in demand, we are able to make a reasonable estimate for returns. We offer end-user, product-specific and sales volume rebates to select distributors.

Our rebates are based on actual sales and are accrued monthly.

Stock-Based Compensation: We record compensation expense for the fair value of stock-based awards determined on the date of grant, including employee stock options, over the determined requisite service period, which is generally ratably over the vesting term.

The fair values of stock option grants are determined using the Black-Scholes option-pricing model and are based on the following assumptions: expected stock price volatility based on historical data and management's expectations of future volatility, risk-free interest rates based on the U.S. Treasury yield curve in effect at the time of grant, expected life based on historical data and no dividend yield, as the Board of Directors has no current plans to pay dividends in the near future. The Black-Scholes option-pricing model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. The option-pricing model requires the input of highly subjective assumptions, including expected stock price volatility. Our stock options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value of such options.

OVERVIEW

Alpha Pro Tech is in the business of protecting people, products and environments. We accomplish this by developing, manufacturing and marketing a line of high-value, disposable protective apparel and infection control products for the cleanroom, industrial, pharmaceutical, medical and dental markets. We also manufacture a line of building supply construction weatherization products. Our products are sold under the "Alpha Pro Tech" brand name, as well as under private label.

Our products are grouped into three business segments: the Building Supply segment, consisting of construction weatherization products such as housewrap and synthetic roof underlayment as well as other woven material; the Disposable Protective Apparel segment, consisting of disposable protective apparel such as shoecovers, bouffant caps, gowns, coveralls, lab coats, frocks and other miscellaneous products; and the Infection Control segment, consisting of face masks and eye shields. All financial information presented herein reflects the current segmentation.

Our target markets include pharmaceutical manufacturing, bio-pharmaceutical manufacturing, medical device manufacturing, lab animal research, high technology electronics manufacturing (which includes the semi-conductor market), medical and dental distributors, and construction, building supply and roofing distributors.

Our products are used primarily in cleanrooms, industrial safety manufacturing environments, health care facilities, such as hospitals, laboratories and dental offices, and building and re-roofing sites. Our products are distributed principally in the United States through a network consisting of purchasing groups, national distributors, local distributors, independent sales representatives and our own sales and marketing force.

RESULTS OF OPERATIONS

The following table sets forth certain operational data as a percentage of net sales for the periods indicated:

| | For the ' Months | | For the Months | |
|----------------------------------------------|---------------------|--------|----------------|---------|
| | Septemb | er 30, | Septemb | oer 30, |

Three and Nine months ended September 30, 2018, compared to Three and Nine months ended September 30, 2017

Sales. Consolidated sales for the three months ended September 30, 2018 increased to \$12,104,000 from \$12,049,000 for the three months ended September 30, 2017, representing an increase of \$55,000, or 0.5%. This increase consisted of increased sales in the Disposable Protective Apparel of \$77,000 and increased sales in the Infection Control segment of \$75,000, partially offset by decreased sales in the Building Supply segment of \$97,000.

Building Supply segment sales for the three months ended September 30, 2018 decreased by \$97,000, or 1.4%, to \$6,979,000, compared to \$7,076,000 for the same period of 2017. This segment decrease was primarily due to a decrease in sales of synthetic roof underlayment (including REXTM, TECHNOplyTM and our new TECHNO SB®) and, to a lesser extent, a decrease in sales of economy brand housewrap. The decrease was partially offset by an increase in sales of premium REXTM Wrap Fortis housewrap with JX ALTA 360° Drainage TechnologyTM and an increase in sales of other woven material. The sales mix of the Building Supply segment for the three months ended September 30, 2018 was 44% for synthetic roof underlayment, 42% for housewrap and 14% for other woven material. This compared to 48% for synthetic roof underlayment, 42% for housewrap and 10% for other woven material for the three months ended September 30, 2017.

We believe that our total housewrap sales, which decreased by only \$41,000 for the three months ended September 30, 2018, would likely have increased for the eleventh quarter in a row on a comparative basis, had it not been for a drop in housing starts in September, which we believe resulting in large part from Hurricane Florence. Sales of our new REXTM Wrap Fortis housewrap continued to trend positively in the third quarter, and we expect growth of housewrap sales in the coming quarters.

