THE GABELLI EQUITY TRUST INC.
 NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION. The Gabelli Equity Trust Inc. (the "Equity Trust") is a closed-end, non-diversified management investment company organized as a Maryland corporation on May 20, 1986 and registered under the Investment Company Act of 1940, as amended (the "1940 Act"), whose primary objective is long-term growth of capital. The Equity Trust had no operations until August 11, 1986, when it sold 10,696 shares of common stock to Gabelli Funds, LLC (the "Adviser") for \$100,008. Investment operations commenced on August 21, 1986.

Effective August 1, 2002, the Equity Trust modified its non-fundamental investment policy to increase, from 65% to 80%, the portion of its assets that it will invest, under normal market conditions in equity securities (the "80% Policy"). The 80% Policy may be changed without shareholder approval. However, the Equity Trust has adopted a policy to provide shareholders with at least 60 days' notice of the implementation of any change in the 80% Policy.

2. SIGNIFICANT ACCOUNTING POLICIES. The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION. Portfolio securities listed or traded on a nationally

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the "Board") so determines, by such other method as the Board shall determine in good faith, to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on foreign markets are generally valued at the preceding closing values of such securities on their respective exchanges or if after the close, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board. Debt instruments that are not credit impaired with remaining maturities of 60 days or less are valued at amortized cost, unless the Board determines such does not reflect the securities' fair value, in which case these securities will be valued at their fair value as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the latest average of the bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the official closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

REPURCHASE AGREEMENTS. The Equity Trust may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Bank of New York, with member banks of the Federal Reserve System or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board of Directors. Under the terms of a typical repurchase agreement, the Equity Trust takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Equity Trust to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Equity Trust's holding period. The Equity Trust will always receive and maintain securities

as collateral whose market value, including accrued interest, will be at least equal to 102% of the dollar amount invested by the Equity Trust in each agreement. The Equity Trust will make payment for such securities only upon physical delivery or upon evidence of book entry transfer of the collateral to the account of the custodian. To the extent that any repurchase transaction

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Equity Trust may be delayed or limited.

SWAP AGREEMENTS. The Equity Trust may enter into interest rate swap or cap transactions. The use of interest rate swaps and caps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an interest rate swap, the Equity Trust would agree to pay to the other party to the interest rate swap (which is known as the "counterparty") periodically a fixed rate payment in exchange for the counterparty agreeing to pay to the Equity Trust periodically a variable rate payment that is intended to approximate the Equity Trust's variable rate payment obligation on the Series C Preferred Stock. In an interest rate cap, the Equity Trust would pay a premium to the interest rate cap to the counterparty and, to the extent that a specified variable rate index exceeds a predetermined fixed rate, would receive from the counterparty payments of the difference based on the notional amount of such cap. Interest rate swap and cap transactions introduce additional risk because the Equity Trust would remain obligated to pay preferred stock dividends when due in accordance with the Articles Supplementary even if the counterparty defaulted. Depending on the general state of short-term interest rates and the returns on the Equity Trust's portfolio securities at that point in time, such a default could negatively affect the Equity Trust's ability to make dividend payments for the Series C Preferred Stock. In addition, at the time an interest rate swap or cap transaction reaches its scheduled termination date, there is a risk that the Equity Trust will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction. If this occurs, it could have a negative impact on the Equity Trust's ability to make dividend payments on the Series C Preferred Stock.

The Trust has entered into one interest rate swap agreement with Citibank N.A. Under the agreement the Trust receives a floating rate of interest and pays a respective fixed rate of interest on the nominal value of the swap. Details of the swap at June 30, 2004 are as follows:

NOTIONAL AMOUNT	FIXED RATE	FLOATING RATE* (RATE RESET MONTHLY)	TERMINATION DATE	UNR DEPR
-----	-----	-----	-----	-----
\$130,000,000	4.494%	1.11%	July 2, 2007	\$ (3

* Based on Libor (London Interbank Offered Rate).

As a result of recent FASB Emerging Issues Task Force consensus (and subsequent related SEC staff guidance), the Equity Trust has reclassified periodic payments made under interest rate swap agreement, previously included within interest income, as a component of realized gain (loss) in the statement of operations. For consistency, similar reclassifications have been made to amounts appearing in the previous year's statement of changes in net assets and the per share amounts in prior years financial highlights. Prior years net investment income ratios in the financial highlights have also been modified accordingly.

