**PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
To Be Held August 15, 2002**

These proxy materials are furnished to you in connection with the solicitation of proxies by and on behalf of the Board of Directors of Universal Compression Holdings, Inc. (sometimes referred to as the "Company"), for use at the 2002 Annual Meeting of Stockholders of the Company. The meeting will be held at the Omni Houston Hotel, Colonnade B Room, Four Riverway, Houston, Texas 77056, on August 15, 2002, at 9:00 a.m., local time. The proxies also may be voted at any adjournments or postponements of the meeting. We are first sending these proxy materials to our stockholders on or about July 19, 2002.

Only owners of record of issued and outstanding shares of our common stock at the close of business on June 21, 2002 are entitled to vote at the meeting, or at adjournments or postponements of the meeting. Each owner of record is entitled to one vote for each share of common stock held. On June 21, 2002, there were 30,634,135 shares of our common stock issued and outstanding. Each share of common stock issued and outstanding on June 21, 2002 entitles the holder thereof to one vote on all matters submitted for a vote of the stockholders at the meeting. The quorum requirement for holding the meeting and transacting business is met when a majority of the outstanding shares entitled to be voted at the annual meeting are present in person or represented by proxy. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Whether you hold shares directly as the stockholder of record or in street name, you may vote without attending the meeting. You may vote by granting a proxy or, for shares held in street name, by submitting voting instructions to your broker or nominee. In most instances, you will be able to do this by mail, by telephone or over the Internet. Please refer to the instructions on your proxy card or, for shares held in street name, the voting instruction card included by your broker or nominee. All properly executed written proxies, and all properly completed proxies submitted by telephone or by the Internet, that are delivered pursuant to this solicitation will be voted at the meeting in accordance with the directions given in the proxy, unless the proxy is revoked prior to or at the meeting. You can revoke your proxy by giving written notice to our Corporate Secretary, delivering a later-dated proxy, using the telephone or Internet voting procedures described in the enclosed proxy card or voting in person at the meeting.

You should specify your choice for each matter on the enclosed proxy card. If no instructions are given, proxies that are signed and returned will be voted FOR the election of all director nominees, FOR the proposal to amend our Employees' Supplemental Savings Plan, FOR the proposal to amend our Incentive Stock Option Plan and FOR the proposal to ratify the appointment of Deloitte & Touche LLP as our independent auditors. Abstentions will have no effect on the result of the votes so long as the holders of at least a majority of the shares entitled to vote at the annual meeting actually cast votes. Broker non-votes will have no effect on the result of the votes.

Other than the four proposals described in this Proxy Statement, we do not expect any matters to be presented for a vote at the annual meeting. If you grant a proxy, the persons named as proxy holders on the proxy card will have discretion to vote your shares on any additional matters properly presented for a vote at the meeting. A representative of EquiServe, our transfer agent, will tabulate the votes and act as the inspector of the election. For questions about this Proxy Statement or the meeting, please contact Mark L. Carlton, our Senior Vice President, General Counsel and Secretary, at (713) 335-7000.

ELECTION OF DIRECTORS

(Proposal 1)

The Company's directors are divided into three classes, with each class serving for a period of three years. The terms of Ernie L. Danner, Lisa W. Rodriguez, Edmund P. Segner, III and Stephen A. Snider will expire at the 2002 Annual Meeting. Messrs. Danner, Segner and Snider and Ms. Rodriguez have been nominated to stand for election at the meeting to hold office until our 2005 Annual Meeting or until they are succeeded by qualified and elected directors. In voting on the election of the four director nominees to serve until our 2005 Annual Meeting of Stockholders, you may vote in favor of all nominees, withhold votes as to all nominees or withhold votes as to specific nominees. Stockholders may not cumulate their votes in the election of directors. Directors will be elected by a plurality, which means that the four nominees receiving the greatest number of votes will be elected. We have no reason to believe that any of these nominees will be unable or unwilling to serve if elected. However, if any nominee should become unable or unwilling to serve for any reason, proxies may be voted for another person nominated as a substitute by our Board of Directors, or the Board may reduce the number of directors.

