PROXY STATEMENT

Annual Meeting of Shareholders of Modine Manufacturing Company - 2005

SOLICITATION OF PROXIES

This proxy statement is solicited on behalf of the Board of Directors for use at the 2005 Annual Meeting of Shareholders. The meeting will be held at 9:30 a.m. on Wednesday, July 20, 2005, at Modine's headquarters, 1500 DeKoven Avenue, Racine, Wisconsin. This proxy statement and accompanying card are first being mailed to shareholders on or about June 15, 2005.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Who may vote?

You may vote your shares of common stock if our records show that you owned the shares at the close of business on May 31, 2005. A total of 34,747,209 shares of common stock were outstanding as of the record date and entitled to vote at the annual meeting. You get one vote for each share of common stock you own. The holders of common stock do not have cumulative voting rights. The enclosed proxy card shows the number of shares you may vote.

How do I vote?

You may vote in person or by properly appointed proxy. Shareholders of record may give a proxy to be voted at the meeting by calling a toll-free telephone number, logging onto the Internet or, if you prefer, mailing the enclosed proxy card. Shareholders who hold their shares in "street name" which means that the shares are held in the name of a broker, or other nominee, will give instructions to vote their shares in the manner required by the broker or other nominee.

The telephone and Internet voting procedures are for your convenience and are designed to authenticate your identity, to allow you to give voting instructions, and to confirm that those instructions have been recorded properly.

The enclosed proxy card contains instructions for telephone and Internet voting and voting by mail. Whichever method you use, the proxies identified on the back of the proxy card will vote your shares in accordance with your instructions. If you submit a proxy card without giving specific voting instructions, the proxies will vote those shares as recommended by the Board of Directors.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxies on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is included with the description of each item in this proxy statement. In summary, the Board recommends a vote:

FOR election of the nominated slate of directors (see Item 1);

FOR approval of the amendment and restatement of the 2000 Stock Incentive Plan for Non-Employee Directors (see Item 2);

FOR approval of the amendment and restatement of the Company's Restated Articles of Incorporation (see Item 3); and

FOR ratification of the Company's independent auditors (see Item 4).

What if other matters come up at the annual meeting?

The matters described in this proxy statement are the only matters to our knowledge that will be subject to a vote at the annual meeting. If other matters are properly presented at the meeting, the persons appointed as proxies will vote your shares on those other matters in accordance with their best judgment.

May I change my vote after I appoint a proxy?

You may revoke your proxy by:

submitting a new proxy;

giving written notice before the meeting to the Secretary of the Company, stating that you are revoking your previous proxy; or

attending the meeting and voting your shares in person.

If you decide to vote your shares in person, we prefer that you first revoke your prior proxy in the same way you initially submitted it -- that is, by telephone, the Internet or mail.

May I vote in person at the annual meeting?

Although we encourage you to complete and return the proxy card or vote by phone or the Internet to ensure that your vote is counted, you may attend the annual meeting and vote your shares in person.

You will need to obtain a "legal proxy" from your broker if you hold your shares in street name and want to vote your shares at the annual meeting in person.

If you plan on attending the annual meeting, please so indicate on the phone or on the Internet when you appoint your proxy or check the box on the enclosed proxy card so that we may have an accurate count of the number of shareholders attending the meeting.

How are votes counted?

A majority of the shares entitled to vote, represented in person or by proxy, will constitute a quorum at the annual meeting. Abstentions and broker "non-votes" are counted as present for purposes of determining a quorum. A broker "non-vote" occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

Voting on Election of Directors (Item 1)

Directors are elected by a plurality of the votes cast by the shares entitled to vote in the election, as long as a quorum is present. This means that the individuals who receive the largest number of votes are elected as directors. Therefore, shares not voted have no effect in the election of directors. Votes attempted to be cast against a candidate are not given legal effect and are not counted as votes cast in an election of directors.

Voting on Amending and Restating the 2000 Stock Incentive Plan for Non-Employee Directors (Item 2)

Approval of this proposal requires the affirmative vote of the holders of a majority of the shares represented at the meeting, in person or by proxy, and entitled to vote thereon, provided that the total vote cast on the proposal represents over 50% in interest of all shares entitled to vote on the proposal. Abstentions will have the same effect as a vote against this proposal; broker non-votes will have no effect on the outcome of the voting on this proposal so long as enough votes are cast to satisfy the 50% requirement.

Voting on Amending and Restating the Restated Articles of Incorporation (Item 3)

Approval of this proposal requires the affirmative vote of at least two-thirds (66 2/3%) of the shares of the Company's common stock outstanding as of the Record Date and entitled to vote on the proposal. Abstentions and broker non-votes will have the same effect as a vote against this proposal.

Voting on Ratification of Auditors (Item 4)

Approval of this proposal requires the affirmative vote of the holders of a majority of the shares represented at the meeting, in person or by proxy, and entitled to vote thereon, provided a quorum is present. Abstentions will have the same effect as a vote against this proposal.

Who will count the votes?

Wells Fargo Minnesota, N.A., Shareowner Services, an independent tabulator, will count the votes. The Board appointed Wells Fargo as the Inspectors of Election.

Who pays for this proxy solicitation?

We do. Directors, officers and employees of Modine, who will receive no compensation for their services, may solicit proxies in person or by mail, telephone, facsimile transmission and other means. Modine also has retained Morrow &

Co., Inc., 445 Park Avenue, New York, NY 10022, to assist in such solicitation for a fee of \$11,500 plus expenses for its services. Brokers, banks, nominees, fiduciaries and other custodians will be requested to solicit beneficial owners of shares and will be reimbursed for their expenses.

How may I help reduce mailing costs?

Eligible shareholders who have more than one account in their name or the same address as other shareholders may authorize us to discontinue mailings of multiple annual reports and proxy statements. Most shareholders can also view future annual reports and proxy statements on the Internet rather than receiving paper copies in the mail. See the next two questions and answers below and your proxy card for more information.

Are proxy materials and the annual report available electronically?

Yes. This proxy statement and the fiscal 2005 annual report are available on our website at www.modine.com. In addition, most shareholders may elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies in the mail. If you are a shareholder of record, you may choose this option and save us the cost of producing and mailing these documents by following the instructions provided on the proxy card to vote over the Internet. On the referenced website, you will be given instructions for choosing the option of receiving future proxy statements and annual reports electronically.

If you choose to view future proxy statements and annual reports over the Internet, you will receive a proxy card in the mail next year with instructions containing the Internet address of those materials. Your choice will remain in effect until you call our transfer agent, Wells Fargo, at 1-877-602-7615 or give written notice to the Secretary of the Company, 1500 DeKoven Avenue, Racine, Wisconsin 53403-2552 and tell us otherwise. You do not have to elect Internet access each year.

If you hold your stock in "street name," please refer to the information provided by the party in whose name the shares are held for instructions on how to elect to view future proxy statements and annual reports over the Internet.

What happens if multiple shareholders share the same address?

We adopted a procedure called "householding." As a result, we are sending only one annual report and proxy statement to those with the same last name at a single address, unless we received instructions to do otherwise. This practice, known as "householding," is designed to reduce our printing and postage costs. If a shareholder of record wishes to receive a separate copy of a proxy statement or annual report in the future, he or she may contact our transfer agent, Wells Fargo, at 1-877-602-7615 or provide written notice to the Secretary of the Company, 1500 DeKoven Avenue, Racine, WI 53403-2552 and tell us otherwise. Shareholders of record sharing the same address and receiving multiple copies of our annual report and proxy statement may request householding by contacting us in the same manner. If you own your shares in street name, you may request householding by contacting the entity in whose name the shares are held.

ITEM 1 - ELECTION OF DIRECTORS

The Board of Directors currently consists of nine members.

The terms of Frank P. Incropera, Vincent L. Martin, and Marsha C. Williams expire at the 2005 Annual Meeting. Dr. Incropera, Mr. Martin, and Ms. Williams have each been nominated by the Board of Directors for a new three-year term expiring at the 2008 Annual Meeting.

The Company's business is managed under the direction of the Board of Directors, pursuant to the laws of the State of Wisconsin, our Restated Articles of Incorporation and Restated By-laws. Members of the Board of Directors are kept informed of the Company's business through discussions with the President and Chief Executive Officer, and with key members of management, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees.

The Company reviews and evaluates its corporate governance policies and practices, particularly in light of the Sarbanes-Oxley Act of 2002 and rule changes made by the Securities and Exchange Commission and the New York Stock Exchange (NYSE), to which we moved the listing of our common stock from the Nasdaq National Market in fiscal 2005. We believe that our current policies and practices meet these requirements. Our corporate governance policies, including our Guideline on Corporate Governance and charters for committees of the Board, are available on our website, www.modine.com, and are available in print to any shareholder upon request.

The Board of Directors has determined that all of the members of the Company's Audit Committee, Officer Nomination & Compensation Committee, and Corporate Governance and Nominating Committee are independent, as defined under the NYSE listing standards applicable to the respective committees. The Board of Directors has determined that neither D.J. Kuester nor V.L. Martin were independent during the 2005 fiscal year because of compensation committee interlocks. The Board has determined that as of July 20, 2005, D.J. Kuester will be independent as defined under the NYSE listing standards for the Officer Nomination and Compensation Committee. V.L. Martin cannot be deemed independent before July 2007.

