LETTER TO SHAREHOLDERS

The Year in Review

Equity markets produced a solid return in 2012 led by a renewed interest in the financial and consumer sectors. A strong start to the year was built upon an improving U.S. economy and the anticipation that Europe would find a way to avoid economic disaster. The upward trajectory of the market paused in the spring as tensions escalated in the Middle East and again in the fall as the presidential election and fiscal cliff drew investors' attention. The S&P 500 Index ended the year at its highest point, producing a total return of 16.0%. Adams Express enjoyed a very good 2012 with a total return on net asset value of 14.7%. The Lipper Large-Cap Core Mutual Fund Average, our peer group, returned 15.0%. The Adams Express total return on market value was 16.9%, reflecting a narrowing of the discount during the year.

Douglas G. Ober

Chairman and Chief

Executive Officer

Our view at the onset of 2012 was for 2.5% GDP growth in the U.S. and global growth of 3.5%, led by China and held back by Europe. Closing out 2012, the U.S. growth was about 2.3%, not straying too far from expectations. A U.S. economy in search of stability was helped by a recovering housing market and gradual job improvement, only to face generally weak capital investment, a severe drought, the uncertainty surrounding the presidential election, and a looming fiscal cliff. China disappointed modestly and served to drag global growth expectations lower. The outlook for China's GDP waned as the year progressed, driven by concerns over a decelerating economy. China is challenged by a shift toward an economy driven by domestic consumption from one based on investment and exports. Further, sharply rising wages and production costs have eroded the once prevalent low-cost manufacturing advantage long enjoyed by China. Brazil experienced a severe drought that left output far short of expectations, highlighting the country's dependence on agriculture. In India, underinvestment in infrastructure led to widespread blackouts during the summer. The country continues to face political and economic challenges that will

David D. Weaver

President

likely leave output below potential. European growth was weak, as expected, as the European Union dealt with a fractured financial system and worked through concerns over dissolution. Globally, many of the same issues affecting 2012 will continue to serve as the backdrop for the economy in 2013.

Earnings for the S&P 500 Index only grew about 3%-4% in 2012 following 15% growth in 2011. A low level of economic expansion and corporations struggling to achieve additional cost savings produced only modest earnings growth in 2012. However, equities rose sharply as valuations expanded to reflect the removal of some uncertainty in the outlook. Throughout the year, several economic indicators inched higher, led by stronger housing construction and improved manufacturing activity. Similar to 2011, the year began with a strong surge by equity markets. Europe agreed to bail out Greece again, removing a major hurdle in the global outlook. The spring brought about additional concerns as unrest grew in the Middle East. In the U.S., summer brought a severe drought, leading to a sharp rise in commodity prices, including record corn prices. Late in the year, attention shifted to the election and the fiscal cliff of tax increases and spending cuts set to take effect in 2013.

Our portfolio performed well in 2012. Consumer discretionary and financials were the Fund's best performing sectors, up 29.6% and 25.4% for the year, respectively. The consumer discretionary sector was led by companies with exposure to a recovering housing market. Financials drew the attention of investors as the economy appeared to be stabilizing and regulatory uncertainty waned. The health care sector rose 19.1%, with very strong performance in biotechnology. Telecommunications holdings rose 18.2%, fueled by an increased appetite for dividends. Industrial holdings benefited from a recovering economy and rose 16.9% as the cyclically-sensitive machinery companies and housing-exposed names performed very well. Our holdings in technology companies lagged the broader market and were up only 11.8% as capital spending plans, in general, fell short of expectations. Holdings in consumer staples and utilities, typically viewed as defensive, rose by only mid-single digits for the year as investors shifted toward more cyclical areas of the market. Fund holdings in the energy and materials sectors were up 3.1% and 7.2%, respectively, due to uncertainty about global growth, particularly in China, and relatively flat

energy and commodity prices. Overall, our Fund had a solid year and is positioned well for 2013 and beyond.

Investment Results

At the end of 2012, our net assets were \$1,155,997,037 or \$12.43 per share on 93,029,724 shares outstanding. This compares with \$1,050,733,678 or \$11.54 per share on 91,073,899 shares outstanding a year earlier. Net investment income for 2012 was \$17,547,510 compared to \$13,858,578 for 2011. These earnings are equal to \$0.19 and \$0.16 per share, respectively, on the average number of shares outstanding throughout each year. Our expense ratio (total expenses to average net assets) for 2012 was 0.65%. Net realized gains amounted to \$47,997,411 during the year, while the unrealized appreciation on investments increased from \$62,511,196 at December 31, 2011 to \$143,061,370 at the end of 2012.

Dividends and Distributions

The total dividends and distributions paid in 2012 were \$0.67 per share, producing a 6.3% annual distribution rate for the year, compared to \$0.65 and an annual distribution rate of 6.1% in 2011 and, in both years, exceeding our 6% minimum distribution rate commitment. The table on page 21 shows the history of our dividends and distributions over the past fifteen years, including the annual distribution rate to shareholders.

