NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

SIGNIFICANT ACCOUNTING POLICIES -- NOTE 1:

In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of normal recurring accruals except as noted below) considered necessary for a fair presentation. This report should be read in conjunction with the financial statements and footnotes contained in the Company's annual report on Form 10-K, dated July 26, 2002 for the fiscal year ended April 30, 2002. Results of operations covered by this report may not be indicative of the results of operations for the entire year.

CASH AND CASH EQUIVALENTS:

The Company considers all cash held at banks and invested in the Value Line money market funds with an original maturity of less than three months to be cash and cash equivalents. As of October 31, 2002 and April 30, 2002, cash equivalents included \$62,825,000 and \$116,885,000, respectively, invested in the Value Line money market funds.

VALUATION OF SECURITIES:

The Company's long-term securities portfolio, which consists of shares in various Value Line Mutual Funds and government debt securities, is accounted for in accordance with Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The Value Line Mutual Funds are valued at market with unrealized gains and losses on these securities reported, net of applicable taxes, as a separate component of Shareholders' Equity. Investments in government debt securities that are held to maturity are carried at amortized cost. Realized gains and losses on sales of the long term securities are recorded in earnings as of the trade date and are determined on the identified cost method.

Trading securities, which consist of all other securities held by the Company, are valued at market with realized and unrealized gains and losses included in earnings.

ADVERTISING EXPENSES:

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders of
Value Line, Inc.
New York, NY

We have reviewed the accompanying consolidated balance sheet of Value Line, Inc. and its subsidiaries as of October 31, 2002 and the related consolidated statements of income for the three month and six month periods ended October 31, 2002 and October 31, 2001 and the consolidated statement of changes in stockholders' equity, and consolidated statement of cash flows for the six month periods ended October 31, 2002 and 2001. All information included in these financial statements is the representation of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial

Edgar Filing: VALUE LINE FUND INC - Form 10-Q/A

information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with generally accepted accounting principles.

We have previously audited, in accordance with generally accepted auditing standards, the consolidated balance sheet as of April 30, 2002 and the related consolidated statements of income, changes in stockholders equity, and cash flows for the year then ended (not presented herein), and in our report dated July 18, 2002, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of April 30, 2002 is fairly stated in all material respects.

ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

LIQUIDITY AND CAPITAL RESOURCES

The Company had liquid resources, which were used in its business, of \$223,912,000 at October 31, 2002. In addition to \$64,758,000 of working capital, the Company had long-term securities with a market value of \$159,154,000, that, although classified as non-current assets, are also readily marketable should the need arise.

The Company's cash flow from operations of \$5,030,000 for the first six months of fiscal 2003 was lower than cash flow of \$10,100,000 for the same period last fiscal year. The decrease in cash flow from operations was largely attributable to lower net earnings that resulted primarily from a decrease in investment management fees and services revenues. In addition, the cash provided by operations for the first six months of last fiscal year was approximately \$2.5 million higher as a result of the postponement of the Company's estimated federal income tax payment for the second quarter of fiscal 2002 in accordance with the Internal Revenue Service's disaster relief due to the September 11, 2001 terrorists' attacks. Net cash outflows from investing activities during the first six months of fiscal 2003 were \$53,789,000 due largely to the Company's decision to re-deploy its cash holdings into government securities with higher yields than the cash instruments.

From time to time, the Company's Parent has purchased additional shares of Value Line, Inc. in the market when, and as the Parent has determined it to be appropriate. The Company understands that the Parent may make additional purchases from time to time in the future.

Edgar Filing: VALUE LINE FUND INC - Form 10-Q/A

Management believes that the Company's cash and other liquid asset resources used in its business together with the future cash flows from operations will be sufficient to finance current and forecasted operations. Management anticipates no borrowing for fiscal year 2003.

OPERATING RESULTS

Net income of \$7,524,000 or \$0.75 per share for the first six months of fiscal 2003 compared to net income of \$10,114,000 or \$1.01 per share for the same period last fiscal year. Net income for the second quarter of fiscal 2003 was \$4,524,000 or \$.45 per share as compared to \$5,515,000 or \$.55 per share for the three months ended October 31, 2001. Revenues of \$40,891,000 for the six months ended October 31, 2002 were 8% below revenues of \$44,617,000 in fiscal 2002. The decline in net income during the six months ended October 31, 2002 was largely the result of the lower level of revenues, primarily resulting from a 19% decline in investment management fees and services revenues that resulted from a decrease in average net asset values in the Value Line mutual funds. The change in net asset values in the Value Line mutual funds was largely attributable to the overall decline in the financial markets with the NASDAQ index falling 21% during the six months ended October 31, 2002, representing a 74% decline from its all time high.

As of October 31, 2002, total circulation for the Company's investment publications rose 13% above the level at October 31, 2001. Combined circulation of The Value Investment Survey, THE VALUE LINE INVESTMENT SURVEY FOR WINDOWS, THE VALUE LINE RESEARCH CENTER, AND THE VALUE LINE 600 was 8% higher than the prior year's circulation. Subscription revenues of \$26,243,000 for the six months ended October 31, 2002 were 1% below revenues for the same period of the prior fiscal year. Subscription revenues of \$13,139,000 for the second quarter of fiscal 2003 were approximately equal to last year's revenues for the three months ended October 31, 2001. Investment management fees and services revenues of \$14,648,000 for the six months ended October 31, 2002 were 19% below the prior fiscal year's revenues of \$18,109,000. The change in total subscription and investment management fees and services revenues was primarily attributable to the continued difficult financial market conditions.

Operating expenses of \$29,537,000 for the six months ended October 31, 2002 were comparable to last year's expenses of \$30,040,000. Total advertising and promotional expenses of \$10,002,000 were approximately 1% below the prior year's expenses. Salaries and employee benefits expenses of

\$10,675,000 were 9% below expenses of \$11,770,000 recorded in the prior fiscal year. Production and distribution costs of \$4,837,000 for the six months ended October 31, 2002 were 13% above last year's expenses of \$4,264,000. The increase in production and distribution expenses resulted from an increase in subscription circulation, an increase in U.S. postal rates, amortization costs for new product development expenditures, and expenses related to restocking product user guides. Office and administrative expenses of \$4,023,000 were 3% higher than last year's expenses of \$3,919,000. The net increase in administrative expenses compared to last year's resulted primarily from higher insurance fees and depreciation expenses offset in part by a decline in rent expenses.

The Company's securities portfolios produced a gain of \$1,518,000 for the first six months of fiscal 2003 versus a gain of \$2,435,000 for the same period

last fiscal year. The Company's trading portfolio produced losses of \$945,000 during the six months ended October 31, 2002 versus losses of \$5,140,000 during the same period last fiscal year. Income from securities transactions for the six months ended October 31, 2002 also included dividend and interest income of \$1,947,000 and capital gains of \$529,000 from sales of securities from the Company's long-term portfolio. This compares to dividend and interest income of \$1,470,000 and capital gains of \$6,472,000 from sales of securities from the Company's long-term portfolio for the same period last fiscal year.