Lead Director

In June 2003, the Board created a new position of Lead Director, whose primary responsibility is to preside over periodic executive sessions of the Board in which management directors and other members of management do not participate. The Lead Director also chairs certain portions of Board meetings and performs other duties that the Board may from time to time delegate to assist the Board in the fulfillment of its responsibilities. Mr. Neale serves in this position and does not receive any compensation in addition to his director fees to perform his role as Lead Director. At least once annually, those directors who are "independent" in accordance with the criteria described below at *Board Independence* meet without the other directors. Mr. Neale also serves as the presiding director at each of these meetings.

Code of Ethics

Our Guideline for Business Conduct (our "Guideline") summarizes the compliance and ethical standards and expectations we have for all our employees, officers (including our principal executive officer, principal financial officer and principal accounting officer) and directors with respect to their conduct in furtherance of Company business. It contains procedures for reporting suspected violations of the Guideline, including procedures for the reporting of questionable accounting or auditing matters, or other concerns regarding accounting, internal accounting controls or auditing matters. The Company has established a Business Ethics Program through which employees and others may report, anonymously and in confidence, concerns regarding such matters. A copy of our Guideline, as well as further information regarding our Business Ethics Program is available on our website at www.modine.com. These materials are also available in print to any shareholder upon request. Board Meetings and Committees

The Board of Directors held seven regular meetings and one special meeting during the fiscal year and had four standing committees consisting of an Audit Committee, an Officer Nomination & Compensation Committee, a Pension Committee and a Corporate Governance and Nominating Committee. All directors attended at least 75% of the Board meetings and meetings of committees of which they were members. The following chart describes the membership of each committee as of March 31, 2005 and the number of times it met in fiscal 2005:

Roles of the Board's Committees

Audit Committee. The Audit Committee is a separately designated committee of the Board, established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The functions of the Audit Committee are described below in the *Report of the Audit Committee* on pages 14 and 15 of this proxy statement. The charter of the Audit Committee is available on the Company's website, www.modine.com.

In July of each year, the Board selects the members of the Audit Committee. The Board of Directors has determined that each of the members of the Audit Committee is "independent," as defined in the corporate governance listing standards of the NYSE relating to audit committees. The Board of Directors has determined that each Audit Committee member satisfies the financial literacy and experience requirements of the NYSE, and that Mr. Doyle (the Chair of the Committee) qualifies as an "audit committee financial expert" within the meaning of the SEC rules.

Officer Nomination & Compensation Committee. The Officer Nomination & Compensation Committee:

- reviews the performance of the President and CEO;
- reviews candidates for positions as Company officers;
- makes recommendations to the Board on officer candidates;
- makes recommendations to the Board on compensation for officers;
- considers recommendations made by management relating to director compensation and presents those recommendations to the Board; and

administers the 1994 and 2002 Incentive Compensation Plans.

The charter of the Officer Nomination & Compensation Committee is available on the Company's website, www.modine.com. The Officer Nomination & Compensation Committee Report is included in this proxy statement below on pages 16 through 21. The Board selects the members of the Officer Nomination & Compensation Committee in July of each year.

Pension Committee. The Pension Committee:

reviews and monitors performance of the defined benefit pension plans and the defined contribution plans offered by the Company;

monitors the objectives, membership and activities of the Company's Pension Investment Committee; and

provides oversight for pension trust investments and defined contribution plans.

The directors serving on the Pension Committee are not required to be independent. The charter of the Pension Committee is available on the Company's website, www.modine.com.

Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee is responsible for developing and implementing policies and practices relating to corporate governance, including reviewing and monitoring implementation of the Company's Guideline on Corporate Governance. In addition, the Committee develops and reviews background information on prospective nominees to the Board and makes recommendations to the Board regarding such persons. The Committee also prepares and supervises the Board's annual review of director independence and the Board's self-evaluation. The charter of the Corporate Governance and Nominating Committee is available on the Company's website, www.modine.com. The Board selects members of the Corporate Governance and Nominating Committee in July of each year.

Selection of Nominees for the Board

The Corporate Governance and Nominating Committee considers prospective candidates for Board membership recommended by its members, as well as management and shareholders. Shareholders who wish to recommend a prospective nominee for the Board should notify the Company's Corporate Secretary in writing with whatever supporting material the shareholder considers appropriate. The Committee requests that it receive any such recommendations by October 1, 2005 for the 2006 Annual Meeting. The Company has not received any shareholder recommendations of director candidates with regard to the election of directors covered by this proxy statement or otherwise. The Corporate Governance and Nominating Committee intends to evaluate candidates recommended by shareholders in the same manner that it evaluates other candidates.

Once the Committee identifies a prospective nominee, it makes an initial determination as to whether to conduct a full evaluation of the candidate. The Committee makes its initial determination based on the information provided to the Committee with the recommendation of the prospective candidate, as well as the Committee's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or others. The Committee's preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee satisfies the evaluation factors described below.

If the Committee determines that additional consideration is warranted, it may request a third-party search firm to gather additional information about the prospective nominee's background and experience and to report its findings to the Committee. The Committee then evaluates the prospective nominee. The Committee considers relevant factors as

it deems appropriate, including the current composition of the Board, the need for Audit Committee expertise and the evaluations of other prospective nominees. In assessing candidates, the Board considers issues such as education, experience, diversity, knowledge and understanding of matters such as finance, manufacturing, technology and others frequently encountered by a global business.

Every effort is made to complement and supplement skills within the existing Board and strengthen any identified areas. Further criteria include a candidate's personal and professional ethics, integrity and values, as well as his or her willingness and ability to devote sufficient time to attend meetings and participate effectively on the Board. The Committee has not established minimum qualifications for director nominees.

In connection with this evaluation, the Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Committee, and others as appropriate, will interview prospective nominees in person or by telephone. After completing the evaluation and interview, the Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines who should be nominated for a position on the Board after considering the recommendation and report of the Committee.

Board Independence

The Board has determined that the following directors are independent within the meaning of the SEC regulations, the listing standards of the NYSE and the Company's Guideline on Corporate Governance: Messrs. Doyle, Neale, Jones and Yonker, Dr. Incropera and Ms. Williams. The Board concluded that none of these directors possessed the categorical relationships set forth in the NYSE listing standards that prevent independence and had no other business or other relationships with the Company relevant to a determination of their independence.

The Company requires, as set forth in its Guideline on Corporate Governance, that a majority of the Board members be independent directors. However, the Company is not opposed to having members of the Company's management, including the CEO, serve as directors. At a minimum, to qualify as "independent," a director must so qualify under governing rules, regulations and standards, including those issued by the SEC and the NYSE. The Corporate Governance and Nominating Committee assesses independence on an ongoing basis, and each director is responsible for bringing to the attention of the Corporate Governance and Nominating Committee any changes to his or her status that may affect independence. In addition, the directors complete, on an annual basis, a questionnaire prepared by the Company that is designed to elicit information that relates to the independence assessment. At least annually, the Board reviews the relationships that each director has with the Company. Only those directors who the Board affirmatively determines have no material relationship with the Company, and who do not have any of the relationships that prevent independence under the NYSE listing standards, are considered to be independent directors. A majority of the Company's current directors are independent directors.

Shareholder Communication with the Board

Shareholders wishing to communicate with the Board of Directors or with a Board member (including the Lead Director) should address communications to the Board or to the particular Board member, c/o Corporate Secretary, Modine Manufacturing Company, 1500 DeKoven Avenue, Racine, Wisconsin 53403-2552. Under the process approved by the Board, the Corporate Secretary reviews all such correspondence and regularly forwards to the Board a summary of all such correspondence and copies of all correspondence that, in the opinion of the Corporate Secretary, deal with the functions of the Board or Committees thereof or that he otherwise determines requires their attention. Concerns relating to accounting, internal controls or auditing matters are immediately brought to the attention of the Company's Business Ethics Committee and handled in accordance with procedures established by the Audit Committee with respect to such matters. From time to time, the Board may change the process by which shareholders may communicate with the Board or its members. Please refer to the Company's website, www.modine.com, for any changes to this process.

Compensation of Directors

Employees of Modine do not receive any compensation for serving on the Modine board. Non-employee directors, including the Lead Director, receive the following:

a retainer fee of \$6,250 per quarter;

\$1,750 for each Board meeting attended, effective January 19, 2005 (previously the attendance fee was \$1,143 (effective January 1, 2004 to July 20, 2004) and \$1,500 (effective July 21, 2004 to January 18, 2005));

\$1,500 for each committee meeting attended, effective July 21, 2004 (previously was \$1,000);

a retainer fee of \$4,000 per year for acting as Chair of a committee;

reimbursement for travel, lodging, and related expenses incurred in attending meetings; and

travel-accident and director and officer liability insurance.

The fees for Board meeting attendance changed from \$1,500 to \$1,750 during the 2005 fiscal year although the aggregate regular meeting attendance fees were the same as those paid in fiscal 2004. The number of regular board meetings during the 2005 fiscal year was seven versus eight in the prior year.

In May 2004, the Board of Directors meeting was held at the Company's European headquarters in Bonlanden, Germany. The Company paid the travel, meal and lodging expenses of the directors and their spouses who attended the meeting.

