SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-32185

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction

of incorporation or organization)

36-3953261

(I.R.S. Employer Identification No.)

2901 Butterfield Road, Oak

Brook, Illinois

(Address of principal executive offices)

60523

(Zip code)

Registrant's telephone number, including area code: 630-218-8000

N/A

(Former name, former address and former fiscal

year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

company” in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer

Accelerated filer

Non-accelerated filer

(do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of May 8, 2014, there were 99,780,368 shares of common stock outstanding.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. Readers of this Quarterly Report should refer to the audited financial statements of Inland Real Estate Corporation (the "Company") for the year ended December 31, 2013, which are included in the Company's 2013 Annual Report, as certain footnote disclosures contained in such audited financial statements have been omitted from this Report on Form 10-Q. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included in this Quarterly Report.

(1) Organization and Basis of Accounting

Inland Real Estate Corporation (the "Company"), a Maryland corporation, was formed on May 12, 1994. The Company is a publicly held real estate investment trust ("REIT") that owns, operates and develops (directly or through its unconsolidated entities) open-air neighborhood, community and power shopping centers and single-tenant retail properties located primarily in Midwest markets. Through wholly owned subsidiaries, Inland Commercial Property Management, Inc. ("ICPM") and Inland TRS Property Management, Inc., the Company manages all properties it owns interests in and properties for certain third parties and related parties.

All amounts in these footnotes to the consolidated financial statements are stated in thousands with the exception of per share amounts, square foot amounts, and number of properties.

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Principles

In April 2014, the FASB issued Accounting Standards Update 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The standard requires the disposal of a component of an entity or a group of components of an entity to be reported in discontinued operations if the disposal represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. This standard is effective for all disposals of components of an entity that occur within annual periods beginning on or after December 15, 2014 and requires prospective application. Early adoption is permitted, but only for disposals, or classifications as held for sale, that have not been reported as discontinued operations in the financial statements previously issued or available to be issued. The Company adopted this standard effective January 1, 2014 and therefore, investment properties that were sold during the three months ended March 31, 2014 have not been classified as discontinued operations in the accompanying consolidated financial statements.

(2) Acquisitions

Date Acquired	Property	City	State	GLA Sq. Ft.	Approximate Purchase Price
01/01/14	CVS (a)	Port St. Joe	FL	13,225	\$4,303
01/01/14	O'Reilly (a)	Kokomo	IN	7,210	1,475
01/02/14	Walgreens (a)	Trenton	OH	14,820	4,462
02/12/14	BJ's Wholesale Club (a)	Framingham	MA	114,481	26,500

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

02/26/14	Academy Sports (a)	Olathe	KS	71,927	11,024
03/19/14	Mountain View Square (a)	Wausau	WI	86,584	11,425
03/27/14	Mokena Marketplace	Mokena	IL	49,058	13,737
	Total			357,305	\$72,926

(a) Acquired through the Company's joint venture with IPCC.

During the three months ended March 31, 2014, consistent with the Company's growth initiative, the Company acquired the investment properties listed above, which were consolidated upon acquisition. The Company acquired 100% of the beneficial interests of each property.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The following table presents certain additional information regarding the Company's acquisitions during the three months ended March 31, 2014. The amounts recognized for major assets acquired and liabilities assumed as of the acquisition date were as follows:

Property	Land	Building and Improvements	Acquired Lease Intangibles	Acquired Below Market Lease Intangibles
CVS (a)	\$890	2,824	589	—
O'Reilly (a)	244	976	255	—
Walgreens (a)	1,064	3,191	207	—
BJ's Wholesale Club (a)	6,700	17,180	2,620	—
Academy Sports (a)	1,696	6,944	2,468	84
Mountain View Square (a)	3,863	7,208	1,813	1,459
Mokena Marketplace	6,321	5,009	2,528	121
Total	\$20,778	43,332	10,480	1,664

(a) Acquired through the Company's joint venture with IPCC.

The Company has not included pro forma financial information related to the above properties acquired during the three months ended March 31, 2014. Properties acquired through our joint venture with IPCC are only consolidated for a short period of time until the first sale to investors at which point, they become unconsolidated. The Company acquired Mokena Marketplace with the intention to sell in the near term.

(3) Joint Ventures

Consolidated Joint Ventures

The accompanying consolidated financial statements of the Company include the accounts of its wholly owned subsidiaries and consolidated joint ventures. The Company consolidates the operations of a joint venture if it determines that the Company is the primary beneficiary of the joint venture, which management has determined to be a variable interest entity ("VIE") in accordance with ASC 810. The primary beneficiary is the party that has a controlling financial interest in the VIE, which is defined by the entity having both of the following characteristics: 1) the power to direct the activities that, when taken together, most significantly impact the VIE's performance, and 2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. There are significant judgments and estimates involved in determining the primary beneficiary of a VIE or the determination of who has control and influence of the entity. When the Company consolidates a VIE, the assets, liabilities and results of operations of the VIE are included in our consolidated financial statements and all inter-company balances and transactions are eliminated.

The consolidated results of the Company include the accounts of IRC-IREX Venture II, LLC, while the properties are consolidated, and IRC-MAB Southeast, LLC, which are both VIE's for which the Company is the primary beneficiary. The Company has determined that the interests in these entities are noncontrolling interests to be included in permanent equity, separate from the Company's shareholders' equity, in the consolidated balance sheets and statements of equity. Net income or loss related to these noncontrolling interests is included in net income or loss in the consolidated statements of operations and comprehensive income.

Joint Venture with IPCC (IRC-IREX Venture II, LLC)

In January 2013, Inland Exchange Venture Corporation (“IEVC”), a taxable REIT subsidiary (“TRS”) of the Company, extended its joint venture with IPCC, a wholly owned subsidiary of The Inland Group, Inc. (“TIGI”), through December 31, 2014 to continue the joint venture relationship that began in 2006 and to change the fee structure. The joint venture provides replacement properties for investors wishing to complete a tax-deferred exchange through private placement offerings, using properties made available to the joint venture by IEVC. These offerings are structured to sell Delaware Statutory Trust ("DST") interests in the identified property. IEVC performs the joint venture’s acquisition function and ICPM performs the asset management, property management and leasing functions. Both entities earn fees for providing these services to the joint venture.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The joint venture was determined to be a VIE under ASC Topic 810 and is consolidated by the Company. Prior to the sale of any DST interests, the joint venture owns 100% of the DST interests in the property and controls the major decisions that affect the underlying property; and therefore upon initial acquisition, the joint venture consolidates the property. At the time of first sale of a DST interest, the joint venture no longer controls the underlying property as the activities and decisions that most significantly impact the property's economic performance are now subject to joint control among the co-owners or lender; and therefore, at such time, the property is deconsolidated and accounted for under the equity method (unconsolidated). Once the operations are deconsolidated, the income is included in equity in earnings of unconsolidated joint ventures until all DST interests have been sold. The table below reflects those properties that were deconsolidated during the three months ended March 31, 2013 and therefore no longer represent the consolidated assets and liabilities of the VIE. There were no properties that deconsolidated during the three months ended March 31, 2014.

	March 31, 2013	
Investment properties	\$(41,766)
Acquired lease intangibles	(6,503)
Below market lease intangibles	820	
Mortgages payable	24,261	
Net change to investment in and advances to unconsolidated joint ventures	\$(23,188)

During the three months ended March 31, 2014 and 2013, the joint venture with IPCC acquired six and four investment properties, respectively. In conjunction with the sales of DST interests, the Company recorded gains of approximately \$108 for the three months ended March 31, 2014, as compared to \$341 for the three months ended March 31, 2013. These gains are included in gain on sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

Joint Venture with MAB (IRC-MAB Southeast, LLC)

In November 2013, the Company entered into a joint venture to develop grocery-anchored shopping centers in select markets throughout the southeastern U.S. with MAB, an affiliate of Melbourne, Australia-based MAB Corporation. The five-year development program is expected to target metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. MAB Corporation is a privately owned property development company and fund manager that has completed retail, office, multi-family and industrial projects at locations in Australia, New Zealand and the U.S. Under the terms of the joint venture agreement, the Company has exclusive rights to all grocery-anchored, build-to-suit opportunities in the southeastern U.S. sourced by MAB. Upon site approval by the Company, the Company will provide 90% of the equity required to fund approved project costs, while MAB will be responsible for the remaining 10% of the equity, plus venture management, sourcing and acquisition of sites, project financing and all property and development duties. The joint venture agreement also provides that the Company will purchase each grocery-anchored center at a discount to fair market value after stabilization. A typical project likely will consist of a 50,000-square-foot grocery store with approximately 20,000 square feet of additional retail space.

Variable Interest Entity Financial Information

The following table presents certain assets and liabilities of consolidated variable interest entities ("VIEs"), which are included in the consolidated balance sheets as of March 31, 2014. There were no consolidated VIE assets and liabilities as of December 31, 2013. The assets in the table below include only those assets that can be used to settle obligations of consolidated VIEs. The liabilities in the table below include third-party liabilities of consolidated VIEs only, and exclude intercompany balances that eliminate in consolidation.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

	March 31, 2014
Assets of consolidated VIEs that can only be used to settle obligations of consolidated VIEs:	
Net investment properties	\$52,595
Other assets	13,001
Total assets of consolidated VIEs that can only be used to settle obligations of consolidated VIEs	\$65,596
Liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company:	
Mortgages payable	\$15,900
Other liabilities	1,787
Total liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company	\$17,687

Unconsolidated Joint Ventures

Unconsolidated joint ventures are those where the Company does not have a controlling financial interest in the joint venture or is not the primary beneficiary of a VIE. The Company accounts for its interest in these ventures using the equity method of accounting. The Company's profit/loss allocation percentage and related investment in each joint venture is summarized in the following table.

Joint Venture Entity	Company's Profit/Loss Allocation Percentage at March 31, 2014	Investment in and advances to unconsolidated joint ventures at March 31, 2014	Investment in and advances to unconsolidated joint ventures at December 31, 2013
INP Retail LP (a)	55	% \$111,207	112,141
Oak Property and Casualty	20	% 1,438	1,522
TMK/Inland Aurora Venture LLC (b)	40	% (294) (283
IRC/IREX Venture II LLC (c)	(d)	—	6,096
Investment in and advances to unconsolidated joint ventures		\$112,351	119,476

(a) Joint venture with PGGM Private Real Estate Fund ("PGGM")

(b) The profit/loss allocation percentage is allocated after the calculation of the Company's preferred return.

