

NextEra Energy Partners, LP
Form 10-Q
April 23, 2019

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

Commission File Number	Exact name of registrant as specified in its charter, address of principal executive offices and registrant's telephone number	IRS Employer Identification Number
1-36518	NEXTERA ENERGY PARTNERS, LP 700 Universe Boulevard Juno Beach, Florida 33408 (561) 694-4000	30-0818558

State or other jurisdiction of incorporation or organization: Delaware

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company.

Large Accelerated Filer <input checked="" type="checkbox"/>	Accelerated Filer <input type="checkbox"/>	Non-Accelerated Filer <input type="checkbox"/>	Smaller Reporting Company <input type="checkbox"/>	Emerging Growth Company <input type="checkbox"/>
---	--	--	--	--

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Securities Exchange Act of 1934.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act of 1934). Yes No

Number of NextEra Energy Partners, LP common units outstanding at March 31, 2019: 56,149,912

DEFINITIONS

Acronyms and defined terms used in the text include the following:

Term	Meaning
2018 Form 10-K	NEP's Annual Report on Form 10-K for the year ended December 31, 2018
AOCI	accumulated other comprehensive income (loss)
ASA	administrative services agreement
BLM	U.S. Bureau of Land Management
Canadian Holdings	NextEra Energy Canada Partners Holdings, ULC and subsidiaries
CITC	convertible investment tax credit
COD	commercial operation date
CSCS agreement	amended and restated cash sweep and credit support agreement
FIT	Feed-in-Tariff
IDR fee	certain payments from NEP OpCo to NEE Management as a component of the MSA which are based on the achievement by NEP OpCo of certain target quarterly distribution levels to its unitholders
IPP	independent power producer
limited partner interest in NEP OpCo	limited partner interest in NEP OpCo's common units
Management's Discussion	Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
MSA	amended and restated management services agreement among NEP, NEE Management, NEP OpCo and NEP OpCo GP
MW	megawatt(s)
NEE	NextEra Energy, Inc.
NEECH	NextEra Energy Capital Holdings, Inc.
NEE Equity	NextEra Energy Equity Partners, LP
NEE Management	NextEra Energy Management Partners, LP
NEER	NextEra Energy Resources, LLC
NEP	NextEra Energy Partners, LP
NEP GP	NextEra Energy Partners GP, Inc.
NEP OpCo	NextEra Energy Operating Partners, LP
NEP OpCo GP	NextEra Energy Operating Partners GP, LLC
NOLs	net operating losses
Note __	Note __ to condensed consolidated financial statements
O&M	operations and maintenance
Pemex	Petróleos Mexicanos
PPA	power purchase agreement, which could include contracts under a FIT or RESOP
preferred units	Series A convertible preferred units representing limited partner interests in NEP
RESOP	Renewable Energy Standard Offer Program
SEC	U.S. Securities and Exchange Commission
Texas pipelines	natural gas pipeline assets located in Texas
Texas pipelines acquisition	acquisition of NET Holdings Management, LLC (the Texas pipeline business)
Texas pipeline entities	the subsidiaries of NEP that directly own the Texas pipelines
U.S.	United States of America
U.S. Project Entities	project entities located within the U.S.
VIE	variable interest entity

Each of NEP and NEP OpCo has subsidiaries and affiliates with names that may include NextEra Energy, NextEra Energy Partners and similar references. For convenience and simplicity, in this report, the terms NEP and NEP OpCo are sometimes used as abbreviated references to specific subsidiaries, affiliates or groups of subsidiaries or affiliates. The precise meaning depends on the context. Discussions of NEP's ownership of subsidiaries and projects refers to its controlling interest in the general partner of NEP OpCo and NEP's indirect interest in and control over the subsidiaries of NEP OpCo. See Note 6 for a description of the noncontrolling interest in NEP OpCo.

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements within the meaning of the federal securities laws. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions, strategies, future events or performance (often, but not always, through the use of words or phrases such as result, are expected to, will continue, is anticipated, believe, will, could, should, would, estimated, may, plan, potential, future, projection, goals, target, outlook, predict and intend or words of similar meaning) are not statements of historical facts and may be forward looking. Forward-looking statements involve estimates, assumptions and uncertainties. Accordingly, any such statements are qualified in their entirety by reference to, and are accompanied by, the following important factors (in addition to any assumptions and other factors referred to specifically in connection with such forward-looking statements) that could have a significant impact on NEP's operations and financial results, and could cause NEP's actual results to differ materially from those contained or implied in forward-looking statements made by or on behalf of NEP in this Form 10-Q, in presentations, on its website, in response to questions or otherwise.

Operational Risks

- NEP's portfolio includes renewable energy projects that have a limited operating history. Such projects may not perform as expected.
- NEP's ability to make cash distributions to its unitholders is affected by wind and solar conditions at its renewable energy projects.
- NEP's business, financial condition, results of operations and prospects can be materially adversely affected by weather conditions, including, but not limited to, the impact of severe weather.
- Operation and maintenance of renewable energy projects involve significant risks that could result in unplanned power outages, reduced output, personal injury or loss of life.
- Natural gas gathering and transmission activities involve numerous risks that may result in accidents or otherwise affect the Texas pipelines' operations.
- NEP depends on certain of the renewable energy projects and pipelines in its portfolio for a substantial portion of its anticipated cash flows.
- NEP is pursuing the expansion of natural gas pipelines in its portfolio that will require up-front capital expenditures and expose NEP to project development risks.
- NEP's ability to maximize the productivity of the Texas pipeline business and to complete potential pipeline expansion projects is dependent on the continued availability of natural gas production in the Texas pipelines' areas of operation.
- Terrorist acts, cyber-attacks or other similar events could impact NEP's projects, pipelines or surrounding areas and adversely affect its business.
- The ability of NEP to obtain insurance and the terms of any available insurance coverage could be materially adversely affected by international, national, state or local events and company-specific events, as well as the financial condition of insurers. NEP's insurance coverage does not insure against all potential risks and it may become subject to higher insurance premiums.
- Warranties provided by the suppliers of equipment for NEP's projects may be limited by the ability of a supplier to satisfy its warranty obligations, or by the terms of the warranty, so the warranties may be insufficient to compensate NEP for its losses.
- Supplier concentration at certain of NEP's projects may expose it to significant credit or performance risks.
- NEP relies on interconnection, transmission and other pipeline facilities of third parties to deliver energy from its renewable energy projects and to transport natural gas to and from the Texas pipelines. If these facilities become unavailable, NEP's projects and pipelines may not be able to operate, deliver energy or become partially or fully unavailable to transport natural gas.
- NEP's business is subject to liabilities and operating restrictions arising from environmental, health and safety laws and regulations, compliance with which may require significant capital expenditures, increase NEP's cost of operations and affect or limit its business plans.
-

NEP's renewable energy projects may be adversely affected by legislative changes or a failure to comply with applicable energy regulations.

A change in the jurisdictional characterization of some of the Texas pipeline entities' assets, or a change in law or regulatory policy, could result in increased regulation of these assets, which could have a material adverse effect on NEP's business, financial condition, results of operations and ability to make cash distributions to its unitholders.

NEP may incur significant costs and liabilities as a result of pipeline integrity management program testing and any necessary pipeline repair or preventative or remedial measures.

The Texas pipelines' operations could incur significant costs if the Pipeline and Hazardous Materials Safety Administration or the Railroad Commission of Texas adopts more stringent regulations.

Pemex may claim certain immunities under the Foreign Sovereign Immunities Act and Mexican law, and the Texas pipeline entities' ability to sue or recover from Pemex for breach of contract may be limited and may be exacerbated if there is a deterioration in the economic relationship between the U.S. and Mexico.

NEP does not own all of the land on which the projects in its portfolio are located and its use and enjoyment of the property may be adversely affected to the extent that there are any lienholders or land rights holders that have rights that are superior to NEP's rights or the BLM suspends its federal rights-of-way grants.

NEP is subject to risks associated with litigation or administrative proceedings that could materially impact its operations, including, but not limited to, proceedings related to projects it acquires in the future.

• NEP's cross-border operations require NEP to comply with anti-corruption laws and regulations of the U.S. government and non-U.S. jurisdictions.

• NEP is subject to risks associated with its ownership or acquisition of projects or pipelines that remain under construction, which could result in its inability to complete construction projects on time or at all, and make projects too expensive to complete or cause the return on an investment to be less than expected.

Contract Risks

• NEP relies on a limited number of customers and is exposed to the risk that they may be unwilling or unable to fulfill their contractual obligations to NEP or that they otherwise terminate their agreements with NEP.