Since July 1, 2000, directors of the Company who are not employees have participated in the 2000 Stock Option Plan for Non-Employee Directors (the "2000 Directors' Plan") which authorizes the grant of non-qualified stock options through May 16, 2010, exercisable for up to 500,000 shares of common stock. These options are granted at 100% of the fair market value of the common stock on the grant date. The options expire no later than ten years after the grant date and terminate no later than three years after termination of director status for any reason other than death. Within 30 days after election and each re-election to the Board, each non-employee director so elected or re-elected is automatically granted an option for the number of shares equal to the product of 6,000 times the number of years in the term to which such director has been so elected or re-elected. The 2000 Directors' Plan may be administered by the Board or by a committee of two or more directors of the Company if deemed necessary or advisable in order to comply with the exemptive rules promulgated pursuant to Section 16(b) of the Securities Exchange Act of 1934. Neither the Board nor any such committee has authority to administer the 2000 Directors' Plan with respect to the selection of participants under such plan or the timing, pricing, or amount of any grants. The Company is submitting the amendment and restatement of the 2000 Directors' Plan to the shareholders for approval in this proxy statement (Item 2). Please see the discussion of the changes to that plan described on pages 29 through 33 in this proxy statement.

Prior to July 1, 2000, directors of the Company who were not employees were eligible to participate in the 1994 Stock Option Plan for Non-Employee Directors (the "1994 Directors' Plan") which authorized the grant of non-qualified stock options through July 20, 2004, exercisable for up to 500,000 shares of common stock. These options were granted at 100% of the fair market value of the stock on the grant date and expire no later than ten years after the grant date and terminate no later than three years after termination of director status for any reason other than death. Within 30 days after election or re-election to the Board, each director so elected or re-elected was automatically granted an option for the number of shares equal to the product of 5,000 times the number of years in the term to which such director had been so elected or re-elected. The 1994 Directors' Plan was administered by the Board or by a committee of two or more directors of the Company if deemed necessary or advisable in order to comply with the exemptive

rules promulgated pursuant to Section 16(b) of the Securities Exchange Act of 1934. Neither the Board nor any such committee had authority to administer the 1994 Directors' Plan with respect to the selection of participants under the plan or the timing, pricing, or amount of any grants. The 1994 Directors' Plan was terminated at the end of June 2000 and no additional grants have been made since that time.

The Board of Directors adopted the Modine Manufacturing Company Director Emeritus Retirement Plan (the "Director Emeritus Retirement Plan") pursuant to which any person, other than an employee of the Company, who is or becomes a director of Modine on or after April 1, 1992, and who retires from the Board will be paid a retirement benefit equal to the annualized sum directors are being paid for their service to the Company as directors (including Board meeting attendance fees but excluding any applicable committee attendance fees) as in effect at the time such director ceases his or her service as a director. The retirement benefit continues for a duration equal to the duration of the director's Board service. If a director dies before retirement or after retirement during such period, his or her spouse or other beneficiary will receive the applicable retirement benefit. In the event of a change in control (as defined in the Director Emeritus Retirement Plan) of Modine, each eligible director, or his or her spouse or other beneficiary entitled to receive a retirement benefit through him or her, would be entitled to receive a lump-sum payment equal to the present value of the total of all benefit payments that would otherwise be payable under the Director Emeritus Retirement Plan. The retirement benefit is not payable if the director directly or indirectly competes with the Company or if the director is convicted of fraud or a felony and such fraud or felony is determined by disinterested members of the Board of Directors to have damaged Modine. Effective July 1, 2000, the Director Emeritus Retirement Plan was frozen with no further benefits accruing under it. All eligible directors who retired prior to July 1, 2000 continue to receive benefits pursuant to the Director Emeritus Retirement Plan. All current directors eligible for participation accrued pension benefits pursuant to the Director Emeritus Retirement Plan until July 1, 2000.

Attendance at Annual Meeting

The Company does not have a formal policy that its directors attend the Annual Meeting of Shareholders because it expects them to do so and because the Company's directors historically have attended these meetings. All of the members of the Board of Directors attended last year's annual meeting. The Board of Directors conducts its annual meeting directly after the Annual Meeting of Shareholders at the Company's headquarters.

Report of the Audit Committee

The Audit Committee of the Board of Directors operates under a written charter adopted by the Board of Directors. The charter was most recently revised on May 4, 2004. As set forth in the charter, the Audit Committee's purpose is to assist the Board of Directors in monitoring the:

Integrity of the Company's financial statements;

Independent auditor's qualifications and independence;

Performance of the Company's internal audit function and independent auditors; and

Company's compliance with legal and regulatory requirements.

The full text of the Committee's revised charter is available on the Company's website, www.modine.com.

In carrying out these responsibilities, the Audit Committee, among other things:

Appoints the independent auditor for the purpose of preparing and issuing an audit report and to perform related work, and discuss with the independent auditor appropriate staffing and compensation;

Retains, to the extent it deems necessary or appropriate, independent legal, accounting or other advisors;

Oversees management's implementation of systems of internal controls, including review of policies relating to legal and regulatory compliance, ethics and conflicts of interests; and reviews the activities and recommendations of the Company's internal auditing program;

Monitors the preparation of quarterly and annual financial reports by the Company's management, including discussions with management and the Company's outside auditors about draft annual financial statements and key accounting and reporting matters;

Determines whether the outside auditors are independent (based in part on the annual letter provided to the Company pursuant to *Independence Standards Board Standard No. 1*); and

Annually reviews management's programs to monitor compliance with the Company's Guideline on Business Ethics.

The Committee met four times during fiscal 2005. The Committee has an appropriate number of meetings to ensure that it devotes appropriate attention to all of its responsibilities. The Committee's meetings include, whenever appropriate, executive sessions with the Company's independent auditors and with the Company's internal auditors, in each case without any member of the Company's management being present.

In overseeing the preparation of the Company's financial statements, the Committee met with both management and the Company's outside auditors to review and discuss all financial statements prior to their issuance and to discuss significant accounting issues. Management advised the Committee that all financial statements were prepared in accordance with generally accepted accounting principles. The Committee's review included discussion with the outside auditors of matters required to be discussed pursuant to *Statement on Auditing Standards No. 61 (Communication With Audit Committees)*, including the quality of the Company's accounting principles, the reasonableness of significant judgments and the transparency of disclosures in the financial statements.

With respect to the Company's outside auditors, the Committee, among other things, discussed with PricewaterhouseCoopers LLP matters relating to its independence, after receiving the written disclosures and the letter from PricewaterhouseCoopers LLP required by the *Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees)*.

Finally, the Committee continued to monitor the scope and adequacy of the Company's internal auditing program, including proposals for adequate staffing and to strengthen internal procedures and controls where appropriate.

On the basis of these reviews and discussions, the Committee recommended to the Board of Directors that the Board approve the inclusion of the Company's audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2005, for filing with the Securities and Exchange Commission.

Report of the Officer Nomination & Compensation Committee

The Committee's Role and Purpose of this Report: The responsibilities of the Officer Nomination & Compensation Committee are included under the caption *Corporate Governance -- Roles of the Board's Committees -- Officer Nomination & Compensation Committee* on pages 10 and 11 of this proxy statement. The Committee reports to the entire Board.

The purpose of this report is to summarize the philosophical principles, specific program objectives and other factors the Committee considers in determining the compensation of Modine's executive officers, including the Named Executive Officers.

Compensation Philosophy: The Committee has approved principles for the executive compensation program that:

Recognize Modine's goals can only be achieved by the retention and attraction of competent, highly skilled people and that compensation is a primary factor in retaining and attracting such people;

Encourage strong financial and operational performance of Modine by preserving and enhancing our shareholders' investment over time without experiencing undue risk in the process;

Emphasize performance-based compensation that balances rewards for short-term and long-term results for the Company;

Link compensation to the interests of our shareholders by using stock incentives, both stock awards and stock options;

Place all elements of executive compensation (base pay), annual incentives (cash bonus), and long-term incentives (stock-based) at the median of the market with the market defined by industrial companies with revenue of such companies adjusted to be comparable to that of Modine;

Align performance incentives in the short-term with return on assets employed (ROAE) and in the long-term with earnings per share (EPS); and

Emphasize corporate results rather than independent performance of operating units given the interdependence of the operating units.

Compensation Methodology: Modine's executive compensation program is designed to achieve median market compensation for each executive when target goals for cash and stock incentive plans are achieved. When our targets are exceeded total compensation will exceed the market median.

Modine's executive compensation program consists of many components including base pay, cash bonus, and stock incentives. The goals we establish within our program, though, are tailored to Modine's culture and operational challenges. Modine provides a comprehensive executive compensation program that aligns payment with the performance of the Company. Our aim is to provide compensation that is competitive with other comparable manufacturing companies and with those companies from which we seek to attract new, highly competent employees and with which we compete to retain such employees. Compensation packages of companies in the performance peer group and others are taken into consideration in establishing executive compensation at Modine. This information is supplemented by general industry compensation information with adjustments for relative revenue.

The Committee engages an outside consultant to assist in the annual review of all elements of executive compensation: base salary; annual incentives and long-term incentive compensation. The consultant annually conducts

surveys of executive compensation to determine the competitiveness of all elements of executive compensation. The Committee also seeks counsel from the consultant on trends in plan design to ensure that the Company's executives are appropriately paid in accordance with the Committee's principles. The goal is to compensate executives at the median range for all elements of compensation paid by companies to persons in substantially similar positions in a group determined by the Committee, after adjustments for relative revenue, to represent an accurate benchmark for Modine. The Committee also considers the cumulative compensation of executive officers in relation to the above-described group of companies.

