AMERICAN PHYSICIANS SERVICE GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2006
(Unaudited)

1. GENERAL

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements as of and for the three and nine month periods ended September 30, 2006 and 2005 reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. Such adjustments consist of only items of a normal recurring nature.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

These consolidated financial statements have not been audited by our independent registered public accounting firm. The operating results for the interim periods are not necessarily indicative of results for the full fiscal year.

The notes to consolidated financial statements appearing in our Annual Report on Form 10-K for the year ended December 31, 2005 filed with the Securities Exchange Commission should be read in conjunction with this Quarterly Report on Form 10-Q. There have been no significant changes in the information reported in those notes other than from normal business activities.

2. MANAGEMENT'S ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CONTINGENCIES

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

- 10 -

4. GAIN ON SALE OF ASSETS

During the three and nine month periods ended September 30, 2006, we recognized approximately \$141,000 and \$422,000, respectively, of deferred gain related to the November 2001 sale and subsequent leaseback of real estate to Prime Medical (now called HealthTronics, Inc.). Recognition of deferred gains was nearly identical in both periods in 2005 as well. Due to our continuing involvement in the property, we deferred recognizing approximately \$2,400,000 of the approximately \$5,100,000 gain and recognized it in earnings, as a reduction of rent expense, monthly through September 2006. As of September 30, 2006 no more of these deferred gains remain to be recognized. In addition, 15% of the gain (\$760,000) related to our then 15% ownership in the purchaser, was deferred. As our ownership percentage in HealthTronics declines through our sales of HealthTronics common stock, we recognize these gains proportionately to our reduction of our interest in HealthTronics. During the three and nine month periods ended September 30, 2006 we recognized approximately \$13,000 and \$15,000, respectively, of these deferred gains as a result of HealthTronics common stock sold in these periods. As of September 30, 2006, there remained a balance of approximately \$31,000 in deferred gains to be recognized in future periods.

5. GAIN ON INVESTMENTS

Our gains resulted primarily from the sales of available-for-sale equity and fixed income securities. During the three and nine month periods

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

ended September 30, 2006 we recognized gains of \$90,000 and \$110,000, respectively, resulting from sales of Healthtronics common stock and from scheduled maturities of fixed income securities. These gains are down substantially from the comparative periods in 2005 where we recognized \$1,114,000 and \$3,091,000 in the three and nine month periods, respectively, as a result of selling far fewer shares of an equity security in 2006 resulting from a drop in its market value.

6. Loss on Impairment of Investment

Although there has been no loss taken in 2006, we had a loss in 2005 due to the impairment in value of our investment in FIC common stock. During 2004, the value of our investment in FIC had declined significantly. In October 2004, we determined that this decline in market price should be considered "other than temporary" as defined in Statements of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, as amended. Consequently, we recorded pre-tax charges to earnings totaling \$2,567,000 in 2004. These charges reduced our cost basis in FIC from \$5,647,000, or \$14.67 per share, to \$3,080,000, or \$8.00 per share which was equal to the quoted market price of FIC shares on December 31, 2004. During the first nine months of 2005, we took additional pre-tax charges to earnings totaling \$135,000 further reducing our cost basis in FIC to \$2,945,000, or \$7.65 per share. While we continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by FIC's late SEC filings, together with the lack of its current financial information, dictated that the 2004 and 2005 declines should be viewed as other than temporary. In July 2005, FIC was able to file its 2003 Form 10-K and in October, 2006 FIC filed its 2004 Form 10-K, but it still has yet to file any 2005 Forms 10-Q or 10-K and thus continues to be de-listed on the NASDAQ Stock Market.

- 11 -

7. GAIN ON FORGIVENESS OF DEBT

The gain of \$24,000 during the three and nine months ended September 30, 2005 represents that amount of liability that was released in the respective periods by participants in our loan to a former affiliate, net of any interest due them from prior period payments made by that affiliate. Due to poor operating results, a former affiliate, Uncommon Care, was in default and not making scheduled payments under its loan agreement with us in which the participations had been sold. As a result, the loan participants released us from any obligations under the participation agreements. The \$24,000 recorded in the third quarter of 2005 represents the final loan obligation to be released. Accordingly, no such gains were recorded during 2006.

