NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 29, 2014

(1) BASIS OF PRESENTATION:

The accompanying condensed consolidated financial information for the periods ended March 29, 2014 and March 30, 2013 are unaudited. Financial information as of September 28, 2013 has been derived from the audited financial statements of the Company, but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial information for the periods indicated have been included. For further information regarding the Company's accounting policies, refer to the Consolidated Financial Statements and related notes included in the Company's Annual Report on Form 10-K for the year ended September 28, 2013. Operating results for interim periods are not necessarily indicative of results to be expected for a full year.

The condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and the accounts of the nine limited partnerships in which we act as general partner and have controlling interests. All intercompany balances and transactions have been eliminated. Non-controlling interest represents the limited partners' proportionate share of the net assets and results of operations of the nine limited partnerships.

These condensed consolidated financial statements include estimates relating to performance based officers' bonuses. The estimates are reviewed periodically and the effects of any revisions are reflected in the financial statements in the period they are determined to be necessary. Although these estimates are based on management's knowledge of current events and actions it may take in the future, they may ultimately differ from actual results.

(2) EARNINGS PER SHARE:

We follow Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Section 260 - "*Earnings per Share*". This section provides for the calculation of basic and diluted earnings per share. The data on Page 2 shows the amounts used in computing earnings per share and the effects on income and the weighted average

number of shares of potentially dilutive common stock equivalents. As of March 29, 2014 and March 30, 2013, no stock options were outstanding.

(3) RECENT ADOPTED AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS:

Adopted

In July 2013, the FASB issued ASU 2013-10, *Derivatives and Hedging (Topic 815): Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes*. The amendments in this Update permit the Fed Funds Effective Swap Rate (OIS) to be used as a U.S. benchmark interest rate for hedge accounting purposes under Topic 815, in addition to UST and LIBOR. The amendments also remove the restriction on using different benchmark rates for similar hedges. The amendments are effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. This ASU is not expected to have a significant impact on our condensed consolidated financial statements.

Index

In July 2013, the FASB issued ASU 2013-11, *Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This Update applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. An unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. The amendments in this Update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. This ASU is not expected to have a significant impact on our consolidated financial statements.

Issued

There were no recently issued accounting pronouncements during the second quarter of our fiscal year 2014 that we believe will have a material impact on our consolidated financial statements.

(4) INVESTMENT IN REAL PROPERTY FINANCED BY DEBT:

Fort Lauderdale, Florida

During the second quarter of our fiscal year 2014, we closed on the purchase from an unrelated third party of the real property and improvements, (“Property”) where our franchised restaurant located at 1479 East Commercial Boulevard, Fort Lauderdale, Florida, (Store #15) operates. A corporation, owned by one of our board members, who is also the brother of our Chairman of the Board, acts as sole general partner of this limited partnership which has owned and operated this franchised restaurant since April 1, 1997. We acquired the Property subject to a 10 1/2 year lease, including renewal options, in favor of our franchisee. We paid \$1,250,000 for the Property, \$900,000 of which was financed by the seller pursuant to a purchase money mortgage (the “\$900K Mortgage Loan”). Our repayment obligations under the \$900K Mortgage Loan are secured by a first mortgage on the Property. The \$900K Mortgage Loan bears interest at the rate of 7.5% annually and is amortized over twenty (20) years, with our monthly payment of principal and interest totaling \$7,250. In the event we elect to pre-pay the \$900K Mortgage Loan during the first seven (7) years, we will incur a pre-payment penalty equal to six (6) monthly payments of principal and interest or \$43,500.

(5) RECENT EXTENSION OF EXISTING LEASE FOR EXISTING LOCATION:

Fort Lauderdale, Florida

During the second quarter of our fiscal year 2014, we extended our lease for the package liquor store we own located at 959 State Road 84, Fort Lauderdale, Florida (Store #8) for a period of five (5) years through April 30, 2019, with two (2) five (5) year renewal options. The amendment to the lease for the extended term (i) increases the size of the leased premises from 1,942 square feet to approximately 4,084 square feet, which additional square footage will be used for storage, and increases the rent and common area charges accordingly; and (ii) subjects the rent to a 3% fixed increase annually.

