ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Overview and Objectives of Compensation Program

The goal of the compensation programs for our named executive officers is to retain and reward leaders who create long-term value for our shareholders. This goal affects the compensation elements we use and our compensation decisions.

We have designed and implemented our compensation programs for our named executives to:

- reward them for financial and operating performance;
- align their interests with those of our shareholders; and
- encourage them to remain with the Company.

Most of our compensation elements simultaneously fulfill one or more of our performance, alignment and retention objectives. These elements consist of:

- salary and annual discretionary bonus;
- non-equity (cash) incentive compensation based upon annually determined performance criteria;
- equity incentive compensation based upon annually determined performance criteria combined with a time based vesting schedule; and
- other benefits.

In deciding on the type and amount of compensation for each executive, we focus almost exclusively on each executive's current pay, rather than historic pay. We combine the compensation elements for each executive in a manner we believe optimizes the value for our shareholders and supports the goals of our compensation programs. We provide a combination of pay elements with the goal of aligning executive incentives with shareholder value. The three major elements of our executive compensation — base salary, annual cash awards (which include bonuses and non-equity incentives) and long-term equity incentives — simultaneously fulfill one or more of our performance, alignment and retention objectives.

The following summarizes the compensation elements we use as tools to reward, retain and align the performance expectations of our named executives.

Base Salary, Non-Equity Incentives and Cash Bonuses

Base salaries for our named executives are designed to provide competitive levels of compensation dependent on the scope of their responsibilities, their leadership skills and values, and their performance. For each named executive officer, we pay annual non-equity incentives each February for the prior year's performance based upon management's evaluation and the Compensation Committee's qualitative assessment of the executives' performance. This short term compensation element is in line with the stated goal of our compensation programs, namely retaining and rewarding leaders who create long-term value for our shareholders. The incentives were determined using the criteria approved by the Compensation Committee for performance against normalized corporate financial performance measures based on budget of revenue; operating margin based on budget, and capital allocation based on budget. For fiscal 2017, the corporate financial measurements for these non-equity incentives were weighted as follows: 1) revenue based on budget as 17.5 percent, 2) operating margin based on budget as 17.5 percent, 3) capital allocation based on budget as 20.0 percent and 4) EBITDA based on budget as 25.0 percent.

In addition to amounts paid pursuant to our non-equity incentive plan, the Compensation Committee retains discretion to award cash bonuses where performance may warrant. We also award a small annual holiday cash bonus based on seniority.

Long —Term Compensation — 2006 Long Term Incentive Plan & 2017 Long Term Incentive Plan

We emphasize long-term variable compensation at the senior executive levels because of our desire to reward effective long-term management decision making and our desire to retain executive officers who have the potential to impact both our short-term and long-term profitability. We believe that providing Restricted Stock Units (RSUs) is an effective means to focus our named executives on delivering long-term value to our shareholders. RSUs allow us to reward and retain the named executives by offering them the opportunity to receive shares of our stock on the date the restrictions lapse so long as they continue to be employed by the Company. Our 2006 Long Term Incentive Plan expired during 2016. Our 2017 Long Term Incentive Plan was approved by the Committee and Board of Directors in 2017 and received shareholder approval at the 2017 annual meeting.

Other Compensation

We provide our named executive officers with other benefits, reflected in the All Other Compensation column in the Summary Compensation Table, that we believe are reasonable, competitive and consistent with our overall compensation program and

goals. The costs of these benefits constitute only a small percentage of each named executive officer's total compensation, and include premiums paid on life insurance policies and Company contributions to a 401(k) plan. The named executive officers also participate in the standard health insurance benefits offered to all employees. We also provide the use of a car provided by the Company and comprehensive physical examinations every other year. The named executive officers are encouraged to attend events at the motorsports entertainment facilities operated by the Company as part of their job function and permitted to bring a guest with them to these events at no charge to the executive.

Compensation Implementation

Determination of Compensation

As part of our total overall compensation plan, the compensation for our named executive officers depends on the scope of their responsibilities, their leadership skills and values, and their individual performance, as well as the Company's performance. Decisions regarding salary increases are affected by the named executives' current salary and the amounts paid within and outside the Company. Base salary rates are reviewed on annual basis and adjusted when appropriate by the Compensation Committee based upon changes in market conditions and the Company's performance factors. When making decisions regarding compensation, we focus almost exclusively on each executive's current pay, rather than historic pay.