Components of Compensation:

Base Salary: We target median or “market” base pay which is the median base salary for like positions based on broad industry surveys. A competitive base salary target is part of all salaried employees’ compensation. Annual base salary is designed to compensate executives for their level of responsibility and sustained individual performance. The Committee annually reviews base salary to ensure, on the basis of responsibility and performance, that executive compensation is substantially meeting the Committee's principles. The Committee approves in advance all salary increases for the officers. In determining salary increases, the Committee reviews data presented by its outside consultant. Superior performance is recognized through above market merit increases. Individual performance is the key component in determining base salary increases.

Annual Incentives:

Modine Management Incentive Plan (MIP). The Management Incentive Plan is our annual cash bonus plan. One corporate financial measure is used for all participants. Using one measure fosters cooperation among our divisions and plants and keeps managers focused on the performance of the corporation overall.

The plan has a short term focus (one year) and is based on the fiscal results of the Company using the Return on Assets Employed (ROAE) measure. ROAE is determined by dividing net earnings by average net assets. Modine moved to this measure from a Return on Equity measure several years ago when we first focused on Value Based Management. ROAE drives performance by focusing the organization on asset utilization, working capital management and earnings improvement.

The plan originally included only top level managers that directly impacted the Company’s performance. We expanded this plan in the United States a few years ago to include many of our middle managers and plant management staff since they influence performance through their actions and decisions. We also use this plan globally. The top management in Europe and Asia participate in the MIP.

Overall Company performance is the key component in determining bonuses and bonus increases. The Committee believes that the focus on the Company's performance versus the performance of an individual in determining an annual bonus is appropriate given the interdependence of operations, the mobility of employees within the organization and the desire of management to attract talented people to underperforming divisions to improve performance.

Cash bonuses increase in a linear fashion with the Company's ROAE. The incentive is set at a percentage of base salary and the incentive levels are greater for more highly compensated officers to reflect the level of responsibility of the executive.

Since 2001, the Modine MIP ROAE Performance Schedule has been as follows: to earn the Threshold bonus, the Company must achieve ROAE of 4%; to earn the Target bonus, the Company must achieve ROAE of 8%; and to earn the Maximum bonus, the Company must achieve ROAE of 16%. The percentage of base pay paid as a bonus under the MIP varies based upon job responsibility with the Company having eight levels with increasing percentage of salary earned as a bonus with increasing levels of job responsibility. If the Company achieves the Threshold ROAE

(4%), an initial level participant in the MIP would receive 3% of his or her salary with levels increasing to 37.5% of salary as a bonus for the CEO. If the Company achieves the Target ROAE (8%), an initial level participant in the MIP would receive 6% of his or her salary and the CEO 75% and if the Maximum ROAE (16%) is achieved, an initial level participant in the MIP would receive 12% of his or her salary and the CEO would receive 150%. For ROAE between the Threshold and the Maximum, the percentage of salary that may be earned as a bonus increases with each 100th% change in ROAE. For the 2005 fiscal year the Committee determined that participants in the 2002 Incentive Plan would receive the Target level of awards in the event that earnings per share were \$1.50.

Long-Term Incentive Compensation:

Long Term Incentive Plans are used to attract, retain and motivate key employees that directly impact the performance of the Company. These plans are intended to reward performance over a period greater than one year. These plans are typically stock based plans so that stock price directly impacts the amount of compensation the executive receives.

There are two levels of Long Term Incentive Plan participation. Top managers are eligible to participate in the Stock Option component of the program. Officers and key executives participate in the Stock Option component, Retention Restricted Stock component and the Performance Stock component of the Plan.

Ø *Top Managers Plan.* Under the Top Managers Plan, the Committee awards stock options based on the competitive long term incentive value for the position (for example an operations manager will receive a greater number than a plant manager) and the stock price at the time of grant.

Ø *Officers and Key Executives Plan.* In fiscal 2005, the Long Term Incentive Plan for Officers and Key Executives was administered with the number of options and restricted stock awards available for grant fixed or pre-determined based on position.

The following describes the types of incentive awards granted in fiscal 2005:

Ø *Stock Options:* Stock options have an exercise price equal to the fair market value of the common stock on the date of grant, are immediately exercisable after one year of service with the Company (therefore, for an employee who has been employed by the Company for at least one year, the option is immediately exercisable) and have a term of ten years from the date of grant.

Individual stock option grants are determined based upon the Committee's subjective assessment of individual performance, contribution and potential. The Committee determines the number of shares of stock that will be subject to an option grant based upon many factors, including the Company's and the individual's performance, previous grants of stock options and awards and the competitive market for long-term compensation.

Ø *Restricted Stock Awards:* The Committee grants awards of common stock, at no cost to the employee, for retention and to reward performance. The Committee selects a target number of shares that relates to market competitive pay for each participant. A retention increment equal to one-third of the target is granted in January. The performance portion, earned on the basis of EPS, is granted in May following the end of the fiscal year in addition to the retention portion so that the participant receives a restricted stock award upon the Company achieving pre-determined EPS. An executive officer may receive stock awards ranging from one-third of his or her Target award to 150% of his or her Target award. The shares vest in 20% increments over five years.

For fiscal 2005, the performance schedule for the issuance of Restricted Stock Awards was as follows: to earn the Threshold number of stock awards the Company's EPS must be \$1.20; to earn the Target number of stock awards, the Company's EPS must be \$1.50 and to earn the Maximum number of stock awards, the Company's EPS must be \$1.75. The Company's EPS for fiscal 2005 was \$1.79 so participants in the plan received the Maximum number of Restricted Stock Awards.

Other Discretionary Bonuses

The Committee, at its October 2004 meeting, approved a request from the CEO to grant shares of unrestricted stock to certain employees (officers and non-officers) in recognition of their performance. Messrs Richardson and Rulseh, two of the Named Executive Officers, each received a grant of 1,000 shares of unrestricted stock.

Benefit Plans for Highly Compensated Employees

In addition to the employee benefits applicable to employees in general, more highly compensated employees of Modine are eligible to participate in the Deferred Compensation Plan and an Executive Supplemental Retirement Plan.

Deferred Compensation Plan: The Deferred Compensation Plan is a non-qualified plan. It allows an employee to defer salary in an amount that exceeds the statutory limitations applicable to 401(k) plans. For the 2004 calendar year, an employee could contribute no more than \$13,000 to a 401(k) plan. The Deferred Compensation Plan allows a highly compensated employee to defer an amount of salary that exceeds \$13,000 but in no event can the deferral into the Deferred Compensation Plan exceed 10% of base salary. Salary deferred pursuant to the Deferred Compensation Plan is placed into a rabbi trust that is invested by the committee administering the plan. Payments out of the Deferred Compensation Plan are deferred until termination of service or retirement.

Executive Supplemental Retirement Plan ("SERP"): The SERP is a non-qualified pension plan. The SERP supplements the Company's qualified pension plan by allowing salary and bonus that is in excess of statutory limits to be taken into account in determining pension benefits payable to an employee.

Chief Executive Compensation

The Chief Executive Officer participates in the same programs and receives compensation based on the same factors as the other executive officers. However, Mr. Rayburn's overall compensation reflects a greater degree of policy and decision-making authority and a higher level of responsibility with respect to the strategic direction and financial and operational results of the Company. For fiscal 2005, the Chief Executive Officer's compensation components were:

Base Salary: The Committee evaluated Mr. Rayburn's individual performance during fiscal 2005 based on certain criteria. These criteria included the following: the qualities of leadership, ability to instill confidence in others, the ability to inspire confidence from others, development of Modine's long-term strategic plan and annual goals and objectives, development of an effective senior management team and provision for management succession, effective communications with stakeholders and his relationship with the Board. As a result of this evaluation and comparison with compensation norms, Mr. Rayburn's salary, which was \$625,000 for the 2005 fiscal year, increased to \$675,000 effective on April 1, 2005.

Annual Incentive: As noted above, the Company's ROAE for fiscal 2005 was 7.52% which is just short of the Target level described above. Accordingly, under the MIP formula, Mr. Rayburn earned a bonus of \$440,625 representing 67.50% of his base salary.

Long-Term Incentive Awards:

Restricted Stock: Prior to the beginning of the 2005 fiscal year, the Committee set the stock award Target for Mr. Rayburn at 15,000 shares, including both retention and performance portions of the award. Mr. Rayburn's award under the terms of the plan was 22,500 shares, 150% of the Target, given the Company's results of \$1.79 for earnings per share. In addition, in January 2005, the Committee determined that Mr. Rayburn's long-term incentive compensation is substantially below market level and, to partially rectify that situation, granted Mr. Rayburn an additional 14,000 shares of restricted stock.

Stock Options. In January 2005, the Committee awarded Mr. Rayburn options to purchase 26,000 shares of Common Stock at the closing market price on the date of the award.

Changes for Fiscal 2006

Going forward, target annual long term incentive grants for each eligible position will be determined based on the competitive market value of long term incentive for the position. This value is determined by market surveys that look at competitive practice for like positions across a broad spectrum of industries. Target long term incentive will be a dollar value expressed as a percentage of base salary. Modine is continuing to move its long term incentive awards to restricted stock.

The long term incentive compensation program in fiscal 2006 will have three components:

- Stock options - performance focused, wealth is created by the appreciation of Modine stock over time. Stock options may be exercised within a 10 year period after grant. Options will continue to be granted in January of each year.
- Retention Restricted Stock Awards - retention focused. A portion of the award vests each year. In fiscal 2006 Modine is reducing the vesting period for future awards from five years to four years. Retention Restricted Stock Awards will continue to be granted in January of each year.
- Performance Stock Awards - performance focused. Awards will be earned based on the attainment of corporate financial goals over a three year period and will be granted after the end of the performance period.

