Intertape Polymer Group Inc. Reports Continued  
Earnings Growth for Second Quarter 2003

- Company successfully manages raw material price hikes
- Maintains 5% sales growth target for year

## Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

- 2003 excess free cash flow expectations maintained
- Company remains comfortable with 2003 consensus earnings estimates

Montreal, Quebec - July 25, 2003 - Intertape Polymer Group Inc. (NYSE, TSX: ITP) today released results for the second quarter ended June 30, 2003. Results remained on target despite the continuing challenging business environment. Intertape Polymer Group Inc. (IPG) Chairman and Chief Executive Officer, Melbourne F. Yull said: "We have accomplished what we set out to do, notwithstanding the realities of today's difficult economy. We have effectively managed dramatic raw material price increases through a combination of initiatives, including a new pricing structure, improved product mix and continuing cost reductions. This was a good quarter in light of the circumstances. We remain confident that we will meet our targets for the fiscal year provided the current level of the economy and a stable raw material pricing environment continue."

### SECOND QUARTER 2003

Sales for the second quarter were \$150.2 million compared to \$153.7 million for the corresponding quarter last year. "Despite downward pressure due to significant pre-buying during the first quarter as a number of customers attempted to avoid anticipated volatility in raw material prices and a weak month of May for the industrial markets in which we compete, sales were close to the target set in our business plan," said Mr. Yull.

Second quarter net income was \$3.9 million, or \$0.12 per share (basic and diluted), compared to net income of \$4.3 million, or \$0.13 per share (basic and diluted) a year ago. "Although earnings are down slightly from last year, they are up 34% compared to the first quarter of 2003, reflecting to a large extent the benefits from the cost reduction initiatives that we undertook to address current market conditions," remarked Mr. Yull.

The Company successfully managed significant raw material cost increases during the second quarter. Gross margin increased to 22.7% from 22.1% on a year-over-year basis and from 22.0% in the first quarter as a result of productivity gains, selling price increases and waste reduction programs. "Our people did a remarkable job of keeping ahead of formidable issues and brought in a very solid quarter," commented Mr. Yull.

Selling, general and administrative expenses were \$20.8 million in the second quarter of 2003 compared to \$20.5 million in the second quarter of 2002. IPG's Chief Financial Officer, Andrew M. Archibald, C.A. pointed out that the Company was able to reduce SG&A expenses by \$1.2 million or 5.5% during the quarter compared to the first quarter of 2003.

Financial expenses in the second quarter were \$7.8 million compared to \$7.9 million in the second quarter last year.

Spending on property, plant and equipment was reduced to \$2.6 million in the second quarter of 2003, compared to \$3.6 for the same quarter in 2002.

Cash flows from operating activities less cash used for investing activities was \$9.7 million for the second quarter 2003, compared to \$11.3 million for the second quarter 2002, and up significantly from the first quarter 2003 shortfall of \$4.3 million.

### FIRST HALF 2003

Sales for the first half of 2003 were \$303.8 million compared to \$300.4 million for the first half last year, an increase of 1.1%. First half net income was \$6.8 million, or \$0.20 per share (basic and diluted), compared to net income of \$7.1 million, or \$0.22 per share (basic and diluted) a year

## Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

ago.

The weighted average number average number of basic shares outstanding was 33,826,800 for the first half of 2003 compared to 31,889,274 for the first half of 2002, under both Canadian and US GAAP.

Gross margin for the first half of 2003 was 22.3% compared to 22.4% for the first half of 2002.

Selling, general and administrative expenses for the six months were \$42.8 million compared to \$40.8 million a year ago. Mr. Archibald noted that the Company expects to achieve further SG&A cost reductions during the remainder of the year.

Financial expenses in the first half were \$15.5 million compared to \$16.9 million in the first half of last year. The lower financial expenses reflect primarily the impact of the \$25.4 million reduction of debt since the end of the second quarter of 2002.

Spending on property, plant and equipment was \$5.1 million in the first half of 2003, down from \$6.5 million for the corresponding period last year.

Cash flows from operating activities less cash used for investing activities was \$5.4 million for the first half 2003, compared to \$1.5 million for the same period last year.

### BALANCE SHEET IMPROVEMENTS

Total debt decreased by \$5.1 million in the second quarter, bringing total debt outstanding to \$319.8 million as at June 30, 2003, compared to \$321.3 million as at December 31, 2002 and \$345.2 million a year ago. Long-term debt of \$15.9 million was repaid during the quarter, bringing the first-half total to \$21.1 million, which reflects more than two-thirds of IPG's commitment to reduce long-term debt by \$29.3 million for the year.

### FIBOPE ACQUISITION

Just following the end of the second quarter, IPG announced that it had completed the acquisition of its partner's 50% interest in Fibope, a manufacturer and distributor of shrink film based in Portugal that was established seven years ago. Mr. Yull said the European acquisition would enable the Company to maximize its advanced technology in shrink films. "By consolidating ownership in the Portuguese operation under IPG, we now have control of manufacturing and distribution, which we expect will lead to better and faster growth in Europe. This acquisition also provides a solid platform to manufacture and distribute our pressure-sensitive performance products in the European market which is similar to that of North America's."

### CONCLUSION

Mr. Yull said he is encouraged by IPG's second quarter accomplishments, given the level of pre-buying demand experienced during the first quarter and the sluggish economy. "We will continue to examine every aspect of our business to achieve further cost reductions throughout the Company. Initiatives such as the consolidation of our regional distribution centers in Danville, Virginia and our water-activated tape plants in Wisconsin are expected to yield significant savings in addition to those benefits already realized from past programs. In addition, we believe that the Fibope acquisition offers additional, interesting opportunities for growth. As such, we remain committed to our target of 5% revenue growth for 2003."