Information about Committees, Meetings and Compensation of Directors

The Board of Directors has established an Audit Committee and a Compensation Committee, but does not have a standing Nominating Committee. The Audit Committee and the Compensation Committee are comprised entirely of outside directors. The committee service of our directors is indicated on pages 2 through 4 of this Proxy Statement.

The Audit Committee recommends to the Board of Directors the engagement of the independent auditors and reviews with the independent auditors the scope and results of the audits, the internal accounting controls and the professional services furnished by the independent auditors. The Board of Directors has adopted a revised Audit Committee Charter, which was previously filed with the Securities and Exchange Commission as a part of our definitive proxy statement filed July 13, 2001. The charter may be obtained by accessing the SEC's website at www.sec.gov or by contacting us. All three members of our Audit Committee are "independent" as that term is defined in the New York Stock Exchange listing standards. In fiscal year 2002, the Audit Committee met nine times.

The Compensation Committee reviews and approves all salary arrangements and other compensation for officers. The Compensation Committee is also responsible for the administration of the Company's benefit plans. In fiscal year 2002, the Compensation Committee met five times.

In fiscal year 2002, the Board of Directors held six meetings. Each director attended at least 75% of the aggregate of all meetings of the Board of Directors and the Committees on which the director served during fiscal year 2002.

Directors who are not our officers receive an annual director fee of \$24,000 and reimbursement of reasonable out-of-pocket expenses. Such directors also receive between \$500 and \$1,000 per Board of Directors or Committee meeting attended, except in the case of a Chairman of a Committee who receives \$1,500 per meeting attended. Pursuant to the Company's Directors' Stock Plan, directors may elect to receive all or a portion of their future director fees in our common stock. In addition, directors who are not our officers are eligible to receive stock option awards under our Incentive Stock Option Plan. During fiscal year 2002, Messrs. Case, Duroc-Danner, Dutton, Pruellage, Segner, Urcis and Mr. Curtis W. Huff were each awarded 17,500 options under the plan, all of which have a one-year vesting schedule.

Compensation Committee Interlocks and Insider Participation

During the last fiscal year, Messrs. Duroc-Danner, Huff, Pruellage, Segner and Urcis and Mr. John K. Castle served as members of our Compensation Committee. Mr. Duroc-Danner is President and Chief Executive Officer of Weatherford International Ltd. Weatherford International Ltd. owns approximately 45% of our outstanding common stock. See "Certain Relationships and Related Transactions" for a description of certain of our arrangements with Weatherford International.

Section 16(a) Beneficial Ownership Reporting Compliance

Executive officers, directors and certain persons who own more than ten percent of our common stock are required by Section 16(a) of the Securities Exchange Act of 1934 and related regulations to file reports of their ownership of common stock with the SEC and the New York Stock Exchange, and to furnish us with copies of the reports.

We received written representations from each such person who did not file an annual report with the SEC on Form 5 that no Form 5 was due. Based solely on our review of the reports and representations, we believe that all required Section 16(a) reports were timely filed in fiscal 2002, except for a certain report filed by Mr. Hilburn. Mr. Hilburn, our former Senior Vice President of Operations, was late in filing a Form 4 report with respect to four transactions.

REPORT OF THE COMPENSATION COMMITTEE

Compensation Policy

The goal of our compensation policy is to offer a cash and stock-based compensation package that attracts and retains executive officers and that aligns executive compensation with the interests of our stockholders. Our philosophy is to provide a base salary that is competitive with companies of similar size in the energy industry, annual bonus potential that is based on a combination of corporate and individual performance and long and short-term incentives. The Compensation Committee of the Board of Directors reviews our executive compensation programs annually to ensure these programs are competitive and reasonable. Our stock-based compensation decisions for executive officers are recommended to the full Board of Directors for approval.

Compensation Policy Components

Base Salary Base salaries are competitive with those offered by companies of similar size in the energy industry. Individual salaries, which are reviewed annually, are based on individual skills and performance and market comparisons.