The total distributions made in 2012 included a year-end distribution of \$0.52 per share, as announced on November 8, 2012, consisting of investment income of \$0.05 and capital gains of \$0.47, paid on December 27, 2012 and taxable to shareholders in 2012. On January 10, 2013, a distribution of \$0.05 per share was declared to shareholders of record February 15, 2013, payable March 1, 2013, representing the balance of undistributed net investment income and capital gains earned during 2012, all taxable to shareholders in 2013.

Outlook for 2013

Global economic growth in 2012 was modest. Some progress was made, but many challenges remain. We expect global GDP growth in 2013 to approximate 2.5%-3.0%, slightly below 2012. The U.S. economy is gradually improving on the backs of the consumer and a recovering housing market, but the swelling budget deficit remains the greatest challenge. U.S. GDP should expand by 2.5% in 2013, a slight uptick from the 2012 rate of 2.3%. We believe Europe is likely to grow slightly despite forecasts for economic contraction. Europe appears to be avoiding disaster by pulling together to address the result of years of overspending and structural deficiencies. Deleveraging and austerity may serve to boost confidence over the next year. Significant work remains, but the intent seems genuine. As mentioned earlier, China is going through a transformation. The country has significant potential and will remain one of the most influential economies in the world. China's demand for the world's commodities and materials is a key factor in the outlook. The extent to which it is able to shift toward a consumer-based economy without upsetting the global marketplace will shape the world economy in the coming years.

The stock market jumped nicely to start 2013 as the U.S. passed legislation to avoid going over the fiscal cliff. Another reason for the early strength may be in fund money flows. Money has flowed into equity funds to start the year at a pace not seen in a long time. Following years of money flowing out of equities, a reversal of that trend could be significant for the markets, but it is too early to draw any conclusions. Despite early strength, many issues will continue to weigh on the equity markets in the short term as investors focus on the debt ceiling and the impact of higher taxes on consumers' spending habits. Our long-term focus helps us find opportunities during periods of uncertainty. The changes we made to the portfolio in 2012, and those being made today, are designed to position the Fund for solid long-term performance. In the fourth quarter of 2012, most of the additions to the portfolio were in higher-growth areas such as technology, consumer discretionary, and financials. We also shifted some of our health care holdings toward better growth opportunities within the same sector. Throughout our investment process, we keep a sharp eye on maintaining a high-quality, diversified portfolio. The turnover of the Fund has increased as we have strived to be more nimble in responding to market opportunities. We believe the changes made serve to position the Fund for long-term success.

LETTER TO SHAREHOLDERS (CONTINUED)

Douglas G. Ober, our long-time CEO and Chairman of the Board, is retiring on March 31, 2013. After joining the Fund in 1980, he became the CEO and lead portfolio manager in 1990 and Board Chairman in 1991. He has been the driving force behind the Fund's performance over that time. His investment acumen and steady management style have come to define the Fund and have guided us through the many challenges that we have faced over the past 23 years. He has also served as our resident historian and has worked tirelessly to preserve our fascinating corporate history.

Mr. Ober also will be stepping down as the Chairman of the Board after this year's Annual Meeting, but will continue as a consultant to the Fund to assist with the transition to our new CEO. Mr. Ober has built and leaves behind an outstanding team that will continue to build on the Fund's 83-year track record of investment performance for our shareholders. We want to express our profound admiration and appreciation for everything that he has accomplished over the past 32 years and wish him all the best in his well-deserved retirement.

Mark E. Stoeckle has been selected as the Fund's next CEO and will begin his tenure on February 11, 2013. He will also be joining the Board of Directors. Mr. Stoeckle has had a distinguished 30-year career in financial services and asset management, and brings a wealth of investment and business experience to the role. He comes to the Fund from the global investment management firm BNP Paribas Investment Partners, in Boston, where he has served since 2004 as Chief Investment Officer, U.S. Equities and Global Sector Funds. With his outstanding record of achievement, his leadership ability and experience are ideally suited to lead our portfolio management team and the Fund.

Daniel E. Emerson, the Fund's Lead Director and a member of the Board of Directors since 1982, has decided not to stand for reelection to the Board at the Annual Meeting. He has been a tremendous asset to the Fund over his tenure and has played an instrumental role in its success. He has served as the Chair of all of our Board Committees at one time or another and has helped to define the role of Lead Director that has served the Fund so well. Mr. Emerson is greatly admired by us all and we are so thankful for his keen insights and enthusiastic dedication to our mission. He will be missed.

NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

The Adams Express Company (the Fund) is registered under the Investment Company Act of 1940 as a diversified investment company. The Fund is an internally-managed closed-end fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Fund management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Fund ultimately realizes upon sale of the securities.

