RADA ELECTRONIC INDUSTRIES LTD. AND ITS SUBSIDIARY
NOTES TO CONSOLIDATED STATEMENTS

U.S. dollars in thousands

NOTE 1:- GENERAL

- a. RADA Electronic Industries Ltd., an Israeli corporation (the "Company") is engaged in the development, manufacturing and sale of Automated Test Equipment ("ATE") products, avionics equipment and aviation data acquisition and debriefing systems.
- b. The Company operates a test and repair shop using its ATE products in Beijing, China through its 80% owned Chinese subsidiary, Beijing Huari Aircraft Components Maintenance and Services Co. Ltd. ("CACS" or "subsidiary"). CACS was established with a third party, which owns the remaining 20% equity interest.
- c. On February 2005, the Company's Board of Directors approved the purchase of all the assets that are used by, or related to the operation of Vectop Limited ("Vectop"), an Israeli company specializing in the design, development, marketing and sale of electro-optic equipment and debriefing systems business. Vectop's assets also include know-how, patents and intellectual property to produce off-the-shelf products such as cameras and video recorders, which are currently operational onboard aircraft and tanks in Israel and other countries. The Company purchased Vectop's assets for \$ 280 in cash and future consideration based on revenues derived from Vectop projects. In addition, the Company is assuming \$ 800 of Vectop's bank debt, payable commencing in 2006 over a two-year period, as well as other operational liabilities.

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES

The Company's unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. The significant policies followed in the preparation of the condensed consolidated financial statements, applied on consistent basis are as follows:

- a. Use of estimates:

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Unaudited information:

The consolidated financial statements include the unaudited consolidated balance sheet as of June 30, 2005, the related unaudited consolidated statements of operations for the three and six months ended June 30, 2005 and 2004, unaudited statement of changes in shareholders' equity for the six month ended June 30, 2005 and cash flows for the six-month periods ended June 30, 2005 and 2004 presented in accordance with accounting principles generally accepted for interim financial reporting. This unaudited information has been prepared by the Company on the same basis as the audited annual consolidated financial statements and, in management's opinion, reflects all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the financial information, for the periods presented. Accordingly, they do not include all of the information and footnotes required by generally

6

RADA ELECTRONIC INDUSTRIES LTD. AND ITS SUBSIDIARY
NOTES TO CONSOLIDATED STATEMENTS

U.S. dollars in thousands

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES (Cont.)

accepted accounting principles for audited financial statements. Results for interim periods are not necessarily indicative of the results expected for the entire year.

c. Share based compensation:

The Company accounts for employee stock based compensation under the intrinsic value model in accordance with Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation" ("FIN No. 44"). In accordance with SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), the Company discloses pro forma data assuming the group had accounted for employee stock option grants using the fair value-based method defined in SFAS No. 123.

Pro forma information regarding the Company's net income (loss) and net income (loss) per share is required by SFAS No. 123 and has been determined as if the Company had accounted for its employee stock options under the fair value method prescribed by SFAS No. 123. The following table illustrates the effect on net loss and net loss per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

Management's Discussion and Analysis of Financial Condition and Results of Operations

This information should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2004 contained in our 2004 Annual Report on Form 20-F. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

Overview

We develop, manufacture and sell automated test equipment and avionics products for military and commercial use mainly in Israel, Europe and the United States. We also provide test and repair services using our CATS(R) testers and test program sets through our Chinese subsidiary, CACS. In addition, we provide manufacturing services to third parties engaged mainly in the avionics market.

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgments underlying them, are disclosed in the notes to our consolidated financial statements. These policies have been consistently applied in all material respects and address such matters as revenue recognition. While the estimates and judgments associated with the application of these policies may be affected by different assumptions or conditions, we believe the estimates and judgments associated with the reported amounts are appropriate in the circumstances.

The significant accounting policies listed in Note 2 of our consolidated financial statements that we believe are the most critical to aid in fully understanding and evaluating our financial condition and results of our operations under generally accepted accounting principles are discussed below.

Intangible Assets. Costs of producing our TPS software library, which is integrated with our test station, incurred subsequent to achieving technological feasibility, were capitalized, and are amortized by the greater of the amount computed using the: (i) ratio that current gross revenues from sales of the software to the total of current and anticipated future gross revenues from sales of that software, or (ii) the straight-line method over the estimated useful life of the product. We assess the recoverability of these intangible assets at each balance sheet date by determining whether the amortization of the asset over its remaining life can be recovered through undiscounted future operating cash flows from the specific software products sold. The use of different assumptions with respect to the expected cash flows from our assets and other

10

economic variables may lead to different conclusions regarding the recoverability of our assets' carrying values and to the potential need to record an impairment loss for our intangible assets. As of June 30, 2005, no impairment was required.

