Item 2.05 Costs Associated with Exit or Disposal Activities

On July 27, 2015, Century Aluminum Company (the "Company") announced that it will permanently close its Ravenswood, W.V. aluminum smelter, effective immediately. The Ravenswood smelter has been idled since February 2009. The decision to permanently close the Ravenswood plant was based on the inability to secure a competitive power contract for the smelter, compounded by challenging aluminum market conditions largely driven by increased exports of aluminum from China. As a result, the economics of restarting and operating the facility are unfavorable. Related to this decision, management expects to record restructuring-related charges of approximately \$31 million. These charges include between \$21 million and \$22 million for the write down of property, plant and equipment to estimated net salvage value and approximately \$8 million for the write down of inventory to its net realizable value. Management also expects to accrue between \$1 million and \$2 million for employee severance and other exit costs which are expected to be substantially paid by the end of 2015.

A copy of the Company's press release announcing these actions is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