Index

(6) INCOME TAXES:

We account for our income taxes using FASB ASC Topic 740, “*Income Taxes*”, which requires among other things, recognition of future tax benefits measured at enacted rates attributable to deductible temporary differences between financial statement and income tax basis of assets and liabilities and to tax net operating loss carryforwards and tax credits to the extent that realization of said tax benefits is more likely than not.

(7) STOCK OPTION PLANS:

We have one stock option plan under which qualified stock options may be granted to our officers and other employees. Under this plan, the exercise price for the qualified stock options must be no less than 100% of the fair market value of the Company’s Common Stock on the date the options are granted. In general, options granted under our stock option plan expire after a five (5) year period and generally vest no later than one (1) year from the date of grant. As of March 29, 2014, no options to acquire shares were outstanding. Under this plan, options to acquire an aggregate of 45,000 shares are available for grant.

No stock options were granted during the twenty six weeks ended March 29, 2014, nor were stock options granted during the twenty six weeks ended March 30, 2013.

No stock options were exercised during the twenty six weeks ended March 29, 2014, nor were stock options exercised during the twenty six weeks ended March 30, 2013.

There was no stock option activity during the twenty six weeks ended March 29, 2014, nor was there stock option activity during the twenty six weeks ended March 30, 2013.

(8) ACQUISITIONS:

Purchase of Company Common Stock

Pursuant to a discretionary plan approved by the Board of Directors at its meeting on May 17, 2007, during the thirteen weeks ended March 29, 2014, we did not purchase any shares of our common stock. During the twenty six

weeks ended March 29, 2014, we purchased 800 shares of our common stock from the Joseph G. Flanigan Charitable Trust for an aggregate purchase price of \$10,000. During the thirteen weeks ended March 30, 2013, we did not purchase any shares of our common stock. During the twenty six weeks ended March 30, 2013, we purchased 800 shares of our common stock from the Joseph G. Flanigan Charitable Trust for an aggregate purchase price of \$6,200.

(9) COMMITMENTS AND CONTINGENCIES:

Litigation

From time to time, we are a defendant in litigation arising in the ordinary course of our business, including claims resulting from “slip and fall” accidents, claims under federal and state laws governing access to public accommodations, employment-related claims and claims from guests alleging illness, injury or other food quality, health or operational concerns. To date, none of this litigation, some of which is covered by insurance, has had a material effect on us.

(10) SUBSEQUENT EVENTS:

Subsequent to the end of the second quarter of our fiscal year 2014, we modified and/or satisfied the following mortgages held by related mortgagees:

(i) We satisfied our mortgage payable to a related third party, (formerly an unrelated third party), which mortgage was originally in the principal amount of \$450,000 and secured by a first mortgage on real property and improvements, bearing interest at 10.0%; amortized over 30 years, payable in monthly installments of principal and interest of approximately \$4,000, with a final payment of \$425,494, including the principal balance and accrued interest;

(ii) We partially prepaid the principal balance on our mortgage payable to a related third party, (formerly an unrelated third party), which mortgage had an original principal amount of \$850,000, with a payment of \$74,000, thereby reducing its current principal balance to \$622,107 and modified its terms to bear interest at 5% annually, amortized over 15 years, payable in monthly installments of principal and interest of approximately \$4,920, with a balloon payment of approximately \$391,882 in April, 2021. The mortgage is still secured by first mortgage on real property and improvements;

(iii) We partially prepaid the principal balance on our mortgage payable to a related third party with a payment of \$440,000, which mortgage had an original principal amount of \$1,000,000, thereby reducing its current principal balance to \$440,000 and modified its terms to bear interest at 5% annually, amortized over 15 years, payable in monthly installments of principal and interest of approximately \$3,479, with a balloon payment of approximately \$277,168 in April, 2021. The mortgage is still secured by first mortgage on real property and improvements; and

(iv) We modified the terms on our mortgage payable to a related third party, which mortgage had an original principal amount of \$850,000 and current principal balance of \$755,950, to bear interest at 5% annually, amortized over 15 years, payable in monthly installments of principal and interest of approximately \$5,978, with a balloon payment of approximately \$476,193 in April, 2021. The mortgage is still secured by first mortgage on real property and improvements.

