The Benefits Committee
Jacuzzi Brands, Inc.

We have audited the accompanying statements of net assets available for benefits of the USI Retirement Savings & Investment Plan as of December 31, 2002 and 2001, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the

Edgar Filing: JACUZZI BRANDS INC - Form 11-K

accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2002 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

USI Retirement Savings & Investment Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2002

1. Significant Accounting Policies

USI Retirement Savings & Investment Plan (the Plan) was amended stating that effective July 1, 2001, several plans shall merge into the Plan. With the merging of the plans, Jacuzzi Brands, Inc., which was known as U.S. Industries, Inc., prior to its name change on June 6, 2003, (the Company) dissolved the U.S Industries, Inc. Master Trust (the Trust), properly allocating all Trust assets to the Plan. The change in the Plan's beneficial interest in the Trust resulting from investment activity is comprised of the Plan's share of interest, dividends, net realized gains and losses and unrealized appreciation or depreciation of the Trust's assets prior to it being dissolved.

All investments of the Trust and the Plan were held by Merrill Lynch Trust Company of New Jersey, which served as trustee, recordkeeper, and custodian of the Trust and the Plan through June 30, 2001. Effective July 1, 2001, all investments of the Plan and the Trust were held by MFS Heritage Trust, which fulfills the custodial responsibilities for the investments. MFS Reliance Trust fulfills all trustee responsibilities. The recordkeeping functions are performed by MFS Retirement Services (MFS).

Investments in Jacuzzi Brands, Inc., common stock and the various participant-directed investments were initially recorded on the basis of cost, but were stated at fair value at year-end. Fair value of these investments was determined by the quoted market price of the investments listed on national exchanges. Changes in value were recorded as net appreciation (depreciation) in fair value of investments.

At December 31, 2001, investments in the USI Stable Value Fund were comprised of investments in mutual funds with holdings primarily in guaranteed investment contracts which were stated at market value, in addition to individual fully benefit responsive investment contracts which were recorded on the basis of cost, but were stated at contract value at year-end, which approximates fair value. Contract value represented the sum of contributions made, interest at contract rate and transfers, less distributions. Approximately 50% of all contracts outstanding at December 31, 2001, reset crediting interest rates at least annually, while the remaining contracts do not provide for an interest rate reset during the term of the contract. The weighted average yield of these investment contracts was 3.91% for the year ended December 31, 2001, and the weighted average crediting interest rate was 5.14% at December 31, 2001. There were no fully benefit responsive investment contracts at December 31, 2002.

Interest rate resets were based upon prevailing market rates of interest as determined by the banks. Prior to investing in specific contracts, the Fund could have made temporary investments in the Trustee's cash fund, one of the Trustee's short-term investment funds, or its fixed income fund.

Investments in the MFS Money Market Fund at December 31, 2002 and 2001, were recorded at fair value which is approximated by cost.

Income, which included realized and unrealized appreciation or depreciation of investments of the Trust, was allocated to the plans based on the pro-rata percentage of assets in each fund using the respective market prices of the funds on the various transaction dates.

NOTES TO FINANCIAL STATEMENTS (continued)

1. Significant Accounting Policies (continued)

Prior to July 1, 2001, trustee fees and costs and expenses incurred with regard to the purchase, sale, and transfer of securities in connection with the operation of the Trust were allocated to the Plan. Subsequently to July 1, 2001 all the aforementioned costs are paid directly by the Plan. All other costs and expenses of the Plan are paid by the Company, which serves as the Plan Sponsor. Effective January 1, 2002, forfeitures of employee contributions were used to offset expenses incurred by the Plan.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Edgar Filing: JACUZZI BRANDS INC - Form 11-K

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. Description of the Plan

The Plan is a defined contribution plan sponsored by the Company established in order to encourage and assist employees of the Company and its various wholly-owned subsidiaries in saving and investing payroll withholdings for purposes of receiving retirement benefits.

The following information is included as a general description of the Plan. For more detailed information, the Plan Document is available at the Company's corporate office and at the personnel offices of the participating employers.