The grant value for each component of the long term incentive program is allocated as follows:

- Stock Options will comprise 20% of target long term incentive dollars;
- Restricted Stock will comprise 20% of target long term incentive dollars; and
- Performance Stock Awards will comprise 60% of target long term incentive dollars.

The Performance Stock Award element of the program is being changed for fiscal 2006. In prior years the performance portion of restricted stock awards was earned based on achievement of the annual EPS goal which, like our bonus goal, has a one year focus. Contemporary long term incentive plans are expanding the time horizon for performance based plans. Starting with fiscal 2006, Performance Stock Awards will be earned based on performance over a three year period. Once earned, they are fully vested and will be granted immediately. Like prior years, the award amounts will vary based on performance. There will be a Threshold, Target and Maximum performance share award. The Maximum has been increased this year from 150% of target awards to 175% of target awards.

Two measures will be used to determine the Performance Stock Awards - an EPS measure and a Total Shareholder Return (TSR) measure. These two measures gauge performance relative to other companies and focus management on driving differentiation in Modine's earnings and stock performance. The EPS goal is measured on a three year period, which ensures that management makes decisions with the intermediate term in mind versus trying to maximize a given year's performance to the detriment of future periods.

Achievement and payout for each measure will be calculated and paid out independently of the other measure. EPS achievement is weighted at 60% of the target performance shares and TSR is weighted at 40% of the target performance shares. The EPS achievement is based on cumulative three year EPS achievement and the target is set at a cumulative EPS that reflects 10% annualized growth during the three year period. The 10% annualized EPS growth

goal was set at the average EPS growth of the S&P 500 over a ten year period.

The performance measure for TSR is Modine's performance relative to the performance of the S & P 500 over a three year period. The calculation of TSR includes both the stock price change over the three year period as well as dividends granted during the period.

A new performance period will begin each year so there will be multiple performance share periods, with separate goals, operating simultaneously.

Compliance with Internal Revenue Code Section 162(m): Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to a company's CEO and the four other most highly compensated executive officers. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met.

The Committee believes that it is generally in the Company's best interest to attempt to structure performance-based compensation, including stock option grants and annual bonuses, to executive officers who may be subject to Section 162(m) in a manner that satisfies the statute's requirements. However, the Committee also recognizes the need to retain flexibility to make compensation decisions that may not meet Section 162(m) standards when necessary to enable the Company to meet its overall objectives, even if the Company may not deduct all of the compensation. Accordingly, the Board and the Committee have expressly reserved the authority to award non-deductible compensation in appropriate circumstances. Further, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, no assurance can be given, notwithstanding the Company's efforts, that compensation intended by the Company to satisfy the requirements for deductibility under Section 162(m) will do so.

Respectfully submitted by the member of the Officer Nomination & Compensation Committee of the Board of Directors:

EXECUTIVE COMPENSATION**Summary Compensation Table**

The following table sets forth compensation awarded to, earned by, or paid to the Company's Chief Executive Officer and the four most highly compensated executive officers other than the Chief Executive Officer who were serving as executive officers as of March 31, 2005 (the "Named Executive Officers"), for services rendered to the Company and its subsidiaries during fiscal 2005. Also included is compensation information for the same individuals for the fiscal years ended March 31, 2004, and March 31, 2003. Because Mr. Richardson joined the Company as Vice President and Chief Financial Officer on May 12, 2003 and was therefore not an executive officer for all periods being reported, information for Mr. Richardson is given for fiscal years 2004 and 2005.

(a) The salary amounts set forth above include amounts deferred at the Named Executive Officer's option through contributions to the Modine 401(k) Retirement Plan for Salaried Employees and the Modine Deferred Compensation

Plan.

(b) The bonus amounts include amounts paid in May of the next fiscal year under the Company's Management Incentive Plan ("MIP") attributable to the Company's performance during the then prior fiscal year. By way of example, the MIP bonus paid in May 2005 is attributable to the Company's performance for the fiscal year ended March 31, 2005. The bonus amounts also include for Messrs. Richardson and Rulseh the market value on the date of grant of an award of 1,000 shares each of unrestricted stock which is described above in the *Report of the Officer Nomination & Compensation Committee*.

(c) Includes perquisites, except where the total amount of perquisites received by the Named Executive Officer was less than \$50,000 or 10% of the named Executive Officers' salary and bonus. Perquisites provided to some or all of the Named Executive Officers were as follows: estate and financial planning services; executive physical examinations and travel, meals and lodging to attend the Board of Directors meeting in May 2004 at the Company's European headquarters in Bonlanden, Germany, as well as a tax "gross up" for the compensation attributable to such trip.

(d) The dollar values shown are based on the number of shares awarded multiplied by the closing market price of Company common stock on the date of grant. The 2005 restricted stock awards consists of awards made in January 2005 and May 2005 pursuant to the 2002 Incentive Compensation Plan (the "2002 Plan"), as follows: Mr. Rayburn - 36,500 shares; Mr. Richardson - 13,500 shares; Mr. Katzfey - 13,500 shares; Mr. Rulseh - 13,500 shares; and Mr. Feldman - 13,500 shares. The total number of restricted shares outstanding and the aggregate market value at March 31, 2005 for the Named Executive Officers were: Mr. Rayburn - 26,800 shares valued at \$786,044; Mr. Richardson - 23,800 shares valued at \$698,054; Mr. Katzfey - 16,160 shares valued at \$473,973; Mr. Rulseh - 16,040 shares valued at \$470,453; and Mr. Feldmann - 15,200 shares valued at \$445,816. Dividends are paid on the restricted shares at the same time and the same rate as dividends are paid to all shareholders.

The awards under the 2002 Plan are subject to restrictions that lapse annually in fifths over a period commencing at the end of the first year from the date of grant. In the event of retirement, the shares may, if authorized by the Officer Nomination & Compensation Committee of the Board, be released at an earlier date. In the event of a change in control the share restrictions lapse.

(e) Includes employer matching contributions to the Modine 401(k) Retirement Plan for Salaried Employees ("401(k) Co. Match") and the Modine Deferred Compensation Plan ("DC Co. Match") and payments of premiums for disability insurance ("LTD Ins.") and life insurance ("Life Ins.") as follows:

All options granted are immediately exercisable except within the first year of employment. Up to 3,000,000 shares of common stock may be issued pursuant to grants of awards under the 2002 Plan. The ability to grant awards under the 2002 Plan expires on July 17, 2012. All options are granted at 100% of the fair market value of common stock on the date of the grant and expire no later than ten years after the date of the grant. Grants pursuant to the 2002 Plan may be made to officers and certain other employees as is determined by the Committee. Upon the exercise of an option, the optionee may pay the purchase price in cash, stock, optioned stock, or a combination thereof. The optionee may also satisfy any tax withholding obligation by using optioned stock.

(b) The dollar amounts under these columns are the result of calculations at the 5% and 10% rates set by the SEC and, therefore, are not intended to forecast possible future appreciation, if any, of the Company's stock price.

(c) No gain to the optionee is possible without stock price appreciation, which will benefit all shareholders commensurately.

The following table sets forth information with respect to the Named Executive Officers concerning option exercises during and the value of options outstanding at the end of the last fiscal year.

(a) All options granted are immediately exercisable except within the first year of employment. Value is determined by subtracting the exercise price from the year-end closing price of the Company common stock and multiplying by the number of shares underlying the options.

Pension Plan Table

The Named Executive Officers participate on the same basis as other salaried employees in the non-contributory Modine Manufacturing Company Pension Plan for Non-Union Hourly-Paid Factory Employees and Salaried Employees (the "Salaried Pension Plan") (with the exception of K.A. Feldmann, who is a German citizen and receives an annual contribution of five percent of his annual base salary for his personal pension planning purposes, and an additional five percent of his annual base salary on the basis of a reinsured support fund). Because the Company's contributions to the Salaried Pension Plan are actuarially based on all eligible salaried employees and are not allocated to individual employee accounts, expenses for a specific person cannot readily be separately or individually calculated. Retirement benefits are based on an employee's earnings for the five highest consecutive of the last ten calendar years proceeding retirement and on years of service. Applicable earnings include salary, bonus, and any deferred amount under the Modine 401(k) Retirement Plan and the Deferred Compensation Plan which is approximately the same as cash compensation reported in the Summary Compensation Table, but on a calendar year rather than a fiscal year basis. A minimum of five years of service is required for the benefits to vest. The principal benefit under the Salaried Pension Plan is a lifetime monthly benefit for the joint lives of a participant and his/her spouse based on the employee's earnings and period of employment, and is not subject to offset by Social Security benefits. Employees may retire with unreduced early retirement benefits at age sixty-two or may be eligible for disability, deferred, or other early retirement benefits depending on age and years of service upon retirement or termination. In addition, an employee may elect to receive a lump-sum pension benefit if, upon retirement, the sum of the employee's age plus years of eligible service with the Company equals least 85. Furthermore, if employed on and before March 31, 2001, an employee who reaches age sixty-two and who has accumulated thirty or more years of eligible service may request that the accrued benefit be paid immediately in a lump-sum amount, even if he/she elects not to retire at that time.

In March 2004, the Board of Directors passed a resolution that freezes credited service under the Salaried Pension Plan as of April 1, 2006. After April 1, 2006, participants in the Salaried Pension Plan will not earn additional credited service; however, changes in compensation will be considered in any pension calculation. While credited service is frozen at April 1, 2006, eligibility service for employees hired on or before December 31, 2003 continues to accrue.