Subsequent events have been evaluated through the date these condensed consolidated financial statements were issued. Except as disclosed above, no events required disclosure.

(11) BUSINESS SEGMENTS:

We operate principally in two reportable segments – package stores and restaurants. The operation of package stores consists of retail liquor sales and related items. Information concerning the revenues and operating income for the thirteen weeks and twenty six weeks ended March 29, 2014 and March 30, 2013, and identifiable assets for the two reportable segments in which we operate, are shown in the following table. Operating income is total revenue less cost of merchandise sold and operating expenses relative to each segment. In computing operating income, none of the following items have been included: interest expense, other non-operating income and expenses and income taxes. Identifiable assets by segment are those assets that are used in our operations in each segment. Corporate assets are principally cash and real property, improvements, furniture, equipment and vehicles used at our corporate headquarters. We do not have any operations outside of the United States and transactions between restaurants and package liquor stores are not material.

OVERVIEW

At March 29, 2014, we (i) operated 25 units, (excluding the adult entertainment club referenced in (ii) below), consisting of restaurants, package stores and combination restaurants/package stores that we either own or have operational control over and partial ownership in; (ii) own but do not operate one adult entertainment club; and (iii) franchise an additional five units, consisting of two restaurants, (one restaurant of which we operate), and three combination restaurants/package stores. The table below provides information concerning the type (i.e. restaurant, package store or combination restaurant/package liquor store) and ownership of the units (i.e. whether (i) we own 100% of the unit; (ii) the unit is owned by a limited partnership of which we are the sole general partner and/or have invested in; or (iii) the unit is franchised by us), as of March 29, 2014 and as compared to March 30, 2013 and September 28, 2013. With the exception of “The Whale’s Rib”, a restaurant we operate but do not own, all of the restaurants operate under our service mark “Flanigan’s Seafood Bar and Grill” and all of the package liquor stores operate under our service mark “Big Daddy’s Liquors”.

Franchise Financial Arrangement: In exchange for our providing management and related services to our franchisees and granting them the right to use our service marks “Flanigan’s Seafood Bar and Grill” and “Big Daddy’s Liquors”, our franchisees (four of which are franchised to members of the family of our Chairman of the Board, officers and/or directors), are required to (i) pay to us a royalty equal to 1% of gross package sales and 3% of gross restaurant sales; and (ii) make advertising expenditures equal to between 1.5% to 3% of all gross sales based upon our actual advertising costs allocated between stores, pro-rata, based upon gross sales.

Limited Partnership Financial Arrangement: We manage and control the operations of all restaurants owned by limited partnerships, except the Fort Lauderdale, Florida restaurant which is owned and managed by a related franchisee. Accordingly, the results of operations of all limited partnership owned restaurants, except the Fort Lauderdale, Florida restaurant are consolidated into our operations for accounting purposes. The results of operations of the Fort Lauderdale, Florida restaurant are accounted for by us utilizing the equity method. In general, until the investors’ cash investment in a limited partnership (including any cash invested by us and our affiliates) is returned in full, the limited partnership distributes to the investors annually out of available cash from the operation of the restaurant up to 25% of the cash invested in the limited partnership, with no management fee paid to us. Any available cash in excess of the 25% of the cash invested in the limited partnership distributed to the investors annually, is paid one-half (1/2) to us as a management fee, with the balance distributed to the investors. Once the investors in the limited partnership have received, in full, amounts equal to their cash invested, an annual management fee is payable to us equal to one-half (1/2) of available cash to the limited partnership, with the other one half (1/2) of available cash distributed to the investors (including us and our affiliates). As of March 29, 2014, limited partnerships owning three (3) restaurants, (Surfside, Florida, Kendall, Florida and West Miami, Florida locations), have returned all cash invested and we receive an annual management fee equal to one-half (1/2) of the cash available for distribution by the limited partnership. Subsequent to March 29, 2014, the limited partnership owning the restaurant in Pincrest, Florida returned all cash invested and we will receive an annual management fee equal to one-half (1/2) of the cash available for distribution by this limited partnership. In addition to its receipt of distributable amounts from the limited

partnerships, we receive a fee equal to 3% of gross sales for use of the service mark “Flanigan’s Seafood Bar and Grill”.