The Compensation Committee exercises its discretion in initially making compensation decisions, after reviewing the performance of the Company and evaluating an executive's prospects and performance during the year against established goals, operational performance, business responsibilities, and current compensation arrangements. The following is a summary of key considerations affecting the determination of compensation for the named executives: **Emphasis on Consistent Performance.** Our compensation program provides a greater pay opportunity for executives who demonstrate superior performance for sustained periods of time. Each of our named officers has served us for many years, during which she/he has held diverse positions of increasing responsibility. The amount of their pay reflects their consistent contribution with the expectation of continued contribution to our success. Our emphasis on performance affects our discretionary annual cash bonus, non-equity incentives and equity incentive compensation. We incorporate current year and expected performance into our compensation decisions and percentage increases or decreases in the amount of annual compensation. For fiscal 2017, the criteria to determine overall compensation remained consistent with prior years and our stated philosophy.

Discretion and Judgment. We generally adhere to our historic practices and formulas in determining the amount and mix of compensation elements. Because of our reliance on the formulaic achievement of annual Company financial goals in determining the amount of plan-based compensation, short term changes in business performance can have a significant impact on the compensation of the named executive officers. We consider competitive market compensation paid by other companies of similar size and market capitalization, but we do not attempt to maintain a certain target percentile within a peer group or otherwise rely on data of peer companies to determine executive compensation.

We do not have any specific apportionment goal with respect to the mix between equity incentive awards and cash payments. We generally attempt to assess an executive's total pay opportunities and whether we have provided the appropriate incentives to accomplish our compensation objectives. Our mix of compensation elements is designed to reward recent results and performance through a combination of non-equity (cash) and equity incentive awards. We also seek to balance compensation elements that are based on financial, operational and strategic metrics. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our named executives to deliver superior performance and retain them.

Significance of Company Results. The Compensation Committee primarily evaluates the named executives' contributions to the Company's overall performance rather than focusing only on their individual function. The Compensation Committee believes that the named executive officers share the responsibility to support the goals and performance of the Company, as the executive members of the Company's leadership team. While this compensation philosophy influences all of the committee's compensation decisions, it has the biggest impact on annual non-equity incentive awards and, generally, discretionary bonuses.

Consideration of Risk. Our compensation programs are discretionary, balanced and focused on rewarding performance for both current year and long-term strategy. Under this structure, a greater amount of compensation can be achieved through consistent superior performance over sustained periods of time. Long-term incentive plan compensation in the form of restricted stock is restricted to multiple vesting years with 50.0 percent vesting in three years and the remainder vesting in five years. We believe this provides strong incentives for our named executive officers to manage the Company for the long term while avoiding excessive risk-taking in the short term. Goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure. The elements of compensation are mixed among current non-equity (cash) payments and equity awards. With limited exceptions, the Compensation Committee retains the ability to adjust compensation for quality of performance and adherence to our values. The Company does not believe that its compensation policies and practices are reasonably likely to have a material adverse effect on the Company.

No Employment and Severance Agreements. None of our named executive officers have employment or change-of-control agreements nor do they have pre-negotiated severance agreements in place. Our named executive officers serve at the will of the Board, which enables the Company to terminate their employment with discretion as to the terms of any severance arrangement. This is consistent with our performance-based employment and compensation philosophy. Of course, the fact that our Chairman of the Board and our Vice Chairwoman and Chief Executive Officer are members of the France Family Group, which has the ability to elect the entire Board, does impact such discretion in their case. In addition, the time vesting of our plan-based restricted stock awards help retain our executives by subjecting to forfeiture any unvested shares if they leave the Company prior to retirement. There are change-of-control provisions associated with each award of such plan-based restricted stock awards. Change of control is defined in the individual participant plans for all participants in the restricted stock incentive program. A copy of the 2017 Long Term Incentive Plan is on file with the SEC in connection with our Form S-8 registration statement, filed on October 10, 2017.

Roles of Compensation Committee and Named Executives

Executive officer compensation is overseen by the Compensation Committee of the Board of Directors, which is composed entirely of independent directors, pursuant to its charter. A copy of the charter may be viewed on the Company's website at www.internationalspeedwaycorporation.com.