Effective July 1, 2001, the Ames Retirement Savings & Investment Plan for Collectively Bargained Employees (Ames), USI Corporate Retirement Savings & Investment Plan (Corporate), and the Sanitary Dash Manufacturing Company 401(k) Plan (San Dash) (collectively, the Merging Plans) merged into the Plan. In connection with the merger, \$7,145,736 in net assets related to the participants of the merging plans was merged into the Plan.

Participation in the Plan is available to all employees of the respective participating employers (other than those covered by a collective bargaining agreement, unless such agreement provides for participation) who are at least 21 years of age and who have worked at least 1,000 hours during a consecutive 12-month period.

Participants in the Plan are entitled to authorize a payroll deduction of 1% to 17% of wages in 1% increments for contribution into the Plan. The maximum pre-tax participant contribution allowed in 2002 and 2001 was \$11,000 and \$10,500 respectively. The Company matches 50% of the first 6% of pre-tax wages contributed by each participant. These matching contributions are invested directly in the U.S. Industries Company Stock Fund (see Note 5).

Participant contributions and earnings on those contributions are always 100% vested. Prior to the January 1, 2002, Plan Amendment, a participant becomes 100% vested in Company contributions and earnings five years from the date of hire of the participant or upon retirement, disability, or death. Forfeiture of employer nonvested contributions reduce future employer contributions. During 2002 and 2001, such forfeitures were \$47,728 and \$250,673, respectively.

Participants' contributions are deposited into the Plan before federal and most state and local taxes are withheld. Participants are not liable for federal income taxes on amounts earned in the Plan or on amounts contributed by the employer until such time as their participating interest is distributed to them, provided that the Plan retains its qualified status.

Participants are permitted to make hardship withdrawals if certain criteria are met. Generally, only one withdrawal is allowed in any 12-month period.

F-5

USI Retirement Savings & Investment Plan

NOTES TO FINANCIAL STATEMENTS (continued)

2. Description of the Plan (continued)

Participants are entitled to borrow against their account balance. The minimum amount a participant can borrow is \$1,000. Total loans to a participant cannot exceed the lesser of \$50,000 or 50% of the participant's vested account balance. The amount of any loan is withdrawn in a ratio that is proportionate to the participant's balance in each investment fund. Loans bear interest at the prime lending rate as of the end of the month prior to the date of the loan as published in *The Wall Street Journal*, plus 1% (5.25% and 5.75% at December 31, 2002 and 2001, respectively). As loans are repaid, both the principal and interest are deposited to the participants' accounts based on their current investment fund elections.

In 2002, the Plan was amended as follows:

Edgar Filing: JACUZZI BRANDS INC - Form 11-K

To provide that Plan expenses would be paid out of the forfeiture account. If any balance remains in the forfeiture account after paying expenses, the balance will be used to reduce future employer matching contributions.

To provide for 100% vesting after three years of service.

To comply with the requirements of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRAA). These changes increase the maximum covered compensation and benefit limitations on highly paid participants, increase the maximum amounts a participant can defer, relax the rules on eligible rollovers, provide specifics for appeals procedures and minimum distributions to those over age 70 1/2.

The Plan provides for investment opportunities in 22 separate mutual funds, along with an option to invest in Model Portfolios sponsored by MFS that allocates total contributions among certain of those funds based on varying levels of risk (conservative, moderate, or aggressive). In addition, participants are eligible to direct their contributions to the Fixed Fund Institutional Series, the Jacuzzi Brands, Inc., Stock, and to a self-directed investment option.

The Fixed Fund Institutional Series, a collective trust fund, consists of investments in a broadly diversified portfolio of guaranteed investment contracts and in obligations of U.S. government and U.S. government agency securities in an effort to provide preservation of participants' investments, liquidity, and current income that is typically higher than money market funds. Investments in the Jacuzzi Brands, Inc., Company Stock Fund are in Jacuzzi Brands, Inc., common stock. Management believes they carry more risk than do the various mutual funds offered through the Plan.

The self-directed investment option allows participants access to a wide variety of securities listed on the New York Stock Exchange, American Stock Exchange, The Nasdaq Stock Market, and most over-the-counter securities. It also includes certain asset management mutual funds and other selected mutual fund offerings.