Edgar Filing: ADAMS EXPRESS CO - Form N-CSR

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Fund are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Expenses The Fund shares certain costs for investment research and data services, administration and operations, travel, training, office expenses, occupancy, accounting and legal services, insurance, and other miscellaneous items with its non-controlled affiliate, Petroleum & Resources Corporation. Shared expenses that are not solely attributable to one fund are allocated to each fund based on relative net asset values or, in the case of investment research staff and related costs,

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

relative market values of portfolio securities in the particular sector of coverage. Changes in expense allocations are updated quarterly, as appropriate, except for those related to payroll, which are updated annually.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of specific identification. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation The Fund's investments are reported at fair value as defined under accounting principles generally accepted in the United States of America. Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost, which approximates fair value. Purchased and written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

Various inputs are used to determine the fair value of the Fund's investments. These inputs are summarized in the following three levels:

Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,

Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,

Level 3 fair value is determined using the Fund's own assumptions, developed based on the best information available in the circumstances.

The Fund's investments at December 31, 2012 were classified as follows:

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 1,153,761,081	\$	\$	\$ 1,153,761,081
Short-term investments	585,046			585,046
Securities lending collateral	17,166,879			17,166,879
Total investments	\$ 1,171,513,006	\$	\$	\$ 1,171,513,006
Written options	\$ (274,574)	\$	\$	\$ (274,574)

There were no transfers into or from Level 1 or Level 2 during the year ended December 31, 2012.

2. Federal Income Taxes

Edgar Filing: ADAMS EXPRESS CO - Form N-CSR

No federal income tax provision is required since the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income to its shareholders. Additionally, management has analyzed and concluded that tax positions included in federal income tax returns from the previous three years that remain subject to examination do not require any provision. Any income tax-related interest or penalties would be recognized as income tax expense. As of December 31, 2012, the identified cost of securities for federal income tax purposes was \$1,031,216,276 and net unrealized appreciation aggregated \$140,296,730, consisting of gross unrealized appreciation of \$227,536,069 and gross unrealized depreciation of \$87,239,339.

Distributions are determined in accordance with our 6% minimum distribution rate commitment, based on the Fund's average market price, and income tax regulations, which may differ from generally accepted accounting principles. Such differences are primarily related to the Fund's retirement plans, equity-based compensation, and loss deferrals for wash sales. Differences that are permanent, while not material for the year ended December 31, 2012, are reclassified in the capital accounts of the Fund's financial statements and have no impact on net assets. For tax purposes, distributions paid by the Fund during the years ended December 31, 2012 and December 31, 2011 were classified as ordinary income of \$25,489,925 and \$19,552,826, respectively, and as long-term capital gain of \$35,504,402 and \$38,214,991, respectively. The tax basis of distributable earnings at December 31, 2012 was \$3,616,709 of undistributed ordinary income and \$407,546 of undistributed long-term capital gain.

3. Investment Transactions

The Fund's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff. Purchases and sales of portfolio securities, other than options and short-term investments, during the year ended December 31, 2012 were \$326,867,754 and \$300,241,389, respectively.

The Fund is subject to changes in the value of equity securities held (equity price risk) in the normal course of pursuing its investment objectives. The Fund may purchase and write option contracts to increase or decrease its equity price risk exposure or may write

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

option contracts to generate additional income. Option contracts generally entail risks associated with counterparty credit, liquidity, and unfavorable equity price movements. The Fund has mitigated counterparty credit and liquidity risks by trading its options through an exchange. The risk of unfavorable equity price movements is limited for purchased options to the premium paid and for written options by writing only covered call or collateralized put option contracts, which require the Fund to segregate certain securities or cash at its custodian when the option is written. A schedule of outstanding option contracts as of December 31, 2012 can be found on page 14.

When the Fund writes (purchases) an option, an amount equal to the premium received (paid) by the Fund is recorded as a liability (asset) and is subsequently marked to market daily in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Premiums received (paid) from unexercised options are treated as realized gains (losses) on the expiration date and are separately identified in the Statement of Operations. Upon the exercise of written put (purchased call) option contracts, premiums received (paid) are deducted from (added to) the cost basis of the underlying securities purchased. Upon the exercise of written call (purchased put) option contracts, premiums received (paid) are added to (deducted from) the proceeds from the sale of underlying securities in determining whether there is a realized gain or loss.