Prior to the beginning of each fiscal year, the Compensation Committee establishes a total pool of dollars to be used for increases in annual salary compensation for all of our employees, including all of the named executive officers. In setting this total pool of dollars the members of the Compensation Committee consider a variety of factors, including, but not limited to, historic and projected earnings per share, anticipated revenue growth, established salary ranges and market conditions. The committee members then use their collective business judgment to establish the total pool of dollars for increases in annual salary compensation.

Under the direction of the CEO, the proposed salaries, individual performance goals and targeted bonuses for each of the named executive officers other than the CEO, are presented to the Compensation Committee which reviews and approves them. The salary of the CEO is then separately considered and approved by the Compensation Committee. Although no particular weighting of the factors or formula is used, the Committee considers (1) Company and individual performance as measured against management goals approved by the Board of Directors, (2) personal performance in support of the Company's goals as measured by annual evaluation criteria, and (3) intangible factors and criteria such as payments by competitors for similar positions and market movement.

Each of the named executive officers is assigned a target non-equity incentive opportunity based on corporate and personal goals for the year. The actual non-equity incentive for each named executive officer will range from 0 percent to 150.0 percent of the target depending upon results of corporate performance and personal performance during the year. The 2017 fiscal year corporate financial measurements consist of four components which are weighted as follows: 1) revenue based on budget as 17.5 percent, 2) operating margin based on budget as 17.5 percent, 3) capital allocation based on budget as 20.0 percent and

4) EBITDA based on budget as 25.0 percent. Both the targets and the actual performance are determined on a normalized basis and may vary from year to year as established by the Compensation Committee.

For fiscal 2017, our named executive officers are: Ms. Lesa France Kennedy, Chief Executive Officer; Mr. Gregory S. Motto, Executive Vice President and Chief Financial Officer; Mr. John R. Saunders, President; Mr. Joel S. Chitwood, Executive Vice President and Chief Operating Officer; and Mr. Daryl Q. Wolfe, Executive Vice President and Chief Marketing Officer.

The Compensation Committee reviews and approves the recommended corporate performance goals and objectives which are used in establishing plan-based incentive compensation for all of the named executive officers.

Compensation Consultants

Neither the Company nor the Compensation Committee has any contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of senior executive or director compensation. Our named executive officers have not participated in the selection of any particular compensation consultant. The Company obtains market intelligence on compensation trends from a variety of sources through our human resources personnel, with the oversight of the Committee. Each year we participate in compensation surveys conducted by well-known compensation consultants as a means of understanding external market practices. Except for the foregoing, we have not used the services of any other compensation consultant in matters affecting senior executive or director compensation. In the future, either the Company or the Compensation Committee may engage or seek the advice of compensation consultants.

Equity Grant Practices

The only form of equity compensation currently provided to our named executive officers is awards of shares of restricted stock. The awards of restricted stock for 2018 are based on 2017 performance and made under the 2017 Long Term Incentive Plan in a similar fashion as those made in past years pursuant to the 2006 Long Term Incentive Plan. For each fiscal year the named executive officers are provided an opportunity to be awarded shares of restricted stock based upon the same normalized corporate financial performance measures established for non-equity incentive payments, as discussed above. The targeted number of shares is fixed by the Compensation Committee and represents a specified percentage of the named executive officer's annual base salary based upon the average price of our publicly traded shares during the fiscal year prior to the establishment of the share target. This targeted share award amount is communicated to the named executive officers during the second quarter of our fiscal year. Upon completion of the fiscal year and the financial audit, our normalized performance against the financial performance measures is evaluated, a percentage of the targeted award to be actually awarded is determined, reviewed and approved by the Compensation Committee and the restricted shares are issued in the name of the named executive officers on May 1 following the completion of the fiscal year. The restricted shares then vest over time, with 50.0 percent vesting three years after issuance and the remaining 50.0 percent vesting five years after issuance. Prior to vesting the recipient may vote the shares and receive dividends on the restricted shares as granted. If employment ends prior to the expiration of the vesting period due to a change of control or for reasons acceptable to the Compensation Committee (death, disability, retirement, etc.) all or a portion of the unvested restricted shares may be allowed to vest. Termination of employment for any other reason will result in forfeiture of all unvested shares. The timing of calculations of opportunities, amounts, awards and vesting dates are made solely for administrative efficiency and without regard to earnings or other major announcements by the Company. There are change-of-control provisions associated with each award of restricted shares. Change of control is defined in the individual participant plans for all participants in the restricted stock incentive program.