Restaurant Bar Sales. Restaurant revenue generated from the sale of alcoholic beverages at restaurants (bar sales) totaled \$4,510,000 for the thirteen weeks ended March 29, 2014 as compared to \$4,007,000 for the thirteen weeks ended March 30, 2013 primarily due to an increase in prices. Comparable weekly bar sales (for restaurants open for all of the second quarter of our fiscal years 2014 and 2013, which consists of eight restaurants owned by us and nine restaurants owned by affiliated limited partnerships) was \$347,000 for the thirteen weeks ended March 29, 2014 and \$308,000 for the thirteen weeks ended March 30, 2013, an increase of 12.66%. Operating Costs and Expenses. Operating costs and expenses, (consisting of cost of merchandise sold, payroll and related costs, occupancy costs and selling, general and administrative expenses), for the thirteen weeks ended March 29, 2014 increased \$845,000 or 4.05% to \$21,695,000 from \$20,850,000 for the thirteen weeks ended March 30, 2013. The increase was primarily due to an expected general increase in food costs, offset by a decrease in the cost of ribs and actions taken by management to reduce and/or control costs and expenses. We anticipate that our operating costs and expenses will continue to increase through our fiscal year 2014 for the same reasons. Operating costs and expenses decreased as a percentage of total sales to approximately 91.27% in the second quarter of our fiscal year 2014 from 93.69% in the second quarter of our fiscal year 2013.

Gross Profit. Gross profit is calculated by subtracting the cost of merchandise sold from sales.

Selling, general and administrative expenses decreased as a percentage of total sales in the second quarter of our fiscal year 2014 to approximately 17.28% as compared to 17.75% in the second quarter of our fiscal year 2013. We anticipate that our selling, general and administrative expenses will increase throughout the balance of our fiscal year 2014 due primarily to increases across all categories.

Depreciation and Amortization. Depreciation and amortization expense for the thirteen weeks ended March 29, 2014 decreased \$23,000 or 3.46% to \$642,000 from \$665,000 from the thirteen weeks ended March 30, 2013. Interest expense decreased moderately (\$24,000) during the twenty six weeks of our fiscal year 2014 primarily due (i) to the lower monthly installments of interest as a result of the mortgage loan (in the principal amount of \$1,405,000) and the term loan (in the principal amount of \$1,595,000) used to re-finance the mortgage on the property where our combination package liquor store and restaurant located at 4 N. Federal Highway, Hallandale, Florida, (Store #31) operates and (ii) the repayment of the principal balance of our term loan from July, 2010, (\$323,000) offset by the interest paid on the \$1.95 million purchase money mortgage used to purchase the two parcels of real property, one of which is contiguous to the real property we own where our combination package liquor store and restaurant located at 13205 Biscayne Boulevard, North Miami, Florida, (Store #20) operates.

As a percentage of sales, net income attributable to stockholders for the twenty six weeks ended March 29, 2014 is 3.19%, as compared to 2.62% for the twenty six weeks ended March 30, 2013.

New Limited Partnership Restaurants

As new restaurants open, our income from operations will be adversely affected due to our obligation to fund pre-opening costs, including but not limited to pre-opening rent for the new locations. During the second quarter and twenty six weeks of our fiscal year 2014, we did not have a new restaurant location in the development stage and did not recognize any pre-opening costs.

During the twenty six weeks ended March 30, 2013, the New Restaurant operated at a net loss of \$276,000, primarily due to pre-opening costs including but not limited to pre-opening rent expense in the amount of \$62,000 which we recognize on a straight line basis over the term of the lease, thus contributing to a reduction in the operating income for the period.