17

Sales for the Disposable Protective Apparel segment for the three months ended September 30, 2018 increased by \$77,000, or 2.0%, to \$3,922,000, compared to \$3,845,000 for the same period of 2017. The increase was primarily due to increased sales to our national distributors. Although sales growth slowed during the third quarter of 2018, we expect sales growth for the full year of 2018 to be in line with or above the current year-to-date nine month growth percentage of 5.8% for this segment.

Infection Control segment sales for the three months ended September 30, 2018 increased by \$75,000, or 6.6%, to \$1,203,000, compared to \$1,128,000 for the same period of 2017. Shield sales were up by 33.5%, or \$127,000, to \$506,000, primarily due to increased sales to our national distributors. Mask sales were down by 7.0%, or \$52,000, to \$697,000, primarily due to lower sales to a private label distributor.

Consolidated sales for the nine months ended September 30, 2018 increased to \$35,655,000 from \$34,082,000 for the nine months ended September 30, 2017, representing an increase of \$1,573,000, or 4.6%. This increase consisted of increased sales in the Building Supply segment of \$922,000, increased sales in the Disposable Protective Apparel of \$628,000 and increased sales in the Infection Control segment of \$23,000.

Building Supply segment sales for the nine months ended September 30, 2018 increased by \$922,000, or 4.8%, to \$20,220,000, compared to \$19,298,000 for the same period of 2017. This segment increase was primarily due to an increase in sales of housewrap (including REXTM Wrap, REXTM Wrap Plus and our new REXTM Wrap Fortis with JX ALTA 360° Drainage TechnologyTM) and an increase in sales of other woven material, partially offset by a decrease in sales of synthetic roof underlayment (including REXTM, TECHNOplyTM and our new TECHNO SB®). The sales mix of the Building Supply segment for the nine months ended September 30, 2018 was 43% for synthetic roof underlayment, 45% for housewrap and 12% for other woven material. This compared to 51% for synthetic roof underlayment, 41% for housewrap and 8% for other woven material for the nine months ended September 30, 2017.

Sales for the Disposable Protective Apparel segment for the nine months ended September 30, 2018 increased by \$628,000, or 5.8%, to \$11,542,000, compared to \$10,914,000 for the same period of 2017. The increase was primarily due to increased sales to our major international supply chain partner, as well as national and regional distributors. The Company is achieving sales growth as a result of bolstering its sales and marketing efforts, and we expect this trend to continue.

Infection Control segment sales for the nine months ended September 30, 2018 increased by \$23,000, or 0.6%, to \$3,893,000, compared to \$3,870,000 for the same period of 2017. Shield sales were up by 14.9%, or \$177,000, to \$1,350,000, primarily due to higher sales to national distributors. Mask sales were down by 5.7%, or \$154,000, to \$2,543,000, primarily due to lower sales to a private label distributor.

Gross Profit. Gross profit decreased by \$127,000, or 2.7%, to \$4,585,000 for the three months ended September 30, 2018, from \$4,712,000 for the same period of 2017. The gross profit margin was 37.9% for the three months ended September 30, 2018, compared to 39.1% for the same period of 2017.

Gross profit increased by \$266,000, or 2.0%, to \$13,759,000 for the nine months ended September 30, 2018, from \$13,493,000 for the same period of 2017. The gross profit margin was 38.6% for the nine months ended September 30, 2018, compared to 39.6% for the same period of 2017.

For the three and nine months ended September 30, 2018, the gross profit margin was affected by increased rebates, increased freight cost and a change in product mix in the Building Supply segment. We expect gross profit margin to be lower for the full year of 2018 but still to be in the high thirty percent range.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$774,000, or 22.4%, to \$2,676,000 for the three months ended September 30, 2018 from \$3,450,000 for the three months ended September 30, 2017. As a percentage of net sales, selling, general and administrative expenses decreased to 22.1% for the three months ended September 30, 2018, from 28.6% for the same period of 2017.

The decrease in selling, general and administrative expenses was primarily the result of recovery efforts from our former litigation counsel in relation to the settlement of the litigation matter described in Part II, Item 1 –Legal Proceedings, decreased overall employee compensation and lower general office expenditures as compared to the same period last year.