• PG&E, which contributes a significant portion of NEP's revenues, has filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. Any rejection by PG&E of a material portion of NEP's PPAs with it or any material reduction in the prices NEP charges PG&E under those PPAs that occurs in connection with PG&E's Chapter 11 proceedings, or any events of default under the financing agreements of NEP's solar facilities that provide power and renewable energy credits to PG&E under these PPAs as a result of PG&E's reorganization activities, could have a material adverse effect on NEP's results of operations, financial condition or business.

• NEP may not be able to extend, renew or replace expiring or terminated PPAs and natural gas transportation agreements at favorable rates or on a long-term basis.

• If the energy production by or availability of NEP's renewable energy projects is less than expected, they may not be able to satisfy minimum production or availability obligations under their PPAs.

Risks Related to NEP's Acquisition Strategy and Future Growth

• NEP's growth strategy depends on locating and acquiring interests in additional projects consistent with its business strategy at favorable prices.

• NEP OpCo's partnership agreement requires that it distribute its available cash, which could limit NEP's ability to grow and make acquisitions.

• Lower prices for other fuel sources may reduce the demand for wind and solar energy.

• Reductions in demand for natural gas in the United States or Mexico and low market prices of natural gas could materially adversely affect the Texas pipelines' operations and cash flows.

• Government laws, regulations and policies providing incentives and subsidies for clean energy could be changed, reduced or eliminated at any time and such changes may negatively impact NEP's growth strategy.

• NEP's growth strategy depends on the acquisition of projects developed by NEE and third parties, which face risks related to project siting, financing, construction, permitting, the environment, governmental approvals and the negotiation of project development agreements.

• Acquisitions of existing clean energy projects involve numerous risks.

• Renewable energy procurement is subject to U.S. state regulations, with relatively irregular, infrequent and often competitive procurement windows.

• NEP may continue to acquire other sources of clean energy and may expand to include other types of assets. Any further acquisition of non-renewable energy projects may present unforeseen challenges and result in a competitive disadvantage relative to NEP's more-established competitors.

• NEP faces substantial competition primarily from regulated utilities, developers, IPPs, pension funds and private equity funds for opportunities in North America.

• The natural gas pipeline industry is highly competitive, and increased competitive pressure could adversely affect NEP's business.

Risks Related to NEP's Financial Activities

• NEP may not be able to access sources of capital on commercially reasonable terms, which would have a material adverse effect on its ability to consummate future acquisitions.

• Restrictions in NEP and its subsidiaries' financing agreements could adversely affect NEP's business, financial condition, results of operations and ability to make cash distributions to its unitholders.

NEP's cash distributions to its unitholders may be reduced as a result of restrictions on NEP's subsidiaries' cash distributions to NEP under the terms of their indebtedness.

NEP's subsidiaries' substantial amount of indebtedness may adversely affect NEP's ability to operate its business, and its failure to comply with the terms of its subsidiaries' indebtedness could have a material adverse effect on NEP's financial condition.

NEP is exposed to risks inherent in its use of interest rate swaps.

Risks Related to NEP's Relationship with NEE

NEE exercises significant influence over NEP.

Under the CSCS agreement, NEP receives credit support from NEE and its affiliates. NEP's subsidiaries may default under contracts or become subject to cash sweeps if credit support is terminated, if NEE or its affiliates fail to honor their obligations under credit support arrangements, or if NEE or another credit support provider ceases to satisfy creditworthiness requirements, and NEP will be required in certain circumstances to reimburse NEE for draws that are made on credit support.

NEE or one of its affiliates is permitted to borrow funds received by NEP's subsidiaries and is obligated to return these funds only as needed to cover project costs and distributions or as demanded by NEP OpCo. NEP's financial condition

and ability to make distributions to its unitholders, as well as its ability to grow distributions in the future, is highly dependent on NEER's performance of its obligations to return all or a portion of these funds.

• NEP may not be able to consummate future acquisitions.

• NEER's right of first refusal may adversely affect NEP's ability to consummate future sales or to obtain favorable sale terms.

• NEP GP and its affiliates may have conflicts of interest with NEP and have limited duties to NEP and its unitholders.

• NEP GP and its affiliates and the directors and officers of NEP are not restricted in their ability to compete with NEP, whose business is subject to certain restrictions.

• NEP may only terminate the MSA under certain specified conditions.

• If the agreements with NEE Management or NEER are terminated, NEP may be unable to contract with a substitute service provider on similar terms.

• NEP's arrangements with NEE limit NEE's potential liability, and NEP has agreed to indemnify NEE against claims that it may face in connection with such arrangements, which may lead NEE to assume greater risks when making decisions relating to NEP than it otherwise would if acting solely for its own account.

Risks Related to Ownership of NEP's Units

• NEP's ability to make distributions to its unitholders depends on the ability of NEP OpCo to make cash distributions to its limited partners.

• If NEP incurs material tax liabilities, NEP's distributions to its unitholders may be reduced, without any corresponding reduction in the amount of the IDR fee.

• Holders of NEP's units may be subject to voting restrictions.

• NEP's partnership agreement replaces the fiduciary duties that NEP GP and NEP's directors and officers might have to holders of its common units with contractual standards governing their duties.

• NEP's partnership agreement restricts the remedies available to holders of NEP's common units for actions taken by NEP's directors or NEP GP that might otherwise constitute breaches of fiduciary duties.

• Certain of NEP's actions require the consent of NEP GP.

• Holders of NEP's common units and preferred units currently cannot remove NEP GP without NEE's consent.

• NEE's interest in NEP GP and the control of NEP GP may be transferred to a third party without unitholder consent.

• The IDR fee may be assigned to a third party without unitholder consent.

• NEP may issue additional units without unitholder approval, which would dilute unitholder interests.

• Reimbursements and fees owed to NEP GP and its affiliates for services provided to NEP or on NEP's behalf will reduce cash distributions from NEP OpCo and from NEP to NEP's unitholders, and there are no limits on the amount that NEP OpCo may be required to pay.

• Discretion in establishing cash reserves by NEP OpCo GP may reduce the amount of cash distributions to unitholders.

• NEP OpCo can borrow money to pay distributions, which would reduce the amount of credit available to operate NEP's business.

• Increases in interest rates could adversely impact the price of NEP's common units, NEP's ability to issue equity or incur debt for acquisitions or other purposes and NEP's ability to make cash distributions to its unitholders.

• The price of NEP's common units may fluctuate significantly and unitholders could lose all or part of their investment.

• The liability of holders of NEP's units, which represent limited partnership interests in NEP, may not be limited if a court finds that unitholder action constitutes control of NEP's business.

• Unitholders may have liability to repay distributions that were wrongfully distributed to them.

• Provisions in NEP's partnership agreement may discourage or delay an acquisition of NEP that NEP unitholders may consider favorable, which could decrease the value of NEP's common units, and could make it more difficult for NEP unitholders to change the board.

• The board, a majority of which may be affiliated with NEE, decides whether to retain separate counsel, accountants or others to perform services for NEP.

• The New York Stock Exchange does not require a publicly traded limited partnership like NEP to comply with certain of its corporate governance requirements.

The issuance of preferred units or other securities convertible into common units may affect the market price for NEP's common units, will dilute common unitholders' ownership in NEP and may decrease the amount of cash available for distribution for each common unit.

The preferred units have rights, preferences and privileges that are not held by, and are preferential to the rights of, holders of the common units.

Taxation Risks

NEP's future tax liability may be greater than expected if NEP does not generate NOLs sufficient to offset taxable income or if tax authorities challenge certain of NEP's tax positions.

NEP's ability to use NOLs to offset future income may be limited.

NEP will not have complete control over NEP's tax decisions.

A valuation allowance may be required for NEP's deferred tax assets.

Distributions to unitholders may be taxable as dividends.

These factors should be read together with the risk factors included in Part I, Item 1A. Risk Factors in the 2018 Form 10-K and Part II, Item 1A. Risk Factors in this Form 10-Q and investors should refer to those sections of the 2018 Form 10-K and this Form 10-Q. Any forward-looking statement speaks only as of the date on which such statement is made, and NEP undertakes no obligation to update any forward-looking statement to reflect events or circumstances, including, but not limited to, unanticipated events, after the date on which such statement is made, unless otherwise required by law. New factors emerge from time to time and it is not possible for management to predict all of such factors, nor can it assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained or implied in any forward-looking statement.

