# Edgar Filing: FIRST KEYSTONE CORP - Form 8-K

## CURRENT REPORT ON FORM 8-K

### ITEM 8.01 OTHER EVENTS.

On January 8, 2010, First Keystone Corporation, the parent company of First Keystone National Bank, announced that it has uncovered through an internal investigation a defalcation with a maximum exposure of approximately \$850,000. This amount is based on the results of management's preliminary investigation. The corporation determined the defalcation was a result of unauthorized activities of an employee (non officer) of the bank, who has been terminated. Although the investigation is ongoing, there does not appear to be any losses which include the involvement of any other employee. The corporation believes that the defalcation does not include any customer accounts unrelated to the employee. The appropriate governmental authorities have been notified and the bank is cooperating fully with respect to the authorities' investigation.

The corporation maintains insurance coverage for this type of risk with a deductible of \$50,000. Management expects that this claim will constitute a covered loss and as such the total estimated loss should not exceed \$50,000 on a pre tax or \$33,000 net of income taxes.

Management is vigorously evaluating the impact of this incident on its current controls and procedures and will implement any changes necessary to address the issues raised by this isolated event. Further, through management's investigation, sufficient evidence has been uncovered to conclude that the soundness and financial condition of First Keystone Corporation will not be affected by this event.

The press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

### Item 9.01. FINANCIAL STATEMENTS AND EXHIBITS