We believe that our current cash on hand, together with our expected cash generated from operations will be sufficient to fund our operations and capital expenditures for at least the next twelve months.

Trends

During the next twelve months, we expect that our restaurant food and bar sales will increase, but gross profit for restaurant food and bar sales will decrease due to higher food costs, offset by a decrease in our cost of ribs during calendar year 2014. We anticipate that our package liquor store sales and gross profit margin for package liquor store sales will remain stable during our fiscal year 2014. We expect higher food costs and higher overall expenses, including but not limited to higher property and general liability insurance premiums and health insurance premiums to adversely affect our net income. We also plan to continue our increased advertising to attract and retain our customers against increased competition. We plan to limit further menu price increases as long as possible, but continue to face increased competition and expect higher food costs and higher overall expenses, which will adversely

affect our net income. We may be required to raise menu prices wherever competitively possible.

We do not have a new restaurant in the development stage, but continue to search for new locations to open restaurants and thereby expand our business. Any new locations will likely be opened using our limited partnership ownership model.

We are not actively searching for locations for the operation of new package liquor stores, but if an appropriate location for a package liquor store becomes available, we will consider it.

Liquidity and Capital Resources

We fund our operations through cash from operations. As of March 29, 2014, we had cash of approximately \$8,155,000, an increase of \$1,097,000 from our cash balance of \$7,058,000 as of September 28, 2013. The increase in cash as of March 29, 2014 was primarily due to the absence of extraordinary payments made during the thirteen weeks ended March 29, 2014. Management believes that the Company's current cash availability from its cash on hand and the expected cash from operations will be sufficient to fund operations and capital expenditures for at least the next twelve months.

Index**Cash Flows**

The following table is a summary of our cash flows for the twenty six weeks ended March 29, 2014 and March 30, 2013.

	-----Twenty Six Weeks Ended-----	
	March 29, 2014	March 30, 2013
	(in Thousands)	
Net cash provided by operating activities	\$ 4,403	\$ 3,582
Net cash used in investing activities	(1,393)	(2,483)
Net cash used in financing activities	(1,913)	(1,875)
Net Increase (Decrease) in Cash and Cash Equivalents	1,097	(776)
Cash and Cash Equivalents, Beginning	7,058	7,221
Cash and Cash Equivalents, Ending	\$ 8,155	\$ 6,445

We did not declare or pay a cash dividend on our capital stock in the twenty six weeks of our fiscal years 2014 or 2013. Any future determination to pay cash dividends will be at our Board's discretion and will depend upon our financial condition, operating results, capital requirements and such other factors as our Board deems relevant.

Capital Expenditures

In addition to using cash for our operating expenses, we use cash to fund the development and construction of new restaurants and to fund capitalized property improvements for our existing restaurants. We acquired property and equipment of \$2,474,000, (of which \$1,052,000 was financed and \$62,000 of deposits recorded in other assets as of September 28, 2013), during the twenty six weeks ended March 29, 2014, which amount included \$419,000 for two (2) limited partnership and three (3) Company owned restaurants. During the twenty six weeks ended March 30, 2013, we acquired property and equipment of \$4,668,000, (of which \$1,950,000 was financed and \$292,000 of deposits recorded in other assets as of September 29, 2012), which amount included \$1,280,000 for renovations at the New Restaurant and \$62,000 for one (1) limited partnership and one (1) Company owned restaurant.

All of our owned units require periodic refurbishing in order to remain competitive. We anticipate the cost of this refurbishment in our fiscal year 2014 to be approximately \$875,000, of which \$419,000 has been spent through March 29, 2014.

Long Term Debt

As of March 29, 2014, we had long term debt of \$15,093,000, as compared to \$14,565,000 as of March 30, 2013, and \$13,546,000 as of September 28, 2013. As of March 29, 2014, we are in compliance with the covenants of all loans with our lender.

20

Index

As of March 29, 2014, the aggregate principal balance owed from the financing of our property and general liability insurance policies is \$1,296,000.

