Item 8.01 Other Events

The Company is filing this Item 8.01 of Form 8-K to recast certain historical results for previously reported fiscal periods for the 2014 and 2015 quarterly and year-end periods, as described in more detail below, to reflect the previously announced segment change. The Company's reportable segments have changed, effective for the quarter ending April 3, 2016. The Company will begin to report results under the new reportable segments with the filing of its Quarterly Report on Form 10-Q for the quarter ending April 3, 2016. The new segments align with changes in how the Company manages the business, reviews operating performance and allocates resources as a result of the deconsolidation of its Africa reportable segment and other internal reporting changes. The Company's re-aligned reportable segments are as follows:

☑ North American Residential

☑ Europe

☑ Architectural

North American Residential reportable segment is the aggregation of the Wholesale and Retail operating segments. The Europe reportable segment is the aggregation of the United Kingdom, Central Eastern Europe and France (prior to disposal) operating segments. The Architectural reportable segment consists solely of the Architectural operating segment. In addition to the new reportable segments, the Corporate & Other category includes unallocated corporate costs and the results of immaterial operating segments which were not aggregated into any reportable segment, including the historical results of our Africa operating segment.

The financial information included in this Item 8.01 includes recast segment net sales and Adjusted EBITDA (as defined) for the years ended January 3, 2016, and December 28, 2014, and for each fiscal quarter therein. The financial information furnished also includes a reconciliation of net sales by segment for each fiscal quarter during the year ended January 3, 2016, compared to the respective fiscal quarter in the year ended December 28, 2014. The recast of historical segment information has no impact on the Company's previously reported consolidated results of operations, financial condition or cash flows.

Non-GAAP Financial Measure Information

Adjusted EBITDA is a measure used by management to evaluate segment performance and allocate resources. Adjusted EBITDA is defined as net income (loss) attributable to Masonite plus depreciation, amortization, restructuring costs, loss (gain) on sale of property, plant and equipment, asset impairment, loss (gain) on disposal of subsidiaries, registration and listing fees, interest expense, net, loss on extinguishment of debt, other expense (income), net, income tax expense (benefit), loss (income) from discontinued operations, net of tax, net income attributable to non-controlling interest and share based compensation expense. Adjusted EBITDA is not a measure of financial condition or profitability under GAAP, and should not be considered as an alternative to (i) net income (loss) or net income (loss) attributable to Masonite determined in accordance with GAAP or (ii) operating cash flow determined in accordance with GAAP. Additionally, Adjusted EBITDA is not intended to be a measure of free cash flow for management's discretionary use, as it does not include certain cash requirements such as interest payments, tax payments and debt service requirements. We believe that the inclusion of Adjusted EBITDA in this press release is appropriate to provide additional information to investors about our operating performance. Not all companies use identical calculations, and as a result, this presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Moreover, Adjusted EBITDA as presented for financial reporting purposes herein, although similar, is not the same as similar terms in the applicable covenants in our ABL Facility or our senior notes. Adjusted EBITDA, as calculated under our ABL Facility or senior notes would also include, among other things, additional add-backs for amounts related to: cost savings projected by us in good faith to be realized as a result of actions taken or expected to be taken prior to or during the relevant period; fees and expenses in connection with certain plant closures and layoffs; and the amount of any restructuring charges, integration costs or other business optimization expenses or reserve deducted in the relevant period in computing consolidated net income, including any one-time costs incurred in connection with acquisitions. The tables following the recast financial information set forth reconciliations of Adjusted EBITDA to net income (loss) attributable to Masonite for the periods indicated.