The following table sets forth the estimated annual benefits payable upon retirement at normal retirement age for the years of service indicated under a combination of the Salaried Pension Plan and the Executive Supplemental Retirement Plan, a non-qualified defined benefit pension plan, at the indicated remuneration levels (average of five years' earnings).

| Average Annual Earnings | Representative Years of Service | | | | |

| 1,550,000 | 385,968 | 514,624 | 643,280 | 771,936 | 900,592 |

Assuming continued employment until age sixty-five, the estimated credited years of service under the Salaried Pension Plan for Messrs. Rayburn, Richardson, Katzfey, and Rulseh are 15.3, 3.1, 19.2, and 29.0 years, respectively. As stated above, the credited service under the Salaried Pension Plan will be frozen at April 1, 2006.

Pension benefits under the Salaried Pension Plan are subject to possible limitations imposed by the Employee Retirement Income Security Act of 1974 and subsequent amendments thereto. To the extent that an individual employee's retirement benefit exceeds these limits, the excess will be paid pursuant to the Executive Supplemental Retirement Plan from general operating funds of the Company.

Employees, including officers, may also qualify for long-term disability payments of approximately sixty percent of their base salary, up to a maximum of \$15,000 per month, if they become disabled.

Employment Agreements, Termination and Change in Control Arrangements

The Company entered into an employment contract effective May 16, 2001 with Mr. Rayburn covering his employment for a thirty-six month term. After the effective date, the employment contract automatically and continuously extends for an additional day, unless either party gives written notice of termination to the other party, in which case the term would become a thirty-six month period beginning on the date such notice was received.

The Company is permitted to terminate Mr. Rayburn's employment contract for "Cause," as that term is defined in the contract, and Mr. Rayburn is permitted to terminate the employment contract upon the occurrence of any of the following events: failure to elect or re-elect him to the offices he holds; a significant change in the scope of his authority, duties, or reduction in compensation; a breach by the Company of any provision of the employment contract; and the liquidation, dissolution, consolidation, or merger of the Company.

In the event of a termination by the Company other than for Cause or a termination by Mr. Rayburn as described above, the Company is obligated to remit, as liquidated damages, severance pay to Mr. Rayburn an amount equal to his "Average Annual Earnings" during the term under the employment agreement. "Average Annual Earnings" means the arithmetic average of annual compensation includable in Mr. Rayburn's gross income in the five taxable years preceding the year of termination. Mr. Rayburn would continue to receive all employee benefits plus supplements to his retirement pension and 401(k) benefits designed to provide him with benefits that otherwise are reduced by statutory limitations on qualified benefit plans. In the event of disability, salary continuation would be provided at a level of one hundred percent for the first twelve months and up to sixty percent for the remainder of the employment term.

In the event of a "Change in Control," as defined in Mr. Rayburn's Change in Control Agreement and Termination Agreement, amended and restated effective May 20, 1999, at any time during the 24 months after a change in control occurs, if Mr. Rayburn is terminated without "Good Cause" or if Mr. Rayburn terminates the Agreement for any reason, a 36-month "Severance Period" would be triggered during which Mr. Rayburn would be entitled to receive an amount equal to three times the greater of: (A) the sum of his base salary and target bonus or (B) the sum of his five-year average base salary and five-year average actual bonus, payable in a lump sum within 60 days after the date of termination of employment. In addition, Mr. Rayburn would receive an amount equal to the pro-rata portion of the target bonus for the calendar year in which his employment terminated and applicable benefits and credited service for pension purposes for the 36-month period.

In the event of Mr. Rayburn's death, such amounts would be payable to his estate. Any stock options or stock awards would immediately vest, or restrictions lapse, as the case may be, on the date of termination. In the event a change in control occurred, and if payments made to Mr. Rayburn were subject to the excise tax provisions of Section 4999 of the Internal Revenue Code, Mr. Rayburn would be entitled to receive a lump sum payment, sufficient to cover the full cost of such excise taxes and his federal, state and local income and employment taxes on the additional payment.

Effective May 12, 2003, the Company entered into an employment agreement with Mr. Richardson, the terms of which are substantially identical to Mr. Rayburn's employment agreement as described above.

As of February 26, 1997, the Company entered into separate Change in Control and Termination Agreements with the Named Executive Officers and certain other key employees. These agreements were amended and restated May 20, 1999. Mr. Rayburn's agreement is described above. The Company entered into a Change in Control and Termination Agreement with Mr. Richardson dated as of May 12, 2003.

In the event of a "change in control," as defined in those Agreements, as amended and restated, certain key executives (including the Named Executive Officers other than Mr. Rayburn, whose agreement is addressed above), if terminated by the Company for any reason other than "Good Cause," or if terminated by the executive for "Good Reason" within 24-months after the change in control occurs, or if terminated by the executive for any reason during the 13th month after the change in control, will trigger a 24-month "Severance Period" during which the executive is entitled to receive an amount equal to two times the greater of: (A) the sum of the executive's base salary and target bonus or (B) the sum of the executive's five-year average base salary and five-year average actual bonus, payable in a lump sum within 60 days after the date of termination of employment. In addition, the executive would receive an amount equal to the pro-rata portion of the target bonus for the calendar year in which the executive's employment terminated and applicable benefits and credited service for pension purposes for the 24-month period.

In the event of the executive's death, such amounts will be payable to the executive's estate. Any stock option or stock awards will immediately vest, or restrictions lapse, as the case may be, on the date of termination. In the event a change in control occurs, and if payments made to the executive are subject to the excise tax provisions of Section 4999 of the Internal Revenue Code, the executive will be entitled to receive a lump-sum payment, sufficient to cover the full cost of such excise taxes and the executive's federal, state, and local income and employment taxes on the additional payment.

Performance Graph

The following graph compares the cumulative five-year total return on the Company's common stock with similar returns on the Russell 2000® Index and the Standard & Poor's (S&P) MidCap 400 Industrials Index, as well as with similar returns on the two indices presented in the previous year's proxy performance graph - the S&P 500 Index and the NASDAQ U.S. Index. The graph assumes a \$100 investment and reinvestment of dividends.

We have selected two new indexes because the Company's common stock is included in both the Russell 2000® Index and the S&P MidCap 400 Index but not in the S&P 500 Index. In addition, because of its diversified thermal management market, customer and product portfolio, the Company believes its common stock should be compared more specifically with a group of U.S. industrial stocks with which it shares a common index. In October 2004, the Company's common stock listing was moved to the New York Stock Exchange from the NASDAQ National Market. As a result, the Company has elected to replace last year's S&P 500 Index and NASDAQ U.S. Index with the Russell 2000® Index and the S&P MidCap 400 Industrials Index in this performance graph to provide a more direct cumulative total return comparison with its common stock. In the Proxy Statement for the 2004 Annual Meeting of Shareholders, the industry index was identified as the NASDAQ Industrials Stock Index (non-financial index) but was actually the NASDAQ U.S. Index, also shown below.

Certain Transactions

In the regular course of business since April 1, 2004, the Company has had transactions with corporations or other firms of which certain non-employee directors are executive officers or otherwise principally involved. Such transactions were in the ordinary course of business and at competitive prices and terms. The Company anticipates that similar transactions will occur in fiscal 2006.

- (1) The referenced plans contain standard anti-dilution provisions that provide for adjustment of the number of shares covered by the plan in the event of stock dividends, stock splits or similar transactions or in the event the Company acquires an entity which has issued, and has outstanding, stock options or rights. Any such adjustments shall be made to prevent substantial dilution or enlargement of the benefits granted to, or available for, participants.
- (2) Includes the following shareholder-approved plans: 1985 Incentive Stock Plan; 1985 Stock Option Plan for Non-Employee Directors and Directors Emeriti; 1994 Incentive Compensation Plan; 2002 Incentive Compensation Plan; 1994 Stock Option Plan for Non-Employee Directors; Modine Manufacturing Company Stock Option Plan for Thermacore Employees under the DTX Corporation 1995 Stock Option Plan; and Modine Manufacturing Company Stock-Based Compensation Plan for Thermacore Employees under the DTX Corporation 1997 Plan.
- (3) Includes the 2000 Stock Option Plan for Non-Employee Directors, which was approved by the Board of Directors on May 17, 2000 and effective after June 30, 2000. Under the 2000 Plan, upon election and each re-election to the Board, a non-employee director automatically receives a grant of 6,000 non-qualified stock options for each year of his/her new term.

ITEM 2 - APPROVAL OF THE AMENDED AND RESTATED 2000 STOCK INCENTIVE PLAN FOR NON-EMPLOYEE DIRECTORS

The shareholders of the Company are being asked to approve the Amended and Restated 2000 Stock Incentive Plan for Non-Employee Directors (the "Amended Directors' Plan"), a copy of which is attached to this proxy statement as Appendix A. The changes resulting from the proposed amendment and restatement are shown with deletions indicated by strike-outs and additions indicated by underlining in Appendix A. The Amended Directors' Plan, which was adopted by the Board of Directors on March 16, 2005 subject to shareholder approval, would give discretion to the Board or a committee of the Board to grant stock options and stock awards to non-employee directors. Currently, under the existing plan, within 30 days after election and each re-election to the Board, each non-employee director so elected or re-elected is automatically granted an option for the number of shares equal to the product of 6,000 times the number of years in the term to which such director has been so elected or re-elected. The current plan, the 2000

Stock Option Plan for Non-Employee Directors, which was implemented in 2000 does not provide for the award of shares of stock.