Transactions in written covered call and collateralized put options during the year ended December 31, 2012 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2011	676	\$ 116,650	1,259	\$ 327,066

Options outstanding, December 31, 2012	1,775	\$ 212,261	1,946	\$ 310,460

4. Capital Stock

The Fund has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2012, the Fund issued 1,923,171 shares of its Common Stock at a price of \$10.455 per share (the average market price on December 10, 2012) to shareholders of record November 19, 2012 who elected to take stock in payment of the distribution from 2012 capital gain and investment income. During 2012, 1,125 shares were issued at a weighted average price of \$10.53 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 27, 2011, the Fund issued 2,147,935 shares of its Common Stock at a price of \$9.745 per share (the average market price on December 7, 2011) to shareholders of record November 21, 2011 who elected to take stock in payment of the distribution from 2011 capital gain and investment income. During 2011, 1,435 shares were issued at a weighted average price of \$10.43 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

Edgar Filing: ADAMS EXPRESS CO - Form N-CSR

The Fund may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable. Transactions in Common Stock for 2012 and 2011 were as follows:

	Shares		Amount	
	2012	2011	2012	2011
Shares issued in payment of distributions	1,924,296	2,149,370	\$ 20,118,651	\$ 20,946,619

5. Retirement Plans

Defined Contribution Plans The Fund sponsors a qualified defined contribution plan for all employees with at least six months of service and a nonqualified defined contribution plan for eligible employees to supplement the qualified plan. The Fund expensed contributions to the plans in the amount of \$320,389, a portion thereof based on company performance, for the year ended December 31, 2012. The Fund does not provide postretirement medical benefits.

Defined Benefit Plans On October 1, 2009, the Fund froze its non-contributory qualified and nonqualified defined benefit pension plans. Benefits are based on length of service and compensation during the last five years of employment through September 30, 2009, with no additional benefits being accrued beyond that date.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur and are subsequently amortized into net periodic pension cost. Non-recurring settlement costs are recognized in net periodic pension cost when a plan participant receives a lump-sum benefit payment and includes the amount of which is in excess of the present value of the projected benefit and any unamortized actuarial losses attributable to the portion of the projected benefit obligation being satisfied.

The Fund's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Fund deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Fund contributed \$1,225,000 to the qualified plan and \$227,424 to the nonqualified plan in 2012 and anticipates making aggregate contributions of up to \$525,000 in 2013.

The Fund uses a December 31 measurement date for its plans. Details in aggregate for the plans were as follows:

	2012	2011
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 10,207,237	\$ 9,417,968
Interest cost	359,366	389,980

Benefits paid	(177,079)	(205,156)
Effect of settlement (non-recurring)	(554,067)	
Benefit obligation at end of year	\$ 10,865,411	\$ 10,207,237
Change in qualified plan assets		
Fair value of qualified plan assets at beginning of year	\$ 8,148,262	\$ 8,058,143
Actual return on plan assets	615,406	247,851
Employer contributions	1,225,000	
Benefits paid	(129,655)	(157,732)
Settlement (non-recurring)	(554,067)	
Fair value of qualified plan assets at end of year	\$ 9,304,946	\$ 8,148,262
Funded status	\$ (1,560,465)	\$ (2,058,975)

The accumulated benefit obligation for all defined benefit pension plans was \$10,865,411 and \$10,207,237 at December 31, 2012 and 2011, respectively.

The primary investment objectives of the Fund's qualified pension plan assets are to provide capital appreciation, income, and preservation of capital. The plan's objectives are achieved through a diversified portfolio including common stock of the Company and pooled separate accounts (PSA). PSAs are made up of a wide variety of underlying investments in equity and fixed income securities. The Fund's targeted asset allocation for 2013 is to maintain approximately 80% of plan assets invested in fixed income securities, approximately 15% of plan assets invested in equity securities, and approximately 5% in cash and short-term securities. The investment in the Fund's common stock represented 8% of plan assets at December 31, 2012.

The net asset value of a PSA is based on the fair value of its underlying investments. The fair value of the plan assets is determined using various inputs, summarized into the three levels described in footnote 1. The plan assets at December 31, 2012 were classified as follows:

Edgar Filing: ADAMS EXPRESS CO - Form N-CSR

	Level 1	Level 2	Level 3	Total
Equity PSAs	\$	\$ 638,844	\$	\$ 638,844
Fixed Income PSAs		5,620,998		5,620,998
Money Market PSAs		2,345,036		2,345,036
Regulated Investment Companies	700,068			700,068
Total	\$ 700,068	\$ 8,604,878	\$	\$ 9,304,946

Items impacting the Fund's net investment income and accumulated other comprehensive income were:

	2012	2011
Components of net periodic pension cost		
Interest cost	\$ 359,366	\$ 389,980
Expected return on plan assets	(278,506)	(436,909)
Net loss component	268,331	191,093
Effect of settlement (non-recurring)	187,740	
Net periodic pension cost	\$ 536,931	\$ 144,164
	2012	2011
Accumulated other comprehensive income		
Defined benefit pension plans:		
Balance at beginning of year	\$ (2,638,533)	\$ (2,036,122)
Current period other comprehensive income	(243,338)	(602,411)
Balance at end of year	\$ (2,881,871)	\$ (2,638,533)

Accumulated other comprehensive income was comprised of net actuarial losses of \$(2,881,871) and \$(2,638,533) at December 31, 2012 and 2011, respectively. In 2013, the Fund estimates that \$252,062 of net losses will be amortized from accumulated other comprehensive income into net periodic pension cost.