Website Access to U.S. Securities and Exchange Commission (SEC) Filings. NEP makes its SEC filings, including the annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports, available free of charge on NEP's internet website, www.nexteraenergypartners.com, as soon as reasonably practicable after those documents are electronically filed with or furnished to the SEC. The information and materials available on NEP's website are not incorporated by reference into this Form 10-Q.

Distributions per common unit of \$0.4650 and \$0.4050 were paid during the three months ended March 31, 2019 (a) and 2018, respectively. At March 31, 2019, \$6 million of preferred unit distributions were accrued and are payable in May 2019.

(b) Prior-period financial information has been retrospectively adjusted to include the adoption of an accounting standards update related to leases.

This report should be read in conjunction with the Notes herein and the Notes to Consolidated Financial Statements appearing in the 2018 Form 10-K.

12

NEXTERA ENERGY PARTNERS, LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

The accompanying condensed consolidated financial statements should be read in conjunction with the 2018 Form 10-K. In the opinion of NEP management, all adjustments (consisting of normal recurring accruals) considered necessary for fair financial statement presentation have been made. Certain amounts included in the prior year's condensed consolidated financial statements have been reclassified to conform to the current year's presentation. In addition, certain prior year amounts have been retrospectively adjusted for an accounting standards update related to leases. The results of operations for an interim period generally will not give a true indication of results for the year.

1. Acquisitions

In March 2019, an indirect subsidiary of NEP entered into an agreement with indirect subsidiaries of NEER to acquire:

- 100% of the membership interests in Ashtabula Wind II, LLC, a project company that owns a 120 MW wind generation facility located in North Dakota;
- 100% of the membership interests in Garden Wind, LLC, a project company that owns a 150 MW wind generation facility (Story County II) located in Iowa;
- 100% of the membership interests in White Oak Energy Holdings, LLC, which, at closing, is expected to own 100% of the membership interests of White Oak Energy LLC, which owns a 150 MW wind generation facility located in Illinois;
- 100% of the Class C membership interests in Rosmar Holdings, LLC, which represent a 49.99% noncontrolling ownership interest in two solar generation facilities, Marshall and Roswell, with a total combined generating capacity of approximately 132 MW located in Minnesota and New Mexico, respectively; and
- 49.99% of the membership interests, representing a controlling ownership interest, in Silver State South Solar, LLC, which indirectly owns a 250 MW solar generation facility located in Nevada.

NEP expects to complete the acquisition in the second quarter of 2019, subject to customary closing conditions and the receipt of certain regulatory approvals, for a total consideration of approximately \$1,020 million, subject to customary working capital and other adjustments.

In December 2018, a subsidiary of NEP completed the acquisition from NEER of NEP Renewables, which indirectly owns ten wind and one solar generation facilities with a combined generating capacity of approximately 1,388 MW.

Supplemental Unaudited Pro forma Results of Operations

NEP's pro forma results of operations, had the acquisition of NEP Renewables been completed on January 1, 2017, are as follows:

	Three Months Ended March 31, 2018 (millions)
Unaudited pro forma results of operations:	
Pro forma revenues	\$ 242
Pro forma operating income	\$ 98
Pro forma net loss	\$ (29)

Pro forma net income attributable to NEP \$ 122

The unaudited pro forma consolidated results of operations include adjustments to:

- reflect the historical results of NEP Renewables beginning on January 1, 2017;
- reflect the estimated depreciation and amortization expense based on the estimated fair value of property, plant and equipment - net and the intangible assets - PPAs;
- reflect allocations of income to noncontrolling interests related to the financing transaction to fund the acquisition; and
- reflect related income tax effects.

The unaudited pro forma information is not necessarily indicative of the results of operations that would have occurred had the transaction been made at the beginning of the periods presented or the future results of the consolidated operations.

2. Revenue

NEP's operating revenues are generated primarily from various non-affiliated parties under PPAs and natural gas transportation agreements. Revenue is recognized as energy and any related renewable energy attributes are delivered, based on rates stipulated

NEXTERA ENERGY PARTNERS, LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

in the respective PPAs, or natural gas transportation services are performed. NEP believes that the obligation to deliver energy and provide the natural gas transportation services is satisfied over time as the customer simultaneously receives and consumes benefits provided by NEP. In addition, NEP believes that the obligation to deliver renewable energy attributes is satisfied at multiple points in time, with the control of the renewable energy attribute being transferred at the same time the related energy is delivered. Included in NEP's operating revenues for the three months ended March 31, 2019 is approximately \$125 million and \$52 million, and for the three months ended March 31, 2018 is \$144 million and \$55 million, of revenue from contracts with customers for renewable energy sales and natural gas transportation services, respectively. NEP's accounts receivable are primarily associated with revenues earned from contracts with customers. Receivables represent unconditional rights to consideration and reflect the differences in timing of revenue recognition and cash collections. For substantially all of NEP's receivables, regardless of the type of revenue transaction from which the receivable originated, customer and counterparty credit risk is managed in the same manner and the terms and conditions of payment are similar.

NEP recognizes revenues as energy and any related renewable energy attributes are delivered or natural gas transportation services are performed, consistent with the amounts billed to customers based on rates stipulated in the respective PPAs. NEP considers the amount billed to represent the value of energy delivered or services provided to the customer. NEP's customers typically receive bills monthly with payment due within 30 days.

The contracts with customers related to pipeline service revenues contain a fixed price related to firm natural gas transportation capacity with maturity dates ranging from 2019 to 2035. At March 31, 2019, NEP expects to record approximately \$2.2 billion of revenues over the remaining terms of the related contracts as the capacity is provided. Revenues yet to be earned under contracts with customers to deliver energy and any related energy attributes, which have maturity dates ranging from 2030 to 2046, will vary based on the volume of energy delivered.

3. Income Taxes

Income taxes are calculated for NEP as a single taxpaying corporation for U.S. federal and state income taxes (based on its election to be taxed as a corporation). Because NEP OpCo is a limited partnership, NEP only recognizes in income its applicable ownership share of U.S. income taxes related to the U.S. projects and, prior to the sale of Canadian Holdings in June 2018, the Canadian projects. NEP's former Canadian subsidiaries were all Canadian taxpayers, and therefore NEP recognized in income all of the Canadian taxes. Income taxes include NEP's applicable ownership share of U.S. taxes and 100% of Canadian taxes. Net income or loss attributable to noncontrolling interests includes no U.S. taxes and NEER's applicable ownership share of Canadian taxes. Net income attributable to NEP includes NEP's applicable ownership share of U.S. and Canadian taxes.

The effective tax rate for the three months ended March 31, 2019 was approximately 5%. The effective tax rate is primarily affected by taxes attributable to the noncontrolling interests. During the three months ended March 31, 2018, the effective tax rate was not meaningful as NEP recorded an income tax charge of approximately \$20 million related to the \$231 million adjustment to differential membership interests as a result of the change in federal corporate income taxes due to the Tax Cuts and Jobs Act that became effective January 1, 2018 (see Note 10 - Noncontrolling Interests).

4. Fair Value Measurements

The fair value of assets and liabilities are determined using either unadjusted quoted prices in active markets (Level 1) or pricing inputs that are observable (Level 2) whenever that information is available and using unobservable inputs

(Level 3) to estimate fair value only when relevant observable inputs are not available. NEP uses several different valuation techniques to measure the fair value of assets and liabilities relying primarily on the market approach of using prices and other market information for identical and/or comparable assets and liabilities for those assets and liabilities that are measured at fair value on a recurring basis. Certain financial instruments may be valued using multiple inputs including discount rates, counterparty credit ratings and credit enhancements. NEP's assessment of the significance of any particular input to the fair value measurement requires judgment and may affect the placement of those assets and liabilities within the fair value hierarchy levels. Non-performance risk, including the consideration of a credit valuation adjustment, is also considered in the determination of fair value for all assets and liabilities measured at fair value. Transfers between fair value hierarchy levels occur at the beginning of the period in which the transfer occurred.

Cash Equivalents and Restricted Cash Equivalents - The fair value of money market funds that are included in cash and cash equivalents, restricted cash and other non-current assets on the condensed consolidated balance sheets is estimated using a market approach based on current observable market prices.

Interest Rate Contracts - NEP estimates the fair value of its derivatives using an income approach based on a discounted cash flows valuation technique utilizing the net amount of estimated future cash inflows and outflows related to the agreements. The primary inputs used in the fair value measurements include the contractual terms of the derivative agreements, current interest

NEXTERA ENERGY PARTNERS, LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (unaudited)

rates and credit profiles. The significant inputs for the resulting fair value measurement are market-observable inputs and the measurements are reported as Level 2 in the fair value hierarchy.

