DENTSPLY International Inc.

NOTES TO UNAUDITED INTERIM CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

June 30, 2008

The accompanying Unaudited Interim Consolidated Condensed Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial statements and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company's most recent Form 10-K filed February 25, 2008.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of DENTSPLY International Inc., as applied in the consolidated interim financial statements presented herein, are substantially the same as presented on pages 51 through 56 of the Annual Report on Form 10-K for the fiscal year ended December 31, 2007, except as indicated below:

Accounts and Notes Receivable-Trade

Accounts and notes receivables - trade are stated net of allowances for doubtful accounts and trade discounts, which were \$18.7 million and \$18.9 million at June 30, 2008 and December 31, 2007, respectively.

Fair Value Measurement

In September 2006, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards No. 157 ("SFAS 157"), "Fair Value Measurements," which requires the Company to define fair value, establish a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), and expand disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

On February 12, 2008, the FASB issued FASB Staff Position No. SFAS 157-2, "Effective Date of FASB Statement No. 157," which amends SFAS 157 by delaying its effective date by one year for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Therefore, beginning on January 1, 2008, this standard applies prospectively to new fair value measurements of financial instruments and recurring fair value measurements of non-financial assets and non-financial liabilities. On January 1, 2009, the standard will also apply to all other fair value measurements. The Company has adopted SFAS 157 and has presented the required disclosures in Note 12, Fair Value Measurement.

Fair Value Option

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 159 ("SFAS 159"), "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS 159 permits entities to choose to measure financial instruments and certain other items at fair value that are not currently required to be measured at fair value. This will allow entities the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently. SFAS 159 is effective for financial statements issued for fiscal years ending after November 15, 2007. While SFAS 159 became effective for the Company's 2008 fiscal year, the Company did not elect the fair value measurement option for any of the Company's financial assets or liabilities not already recorded at fair value.

New Accounting Pronouncements

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R) ("SFAS 141(R)", "Business Combinations." It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose the nature and financial effect of the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 141(R) in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ("SFAS 160"), "Noncontrolling Interests in Consolidated Financial Statements." This statement amends Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 160 in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161 ("SFAS 161"), "Disclosures about Derivative Instruments and Hedging Activities." SFAS 161 is effective for fiscal years beginning after December 15, 2008. This statement amends and expands the disclosure requirements of SFAS 133, "Accounting for Derivative Instruments and Hedging." The Company will adopt SFAS 161 in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162 ("SFAS 162"), "The Hierarchy of Generally Accepted Accounting Principles." This statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles.

NOTE 2 – STOCK COMPENSATION

The Company maintains the 2002 Equity Incentive Plan (the "Plan") under which it may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units ("RSU") and stock appreciation rights, collectively referred to as "Awards." Awards are granted at exercise prices that approximate the fair market value of the common stock on the grant date. The Plan authorized grants of 14,000,000 shares of common stock, plus any unexercised portion of cancelled or terminated stock options granted under the DENTSPLY International Inc. 1993 and 1998 Plans, subject to adjustment as follows: each January, if 7% of the total outstanding common shares of the Company exceed 14,000,000, the excess becomes available for grant under the Plan. No more than 2,000,000 shares may be awarded as restricted stock and restricted stock units, and no key employee may be granted restricted stock units in excess of 150,000 shares of common stock in any calendar year.

Stock options generally expire ten years after the date of grant under these plans and grants become exercisable over a period of three years after the date of grant at the rate of one-third per year, except when they become immediately exercisable upon death, disability or qualified retirement. Restricted stock units vest 100% on the third anniversary of the date of grant and are subject to a service condition, which requires grantees to remain employed by the Company during the three year period following the date of grant. In addition to the service condition, certain key executives are subject to performance requirements. It is the Company's practice to issue shares from treasury stock when options are exercised.

Under SFAS 123(R), the Company continues to use the Black-Scholes option-pricing model to estimate the fair value of each award. The assumptions used to calculate the fair value of the awards granted are evaluated and revised, as necessary, to reflect market conditions and the Company's experience.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

The following table represents total stock based compensation expense and the tax related benefit for the three and six months ended June 30, 2008 and 2007:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007

Total related tax benefit	\$ 0.7	\$ 0.9	\$ 1.8	\$ 1.8

- 7 -

The remaining unamortized compensation cost related to non-qualified stock options is \$16.7 million, which will be expensed over the weighted average remaining vesting period of the options, or 1.3 years. The unamortized compensation cost related to RSUs is \$9.6 million, which will be expensed over the remaining restricted period of the RSUs, or 2.1 years.

The following table summarizes the non-qualified stock options transactions from December 31, 2007 through June 30, 2008:

	Outstanding			Exercisable		
	Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value	Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value

NOTE 3 – COMPREHENSIVE INCOME

The components of comprehensive income, net of tax, are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	(in millions)			
Net Income	\$ 78,648	\$ 65,433	\$ 146,828	\$ 123,905
Other comprehensive income:				
Foreign currency translation adjustments	(2,852)	14,168	97,847	27,536

Net gain (loss) on derivative financial instruments	16,167	(163)	(62,645)	(5,855)
Total comprehensive income	\$ 95,884	\$ 79,547	\$ 185,624	\$ 145,849

During the quarter ended June 30, 2008, foreign currency translation adjustments included currency translation losses of \$8.8 million and gains of \$5.9 million on the Company's loans designated as hedges of net investments. During the quarter ended June 30, 2007, foreign currency translation adjustments included currency translation gains of \$10.1 million and gains of \$4.1 million on the Company's loans designated as hedges of net investments. During the six months ended June 30, 2008, foreign currency translation adjustments included currency translation gains of \$108.1 million and losses of \$10.3 million on the Company's loans designated as hedges of net investments. During the six months ended June 30, 2007, foreign currency translation adjustments included currency translation gains of \$24.7 million and gains of \$2.8 million on the Company's loans designated as hedges of net investments. These foreign currency translation adjustments were offset by net gains and losses on derivatives financial instruments, which are discussed in Note 10, Financial Instruments and Derivatives.

