TRI-VALLEY CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED
SEPTEMBER 30, 2003 AND 2002
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

The financial information included herein is unaudited; however, such information reflects all adjustments (consisting solely of normal recurring adjustments), which are, in the opinion of management, necessary for a fair statement of results for the interim periods. The results of operations for the nine-month period ended September 30, 2003, are not necessarily indicative of the results to be expected for the full year.

The accompanying consolidated financial statements do not include footnotes and certain financial presentations normally required under generally accepted accounting principles; and, therefore, should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

NOTE 2 - PER SHARE COMPUTATIONS

Per share computations are based upon the weighted average number of common shares outstanding during each year. Common stock equivalents are not included in the computations since their effect would be anti-dilutive.

NOTE 3 - RECENT ACCOUNTING PRONOUNCEMENTS

In July 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations" (SFAS 143). Under SFAS 143, the fair value of a liability for an asset retirement obligation should be recorded in the period in which it is incurred. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss if the settled amount differs from the liability recorded. SFAS 143 is effective for fiscal years beginning after June 15, 2002. We are currently evaluating this guidance and have not determined the impact on our financial position, results of operations, or net cash flows, however, we anticipate these results will be immaterial.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" (SFAS 146). SFAS 146 addresses the financial accounting and reporting for costs associated with exit or disposal activities. SFAS 146 states that a liability for a cost associated with an exit or disposal activity shall be recognized and measured initially at its fair value in the period when the liability is incurred. A liability is established only when present obligations to others are determined. SFAS 146 does not apply to costs associated with the retirement of long-lived assets covered in SFAS 143 (see above). It applies to costs associated with an exit activity that does not involve an entity newly acquired in a business combination or with a disposal activity covered by SFAS 144 (see above). We will apply SFAS 146 for exit or disposal activities initiated after December 31, 2002. We are evaluating this guidance and do not believe that it will have a material impact on our financial position, results of operations, or net cash flows.

Edgar Filing: TRI VALLEY CORP - Form 10-Q

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

BUSINESS REVIEW

Notice Regarding Forward-Looking Statements

This report contains forward-looking statements. The words, "anticipate," "believe," "expect," "plan," "intend," "estimate," "project," "could," "may," "foresee," and similar expressions are intended to identify forward-looking statements. These statements include information regarding expected development of the Company's business, lending activities, relationship with customers, and development in the oil and gas industry. Should one or more of these risks or uncertainties occur, or should underlying assumptions prove incorrect, actual results may vary materially and adversely from those anticipated, believed, estimated or otherwise indicated.

Petroleum Activities

We artificially fractured (frac'd) the Sunrise-Mayel #2H-R well on July 7, 2003. The frac job did not result in commercial production. After consideration it was determined that performing an acid job should be done. This was done the last week in October and we are currently recovering the spent acid fluid and should soon have the results.

We began drilling the Oil Creek well on August 28, 2003. We reached total depth on October 5, 2003. We brought the necessary equipment on location and performed the first perforation in the bottom interval of the well on October 28. This is the first interval out of six in this well. We will come up hole and perform additional fracs, we anticipate this will be completed by November 12, 2003.

The Oil Lake prospect began drilling on October 31st. We are estimating it will reach total depth by November 15th.

Precious Metals

We began a two phase drilling program in July. The intent was to drill one phase of 42 well bores and a 2nd phase of 66 well bores. The goal was to determine if there is commercial grade placer gold at depth in creek valley. The well bores are 60 to 90 feet deep. Due to repeated equipment failures we were only able to drill the first phase of 42 well bores. This resulted in an insufficient number of test wells to make a conclusive determination.

Three Months Ended September 30, 2003 as compared with Three Months ended
September 30, 2002

In the quarter ended September 30 revenue was \$3,137,062 compared to \$3,923,875 for the same quarter in 2002. This decrease resulted from lower proceeds of sales of oil and gas prospects.

Costs and expenses increased \$112,170 for the period ending June 30, 2003, compared to the same period in 2002. Oil & gas lease expenses were \$25,991 more

Edgar Filing: TRI VALLEY CORP - Form 10-Q

for the quarter ended September 30, 2003, due to an increased amount of workovers over the same quarter in 2002. Mining expenses were \$143,533 more in this quarter than in 2002, due to the bore hole drilling program this summer. Project

ITEM 2. (CONTINUED)

geology, geophysics, land and administration expenses were \$446,072 lower for the quarter ended September 30, 2003, compared to the same quarter in 2002. This decrease is due to reduced activity in lease acquisitions. Cost of sale of oil and gas prospects were \$349,763 higher this quarter compared to the same quarter in 2002 because the prospects sold to our Opus I limited partnership drilling program cost more than in the prior period. General and administration costs were \$44,686 higher for the quarter ended September 30, 2003, compared to the same quarter in 2002. This was due to increased investor relations expense and preparing and mailing proxy statements for our annual shareholders' meeting.