8. CASH - RESTRICTED

Restricted cash represents cash deposits advanced from customers for trade claim transactions that do not close by the end of the period. It occurs when a customer remits payment for a transaction by check instead of via wire transfer. As checks of this size normally take several business days to clear, we ask our customers to pay in advance for transactions expected to close in the near future. At the time of receipt, Cash - Restricted and Accounts Payable are increased for an equal amount as no part of this cash is ours until the transaction closes.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

9. INVESTMENT IN AVAILABLE-FOR-SALE EQUITY SECURITIES

A portion of this balance sheet account is comprised of our investment in FIC common stock. As mentioned in Note 6 above, during 2005 and 2004, we recognized "other than temporary" impairment losses and, accordingly, our original cost basis in the 385,000 shares of FIC common stock we own has been reduced from \$14.67 per share to \$7.65 per share during 2004 and 2005. The effect of any "other than temporary" impairment loss is to reclassify from accumulated other comprehensive income (loss) the unrealized loss to realized loss in the statement of operations. We classify all of these shares as securities available-for-sale and record temporary unrealized changes in their value, net of tax, in our balance sheet as part of Accumulated Other Comprehensive Income (Loss) in Stockholders' Equity. Changes in their fair market value deemed to be "other than temporary" are charged to earnings in the period that the determination was made. As FIC has traded above \$7.65 per share throughout 2006, no impairment charges were necessary for either the three or nine month periods ended September 30, 2006.

10. INVESTMENT IN AVAILABLE-FOR-SALE FIXED INCOME SECURITIES

We have invested primarily in U.S. government-backed securities with maturities varying from one to two years, as well as three corporate bonds with Standard and Poor's ratings of no lower than B (investment grade).

- 12 -

11. PREPAID AND OTHER CURRENT ASSETS

In June 2006 we announced plans for a strategic merger with our medical malpractice partner, American Physicians Insurance Exchange ("APIE"). Both ours and APIE's Boards of Directors voted to approve the transaction subject to approval by the Texas Department of Insurance, necessary filings with the SEC and the approval of the shareholders of APS and subscriber-policyholders of APIE. We account for this transaction consistent with Statement of Financial Standards No. 141, Business Combinations, whereby direct costs of the business combination are capitalized and become part of the total purchase price. Should the merger not take place, these direct costs would be expensed in the period that it is determined that the merger will not occur. As of September 30, 2006, we have capitalized a total of \$532,000, comprised primarily of legal, accounting, auditing and tax consulting fees incurred by us related to this proposed, pending transaction.

12. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consists of the following:

	September 30 2006	December 31 2005
Commissions payable	\$ 920,000	\$ 1,258,000
Taxes payable	73,000	219,000
Vacation	171,000	161,000
401(k) plan matching	169,000	208,000

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Other accrued liabilities	10,000	66,000
	-----	-----
	\$ 1,343,000	\$ 1,912,000
	=====	=====

13. NET INCOME PER SHARE

Basic income per share is based on the weighted average shares outstanding without any dilutive effects considered. Diluted income per share reflects dilution from all contingently issuable shares, such as options and convertible debt. A reconciliation of income and weighted average shares outstanding used in the calculation of basic and diluted income per share from operations follows:

- 13 -

15. STOCK-BASED COMPENSATION

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123 (R)). The standard amends SFAS 123, Accounting for Stock-Based Compensation, and concludes that services received from employees in exchange for stock-based compensation results in a cost to the employer that must be recognized in the financial statements. The cost of such awards should be measured at fair value at grant date.

- 17 -

On January 1, 2006 we adopted SFAS No. 123R. We use the Black-Scholes-Merton option-pricing model to determine the fair value of stock-based awards, consistent with that used for pro forma disclosures under SFAS No. 123, Accounting for Stock-Based Compensation. We have elected the

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

modified prospective transition method as permitted by SFAS No. 123R and accordingly prior periods have not been restated to reflect the impact of SFAS No. 123R. SFAS No. 123R requires that stock-based compensation be recorded for all new and unvested stock options expected to vest as the requisite service is rendered beginning January 1, 2006, the first day of our 2006 fiscal year. Stock-based compensation expense for awards granted on or before December 31, 2005, but unvested as of that date, is based on the grant date fair value as determined under the pro forma provisions of SFAS No. 123. For the three and nine months ended September 30, 2006 we recorded compensation cost related to stock options of \$32,000 and \$189,000 and a related reduction in income taxes of \$11,000 and \$64,000, respectively. The compensation cost is the total fair value, at date of grant, of shares that vested during the three and nine month periods. No compensation costs were capitalized in the three and nine month periods ended September 30, 2006.

During the three and nine month periods ended September 30, 2006, 48,000 and 159,000 options were exercised with an intrinsic value of \$560,000 and \$1,666,000, respectively. We received proceeds of \$287,000 and \$791,000 from the exercise of these options during the three and nine month periods ended September 30, 2006. Based on unvested options outstanding at September 30, 2006 compensation costs to be recorded in future periods are expected to be recognized as follows: 2006, \$32,000; 2007, \$21,000; 2008, \$19,000; and 2009, \$4,000.