The balances included in accumulated other comprehensive income in the consolidated balance sheets are as follows:

	June 30, 2008	December 31, 2007
	(in thousands)	
Foreign currency translation adjustments	\$ 338,918	\$ 241,071
Unrecognized losses and prior service cost, net	(5,804)	(9,398)
Net loss on derivative financial instruments	(148,499)	(85,854)
	\$ 184,615	\$ 145,819

The cumulative foreign currency translation adjustments included translation gains of \$439.2 million and \$331.1 million as of June 30, 2008 and December 31, 2007, respectively, offset by losses of \$100.3 million and \$90.0 million, respectively, on loans designated as hedges of net investments. These foreign currency translation adjustments were offset by net losses on derivative financial instruments, which are discussed in Note 10, Financial Instruments and Derivatives.

NOTE 4 - EARNINGS PER COMMON SHARE

The dilutive effect of outstanding options and restricted stock is reflected in diluted earnings per share by application of the treasury stock method. The following table sets forth the computation of basic and diluted earnings per common share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
(in thousands, except per share amounts)				
<u>Basic Earnings Per Common Share Computation</u>				
Net income	\$ 78,648	\$ 65,433	\$ 146,828	\$ 123,905
Common shares outstanding	148,851	152,000	149,394	152,016
Earnings per common share - basic	\$ 0.53	\$ 0.43	\$ 0.98	\$ 0.82
<u>Diluted Earnings Per Common Share Computation</u>				
Net income	\$ 78,648	\$ 65,433	\$ 146,828	\$ 123,905
Common shares outstanding	148,851	152,000	149,394	152,016
Incremental shares from assumed exercise of dilutive options	2,939	2,873	2,977	2,707
Total shares	151,790	154,873	152,371	154,723
Earnings per common share - diluted	\$ 0.52	\$ 0.42	\$ 0.96	\$ 0.80

Options to purchase 1.3 million and 1.4 million shares of common stock that were outstanding during the three and six months ended June 30, 2008, respectively, were not included in the computation of diluted earnings per share since the options' exercise prices were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. Antidilutive shares during the three and six months ended June 30, 2007, were 1.4 million and 1.6 million, respectively.

NOTE 5 - BUSINESS ACQUISITIONS

One of the Company's 2005 acquisitions and one of the Company's 2007 acquisitions included provisions for possible additional payments based on the post closing performance of the individual businesses. During the first six months of 2008, the Company paid \$2.4 million in additional purchase price under these agreements.

NOTE 6 - SEGMENT INFORMATION

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

The Company follows Statement of Financial Accounting Standards No. 131 ("SFAS 131"), "Disclosures about Segments of an Enterprise and Related Information." SFAS 131 establishes standards for disclosing information about reportable segments in financial statements. The Company has numerous operating businesses covering a wide range of products and geographic regions, primarily serving the professional dental market. Professional dental products represented approximately 97% and 97% of sales for the periods ended June 30, 2008 and 2007, respectively.

The operating businesses are combined into operating groups, which have overlapping product offerings, geographical presence, customer bases, distribution channels, and regulatory oversight. These operating groups are considered the Company's reportable segments under SFAS 131 as the Company's chief operating decision-maker regularly reviews financial results at the operating group level and uses this information to manage the Company's operations. The accounting policies of the groups are consistent with those described in the most recently filed 10-K Consolidated Financial Statements in the summary of significant accounting policies. The Company measures segment income for reporting purposes as net operating profit before restructuring, interest and taxes.

United States, Germany, and Certain Other European Regions Consumables Businesses

This business group includes responsibility for the design, manufacturing, sales, and distribution for certain small equipment and chairside consumable products in the United States, Germany, and certain other European regions.

France, United Kingdom, Italy, CIS, Middle East, Africa, Pacific Rim Businesses

This business group includes responsibility for the sales and distribution for chairside consumable products and certain small equipment, certain laboratory products, and certain Endodontic products in France, United Kingdom, Italy, the Commonwealth of Independent States ("CIS"), Middle East, Africa, Asia (excluding Japan), Japan and Australia, as well as the sale and distribution of implant products and bone substitute/grafting materials in Italy, Asia and Australia. This business group also includes the manufacturing and sale of Orthodontic products, the manufacturing of certain laboratory products in Japan, and the manufacturing of certain laboratory and certain Endodontic products in Asia.

Canada/Latin America/Endodontics/Orthodontics

This business group includes responsibility for the design, manufacture, and/or sales and distribution of chairside consumable and laboratory products in Brazil. It also has responsibility for the sales and distribution of most Company dental products sold in Latin America and Canada. This business group also includes the responsibility for the design and manufacturing for Endodontic products in the United States, Switzerland and Germany and is responsible for sales and distribution of certain Company Endodontic products in the United States, Canada, Switzerland, Benelux, Scandinavia, and Eastern Europe, and certain Endodontic products in Germany. This business group is also responsible for the world-wide sales and distribution, excluding Japan, as well as some manufacturing of the Company's Orthodontic products. This business group is also responsible for sales and distribution in the United States for implant and bone substitute/grafting materials and the distribution of implants in Brazil.

Global Dental Laboratory Business/Implants/Non-Dental

This business group includes the responsibility for the design, manufacture, world-wide sales and distribution for laboratory products, excluding certain laboratory products mentioned earlier, and the design, manufacture, and/or sales and distribution of the Company's dental implant products and bone substitute/grafting materials, excluding sales and distribution of implants and bone substitute/grafting materials in the United States, Italy, Asia, Australia and sales and distribution of implants in Brazil. This business group is also responsible for the Company's non-dental business.