Share Ownership Guidelines

The Company has no equity security ownership guidelines or requirements for the named executive officers. We have share ownership guidelines for our non-employee directors, as more fully described below in the "Compensation of Directors" section.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a \$1.0 million limit on the amount that a public company may deduct for compensation paid to the company's CEO or any of the Company's four other most highly compensated executive officers who are employed as of the end of the year. The Committee considers tax implications in determining executive pay, and generally endeavors to provide compensation that is tax deductible under Internal Revenue

Code Section 162(m). The Committee, however, reserves the right to forego any or all of the tax deduction if it believes it to be in the best interest of the Company and its shareholders.

The amounts shown in the Summary Compensation Table contain components which are not considered taxable income to the individuals under current Internal Revenue Code provisions.

Potential Impact on Compensation from Executive Misconduct

If the Board should determine that an executive officer has engaged in fraudulent or intentional misconduct, the Board could take action to remedy the misconduct, prevent its recurrence, and impose such discipline on the wrongdoers as would be appropriate. Discipline would vary depending on the facts and circumstances, and may include, without limitation, (1) termination of employment, (2) initiating an action for breach of fiduciary duty, and (3) if the misconduct resulted in a restatement of the Company's financial results, seeking reimbursement of any portion of performance-based or incentive compensation paid or awarded to the executive that is greater than would have been paid or awarded if calculated based on the restated financial results. These remedies would be in addition to, and not in lieu of, any actions imposed by law enforcement agencies, regulators or other authorities.

Compensation for the Named Executive Officers in 2017

Company Performance

The specific compensation decisions made for each of the named executive officers for fiscal 2017 reflect the focus on the performance of the Company against specific financial and operational measurements.

A significant portion of each of the named executive officer's plan-based incentive compensation is based upon the Company's performance against the normalized corporate financial performance measures and weighting of 1) revenue based on budget (17.5 percent), 2) operating margin based on budget (17.5 percent), 3) capital allocation based on budget (20.0 percent) and 4) EBITDA based on budget (25.0 percent). Based on the evaluation of the Company's performance against these measures in fiscal 2017, the payout of plan based non-equity incentives was at 76.5 percent of the targeted opportunity defined above, except for Mr. Motto as described below. For fiscal 2017, the non-equity incentives further aligned earning opportunities in support of overall business cost containment measures, as well as the execution of long term strategic growth measures such as managing to budget for the reconstruction of ISM Raceway and ONE Daytona projects. Amounts described below regarding plan-based non-equity incentives are reflective of performance against this 100.0 percent earning opportunity. Potential awards of restricted stock made pursuant to our long-term incentive plan continued to be at 100.0 percent of earning potential for the named executive officers.

For the named executive officers eligible for plan-based non-equity incentives, 100.0 percent of the earning potential for fiscal 2017 was as follows: \$422,807 for Ms. Kennedy; \$74,936 for Mr. Motto; \$329,225 for Mr. Saunders; \$197,064 for Mr. Chitwood; and \$135,705 for Mr. Wolfe. A more detailed analysis of our financial and operational performance is contained in the Management's Discussion & Analysis section in the 2017 Form 10-K filed with the SEC.

CEO Compensation

In determining Ms. Kennedy's base salary compensation for 2017, the Compensation Committee considered her performance as CEO and the performance of the Company in fiscal year 2017. In addition, the Compensation Committee considered general trends of Company performance over the prior several years, outcomes related to growth and development activities and strategic initiatives, market conditions, as well as the responsibilities of the position and her strategic value to the Company. Ms. Kennedy and the Board continued to respond to the evolving economic conditions by focusing on the following performance framework (1) outperforming in a tough environment, (2) maintaining and maximizing financial flexibility, (3) optimizing sustainable cost containment and (4) protecting the Company's reputation and long-term strategy. The Committee determined that Ms. Kennedy performed at a high level resulting in a 3.0 percent increase in base salary for Ms. Kennedy from the previous year.