Incentive Bonus The Compensation Committee has adopted an Officers' Incentive Plan each year to provide each executive officer with the potential to earn a cash bonus expressed as a percentage of salary. The amount of each bonus paid to executive officers in fiscal year 2002 was determined by the Compensation Committee and based on the Fiscal Year 2002 Officers' Incentive Plan.

The Fiscal Year 2002 Officers' Incentive Plan provided for bonus payments upon the attainment of Company financial and operating goals, as well as individual performance. Sixty percent of the fiscal year 2002 bonus payment to each officer was based on an objective analysis of our financial performance, ten percent was based on an objective analysis of our annual safety performance, and thirty percent was based on a subjective analysis of individual performance. The Compensation Committee has the discretion to award bonuses in excess of the targeted amount in the event the goals are exceeded. Likewise, the Compensation Committee can award less than the targeted amount in the event any of the goals are not achieved.

Stock Option Grants The use of stock options is considered to be an important incentive to our executive officers for working toward our long-term growth. We believe that stock options provide our executive officers with a benefit that will increase only to the extent that the value of the common stock increases. The number of shares granted is based on the contribution of the executive officer, are subject to vesting over a three year period and have exercise prices equal to the market value of our stock on the date of the grant. In fiscal year 2002, our executive officers received grants representing 716,000 shares of common stock.

Restricted Stock Grants We also utilize grants of restricted stock as long-term compensation for our executive officers. The Compensation Committee can exercise its discretion in determining the vesting schedule for restricted stock. During fiscal year 2002, 100,000 shares of restricted stock were granted to six of our executive officers. Common stock subject to the restricted stock grants vested 0% on January 1, 2002 and will vest 25% on each January 1 thereafter until January 1, 2006. Generally, common stock subject to restricted stock grants will vest 0% upon the first anniversary of the grant and 25% on each anniversary thereafter through the fifth anniversary.

Other Compensation Programs Our 401(k) savings plan provides employees, including executive officers, the opportunity to defer up to 15% of their salary, through December 31, 2001, and up to 25% effective January 1, 2002, on a pre-tax basis through contributions to an account from which the employee may direct how the funds are invested. We match, with Company common stock, 50% of the first 6% of such employee contributions, with a maximum match of 3% of the employee's compensation. Prior to September 1, 2001, our matching contributions were in the form of cash and invested in the same manner

as the employee contributions. Effective September 1, 2001, our matching contributions were in the form of Company stock. Employees vest in the Company's contribution over five years, based on length of employment. Company stock is not an investment option for employees and the common stock cannot be converted except upon certain events, such as termination of employment or death.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form DEF 14A

Our Employees' Supplemental Savings Plan provides executive officers the opportunity to defer up to 15% of their salary, through December 31, 2001, and up to 25% effective January 1, 2002. In addition, participants can defer up to 100% of their bonuses. The Company matches 50% of the first 6% of compensation, excluding any bonus, deferred. If Proposal 2 is approved by our stockholders, effective September 1, 2002, our matching contributions will be in the form of Company stock.

Fiscal Year 2002 Compensation for the President and Chief Executive Officer

In fiscal year 2002, Mr. Snider received a base salary of \$265,000. His targeted bonus potential was 70% of this base salary and the Compensation Committee awarded him \$155,356, or 84% of the targeted amount of \$185,000. Mr. Snider was granted options representing 250,000 shares of common stock and 30,000 shares of restricted stock. In addition, the Company made matching contributions of \$3,312.50 and 143 shares of common stock to Mr. Snider's 401(k) account and \$5,809.62 to his account under the Supplemental Savings Plan.

The increase in Mr. Snider's total compensation was intended to make his compensation more competitive with those of similarly situated officers in comparable companies in the oilfield services sector and to recognize his efforts to grow the Company's business and increase shareholder value. The number of shares subject to options granted to Mr. Snider was determined to be an appropriate level to provide incentives to increase the value of the Company's common stock in the future.

Compensation Deductions Limitations

Section 162(m) of the Internal Revenue Code, as amended, limits the deductibility of certain compensation expenses in excess of \$1,000,000 to any one individual in any fiscal year. Compensation that is "performance based" is excluded from this limitation. For compensation to be "performance based," it must meet certain criteria including certain predetermined objective standards approved by stockholders. The Compensation Committee intends to structure the compensation of the Company's executive officers in accordance with the requirements for deductibility under Section 162(m).