Significant interdependencies exist among the Company's operations in certain geographic areas. Inter-group sales are at prices intended to provide a reasonable profit to the manufacturing unit after recovery of all manufacturing costs and to provide a reasonable profit for purchasing locations after coverage of marketing and general and administrative costs.

Generally, the Company evaluates performance of the operating groups based on the groups' operating income, excluding restructuring and other costs, and net third party sales, excluding precious metal content.

The presentation of net sales, excluding precious metal content, is considered a measure not calculated in accordance with generally accepted accounting principles ("GAAP"), and is therefore considered a non-GAAP measure. This non-GAAP measure is discussed further in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and a reconciliation of net sales, excluding precious metal content, to net sales is provided below.

NOTE 7 - INVENTORIES

Inventories are stated at the lower of cost or market. At June 30, 2008 and December 31, 2007, the cost of \$10.3 million, or 3.7%, and \$10.6 million, or 4.1%, respectively, of inventories was determined by the last-in, first-out ("LIFO") method. The cost of other inventories was determined by the first-in, first-out ("FIFO") or average cost methods. The Company establishes reserves for inventory estimated to be obsolete or unmarketable equal to the difference between the cost of inventory and estimated market value based upon assumptions about future demand and market conditions. The inventory valuation reserves were \$30.7 million and \$26.2 million as of June 30, 2008 and December 31, 2007, respectively.

If the FIFO method had been used to determine the cost of LIFO inventories, the amounts at which net inventories are stated would be higher than reported at June 30, 2008 and December 31, 2007 by \$5.3 million and \$4.4 million, respectively.

Inventories, net of inventory valuation reserves, consist of the following:

	June 30, 2008 (in thousands)	December 31, 2007

NOTE 9 - RESTRUCTURING AND OTHER COSTS

Restructuring Costs

Restructuring accruals of \$1.6 million for the six months ended June 30, 2008 are reflected in accrued liabilities and other non-current liabilities in the consolidated condensed balance sheets and the associated costs are recorded in restructuring and other costs in the income statements. The accruals consist of employee severance benefits, payments due under operating contracts, and other restructuring costs. For further information regarding the Company's restructuring plans and the associated accruals, refer to Note 14, Restructuring, Impairment and Other Costs in the Notes to Consolidated Financial Statements appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. The Company does not expect any additional significant expenses related to any existing restructuring plans. The Company did not initiate any new restructuring plans for the three months or six months ended June 30, 2008.

NOTE 10 – FINANCIAL INSTRUMENTS AND DERIVATIVES

Financial Instruments

The Company believes the carrying amounts of short-term investments, accounts receivable (net of allowance for doubtful accounts), prepaid expenses and other current assets, accounts payable, accrued liabilities, income taxes payable and notes payable approximate fair value due to the short-term nature of these instruments. The Company estimates the fair value and carrying value of its total long-term debt, including the current portion, was \$576.8 million as of June 30, 2008. The fair value of the Company's long-term debt approximates its carrying value as the Company's debt is variable rate and reflects current market rates. The interest rates on private placement notes, revolving debt and commercial paper are variable and therefore the fair value of these instruments approximates their carrying values.

Derivative Instruments and Hedging Activities

The Company uses interest rate swaps, cross currency interest rate swaps, commodity swaps, forward exchange contracts, and foreign currency denominated debt held at the parent company level to manage risks generally associated with foreign exchange rates, interest rates and commodity price fluctuations. The aggregate pre-tax net fair value of the Company's derivative instruments at June 30, 2008 and December 31, 2007 was negative \$243.3 million and negative \$141.6 million, respectively. For a more detailed discussion of the Company's derivative instruments, refer to the Company's 2007 Annual Report on Form 10-K.

Cash Flow Hedges

The Company uses interest rate swaps to convert a portion of its variable rate debt to fixed rate debt. The Company selectively enters into commodity swaps to effectively fix certain variable raw material costs. The Company enters into forward exchange contracts to hedge the foreign currency exposure of its anticipated purchases of certain inventory from Japan. In addition, forward exchange contracts are used by certain of the Company's subsidiaries to hedge intercompany inventory purchases, which are denominated in foreign currencies.

Amounts recorded in accumulated other comprehensive income related to cash flow hedging instruments follow:

	Three Months Ended June 30, 2008		Six months ended June 30, 2008	
		2007 (in thousands)		2007

Total activity	3,188	1,080	1,918	1,326
Ending balance	\$ 345	\$(1,677)	\$ 345	\$(1,677)

As of June 30, 2008, \$0.7 million of deferred net losses on derivative instruments in accumulated other comprehensive income are expected to be reclassified to current earnings during the next twelve months.

Hedges of Net Investments in Foreign Operations

The Company has numerous investments in foreign subsidiaries. The net assets of these subsidiaries are exposed to volatility in currency exchange rates. Currently, the Company uses non-derivative financial instruments, including foreign currency denominated debt held at the parent company level and derivative financial instruments to hedge some of this exposure. Translation gains and losses related to the net assets of the foreign subsidiaries are offset by gains and losses in the non-derivative and derivative financial instruments designated as hedges of net investments.

NOTE 11 – UNCERTAINTIES IN INCOME TAXES

In June 2006, the FASB issued FASB Interpretation No. 48 (“FIN 48”), “Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109, Accounting for Income Taxes,” which clarifies the accounting for income taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation requires that the Company recognize in the financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods and disclosure.