This reclassification increased net investment income and decreased net realized gains by \$4,302,270 and \$1,813,999 for the years ended December 31, 2003 and December 31, 2002, respectively, but had no effect on the Equity

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

Trust's net asset value, either in total or per share, or its total increase (decrease) in net assets from operations during any period.

For the years ended December 31, 2003 and December 31, 2002, financial highlights reclassifications were as follows: net investment income per share increased by \$0.03 and \$0.01, respectively, ratios of net investment income to average net assets attributable to common shares increased by 0.47% and 0.18%, respectively, ratios of operating expenses to average net assets attributable to common shares decreased by 0.47% and 0.18%, respectively, and ratios of operating expenses to average total net assets including liquidation value of preferred shares decreased by 0.33% and 0.13%, respectively.

FUTURES CONTRACTS. The Equity Trust may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Such investments will only be made if they are

16

THE GABELLI EQUITY TRUST INC. NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

economically appropriate to the reduction of risks involved in the management of the Equity Trust's investments. Upon entering into a futures contract, the Equity Trust is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by the Equity Trust each day, depending on the daily fluctuation of the value of the contract. The daily changes in the contract are included in unrealized appreciation/depreciation on investments and futures contracts. The Equity Trust recognizes a realized gain or loss when the contract is closed. There were no open futures contracts at June 30, 2004.

There are several risks in connection with the use of futures contracts as a hedging device. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. In addition, there is the risk the Equity Trust may not be able to enter into a closing transaction because of an illiquid secondary market.

FOREIGN CURRENCY TRANSACTIONS. The books and records of the Equity Trust are maintained in United States (U.S.) dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses, which result from changes in foreign exchange rates and/or changes in market prices of securities, have been included in unrealized appreciation/depreciation on investments and foreign currency transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Equity Trust and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME. Securities transactions are accounted for as of the trade date with realized gain or loss on investments

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded as earned. Dividend income is recorded on the ex-dividend date.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS. Distributions to shareholders are recorded on the ex-dividend date. Distributions to shareholders of the Equity Trust's 7.20% Tax Advantaged Series B Cumulative Preferred Stock, Series C Auction Rate Cumulative Preferred Stock, 5.875% Series D Cumulative Preferred Stock, and Series E Auction Rate Cumulative Preferred Stock ("Cumulative Preferred Stock") are accrued on a daily basis and are determined as described in Note 5.

Income dividends and capital gain distributions are determined in accordance with Federal income tax regulations which may differ from accounting principles generally accepted in the United States. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Equity Trust, timing differences and differing characterization of distributions made by the Equity Trust.

For the year ended December 31, 2003, reclassifications were made to increase accumulated distributions in excess of net investment income for \$35,924 and decrease accumulated distributions in excess of net realized gain on investments, options, future contracts and foreign currency transactions for \$35,924 with an offsetting adjustment to additional paid-in capital.

The tax character of distributions paid during the fiscal year ended December 31, 2003 was as follows:

	YEAR ENDED DECEMBER 31, 2003	
	COMMON	PREFERRED
	-----	-----
DISTRIBUTIONS PAID FROM:

	=====	=====

THE GABELLI EQUITY TRUST INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The tax character of amounts distributed in 2004 which exceed the ordinary income of the Fund will be treated as a non-taxable return of capital. Such determination can only be made upon completion of the taxable year.

PROVISION FOR INCOME TAXES. The Equity Trust intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). It is the Trust's policy to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company

taxable income and net capital gains. Therefore, no provision for Federal income taxes is required.

As of December 31, 2003, the components of accumulated earnings/(losses) on a tax basis were as follows:

3. AGREEMENTS AND TRANSACTIONS WITH AFFILIATES. The Equity Trust has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Equity Trust will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Equity Trust's average weekly net assets plus liquidation value of preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Equity Trust's portfolio and oversees the administration of all aspects of the Equity Trust's business and affairs. The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Cumulative Preferred Stock if the total return of the net asset value of the common shares of the Equity Trust, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or corresponding swap rate of the Cumulative Preferred Stock.