For the quarter ended September 30, 2003, we had a profit of \$172,570 compared to a profit of \$1,071,553 for the quarter ended September 30, 2002. The \$112,170 decrease was due in part to reduced costs in project geology, geophysics, land & administration.

Nine Months Ended September 30, 2003 as compared to Nine Months ended September

30, 2002

Our revenue decreased \$359,637 over the same period last year. This decrease was from decreased income from the sale of oil and gas prospects.

Costs and expenses were \$488,537 more in the period ended September 30, 2003, than in the same period last year. Oil and gas lease expenses were \$22,076 less in 2003 due to a decreased amount of well workovers. Cost of sale of oil and gas prospects is 198,976 more this year compared to last year. General and administrative costs were \$155,876 more in the nine months ended September 30, 2003, compared to the same nine month period in 2002. G & A expenses were higher in 2003 because we recorded \$69,000 in directors fees/expenses, an increase of \$14,000 in office supplies and a \$25,000 expense for a bonus paid to the president of the Company pursuant to his employment contract.

We had a loss of \$401,020 for the nine months ended September 30, 2003, compared to a profit of \$447,154 for the same nine month period in 2002. This loss is because we had higher costs from the sale of prospects in 2003.

Capital Resources and Liquidity -----

We have funded our oil and gas exploration activities primarily with proceeds raised through privately placed drilling programs. We make decisions on the amount of capital expenditures for drilling as funds become available for that purpose. We do not, as a rule, rely on borrowings to fund drilling operations or other activities.

ITEM 2. (CONTINUED)

Current assets were \$7,133,192 at September 30, 2003, compared to \$2,099,941 as of December 31, 2002. This is due to an increase of cash related to investments in our OPUS-I drilling program. Property and equipment is \$463,203 less for the

Edgar Filing: TRI VALLEY CORP - Form 10-Q

period ended September 30 compared to year end due to the sale of prospect land and geology related to the limited liability drilling partnership.

Current liabilities were \$8,217,722 for the nine months ended September 30, 2003, compared to \$3,345,777 for the period ended December 31, 2002. This increase is due to accounts payable being \$1,358,846 higher at September 30, 2003 compared to December 31, 2002 and advances from joint venture participants of \$3,488,481 in our drilling programs for drilling activities in our limited liability drilling program.

OPERATING ACTIVITIES. We had a positive cash flow of \$4,482,062 for the nine months ended September 30, 2003 compared to a positive cash flow of \$1,569,525 for the same period in 2002. This change is due to an a loss from operating activity and in advances from joint venture partners. Our primary source of funds is comprised of selling prospects and oil and gas sales.

INVESTING ACTIVITIES. In the first nine months of 2003 we had costs \$462,138 on capital expenditures compared to \$117,959 for the same period in 2002. These expenditures were the result of sale of asset costs related to the Oil Creek prospect.

FINANCING ACTIVITIES. Net cash used by financing activities was \$87,566 for the nine months ended September 30, 2003 compared to \$8,000 for the same period in 2002. This change was due to payments on long-term debt (\$20,635) and proceeds from the issuance of stock in private transactions, from award of stock for compensation to the outside directors and the exercise of stock options (\$108,201).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Tri-Valley Corporation does not engage in hedging activities and does not use commodity futures or forward contracts in its cash management functions.

ITEM 4. CONTROLS AND PROCEDURES

As of September 30, 2003, an evaluation was performed under the supervision and with the participation of the Company's management, including the Company's CEO and CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of September 30, 2003. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to September 30, 2003.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 2. CHANGES IN SECURITIES

Edgar Filing: TRI VALLEY CORP - Form 10-Q

During the quarter ended September 30, 2003, we issued a total of 12,000 shares of our common stock in a private transaction pursuant to the exemption contained in Section 4(2) of the Securities Act of 1933. These shares are restricted securities, which bear a legend restricting transfer of the shares unless registered or sold under exemption from registration requirements under the Securities Act. A summary of these share issuances follows:

We issued 6,000 shares for aggregate consideration of \$3,000.00. These shares were issued on exercise of options by an ex-employee. The exercise price of these shares was \$.50 each.

We issued 6,000 shares in exchange for services. The price of these shares was \$3.20 per share on September 15, 2003, the date of the award.

ITEM 5. OTHER INFORMATION

Effective October 29, 2003 our common stock moved from the electronic over the counter bulletin board to the American Stock Exchange. The new ticker symbol is TIV.