(c) Joint venture with Inland Private Capital Corporation ("IPCC"). Investment in joint venture balance represents the

(c) Company's share of the Delaware Statutory Trust ("DST") interests.

(d) The Company's profit/loss allocation percentage varies based on the ownership interest it holds in the entity that owns a particular property that is in the process of selling ownership interest to outside investors.

The unconsolidated joint ventures had total outstanding debt in the amount of \$292,079 (total debt, not the Company's pro rata share) at March 31, 2014 that matures as follows:

Joint Venture Entity	2014	2015	2016	2017	2018	Thereafter	Total
INP Retail LP (a)	\$—	23,961	—	26,361	10,584	231,173	292,079

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

The total debt above reflects the total principal amount outstanding. The unconsolidated joint ventures' balance (a) sheets at March 31, 2014 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$4,918.

The Company earns fees for providing asset management, property management, leasing and acquisition services to its joint ventures. The Company recognizes fee income equal to the Company's joint venture partner's share of the expense or commission, which is reflected as fee income from unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. Fee income earned for the three months ended March 31, 2014 and 2013 are reflected in the following table.

Joint Venture with:	Three months ended March 31,	
	2014	2013
PGGM	\$575	562
IPCC	684	811
NYSTRS	—	221
Other	—	2
Fee income from unconsolidated joint ventures	\$1,259	1,596

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The fee income from the joint venture with PGGM has increased due to the increase in assets under management. The fee income from the joint venture with IPCC increases as assets under management increase, however, total fee income may also vary based on the timing of acquisition fees earned based on the number of properties sold, the original acquisition prices of the properties and the timing of sales in each period. The fee income from the joint venture with NYSTRS was eliminated due to the consolidation on June 3, 2013 of the properties formerly held by the joint venture.

The operations of properties contributed to the joint ventures by the Company were not recorded as discontinued operations because of the Company's continuing involvement with these investment properties. Differences between the Company's investment in the joint ventures and the amount of the underlying equity in net assets of the joint ventures are due to basis differences resulting from the Company's equity investment recorded at its historical basis versus the fair value of certain of the Company's contributions to the joint venture. Such differences are amortized over the respective depreciable lives of the joint venture property assets. During the three months ended March 31, 2014 and 2013, the Company recorded \$517 and \$890, respectively, of amortization of this bases difference, which is included in equity in earnings of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income.

The Company's proportionate share of the earnings or losses related to its unconsolidated joint ventures is reflected as equity in earnings of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income.

Joint Venture with PGGM

The Company formed a joint venture with PGGM, a leading Dutch pension fund administrator and asset manager in 2010 and completed an amendment to the partnership agreement in 2012 to increase the maximum equity contributions of each partner. In conjunction with the formation, the joint venture established two separate REIT entities to hold title to the properties included in the joint venture. The joint venture may acquire up to a total of \$900,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets. The Company's maximum total contribution is approximately \$281,000 and PGGM's maximum total equity contribution is approximately \$230,000.

As of March 31, 2014, the joint venture has acquired a total of approximately \$638,000 of retail assets, including those properties contributed by the Company. As of March 31, 2014, PGGM's remaining maximum potential equity contribution was approximately \$67,050 and the Company's was approximately \$81,950.

PGGM owns a forty-five percent equity ownership interest and the Company owns a fifty-five percent interest in the venture. The Company is the managing partner of the venture and is responsible for the day-to-day activities of the venture. The Company determined that this joint venture was not a VIE. Both partners have the ability to participate in major decisions, as detailed in the joint venture agreement, and therefore, neither partner is deemed to have control of the joint venture. Therefore, this joint venture is accounted for using the equity method of accounting.

In June 2013, the joint venture with PGGM entered into a limited liability company agreement with Pine Tree and IBT Group, LLC. This agreement forms a joint venture between the three parties to acquire, develop, operate and manage the property known as Evergreen Park Promenade, located in Evergreen Park, Illinois. The venture acquired the vacant land parcel for \$5,500 and intends to construct approximately 92,500 square feet of gross leasable area, of which approximately 96% has been pre-leased to national retailers. The joint venture determined that this newly

created venture is not a VIE. All parties have the ability to participate in major decisions, as detailed in the agreement, and therefore, no partner is deemed to have control of the venture. Therefore, the joint venture with PGGM will account for this new venture using the equity method of accounting.

During the three months ended March 31, 2013, the Company recorded approximately \$1,384 of gain from the portion of the investment properties deemed sold to third-party venture partners.

Joint Venture with NYSTRS

On June 3, 2013, the Company completed the acquisition of the 50% ownership interest of NYSTRS in the joint venture entity. The Company acquired the 50% interest of NYSTRS in the joint venture for approximately \$121,100 in cash. The Company funded the acquisition utilizing \$91,600 received from selling 9,000 shares of its common stock during the period, cash on hand and funds received from a draw on its line of credit facility. The Company now owns all of the outstanding interests in the former joint venture. The Company's decision to acquire the joint venture interest was based on advancing its strategic

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

goals to increase the size and quality of its consolidated portfolio, simplify the ownership structure and strengthen the Company's balance sheet.

Development Joint Venture

The company currently has one unconsolidated development joint venture, for the development or sale of the property commonly known as Savannah Crossing. This property consists of approximately 5 acres of vacant land, which the joint venture is holding for future sale or potential development.

When circumstances indicate there may have been a loss in value of an equity method investment, the Company evaluates the investment for impairment by estimating its ability to recover its investments from future expected cash flows. If the Company determines the loss in value is other than temporary, the Company will recognize an impairment charge to reflect the investment at its fair value, which is derived using Level 3 inputs.

The impairment of assets during the three months ended March 31, 2013 at the joint venture level and the Company's pro-rata share are included in the below table. The Company's pro-rata share of the loss is included in equity in earnings of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. No impairment losses were required or recorded during the three months ended March 31, 2014.

Joint Venture Entity	Three months ended March 31, 2013

(c) IRC's pro rata share includes the amortization of certain basis differences and an elimination of IRC's pro rata share of the management fee expense.

(4) Discontinued Operations

If the Company determines that an investment property meets the criteria to be classified as held for sale, it suspends depreciation on the assets held for sale, including depreciation for tenant improvements and additions, as well as on the amortization of acquired in-place leases and customer relationship values. The assets and liabilities associated with those assets would be classified separately on the consolidated balance sheets for the most recent reporting period. As of March 31, 2014, there were no properties classified as held for sale.

The following table summarizes the properties sold, date of sale, indebtedness repaid, if any, approximate cash received (paid) net of closing costs, gain (loss) on sale, whether the sale qualified as part of a tax deferred exchange and applicable asset impairments.

Property Name	Date of Sale	Indebtedness repaid	Cash Received (Paid) net of closing costs	Gain (loss) on Sale	Tax Deferred Exchange	Provision for Asset Impairment
Quarry Outlot	February 20, 2013	\$—	\$ 3,081	\$ 1,999	No	\$—

Rite-Aid	December 23, 2013	—	2,379	602	No	—

For the three months ended March 31, 2014 and 2013, the Company has recorded income from discontinued operations of \$490 and \$3,032, respectively, including gains on sale of \$493 and \$2,680, respectively.

(5) Secured and Unsecured Debt

Total Debt Maturity Schedule

The following table presents the principal amount of total debt maturing each year, including amortization of principal, based on debt outstanding at March 31, 2014:

	2014 (a)	2015 (a)	2016	2017	2018	Thereafter	Total	(c)
Fixed rate debt	\$ 137,098	(b) 35,959	8,974	46,168	368	243,205	471,772	
	5.43 %	6.08 %	5.00 %	5.05 %	— %	5.07 %	5.25 %	

Weighted average interest rate														
Variable rate debt	\$6,233	45	35,046	156,476	(d) 230,000	(e)(f) —						427,800	(c)	
Weighted average interest rate	0.29	%	—	%	2.60	%	1.90	%	2.20	%	—	%	2.09	%
Total	\$143,331	36,004	44,020	202,644	230,368	243,205						899,572		

Approximately \$134,928 of the Company's mortgages payable matures in the next twelve months. Included in the debt maturing in 2014 is outstanding principal of approximately \$90,247 secured by the Company's Algonquin (a) Commons property, which is currently subject to foreclosure litigation and the Company cannot currently predict the outcome of the litigation. The Company intends to repay the other maturing debt upon maturity using available cash and/or borrowings under its unsecured line of credit facility.

Included in the debt maturing in 2014 are the Company's convertible notes issued during 2010, which mature in 2029. They are included in 2014 because that is the earliest date these notes can be redeemed or the note holders (b) can require the Company to repurchase their notes. The total for convertible notes above reflects the total principal amount outstanding, in the amount of \$29,215. The consolidated balance sheets at March 31, 2014 reflect the value of the notes including the remaining unamortized discount of \$309.

The total debt above reflects the total principal amount outstanding. The consolidated balance sheets at March 31, (c) 2014 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$2,741.

Included in the debt maturing during 2017 is the Company's unsecured line of credit facility, totaling \$155,000. (d) The Company pays interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of March 31, 2014, the weighted average interest rate on outstanding draws on the line of credit facility was 1.89%.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, the Company was in compliance with these financial covenants.

Included in the debt maturing during 2018 is the Company's \$180,000 term loan which matures in August 2018.

(e) The Company pays interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of March 31, 2014, the weighted average interest rate on the term loan was 1.84%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, the Company was in compliance with these financial covenants.

Included in the debt maturing during 2018 is the Company's \$50,000 term loan which matures in November 2018.

(f) The Company pays interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%. As of March 31, 2014, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, the Company was in compliance with these financial covenants.

