**Portfolio of Investments (concluded)**

**September 30, 2015 (unaudited)**

**Valuation of Investments:**

Net asset value (“NAV”) per share for the Fund is determined on each day the New York Stock Exchange (the “NYSE”) is open for business, generally as of the close of regular session trading on the NYSE (normally 4:00 p.m. Eastern time, the “Regular Closing Time”). When trading on the NYSE is unexpectedly closed prior to the Regular Closing Time, or an earlier scheduled close (such as on certain days around holidays when the NYSE is scheduled to close before 4:00 p.m.), and remains closed through the time of the Regular Closing Time (or an earlier scheduled close), the NAV of the Fund may nonetheless be calculated as of the Regular Closing Time (or an earlier scheduled close) if, in the judgment of Lazard Asset Management LLC (the “Investment Manager”), there is sufficient trading in other markets between the unexpected close and the Regular Closing Time (or an earlier scheduled close) for securities for which the NYSE is usually considered the primary market. NAV per share is determined by dividing the value of the total assets of the Fund, less all liabilities, by the total number of Fund shares outstanding.

Market values for securities listed on the NYSE, NASDAQ national market or other US or foreign exchanges or markets are generally based on the last reported sales price on the exchange or market on which the security is principally traded on each valuation date; securities not traded on the valuation date are valued at the most recent quoted bid price. The Fund values NASDAQ-traded securities at the NASDAQ Official Closing Price, which may not be the last reported sales price in certain instances. Forward currency contracts generally are valued using quotations from an independent pricing service. Investments in money market funds are valued at the fund’s NAV.

Bonds and other fixed-income securities that are not exchange-traded are valued on the basis of prices provided by independent pricing services which are based on, among other things, trading in securities with similar characteristics, brokers’ quotations and/or a matrix system which considers such factors as other security prices, yields and maturities.

The Valuation Committee of the Investment Manager, which meets periodically and acts pursuant to delegated authority from the Board of Directors (the “Board”), may evaluate a variety of factors to determine the fair value of securities for which market quotations are determined not to be readily available or reliable. These factors include, but are not limited to, the type of security, the value of comparable securities, observations from financial institutions and relevant news events. Input from the Investment Manager’s portfolio managers/analysts also will be considered.

If a significant event materially affecting the value of securities occurs between the close of the exchange or market on which the security is principally traded and the time when the Fund’s NAV is calculated, or when current market quotations otherwise are determined not to be readily available or reliable (including restricted or other illiquid

securities such as certain derivative instruments), such securities will be valued at their fair value as determined by, or in accordance with procedures approved by, the Board. Non-US securities may trade on days when the Fund is not open for business, thus affecting the value of the Fund's assets on days when Fund stockholders may not be able to buy or sell Fund shares.

The effect of using fair value pricing is that the NAV of the Fund will reflect the affected securities' values as determined in the judgment of the Board or its designee instead of being determined by the market. Using a fair value pricing methodology to price securities may result in a value that is different from the most recent closing price of a security and from the prices used by other investment companies to calculate their portfolios' NAVs.

**Fair Value Measurements:**

Fair value is defined as the price that the Fund would receive to sell an asset, or would pay to transfer a liability, in an orderly transaction between market participants at the date of measurement. The Fair Value Measurements and Disclosures provisions of accounting principles generally accepted in the United States of America also establish a framework for measuring fair value, and a three-level hierarchy for fair value measurement that is based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer, broadly, to the assumptions that market participants would use in pricing the

Edgar Filing: LAZARD GLOBAL TOTAL RETURN & INCOME FUND INC - Form N-Q

asset or liability. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability, developed based on the best information available in the circumstances. Each investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the overall fair value measurement. The three-level hierarchy of inputs is summarized below:

- Level 1 – unadjusted quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including unadjusted quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Changes in valuation technique may result in transfer into or out of the current assigned level within the hierarchy.

The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in these securities.

The following table summarizes the valuation of the Fund's investments by each fair value hierarchy level as of September 30, 2015:

Description	Unadjusted Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of September 30, 2015
<b>Assets:</b>				
Common Stocks	\$ 146,995,492	\$ —	\$ —	\$ 146,995,492
Foreign Government Obligations	—	14,889,251	—	14,889,251
Short-Term Investment	349,508	—	—	349,508
Other Financial Instruments*				
Forward Currency Contracts	—	594,471	—	594,471
<b>Total</b>	<b>\$ 147,345,000</b>	<b>\$ 15,483,722</b>	<b>\$ —</b>	<b>\$ 162,828,722</b>
<b>Liabilities:</b>				
Other Financial Instruments*				
Forward Currency Contracts	\$—	\$ (1,534,199	) \$ —	\$ (1,534,199 )

\* Other financial instruments are derivative instruments which are valued at their respective unrealized appreciation/depreciation.

The Fund recognizes all transfers between levels as though they were transferred at the beginning of the reporting period. There were no transfers into or out of Levels 1, 2 or 3 during the period ended September 30, 2015.

**Item 2. Controls and Procedures.**

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

**Item 3. Exhibits.**

Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940 are attached as Exhibit 99.CERT.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