It is reasonably possible that certain amounts of unrecognized tax benefits will significantly increase or decrease within twelve months of the reporting date of the Company’s consolidated financial statements. During the next 12 months, expiration of statutes of limitation in various jurisdictions could include unrecognized tax benefits of approximately \$3.8 million, \$0.1 million of which will have no impact upon the effective income tax rate. A decrease of unrecognized tax benefits of approximately \$23.1 million, \$6.3 million of which will have no impact upon the effective income tax rate could occur as a result of final settlement and resolution of outstanding tax matters in various jurisdictions during the next twelve months.

NOTE 12 – FAIR VALUE MEASUREMENT

The Company records financial instruments at fair value with unrealized gains and losses related to certain financial instruments reflected in accumulated other comprehensive income on the consolidated condensed balance sheet. In addition, the Company records non-performance risk adjustments on its financial instruments to the income statement. The Company primarily applies the market approach for recurring fair value measurements and endeavors to utilize the best available information. Accordingly, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The degree of judgment utilized in measuring the fair value of financial instruments generally correlates to the level of pricing observability. Pricing observability is impacted by a number of factors, including the type of financial instrument. Financial instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of pricing observability and a lesser degree of judgment utilized in measuring fair value.

Conversely, financial instruments rarely traded or not quoted will generally have less, or no pricing observability and a higher degree of judgment utilized in measuring fair value.

Effective January 1, 2008, the Company adopted the Statement of Financial Accounting Standards No. 157, which among other things, requires enhanced disclosures about financial instruments carried at fair value. SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 establishes a hierarchical disclosure framework associated with the level of pricing observability utilized in measuring financial instruments at fair value. The three broad levels defined by the SFAS 157 hierarchy are as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reported date.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these financial instruments include, derivative instruments whose fair value have been derived using a model where inputs to the model are directly observable in the market, or can be derived principally from or corroborated by observable market data.

Level 3 – Instruments that have little to no pricing observability as of the reported date. These financial instruments do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

Under SFAS 159, entities are permitted to choose to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value measurement option under SFAS 159 for any of the Company's financial assets or liabilities not already recorded at fair value.

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2008, which are classified as "Cash and cash equivalents," "Other noncurrent assets," "Other noncurrent liabilities," and "Accrued liabilities." As required by SFAS 157, financial assets and liabilities that are recorded at fair value as of the balance sheet date are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Derivative valuations are based on observable inputs to the valuation model including interest rates, foreign currency exchange rates, and future commodities prices.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

The commodity forward purchase contracts, interest rate swaps, and foreign exchange forward contracts are considered cash flow hedges and cross currency interest rate swaps are considered hedge of net investments in foreign operations as discussed in Note 10, Financial Instruments and Derivatives.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

On January 5, 1999, the Department of Justice filed a Complaint against the Company in the United States District Court in Wilmington, Delaware alleging that the Company's tooth distribution practices violated the antitrust laws and seeking an order for the Company to discontinue its practices. This case has been concluded and the District Court, upon the direction of the Court of Appeals, issued an injunction preventing DENTSPLY from taking action to restrict its tooth dealers from adding new competitive teeth lines. This decision relates only to the distribution of artificial teeth in the United States and, notwithstanding the outcome of this case, the Company is confident that it can continue to develop this business.

Subsequent to the filing of the Department of Justice Complaint in 1999, several private party class actions were filed based on allegations similar to those in the Department of Justice case, on behalf of dental laboratories and denture patients in seventeen states who purchased Trubyte teeth or products containing Trubyte teeth. These cases were transferred to the United States District Court in Wilmington, Delaware. The Court granted the Company's Motion on the lack of standing of the laboratory and patient class actions to pursue damage claims. The Plaintiffs in the laboratory case appealed this decision to the Third Circuit and the Court largely upheld the decision of the District Court in dismissing the Plaintiffs' damages claims against DENTSPLY, with the exception of allowing the Plaintiffs to pursue a damage claim based on a theory of resale price maintenance between the Company and its tooth dealers. The Plaintiffs in the laboratory case filed an amended complaint in the District Court asserting that DENTSPLY and its tooth dealers, and the dealers among themselves, engaged in a conspiracy to violate the antitrust laws. DENTSPLY and the dealers filed Motions to dismiss Plaintiffs' claims, except for the resale price maintenance claims. The District Court has granted the Motions filed by DENTSPLY and the dealers, leaving only the resale price maintenance claim. The Plaintiffs have appealed the dismissal of their claims to the Third Circuit. Additionally, manufacturers of two competitive tooth lines and a dealer, as a putative class action, have filed separate actions seeking unspecified damages alleged to have been incurred as a result of the Company's tooth distribution practice found to be a violation of the antitrust law.

On June 18, 2004, Marvin Weinstat, DDS and Richard Nathan, DDS filed a class action suit in San Francisco County, California alleging that the Company misrepresented that its Cavitron® ultrasonic scalers are suitable for use in oral surgical procedures. The Complaint seeks a recall of the product and refund of its purchase price to dentists who have purchased it for use in oral surgery. The Court certified the case as a class action in June 2006 with respect to the breach of warranty and unfair business practices claims. The class is defined as California dental professionals who purchased and used one or more Cavitron® ultrasonic scalers for the performance of oral surgical procedures. The Company filed a motion for decertification of the class and this motion was granted. Plaintiffs have appealed the decertification of the class to the California Court of Appeals.

On December 12, 2006, a Complaint was filed by Carole Hildebrand, DDS and Robert Jaffin, DDS in the Eastern District of PA. The case was filed by the same law firm that filed the Weinstat case in California. The Complaint asserts putative class action claims on behalf of dentists located in New Jersey and Pennsylvania based on assertions that the Company's Cavitron® ultrasonic scaler was negligently designed and sold in breach of contract and warranty arising from misrepresentations about the potential uses of the product because it cannot assure the delivery of potable or sterile water. The Complaint seeks damages for the allegedly defective product. Plaintiffs have filed their Motion for class certification to which the Company has filed its response.