NEP's financial assets and liabilities and other fair value measurements made on a recurring basis by fair value hierarchy level are as follows:

	March 31, 2019			December 31, 2018		
	Level 1	Level 2	Total	Level 1	Level 2	Total
(millions)						
Assets:						
Cash equivalents	\$14	\$ —	\$14	\$71	\$ —	\$71
Restricted cash equivalents ^(a)	10	—	10	12	—	12
Interest rate contracts	—	5	5	—	24	24
Total assets	\$24	\$ 5	\$29	\$83	\$ 24	\$107
Liabilities:						
Interest rate contracts	\$—	\$ 217	\$217	\$—	\$ 116	\$116
Total liabilities	\$—	\$ 217	\$217	\$—	\$ 116	\$116

^(a) At March 31, 2019 and December 31, 2018, approximately \$9 million and \$9 million, respectively, of restricted cash equivalents are included in other non-current assets on NEP's condensed consolidated balance sheets.

Financial Instruments Recorded at Other than Fair Value - The carrying amounts and estimated fair values of other financial instruments recorded at other than fair value are as follows:

	March 31, 2019		December 31, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(millions)				
Long-term debt, including current maturities ^(a)	\$3,413	\$3,392	\$3,435	\$3,301

^(a) At March 31, 2019 and December 31, 2018, approximately \$2,958 million and \$2,826 million, respectively, of the fair value is estimated using a market approach based on quoted market prices for the same or similar issues (Level 2); the balance is estimated using an income approach utilizing a discounted cash flow valuation technique, considering the current credit profile of the debtor (Level 3).

5. Derivative Instruments and Hedging Activity

NEP uses derivative instruments (primarily interest rate swaps) to manage the interest rate cash flow risk associated primarily with outstanding and expected future debt issuances and borrowings. NEP records all derivative instruments that are required to be marked to market as either assets or liabilities on its condensed consolidated balance sheets and measures them at fair value each reporting period. NEP does not utilize hedge accounting for its derivative instruments. All changes in the derivatives' fair value are recognized in interest expense in the condensed consolidated statements of income (loss). In general, the commencement and termination dates of the interest rate swap agreements and the related hedging relationship coincide with the corresponding dates of the underlying variable-rate debt

instruments. At March 31, 2019 and December 31, 2018, the combined notional amounts of the interest rate contracts were approximately \$9,246 million and \$9,256 million, respectively.

During the three months ended March 31, 2019, NEP reclassified approximately \$6 million from AOCI to interest expense primarily because it became probable that related future transactions being hedged would not occur. At March 31, 2019, NEP's AOCI does not include any amounts related to discontinued cash flow hedges. Cash flows from the interest rate swap contracts are reported in cash flows from operating activities in the condensed consolidated statements of cash flows.

Prior to the sale of Canadian Holdings in June 2018, NEP entered into certain foreign currency exchange contracts to economically hedge its cash flows from foreign currency rate fluctuations. During the three months ended March 31, 2018, NEP recorded approximately \$1 million of gains related to the foreign currency contracts in other - net in the condensed consolidated statements of income (loss).

NEXTERA ENERGY PARTNERS, LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (unaudited)

Fair Value of Derivative Instruments - The tables below present NEP's gross derivative positions, based on the total fair value of each derivative instrument, at March 31, 2019 and December 31, 2018, as required by disclosure rules, as well as the location of the net derivative positions, based on the expected timing of future payments, on the condensed consolidated balance sheets.

	March 31, 2019	
	Gross Basis	Net Basis
	Assets	Liabilities
	(millions)	
Interest rate contracts	\$5 \$ 217	\$7 \$ 219

Net fair value by balance sheet line item:

Other current assets	\$5
Other non-current assets	2
Other current liabilities	\$ 2
Derivatives	217
Total derivatives	\$7 \$ 219

	December 31, 2018	
	Gross Basis	Net Basis
	Assets	Liabilities
	(millions)	
Interest rate contracts	\$24 \$ 116	\$13 \$ 105

Net fair value by balance sheet line item:

Other current assets	\$7
Other non-current assets	6
Other current liabilities	\$ 1
Derivatives	104
Total derivatives	\$13 \$ 105

Financial Statement Impact of Derivative Instruments - Gains (losses) related to NEP's interest rate contracts are recorded in the condensed consolidated financial statements as follows:

	Three Months	
	Ended March	
	2019	2018
	(millions)	
Interest rate contracts:		
Gains (losses) reclassified from AOCI to interest expense	\$6	\$(2)
Losses recognized in interest expense	\$(118)	\$(52)

Credit-Risk-Related Contingent Features - Certain of NEP's derivative instruments contain credit-related cross-default and material adverse change triggers, none of which contain requirements to maintain certain credit ratings or financial ratios. At March 31, 2019 and December 31, 2018, the aggregate fair value of NEP's derivative instruments

with contingent risk features that were in a liability position was approximately \$196 million and \$108 million, respectively.

6. Variable Interest Entities

NEP has identified NEP OpCo, a limited partnership with a general partner and limited partners, as a VIE. NEP has consolidated the results of NEP OpCo and its subsidiaries because of its controlling interest in the general partner of NEP OpCo. At March 31, 2019, NEP owned an approximately 35.6% limited partner interest in NEP OpCo and NEE Equity owned a noncontrolling 64.4% limited partner interest in NEP OpCo (NEE's noncontrolling interest). The assets and liabilities of NEP OpCo as well as the operations of NEP OpCo represent substantially all of NEP's assets and liabilities and its operations.

In addition, at March 31, 2019, NEP OpCo consolidated 12 VIEs related to certain subsidiaries that have sold differential membership interests in entities which own and operate 20 wind electric generation facilities. These entities are considered VIEs because the holders of the differential membership interests do not have substantive rights over the significant activities of these entities. The assets, primarily property, plant and equipment - net, and liabilities, primarily asset retirement obligation and non-current due to

NEXTERA ENERGY PARTNERS, LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

related party, of the VIEs, totaled approximately \$4,895 million and \$112 million, respectively, at March 31, 2019 and \$4,937 million and \$132 million, respectively, at December 31, 2018.

At March 31, 2019, NEP OpCo also consolidated a VIE related to a noncontrolling Class B interest in NEP Renewables. This entity is considered a VIE because the holder of the noncontrolling Class B interest does not have substantive rights over the significant activities of the entity. The assets, primarily property, plant and equipment - net and liabilities, primarily long-term debt and asset retirement obligation, of the VIE totaled approximately \$2,319 million and \$92 million at March 31, 2019 and \$2,339 million and \$89 million, respectively, at December 31, 2018.

NEP has an indirect equity method investment in three NEER solar projects with a total generating capacity of 277 MW. Through a series of transactions, a subsidiary of NEP issued 1,000,000 NEP OpCo Class B Units, Series 1 and 1,000,000 NEP OpCo Class B Units, Series 2, to NEER for approximately 50% of the ownership interests in the three solar projects (non-economic ownership interests). NEER, as holder of the NEP OpCo Class B Units, will retain 100% of the economic rights in the projects to which the respective Class B Units relate, including the right to all distributions paid by the project subsidiaries that own the projects to NEP OpCo. NEER has agreed to indemnify NEP against all risks relating to NEP's ownership of the projects until NEER offers to sell economic interests to NEP and NEP accepts such offer, if NEP chooses to do so. NEER has also agreed to continue to manage the operation of the projects at its own cost, and to contribute to the projects any capital necessary for the operation of the projects, until NEER offers to sell economic interests to NEP and NEP accepts such offer. At March 31, 2019 and December 31, 2018, NEP's equity method investment related to the non-economic ownership interests is reflected as investments in non-economic ownership interests on the condensed consolidated balance sheets. All equity in earnings of the non-economic ownership interests is allocated to net income attributable to noncontrolling interests. NEP is not the primary beneficiary and therefore does not consolidate these entities because it does not control any of the ongoing activities of these entities, was not involved in the initial design of these entities and does not have a controlling interest in these entities.

7. Capitalization

Equity - On April 22, 2019, the board of directors of NEP authorized a distribution of \$0.4825 per common unit payable on May 15, 2019 to its common unitholders of record on May 7, 2019.