The Equity Trust's total return on the net asset value of the common shares is monitored on a monthly basis to assess whether the total return on the net asset value of the common shares exceeds the stated dividend rate of the Cumulative Preferred Stock for the period. For the six months ended June 30, 2004, the Equity Trust's total return on the net asset value of the common shares exceeded the stated dividend rate of the Series E Auction Rate Cumulative Preferred Stock. Thus, management fees were accrued on these assets, but not on the assets of the Series B, Series C Auction Rate, and Series D Cumulative Preferred Stock. Management fees were reduced by the amount of \$1,838,314.

During the six months ended June 30, 2004, Gabelli & Company, Inc. received \$171,054 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Equity Trust.

The cost of calculating the Equity Trust's net asset value per share is an Equity Trust expense pursuant to the Investment Advisory Agreement between the Equity Trust and the Adviser. During the six months ended June 30, 2004, the Equity Trust reimbursed the Adviser \$17,400 in connection with the cost of computing the Equity Trust's net asset value.

4. PORTFOLIO SECURITIES. Cost of purchases and proceeds from sales of securities, other than short-term securities, for the six months ended June 30, 2004 aggregated \$121,094,964 and \$56,678,127, respectively.

5. CAPITAL. The charter permits the Equity Trust to issue 182,000,000 shares of common stock (par value \$0.001). The Board of Directors of the Equity Trust has authorized the repurchase of its shares on the open market when the shares are trading at a discount of 10% or more (or such other percentage as the Board of Directors may determine from time to time)

from the net asset value of the shares. During the six months ended June 30, 2004, the Equity Trust did not repurchase any shares of its common stock in the open market.

Transactions in common stock were as follows:

	SHARES	AMOUNT	SHARES

The holders of Cumulative Preferred Stock have voting rights equivalent to those of the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. In addition, the 1940 Act requires that along with approval of a majority of the holders of common stock, approval of a majority of the holders of any outstanding shares of Cumulative Preferred Stock, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Cumulative Preferred Stock, and (b) take any action requiring a vote of security holders, including, among other things, changes in the Equity Trust's subclassification as a closed-end investment company or changes in its fundamental investment restrictions. The Equity Trust's Articles of Incorporation, as amended, authorize the issuance of up to 16,006,000 shares of \$0.001 par value Cumulative Preferred Stock. The Cumulative Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Cumulative Preferred Stock are cumulative. The Equity Trust is required to meet certain asset coverage tests as required by the 1940 Act and by the Shares' Articles Supplementary with respect to the Cumulative Preferred Stock. If the Equity Trust fails to meet these requirements and does not correct such failure, the Equity Trust may be required to redeem, in part or in full, the 7.20% Series B, Series C Auction Rate, 5.875% Series D, and Series E Auction Rate Cumulative Preferred Stock at a redemption price of \$25, \$25,000, \$25, and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset requirements could restrict the Equity Trust's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Equity Trust's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

Under Emerging Issues Task Force (EITF) promulgating Topic D-98, CLASSIFICATION AND MEASUREMENT OF REDEEMABLE SECURITIES, which was issued on

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. In accordance with the guidance of the EITF, the Equity Trust's Cumulative Preferred Stock is classified outside of permanent equity (net assets attributable to common stock shareholders) in the accompanying financial statements.

The Equity Trust, as authorized by the Board of Directors, redeemed all (5,367,900 shares) of its outstanding 7.25% Series A Cumulative Preferred Stock. The redemption date was June 17, 2003 and the redemption price was \$25.4078 per Preferred Share, which consisted of \$25.00 per Preferred Share (the "liquidation value") plus accrued dividends through the redemption date of \$0.4078 per Preferred Share. The Preferred Shares were callable at any time at the liquidation value of \$25.00 per share plus accrued dividends following the expiration of the five-year call protection on June 9, 2003.

The Adviser has also received requests for information from the SEC regarding mutual fund trading practices and valuation of portfolio securities. The Adviser has responded to the requests. The Equity Trust does not believe that these matters will have a material adverse effect on the Equity Trust's financial position or the results of its operations.

7. INDEMNIFICATIONS. The Equity Trust enters into contracts that contain a variety of indemnifications. The Equity Trust's maximum exposure under these arrangements is unknown. However, the Equity Trust has not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.