NOTE 14 – SUBSEQUENT EVENT

On July 25, 2008, the Company entered into a Term Loan Agreement with a group of lenders providing financing in the amount of 12.6 billion Japanese Yen at a floating rate of three month Yen Libor plus 72.5 basis points through March 28, 2012. The net proceeds after deducting fees and expenses of the loan are 12.5 billion Japanese Yen or approximately \$117.9 million. The proceeds were used to refinance debt borrowed under the revolving credit facility. The obligations of the Company and the lenders are subject to the terms and conditions of the Term Loan Agreement.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

In accordance with the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995, DENTSPLY International Inc. (the "Company") provides the following cautionary remarks regarding important factors that, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions expressed or implied herein. All forward-looking statements made by the Company are subject to risks and uncertainties and are not guarantees of future performance. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance and achievements, or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements are identified by the use of such terms as "may," "could," "expect," "intend," "believe," "plan," "estimate," "forecast," "project," "anticipate" or words of similar import.

Investors are cautioned that forward-looking statements involve risks and uncertainties, which may materially affect the Company's business and prospects, and should be read in conjunction with the risk factors and uncertainties discussed within Item 1A, Part I of the Company's most recent Annual Report on Form 10-K as filed on February 25, 2008. Investors are further cautioned that the risk factors in Item 1A, Part I of Company's most recent Annual Report on Form 10-K may not be exhaustive and that many of these factors are beyond the Company's ability to control or predict. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. The Company undertakes no duty and has no obligation to update forward-looking statements.

OVERVIEW

DENTSPLY International Inc. is the world's largest manufacturer of professional dental products. The Company is headquartered in the United States, and operates in more than 120 other countries, principally through its foreign subsidiaries. The Company also has strategically located distribution centers to enable it to better serve its customers and increase its operating efficiency. While the United States and Europe are the Company's largest markets, the Company serves all of the major professional dental markets worldwide.

The Company has three main product categories: 1) Dental Consumable Products; 2) Dental Laboratory Products; and 3) Dental Specialty Products.

Dental consumable products consist of dental sundries and small equipment used in dental offices by general practitioners in the treatment of patients. DENTSPLY's dental sundry products in the dental consumable category include dental anesthetics, prophylaxis paste, dental sealants, impression materials, restorative materials, tooth whiteners and topical fluoride. The Company manufactures thousands of different dental sundry consumable products marketed under more than one hundred brand names. Small equipment products in the dental consumable category consist of various durable goods used in dental offices for treatment of patients. DENTSPLY's small equipment products include high and low speed handpieces, intraoral curing light systems, dental diagnostic systems, and ultrasonic scalers and polishers.

Dental laboratory products are used in the preparation of dental appliances by dental laboratories. DENTSPLY's products in the dental laboratory category include dental prosthetics, including artificial teeth, precious metal dental alloys, dental ceramics, and crown and bridge materials. Equipment in this category includes computer aided machining (CAM) ceramic systems and porcelain furnaces.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

Dental specialty products are specialized treatment products used within the dental office and laboratory settings. DENTSPLY's products in this category include endodontic (root canal) instruments and materials, implants and related products, bone grafting materials, and orthodontic appliances and accessories.

The principal benchmarks used by the Company in evaluating its business are: (1) internal growth in the United States, Europe and all other regions; (2) operating margins of each reportable segment, excluding restructuring and other costs; (3) the development, introduction and contribution of innovative new products; (4) growth through acquisition; and (5) continued focus on controlling costs and enhancing efficiency. The Company defines "internal growth" as the increase in net sales from period to period, excluding precious metal content, the impact of changes in currency exchange rates, and the net sales, for a period of twelve months following the transaction date, of businesses that have been acquired or divested.

- 21 -

Management believes that an average overall internal growth rate of 4-6% is a long-term sustainable rate for the Company. This annualized growth rate expectation typically includes approximately 1-2% of price increases. The Company typically implements most of its price changes in the beginning of the fourth quarter of the year. These price changes, other marketing and promotional programs offered to customers from time to time, the management of inventory levels by distributors and the implementation of strategic initiatives, may impact sales levels in a given period.

This quarter the Company modified its methodology of calculating internal growth. This change better reflects organic growth in an environment where exchange rates have moved significantly from prior periods. The impact of this change for both the quarter and on a year to date basis was to reduce the internal growth calculation from what it would have been under the prior method. The Company changed the calculation as the previous method potentially inflated the internal growth number. The prior years have been reviewed and this change would have had little or no effect.

During the six months ended June 30, 2008, the Company's overall internal growth was 5.8%. Internal growth rates in the United States and Europe, the largest dental markets in the world, were 2.4% and 8.9%, respectively during the first six months of 2008. The internal growth rate in all other regions during the six months ended June 30, 2008 was 6.8%.

Product innovation is a key component of the Company's overall growth strategy. New advances in technology are anticipated to have a significant influence on future products in dentistry. As a result, the Company continues to pursue several research and development initiatives to support further technological developments, including partnerships and collaborations with various research institutions and dental schools. In addition, the Company licenses and purchases technologies developed by third parties. Although the Company believes these activities will lead to new innovative dental products, they involve new technologies and there can be no assurance that commercialized products will be developed.

Although the professional dental market in which the Company operates has experienced consolidation, it is still a fragmented industry. The Company continues to focus on opportunities to expand the Company's product offerings through acquisitions, investments in companies and licensing of technology. Management believes that there will continue to be adequate opportunities to participate as a consolidator or investor in the industry for the foreseeable future.