Impairment of Long-Lived Assets. We are required to assess the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. We assess the impairment of our assets based on a number of factors, including any significant changes in the manner of our use of the respective assets or the strategy of our overall business and significant negative industry or economic trends. Upon determination that the carrying value of a long-lived asset may not be recoverable, based upon a comparison of expected future cash flows (undiscounted and without interest charges) to the carrying amount of the asset, an impairment charge is recorded. Under different assumptions with respect to the recoverability of our long-lived assets, our determination may be different, which may negatively affect our financial position and results of operations. As of June 30, 2005, no impairment was required.

Share-Based Compensation. We account for stock-based compensation using the intrinsic value model. Accordingly, we measure compensation cost as the excess, if any, of the closing market price of our stock at the date of grant over the exercise price of the option granted. We recognize compensation cost for stock options, if any, ratably over the vesting period. We disclose pro forma data assuming we had accounted for employee stock option grants using the fair value-based method. We account for options and warrants issued to non-employees. We use the Black-Scholes option pricing model to value warrants granted to non-employees. This policy will change effective with our reporting period

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

beginning January 1, 2006.

Revenue Recognition. Our revenues are derived from sales of automated test equipment and avionics products and from long-term fixed price contracts for ATE, avionics and ground debriefing systems. In addition, we lease ATE and provide manufacturing, development and product support services. Product revenue is recognized when there is persuasive evidence of an arrangement, the fee is fixed or determinable, delivery of the product to the customer has occurred and the collection of the fee is probable. If the product requires specific customer acceptance, revenue is deferred until customer acceptance occurs or the acceptance provisions lapse.

Revenues from long-term fixed price contracts are recognized by the percentage-of-completion method in accordance with the "Input Method." We apply this method when the total of the costs and revenues of the contract can reasonably be estimated. The percentage of completion is determined based on the ratio of actual costs incurred to total costs estimated to be incurred over the duration of the contract. With regard to contracts for which a loss is anticipated, a provision is made for the entire amount of the estimated loss at the time such loss becomes evident. Estimated gross profit or loss from long-term contracts may change due to changes in estimates resulting from differences between actual performance and original forecasts. Such changes in estimated gross profit or loss are recorded in results of operations when they are reasonably determined by management on a cumulative catch-up basis.

11

Revenues from services are recognized when the service is performed.

Revenue under operating leases of equipment are recognized ratably over the lease period.

Revenues from certain arrangements may include multiple elements within a single contract. Our accounting policy separates multiple deliverables into individual accounting units with determinable fair values. Our arrangements are accounted for as one unit of accounting since there is no objective and reliable evidence of fair value of the undelivered elements in the contract. When the undelivered elements are not essential to the functionality of the delivered elements, revenues are recognized for the delivered element when the respective fee is payable and noncontingent and all other revenue recognition criteria are met.

Loans to Employees and Provision for Litigation. We have an outstanding balance of loans due to us from our former chief executive officer and a former officer. Both officers claim that they are not obliged to repay the loans. There are pending legal actions between us and each of the former officers concerning, among other things, the repayment of the loans. According to our legal consultants, we have a strong case with regard to our claims for repayment of the outstanding loans. We recorded a provision for the loans receivable in the amount that we believe is sufficient to reflect the recoverability of the asset, based on management's estimation. In addition, we have several additional legal proceedings outstanding. We have recorded provisions for litigation for claims that were estimable and for which there is a high probability that we will be held responsible based on our legal consultants' opinions and management's estimations.

Fair Value of Warrants. In July 2004, we consummated a private placement, whereby we issued 1,800,000 shares, an aggregate of \$3 million principal amount

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

of convertible notes and warrants (including additional investment rights) to purchase an aggregate of 2,037,500 ordinary shares to investors for a total consideration of \$5.7 million, net of issuance expenses. The consideration was allocated based on the respective fair values of the ordinary shares, notes and warrants. The fair value of the warrants and the additional investment rights was based on a valuation prepared using the Black-Scholes pricing model. The valuation result was judged to be reasonable by the Company's management by comparison to benchmarks in similar circumstances.

Significant Expenses

Cost of Revenues. Cost of revenues consists primarily of manufacturing costs, depreciation of fixed assets, software development costs, impairment losses on long-lived assets and amortization of capitalized software.

Marketing, Selling, General and Administrative Expenses. Marketing and selling expenses consist primarily of expenses for sales and marketing personnel, sales commissions, marketing activities, public relations, promotional materials, travel expenses and trade show exhibit expenses. General and administrative expenses consist primarily of salaries and related expenses for executive, accounting, administrative personnel, professional fees, provisions for doubtful accounts, and other general corporate expenses.

12

Financial Income (Expenses), Net. Financial expenses consist of interest and bank expenses, interest on convertible note, amortization of beneficial conversion feature on convertible note and currency remeasurement losses. Financial income consists of interest on cash and cash equivalent balances, currency remeasurement gains and gain on restructuring of debt.

