REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

To the Trustees
Teradata Savings Plan
Dayton, Ohio

We have audited the accompanying statements of net assets available for benefits of Teradata Savings Plan (the Plan) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the financial statements, the Plan adopted the provisions of Financial Accounting Standards Board issued Update No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share", and Financial Accounting Standards Board issued Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient,". Our opinion is not modified with respect to these matters.

The supplemental information in the accompanying schedule of assets held at the end of year as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

TERADATA SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

General

The Teradata Savings Plan (the “Plan”) is a defined contribution plan established on October 1, 2007 by the Board of Directors of Teradata Corporation (“Teradata” or the “Company”). The Plan is designed to qualify as a profit-sharing plan with a qualified cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended. It is also subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (“ERISA”).

Eligibility

The Plan covers substantially all eligible U.S. employees of the Company (other than certain categories of part-time, temporary and intern employees) beginning on the first day of employment.

Contributions and Funding

All eligible employees of the Company may defer a portion of their compensation by making tax-deferred contributions, as well as after-tax contributions, to the Plan. Participants may elect to contribute up to fifty percent of their eligible compensation, up to certain Internal Revenue Service (“IRS”) limits. Maximum contribution percentage limits are also imposed on the tax-deferred contributions and after-tax contributions made by participants with prior year compensation of \$120,000 and over. Annual tax-deferred contributions per participant for the 2015 Plan year were limited to \$18,000.

For each dollar contributed by a participant, up to a maximum six percent of compensation, the Company funds an additional matching amount. The employer matching contribution for all participants is one hundred percent of the first four percent of pay contributed by the participant, plus fifty percent of the next two percent of pay.

The Plan allows employees aged 50 and older to elect to make additional catch-up contributions, subject to IRS limits. Catch-up contribution amounts are not eligible for employer matching contributions. The annual limit on catch-up contributions was \$6,000 in 2015.

Participants direct their contributions, as well as the Company’s matching contributions, among various investment options, including target date funds, market index funds, actively managed funds, self directed brokerage and the Teradata Unitized Stock Fund, which invests primarily in Teradata Common Stock.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings on their contributions. Company matching contributions vest in increments of one-fifth each year, over a five-year period beginning with the participant’s hire date.

Participants become immediately and fully vested in their account (i) upon attainment of age 65, (ii) upon termination of employment due to a “reduction in force,” (iii) in the event of death, or (iv) in the event of total and permanent disability. Upon termination of employment, participants are entitled to full distribution of their contributions and all vested Company matching contributions; all non-vested Company matching contributions are forfeited. These forfeitures are reallocated and used to either reduce future Company matching contributions or pay certain administrative expenses of the Plan. During the Plan year, forfeitures used to offset Company matching contributions were \$1,150,000. The amounts of unallocated forfeitures at December 31, 2015 and 2014 were \$557,997 and \$338,383, respectively.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, Company contributions and Plan earnings. Participants’ accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are collateralized by 50% of the vested balance in the participant’s accounts and bear interest at a fixed rate based on the prime rate in effect on the last day of the preceding

month plus 1%, using the prime rate reported by Reuters. The term of the loan may be between one and five years. Principal and interest is paid

6

Table of Contents

ratably through bi-weekly payroll deductions. Upon default, participants are considered for tax purposes to have received a distribution and are subject to income taxes on the outstanding amount of the loan at the time of default. Participant loan interest rate is at 4.25%.

Withdrawals and Benefits

Participants may withdraw any employee tax-deferred contributions during their employment in the case of a “hardship” (as defined by the Plan), in the case of a qualified reservist called to active duty, or in the case of absence from employment due to qualified military service for more than 30 days, and participants may withdraw after-tax employee contributions (plus earnings) for any reason. Participants may not withdraw any Company matching contributions or any earnings on Company matching contributions until they attain age 59 1/2 or terminate employment with the Company. Participants may withdraw vested balances upon reaching age 59 1/2, or upon termination of employment.

Upon termination of employment, a participant receives a lump-sum amount equal to the value of the vested portion of their account if it is less than \$1,000 (unless the participant chooses a direct rollover within 90 days). Terminated participants with more than \$1,000 in vested benefits may elect to receive a direct rollover to another tax-qualified plan or IRA, a lump-sum payment or quarterly cash installments, or, if the participant has not attained age 70 1/2, may leave the vested benefits within the Plan until reaching age 70 1/2. Upon the death of a participant, the participant’s beneficiary shall be eligible to receive a distribution of the participant’s account.

Termination of the Plan

The Company currently has no plans to terminate the Plan; however, the Company reserves the right to terminate the Plan at any time by action of the Teradata Board of Directors.

Plan Expenses

A portion of the Plan’s administrative expenses are paid by Teradata. However, at the Company’s discretion, Teradata may choose to utilize available revenue credits, based on a revenue sharing program between Teradata and Fidelity Investments (“Fidelity”), to offset expenses related to the administration of the Plan.

Payments to Withdrawing Participants

The Plan records payments to withdrawing participants at the time of disbursement.

Rollover Contributions

Participant rollover contributions are included as participant contributions in the statement of changes in net assets available for benefits.

Reclassifications

Certain amounts reported in the prior year financial statements have been reclassified to conform to the current year presentation. This includes respective amounts disclosed in these notes to the financial statements.

