### NOTES TO SCHEDULE OF INVESTMENTS:

\* Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of the security or financial instrument may be fair-valued, in good faith pursuant to procedures established by the Board of Trustees. The Fund's investments in senior floating rate loans ("Senior Loans") for which a secondary market exists will be valued at the mean of the last available bid and asked prices in the market for such Senior Loans, as provided by an independent pricing service. Other Senior Loans are valued at fair-value by Pacific Investment Management Company LLC (the Sub-Adviser). Such procedures include consideration and evaluation of: (1) the creditworthiness of the borrower and any intermediate participants;(2) the term of the Senior Loan; (3) recent prices in the market for similar loans, if any; (4) recent prices in the market for loans of similar quality, coupon rate, and period until next interest rate reset and maturity, and (5) general economic and market conditions affecting the fair value of the

Senior Loan. Other portfolio securities and financial instruments are valued by an independent pricing service, dealer quotations, or are valued at the last sale price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. The independent pricing service uses information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange traded options, futures and options on futures are valued at the settlement price determined by the relevant exchange. Forward foreign currency contracts are marked to market daily at the applicable foreign exchange rates. Short-term investments maturing in 60 days or less are valued at amortized cost, if their original maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold. The Fund's net asset value is determined weekly on the last business day of the week at the close of regular trading (normally 4:00 p.m. Eastern Time) on the New York Stock Exchange.

- (a) Private Placement. Restricted as to resale and may not have a readily available market.
- (b) Illiquid security.
- (c) These securities generally pay interest at rates which are periodically pre-determined by reference to a base lending rate plus a premium. These base lending rates are generally either the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR") or the prime rate offered by one or more major United States banks, or the certificate of deposit rate. These securities are generally considered to be restricted as the Fund is ordinarily contractually obligated to receive approval from the Agent bank and/or borrower prior to disposition. Remaining maturities of senior loans may be less than the stated maturities shown as a result of contractual or optional payments by the borrower. Such prepayments cannot be predicted with certainty.
- (d) Unsettled security, coupon rate undetermined at May 31, 2005.
- (e) Fair-valued security.
- (f) Delayed-delivery security. To be delivered/settled after May 31, 2005.
- (g) 144A Security - Security exempt from registration, under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional investors.
- (h) Floating Rate Security - Interest rate shown is the rate in effect at May 31, 2005.
- (i) Credit-linked trust certificate.
- (j) Non-income producing.