Purchase Commitments

In order to fix the cost and ensure adequate supply of baby back ribs for our restaurants, on October 22, 2013, we entered into a purchase agreement with a new rib supplier, whereby we agreed to purchase approximately \$4,260,000 of baby back ribs during calendar year 2014 from this vendor at a fixed cost. While we anticipate purchasing all of our rib supply from this vendor, we believe there are several other alternative vendors available, if needed.

Working Capital

The table below summarizes the current assets, current liabilities, and working capital for our fiscal quarters ended March 29, 2014, March 30, 2013 and our fiscal year ended September 28, 2013.

<u>Item</u>	Mar. 29, 2014 (in Thousands)	Mar. 30, 2013	Sept. 28, 2013
Current Assets	\$13,312	\$ 10,965	\$ 11,522
Current Liabilities	10,534	9,189	9,139
Working Capital	\$2,778	\$ 1,776	\$ 2,383

Our working capital as of March 29, 2014 increased by 56.42% from our working capital as of March 30, 2013 and increased by 16.58% from our working capital as of September 28, 2013. During the second quarter of our fiscal year 2014, we acquired the real property and improvements, (“Property”) where our franchised restaurant located at 1479 East Commercial Boulevard, Fort Lauderdale, Florida, (Store #15) operates for a purchase price of \$1,250,000, \$900,000 of which was financed by the seller pursuant to the \$900K Mortgage Loan and \$350,000 of which was expended by us as the cash required to close. During the first quarter of our fiscal year 2013, we acquired the two parcels of real property, one of which is contiguous to the real property we own where our combination package liquor store and restaurant located at 13205 Biscayne Boulevard, North Miami, Florida, (Store #20) operates and the other of which is contiguous thereto for a purchase price of \$2,900,000, \$1,950,000 of which was financed by the seller pursuant to the \$1.95M Mortgage Loan and \$950,000 of which was expended by us as the cash required to close. The decrease in our working capital during the 1st quarter of our fiscal year 2013 was also caused by our paying for renovations at the New Restaurant. While there can be no assurance due to, among other things, unanticipated expenses or unanticipated decline in revenues, or both, we believe that positive cash flow from operations will adequately fund operations, debt reductions and planned capital expenditures throughout the balance of our fiscal year

2014.

Off-Balance Sheet Arrangements

We do not have off-balance sheet arrangements.

Inflation

The primary inflationary factors affecting our operations are food, beverage and labor costs. A large number of restaurant personnel are paid at rates based upon applicable minimum wage and increases in minimum wage directly affect labor costs. To date, inflation has not had a material impact on our operating results, but this circumstance may change in the future if food and fuel costs continue to rise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We do not ordinarily hold market risk sensitive instruments for trading purposes and as of March 29, 2014 held no equity securities.

Interest Rate Risk

As part of our ongoing operations, we are exposed to interest rate fluctuations on our borrowings. As more fully described in Note 9 “Fair Value Measurements of Financial Instruments” to the Consolidated Financial Statements included in “Item 8. Financial Statements and Supplementary Data” of our Annual Report on Form 10-K for our fiscal year ended September 28, 2013, we use interest rate swap agreements to manage these risks. These instruments are not used for speculative purposes but are used to modify variable rate obligations into fixed rate obligations.

At March 29, 2014, we had five variable rate debt instruments outstanding that are impacted by changes in interest rates. In July, 2010, we re-financed the mortgage loan encumbering our corporate offices (the “Refinanced Mortgage Loan”). In November, 2011, we financed our purchase of the real property and two building shopping center in Miami, Florida, with a \$4,500,000 mortgage loan (the “\$4.5M Mortgage Loan”), and received a \$1,600,000 term loan (the “\$1.6M Term Loan”) the proceeds of which were ultimately used to purchase the shopping center, while permitting us to retain our working capital and cash reserves. In January, 2013, we re-financed the mortgage loan encumbering the property where our combination package liquor store and restaurant located at 4 N. Federal Highway, Hallandale, Florida, (Store #31) operates, which mortgage loan is held by an unaffiliated third party lender (the “\$1.405M Loan”) and borrowed \$1,595,000 from a non affiliated third party lender, (the “\$1.595M Term Loan”), and used all of the net proceeds of this loan to re-finance the property where our combination package liquor store and restaurant located at 4 N. Federal Highway, Hallandale, Florida, (Store #31) operates.