Assumptions used to determine benefit obligations were:

	2012	2011
Discount rate	3.75%	4.42%
Rate of compensation increase		

The assumptions used to determine net periodic pension cost were:

	2012	2011
Discount rate	4.20%	5.18%
Expected long-term return on plan assets	4.00%	6.00%
Rate of compensation increase		

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The assumption used to determine expected long-term return on plan assets was based on historical and future expected returns of multiple asset classes in order to develop a risk-free real rate of return and risk premiums for each asset class. The overall rate for each asset class was developed by combining a long-term inflation component, the risk-free real rate of return, and the associated risk premium. A weighted average rate was developed based on those overall rates and the target asset allocation of the plan.

The following benefit payments are eligible to be paid in the years indicated:

	Pension Benefits
2013	\$ 3,760,000
2014	679,000
2015	321,000
2016	311,000
2017	920,000
Years 2018-2022	1,850,000

6. Equity-Based Compensation

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting and re-approved at the 2010 Annual Meeting, permits the grant of restricted stock awards (both performance and nonperformance-based), as well as stock options and other stock incentives, to key employees and all non-employee directors. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards typically vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred, if elected. It is the current intention that annual employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Fund's Common Stock, of which 3,108,908 remain available for future grants at December 31, 2012.

A summary of the status of the Fund's awards granted under the 2005 Plan as of December 31, 2012, and changes during the year then ended, is presented below:

Awards	Shares/Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2011	158,237	\$ 9.96
Granted:		
Restricted stock	55,494	10.15
Restricted stock units	6,000	10.98
Deferred stock units	821	10.51

Edgar Filing: ADAMS EXPRESS CO - Form N-CSR

Vested & issued	(29,715)		8.83
Forfeited	(20,638)		8.41
Balance at December 31, 2012 (includes 134,912 performance-based awards and 35,287 nonperformance-based awards)	170,199	\$	10.57

Compensation cost resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation cost is based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation cost for restricted stock granted to employees for the year ended December 31, 2012 was \$339,383. The total compensation cost for restricted stock units granted to non-employee directors for the year ended December 31, 2012 was \$66,059. As of December 31, 2012, there was total unrecognized compensation cost of \$541,772, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. That cost is expected to be recognized over a weighted average period of 1.61 years. The total fair value of shares and units vested during the year ended December 31, 2012 was \$302,117.

The Stock Option Plan of 1985 (1985 Plan) has been discontinued and, as of December 31, 2012, there are no remaining grants of stock options and stock appreciation rights outstanding.

A summary of option activity under the 1985 Plan as of December 31, 2012, and changes during the year then ended, is presented below:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2011	24,857	\$ 8.70	0.16	
Exercised	(24,857)	8.70		\$ 40,049
Outstanding at December 31, 2012		\$		\$

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the year ended December 31, 2012 was \$16,919.

7. Officer and Director Compensation

The aggregate remuneration paid during the year ended December 31, 2012 to officers and directors amounted to \$2,904,541, of which \$472,468 was paid to directors who were not officers. These amounts represent the taxable income to the Fund's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Fund makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Fund on the next business day. Cash deposits are placed in a registered money market fund. The Fund accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Fund. At December 31, 2012, the Fund had securities on loan of \$17,279,889 and held cash collateral of \$17,166,879; additional collateral was delivered the next business day in accordance with the procedure described above. The Fund is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

9. Operating Lease Commitments

The Fund leases office space and equipment under operating lease agreements expiring at various dates through the year 2016. The Fund recognized rental expense of \$147,967 in 2012, and its minimum rental commitments are as follows:

2013	\$ 158,100
2014	158,558
2015	158,836
2016	76,736

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of The Adams Express Company:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Adams Express Company (the Fund) at December 31, 2012, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial

statements based on our audits. We conducted our audits of these financial statements in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2012 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Illustration of an assumed**15 year investment of \$10,000**

Investment income dividends and capital gains distributions are taken in additional shares. This chart covers the years 1998–2012. Fees for the reinvestment of interim dividends are assumed as 2% of the amount reinvested (maximum of \$2.50) and commissions of \$0.05 per share. There is no charge for reinvestment of year-end distributions. No adjustment has been made for any income taxes payable by shareholders on income dividends or on capital gains distributions, or the sale of any shares. These results should not be considered representative of the dividend income or capital gain or loss which may be realized in the future.

* Adjusted to reflect the 3-for-2 stock split effected in October 2000.

** The annual distribution rate is the total dividends and capital gain distributions during the year divided by the average month-end market price of the Fund's Common Stock for the calendar year in years prior to 2011 and for the twelve months ended October 31 beginning in 2011, which is consistent with the calculation to determine the minimum distribution rate commitment announced in September 2011.

