-

Item 2.02. Results of Operations and Financial Condition.

Ford Motor Company ("Ford") hereby incorporates by reference its news release dated January 29, 2013, which is filed as Exhibit 99 hereto.

Ford will conduct two conference calls on January 29, 2013 to review preliminary fourth quarter and full year 2012 financial results. Beginning at 9:00 a.m., Ford President and Chief Executive Officer Alan Mulally and Executive Vice President and Chief Financial Officer Bob Shanks will host a presentation for the investment community and news media. Investors may access this presentation by dialing 866-318-8613 (or 1-617-399-5132 from outside the United States). The passcode for either telephone number is a verbal response of "Ford Earnings."

At 11:00 a.m., Ford Vice President and Treasurer Neil Schloss, Ford Vice President and Controller Stuart Rowley, and Ford Motor Credit Company Chief Financial Officer Mike Seneski will host a presentation for fixed income analysts and investors. Investors may access this presentation by dialing 866-515-2907 (or 1-617-399-5121 from outside the United States). The passcode for either telephone number is a verbal response of "Ford Fixed Income."

A listen-only webcast and supporting presentation materials for these calls is available on the Internet at [www.shareholder.ford.com](http://www.shareholder.ford.com). Investors also may access replays of the presentations beginning after 2:00 p.m. the day of the event through Tuesday, February 5, 2013 by dialing 888-286-8010 (or 1-617-801-6888 from outside the United States). The passcode for replays of the earnings call is 37382865; the passcode for replays of the fixed income call is 87513123. All times referenced above are in Eastern Time.

Please note that Exhibit 99 to this Form 8-K discusses various financial measures "excluding special items" and/or with other adjustments. The most directly comparable financial measures calculated and presented in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") are these same measures including special items and/or without adjustments. We believe that showing these measures on a basis that excludes special items and/or includes other adjustments is useful to investors, because it allows investors to evaluate our results excluding or adjusting for items related to our efforts to match production capacity and cost structure to market demand and changing model mix, as well as items that we do not necessarily consider to be indicative of earnings from ongoing operating activities.

In addition, Exhibit 99 discusses our key cash metrics, Automotive operating-related cash flow (which we believe best represents the ability of our Automotive operations to generate cash), Automotive gross cash (including cash and cash equivalents and net marketable securities), and net interest. We believe that Automotive operating-related cash flow is useful to investors because it includes elements that we consider to be related to our operating activities (e.g., capital spending), and excludes cash flow elements that we do not consider to be related to the ability of our operations to generate cash. The most comparable GAAP measure is Cash flows from operating activities of continuing operations on our statement of cash flows. The most comparable GAAP measure for Automotive gross cash is the sum of the individual line items on our balance sheet for each of the elements within that measure (Cash and cash equivalents and Marketable securities). Net interest primarily measures profit variances driven by changes in our Automotive sector's centrally managed net interest (primarily interest expense, interest income, and other adjustments). The most comparable GAAP measure for net interest is the sum of Interest expense, interest income, and gains/losses on the majority of our investments which are reported in Automotive interest income and other income/(loss), net on our income statement.

Item 9.01. Financial Statements and Exhibits.