The Compensation Committee believes that Ms. Kennedy performed well in 2017 by executing on the established performance framework and in delivering a strong financial performance. The Compensation Committee believes that the Company's fiscal

2017 reflected leadership decisions that produced year over year earnings growth, continued the trend of increasing EBITDA and effectively mitigated revenue deterioration with sustainable cost containment, capital allocation discipline and execution against defined strategic initiatives, including meeting financial and schedule metrics for the reconstruction of ISM Raceway and the grand opening of ONE Daytona, the company's retail, dining and entertainment venue adjacent to the Daytona International Speedway. In determining the bonus and incentive portions of her compensation for fiscal 2017, the Compensation Committee determined that Ms. Kennedy performed at a high level. In light of Ms. Kennedy's performance, she received a total plan-based non-equity incentive in the amount of \$323,448, which was 76.5 percent of her total target opportunity. This reflects a 76.5 percent payout of total target opportunity due to strong performance against the corporate financial performance measures, as well as an additional amount related to her performance against individual goals set by the Compensation Committee. For 2017, Ms. Kennedy received this payout as a combination of cash in the amount of \$161,724 and restricted stock in the value of \$161,724 with number of shares determined on the May 1, 2018, grant date. Ms. Kennedy also received 10,621 shares of restricted stock (valued at \$394,039 as of the May 1, 2017 grant date) for her fiscal year 2016 leadership performance. This grant is pursuant to the 2017 Long Term Incentive Plan. The restricted stock is subject to a vesting schedule, with 50.0 percent vesting in three years and the remainder vesting in five years. The final value will be determined on the actual vesting date.

In addition, pursuant to the aforementioned fiscal year 2017 performance factors, the Compensation Committee determined that Ms. Kennedy is eligible for a restricted stock award of 9,516 shares, the value of which will be determined based upon the May 1, 2018 grant date. This grant is pursuant to the 2017 Long Term Incentive Plan and based on annual financial performance of the Company.

No thresholds are provided for in the applicable plan. The final award is determined through a calculation based on (1) the weighted measurements as described below, and using the same formula as the equity based cash payout along with a discretionary amount based on performance against individual goals and achievement.

For fiscal 2017, a significant portion of the named executive officer's plan-based non-equity incentive compensation is based upon the Company's actual performance against the budgeted normalized corporate financial performance measures approved by the Board. The approved measurements are weighted to calculate the total target, detailed as follows: (1) Revenue 17.5 percent, (2) Operating Margin 17.5 percent, (3) Capital Allocation metrics 20.0 percent, and exceeding EBITDA budget 25.0 percent. The approved incremental earning opportunity completes the target opportunity at 100 percent for 2017. The calculated variance percentage of actual performance (2) compared to budgeted performance is then used to determine the percentage payout for each respective measure, as represented in Table 1. Based on the evaluation of the Company's performance against these measures for fiscal 2017, the portion of each named executive officer's plan-based incentive compensation was set at 76.5 percent of the targeted opportunity, with weighted performance for the revenue target, the operating margin target, the capital allocation target and the exceeding EBITDA target. A more detailed analysis of our financial and operational performance is contained in the Management's Discussion & Analysis section of the 2017 Form 10-K filed with the SEC.

The targeted number of shares is fixed by the Compensation Committee and represents a specified earning
(3) opportunity for the named executive officer's annual base salary based upon the average price of our publicly traded
shares during

the fiscal year prior to the establishment of the share target. This targeted share award amount is communicated to the named executive officers during the second quarter of our fiscal year. Upon completion of the fiscal year and the financial audit, our normalized performance against the financial performance measures is evaluated, a percentage of the targeted award to be actually awarded is determined, reviewed and approved by the Compensation Committee and the restricted shares are issued in the name of the named executive officers on May 1 following the completion of the fiscal year. The maximum amount of the award is 1.5 times the target. In 2017, payout of the award was determined by actual performance against the budgeted normalized corporate financial performance measures approved by the Board. The approved measurements are weighted to calculate the total target, detailed as follows: (1) Revenue, (2) Operating Margin, (3) Capital Allocation and (4) EBITDA.