This report, including the financial statements herein, is transmitted to the shareholders of The Adams Express Company for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund's or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. SHAREHOLDER INFORMATION AND SERVICES

DIVIDEND PAYMENT SCHEDULE

The Fund presently pays dividends four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1, and (b) a year-end distribution, payable in late December, consisting of the estimated balance of the net investment income for the year and the net realized capital gain earned through October 31 and, if applicable, a return of capital. Shareholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all shareholders of record are sent a dividend announcement notice and an election card in mid-November. **Shareholders holding shares in street or brokerage accounts may make their election by notifying their brokerage house representative.**

ELECTRONIC DELIVERY OF SHAREHOLDER REPORTS

The Fund offers shareholders the benefits and convenience of viewing Quarterly and Annual Reports and other shareholder materials on-line. With your consent, paper copies of these documents will cease with the next mailing and will be provided via e-mail. OTHER INFORMATION

Statement on Quarterly Filing of Complete Portfolio Schedule

In addition to publishing its complete schedule of portfolio holdings in the First and Third Quarter Reports to stockholders, the Fund also files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at www.sec.gov. The Company's Forms N-Q may be reviewed and copied at the Commission's Public Reference Room, and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund also posts a link to its Forms N-Q on its website at www.adamsexpress.com, under the headings "Investment Information", "Financial Reports" and then "SEC Filings".

Annual Certification

The Fund's CEO has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Proxy Voting Policies and Record

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities owned by the Fund and the Fund's proxy voting record for the 12-month period ended June 30, 2012 are available (i) without charge, upon request, by calling the Fund's toll free number at (800) 638-2479; (ii) on the Fund's website at www.adamsexpress.com under the headings "About Adams Express" and "Corporate Information" and (iii) on the Securities and Exchange Commission's website at www.sec.gov.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Fund's actual results are the performance of the portfolio of stocks held by the Fund, the conditions in the U.S. and international financial markets, the price at which shares of the Fund will trade in the public markets, and other factors discussed in the Fund's periodic filings with the Securities and Exchange Commission.

Privacy Policy

In order to conduct its business, the Fund, through its transfer agent, currently American Stock Transfer & Trust Company, collects and maintains certain nonpublic personal information about our shareholders of record with respect to their transactions in shares of our securities. This information includes the shareholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about shareholders whose shares of our securities are held in street name by a financial institution such as a bank or broker.

Item 2. Code of Ethics.

On June 12, 2003, the Board of Directors adopted a code of ethics that applies to the registrant's principal executive officer and principal financial officer. The code of ethics is available on the registrant's website at: www.adamsexpress.com. Since the code of ethics was adopted, there have been no amendments to it nor have any waivers from any of its provisions been granted.

Item 3. Audit Committee Financial Expert.

The Board of Directors has determined that at least one of the members of the registrant's audit committee meets the definition of audit committee financial expert as that term is defined by the Securities and Exchange Commission. The directors on the registrant's audit committee whom the Board of Directors has determined meet such definition are Enrique R. Arzac and Kathleen T. McGahran, who are independent pursuant to paragraph (a)(2) of this Item.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees for professional services rendered by the registrant's independent registered public accounting firm, PricewaterhouseCoopers LLP, for the audit of the registrant's annual financial statements and review of the registrant's semi-annual financial statements for 2012 and 2011 were \$71,167 and \$69,610, respectively.

(b) Audit-Related Fees. There were no audit-related fees in 2012 and 2011.

(c) Tax Fees. The aggregate fees for professional services rendered to the registrant by PricewaterhouseCoopers LLP for the review of the registrant's excise tax calculations and preparations of federal, state and excise tax returns for 2012 and 2011 were \$7,521 and \$6,021, respectively.

(d) All Other Fees. The aggregate fees for services rendered to the registrant by PricewaterhouseCoopers LLP, other than for the services referenced above, for 2012 and 2011 were \$6,617 and \$5,821, respectively, which related to the

review of the registrant's procedures for calculating the amounts to be paid or granted to the registrant's officers in accordance with the registrant's cash incentive plan and the 2005 Equity Incentive Compensation Plan, review of the registrant's calculations related to those plans, and preparation of a related report to the registrant's Compensation Committee; and review of the documentation relating to compliance by the registrant's employees and directors with the requirements of the registrant's Code of Ethics pertaining to personal stock trading, and presentation of a related report to the Chief Executive Officer.

(e) (1) The audit committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent accountants. In assessing requests for services by the independent accountants, the audit committee considers whether such services are consistent with the auditor's independence; whether the independent accountants are likely to provide the most effective and efficient service based upon their familiarity with the registrant; and whether the service could enhance the registrant's ability to manage or control risk or improve financial statement audit and review quality. The audit committee may delegate pre-approval authority to its Chair. Any pre-approvals by the Chair under this delegation are to be reported to the audit committee at its next scheduled meeting. All services performed in 2012 were pre-approved by the audit committee.

(2) Not applicable.