In March 2019, NEP and two of its indirect subsidiaries, NEP Renewables Holdings II, LLC (NEP Renewables Holdings II) and NEP Renewables II, LLC (NEP Renewables II), entered into a membership interest purchase agreement (membership purchase agreement) with a third-party investor (NEP Renewables II investor) for the purpose of financing the 2019 acquisition of the projects described in Note 1 and the recapitalization of four existing wind projects indirectly owned by NEP. The NEP Renewables II investor has committed to pay approximately \$900 million to NEP Renewables Holdings II for 100% of the noncontrolling Class B membership interest in NEP Renewables II, subject to the specified conditions set forth in the membership purchase agreement. NEP Renewables Holdings II will retain 100% of the Class A membership interest and NEP will consolidate NEP Renewables II, which will be considered a VIE because the NEP Renewables II investor will not have substantive rights over the significant activities of NEP Renewables II. Prior to closing, an indirect subsidiary of NEP will transfer to NEP Renewables II the ownership interests to be purchased from NEER in 2019 as described in Note 1 as well as 100% of the membership interests in entities that own (1) Perrin Ranch Wind Energy Center, an approximately 99 MW wind generation facility located in Arizona; (2) Tuscola Bay Wind Energy Center, a 120 MW wind generation facility

located in Michigan; (3) Ashtabula Wind III Energy Center, an approximately 62 MW wind generation facility located in North Dakota; and (4) Stateline Wind Energy Center, a 300 MW wind generation facility located in Oregon and Washington.

Under the amended and restated limited liability company agreement for NEP Renewables II (the LLC agreement) that will be entered into at closing, NEP, through its indirect ownership of NEP Renewables Holdings II, will receive approximately 95% of NEP Renewables II's cash distributions for the first six years after closing, and the NEP Renewables II investor will receive 5%. From the third and one-half to the sixth anniversary of the closing, NEP has the option (the buyout right), subject to certain limitations and extensions, to periodically purchase the NEP Renewables II investor's interest in NEP Renewables at a buyout price that implies a fixed pre-tax annual return of approximately 8.3% to the NEP Renewables II investor (inclusive of all prior distributions). If exercised, NEP has the right to pay at least 70% of the buyout price in NEP non-voting common units, issued at the then-current market price of NEP common units, with the balance paid in cash, subject to limitations as described in the LLC agreement. Following the sixth anniversary after closing, if NEP has not exercised its entire buyout right, or following the four and one-half year anniversary after closing if certain minimum buyouts have not occurred, the NEP Renewables II investor's allocation of distributable cash flow from the portfolio for the portion of the Class B membership interest that the NEP Renewables II investor still owns would increase to 99%. Beginning January 1, 2025, NEP will give the NEP Renewables II investor, under a registration rights agreement to be entered into at closing, certain rights to require NEP, under certain circumstances, to initiate underwritten offerings for the units that are issuable if NEP exercises the buyout right.

NEXTERA ENERGY PARTNERS, LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (unaudited)

Following any exercise of the buyout right, the NEP Renewables II investor will have, among other terms, the right to receive pro rata quarterly cash distributions with respect to the NEP non-voting common units it owns and rights, subject to certain limitations, to convert the NEP non-voting common units into NEP common units on a one-for-one basis.

Earnings Per Unit - Diluted earnings per unit are based on the weighted-average number of common units and potential common units outstanding during the period, including the dilutive effect of the convertible notes and preferred units. The dilutive effect of the convertible notes and preferred units is computed using the if-converted method.

The reconciliation of NEP's basic and diluted earnings per unit is as follows:

	Three Months Ended March 31, 2018 (millions, except per unit amounts)
Numerator:	
Net income attributable to NEP – basic	\$ 74
Adjustments for convertible notes and preferred units	16
Net income attributable to NEP – assuming dilution	\$ 90
Denominator:	
Weighted-average number of common units outstanding – basic	54.3
Convertible notes and preferred units	19.7
Weighted-average number of common units outstanding – assuming dilution	74.0
Earnings per unit attributable to NEP:	
Basic	\$ 1.36
Assuming dilution	\$ 1.22

The weighted-average number of common units issuable pursuant to the convertible notes and preferred units that were not included in the calculation of diluted earnings per unit due to their antidilutive effect totaled approximately 19.7 million for the three months ended March 31, 2019.

9. Related Party Transactions

Each project entered into O&M agreements and ASAs with subsidiaries of NEER whereby the projects pay a certain annual fee plus actual costs incurred in connection with certain O&M and administrative services performed under these agreements. These services are reflected as operations and maintenance in the condensed consolidated statements of income (loss). Additionally, a NEP subsidiary pays an affiliate for transmission services which are reflected as operations and maintenance in the condensed consolidated statements of income (loss). Certain projects have also entered into various types of agreements including those related to shared facilities and transmission lines, transmission line easements, technical support and construction coordination with subsidiaries of NEER whereby certain fees or cost reimbursements are paid to, or received by, certain subsidiaries of NEER.

Management Services Agreement - Under the MSA, an indirect wholly owned subsidiary of NEE provides operational, management and administrative services to NEP, including managing NEP's day-to-day affairs and providing individuals to act as NEP's executive officers and directors, in addition to those services that are provided under the existing O&M agreements and ASAs described above between NEER subsidiaries and NEP subsidiaries. NEP OpCo pays NEE an annual management fee equal to the greater of 1% of the sum of NEP OpCo's net income plus interest expense, income tax expense and depreciation and amortization expense less certain non-cash, non-recurring items for the most recently ended fiscal year and \$4 million (as adjusted for inflation beginning in 2016), which is paid in quarterly installments with an additional payment each January to the extent 1% of the sum of NEP OpCo's net income plus interest expense, income tax expense and depreciation and amortization expense less certain non-cash, non-recurring items for the preceding fiscal year exceeds \$4 million (as adjusted for inflation beginning in 2016). NEP OpCo also makes certain payments to NEE based on the achievement by NEP OpCo of certain target quarterly distribution levels to its unitholders. NEP's O&M expenses for the three months ended March 31, 2019 and 2018 include approximately \$22 million and \$18 million, respectively, related to the MSA.

Cash Sweep and Credit Support Agreement - NEP OpCo is a party to the CSCS agreement with NEER under which NEER and certain of its affiliates provide credit support in the form of letters of credit and guarantees to satisfy NEP's subsidiaries' contractual obligations. NEP OpCo pays NEER an annual credit support fee based on the level and cost of the credit support provided, payable in quarterly installments. NEP's O&M expenses for the three months ended March 31, 2019 and 2018 include approximately \$1 million and \$1 million, respectively, related to the CSCS agreement.

NEER and certain of its affiliates may withdraw funds (Project Sweeps) received by NEP OpCo under the CSCS agreement, or its subsidiaries in connection with certain long-term debt agreements, and hold those funds in accounts belonging to NEER or its affiliates to the extent the funds are not required to pay project costs or otherwise required to be maintained by NEP's subsidiaries. NEER and its affiliates may keep the funds until the financing agreements permit distributions to be made, or, in the case of NEP OpCo, until such funds are required to make distributions or to pay expenses or other operating costs or NEP OpCo otherwise demands the return of such funds. If NEER or its affiliates fail to return withdrawn funds when required by NEP's subsidiaries' financing agreements, the lenders will be entitled to draw on any credit support provided by NEER or its affiliates in the amount of such withdrawn funds. If NEER or one of its affiliates realizes any earnings on the withdrawn funds prior to the return of such funds, it will be permitted to retain those earnings. At March 31, 2019 and December 31, 2018, the cash sweep amounts held in accounts

NEXTERA ENERGY PARTNERS, LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

belonging to NEER or its affiliates were approximately \$42 million and \$66 million, respectively, and are included in due from related parties on the condensed consolidated balance sheets.

Guarantees and Letters of Credit Entered into by Related Parties - Certain PPAs include requirements of the project entities to meet certain performance obligations. NEECH or NEER has provided letters of credit or guarantees for certain of these performance obligations and payment of any obligations from the transactions contemplated by the PPAs. In addition, certain financing agreements require cash and cash equivalents to be reserved for various purposes. In accordance with the terms of these financing agreements, guarantees from NEECH have been substituted in place of these cash and cash equivalents reserve requirements. Also, under certain financing agreements, indemnifications have been provided by NEECH. In addition, certain interconnection agreements and site certificates require letters of credit or a bond to secure certain payment or restoration obligations related to those agreements. NEECH also guarantees the Project Sweep amounts held in accounts belonging to NEER, as described above. At March 31, 2019, NEECH or NEER guaranteed or provided indemnifications, letters of credit or bonds totaling approximately \$691 million related to these obligations. Agreements related to the sale of differential membership interests require NEER to guarantee payments due by the VIEs and the indemnifications to the VIEs' respective investors. At March 31, 2019, NEER guaranteed a total of approximately \$69 million related to these obligations.