Summary

In making decisions regarding executive compensation, the Committee compares current compensation levels with those of other companies within the oilfield service that compare favorably to our company with regard to market capitalization and other financial indicators by which we have historically measured the Company's performance. The Committee uses its discretion to determine a total compensation package of base salary, short-term and long-term incentives that are competitive with this group of peer companies.

The Audit Committee also recommended the reappointment of Deloitte & Touche as the Company's independent auditors.

The Company's management is responsible for the Company's financial reporting process, internal audit process and the preparation of the Company's financial statements. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Arrangements with Weatherford International

Registration Rights Agreement. Concurrently with our acquisition of Weatherford Global Compression Services, L.P. ("Weatherford Global") in February 2001, we entered into a registration rights agreement with WEUS Holding, Inc., a wholly owned subsidiary of Weatherford International, Inc. In connection with the June 26, 2002 restructuring of Weatherford International, Inc., WEUS Holding's rights under the registration rights agreement were transferred to Weatherford International Ltd. Under this agreement, Weatherford International Ltd. has the right, on up to three occasions, to cause us to register at our expense Weatherford International Ltd.'s shares of our common stock under the Securities Act at any time by providing a written demand to us, subject to certain minimum dollar values. The registration rights agreement also provides Weatherford International Ltd. with certain "piggyback" registration rights, or rights to require us, subject to certain limitations, to include its shares of our common stock in other registration statements that we may file.

Transitional Services Agreement. Concurrently with the closing of the Weatherford Global acquisition in February 2001, Weatherford International, Inc. and Weatherford Global, as our subsidiary, entered into a transitional services agreement under which Weatherford International, Inc. would continue to provide certain administrative and support services, such as shared corporate office space and general communication and information services, to Weatherford Global until June 9, 2001. Weatherford Global paid Weatherford International, Inc. \$125,000 for the first 30 days of services. For the period subsequent to the initial 30 days, Weatherford Global agreed to pay Weatherford International, Inc. a fee based on a proportional amount of Weatherford International, Inc.'s costs and expenses in providing the services plus a 10% management fee. No such services were rendered by and no amounts were paid to Weatherford International, Inc. for the period subsequent to the initial 30 days. The agreement terminated on June 9, 2001.

Board Representation. In connection with our acquisition of Weatherford Global, WEUS Holding was granted the right to designate three members to our Board of Directors for so long as it owns at least 20% of our outstanding common stock. One WEUS Holding nominee is a Class A director with a term of office expiring in 2004, the second WEUS Holding nominee is a Class B director with a term of office expiring in 2002, and the third WEUS Holding nominee is a Class C director with a term of office expiring in 2003. In connection with the June 26, 2002 restructuring of Weatherford International, Inc., WEUS Holding's right to designate members to our Board of Directors was transferred to Weatherford International Ltd. If Weatherford International Ltd.'s ownership of our common stock falls below 20%, Weatherford

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form DEF 14A

International Ltd. may designate only two directors, and if its ownership falls below 10%, it may no longer designate directors to our Board. Weatherford International Ltd.'s current designees to our Board of Directors, including through WEUS Holding's previous designations, are Mr. Dutton (Class A), Ms. Rodriguez (Class B) and Mr. Duroc-Danner (Class C).

Voting Agreement. We also entered into a voting agreement with WEUS Holding concurrently with the Weatherford Global acquisition that provided that, until the earlier of (1) February 9, 2003 or (2) the date that Castle Harlan Partners III, L.P. and its affiliates owned less than 5% of our outstanding common stock, WEUS Holding and its affiliates would vote any shares of our common stock that they owned in excess of 33 $\frac{1}{3}$ % of our total outstanding shares in the same proportion that shares of our stock owned by the public were voted. The voting agreement terminated in December 2001 when Castle Harlan's and its affiliates' ownership of our outstanding common stock fell below 5%.