For all mutual funds, refer to the specific fund's prospectus and annual report for a full description of each Fund's investment holdings and significant concentrations of credit risk. The mutual fund prospectus and annual reports can be obtained by contacting the U.S. Industries Retirement Savings and Investment Plan Participant Service Center.

Amounts allocated to accounts of persons who have withdrawn from participation in the earnings and operations of the Plan, however not yet paid, was \$156,199 at December 31, 2001, and was included in net assets available for benefits at that date. However, for the purpose of preparing the Plan's Form 5500, the Department of Labor Rules and Regulations for Reporting and Disclosure require that these amounts be reported as liabilities. Therefore, distributions to participants as shown on Form 5500 differ from the financial statements for this reason.

F-6

USI Retirement Savings & Investment Plan

NOTES TO FINANCIAL STATEMENTS (continued)

At December 31, 2002, the Plan's net assets were \$10,564 higher than net assets in the Form 5500. This amount related to the contribution receivable at that date.

2. Description of the Plan (continued)

The Plan Sponsor has not expressed any intent to terminate the Plan, but is free to do so at any time. In the event of termination, affected participants automatically become fully vested to the extent of the balances in their individual accounts.

All trustee and recordkeeping expenses related to the administration of the Plan are paid by the Plan itself or via application of forfeitures.

3. U.S. Industries, Inc., Master Retirement Savings and Investments Trust Information

Edgar Filing: JACUZZI BRANDS INC - Form 11-K

The Trust was created on April 1, 1995, for the purpose of investing the pooled assets of various defined contribution plans of the Company and its subsidiaries. Effective July 1, 2001, the Trust was dissolved upon the merger that occurred in 2001 (see Note 1).

Contributions deposited into the Trust were based on the actual elected participant deferrals. Participant directed transfers among the investment funds were available in 1% increments and were effective as of the close of any applicable business day. Contribution rate changes were effective in the first payroll cycle after the period in which the change is requested. Approved withdrawals, loans, and lump sum termination distributions were issued within 10 days following the request.

On June 24, 2002, as a result of the Company's sale of Selkirk, Inc., \$8,036,376 was transferred out of the Plan.

On April 29, 2002, as a result of the Company's sale of the Lighting Corporation of America Group (LCA Group), \$23,080,132 was transferred out of the Plan. The LCA Group contained several participating employers.

On January 14, 2002, as a result of the Company's sale of Ames True Temper, \$15,072,882 was transferred out of the Plan.

In July 2001, there was \$87,169,173 transferred out of the Trust since it dissolved in connection with the merger discussed earlier. Assets were transferred to Heritage Trust Company where participants could invest in mutual funds, USI stock, common and collective trusts and in a self-directed investment option.

During the period from January 1, 2001 through June 30, 2001, investment loss of the Trust consisted of the following:

Interest and dividends	\$ 1,343,996
Net realized and unrealized appreciation (depreciation)

4. Investments

Investments in Jacuzzi Brands, Inc. common stock and the various participant-directed investments are initially recorded on the basis of cost, but are stated at fair value as of year-end. Fair value of these investments is determined by the quoted market price of the security listed on national exchanges. Changes in value are recorded as net appreciation (depreciation) in fair value of investments.

During the years ended December 31, 2002 and 2001, investment income totaled \$1,303,783 and \$1,060,437, respectively, and the Plan's investments (including investments bought, sold, as well as held and excluding participating loans of \$823,862 and \$2,970,514 in 2002 and

USI Retirement Savings & Investment Plan

NOTES TO FINANCIAL STATEMENTS (continued)

5. Non-Participant Directed Investments

The Plan provides for a participant directed program in that it allows participants to choose among various investment alternatives. The Jacuzzi Brands, Inc., Company Stock Fund is the only fund which also includes non-participant directed investments, as directed by Jacuzzi Brands, Inc., and as specified under the Plan.

Information about the net assets and the significant components of the changes in net assets as of and for the years ended December 31, 2002 and 2001, relating to the Jacuzzi Brands, Inc. Company Stock Fund in the Plan, which includes both participant directed and non-participant directed investments, is as follows:

	<u>\$ (2,902,798)</u>	<u>\$ (5,172,382)</u>

6. Income Tax Status

The Plan has received a determination from the Internal Revenue Service (IRS) dated March 25, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.