We have adopted, with shareholder approval, the "2005 Incentive and Non-Qualified Stock Option Plan" ("Incentive Plan"). The Incentive Plan provides for the issuance of up to 350,000 shares of common stock to our directors and key employees. A total of 153,000 of these options have been granted as of September 30, 2006 and 197,000 are available for grants. Of those granted, 5,000 shares have been exercised, 133,000 options are exercisable and 15,000 are not yet exercisable. The previous plan, "1995 Incentive and Non-Qualified Stock Option Plan", provided for the issuance of 1,600,000 shares of common stock to our directors and key employees. All of the approved options have been granted as of September 30, 2006, 1,136,000 shares have been exercised, 264,000 shares are exercisable, 41,000 are not yet exercisable and 159,000 options have been cancelled. Upon the exercise of an option we issue the shares from our authorized, but un-issued shares.

The exercise price for each non-qualified option share is determined by the Compensation Committee of the Board of Directors ("the Committee"). The exercise price of a qualified incentive stock option has to be at least 100% of the fair market value of such shares on the date of grant of the option. Under the Plans, option grants are limited to a maximum of ten-year terms; however, the Committee has issued all currently outstanding grants with five-year terms. The Committee also determines vesting for each option grant and traditionally has had options vest in three approximately equal annual installments beginning one year from the date of grant.

- 18 -

Presented below is a summary of the stock options held by our employees and our directors and the related transactions for the three and nine months ended September 30, 2006.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006		2006	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Balance at January 1	501,000	\$9.16	573,000	\$7.92
Options granted	--	--	40,000	13.94
Options exercised	(48,000)	6.01	(159,000)	4.97
Options forfeited/expired	--	--	--	--
Balance at end of period	453,000	\$9.49	453,000	\$9.49
Options exercisable	397,000	\$9.35	397,000	\$9.35

The weighted average fair value of Company stock options granted is \$3.87 per option for the nine months ended September 30, 2006. No options were granted in the three month period ended September 30, 2006. The fair value of the options was calculated using the Black-Scholes-Merton option pricing model with the following assumptions:

	Nine months ended September 30, 2006
Expected option term:	3.7 years
Expected volatility	0.350
Expected dividend yield	2.01%
Risk-free rate of return	4.33%

The expected volatility assumptions we used are based on the historical volatility of our common stock over the most recent period commensurate with the estimated expected life of our stock options, such estimated life being based on the historical experience of our stock option exercises. The following table summarizes the Company's options outstanding and exercisable options at September 30, 2006:

- 19 -

Stock Options Outstanding			Stock Options E
Weighted Average Exercise	Aggregate Intrinsic	Average Remaining Contractual	Weighted Average Exercise

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Shares -----	Price -----	Value (1) -----	Life -----	Shares -----	Price -----
453,000	\$9.49	3,238,000	2.8 yrs.	397,000	9.35

(1) Based on the \$16.63 closing price of our stock at September 30, 2006.

Prior to the adoption of SFAS No. 123R, we adopted the disclosure-only provision of SFAS No. 123, but applied APB Opinion No. 25, "Accounting for Stock Issued to Employees", in accounting for our stock option plans. No compensation expense was recognized for the three and nine months ended September 30, 2005 under the provisions of APB No. 25. If we had elected to recognize compensation expense for options granted based on their fair values at the grant dates, consistent with Statement 123, net income and earnings per share would have changed to the pro forma amounts indicated below:

	Three Months Ended September 30, 2005 -----
Net income as reported	\$1,395,000
Deduct: Total additional stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(45,000) -----
Pro forma net income	\$1,350,000 =====
Net income per share	
Basic - as reported	\$0.52 =====
Basic - pro forma	\$0.50 =====
Diluted - as reported	\$0.48 =====
Diluted - pro forma	\$0.47 =====

- 20 -

16. RECENT ACCOUNTING PRONOUNCEMENTS

In February, 2006 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 155, Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

and 140. SFAS 155 becomes effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. We have not yet determined the impact this interpretation will have on our results from operations or financial position.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 157, "Accounting for Fair Value Measurements", effective for fiscal years beginning after November 15, 2007. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 158, "Accounting for Defined Benefit and Other Postretirement Plans" effective as of the end of the fiscal year ending after December 15, 2006. This Statement improves financial reporting by requiring an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. This Statement also improves financial reporting by requiring an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

- 21 -

17. PLANS FOR A STRATEGIC MERGER

On June 5, 2006 we announced plans for a strategic merger with our medical malpractice partner, American Physicians Insurance Exchange ("APIE").