The Company also remains focused on reducing costs and achieving operational efficiencies. Management expects to continue to consolidate operations or functions to reduce costs while improving service levels. In addition, the Company remains focused on enhancing efficiency through expanded use of technology, process improvement initiatives and new marketing strategies. The Company believes that the benefits from these opportunities will improve the cost structure and offset areas of rising costs such as energy, benefits, and regulatory oversight and compliance.

RESULTS OF CONTINUING OPERATIONS, QUARTER ENDED JUNE 30, 2008 COMPARED TO QUARTER ENDED JUNE 30, 2007

Net Sales

Management believes that the presentation of net sales, excluding precious metal content, provides useful information to investors because a portion of DENTSPLY's net sales is comprised of sales of precious metals generated through sales of the Company's precious metal alloy products, which are used by third parties to construct crown and bridge materials. Due to the fluctuations of precious metal prices and because the precious metal content of the Company's sales is largely a pass-through to customers and has minimal effect on earnings, DENTSPLY reports sales both with and without precious metal content to show the Company's performance independent of precious metal price volatility and to enhance comparability of performance between periods. The Company uses its cost of precious metal purchased as a proxy for the precious metal content of sales, as the precious metal content of sales is not separately tracked and invoiced to customers. The Company believes that it is reasonable to use the cost of precious metal content purchased in this manner since precious metal alloy sale prices are typically adjusted when the prices of

underlying precious metals change.

The presentation of net sales, excluding precious metal content, is considered a measure not calculated in accordance with generally accepted accounting principles (GAAP), and is therefore considered a non-GAAP measure. The Company provides the following reconciliation of net sales to net sales, excluding precious metal content. The Company's definitions and calculations of net sales, excluding precious metal content, and other operating measures derived using net sales, excluding precious metal content, may not necessarily be the same as those used by other companies.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

The following is a reconciliation of net sales to net sales, excluding precious metal content.

	Three Months Ended			
	June 30,	2007	\$ Change	% Change
	2008			
	(in millions)			
Net sales	\$ 594.8	\$ 507.4	\$ 87.4	17.2%

Net sales, excluding precious metal content	\$ 542.3	\$ 462.1	\$ 80.2	17.3%

The net sales growth of 17.3%, excluding precious metal content, was comprised of 5.9% of internal growth, 8.3% of foreign currency translation and 3.1% for net acquisitions. The 5.9% of internal growth was comprised of 0.9% in the United States, 10.2% in Europe and 8.0% for all other regions combined.

Internal Sales Growth

United States

The internal sales growth for this region was 0.9%, excluding precious metal content. Overall, all product categories were impacted by a slowing of the U.S. economy. In addition, the Company's sales of local anesthetics products were lower in the period due to clearing of large back orders in the second quarter of 2007. Sales growth in the U.S., excluding local anesthetics, was 2.4%.

Europe

In Europe, the internal sales growth of 10.2%, excluding precious metal content, was led by continued strong performance in all of the specialty businesses and the consumables businesses.

All Other Regions

The internal sales growth of 8.0%, excluding precious metal content, in all other regions was primarily the result of continued strong sales growth in the specialty businesses and consumables businesses and strong regional growth in Asia, Australia, the Middle East and Latin America and solid growth in Japan.

Gross profit as a percentage of net sales, excluding precious metal content, was 58.2% for the three months ended June 30, 2008 and 2007. In the second quarter of 2008, gross profit was favorably impacted by product mix and operational improvements. The favorable impact was offset by negative product mix from recent acquisitions, unfavorable purchase price variances related to the weakening U.S. dollar, and significant contraction in the precious metal alloy market.

SG&A Expenses

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

SG&A expenses, as a percentage of net sales, excluding precious metal content, decreased to 37.1% in 2008 from 37.2% in 2007. The decrease is related to leveraging of existing overhead partially offset by costs associated with our biennial Friadent Worldwide Implant Symposium.

Restructuring and Other Costs, Net

During the three months ended June 30, 2008, the Company recorded restructuring and other costs of \$1.5 million. These costs are related to legal settlements and ongoing restructuring plans to reduce operational costs. Net income for the second quarter of 2008 included restructuring and other costs, net of tax, of \$0.9 million or \$0.01 per diluted share, compared to the second quarter of 2007, which included restructuring and other costs, net of tax, of \$2.0 million, or \$0.01 per diluted share. (See also Note 9, Restructuring and Other Costs, to the Unaudited Interim Consolidated Condensed Financial Statements).

Other (income), net	-	(0.3)	0.3
Net interest and other expense (income)	\$ 3.2	\$ (2.1)	\$ 5.3

Net Interest Expense (Income)

The change in net interest in 2008 compared to 2007, for the three months ended June 30, was mainly the result of the sharp divergence of lower U.S. dollar interest rates versus increased Euro and Swiss franc interest rates, combined with weaker U.S. dollar average exchange rates against both currencies. This resulted in net expense in 2008 versus net income in 2007 on the Euro and Swiss franc net investment hedges. The impact of the Company's net investment hedges typically move in the opposite direction of currency movements, reducing some of the volatility caused by movement in exchange rates on the Company's income and equity. The negative impact in net interest expense is expected to continue throughout the year, if currency and interest rates do not change. Additionally, the Company recorded income of \$1.8 million for the provisions of SFAS 157, "Fair Value Measurements."

Other (Income), Net

Other income for the three months ended June 30, 2008, included approximately \$0.4 million of currency transaction gains and \$0.4 million of other non-operating costs. The 2007 period included \$0.4 million of currency translation gains and \$0.1 million of other non-operating losses.

The Company's effective tax rate for the three months ended June 30, 2008 decreased to 28.5% from 31.6% for the same period in 2007. This decrease related to both a lowering of the German tax rate, which was effective as of January 1, 2008, and the benefits from a European legal entity restructuring.