(f) Not applicable.

(g) The aggregate fees for non-audit professional services rendered by PricewaterhouseCoopers LLP to the registrant for 2012 and 2011 were \$14,138 and \$11,842, respectively.

(h) The registrant's audit committee has considered the provision by PricewaterhouseCoopers LLP of the non-audit services described above and found that they are compatible with maintaining PricewaterhouseCoopers LLP's independence.

Item 5. Audit Committee of Listed Registrants.

(a) The registrant has a standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee are: Enrique R. Arzac, Chair, Kenneth J. Dale, Roger W. Gale and Kathleen T. McGahran.

(b) Not applicable.

Item 6. Investments.

(a) This schedule is included as part of the Report to Shareholders filed under Item 1 of this form.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

PROXY VOTING GUIDELINES

The Adams Express Company ("Adams") follows long-standing general guidelines for the voting of portfolio company proxies and takes very seriously its responsibility to vote all such proxies. The portfolio company proxies are evaluated by our research staff and voted by our portfolio management team, and we annually provide the Board of Directors with a report on how proxies were voted during the previous year. We do not use an outside service to assist us in voting our proxies.

As an internally-managed investment company, Adams uses its own staff of research analysts and portfolio managers. In making the decision to invest in a company for the portfolio, among the factors the research team analyses is the integrity and competency of the company's management. We must be satisfied that the companies we invest in are run by managers with integrity. Therefore, having evaluated this aspect of our portfolio companies' managements, we give significant weight to the recommendations of the company's management in voting on proxy issues.

We vote proxies on a case-by-case basis according to what we deem to be the best long-term interests of our shareholders. The key over-riding principle in any proxy vote is that shareholders be treated fairly and equitably by the portfolio company's management. In general, on the election of directors and on routine issues that we do not believe present the possibility of an adverse impact upon our investment, after reviewing whether applicable corporate governance requirements as to board and committee composition have been met, we will vote in accordance with the recommendations of the company's management. When we believe that the management's recommendation is not in the best interests of our shareholders, we will vote against that recommendation.

Our general guidelines for when we will vote contrary to the recommendation of the portfolio company management's recommendation are:

Stock Options

Our general guideline is to vote against stock option plans that we believe are unduly dilutive of our stock holdings in the company. We use a general guideline that we will vote against any stock option plan that results in dilution in shares outstanding exceeding 4%. Most stock option plans are established to motivate and retain key employees and to reward them for their achievement. An analysis of a stock option plan cannot be made in a vacuum but must be made in the context of the company's overall compensation scheme. In voting on stock option plans, we give consideration to whether the stock option plan is broad-based in the number of employees who are eligible to receive grants under the plan. We generally vote against plans that permit re-pricing of grants or the issuance of options with exercise prices below the grant date value of the company's stock.

Corporate Control/Governance Issues

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, we have a long-standing policy of voting against proposals to create a staggered board of directors. In conformance with that policy, we will generally vote in favor of shareholder proposals to eliminate the staggered election of directors.

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, our general policy is to vote against amendments to a company's charter that can be characterized as blatant anti-takeover

provisions.

With respect to so-called golden parachutes and other severance packages, it is our general policy to vote against proposals relating to future employment contracts that provide that compensation will be paid to any director, officer or employee that is contingent upon a merger or acquisition of the company.

We generally vote for proposals to require that the majority of a board of directors consist of independent directors and vote against proposals to establish a retirement plan for non-employee directors.

We have found that most shareholder proposals relating to social issues focus on very narrow issues that either fall within the authority of the company's management, under the oversight of its board of directors, to manage the day-to-day operations of the company or concern matters that are more appropriate for global solutions rather than company-specific ones. We consider these proposals on a case-by-case basis but usually are persuaded management's position is reasonable and vote in accordance with management's recommendation on these types of proposals.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

- (a) (1) As of the date of this filing, Mark E. Stoeckle, Chief Executive Officer, David W. Weaver, President, and Nancy J.F. Prue, Executive Vice President, comprise the 3 person portfolio management team for the registrant. Mr. Stoeckle has served as portfolio manager for the registrant since February 11, 2013; prior thereto, he served as Chief Investment Officer, U.S. Equities and Global Sector Funds, for BNP Paribas Investment Partners in Boston, MA. Mr. Weaver has been a member of the portfolio management team since March 2008 and Ms. Prue has been such since March 2010. Mr. Weaver has served as President for the registrant since March 2010. Prior thereto, Mr. Weaver served as Executive Vice President for the registrant from March 2008 to March 2010, as Vice President-Research from January 2007 to March 2008 and as a research analyst from 2004 to January 2007. Ms. Prue has served as Executive Vice President for the registrant since March 2010. Prior thereto, Ms. Prue served as a research analyst for the registrant and as an officer of Petroleum & Resources Corporation (Petroleum). Mr. Stoeckle is the lead member of the portfolio management team. Messrs. Stoeckle and Weaver and Ms. Prue receive investment recommendations from a team of research analysts and make decisions jointly about any equity transactions in the portfolio. Concurrence of the portfolio managers is required for an investment recommendation to be approved.
- (2) As of the date of this filing, Messrs. Stoeckle and Weaver and Ms. Prue also serve on the portfolio management team for the registrant's non-controlled affiliate, Petroleum, a registered investment company with total net assets of \$732,988,462 as of December 31, 2012. Mr. Stoeckle is Chief Executive Officer of