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Both APSG's and APIE's boards of directors voted to approve the transaction subject to approval by the Texas Department of Insurance, necessary filings with the SEC and the approval of the shareholders of APSG and subscriber-policyholders of APIE. The original purchase price was \$33 million, comprised of approximately 1.7 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately \$10.4 million in obligations, which will be converted to APS preferred stock with a cash redemption requirement. On August 24, 2006, we announced that we agreed to an increase in the purchase price of APIE, which was also approved by APIE. The revised purchase price is \$39 million, comprised of approximately 2.1 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately \$10.4 million in obligations, which will be converted to APS preferred stock with a 3% dividend and a cash redemption requirement payable over ten years. We can give no assurances that this merger will close, or if it does, that there will not be further changes to the terms of the deal. We will account for this transaction consistent with the Statement of Financial Standards No. 141, "Business Combinations", whereby direct costs of the business combination are capitalized and become part of the total purchase price.

- 22 -

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward-Looking Statements

Our statements contained in this report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, hopes, intentions or strategies regarding the future. You should not place undue reliance on forward-looking statements. All forward-looking statements included in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from those in the forward-looking statements. In addition to any risks and uncertainties specifically identified in the text surrounding the forward-looking statements, you should consult our reports on Forms 10-K and our other filings under the Securities Act of 1933 and the Securities Exchange Act of 1934, for factors that could cause our actual results to differ materially from those presented.

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors and legislative, judicial and other governmental authorities and officials. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Any of these assumptions

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate.

GENERAL

We provide (1) insurance services, including management and agency services to a medical malpractice insurance company, and (2) financial services, including brokerage and investment services to individuals and institutions.

INSURANCE SERVICES. Through Insurance Services we provide management and agency services to a medical malpractice insurance company, APIE, through the following subsidiary:

- o FMI. APS Facilities Management, Inc., dba APMC Insurance Services, Inc., or FMI, provides management and administrative services to APIE, a regional insurance exchange that sells medical professional liability insurance only to its physician subscribers, who pay annual insurance premiums and maintenance fees to

- 23 -

APIE. APIE is governed by a physician board of directors. Pursuant to a management agreement and the direction of this board, FMI manages and operates APIE, including performing policy issuance, claims investigation and settlement, and all other management and operational functions. As a management fee, FMI receives a percentage of APIE's earned premiums and a portion of APIE's profit, subject to a cap based on premium levels. We recognize revenues for the management fee portion based on a percentage of earned premium on a monthly basis, and we recognize revenues on profit sharing in the fourth quarter, when it is certain the managed company will have an annual profit. FMI's assets are not subject to APIE policyholder claims.

FINANCIAL SERVICES. We provide investment and investment advisory services to institutions and individuals throughout the United States through the following subsidiaries:

- o APS FINANCIAL. APS Financial is a fully licensed broker/dealer that provides brokerage and investment services primarily to institutional and high net worth individual clients. In addition, APS Financial earns fees through investment banking transactions, namely, by assisting public and private corporations in raising funds in capital markets. APS Financial also provides portfolio accounting, analysis, and other services to insurance companies, banks and public funds. We recognize commissions revenue, and the related compensation expense, on a trade date basis. We recognize investment banking fees, and the related compensation expense, when the transaction is closed and we are reasonably assured that we will collect our fee.
- o APS CLEARING. APS Clearing is dedicated to the clearing and settlement of trades involving syndicated bank loans, trade claims and distressed private loan portfolios. Trade claims are private debt instruments representing a pre-petition claim on a debtor's estate. We recognize commissions revenue, and the related compensation expense, when the transaction is complete and fully funded.
- o ASSET MANAGEMENT. Asset Management manages fixed income and equity assets for institutional and individual clients on a fee basis. We recognize fee revenues monthly based on the amount of funds under management.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

OTHER

As of September 30, 2006, we have the following significant investments accounted for as available-for-sale securities: (1) we own less than 1% of the outstanding common stock of HealthTronics, Inc., and (2) we own approximately 4% of the outstanding common stock of Financial Industries Corporation. We account for these

- 24 -

investments as available-for-sale securities, which means they are reflected on our consolidated balance sheets at fair value, and fluctuations in fair value are recognized as unrealized gains or losses excluded from earnings and reported as a separate component of stockholders' equity, net of income taxes.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to: impairment of assets; bad debts; income taxes; and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies and estimates affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. We periodically review the carrying value of our assets to determine if events and circumstances exist indicating that assets might be impaired. If facts and circumstances support this possibility of impairment, our management will prepare undiscounted and discounted cash flow projections, which require judgments that are both subjective and complex. Management may also obtain independent valuations.

Our financial services revenues are composed primarily of commissions on securities trades, fees from investment banking transactions, commissions from clearing of trade claims and fees from asset management. Revenues related to securities transactions are recognized on a trade date basis. Revenues from the clearing and settlement of trades involving syndicated bank loans, trade claims and distressed private loan portfolios are recognized when the transaction is complete and fully funded. Revenues from investment banking are recognized when the transaction is closed and we are reasonably assured that we will collect our fee. Asset management fees are recognized as a percentage of assets under management during the period based upon the terms of agreements with the applicable customers.