Mortgages Payable

The Company's mortgages payable are secured by certain of the Company's investment properties. The face value of mortgage loans outstanding as of March 31, 2014 was \$485,357 and they bore interest at a weighted average interest rate of 5.00% per annum. Of this amount, \$442,557 bore interest at fixed rates ranging from 4.00% to 6.50% per annum and a weighted average fixed rate of 5.26% per annum as of March 31, 2014. The remaining \$42,800 of mortgage debt bears interest at variable rates with a weighted average interest rate of 2.28% per annum as of March 31, 2014. The consolidated balance sheets at March 31, 2014 reflect the fair value of the mortgage debt, including the remaining unamortized mortgages premium/discount of \$2,741. As of March 31, 2014, scheduled maturities for the Company's outstanding mortgage indebtedness had various due dates through March 2024. The majority of the Company's mortgage loans require monthly payments of interest only, although some loans require principal and interest payments, as well as reserves for taxes, insurance and certain other costs.

In June 2012, a Company subsidiary ceased paying the monthly debt service on the two mortgage loans secured by both phases of Algonquin Commons. The Company subsidiary had hoped to reach an agreement with the special servicer that would revise the loan structure to make continued ownership of the property economically feasible. In January 2013, the Company subsidiary received notice that a complaint had been filed by the lender to Algonquin Commons, alleging events of default under the loan documents and seeking to foreclose on the property. In connection with the complaint, the plaintiff filed a motion for appointment of a receiver and the court granted the motion and issued an order effective February 28, 2013, appointing a receiver for the property. As a result, the receiver and its affiliated management company are now managing and operating Algonquin Commons and are now collecting all rents for the property. The Company cannot currently estimate the impact the dispute will have on its consolidated financial statements and may not be able to do so until a final outcome has been reached. The Company subsidiary believes the payment guaranty has, however, ceased and is of no further force and effect as a result of the conditions for termination having been met when the performance metrics set forth in the payment guaranty were met. As the Company has previously disclosed, if it is required to pay the full \$18,600 outstanding under the guarantee, or a foreclosure occurs, there could be a material adverse effect on its cash flows and results of operations for the period and the year in which it occurs. The Company believes these events would not have a material effect on its consolidated balance sheets because there would be a corresponding reduction in both assets and liabilities. If the Company is required to pay under the payment guarantee, it would expect to fund this payment using available cash and/or a draw on its unsecured line of credit facility.

Derivative Instruments and Hedging Activities

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risk, including interest rate, liquidity and credit risk primarily by managing the amount, sources, and duration of its debt funding and, to a limited extent, the use of derivative instruments.

Specifically, the Company has entered into derivative instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative instruments, described below, are used to manage differences in the amount, timing, and duration of the Company's known or expected cash payments principally related to certain of the Company's borrowings.

Cash Flow Hedges of Interest Rate Risk

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The Company's objective in using interest rate derivatives is to manage exposure to interest rate movements and add stability to interest expense. To accomplish this objective, the Company uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The Company currently has one interest rate swap outstanding that is used to hedge the variable cash flows associated with its variable-rate debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in comprehensive income (expense) and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives, if any, is recognized directly in earnings. The Company has entered into one interest rate swap contract as a requirement under a secured mortgage and the hedging relationship is considered to be highly effective as of March 31, 2014.

Amounts reported in comprehensive income (expense) related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The Company estimates that an additional \$2,093 will be reclassified from comprehensive income (expense) as an increase to interest expense over the next twelve months.

In December 2010, the Company entered into a floating-to-fixed interest rate swap agreement with an original notional value of \$60,000 and a maturity date of December 21, 2020 associated with the debt secured by first mortgages on a pool of eight investment properties. This interest rate swap fixed the floating LIBOR based debt under a variable rate loan to a fixed rate debt at an interest rate of 3.627% per annum plus the applicable margin to manage the risk exposure to interest rate fluctuations, or an effective fixed rate of 6.027% per annum.

As of March 31, 2014 and December 31, 2013, the Company had the following outstanding interest rate derivatives that are designated as a cash flow hedge of interest rate risk:

Interest Rate Derivative	Notional	
	March 31, 2014	December 31, 2013
Interest Rate Swaps	\$60,000	60,000

The table below presents the fair value of the Company's derivative financial instrument as well as its classification on the consolidated balance sheets as of March 31, 2014 and December 31, 2013.

	Liability Derivatives As of March 31, 2014		Liability Derivatives As of December 31, 2013	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives designated as cash flow hedges:				
Interest rate swaps	Other liabilities	\$5,404	Other liabilities	4,904

The table below presents the effect of the Company's derivative financial instruments on comprehensive income for the three months ended March 31, 2014 and 2013.

	Three months ended March 31,	
	2014	2013
Amount of gain (loss) recognized in comprehensive income on derivative, net	\$(1,020) 515

Amount of loss reclassified from accumulated comprehensive income into interest expense	520	513
Unrealized gain (loss) on derivative	\$(500) 1,028

Credit-risk-related Contingent Features

Derivative financial investments expose the Company to credit risk in the event of non-performance by the counterparties under the terms of the interest rate hedge agreements. The Company believes it minimizes the credit risk by transacting with major creditworthy financial institutions.

As of March 31, 2014, the fair value of derivatives in a liability position related to this agreement was \$5,404. If the Company breached any of the contractual provisions of the derivative contract, it would be required to settle its obligation under the agreement at its termination value of \$5,927.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

Unsecured Credit Facilities

In 2013, the Company entered into amendments to its existing unsecured line of credit facility and term loan, together the "Credit Agreements." Under the term loan agreement, the Company borrowed, on an unsecured basis, \$180,000. The aggregate commitment of the Company's line of credit facility is \$280,000, which includes a \$100,000 accordion feature. The access to the accordion feature is at the discretion of the current lending group. If approved, the terms for the funds borrowed under the accordion feature would be current market terms at the time of the borrowing and not the terms of the existing line of credit facility. The lending group is not obligated to approve access to the additional funds.

The line of credit facility matures on August 22, 2017 and the term loan matures on August 22, 2018. Borrowings under the Credit Agreements bear interest at a base rate applicable to any particular borrowing (e.g., LIBOR) plus a graduated spread that varies with the Company's leverage ratio.

The Company pays interest only, on a monthly basis during the term of the Credit Agreements, with all outstanding principal and unpaid interest due upon termination of the Credit Agreements. The Company is also required to pay, on a quarterly basis, an amount less than 1% per annum on the average daily funds remaining under this line. As of March 31, 2014 and December 31, 2013, the outstanding balance on the line of credit facility was \$155,000 and \$95,000, respectively. As of March 31, 2014, the Company had up to \$25,000 available under its line of credit facility, not including the accordion feature. Availability under the line of credit facility may be limited due to covenant compliance requirements in the Credit Agreements.

On November 15, 2011, the Company entered into an unsecured loan agreement with Wells Fargo Bank, National Association as lender pursuant to which the company received \$50,000 of loan proceeds. The loan matures on November 15, 2018. The Company pays interest only, on a monthly basis, with all outstanding principal and unpaid interest due upon the maturity date. The loan accrues interest at an effective rate calculated in accordance with the loan documents, provided, however, that in no event will the interest rate on the outstanding principal balance be less than 3.5% per annum. The Company may not prepay the loan in whole or in part prior to November 15, 2014. On or after that date, the Company may prepay the loan in its entirety or in part, together with all interest accrued and may incur a prepayment penalty in conjunction with such prepayment.

Convertible Notes

In August 2010, the Company issued \$29,215 in face value of 5.0% convertible senior notes due 2029 (the "Notes"), all of which remained outstanding at March 31, 2014.

Interest on the Notes is payable semi-annually. The Notes mature on November 15, 2029 unless repurchased, redeemed or converted in accordance with their terms prior to that date. The earliest date holders of the Notes may require the Company to repurchase their Notes in whole or in part is November 15, 2014. Prior to November 21, 2014, the Company may not redeem the Notes prior to the date on which they mature except to the extent necessary to preserve its status as a REIT. However, on or after November 21, 2014, the Company may redeem the Notes, in whole or in part, subject to the redemption terms in the Note. Following the occurrence of certain change in control transactions, the Company may be required to repurchase the Notes in whole or in part for cash at 100% of the principal amount of the Notes to be repurchased plus accrued and unpaid interest.

Holders of the Notes may convert their Notes into cash or a combination of cash and common stock, at the Company's option, at any time on or after October 15, 2029, but prior to the close of business on the second business day immediately preceding November 15, 2029, and also following the occurrence of certain events. Subject to certain exceptions, upon a conversion of Notes the Company will deliver cash and shares of its common stock, if any, based on a daily conversion value calculated on a proportionate basis for each trading day of the relevant 30 day trading period. The conversion rate as of March 31, 2014, for each \$1 principal amount of Notes was 102.8807 shares of the Company's common stock, subject to adjustment under certain circumstances. This is equivalent to a conversion price of approximately \$9.72 per share of common stock.

At March 31, 2014 and December 31, 2013, the Company has recorded \$548 and \$183, respectively of accrued interest related to the convertible notes. This amount is included in accounts payable and accrued expenses on the Company's consolidated balance sheets.

The Company accounts for its convertible notes by separately accounting for the debt and equity components of the notes. The value assigned to the debt component is the estimated fair value of a similar bond without the conversion feature, which results in the debt being recorded at a discount. The debt is subsequently accreted to its par value over the conversion period with a

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

rate of interest being reflected in earnings that reflects the market rate at issuance. The Company initially recorded \$9,412 to additional paid in capital on the accompanying consolidated balance sheets, to reflect the equity portion of the convertible notes. The debt component is recorded at its fair value, which reflects an unamortized debt discount. The following table sets forth the net carrying values of the debt and equity components included in the consolidated balance sheets at March 31, 2014 and December 31, 2013.

	March 31, 2014	December 31, 2013
Equity Component (a)	\$9,391	9,384
Debt Component	\$29,215	29,215
Unamortized Discount (b)	(309) (425
Net Carrying Value	\$28,906	28,790

(a) The equity component is net of unamortized equity issuance costs of \$21 and \$28 at March 31, 2014 and December 31, 2013, respectively.

(b) The unamortized discount will be amortized into interest expense on a monthly basis through November 2014.