For the period ending June 30, 2008, net income increased \$13.2 million, or 20.2%, to \$78.6 million. Fully diluted earnings per share were \$0.52 in the second quarter 2008, an increase of 23.8% from \$0.42 in the second quarter 2007.

The net sales growth of 17.3%, excluding precious metal content, was comprised of 5.8% of internal growth, 8.3% of foreign currency translation and 3.2% for net acquisitions. The 5.8% of internal growth was comprised of 2.4% in the United States, 8.9% in Europe and 6.8% for all other regions combined.

- 26 -

Internal Sales Growth

United States

The internal sales growth of 2.4%, excluding precious metal content, in the United States was primarily a result of strong growth in the laboratory business. Specialty businesses growth was impacted by continued softness in the market. Consumables businesses had modest growth for the first half of 2008, excluding anesthetics products. The Company's sales of local anesthetics products were lower in the first half of 2008 due to clearing of large back orders in the second quarter of 2007.

Europe

In Europe, the internal sales growth of 8.9%, excluding precious metal content, was led by strong performance in all of our specialty businesses and solid growth in our consumables businesses.

CRITICAL ACCOUNTING POLICIES

As discussed in Note 1, Significant Accounting Policies, to the Unaudited Interim Consolidated Condensed Financial Statements, the Company adopted SFAS 157 and SFAS 159 on January 1, 2008.

There have been no other material changes to the Company's disclosure in its 2007 Annual Report on Form 10-K filed February 25, 2008.

LIQUIDITY AND CAPITAL RESOURCES

Six months ended June 30, 2008

Cash flow from operating activities during the six months ended June 30, 2008 was \$139.0 million compared to \$155.1 million during the same period of 2007. While net income increased by \$22.9 million to \$146.8 million, the Company had higher tax payments in 2008 and an increase in working capital compared to prior year. The working capital impact on cash flow was negative for the first six months of 2008 principally due to the days in accounts receivable increasing to 56 from a low of 51 at December 31, 2007.

Investing activities during the first six months of 2008 include capital expenditures of \$36.6 million. The Company expects that capital expenditures will be approximately \$70 to \$75 million for the full year of 2008. The acquisition related activity for the period ended June 30, 2008 of \$2.4 million was related to earn-out payments on acquisitions from prior years.

At June 30, 2008, the Company had authorization to maintain up to 17,000,000 shares of treasury stock under the stock repurchase program as approved by the Board of Directors. Under this program, the Company purchased 2,404,400 shares for \$95.5 million during the first six months of 2008 at an average price of \$39.71. As of June 30, 2008, the Company held 14,047,276 shares of treasury stock. The Company also received proceeds of \$5.7 million as a result of the exercise of 297,637 stock options during the six months ended June 30, 2008.

The Company's long-term borrowings increased by a net of \$94.6 million during the six months ended June 30, 2008. This change, net of exchange, included a net new borrowing of \$77.9 million during the first six months and an increase of \$16.7 million due to exchange rate fluctuations on debt denominated in foreign currencies. At June 30, 2008, the Company's ratio of long-term debt to total capitalization increased to 26.4% compared to 24.1% at December 31, 2007. Also in that same period, the Company's cash, cash equivalents and short-term investments have increased from \$316.3 million to \$423.3 million.

Under its multi-currency revolving credit agreement, the Company is able to borrow up to \$500 million through May 2010. This facility is unsecured and contains certain affirmative and negative covenants relating to its operations and financial condition. The most restrictive of these covenants pertain to asset dispositions and prescribed ratios of indebtedness to total capital and operating income plus depreciation and amortization to interest expense. At June 30, 2008, the Company was in compliance with these covenants. The Company also has available an aggregate \$250 million under two commercial paper facilities; a \$250 million United States facility and a \$250 million U.S. dollar equivalent European facility ("Euro CP facility"). Under the Euro CP facility, borrowings can be denominated in Swiss Francs, Japanese yen, Euros, British pounds sterling and U.S. dollars. The multi-currency revolving credit facility serves as a back-up to these commercial paper facilities. The total available credit under the commercial paper facilities and the multi-currency facility in the aggregate is \$500 million with \$241.7 million outstanding under the multi-currency facility and \$184.0 million outstanding under the commercial paper facilities at June 30, 2008.

The Company also has access to \$35.1 million in uncommitted short-term financing under lines of credit from various financial institutions. The lines of credit have no major restrictions and are provided under demand notes between the Company and the lending institutions. At June 30, 2008, \$4.7 million is outstanding under these short-term lines of credit. At June 30, 2008, the Company had total unused lines of credit related to the revolving credit agreement and the uncommitted short-term lines of credit of \$104.7 million.

At June 30, 2008, the Company held \$101.4 million of precious metals on consignment from several financial institutions. These consignment agreements allow the Company to acquire the precious metal at market rates at a point in time, which is approximately the same time and for the same price as alloys are sold to the Company's customers. In the event that the financial institutions would discontinue offering these consignment arrangements, and if the Company could not obtain other comparable arrangements, the Company may be required to obtain third party financing to fund an ownership position in the required precious metal inventory levels.

Edgar Filing: DENTSPLY INTERNATIONAL INC /DE/ - Form 10-Q

There have been no other material changes to the Company's scheduled contractual cash obligations disclosed in its 2007 Annual Report on Form 10-K filed February 25, 2008. The Company expects on an ongoing basis, to be able to finance cash requirements, including capital expenditures, stock repurchases, debt service, operating leases and potential future acquisitions, from the funds generated from operations and amounts available under its existing credit facilities.