Our insurance service revenues related to management fees are recognized monthly at 13.5% of the earned premiums of the managed company. We also share equally any profits of the managed company, up to a maximum of 3% of the earned insurance premiums. Any past losses of the managed company are carried forward and applied against earnings before any profits are shared. The profit sharing component is recorded in the fourth quarter based on the audited financial results of the managed company.

STOCK-BASED COMPENSATION

In December 2004, the FASB issued a revision ("SFAS No. 123(R)") to SFAS No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"), and we were required to adopt SFAS No. 123(R) in the first quarter of 2006. SFAS No. 123(R) supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), and related Interpretations, and requires that all stock-based compensation, including options, be expensed at fair value, as of the grant date, over the vesting period. Companies are required to use an option pricing model (e.g.: Black-Scholes or Binomial) to determine compensation expense, consistent with the model previously used in the already required disclosures of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. The adoption of SFAS No. 123(R) has not had a material effect on our financial position or cash flow. The effect on our operations is indicated below.

At September 30, 2006, we have several stock-based compensation plans, which are described more fully in Note 13 to the audited consolidated financial statements contained in our most recently filed Annual Report on Form 10-K. Prior to January 1, 2006, we accounted for these plans under the recognition and measurement principles of APB No. 25, under which stock-based employee compensation cost was not reflected in net income, as all options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. In accordance with SFAS No. 123, as amended by SFAS No. 148, we provided footnote disclosure of the pro forma stock-based compensation cost, net loss and net loss per share as if the fair-value based method of expense recognition and measurement prescribed by SFAS No. 123 had been applied to all employee options.

As a result of adopting SFAS No. 123(R) on January 1, 2006, our pretax income for the nine months ended September 30, 2006 is \$189,000 less than it would have been if we had continued to account for stock-based compensation under APB No. 25. Basic and diluted net income per share would be unchanged if the Company had not adopted SFAS No. 123(R). The adoption of SFAS No. 123(R) had no effect on our Statement of Cash Flows, as stock option expense is a non-cash charge.

BUSINESS COMBINATIONS

In June 2001, the FASB issued SFAS No. 141, "Business Combinations" ("SFAS No. 141"). This pronouncement changed the accounting treatment for all business combinations to the purchase method. Direct costs of the business combination are capitalized and become part of the total purchase price.

On June 6, 2006 we announced plans for a strategic merger with our medical malpractice partner, American Physicians Insurance Exchange ("APIE"). Both ours and APIE's boards of directors voted to approve the transaction, anticipating a completion subject to approval by the Texas Department of Insurance, necessary

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

filings with the SEC and the approval of the shareholders of APSG and subscriber-policyholders of APIE. The original purchase price was \$33 million, comprised of approximately 1.7 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately \$10.4 million in obligations, which will be converted to APS preferred stock with a cash redemption requirement. On August 24, 2006, we announced that we agreed to an increase in the purchase price of APIE, which was also approved by APIE. The revised purchase price is \$39 million, comprised of approximately 2.1 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately \$10.4 million in obligations, which will be converted to APS preferred stock with a 3% dividend and a cash redemption requirement payable over ten years. We can give no assurances that this merger will close, or if it does, that there will not be further changes to the terms of the deal. Should the merger not take place, the direct costs of the merger would be expensed in the period that it is determined that the merger will not occur. As of September 30, 2006, we have capitalized a total of \$532,000, comprised primarily of legal, accounting, auditing and tax consulting fees incurred by us related to this proposed, pending transaction.

RESULTS OF OPERATIONS

REVENUES

Revenues from operations decreased \$2,413,000 (26%) and \$900,000 (4%) in the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. Our operating income decreased \$643,000 (69%) and \$522,000 (24%) in the current year three and nine months, respectively, compared to the same periods in 2005. Our net income decreased \$986,000 (71%) and \$2,046,000 (57%) in the current year three and nine months, respectively, compared to the same periods in 2005. Lastly, our diluted net income per share decreased \$0.34 (71%) and \$0.71 (57%) in the current year three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. The reasons for these changes are described below.