The Grant Date Fair Value of Stock and Option Awards reflects the aggregate grant date fair value of the restricted stock granted pursuant to our 2017 Long Term Incentive Plan computed in accordance with Financial Accounting Standards Board ASC Topic 718. See Note 13 – Long-Term Stock Incentive Plan to the Consolidated Financial Statements in the 2017 Form 10-K for additional information concerning this plan and related Stock Awards and valuation assumptions.

COMPENSATION OF DIRECTORS

We pay our non-employee directors:

- a \$20,000 annual cash fee;
- an annual grant of restricted Class A common stock in an amount equal to \$30,000 based on the stock price on the grant date of such restricted stock;
- a cash fee of \$750 for each meeting of the board of directors attended;
- a cash fee of \$500 for each meeting of each committee (other than the Audit Committee) of the board of directors attended;
- members of the Audit Committee are paid a cash fee of \$750 for each meeting of the Audit Committee attended; and
- the chairman of the Audit Committee is paid an additional \$5,000 annual cash fee.

The number of restricted shares granted to each non-employee director are determined by dividing a dollar amount by the per-share closing price of our Class A common stock on the date of grant (rounded to the nearest whole share).

Through 2017, these stock awards were issued pursuant to the 2017 Long Term Incentive Plan and vest after one year. All meeting fees are paid at the time of the meeting.

In addition, we also reimburse non-employee directors for all expenses incurred in the performance of their duties.

No non-employee director received perquisites and personal benefits with a total value of \$10,000 or more during the fiscal year ended November 30, 2017.

The Board has adopted share ownership guidelines applicable to non-employee directors providing that non-employee directors should, upon three years of becoming a director, own and hold a minimum of common stock of the Company with a market value of at least \$90,000. Each such non-employee director is required to maintain that level of stock ownership for so long as he or she serves on the Board. Restricted shares issued by the Company to a non-employee director are counted for purposes of determining a non-employee director's ownership.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

All of the racing events that take place during our fiscal year are sanctioned by various racing organizations such as the American Historic Racing Motorcycle Association, the American Motorcyclist Association, the Automobile Racing Club of America, the American Sportbike Racing Association - Championship Cup Series, the Federation Internationale de L'Automobile, the Federation Internationale Motocycliste, International Motor Sports Association ("IMSA"), Historic Sportscar Racing, IndyCar Series, NASCAR, National Hot Rod Association, the Porsche Club of America, the Sports Car Club of America, the Sportscar Vintage Racing Association, the United States Auto Club and the World Karting Association.

NASCAR, which sanctions many of our principal racing events, is a member of the France Family Group which controls over 74.0 percent of the combined voting power of our outstanding stock, as of November 30, 2017, and some members of which serve as directors and officers of our Company.

Under current agreements, NASCAR contracts directly with certain network providers for television rights to the entire NASCAR Cup, Xfinity and Camping World Truck series schedules. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each NASCAR Cup, Xfinity and Camping World Truck series event as a component of its sanction fees. We, as the promoter, record 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. Our television broadcast and ancillary rights fees received from NASCAR for the NASCAR Cup, Xfinity and Camping World Truck series events conducted at our wholly owned facilities were approximately \$337.4 million in fiscal year 2017.

Standard NASCAR and IMSA sanction agreements require racetrack operators to pay NASCAR Event Management (collectively "NASCAR event management or NEM fees") fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by NASCAR to participants in the events. Total NEM fees paid by us were approximately \$178.4 million, in fiscal 2017. We have outstanding receivables related to NASCAR and its affiliates of approximately \$22.1 million at November 30, 2017.

In addition, we share a variety of expenses with NASCAR, along with certain NASCAR affiliates, in the ordinary course of business. NASCAR pays rent, as well as a related maintenance fee (allocated based on square footage), to us for office space in