The change in expenses by segment was as follows: Building Supply was up \$8,000, or 0.7%; Disposable Protective Apparel was up \$42,000, or 4.9%; Infection Control was up \$4,000, or 2.6%; and corporate unallocated expenses were down \$828,000, or 65.3%. The increases in the Building Supply and Disposable Protective Apparel segments were primarily as a result of our expanded sales team and enhancement of our marketing programs to support future growth.

Selling, general and administrative expenses decreased by \$245,000, or 2.4%, to \$10,024,000 for the nine months ended September 30, 2018 from \$10,269,000 for the nine months ended September 30, 2017. As a percentage of net sales, selling, general and administrative expenses decreased to 28.1% for the nine months ended September 30, 2018, from 30.1% for the same period of 2017. The decrease in selling, general and administrative expenses was primarily due to an overall decrease in employee compensation expense.

The change in expenses by segment was as follows: Building Supply was up \$242,000, or 6.8%; Disposable Protective Apparel was up \$256,000, or 9.8%; Infection Control was down \$11,000, or 2.7%; and corporate unallocated expenses were down \$732,000, or 19.8%. The increases in the Building Supply and Disposable Protective Apparel segments were primarily as a result of our expanded sales team and enhancement of our marketing programs to support future growth.

In accordance with the terms of his employment agreement, the Company's current President and Chief Executive Officer, in 2018 is entitled to an annual bonus equal to 5% of the pre-tax profits of the Company, excluding bonus expense. In 2017, pursuant to their employment agreements, the Company's current Chief Executive Officer and former President were each entitled to a bonus equal to 5% of the pre-tax profits of the Company, excluding bonus expense. A bonus amount of \$100,000 was accrued for the three months ended September 30, 2018, as compared to \$190,000 for the same period of 2017. A bonus amount of \$193,000 was accrued for the nine months ended September 30, 2018, as compared to \$392,000 for the same period of 2017.

Depreciation and Amortization. Depreciation and amortization expense decreased by \$7,000, or 4.8%, to \$140,000 for the three months ended September 30, 2018, from \$147,000 for the three months ended September 30, 2017. Depreciation and amortization expense increased by \$4,000, or 0.9%, to \$430,000 for the nine months ended September 30, 2018, from \$426,000 for the same period of 2017.

Income from Operations. Income from operations increased by \$654,000, or 58.7%, to \$1,769,000 for the three months ended September 30, 2018, compared to \$1,115,000 for the three months ended September 30, 2017. The increased income from operations was primarily due to a decrease in selling, general and administrative expenses of \$774,000, which resulted primarily from the recovery efforts form our former litigation counsel in relation to settlement of the litigation matter described in Part II, Item 1 – Legal Proceedings, and a decrease in overall employee compensation expense, and a decrease in depreciation and amortization expense of \$7,000, partially offset by a decrease in gross profit of \$127,000.

Income from operations increased by \$507,000, or 18.1%, to \$3,305,000 for the nine months ended September 30, 2018, compared to \$2,798,000 for the nine months ended September 30, 2017. The increased income from operations was primarily due to an increase in gross profit of \$266,000 and a decrease in selling, general and administrative expenses of \$245,000, primarily due to a decrease in overall employee compensation expense, partially offset by an increase in depreciation and amortization expense of \$4,000.

Other Income. Other income decreased by \$362,000, or 73.7%, to \$129,000 for the three months ended September 30, 2018 from \$491,000 for the same period of 2017. The decrease of \$362,000 was primarily due to the gain on the sale of property of \$385,000 for the three months ended September 30, 2017.

Other income consisted of equity in income of unconsolidated affiliate of \$103,000, a realized gain on sale of marketable securities of \$3,000, an unrealized gain on marketable securities of \$22,000 and interest income of \$1,000 for the three months ended September 30, 2018. Other income consisted of equity in income of unconsolidated affiliate of \$105,000, a gain on the sale of property of \$385,000 and interest income of \$1,000 for the three months ended September 30, 2017.

Other income decreased by \$372,000, or 51.2%, to \$355,000 for the nine months ended September 30, 2018, from \$727,000 for the same period of 2017. The decrease of \$372,000 was primarily due to the gain on the sale of property of \$385,000 during the third quarter of 2017, which was not repeated in 2018.