The Amended Directors' Plan is designed to provide for equity-based awards consisting of stock options and shares of stock to the non-employee directors, of which the Company currently has eight, in order to promote a greater unity of interests between the directors and the other shareholders. The Amended Directors' Plan also furthers the Company's objective of increasing the equity-based portion of the directors' compensation and allows the exercise of discretion to adjust the level of equity-based compensation in relation to the price of the stock. The existing plan does not allow for adjustment in the number of shares subject to the formula option grant.

The following summary description of the material terms of the Amended Directors' Plan is not complete. Please read the Amended Directors' Plan (attached as Appendix A) to understand all of the terms of the Amended Directors' Plan.

Administration

The plan will be administered by the Board or by the Officer Nomination & Compensation Committee of the Board (the "Committee"). The charter of the Committee will be amended immediately after the shareholders approve the Amended Directors' Plan to give the Committee the authority to administer director compensation, as well as officer compensation. The Board or the Committee, as appropriate, has broad authority to (1) select the directors who will receive awards at a particular time; (2) grant awards; (3) determine the number and types of awards to be granted; (4) subject to the terms of the plan, determine the terms, conditions, vesting periods and restrictions applicable to stock awards; (5) adopt, alter and repeal administrative rules and practices governing the plan; (6) interpret the terms and provisions of the plan and any awards granted under the plan; (7) prescribe the forms of any notices of awards or other instruments relating to the plan and (8) otherwise supervise the administration of the plan. All decisions, determinations and interpretations of the Board or the Committee with respect to the Amended Directors' Plan are final and binding.

The Committee, at its meeting in March 2005, approved, subject to the approval of the Amended Directors' Plan by the shareholders, the grant of unrestricted stock awards to the three directors elected or re-elected at the annual meeting. The Committee determined that the award for fiscal 2006 would equal \$38,000 a year for each of the years in the term to which the director has been elected or re-elected. Therefore, the dollar value of the shares of unrestricted stock that each non-employee director would receive on the date of the annual meeting at which he or she is elected or re-elected is \$114,000. The number of shares of unrestricted stock would equal \$114,000 divided by the closing market price of the Company's common stock on the date of award.

Eligibility

Any member of the Board of Directors who is not an employee or officer of the Company or any subsidiary of the Company is eligible to participate in the Amended Directors' Plan.

Stock Option Awards

Stock options will consist of nonqualified stock options to purchase shares of the Company's common stock. The Committee will, among other things, establish the number of shares subject to the option, the time or times at which options may be exercised and whether all of the options may be exercisable at one time or in increments over time. The option price will not be less than the closing market price of the Company's common stock on the date of the grant. A stock option may be exercised in whole at any time or in part from time to time. On June 7, 2005, the closing price of Company common stock on the New York Stock Exchange was \$30.98 per share.

Stock Awards

The Board or the Committee, as applicable, has broad discretionary authority to set the terms of awards of stock under the Amended Directors' Plan. Shares granted under the Amended Directors' Plan may or may not be subject to restrictions as determined by the Committee. Participants will receive all dividends on, and will have all voting rights with respect to, such shares.

Shares Available

There were originally 500,000 shares of Company common stock reserved for issuance under the 2000 Directors' Plan and 258,000 shares remain available for the grant of awards under the Amended Directors' Plan. Management does not propose any change to the number of shares available for the grant of awards under the Amended Directors' Plan. Shares subject to awards that lapse become available again for award under the plan.

Adjustments and Change in Control

In the event the Company at any time changes the number of issued shares of common stock without new consideration to the Company (by way of stock dividends, stock splits, or similar transactions), the total number of shares reserved for issuance under the Amended Directors' Plan and the number of shares covered by each outstanding award will be adjusted so that the aggregate consideration payable to the Company, if any, and the intrinsic value of each such award will not be changed.

Awards may also contain provisions for their continuation, acceleration, immediate vesting, or for other equitable adjustments after changes in the common stock resulting from the reorganization, sale, merger, consolidation, dissolution, liquidation, changes in control or similar occurrences.

Term

The term of the Amended Directors' Plan expires on May 16, 2010. No award may be granted after that date. No award made under the Amended Directors' Plan may have a term of more than ten years from the date of grant or award and an award will terminate no later than three years after termination of director status for any reason other than death.

Amendment

The Board or the Committee may amend, alter or discontinue the Amended Directors' Plan but no such action may be made that will impair prior grants or rights of a director without his or her consent or, if material, be made without shareholder approval.

Federal Income Tax Consequences Relating to the Plan

The following is a brief summary of the Company's understanding of the principal federal income tax consequences of grants made under the Amended Directors' Plan based upon the applicable provisions of the Internal Revenue Code in effect on the date hereof.

Nonqualified Stock Options: An optionee generally will not recognize any taxable income at the time he or she is granted a nonqualified option; however, upon its exercise, the optionee will recognize ordinary income for federal income tax purposes measured by the excess of the then fair market value of the shares over the exercise price. On a subsequent sale or exchange of shares acquired pursuant to the exercise of a nonqualified stock option, the optionee will recognize a taxable gain or loss, measured by the difference between the amount realized on the disposition and the tax basis of such shares. The tax basis will, in general, be the amount paid for the shares plus the amount treated as compensation income at the time the shares were acquired pursuant to the exercise of the option. The Company will be entitled to a deduction for federal income tax purposes at the time and in the same amount as the optionee is

considered to have recognized ordinary income in connection with the exercise of a nonqualified stock option.

Stock Awards: The fair market value of the stock will constitute ordinary income to the participant. Subject to the applicable provisions of the Internal Revenue Code, a deduction for federal income tax purposes will be allowable to the Company in an amount equal to the compensation received by the participant.

Accounting Treatment of Options

Under existing accounting rules, the Company incurs no compensation expense upon the grant of a stock option with an exercise price at least equal to the fair market value of Company common stock on the date of grant. However, in the footnotes to the Company's annual financial statements, the Company sets forth pro forma net income and earnings per share amounts which are calculated as if the Company had elected to recognize compensation expense equal to the fair value of the option on the grant date based on the Black-Scholes option pricing model. On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FAS 123(R), to be known as *Share-Based Payment*. The new standard will require companies to recognize compensation cost for stock options and other stock-based awards based on their fair value, generally measured at the date of grant. Under the amended compliance dates adopted by the SEC, the Company is required to adopt FAS 123(R) in the first fiscal quarter beginning after April 1, 2006.

Required Vote

Approval of this proposal requires the affirmative vote of the holders of a majority of the shares represented at the meeting, in person or by proxy, and entitled to vote thereon, provided that the total vote cast on the proposal represents over 50% in interest of all shares entitled to vote on the proposal. Abstentions will have the same effect as a vote against this proposal; broker non-votes will have no effect on the outcome of the voting on this proposal so long as enough votes are cast to satisfy the 50% requirement.

Consequence of a Negative Vote

In the event that the shareholders do not approve the Amended and Restated 2000 Incentive Stock Plan for Non-Employee Directors, the 2000 Stock Option Plan for Non-Employee Directors would continue in effect in accordance with its current terms and the directors elected or re-elected at the 2005 Annual Meeting will receive stock options for 6,000 shares for each year of the term to which he or she is elected.

The Board of Directors unanimously recommends a vote FOR the approval of the Amended Directors' Plan.

ITEM 3. - APPROVAL OF THE COMPANY'S AMENDED AND RESTATED ARTICLES OF INCORPORATION

Background of Proposal

The Board of Directors approved and proposed for adoption by the shareholders Amended and Restated Articles of Incorporation.

The purposes of the amendment and restatement are:

- to remove unnecessary and outdated references regarding the Company's purpose (Article III);
- to update the description of capital stock (Article IV);
- to delete the business combination restrictions in the Restated Articles of Incorporation and rely upon those in the Wisconsin Business Corporation Law ("WBCL")(Article VII);
- to expressly state in the Amended and Restated Articles of Incorporation the shareholder vote required for certain actions under the provisions of the WBCL applicable to the Company (Article VII); and
- to eliminate the designation of the Series A Preferred Stock.

If this proposal is adopted, the Amended and Restated Articles of Incorporation will not significantly expand or contract the rights of shareholders as they currently exist under the WBCL and the Company's current Restated Articles of Incorporation.

Purpose and Effect of the Amendments

As part of its overall review of the Company's corporate governance practices, the Board has reviewed and evaluated its corporate governance documents, including the Restated Articles of Incorporation. The substance of the Company's Restated Articles of Incorporation has largely been left unchanged since last restated on July 17, 1969. Since that date, the Company has undergone a number of significant corporate changes, and the WBCL, under which the Company is

organized, was thoroughly revised and updated effective as of January 1, 1991. In general, the revised WBCL applies to any Wisconsin corporation with capital stock, regardless of when the corporation was organized. Under the revised WBCL, statutory provisions concerning certain matters remained essentially unaltered, and as to other matters were updated to provide additional flexibility. The revised WBCL grandfathered certain other provisions. Modine was incorporated in Wisconsin in 1916 and, therefore, was grandfathered under these provisions of the revised WBCL. The Board now seeks shareholder approval for its Amended and Restated Articles of Incorporation to remove unnecessary and outdated references and to conform the articles to certain provisions of the WBCL.