Petroleum, Ms. Prue is President and Mr. Weaver is Executive Vice President. The Petroleum fund is a non-diversified fund specializing in the energy and natural resources sectors and the registrant is a diversified fund with a different focus, and there are few material conflicts of interest that may arise in connection with the portfolio management of both funds. The funds do not buy or sell securities or other portfolio holdings to or from the other, and policies and procedures are in place covering the sharing of expenses and the allocation of investment opportunities, including bunched orders and investments in initial public offerings, between the funds.

(3) As of December 31, 2012, registrant's portfolio managers (Mr. Stoeckle was not a portfolio manager of registrant at that time) are compensated through a three-component plan, consisting of salary, annual cash incentive compensation, and equity incentive compensation. The value of each component in any year is determined by the Compensation Committee, comprised solely of independent director members of the Board of Directors ("Committee"). The Committee has periodically employed a compensation consultant to review the plan and its components. Salaries are determined by using appropriate industry surveys and information about the local market as well as general inflation statistics. Cash incentive compensation is based on a combination of absolute and relative fund performance, with a three-fourths weighting for the Chief Executive Officer and a two-thirds weighting for other portfolio managers, and individual performance, with a one-fourth weighting for the Chief Executive Officer and a one-third weighting for other portfolio managers. Target incentives are set annually based on 80% of salary for the Chief Executive Officer and 60% of salary for the President and the Executive Vice President. Fund performance used in determining cash incentive compensation is measured over both a one-year period, accounting for two-thirds of the calculation, and a three-year period, which accounts for one-third. The registrant's total return on net asset value ("NAV") over each of the two periods is used to determine a base percentage of target, which is then adjusted by performance relative to the S&P 500 Index. Using these calculations, the cash incentive compensation can range from 0% to a maximum of 200% of the established target. Equity incentive compensation, based on a plan approved by shareholders in 2005 and reapproved in 2010, can take several forms. For 2012, grants of restricted stock were made to Mr. Weaver and Ms. Prue on January 12, 2012, which vest three years after grant, but only upon the achievement of specified performance criteria. The target number of restricted shares will vest if, on the January 1 prior to the vest date ("measurement date"), the registrant's three-year average annual NAV total return meets or exceeds the three-year average annual total

return of a hypothetical portfolio comprised of a 50/50 blend of the S&P 500 Index and the Lipper Large-Cap Core Mutual Funds Average ("Hypothetical Portfolio"). Depending on the level of registrant's outperformance or underperformance of the Hypothetical Portfolio on the measurement date, an additional number of shares, a lesser percentage, or no shares will be earned and will vest. The structure of the compensation that the portfolio managers receive from Petroleum is the same as that for registrant with the exceptions that (a) the portfolio managers' cash incentive compensation is based on a comparison with the performance of an 80/20 blend of the Dow Jones U.S. Oil and Gas Index and the Dow Jones U.S. Basic Materials Index and (b) for the equity incentive compensation from Petroleum, the Hypothetical Portfolio that is used for determining the number of shares of restricted stock that will vest is comprised of a 50/50 blend of (1) an 80/20 blend of the Dow Jones U.S. Oil and Gas Index and the Dow Jones U.S. Basic Materials Index (for 50%) and (2) the Lipper Global Natural Resources Fund Index (for 50%).

(4) As of February 11, 2013, Mr. Stoeckle is being compensated with a base salary, annual cash incentive bonus, and an annual equity incentive bonus. Upon commencing service with the registrant, Mr. Stoeckle also received a sign-on cash bonus and two equity incentive bonuses, the first of which vests in one year from the date of grant and the second of which is comprised of restricted shares that will vest in one-third tranches on each of the next three anniversaries of the grant date, provided that he remains in the registrant's employ on those dates. For his services in 2013 and the future, the structure of his compensation will be the same as is described for the other members of the portfolio management team in subparagraph (3) above, except that, for his annual equity incentive compensation for 2013 from both the registrant and Petroleum, a minimum amount has been contractually agreed upon.

(5) Using a valuation date of December 31, 2012, Mr. Weaver and Ms. Prue each beneficially owned equity securities in the registrant valued between \$100,001 and \$500,000. Using a valuation date of February 11, 2013, Mr. Stoeckle beneficially owned equity securities in the registrant valued between \$100,001 and \$500,000.

(b) Not applicable.