Total interest expense related to the convertible notes for the three months ended March 31, 2014 and 2013 was calculated as follows:

	Three months ended March 31,	
	2014	2013
Interest expense at coupon rate	\$368	368
Discount amortization	115	115
Total interest expense (a)	\$483	483

(a) The effective interest rate of these convertible notes is 7.0%, which is the rate at which a similar instrument without the conversion feature could have been obtained in August 2010.

(6) Fair Value Disclosures

In some instances, certain of the Company's assets and liabilities are required to be measured or disclosed at fair value according to a fair value hierarchy pursuant to relevant accounting literature. This hierarchy ranks the quality and reliability of the inputs used to determine fair values, which are then classified and disclosed in one of three categories. The three levels of the fair value hierarchy are:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable.

Level 3 — model-derived valuations with unobservable inputs that are supported by little or no market activity

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their classifications within the fair value hierarchy levels.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

For assets and liabilities measured at fair value on a recurring basis for which fair value disclosure is required, quantitative disclosure of the fair value for each major category of assets and liabilities is presented below:

Description	Fair value measurements at March 31, 2014 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative interest rate instruments liabilities (a)	\$5,404	—
Variable rate debt (b)	—	425,031
Fixed rate debt (b)	—	497,474
Total liabilities	\$5,404	922,505

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

Description	Fair value measurements at December 31, 2013 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative interest rate instruments liabilities (a)	\$ 4,904	—
Variable rate debt (b)	—	363,788
Fixed rate debt (b)	—	509,929
Total liabilities	\$ 4,904	873,717

(a) The Company entered into these interest rate swaps as a requirement under certain secured mortgage loans.

The disclosure is included to provide information regarding the inputs used to determine the fair value of the

(b) outstanding debt, in accordance with existing accounting guidance and is not presented in the accompanying consolidated balance sheets at fair value.

Level 2

The fair value of derivative instruments was estimated based on data observed in the forward yield curve which is widely observed in the marketplace. The Company also incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the counterparty's nonperformance risk in the fair value measurements which utilizes Level 3 inputs, such as estimates of current credit spreads. The Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivative and therefore has classified this in Level 2 of the hierarchy.

Level 3

The fair value of debt is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company estimates the fair value of its total debt by discounting the future cash flows of each instrument at rates currently offered for similar debt instruments of comparable maturities by the Company's lenders. At March 31, 2014 and December 31, 2013, the Company used rates of 3.7% for fixed rate debt and 2.3% for variable rate debt in each period. The Company has not elected the fair value option with respect to its debt. The Company's financial instruments, principally escrow deposits, accounts payable and accrued expenses, and working capital items, are short term in nature and their carrying amounts approximate their fair value at March 31, 2014 and December 31, 2013.

(7) Accumulated other comprehensive loss

The following table indicates the changes and reclassifications affecting other comprehensive loss by component for the three months ended March 31, 2014.

	Gain (loss) on derivative instruments	
Balance at December 31, 2013	\$(4,904)
Other comprehensive income (loss) before reclassifications	(1,020)
Amounts reclassified from accumulated other comprehensive income	520	
Net other comprehensive income	(500)
Balance at March 31, 2014	\$(5,404)

(8) Operating Leases

Certain tenant leases contain provisions providing for “stepped” rent increases. U.S. GAAP requires the Company to record rental income for the period of occupancy using the effective monthly rent, which is the average monthly rent for the entire period of occupancy during the term of the lease. The accompanying consolidated financial statements include an increase of \$735 and a decrease of \$120, respectively, for the three months ended March 31, 2014 and 2013, respectively of rental income for the period of occupancy for which stepped rent increases apply and \$22,600 and \$21,865 in related accounts receivable as of March 31, 2014 and December 31, 2013, respectively. The Company anticipates collecting these amounts over the terms of the leases as scheduled rent payments are made.

(9) Income Taxes

The Company is qualified and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (“the Code”), for federal income tax purposes commencing with the tax year ended December 31, 1995. Since the Company qualifies for taxation as a REIT, the Company generally is not subject to federal income tax on taxable income that is distributed to stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its taxable income to stockholders, subject to certain adjustments. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to federal and state income tax on its taxable income at regular corporate tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income, property or net worth and federal income and excise taxes on its undistributed income.

The Company engages in certain activities through Inland Venture Corporation (“IVC”), IEVC and Inland TRS Property Management, Inc., wholly owned TRS entities. These entities engage in activities that would otherwise produce income that would not be REIT qualifying income, including, but not limited to, managing properties owned through certain of the Company's joint ventures and the sale of ownership interests through the Company's IPCC joint venture. The TRS entities are subject to federal and state income and franchise taxes from these activities.

The Company had no uncertain tax positions as of March 31, 2014. The Company expects no significant increases or decreases in uncertain tax positions due to changes in tax positions within one year of March 31, 2014. The Company has no material interest or penalties relating to income taxes recognized in the consolidated statements of operations and comprehensive income for the three months ended March 31, 2014 and 2013 or in the consolidated balance sheets as of March 31, 2014 and December 31, 2013. As of March 31, 2014, returns for the calendar years 2010 through 2013 remain subject to examination by U.S. and various state and local tax jurisdictions.

Income taxes have been provided for on the asset and liability method, as required by existing guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities.

(10) Earnings per Share

Basic earnings (loss) per share (“EPS”) is computed by dividing net income (loss) by the basic weighted average number of common shares outstanding for the period (the “common shares”). Diluted EPS is computed by dividing net income (loss) by the common shares plus shares issuable upon exercise of existing options or other contracts. As of March 31, 2014 and December 31, 2013, options to purchase 70 shares of common stock, in each period, at exercise prices ranging from \$6.85 to \$19.96 per share were outstanding. Convertible notes are included in the computation of diluted EPS using the if-converted method, to the extent the impact of conversion is dilutive. These options and convertible notes were not included in the computation of basic or diluted EPS as the effect would be immaterial or anti-dilutive for the periods presented.

As of March 31, 2014, 576 shares of common stock have been issued pursuant to employment agreements, employment incentives and as director compensation. Of the total shares issued, 239 have vested and 6 have been cancelled. The unvested shares are excluded from the computation of basic EPS but reflected in diluted EPS by application of the treasury stock method unless the effect would be immaterial or anti-dilutive.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

The following is a reconciliation of the numerator and denominator used in the basic and diluted EPS calculations, excluding amounts attributable to noncontrolling interests:

	Three months ended March 31,	
	2014	2013
Numerator:		
Income from continuing operations	\$14,914	3,881
Income from discontinued operations	490	3,032
Net income	15,404	6,913
Less: Net (income) loss attributable to the noncontrolling interest	20	(12)
Net income attributable to Inland Real Estate Corporation	15,424	6,901
Dividends on preferred shares	(2,234)	(2,210)
Net income attributable to common stockholders	\$13,190	4,691
Denominator:		
Denominator for net income per common share — basic:		
Weighted average number of common shares outstanding	99,411	89,476
Effect of dilutive securities:		
Unvested restricted shares	331	(a) 231 (a)
Denominator for net income per common share — diluted:		
Weighted average number of common and common equivalent shares outstanding	99,742	89,707

(a) Unvested restricted shares of common stock have a dilutive impact, although it is not material to the periods presented.

In November 2012, the Company entered into a three-year Sales Agency Agreement with BMO Capital Markets Corp., Jefferies & Company, Inc. and KeyBanc Capital Markets, Inc. (together the "Agents"). The Sales Agency Agreement provides that the Company may offer and sell shares of its common stock having an aggregate offering price up to \$150 million from time to time through the Agents. Offers and sales of shares of its common stock, if any, may be made in privately negotiated transactions or by any other method deemed to be an "at the market" offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. The Company has referred to this arrangement with the Agents in this report on Form 10-Q as its ATM issuance program. No shares were issued during the three months ended March 31, 2014. As of March 31, 2014, approximately \$139,900 remained available for sale under this issuance program.

(11) Transactions with Related Parties

The Company pays affiliates of TIGI for real estate-related brokerage services and various administrative services, including, but not limited to, payroll preparation and management, data processing, insurance consultation and placement, property tax reduction services and mail processing. These TIGI affiliates provide these services at cost, with the exception of the broker commissions, which are charged as a percentage of the gross transaction amount. TIGI, through its affiliates, beneficially owns approximately 12.5% of the Company's outstanding common stock. Daniel L. Goodwin, one of our directors, owns a controlling amount of the stock of TIGI.

Amounts paid to TIGI or its affiliates for services and office space provided to the Company are set forth below.

	Three months ended March 31,	
	2014	2013

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Investment advisor	\$—	17

Notes to Consolidated Financial Statements

March 31, 2014 (unaudited)

(12) Segment Reporting

Guidance regarding the disclosures about segments of an enterprise and related information requires disclosure of certain operating and financial data with respect to separate business activities within an enterprise. The Company owns and acquires well located open air retail centers. The Company currently owns investment properties located in the States of Arkansas, Florida, Illinois, Indiana, Kansas, Kentucky, Massachusetts, Minnesota, Nebraska, Ohio and Wisconsin. These properties are typically anchored by grocery and drug stores, complemented with additional stores providing a wide range of other goods and services.

The Company assesses and measures operating results on an individual property basis for each of its investment properties based on property net operating income. Management internally evaluates the operating performance of the properties as a whole and does not differentiate properties by geography, size or type. The Company aggregates its properties into one reportable segment since all properties are open air retail centers. Accordingly, the Company has concluded that it has a single reportable segment.

(13) Commitments and Contingencies

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial statements of the Company.

(14) Subsequent Events

The Company has evaluated events subsequent to March 31, 2014 through May 8, 2014, the date of the financial statement issuance.

Distributions

On April 15, 2014, the Company paid a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock to stockholders of record at the close of business on April 1, 2014.

On April 15, 2014, the Company announced that it had declared a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock. This distribution is payable on May 15, 2014 to the stockholders of record at the close of business on May 1, 2014.

On April 17, 2014, the Company paid a cash distribution of \$0.0475 per share on the outstanding shares of its common stock to stockholders of record at the close of business on March 31, 2014.

On April 17, 2014, the Company announced that it had declared a cash distribution of \$0.0475 per share on the outstanding shares of its common stock. This distribution is payable on May 19, 2014 to the stockholders of record at the close of business on April 30, 2014.