Due to Related Party - Non-current amounts due to related party on the condensed consolidated balance sheets primarily represent amounts owed by certain of NEP's wind projects to NEER to refund NEER for certain transmission costs paid on behalf of the wind projects. Amounts will be paid to NEER as the wind projects receive payments from third parties for related notes receivable recorded in other non-current assets on the condensed consolidated balance sheets. During the three months ended March 31, 2019, a subsidiary of NEECH provided, pursuant to a debt service reserve guarantee (see discussion above), approximately \$20 million to fund the debt payment of Genesis Solar Funding, LLC which is reflected as non-current due to related party at March 31, 2019.

Transportation and Fuel Management Agreements - A subsidiary of NEP assigned to a subsidiary of NEER certain gas commodity agreements in exchange for entering into transportation agreements and a fuel management agreement whereby the benefits of the gas commodity agreements (net of transportation paid to the NEP subsidiary) are passed back to the NEP subsidiary. During the three months ended March 31, 2019 and 2018, NEP recognized approximately \$1 million and \$2 million, respectively, in revenues related to the transportation and fuel management agreements.

10. Summary of Significant Accounting and Reporting Policies

Restricted Cash - Current restricted cash on NEP's condensed consolidated balance sheets and approximately \$11 million and \$11 million of other non-current assets on NEP's condensed consolidated balance sheets at March 31, 2019 and December 31, 2018, respectively, are held by certain subsidiaries to pay for certain capital or operating expenditures, as well as to fund required equity contributions pursuant to restrictions contained in the subsidiaries' debt agreements. Restricted cash reported as current assets are recorded as such based on the anticipated use of these funds.

Disposal of Canadian Holdings - In June 2018, a subsidiary of NEP completed the sale of Canadian Holdings for cash proceeds of approximately CAD \$740 million (USD \$563 million at June 29, 2018), subject to post-closing working capital adjustments of approximately \$1 million. In addition, the purchaser assumed approximately \$676 million of existing debt. Canadian Holdings owned four wind generation facilities and two solar generation facilities located in

Ontario, Canada with a generating capacity totaling approximately 396 MW. Income before income taxes associated with Canadian Holdings was approximately \$28 million for the three months ended March 31, 2018.

Noncontrolling Interests - At March 31, 2019, NEE's 64.4% noncontrolling limited partner interest in NEP OpCo, a non-affiliated party's 10% interest in one of the Texas pipelines, the interests related to differential membership interests and the Class B noncontrolling interests in NEP Renewables sold in 2018 are reflected as noncontrolling interests on the condensed consolidated balance sheets. See Note 6. Details of the activity in noncontrolling interests for the three months ended March 31, 2019 and 2018 are below:

For the three months ended March 31, 2019, approximately \$8 million of the income attributable to the NEP OpCo (a) subsidiary investor benefits NEE's noncontrolling interest and \$4 million is reflected as net income attributable to NEP.

Represents the benefits associated with differential membership interests recognized as third-party investors received their portion of the economic attributes of the related facilities. For the three months ended March 31, 2019 and 2018, approximately \$39 million and \$175 million, respectively, of the loss attributable to differential (b) membership interests benefits NEE's noncontrolling interest and \$21 million and \$94 million, respectively, is reflected as net income attributable to NEP. For the three months ended March 31, 2018, includes approximately \$231 million (after-tax \$211 million) related to the reduction of differential membership interests as a result of the change in federal corporate income tax rates effective January 1, 2018.

11. Commitments and Contingencies

Letter of Credit Facilities - Two of NEP's projects entered into letter of credit (LOC) facilities under which the LOC lenders may issue standby letters of credit not to exceed approximately \$82 million in the aggregate. These LOC facilities have maturity dates of June 2022 and July 2022. At March 31, 2019, approximately \$68 million of LOCs was outstanding primarily related to debt service reserves and as security for certain of the projects' agreements, including a PPA.

PG&E Bankruptcy - During the three months ended March 31, 2019, approximately 2% of net loss attributable to NEP was from PPAs that the Genesis, Desert Sunlight and Shafter solar projects have with PG&E. On January 29, 2019, PG&E filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. The Genesis and Shafter solar projects are financed with various forms of indebtedness. PG&E's Chapter 11 filing, or related events, have caused events of default under the financings for the Genesis and Shafter projects, blocking the distribution of cash generated by those projects.

Lenders under these financings could accelerate the repayment of borrowings thereunder or foreclose upon the projects' equity or assets as a result of events of defaults caused by PG&E's bankruptcy, which could have a material adverse impact on NEP. In addition, PG&E could seek to reject some or all of the PPAs. PG&E's bankruptcy petition stated that PG&E has not yet made any decisions regarding whether to assume or reject any PPAs in its Chapter 11 case.

NEXTERA ENERGY PARTNERS, LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Concluded)
(unaudited)

At March 31, 2019 and December 31, 2018, the debt outstanding under the Genesis and Shafter financings totaled approximately \$669 million and \$682 million, respectively, of which \$641 million with scheduled final maturity dates ranging from 2033 to 2038 was reclassified into current debt on the condensed consolidated balance sheets. Based on the estimated future cash flows related to the Genesis, Shafter and Desert Sunlight solar projects, no impairment adjustment was recorded at March 31, 2019. NEP will continue to monitor its investments in these projects. Unless a waiver or forbearance agreement is obtained or the events of default are otherwise cured, cash distributions from these projects generally are not able to be made. During the first quarter of 2019, approximately \$38 million of cash distributions were not made.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

NEP is a growth-oriented limited partnership formed to acquire, manage and own contracted clean energy projects with stable long-term cash flows. At March 31, 2019, NEP owned a controlling, non-economic general partner interest and an approximately 35.6% limited partner interest in NEP OpCo. Through NEP OpCo, NEP owns a portfolio of contracted renewable generation assets consisting of wind and solar projects and a portfolio of contracted natural gas pipeline assets.

This discussion should be read in conjunction with the Notes contained herein and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in the 2018 Form 10-K. The results of operations for an interim period generally will not give a true indication of results for the year. In the following discussions, all comparisons are with the corresponding items in the prior year period.

In June 2018, a subsidiary of NEP completed the sale of Canadian Holdings which owns four wind generation facilities and two solar generation facilities located in Ontario, Canada with a generating capacity totaling approximately 396 MW. See Note 10 - Disposal of Canadian Holdings.

In December 2018, a subsidiary of NEP completed the acquisition from NEER of NEP Renewables, which indirectly owns ten wind and one solar generation facilities with a combined generating capacity of approximately 1,388 MW. In March 2019, an indirect subsidiary of NEP entered into an agreement with indirect subsidiaries of NEER to acquire indirect membership interests in three wind and three solar generation facilities with a combined net generating capacity of approximately 611 MW. See Note 1.

In January 2019, PG&E, a significant customer of NEP, filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. See Note 11 - PG&E Bankruptcy.

(a) Prior-period financial information has been retrospectively adjusted to include the adoption of an accounting standards update related to leases.

Three Months Ended March 31, 2019 Compared to Three Months Ended March 31, 2018

Operating Revenues

Operating revenues primarily consist of income from the sale of energy under PPAs and services provided under natural gas transportation agreements. Renewable energy sales decreased approximately \$33 million during the three months ended March 31, 2019. Revenues decreased approximately \$46 million due to the sale of Canadian Holdings at the end of the second quarter of 2018 and \$14 million due to lower wind resource. These decreases were partly offset by an increase in revenues of approximately \$25 million related to the projects acquired in December 2018.

Operating Expenses

Operations and Maintenance

O&M expenses include interconnection costs, labor expenses, turbine servicing costs, royalty payments, insurance, materials, supplies, shared services and administrative expenses attributable to NEP's projects, and costs and expenses under the MSA, ASAs and O&M agreements. See Note 9. O&M expenses also include the cost of maintaining and replacing certain parts for the projects in the portfolio to maintain, over the long-term, operating income or operating capacity. O&M expenses increased approximately \$14 million during the three months ended March 31, 2019 primarily due to increases of approximately \$10 million related to the projects acquired in December 2018 and \$8 million in higher other expenses including higher IDR fees related to growth in NEP's distributions to its common unitholders, partly offset by a decrease of \$4 million as a result of the sale of Canadian Holdings at the end of the second quarter of 2018.