Registration Rights Agreements

In connection with our acquisition of Tidewater Compression in 1998, we entered into a registration rights agreement with Castle Harlan and some of our other stockholders (including certain of our directors and officers and Energy Spectrum Partners, L.P.). Under the registration rights agreement, these stockholders generally have the right to require us to register any or all of their shares of our common stock under the Securities Act, at our expense, subject to certain minimum dollar values. In addition, these stockholders are generally entitled to include, at our expense, their shares of our common stock covered by the registration rights agreement in any registration statement that we propose to file with respect to registration of our common stock under the Securities Act. In addition, we entered into registration rights agreements in connection with our acquisitions of Gas Compression Services, Inc. and KCI, Inc. The Gas Compression Services agreement provides the former Gas Compression Services shareholders with two demands for shelf registrations, both of which have been filed. The KCI agreements provide the former KCI shareholders with a single demand for a shelf registration, which has been filed, and with piggyback registration rights. We also agreed in these registration rights agreements to indemnify the stockholders against specified liabilities, including liabilities under the Securities Act.

Voting Agreements

In connection with our acquisition of Tidewater Compression in 1998, we entered into a voting agreement and two voting trust agreements. The voting agreement, which terminated upon completion of our equity offering in July 2001, required that some of our significant stockholders vote their shares of common stock in the same manner as Castle Harlan. The voting trust agreements provided that certain of our other stockholders, including some of our directors, assign their shares of our common stock to a voting trust for which John K. Castle served as trustee in exchange for interests in the trust. The voting trust agreements were terminated in December 2001.

Castle Harlan Board Representation

In connection with our 1998 acquisition of Tidewater Compression, we entered into an agreement with Castle Harlan to nominate a total of three Castle Harlan designees for election to our Board of Directors for so long as Castle Harlan beneficially owns at least 15% of our outstanding stock (including

16

shares over which it has voting control pursuant to voting agreements and trusts). Although Castle Harlan's right terminated upon completion of our equity offering in July 2001, its remaining designee to our Board, Mr. Pruellage, is serving a term expiring at our 2003 annual meeting of stockholders.

Transactions with an Officer and Director

In consideration for consulting services rendered by Ernie L. Danner, one of our executive officers and directors, in connection with our Tidewater Compression acquisition in 1998, Castle Harlan agreed that upon its sale of more than 75% of the shares that Castle Harlan owns of our outstanding common stock, Castle Harlan will pay Mr. Danner \$500,000 if it realizes a return in excess of 100%, or \$750,000 if it realizes a return in excess of 300%, of its initial investment in the Company. Castle Harlan sold approximately one-half of its shares of our common stock in our equity offering in July 2001. In December 2001, Castle Harlan granted Mr. Danner 8,023 shares of its shares of our common stock in complete settlement of this agreement.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

During fiscal year 2002, only one executive officer, Richard W. FitzGerald, had an employment agreement with the Company. This employment agreement expired in April 2002. The Company has elected, as a policy matter, not to offer employment agreements to its executive

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form DEF 14A

officers. In lieu of employment agreements, our executive officers are offered change of control agreements pursuant to which the executive officers may receive certain payments, including a lump sum payment of one year's compensation and continuation of our employee benefits for 12 months, in the event of termination upon a change of control in exchange for a two-year non-competition agreement. To date, Messrs. Carlton and Townsend have entered into change of control agreements with the Company. Prior to Mr. Hilburn's retirement from the Company in September 2001, Mr. Hilburn was party to a change of control agreement with the Company. In addition, the Company has agreed that Stephen A. Snider, our President and Chief Executive Officer, and his spouse will be entitled to continue to participate, at our expense, in our medical benefit plan following his retirement so long as he remains an active employee of the Company until his retirement.

PROPOSAL TO APPROVE THE AMENDMENT TO THE EMPLOYEES' SUPPLEMENTAL SAVINGS PLAN

(Proposal 2)

At the meeting, you will be asked to approve an amendment to our Employees' Supplemental Savings Plan (the "ESS Plan") that will require that our matching contributions under the ESS Plan be in the form of our common stock. Upon your approval, 20,000 shares of our common stock will be reserved for issuance as matching contributions under the ESS Plan.