Other income consisted of equity in income of unconsolidated affiliate of \$393,000, a realized gain on sale of marketable securities of \$3,000, an unrealized loss on marketable securities of \$43,000 and interest income of \$2,000 for the nine months ended September 30, 2018. Other income consisted primarily of equity in income of unconsolidated affiliate of \$339,000, a gain on the sale of property of \$385,000 and interest income of \$3,000 for the nine months ended September 30, 2017.

Income before Provision for Income Taxes. Income before provision for income taxes for the three months ended September 30, 2018 was \$1,898,000, compared to income before provision for income taxes of \$1,606,000 for the three months ended September 30, 2017, representing an increase of \$292,000, or 18.2%. This increase in income before provision for income taxes was primarily due to an increase in income from operations of \$654,000, partially offset by a decrease in other income of \$362,000.

Income before provision for income taxes for the nine months ended September 30, 2018 was \$3,660,000, compared to income before provision for income taxes of \$3,525,000 for the nine months ended September 30, 2017, representing an increase of \$135,000, or 3.8%. This increase in income before provision for income taxes was primarily due to an increase in income from operations of \$507,000, partially offset by a decrease in other income of \$372,000.

Provision for Income Taxes. The provision for income taxes for the three months ended September 30, 2018 was \$359,000, compared to \$503,000 for the same period of 2017. The effective tax rate was 18.9% for the three months ended September 30, 2018, compared to 31.3% for the same period of 2017. The Company does not record a tax provision on equity in income of unconsolidated affiliate, which reduces the effective tax rate.

The provision for income taxes for the nine months ended September 30, 2018 was \$653,000, compared to \$1,068,000 for the same period of 2017. The effective tax rate was 17.8% for the nine months ended September 30, 2018, compared to 30.3% for the same period of 2017. As mentioned above, the Company does not record a tax provision

on equity in income of unconsolidated affiliate.

The lower effective rate for the three and nine months ended September 30, 2018 compared to the same period of 2017 was due to U.S. tax reform (U.S. Tax Cuts and Jobs Act) that was enacted in December 2017, which lowered the federal tax rate for corporations from 35% to 21%.

Net Income. Net income for the three months ended September 30, 2018 was \$1,539,000, compared to net income of \$1,103,000 for the same period of 2017, representing an increase of \$436,000, or 39.5%. The net income increase was due to an increase in income before provision for income taxes of \$292,000 and a decrease in provision for income taxes of \$144,000. Net income as a percentage of net sales for the three months ended September 30, 2018 was 12.7%, and net income as a percentage of net sales for the same period of 2017 was 9.2%. Basic and diluted earnings per common share for the three months ended September 30, 2018 and 2017 were \$0.11 and \$0.07, respectively.

Net income for the nine months ended September 30, 2018 was \$3,007,000, compared to net income of \$2,457,000 for the same period of 2017, representing an increase of \$550,000, or 22.4%. The net income increase was due to an increase in income before provision for income taxes of \$135,000 and a decrease in provision for income taxes of \$415,000. Net income as a percentage of net sales for the nine months ended September 30, 2018 was 8.4%, and net income as a percentage of net sales for the same period of 2017 was 7.2%. Basic and diluted earnings per common share for the nine months ended September 30, 2018 and 2017 were \$0.21 and \$0.16, respectively.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2018, the Company had cash of \$6,823,000 and working capital of \$24,503,000, representing an increase in working capital of \$326,000 from December 31, 2017. As of September 30, 2018, the Company's current ratio (current assets/current liabilities) was 15:1, compared to a 10:1 current ratio as of December 31, 2017. Cash decreased by 22.1%, or \$1,940,000, to \$6,823,000 as of September 30, 2018, compared to \$8,763,000 as of December 31, 2017. The decrease in cash was due to cash used in financing activities of \$2,604,000 and cash used in investing activities of \$409,000, partially offset by cash provided by operating activities of \$1,073,000.

We have a \$3,500,000 credit facility with Wells Fargo Bank, consisting of a line of credit with interest at prime plus 0.5%. As of September 30, 2018, the prime interest rate was 5.25%. This credit line will expire in May 2020. The available line of credit is based on a formula of eligible accounts receivable and inventories. Our borrowing capacity on the line of credit was \$3,500,000 as of September 30, 2018. As of September 30, 2018, we did not have any borrowings under this credit facility and do not anticipate using it in the near future.