INSURANCE SERVICES

Total revenues from our insurance services segment decreased \$6,000 (0%) for the three months but increased \$94,000 (1%) for the nine month periods ended September 30, 2006, compared to the same periods in 2005. The current quarter decrease in revenues is mainly attributable to a management fee revenue decrease of \$25,000 (1%) as a result

- 27 -

of lower earned premiums at APIE, our managed medical malpractice insurance company, due to rate decreases implemented in the latter part of 2005. This has resulted in lower written premium of \$1.1 million for the nine months ended September 30, 2006 as compared to the same period for 2005. While planned rate decreases have lowered written premium, policyholder retention remains strong at greater than 90% for APIE. Management fee revenues for the nine months ended September 30, 2006 decreased \$24,000 (0%) over the comparable period for 2005 for the same reasons noted above for the current quarter. Pass through commissions increased by \$58,000 (4%) in the current quarter as a result of higher effective commission rates paid to third party agents in order to increase market share as compared to the same period in 2005. For the nine months ended September 30, 2006, pass through commission revenues were \$236,000 (7%) higher than in the same period in 2005 as commission rates and premiums

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

written through agents for new business at APIE remained higher in 2006. As noted in the following paragraph, commissions paid to third party independent agents increased by an equivalent amount, resulting in no impact on net income. Finally, risk management fees decreased \$25,000 (60%) and \$79,000 (45%) for the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005, as a result of fewer renewals requiring these services and the discontinuation of a high risk management program at the end of 2005. This decrease in risk management fees is the result of two key factors. First, fees are lower due to an improved claims environment following tort reform legislation enacted in 2003, resulting in fewer new business and renewal accounts being placed into the risk management program and thus being required to pay for these services. Second, risk management services continue to be performed, but due to increased competition APSG has occasionally provided these services at no charge.

Insurance services expenses increased \$216,000 (7%) and \$692,000 (9%) for the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. Payroll expense increased \$117,000 (15%) and \$377,000 (16%) for the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005 due in part to merit increases, the addition of new managerial positions, additional staff positions for business development and physician services departments and expensing stock options as required by FAS123(R). Professional fees increased \$58,000 (102%) and \$105,000 (57%) in the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005 due to consulting costs incurred in the analysis of new policy and claims software. Pass through commissions expense increased \$58,000 (4%) and \$236,000 (7%) for the three and nine months ended September 30, 2006 compared to the same period in 2005 due to the above-mentioned increase in commissions paid to third party independent agents. Lastly, advertising expense increased \$23,000 (141%) and \$23,000 (29%) for the three and nine months ended September 30, 2006 compared to the same period in 2005 due to consulting costs associated with increased marketing efforts.

- 28 -

FINANCIAL SERVICES

Our financial services revenue decreased \$2,407,000 (44%) and \$994,000 (8%) in the three and nine months ended September 30, 2006, respectively compared to the same periods in 2005. The primary contributing factor to these lower revenue figures is the fact that commissions earned at our broker/dealer company, APS Financial, were down in 2006. Commission income, derived mostly from transactions in the fixed income market in both investment and non-investment grade securities, were down \$2,915,000 (58%) and \$3,935,000 (34%) for the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. There continues to be various economic factors causing this slowdown in trading activity including poor investment fundamentals such as a rising interest rate environment with an inverted yield curve, volatility in certain corporate sectors and volatile energy prices. As a result of these difficult conditions APS Financial consolidated trading into its main office in Austin, Texas and closed its Houston office in the third quarter of 2006. Though the Houston office generated commission revenues of approximately \$1.2 million during the first nine months of 2006 and \$2.6 million for all of 2005, it had

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

become unprofitable during the past twelve months. Partially offsetting lower commissions were revenues derived from other businesses, including investment banking and distressed bank debt/trade claim trading which contributed in the aggregate an increase of \$508,000 (148%) and \$2,943,000 (483%) for the current year three and nine month periods, respectively, compared to the same periods in 2005.

Our financial services expenses decreased \$1,883,000 (39%) and \$661,000 (6%) in the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. The primary reason for the decrease was a \$1,628,000 (49%) and \$932,200 (13%) decrease in commission expense in the current three and nine month periods, respectively, compared to the same periods in 2005 as a result of the above-mentioned decline in broker/dealer commissions earned. Adding to the variance in the current year quarter was a decrease of \$227,000 (57%) in incentive compensation expense, the result of lower net earnings in the period. Partially offsetting these variances was an increase in payroll of \$43,000 (9%) and \$291,000 (23%) for the three and nine months periods in 2006, respectively, as compared to the same periods in 2005 as a result of continued personnel expansion in our investment banking and bank debt/trade claim businesses.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses decreased \$137,000 (24%) and \$525,000 (27%) in the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. The current year three month decrease is primarily due to lower incentive compensation expense. Incentive compensation, a formula driven expense calculated in part on net earnings, decreased \$109,000 (46%) due to much lower

- 29 -

investment gains in 2006. The current year nine month decrease is due to lower legal and professional fees, lower salaries and lower management incentive compensation. Salaries declined \$79,000 (13%) in the nine month period ended September 30, 2006 compared to the same period in 2005 as a result of a severance payment in 2005 to a former employee who has since been retained as a tax consultant. Legal and professional fees declined \$91,000 (36%) during the current year nine months as costs associated with internal controls disclosures and procedures under the Sarbanes-Oxley Act of 2002 ("SOX 404") compliance are minimal in 2006 compared to the first nine months of 2005 when we were ramping up our compliance efforts. With the continued uncertainty as to what, if any, relief is to be granted to non-accelerated filers like us, we have slowed our efforts in an attempt to control future SOX 404 compliance costs. Incentive compensation expense decreased \$299,000 (44%) in the current nine month period compared to the same period in 2005 for the same reason as described in the three month variance above.