Depreciation and Amortization

Depreciation and amortization expense reflects costs associated with depreciation and amortization of NEP's assets, based on depreciable asset lives and consistent depreciation methodologies. Depreciation and amortization expense also includes a provision for wind and solar facility dismantlement, asset removal costs and accretion related to asset retirement obligations and the amortization of finite-lived intangible assets.

Depreciation and amortization expense increased approximately \$8 million during the three months ended March 31, 2019 primarily as a result of approximately \$13 million of depreciation related to the projects acquired in December 2018, partly offset by a decrease of \$5 million related to the sale of Canadian Holdings at the end of the second quarter of 2018.

Other Income (Deductions)

Interest Expense

Interest expense primarily consists of interest on debt and mark-to-market gains and losses on interest rate contracts. Interest expense increased approximately \$52 million during the three months ended March 31, 2019 primarily due to unfavorable mark-to-market activity of \$65 million, partly offset by a decrease in interest costs as a result of the sale of Canadian Holdings at the end of the second quarter of 2018.

Equity in Earnings of Equity Method Investee

Equity in earnings of equity method investee decreased by approximately \$3 million during the three months ended March 31, 2019 due to lower earnings at the related project.

Equity in Earnings (Losses) of Non-Economic Ownership Interests

Equity in earnings (losses) of non-economic ownership interests decreased by approximately \$13 million during the three months ended March 31, 2019 primarily due to mark-to-market losses on certain interest rate derivative contracts recorded at the related projects.

Income Taxes

Income taxes include NEP's applicable ownership share of U.S. taxes and, prior to the June 2018 sale of Canadian Holdings, 100% of Canadian taxes. Net loss attributable to noncontrolling interest includes no U.S. taxes and NEER's applicable ownership share of Canadian taxes. Net income or loss attributable to NEP includes NEP's applicable ownership share of U.S. and Canadian taxes.

For the three months ended March 31, 2019, NEP recorded income tax benefit of approximately \$7 million on loss before income taxes of \$128 million, resulting in an effective tax rate of 5%. The tax benefit is comprised primarily of income tax benefit of approximately \$27 million at the statutory rate of 21%, partly offset by \$21 million of income tax attributable to noncontrolling interests.

For the three months ended March 31, 2018, NEP recorded income tax expense of approximately \$19 million on loss before income taxes of \$0 million. The tax expense is comprised primarily of income tax expense of approximately \$20 million related to the adjustment to differential membership interests as a result of the change in federal corporate income tax rates due to tax reform (see Note 3).

Net Loss Attributable to Noncontrolling Interests

For the three months ended March 31, 2019 and 2018, net loss attributable to noncontrolling interests reflects the net income or loss attributable to NEE's noncontrolling interest in NEP OpCo, a non-affiliated party's 10% interest in one of the Texas pipelines and the loss allocated to differential membership interest investors. Additionally, for the three months ended March 31, 2019, net loss attributable to noncontrolling interests reflects the income allocated to the Class B noncontrolling interest in NEP Renewables sold in 2018. See Note 10 - Noncontrolling Interests.

Liquidity and Capital Resources

NEP's ongoing operations use cash to fund O&M expenses, maintenance capital expenditures, debt service payments and distributions to common and preferred unitholders and holders of noncontrolling interests. NEP expects to satisfy these requirements primarily with internally generated cash flow. In addition, as a growth-oriented limited partnership, NEP expects from time to time to make acquisitions and other investments. These acquisitions and investments are expected to be funded with borrowings under credit facilities or term loans, issuances of indebtedness, issuances of additional NEP common units or preferred units, capital raised pursuant to other financing structures, cash on hand and cash generated from operations.

These sources of funds are expected to be adequate to provide for NEP's short-term and long-term liquidity and capital needs, although its ability to make future acquisitions, expand existing projects and increase its distributions to common unitholders will depend on its ability to access the capital markets on acceptable terms.

As a normal part of its business, depending on market conditions, NEP expects from time to time to consider opportunities to repay, redeem, repurchase or refinance its indebtedness. In addition, NEP expects from time to time to consider potential investments in new acquisitions. These events may cause NEP to seek additional debt or equity financing, which may not be available on acceptable terms or at all. Additional debt financing, if available, could impose operating restrictions, additional cash payment obligations and additional covenants.

NEP OpCo has agreed to allow NEER or one of its affiliates to withdraw funds received by NEP OpCo or its subsidiaries and to hold those funds in accounts of NEER or one of its affiliates to the extent the funds are not required to pay project costs or otherwise required to be maintained by NEP's subsidiaries, until the financing agreements permit distributions to be made, or, in the case of NEP OpCo, until such funds are required to make distributions or to pay expenses or other operating costs. NEP OpCo will have a claim for any funds that NEER fails to return:

- when required by its subsidiaries' financings;
- when its subsidiaries' financings otherwise permit distributions to be made to NEP OpCo;
- when funds are required to be returned to NEP OpCo; or
- when otherwise demanded by NEP OpCo.

In addition, NEER and certain of its affiliates may withdraw funds in connection with certain long-term debt agreements and hold those funds in accounts belonging to NEER or its affiliates and provide credit support in the amount of such withdrawn funds. If NEER fails to return withdrawn funds when required by NEP's subsidiaries' financing agreements, the lenders will be entitled to draw on any credit support provided by NEER in the amount of such withdrawn funds.

If NEER or one of its affiliates realizes any earnings on the withdrawn funds prior to the return of such funds, it will be permitted to retain those earnings.

Liquidity Position

At March 31, 2019 and December 31, 2018, NEP's liquidity position was approximately \$1,083 million and \$1,127 million, respectively. The table below provides the components of NEP's liquidity position:

	March 31, 2019 (millions)	December 31, 2018
Cash and cash equivalents	\$ 127	\$ 147
Amounts due under the CSCS agreement	42	66
Revolving credit facilities	900	900
Less borrowings	—	—
Letter of credit facilities	82	82
Less letters of credit	(68)	(68)
Total ^(a)	\$1,083	\$ 1,127

^(a) Excludes current restricted cash of approximately \$6 million and \$8 million at March 31, 2019 and December 31, 2018, respectively. See Note 10 - Restricted Cash.

Management believes that NEP's liquidity position and cash flows from operations will be adequate to finance O&M, capital expenditures, distributions to its unitholders and liquidity commitments. Management continues to regularly monitor NEP's financing needs consistent with prudent balance sheet management.

Financing Arrangements

Project Financings

Certain projects in the portfolio are subject to project financings that contain certain financial covenants and distribution tests, including debt service coverage ratios. In general, these financings contain covenants customary for these types of financings, including limitations on investments and restricted payments. Certain of NEP's financings provide for interest payable at a fixed interest rate. However, certain of NEP's financings accrue interest at variable rates based on the London InterBank Offered Rate. Interest rate contracts were entered into for certain of these financings to hedge against interest rate movements with respect to interest payments. In addition, under the project financings, each project will be permitted to pay distributions out of available cash so long as certain conditions are satisfied, including that reserves are funded with cash or credit support, no default or event of default under the applicable financings has occurred and is continuing at the time of such distribution or would result therefrom, and each project is otherwise in compliance with the project financing's covenants and, for the majority of the project financings, the applicable minimum debt service coverage ratio is satisfied. The majority of NEP's project financings include a minimum debt service coverage ratio of 1.20:1.00 that must be satisfied. For one project financing, the project must maintain a leverage ratio of less than 5.0:1.0 and an interest coverage ratio of at least 2.75:1.00 in order to make a distribution. At March 31, 2019, NEP's subsidiaries were in compliance with all financial debt covenants under their financings except for events of default occurring in January 2019 under the financing agreements related to the Genesis and Shafter solar projects. See Note 11 - PG&E Bankruptcy.

Equity

Approximately \$64 million of common units remain available to be issued under NEP's at-the-market equity issuance program at March 31, 2019.

In March 2019, NEP entered into a membership purchase agreement to sell 100% of the noncontrolling Class B interest in NEP Renewables II for approximately \$900 million. See Note 7 - Equity.

Cash Distributions to Unitholders

During the three months ended March 31, 2019, NEP distributed approximately \$26 million to its common unitholders. On April 22, 2019, the board of directors of NEP authorized a distribution of \$0.4825 per common unit payable on May 15, 2019 to its common unitholders of record on May 7, 2019. During the three months ended March 31, 2019, NEP distributed approximately \$6 million to its preferred unitholders and accrued \$6 million in preferred distributions to be paid in May 2019.