In July 1998, we adopted the ESS Plan to advance the interests of the Company and to improve stockholder value by providing additional incentives to motivate and retain key employees. The ESS Plan was amended, effective as of January 1, 2002, to increase the maximum deferral percentages. The ESS Plan provides participants with the opportunity to supplement their retirement income through the deferral of pre-tax income. Prior to the beginning of each plan year (effective January 1, 2002), eligible participants are given the opportunity to defer up to 25% of their base salary and a portion of their annual bonus, in 25% increments up to 100%, to be received from us during the plan year. After an annual election is made, a participant may not increase or decrease the percentage or amount of compensation to be deferred during the plan year, however they may elect to discontinue participation in the plan. The compensation deferred under the ESS Plan is exempt from federal and state income taxes at the time of deferral; provided, however, the deferred amounts are subject to income tax in the year in which the participant or such participant's beneficiaries receive them. We match these deferrals at the rate of 50% of base salary deferred with a maximum match of 3% of the participant's base salary. If you approve the proposed amendment to the ESS Plan, effective as of September 1, 2002, the Company match under the ESS Plan will be solely in the form of our common stock.

Every participant in the Universal Compression, Inc. 401(k) Retirement and Savings Plan who is an officer of the Company or whom our Compensation Committee designates as a participant is eligible to participate in the ESS Plan. The Compensation Committee has sole discretion

to discontinue a participant's participation in the ESS Plan.

In voting on the approval of the amendment to our ESS Plan, you may vote in favor of the proposal, against the proposal or abstain from voting on the proposal. The amendment to our ESS Plan will be approved upon receiving the affirmative vote of the holders of a majority of or common stock present or represented by proxy and entitled to vote at the annual meeting.

The Board of Directors recommends that you vote **FOR** approval of the amendment to our Employees' Supplemental Savings Plan as described in this Proposal 2.

**PROPOSAL TO APPROVE THE AMENDMENT
TO THE INCENTIVE STOCK OPTION PLAN**

(Proposal 3)

At the meeting, you will be asked to approve an amendment to our Incentive Stock Option Plan (the "ISO Plan") to increase by 2,000,000 the number of shares of our common stock available for grant under the ISO Plan from 3,012,421 shares to 5,012,421 shares.

In February 1998, we adopted the ISO Plan to advance the interests of the Company and to improve stockholder value by providing additional incentives to motivate and retain key employees. The ISO Plan was amended on April 20, 2000 and on May 15, 2000 to increase the number of shares subject to the plan, expand the eligible participants, revise the plan provisions addressing adjustment of options upon changes in our capitalization, and modify the provisions addressing exercise of options upon termination of employment, payment of option exercise price and certain other matters. The ISO Plan was further amended on November 27, 2000 to increase the number of shares subject to the plan.

18

Of the total shares of common stock authorized for issuance under the ISO Plan, as of March 31, 2002, options covering 2,785,996 shares of common stock have been awarded under the ISO Plan. Of the options awarded, 2,637,903 shares of common stock, or approximately 8.6% of the Company's current outstanding common stock, remained to be issued upon exercise of the options. The outstanding options have exercise prices ranging from \$6.73 to \$37.95 and expiration dates from February 20, 2008 to February 19, 2012. The closing price of the Company's common stock on the New York Stock Exchange on July 1, 2002 was \$23.19 per share. Should the stockholders approve the proposed amendment to the ISO Plan, the total number of shares of our common stock available for future grants under the ISO Plan would be 2,226,425 shares, or approximately 7.3% of the Company's current outstanding common stock.

The ISO Plan authorizes us, through our Board of Directors or Compensation Committee, to grant stock options to our employees, consultants and directors. We have granted options to new employees we have gained through acquisitions, in the ordinary course of providing incentives to current employees and as inducements for the hiring of new employees. As a result, our reserve of shares of common stock available for issuance under the ISO Plan has been reduced. The additional 2,000,000 shares will allow us to continue our long-term incentive program and to recognize the increased pool of employees eligible to participate. Generally, we expect to award stock options at the same levels and based on the same criteria as we have done since the inception of the ISO Plan.