Six Months Ended June 30, 2005 Compared with Six Months Ended June 30, 2004

Revenues. Revenues decreased by 3.9% to \$6.6 million, in the six month ended June 30, 2005 from \$6.9 million in the six months ended June 30, 2004. We expect a slight increase in revenues in the second half of the year.

Cost of Revenues. Cost of revenues increased by 3.4% to \$5.4 million in the six months ended June 30, 2005 from \$5.2 million in the six months ended June 30, 2004. The increase is mainly due to the higher per portion of our revenues attributable to development programs that have lower profit margins.

Gross Profit. Our gross profit decreased by 26.7% to approximately \$1.2 million in the six months ended June 30, 2005 from \$1.7 million in the six months ended June 30, 2004. Our profit margin decreased to 18.6% in the six months ended June 30, 2005 from 24.3% in the six months ended June 30, 2004. The decrease in gross margin, is due to the mix between the traditional products that the company sells and the newer lower margin products which are developed together with the customer.

Marketing, Selling, General and Administrative Expenses. Marketing, selling, general and administrative expenses increased by 11.4% to \$1.53 million in the six months ended June 30, 2005 from \$1.4 million in the six months ended June 30, 2004. We are continuing our costs savings measures, but we have increased our sales efforts in our current and new markets, which has resulted in increased marketing and selling expenses.

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

Financial Expenses, Net. Our financial expenses, net were \$297,000 in the six months ended June 30, 2005. In the six months ended June 30, 2004 we had financial expense of \$172,000. The increase in our financial expenses was mainly due to higher interest rates.

Liquidity and Capital Resources

At June 30, 2005, we had working capital surplus of \$3.94 million and cash and cash equivalents of \$1.6 million. As of June 30, 2005 we had long term debt to our banks of \$350,000.

We had capital expenditures of \$282,000 in the six months ended June 30, 2005. We currently do not have any significant capital spending or purchase commitments.

Net cash used in operating activities was \$4.1 million in the six months ended June 30, 2005. This was attributable primarily to our loss of \$586,000, depreciation and amortization of \$654,000 and an increase in trade receivables of \$1.5 million, offset by a net increase in costs and estimated earnings in excess of billings of \$296,000, a \$638,000 increase in inventories, and a \$404,000 decrease in deferred revenues. Net cash used in operating activities was \$294,000 in the six months ended June 30, 2004. This was attributable primarily to our net income of

13

\$163,000, depreciation and amortization of \$402,000, a net increase in costs and estimated earnings in excess of billings of \$293,000 and a \$957,000 increase in other payables and accrued expenses, \$44,000 decrease in trade receivables and a \$694,000 decrease in deferred revenues.

Net cash used in investing activities was approximately \$1.6 million in the six months ended June 30, 2005, and \$14,000 in the six months ended June 30, 2004. In 2005 we purchased net assets of \$11 million, invested \$282,000 in plant and equipment and invested \$210,000 in long-term restricted cash.

Net cash provided by financing activities was \$3.7 million in the six months ended June 30, 2005. This amount was principally in respect of proceeds of \$2.8 million from issuance of shares and warrants and from the exercise of warrants and a \$ 700,000 long-term loan received from the bank.

As of June 30, 2005 there were 20,452,774 warrants outstanding to purchase 20,452,774 of our ordinary shares. Of such warrants, 3,781,995 warrants have an exercise price of zero (par value) per share, 13,667,345 warrants have an exercise price of \$2.00 per share, 2,065,934 warrants have an exercise price of \$2.1 per share and 937,500 warrants have an exercise price of \$2.50 per share. To the extent any warrants are exercised the proceeds will be added to our working capital.

Off-Balance Sheet Arrangements

We are not a party to any material off-balance sheet arrangements. In addition, we have no unconsolidated special purpose financing or partnership entities that are likely to create material contingent obligations.

Tabular Disclosure of Contractual Obligations

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 6-K

The following table summarizes our minimum contractual obligations and commercial commitments, as of June 30, 2005 and the effect we expect them to have on our liquidity and cash flow in future periods.

Contractual Obligations	Payments due by Period			
	Total	Less than 1 year	1-3 Years	3-5 Years
	-----	-----	-----	-----
Long-term debt obligations	\$3,151,000	\$700,000	\$2,451,000	-
Operating lease obligations.....	\$636,000	\$274,000	\$362,000	-
Total.....	\$3,787,000	\$974,000	\$2,813,000	-

In addition, we have long-term liabilities for severance pay that is calculated pursuant to Israeli severance pay law generally based on the most recent salary of the employees multiplied by the number of years of employment, as of the balance sheet date. Employees are entitled to one month's salary for each year of employment or a portion thereof. As of June 30, 2005 our severance pay liability was \$2.0 million.