GAIN ON SALE OF ASSETS

During the three and nine months ended September 30, 2006, we recognized approximately \$141,000 and \$422,000, respectively, of deferred gain related to the November 2001 sale and subsequent leaseback of real estate to Prime Medical (now called HealthTronics, Inc.). Due to our continuing involvement in the property, we deferred recognizing approximately \$2,400,000 of the approximately \$5,100,000 gain and are recognizing it in earnings, as a reduction of rent

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

expense, monthly through September 2006. As of September 30, 2006 no more of these deferred gains remain to be recognized. In addition, 15% of the gain (\$760,000) related to our then 15% ownership in the purchaser, was deferred. As our ownership percentage in HealthTronics declines through our sales of HealthTronics common stock, we recognize these gains proportionately to our reduction of our interest in HealthTronics. During the three and nine months ended September 30, 2006 we recognized approximately \$13,000 and \$15,000, respectively, of these deferred gains as a result of HealthTronics common stock sold in the periods. As of September 30, 2006, there remained a balance of approximately \$31,000 to be recognized in future periods.

GAIN ON INVESTMENTS

Gains on investments decreased \$1,024,000 (92%) and \$2,981,000 (96%) in the current year three month and nine month periods, respectively, due to the sale of a large number of available-for-sale equity securities in both comparative periods of 2005 compared to sales in 2006. Sales of these securities are down in 2006 as a result of fewer shares held by us and a decline in their market price.

- 30 -

LOSS ON IMPAIRMENT OF INVESTMENT

The losses recorded in the three and nine month periods in 2005 represented write-downs of our investments an equity security and in a bond held for investment after determining that market declines in the value of these securities should be considered "other than temporary". No further impairment charges have occurred in 2006 as the bonds were sold in February 2006 and the common stock price of the equity security has not declined further. The equity investment referred to is the shares of common stock we own in Financial Industries Corporation ("FIC"). We record pretax charges to earnings should the common stock price of the security on the last day of each interim or annual period fall below the adjusted cost basis of our investment in FIC. In the first nine months of 2005, that charge totaled \$136,000. As our adjusted cost basis in FIC had been lowered to \$7.65 and with the stock price trading above \$8.00 per share in 2006, there had been no need to take additional charges 2006. We will continue to monitor and evaluate the situation at Financial Industries.

INTEREST INCOME

Our interest income increased \$82,000 (49%) and \$255,000 (62%) in the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. The current year increases were due to higher interest rates as well as a much higher balance of interest-bearing fixed income securities. At September 30, 2006 there was a balance in investment securities held of \$15.3 million compared to a balance of \$12.3 million held at September 30, 2005.

OTHER INCOME

Our other income increased \$13,000 (433%) but decreased \$61,000 (70%)

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

for the three and nine month periods ended September 30, 2006, respectively, compared to the same periods in 2005. The increase in the current year three month period was due to the receipt of management fees from a former affiliate in excess of the fees received from them during this same period in 2005. The decrease in the current year nine month period is primarily due to inventory losses on securities held at APS Financial totaling \$38,000 in 2006 compared to inventory gains of \$20,000 in 2005.

- 31 -

LIQUIDITY AND CAPITAL RESOURCES

WORKING CAPITAL

Our net working capital was \$18,197,000 and \$15,880,000 at September 30, 2006 and December 31, 2005, respectively. The increase in the current year was due primarily to cash received from operations. Cash and cash equivalents decreased \$2,641,000 in the first nine months of 2006 as cash provided by operations was more than offset by net cash used in investing and financing activities. Cash from operating activities increased \$1,125,000 primarily due to cash received from current year earnings plus cash received from APIE for profit sharing (\$2,000,000) that was recorded in 2005. Partially offsetting this was cash paid in 2006 for incentive compensation earned and accrued in 2005 (\$2,200,000) and estimated 2006 federal income tax payments (\$754,000). Cash from investing activities decreased \$1,954,000 as purchases of available-for-sale securities exceeded cash received from the sales of other available-for-sale securities. In addition, we made a performance driven loan in January, 2006 in the amount of \$238,000 to a high-producing broker. This loan is forgivable evenly over a period of twenty four months, the life of the loan. Cash from financing activities decreased \$1,812,000 due to purchases of treasury stock exceeding cash received from the exercise of employee stock options as well as from dividends paid during the second quarter of 2006 in the amount of \$820,000. For details of the amounts described above, refer to the Condensed Consolidated Statements of Cash Flows on page 7 of this Form 10-Q. Restricted cash in the amount of \$3,523,000 did not affect working capital as an equal amount of current trade payables was recorded as of September 30, 2006. See Note 8 for an explanation of restricted cash.