The Board of Directors has found that stock options granted to employees have been highly effective in recruiting and retaining competent personnel. Our Board of Directors believes that our growth is dependent upon our ability to attract, employ and retain executives and employees of outstanding ability who will dedicate their maximum productive efforts toward the advancement of the Company. The growing competition among companies for capable managers makes it necessary for us to maintain a strong and competitive incentive program.

The following is a summary of the ISO Plan and is qualified in its entirety by the full text of the ISO Plan. Any stockholder may obtain a copy of the ISO Plan by writing to Universal Compression Holdings, Inc., 4440 Brittmoore Road, Houston, Texas 77041, Attention: Corporate Secretary.

Eligibility

Our employees, non-employee directors and consultants, including those of our subsidiaries, are eligible to be selected by our Board of Directors or Compensation Committee to receive options under the ISO Plan. Our Board of Directors or Compensation Committee, as administrator of the ISO Plan, determines, subject to the terms of the plan, the exercise prices, vesting schedules, expiration dates and other material conditions under which recipients may exercise their options.

Types of Stock Options

Options granted under the ISO Plan may be either options that are intended to qualify for treatment as "incentive stock options" under Section 422 of the Internal Revenue Code or options that are not so intended, which are "non-qualified stock options." The exercise price of options under the ISO Plan must be at least the fair market value of a share of our common stock on the date of grant, and not less than 110% of such fair market value in the case of an incentive stock option granted to a participant owning 10% or more of our common stock. The ISO Plan limits the number of shares covered by incentive stock options exercisable by an individual for the first time in a calendar year to an aggregate fair market value of \$100,000, as measured on the date of the grant. In addition, no one participant may be granted options to purchase more than 742,480 shares of our common stock in any calendar year.

Our Board of Directors or Compensation Committee may condition the exercise of any option upon any factors the Board of Directors or Compensation Committee may determine. No option granted under the ISO Plan is transferable by an optionee other than by will or by the laws of descent and distribution.

19

Termination of Awards

The term of an option may not exceed ten years (or five years in the case of an incentive stock option granted to a participant owning 10% or more of our common stock). In addition, an optionee who leaves our employment will generally have no more than 30 days to exercise an option to the extent exercisable, reduced to no days if employment is terminated for cause or voluntary resignation, and increased to three months if termination is due to death, disability or retirement after age 65.

Federal Income Tax Consequences

The following is a brief summary of federal income tax consequences of certain transactions under the ISO Plan, based on federal income tax laws and regulations currently in effect that are applicable to participants who are both citizens and residents of the United States. This summary is not intended to be exhaustive and does not describe tax consequences other than federal income taxes, such as foreign, state and local taxes and estate or inheritance taxes. Additional or different federal income tax consequences to a participant or to us may result depending on individual circumstances and considerations not described below.

Incentive stock options. In general, a participant will not recognize taxable income upon the grant or the exercise of an incentive stock option. For purposes of the alternative minimum tax, however, the participant will be required to treat an amount equal to the difference between the fair market value of the common stock on the date of exercise over the exercise price as an item of adjustment in computing the participant's alternative minimum taxable income. If the participant does not dispose of the common stock received pursuant to the exercise of the incentive stock option within either (1) two years after the date of the grant of the incentive stock option or (2) one year after the date of exercise of the incentive stock option, a subsequent disposition of the common stock will generally result in long-term capital gain or loss to such individual with respect to the difference between the amount realized on the disposition and the exercise price. The Company will not be entitled to any income tax deduction as a result of such disposition. We also normally will not be entitled to take an income tax deduction at either the grant or the exercise of an incentive stock option. If the participant disposes of the common stock acquired upon exercise of the incentive stock option within either of the above-mentioned time periods, then in the year of such disposition, the participant generally will recognize ordinary income, and we generally will be entitled to an income tax deduction (provided we satisfy applicable federal income tax reporting requirements), in an amount equal to the lesser of (1) the excess of the fair market value of the common stock on the date of exercise over the exercise price or (2) the amount realized upon disposition over the exercise price. Any gain in excess of such amount recognized by the participant as ordinary income would be taxed to the individual as short-term or long-term capital gain (depending on the applicable holding period).