Dispositions

On April 18, 2014, the Company sold a single-tenant asset, located in Celebration, Florida to an unaffiliated third party for \$25,700, a price above its current carrying value. The investment property was 100% leased to Disney, who

exercised their right to purchase the property provided in the lease agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Quarterly Report on Form 10-Q (including documents incorporated herein by reference) constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not reflect historical facts and instead reflect our management's intentions, beliefs, expectations, plans or predictions of the future. Forward-looking statements can often be identified by words such as "seek," "believe," "expect," "anticipate," "intend," "estimate," "may," "will," "should" and "could." Examples of forward-looking statements include, but are not limited to, statements that describe or contain information related to matters such as management's intent, belief or expectation with respect to our financial performance, investment strategy or our portfolio, our ability to address debt maturities, our cash flows, our growth prospects, the value of our assets, our joint venture commitments and the amount and timing of anticipated future cash distributions. Forward-looking statements reflect the intent, belief or expectations of our management based on their knowledge and understanding of the business and industry and their assumptions, beliefs and expectations with respect to the market for commercial real estate, the U.S. economy and other future conditions. These statements are not guarantees of future performance, and investors should not place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or forecasted in forward-looking statements due to a variety of risks, uncertainties and other factors, including but not limited to the factors listed and described under Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission (the "SEC") on February 28, 2014 as they may be revised or supplemented by us in subsequent Reports on Form 10-Q and other filings with the SEC. Among such risks, uncertainties and other factors are market and economic challenges experienced by the U.S. economy or real estate industry as a whole, including dislocations and liquidity disruptions in the credit markets; the inability of tenants to continue paying their rent obligations due to bankruptcy, insolvency or a general downturn in their business; competition for real estate assets and tenants; impairment charges; the availability of cash flow from operating activities for distributions and capital expenditures; our ability to refinance maturing debt or to obtain new financing on attractive terms; future increases in interest rates; actions or failures by our joint venture partners, including development partners; and factors that could affect our ability to qualify as a real estate investment trust. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

In this report, all references to "we," "our" and "us" refer collectively to Inland Real Estate Corporation and its consolidated subsidiaries. All amounts in this Form 10-Q are stated in thousands with the exception of per share amounts, per square foot amounts, number of properties, and number of leases.

Executive Summary

We strive to be a leading owner and operator of high quality, necessity and value based retail centers in prime locations throughout the Central and Southeastern United States. We seek to provide predictable, sustainable cash flows and continually enhance shareholder value through the expert management and strategic improvement of our portfolio of premier retail properties.

We have elected to be taxed as a real estate investment trust ("REIT"). Inland Real Estate Corporation is a Maryland corporation formed on May 12, 1994. To date, we have focused on open-air neighborhood, community and power shopping centers and single-tenant retail properties located primarily in the Midwestern United States. Through wholly owned subsidiaries, Inland Commercial Property Management, Inc. and Inland TRS Property Management, Inc., we manage all properties we own interests in and properties for certain third parties and related parties. Our investment properties are typically anchored by grocery, drug or discount stores, which provide everyday goods and

services to consumers, rather than stores that sell discretionary items. We seek to acquire properties with high quality tenants and attempt to mitigate our risk of tenant defaults by maintaining a diversified tenant base. As of March 31, 2014, no single tenant accounted for more than approximately 3.9% of annual base rent in our total portfolio, excluding properties owned through our joint venture with Inland Private Capital Corporation ("IPCC").

As of March 31, 2014, we owned interests in 138 investment properties, including 29 properties owned by our unconsolidated joint ventures.

2014 Goals and Objectives

- Continue to improve our tenant diversification and expand our geographic concentration, with increased footprints in the Central and Southeastern U.S.

Table of Contents

Continue to enhance the value of our portfolio through additional repositioning and redevelopment initiatives. Redeploy capital from dispositions of non-core, limited growth assets into acquisitions of high quality retail assets. Continue to reduce the cost and extend the term of our debt and reduce our overall leverage over time, which will improve our financial flexibility and liquidity by maintaining access to multiple sources of capital. In executing our 2014 goals, during the three months ended March 31, 2014, we sold three non-core assets for approximately \$23,050, the proceeds from which were used to partially fund the acquisition of investment properties. Additionally, we repaid approximately \$26,500 of consolidated mortgages payable, resulting in a decrease of our total outstanding debt.

As part of our growth strategy, management implemented external growth initiatives consisting of unconsolidated joint venture activities. Because certain joint ventures are unconsolidated, we are not able to present a complete picture of the impact these ventures have on our consolidated financial statements. We have included pro rata consolidated financial statements in the Non-GAAP Financial Measures section of this Quarterly Report on Form 10-Q to present our consolidated financial statements including our share of the joint venture balance sheets and statements of operations. We believe providing this information allows investors to better compare our overall performance and operating metrics to those of other REITs in our peer group.

Including the accounts of our unconsolidated joint ventures at 100 percent, we managed approximately \$2,937,136 in total assets as of March 31, 2014 and earned \$96,388 in total revenues during the three months ended March 31, 2014.

Strategies and Objectives

Current Strategies

Our primary business objective is to enhance the performance and value of our investment properties through management strategies that address the needs of an evolving retail marketplace. Our success in operating our centers efficiently and effectively is, we believe, a direct result of our expertise in the acquisition, management, leasing and development/re-development of properties held either directly or through a joint venture.

Acquisition Strategies

We seek to selectively acquire well-located open air retail centers that meet our investment criteria. We will, from time to time, acquire properties either without financing contingencies or by assuming existing debt to provide us with a competitive advantage over other potential purchasers requiring financing or financing contingencies. Additionally, we concentrate our property acquisitions in areas where we have, or seek to have, a large market concentration. In doing this, we believe we are able to achieve operating efficiencies and possibly lease several locations to retailers expanding in our markets.

Joint Ventures

We have formed joint ventures to acquire stabilized retail properties as well as properties to be redeveloped and vacant land to be developed. We structure these ventures to earn fees from the joint ventures for providing property management, asset management, acquisition and leasing services. We will continue to receive management and leasing fees for those investment properties under management, however acquisition fees may fluctuate with acquisition activity through these ventures.

We believe that joint ventures support our strategic goals of expanding our footprint to improve diversification, while utilizing our partner's capital and preserving liquidity on our balance sheet. Additionally, the joint ventures provide us with ongoing fee income that enhances our results of operations from our core portfolio.

To support our ongoing effort to expand our footprint into new markets, in November 2013, we entered into a joint venture to develop grocery-anchored shopping centers in select markets throughout the southeastern United States in metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. The joint venture agreement also provides that we will purchase each grocery-anchored center at a discount to fair market value after stabilization. A typical project likely will consist of a 50,000 square foot grocery store with approximately 20,000 square feet of additional retail space.

Additionally, we participate in a joint venture with IPCC that acquires properties which are ultimately sold to investors through a private offering of interests in Delaware Statutory Trusts (“DST”). We earn fees from the joint venture for providing asset management, property management, acquisition and leasing services. We will continue to receive management and leasing fees for those properties under management; even after all of the interests have been sold.

Table of Contents

Operations

We actively manage costs to minimize operating expenses by centralizing all management, leasing, marketing, financing, accounting and data processing activities to provide operating efficiencies. We seek to improve rental income and cash flow by aggressively marketing rentable space. We emphasize regular maintenance and periodic renovation to meet the needs of tenants and to maximize long-term returns. We maintain a diversified tenant base consisting primarily of retail tenants providing consumer goods and services. We proactively review our existing portfolio for potential re-development opportunities.

Liquidity and Capital Resources

Our most liquid asset is cash and cash equivalents that consist of cash and short-term investments. Cash and cash equivalents at March 31, 2014 and December 31, 2013 were \$12,747 and \$11,258, respectively. See our discussion of the statements of cash flows for a description of our cash activity during the three months ended March 31, 2014 and 2013.

We consider all demand deposits, money market accounts and investments in certificates of deposit and repurchase agreements purchased with a maturity of three months or less, at the date of purchase, to be cash equivalents. We maintain our cash and cash equivalents at financial institutions. The combined account balances at one or more institutions could periodically exceed the Federal Depository Insurance Corporation ("FDIC") insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage. However, we do not believe the risk is significant based on our review of the rating of the institutions where our cash is deposited. FDIC insurance currently covers up to \$250 per depositor at each insured bank.

Sources of cash

Income generated from our investment properties is the primary source from which we generate cash. Other sources of cash include amounts raised from the sale of securities, including shares of our common stock sold under our DRP and ongoing ATM issuance program, draws on our unsecured line of credit facility, which may be limited due to covenant compliance requirements, proceeds from financings secured by our investment properties, cash flows we retain that are not distributed to our stockholders and fee income received from our unconsolidated joint venture properties. As of March 31, 2014, we were in compliance with all financial covenants applicable to us. We had up to \$25,000 available under our \$180,000 line of credit facility and an additional \$100,000 available under an accordion feature. The access to the accordion feature requires approval of the lending group. If approved, the terms for the funds borrowed under the accordion feature would be market terms at the time of the borrowing and not the terms of the other borrowings under the line of credit facility. The lending group is not obligated to approve access to funds under the accordion feature. We use our cash primarily to pay distributions to our stockholders, for operating expenses at our investment properties, for interest expense on our debt obligations, for purchasing additional investment properties and capital commitments at existing investment properties, to meet joint venture commitments, to repay draws on the line of credit facility and for retiring mortgages payable.

In the aggregate, our investment properties are currently generating sufficient cash flow to pay our operating expenses, monthly debt service requirements, certain capital expenditures and current distributions. Monthly debt service requirements consist primarily of interest payments on our debt obligations although certain of our secured mortgages require monthly principal amortization.

As noted above, we also fund certain of our liquidity needs through the sale of our common stock in "at the market" or "ATM" issuances. Under this ATM program, we may issue up to \$150,000 of our shares of common stock. BMO Capital Markets Corp., Jefferies & Company, Inc. and KeyBanc Capital Markets, Inc. (together the "Agents") act as

our sales agent(s) for these issuances which may be made in privately negotiated transactions or by any other method deemed to be an "at the market" offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. We refer to the arrangement with the Agents in this report on Form 10-Q as our "ATM issuance program." No shares were issued during the three months ended March 31, 2014.