As a means of managing our interest rate risk on these debt instruments, we entered into interest rate swap agreements with our unrelated third party lender to convert these variable rate debt obligations to fixed rates. We are currently party to the following five (5) interest rate swap agreements:

(i) One (1) interest rate swap agreement entered into July, 2010 relates to the Refinanced Mortgage Loan (the “Mortgage Loan Swap”). The Mortgage Loan Swap requires us to pay interest for a seven (7) year period at a fixed rate of 5.11% on an initial amortizing notional principal amount of \$935,000, while receiving interest for the same period at LIBOR, Daily Floating Rate, plus 2.25%, on the same amortizing notional principal amount. Under this method of accounting, at March 29, 2014, we determined that based upon unadjusted quoted prices in active markets for similar assets or liabilities provided by our unrelated third party lender, the fair value of the Mortgage Loan Swap was not material;

(ii) The second interest rate swap agreement entered into in November, 2011 by our wholly owned subsidiary, Flanigan's Calusa Center, LLC, relates to the \$4.5 Mortgage Loan (the "\$4.5M Mortgage Loan Swap"). The \$4.5M Mortgage Loan Swap requires us to pay interest for an eight (8) year period at a fixed rate of 4.51% on an initial amortizing notional principal amount of \$3,750,000, while receiving interest for the same period at LIBOR – 1 Month, plus 2.25%, on the same amortizing notional principal amount. We determined that at March 29, 2014, the interest rate swap agreement is an effective hedging agreement and the fair value was not material;

(iii) The third interest rate swap agreement entered into in November, 2011 relates to the \$1.6M Term Loan (the "\$1.6M Term Loan Swap"). The \$1.6M Term Loan Swap requires us to pay interest for a four (4) year period at a fixed rate of 3.43% on an initial amortizing notional principal amount of \$1,600,000, while receiving interest for the same period at LIBOR – 1 Month, plus 2.25%, on the same amortizing notional principal amount. We determined that at March 29, 2014, the interest rate swap agreement is an effective hedging agreement and the fair value was not material;

Index

(iv) The fourth interest rate swap agreement entered into in January, 2013 relates to the \$1.405M Loan (the “\$1.405M Term Loan Swap”). The \$1.405M Term Loan Swap requires us to pay interest for a twenty (20) year period at a fixed rate of 4.35% on an initial amortizing notional principal amount of \$1,405,000, while receiving interest for the same period at LIBOR – 1 Month, plus 2.25%, on the same amortizing notional principal amount. We determined that at March 29, 2014, the interest rate swap agreement is an effective hedging agreement and the fair value was not material; and

(v) The fifth interest rate swap agreement entered into in January, 2013 relates to the \$1.595M Term Loan (the “\$1.595M Term Loan Swap”). The \$1.595M Term Loan Swap requires us to pay interest for a forty two (42) month period at a fixed rate of 4.00% on an initial amortizing notional principal amount of \$1,595,000, while receiving interest for the same period at LIBOR – 1 Month, plus 3.25%, on the same amortizing notional principal amount. We determined that at March 29, 2014, the interest rate swap agreement is an effective hedging agreement and the fair value was not material.

At March 29, 2014, our cash resources earn interest at variable rates. Accordingly, our return on these funds is affected by fluctuations in interest rates.

There is no assurance that interest rates will increase or decrease over our next fiscal year or that an increase will not have a material adverse effect on our operations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on evaluations as of the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer, with the participation of our management team, have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) to the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) were effective to ensure that information the Company is required to disclose in reports that it files or submits under the Securities Exchange Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms.

Management’s Assessment on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Management, including our Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the Company's internal control over financial reporting. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of March 29, 2014, our internal control over financial reporting was effective.

Limitations on the Effectiveness of Controls and Permitted Omission from Management's Assessment

Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. All internal control systems, no matter how well designed, have inherent limitations, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even effective internal controls can only provide reasonable assurance with respect to financial statement preparation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