Cash Flows

Three Months Ended March 31, 2019 Compared to Three Months Ended March 31, 2018

The following table reflects the changes in cash flows for the comparative periods:

	2019	2018	Change
	(millions)		
Three Months Ended March 31,			
Net cash provided by operating activities	\$ 19	\$ 53	\$ (34)
Net cash provided by (used in) investing activities	\$ 21	\$ (6)	\$ 27
Net cash used in financing activities	\$(62)	\$(48)	\$ (14)

Net Cash Provided by Operating Activities

The decrease in net cash provided by operating activities was primarily driven by the sale of Canadian Holdings and lower wind resource, partly offset by cash flows from the projects acquired in December 2018.

Net Cash Provided by (Used in) Investing Activities

	2019	2018
	(millions)	
Three Months Ended March 31,		
Capital expenditures	\$(3)	\$(4)
Payments from (to) related parties under CSCS agreement - net	24	(2)
Net cash provided by (used in) investing activities	\$ 21	\$(6)

The change in net cash provided by (used in) investing activities was primarily driven by lower cash sweeps under the CSCS agreement.

Net Cash Used in Financing Activities

	2019	2018
	(millions)	
Three Months Ended March 31,		
Proceeds from issuance of common units - net	\$ 3	\$—
Retirements of long-term debt	(24)	(31)
Partner contributions	1	29
Partner distributions	(74)	(66)
Change in amounts due to related parties	19	—
Proceeds related to differential membership interests - net	24	23
Other	(11)	(3)
Net cash used in financing activities	\$(62)	\$(48)

The increase in net cash used in financing activities primarily reflects the absence of a 2018 partner contribution related to the repayment of a related party note receivable, partly offset by payments received from a subsidiary of NEECH in 2019 related to a debt payment (see Note 9 - Due to Related Party).

Quantitative and Qualitative Disclosures about Market Risk

NEP is exposed to several market risks in its normal business activities. Market risk is the potential loss that may result from market changes associated with its business. The types of market risks include interest rate and

counterparty credit risks.

Interest Rate Risk

NEP is exposed to risk resulting from changes in interest rates associated with outstanding and expected future debt issuances and borrowings. NEP manages interest rate exposure by monitoring current interest rates, entering into interest rate swap contracts and using a combination of fixed rate and variable rate debt. Interest rate swaps are used to mitigate and adjust interest rate exposure when deemed appropriate based upon market conditions or when required by financing agreements (see Note 5).

NEP has long-term debt instruments that subject it to the risk of loss associated with movements in market interest rates. At March 31, 2019, approximately 3% of the long-term debt, including current maturities, was exposed to fluctuations in interest expense while the remaining balance was either fixed rate debt or financially hedged. At March 31, 2019, the estimated fair value of NEP's long-term debt was approximately \$3.4 billion and the carrying value of the long-term debt was \$3.4 billion. Based upon a hypothetical 10% decrease in interest rates, which is a reasonable near-term market change, the fair value of NEP's long-term debt would increase by approximately \$79 million at March 31, 2019.

At March 31, 2019, NEP had interest rate contracts with a notional amount of approximately \$9.2 billion related to managing exposure to the variability of cash flows associated with outstanding and expected future debt issuances and borrowings. Based upon a hypothetical 10% decrease in rates, NEP's net derivative liabilities at March 31, 2019 would increase by approximately \$232 million.

Counterparty Credit Risk

Risks surrounding counterparty performance and credit risk could ultimately impact the amount and timing of expected cash flows. Credit risk relates to the risk of loss resulting from non-performance or non-payment by counterparties under the terms of their contractual obligations. NEP monitors and manages credit risk through credit policies that include a credit approval process and the use of credit mitigation measures such as prepayment arrangements in certain circumstances. NEP also seeks to mitigate counterparty risk by having a diversified portfolio of counterparties. See Note 11 - PG&E Bankruptcy for a discussion of risks related to PG&E.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See Management's Discussion - Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

As of March 31, 2019, NEP had performed an evaluation, under the supervision and with the participation of its management, including its chief executive officer and chief financial officer, of the effectiveness of the design and operation of NEP's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)). Based upon that evaluation, the chief executive officer and the chief financial officer of NEP concluded that NEP's disclosure controls and procedures were effective as of March 31, 2019.

(b) Changes in Internal Control Over Financial Reporting

NEP is continuously seeking to improve the efficiency and effectiveness of its operations and of its internal controls. This results in refinements to processes throughout NEP. However, there has been no change in NEP's internal control over financial reporting (as defined in the Securities Exchange Act of 1934 Rules 13a-15(f) and 15d-15(f)) that occurred during NEP's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, NEP's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the 2018 Form 10-K except as follows:

PG&E, which contributes a significant portion of NEP's revenues, has filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. Any rejection by PG&E of a material portion of NEP's PPAs with it or any material reduction in the prices NEP charges PG&E under those PPAs that occurs in connection with PG&E's Chapter 11 proceedings, or any events of default under the financing agreements of NEP's solar facilities that provide power and renewable energy credits to PG&E under these PPAs as a result of PG&E's reorganization activities, could have a material adverse effect on NEP's results of operations, financial condition or business.

For the year ended December 31, 2018, NEP derived approximately 18% of its consolidated revenues from its PPAs with PG&E. PG&E filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code in January 2019 and PG&E may seek under the U.S. Bankruptcy Code and applicable laws to reject some or all of NEP's PPAs with it or to use the threat of rejection to renegotiate PPA pricing in its favor. In addition, all of NEP's solar projects that support PPAs with PG&E are financed with various forms of indebtedness and PG&E's Chapter 11 filing or related events have caused events of default under those financings, blocking the distribution of cash generated by those projects. If PG&E attempts and is successful in rejecting or renegotiating a material portion of its PPAs with NEP, if distributions generated by the PPAs continue to be blocked for a prolonged period of time or if the lenders under the financings of the related NEP solar projects accelerate the repayment of borrowings thereunder or foreclose upon the projects' equity or assets as a result of events of defaults caused by PG&E's bankruptcy activities, NEP's results of operations, financial condition or business could be materially adversely affected.

The factors discussed in Part I, Item 1A. Risk Factors in the 2018 Form 10-K, as well as other information set forth in this report, which could materially adversely affect NEP's business, financial condition, results of operations, cash available for distribution and prospects should be carefully considered. The risks described above and in the 2018 Form 10-K are not the only risks facing NEP. Additional risks and uncertainties not currently known to NEP, or that are currently deemed to be immaterial, also may materially adversely affect NEP's business, financial condition, results of operations, cash available for distribution and prospects.

Item 5. Other Information

NEP held its 2019 Annual Meeting of Unitholders (2019 Annual Meeting) on April 22, 2019. At the 2019 Annual Meeting, NEP's unitholders elected all of NEP's nominees for director and approved two proposals. The proposals (a) are described in detail in NEP's definitive proxy statement on Schedule 14A for the 2019 Annual Meeting (Proxy Statement), filed with the Securities and Exchange Commission on March 8, 2019. The voting results below reflect any applicable voting limitations and cutbacks as described in the Proxy Statement.

The final voting results with respect to each proposal voted upon at the 2019 Annual Meeting are set forth below.

Proposal 1

NEP's unitholders elected each of the four nominees to NEP's Board of Directors (Board) until the next annual meeting of unitholders by a majority of the votes cast, as set forth below:

FOR	%	AGAINST	ABSTENTIONS	BROKER
	VOTES			NON-VOTES
	CAST			

Edgar Filing: NextEra Energy Partners, LP - Form 10-Q

FOR

Susan D. Austin	49,348,107	98.6 %	688,027	30,740	9,401,774
Robert J. Byrne	49,348,507	98.6 %	684,753	33,615	9,401,774
Peter H. Kind	49,067,484	98.1 %	961,879	37,511	9,401,774
James L. Robo	42,043,251	84.0 %	7,989,652	33,972	9,401,774

Proposal 2

NEP's unitholders ratified the appointment of Deloitte & Touche LLP as NEP's independent registered public accounting firm for 2019, as set forth below:

FOR	% VOTES CAST FOR	AGAINST	ABSTENTIONS	BROKER NON-VOTES
153,582,479	99.9%	79,362	68,719	-

Proposal 3

NEP's unitholders approved, by non-binding advisory vote, NEP's compensation of its named executive officers as disclosed in the Proxy Statement, as set forth below:

FOR	% VOTES CAST FOR	AGAINST	ABSTENTIONS	BROKER NON-VOTES
137,668,870	95.5%	6,517,339	142,577	9,401,774