Subsequent Events

We have evaluated all subsequent events through the date these statements were issued and filed with the United States Securities and Exchange Commission (“SEC”).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Table of Contents

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Investments in mutual funds and common/collective trusts are valued at the closing net asset values of the funds on the last day of the Plan fiscal year. Teradata Corporation common stock is valued at the last quoted sales price on the New York Stock Exchange on the last business day of the Plan fiscal year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Investment contracts held by a defined-contribution plan are required to be reported at fair value.

Notes Receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued (unpaid) interest. Delinquent loans are treated as distributions based on the terms of the Plan document.

Risk and Uncertainties

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued an update which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. The Company elected to early adopt this update as of December 31, 2015, as permitted and has applied the update retrospectively, as required. The Plan presents the investment disclosure required by this update in the fair value hierarchy tables for 2015 and 2014 in Note 3, "Fair Value Measurements." There were no other impacts on the statements of net assets available for benefits and the statement of changes in net assets available for benefits as of December 31, 2015 and December 31, 2014.

In May 2014, the FASB issued an update which simplifies the required disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type, however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. This update is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Company elected to early-adopt this update as of December 31, 2015, and has applied the provisions retrospectively. The adoption of this update has resulted in the reclassification of \$197,162 related to the adjustment from fair value to contract value for fully benefit-responsive common collective trust fund within its Statement of Net Assets Available for Benefits as of December 31, 2014. Furthermore, the Company has eliminated its historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the statements of net assets available for benefits and the statement of changes in net assets available for benefits as of December 31, 2015 and 2014.

3. FAIR VALUE MEASUREMENTS

The Company follows the accounting standard dealing with fair value measurements for financial and non-financial assets and liabilities recorded at fair value on a recurring basis, wherein a three-tier fair value hierarchy prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than quoted prices in active markets

that are either directly or indirectly observable, quoted prices in active markets for similar assets or liabilities, or quoted prices in less-active markets for identical assets; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an

8

Table of Contents

entity to develop its own assumptions. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks, mutual funds and money market funds: Values derived from quoted market prices in active markets.

Common/collective trust funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end, as reported to the Plan by the trustee, which represents the fair value of shares held by the Plan. A fund's NAV reflects an exit price, is the same for all holders of the fund, and provides the basis for current transactions. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from reported net asset value. Participant transactions (purchases and sales) may occur daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
Mutual funds	\$285,789,195	285,789,195	—	—	
Teradata Corporation common stock	21,464,770	21,464,770	—	—	
Money market funds	50,686,575	50,686,575	—	—	
Investments measured at fair value	357,940,540	357,940,540	—	\$	—
Investments measured at NAV	564,936,613	—	564,936,613	—	
Total investments, at fair value	\$922,877,153	\$ 357,940,540	\$564,936,613	\$	—

	2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
Mutual funds	311,884,651	311,884,651	—	—	
Teradata Corporation common stock	40,580,249	40,580,249	—	—	
Money market funds	41,636,747	41,636,747	—	—	
Investments measured at fair value	394,101,647	394,101,647	—	—	
Investments measured at NAV	564,711,877	—	564,711,877	—	
Total investments, at fair value	\$958,813,524	\$ 394,101,647	\$564,711,877	\$	—

The following tables set forth a summary of the Plan's investment in common collective trust funds, reported at net asset value ("NAV") as of December 31:

Investment	2015 Fair Value	2014 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period

(1) A withdraw of substantially all of the Plan assets requires a 30 day notice.

(2) If exchanging from the Fidelity Managed Income Portfolio Fund into a competing fund, an exchange into a non-competing fund for 90 days is required first.

4. RELATED PARTY TRANSACTIONS (PARTIES-IN-INTEREST)

Related party transactions consisted of loans made to participants and investments in Teradata Corporation Common Stock. At December 31, 2015 the Plan held 812,444 shares of Teradata common stock valued at \$21,464,770. At December 31, 2014 the Plan held 929,035 shares of Teradata common stock valued at \$40,580,249. Fidelity serves as a manager of certain Plan investments. An affiliate of Fidelity serves as the record keeper for the Plan's participant data. Another affiliate of Fidelity serves as the trustee of the Plan. Additionally AllianceBernstein Trust Company, LLC is a party in interest serving as custodian of the target date funds. The cash receipts from Fidelity and cash disbursements from these investments constitute related party transactions. None of these related party transactions are prohibited transactions as defined under ERISA. Administrative expenses, net of revenue credits, were \$220,666 during 2015.

5. TAX STATUS

The Company received a favorable determination letter from the Internal Revenue Service as to the qualified status of the Plan under Section 401(a) of the Internal Revenue Code ("the Code"). Therefore, the Plan is qualified and the related Trust is exempt from federal income taxes under Section 501(a) of the Code. Accordingly, income taxes are not provided for in the accompanying financial statements. Participant contributions, except for those contributions which participants elect to be tax-deferred under Section 401(k), are taxable to the participants in the year their contributions are made.

Participants are liable for federal income taxes relative to their Section 401(k) contributions, the Company matching contributions and the earnings of the Plan when the contributions are distributed to them.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. The Plan is subject to tax examinations by tax authorities for all open Plan years.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 as of December 31:

	2015	2014
Net assets available for benefits per financial statements	\$931,199,227	\$966,669,281
Adjustment from fair value to contract value for fully benefit-response investment contracts	—	197,162
Net assets available for benefits per Form 5500	\$931,199,227	\$966,866,443

The following is a reconciliation of the net increase per the financial statements to the net income per the Form 5500 for the year ended December 31:

	2015
Net decrease per financial statements	\$(35,470,054)
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(197,162)
Net income per Form 5500	\$(35,667,216)
