## Item 8.01. Other Events

On June 8, 2015, Southwestern Public Service Company (SPS), a New Mexico corporation, and a wholly owned subsidiary of Xcel Energy Inc., filed an electric rate case with the New Mexico Public Regulation Commission (NMPRC) for an increase in base rates for a net amount of \$1.4 million for the New Mexico retail jurisdiction. The proposed net increase reflects an increase in non-fuel base rates of \$31.5 million and a base fuel decrease of \$30.1 million. The decrease in base fuel revenue will impact the amounts collected through the fuel and purchased power adjustment clause. The rate filing is based on a 2016 forecast test year, a requested return on equity (ROE) of 10.25 percent, a jurisdictional electric rate base of \$777.9 million and an equity ratio of 53.97 percent.

The major components of the requested rate increase are summarized below:

(Millions of Dollars)	Request	
Changes in allocators	\$31.8	
Capital investments, primarily transmission and distribution additions	29.9	
2014 base period deficiency	6.1	
Depreciation	4.0	
Operating and maintenance expense	3.7	
ROE, reflecting an increase from 9.96 percent to 10.25 percent	1.9	
Transmission revenue and expense	1.2	
Revenue associated with load growth	(45.4)	)
Other, net	(1.7)	)
Increase in non-fuel base rates	31.5	
Reduced revenue associated with base fuel	(30.1)	)
Total electric rate increase	\$1.4	

An NMPRC decision and implementation of final rates is anticipated in summer 2016.