Uses of Cash

Our largest cash outlays relate to the payment of distributions to our preferred and common stockholders, the operation of our properties and interest expense on our mortgages payable and other debt obligations. Property operation outlays include, but are not limited to, real estate taxes, utilities, insurance, regular maintenance, landscaping, snow removal and periodic renovations to meet tenant needs. Pursuant to lease arrangements, most tenants are required to reimburse us for some or all of their pro rata share of the real estate taxes and operating expenses of the property.

Table of Contents

Since the most recent economic downturn, we have been successful in restoring stability to our portfolio. We believe that the stability of our portfolio, the lack of new supply of retail space, and the continued demand from growing retailers has put us in excellent position to be proactive in upgrading the quality of our tenancy and increasing rents. We continue to focus on leasing vacant spaces, but we are also focusing on right-sizing certain retailers and repositioning other centers to manage tenant exposures and open up space to accommodate larger tenants. These activities may require us to take tenants off-line during construction that may have a temporary adverse effect on our results of operations during the period the tenant is not paying rent. We are proactive in moving forward with these activities, as we believe the long term benefits outweigh the temporary decline in cash flows and net operating income.

One of our goals continues to be to enhance the value of our portfolio through additional repositioning and redevelopment initiatives. We currently have several projects underway and others under consideration. During 2014, we expect to invest approximately \$27,000 in capital for tenant improvements and leasing commission on new leases and building improvements related to some of these repositioning efforts, which is similar in spend to prior years. We expect to fund these improvements using cash from operations and draws on our unsecured line of credit facility.

Approximately \$134,928 of consolidated debt, including required monthly principal amortization, matures in the next twelve months. Included in the debt maturing in 2014 is an aggregate of approximately \$90,247 of outstanding principal, secured by our Algonquin Commons property, which is subject to an \$18,600 Payment Guaranty and carve-out guarantees, but generally is non-recourse to us. Algonquin Commons is currently subject to foreclosure litigation through which the plaintiff is also seeking to enforce the Payment Guaranty. We believe the Payment Guaranty has terminated, but we cannot predict the outcome of the litigation or provide assurance that the Payment Guaranty will not be performed. We intend to repay the remaining maturing debt upon maturity using available cash and/or borrowings under our unsecured line of credit facility. Reference is made to the Total Debt Maturity Schedule in Note 5, "Secured and Unsecured Debt" to the accompanying consolidated financial statements for a discussion of our total debt outstanding as of March 31, 2014, which is incorporated into this Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations."

In October, 2012, we entered into a First Amendment (the "Amendment") to the Limited Partnership Agreement of our joint venture with PGGM. Subject to the terms and conditions of the Amendment, the partners increased the potential maximum equity contributions to allow for the acquisition of up to an additional \$400,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets, using partner equity and secured debt. The Amendment increased our potential maximum equity contribution to \$281,000 and PGGM's potential maximum equity contribution to \$230,000. The Amendment allows for a two-year investment period and no contributions are required unless and until both partners approve an additional acquisition. We will fund our equity contributions with draws on our line of credit facility, proceeds from sales of investment properties, proceeds from financing unencumbered properties or the sale of preferred or common stock. As of March 31, 2014, PGGM's remaining maximum potential contribution was approximately \$67,050 and ours was approximately \$81,950.

Acquisitions and Dispositions

The table below presents investment property acquisitions, including those acquired by our unconsolidated joint ventures, during the three months ended March 31, 2014 and the year ended December 31, 2013.

Table of Contents

Date	Property	City	State	GLA Sq.Ft.	Approx. Ground Lease Sq.Ft. (a)	Purchase Price	Cap Rate (b)	Financial Occupancy at time of Acquisition		
Consolidated Portfolio

(a) The purchase price of these properties includes square footage subject to ground leases. Ground lease square footage is not included in our GLA.

The Cap Rate disclosed is as of the time of acquisition and is calculated by dividing the forecasted net operating income (“NOI”) by the purchase price. Forecasted NOI is defined as forecasted net income for the twelve months following the acquisition of the property, calculated in accordance with U.S. GAAP, excluding straight-line rental income, amortization of lease intangibles, interest, depreciation, amortization and bad debt expense, less a vacancy factor to allow for potential tenant move-outs or defaults.

(c) This property is subject to future earnout payments of approximately \$2,600.

(d) This property is subject to future earnout payments of approximately \$1,800, of which \$1,539 has already been paid.

We acquired title to these properties through foreclosure proceedings. We had acquired the notes encumbering these properties in 2012 at a discount to their face value. In conjunction with the acquisition, the notes were extinguished. We recorded Winfield Pointe Center at \$2,583 and Eola Commons at \$3,994, representing the respective fair value of each property at the time of acquisition.

(f) This property is subject to future earnout payments of approximately \$1,260.

(g) This property was subject to future earnout payments of approximately \$400, which have been paid.

(h) Our joint venture with PGGM acquired vacant land to develop a 92,512 square foot retail building through a development partnership that is 96% pre-leased to Mariano's Fresh Market and PetSmart.

(i) This portfolio includes twelve 7-Eleven stores, located in Akron, Brunswick, Chagrin Falls, Cleveland, Mentor, Painesville, Stow, Streetsboro, Strongsville, Twinsburg, Willoughby and Willoughby Hills OH.

The table below presents investment property dispositions, including properties disposed of by our unconsolidated joint ventures, during the three months ended March 31, 2014 and the year ended December 31, 2013.

				1,760,996	\$375,464	22,539	2,981

These properties are included as dispositions because all of the DST interests have been sold through our joint venture with IPCC. No gain or loss is reflected in this table because the disposition of these properties is not (a) considered a property sale, but rather a sale of ownership interest in the properties. The gains from these properties are included in gain from sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

(b) This portfolio includes twelve 7-Eleven stores, located in Akron, Brunswick, Chagrin Falls, Cleveland, Mentor, Painesville, Stow, Streetsboro, Strongsville, Twinsburg, Willoughby and Willoughby Hills OH.

(c) This portfolio consists of three Family Dollar stores and eight Dollar General stores, located in Cameron, Texas; Charleston, Missouri; Wausaukee, Wisconsin; Lafayette, Wisconsin; Gale, Wisconsin; Mobile, Alabama;

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

LaGrange, Georgia; Midland City, Alabama; Woodville, Alabama; Fortson, Georgia and Warrior, Alabama.

This portfolio consists of four Family Dollar stores and six Dollar General stores, located in Cisco, Texas; Lorain, (d)Ohio; Abilene, Texas; Colorado City, Texas; Baldwin, Wisconsin; Mercer, Wisconsin; Nekoosa, Wisconsin; Oxford, Wisconsin; Spooner, Wisconsin and Wittenberg, Wisconsin.

(e) This portfolio consists of two Mariano's stores, located in Palatine, Illinois and Vernon Hills, Illinois.

(f) This portfolio consists of one CVS store and three Walgreens stores, located in Nampa, Idaho; St. George, Utah; Lee's Summit, Missouri and McPherson, Kansas.

(g) This portfolio consists of five Walgreens stores, located in El Paso, Texas; Benton Harbor, Michigan; New Bedford, Massachusetts; Villa Park, Illinois; and Milwaukee, Wisconsin.

The table below presents development property dispositions during the year ended December 31, 2013. There were no development property dispositions during the three months ended March 31, 2014.

Date	Property	City	State	GLA Sq. Ft.	Acres	Sale Price	Gain on Sale (a)	Provision for Asset Impairment (a)

Table of Contents

Critical Accounting Policies

Disclosures discussing all critical accounting policies are set forth in our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission on February 28, 2014, under the heading "Critical Accounting Policies." No significant changes have been made to the critical accounting policies subsequent to December 31, 2013.

Statements of Cash Flows

The following table summarizes our consolidated statements of cash flows for the three months ended March 31, 2014 and 2013:

	2014	2013
Net cash provided by operating activities	\$ 16,080	9,573
Net cash used in investing activities	\$(50,422) (20,609)
Net cash provided by financing activities	\$35,831	1,434

2014 Compared to 2013

Net cash provided by operating activities was \$16,080 for the three months ended March 31, 2014, as compared to \$9,573 for the three months ended March 31, 2013. The increase in cash provided by operating activities is due to an improvement in property operations, which is primarily due to the consolidation of the properties that were formally held in our joint venture with NYSTRS. See our discussion below under Results of Operations for an explanation related to property operations.

Net cash used in investing activities was \$50,422 for the three months ended March 31, 2014, as compared to \$20,609 for the three months ended March 31, 2013. The primary reason for the increase in cash used in investing activities was the use of \$72,826 to purchase investment properties and \$5,017 for additions to investment properties during the three months ended March 31, 2014, as compared to the use of \$20,270 to purchase investment properties and \$3,153 for additions to investment

Table of Contents

properties during the three months ended March 31, 2013. Partially offsetting the increase in cash used in investing activities was the receipt of \$13,815 more in proceeds from the sale in investment properties and the investment of \$10,706 less in our unconsolidated joint ventures during the three months ended March 31, 2014, as compared to the three months ended March 31, 2013.

Net cash provided by financing activities was \$35,831 for the three months ended March 31, 2014, as compared to \$1,434 during the three months ended March 31, 2013. The primary reason for the increase in cash provided by financing activities was the receipt of \$60,000 in net proceeds on our unsecured line of credit facility, partially offset by the use of \$25,052 to repay debt during the three months ended March 31, 2014, as compared to minimal debt activity during the three months ended March 31, 2013.

Results of Operations

This section describes and compares our results of operations for the three months ended March 31, 2014 and 2013. At March 31, 2014, we had ownership interests in 17 single-user retail properties, 51 Neighborhood Centers, 33 Community Centers, 36 Power Centers and 1 Lifestyle Center. We generate almost all of our net operating income from property operations. One metric that management uses to evaluate our overall portfolio is same store net operating income in which management analyzes the net operating income of properties that we have owned and operated for the same three month periods during each year. These properties are referred to herein as “same store” properties. Property net operating income is a non-GAAP measure that allows management to monitor the operations of our existing properties for comparable periods to measure the performance of our current portfolio and determine the effects of our new acquisitions on net income. We believe that net operating income is also meaningful as an indicator of the effectiveness of our management of properties because net operating income excludes certain items that are not reflective of management, such as depreciation and interest expense.