Historically, we have maintained strong liquidity and, as a result, we have been able to satisfy our operational and capital expenditure requirements with cash generated from our operating and investing activities. These same sources of funds have also allowed us to pursue investment and expansion opportunities consistent with our growth plans. Although there can be no assurance our operating activities will provide positive cash flow in 2006, we are optimistic that our working capital requirements will be met for the foreseeable future for the following reasons: (1) our current cash position is very strong, with a balance of approximately \$3.6 million; (2) our investments in long term available-for-sale equity and short and long term fixed income securities could provide an additional \$16.7 million should the need arise; and (3) we renewed a line of credit in April 2006 that is described below.

LINE OF CREDIT

In April 2006 we renewed a \$3.0 million line of credit that was originally established in November 2003 with PlainsCapital Bank. The loan calls for interest payments only to be made on any amount drawn until April 15, 2007, when the entire amount of the note, principal and interest then remaining

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

unpaid, is due and payable. At September 30, 2006, there were no draws taken against this line of credit. We are in compliance with the covenants of the loan agreement, including requirements for a minimum of \$5.0 million of unencumbered liquidity and a minimum 2 to 1 net worth ratio.

- 32 -

CAPITAL EXPENDITURES

Our capital expenditures for equipment were \$131,000 in the nine months of 2006. The majority of these expenditures were primarily hardware and software upgrades to our computer network. We expect capital expenditures in 2006 to be approximately \$175,000 and to be funded through cash on hand.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

In February, 2006 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 155, Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140. SFAS 155 becomes effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. We have not yet determined the impact this interpretation will have on our results from operations or financial position.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 157, "Accounting for Fair Value Measurements", effective for fiscal years beginning after November 15, 2007. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute.

- 33 -

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 158, "Accounting for Defined Benefit and Other Postretirement Plans" effective as of the end of the fiscal year ending after December 15, 2006. This Statement improves financial reporting by requiring an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. This Statement also improves financial reporting by requiring an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have exposure to changes in interest rates and the market values of our investments but have no material exposure to fluctuations in foreign currency.

INTEREST RATE RISK

Our exposure to market risk for changes in interest rates relates to both our investment portfolio and our revenues generated through commissions at our financial services segment. A one percent change in interest rates on our current cash and fixed income securities balance of approximately \$19 million would result in a change of \$190,000 annually in interest income. All of our marketable fixed income securities are designated as available-for-sale and, accordingly, are presented at fair value on our balance sheets. Fixed rate securities may have their fair market value adversely affected due to a rise in interest rates, and we may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates.

Changes in interest rates could have an impact at our broker/dealer subsidiary, APS Financial. The general level of interest rates may trend higher or lower in 2006, and this move may impact our level of business in different fixed-income sectors. If a generally improving economy is the impetus behind higher rates, then while our investment grade business may drop off, our high yield business might improve with improving credit conditions. A volatile interest rate environment in 2006 could also impact our business as this type of market condition can lead to investor uncertainty and their corresponding willingness to commit funds.

- 34 -

As we currently have no debt and do not anticipate the need to take on any debt in 2006, interest rate changes will have no impact on our financial position as it pertains to interest expense.

INVESTMENT RISK

As of September 30, 2006, our recorded basis in debt and equity

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

securities was approximately \$20.0 million. We regularly review the carrying value of our investments and identify and record losses when events and circumstances indicate that such declines in the fair value of such assets below our accounting basis are other-than-temporary.

Item 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in reaching a reasonable level of assurance of achieving management's desired controls and procedures objectives.

There have been no changes in internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

As part of a continuing effort to improve our business processes we are evaluating our internal controls and may update certain controls to accommodate any modifications to our business processes or accounting procedures.

- 35 -

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

 We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

 Items 2(a) through(d) are inapplicable.

(e) Stock Repurchases

Period	(a) Total Number of shares Purchased (1)	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as of Publicl Announced P or Program
	-----	-----	-----
Jul 1, 2006 - Jul 31, 2006	4,711	\$ 14.39	4,711
Aug 1, 2006 - Aug 31, 2006	11,402	\$ 14.34	11,402
Sep 1, 2006 - Sep 30, 2006	1,000	\$ 17.12	1,000

(1) Of the total shares purchased 17,113 were purchased in open market transactions and none were purchased in private transactions. Our original share repurchase program was announced August 17, 2004 and was increased in \$2,000,000 increments on December 12, 2005 and on June 30, 2006.