Net cash provided by operating activities of \$1,073,000 for the nine months ended September 30, 2018 was due to net income of \$3,007,000, impacted primarily by the following: stock-based compensation expense of \$312,000, depreciation and amortization expense of \$430,000, gain on sales of marketable securities of \$3,000, an unrealized loss on marketable securities of \$43,000, equity in income of unconsolidated affiliate of \$393,000, an increase in accounts receivable of \$1,300,000, an increase in prepaid expenses of \$834,000, a decrease in inventory of \$897,000, and a decrease in accounts payable and accrued liabilities of \$1,086,000.

Accounts receivable increased by \$1,300,000, or 26.2%, to \$6,258,000 as of September 30, 2018, from \$4,958,000 as of December 31, 2017. The increase in accounts receivable was primarily related to increased revenue in the third quarter of 2018 compared to the fourth quarter of 2017. The number of days that sales remained outstanding as of September 30, 2018, calculated by using an average of accounts receivable outstanding and annual revenue, was 45 days, compared to 41 days as of December 31, 2017.

Inventory decreased by \$897,000, or 8.8%, to \$9,352,000 as of September 30, 2018, from \$10,249,000 as of December 31, 2017. The decrease was primarily due to a decrease in inventory for the Disposable Protective Apparel

segment of \$418,000, or 12.1%, to \$3,046,000, and a decrease in inventory for the Building Supply segment of \$552,000, or 12.1%, to \$4,016,000, partially offset by an increase in inventory for the Infection Control segment of \$73,000, or 3.3%, to \$2,290,000.

Prepaid expenses and other current assets increased by \$834,000, or 31.3%, to \$3,499,000 as of September 30, 2018, from \$2,665,000 as of December 31, 2017. The increase was primarily due to an increase in deposits for the purchase of inventory and prepaid insurance.

Accounts payable and accrued liabilities as of September 30, 2018 decreased by \$1,086,000, or 38.8%, to \$1,718,000, from \$2,801,000 as of December 31, 2017. The change was primarily due to a decrease in trade payables and a decrease in accrued liabilities due to timing differences.

Net cash used in investing activities was \$409,000 for the nine months ended September 30, 2018, compared to net cash used in investing activities of \$386,000 for the same period of 2017. Investing activities for the nine months ended September 30, 2018 consisted of the purchase of property and equipment of \$424,000 and proceeds from the sale of marketable securities of \$15,000. Investing activities for the nine months ended September 30, 2017 consisted of the purchase of property and equipment of \$537,000 from the sale of property.

Net cash used in financing activities was \$2,604,000 for the nine months ended September 30, 2018, compared to net cash used in financing activities of \$2,901,000 for the same period of 2017. Net cash used in financing activities for the nine months ended September 30, 2018 resulted from the payment of \$2,828,000 for the repurchase of common stock, partially offset by proceeds of \$224,000 from the exercise of stock options. Net cash used in financing activities for the nine months ended September 30, 2017 resulted from the payment of \$2,901,000 for the repurchase of common stock, partially offset by the proceeds from the exercise of stock options of \$125,000.

As of September 30, 2018, we had \$1,451,000 available for additional stock purchases under our stock repurchase program. For the nine months ended September 30, 2018, we repurchased 793,000 shares of common stock at a cost of \$2,828,000. As of September 30, 2018, we had repurchased a total of 16,997,007 shares of common stock at a cost of \$31,769,000 through our repurchase program. We retire all stock upon repurchase. Future repurchases are expected to be funded from cash on hand and cash flows from operating activities.

We believe that our current cash balance and the funds available under our credit facility will be sufficient to satisfy our projected working capital and planned capital expenditures for the foreseeable future.