If this proposal is adopted, the Amended and Restated Articles of Incorporation will be as set forth in Appendix B to this proxy statement. The changes resulting from the proposed amendment and restatement are shown with deletions indicated by strike-outs and additions indicated by underlining in Appendix B. If adopted, the Amended and Restated Articles of Incorporation will become effective upon filing with the Wisconsin Department of Financial Institutions, which the Company would do promptly after the annual meeting. If the shareholders approve the proposal, at the Board meeting following the annual meeting the Board will consider amendments to the Company's Restated Bylaws that would, among other things, make the Restated Bylaws consistent with the Amended and Restated Articles of Incorporation.

The proposed changes relate primarily to: Article III, Purpose; Article IV, Description of Common Stock; and Article VII, Shareholder Vote Requirement for Certain Actions.

Proposed Changes:

Article III. Purpose

The changes contained in Article III delete references relating to the specific purposes and conduct of Modine's business and eliminate unnecessary, obsolete, and possibly restrictive provisions regarding the issuance of debt and the repurchase of stock.

Article IV. Description of Capital Stock

The proposed changes in Article IV provide the Board with greater flexibility in establishing the terms of a series of preferred stock, as permitted by the WBCL. For example, the proposed changes would permit the Board to issue a series of preferred stock with voting rights that are different from another series of preferred stock.

Article VII. Shareholder Vote Required for Certain Actions

Deletion of Business Combination Restrictions

The proposed changes to Article VII delete the business combination restrictions contained in the Restated Articles of Incorporation that were adopted prior to the enactment of certain anti-takeover statutes included in the WBCL. The WBCL now contains several provisions that may have the effect of discouraging certain takeover proposals or business combinations with respect to a "resident domestic corporation," such as Modine. These provisions, which apply to Modine now, include: (i) limiting the voting power of shareholders who own more than 20% of a company's stock (§180.1150); (ii) requiring a supermajority vote of shareholders, in addition to any vote otherwise required, to approve business combinations with a 10% shareholder not meeting adequacy of price standards (§§180.1130-33); (iii) limiting actions that can be taken while a takeover offer is being made or after a takeover offer has been publicly announced (§180.1134); and (iv) prohibiting a business combination between a company and a 10% shareholder for a period of three years, unless the combination or the acquisition of the 10% interest was approved by the Board of Directors prior to the time the shareholder became a 10% or greater beneficial owner of shares. Following this period, the WBCL permits a business combination with an interested stockholder only if:

- The board of directors approved the acquisition of the stock prior to the acquisition date;
- The business combination is approved by a majority of the outstanding voting shares not beneficially owned by the interested stockholder;
 - The consideration to be received by stockholders meets statutory fair price and form requirements; or
- The business combination is of a type specifically excluded from the coverage of the statute. (§§180.1140-44).

Under the WBCL, a “resident domestic corporation” is defined as a Wisconsin corporation that has a class of voting stock registered under Section 12 of the Securities Exchange Act of 1934 that, as of the stock acquisition date in question, has: (i) its principal offices located in Wisconsin; (ii) significant business operations located in Wisconsin; (iii) more than 10% of the holders of record of its stock who are residents of Wisconsin; or (iv) more than 10% of its shares held of record by residents of Wisconsin. Modine meets the statutory definition of a resident domestic corporation (because it is a publicly held Wisconsin corporation with its principal offices located in Wisconsin). Therefore, the provisions contained in Article VII of the Restated Articles of Incorporation are not necessary since the statutory takeover protections will apply automatically to Modine as long as it meets the definition of a resident domestic corporation.

Existing Supermajority Voting Provisions

Under the grandfathering provisions of the WBCL, a two-thirds shareholder vote requirement for certain fundamental corporate transactions is applicable to corporations organized before January 1, 1973, such as Modine, that have not amended their articles to elect otherwise. The proposed changes to Article VII would expressly set forth the grandfathered statutory two-thirds shareholder vote requirements applicable to Modine for fundamental corporate transactions, such as:

- amendments to the articles of incorporation;
 - mergers and share exchanges;
 - sales of assets;
 - dissolution of the corporation, and
 - revocation of dissolution.

Proposed Article VII would amend the Restated Articles of Incorporation by expressly reflecting and retaining the grandfathered statutory two-thirds shareholder vote requirement applicable to Modine for these actions, and not adopt the lower statutory majority vote, standard for these fundamental transactions that applies to corporations that are not so grandfathered and do not adopt a greater vote requirement.

Additionally, the proposed changes to Article VII include a provision that certain Bylaw provisions (removal of a director from office or amending provisions of the Bylaws) may require a greater shareholder vote than is otherwise required by the WBCL or the Restated Articles. Such Bylaw provisions, unless grandfathered as Modine’s are now, must be authorized by the articles of incorporation. Since Modine is amending its Restated Articles of Incorporation, it is appropriate to include such authority in the Amended and Restated Articles of Incorporation to eliminate any doubt regarding the validity of such provisions.

Although these shareholder voting requirements need not be officially preserved in the Amended and Restated Articles of Incorporation since they are grandfathered under applicable law, the Board of Directors believes that

setting forth these rights in the Amended and Restated Articles of Incorporation is advisable because it puts interested parties on notice of such rights and will avoid uncertainty and confusion about the applicable voting requirements in the future.

Eliminate the Designation of the Series A Preferred Stock

The Amended and Restated Articles of Incorporation would also remove the designation of the 76,000 shares of Series A Preferred Stock relating to Modine's former shareholder rights agreement, terminated by the Board on July 17, 2002. The change would delete an obsolete series designation and restore the shares to authorized but unissued shares of Preferred Stock.

Summary Comparison of Proposed Changes to Restated Articles of Incorporation

Required Vote

Approval of this proposal requires the affirmative vote of at least two-thirds (66 2/3%) of the shares of the Company's common stock outstanding as of the Record Date and entitled to vote on the proposal. Abstentions and broker non-votes will have the same effect as a vote against this proposal.

The Board of Directors recommends a vote FOR the approval of the Amended and Restated Articles of Incorporation.

ITEM 4 - RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of the Board has appointed PricewaterhouseCoopers LLP as the Company's independent auditors for the fiscal year ending March 31, 2006 to audit the consolidated financial statements of the Company. PricewaterhouseCoopers LLP has been the Company's independent certified public accountants since 1935. Before the Audit Committee selected PricewaterhouseCoopers LLP, it carefully considered the qualifications of that firm, including their performance in prior years and their reputation for integrity and for competence in the fields of accounting and auditing.

At the 2004 Annual Meeting, the Company's shareholders ratified the appointment of PricewaterhouseCoopers LLP as the independent auditors of the Company to audit the consolidated financial statements of the Company for the next three fiscal years. However, the Board of Directors has since determined to give the shareholders the opportunity to ratify the appointment of the Company's auditors on an annual basis.

If the shareholders do not ratify the appointment of PricewaterhouseCoopers LLP, the selection of our independent auditors will be reconsidered by the Audit Committee. Approval of this proposal requires the affirmative vote of the holders of a majority of the shares represented at the meeting, in person or by proxy, and entitled to vote thereon, provided a quorum is present. Abstentions will have the same effect as a vote against this proposal.

If, prior to the 2005 Annual Meeting, PricewaterhouseCoopers LLP shall decline to act or its engagement shall be otherwise discontinued by the Board, the Board will appoint other independent auditors whose engagement for any period subsequent to the meeting will be subject to ratification by the shareholders at the 2005 Annual Meeting.

Services provided to the Company and its subsidiaries by PricewaterhouseCoopers LLP in fiscal 2005 and 2004 are described under *Fees to Independent Auditors for Fiscal 2005 and 2004* below.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the 2005 Annual Meeting of Shareholders. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions after the meeting.

The Board recommends that shareholders vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent auditors.

Certain amounts for fiscal 2004 have been reclassified to conform to the fiscal 2005 presentation.

Fees for assistance related to services performed for the Company in response to a U.S. Customs inquiry for a NAFTA certificate of origin verification.

The Audit Committee has determined that the provision of services rendered above that were not related to its audit of the Company's financial statements were at all times compatible with maintaining PricewaterhouseCoopers LLP's independence.

Pre-Approval Policy

Consistent with the rules of the SEC regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation for, and overseeing the work of, the independent auditor. In recognition of this

responsibility, the Audit Committee has included in its charter that it will pre-approve all audit and permitted non-audit services (including the fees and terms thereof) to be performed by the independent auditor. Alternatively, the Committee may form and delegate authority to subcommittees consisting of one or more members when appropriate, including the authority to grant pre-approvals of audit and permitted non-audit services, provided that decisions of such subcommittee to grant pre-approvals shall be presented to the full Audit Committee at its next scheduled meeting. No fees were paid to the independent auditor pursuant to the "de minimis" exception to the foregoing pre-approval policy permitted under the Securities Exchange Act of 1934 and the SEC rules.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors, and persons who beneficially own more than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership of equity securities of Modine and derivative securities of Modine with the SEC. Those "reporting persons" are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based upon a review of those filings and other information furnished by the reporting persons, we believe that all of the Company's reporting persons complied during fiscal 2005 with the reporting requirements of Section 16(a) of the Exchange Act with the exception of Mr. Richardson, Mr. Rulseh and Ms. Kelsey, each of whom, as a result of a communication error, inadvertently filed one report on Form 4 one day late (October 22, 2004) reporting the award of performance-based shares.

ADDITIONAL MATTERS

The Board of Directors is not aware of any other matters that will be presented for action at the 2005 Annual Meeting. Should any additional matters come before the meeting, the persons named in the enclosed proxy will vote on those matters in accordance with their best judgment.

Shareholder Proposals for 2006