Daytona Beach, Florida. NASCAR pays us for radio, program and strategic initiative advertising, hospitality and suite rentals, various tickets and credentials, catering services, participation in a NASCAR racing event banquet, and track and other equipment rentals. We pay NASCAR for certain advertising, participation in NASCAR racing series banquets, the use of NASCAR trademarks and intellectual images and production space on trackside large screen video display units. Our payments to NASCAR for Motor Racing Network's broadcast rights to NASCAR Camping World Truck races represent an agreed-upon percentage of our advertising revenues attributable to such race broadcasts. NASCAR also reimburses us for 50.0 percent of the compensation paid to certain personnel working in our legal, risk management and transportation departments, as well as 50.0 percent of the compensation expense associated with certain receptionists. We reimburse NASCAR for 50.0 percent of the compensation paid to certain personnel working in NASCAR's legal department and NASCAR's security department. NASCAR's reimbursement for use of our mailroom, janitorial services, security services, catering, graphic arts, photo and publishing services, telephone system and our reimbursement of NASCAR for use of corporate aircraft is based on actual usage or an allocation of total actual usage. The aggregate amount received from NASCAR by us for shared expenses, net of amounts paid by us for shared expenses, totaled approximately \$10.3 million during fiscal 2017. We believe the amounts earned from, or charged by us, under each of the aforementioned transactions are commercially reasonable. IMSA, a wholly owned subsidiary of NASCAR, sanctions various events at certain of our facilities. Standard IMSA sanction agreements require racetrack operators to pay event management fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by IMSA to participants in the events. Event management fees paid by us to IMSA totaled approximately \$1.2 million for the year ended November 30, 2017.

AMA Pro Racing, an entity controlled by a member of the France Family Group, sanctions various events at certain of our facilities. Standard AMA Pro Racing sanction agreements require racetrack operators to pay event management fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by AMA Pro Racing to participants in the events. Event management fees paid by us to AMA Pro Racing totaled approximately \$0.1 million during fiscal 2017. The aggregate amount received from AMA Pro Racing by the Company for shared expenses, net of amounts paid by the Company for shared expenses, totaled approximately \$0.2 million.

We strive to ensure, and management believes that, the terms of our transactions with NASCAR, IMSA and AMA Pro Racing are commercially reasonable.

Other Related Party Transactions

Certain members of the France Family Group paid us for the utilization of security services, event planning, event tickets, purchase of catering services, maintenance services, and certain equipment. The amounts paid for these items were based on actual costs incurred, similar prices paid by unrelated third party purchasers of similar items or estimated fair market values. The net amount received by us for these items totaled approximately \$0.5 million during fiscal 2017.

Cobb Cole is a law firm in Daytona Beach, Florida. Kathy Crotty is a family member of W. Garrett Crotty, one of our executive officers and is also a partner at Cobb Cole. We engage Cobb Cole for certain legal services. The aggregate amount paid by us to Cobb Cole for legal services totaled approximately \$93,000 in fiscal year 2017.

J. Hyatt Brown, one of our directors, serves as Chairman of Brown & Brown, Inc. ("Brown & Brown"). Brown & Brown has received commissions for serving as our insurance broker for several of our insurance policies, including our property and casualty policy and certain employee benefit programs. The aggregate commissions received by Brown & Brown in connection with these policies were approximately \$0.5 million during fiscal 2017.

One of our directors, Christy F. Harris, is Of Counsel to Kinsey, Vincent Pyle, P.L., a law firm that provided legal services to us during fiscal 2017. We paid approximately \$0.2 million for these services in fiscal 2017.

We believe the amounts earned from or charged by us under each of the aforementioned transactions are commercially reasonable.

Approval of Related Party Transactions

We have adopted written policies and procedures for review, approval and ratification of transactions with related persons. These policies are evidenced in the Code of Conduct. In addition, our employees are subject to similar policies concerning

conflicts of interest, business ethics and conduct, as contained in our Employee Handbook. The Audit Committee is charged in its Charter with the ultimate responsibility for the review and approval of all related party transactions meeting the thresholds that require disclosure pursuant to Item 404 of Regulation S-K. All proposed transactions (regardless of the amount involved) with any director or executive officer (or their affiliates) are required to be submitted to the Audit Committee for approval prior to the transaction taking place. As part of our disclosure controls, all related party transactions are reported monthly and reviewed by the Disclosure Committee quarterly, which includes the Chief Compliance Officer and the Director of Internal Audit. The Disclosure Committee is responsible for elevating matters for Audit Committee consideration. While the standard used to evaluate a transaction will vary depending upon the particular circumstances, the goal is to make sure that we are treated fairly and on the same basis as transactions with parties that are not related. There have been no instances during the last fiscal year where such policies and procedures were not followed, nor were there any transactions listed in “Certain Relationships and Related Transactions” that were not reviewed by the Audit Committee.