Recent Accounting Pronouncements

Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers* (Topic 606) ("ASU 2014-09") is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration that it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 is effective for the first interim period within an annual reporting period beginning after December 15, 2017, and early adoption is not permitted. The Company adopted ASU 2014-09 during the first quarter of 2018. Management evaluated the provisions of this update and has determined that its adoption did not have a significant impact on the Company's financial position or results of operations.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall* (Subtopic 825-10): *Recognition and Measurement of Financial Assets and Financial Liabilities*, which provides guidance for the recognition, measurement, presentation and disclosure of financial instruments. The new guidance revises the accounting requirements related to the classification and measurement of investments in equity securities and the presentation of certain fair value changes for financial liabilities measured at fair value. The guidance also changes certain disclosure requirements associated with the fair value of financial instruments. These changes will require an entity to measure, at fair value, investments in equity securities and other ownership interests in an entity and recognize the changes in fair value within net income. The guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. As a result of adopting this guidance effective January 1, 2018, the Company recorded a cumulative-effect adjustment to reclassify the \$458,000 accumulated other comprehensive loss balance to retained earnings, which balance was the result of unrealized losses on marketable securities. Effective, January 1, 2018 unrealized gains and losses on marketable securities are recorded on the statement of income.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842), which requires lessees to recognize most leases on the balance sheet. The provisions of this guidance are effective for annual periods beginning after December 15, 2018 and interim periods within those years, with early adoption permitted. Management is evaluating the requirements of this guidance and has not yet determined the impact of the adoption on the Company's financial position or results of operations.

In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation* (Topic 718): *Improvements to Employee Share-Based Payment Accounting*, which simplifies several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, an option to recognize gross stock compensation expense with actual forfeitures recognized as they occur, as well as certain classifications on the statement of cash flows. The provisions of this guidance were effective for annual reporting periods beginning after December 15, 2016 and interim periods within those annual periods, with early adoption permitted. The Company adopted this guidance during the quarter ended March 31, 2017, and the Company recorded a one-time \$866,000 cumulative-effect adjustment to reduce additional paid-in capital and increase retained earnings for excess tax benefits from stock option exercises that had previously been recorded to additional paid-in capital. The adoption of this guidance also increased the number of dilutive shares because excess tax benefits are no longer included in the assumed proceeds when calculating the number of dilutive shares. In addition, the effective tax rate will be reduced in future periods when there are excess tax benefits from stock options exercises.

In June 2016, the FASB issued ASU 2016-13 *Financial Instruments - Credit Losses* (Topic 326): *Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 requires an organization to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. ASU 2016-13 is effective for public entities for the annual periods, including interim periods within those annual periods, beginning after December 15, 2019. This guidance is applicable to the Company's fiscal year beginning January 1, 2020. Management is currently evaluating the requirements of this guidance and has not yet determined the impact of the adoption on the Company's financial position or results from operations.

Management periodically reviews new accounting standards that are issued. Management has not identified any other new standards that it believes merit further discussion at this time.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information otherwise required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our management, including our President and Chief Executive Officer (principal executive officer) and our Chief Financial Officer (principal financial officer), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), as of September 30, 2018, pursuant to the evaluation of these controls and procedures required by Rule 13a-15 of the Exchange Act. Disclosure controls and procedures are the controls and other procedures that we have designed to ensure that we record, process, summarize and report in a timely manner the information that we must disclose in reports that we file

with or submit to the SEC under the Exchange Act.

In designing and evaluating our disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and that we are required to apply our judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on the evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

During the quarter to which this report relates, there was no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As previously reported, the Company was involved in protracted litigation against a competitor in an action styled Alpha Pro Tech, Inc. v. VWR International, LLC, pending in the U.S. District Court for the Eastern District of Pennsylvania, CV 12-1615, wherein the Company originally sought damages for unfair trade practices and false advertising against the competitor, and the competitor counterclaimed asserting similar claims against the Company. In August of 2017, the court ruled against the Company on its claims against the competitor. The competitor, as the prevailing party with respect to those claims, subsequently filed a motion seeking to recover from the Company an amount in excess of \$2 million in attorneys' fees and costs, which motion was granted by the court. In November of 2017, the court heard arguments on the motion to reconsider at a hearing in February of 2018. At the hearing, the court encouraged the parties to attempt to settle the matter in advance of a ruling on the motion to reconsider (which motion was ultimately denied), and the parties subsequently mediated the matter in April of 2018. As a result of the mediation and the parties' further discussions, the parties reached an agreement in May of 2018 to settle the matter, and the matter has subsequently been dismissed. The Company has paid all amounts due under the settlement agreement. During the third quarter of 2018, the Company successfully pursued and recovered a significant portion of the settlement amount from former litigation counsel.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

ISSUER PURCHASES OF EQUITY SECURITIES