A total of 84 of our investment properties were “same store” properties during the periods presented. These properties comprise approximately 7.6 million square feet. In the table below, “other investment properties” includes activity from properties acquired during the three months ended March 31, 2014 and the year ended December 31, 2013 (including the consolidation of assets formerly in the NYSTRS joint venture), properties disposed of during the three months ended March 31, 2014, Algonquin Commons, for which a receiver and its affiliated management company are now managing and operating, and activity from properties owned through our joint venture with IPCC while these properties were consolidated. Operations from properties acquired through this joint venture are recorded as consolidated until those properties become unconsolidated with the first sale of ownership interest to investors. Once the operations are deconsolidated, the income is included in equity in earnings of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. The “same store” investment properties represent 69% of the square footage of our consolidated portfolio at March 31, 2014. The following table presents the net operating income, broken out between “same store” and “other investment properties,” prior to straight-line rental income, amortization of lease intangibles, lease termination income, interest, depreciation, amortization and bad debt expense for the three months ended March 31, 2014 and 2013 along with reconciliation to net income attributable to common stockholders, calculated in accordance with U.S. GAAP.

Table of Contents

	Three months ended March 31,	
	2014	2013
Rental income and tenant recoveries:		
"Same store" investment properties, 84 properties

Real estate tax expense	6,049	5,903
"Other investment properties"		
Property operating expenses	4,089	815
Real estate tax expense	4,031	887
Total property operating expenses	\$22,263	13,229
Property net operating income		
"Same store" investment properties	\$21,545	21,191
"Other investment properties"	11,375	3,126
Total property net operating income	\$32,920	24,317
Other income:		
Straight-line rents	\$735	104
Amortization of lease intangibles	(75) (347
Lease termination income	4	1
Other income	102	748
Fee income from unconsolidated joint ventures	1,259	1,596
Gain on sale of investment properties	12,850	1,440
Gain on sale of joint venture interest	108	341
Equity in earnings of unconsolidated joint ventures	1,794	1,340
Other expenses:		
Income tax expense of taxable REIT subsidiaries	(395) (228
Bad debt expense	(191) (703
Depreciation and amortization	(19,114) (12,023
General and administrative expenses	(6,092) (4,720
Interest expense	(8,991) (7,985
Income from continuing operations	14,914	3,881
Income from discontinued operations	490	3,032
Net income	15,404	6,913

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Less: Net (income) loss attributable to the noncontrolling interest	20	(12)
Net income attributable to Inland Real Estate Corporation	15,424	6,901	
Dividends on preferred shares	(2,234) (2,210)
Net income attributable to common stockholders	\$ 13,190	4,691	

On a “same store” basis, (comparing the results of operations of the investment properties owned during the three months ended March 31, 2014 with the results of the same investment properties during the three months ended March 31, 2013), property net operating income increased \$354 with total property income increasing \$2,970 and total property operating expenses increasing \$2,616.

Net income attributable to common stockholders increased \$8,499 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013.

Table of Contents

Rental income

Rental income increased \$91 on a "same store" basis, for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. Including "other investment properties," total rental income increased \$7,918 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The increase in total rental income is primarily due to the consolidation of the properties formerly held in our joint venture with NYSTRS.

Tenant recovery income

Tenant recovery income increased \$2,878 on a "same store" basis, for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. Including "other investment properties," total tenant recovery income increased \$9,652 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The primary reason for the fluctuation in tenant recovery income is a corresponding fluctuation in the amount of property operating and real estate tax expenses, both of which are recoverable under tenant leases. Additionally the rate at which we recover expenses has increased in connection with new leases signed during the respective periods and the end of any associated rent abatement periods.

Property operating expenses

Property operating expenses increased \$2,470 on a "same store" basis, for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. Including "other investment properties," total property operating expenses increased \$5,744 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The increase in total property operating expenses is primarily due to the consolidation of the properties formerly held in our joint venture with NYSTRS. Additionally, the increase is due to an increase in snow removal costs due to inclement weather conditions during the three months ended March 31, 2014.

Real estate tax expense

Real estate tax expense increased \$146 on a "same store" basis, for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. Including "other investment properties," total real estate tax expense increased \$3,290 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The change in real estate tax expense is a result of changes in the assessed values of our investment properties or the tax rates charged by the various taxing authorities. Additionally, the increase in total real estate tax expense is primarily due to the consolidation of the properties formerly held in our joint venture with NYSTRS.

Other income

Other income decreased \$646 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The decrease in other income is due to decreased dividends earned on our investment portfolio and decreased gains on the sale of investment securities. We divested our securities portfolio as of December 31, 2013.

Fee income from unconsolidated joint ventures

Fee income from unconsolidated joint ventures decreased \$337 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The decrease was due primarily to decreased management fee income after the consolidation of the properties formerly held in our joint venture with NYSTRS. Additionally, the decrease is due to decreased acquisition fees earned on sales of interests through our joint venture with IPCC. Acquisition fees earned may vary based on the number of properties sold, the original acquisition prices of the properties and the timing of the sales in each period.

Gain on sale of investment properties

Gain on sale of investment properties increased \$11,410 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013 due to the early adoption of the new discontinued operations standard as of January 1, 2014. Gain on sale of investment properties for the three months ended March 31, 2014 includes gain recognized in conjunction with the sale of three investment properties. Gains from the sale of investment properties

during the three months ended March 31, 2013 are included in discontinued operations.

Depreciation and amortization

Depreciation and amortization increased \$7,091 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013, due to depreciation expense recorded on newly acquired investment properties, including the consolidation of the properties formerly held in our joint venture with NYSTRS, new tenant improvement assets for work related to new leases and additional properties owned through our joint venture with IPCC, while they were consolidated.

Table of Contents

General and administrative expenses

General and administrative expenses increased \$1,372 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The increase is due primarily to an increase in payroll and related items as a result of additional staff for our increasing portfolio of assets under management and increased deal pursuit costs.

Interest expense

Interest expense increased \$1,006 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013. The increase is primarily due to the consolidation during of the properties formerly held in our joint venture with NYSTRS.

Income from discontinued operations

Income from discontinued operations decreased \$2,542 for the three months ended March 31, 2014, as compared to the three months ended March 31, 2013, due to the early adoption of the new discontinued operations standard as of January 1, 2014. Operations from properties sold subsequent to January 1, 2014 that do not represent a strategic shift that has or will have a major effect on operations and financial results are no longer reflected as discontinued operations causing a decrease in what is reported in discontinued operations during the three months ended March 31, 2014.

Portfolio Activity

During the three months ended March 31, 2014, our leasing activity remained strong and our leasing spreads were positive on both new and renewal leases in our consolidated portfolio. During the three months ended March 31, 2014, we executed eight new, 41 renewal and 12 non-comparable leases (expansion square footage or spaces for which no former tenant was in place for one year or more), aggregating approximately 310,000 square feet on our consolidated portfolio. The eight new leases comprise approximately 18,000 square feet with an average rental rate of \$19.88 per square foot, a 20.1% increase over the average expiring rate. The 41 renewal leases comprise approximately 258,000 square feet with an average rental rate of \$13.96 per square foot, a 7.7% increase over the average expiring rate. The 12 non-comparable leases comprise approximately 34,000 square feet with an average base rent of \$16.44 per square foot. The calculations of former and new average base rents are adjusted for rent abatements.

During the remainder of 2014, 98 leases, comprising approximately 395,000 square feet and accounting for approximately 3.6% of our annualized base rent, will be expiring in our consolidated portfolio. We do not believe that any of the expiring leases are individually material to our financial results. The weighted average expiring rate on these leases is \$12.94 per square foot. We will continue to attempt to renew expiring leases and re-lease those spaces that are vacant, or may become vacant, at more favorable rental rates to increase revenue and cash flow.

Occupancy as of March 31, 2014, December 31, 2013, and March 31, 2013 for our consolidated, unconsolidated and total portfolios is summarized in the following table:

	As of March 31, 2014	As of December 31, 2013	As of March 31, 2013	
Consolidated Occupancy (a)				
Leased Occupancy (b)	94.8	% 94.6	% 92.0	%
Financial Occupancy (c)	92.6	% 92.0	% 89.1	%

31

Table of Contents

(a) All occupancy calculations exclude seasonal tenants.

(b) Leased Occupancy is defined as the percentage of gross leasable area for which there is a signed lease, regardless of whether the tenant is currently obligated to pay rent under their lease agreement.

Financial Occupancy is defined as the percentage of total gross leasable area for which a tenant is obligated to pay (c) rent under the terms of its lease agreement, regardless of the actual use or occupation by that tenant of the area being leased, excluding tenants in their abatement period.

(d) Unconsolidated occupancy includes 100% of the square footage of the related properties.

Due to the occupancy fluctuations produced by the temporary ownership of the properties within this joint venture, (e) we disclose occupancy rates excluding these properties. We believe the additional disclosure allows investors to evaluate the occupancy of the portfolio of properties we expect to own longer term.

Joint Ventures and Off Balance Sheet Arrangements

Reference is made to Note 3, "Joint Ventures" to the accompanying consolidated financial statements for a discussion of our consolidated and unconsolidated joint ventures as of March 31, 2014, which is incorporated into this Item 2.

"Management's Discussion and Analysis of Financial Condition and Results of Operations."