Non-qualified stock options. A participant will not recognize any taxable income upon the grant of a non-qualified stock option, and we will not be entitled to take an income tax deduction at the time of such grant. Upon the exercise of a non-qualified stock option, the participant generally will recognize ordinary income and we generally will be entitled to take an income tax deduction (provided we satisfy applicable federal income tax reporting requirements) in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the exercise price. Upon a subsequent sale of the common stock by the participant, the participant will recognize short-term or long-term capital gain or loss (depending on the applicable holding period).

Adjustments

The number of shares of our common stock reserved for issuance under the ISO Plan will be adjusted automatically if there shall be any future change in our capitalization from a stock dividend or split and may be adjusted to reflect a change in our capitalization resulting from a

merger, consolidation, acquisition, separation (including a spin-off or spin-out), reorganization or liquidation. Our Board of Directors

may amend, suspend or terminate the ISO Plan, as long as no amendment or termination adversely affects options previously granted.

The preceding summary does not discuss special rules that will apply to a participant who exercises an option by paying the exercise price, in whole or in part, by the transfer of our common stock.

If the proposed amendment is approved by our stockholders at the annual meeting, we expect to have sufficient shares of common stock available for issuance under the ISO Plan for the near term.

In voting on the approval of the amendment to our ISO Plan, you may vote in favor of the proposal, against the proposal or abstain from voting on the proposal. The amendment to our ISO Plan will be approved upon receiving the affirmative vote of the holders of a majority of or common stock present or represented by proxy and entitled to vote at the annual meeting.

The Board of Directors recommends that you vote **FOR** approval of the amendment to our Incentive Stock Option Plan as described in this Proposal 3.

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

(Proposal 4)

The Board of Directors, upon the recommendation of the Audit Committee, has appointed Deloitte & Touche LLP to serve as our independent auditors for the fiscal year ending March 31, 2003, subject to ratification of the appointment by the stockholders. Deloitte & Touche has served as our independent auditors since 1998 when we were formed and is considered by management to be well qualified.

We have been advised by Deloitte & Touche that neither the firm, nor any member of the firm, has any financial interest, direct or indirect, in any capacity in the Company or its subsidiaries.

One or more representatives of Deloitte & Touche will be present at this year's annual meeting of stockholders. The representatives will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

In voting on the ratification of the appointment of Deloitte & Touche LLP as our independent auditors, you may vote in favor of the ratification, against the ratification or abstain from voting on the ratification. The ratification of the appointment of Deloitte & Touche LLP as our independent auditors will be approved upon receiving the affirmative vote of the holders of a majority of or common stock present or represented by proxy and entitled to vote at the annual meeting. If our stockholders do not ratify the appointment of Deloitte & Touche, our Board of Directors may reconsider the appointment.

Audit Fees

The aggregate fees billed by Deloitte & Touche for professional services rendered for the audit of our annual financial statements for the fiscal year ended March 31, 2002 and for the reviews of the financial statements included in our Quarterly Reports on Form 10-Q for the same fiscal year were approximately \$400,000. In addition, the aggregate fees billed by Deloitte & Touche during the fiscal year ended March 31, 2002 for audits related to our acquisitions and benefit plans were \$120,000.

All Other Fees

The aggregate fees billed by Deloitte & Touche for services rendered to the Company, other than the services described above under "Audit Fees" for the fiscal year ended March 31, 2002 were approximately \$1,523,000. These other fees include \$686,000 for registration statements related to debt and equity offerings, \$559,000 for tax advisory and compliance services, and the remaining \$278,000 for business consulting services.

The Audit Committee has considered whether and determined that the provision of non-audit services by Deloitte & Touche is compatible with maintaining the independent auditor's independence.

The Board of Directors recommends that you vote **FOR** the ratification of the appointment of Deloitte & Touche LLP as our independent auditors as described in this Proposal 4.

EXPENSES OF SOLICITATION

We will bear all expenses incurred in connection with the solicitation of proxies.
