Edgar Filing: PUTNAM HIGH INCOME OPPORTUNITIES TRUST - Form 425

As a result of this merger, No Change in dividend policies is expected.

Why is Putnam proposing this merger?

-Putnam believes the merger of High Income Opportunities Trust into High Income Bond Fund may result in a combined fund that is more attractive to investors than either of the two funds separately.

-Putnam believes that creating a broader shareholder base for the combined Fund's shares may attract more interest in the combined fund than is currently the case with either fund, which may result in higher trading levels for the combined fund's shares. However, there can be no guarantee that the proposed merger will have the intended effect.

-Putnam believes the merger would offer shareholders of both funds the opportunity to invest in a considerably larger fund with similar investment policies and the potential to achieve greater economies of scale and a lower expense ratio.

-In addition, the funds are managed by the same investment teams with a common investment process and similar objectives; therefore, the proposed merger would permit the funds' investment team to concentrate its efforts and resources more efficiently.

Are the investment goals and policies of each fund the same?

The investment goals of the funds are identical. Each fund seeks high current income as a primary objective, and capital appreciation as a secondary objective. The funds' investment strategies and investment policies are also substantially similar.

Will the number of shares I own change?

If you are a shareholder of High Income Opportunities Trust and the proposed merger is approved, the number of shares you own will change, but the total net asset value of the shares of High Income Bond Fund you receive will equal the total net asset value of the shares of High Income Opportunities Trust that you hold at the time of the merger. If you are a shareholder of High Income Bond Fund, the number of shares you own will not change. Even though the net asset value per share of each fund is different, the total net asset value of a shareholder's holdings will not change as a result of the merger.

What do the Trustees Recommend?

The Trustees of the funds, including all of the independent Trustees who are not affiliated with Putnam Management, unanimously determined that the proposed merger is in the best interests of each fund and recommend that shareholders vote FOR approval of the proposed merger.