Table of Contents

Non-GAAP Financial Measures

We consider FFO a widely accepted and appropriate measure of performance for a REIT. FFO provides a supplemental measure to compare our performance and operations to other REITs. Due to certain unique operating characteristics of real estate companies, NAREIT has promulgated a standard known as FFO, which it believes more accurately reflects the operating performance of a REIT such as ours. As defined by NAREIT, FFO means net income computed in accordance with U.S. GAAP, excluding gains (or losses) from sales of operating property, plus depreciation and amortization and after adjustments for unconsolidated entities in which the REIT holds an interest. In addition, NAREIT has further clarified the FFO definition to add-back impairment write-downs of depreciable real estate or of investments in unconsolidated entities that are driven by measurable decreases in the fair value of depreciable real estate. Under U.S. GAAP, impairment charges reduce net income. While impairment charges are added back in the calculation of FFO, we caution that because impairments to the value of any property are typically based on reductions in estimated future undiscounted cash flows compared to current carrying value, declines in the undiscounted cash flows which led to the impairment charges reflect declines in property operating performance that may be permanent. We have adopted the NAREIT definition for computing FFO. Recurring FFO includes adjustments to FFO for the impact of lease termination income, certain gains and non-cash impairment charges of non-depreciable real estate, net of taxes recorded in comparable periods, in order to present the performance of our core portfolio operations. Management uses the calculation of FFO and Recurring FFO for several reasons. FFO is used in certain employment agreements we have with our executives to determine a portion of incentive compensation payable to them. Additionally, we use FFO and Recurring FFO to compare our performance to that of other REITs in our peer group. The calculation of FFO and Recurring FFO may vary from entity to entity since capitalization and expense policies tend to vary from entity to entity. Items that are capitalized do not impact FFO and Recurring FFO whereas items that are expensed reduce FFO and Recurring FFO. Consequently, our presentation of FFO and Recurring FFO may not be comparable to other similarly titled measures presented by other REITs. FFO and Recurring FFO do not represent cash flows from operations as defined by U.S. GAAP, are not indicative of cash available to fund cash flow needs and liquidity, including our ability to pay distributions, and should not be considered as an alternative to net income, as determined in accordance with U.S. GAAP, for purposes of evaluating our operating performance. The following table reflects our FFO and FFO adjusted for the periods presented, reconciled to net income (loss) attributable to common stockholders for these periods:

	Three months ended March 31,	
	2014	2013
Net income attributable to common stockholders	\$13,190	4,691
Gain on sale of investment properties	(13,343) (4,178
Impairment of depreciable operating property	—	186
Equity in depreciation and amortization of unconsolidated joint ventures	4,192	5,855
Amortization on in-place lease intangibles	6,410	1,548
Amortization on leasing commissions	454	505
Depreciation, net of noncontrolling interest	12,250	10,598
Funds From Operations attributable to common stockholders	23,153	19,205
Lease termination income	(4) (1
Lease termination income included in equity in earnings of unconsolidated joint ventures	(77) (9
Impairment loss, net of taxes:		
Impairment of investment securities	—	98
Provision for asset impairment included in equity in earnings of unconsolidated joint ventures	—	506
Recurring Funds From Operations attributable to common stockholders	\$23,072	19,799

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Net income attributable to common stockholders per weighted average common share — basic and diluted	\$0.13	0.05
Funds From Operations attributable to common stockholders, per weighted average common share — basic and diluted	\$0.23	0.21
Recurring Funds From Operations attributable to common stockholders, per weighted average common share — basic and diluted	\$0.23	0.22
Weighted average number of common shares outstanding, basic	99,411	89,476

Table of Contents

EBITDA is defined as earnings (losses) from operations excluding: (1) interest expense; (2) income tax benefit or expenses; (3) depreciation and amortization expense; and (4) gains (loss) on non-operating property. We believe EBITDA is useful to us and to an investor as a supplemental measure in evaluating our financial performance because it excludes expenses that we believe may not be indicative of our operating performance. By excluding interest expense, EBITDA measures our financial performance regardless of how we finance our operations and capital structure. By excluding depreciation and amortization expense, we believe we can more accurately assess the performance of our portfolio. Because EBITDA is calculated before recurring cash charges such as interest expense and taxes and is not adjusted for capital expenditures or other recurring cash requirements, it does not reflect the amount of capital needed to maintain our properties nor does it reflect trends in interest costs due to changes in interest rates or increases in borrowing. EBITDA should be considered only as a supplement to net earnings and may be calculated differently by other equity REITs.

We believe EBITDA is an important supplemental non-GAAP measure. We utilize EBITDA to calculate our interest expense coverage ratio, which equals EBITDA divided by total interest expense. We believe that using EBITDA, which excludes the effect of non-operating expenses and non-cash charges, all of which are based on historical cost and may be of limited significance in evaluating current performance, facilitates comparison of core operating profitability between periods and between REITs, particularly in light of the use of EBITDA by a seemingly large number of REITs in their reports on Forms 10-Q and 10-K. We believe that investors should consider EBITDA in conjunction with net income and the other required U.S. GAAP measures of our performance to improve their understanding of our operating results. Recurring EBITDA includes adjustments to EBITDA for the impact of lease termination income and non-cash impairment charges in comparable periods in order to present the performance of our core portfolio operations.

	Three months ended March 31,	
	2014	2013
Net income attributable to Inland Real Estate Corporation	\$15,424	6,901
Gain on sale of investment properties	(13,343) (4,178

Table of Contents

The following schedules present our pro-rata consolidated financial statements as of and for the three months ended March 31, 2014, reconciled to our U.S. GAAP financial statements. These financial statements are considered non-GAAP because they include financial information related to unconsolidated joint ventures accounted for under the equity method of accounting. We provide these statements to include the pro rata amounts of all properties under management in order to better compare our overall performance and operating metrics to those of other REITs in our peer group.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We may enter into derivative financial instrument transactions in order to mitigate our interest rate risk on a related financial instrument. We may designate these derivative financial instruments as hedges and apply hedge accounting, as the instrument to be hedged will expose us to interest rate risk, and the derivative financial instrument is designed to reduce that exposure. Gains or losses related to the derivative financial instrument would be deferred and amortized over the terms of the hedged instrument. If a derivative terminates or is sold, the gain or loss is recognized. As of March 31, 2014, we have one interest rate swap contract, which was entered into as a requirement under a secured mortgage.

Our exposure to market risk for changes in interest rates relates to the fact that some of our long-term debt bears interest at variable rates. These variable rate loans are based on LIBOR, therefore, fluctuations in LIBOR impact our results of operations. We seek to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs by closely monitoring our variable rate debt and converting this debt to fixed rates when we deem such conversion advantageous.

Our interest rate risk is monitored using a variety of techniques, including periodically evaluating fixed interest rate quotes on all variable rate debt and the costs associated with converting the debt to fixed rate debt. Also, existing fixed and variable rate loans which are scheduled to mature in the next year or two are evaluated for possible early refinancing or extension based on our view of the current interest rate environment. The table below presents the principal amount of the debt maturing each year, including monthly annual amortization of principal, through December 31, 2018 and thereafter and weighted average interest rates for the debt maturing in each specified period. The instruments, the principal amounts of which are presented below, were entered into for non-trading purposes.

	2014 (a)	2015 (a)	2016	2017	2018	Thereafter	Total	Fair Value (b)
Fixed rate debt	\$137,098	(c) 35,959	8,974	46,168	368	243,205	471,772	(d) 497,474
Weighted average interest rate	5.43 %	6.08 %	5.00 %	5.05 %	— %	5.07 %	5.25 %	—
Variable rate debt	\$6,233	45	35,046	156,476	(e) 230,000	(f)(g) —	427,800	(d) 425,031
Weighted average interest rate	0.29 %	— %	2.60 %	1.90 %	2.20 %	— %	2.09 %	—
Total	\$143,331	36,004	44,020	202,644	230,368	243,205	899,572	922,505

Approximately \$134,928 of our mortgages payable mature in the next twelve months. Included in the debt maturing in 2014 is outstanding principal of approximately \$90,247, secured by our Algonquin Commons property, (a) which is currently subject to foreclosure litigation and we cannot currently predict the outcome of the litigation. We intend to repay the other maturing debt upon maturity using available cash and/or borrowings under our unsecured line of credit facility.

The fair value of debt is the amount at which the instrument could be exchanged in a current transaction between (b) willing parties. We estimate the fair value of our debt by discounting the future cash flows of each instrument at rates currently offered to us for similar debt instruments of comparable maturities by our lenders (Level 3).

(c) Included in the debt maturing in 2014 are our convertible notes issued during 2010, which mature in 2029. They are included in 2014 because that is the earliest date these notes can be redeemed or the note holders can require us to repurchase their notes. The total for convertible notes above reflects the total principal amount outstanding, in

the amount of \$29,215. The consolidated balance sheets at March 31, 2014 reflect the value of the notes including the remaining unamortized discount of \$309.

- (d) The total debt above reflects the total principal amount outstanding. The consolidated balance sheets at March 31, 2014 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$2,741. Included in the debt maturing during 2017 is our unsecured line of credit facility, totaling \$155,000. We pay interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with our leverage ratio. As of March 31, 2014, the weighted average interest rate on outstanding draws on the line of credit facility was 1.89%. This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, we were in compliance with these financial covenants. Included in the debt maturing during 2018 is our \$180,000 term loan, which matures in August 2018. We pay interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with our leverage ratio. As of March 31, 2014, the weighted average interest rate on the term loan was 1.84%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, we were in compliance with these financial covenants.
- (e) Included in the debt maturing during 2018 is our \$50,000 term loan which matures in November 2018. We pay interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%. As of March 31, 2014, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2014, we were in compliance with these financial covenants.
- (f)
- (g)

Our ultimate exposure to interest rate fluctuations depends on the amount of indebtedness that bears interest at variable rates, the time at which the interest rate is adjusted, the amount of the adjustment, our ability to prepay or refinance variable rate indebtedness, fixed rate debt that matures and needs to be refinanced and hedging strategies used to reduce the impact of any increases in rates.

Table of Contents

At March 31, 2014, approximately \$427,800, or 48%, of our debt bore interest at variable rates, with a weighted average rate of 2.09% per annum. An increase in the variable interest rates charged on debt containing variable interest rate terms, constitutes a market risk. A 1.0% annualized increase in interest rates would have increased our interest expense by approximately \$1,070 for the three months ended March 31, 2014.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that material information relating to the Company, including our consolidated subsidiaries, is made known to the officers who certify our financial reports and to the members of senior management and the Board of Directors.

Based on management's evaluation as of March 31, 2014, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective as of the date of evaluation to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15(d)-15(f) under the Exchange Act) during the three months ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