NEW ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R) ("SFAS 141(R)", "Business Combinations." It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose the nature and financial effect of the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 141(R) in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ("SFAS 160"), "Noncontrolling Interests in Consolidated Financial Statements." This statement amends Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 160 in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161 ("SFAS 161"), "Disclosures about Derivative Instruments and Hedging Activities." SFAS 161 is effective for fiscal years beginning after December 15, 2008. This statement amends and expands the disclosure requirements of SFAS 133, "Accounting for Derivative Instruments and Hedging." The Company will adopt SFAS 161 in the first quarter of fiscal year 2009 and is currently evaluating the impact the adoption will have on the Company's financial statements.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162 ("SFAS 162"), "The Hierarchy of Generally Accepted Accounting Principles." This statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

There have been no significant material changes to the market risks as disclosed in the Company's Annual Report on Form 10-K filed for the year ending December 31, 2007.

Item 4 - Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report were effective to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC'S rules and forms.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting that occurred during the three months ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1 - Legal Proceedings

On January 5, 1999, the Department of Justice filed a Complaint against the Company in the United States District Court in Wilmington, Delaware alleging that the Company's tooth distribution practices violated the antitrust laws and seeking an order for the Company to discontinue its practices. This case has been concluded and the District Court, upon the direction of the Court of Appeals, issued an injunction preventing DENTSPLY from taking action to restrict its tooth dealers from adding new competitive teeth lines. This decision relates only to the distribution of artificial teeth in the United States and, notwithstanding the outcome of this case, the Company is confident that it can continue to develop this business.

Subsequent to the filing of the Department of Justice Complaint in 1999, several private party class actions were filed based on allegations similar to those in the Department of Justice case, on behalf of dental laboratories and denture patients in seventeen states who purchased Trubyte teeth or products containing Trubyte teeth. These cases were transferred to the United States District Court in Wilmington, Delaware. The Court granted the Company's Motion on the lack of standing of the laboratory and patient class actions to pursue damage claims. The Plaintiffs in the laboratory case appealed this decision to the Third Circuit and the Court largely upheld the decision of the District Court in dismissing the Plaintiffs' damages claims against DENTSPLY, with the exception of allowing the Plaintiffs to pursue a damage claim based on a theory of resale price maintenance between the Company and its tooth dealers. The Plaintiffs in the laboratory case filed an amended complaint in the District Court asserting that DENTSPLY and its tooth dealers, and the dealers among themselves, engaged in a conspiracy to violate the antitrust laws. DENTSPLY and the dealers filed Motions to dismiss Plaintiffs' claims, except for the resale price maintenance claims. The District Court has granted the Motions filed by DENTSPLY and the dealers, leaving only the resale price maintenance claim. The Plaintiffs have appealed the dismissal of their claims to the Third Circuit. Additionally, manufacturers of two competitive tooth lines and a dealer, as a putative class action, have filed separate actions seeking unspecified damages alleged to have been incurred as a result of the Company's tooth distribution practice found to be a violation of the antitrust law.

On June 18, 2004, Marvin Weinstat, DDS and Richard Nathan, DDS filed a class action suit in San Francisco County, California alleging that the Company misrepresented that its Cavitron® ultrasonic scalers are suitable for use in oral surgical procedures. The Complaint seeks a recall of the product and refund of its purchase price to dentists who have purchased it for use in oral surgery. The Court certified the case as a class action in June 2006 with respect to the breach of warranty and unfair business practices claims. The class is defined as California dental professionals who purchased and used one or more Cavitron® ultrasonic scalers for the performance of oral surgical procedures. The Company filed a motion for decertification of the class and this motion was granted. Plaintiffs have appealed the decertification of the class to the California Court of Appeals.

On December 12, 2006, a Complaint was filed by Carole Hildebrand, DDS and Robert Jaffin, DDS in the Eastern District of PA. The case was filed by the same law firm that filed the Weinstat case in California. The Complaint asserts putative class action claims on behalf of dentists located in New Jersey and Pennsylvania based on assertions that the Company's Cavitron® ultrasonic scaler was negligently designed and sold in breach of contract and warranty arising from misrepresentations about the potential uses of the product because it cannot assure the delivery of potable or sterile water. The Complaint seeks damages for the allegedly defective product. Plaintiffs have filed their Motion for class certification to which the Company has filed its response.

Item 5 – Other Information

Effective July 28, 2008, the Board of Directors of the Company amended the By-Laws of the Company. A complete copy of the Amended and Restated By-Laws is included as an exhibit to this 10-Q. The following is a description of the amendments other than editorial changes.

Previously, Article I, Section 1 of the By-Laws required the Board to establish the date, time and place of the Annual Meeting within 75 days following the close of the Company's fiscal year. This provision has been amended to delete the 75-day deadline and to instead provide that the Annual Meeting shall be held on such date and time as designated by the Board.

Article I, Section 6 of the By-Laws previously provided that a majority of the shares represented at a stockholder meeting at the time of adjournment may adjourn the meeting. This provision has been amended to remove specific reference to adjournment by stockholders and to more generally provide that stockholders' meetings may be adjourned from time to time.

Sections 11 and 12 previously provided different notice periods for stockholder proposals and stockholder nominations for directors. These sections have been amended to: (i) apply the same notice periods to both stockholder proposals and stockholder nominations, (ii) amend the notice period from 60 days to a time period of not less than 90, and not more than 120 days, prior to the anniversary date of the annual meeting, (iii) provide a separate notice period in the event the annual meeting is more than 25 days before or after the anniversary date of the prior year's annual meeting and (iv) expand the disclosure required in the stockholder's written notice to cover hedging and derivative transactions of such stockholder.

Previously, Article IV, Section 1 of the By-Laws provided that shares of the Company's stock shall be certificated and Article IV, Section 2 of the By-Laws provided for the transfer of shares with respect to certificated shares only. Sections 1 and 2 have been amended to provide for issuance and transfer of uncertificated shares.
